

## Read Crazy Leveling System - Chapter 1141

### Chapter 1141

Yi Tianyun was very surprised. This was a surprise. He had been busy before, but now he opened the gift package. He didn't expect so many surprises.

However, after the surprise, he still needs to cultivate honesty, but under the Heavenly Dao Divine Body, he can strengthen his attribute ability!

He can directly turn himself into a fire attribute physique, the effect of which is comparable to the Sacred Flame Body, which is a first-class physique.

"Little brother, what is there that you don't understand?"

"Is that so? If you have any questions, remember to ask. Don't just stand there like a fool."

"Yes, remember to ask, don't force yourself!"

When they saw Yi Tianyun, they felt very strange. After all, this is a big matter, and they can't be careless.

"No, senior brothers, cultivate well; I will just watch from the side." Yi Tianyun didn't try to be brave, but with the help of the Investigating Eye, he could already absorb a lot of experience.

It can even be said that he can draw according to the gourd and perfectly forge something of the same level as them.

Many senior brothers here are 1st and 2nd Grade Divine Blacksmiths, and the highest is 3rd Grade Divine Blacksmith. For example, Huo Lian is a 3rd-grade Divine Blacksmith. Before this, they were not at this level. Recently, they have made a lot of breakthroughs, reaching 3rd Grade Divine Blacksmith!

This is a very amazing talent. If you continue to break through like this, you will soon be close to the elders' level. Elder Dong Yun is at the level of 5th Grade Divine Blacksmith, able to forge Low-Grade Heavenly Dao Weapons.

This can be said to be relatively easy to forge. His real limit is to forge a Middle-Grade Heavenly Dao Level, which is amazing. However, the failure rate will be higher to forge a Middle-Grade Heavenly Dao Level Weapon. Unless he reaches the level of a 6th-grade Divine Blacksmith, the success rate will greatly increase.

"So it's like this..." They looked at each other; Yi Tianyun had been watching from the side; he had never practised it, so they didn't believe it.

“Little brother, let’s clarify that we are not too assured about your level. You can say it now because we don’t know your real level. You can forge a weapon now; let me see how strong you can be. This will make us feel a little relieved; this is about our honour; we must not be careless.”

Heaven Monarch Yu Long, as a representative, has to be straightforward. They don’t know whether Yi Tianyun understands or pretends to understand, so they must ask clearly.

“Okay, I will try to refine the Middle-Grade Rebirth Weapon that Senior Brother just refined.” Yi Tianyun knows that he must show some skill. Otherwise, they will not be at ease.

Let alone them; if it is him, he must know the situation.

“No problem. Let’s try a Middle-Grade Rebirth Weapon then.” Heaven Monarch Yu Long nodded.

Although a middle-grade rebirth weapon wasn’t the limit for stopping water, it could be considered able to display one’s level. From this, one could see how skilled it was. They would need to be at a higher level to refine a High-Grade Rebirth Weapon.

A 2nd and 3rd-grade Divine Blacksmith could be refined, but the difference in success rate was too great.

Immediately, under everyone’s eyes, Yi Tianyun took the materials refined by Heaven Monarch Yu Long and threw them into the alchemy furnace to refine them.

They have seen this level before. Yi Tianyun’s fire control level is very high. This is the most important thing to forge. Under the perfect fire control, the materials are quickly refined. This is not difficult. The problem is how to refine the back.

Yi Tianyun has been here for a month. There is not much time left to prepare for the Divine Palace Competition. Therefore, they are interested in the technique and seeing if it can be cultivated to the peak.

“Rise!”

Yi Tianyun’s eyes narrowed; he quickly extracted the essence of the inner side and then turned in the air, landing on the iron plate before him. Then, he waved his fist and smashed it!

The ability that Heaven Monarch Yu Long displayed is to use his fist to forge weapons very rough. Generally, this rough forging method is suitable for the type of forging a giant sword.

With every punch, this ball of liquid can be shaped and spread out bit by bit, forming the shape of a giant sword. Such a skilled technique is even better than Heaven Monarch Yu Long.

Although Yi Tianyun's level is only 1st Grade Divine Blacksmith, the level of his burst is no less than that of Heaven Monarch Yu Long, who is in 2nd Grade.

Everyone's eyes lit up. They didn't expect Yi Tianyun to be so good to reach such an amazing level; the ability to forge is already better than that of Heaven Monarch Yu Long.

Although what Heaven Monarch Yu Long showed before was not his peak ability, it was close to a lot; now that Yi Tianyun has demonstrated his ability, it is close to his level, so there is absolutely no problem in participating in the Divine Palace Competition.

"Clang!"

With the final punch, a giant sword was punched out; although it was only a simple and rough attack, it was not bumpy at all, even very delicate.

The surface of this giant sword is very smooth, and it is impossible to have half a fist print. If there is a fist print, how can it be used? This method of forging uses the strength of the first surface to let the material spread out, and then the material is shaken to the point that it is smooth.

"It's done."

Yi Tianyun slapped down, the giant sword bounced up, and after several rounds in the air, it fell into his hand, and then a crisp sound rang out.

He immediately handed the giant sword to Heaven Monarch Yu Long. This time, he took the place that Heaven Monarch Yu Long determined.

"Not bad, not bad. Your level is even better than mine. If your level were to rise a little further, you would be far superior to me." Heaven Monarch Yu Long heaved a sigh of relief and said, "In this way, there won't be any problems for you to participate in the Divine Palace Competition."

"That's right. With this level of skill, I was worried for nothing. I thought that junior brother would be embarrassed to ask, but it turns out that he really can watch for a while."

"I've only seen people who can watch and watch. There's no need to cultivate at all. Junior brother must be of this type."

“I remember. Isn’t Junior Brother very good at judging people? Then you can also see through our cultivation so you won’t be surprised.”

They remembered that Yi Tianyun could have seen accurate information before, so it had the same effect on this side.

However, this is heaven-defying. Seeing people can see through the door, seeing other people cultivate, the effect can also be seen. This pair of eyes doesn’t know how to grow.

Yi Tianyun did see it but saw it through the detection eye; otherwise, he had to do it.

## Chapter 1142

The rest of the time, Yi Tianyun joined in the practice, constantly forging weapons; he was just trying his hand sense, using what he learned to see how effective it was.

With the help of the Investigating Eye, combined with the movements of many people, he has learned most of the forging skills; he does not dare to say everything, at least most of them have been mastered by him.

Soon, he welcomed the competition of the Divine Palace, led by Elder Dong Yun. Their group headed to the competition hall of the Divine Palace.

When they arrived, it was already a sea of people; most people sitting in the nearby audience were not from the Divine Palace but from other divine palaces.

Divine Palace is a treasure ground that can forge weapons. They want to see which genius will appear. When the time comes, they can ask someone to help forge it. The price will be much cheaper than outside!

Therefore, the Divine Palace is extremely popular among many disciples. Those who came to watch were the Sword Palace or Spear Palace disciples. They hope that they can have a powerful weapon.

When they come, the others who can’t participate can only go to the audience seats. Only Yi Tianyun, Heaven Monarch Huo Lian and Heaven Monarch Yu Long can enter the venue. Only the participants can join, and the rest can not enter.

“There are many people.” Yi Tianyun looked around and saw many camps in front of him. There are at least seven camps; with them, there are eight!

Each camp has an elder leading them. This means that there are eight elders. This is not surprising. They all have God Monarch cultivation. The God Territory is so vast. There are too many disciples. They need more elders to teach them. Otherwise, there is no way to keep up with them.

There are eight camps and three people in each camp. There are a total of twenty-four people. They represent the strongest newcomers. Every time the Divine Palace Competition, they will send new people.

This time is no exception. Yi Tianyun looked around. Most of them are unfamiliar faces. He has never seen them before. Naturally, they are unfamiliar faces. The main point is that they are all at the level of Heaven Monarch. Yi Tianyun is the only one at the level of Earth Monarch!

If Elder Xiao Tian had not been so aggressive, Yi Tianyun wouldn't have participated. He has no interest in this and has already decided who to participate.

If you want to participate, you have to be at least at the level of Heaven Monarch, not discriminating against the cultivation of Earth Monarch. Still, the cultivation of Heaven Monarch is more mature.

Therefore, his appearance immediately became the target of everyone's attention. Among so many Heaven Monarchs, only one was at the level of an Earth Monarch, which was surprising.

“There is an Earth Monarch among the participants this time! The cultivation level is vague, and I can't tell what level it is.”

“That's right; it's an Earth Monarch cultivation competition; this is amazing. Is there any amazing power?”

“It seems he is still a human; it's really strange. Even a human race is participating, and his cultivation is also an Earth Monarch; it is really confusing.”

Everyone began to discuss; the original topic was the Divine Palace, and now the subject of discussion has shifted to Yi Tianyun.

Yi Tianyun's identity and cultivation are special; how can he not attract attention?

“This kid is finally here. I want to see what he can learn in the past few months!” When Elder Xiao Tian saw Yi Tianyun, he immediately smiled.

He thought Yi Tianyun was a fool, but Elder Dong Yun was even more stupid; he let Yi Tianyun go on stage. If Elder Dong Yun doesn't let Yi Tianyun go on stage, he doesn't think there is a problem.

He would rather let Yi Tianyun lose face than let himself lose face. This is the whole camp, but Elder Dong Yun still sent Yi Tianyun on stage; how can he not be a fool?

"Master, is this human boy who made you lose face?" A handsome young man beside him looked at Yi Tianyun with cold eyes.

"Yes, he defeated your junior brother and made me lose face!" Elder Xiao Tian gritted his teeth and said, "In this competition, all of you have to perform well and let them lose even more miserably!"

"Master, haven't they lost miserably enough in the past?" Heaven Monarch Shu Bo's eyes were filled with mockery.

Thinking about it, it makes sense. All along, their results have always been average. This time, I don't know where their luck came from, but they ran into two outstanding disciples who were not bad. However, compared to you guys, they are still a step behind! Elder Xiao Tian sneered, "No matter what, you will suppress them in the competition!"

"That's for sure. Not only will you suppress them, but you will also suppress everyone!"

They laughed, filled with confidence as if they had some kind of secret weapon.

While everyone was talking about them, Yi Tianyun's expression was indifferent, not nervous. This is nothing for him to be anxious about; as for the eyes of others, he does not care.

This is not a problem for him; he has long been accustomed to it.

"Junior brother, don't be so nervous and ignore their opinions; prove yourself later." Senior Sister Huo Lian comforted him.

"Senior Sister Huo Lian, it's okay. I won't be nervous." Yi Tianyun smiled.

"It's good that you are not nervous. Just focus on the competition, no matter what others say." Senior Sister Huo Lian nodded.

"Yes, it doesn't matter. Just show your best skill." Senior Brother Yu Long also encouraged him.

Yi Tianyun nodded and followed them to their camp. They all had a fixed furnace. The furnace was fixed. There was no special furnace, and they could not use their furnace.

The only things that could change were their abilities or Demon Fire. The rest were fixed, such as materials. There would not be any changes.

After Elder Dong Yun brought them to the corresponding seats, he went to sit at the side. They were not the ones hosting the competition.

Elder Gou Huang and the others quickly flew over and took their seats at the front. The most eye-catching centre was still empty. Without a doubt, this was the position of the domain lord. However, the domain lord had yet to appear. It was unknown when he would come.

No one dared to complain to the Territory Lord. If they knew, it would be extremely disrespectful.

When everyone was discussing when the Territory Lord came over, suddenly, the void was torn open, and a beautiful figure fell from the sky, finally appearing in front of everyone.

## Chapter 1143

This woman was a Territory Lord, and the Territory Lord was a woman!

Although it wasn't strange that a woman was a Territory Lord, it wasn't that they had never seen one before, but they were still extremely rare existences. In this male and female hierarchy, she had a lot of ability to make her sit in the Territory Lord position.

Otherwise, even if her talent was higher than many people and her prestige wasn't strong enough, she definitely wouldn't have been able to sit in this position.

"This is a Territory Lord..."

Yi Tianyun's eyes lit up. He didn't expect a woman to be a Territory Lord. No wonder Elder Dong Yun said that the Territory Lord is soft but hard to get. Just because she is a strong woman, he knows she depends on her eating ability.

If he wants her to nod and agree, he has to show her his true ability. Otherwise, he will not pay attention to her.

Territory Lord Liu Li: Peak God Monarch Level cultivation. One step away from breaking through to the Heavenly Venerable level. She has an extremely rare Heavenly Water Sacred Body. She has a strong affinity for Water Attribute and has a special talent. Wearing High-Grade Heavenly Dao Level Equipment, she can release extremely strong power! Her overall combat strength is 30 million star force (normal state).

“30 million star force. This kind of combat strength is rough. No wonder she became a Territory Lord.”

When Yi Tianyun saw this fighting strength, he couldn't help but take a deep breath. Compared to other elders, it is a few streets away, but he has seen this type of strong woman many times.

For example, there is Bai Shuihuang in the Mortal World, and Ye Qingxuan is one of them, so this is not surprising; only when one is strong enough to manage many experts, otherwise there is no chance to be promoted.

“Territory Lord!”

Many elders stood up and respectfully shouted, including the surrounding disciples, all stood up and dared not sit down. This is their Territory, Lord; how can they not get up?

Some who had never seen a Territory Lord before could now see their true appearance, especially when they saw that the Territory Lord was a woman.

If anyone could marry a Territory Lord, he would have a meteoric rise.

“Mm, sit down.” The Territory Lord nodded lightly, indicating that everyone should sit down.

Everyone sat down. After she sat down, her eyes swept over the participants, and she finally stopped at Yi Tianyun.

“Huh? Human?” Liu Li Territory Lord was curious. She had seen so many competitions before; this was the first time she saw a human participating. “And it's a Nine Refinement Earth Monarch. This level is not bad. It's interesting.”

“Territory Lord, this is a new disciple. He has just finished his Heavenly Venerable Road and has received the inheritance of Heavenly Venerable Hao Han!” Elder Gou Huang stood up to explain.

“The Heavenly Venerable Road? The Heavenly Venerable Road, are there any survivors here? This is a pleasant surprise. I didn't expect the human race to finish it. It's truly shocking.”

“No wonder they sent someone on stage at the Earth Monarch level. They won’t be sent if they don’t have the ability.”

Elder Gou Huang was embarrassed. He didn’t know how to answer her. Elder Gou Huang couldn’t have said that Elder Xiao Tian forced him.

“Yes, we are looking forward to his performance.” Elder Gou Huang smiled awkwardly.

Territory Lord Liu Li nodded slightly and didn’t say much. She continued to look around, wanting to see if there were any newcomers. After looking around, she nodded lightly. “The Divine Palace Competition that happens once every hundred years is for selecting outstanding newcomers and focusing on nurturing them.”

“In the blink of an eye, a hundred years have passed. Now, it’s your turn to show off your skills. I hope you won’t disappoint me.”

“We definitely won’t disappoint Territory Lord!”

They all shouted excitedly. How could they not be excited to show off before the Territory Lord? If the Territory Lord took a fancy to them, it would truly be an explosion.

It wasn’t that there were no such things. Territory Lord Liu Li had taken a liking to a pretty good disciple before, so they took him to temper himself and then became an elder.

Territory Lord Liu Li nodded and smiled faintly. “Before the assessment, I’ll roughly explain the rewards for this time. Those who obtain the top three will receive my guidance. At the same time, I can satisfy a small request of yours. For example, if you want any martial arts or treasures, or if you want to go to Heaven Stealing Divine Land to gain experience, it won’t be a problem.”

Everyone’s eyes lit up. Territory Lord Liu Li’s reward was truly generous. Apart from giving pointers, there was also a small request. This request could be imagined by oneself. It was already very tempting to provide examples.

This kind of reward that wasn’t explicitly stated was even more tempting.

The group of participants were all excited. At least three of them would be able to obtain it. If there was only one, obtaining it would be very difficult.

“Then prepare to begin the assessment.” “The content of the assessment will be different every time. Most of the time, it will only be divided into three stages. Every time, it will be judged by the score. The lowest score is zero, and the highest is ten.”

“Those who scored, let the elders of Divine Palace evaluate this time. I will not participate in any score evaluation.”

When this proposal came out, everyone was suddenly shocked. Was there such a scoring method? It must be known that the elders of Divine Palace were hostile to each other. Many allied with each other, but there were more hostile ones.

For example, Elder Xiao Tian and Elder Dong Yun were hostile to each other and asked Elder Xiao Tian to give Yi Tianyun a score. Maybe he would give Yi Tianyun a score or a zero.

“Of course, I hope that everyone will treat this fairly. If you want to give this score, you must give a corresponding reason. If you randomly judge, I think you will know the result.”

While everyone was discussing, Territory Lord Liu Li added another sentence, causing some elders to plan on giving their opponents a low score to wipe away their cold sweat.

Territory Lord Liu Li's half-spoken words caused their hearts to race.

“It's alright, it's alright. If it were Elder Xiao Tian, he would give us a low score!” Heaven Monarch Yu Long heaved a sigh of relief. If they were to give points randomly, they would be done for.

“But this Lady Liu Li is really beautiful...” Heaven Lord Huo Lian is concerned not about the competition but about Territory Lord Liu Li.

“She is indeed beautiful, but the most important thing is that she can control one side and stand above so many experts with a female character. This is the most eye-catching thing for her.” Yi Tianyun commented.

Heaven Lord Huo Lian lit up, grabbed Yi Tianyun's arm and said excitedly, “Junior brother, you can talk about sister's heart. This is the model for us female cultivators! We female cultivators have always been low in status. Territory Lord Liu Li is simply our role model!”

“Don't worry, Senior Sister Huo Lian, you will also have a place in the future.” Yi Tianyun smiled.

He thought that his power in the mortal realm could be said to be controlled by women. If it were any other power, it would be unimaginable.

## Chapter 1144

She didn't say too much about the rules. She just gave all the evaluations to the elders of the Divine Palace and let them evaluate them themselves. Apart from being unable to provide their disciples with an assessment, the rest could be assessed.

The final average score was their score. It could be said that each faction had seven evaluations. They determined the score.

"That's the rule. I won't participate in any scoring. After all, I won't be able to forge any weapons. I won't be able to score this. Although I was the one who made the decisions in the past, I have decided to let the elders make the decisions this time. I will tell the elders in advance if there are any changes this time."

This was the first time Territory Lord Liu Li had changed. In the past, she had always been the one to decide the participants' scores. However, her eyesight wasn't bad. She could determine the better weapon, but there was a change this time.

"Territory Lord Liu Li, why have you changed?" Elder Gou Huang was rather curious about this.

"I just feel that some things are better to be changed, especially the contents of the test that I've decided on. There will be a greater change than in previous years. Therefore, I need the assistance of the elders. Otherwise, it will be difficult to evaluate." Territory Lord Liu Li's true opinion was that the change was too great and needed the elders' help!

The participants widened their eyes. Could it be that the assessment this time was a bit more perverse?

"So that's how it is. Then, I'll have to look forward to Territory Lord Liu Li's assessment. The content of each assessment is amazing!" Elder Gou Huang praised from the side.

The other elders all agreed. It wasn't flattery, but the questions from Territory Lord Liu Li were really good. It was amazing. The most important thing was that it would greatly help the assessment. It would test everyone's standards.

When these words entered the ears of the participants, they felt a little unsettled. What kind of strange special wood would Territory Lord Liu Li produce this time?

Territory Lord Liu Li smiled and looked at the elders. "Then I'll have to trouble the elders of the Divine Palace later."

"I don't dare to accept it. I don't dare accept it. We are very willing to serve you."

The elders of the Divine Palace all agreed. They all knew Territory Lord Liu Li's abilities, so they were naturally willing to serve him and had no objections.

Territory Lord Liu Li immediately looked at the many participants and said, "Before the competition begins, let's make a simple rule. We can't interfere with each other. Everything is based on our strengths. If there is a violation, we will be sentenced to ten thousand years in the Reflection Tower!"

This was harsh. He had been sentenced to ten thousand years in the Reflection Tower but hadn't gone crazy. Of course, this was still considered good. At the very least, it wasn't a direct death sentence. That was the true severity.

Everyone nodded. They naturally couldn't interfere with each other during the competition. Although there was a competition, they absolutely couldn't interfere with each other. This was the scope of the rules.

This wasn't a competition. There was no need to interfere with each other. There was no need for that.

"Next, prepare to begin the first test."

With a wave of her hand, countless pieces of metal fell from the sky and rained down on them.

They quickly threw the iron pieces into the sky and landed beside themselves. They didn't throw the pieces of iron to the side. This was a question given by Territory Lord Liu Li. How could they throw it out?

When they received the pieces of iron one after another, they found that these pieces of iron were all very ordinary pieces of iron. They were similar to ordinary black iron in the mortal realm. It could be said that they were everywhere and were very worthless. It could be said that they were similar to the stones outside. This time, Territory Lord Liu Li threw out this piece of iron. Could it be used as a material for forging?

Yi Tianyun took the piece of iron and looked around carefully. It was indeed ordinary black iron, without any bright spots.

"This is the question?" Yi Tianyun narrowed his eyes and looked around. He didn't know what Territory Lord Liu Li wanted.

He didn't know what question Territory Lord Liu Li would give, but from the looks of it, it was not a simple question. However, thinking about it, if it were too simple, there would be no meaning to give a question.

It must be a question with an abnormal point. The harder, the better, so that they can see their level.

"You all got this Black Iron; how long have you not seen this Black Iron?" Territory Lord Liu Li looked at them indifferently.

Everyone looked at each other awkwardly. Some of them had only looked at it once or not. How could they have seen this kind of scrap metal before?

Most of the people present had grown up with gold keys in their mouths. They had never even touched a piece of trash like black iron. At most, they had seen it before. Of course, that didn't mean they didn't know how to forge artefacts. The materials were all the same anyway. If their techniques were strong, then there wouldn't be a problem.

"I think many of you haven't seen it before. Or perhaps you have. You haven't touched it." Territory Lord Liu Li said calmly, "I know that none of you have ever used this black iron, but I am using something you have never used before as the test subject!"

"Some people know about it, but this does not affect fairness. After all, even if it has never been used, it can be used with just a slight attempt. This is your most basic foundation. If you don't have this foundation, don't stay in the Divine Construct Palace!"

Everyone's eyes were solemn. These words were indeed true. Even if it were a stone, they must refine it into gold. After all, even if they couldn't, it didn't mean that the others couldn't.

"The topic of this round is very normal. You will use this black iron as the foundation and combine it with other materials to refine weapons. The higher the grade, the higher the score. First, it is not simply adding black iron into the materials but using black iron as the main material. If the final weapon refined by the black iron is not the main material, then the results will be ineffective!"

If they were to simply use the black iron to refine weapons, even if the elders of the Divine Construct Palace were to refine it, they would not be able to refine a very high-quality gun. Thus, they had to add materials. However, adding materials was also very important. Not just adding any materials could crazily increase the grade.

The capacity of the black iron itself was limited. If some materials were thrown down, the black iron would directly explode. It would be unable to accommodate these overbearing materials, or other fierce materials would dominate it.

For example, adding a higher grade ore would instantly occupy the position of the black iron, and the black iron would undoubtedly be reduced to a supporting role.

If he refined it like this, the questions given by Territory Lord Liu Li would naturally lose their meaning. She wanted to create high-grade materials for this fragile piece of iron as much as possible.

This was a comprehensive test of their control over fire, understanding of materials, and research on the fusion aspect.

Everyone felt pressured for the first stage to have such a difficult problem.

“Interesting. This is a difficult problem for Territory Lord Liu Li. It is a bit difficult...” Yi Tianyun grabbed the black iron and smiled. This is not difficult for him at all.

At first, he started forging the black iron, but no one knew this black iron better than him.

## Chapter 1145

The fragility of the black iron gave many contestants a headache. They could only find out how to refine the best results through continuous attempts.

When she saw that the contestants were having a headache, she smiled brightly, as if this was the happiest thing for her.

“The rules are roughly like this. Since you haven’t touched the materials before, you have to give more time. It’s half a month,” she continued.

Everyone nodded. Half a month was enough for them to try. So, the difficulty of refining the most ordinary materials was relatively low. What they needed to do was to try to merge the materials to the extreme.

“Little brother, you must work hard!” Senior Sister Huo Lian nodded to Yi Tianyun and encouraged him.

Yi Tianyun nodded with a smile. In the face of their concern, he still felt very warm, at least not scheming and scheming.

Not long after, the assessment began. Many participants immediately took out the black iron to refine it. They melted the black iron again and again. Then, they threw the materials of a high grade into the mix and began to forge it.

“Bang! Bang! Bang! Bang!”

This was just the beginning. There were immediately explosions coming from the side. It meant that someone had directly refined it. The black iron material was too weak. If someone casually smashed it down, it would naturally cause an explosion.

The participants were covered in dust from the explosion. However, these were all small explosions. There were no problems at all. It was really embarrassing to refine an explosion among so many people.

However, no one will laugh at him. In this period of time, no one will have the time to laugh at others. They all know that they may be the next person to refine the explosion.

If they want to try to match the perfect material, they need to refine more. It is very likely that they will also refine the explosion. After all, they need to try where the real limit of the black iron is. Only when they are stuck in the limit can they have a limited space to accommodate more precious materials.

Yi Tianyun calmly took out a large pile of black iron, not pieces of them. He does not need to do this at all. From the beginning, he knew where the limit of black iron was.

Don't forget, in order to level up, he refined many basic materials. How can he not know the situation of black iron? Only these geniuses who grew up with gold keys will not see the situation of black iron, and need to slowly explore.

Under the eyes of everyone, they saw Yi Tianyun quickly refining the materials. A large pile of black iron was quickly melted into molten iron, and then he began to throw the materials into it. Because of the fast technique, most people can't see what it is.

Of course, even if you see it, you can't copy it. Although the rules don't say that you can't copy the other party, but whoever does this will definitely be despised.

This means that his ability is not good. It is really shameful to copy other people's refining method directly. The rules are not said, but the elders will definitely give low points.

Seeing Yi Tianyun so bold to throw the materials, many spectators were shocked. Isn't such a rough method not afraid of explosion?

"This kid's refining method is really rough." Elder Dong Yun shook his head, only hoping that Yi Tianyun can win this game.

Because it is relatively rough, Territory Lord Liu Li quickly noticed that Yi Tianyun is the only one who can be so rough! It can be said that he is absolutely bold enough, the materials thrown in are also extremely rough.

The materials thrown in are also not low grade, but it just doesn't explode, and it is extremely perfect to merge inside.

“Although the material thrown in is similar to the black iron, it can neutralize the rough effect of both sides. On the contrary, it can be integrated into the black iron material with a neutral effect. It seems that I am familiar with the mastery of the material.” Territory Lord Liu Li commented from the side.

She did not know how to forge artifacts, but that did not mean that she did not know anything. After hosting so many competitions at the Divine Construct Palace, if she did not even know this, she might as well smash her head against the wall.

“Yes, it seems that he is familiar with the black iron material.” Elder Gou Huang added.

“Tell me about his identity and background.” Territory Lord Liu Li was a bit interested in Yi Tianyun.

“He came from the Mortal Realm and joined the 1st Grade God Territory. He won the God Territory’s War of Ascending to Heaven and finally joined our Heavenly Spring God Territory.” Elder Gou Huang thought for a moment and added, “It can be said that they climbed up layer by layer from the bottom of the Mortal Realm.”

“No wonder they are so familiar with the black iron. So they are cultivators of the Mortal Realm. To be able to climb from a human cultivator of the Mortal Realm to a Nine Refinement Earth Monarch, this is truly unimaginable.” Territory Lord Liu Li nodded. There was no discrimination in his eyes. Instead, there was a bit of admiration.

It’s not easy to reach such a high level from the Mortal Territory. It’s amazing to reach this level at such a low starting point.

Yi Tianyun threw in the materials again and again. After throwing in more than a dozen materials, he stopped and didn’t continue to throw in the materials.

After merging into one, a ball of liquid floated in the air, and then he slammed the liquid on the iron plate in front of him, and then began to smash the liquid with a crazy hammer, and began to carry out the final refining!

The audience on the side nodded repeatedly, thinking that it was quite good, at least not because his cultivation was low, and he was behind the other participants.

Soon, under his crazy hammer, a long sword was forged by him. This kind of rough method was generally used to forge giant swords and giant axes. Who knew that this time it was used to forge a long sword. It was amazing.

“Dang!”

Under the last heavy punch, Yi Tianyun completely forged the long sword. It seems that there is no special luster on the surface, completely retaining the original black iron effect. It is simple and plain, everything is very low-key.

However, under this low-key surface, it is actually a Low Grade Rebirth Level Weapon! With black iron as the main weapon, it can actually create a Low Grade Rebirth Level Weapon. The difficulty of forging it is definitely not low.

“It’s done.”

Yi Tianyun looked up at Liu Li and said, “Territory Lord Liu Li, disciple has successfully forged it.”

Everyone was shocked. They thought that Yi Tianyun just wanted to try it first, and then continue to forge the second one to see if he can produce a higher grade. Who knew that he would immediately recognize this weapon as a tool for the competition.

The hearts of many elders sank. They didn’t expect Yi Tianyun to be so casual. He didn’t even want to try it. He directly handed it over. After all, handing it over in advance will not give any additional points.

In their opinion, Yi Tianyun is trying to win the eye. So many participants have not finished, but he is the first to complete it. Isn’t it to win the eye?

## Chapter 1146

Yi Tianyun naturally will not choose to complete the first one to win the attention, but he has a deep understanding of black iron, so there is no need to continue to try.

No matter how he tries, the standard is like this: unless he uses a more powerful flame, in his opinion, it is already the limit level, and it is difficult to continue to take half a step forward.

As for what others think, that is their matter. Yi Tianyun feels that he has tried his best, and even if it is someone else, it is impossible to surpass his level!

In the end, this is already the highest level weapon that black I can forge, and unless the proportion of black I is reduced, it is difficult to improve the grade.

“Only try once?” Elder Gou Huang frowned, thinking Yi Tianyun was a bit hasty and not serious enough.

Everyone else has been trying. Yi Tianyun is enough, and it is puzzling.

“One time is almost enough. If you know more about this material, then one time is almost the same.” Territory Lord Liu Li has a different opinion, and at the same time, he signalled the elders of Divine Construct Palace to go over and check.

Every mission should start soon. Although there are not many participants, they are all ready, so naturally, they will check first.

Elder Dong Yun can not participate in the grading following the seven elders, so he can only watch from the side.

Elder Xiao Tian took the lead, came to Yi Tianyun, picked up the long sword, checked it a little, and gently flicked it; the long sword vibrated slightly.

“The level of forging is not bad, but the grade is a little low. It took so many materials to reach the Low-Grade Rebirth Weapon level?” Elder Xiao Tian looked at Yi Tianyun and said, “I think it can be a little higher, not the extreme level. I will only give five points.”

“Well, we also think the grade is a little low. I think it can at least be refined to Middle-Grade Rebirth. The level of Low-Grade Rebirth is too low. I also give five points...”

“The materials are harmonious in all aspects, and the forging method is good, but the grade is too low; give five points.”

...

Each gave a low score, and the highest was only six points. The lowest was five points, a passing score. Elder Xiao Tian was highly prejudiced against Yi Tianyun but would still give a suitable score.

Territory Lord Liu Li was watching from the side. How could he dare to give a zero directly? He would be scolded to death. No matter how bad it was, it was impossible to have zero points unless it was the kind of failed refinement.

“Bullshit!” At this time, Elder Dong Yun shouted angrily from the side, “What kind of grade can be higher? When the black iron is in the dominant position, to break through the higher limit, not only does it need stronger flames, but it also needs extremely rare materials. The materials provided now are completely not at the level of rare. The weapons refined by the Heaven Monarch can be considered at the highest level! Only five points. I am very dissatisfied!”

Elder Dong Yun jumped out at this time. He was very dissatisfied with this score.

“Elder Dong Yun, what do you mean by this? Do you think that we are not professional enough? Do you think we can’t even determine the limit of the black iron?” Elder Xiao Tian said in a deep voice.

The other six people looked at Elder Dong Yun with dissatisfaction. Elder Xiao Tian did not bribe them. They only said what they wanted to say.

“That’s right. I just want to ask you, have you understood the black iron?” Elder Dong Yun said sternly, “I think you have never touched it before, just like the participants here. Most of them have never touched it and do not know the limit. I have touched it before, although I do not know it very well, the level of refining from Earth Monarch Tianyun is not low.”

Elder Xiao Tian and the others were said to have a sore point. They did not carefully understand the material of black iron. Only from observation do they have a little understanding of the situation.

For example, Yi Tianyun knows a little about refining and thinks they can take a step higher.

“Are you going to score now, or will we score?” Elder Xiao Tian retorted coldly.

He couldn’t be bothered to argue with Elder Dong Yun and directly asked the biggest question. The person who scored wasn’t Elder Dong Yun.

Elder Dong Yun was at a loss for words for a moment. It was indeed not his turn to score now. Interjected was also against the rules. They all looked at Territory Lord, wanting to see what she would say.

“Elder Dong Yun, if you want to comment, you’ll be able to comment on the next contestant,” Said Territory Lord Liu Li.

Territory Lord Liu Li’s words meant Elder Dong Yun shouldn’t interrupt and just watch from the side.

Elder Dong Yun could only remain silent. Elder Xiao Tian’s pleased expression finally allowed him to turn the tables.

Yi Tianyun looked on coldly. He did not refute. He just stood there. The eyes around him were full of ridicule. They did not expect him to be so tragic. He looked very strong. In the end, he ended up with a low score.

Yi Tianyun immediately sat down in the same place. His score was already finished. On average, it was only five points. It was too low.

Heaven Monarch Zhi Shui and others felt it was a pity in the camp. How could he get such a low score? His performance seemed good, but why was his score so low?

They were all very unhappy, but they could only accept their fate.

With mocking eyes, soon, there were explosions on the side, attracting everyone's attention. One after another, they failed, and it was good to keep it from exploding, not to mention succeeding.

As time went by, the explosions became less and less, and they were more and more skilled in refining, but everyone was surprised to find a big problem.

No matter how they refine it, the grade is lower than the Low-Grade Rebirth Level. Other weapons of the Mortal Realm Level can not be upgraded to the high level by Yi Tianyun's refining!

The seven elders who had scored before now felt extremely embarrassed. Were they wrong?

Now that more than half of the time has passed, the weapons they refined are better than the previous ones, but no one can reach the lower level of reincarnation.

However, with a sound, someone successfully refined the Low-Grade Rebirth Level Weapon, letting them see hope, but soon they were disappointed again. The participants who successfully refined the Low-Grade Rebirth Level Weapon can not continue to improve the level when they continue to refine it.

After refining repeatedly, the level remains firmly locked on the Low-Grade Rebirth Level Weapon, and we cannot go up to the next level!

This is still good. Among the twenty-four participants, only a few can successfully refine the Low-Grade Rebirth Level Weapon. Most of them stay on the other Mortal Territory Rank.

This is not a very awkward problem. Yi Tianyun, meditating on the side, does not need to refute anything. The score they give is equivalent to a slap on their face.

If Yi Tianyun's score is like this, their score is also the same!

## Chapter 1147

The time of the competition is getting shorter and shorter. Currently, there are only less than seven people who can successfully refine a Low Grade Rebirth Level Weapon. Yi

Tianyun is one of them. Heaven Monarch Huo Lian takes up one of them. Heaven Monarch Yu Long has not refined it for the time being. He is still working hard.

All of them are sweating. It is several times more difficult than letting them refine a High Grade Rebirth Level Weapon.

Most of them are still lingering at the level of Divine Tool, but they are not called Divine Tool in God Territory. Instead, they are called Star Weapons, which are extremely common weapons.

All of them are proud sons of heaven, but they are not even as good as Yi Tianyun who was ridiculed before. The highest grade is to refine Star Weapons. Before, other participants looked at Yi Tianyun and felt that Yi Tianyun was very ridiculous. Now it seems that the one who is really ridiculous is himself!

They don't even have the qualifications to laugh at Yi Tianyun. They are all stuck at the Star Weapon Level. No matter how much they refine, they can't get up. Now their head is full of sweat. Their requirements are not high now. They just want to be able to refine Low Grade Rebirth Level Weapon. It is enough.

"Hahaha, those participants can only refine Star Weapon! Junior brother is not the worst, even the best!"

"That's right! I thought junior brother has no chance of winning. Now it seems that little brother is very confident!"

Elder Dong Yun smiled and looked at Elder Xiao Tian. His face was ugly. The highest score they gave was six points, which meant that if they used this score, it could be said that they could not even reach four points.

Thinking back to what they had said before, they felt extremely awkward. They even thought that they could refine a higher level. Who knew that the highest level was the Low Grade Rebirth Level? What Middle Grade Rebirth Level?

"What are you guys doing? Hurry up and refine a higher level for me!" Elder Xiao Tian gritted his teeth and shouted from the side.

Right now, he was urging his disciple to refine a stronger level. Heaven Monarch Shu Bo was drenched in cold sweat. He did not know whether to laugh or cry. "This black iron is too trashy. It is even worse than stone. Disciple has tried his best to refine a higher level, but he still can't refine it. The difficulty is too high."

Heaven Monarch Shu Bo is already at his limit, unless he is given more time, but in this time, he really can't refine a higher level.

Elder Xiao Tian was so angry that he almost exploded. He didn't expect the difficulty to be so high. Yi Tianyun also succeeded in one go. It is obvious that he is familiar with black iron, so he can forge it so quickly.

"Damn, how can this be!" Elder Xiao Tian's expression was extremely ugly. The other elders were also not much better. This was a slap to their own face.

Either they had to bite the bullet and continue to beat the score down, or they would change the score again. But if they changed the score again, wouldn't they admit that they were wrong?

For a time, many elders were thinking about how to reply more appropriately. Elder Dong Yun laughed from the side. This was to see what they said. It was absolutely impossible to back down.

Soon, someone successfully refined it and let the elders score it. This was already their limit. They could only let the elders score it.

"Elders, what is the score for this weapon?" Elder Dong Yun looked at them with a face full of ridicule.

Many elders looked embarrassed, this is the second one to let them score except Yi Tianyun. They will not let the elders score until the end.

After all, they don't know how high quality they can refine until the end, maybe in the end, they can refine a higher grade and get higher scores?

Who knew how to refine it? It was still the same grade. There were no changes. It proved that it was too difficult to refine a weapon with black iron. It was simply a nightmare.

"From the level of a Star Weapon, then three points." Elder Xiao Tian braced himself and gave a score. He did not want to be slapped in the face.

He would rather be stubborn and get a higher grade than give a higher grade. This way, his face would be swollen from the slap. This was something related to face. They would not admit it no matter what.

"Yes, yes, yes. The grade is too low. We will also only give three points!"

All of them chose to lie through their teeth. All of them agreed. It was still more important to have face. They were grand elders and so many people were watching. Even Territory Lord Liu Li was watching them from the side. No matter what, they could not lose face.

“Three points?” Elder Dong Yun snorted. It seems that Elder Xiao Tian’s standards are really high. It seems that in order to obtain a high score, one must at least refine the black iron into a High Grade Rebirth Level Weapon. Only then can one obtain a full score, right? Or can one only obtain a full score from other levels of the Heavenly Dao?

He did not mind slapping his face at all, especially when Elder Xiao Tian had refuted him earlier. Now, it was his turn to get back at him.

Elder Xiao Tian straightened his neck and said, “That’s right. Even if it is black iron, it can still be refined into a High Grade Rebirth Level Weapon. It must be treated strictly!”

“That’s amazing. Now, Elder Xiao Tian, show me if you can refine a High Grade Rebirth Level Weapon and use these materials!” Elder Dong Yun sneered.

They provided materials for many participants. They did not need to bring their own materials. Only in this way could they ensure fairness. If someone took out extremely rare materials and threw them in, it would no longer be a strength. It would be a competition of whose wealth was more abundant.

Elder Xiao Tian’s face sank. Although he knew that his abilities were not small, seeing the situation at the scene, it would definitely be hard for a clever woman to cook without rice. Without High Grade Materials, it was impossible to forge a High Grade Weapon.

Unless it was an extremely heaven-defying technique, such as triggering the Heavenly Tribulation to temper something, then this was already beyond their scope.

“There’s nothing else to say. Even you can’t forge it yourself, yet you still give such a score. It’s truly laughable!” Elder Dong Yun waved his hand, and he wasn’t polite in retorting at all. He was simply going to fight to the death.

Elder Xiao Tian was like an enemy who had killed his father. His words were extremely vicious. This wasn’t Elder Dong Yun being vicious. Elder Xiao Tian was the first to be heartless. Then, don’t blame him for being heartless!

“Elder Xiao Tian, is that true?” Territory Lord Liu Li looked at them with great interest.

Elder Gou Huang shook his head. How could they not know what was happening inside the Divine Contract Palace? Their relationship could be said to be extremely chaotic. It was time to properly rectify things.

However, they weren’t too clear on how to do so.

“No, it’s not like that. I feel that I can at least forge a Middle Grade Rebirth Level Weapon. That’s why I gave such a score.” Elder Xiao Tian’s tone became weak.

“There is a difference of five points between a Middle Grade Rebirth Level Weapon. This score is really strict!” Elder Dong Yun snorted. In his opinion, even if he can forge a Middle-Grade Rebirth Level Weapon, he can at least get around seven points, not five points!

Yi Tianyun shook his head and smiled. Elder Dong Yun is so protective that even he is afraid of himself!

## Chapter 1148

Elder Dong Yun’s sarcasm made Elder Xiao Tian’s face look increasingly ugly, but he couldn’t refute anything.

Everything comes down to one point: they are too rash and overestimate the limited effect of black iron. Although they are elders, it doesn’t mean that their eyesight can see the limit every time. They have to refine a little to know their general ability.

Yi Tianyun has refined before, and he has the Investigating Eye, so he doesn’t need to try. Just one time is enough, not too much.

“Elder Dong Yun, the gap between Low Grade and Middle Grade is like the difference between clouds and mud, and it is normal for the score to be low! Now, we are all using this as a standard, and we are not biased!” Elder Xiao Tian still stubbornly retorted, not backing down to say that he had made a mistake.

“Since that’s the case, then it’s about time.” Elder Gou Huang advised from the side. He knew that there would definitely be no result if they continued to argue, so he could only stand up and persuade them.

“Since Elder Gou Huang has already said so, then I have nothing to say about this. Then you can score well!” Elder Dong Yun flung his sleeves and snorted coldly. He still felt very unhappy.

Following Elder Xiao Tian and the others, they could only bite the bullet. One by one, they scored lower than the other. In the end, some people could only get two points. It was even more miserable and pitiful.

Although everyone scored like this, it seemed that the score was really embarrassing. To the outsiders, did they think that this group of people were all trash? The highest was only five or six points. They did not even get eight or nine points.

The geniuses of the Divine Construct Palace this time were all crippled geniuses? They knew the reason for this. It was just that they were unwilling to say it out.

“This batch of participants is very bad. Even the elders’ requirements are less than half.”

“That’s right. I don’t know if it’s because their talent is too bad or if their teaching is too bad, but their scores are all so low.”

“That’s right. They are much worse than before. They haven’t been able to refine the results that the elders need...”

For a time, everyone began to discuss. The discussion of the Spear Palace and the other Divine Palaces was extremely noisy. They could even hear it. Every word was more unpleasant than the last. It made Elder Xiao Tian and the others feel ashamed. They wanted to dig a hole and dig a hole.

However, if he says it out loud, he will kneel and make a round.

Soon, the score was finished. Yi Tianyun actually got one of the highest points and was tied with the others because he was the first one to make it. It was even more impressive.

Territory Lord Liu Li looked at him more and looked forward to him.

“Territory Lord Liu Li, the score is finished.” Elder Xiao Tian and the others stood in front of Territory Lord Liu Li with their heads lowered. Only Elder Dong Yun raised his head.

Elder Dong Yun wasn’t ashamed. He knew what was going on, so he naturally wouldn’t be afraid to meet Territory Lord Liu Li lord’s gaze.

“Mm, the performance of the participants this time is pretty good. Most of the participants are still able to forge such a good weapon without touching the black iron. It’s quite outstanding.” Territory Lord Liu Li didn’t say that the elders were wrong but instead praised the participants.

Although Territory Lord Liu Li wasn’t a professional, she still knew what was going on. There was no need to talk about the elders’ schemes and intrigues. In his opinion, the performance of the participants was still something to be sure of.

“That’s for sure. Our disciples are all very outstanding.” Elder Xiao Tian hurriedly said. If his disciple’s performance was bad and Territory Lord Liu Li was unhappy, they would definitely suffer.

“Of course, I know this. Your performance is good, so that I won’t say anything else.” Territory Lord Liu Li was indeed capable, but some things couldn’t be done too forcefully.

Moreover, Elder Gou Huang and the others would deal with it, so she didn’t have to do everything herself. She had to do everything herself, so why would she need someone of Elder Gou Huang’s level?

Although they were all known as elders, there were only a few who were truly at a higher level. Among them, Elder Gou Huang was the oldest. He could call out his full name, and he could also call him Grand Elder!

As a Grand Elder, he could be said to be the greatest existence beneath Territory Lord Liu Li. Who dared to refuse?

All the elders nodded and didn’t say anything. What else could they say now?

Then, they all returned to their respective camps and prepared to go to the next round. This round did not open a particularly large distance. If the main score were too low, Yi Tianyun would definitely be able to open a long distance.

Yi Tianyun has no complaints, and these things are not things he can control. He just does his assessment on the side.

“This time, Yi Tianyun Earth Monarch’s performance is very good. It can be said that I vented my anger!” Elder Dong Yun thought about how Elder Xiao Tian had been repeatedly defeated just now and felt very comfortable in his heart.

“That’s right. Junior brother has quite a deep understanding of this black iron. It was completed so quickly. I’ve tried many times, and only then did I barely manage to reach the level of Lower Grade Rebirth Level.” Heaven Monarch Huo Lian shook his head, but he really wiped away his cold sweat for himself, almost falling behind by a step.

“That’s right, the difficulty is really high. I almost couldn’t complete it.” Heaven Monarch Yu Long also nodded and wiped his sweat, “I almost couldn’t rush up. I needed to study it for a long time.”

“I was just lucky, and I just put down the questions I have seen. Otherwise, I really can’t get it.” Yi Tianyun smiled modestly.

“Luck is also a type of strength. This is called being knowledgeable!” Elder Dong Yun smiled.

“Hmph, I heard that you came from the Mortal Realm. No wonder you are so familiar with the materials of the Mortal Realm. You are also knowledgeable. You only know a

bit about low-grade materials. What's so amazing about it?" Elder Xiao Tian mocked. Elder Xiao Tian mocked from the side.

Their camp was relatively close, so Elder Xiao Tian naturally heard their conversation. He couldn't help but mock them from the side.

"You're saying that there's a problem with Territory Lord Liu Li?" Elder Dong Yun snorted coldly and threw out a single sentence, ruthlessly blocking Elder Xiao Tian's mouth.

Elder Xiao Tian was speechless. If he continued, it would be the same as saying that Territory Lord Liu Li was in the wrong. When the time came, he really would have to bear the consequences.

"I'm too lazy to argue with you. Let's see what the next stage is like!" Elder Xiao Tian looked at Yi Tianyun and sneered, "I hope that your luck will be so good in every game. Let's meet the materials of the Mortal Territory!"

After Elder Xiao Tian left, they all felt extremely unhappy.

"Little brother, don't mind that guy. You can still lead the next round!" Heaven Monarch Huo Lian said.

"I will." Of course, Yi Tianyun will not pay attention to Elder Xiao Tian. He has never put these people in his eyes. They are all jealous people. Why should he pay attention to them?

His current goal is to rush forward three times, and the rest is not worth thinking about.

## Chapter 1149

The first round was finally over. Many people were very interested in the second round. They didn't know what kind of questions Territory Lord Liu Li would continue to issue. In the eyes of the audience, the more abnormal, the better. They just wanted to make the competition a bit more interesting.

Especially the first round. A piece of black iron allowed everyone to refine explosions one after another. Normally, it was a very rare thing. However, these geniuses were put in a difficult position here.

There were people outside the mountain. There were mountains beyond the hill. They still had a lot of things to learn. Otherwise, they would refine explosions like before.

This was based on the fact that the materials were relatively ordinary. If the materials were rare, then refining failure meant a great loss! Therefore, eyesight was especially important. They absolutely could not make a mistake. Otherwise, it would be a failure.

If they failed, it would be considered good. However, they were afraid that a serious explosion would directly blow them away. At that time, not only would their weapons be damaged, but they would also need to recuperate for a long time.

“The first round of the competition has already ended. All the participants were outstanding and did not disappoint my expectations. I believe everyone has seen it. They have failed many times, but they still managed to refine a good weapon in a short period. I believe that if they were given a little more time, they would be able to refine a better-grade weapon.”

“In this round, I will test the participants’ ability to adapt and their familiarity with materials. Everyone seems to have failed many times. In fact, their performance has already exceeded my expectations.”

“Therefore, everyone should not think that they have failed. In fact, comparatively speaking, they have already performed very well.”

Territory Lord Liu Li didn’t scold him directly but praised him instead. She didn’t think that the participants were weak but rather felt that they were pretty good.

“Then let’s begin the second round of the competition. I believe everyone has been waiting for a long time.”

Territory Lord Liu Li’s words caused the hearts of all the participants to jump. The second round was finally about to begin. Many people wanted to win a second round. The difference in scores was too low. If they didn’t pull away the points, it would be difficult for them to make it into the top three.

The top three were the highest honour, and only then would they be able to enjoy a good reward.

The audience perked up and felt that a good show was about to come. Territory Lord Liu Li’s questions were often unexpected and interesting.

“I’ll let you refine pills for this round,” Territory Lord Liu Li said.

“Refine pills?”

The participants were all dumbfounded. They wondered if they had heard wrong. It was actually pill-refining.

“Territory Lord Liu Li, is this stage of pill refining?” The first row of participants braced themselves and asked.

The other elders wondered if they had heard wrong. They were from the Divine Construct Palace and specialised in forging weapons. Why were they refining pills? Although both of them were refined from flames, the difference was extremely great. They were on a completely different level.

“That’s right. Did Territory Lord Liu Li make a mistake?” Elder Lian Gouhuang stepped forward and asked.

They all wondered if they had heard wrong. The Pill Refining Palace was among the other spectators. They were all dumbfounded when they listened to this question. Was this a question for them?

Territory Lord Liu Li soon shook her head. “There is no mistake; it is pill refinement. This pill refinement does not require you to refine any high-grade pills. It is to see what grade of pills you can refine. These are the materials. With your abilities, the higher the grade you can refine, the higher the grade. Everything depends on the grade you refine.”

There was a large pile of materials already prepared on the side. They were basically all Medicinal Pill from Mortal Territory Rank to Medicinal Pill material from God Territory Rank. They were placed here for them to choose from. However, they did not provide any very precious materials. After all, they were all disciples of the Divine Construct Palace, and their ability to refine pills was basically zero.

All along, those who could forge basically did not know how to refine pills; those who knew how to refine pills basically did not know how to refine weapons. What this place said was not that they did not know anything at all but that they only knew a portion and would not be particularly deep.

The two were not on the same level. To be able to cultivate one of them to a very good level was already very good. As for cultivating both to an extremely high level, the energy required was extremely shocking. Most of them would find it difficult to achieve this.

Of course, this didn’t mean that there weren’t any. In the end, there were still a few people who could do this.

Territory Lord Liu Li wanted to dig out their potential and see if they could produce one or two super geniuses!

"I'm done for. I don't really know how to refine pills. I know some simple ones, but I don't understand those that are too difficult!" Heaven Monarch Yu Long was on the verge of tears. Who knew that such a perverse topic would appear in the past?

"I do know a little, but not a lot..." Huo Lian frowned as well.

The others were the same as well, their faces full of worry. They had put all their energy into forging weapons, so how could they have the extra power to refine pills?

When they heard this question, they all wondered if they had heard it wrong or if Territory Lord Liu Li had made a mistake. Reality proved that there was no mistake. It was true.

Yi Tianyun laughed. What do you mean by not taking the test? Do you actually want to take the refining test? Although his level of refinement is not very high, it is definitely a lot higher than that of all the participants present!

That's right, it's a lot higher, leaving them far behind.

Territory Lord Liu Li didn't make a mistake; the fault was that she thought she could test the participants hard, but in fact, it gave Yi Tianyun a great chance to surpass her.

"The upper limit of the second stage is relatively high, with a full score of twenty points. This means that the higher the rank you get, the higher the score. This will increase the distance. As for the score, it will be judged by the elders of Refining Palace." The words of Territory Lord Liu Li were one, and the other elders did not know whether to laugh or cry, but they had no choice.

The elders of Refining Palace joined in one after another. Originally, it was a special area of the Divine Construct Palace, but even the Refining Palace joined in. Originally, Refining Palace and Divine Construct Palace were like fire and water.

The reason was very simple: that was to rob people! The two were essentially the same. They needed to have a good flame to join. Therefore, with a good flame, they would all request to join.

Now that they joined the battle, the elders of the two sides became hostile to each other, both looking at each other unhappily. Originally, the elders of Divine Construct Palace were hostile to each other, but now they suddenly united and looked at the elders of Refining Palace.

Yi Tianyun saw this situation and smiled. It seems that Territory Lord Liu Li really has a set of things. Through the topic of "foreign enemies", many elders have formed a group.

## Chapter 1150

“Territory Lord Lui Li, we will definitely score well!”

The elders of the Pill Refining Palace spoke up one after another. However, there weren’t many elders coming down. There were only three of them. It wasn’t that the elders and elders of the Pill Refining Palace were young. It was just that they didn’t need that much. The three of them would be enough to score.

The Divine Construct Palace needed to score all of them for the sake of fairness. The Pill Refining Palace was different. They were completely outsiders. The score was absolutely fair. Thus, there was no need for too many people.

“Then I’ll leave it to the elders of the Pill Refining Palace.” Territory Lord Lui Li smiled faintly.

The Pill Refining Palace elder turned his head to look at Elder Dong Yun and the others, a cold glint of disdain in his eyes.

“I didn’t expect to give your disciples a score here. Let us see how many pill refining masters have been delayed by artefact forging.” The one who spoke was Elder Wu Yuan, the chief elder of the Pill Refining Palace.

Although he couldn’t compare to Elder Gou Huang and the others, he was already very close. According to the current situation, he wasn’t far from becoming someone like Elder Gou Huang.

“A refining master who has been delayed by artefact forging? I still think that he is an artefact forging master who has been delayed by pill forging!” Elder Dong Yun snorted coldly. He immediately pointed his spear at Elder Wu Yuan and retorted back without any trace of politeness.

“That’s right. Some geniuses should have joined the Divine Construct Palace, and artefact forging would have been able to unleash their potential even more. Yet, they are going to the Pill Refining Palace!” Elder Xiao Tian also spoke from the side. For a moment, the two of them actually stood on the same side.

“Hmph, let’s first look at the level of the disciples you have taught. They have basically forgotten all about their ability to refine pills, right?” Elder Wu Yuan laughed, “I wonder if there are any more High-Grade Medical Pills. Perhaps even the higher-grade pills of the Mortal Realm will not be able to refine them?”

"If we can't refine it, then we can't. We specialise in artefact forging. If you have the ability, then let your disciple refine a Rebirth Level Weapon!" Elder Dong Yun retorted fiercely.

Elder Wu Yuan was speechless. This really was impossible to refine. Just like them, they had basically forgotten all about artefact forging. It wasn't advisable to be two-minded. Thus, they had basically forgotten everything they had learned.

"This is the question that Territory Lord Lui Li has given us. If you have the ability, go find her and discuss it with her!" Elder Wu Yuan retorted with a sneer. He suddenly remembered that it was a question given by Territory Lord Lui Li so that he would do it according to this matter.

They felt helpless and could only see if their disciples could get a high score.

While they bickered, every disciple was ready. They kept thinking about the refining method of pills. At the same time, they were reading the pill recipes provided by the surroundings. It was like they were preparing for an exam. They were temporarily holding Buddha's feet and constantly reading the pill recipes.

Only Yi Tianyun was very calm. He didn't need to look at anything. He just waited for the competition to begin.

"Junior brother, don't you need to check the recipe?" Huo Lian asked in confusion.

"I happen to know a little about alchemy, so I don't need to check the recipe," Yi Tianyun said with a smile.

"Even if you know a little, you have to be gentle. Otherwise, you will be at a disadvantage." Heaven Monarch Huo Lian hurriedly said.

"There is no need for that. I still have some confidence." Yi Tianyun smiled and said, "And even if you see some pill recipes, it won't help you much. You still need your foundation."

"Well, then I will go to see it first." Heaven Monarch Huo Lian is not very good at this, so he has to see those pill-refining methods.

So many geniuses went to see it, but Yi Tianyun didn't look at it. This situation quickly made people notice the problem here. One by one, Yi Tianyun felt a bit of pain.

"Looks like I have to put on an act..." Yi Tianyun shook his head and finally chose to go to the bookshelf to look for some pill recipes.

Originally, he didn't want to go to the book, but there were too many people looking at him, so he could only choose to do so. Although he had to be high-profile later, at least he didn't want to be like a precious demon beast, and he had been watched all the time.

Territory Lord Liu Li didn't give them a long time to watch; at most three days, three days later, the competition would begin.

Three days was enough for them to read a lot of pill books and understand a lot of content.

Three days it was passed in the blink of an eye. They all returned to where they were. Some directly brought the books over. This wasn't against the rules. Territory Lord Liu Li only gave them three days to read. It didn't mean that they wouldn't be able to read them after three days.

They could read them casually after three days, but the time to refine pills was already inside, so it depended on the person's confidence.

"Since you are mainly focused on refining weapons, you don't have enough experience in refining pills, so that I will give you more time. The time is one month. After one month, you will only choose the highest grade pill to score." Elder Wu Yuan stood up and announced the rules. After looking at the many participants, he said in a low voice, "Then the competition will officially begin now!"

As soon as he finished speaking, the participants immediately began to refine the pills. They had to start from all aspects, so that it would take more time.

Soon, they were all immersed in refining pills. One of them immediately began to refine pills with great familiarity. It seemed that the method of refining pills was not simple, and it could even be seen that he was quite skilled.

To refine a Mortal Territory 7th Grade Medicinal Pill with ease, there was no difficulty at all.

The one who did this was Heaven Monarch Shu Bo. He had not expected that he would still have some ability in alchemy.

"Unfortunately, I know how to refine pills!" Heaven Monarch Shu Bo laughed out loud, extremely happy.

It wasn't just him. Other participants also had relatively high grades, but they were all at the Mortal Territory and not the God Territory.

This was not their speciality, but it was already quite good to be able to refine such a standard.

Most of the participants had bitter expressions on their faces. They felt like they wanted to die. Their refining abilities seemed to be completely useless here. First, they refined the most ordinary profound iron; then, they refined pills.

They just wanted to have proper competition in artefact forging. They really didn't know much about the rest.

"Elder Dong Yun, didn't you say that your disciple is experienced and knowledgeable? What about now?" Elder Xiao Tian said smugly from the side, "Our Heaven Monarch Shu Bo is the one who is truly knowledgeable and has outstanding abilities. Not only is he skilled as a blacksmith, but his pill-forging skills are also not bad! I wonder which of the three people you sent out is stronger?"

They haven't been united for a while, and now they are showing off to each other.

Elder Dong Yun's heart sank. He knew very well the level of Heaven Monarch Huo Lian and Heaven Monarch Yu Long. He was absolutely not too high in refining. As for Yi Tianyun, he was not very clear.

"Boy, can you still make a miracle?" Elder Dong Yun looked at Yi Tianyun, and his heart was filled with a little expectation.
