After several long wet licks Lisa opened her mouth wide and engulfed the shaft. Lisa was sucking eagerly trying to take more in her mouth when Dave's fingers wound through her hair. As for me, it was everything in my power to stay motionless. Had I really been asleep - and somehow able to ignore all this - I would have tumbled from the bed long ago. If I didn't keep my stomach rigid, my ass tensed and my heels dug into the mattress, we both would have gone over, and that at least helped me to re-focus my energy as I desperatel

The inside of the house was just as dark and humid as the outside, and I waded through it as I made my quiet way from the door to the kitchen, fumbling a little until I saw the light peeking from around the corner.

As I said, it was hot, so
