

Cultivation System: Stronger with Age - Chapter 1452 - 636: Crushing the Opposition (Part 2)

Chapter 1452: Chapter 636: Crushing the Opposition (Part 2)

Especially, this time the Ai Clan's Invincible Corps is going to attack Chaokou County. If Li Liyue can lead the Defense Battalion there and the reinforcements coming in from all around, and repel the attack of the Ai Clan's Invincible Corps!

Then the name of this Colonel Li will undoubtedly spread throughout the entire Great Yan Kingdom! After all, since the Ai Clan's Invincible Corps invaded the Great Yan Kingdom, they haven't suffered a single defeat!

It's said that the Invincible Corps has continuously invaded and occupied twenty-three cities, crushing thirty Defense Camps of the Great Yan Kingdom, and ranks among the top five powerful corps of the Ai Clan!

Moreover, it's rumored that in this Invincible Corps, there is a mysterious expert of the Ghost Servant Sect of the Ai Clan! This mysterious expert can drive paper people and paper horses, killing invisibly. One wonders if these legends are true!

"Tsk tsk, I've lived for decades, and I've never heard of any real Immortals. Yet in these times of chaos, not only has Supreme Immortal Master He Zhenren appeared, but also a Black-robed Ghost-faced Immortal Master of unfathomable strength, and now a mysterious expert from the Ghost Servant Sect has emerged. Truly, I've lived to see it all!"

Lin Xuankong heard Miao Youren say this. His heart couldn't help but be moved, and he thought to himself:

If it's just the so-called Invincible Corps of the Ai Clan, with a fierce general like Ding Ye, and his elite troops, even with some gap in equipment compared to the Invincible Corps, I wouldn't need to take action myself, just keep an eye on it!

But if there's a cultivator from the Ghost Servant Sect in the Invincible Corps, it would be troubling for the defenders of Chaokou County and Ding Ye's First Defense Battalion!

Even if the Ghost Servant Sect cultivator of the Invincible Corps is just at the Transcendence level one, and similar in strength to that Demon Dao He Wu, they can't be underestimated. They could definitely deliver some hard-to-defend blows to the troops led by Ding Ye, possibly even crushing their morale!

Since I intend to do something for the people of the Great Yan Kingdom in this Absolute Spirit Mini World, and also need to lay some groundwork for the Path of Incense later, then I definitely cannot sit by idly!

With this in mind, Lin Xuankong already had some plans in his heart.

However, Lin Xuankong was puzzled, because normally behind nations like the Great Yan Kingdom, Ai Kingdom, and Western Rakshasa, there are cultivation sects silently controlling them! These cultivation sects hidden in Grotto Heaven Blessed Lands have their spheres of influence divided among them, and there must be some agreements!

If that's the case, then the Ghost Servant Sect cultivator of the Ai Clan appearing so blatantly on the battlefield, disrupting the influence of Blood Cloud Sect and Ancestral Soul Sect of the Great Yan Kingdom, aren't they afraid of provoking retaliation from these sects? Or maybe the cultivators from Blood Cloud Sect and Ancestral Soul Sect of the Great Yan Kingdom have already acted in secret?

Thinking of this, Lin Xuankong suddenly shook his head and laughed. This kind of confrontation between Transcendence sects, the last time he participated in it was in the Great Xia Dynasty of the Golden Dragon Immortal Realm... that was over ten thousand years ago!

Now, being someone who was once the First of the Immortal World in the Golden Dragon Immortal Realm, to participate again in this kind of struggle between small Transcendence sects... this feeling is rather peculiar, giving Lin Xuankong the sensation of a special forces member and Soldier King getting involved in a kindergarten's kids' squabbles and bullying!

...

In the blink of an eye, it was already three days later.

At the first line of defense of Little Chaoshan outside Chaokou County, the foot of the mountain was filled with defensive works, trenches, and air-raid shelters. Many officers and troops from Ding Ye's First Defense Battalion, Li Liyue's Chaokou Garrison Camp, and reinforcements from other cities were cautiously hiding within these structures.

At the rear, in the command post at the mountainside,

Ding Ye and several officers stood at the concealed window of the command post, looking out, one of the officers said, "Deputy Commander Ding, according to the message from the scouts ahead, the second vanguard of the Ai Clan's Invincible Corps, over two thousand strong, is approaching under the lead of more than twenty tanks and armored vehicles, heading towards our first defense line, and it's estimated that within no more than two hours, battle will commence!"

As a well-known fierce general among the defense camps of dozens of counties nearby, Ding Ye was treated with importance this time, receiving a deputy commander position from Jee Province, able to command nearly twenty thousand defenders.

Upon hearing the officer's report, Ding Ye nodded solemnly, looking at the many officers, he spoke in a steady voice:

"This time, the strategy is somewhat rushed, but the defense has been set up for three days, and both defensive works and air-raid shelters are ready!

Though the vanguard of the Invincible Corps has some advantage in equipment, along with the support and bombing of the Ai Clan's air squad, Chaokou Pass is the gateway to over twenty cities including Qingyuan City and the Qing River Plain. If lost, the consequences would be unthinkable!

The number of defending troops now exceeds that of the Ai Clan's Invincible Corps. With such a comparison of forces, if we let the Invincible Corps seize Chaokou County, the entrance to the Qing River Plain, then neither I nor any of you would have any reason to return to your respective posts!

Of course, if this time we manage to block the Ai Clan's Invincible Corps for ten days as planned,

then the Chaokou defenders on our side would be the only ones on this front in Jee Province to have thwarted the Ai Clan's Invincible Corps! Your achievements will energize countless military and civilian morale in Jee Province, and this would truly be an outstanding accomplishment!"

The many officers under Ding Ye, hearing this, stood at attention, shouting in unison: "We swear to defend the Chaokou defense line to the death!" "We will not let the Ai Clan scum advance one step further!"

The officers under Ding Ye can indeed be called elite, as among the dozens of them, not one showed a trace of fear, all bearing faces filled with the intent to fight!

Officers from the armies of other cities, infected by the determination of Ding Ye's officers, also became excited, the warmth spreading in their hearts.

At this point,

the wooden door of the command post opened, several figures entered.

Among them, at the forefront, was none other than Li Liyue, the Regular Training Officer of Chaokou County's Defense Battalion, whom Lin Xuankong had previously met in Qingyuan City.

Seeing Li Liyue and the others enter, Ding Ye and the many army corps stood at attention, saying in unison: "Commander Li!"

This Li Liyue, though a woman, was quite renowned among the Regular Training Officers of the defense battalions, and she evidently had a significant background! This time, the defense line at the entrance to the Qing River Plain, affecting dozens of cities, was given to her to command, showing that the upper military echelons in Jee Province held her in high regard and had great confidence in her. After all, if they won this battle, it would have a very positive effect on the morale of the troops on many fronts in the Great Yan Kingdom!

With a resolute expression, Li Liyue looked at the many officers and said loudly:

"Colleagues, this battle at Chaokou Pass is crucial for the Qing River Plain!

This battle is not only highly regarded by Director Ma of Jee Province but also by Kyoto, who has issued strict orders to hold this Chaokou Pass for at least thirty days so that the major forces being mobilized in Jee Province can come to our aid!

If we can hold off the Ai Clan's Invincible Corps, which has invaded dozens of cities of our Great Yan Kingdom, delaying the Invincible Corps and the subsequent several corps, we will not only greatly dampen the prestige of the many corps of the Ai Clan but also protect the safety of millions of people in the dozens of cities to the north of Chaokou Pass, and further ensure that all of you participating in this battle will have your names firmly etched in the meritorious deed records of the national defense war of the Great Yan Kingdom!

Nonetheless, speaking of which, the Invincible Corps of the Ai Clan is indeed a hundred-battle-hardened force, its equipment far superior to even the most elite units of our Great Yan Kingdom. To hold the pass for twelve days in this defensive battle is definitely not an easy task, requiring all colleagues to work together in unity, to inspire every warrior's morale and courage, that it might be achieved!"

Cultivation System: Stronger with Age - Chapter 1453 - 637: Firepower Saturation

Chapter 1453: Chapter 637: Firepower Saturation

The many officers present,

after hearing Li Liyue's words, all saluted in unison,

yet their expressions were not as spirited as when they had just responded to Ding Ye!

Because Deputy Commander Ding Ye had just ordered them to lead their troops to resist the Ai Clan's Invincible Corps for ten days, after which reinforcements from Jee Province would arrive!

Even though facing the Ai Clan's Invincible Corps, whose equipment far surpassed that of the Great Yan Kingdom's army, holding out for ten days was no simple task and would undoubtedly cost countless young soldiers' lives... but compared to the thirty days as per Commander Li Liyue's orders, ten days of resistance seemed much easier!

For a moment,

many officers felt a bit uneasy... resisting the tanks, artillery, and aerial bombardment of the Invincible Corps for thirty days seemed like an impossible task for those officers who understood the firepower of those elite corps!

Yet military law is as unyielding as a mountain, and Commander Li Liyue had already given the orders, which were tasks arranged by Jee Province and Kyoto, leaving the officers present little room for complaint, much less for saying anything against it.

At this moment, the officers present, those with quick minds, were already contemplating how to survive this great battle! The slightly more pessimistic officers even began considering how to contact their families or how to leave a last will!

From these officers' reactions alone, it was already abundantly clear just how much the Ai Clan's Invincible Corps struck fear into the troops of the Great Yan Kingdom — their mission was not to defeat the Invincible Corps, which was much smaller in number, but merely to hold them back for thirty days!

Among the many officers, the only one whose expression didn't change drastically was the one highly regarded by Lin Xuankong, Ding Ye, although Ding Ye's brows were still tightly furrowed.

He pondered for a moment, then asked, "Commander Li, if my memory serves me right, when we were mobilized as the Defense Battalion, the task assigned was to defend Chaokou Pass for ten days... has something changed? Why is it that the reinforcements from Jee Province will only arrive after thirty days?"

If we are to hold Chaokou Pass for thirty days, the ammunition, artillery, and the makeshift structures built in three days here might not hold up, and the personnel losses, the number of soldiers sacrificed, are expected to far exceed expectations!"

Upon hearing this, Commander Li Liyue frowned and glanced at Ding Ye, saying, "Deputy Commander Ding senses difficulties, and that's precisely the case. If there weren't any, Director Ma of Jee Province wouldn't need to mobilize so many Defense Battalions for defense, nor would we be deploying your renowned First Defense Battalion!"

Or could it be that Deputy Commander Ding is somewhat hesitant to engage?"

Hearing Commander Li Liyue's words, Ding Ye's expression became solemn, "Commander, since joining the military, I've never entertained any thoughts of cowardice in battle and have long put life and death aside. My sole wish in this life is to return wrapped in horsehide! But if we're to defend for thirty days, we indeed need more ammunition and supplies, and we also need to immediately prepare more and better fortifications, air raid shelters, trenches, etc.!"

Commander Li Liyue waved her hand casually and said, "The reason for defending for thirty days is that another elite division of the Ai Clan is heading towards the heart of Jee Province. Director Ma of Jee Province needs to first gather troops to resist the Ai Clan's elite division eyeing the heart of Jee Province, so on our side... regarding military supplies, I'll report to the higher-ups, and as for the specifics like fortifications and air raid shelters, trenches, you as the deputy commander can handle those arrangements!"

After saying this, Commander Li Liyue turned and walked towards the outside, her words carrying an extremely resolute tone, "Moreover, colleagues, there's no need to overly fear that so-called Ai Clan's Invincible Corps, for I've prepared a big surprise here, enough to ensure that the commander of the Ai Clan's Invincible Corps will not dare to underestimate the Chaokou Pass garrison!"

Even before she finished speaking, Commander Li Liyue, along with several adjutants by her side, left the command post, leaving behind a group of officers looking at each other in surprise.

After Commander Li Liyue's footsteps faded into the distance, among the many officers, one who was extremely burly, being only half a head shorter than Ding Ye, couldn't help but speak up:

"This is a bit of a headache now; holding off the Ai Clan's Invincible Corps at Chaokou Pass for thirty days will make my men endure shelling and bombing for thirty days! Not to mention, the damned air units under the Ai Clan's Invincible Corps can compare to the entire air force resources Jee Province can muster!"

I'm not afraid of dying, but what's worrying is having my men endure shelling and bombing for dozens of days, only to end up unable to kill a few of the Ai Clan's Invincible Corps!

Deputy Commander Ding, how about this: I'll lead my men to ambush the Ai Clan's Invincible Corps on their inevitable path for a satisfying kill!

Colleagues, is there anyone willing to join me, Old Hong, in the fight?"

Upon hearing this from the officer named Hong Futian, the many officers present shook their heads repeatedly. Asking them to defend the Chaokou Pass against the Ai Clan's Invincible Corps for thirty days already had them feeling deeply troubled, let alone going out to face them in battle!

Since the Great Yan Kingdom began its war with the Ai Clan's army, the Ai Clan's multiple corps have already captured nearly a hundred cities from the Great Yan Kingdom, almost undefeated! These multiple corps of the Ai Clan have become a fear in the hearts of many officers of the Great Yan Kingdom, and only a few exceptionally brave officers like Ding Ye and Hong Futian seem to fare slightly better!

Cultivation System: Stronger with Age - Chapter 1454 - 637: Firepower Saturation (2)

Chapter 1454: Chapter 637: Firepower Saturation (2)

Ding Ye frowned when he heard Hong Futian say this, "Old Hong, ever since you left my First Defense Battalion and became a Captain, have you been letting yourself go more and more? Do you still plan to ambush the Ai Clan's Invincible Corps? Knowing the Ai Clan's Invincible Corps has air force support, do you think ambushing them will be easy?

Behave yourself, even though I'm only a Deputy Commander and also a Deputy Captain, I can still command you! You listen to me now, lead your Defense Battalion from Liang County and Guo County, along with all officers and soldiers, and continue to build the second and third defense lines behind the first line. Speed up, and at the latest, complete it within three days, and the standard must be better than the first line!

Get going, use your energy not for thinking about ambushing the Ai Clan's Invincible Corps, but for doing these tasks well!"

Hong Futian felt dejected at these words, but he was indeed from Qingyuan City's First Defense Battalion, and faced with his former junior officer Ding Ye, he could absolutely not defy his orders!

Thus, this fierce warrior, second only to Ding Ye in stature and ferocity, left the command post with a group of deputies to busy himself with building the two new defense lines!

Afterwards, Ding Ye arranged the shifts for numerous officers and sent them off to execute the tasks! After all, the arrangements needed for a ten-day defense compared to thirty days are vastly different, and not something Li Liyue, the Chief Commander, can complete with just a lip service!

Once all the officers had left, Ding Ye pondered privately, curious about the big surprise Li Liyue had mentioned... especially since this surprise gave the Chief Commander such confidence, Ding Ye naturally was very curious.

...

Soon, another two or three days passed.

At the Chaokou Command Post,

Ding Ye was conducting exercises around a sand table with several officers when the phone on the table suddenly rang.

Ding Ye answered, and a slightly urgent voice came from the other side, amidst the rumbling sound of bombs exploding, "Commander Ding, the Ai Clan's Invincible Corps' armored battalion is advancing rapidly and is already seven-eight miles away from the first defense line. Additionally, the Ai Clan's Invincible Corps' bombers have begun bombing the lines and fortifications here! It's estimated that after this wave of bombing, the Ai Clan's Invincible Corps' armored battalion will strongly assault the first defense line!"

The tough battle was finally approaching!

The Ai Clan's Invincible Corps was finally coming!

Ding Ye's face showed solemnity, with a hint of killing intent in his eyes, and he shouted:

"Hong Futian, I have already handed over two of the battalions from the First Defense Battalion to you, along with your battalions totaling over six thousand soldiers and more than eighty cannons! This manpower and firepower are not just for you to hold the first line, but to at least take out half of the Ai Clan's Invincible Corps' armored vehicles and tanks in the first wave of counterattacks!"

Hong Futian on the other side of the phone fell silent, only the sound of bombs incessantly roaring could be heard from there!

Moments later, a somewhat inexperienced voice came through on the line,

"Commander Ding, I am Captain Hong's liaison officer!

The artillery company positions were bombed by the Ai Clan's aircraft, reporting to Captain Hong that they were no longer able to shell the position of the Ai Clan's Invincible Corps' armored battalion!

In desperation, Captain Hong personally took the Personal Guard to the positions! Captain Hong said that those cannons are half of your First Defense Battalion's assets, and since they were found out and destroyed by the Ai Clan's Invincible Corps' scouts, he has no face to see you unless he personally leads a team to take out several tanks before daring to return to see you!"

Upon hearing this, Ding Ye's brow suddenly furrowed, "Reckless, he's a Captain, the commander of the first line, how can he rush up himself..."

Just as he spoke,

On the other side of the phone, there was the piercing sound of bombs slicing through the air, followed by crackling interference noises, Ding Ye shouted a few times, but there was no response from the other side.

The surrounding officers saw this, and their expressions turned somewhat grim.

Instead, Ding Ye grabbed the binoculars on the table, ran quickly to the window, and looked outside.

He saw that near the first defense line positions about twenty miles away, smoke was everywhere, and the sky-high smoke clouds from bombs and shells were rising up! Further afar, the armored battalions of the Ai Clan's Invincible Corps were charging towards the trenches of the first defense line!

Those tanks and armored vehicles do seem undefeatable on the land of the Great Yan Kingdom in the Blue Star Republic era, especially after the Ai Clan's Invincible Corps' air force bombed the artillery company... facing the rifle fire from the soldiers on the positions, they suffered no damage whatsoever!

Of course, what frustrated Ding Ye the most was that the position of the first line artillery company was discovered and covered by the Ai Clan's Invincible Corps' air force fire... If not for this, the powerful artillery could still pose a certain threat and suppressive effect to the armored cluster, at the very least it could delay the enemy's charge and disrupt their rhythm!

One of the officers by Ding Ye's side watched the scene, his face turning somewhat ashen, and he anxiously said: "Commander Ding, should we summon the second artillery company to provide support to the first line?"

Ding Ye shook his head slightly, "Hong Futian has already had a lot of steel dragon horns and landmines laid in front of the first line to damage armor tracks, which should hold for a while! Moreover, the second artillery company needs to block the west side's Ai Clan's Invincible Corps' second battalion's armored battalion, if we summon them now, what if the Ai Clan's Invincible Corps launches an attack on the west side too?"

Don't worry, Hong Futian has always had a big fate, him leading the charge, surely..."

Just as he said this,

His voice paused unexpectedly, saying, "What is that? Is there really a mysterious Immortal from the Ghost Servant Sect within the Ai Clan's Invincible Corps?"

The numerous officers heard this and raised their binoculars one after the other, looking towards the first line position, and they saw a large number of white Paper People and Paper Horses appearing swiftly beyond the advancing armored vehicles and tanks!

Minutes later, those hundreds of somewhat eerie Paper People and Paper Horses stormed to the minefield and dragon horn area in front of the first line!

The soldiers of the first line hid their heads back after the first wave of Ai Clan's air force bombing, and now they peeked out from the fortifications, witnessing this scene with some alarm!

After all, in broad daylight, seeing such white Paper People and Paper Horses charging towards them was surely shocking and chilling!

Fortunately, the officers leading the teams reacted quickly, shouted out some orders, and all the soldiers of the first line suppressed their inner fear, opening fire on those eerie white Paper People and Paper Horses!

Instantly,

Numerous bullets were shot towards those eerie white Paper People and Paper Horses, creating streams of bullet torrents!

To the shock of the first line soldiers, however, the bullets hitting the eerie white Paper People and Paper Horses did not stop their advance at all!

Those Paper People and Paper Horses, when shot in the head, merely staggered more violently while running! Those with their legs shot were moving forward with their bodies or arms! Those cut in half had both parts of their bodies advancing separately...

Thousands of skilled soldiers firing at full power still could not thoroughly stop those eerie white Paper People and Paper Horses!

Before long, those eerie white Paper People and Paper Horses rushed into the dragon horn and mine area!

"Boom! Boom! Boom!"

A large number of pre-laid mines were triggered one after another by those eerie white Paper People and Paper Horses, and those dragon horns were lifted up and thrown far away by them!

Until a large number of mines were triggered, some of those eerie white Paper People and Paper Horses could not withstand the mine explosions that could destroy steel tracks and were finally blown to pieces!

However, until those eerie white Paper People and Paper Horses cleared the minefield entirely, nearly a hundred of them still remained!

And these close to a hundred remaining eerie white Paper People and Paper Horses continued without pause, charging towards the fortifications of the first line, pushing towards those defenders!

Cultivation System: Stronger with Age - Chapter 1455 - 638: Paper Fowl

Chapter 1455: Chapter 638: Paper Fowl

Those officers and soldiers at the location of the first frontline,

including Hong Futian, the commander of the first frontline, were dumbfounded upon seeing the paper people and paper horses being so fierce, so strange, so powerful!

Originally, the Ai Clan's Invincible Corps' air bombers and the destruction of the artillery company had already subjected these officers and soldiers of the first frontline to tremendous psychological pressure, for they had to rely on trenches, fortifications, and rifles in hand to fight against the Ai Clan's Invincible Corps' armored brigade! And those pre-buried mines, dragon horns, and so on were their last reliance to block the Ai Clan's Invincible Corps' armored brigade!

Unexpectedly, the Ai Clan's Invincible Corps,

had such strange and powerful paper people and paper horses that forcefully broke into the minefield, destroying the last reliance of thousands of soldiers of the first frontline!

The most fatal part is,

even when faced with the Ai Clan's Invincible Corps' armored brigade, these soldiers still had some morale because, should Chaokou Pass behind them be breached, it would be their hometown ravaged by Ai Clan's army... Yet now, what these soldiers face is not a normal armored brigade; the Ai Clan's Invincible Corps' armored brigade hadn't managed to charge up yet, when a wave of such strange paper people and paper horses charged ahead!

These rapidly advancing things were completely beyond the comprehension, imagination, and acceptance of these officers and soldiers; truly supernatural phenomena, and the guns in these soldiers' hands seemed completely incapable of killing these paper people and paper horses!

At this moment, the morale of all officers and soldiers of the first frontline had completely plummeted to the bottom!

Even Hong Futian, who was always audacious and had once thought about ambushing the Ai Clan's Invincible Corps, was somewhat bewildered now, unsure if he should let his soldiers continue to defend against such eerie paper people and paper horses. Faced with the Ai Clan's Invincible Corps' armored brigade, Hong Futian still had ample courage and passion, but against supernatural phenomena, no matter how brave or passionate he was, he was still somewhat confused!

Just then,

a long howl sounded from the rear of the first frontline,

and a figure rapidly rushed from the rear, shouting loudly as he ran:

"During the Nine Sects' Candle Mountain Discussion, the Sect Leaders of the Nine Great Immortal Sects had jointly declared and established the rule that no cultivators from the Nine Sects of the Seven Kingdoms should directly participate in mundane warfare!

Now, only eighty years have passed since the Nine Sects' Candle Mountain Discussion; the previous Sect Leaders of Blood Cloud Sect and Ancestral Soul Sect have yet to ascend, and you, Ghost Servant Sect, dare to break the rules and publicly tear apart the joint agreement established then. Aren't you afraid that the other eight Immortal Sects will unite and attack your Ghost Servant Sect's Nine Nether Island?"

This person continued to run, his speed was as fast as a galloping horse, several times faster than the limits of ordinary humans, clearly a Transcendence Second Layer late-stage cultivator with a strength greater than that of the Supreme Immortal Master and Demon Dao!

Such speed, in the eyes of a cultivator like Lin Xuankong, might be nothing, but to all the soldiers of the first frontline, it made them widen their eyes, as if witnessing the most incredible thing!

Especially Hong Futian of the first frontline, he stared dumbly at the figure approaching from afar, frowned, and said:

"What is happening in this world? Just now, the Ai Clan's Invincible Corps appeared with the eerie, mythological powerful paper people and paper horses, and now there's a freak with a running speed much faster than a leopard! My goodness, I heard rumors about a Black-robed Ghost-faced Immortal Master appearing in Qingyuan City, and didn't quite believe it. Now it seems that the world is indeed undergoing a great change, with demons and ghosts, immortals and techniques truly appearing?"

Hong Futian of the first frontline is bewildered as well, not to mention the other soldiers on the frontline. Everyone looked at the paper people and paper horses that had come

to a sudden halt and then at the 'freak' who seemed to be coming to their aid, all stood frozen in place, unsure for the moment whether to keep firing!

Meanwhile, the forty-something armored vehicles and tanks of the Ai Clan's Invincible Corps' armored brigade, along with the soldiers following behind them in approach, all came to a stop simultaneously!

Immediately, the roof of one of the armored vehicles at the rear suddenly opened up,

and a yard-long large paper bird made of white paper flapped its wings, flying out from the roof, atop the yard-long paper bird sat a man wearing the Ai Clan robe.

This man glanced remotely at the approaching 'freak' and suddenly shouted:

"Blood Cloud Sect's Liang Butong, it's actually you here to court death!

Now the Seven Kingdoms Alliance Army is acting in unison to annihilate your Great Yan Kingdom. Haven't you worthless people understood the situation?

Your Blood Cloud Sect and Ancestral Soul Sect-supported President of Great Yan's Spirit Pass Army found no less than sixty Five Elements Spiritual Objects in East River Valley. Do you think you can seal the news?

....So many Five Elements Spiritual Objects might have a great probability of allowing a Tier Four Immortal Venerable to advance to a Tier Five Immortal Venerable with a lifespan of hundreds or even close to a thousand years! You Blood Cloud Sect and Ancestral Soul Sect want to monopolize such good fortune, but it's not going to be that easy?

This time,

strong practitioners from the Seven Great Immortal Sects are joining forces,
