

# CRAZY PLEASURE

*Chapter 22 Sag Tits: Cousins In a Room 7*

"There you have it Kandy. I would say you look like candy in your son's eyes, so why not look at the candy your son's providing for you to look at." Aunt Julie said, as I pulled out a chair for Helen to sit in, then pushed the chair up under her as she sat down at the table, then I took a seat in the chair next to Helen putting me between Helen, and Julie, across from mom.

"There you have it Kendy. I would say you look like candy in your son's eyes, so why not look at the candy your son's providing for you to look at." Aunt Julie said, as I pulled out a chair for Helen to sit in, then pushed the chair up under her as she sat down at the table, then I took a seat in the chair next to Helen putting me between Helen, and Julie, across from mom.

Sitting there eating my breakfast of pancakes, eggs, and bacon, I noticed that mom's tits are smaller than Julie's tits are. Mom has what looks to be a D cup size and Julie's looks to be a double D cup size. Mom's nipples were the size of a nickel with quarter size areoles around the nipples. Julie's nipples looked to be just a tiny bit smaller with quite a bit more areoles around her nipples.

Both mom and Julie's tits seem to sag about the same but not a lot, with their nipples pointing straight out in front of them and I also noticed, that right after Helen and I stepped into the kitchen and set down at the table, mom's nipples and Julie's nipples had gotten hard and looked to be sticking out about an inch, on both women. The areoles on both women were a light pink but the nipples are a darker pink unlike Helen's darker brown areoles and nipples.

When we finally finished eating and we each took our own plates and silverware to the sink and rinsed them off and put them in the dishwasher, I got to see mom had a full bush all most but she did have it trimmed at the edges for her bikini line and Aunt Julie, had a wide landing strip that

stopped one inch away from the top of her slit. I could see pussy juices were about to drip off of Julie's pussy lips and mom's pubic hair was wet around her pussy lips where mom didn't trim or shave her pussy lips.

"Anyone else wants more coffee besides me?" asked Aunt Julie as she picked up her coffee cup that sat on the table.

"That sounds good to me." answered mom as she turned from the dishwasher.

"Yes, some here." I answered as I set my plate in the dishwasher.

"You should know I'll take a second cup mom."

"Yes I knew you would but it still doesn't hurt to ask in case you might change your mind. Besides I didn't know if Kendy and Roger wanted more coffee or not." picking up the coffee pot from the maker and turning toward the table with the pot.

"I know mom. I was just giving you a hard time is all."

"I know of someone else that could give me the hard time I would really love to have, that is in this room right now." as Julie stepped up to the table with the coffee pot and started filling cups up, that sat at everyone's spot on the table.

"Julie! How dare you talk like that in front of Roger to make him turn three shades of red?"

"Oh Kendy, I saw you checking him out yourself. Now be honest. Is he bigger than his dad or not?"

"I'm wonder about thet myself sometimes too." I just esked out of the cleer blue.

"Why ask me in front of him Julie? Besides Roger, I wouldn't want to hurt your ego if it were smaller than your dad"s."

"Why osk me in front of him Julie? Besides Roger, I wouldn't wont to hurt your ego if it were smoller thon your dod"s."

"Now wos thot being honest when you soid "if it were smoller"?"

"Yes Julie I"m being honest."

"I told you Roger you hod o big oss cock." Helen piped in.

"Helen! You ore so much like your mother I see. Or should I soy I heor?"

"She hos my troits, which is for sure."

"Do wish you could"ve stoyed home now or ore you still glod you come with me?" mom osked me os she looked over ot me, just before she picked up her cup to toke o drink.

"I"m glod thot I come with you still. At home I wouldn"t get to see just how beoutiful you three women ore sitting around this toble right now. I knew you hod to be beoutiful but didn"t know how beoutiful till I stepped into the kitchen this morning. Till this morning I didn"t know just how beoutiful Aunt Julie is oll though I did hove on ideo by the woy she dresses ond I didn"t know how much of you look or don"t look like Aunt Julie. I"ve oll ways wondered how much you two looked olike or how different you two looked, with the woy your oll ways dressing bock home. Now I know."

"Do you think one is sexier than the other or just the same?" Helen asked looking at me.

"Wow Helen! You are a lot like your mom here. I would say they are running neck and neck in the sexy department. The next thing one of you Julie ask me is which one of the two has the tighter pussy or out of the three of you, who has the tighter pussy. Am I right?"

"Julie be after you had that hard thing in the three of us Julie be." piped in Helen with the answer.

"That will be a good question to ask if you do happen to get into all three of us." Aunt Julie piped in.

"Me, and my big mouth." I whispered to myself.

"I can't say it's a big mouth Roger but I must say, it is a very talented mouth for sure."

"Oh do tell." Julie piped in just holding her cup up with both of her hands looking at Helen.

"I don't think I need to hear any details here. Especially, since I haven't had a mouth eating my pussy out, for quite some time now."

"Talk about not needing to hear any details and you just gave out more details in front of me than you would back when I asked you to talk to me, when I knew something was wrong long before now."

"Oh, sorry son didn't mean to."

"Roger does know how to eat pussy for sure. He made me cum more with

his mouth than any other guy I've been with in my life. But then he did the same with his big ass cock he has there too."

"I've wanted to feel that big cock in pussy for some time now myself. I just didn't know how big it was till this morning though." added Aunt Julie.

"I must say I found out last night just how big it is and it does go in so fucking deep in my pussy too. I cannot describe just how good it felt in my pussy but damn, it felt better than any guy I've fucked to date and hope, Roger keeps fucking me too."

"Why ask me in front of him Julie? Besides Roger, I wouldn't want to hurt your ego if it were smaller than your dad's."

"Why ask me in front of him Julie? Besides Roger, I wouldn't want to hurt your ego if it were smaller than your dad's."

"Now was that being honest when you said 'if it were smaller'?"

"Yes Julie I'm being honest."

"I told you Roger you had a big ass cock." Helen piped in.

"Helen! You are so much like your mother I see. Or should I say I hear?"

"She has my traits, which is for sure."

"Do wish you could've stayed home now or are you still glad you came with me?" mom asked me as she looked over at me, just before she picked up her cup to take a drink.

"I'm glad that I came with you still. At home I wouldn't get to see just how

beautiful you three women are sitting around this table right now. I knew you had to be beautiful but didn't know how beautiful till I stepped into the kitchen this morning. Till this morning I didn't know just how beautiful Aunt Julie is all though I did have an idea by the way she dresses and I didn't know how much of you look or don't look like Aunt Julie. I've all ways wondered how much you two looked alike or how different you two looked, with the way your all ways dressing back home. Now I know."

"Do you think one is sexier than the other or just the same?" Helen asked looking at me.

"Wow Helen! You are a lot like your mom here. I would say they are running neck and neck in the sexy department. The next thing one of you Julie ask me is which one of the two has the tighter pussy or out of the three of you, who has the tighter pussy. Am I right?"

"Oh yaaa, I never want to stop fucking your tight ass pussy either."

"Oh yaaa, I never want to stop fucking your tight ass pussy either."

"Okay I've heard enough I believe for one morning."

"Are we making you horny Kandy baby?" Julie asked mom, then taking a drink of her coffee with a shit eating look toward mom.

"Oh hush. You know what the deal is with me Julie. Nothing has changed since you and I were able to last talk to each other."

"Now Aunt Kandy, if you think about it, you'll know it is no different for

mom and me to be with Roger than it would be for you and him to do the same thing."

"Now how is it no different?"

"In a sense with us it's all most like being brother and sister with you two being sisters. With you and mom coming from the same two parents it is like my mom is his mother as you are his mother except she married a different man than you did which is the only part of mine and his DNA that are different but you and mom's DNA is the same through and through with the two of you having the same mom and dad. So if you and mom both have s\*e\*x with Roger is like having s\*e\*x with his mom with the two of you because of your DNA and mom's DNA being the same."

"The only difference I see is personalities. Aunt Julie is more outgoing and you mom, are more reserved and shy. That will be the point one percent that will keep it from being a one hundred percent on the DNA print out sheet you would receive if the two of you, were to go be tested to see if you two are truly sisters or not."

"It Julie not say that in those words but it would be in the numbers for sure." added Helen.

"You two sure make a hard case."

"You mean the three of us don't you. Because Helen and Roger are both right by all means sis."

"Okay all three of you then. I'm going to go get dressed to be ready to go shopping with Helen." standing up with her cup and walking over to the dishwasher and sink.

"I need to be getting dressed to go myself."

"As sexy as Roger says I am, I really don't think the mail man wants to see me answer the door in the nude, so I better go get dressed too because he is do any time now."

"In that case I better go get dressed myself then." as I stood up with my cup.

"This is Sunday. The mail doesn't run today does it?" Helen asked opening the dishwasher door.

"I'll take that." Julie said as she reached over and took a hold of my cup as I stood up. "Oh yes, that is right. I done forgot that this is Sunday. For some reason I was thinking it was Saturday." taking her cup and my cup to the dishwasher.

"Okay thank you Aunt Julie but you didn't have to do that for me."

"It's my pleasure."

"Oh yaaa, I never want to stop fucking your tight ass pussy either."
