D Emperor 2051

Chapter 2051: Enter the magic sea

Lu Ming secretly panicked. Hundreds of potential imperial emperors who will be exhausted by Shou Yuan, the super demon country of the Devil's Land, are absolutely terrifying.

But thinking about it, Lu Ming knew it.

The Holy Realm can live for 100,000 to 200,000 years, and the Prospective Emperor wants to break through to reach the Emperor Wudi Realm. It is too difficult. After so many years of accumulation, the number of Prospective Emperors is absolutely amazing.

It's not just the ancient demon kingdom, other places, other forces, it's the same.

These people, Shou Yuan is not much, if not looking for a chance breakthrough, sooner or later, Shou Yuan will dry up and die.

There are also those Emperor Wu, who are not Shouyuan depleted, but about to face the next Sky Tribulation.

Emperor Wu's Heavenly Tribulation is stronger than once. If he can't keep improving and breaking through, he will die under Heavenly Tribulation sooner or later.

Since ancient times, there have been countless martial emperors born, but there are really a few people who can be immortal, most of them, finally died under the sky-tribulation.

Emperor Wu himself, in fact, could also feel the probability that he would survive the catastrophe.

For example, these people are not sure about the big catastrophe, so they also want to enter the magic sea and touch the chance to see if they can make some breakthroughs.

The same is true for Cang De Wang, who is thousands of years before the next big disaster.

For thousands of years, it seems to be very long, but for these ancient martial emperors, it is just a blink of an eye.

At this moment, the space flashed, the figure of the ancient emperor appeared, and everyone saluted.

"This time, to enter the magic sea, the main task is to recapture the ancient coffin, by the way, you can touch the chance!"

The ancient emperor ordered, and then he waved his hand, and pieces of black jade appeared in the air.

"Bring these jade cards on your body, you can roughly sense our mutual position. If you are scattered in the magic sea, you can merge according to the directions shown above!"

The ancient emperor introduced it, and then waved his hand, and the jade card flew to everyone, one by one.

Lu Ming also got a piece and put it away.

"Start, you enter my small world first, I will take you there!"

The ancient Great Emperor said, and then waved his hand, Lu Ming felt a force holding him, and next moment, he appeared in a strange land.

"This is the small world of the emperor?"

Lu Ming rushed high into the sky and looked around, amazed.

I saw that there were vast mountains in sight, and I could not see the end at a glance.

There are still creatures in the mountains, but Lu Ming found that this kind of creature is different from the outside world.

It is likely that this is the small world of the ancient emperor, the creatures spontaneously bred.

The emperor controls the avenue, but the 3,000 avenues, the control of different avenues, the small world will naturally be different, and the gestation of the creatures will also be different, the end is wonderful.

Lu Ming looked around, curious.

Not far away, the eyes of the devil king swept across Lu Ming from time to time, flashing across the murderous opportunity.

About half a day later, a force applied to them, they left here.

Lu Ming found that they were standing on top of a mountain.

"We are already on the edge of the magic sea!"

The voice of the ancient emperor sounded.

Lu Ming looked forward.

In front, it looks like a dark cloud, like a sea of clouds.

There is no limit to the end.

This is the magic sea!

The magic sea is not a real ocean but a sea called magic qi.

The magic sea is full of this infinite evil spirit, and it has a wide range and boundlessness, like Wang Yang, so it is called the magic sea.

"Entering the magic sea, everything becomes unpredictable, you must follow me!"

The ancient emperor said, and then rushed towards the magic sea.

Everyone followed behind the ancient emperor.

嗤嗤嗤...

When Lu Ming found that as soon as they rushed into the magic sea, the black mist adhered to Lu Ming and had strong corrosion. Lu Ming quickly ran the Holy Power to resist.

Fortunately, this corrosion is not very strong, the quasi-imperial realm is enough to block it.

They flew forward for a while and then flew straight down.

Mohai, the terrain seems very low.

They have been descending, and they have fallen by tens of thousands of meters.

However, the further down, the kind of evil spirits seems to be lighter, until the back, as long as the Holy Power is operated a little, it can be resisted.

Only then did they see the earth.

The expansive earth, the grey earth.

The whole land is gray, silent, and lacks vitality.

After they landed, their spirits were highly concentrated.

This is one of the three most terrible forbidden places in the Magic Sea and the Land of Ten Thousand Demons. Unlucky, even if the emperor comes in, he will be injured.

They naturally dare not carelessly, and played a twelve-point spirit.

The ancient emperor's spiritual consciousness emanated, seemingly sensing, and then flew deep into the magic sea.

The speed of the ancient emperor was very slow, and everyone could keep up.

This area is really dead, there is no life. They flew for a full day, and they didn't know how much distance they flew. No creature touched it, nor did they encounter any danger.

"Look, an ancient city!"

At this time, someone shouted.

Everyone looked to the side, and indeed, among the mountains, they saw an ancient city.

However, this is just a remnant city, completely collapsed, as if falling from the sky.

They took a look and found nothing.

Zeng Jin, some people speculated that the magic sea is an ancient battlefield.

But some people said that the objects of the magic sea fell from the sky, so the magic sea was formed.

Judging from this ancient city alone, it really seems to have fallen from the sky.

At this moment, the ancient emperor suddenly turned around and looked back.

Everyone was shocked in their hearts and quickly looked towards the rear, but the rear was empty and they found nothing.

Some people have hair in their hearts, is there really something behind? Otherwise, the emperor was alert.

"Emperor, what did you find?"

Someone asked.

The ancient emperor frowned, shook his head, and said, "We leave here!"

Speaking, flying forward.

Everyone keeps up, but many have a dignified face.

Even the Great Emperor seemed to have scruples, which made them feel hairy.

They wouldn’t be so unlucky, they encountered something that even the emperor was afraid of. In that case, the situation was not good.

Soon, they flew a long distance.

At this moment, the ancient emperor stopped suddenly, looked at the void on one side, and shouted, "Get out of here!"

boom!

Immediately afterwards, the ancient emperor burst out.

The strength of the great emperor was shocking and terrifying, and the whole void was smashed.

Rumble!

The void exploded. At this time, everyone saw a figure, and that figure, all wrapped in a black robe, could not see clearly.

However, the strength of this figure is very amazing. His body kept flashing, almost to the extreme, and the power of the ancient emperor did not hit him in a trace.

"Powerful in the Great Emperor Realm!"

Everyone's complexion changed, and it became extremely ugly.

That figure definitely has the strength of an emperor-level, otherwise, the power of the ancient emperor cannot be avoided.

Chapter 2052: Endless Demon Worm

The figure flashed nonstop, almost to the extreme.

Uh!

Suddenly, the figure waved his hand, chopped out a terrible magic light, and slashed towards the ancient emperor.

This magic light, as if it were a magic sword of the world, has infinite power and splits Tianyu.

boom!

The ancient emperor rushed up, blasted a shocking palm print, collided with the magic light, and the sky thundered.

"It turns out to be you, hand over the ancient coffin!"

The ancient emperor burst into tears, his body flashed, and rushed towards the other party, launching a terrible attack.

The other party was not afraid, and was covered in magic light, fighting with the ancient emperor.

"Retreat!"

Someone shouted, and they backed wildly.

The dark shadow is definitely the great emperor, the emperor confrontation, the aftermath is too terrible, if it is involved, there is only one way to die.

In an instant, they stepped back thousands of miles.

boom! boom!

The area was constantly roaring, and the void was completely smashed, showing how fierce the war was.

Many people turned pale, but when they came in, they encountered such a terrible strong man.

At the same time, they also thought about the words of the ancient emperor, is it possible that the ancient coffin was stolen by this figure?

Lu Ming clenched his fists, he hoped that the ancient emperor could defeat the opponent and recapture the ancient coffin.

If the ancient emperor could not recapture him, he would have no hope.

"Then... what is that?"

Suddenly, someone exclaimed and his voice trembled.

Without his calling, everyone saw it.

In front, a dark gust of wind swept towards them.

The violent wind, covering a very wide range, is overwhelming.

No, it's not a wind, but a worm.

A kind of dark bugs, endless, converging together, flapping their wings, bringing up an endless gust of wind, sweeping them towards Lu Ming. From a distance, it was a dark gust of wind.

"This is the Devil Beetle, God, why are there so many?"

An old man whose hair was going to be exclaimed exclaimed. He repaired for the quasi-imperial, and his face was very ugly at the moment.

Devil beetle, a very terrifying monster, alone, may not be strong, but a bunch of together, it is very scary.

What's more, the magic beetles appearing here are endless, I don't know how many.

"People above Wu Emperor, block the Demon Beetle, those under Wu Emperor, escape!"

In the distance, the voice of the ancient emperor came.

They did not dare to violate the order of the emperor.

Suddenly, one martial emperor rushed towards the demon beetle, including the demon king.

boom! boom! ...

Dozens of martial emperors shot at the same time, there are true emperors and virtual emperors, and the power is astonishing.

Large pieces of devil beetles were killed, and fell to the ground like raindrops, and even many, turned into ashes under the power of martial emperor terror.

However, there are too many devil beetles. They are black and oppressive, endless and invincible. There are still a lot of them that rushed over the emperor's siege and rushed towards the landing.

"go!"

Someone shouted.

Uh! Uh! ...

Hundreds of quasi-imperials fled scattered and flew towards the distance.

Lu Ming also rushed in one direction.

Huh...

The wind screamed, and the endless Demon Beetles actually formed an arc to enclose them all.

"Rush!"

Lu Ming exploded in full force, faster than many prospective imperialists, and rushed towards a gap.

There are no devil beetles yet.

But when Lu Ming was about to rush out of the magic beetle encircling circle, his face changed slightly.

Because in front, the Devil Beetle also appeared.

But the number is not too much to compare with the endless beetle.

"Rush over!"

Lu Ming gritted his teeth and rushed past.

call out! call out...

Devil beetles, each one as big as a fist, are covered with black, like black iron, like black cannonballs, rushing towards the landing.

In Lu Ming's hands, a war sword appeared.

This war sword is an imperial soldier!

To deal with this kind of demon beetle, the war sword is the best weapon, which is better than the spear.

call out!

The battle sword was cut out, and suddenly dozens of demon beetles were split in half by Lu Ming.

But for that dense number, dozens of them are nothing.

There are still a lot of Devil Beetles crashing towards the landing.

Lu Ming operates the Holy Power, combined with the law of chaos, to form a protective cover around the body.

boom! boom! ...

The devil beetle crashed into the protective cover and kept roaring, and the protective cover shook violently.

However, Lu Ming's defense cannot be broken for the time being.

"kill!"

Lu Ming held the Emperor Soldier's War Sword and chopped it out continuously. A large number of Demon Beetles were slashed. With a few breaths, hundreds of Demon Beetles fell to the ground.

The strength of these Devil Beetles alone is not very strong, but there are too many of them. They rushed into Lu Ming fearlessly, and hit Lu Ming's protective cover.

In this way, Lu Ming's holy power will be consumed quickly. Once the holy power is exhausted, it will be dangerous.

At this moment, other prospective emperors also encountered the siege of the magic beetle, which was constantly hit by the magic beetle.

They also fought hard to slash the beetle and rush forward.

kill! kill! kill!

Lu Ming's battle swords continued to be cut out. With each sword, a large piece of demon beetle was killed, and he quickly rushed forward. Wherever he passed, the demon beetle fell like raindrops.

Fortunately, this is not a place where Devil Beetles converge, but only marginal areas. Devil Beetles are much fewer.

Soon, Lu Ming rushed across the siege and flew towards the front at speed.

Huh...

Behind, the wind screamed, and the endless Demon Beetle chased to the landing.

Lu Ming flew his head and flew for at least a few hours before the demon beetle disappeared without a trace.

However, Lu Ming and others were completely separated.

"Look at the map!"

Lu Ming took out the map given by the ancient emperor, the Holy Power poured in, the jade card glowed, and a picture was suspended.

However, there is nothing unusual on the map, only one light spot shining.

Lu Ming contrasted, the position of this light spot is his location, this light spot is him.

"It seems that only when this jade brand is excited will there be light spots floating above it!"

Lu Ming moved.

Now everyone is fighting, naturally there is no light floating.

Then, Lu Ming found that he had lost his way. He just fluttered and changed his position. At this moment, he no longer knew where he was flying.

Finally, Lu Ming chose a direction at will and flew forward.

In the next few days, Lu Ming didn't touch any one person, nor touched any creatures. The whole world seemed to be left alone.

For several days, he had no idea how far he had flown.

"Kill, kill, kill!"

Suddenly, Lu Ming heard the front, and there was a cry of killing.

"This..."

Lu Ming was shocked.

Because of this shouting, not one or two people, or dozens of people, it seems that thousands of troops roar.

Here, how could there be thousands of troops?

Lu Ming showed his curiosity.

Then, he performed Divine Breath, completely converging his breath, rushing towards the sound source against the ground.

Chapter 2053: Ancient City and Killing

The closer Lu Ming is to the source of the sound, the more intense the cry for killing.

kill! kill! kill!

Zhentian shouted to kill the sky, straight to the sky.

Lu Ming boarded a dead mountain and stood on top of the mountain, looking towards the front, his pupil shrank suddenly.

In front, there is a huge ancient city, this ancient city is different from the ancient city encountered before.

Almost all the ancient cities I met before collapsed, but this ancient city, intact, very majestic and very huge, looked from afar, like a wild beast, lying there.

Outside the ancient city, there are black figures, these figures, wearing iron armor, holding various warriors.

"These are not creatures!"

Lu Ming looked closely at the figures. Those figures were dark. The body under the armor seemed to be formed by the gathering of energy, not the living creatures.

"Demon!"

Lu Ming whispered, this should be the demon formed by the immortal magic thought after the death of the powerful Dao Dao.

The number of demons, at least tens of thousands, gathered together, sometimes shouting and killing, shaking the earth and earth.

However, the demon has been wandering outside the ancient city without leaving or entering the ancient city.

"I'm afraid this ancient city is intact!"

Lu Ming thought, but he had no intention of going in.

Regardless of whether there are dangers in the ancient city, those demons alone are not easy to deal with.

After watching for a while, Lu Ming shook his head, moved his figure, and left here.

This time, Lu Ming did not fly far, he saw a few flashes of rainbow light, and a few old men appeared not far away.

These are several quasi-imperials of the ancient demon kingdom. Obviously, the other party was also attracted by the shouting.

"Lu Ming!"

Several prospective emperors also saw Lu Ming, with a smile on his face, and flew towards the landing.

"Lu Ming, what's ahead? Why is there such a fierce cry for killing, like a thousand troops!"

An old man asked, with a gentle smile on his face, kind-hearted.

"An ancient city, outside the ancient city, there are at least tens of thousands of demons, shouting the killing sound, it is the demons!"

Lu Ming answered.

"An ancient city!"

A few old men, their eyes are all bright.

They came here to seek opportunities, because their Shouyuan will be exhausted, and if they cannot break through, they will fall sooner or later.

After more than 100,000 years of hard work, they eventually turned into loess. They were unwilling to fight. They wanted to fight together. Hearing that there was an ancient city, they were naturally moved.

They speculate that the magic sea may have really been formed by falling from the heavenly realm, and it definitely contains opportunities.

"Lu Ming, don't you visit the ancient city?"

The kind-hearted old man asked.

"not going!"

Lu Ming shook his head, he entered the magic sea, the main purpose is the ancient coffin, as for chance, he did not have much interest.

"Then let's go in!"

The kind-hearted old man smiled. They had a total of four people. They flew in the direction of the ancient city, just crossing Lu Ming.

Just as the two sides were staggered, the kind-hearted old man's hands suddenly burst into a sword light, slashing towards Lu Ming's neck.

Jianguang pierced the void, with a terrible roar, sharp.

At the same time, the other three prospective emperors also started, and all kinds of terrible attacks attacked Lu Ming's vital point.

But when the attack of the four fell on Lu Ming, the light of chaos burst out on Lu Ming, and all the attacks of the four were blocked, and the light of the chaos shocked, and the powerful power poured out, the body of the four quasi-imperials After the earthquake, they backed off.

"You guys, you are really looking for death!"

Lu Ming Binghan opened his mouth and looked indifferently at the four.

"You have been guarding us?"

The kind-hearted old man said ugly.

At the close distance just now, their outbreaks were difficult and the speed was amazing. If Lu Ming had not defended them for a long time, he would never have reacted in such a short time and made defenses and counterattacks.

The only explanation is that Lu Ming has been defending them, and has already done a good job of defense.

"The old fellow Cang Mo Wang, from time to time, showed his killing opportunities to me, and I heard that he was in an ancient demon country, and he had a powerful power. He wanted to summon some people, many people were willing to be his stooges, I naturally have to guard! "

Lu Ming said lightly.

It can be said that among the people who entered the magic sea this time, Lu Ming, besides the ancient emperor, other people, he has a certain degree of vigilance.

The old fellow Cang Mo Wang, who lost face because of Lu Ming last time, apparently has a grudge against him and always wanted to kill him. With the power of Cang Mo Wang, it was not normal to buy some people to kill Lu Ming.

"go!"

The kind-hearted old man shouted, turned and ran.

Lu Ming's combat power, they are too clear, and they are definitely not capable of enemy, since sneak attack can not succeed, only run.

"Have you run away? Kill!"

Lu Ming first chased at the kind-hearted old man with an amazing speed. After a few breaths, he caught up with the kind-hearted old man.

The kind-hearted old man almost scared to death and shouted: "Lu Ming, you can't kill me, here is the ancient demon kingdom, if you kill me, you will die yourself!"

"At this time, still threatening me, ridiculous, kill!"

Lu Ming drank coldly and was too lazy to talk nonsense with him. He pointed out with one finger, and the fingers that were condensed to the extreme burst out.

Although the kind-hearted elders tried their best to resist, they had no effect at all, and they were directly pierced into the eyebrows by the finger, and even the soul was wiped out together.

Uh!

After Lu Ming killed the opponent, he didn't stop at all, chasing the other three.

"Run away!"

One roared, and the three fled in three directions.

But without a few strokes, Lu Ming was caught up with another one and killed with one stroke.

Then, Lu Ming went to chase the third person.

"No, spare..."

The prospective emperor yelled.

But Lu Ming was very indifferent, these people, he will kill.

"Bold, die!"

At this moment, a rage sounded, and in the distance, a terrifying magic light slammed toward the landing, and the speed was amazing.

The sound hadn't fallen yet, the magic light was about to be cut on Lu Ming.

Lu Ming's eyes narrowed, and there was a sense of crisis in his heart. At this moment, he broke out with all his strength.

The light of chaos surrounds the whole body, controls two laws, exerts the strongest move, and is destroyed. Chaos robbing finger!

boom!

A gray chaotic finger, pointing at the magic light, burst into an amazing roar.

The magic light buzzed and was finally blocked by Lu Ming, but the chaotic robbery was also cut off by this magic light.

Lu Ming felt a very powerful force, rushing towards him, his body could not help but retreat a few kilometers back, feeling the blood and tumbling in his body.

"What a terrifying power!"

Lu Ming was shocked.

Emperor Wu definitely shot.

call out!

In front, the light flashed, and a middle-aged man in black robe appeared.

This person exuded a terrible breath, it was Diwei.

"This person is by no means a star emperor!"

Lu Ming's eyes narrowed.

He once played against the Yixing Emperor, absolutely not as strong as this middle-aged man.

Chapter 2054: Demon Army

The middle-aged man in black robe looked at Lu Ming with indifferent eyes and said: "Lu Ming, the emperor treats you not badly, but also takes you in to look for the ancient coffin, but I did not expect you to secretly kill the master of the devil's country. Damn it!"

"It's ridiculous, if you want to kill me, it's needless to say that it's so high-sounding, it's the devil king who sent you to kill me, just a running dog!"

Lu Ming ridiculed, and at the same time he quickly thought about the way to get out.

"dead!"

The middle-aged man in black robe doesn't talk much, he just started, and the power of the world burst into a knife, slashing toward the landing, and the speed was extremely fast.

Two-star Emperor!

Lu Ming judged that this person should be a two-star virtual emperor, stronger than a one-star virtual emperor, but not as outrageous as a strong one.

But the two-star Emperor Emperor is far from Lu Ming's resistance.

Uh!

Lu Ming turned around and left, turning into a rainbow of light, heading in the direction of the ancient city.

If you want to get rid of each other, you can only use the ancient city.

"Want to go? No way!"

The middle-aged man in black robe drank coldly, turned into a black light, chased toward the landing Ming, and at the same time cut out a black magic light.

Lu Ming's body glowed. Dozens of sacred soldiers and two imperial soldiers came out of suspension. Dozens of weapons gathered together, and the spirits of the soldiers gathered to form a huge defensive weapon.

At the same time, the law of chaos and the light of chaos are also blessed on the soldiers.

Keng!

The magic light of the middle-aged man in black robe was cut on the soldiers behind Lu Ming. The soldiers shook and dozens of weapons were almost scattered.

If there are not two imperial soldiers, and the air of the war soldiers converges, it is as round as it is. With the blessing of chaos light and chaos law, I am afraid that the general sage soldiers will be dispersed by this blow.

The terrifying power kept flowing towards Lu Ming, who felt that blood and blood were pouring and almost spitting out blood.

But after all he was blocked by him, and that force became his driving force, allowing him to fly forward faster.

The middle-aged man in black robe has a cold face.

Lu Ming's strength was really terrifying, and with his two-star Emperor's combat power, he was actually blocked.

However, when he thought of the reward the Cang Demon had promised, he was hot in his heart and chased towards Landing Ming more quickly.

kill!

Before the ancient city, there were tens of thousands of demons, a piece of black pressure, wearing armor, armed with soldiers, shouting to kill Zhentian.

Lu Ming was quickly approaching the ancient city.

Keng!

At this time, the middle-aged man in black robe launched another attack, and a magic light was cut on the soldier behind Lu Ming, causing the soldier to shake.

This time, Lu Ming spit out a mouthful of blood.

With his current combat power, he can compete with the general one-star Emperor, but in the face of the two-star Emperor, the difference is too great.

Lu Ming gritted his teeth and held back, rushing toward the black demon.

kill!

A demon discovered Lu Ming, a murderous wave, swept towards Landing Ming, and at the same time various weapons launched an attack on Landing Ming.

"Equivalent to the Great Holy Land!"

With a move in his heart, Lu Ming judged the strength of the demon attacking him.

Therefore, he did not pause at all, and rushed past with his body protected by Chaos Light.

bump! bump!

The demon that Lu Ming shot, burst directly.

In an instant, Lu Ming rushed into a few hundred meters.

But immediately there are more demons, and they are going to the landing, and the combat power is stronger than before, reaching the most holy state.

Regardless of Lu Ming, he continued to rush forward.

In the rear, the middle-aged man in black robe stopped.

He didn't dare to rush past Lu Ming, just to observe and talk.

Behind, the sound of breaking the sky sounded, there were more than a dozen figures, rushed over, are the old man of the quasi-imperial realm.

Obviously, most of them came from behind.

"How many of you?"

The middle-aged man in black robe glanced coldly.

"The two Emperor Wudi will be here soon!"

Said a white-haired old man.

"Well, this time, entrusted by the Demon King to kill Lu Ming, there must be no mistakes, leaving one person here, waiting to meet other Emperor Wu, you follow me, ready to rush into this ancient city!"

The middle-aged man in black robe ordered.

By this time, Lu Ming had rushed all the way, and had already rushed most of the way.

Although there are many demons, but they are too scattered, and in the previous section, there are not many masters, and the strongest is the most holy, which can't stop Lu Ming.

But the farther back, the closer to the ancient city, the stronger the devil's strength.

Uh! Uh!

Several rusty iron swords slashed towards the landing, and the blade screamed, tearing Lu Ming apart.

This has the attack power of the prospective emperor.

Lu Ming didn't dare to carelessly, with a punch, a ghost image of the jailstone appeared and rammed towards the front.

bump! bump!

Several demon spirits were directly blown out by the prison monument, and turned to ashes in mid-air.

"The Prison of Heavenly Prison, it really works against this demon!"

Lu Ming's eyes lit up, his fists kept waving, and the demons of the Quasi-Emperor Realm were blown out by Lu Ming.

Even when facing the Emperor Demon Spirit, Lu Ming did not slow down, approaching the ancient city quickly.

The middle-aged man in black robe finally couldn't help but shouted, "Crush with me!"

Uh! Uh! ...

The middle-aged man in black robe rushed out first, and more than a dozen quasi-empires followed him, like a spear, stabbing at the demon army, leaving only one quasi-empire, where he would meet other people.

The middle-aged man in black robe is, after all, a two-star virtual emperor, with more than ten quasi-imperial emperors, such as a spear, who pierced the demon army in an instant and quickly chased down to the landing.

Ordinary demons can't stop them.

When the middle-aged man in black robe was about to cross halfway, Lu Ming was about to break through the demon's defense.

But at this time, Lu Ming was in trouble.

There were two terrible demons attacking Landing Ming.

These two demons, both wearing rusty armor, one holding a sword, and the other holding a spear, are astonishingly powerful.

These are two demon spirits equivalent to a star emperor.

The iron sword and the spear slammed towards the landing, and at once shattered the phantom of Lu Ming's prison stone, blocking Lu Ming's figure.

Lu Ming sank slightly in his heart. Sure enough, there was a Wudi level in the Demon Army.

But fortunately, it is not too terrifying, the two demons are just equivalent to a star emperor.

"Lu Ming was blocked and killed!"

The middle-aged man in black robe brightened his eyes and slammed towards the landing at a faster speed.

There are two demons blocking Lu Ming, plus him, Lu Ming will die!

"The prison monument!"

At this moment, Lu Ming's thoughts moved, and the blood vessels of the jail monument levitated, rapidly increasing in size, emitting a tremendous glow of light, and suppressing toward the two demons.

boom! boom!

The blood veins of the prison monument are more restrained to the demon, and the bodies of the two demons are directly blown away by the blood veins of the prison monument.

Taking advantage of this opportunity, Lu Ming flashed his body, rushed over the siege of the demon army, and rushed towards the ancient city.

Strangely, when Lu Ming approached a certain area of the ancient city, those demons stopped and did not pursue Lu Ming.

Lu Ming put away the blood of the town prison monument and ran towards the gate of the ancient city.

Chapter 2055: Armor cannibalism

The gate of the ancient city is open, but the light in the city seems very dim. From the outside, the large buildings in the city are hazy and cannot be seen.

boom! boom!

Behind, the middle-aged man in black robe continually blasted the demon, chased over, Lu Ming, without stopping, rushed directly into the ancient city.

But when he rushed into the ancient city, Lu Ming's face changed.

Because in the ancient city, he could not fly.

The ancient city was banned from air, and there was a mysterious power that blocked his flight.

Moreover, the light in the city is indeed very dim and the visibility is not high. With Lu Ming's eyesight, he can't see much.

In the city, there are huge palaces, as well as various ancient buildings, tall and majestic, like a giant, standing in the ancient city.

Lu Ming rushed directly to a small alley, ran in the small alley, and then turned to another small alley.

There are countless alleys and streets in the ancient city. After a few turns, Lu Ming has left the gate far away.

At this time, the middle-aged man in black robe also led people into the ancient city.

As soon as they entered the ancient city, their complexion changed, because they felt they could not fly.

"In this ancient city, there may be a chance. We are looking for Lu Ming's boy while looking for opportunities!"

There was a trace of greed in the eyes of the middle-aged man in black robe.

Then, he let the two quasi-empires stay near the city gate. If Lu Ming was found, it would be communicated in time, and he took the remaining quasi-empires and randomly chose a street and ran away.

At this time, there were two more people outside the ancient city.

These are the two old men, the breath is extremely powerful, and both are powerful in the virtual emperor realm.

The prospective emperor who stayed outside and responded to the situation briefly, the two virtual emperors also rushed towards the ancient city.

Although there are demons of the Wu Emperor Realm among the demons, the two of them were single-heartedly attacked and did not go to war. The demons and virtual emperors could not stop them. They entangled a bit and they rushed into the ancient city.

Lu Ming wandered around the ancient city, bypassing ancient strange buildings.

In the city, there was no sound, a quiet anomaly, empty, no soul.

"What's in these buildings?"

Lu Ming was curious, rushed to the wall of a building and looked inside.

Inside the building, it is also empty and contains nothing.

This is an empty city.

Lu Ming looked at several buildings in a row, all of which were empty.

Ok?

Suddenly, Lu Ming's eyes moved, because he saw the gate of a palace in front of him, which was concealed.

The doors of other buildings are closed, with the exception of this palace.

"Did it be opened by those of the ancient demon kingdom?"

Lu Ming thought.

The gangs of the ancient demon kingdom must have also come in. It is not surprising that they opened the door.

Lu Ming converged, approaching the gate and looking inside.

At a glance, his pupils snapped.

Inside the palace is a small courtyard, and there is a figure in the courtyard.

This figure sat cross-legged, wearing armor, but in the armor, it was a bone.

The armor is rusty, and there are dark red blood stains.

It seems to be an ancient person, has fallen for a long time.

Lu Ming observed it, then left here and continued to walk through the ancient city.

He wondered whether he would return to the city gate and leave this ancient city.

Because he didn't know why, he always had a bad feeling in his heart, feeling that this ancient city was very strange.

After another turn, at the street entrance in front of him, a figure suddenly flashed, and seven or eight figures appeared. It was the middle-aged man in black robe and the prospective emperors.

The other party also saw Lu Ming at a glance.

"Lu Ming, now look at where you are going?"

Middle-aged Hansen in black robe said coldly, chasing after landing.

Lu Ming turned around and left, running towards another street.

The middle-aged man in the black robe was chasing behind. They just explored several ancient buildings in succession, and they got nothing. The imaginary chance did not exist at all, so Lu Ming could not let it go.

At least Lu Ming was killed, and he can get a generous reward from the Cang De Wang.

Soon, Lu Ming turned around two streets, but at this time, two figures appeared in front.

Seeing these two people, Lu Ming's face changed, because the breath of these two people was extremely terrifying, and he was also a character in the Emperor Wu Realm.

"Lu Ming!"

The two saw Lu Ming, a killer flashed in their eyes, and approached the landing.

"Haha, stop Lu Ming!"

The middle-aged man in black robe laughed.

Lu Ming's face was gloomy. It seemed that the Demon King really wanted to kill him. He secretly united with so many people.

Lu Ming naturally cannot stop to fight the other party. The other party has three virtual emperors. Once entangled, he will definitely die.

Lu Ming changed shape and rushed from a street on the right.

what!

At this moment, a scream, sounded in the silent ancient city, very sad.

Lu Ming turned around and gave a quick glance, suddenly hairy.

He saw that a quasi-emperor who chased after him fell to the rear, at which time the whole person was enveloped by an armor.

It was a rusty armor with dark blood stains on it. At this time, the armor wrapped around the Emperor Emperor, and the body of the Emperor Emperor shriveled rapidly, as if he had swallowed the whole body of blood.

"What the hell, get away!"

The middle-aged man in black robe was angry and waved his hand, and a black magic sword was cut on the armor.

Keng!

A clear voice sounded, and the magic knife was chopped on the armor, and there was no trace on it.

The prospective emperor has stopped screaming and turned into a dead bone.

"Shoot together!"

The middle-aged man in black robe was furious and attacked with various attacks, blasting towards the armor.

But the armor flickered and rushed directly into a building. When they rushed into the building, the trace of the armor was gone.

Several middle-aged Han men in black robes looked somber.

"Continue to chase Lu Ming!"

The middle-aged man in black robe snorted, and they continued to chase in the direction of landing Ming fled.

However, it didn't take long for another scream to sound.

The armor did not know where it came from, and it was wrapped in a prospective emperor.

Several middle-aged men in black robe launched a stormy general attack. Various attacks fell on the armor. The armor made a clanging sound, and then rushed into a building under the last flash.

Armor eats people!

Everyone hairs, what's going on? A piece of armor, it rushed out repeatedly, devouring human blood, a prospective emperor, without the slightest resistance.

This is too infiltrating.

The rest of the prospective emperor looked pale.

"The prospective emperor walks in the middle, and the three of us guard the periphery!"

The middle-aged Dao Dao in black robe allows the imperial emperor to walk in the middle, and the three emperor emperors guard the periphery.

Not far away, Lu Ming also heard the screams, some hairy.

A piece of armor actually eats people.

More importantly, Lu Ming felt that the armor was familiar to him, exactly the same as the armor on a corpse he had seen in a courtyard before.

Is that armor?

Chapter 2056: Fierce battle in the ancient city

Lu Ming was running. Suddenly, his hair stood upside down. He felt a crisis. He suddenly turned around and pointed a finger towards the back.

laugh!

The fingers of Chaos Tribulation burst out and hit a piece of armor.

when!

The armor vibrated, but nothing happened, leaving no trace, shaking twice in the air, and slamming directly towards the landing, the speed was amazing.

call out! call out!

Lu Ming continuously pointed out the chaotic fingers and hit the armor, but it was useless. The armor only shook a few times and continued to rush to the landing Ming.

"That is..."

Lu Ming saw that there was blood flowing on the armor, like a tentacle, reaching out to the landing.

Lu Ming runs the chaos rule and the light of chaos resists.

But when the tentacle touched the law of chaos and the light of chaos, the law of chaos and the light of chaos shook violently, almost in a breath, torn apart by the tentacle.

Lu Ming retired from his body, and his hair was standing upside down.

This armor is extremely terrible, even the light of chaos can't be blocked.

"Prison!"

With a move in Lu Ming's heart, the blood of the jail monument behind him emerged, exuding a tremendous radiance, and suppressed toward the armor.

嗤嗤嗤...

The blood-red tentacles on the armor, when they touched the energy on the jailstone, made a chirping noise, as if ice cubes were thrown into the fire and melted quickly.

The blood-red tentacles stretched back, and the armor disappeared here under a flash.

"so close!"

Lu Ming put away the prison monument and took a long breath.

The armor is extremely evil, as if it were spiritual, and it is indestructible, very terrible.

"Lu Ming is there!"

Not far away, a roar came, and the middle-aged man in black robe and others chased to the landing.

Obviously, just now Lu Ming used the prison monument, and the light was too strong to be discovered by them.

"It's really unwilling!"

Lu Ming's eyes flickered, and then rushed in one direction.

Soon after, Lu Ming came to a palace, and the gate of this palace was concealed.

Lu Ming condensed his breath to the extreme, approached the door, and looked inside.

In the yard, there was a dead bone before, wearing an armor, but now, there is still a dead bone, but the armor on his body is missing.

"It really is this armor..."

Lu Ming whispered, and then the blood of the jail monument appeared, suspended above his head, and Lu Ming rushed towards the dead bone.

Without any abnormality, Lu Ming came to the dry bone.

Uh!

At that moment, under the gate flashing, the armor appeared, it twisted very humanly, and seemed very nervous.

"Don't come, otherwise, I will destroy this bone!"

Lu Ming condensed a big hand with the divine power and grabbed the dead bone in his hand.

The armor stopped, and he dared not get close.

Lu Ming's eyes lit up, and it seemed that his guess was correct.

The armor and this dead bone are one.

In other words, the owner of this armor is this dead bone.

Perhaps it was this dead bone that was powerful and powerful. After falling down, the powerful energy nourished this armor, and this armor gave birth to wisdom.

But this armor is still subject to dry bones, as long as the dry bones are destroyed, the armor will also be implicated.

"Retreat!"

Lu Ming spoke coldly.

The armor twisted a few times, but after all it retreated.

Lu Ming smiled and said: "Follow me, it is best not to mess up, I can destroy this bone in my heart!"

After all, Lu Ming left the other court and went in one direction. The armor could only follow Lu Ming honestly.

"bring it on!"

Lu Ming sneered, the jail monument quickly grew larger, exuding tremendous light, and could be seen from afar.

Then he collected the prison monument, let the armor hide in a building, and waited quietly.

It didn't take long, the figure in front flashed, and the middle-aged man in black robe came with a speed.

However, the other two Emperor Wu were not seen.

Lu Ming smiled and looked behind him.

Behind them, the two figures came quickly, it was the two martial emperors chasing behind.

Obviously, the other party was afraid that Lu Ming would run away and hit on both sides.

"Two One Star Emperors!"

Lu Ming sneered, standing still.

Uh! Uh!

The figure flashed, and the middle-aged man in black robe brought seven or eight quasi-empires together with two virtual emperors to surround Lu Ming Tuan.

"It seems that the old demon king really spent a lot of money, so I want to die!"

Lu Ming smiled faintly.

"Lu Ming, although you are a genius, it is a pity that you will not be a human being. Even the Cang Demon dares to offend, only one way to die!"

The middle-aged man in black robe said coldly.

Lu Ming was speechless.

Speaking of it, he didn't take the initiative to provoke the Demon King from beginning to end, but the other party was always targeting him.

First, he was not allowed to participate in the contest, and finally Lu Ming defeated Gu Mo and slapped him in the face. Wasn't he asking for it?

This class of people can only be described as narrow-minded.

"You want to kill me, be careful to put your little life here!"

Lu Ming sneered.

boom!

Lu Ming moved, showing the destruction. Chaos robbery pointed, pointing at the middle-aged man in black robe.

"Do not control yourself!"

The middle-aged man in the black robe also moved. His palm was like a sword, and it came out, and the light of a magic knife slammed toward the landing.

boom!

Destruction. Chaos Tribulation means that without resistance a few times, he was crushed and Lu Ming retreated.

But at this time, the armor rushed out of a building, entangled a quasi-imperial group.

The prospective emperor screamed terribly, and his body shrivelled quickly.

"First kill Lu Ming!"

The middle-aged man in black robe roared and slammed towards the landing.

Uh!

Lu Ming rushed directly into a palace on the side.

The middle-aged man in black robe, and two other Emperors Wu also rushed into the palace and chased after landing Ming Ming, of course, including those prospective emperors.

The palace is large, but empty, with no creatures.

Lu Ming rushed into the palace and rushed towards the depths of the palace.

what!

Behind, there was another cry of screaming.

The armor engulfed one prospective emperor, and entangled another prospective emperor.

Moreover, as the armor devoured the prospective emperor, it seemed to become stronger and stronger.

At first, it took a few breaths to devour a Quasi-Emperor, but now, only one breath is needed.

"Damn!"

The middle-aged man in black robe yelled. In this way, the prospective emperor would be swallowed up.

"The two of you continue to chase, I'll block that armor!"

The middle-aged man in black robe roared and turned to kill the armor.

When he killed, another prospective emperor was swallowed by armor.

It was only for a while, and there were already three quasi-empires who were devoured by armor and fell.

The middle-aged man in black robe was furious and made a move with all his might.

But the armor did not touch him at all, flickered a few times, and fled.

The remaining five Emperor Emperors were pale and bloodless.

"Next, you follow me!"

Middle-aged Han Dao in black robe.

Chapter 2057: Devour the Emperor

The middle-aged man in black robe, with the five remaining imperial emperors, chased in the direction of landing Ming escape.

At this time, Lu Ming and the two virtual emperors had rushed out of this palace and ran a long distance away.

"Lu Ming, die, we will give you a happy!"

"Offended the demon king, your ending is doomed!"

The two virtual emperors kept drinking coldly, provoking Lu Ming.

Lu Ming was too lazy to ignore it and wandered around the winding streets.

After running for a while, Lu Ming stopped suddenly and sneered, "You want to kill me, come on!"

bump! bump! ...

Lu Ming stepped on his feet and killed two emperors.

The two Emperors were stunned, and they didn't understand how Lu Ming suddenly stopped running, but Lu Ming stopped, just as they wanted.

"kill!"

Two virtual emperors slammed towards the landing.

But at this moment, the armor rushed out of a building beside it and rushed towards one of the virtual emperors.

The virtual emperor was shocked and quickly turned the direction of the attack, blasting towards the armor.

But the armor was solid and immortal, but it just shook a little, and continued to rush towards the virtual emperor. On the armor, there were strips of tentacles, which were entwined towards the other party.

"Chaotic Tribulation!"

Lu Ming, with all his strength, showed his chaotic finger and slayed towards another virtual emperor.

With Lu Ming's current combat power, the Emperor Xu didn't dare to carelessly, but also exploded into full force, attacking Lu Ming.

bump! bump!

Lu Ming and the Emperor Xu had two hard moves. Although he fell in the wind, he was blocked by him.

Lu Ming once fought against the Emperor of the He Family, but the Emperor of the He Family, just after breaking through the one-star Emperor, was not as powerful as the people in front of him, but it was not much worse.

Although Lu Ming lost, it was enough to threaten the other party.

Lu Ming's back glowed, and the third bloodline emerged. Lu Ming borrowed some of the power of the third bloodline.

But Lu Ming was very careful not to borrow too much, but borrowed the part he could control.

Even so, Lu Ming's strength has greatly increased.

Hey...

Lu Ming continued to point out the chaotic finger, and after borrowing the power of the third bloodline, Lu Ming's power greatly increased, and finally he was able to fight against the other side without falling.

Lu Ming is entangled with one person, while another virtual emperor is in danger.

After the armor devoured a few of the imperial emperors, its power really increased.

The armor was already terrible, and even Lu Ming's chaotic light could not be blocked.

And now, the power of the armor has increased greatly, coupled with the threat of Lu Ming, even more terrifying power has erupted.

The quasi-imperialist's attacks kept bombarding the armor, but it was completely useless. The armor kept approaching the opponent, and the blood-red tentacles stretched toward the opponent, directly breaking the opponent's defense.

The blood-red tentacles caught the virtual emperor and began to devour each other.

"Go away!"

The Emperor Xu shouted in horror and struggled, but it was useless. The armor became tighter and tighter, like an octopus.

"Ah! Save me, save me!"

The virtual emperor screamed and twisted his body frantically, but everything was in vain. He felt that everything in his body was swallowed by the armor.

His body shrivelled quickly.

Another virtual emperor was horrified and wanted to rescue, but he was entangled with Lu Ming.

At this time, the middle-aged man in black robe finally brought him.

But when he arrived, the virtual emperor wrapped in armor was no longer saved.

His body was completely shrivelled and turned into a dead bone, and his body was spirited and disappeared without a trace.

On the armor, there was a bright red light, as if there was blood surging on it.

Uh!

The armor moved a bit and threw it directly at the emperor who fought against Lu Ming.

"Go away!"

The virtual emperor broke out and wanted to blast away the armor and escape.

But would Lu Ming give him the opportunity to point a finger at his chest, causing this person to vomit blood and be severely hit, and the armor directly wrapped around him, tentacles wrapped around him, and began to devour.

"Help!"

The virtual emperor yelled in horror.

The middle-aged man in a black robe who came after him turned pale and showed fear.

One star Emperor Emperor has no resistance, then his two Star Emperor Emperor is estimated to be suspended.

"go!"

The middle-aged man in black robe did not hesitate, turned around and left.

This ancient city is too weird. If he stays again, he may not even be able to survive.

The five prospective emperors, following the middle-aged man in black robe, rushed towards the gate of the city. This ancient city, they didn't want to stay longer.

The virtual emperor entangled in the armor uttered a desperate roar, and soon after, he was swallowed up by the armor and turned into a dead bone.

Consumes two virtual emperors in a row, the armor emits a dazzling blood-red light, which is very infiltrating and absolutely terrifying.

The armor seemed to stare at Landing Ming, wandering around Lu Ming.

Lu Ming did not dare to carelessly, suspended the prison monument, while holding the bone, staring at the armor.

The armor flew a few times, and it seemed that Lu Ming would be afraid of ruining the bones. Moreover, it was also very afraid of the jail monument. Finally, he stepped back and kept a distance from Lu Ming.

"chase!"

Lu Ming whispered, chasing toward the middle-aged man in black robe and others, the armor followed.

However, when Lu Ming rushed to the gate of the ancient city, he found that the middle-aged man in black robe had rushed out of the city, rushed into the army of demons, and broke out towards the outside.

Uh!

Lu Ming also rushed out of the city, but the armor stayed in the city. It seemed that he could not leave the city. It was useless for Ren Luming to threaten.

It's a pity that Lu Ming secretly sighed and could only return to the city.

Soon, the middle-aged man in black robe rushed out of the demon's siege, but did not go far, but stayed there.

His face was extremely ugly.

This time, it was really a heavy loss.

Entering the ancient city, not only died four quasi-empires, but also two virtual emperors, also died inside.

The Emperor Xu is not comparable to the Quasi-Emperor, it is already Wu Di.

A hundred prospective emperors, I am afraid that only one person can break through the emperor's realm.

"There is news to Cang Demon King, we are waiting here, that armor seems to be unable to come out!"

The middle-aged man in black robe said coldly.

Without that armor, Lu Ming did not put it in his heart at all.

Lu Ming observed in the city for a while and found that the middle-aged man in black robe was outside the city. He frowned.

The middle-aged man in black robe, but the two-star Emperor Xu, even if he borrowed the power of the third bloodline, he could not rush out.

"Look at this ancient city first, what other powers can be borrowed, or, if there are other gates, go outside!"

Lu Ming thought, and then turned back towards the inside of the ancient city.

This ancient city is too big and vast.

In addition, there is a no-fly area, which can't fly, so it takes a lot of time to run like this.

Lu Ming explored more than a dozen buildings in the city and found nothing.

There is no other strange place.

This ancient city seems to have nothing but armor and the bone in Lu Ming's hand.

Chapter 2058: Life in the ancient city

What disappointed Lu Ming was that he came to the left and right of the ancient city, but he did not see the city gate, only the tall and majestic city wall, and there seemed to be a force in the city wall that prevented him from going up.

In other words, if you want to go out of the city wall, it won't work.

"This ancient city will not have only one gate!"

Lu Ming was speechless.

It is impossible for an ordinary big city to have only one gate. Even if there are few, there will be at least two gates.

There are generally four, eight, or even more.

"Perhaps, deep in the ancient city, there will be a gate in the direction corresponding to that gate!"

Lu Mingsi, intending to enter the depths of the ancient city, through this ancient city.

As Lu Ming was about to set off, heading deep into the ancient city, there were some figures outside the ancient city.

There are eight people, four of them, are the emperors of Wu Emperor's cultivation, led by the emperor.

The power of the Cang Mo King in the ancient demon kingdom is indeed very great. He and the ancient emperor are the characters of the same generation. The cultivation base has reached the peak of the true emperor and is highly valued by the ancient emperor. Therefore, many people in the ancient demon kingdom will sell him a face. .

But it was just killing Lu Ming as a junior, and besides, the Cang Mo King made a generous reward. Naturally, many people followed the Cang Mo King to kill Lu Ming.

"what happened?"

The Cang De Wang came and glanced coldly across the middle-aged man in black robe.

"Is such that..."

The middle-aged man in black robe told the situation in the ancient city diligently.

"A piece of armor?"

A ray of fine light flashed in the eyes of the demon king, followed by a cold murder.

Because Lu Ming actually lost so many masters, Lu Ming was even more damned.

"Emperor Wudi, come with me, the others stay outside!"

The demon king ordered, and then flew towards the ancient city.

Cang Mo Wang, but the strong man at the peak of the true emperor, is too strong. Those demon spirits are like ants in the Cang Mo Wang's hands.

They easily rushed over the demon army and rushed into the ancient city.

"A group of two, find Lu Ming separately, find it, and send the news in time!"

Cang Dewang said.

This time, the people who come with the Cang Demon King are quite capable.

There are a total of three people. There is one true emperor and two virtual emperors, but they are all five-star or higher virtual emperors. They are stronger than black-robed middle-aged men.

The middle-aged man in black robe followed the true emperor and went to the right.

Two powerful virtual emperors went to the left, while the Cang Demon went to the middle alone, searching for Lu Ming in a carpet.

At this time, Lu Ming had already passed through the center of the ancient city and headed deeper.

Relative to the direction of the city gate, this side is indeed deep inside the ancient city.

When Lu Ming came to the depths of the ancient city, he felt a little hairy in the body, and always felt a sense of crisis.

"The buildings here are more majestic, like small castles!"

Lu Ming looked around.

The buildings here are indeed more majestic, painted black and full of the breath of years.

Lu Ming walked carefully, and behind that, the armor always followed him.

Boom!

Suddenly, there was a building in front of it, and there was a vibration.

Lu Ming was startled and stopped.

Boom!

Then, there was another vibration in the building, as if there was a giant, bombing the castle inside the building.

After a few consecutive vibrations, that sound disappeared again.

Lu Ming frowned, running the Divine Breath technique to converge the breath to the extreme, and then continued to move forward.

Roar!

When Lu Ming passed the building, there was a loud roar in the building, and then, the sound of an iron chain striking.

At the next moment, Lu Ming saw that in the building, a hand was extended.

This claw, like the claw of a beast, was covered with black scale armor, and a black chain was wrapped around the claw.

The claws were as big as houses, and they clawed at the landing, emitting a terrifying breath.

Lu Ming was shocked, his body receded quickly.

But that hand claw actually skyrocketed, and it became longer and bigger at a very rapid speed.

Seeing that Lu Ming was about to be grabbed, at this time, Lu Ming controlled the jail stele, the jail stele glowed, and hurled towards the hand.

嗤嗤嗤...

The hand claw, shrouded in the light of the jailstone, made a sneering noise, and black smoke filled out.

Roar!

In the building, another roar sounded, and the claw stretched back.

Lu Ming stepped back continuously, and took a long breath after quitting a distance.

There are creatures in the building here, it seems that they are locked in general, which shocked Lu Ming.

This ancient city seems to have endless years, why there are still souls.

Could it be that the creatures in the building were locked in by the original owner of this ancient city?

But being able to survive for so long without dying is absolutely extremely powerful.

"Always change direction!"

Lu Ming left here, walked to the right for a while, and then moved on.

In front, there are still huge buildings.

Lu Ming walked carefully through some buildings, but did not find any abnormalities. It seems that not every building has creatures.

Even if there is, it may be so long in the past, it is dead, and not many can survive.

But Lu Ming's good luck did not last long.

Roar!

There was a roar, and in a building, a claw was extended, which was larger than the previous one, covered with dark scales, and had long nails, like the claws of a demon.

Lu Ming resisted with the jail monument, and his body retreated sharply. Fortunately, the jail monument has a strong restraint on this kind of claw. When the hand touches the light of the jail monument, it quickly retreats and retracts into the building.

Lu Ming backed away for a while, wandering around this area.

It seems that there are terrible creatures in the buildings in this area.

I don't know which ones are there and which are not.

It's not safe to go through so hard, even if there is blood from the prison monument.

Lu Ming thought.

At this time, several figures rushed in the direction of the landing sound.

Just now the blood of the jail stele radiated light, even if it was far apart, it was discovered.

Cang Mo Wang, they quickly rushed to the landing Ming, of which, Cang Mo Wang the fastest.

Although, due to his peak cultivation of the true emperor, flying was also banned in this ancient city, but his cultivation was placed there after all. Even if he could not fly, the speed was amazing.

Lu Ming was hesitating whether to break in, but at this moment, he suddenly had a bad feeling and looked towards the back, he saw a figure, flashing at a rapid speed, and suddenly appeared in Lu Ming not far away Office.

"The Demon King!"

Lu Ming's pupil contracted sharply.

"Lu Ming, die!"

The attack of the demon king directed directly at the landing.

"Stop it!"

Lu Ming shouted, and the armor rushed directly towards the Cang Demon King.

boom!

The Cang Demon's strength, how powerful, directly hit the armor.

When the armor was called, Lu Ming himself had already rushed deep into the ancient city.

Chapter 2059: Chase

Faced with such strong men as Cang Demon, rushing outward, there is only one way to die, and only rushing towards the inside will have vitality.

"kill!"

The demon king shouted and chased after landing, but the armor was wrapped in the demon king again.

The sound of the armor was covered with rust, but at this time it exuded a rich blood, stretched out tentacles, and entangled toward the Cang Demon King.

boom!

The demon king banged out with a fist, and frightened his fist, striking the armor far away.

However, this armor material is indeed extraordinary, indestructible, and has not been crushed by the demon king.

After the armor was blown away, it flew towards the demon king again.

Watching Lu Mingming keep going towards the depths of the ancient city, Cang Mo Wang's face showed anger.

At this time, the other four also came here.

"You chase Lu Ming!"

The devil king said coldly.

The other four nodded and chased deep into the ancient city.

The demon king's cold eyes stared at the armor, and a black flame filled his body.

This is a magic fire, extremely terrible, and the temperature is amazing.

When he pressed with one hand, the demon burst out and enveloped the armor.

After all, Cang Mo Wang is the strongest pinnacle of the true emperor. Although the material of the armor is solid and immortal, but the energy contained is not high, where is the opponent of Cang Mo Wang.

Enveloped by the magic fire, the armor made a snorting noise, and those bright red blood were quickly melted away by the magic fire.

It didn't take long for the armor to fall to the ground like a pile of scrap iron.

In the armor, not only the blood was refined, but everything else was also refined, including the only trace of imprint, disappeared without a trace, completely reduced to a pile of scrap iron.

Lu Ming was running, his expression moved, and the bone in his hand, with a touch, turned to ashes.

Lu Ming knew that that armor would definitely not be able to block the Cang Demon King, the peak of the True Emperor, only one step away from the Emperor, and the fighting power was too strong.

Uh! Uh! ...

In the rear, the four figures quickly chased towards the landing, and the speed was amazing.

It was the four martial arts strongmen, one of them, filled with the world's divine light, was obviously a true emperor.

This true emperor is the fastest, chasing Lu Ming.

Roar!

At this time, a huge roar came from a huge building, and a huge claw protruded out of the building, catching towards the landing.

"Fight!"

Lu Ming kept on sculpting, and continued to rush inside, while controlling the blood of the prison monument, suspended above his head.

The blood of the jail stele radiated a tremendous glow. As soon as the huge claw was near the jail stele, it seemed to be burned by fire, and it was quickly taken back.

Lu Ming rushed across the building smoothly and continued to go deeper.

Without a few breaths, the true emperor chased.

The emperor saw the giant claw just now. At this moment, the power of the world was running all over his body, and he was alert.

Roar!

Sure enough, as soon as the true emperor approached, the claws came out, the scaled armor became the size of a house, and he grabbed the true emperor.

"What the hell!"

The real emperor drank coldly, and the power of the world burst into a battle axe, slashing down.

boom!

The battle axe was chopped on the huge palm, but the palm just shook a little, and there was nothing at all. The scale armor on it just left a shallow mark.

Instead, the real emperor, his figure flickered, stepped back a few steps.

Roar!

In the building, there seemed to be a terrible demon, who kept roaring, and the hand clawed toward the true emperor again.

Arms stretched out, you can see that it was an arm covered with black scale armor, wrapped in black iron chains, with a loud voice, and grabbed the real emperor.

The real emperor seemed to have a world suspended in his body, and in an instant, several colors of light merged together, striking a terrible blow.

This is a combination of several laws, the power is terrible.

Compared to Lu Ming, it is only a preliminary fusion of the two laws. I don’t know how many times stronger.

In the Emperor Wu Realm, you can practice a variety of laws, and even be able to merge with each other. The power is extremely amazing.

boom!

The attack of the True Emperor was bombarded with huge claws.

Dangdang!

The sound of the iron chain impact sounded, and the giant claw was blocked, but the true emperor was also blocked, and could not rush through.

"This creature, locked inside, can't get out. I'll block it. You rushed to kill Lu Ming!"

The true emperor spoke up and attacked again, fighting with that big hand and entangled that hand.

The other three looked dignified, bypassed here, and rushed towards Landing Ming.

Lu Ming went deeper and deeper, and then crossed more than a dozen huge buildings in succession, all without exception.

Boom! Boom!

As Lu Ming continued to run, a loud roar came from a building in front of him, and a big hand came to the landing Ming.

This big hand, not only the scales of the forest, but also the terrible cold current, swept to the landing Ming, far apart, Lu Ming seemed to be frozen.

Lu Ming gritted his teeth and continued to bombard with the blood of the jail monument.

Fortunately, the blood of the prison monument was still able to restrain the other party. The big hand stretched back and Lu Ming rushed by.

Behind them, the middle-aged man in black robe and other three men looked very dignified.

They were not true emperors, and they dared not rush forward. They bypassed the building and chased toward Ming Ming.

However, they were obviously not so lucky, and they didn't get around very far. In another building, they reached out a claw and grabbed it.

"Not good, retreat!"

One of them changed his face drastically and retreated.

The other two also changed suddenly, and backed away.

But it was too late.

The middle-aged man in black robe, who was the weakest, only had the two-star Emperor Emperor, and was directly caught.

what!

He screamed terribly and tried to break free, but it was useless.

The big hand squeezed, and the sound of a crackling bone burst from the middle-aged man in black robe, making him vomit blood without any struggle.

In his eyes, it was full of unwillingness and fear.

He came in to kill Lu Ming in order to reward him. The rich reward could even help him survive the next big disaster.

But now, he is dying here.

After that big hand grabbed the middle-aged man in black robe, he stretched it back, and then in the building, there was a screaming scream and a chewing sound.

The other two Emperor Emperors, chilling all over and taking their cultivation actions, all froze in cold sweat.

Obviously, the middle-aged man in black robe was eaten by the creatures in the building.

The two no longer dared to move forward and stopped there.

"Go away, a bunch of waste!"

At this moment, the demon king rushed over, and he punched out, hitting the claws that were fighting with the real emperor, the terrible magic fire was burning, and the claws were thrown out, and the scales were flying. Was shot down.

The peak fighting power of the True Emperor is nothing short of great. It is much stronger than the ordinary True Emperor.

"cut!"

Then, the palm of the demon king was like a knife, and it fell down, and the endless demon was turned into a magic knife, which was cut on the claw, and the claw was cut off directly.

Chapter 2060: Put to death

The strength of the Cang Demon King is really terrifying. Although the strongest of the true emperor's peak, the creatures in that building are powerful, but they are definitely suppressed for endless years, and there is not much fighting power left.

puff!

The demon king's magic knife was cut off, and the huge arm was cut off.

Roar!

In the building, there is a roar of creatures, the direct sound of the iron chain, and the building makes a rumbling noise, as if there is a giant beast to rush out, but in the end, it did not rush out.

Cang Demon rushed past, chasing towards Ming Ming.

In front, Lu Ming's face was dignified. The creatures in these buildings couldn't stop the Cang Demon, he had to speed up.

Lu Ming broke out with all his strength and rushed forward.

Soon after, there was a roar of creatures in another building. This time, a large flame directly spewed out of the building.

Lu Ming resisted with the blood of the Zhen prison monument and rushed past.

Next, Lu Ming came across several buildings with living creatures in succession, and they were washed over by Lu Ming with a prison monument.

Behind, Cang Mo Wang chased to landing Ming at an alarming speed. If it were not along the way, some creatures hindered Cang Mo Wang a few times, fearing that he would have already caught up with Lu Ming.

"How to do?"

In Lu Ming's mind, he was thinking about countermeasures very quickly.

Now, Heavenly Emperor's flesh cannot be controlled. With his own cultivation practice, facing the Demon King, he has a dead end.

But with the exception of Heavenly Emperor's flesh, he had no treasures that could fight the Cang Demon King.

After that, Lu Ming jumped a long distance again. In front, there were no buildings, only some low rocks.

Lu Ming did not continue to stay, only to continue to rush forward.

Now I can only try my luck. I hope there is something in front of me that can block the Cang Demon King.

Uh!

Lu Mingru glanced at the speed of light, rushing forward.

Behind, the demon king continually broke through the building, and was about to come to the low rocky zone.

But at this time, Lu Ming in front suddenly stopped.

Because there is no way ahead!

There is a lake that blocks the way!

This is a magma lake with a very wide area, completely blocking the road ahead, and emitting terrible temperatures.

This is definitely not ordinary magma, giving Lu Ming a sense of crisis.

"Haha, boy, why don't you run away!"

The demon king came after him, stopped not far away, and watched the landing with a light joke.

"Old guy, you are too narrow-minded. You have lost your face, but you have to count on me!"

As Lu Ming spoke, he was thinking about countermeasures.

Even in the face of desperation, Lu Ming will not give up.

"Young people are too showy, not a good thing!"

The demon king spoke coldly and stepped towards the landing step by step.

In his view, Lu Ming shouldn't have shot at first, would he sit quietly, would he be embarrassed in public?

"Boy, if you can get to this point, you will definitely get a lot of adventures. Give me everything in your body, or any ancient scriptures, etc., and I may be able to let you live a life!"

The Devil King sneered.

Lu Ming pouted, this old guy would blame him, even if he gave everything, the other party will still kill him, will not leave him.

"How can I believe you!"

Lu Ming said.

"Under the circumstances, you have to believe it if you don't believe it!"

Cang Dewang said coldly.

"You go to kill those three guys, I will give you, give you all the opportunities, give you!"

Lu Ming looked behind the Demon King.

Behind him, three other powerful men came to this place following the path that the demon king went through.

Hearing this, the three men couldn't help but stop looking pale.

Cang Mo Wang is cruel, maybe he will really do it.

"Boy, you are not qualified to bargain with me now. If you don't pay, I will abolish you now, and then slowly interrogate to see if you pay or not!"

There was a cold killer burst out from the Cang Mo King, and a horrible magic fire burst out.

Uh!

At this moment, Lu Ming's figure moved, and his body stepped towards the Magma Lake.

Today, only by relying on the magma lake, take a fight.

"Want to escape, die!"

The demon king shouted and slammed with a palm, the sky full of magic fire, shone to the landing.

The magic fire is like an electric light, the speed is amazing, it immediately catches up with Lu Ming, and covers Lu Ming in it.

Roar!

Lu Ming made a roar like a beast.

It hurts!

It was so painful to be shrouded in that kind of magic fire. Lu Ming seemed to have burnt his body.

Lu Ming runs the Holy Force frantically, covering his body, while manipulating the law of chaos, using the law of chaos and the light of chaos to cover the surface of his body to resist the attack of the magic fire.

But this magic fire, after all, was sent by the Demon King. A pinnacle true emperor is really terrifying. Lu Ming's defenses were burned through in almost an instant.

thump!

At this time, Lu Ming fell into the magma lake and disappeared.

As soon as he entered the Magma Lake, Lu Mingyun spared his strength and rushed towards the bottom of the Magma Lake frantically.

"I want to go, impossible!"

Cang Mo Wang's face was very cold, he also rushed directly into the magma lake, chasing toward landing Ming.

boom! boom!

The demon king waved his palms and stirred up the surrounding magma. A few terrible magic fires broke through the magma and blasted towards Lu Ming.

Lu Ming couldn't avoid it at all, and was bombarded by several magic fires.

The terrible temperature of Mohuo burned through Lu Ming's defense, and the pain in his heart filled Lu Ming's body.

Even with Lu Ming's current spirit body, he couldn't resist it at all. He seemed to feel his flesh, turning to ashes in a trace.

But Lu Ming still did not give up, he was rushing down crazy.

Below the lava lake, the temperature is also surprisingly high. The further down, the higher the temperature, and there is a terrible pressure, squeezing from all directions to Lu Ming.

Burned by the demon king's magic fire and the flame of magma, Lu Ming couldn't resist it. His flesh was slowly burning into ashes.

Lu Ming could feel that the flesh and blood on his body were disappearing, and even his bones had been exposed.

But Lu Ming continues to go down, the speed is amazing, because the Cang Demon is still chasing.

boom!

Cang Mo burst out again, but the pressure of the magma here is already amazing. Although the power of Cang Mo Wang broke through the magma, it has been partially offset, and only part of it fell on Lu Ming.

At this moment, Lu Ming's hands and feet were reduced to ashes in the magic fire, and only his body was still struggling to support him, and continued to descend.

But Cang Mo Wang still did not give up the pursuit, the two kept going down, and on the way, Cang Mo Wang made several moves, but because of the magma blocking, most of the power was blocked.

At the moment, they have dived for thousands of kilometers.

Here, the temperature is already terrifying, and even the Demon King feels a crisis.

As if there could be something underneath, threatening his safety.

"Huh, this kid, it's dead!"

The demon king sneered.
