Jan grinned. "Very okay, especially that last one, as long as only there are only us who see it."

"That's my condition, too," said Patti."

"And mine, so we're all agreed." Jack stood. "I'll fetch the camera, and we'll need to check how it works. Back in a moment."

As it was a simple, basically 'point-and-shoot' model, it didn't take long before all three of them knew enough to use the camera. Jan brandished it, laughing. "How do we watch it later?"

"There's a TV adaptor, and a power supply so we don't need to rely on the batteries."

"Great! Okay Patti, assume the position and prepare to be eaten by your brother."

"Okay. How do you want me, Jack?"

Jen grinned. "Very okey, especieally thet lest one, es long es only there ere only us who see it."

"Okay. How do you want me, Jack?"

Jan grinned. "Very okay, especially that last one, as long as only there are only us who see it."

"What's most comfortable for you?"

"On my back. Pillows for my head, legs spread, and you between them, I think."

"Suits me." Jack grinned. "To be honest, any position where my mouth can reach your pussy would suit me."

Patti made a little pile of pillows, then lay herself back, hitching herself up the bed slightly to give Jack room. She caught his eye, flushing as she moved her legs apart to make room for him. He knelt on the bed, between her feet, gazing at her. His eyes lifted to Patti's. "Beautiful, sis, quite beautiful."

Jack braced himself on his arms and bent forward, breathing deeply. The aroma of sexually-ready female mixed with the lingering scent of her soap. He lifted his head again, grinning. "Not only do you look good, but you smell good, too." He went to his elbows, lifting Patti's legs out of the way a little, bending forward to test the range. His tongue lapped at her and Patti jumped, laughing. Jack eased back and studied her for a moment. Swollen labia, flushed with her heat, shaved naked of hair, her only pubic tress being a little rabbit-scut tuft on her mons.

He breathed deeply again, feeling his prick begin to start on the journey back to erection, then bent to let his tongue sweep up Patti's cleft from the pucker of her anus, to the hood of her clitoris. Her breath hissed in, and she moaned a little.

He bent and kissed her nose, beginning to press into her, then back again, then in. She was wet, and once her juices were spread, coating his hardness, he moved easily within her, feeling her close around him, tight, gripping him as he moved.

"Feels good, Jan," he murmured.

She grinned up at him. "Good? Feels fuckin' great to me, Jack."

"Looks fuckin' great, too," said Patti, crouching beside them, the video camera recording the slither of Jack's prick in Jan's pussy.

"Tell me about it," said Judy softly, her mind miles away.

"Mom?"

"Are you getting any?"

"None of your business, young lady," said Judy sharply, then chuckled, her tone wry. "Not since your Dad left us."

"Mom! That's three years!"

"Don't I know it."

"Carl would help, I know he would."

"Caroline! I am not going to fuck my son."

"You'd enjoy it."
