

Cultivation System: Stronger with Age - Chapter 1461 - 641: I've Come for Your Head

The words of Dongtan Shi'er were propelled by the True Qi of a Cultivator, spreading incredibly quickly!

In just two to three seconds, along the kilometers-long first defense line, all the officers and soldiers of the Great Yan Kingdom, including those in the rear command post, heard it clearly!

Across the entire first defense line,

every Great Yan Kingdom soldier hiding in the trenches had a changing expression.

These warriors from the Defense Battalion near the cities around Chaokou Pass in the Great Yan Kingdom felt that, since the Chaokou Pass led directly to their hometowns, they had sufficient morale without requiring any urging or encouragement from their officers! After all, every warrior of the Great Yan Kingdom understood the miserable state of their compatriots in the fallen cities, and their hometowns contained their parents and children, brothers and sisters, and everything they loved in life! How could they easily abandon this battle line, or easily give up this first defense line at Chaokou Pass!

Yet, they were facing a terrifying enemy they had never imagined they would encounter!

Previously, when the Ai Clan's Invincible Corps' air force completely destroyed the Artillery Battalion, and the screaming planes and bombs did not utterly destroy their morale! Earlier, the armored cars and tanks of the Ai Clan's Invincible Corps also did not destroy their morale. This was because they were mentally prepared, knowing that the offensive they faced would be incredibly daunting, knowing they were facing the renowned Invincible Corps of the Ai Race's various divisions!

However, at this moment,

a sense of helplessness arose in many officers and soldiers of the first defense line!

Because what they were facing now wasn't the armored cars and warriors of the Invincible Corps they imagined they could destroy with their rifles, landmines, and grenades, but rather 'Immortal Venerable' whom they couldn't muster the heart to resist—Immortals that existed only in tales and stories!

Most devastating, what crushed the morale of these defending soldiers was that the 'Immortal Venerable' from the Great Yan Kingdom's Blood Cloud Sect, whom they pinned their hopes on, was defeated by this 'Immortal' of the Ai Clan's Invincible Corps! Initially, when Liang Butong of the Blood Cloud Sect appeared with immense power as

a three-meter-tall giant rushing towards the enemy formation, the morale of these defenders reached its zenith. Yet, the Immortal Venerable Liang Butong, who had given them great courage and morale, fell so quickly!

In an instant, nearly ninety-nine percent of the defenders on the first defense line of Chaokou Pass in the Great Yan Kingdom showed signs of hesitation, and even some officers holding their pistols found their grip weakening unknowingly.

Not just them, even Hong Futian, the commander on the ever-bold first defense line, fell silent at this time. There was a flame in his heart wanting to shout, to lead his brothers to storm forward, to slay this extremely arrogant, lofty 'Demon' Dongtan Shi'er! However, he truly couldn't open his mouth, because the Immortal Venerable Liang Butong from the Blood Cloud Sect had already been defeated! Even if he led thousands of his brothers forward, even though Dongtan Shi'er's power alone couldn't kill all those brothers, behind Dongtan Shi'er were those well-equipped warriors of the Ai Clan's Invincible Corps!

Thinking of these, Hong Futian's eyes flashed, he snorted, and turned to look towards the command post far behind.

At this time, the hidden command post on the mountainside of Chaokou Mountain had already quieted down,

The voice excited by True Qi from Dongtan Shi'er had quickly reached this command post, and the scene of Dongtan Shi'er defeating 'Immortal Venerable' Liang Butong was witnessed by all the officers in this command post!

"This... what should we do next, General Commander? Do we need to immediately contact Hong Futian at the first defense line to inspire morale, ensuring the troops of the first defense line defend the position well and are not affected by this Demon's influence on the warriors' Heart Nature!"

A guardsman standing beside Commander Li Liyue hesitated for two to three seconds and couldn't help but ask.

Commander Li Liyue, who was confidently speaking about bringing a great surprise, a scare to the Ai Clan's Invincible Corps before, now had a somewhat ashen face.

As the general commander of a battle line, Li Liyue felt overwhelmed, for she never imagined that the revered 'Immortal Venerable' Liang Butong, would fall so swiftly to the Demon of the Ai Clan's Invincible Corps! She had thought about what to do if the 'Immortal Venerable' Liang Butong, whom Director Ma of Jee Province deeply respected and adored, wasn't a match for the Demon of the Ai Clan's Invincible Corps, such as Liang Butong battling the Demon and eventually being defeated... But she never imagined that the Immortal Venerable Liang Butong, whose rank was much higher than Commander Ma of Jee Province, would lose so quickly!

The command post was dead silent,

The officers looked at Commander Li Liyue with complex expressions, each having a heavy heart.

Just then,

Among the many officers, Ding Ye, still observing afar through binoculars, suddenly spoke with some confusion:

"Hmm, that's strange, why has another black-robed Immortal appeared? Moreover, this Cultivator's speed is so fast, seemingly no slower than Liang Butong's Immortal Venerable speed! But... but that black fitted outfit looks so familiar!"
