Jack: "On your knees, girl. It's time to earn your keep."

Sisters work it out, Amie plays well in small groups, and Beth's Virgin ass, finally!

Any hopes I had of sleeping in were destroyed with the cacophonous pounding.

I looked over at my alarm clock and growled when I saw it was a few minutes past 9.

She leaned toward me and whispered, "Almost closed the deal. He's a little slow, but he's coming around. I think with a few more beers in him and with a little more work on my part, we can get over that first big step."

"I'm working on the 'Sisters Issue'," I told her.

I stopped my motion, lingering above her with my cock head barely buried. "Don't. You are an absolutely amazing woman. Don't you know by now what you do to me?"

"I know. I know you want me. Sometimes I just don't understand why. And if you did want me that much, why do you always go back to Karen and Cathy, and even girls like Amie, Robin and who k
