

Crazy 1501

Chapter 1501: take something away

Huala ...

One of the villagers pulled out a large box of clothes as if he was performing a magic trick, and it all fell to the ground.

“Quick, quick,” village chief Salman said anxiously to Zhao Yu and the others, “please change into it, and then hide behind the village!

“General Iron Khan is in the caravan. You’d better not let them recognize you!”

“Cough, why are you going through all this trouble?” Wu diqiu said, “why don’t you just give us two cars and we can hide at the factory?”

“Well, the cars haven’t been repaired yet. There are only ox carts ... But the general’s fleet will arrive in less than ten minutes.” Salman pointed in the direction of the factory. “The factory is open land. We won’t make it in time!”

“Listen to me, just hide! “Especially ... Especially that translator ...” Salman reminded PU Jiayou repeatedly, “you must hide him well!” At the back of the village ... There’s a cellar in the stables at the back. Hide the people there!”

Hearing Salman’s words, PU Jiayou nodded at Gao ya.

Gao ya knew that Kong Shuo was looking after the interpreter officer and the arms dealer Ivan, and that PU Jiayou wanted her to go and help him.

So, she immediately picked up a few clothes from the ground and ran to the back of the village ...

“Faster ... Faster!”

Seeing that PU Jiayou had agreed, Wu diqiu hurriedly called for the other exploration team members to collect their clothes.

These local clothes had an obvious Central Asian style. They were all large robes, which easily covered the clothes on the body.

Soon, someone brought them all kinds of headscarves and hats. After wrapping them up, everyone turned into the local people ...

At this moment, as the earth trembled, the rumbling of a convoy could be heard from afar.

“Diqiu,” PU Jiayou ordered Wu diqiu, “you protect the exploration team members and go to the back! I have to stay here and see if there are any changes in the situation so that I can make adjustments in time.”

“Yes!” Wu diqiu accepted the order and left.

“Yang Feng, Guanying ...” After they left, PU Jiayou immediately contacted Yang Feng and Guanying through the walkie-talkie and asked, “are you in position?”

“Reporting to Captain, we’ve found a suitable position!” The two of them sent back the news almost at the same time.

“Alright!” PU Jiayou instructed, “pay attention to concealment. If there’s any change in the situation, you guys have to make a good plan!”

“Yes!”

After hearing the two snipers’ answers, PU Jiayou picked up a piece of clothing from the ground and started putting it on. When he looked up, he suddenly saw that Zhao Yu had not left yet.

“Zhao Yu, you go to the back too!” Captain PU said, “take the clothes and quickly leave!”

“Don’t mind me, I can understand the local language,” Zhao Yu said. “I can be your temporary translator!”

“.....”

Hearing Zhao Yu’s reminder, PU Jiayou finally realized his mistake. He had sent all the members who knew the local language away.

“Alright.” PU Jiayou nodded, but he didn’t forget to remind her, “but no matter what happens later, don’t act on your own!” If there’s anything, just look at my eyes!”

“Understood!” After Zhao Yu agreed, he put on a long robe.

A few minutes later, a group of more than a hundred people entered the mountain village.

At the very front, there were military vehicles of different sizes. Not only were these cars old, but there were also many bullet holes and traces of fire on them.

Among them, the windows of a few military vehicles were all shattered.

Looking at the soldiers in the military vehicles, they were also dejected and listless. Out of ten of them, four or five of them were wrapped in bandages and even looked miserable.

Hmm ...

Zhao Yu saw this and had a plan in mind. It seemed that the information was accurate, Bodar state had really been captured, and this group was the defeated Army that had escaped from Bodar state.

Otherwise, the leader of the zacheroids, General Iron Khan, would not have appeared with the group.

But ... Tsk tsk ...

Seeing this, Zhao Yu couldn’t help but worry. First, since they were defeated, would they stay in this small village and not leave?

That would be very disadvantageous to their evacuation.

Secondly, would the Kashmir people give up after taking down the entire Bodard Kingdom? Their target was obviously the iron Khan. Now that the general had run away, would they catch up with him soon?

If that was the case, this place would definitely become a battlefield, which would be even more disadvantageous for their retreat!

It was obvious that PU Jiayou's worry was the same as Zhao Yu 's. As he watched the convoy rumbling into the village, his expression grew more and more serious.

Soon, as the leading military vehicle stopped, the entire team stopped moving.

Among them, a beige military vehicle was parked in front of the banquet table.

Boom, boom, boom ...

The doors of several military vehicles opened with a bang, and more than a dozen fully armed soldiers immediately surrounded the beige military vehicle to protect it.

The next second, the car's door opened, and a burly man with a big belly walked out.

This person had a frightening full beard, his head held high and his chest puffed out. He had an arrogant look. As soon as they got off the carriage, the soldiers all stood up straight in respect.

There was no doubt that this person was the highest leader of the Sacre faction, General Iron Khan!

F * ck ...

After seeing the man's appearance, Zhao Yu couldn't help but be shocked. If he hadn't been prepared in advance, he would have thought that he had seen a ghost!

He saw that this iron Khan was exactly the same as the bearded general named Cheif he had seen him in the Nelia Valley!

However, after the shock, he remembered that the translator had said that the iron Khan and the bearded general were brothers, so it was natural that they looked alike.

At this moment, village chief Salman hurriedly led his villagers to welcome them and express their welcome.

However, a shocking scene appeared. The general of iron Khan didn't say a word to Salman. Instead, he smelled it, walked quickly to the table, and picked up a lamb leg!

Gao ya had left the Lamb leg there before she finished it. She had eaten more than half of it, but General Iron Khan picked it up and gnawed at it without any explanation ...

Creak, creak ... He chewed with gusto, and as he ate, oil flowed down the corner of his mouth ...

After eating for a few minutes, he wiped his mouth with his sleeve and praised, ""It's delicious, and your craftsmanship is good! It would be even better if you added more salt!"

"No... No problem ..." Salman didn't know what to say. He could only bow and say, "if you like it, I'll get someone to roast it for you!"

“Hehehe ...” The general laughed expressionlessly and said, “no need, we’re just passing by! “You have ...” He pointed to the many delicious dishes.”The food here is not bad!”

“Well, there’s a wedding in the village today ...” Salman hurriedly explained.

“Village chief, we left in a hurry this time and didn’t bring any food with us. Look ...” He pointed to the soldiers behind him.”These soldiers ...”

“No problem, no problem.” Salman hurriedly nodded.”I’ll arrange for someone to cook for the soldiers!”

“No need, I said I was just passing by!” Iron Khan’s face suddenly tensed up and he said seriously, “I just need you to give us some food and weapons!

“Well ...” He looked at the gold watch on his wrist and ordered, “hurry up, I’m in a hurry!”

“Hmm ...” Salman frowned, but he did not dare to refute. He quickly nodded and agreed.”Alright, alright, I’ll go and prepare it for you!”

“By the way,” at this time, the iron Khan grabbed another roast chicken and said greasy, “give me a few more beautiful girls!” I’ll take them to the North to enjoy life ...”

Upon hearing this, the villagers could not help but fall silent. Their hearts were burning with anger, but they did not dare to speak out.

“Well ... This ... This ...” Salman hurriedly said, “general, our village is poor. All the young women have run away, leaving only some ugly old women! You see ...”

Pa!

To his surprise, the general waved his hand and threw the roast chicken at Salman’s face. He shouted, “Who are you trying to fool? Didn’t you just say that you were holding a wedding? Where’s the bride? I don’t need anything else, just give me the bride ...”

Bang ...

However, before the iron Khan could finish his words, a bullet suddenly shot from a distance and hit the iron Khan’s head!

Following the sound of an explosion, the corpse fell to the ground, and the blood that spurted out splashed onto Salman’s face!

Chapter 1502: Poor communication

The general’s sudden death shocked everyone. No one would have thought that such a shocking accident would happen.

“What ... What’s going on ...” PU Jiayou, who was hiding behind the house, saw this and quickly contacted his team members through the walkie-talkie, asking anxiously, “who fired the shot?!” Reply ... Reply ...”

However, no matter how many times PU Jiayou shouted, the walkie-talkie buzzed, and no one responded.

Damn it!

After putting down the walkie-talkie, PU Jiayou looked at the dining table again, only to see that it was already in a mess ...

“The general ... The general is dead!”

Someone shouted, and many soldiers immediately raised their guns and aimed at Salman and the other villagers.

Without a doubt, according to their usual thinking, they must have thought that the general’s death was related to these villagers.

“No... No no no...”

Salman wiped the blood off his face, already in a state of great fear and panic. In his opinion, the ones who had killed the general must have been Zhao Yu and the others!

However, he could not understand why.

However, he was puzzled, and Zhao Yu couldn’t understand it either. Although the other party was a defeated Army, they were still a fully armed Army. If they killed the general, the Army would flatten the village. Wasn’t this courting death?

Zhao Yu’s first reaction was the same as PU Jiayou’s. He thought it was either Yang Feng or Guanying who shot him, because the general was obviously killed by a sniper! So ...

Bang ...

In the end, just as Zhao Yu was still trying to figure it out, the terrifying gunshot rang out again. This time, a soldier who was standing high up in the back of the car fell to the ground and died an unnatural death!

Whoosh ...

As the man was shot, the chaos at the scene escalated. One of the soldiers could not hold back and directly fired at the villager!

The bullets rained down, and a few villagers immediately fell into a pool of blood ...

Ah ...

Salman shouted loudly, but it was no longer of any use. The soldiers around the dining table moved in response and fired at Salman and the others!

Salman and the others did not have any weapons, so they could only wait for death as they watched the other party shoot.

This time, PU Jiayou couldn’t just sit by and do nothing. He immediately dodged the houses and rushed to the front, shooting at the soldiers.

PU Jiayou's marksmanship was amazing. With a series of attacks, he immediately knocked down several enemies. With his own strength, he repelled the soldiers who were surrounding the dining table.

Taking advantage of this time, Salman and the many villagers quickly retreated and went to find their own weapons.

As a result, the scene was even more out of control.

The soldiers immediately retaliated with their guns and started fighting the villagers.

Tsk tsk ...

At that very moment, Zhao Yu, who was hiding behind another house, seemed to have finally understood something. He found that, from the general's position, the sniper should be on the opposite side of the village.

Opposite the village was a huge mountain. The straight line distance from the village to the mountain was more than 500 meters. In other words, it was impossible for Yang Feng and Guan Ying to travel so far in such a short time.

Therefore, the sniper who shot and killed the iron Khan and started the war should be someone else!

"Hey, hey...Captain PU!" At that moment, Zhao Yu had already seen PU Jiayou step forward and save Salman and the others. He quickly took out his walkie-talkie and wanted to tell him about his discovery.

However, no matter what he said, the walkie-talkie was busy. He couldn't get through.

This was ...

It's broken!

Suddenly, Zhao Yu realized that what they had encountered was most likely a well-prepared conspiracy!

Perhaps, someone had been watching them for a long time and was deliberately provoking a conflict to use the iron Khan's Army against them!

That's F * cking ruthless!

Who was the mastermind behind this?

Bang Bang Bang ...

Tut, tut, tut ...

In the blink of an eye, General Iron Khan's soldiers had rushed into the village, relying on the advantage of numbers. These vicious soldiers opened fire on everyone they saw, not caring about the old, weak, women, and children. It was obvious that they were going to massacre the village!

Salman and the others were no pushovers. They had a grudge against the rulers, and now that things had come to this, they put down the burden in their hearts and took up their weapons to fight back.

In an instant, the entire village was plunged into a rain of bullets, and the whistling sound of bullets could be heard everywhere.

PU Jiayou's ability was really strong. He ran around the houses and knocked down more than ten enemies in the blink of an eye, beating them up so badly that they couldn't even get angry.

In the end, someone in the military vehicle noticed him. They immediately picked up a bazooka and blew up the house that PU Jiayou was in!

Boom ... Boom ...

With a loud explosion, the entire house was blown into pieces. Amidst the flying debris, PU Jiayou flew to the other side and disappeared from Zhao Yu's sight in the blink of an eye.

'No...'

Looking at the situation of the battle, Zhao Yu knew very well that no matter how powerful the special task force was, they would definitely not be able to fight against so many enemies.

Moreover, there were still those behind the scenes.

They had to think of a way to leave this place as soon as possible.

The signal ... The signal ...

Zhao Yu looked at the walkie-talkie that had no signal. It was obvious that the mastermind had used a device that blocked signals to prevent the Secret Service team from getting in touch.

Then ...

Zhao Yu quickly thought of a countermeasure. He felt that it might not be easy to find the device. However, it was very easy to break the signal blocking.

Then, Zhao Yu quickly found a signal booster and used it on the walkie-talkie.

"Hey...Can everyone hear me? "Hey, hey ..." Zhao Yu turned on the walkie-talkie and found that the busy tone had disappeared.

Sure enough, Zhao Yu had only shouted twice before there was an answer from the walkie-talkie.

"I can hear you, I can hear you ..." The first to speak was the sniper, Guan Ying."Detective Zhao, there's unknown enemy on the hill opposite. It was there who fired the first shot!

"Pay attention to the cover. Don't go to open areas!" Guan Ying said,"if that sniper can shoot the general, he can shoot us too!"

"Detective Zhao, is that you?" The next second, Yang Feng's voice came from the walkie-talkie again."Our signal seems to have been blocked by someone. The communication is not working!

"Can you contact Captain PU? Who saw him?"

"Mm ..." Suddenly, Zhao Yu found another problem. Now, only his walkie-talkie had a stronger signal, so he could only contact one of his team members, but he still couldn't communicate with his team members.

With the lack of communication, they could only fight on their own and could not come up with a unified strategy. This was no different from adding hail to snow to their already bad situation.

What to do?

He could only ... Hmm ...

In a moment of desperation, Zhao Yu's first thought was the invisible drone!

Right!

If he wanted to escape, he had to at least understand the overall situation and the situation. Perhaps, he could even find the mastermind behind the scenes and even find a shielding device.

Thinking of this, Zhao Yu didn't dare to delay and immediately used the invisible drone.

But, just as the drone rose into the air, before he could even see the image clearly, a soldier suddenly rushed out from the corner and saw Zhao Yu.

I'll cut!

Zhao Yu didn't expect the enemy to arrive so quickly, and it was too late for him to pull out his gun.

In the end, just as the soldier was about to shoot Zhao Yu, a bullet whizzed through the air and hit him in between his eyebrows.

Boom ...

The corpse fell to the ground.

"Detective Zhao," Guanying's voice came from the walkie-talkie, "I fired the shot! You owe me a favor!"

"Thanks!" Zhao Yu thanked her and quickly hid behind another house.

At the same time, the invisible drone had already risen to the sky. He could see the situation of the entire village through the system screen.

In the end, before Zhao Yu had time to take a closer look, he suddenly discovered an unexpected situation.

F * ck!

He cursed and immediately ran madly towards the back of the village ...

Chapter 1503: The sudden enemy

"Yang Feng, Guanying!" As Zhao Yu ran towards the back of the village, he anxiously shouted into the walkie-talkie, "can you see the horse shed behind the village?"

"Beep ... Beep ..." As the walkie-talkie buzzed, Guan Ying's reply came immediately. "I can 'T. I'm on the roof on the right side of the village, and there's another building in between. I can't see the stable.

"Zhao Yu, what happened?" he asked.

"I can't either. I'm on the left. The enemy is approaching me. I'm retreating ..." Yang Feng's voice came from the walkie-talkie again.

"I don't care where you two are now." Zhao Yu shouted in a hurry, "now, we have to aim the sniper rifle at ..."

Before Zhao Yu could finish his sentence, something flew over his head.

"F * ck ..."

Zhao Yu cursed. He didn't expect it to be a real drone! The drone flew across the sky and in the blink of an eye, it was flying in the direction of the stable.

"Listen up," Zhao Yu continued to shout into the walkie-talkie, "the two of you must aim at the stable as soon as possible. Gao ya and Kong Shuo are in trouble. Unknown enemy has appeared there, do you hear me?"

"O-okay ..." Guanying realized the importance of the matter and immediately replied, "I'll go there as soon as possible ..."

"Me too ... Oh ..." Who knew, just as Yang Feng's words started, there was a sudden gunshot, and the communication was cut off.

It seemed that Yang Feng must have encountered the soldiers who had invaded the village ...

As it turned out, just as Zhao Yu took off the invisible drone, he suddenly saw two soldiers in camouflage suits appear from behind the village.

The two men rushed into the stable with pistols, which was where Gao ya, Kong Shuo, and the hostages were hiding.

Hu ... Hu ...

Zhao Yu ran like crazy. After passing through a three-story building, he finally reached the stables. In the end, before he could enter the stables, he saw an unfortunate scene.

Kong Shuo's back was leaning against a wooden pillar, and his body was covered in blood!

"Kong Shuo ... Kong Shuo ..." Zhao Yu shouted as he rushed over. He realized that although Kong Shuo's eyes were open, he had no signs of life.

His body was full of dagger wounds, and blood was still flowing out.

"No... No, no..." Zhao Yu quickly used the invisible hemostatic agent, but the system told him that the device was completely ineffective.

Unwilling to give up, Zhao Yu used the invisible pacemaker again, but the result was the same. The system prompted that the target had died!

"Ah ... Ah ah ..."

Just then, Zhao Yu suddenly heard an exclamation from one of the stables.

He immediately raised his pistol and rushed over. Unexpectedly, there was a man squatting in the stable, covering his head in fear. It was the translator.

“What’s going on? What happened? Hey!” Zhao Yu pulled the translator out of the stable and shouted hysterically.

“They ... They’re fighting! “Foreigner ... Foreigner ...” The translator pointed incoherently at Kong Shuo, who had been sacrificed.”Kill him!” He saved the foreigner ...”

Zhao Yu took a look at the stable and saw that there were bullet holes everywhere, and the ground was covered with bullet shells. Obviously, there had been an intense battle.

“Where’s Gao ya? Hey, say something!” Zhao Yu shook the translator hard.

“The woman ... Just chased after her ... But ... She’s injured ...” The translator pointed outside the stables.

“Ah!” Zhao Yu roared and punched the translator in the face. The translator fell to the ground and fainted.

Zhao Yu raised his pistol, then ran out of the cowshed and into the depths of the village.

While he was chasing, he also used invisibility to detect and capture the direction of those people.

However, before he had time to carefully look at the image sent by the drone, he suddenly heard the sound of fighting coming from another stable.

Elegant!

Zhao Yu heard the elegant voice and immediately rushed over.

In the end, just as he reached the stables, the wooden fence on the side exploded with a bang, and a person fell out!

Ah?

Zhao Yu quickly dodged, but the next second, he suddenly saw that the person who had fallen out of the car was the female Secret Service agent, Gao Shang!

Gao ya rolled on the ground and vomited blood.

Kacha, Kacha. Hearing the sound of bullets being loaded from the stable, Gao ya endured the pain and quickly rolled to the side.

Just as she rolled away, a row of bullets flew towards her, kicking up a cloud of dust. It was only half a second away from hitting her.

I’ll cut!

Seeing Gao ya’s life in danger, Zhao Yu immediately put on an invisible bullet proof suit.

Then, he rushed over and faced the bullets directly into the stable.

“F * ck your grandmother!” With a loud curse, Zhao Yu fired at the person inside. The bullets hit the person who had fired the gun.

The man responded with an “Oh” and quickly jumped away with a forward roll.

“Ah ...”

There was more than one person in the room. With a loud shout, a burly man in a camouflage suit suddenly came out from the side, like a tank, and rushed in front of Zhao Yu.

Ah?

Zhao Yu was shocked and quickly turned his gun, but the man was very fast. He grabbed Zhao Yu’s wrist and ran towards the wooden wall with Zhao Yu.

If they really bumped into each other, Zhao Yu would definitely be in trouble.

In a moment of desperation, Zhao Yu used the energy booster without holding back, and his body was instantly filled with energy.

As soon as the booster was used, Zhao Yu immediately turned his body around, so that they were parallel to each other.

As a result, the two of them hit the wooden wall at the same time. Under the powerful impact, the two of them broke through the wooden wall and fell outside the stable.

Crash ... As the pieces of wood shattered, the wooden wall in front of them collapsed, and more than half of the huge stable collapsed ...

Ah ...

After the two of them fell, Zhao Yu’s gun flew out of his hand. He waved his fists crazily, punching the strong man’s face!

At first, the brawny man did not expect Zhao Yu to have such great strength. After taking a few punches, he finally reacted and quickly covered his face with his left hand.

Then, she stretched her right hand to her waist, pulled out a cold dagger, and stabbed it directly under Zhao Yu’s armpit!

Ah?

Zhao Yu was quick to react and grabbed his wrist, preventing him from getting what he wanted.

Ah ...

The two of them exerted all their strength, as if they were in a tug-of-war. The strong man tried to stab Zhao Yu, but Zhao Yu held his wrist tightly, not letting him stab him.

The two of them blushed.

However, although Zhao Yu’s position was strong, and he had used an energy booster, his absolute strength was still not as strong as the strong man’s.

After holding on for more than twenty seconds, the strong man's dagger came closer to Zhao Yu's armpit!

Zhao Yu wasn't afraid of anything but a knife. If he were to be stabbed, he would probably die.

Damn it!

Thinking of Kong Shuo's tragic death, Zhao Yu's anger rose. He immediately opened the device in his brain and prepared to use the points to strengthen the energy booster.

However, as soon as he opened the device, he suddenly saw another device in the common toolbox.

Eh?

At this time, would it be more effective to use this item?

Thinking of this, Zhao Yu's eyes were cunning, and he quickly used the device.

In the next second, the burly man was still stabbing with force, but all of a sudden, he felt a strange itch on his body!

That strange itch seemed to come from the inside of his body. It was simply unbearable. He gritted his teeth and twisted his body. It was really uncomfortable ...

Chapter 1504: Bring him back for interrogation

Under the strange itch, the strong man's true energy was drained in the blink of an eye. Zhao Yu seized the opportunity, turned his wrist, and pressed down hard. He actually directed the cold blade to the strong man's own armpit!

"Go!"

Zhao Yu stabbed the knife down hard, and the knife stabbed into the strong man's body.

However, Zhao Yu didn't hear the sound of the blade entering his body, but felt that the tip of the blade had touched something hard, and couldn't pierce any further!

A bulletproof vest!

Zhao Yu suddenly realized that the guy was wearing a bullet proof suit. Although Zhao Yu's invisible bullet proof suit could only block a bullet, in reality, it could also block a knife.

"Oh ... Oh ..."

The brawny man was still struggling. He tried to pull the knife back while enduring the heart-piercing itch. This guy was as strong as an ox, and Zhao Yu was having a hard time pressing him down. If the time dragged on, it would definitely be disadvantageous to him!

However, Zhao Yu's killing intent had already been triggered, so how could he give this person any chance?

He suddenly opened his commonly used device bar and used another device that he had prepared earlier. It was the invisible dagger that he had obtained after opening the hexagram last time!

As the prop was successfully used, the dagger in the strong man's hand flashed, and then the knife pierced through his bulletproof vest and into his body!

"Ah ..."

The brawny man did not expect the sudden change in the situation and could not help but be shocked.

"Go to hell!"

Taking advantage of this opportunity, Zhao Yu pressed down hard, and the knife stabbed into the strong man's body, all the way to the hilt!

Buzzzzzz!

Zhao Yu followed up with a heavy punch on the man's face. Under the enhancement of his energy, his fist was violent and fierce. The strong man's nose was flattened, and his face started to bleed.

Then, Zhao Yu suddenly pulled out the dagger and stabbed the man in the chest. The strong man struggled a few more times, then finally stopped moving.

Whoosh ... Whoosh ...

Zhao Yu held the handle of the knife with both hands and panted heavily.

He knew very well that based on the burly man's performance just now, if he were to fight with him bare-handed, he would definitely not be his match even if he had doubled his energy.

This person ...

It was only then that Zhao Yu had the chance to take a good look at the man. He was a burly man with tight muscles. He was obviously a professionally trained soldier.

Looking at his appearance, he was also a standard European. He was wearing a camouflage suit, his face was covered in black oil, and almost all the exposed parts of his body were covered in tattoos.

The man's appearance reminded Zhao Yu of the mercenaries on Miracle Island. Could it be ...

As Zhao Yu was guessing, he suddenly heard a groan from afar. He then realized that it was Gao ya.

He didn't dare to think too much and quickly ran to check.

"Elegant!" After turning the corner, Zhao Yu saw Gao ya lying next to a pile of firewood, covered in blood. She looked like she was on her last breath.

Her body was similar to Kong Shuo 's. Other than the many knife wounds, she had been shot in the shoulder ...

"Elegance ... Elegance!"

Zhao Yu called out anxiously. Gao ya opened her eyes slightly and pointed at the back of the stable."The ... The arms dealers ... Their target ... The arms dealers ..."

Ah?

Zhao Yu then realized that the enemy's target wasn't them, but the captured arms dealer, Chi Youli!

In that instant, Zhao Yu felt extremely remorseful. It seemed that they had underestimated the importance of the arms deal.

"Elegance ... Elegance ..."

Gao ya closed her eyes and looked like she was about to die.

Zhao Yu immediately used the invisible hemostatic agent on her. As a result, the system sent another notification, saying that the target was severely injured, and the hemostatic agent needed to be strengthened!

Strengthening!

Strengthening!

"No!" Zhao Yu shouted anxiously. A life was at stake. No matter how many points he would have to spend, he would do it. Thus, he used 3400 points to strengthen the hemostat by one level and finally used it on Gao ya!

Hu ...

Seeing that Gao ya was saved, Zhao Yu let out a long sigh of relief.

Buzz ... Buzz ...

Just then, the drone released by the enemy flew over Zhao Yu's head again.

Hmph!

Zhao Yu's eyes were filled with killing intent. He used a power jamming device, and the drone fell to the ground.

Zhao Yu ran a few steps and stepped on the drone.

After that, he hid Gao ya in the firewood pile and raised his invisible drone high to continue observing the enemy's position ...

Soon, he found from the video that the enemy he had shot with his pistol was running quickly to the easternmost side of the village with another person!

Zhao Yu recognized at a glance that the guy who was following behind the enemy was the arms dealer, Yuri.

F * ck!

Do you still want to run?

Zhao Yu gritted his teeth and immediately ran towards his target.

Through the drone's surveillance screen, Zhao Yu saw the two men turn around the corner of a three-story building and run towards a small road behind the village.

As the three-story building was relatively high, the drone could not see the situation behind the building clearly.

Zhao Yu's speed was very fast, and he ran around the corner in the blink of an eye.

He thought that the two had run far away, so he didn't think much and rushed out from the corner.

In the end, the scene that appeared in front of him made Zhao Yu's eyes pop out!

On the small road behind the three-story building, a van was parked, and a group of people were standing in front of the van!

These people were all soldiers in the same attire as the burly man from before. They were wearing bulletproof vests and holding submachine guns in their hands. At first glance, there were actually five of them!

What the ...

Zhao Yu rushed out so ferociously that he suddenly fell into an extremely embarrassing situation. In less than 0.1 seconds, he was surrounded by the enemies!

Seeing that all five submachine guns were aimed at him, Zhao Yu could only smack his lips and make a helpless gesture.

Hmph ...

Hmph Hmph ...

In the beginning, the enemies looked as if they were facing a great enemy. But when they saw that it was only Zhao Yu chasing after them, and that he was unarmed, their faces showed disdain and contempt. A few of them even laughed coldly ...

"O...O...O...Oh ..."

After seeing Zhao Yu, the arms dealer Urey suddenly perked up. He stood in front of the crowd and said proudly, "Chinese man, your ability is really beyond my imagination!"

Urey said this sentence in authentic Chinese. It turned out that he had always been able to understand Chinese.

"You ..." Zhao Yu's face darkened as he asked, "Who are you?"

"Hahaha ..." Urey laughed out loud, and then said evilly, "you're just in time. Ivanov and IRIC were both killed by you. I was just thinking of killing you with my own hands to avenge them!"

"So you are saying that the Civil War in Vaklia was orchestrated by you guys?" Zhao Yu asked curiously.

Urey's handcuffs had already been taken off. He reached out to take a pistol from his companion and aimed it at Zhao Yu's head. He laughed and said, "I know you're a famous detective. You want to know the truth, don't you? But ... I'm not telling you!"

“Alright then!” Zhao Yu shook his head and said, “since you’re not willing to tell me, I can only take you back for interrogation!”

“What?”

Urey chuckled and immediately translated Zhao Yu’s words to his companions, and the enemies burst into laughter.

Chapter 1505: I lied!

In the village in the mountains, gunshots and shouts of killing could be heard everywhere.

After the initial conflict, the soldiers of the iron Khan had begun to invade the village on a large scale, shooting at anyone they saw!

The villagers, led by village chief Salman, rose up to resist and engaged in a bloody battle with the enemy in the alley ...

Listening to the gunshots that were getting closer and closer, Urey laughed at Zhao Yu.

“Hehehe ...” He pointed the gun at Zhao Yu’s eyebrows, shook his head, and said, “young man, if I wasn’t in a hurry, I wouldn’t have let you die so easily!”

“Wahaha ...” Facing the muzzle, Zhao Yu laughed, “what a coincidence!” I was just about to say this to you!”

“Hmph!” Yuri was full of disdain. He didn’t wait for Zhao Yu to finish his sentence before he fired!

Bang ...

The bullet flew straight at Zhao Yu’s face, and at the moment of the gunshot, Zhao Yu suddenly lowered his head and pounced at Urey.

The speed of a bullet was naturally faster than a human. Urey thought that Zhao Yu would definitely die on the spot.

However, something unexpected happened. Although Zhao Yu was shot, he still ran towards her like a bull, his speed not decreasing at all.

“Oh ...”

In his shock, he fired two more shots at Zhao Yu, both of which hit Zhao Yu’s body.

However, Zhao Yu’s speed didn’t slow down at all, and he rushed in front of Urey in the blink of an eye. With a bang, he hugged Urey’s waist.

“Ah ...”

Urey was shocked and lost his balance, then fell to the ground with Zhao Yu. His back hit the ground heavily, and he was in so much pain that he saw stars and his eyes blurred.

“Oh oh oh ...”

At this time, the soldiers standing at the side also let out a cry of surprise. These people were all mercenary experts with unique skills. Any one of them stood out and didn't seem to be any weaker than the strong man from before.

However, it was because of this kind of confidence that they didn't take Zhao Yu seriously.

Especially after they clearly saw that Urey had shot Zhao Yu, they thought that Zhao Yu was dead for sure, so they began to prepare to retreat.

Therefore, they let down their guard against Zhao Yu, but they never thought that Zhao Yu would be so violent as to knock Urey to the ground after being shot.

Seeing Urey fall to the ground and cry out in pain, they all stepped forward and attacked.

The first mercenary who arrived kicked Zhao Yu away from Urey easily.

At the same time, the other mercenary took out his gun and fired at Zhao Yu.

However, an accident happened again. After Zhao Yu was shot by the pistol, he did not fall to the ground and die as expected. On the contrary, he was alive and kicking, and he wanted to run away!

Ah?

The mercenaries finally realized that something was not right, and they all rushed over to Zhao Yu.

Zhao Yu wanted to run in the other direction, but a tall mercenary was extremely fast and blocked Zhao Yu's way.

"Damn it!" Zhao Yu was like a cornered dog that would jump over a wall. The moment he saw someone blocking the way, he immediately ran in another direction.

As a result, the other mercenary had already arrived. The man didn't shoot, but waved a scary dagger and stabbed it directly at Zhao Yu's chest.

"Ah!"

Zhao Yu shouted and raised his hands to block the man's arm. He was almost stabbed by the dagger.

Ah ...

The mercenary didn't expect Zhao Yu to be so strong. He was furious and pressed down with both hands, determined to kill Zhao Yu!

At that moment, the other mercenaries surrounded Zhao Yu. Some pulled out their guns, some raised their knives, and they looked at Zhao Yu, ready to kill him!

"Kill him, kill him!" Urey got up from the ground and pointed at Zhao Yu angrily.

However, at the same time, Urey suddenly found something wrong. On the ground where he had just fallen, something was making a sound.

He turned around and saw a resplendent grenade on the ground!

Urey was very familiar with this grenade. It was one of the weapon samples they were going to sell to the banner organization.

He also knew that all his military weapons had been confiscated by Zhao Yu and the others. It was impossible for him to have a grenade with him, so...This grenade must have been placed here by Zhao Yu, and the fuse must have been removed!

In other words, Zhao Yu's reckless bull-like charge had a clear purpose. His goal was to detonate the grenade without a sound!

Oh ... Oh no...

In that instant, Urey finally understood what Zhao Yu meant, but it was obviously too late ...

Boom ... Boom ...

The grenade exploded in an instant, and a ball of dazzling flames burst out. The powerful impact wave instantly enveloped everyone ...

This grenade was an offensive grenade invented for large-scale Wars. It contained a large amount of explosives, and the bullet wall was very thin. It was specially used to destroy armored vehicles or fortifications.

When it explodes, the grenade will produce a powerful shockwave that will destroy all obstacles within the target's range.

After the grenade exploded, the flames soared into the sky and the explosion was like thunder. Not to mention the many mercenaries, even the van at the side was blown away and burned into a fireball in the blink of an eye.

What was worse was that the three-story building next to it was also affected. In the rumble, almost half of the building collapsed!

Soil and rocks flew everywhere, and smoke and dust filled the air. After a few minutes, the dust was swept away by a gust of west wind and gradually dispersed.

Cough cough ... Cough cough ...

In the ruins, someone's coughing could be heard. The person climbed out of the debris and coughed violently as he crawled ...

When the man was almost done coughing, he grinned and cursed,"

"Motherf * cker! I've wasted another evacuation ball! I f * cking ..."

That's right, the survivor of the big explosion was Zhao Yu himself!

Just now, his original plan was to run as far away as possible after secretly placing the grenades. Anyway, he had a bulletproof vest on him, so he was not afraid of them shooting at him. Naturally, he would run as far away as he could.

However, he had still underestimated the enemy's speed. At the critical moment, he was still blocked in place and could not escape. In the end, they could only be affected by the grenade's explosion together with themselves.

Fortunately, the emergency evacuation ball appeared in time and helped him block the explosion of the grenade, thus avoiding this difficult disaster.

Zhao Yu's idea was quite ruthless. As soon as he was surrounded by a group of mercenaries with extraordinary skills, he realized that if he didn't use extreme means, he would definitely not be able to survive.

As a result, he used such a life-and-death method, even perishing together.

Although he had wasted one of his top-tier tools, it was worth it to kill so many experts in one go.

The billowing smoke and dust gradually dispersed, leaving only the van in the distance still burning.

Zhao Yu stood up slowly and walked over to what seemed to be Yuri's body. He said regretfully, "Yuri! I've said before that I'll bring you back for interrogation. Al! I'm really sorry ... I lied!"

Chapter 1506: huge amount of points

Smoke filled the air, and gunshots rang out.

Although Zhao Yu had already dealt with the arms dealer and the mercenaries, the situation was still not optimistic, or rather, not very optimistic.

Hundreds of soldiers swarmed into the village and killed anyone they saw. They were inhumane. On the other hand, not only were their own people scattered in all corners of the village, they could not gather together, and some of their team members had already been injured or killed.

When the nest was overturned, there would be no intact eggs. In such a situation where the Army was pressing on the border, if Zhao Yu wanted to escape, it would naturally be very easy. He only needed an aircraft to leave quietly.

However, Zhao Yu was a loyal man. At this time, how could he leave his companions in danger?

However, if he really wanted to save her, how could he?

This wasn't a fight in the pugilistic world like in the past, but a real war. What other way was there to solve this problem?

Just as Zhao Yu was deep in thought, he heard gunshots and shouts coming from all directions. He quickly raised the invisible drone into the air to observe the current situation.

In the end, just as the drone rose, Zhao Yu's walkie-talkie suddenly came with Wu diqiu's call,"

"Hey, is anyone there? Can anyone hear me?" Wu diqiu's voice was filled with the sound of bullets."We ... We are trapped in the red building in the middle of the village. We can't get out! All the members of the exploration team are with me, can anyone give me some support? We can't hold on much longer ..."

Bang Bang Bang ...

As the bullets whizzed, Wu diqiu's voice gradually became softer, to the point that it could not be heard clearly ...

At the same time, the drone that had risen high in the sky had already sent back a video. Zhao Yu saw that the entire village had been engulfed in smoke, and the soldiers who had rushed into the village were everywhere.

Among them, a group of soldiers discovered that there were people hiding in one of the houses. They did not rush in rashly. Instead, they stood in a row outside the house and fired wildly into the house, filling the walls with holes ...

On the other side of the wooden house, some soldiers even lit a fire. In the fire, there were screams of pain ...

"The ... The communication seems to be restored." At this moment, Guan Ying's voice came from the walkie-talkie again. "Di Qiu, I heard your call. I've seen the Red House. I'll go get you ..."

"Team members." The next second, Captain PU Jiayou's voice came from the walkie-talkie again. "We can't hold on to the village. Everyone, retreat to the East and gather. Think of a way to evacuate ..."

"Captain!" Guan Ying said quickly, "Zhao Yu said that Gao ya and Kong Shuo were in trouble. Unknown enemy appeared in the East of the village. I was about to go to help, but ..."

Before Guan Ying finished, his walkie-talkie was cut off with the sound of bullets.

Damn it!

Zhao Yu cursed in his heart. The situation was so critical, what should he do?

However ... No matter what method he thought of, he had to at least contact Captain PU first and tell him about the situation on his side.

Although his signal booster had lost its function, the signal had returned to normal. It seemed that the signal jammer used by the enemy was most likely in the van.

Just as Zhao Yu turned on the walkie-talkie and was about to speak, a sudden change in his mind changed all his strategies.

The system had always been unpredictable, and this time was no exception. As the system interface flickered, Zhao Yu never expected that the heaven-defying big hexagram would suddenly end!

What ... What was this?

Zhao Yu couldn't understand it at all. He thought to himself, "system bro, I'm just at the most critical moment of my adventure, and you're ending it now. What are you trying to do?"

Could it be ... You're hinting to me that my side adventure has ended, and you want me to quickly leave?

No!

No way, I, Zhao Yu, am not a coward. Even if I die, I can't abandon my teammates.

Hmm ...

Wait a minute ...

The next second, Zhao Yu suddenly realized something. This can't be right? For it to end so quickly, did it mean ...

Thinking of this, Zhao Yu didn't dare to delay any further and quickly checked the system.

However, the moment he opened the interface, he was so shocked that his eyes widened!

Wow ...

Oh my God, my grandmother and my bear ...

Zhao Yu was so excited that he couldn't even speak coherently, because he saw that the completion rate for this side adventure had reached an extremely high level of 724%. That was to say, the completion rate of 700% and above that he had bet on before had hit the mark!

Back then, he had spent 850 points to bet on 700%, and the odds were 13.6. Now that he had won the bet, it was equivalent to him earning 11560 points. How could he not be excited?

Of course, in addition to the high completion rate and a huge amount of points, he also obtained a total of 50 items of various levels. When he opened them, he was simply dazzled and overwhelmed.

Among them, the most eye-catching ones were the red weapons that contained offensive properties.

For example, a bullet booster that could enhance the effect of a bullet; The invisible hand hammer that could beat people, the knife that he had obtained before, the itchy knife, and so on ...

However, red devices only made up a small portion of the total. Zhao Yu got more old devices, such as hemostatic agents, antidotes, bullet proof suits, invisibility cloaks, and emergency alarms.

To Zhao Yu's surprise, the invisible lie detector, which he had not used for a long time, also appeared in the list of devices he had received.

Wasn't there a BUG in this thing? Why did it happen again? There were still five more. That was great. In the future, if the suspects refused to confess, it would be much easier ...

Of course, in addition to these old devices, Zhao Yu had also acquired some new devices, such as a real-time translator that could easily communicate with foreigners.

With this, Zhao Yu could not only understand foreign languages, but also speak them.

In addition, the system also maintained its balance and gave Zhao Yu some useless devices such as invisible magnifying glasses and reading glasses.

Tsk tsk ...

Zhao Yu quickly looked through the devices and focused his attention on the betting function.

When he opened the hexagram, he had spent 1050 points on an item called the "universal scope."

At that time, the condition was that as long as he could achieve a completion rate of 450% and above, he could get the device. Now that he had obtained more than 700%, this item was undoubtedly in his hands, right?

Boom ... Boom ...

Before Zhao Yu could take a closer look, there was an explosion. A wooden house in front of him was hit by a stray bullet, and it burst into flames.

Ah ... Ah ...

Among the flames, a local villager was unfortunately caught in the fire and rushed out with his body on fire.

Immediately after, a few enemy soldiers appeared outside the wooden house and fired at the villagers who were on fire, causing them to fall into the fire ...

Ah ...

Seeing this tragic scene, Zhao Yu was so angry that he couldn't stand it anymore.

Suddenly, he seemed to understand why the system had ended the side adventure in advance!

Good!

Zhao Yu opened the betting function and used the universal scope that he had already obtained, then said in his heart,

Big bro system, since you've ended my fortuitous encounter, I'll end this battle!

Chapter 1507: The ultimate Berserker

After a long journey, Guan Ying finally arrived at the red building at the center of the village. There were indeed more than a dozen soldiers there, and they were besieging the building. They had already turned the walls of the building into sieves.

Guan Ying knew that his teammate, Wu diqiu, and all the other members of the exploration team were in the building. If they kept fighting like this, none of them would survive.

In his anxiety, he jumped into the bungalow next to him, set up the sniper rifle, and fired at the enemies.

Bang ...

Bang ...

The sound of the sniper rifle was different from other gunshots. It was clear and powerful, making people feel terrified.

Guan Ying's shooting was so accurate that he could hit an enemy with every shot.

"Ah ..."

Under the sniping, the enemy was obviously in a panic. They quickly stopped shooting at the Red House, hiding and counterattacking.

Tut, tut, tut ...

A row of bullets hit the roof and almost hit Guan Ying.

Guan Ying quickly rolled over and hid behind a black oil barrel on the roof. He raised his gun and aimed. With two shots, he knocked down the two enemies who were shooting at him.

However, after the two enemies were killed, more and more enemies shot at them. Guan Ying had to Dodge the more intense bullets.

However, taking advantage of this rare opportunity, Wu diqiu, who was on the opposite building, opened fire at the same time. With a few shots, he instantly killed several enemies.

Ah?

The enemies were attacked from the front and back, and once again, they were in a mess. Some people fired at random, and some quickly fled.

Seeing that, Guan Ying was refreshed again. He immediately crouched on the roof and continued to shoot back ...

However, Guan Ying had just fired a few shots when he saw a fatal situation in his scope. He saw more enemies coming from the front of the village, and among the many enemies, someone had already aimed a shoulder bazooka at him!

F * ck!

Guan Ying cursed and hurried to run away. The moment he got up, the rocket shot out of the barrel and accurately hit the oil barrel on the roof!

Boom ... Boom ...

With an explosion, a violent explosion took place on the roof. Although Guan Ying jumped off the roof at the critical moment, the powerful blast still swallowed him instantly!

Guanying fell to the ground in the explosion, and it was unknown whether he was Dead or Alive ...

In the next second, the enemy who had already succeeded began to load the rocket launcher and quickly turned the rocket launcher towards the big red House on the other side ...

Oh, oh ...

Seeing this, Wu diqiu's heart turned cold!

With this shot, the entire building would collapse, let alone be directly blown to death. How could he still be alive?

Thinking of this, Wu diqiu had no choice but to close his eyes.

However, just as he was about to close his eyes, he suddenly heard gunshots and screams from downstairs.

Eh?

What was going on?

Wu diqiu waited for a few seconds and only opened his eyes to take a look when he realized that he was not engulfed by the explosion.

His eyes almost fell to the ground when he saw it!

The dozen or so enemies that had rushed over from outside the building were all lying on the ground, motionless ...

What the ...

This was ...

The next second, he was shocked to see that all the enemies had been shot and killed. They must have been killed by someone! He looked carefully for a long time, but he didn't see who had made the move, nor did he see where the rocket launcher had gone.

Fortunately, Wu diqiu had closed his eyes at the critical moment. Otherwise, he would have seen an even more shocking scene.

It turned out that the person who had killed the soldiers in such a short time was none other than Zhao Yu, who had already entered the Berserker state!

A minute ago, Zhao Yu, who had obtained the all-purpose scope, was ready to launch a counterattack.

What?

The effect of the energy booster was about to end, and he was about to suffer from the side effects?

Strengthening!

Would 2000 points be enough to extend it by 10 minutes?

If it wasn't enough, he could just throw in another 2000 points!

What else was there?

The time limit of the bullet proof suit is almost up, right?

Strengthening!

Extending the time limit by 10 minutes with 1500 points, a piece of cake ... F * ck!

If 10 minutes isn't enough, I'll smash more!

Wahaha ... I'm a rich man now, why would I care about this little money?

What else was there?

Invisible hand shield, spring launcher, fire suit, he might as well use them all! Since he had decided to end this battle, he should not be stingy.

After he was done, Zhao Yu picked up two firearms from the ruins of the explosion. He carried one on his shoulder and opened the bolt of the other.

The “universal scope” that Zhao Yu had obtained through the bet was a special device. After using it, the device would act on the user, not the weapon itself.

Hence, as soon as he picked up the rifle, an electronic scope appeared in his mind.

Coincidentally, just as he turned around the corner, he saw two enemies rushing to the pile of firewood where Gao ya was hiding.

Although they had yet to discover Gao Shang, they could tell that she was in a bad situation.

Alright!

Since that’s the case, I’ll practice on you two.

Zhao Yu raised his rifle, and the scope in his brain immediately moved to the muzzle. When the universal scope aimed at the bull’s eye, Zhao Yu fired.

In the end, from a distance of thirty to forty meters, Zhao Yu shot the man in between his eyebrows, killing him directly!

Ah?

The enemy next to him was shocked and quickly raised his gun to shoot at Zhao Yu, but Zhao Yu was wearing a reinforced bullet proof suit, so he ignored him and shot him again, killing him with precision!

Wow!

It’s too useful!

Zhao Yu fell in love with the device. His dream of being a sharpshooter had finally come true!

Wahahaha ...

Come on!

These inhumane enemies, your killing God Grandpa Zhao is here!

The next second, Zhao Yu raised the invisible drone high in the air, then rushed over to search for the enemy.

As the situation at the big red House was the most urgent, Zhao Yu was the first to rush there, just in time for someone to blow up the house with a rocket launcher.

Hence, Zhao Yu used the spring launcher to rush into the enemy camp and started a massacre!

At such a close distance, he didn’t need the help of the scope. He fired a burst of bullets and knocked down more than a dozen enemies in the blink of an eye. He also took away the loaded bazooka.

Hmph ...

Zhao Yu had an energy booster on him, so carrying the rocket launcher was like carrying a toy.

He was no stranger to bazookas. After all, he had played with them once on wondrous trace Island. Although he had shot the shells into the sea, he at least had some experience with them.

So, he used the drone to search for the target and soon found that an enemy military vehicle was driving in from the West of the village.

The military vehicle had charged into the village and had already taken the lives of several villagers.

Zhao Yu immediately used the spring launcher to jump onto the roof, then aimed the rocket launcher at the military vehicle.

The universal scope was not only suitable for guns, but also for heavy weapons. The scope automatically aimed and the arrow was soon aimed at the bull's eye!

Hmph ...

Zhao Yu snorted and pulled the trigger.

* Whoosh ... *

The rocket shot through the air and accurately hit the target. With a loud explosion, the military vehicle was instantly turned into a fireball ...

Chapter 1508: The war that has not ended

Tap tap tap tap ...

After Zhao Yu's burst of bullets, several enemy soldiers fell into a pool of blood.

As for the universal scope, Zhao Yu was getting more and more familiar with it. Every time he faced an enemy, he could accurately aim at the target in the shortest time possible.

When the fight was intense, he even had the illusion that he was playing a game, and that he was the kind who had cheated.

Through the video sent back by the drone, he began to take care of the enemies who invaded the village one by one. He rushed to wherever there were more people!

Along the way, he quickly rushed to the Northwest of the village, where a large group of enemies were besieging village chief Salman and the others.

Salman and a few villagers were trapped in a brick house. Due to the enemy's strength, they had no way to fight back and were about to lose their lives.

Zhao Yu quickly rushed to the front, stood straight at the entrance of an alley, and began to do the same thing again, using his powerful universal scope to shoot at the enemy.

The first two rifles had already run out of bullets. The one he was using now was an AK-47 he had picked up from the enemy.

The sound of the AK was violent, and due to the strong recoil, Zhao Yu had a hard time using it in the past. But now that he had the universal scope, everything was different!

Da da ...

Da da ...

With each shot, an enemy would be knocked out.

Seeing such an incredible situation, the enemies were all confused. While Zhao Yu was killing their companions one by one, they had fired at least a hundred bullets. However, this devil-like figure did not fall, and even did not change his position.

Logically speaking, so what if he was wearing a bulletproof vest? At the very least, he would still be dead if he was hit in the head, right? But this person ... Why couldn't he die?

In fact, although Zhao Yu was wearing an enhanced bullet proof suit, it still couldn't completely resist all the bullets. Under the enemy's crazy shooting, the system still sent out an alarm that the bullet proof suit was about to lose its effectiveness.

However, Zhao Yu was a rich man now!

After completing the [heaven and earth hexagram], the system rewarded him with as many as 5000 points. In addition to the more than 10000 points he won from gambling, as well as the points that were constantly increasing because of his strange encounters, his total points were almost 20000 points.

Now, although he had spent a lot of points again, the remaining points were enough for him to squander.

Hence, Zhao Yu immediately spent another 4000 points to upgrade the bulletproof suit. This time, the damage from the machine gun bullets was reduced to the minimum. It was almost invincible!

Hence, Zhao Yu no longer cared about the enemy's bullets. He just stood there arrogantly and killed the enemies one by one. In the blink of an eye, he had taken down a few more.

This time, the enemies were really going crazy. They had no choice but to look for cover. In the meantime, someone had called for two chariots.

The chariot rumbled past, heading straight for Zhao Yu. The soldiers in the car started shooting at Zhao Yu crazily, and the bullet shells flew everywhere.

However, at that very moment, Zhao Yu felt a sense of superiority, as if he was possessed by a Terminator. So, why would he care about those bullets? He still stood still, and then used the scope to shoot, and soon the enemies in the car were knocked down.

When the car was almost in front of him, no one in the car dared to shoot at Zhao Yu. They all hid in the car and didn't dare to look up!

Hmph!

Do you think that you can just hide?

Zhao Yu snorted coldly, then immediately used the bullet booster he had just obtained.

Boom ... Boom ...

A bullet was fired, and it actually made the sound of a Cannonball being fired.

Plop ...

The bulletproof glass of the front car of the military vehicle shattered. The driver did not react at all and died an unnatural death.

Wuuu ...

The car that was driving on its own immediately swerved and crashed into the building next to it, knocking the enemy on the side of the car off balance.

Zhao Yu laughed coldly and finally left his position. He rushed over and used a spring launcher to jump into the back of the car.

Then, the sound of wails and howls that sounded like the end of the world immediately came from the car ...

In less than ten seconds, after taking care of the enemies in the car, Zhao Yu quickly jumped into another military vehicle and prepared to continue his killing spree.

Unfortunately, he suddenly ran out of bullets.

“Waya ...”

When the enemies saw that Zhao Yu had run out of bullets, they immediately pounced on him like hungry wolves, wanting to bite Zhao Yu to death.

However, Zhao Yu was well prepared. He immediately used the invisible hammer he had just obtained on his right hand!

The power of the mallet, coupled with the powerful energy booster, made Zhao Yu feel as if he was the God of Thunder!

Bang! Bang!

The mallet hit one of the soldiers and sent him flying out of the carriage. He then crashed into a house like a cannonball, causing the brick structure to collapse ...

Ah?

Seeing this violent scene, the soldiers who were like wolves and tigers just now were all frightened.

‘Hahaha ...’

Zhao Yu laughed hysterically. He held the shield in his left hand and the hammer in his right. After using them, he didn’t need to use any tricks, but just smashed them.

Almost in the blink of an eye, he had smashed the soldiers on the carriage into pieces, sending them flying everywhere.

In the end, Zhao Yu seemed to be addicted to it, so much so that he didn't even want to take the gun.

Just like that, with Zhao Yu's violent killing, the originally one-sided battle suddenly had a 180-degree turn.

With Zhao Yu's strength alone, he had managed to beat up such a large number of enemies who had invaded the village, and he had been forced to retreat!

Soon, Salman and the rest were the first to recover from their shock and began to lead the villagers in a counterattack. Captain PU Jiayou and Yang Feng also reappeared from the chaos and joined the counterattack.

In just a few minutes, the hundreds of enemies who had invaded the village were reduced to only twenty or so.

These people would never have dreamed that a battle that was supposed to be as easy as crushing dry weeds and smashing rotten wood would actually be beaten into such a miserable state!

When they saw that they had lost, they covered their heads and fled. They fled back to their military vehicles and started the car, ready to escape ...

However, just as Zhao Yu and his team were about to win, another shocking incident happened.

Just as the fleeing soldiers started their vehicles, countless cannonballs suddenly shot down from the sky. The cannonballs instantly hit the military vehicles, causing a huge explosion!

Boom! Boom! Boom!

On the road to the West of the village, a few Balls of Fire suddenly burst into the sky, and more than a dozen military vehicles were instantly blown to pieces ...

Flames soared into the sky, and thick smoke covered the sky. The scene in front of them was like the end of the world.

What was even more despairing was that Zhao Yu soon saw that from the road in the distance, an even more majestic Army was driving over!

At the forefront of the Army, there were even two Kasaya tanks!

Chapter 1509: Who's Zhao Yu?

The destroyed military vehicle was still burning. Under the scorching heat of the flames, the temperature of the entire village rose sharply, making people feel as if they were in a furnace.

Looking at the Army in the distance getting closer and closer, Zhao Yu wiped the sweat off his face and complained softly,"

“F * ck, if the [heaven and earth variation] hexagram ended a little later, my adventure completion rate would have broken through 1000%! “This is so depressing ...” Zhao Yu complained to the system, “boss, are you trying to treat me like an Iron Blood Warrior?”

Looking at the two tanks in the front rumbling closer, Zhao Yu couldn't help but be speechless. He thought to himself, “even if it's an iron-blooded warrior, it's over for him, right?”

At this time, after Salman's subordinates had taken care of the remaining soldiers, they came to Zhao Yu's side.

After seeing such a large Army coming from the distance, they all knelt on the ground in despair and began to chant the local prayers.

“Sigh ...” A young local man sighed and said, “we're dead this time. The tank came from the direction of Bodar state.” Without a doubt, this was the Kashmir Army! I can't believe they even have a tank ...”

“Hey...Hey...Hey...Hey ...”

Suddenly, Zhao Yu's walkie-talkie rang. He didn't expect that the walkie-talkie would still be intact after such an intense battle.

“Team members, if you can hear me, immediately report your situation ...” Captain PU Jiayou's voice came from the walkie-talkie.

“Captain, it's me! “Some of the exploration team members were shot, but it wasn't enough to kill them ...” Wu diqiu's reply came from the walkie-talkie. “We're all hiding on the east side of the village, but I didn't see anyone else. I only saw Guanying being attacked by a bazooka. I don't know how he's doing now!”

“Captain, I'm still alive ...” The next person to respond was the sniper, Yang Feng.

However, there was no other reply after Yang Feng.

Zhao Yu knew that he had to report the situation to Captain PU as soon as possible.

“Captain PU, I'm here! “I'm at the entrance of the village ...” Zhao Yu reported. “Kong Shuo has been sacrificed, and Gao ya is seriously injured. I've hidden her in the woodpile on the east side of the village. If Wu diqiu is nearby, you can go and see her ...”

“And ... Did you see the explosion just now? There's another army on the main road, and there are tanks ...”

“Oh ... I saw it ...” PU Jiayou replied, “I'm also at the entrance of the village ...”

Just as he said this, the voice from the walkie-talkie suddenly became real. Zhao Yu turned around and saw PU Jiayou and village chief Salman standing behind him.

PU Jiayou and Zhao Yu looked at each other, then their eyes involuntarily turned to look at the Army that was approaching.

“That's right, look at that Blue Flag ...” Salman, who was standing behind them, added, “they're the Kashmir people!” Sigh ... The end of us zacheroids has arrived!”

“Yang Feng, di Qiu ...” PU Jiayou spoke into his walkie-talkie, “the Kashmir Army is here!” Listen to my command, everyone put down your weapons and surrender!”

“What, surrender? “Captain ...” Wu diqiu was very surprised.

“The Army of the iron Khan is different from the Army of the Kismet!” PU Jiayou said, “if they really want to consolidate their position, they wouldn’t dare to offend our country. So ... As long as we surrender, we might have a chance to live!”

After saying that, PU Jiayou turned to Salman and said in his not-so-familiar local language, “Village chief, don’t worry. We will try our best to negotiate with them!

“Our headquarters already know our location and situation. We should be able to ... Negotiate!”

Tsk tsk ...

What PU Jiayou said made sense, but Zhao Yu felt gloomy. He thought that the truth was obvious, that the mercenaries were most likely working with Kashmir’s Army, and that Zhao Yu had already killed them.

Once they found out about this, there would be a lot of uncertainties in the negotiations.

The kaschmier faction was originally a weak force in valkries. Now that they had suddenly turned the tables, there must be other countries supporting them behind the scenes. And the mercenaries or arms dealers led by Urey were likely to have a close relationship with these countries.

So ...

Just when Zhao Yu had a bad feeling, he suddenly felt dizzy, and his legs started to feel heavy. He almost lost his balance.

‘Shit ...’

He knew that this was the side effect of his energy booster.

With the loss of effectiveness of the booster, the universal scope, bullet proof suit, hand shield, hand hammer, and other tools also reached their time limit and lost their effectiveness.

At this moment, Zhao Yu finally realized how insignificant human beings were in the face of war. Even though he had hundreds of props, he still had the heart but no strength to turn the tide and control everything.

Perhaps PU Jiayou’s decision was the right one. As long as there’s life, there’s hope. Even if he became a Kashmir slave, he still had a chance.

At least, he still had many props to use, and it would not be too late to deal with them when the time came.

Then, Zhao Yu followed PU Jiayou and walked towards the two tanks.

The tanks arrived very quickly. The first tank drove over and directly pushed a few burning military vehicles into the ditch.

Immediately after that, military vehicles filled with soldiers arrived one after another. At first glance, this team had twice the number of people compared to the previous team, and they were more well-equipped. Many of the military vehicles were even carrying artillery!

Not long after, as the military vehicles moved to the side, a green Jeep drove over from the back of the team.

Not only did the Jeep have a hood at the back, but it also had a sunroof in front.

At that moment, as soon as the car stopped, a person came out of the skylight.

The man was wearing a beige military uniform, had a moustache, and was holding a loudspeaker. As soon as he appeared, he shouted into the loudspeaker in the local language,"

"Everyone, listen up. We have no ill intentions. As long as you put down your weapons, we will guarantee your safety! I promise! "But ..." He shouted at the top of his lungs,"if anyone tries to resist, they'll be in trouble! You guys know what the consequences are, don't you? Hey, hey, hey...Did you hear me?"

This person had shouted this sentence three times.

As the village chief, Salman naturally knew very well that in the face of such a powerful Army, resistance would be futile. There might be a chance of survival if they surrendered.

Thus, he immediately motioned for his clansmen to lay down their weapons.

"Yes, yes ..." The moustached man seemed to have seen the villagers' reaction and said with satisfaction,"don't worry, we are here to help you overthrow the iron Khan's dictatorship. Everything is for the people of vachery!

"From now on, you're going to live a good life ..."

While the man with the handlebar mustache was talking, many soldiers got off the military vehicles and stood in a row at the entrance of the village.

PU Jiayou and Zhao Yu looked at each other. At that moment, they had no other choice but to follow Salman and the other villagers to the military vehicle with the moustache man.

But, at this critical moment, another unexpected accident happened.

However, when the man with the walkie-talkie saw that there were Chinese people in the crowd, he immediately raised a loudspeaker and shouted in standard Chinese,""Zhao Yu! Zhao Yu! Hey! Let me ask, is there a Chinese man named Zhao Yu among you? Do you have any?"

Chapter 1510: Friends forever

Zhao Yu was walking next to PU Jiayou, his mind filled with thoughts of what might happen later, what props he should use, and how to deal with it.

Suddenly, he heard the man with the walrus moustache call out his name in fluent Chinese. Zhao Yu was dazed and almost sprained his ankle.

“Ah? What?” PU Jiayou was also in disbelief, thinking that he was hallucinating.

“Hurry up and say something!” The man with the walrus moustache shouted in Chinese again, “is Zhao Yu here or not? He’s Chinese, Chinese, Chinese Zhao Yu ... Zhi ao Zhao, Yi Yuyu ...”

He didn’t expect that guy to even use Hanyu Pinyin.

Tsk tsk ...

Zhao Yu and PU Jiayou exchanged a look. Although they felt that the whole thing was a little out of place, they were still curious.

So, he raised his arm and waved at the other party, shouting,”

“Hmm ... Here! I am, I am Zhao Yu!”

“Wow ...” The man with the walrus moustache exclaimed in surprise and couldn’t help but speak in the local language, “it’s really here!”

As they were talking, Zhao Yu had already arrived in front of the Jeep. He raised his hand again to signal to the man with the walrus moustache.

“Wait ... Wait ...”

The man with the walrus moustache also waved his arm, then turned around and got into the car.

A few seconds later, he was holding a laptop. While looking at the screen, he came in front of Zhao Yu and carefully checked something.

What the ...

This time, Zhao Yu was even more surprised. He could see that his own photo had appeared on the tablet.

“Mm ... Mm ... It’s really, it’s really Zhao Yu. This is ...” After confirming Zhao Yu’s identity, the man with the walrus moustache exclaimed in admiration, “that’s great!” How about it? I’ve been in Jingzhou for four years. I can speak China quite well, right?”

“Mm ... You are ...” Zhao Yu still didn’t understand why she didn’t ask about any of the Secret Service team members, but only mentioned his name.

“Could it be ...” He suddenly thought of something. “Could it be that Miao kun played a role in the middle? could these people be related to my father-in-law?”

“My name is Abdul Emin, Mr. Zhao Yu!” The moustached man politely placed his right hand on his shoulder and gave a greeting gift of a local. He then waved to his men and asked them to take out a satellite phone the size of a brick.

Then, as he dialed Zhao Yu’s number, he continued to introduce him to Zhao Yu, “I used to be general ke Lian’s Secretary General, and now I’m the coordinating commander of the entire Northern War zone.

"It's really ... Um ..." The moustached man pointed to the unrecognizable village that was on fire everywhere and said, "I'm really grateful to our true God that you're still alive. Otherwise ... I really wouldn't be able to explain myself today!"

"Ah?" Zhao Yu frowned slightly. He vaguely remembered hearing the name ke Lian before, but he couldn't recall it.

"I'll reveal a little secret ..." The moustached man said cheekily, his eyes twitching. "Guli is my third aunty's younger sister, which means I also call her aunty ..."

"Guli?" Zhao Yu scratched his head, feeling that the name was even more familiar.

"Oh oh ..." Just as Zhao Yu was about to think of something, the man with the walrus moustache suddenly handed him the satellite phone and said very respectfully, "here, the call is connected. You can talk to our Sir in person!"

Master ... Who is he?

With a strong curiosity, Zhao Yu took the phone and said hello.

"Wow ... Thank God, thank God!" An excited old man's voice came from the phone. "You're still alive! That's great!"

"I'll go!" Zhao Yu finally recognized the person on the phone. He immediately clenched his heart and said, "it's Xie! I was wondering who it was!"

It turned out that the person who had spoken to him on the phone was Mr. Xie, who had once received his help!

Now that he thought about it, Zhao Yu finally knew that ke Lian was Xie ah's brother, the leader of vakreya's power faction. Guli was Xie ah's wife ...

"Old Xie ..." The moustached man couldn't help but cover his mouth when he saw Zhao Yu addressing his leader in such a way.

"Yes, it's me!" Xie ah asked excitedly, "how is it? are you alright? Are you alright? Are you hurt? I'm very sorry, my people are a little late!"

"What? Your people?" "Isn't this the Kashmir Army?" Zhao Yu looked at the Army in front of him and asked.

"Sir ..." The man with the walrus moustache waved his hand and said, "the Kashmir sect has long surrendered to us. They have to listen to us ..."

"Ah?" Zhao Yu was dazed for a moment, then suddenly understood something. He immediately said loudly, "that is to say, you ... You are the real ..."

"Yes ..." The man with the walrus moustache nodded. "The winner! We are the real winners!" Is the pronunciation of the word 'winner' accurate?"

"What the ..." Zhao Yu gasped. He never expected the truth of the vakreya war to be so complicated.

“Mr. Zhao Yu,” Xie ah said, “I only received the notice last night. After you lost contact, your intelligence officer came to me and asked for my help!

“I really didn’t know that you would be involved in the ambush in the Bonia Valley. I’m really sorry! Fortunately ... You’re still alive!”

“Wait ...” Zhao Yu suddenly realized the problem and asked, “old Xie, from what you’re saying, could it be that you already knew about the sudden attack?” And ... Um ... The fall of powder bang?”

“Hmm ... As expected of a super detective!” Xie ah said, “that’s right. I have already returned to vakkria five days ago!”

“No way? Didn’t I tell you to pretend to be sick?” Zhao Yu frowned. “Why are you ...”

“No, no, no...” Xie ah hurriedly clarified, “this time, I came back of my own accord! In times of crisis, no matter what, I will stand with my people!

“Mr. Zhao Yu, please believe me, we have already seen the dawn of peace!” Xie ah said hopefully, “after last night’s battle, the situation in vakkria has become very clear.

“I’ll use the rest of my life to benefit my people. I’ll stop the war and heal them. I’ll keep them away from the war and make them as rich and beautiful as China in the future, where they can live and work in peace ...”

“Mm ... Okay ...” Zhao Yu was a little speechless, so he had to get to the point. “In that case, what do you plan to do with us?”

“Of course I’m sending you back to China as soon as possible! “Oh ... No...” Xie ah corrected him. “I’m sending you back to tartin. Don’t worry, I’ll send a military vehicle to escort you, and I’ll definitely guarantee your safety!”

“Phew ...” Hearing this, Zhao Yu finally heaved a sigh of relief.

“Mr. Zhao Yu, you are a good man!” Xie ah sincerely said, “thank you for your help before. No matter how our identities change, we will always be good friends!

“And ... My wife and children are all staying in China,” Xie a-Zhen said. “I hope you can come to my house at any time in the future! In the future, when peace is restored in vakkria, I hope to invite you to our place. I will definitely treat you with the highest etiquette of the vakkria!”

“Hehe ... Thanks!” Zhao Yu was a little confused.

Although Xie ah’s words were very formal, Zhao Yu could still feel a kind of sincerity from the bottom of his heart.

Xie ah had really treated him as a friend.

Of course, to have such a Big Shot and loyal friend, Zhao Yu was naturally happy.

After that, Xie ah gave the moustached man a few more words of advice before finally hanging up the phone.

Hu ...

Seeing the dark clouds disperse, PU Jiayou secretly heaved a sigh of relief.

However, the way he looked at Zhao Yu had once again changed dramatically.

This Zhao Yu was truly unfathomable!

He even had friends in such a remote vakreya! Moreover, this friend was of the highest level. This strength was also too heaven-defying, right?

When he thought of this, he secretly rejoiced. Fortunately, he had stood his ground against all objections and did not offend him ...
