

D Emperor 2071

Chapter 2071: Doubtful

Lu Ming thought about it and found that Xie Nianjun's character has changed a lot before and after. Is this all similar to Xie Nianqing's current situation?

At the same time, he also thought that during this time, he often saw Xie Nianqing showing painful colors. Is there anything to do with it?

Lu Ming turned his thoughts in his head, and kept pointing with **** in a row, fighting with Xie Nianqing.

Because Xie Nianqing is so strong, that kind of magic can break all barriers and be invincible.

The combined force of Lu Ming's several laws seems to be difficult to resist, to be torn apart.

"Xiao Qing's cultivation behavior seems to be the most holy and perfect, comparable to me, but what kind of power is this? Is it also the strength cultivated by Taikoo Modao?"

Lu Ming turned his thoughts and pointed a finger.

This refers to the law of chaos, the law of array, and the law of death.

Huge finger, point to Xie Nianqing's sword light.

Sigh!

Xie Nianqing's sword light fell, and even a slight crack appeared in the space. It was too amazing. It cut on the huge finger and broke it apart.

"Xiaoqing, wake up!"

Lu Ming shouted.

He did not believe that Xie Nianqing would really kill him.

"The humble ants have tarnished my body, it is not a pity to die!"

Xie Nianqing spoke again, her face was extremely cold, the magic light on her body was more intense, and there seemed to be a constant flow of power in her body, Jian Guang was cold, and continued to kill Lu Ming.

Her sword light is stronger than before.

The sword light flashed, illuminating the canyon.

Although Lu Ming exerted all his strength, he was still not invincible. The fusion of the three laws could not stop Xie Nianqing's Jianguang, and was torn by Jianguang.

puff!

Lu Ming's body was scratched by Jian Guang, and a deep sword wound appeared, with bones visible, blood flowing, and his clothes stained red.

At the moment when Lu Ming was injured, Xie Nianqing's eyes still showed a slight fluctuation.

She took a slight pause and stopped.

"Kill, he defiled me, he must kill!"

Xie Nianqing drank, as if talking to herself.

Her eyes looked cold again, raising her sword to the landing.

call out!

The sword light is like a rainbow, breaking through the sky.

But this time, Lu Ming did not move or resist, and Ren Jianguang stabbed.

Seeing that Jianguang was about to penetrate from Lu Ming's heart, Xie Nianqing's eyes showed a struggling color.

"Do not!"

She sipped, her wrist moved, and Jianguang deviated a little, piercing Lu Ming's chest, but she had already deviated from the position of her heart.

"Xiaoqing, if you want to kill, I will let you kill. If you are pregnant with our child, take good care of him in the future!"

Lu Ming smiled and looked softly at Xie Nianqing.

"kill him!"

"Do not!"

Xie Nianqing drank continuously, as if there were two in conversation, but clearly there was only one voice.

The struggling color in Xie Nianqing's eyes was even stronger, and even the beautiful face was somewhat distorted.

"Xiaoqing, what's wrong with you?"

Lu Ming shouted.

Xie Nianqing's situation is obviously wrong, as if there are two people in the body.

"Lu Ming, take care!"

Finally, Xie Nianqing gave Lu Ming a tender look, turned around and left, like a rainbow of light, rushing deep into the canyon.

A few roars came from the canyon, but the roar disappeared at the next moment.

"Xiaoqing!"

Lu Ming shouted.

The sword light inserted in Lu Ming's body was condensed by Xie Nianqing's magical power. At the moment, Lu Ming rushed towards the depths of the canyon.

But when Lu Ming dashed out of the distance, two middle-aged men appeared and attacked the landing.

Lu Ming was blocked, unable to rush through, and finally struck back by two middle-aged men.

"What's going on? What's going on?"

At this moment, very anxious, there are endless doubts in my heart.

However, he was blocked, unable to rush through, unable to find Xie Nianqing, and unable to ask what was happening.

"It must be related to the power in Xiaoqing's body, what is it? Xie Nianjun also has it!"

"Also, those black robe people deliberately stolen the ancient coffin and put Xiaoqing into the ancient coffin. Is this related to this?"

"The next time you see Xie Nianjun, be sure to ask clearly!"

Lu Ming clenched his fists, he was really a bit afraid, that Xie Nianqing was no longer Xie Nianqing, and became another person.

Xie Nianqing, breaking through several levels and showing the strength is amazing.

After breaking through several levels, she stopped.

"Why didn't you let me kill him, he stained us!"

Xie Nianqing sipped in his mouth, and the opportunity was cold.

"If you kill him, I will punish myself!"

Then, Xie Nianqing murmured again.

"Why are you so persistent, you are me, I am you, let us fully integrate and return to the supreme realm, why be trapped in this small world!"

"No, you are you, I am me, I will not merge with you, and never will!"

Xie Nianqing seemed to be talking to herself, and then her figure moved, and then rushed out of the canyon. Soon, her figure completely disappeared here.

Lu Ming sat on a black stone and pondered quietly.

He thought a lot, but still couldn't think of an answer.

"Strength, as long as the strength is strong, I will definitely understand all this and let Xiaoqing return to the original state!"

Lu Ming clenched his fists, and slowly, his heart calmed down.

Along the way, Lu Ming has gone through too much. He knows that it is useless to be anxious when it comes to things. It is better to calm down and improve his strength.

Lu Ming closed his eyes and sat there quietly.

Three days later, Lu Ming opened his eyes, and his eyes had become calm.

Then, Lu Ming took out the ancient Taoist tree, sat quietly under the ancient Taoist tree, and learned about the law of death.

Now, the ancient Taoist tree is ten meters high, with prosperous foliage and a mysterious radiance that surrounds the branches and branches.

Over the years, Lu Ming has spent a lot of money to cultivate the ancient trees of Taoism.

Under the ancient tree of enlightenment, enlightenment rules are more effective.

In the blink of an eye, two months passed. Lu Ming's death law improved quickly, and at the same time, the fusion with the other two laws was also more thorough. His strength is improving every day.

This time, he successfully crossed the middle of two middle-aged men and continued to move forward.

But this time, three middle-aged big men appeared in front of them, and the three joined forces to fight Lu Ming. Lu Ming was blocked again and could only stop and continue to improve his strength.

At this moment, Lu Ming moved his heart and waved his hand, and the ancient coffin appeared in the canyon.

In the ancient coffin, Qiuyue's body was filled with a strong breath.

After a few months, Qiuyue finally changed.

In the past, people in Vientiane House said that as long as one month in the ancient coffin, the autumn moon can wake up, but in fact, a full three months have passed.

Huh...

This is that Qiuyue's body burst into a strong attraction, and the energy between heaven and earth quickly rushed towards Qiuyue.

"A breakthrough?"

Lu Ming's eyes lit up, and then took out a large number of original stones, blasted the original stones, turned into rolling original gas, and gathered towards Qiuyue.

Chapter 2072: Quasi-Emperor, Qiuyue

Endless energy, converging towards Qiuyue, Qiuyue's breath is getting stronger and stronger.

The Most Holy Peak, the Most Holy...

In a short time, Qiuyue's breath skyrocketed and soared all the way.

Gradually, Qiuyue's body was suspended, flying out of the ancient coffin and suspended in mid-air.

Buzz!

Suddenly, Qiuyue's body filled with a layer of brilliance.

That is the light of the law!

Lu Ming was surprised, Qiuyue had been in a coma, and his soul was incomplete. Unexpectedly, he was able to make the light of the law, which was really incredible.

But this has not stopped, the breath of Qiuyue is still rising.

Her body was filled with the yin and yang laws.

Suddenly, the law of Yin and Yang converged into a long river, and continued to swim on Qiuyue's body, and Qiuyue's breath rose again.

"The law is perfect, quasi-empire!"

Lu Ming dumbfounded.

Qiuyue was in a coma for a while, and actually broke into the Emperor.

Indeed, during this time, Lu Ming condensed a huge amount of sacred medicine into Qiuyue's body, but the law does not require the sacred medicine to be promoted and needs to be understood.

Qiuyue is in a coma, how can she understand the law?

Lu Ming was very puzzled.

After the breath reached Quasi-Emperor, it finally stabilized, and at this time, Qiuyue also opened his eyes.

Two brilliant brilliances burst out of Qiuyue's eyes, and the next moment, they will converge.

Then, Qiuyue's breath also converged.

"Master!"

Qiuyue saw Lu Ming, cheered and plunged into Lu Ming's arms.

"Qiuyue, you finally woke up!"

Lu Ming touched Qiuyue's head, a smile appeared on his face.

His mood finally got better.

"Well, Master, are you okay, those people were going to kill you..."

Qiuyue looked around nervously, and her memory was still in the lotus world.

"It's all right, it's been a long time!"

Lu Ming smiled.

"A long time ago?"

Qiuyue was suspicious and blinked his big eyes.

Immediately, Lu Ming said briefly what happened during this time.

Of course, he skipped some things, such as Xie Nianqing's.

"It has been so long? During this time, have I been in a coma? Strangely, I have always felt in a wonderful state, surrounded by the law of yin and yang, always confused, and suddenly there is a warm force behind me !"

Qiuyue talked about it.

"Is it the soul epiphany?"

Lu Ming moved.

When it comes to epiphany, it is a rare state of cultivation.

Lu Ming speculates that Qiuyue's soul is trapped in a state of soul epiphany after being injured. This state is extremely rare, and will involuntarily continue to enlighten the Tao and understand the law.

And her body, in the Dayan Pill Furnace, was quenched by the red fire and smelted with endless sacred medicine, so she could wake up and practise by leaps and bounds. The realm of the quasi-empire.

Or, the ancient coffin also played a role.

It is really a matter of blessings and misfortunes.

Lu Ming is also happy for Qiuyue.

"Qiuyue, your current behavior is better than the young master!"

Lu Ming laughed.

"But Qiuyue is definitely not a master's opponent!"

Qiuyue threw out her tongue, pulled the landing, and kept talking.

In the following days, the two were going through the level while practicing.

This place is very mysterious. When Lu Ming and Qiuyue go together, there will be six middle-aged men in front of him, making Lu Ming retreat abruptly.

Although Qiuyue has now reached the level of a quasi-emperor, it is not possible to fight against a middle-aged big man, let alone three, and the two joined forces to break through, obviously not working.

Therefore, every time I pass the level, Qiuyue enters the mountains and rivers map. In this way, only three middle-aged strong men will appear.

As time passed, Lu Ming's understanding of the law of death became higher and higher.

In the past month, Lu Ming entered the canyon for four months.

At this time, Lu Ming's death rule was on fire, reaching 50%.

Cooperating with other laws, Lu Ming has been able to draw a tie with the three middle-aged big men, and he can even suppress it.

Fighting with these middle-aged big men helped Lu Ming rise, and the speed was very fast.

Here, you can fight as much as you like without worrying. Every time, Lu Ming exerts his fighting power to the extreme and can squeeze his own potential.

At this time, Lu Ming also occasionally asked Qiuyue to step forward together, Lu Ming did his best to deal with five middle-aged big men, and Qiuyue, one.

In this way, the promotion of Qiuyue is also very large.

Time hurried and another month passed, and the two had a lot of gains every day.

On this day, Lu Mingpan sat under the ancient tree of Taoism and closed his eyes to practice.

Suddenly, endless runes filled his body.

Endless runes began to converge, forming a long river.

The law becomes a river!

This is the law of formation!

After this period of cultivation, Lu Ming's rule of formation was the first to break through and enter the perfect realm, the rule condensed into a river.

At this moment, the power of the array law penetrated Lu Ming's body and began to refine Lu Ming's flesh.

Once the law becomes a river, the power of the corresponding law will once again penetrate the flesh, and the flesh is tempered with the power of the law to make the flesh more powerful.

At the same time, Shengli will become more condensed and thicker.

This is why the quasi-imperial powerhouse is so much stronger than the most powerful holy person.

In Lu Ming's body, a figure of fried beans came out, that was muscles shaking and bones colliding.

Qiuyue, sitting around not far away, waiting quietly.

One day later, Lu Ming ended his cultivation, and the river of law also disappeared.

"I am now a quasi-imperialist!"

Lu Ming smiled.

He is now confused about his realm.

According to the law of chaos, he is still the most holy, but according to the law of formation, he is already a quasi-imperial.

But no matter what, his combat strength did skyrocket.

The law of formation is a river, and its power is greatly increased. At the same time, when the law is a river, the flesh and the holy power are tempered, and both have been improved.

"I really don't know to what extent can the law of chaos behind me, or even the law of death, rise to the body and the holy power?"

Lu Ming looked forward to it.

Every law becomes a river, it will bring great improvement to the flesh and the divine power.

If he waited for all his laws, and all the laws became a river, what level would his combat power increase?

Lu Ming was pretty sure that no one was his opponent in the first battle of the same level. Even the son of Cang can turn over and suppress.

"If so, how many more laws can you understand?"

Thinking of this, Lu Ming's eyes brightened.

It is even more terrifying if you understand more than one law, and the laws are all the same.

The more I thought about it, the more fiery Lu Ming's heart was. He wondered, and then he wanted to understand the law.

Chapter 2073: Comprehend the four laws

Lu Ming thought for a while and decided to start with the principle of devouring.

The law of devouring is also a powerful rule of kings.

Moreover, Kowloon itself has the power to devour, and Lu Ming is most familiar with the power to devour.

Comprehending the laws of swallowing is definitely faster than comprehending other laws.

Moreover, Lu Ming has an ambition. Since he wants to comprehend the laws, he must comprehend the laws above the rule of kings. The common laws, to comprehend, is just a waste of time.

After all, the common law and the law of chaos can change directly.

Roar!

Lu Ming controlled the flesh, and the sound of Longyin was heard from his body. At the same time, the terrible power of swallowing burst out.

Lu Ming's meticulous feelings, from the power of engulfment, understand the laws of engulfment.

Sure enough, a few days later, Lu Ming felt the way and got some insights.

In the past few days, Lu Ming successfully got started, and realized a little bit of swallowing law.

His sacred heart, indeed, accommodates multiple laws, with no influence at all.

Lu Ming was extremely excited.

All of these are things that can only be done above Wu Emperor, but he has done it now. Once he breaks through Wu Emperor's realm in the future, Xiu Wei will advance by leaps and bounds, there will be no shackles, and it will be very amazing to rise.

It's worth the time now to understand.

"Master, you are so powerful, you have mastered four rules!"

Qiuyue came over, even though she had always admired Lu Ming, her eyes could not help revealing amazement.

Under Emperor Wu, one person controlled four kinds of rules at the same time, and even two of them were the strongest rules. This was unheard of.

"Qiuyue, let's go through the barrier!"

Lu Ming smiled.

Qiuyue nodded and the two walked forward.

Six middle-aged men appeared at the same time, and they attacked Landing Ming.

"kill!"

Lu Ming Chang Xiao, Chaos Law, Death Law, Line Law, Three Laws Fusion, Lu Ming exhibited Chaos Tribulation Finger, and continuously pointed out five fingers.

And Qiuyue, killing the sixth middle-aged man.

call out! call out! ...

The dazzling sword light killed Lu Ming and Qiuyue.

Qiuyue successfully blocked it.

And there are five sword lights, chopped on the chaotic fingers.

boom! boom! ...

Five consecutive roars, the blade of light shattered, five middle-aged men, the body could not help retreating.

bump!

Lu Ming stepped forward, fighting full power, and launched a stormy offensive towards the five middle-aged men.

The breakthrough of the rule of battle allowed Lu Ming's combat strength to rise a bit, completely suppressing the five middle-aged men.

After dozens of strokes, one finger pierced through the eyebrows of a middle-aged man, killing them and turning them into energy dissipation.

After killing one person, the remaining four are not even Lu Ming's opponents. After a few moves, Lu Ming killed another one.

bump! bump! ...

Next, the remaining middle-aged big men, one by one, were exploded by Lu Ming, including the middle-aged big man who fought with Qiuyue.

After surpassing this level, the two went forward and passed through this area.

The front is empty and there is no figure.

Lu Ming sighed a little, knowing that Xie Nianqing had estimated to have crossed the level and left here.

"Qiuyue, you are waiting here, I will step forward and try!"

Lu Ming said.

"Well, okay, Master, you have to be careful!"

Qiuyue Road.

Lu Ming nodded and stepped forward. After walking for a while, there was a figure again.

This time, there was only one figure, not a middle-aged man, but a young man. This person looked like he was in his twenties, standing tall like a gun and carrying a dark magic sword behind his back.

"Only the strongest can pass and show your strength!"

The young man spoke indifferently, the war sword came out of his sheath, like a shock.

Lu Ming also stepped out, cast his fingers in chaos, and fought against the other party.

This young man's combat power is astonishing, and he should be in the realm of a quasi-imperialist, but I am afraid that he will be stronger than the son of the **** after he reached the quasi-imperialist.

However, it is still not as strong as the previous five middle-aged big men. It is between three middle-aged big men and five middle-aged big men. It is not Lu Ming's opponent.

After fighting for more than 20 moves, the young man was defeated by Lu Ming, and Lu Ming and Qiuyue moved forward through this area.

But the canyon seems very long, looking forward, very deep.

After passing through this area, Lu Ming still moved forward alone.

This time, two young people appeared at once.

When the two young men joined forces, the fighting power surged. Lu Ming fought against him. Although he tried his best, he ended up with a tie, but did not break through.

"It seems that it's really hard to break out!"

Lu Ming was a little speechless, and also amazed that the power of the devil in the heavenly realm, which tested the difficulty of the disciples, was simply abnormal.

This level of difficulty, even if it is a son of God, can never be overcome.

Lu Ming's current combat power has definitely surpassed a quasi-imperial realm's son, but he still can't break through.

"My attacking method is still a single, the strongest attacking method is the chaotic robbery, but the chaotic robbery is suitable for long-range attack and close combat, it is still worse, and you need to understand one or two magical skills!"

Lu Ming thought.

In the Chaos Sutra, the magical arts recorded on the law of chaos naturally not only refer to chaos, but also others.

But before, it was enough to practice a finger of chaos.

The magical art and the law mutually promote each other, and comprehend a magical art, and continuous practice can promote the understanding of the law and enhance the fire.

Therefore, it is not necessarily beneficial to understand more magical skills, but to distract.

But now it is different. Lu Ming has almost realized the chaos rule to the limit, and then practice other magical skills, there will be no obstacles, and he can cultivate to the peak in a short time.

In the Chaos Sutra, Lu Ming chose a magical skill called Chaos Divine Palm.

The palm of Chaos, after successful cultivation, the palm is like chaos, each palm is like a mountain of Chaos pressed down, powerful and unmatched, can penetrate the earth and explode the mountain.

Now, Lu Ming's law of chaos is almost ninety-nine. Cultivating the palm of chaos, the speed is like a rocket, just a few days, and has reached the limit of cultivation.

The power is no worse than that of chaos, especially the fusion of several laws, the power is even more amazing.

With an additional attack method, Lu Ming temporarily puts the magical powers at bay, and is fully aware of several laws.

Qiuyue is also trying to practice.

After arriving at the Quasi-Emperor, you need to continue to accumulate, and then completely melt the law into the Sacred Heart, with the Law as the foundation and the Sacred Heart as the material to evolve the world.

This step is very difficult. I don't know how many people have been trapped in the quasi-imperial realm for a lifetime, and it is difficult to break through.

It cannot be done overnight.

Time passes quickly.

In addition to cultivation, Lu Ming is breaking through.

Both have achieved great results.

In this way, Lu Ming has been in this canyon for more than two years.

It has been more than two and a half years since Lu Ming arrived in the Land of Ten Thousand Demons.

At this time, Lu Ming finally came to the final level of the canyon.

Because in front, you can already see the exit of the canyon, that is a light door.

Chapter 2074: Get out of trouble

At the last level of the canyon, there was only one figure guarding it.

This is also a young man, but the fighting strength is incredible.

boom! boom! ...

In the canyon, two figures fought fiercely, bombarded together.

Lu Ming was covered with the light of chaos all over his body, palms of both hands turned gray, like a chaotic stone, indestructible.

This is the palm of the chaotic god, and with every palm, the power is astonishing.

And, in the palm of the hand, there are other laws that are powerful and extremely powerful.

But the young man was able to fight Lu Ming, and the other party also exerted a terrible palm technique, constantly colliding with Lu Ming.

boom! boom! ...

The palm wind was violent, and the rock on the ground was scraped off a layer. You know, the rock here is very hard.

In a blink of an eye, the two battled hundreds of moves.

"This is the place where the great forces of the heavens tested the disciples in ancient times. This difficulty is too great!"

Lu Ming was also shocked.

After more than two years of cultivation, Lu Ming's law of chaos reached a very early 90%, but he wanted to go beyond this step and cultivate perfection. The law became a river, which was very difficult and required accumulation.

Although the law of chaos is not perfect yet, Lu Ming feels that it is fast.

In addition, the law of death has already reached 80%, but it is the principle of devouring, and later came to the top, reaching 90%.

The law of death, and the law of devouring, Lu Ming does not have a corresponding magical art, can not promote each other, and naturally the cultivation speed is much slower.

However, due to Lu Ming's current state of affairs, and continuous wars, after the war, he realized under the ancient trees of Taoism, and his speed was also extremely fast.

The law of chaos of ninety-nine fires, the law of perfect formation, the law of death of 80% fires, and the law of devouring ninety fires.

The two strongest laws, the two royal laws, merged together, coupled with Lu Ming's powerful spiritual body, strong divine power, the power is too strong, Lu Ming is difficult to measure his current combat power.

However, with such fighting power, it is still not easy to get past this level.

It can be seen that the difficulty of this canyon's test is really amazing.

Could it be that there are so many terrible arrogances in the ancient realm?

Then, Lu Ming thought of Xie Nianqing again.

At this point, no trace of Xie Nianqing was seen. Obviously, Xie Nianqing had successfully gone through the barrier.

Xie Nianqing's combat power is shocking. Why did she suddenly have such a combat power?

Lu Ming was very puzzled.

bump! bump! ...

In a flash, dozens of moves passed.

Lu Ming finally prevailed and began to suppress his opponent.

The four laws are merged, and any palm can penetrate the void and tear the space.

Click!

The opponent's palm made a clicking sound and was broken by Lu Ming's palm.

"Swallow, seal, die..."

In an instant, Lu Ming ran four laws, endless runes, enveloped the opponent, sealed the opponent, and bombarded the opponent with the power of destruction.

Then there is the law of devouring, which is to devour everything from the other party, and at the same time the law of death covers the other party, forming a death cage, and pulling the other party into the abyss of death.

Finally, the chaos law is the main attack.

bump!

Lu Ming slaps on the opponent's body, and the opponent's body is penetrated by terrible power, and finally splits.

Succeeded!

Lu Ming finally came to the end, and passed the last level.

From what Xie Nianqing said, only the strongest under Emperor Wu can pass through.

But for Lu Ming, he is far from the peak.

There are no other laws for him.

"Master, you are so amazing!"

Qiuyue came over, shining her eyes.

Qiuyue has already practiced in the realm of Quasi-Emperor, and has cultivated the light of the law, but she feels that it is too far away from Lu Ming's combat power.

"Come on, let's go out!"

Lu Ming smiled, walked over to hold Qiuyue's little hand, and stepped into the light door in front.

The next moment, they appeared on top of a mountain.

"Well, there seems to be a magic sea here!"

Lu Ming looked far into the distance, surrounded by mountains and vigorous, not like a magic sea, that silence.

"I don't know where it is in the Devil's Land, go find out!"

Lu Mingdao, and then Qiuyue, turned into two rainbow lights, and left here.

Flying a distance, they saw a city, and the two went in to inquire about it.

"It turns out that this place is in the ancient demon kingdom, and not far from the ancient demon kingdom!"

Lu Ming whispered.

He plans to go to the capital of the ancient demon kingdom and return the ancient coffin to the ancient emperor.

Although the ancient coffin is precious, it is after all the treasure of the ancient country. The ancient emperor attaches great importance to it. If he does not pay back, it means that he has offended the ancient emperor and the endless master of the ancient magic country.

It is obviously unwise to offend the ancient demon kingdom in order to respect the ancient demon coffin.

Anyway, Qiuyue had already woken up, and he wouldn't need it for the time being.

In addition, he happened to take the teleportation array of the ancient demon kingdom to return to the land of Yuanshan.

Flying all the way, it took a day, and they finally came to the capital of the ancient demon kingdom.

At the beginning, Lu Ming defeated the ancient demon, and his reputation was very great. When he arrived, he met with the ancient emperor.

Soon, Lu Ming saw the ancient emperor.

"Lu Ming, you are all right!"

When the ancient emperor saw Lu Ming, he was also surprised.

In the past few years, he has sent a large number of masters, and other great emperors, entered the magic sea, attacked those black robe people, and even sent a prospective emperor to rush into the canyon, but those prospective emperors, but like The stone sank into the sea, and once he entered, he never came out again.

It is also normal. The average prospective emperor entered the canyon. I am afraid that at the first level, he was killed by the strong guards. At that time, Lu Ming had already passed several levels, and no one could see Lu Ming.

Therefore, when the ancient emperor saw Lu Ming at this time, he was naturally very surprised.

He once thought that Lu Ming suffered most of the accidents.

"Fortunately, I am out of trouble, the emperor, I came back this time and returned the ancient coffin to you!"

Lu Ming said, and then waved his hand, the ancient coffin appeared in the hall.

"Haha, it's really an ancient coffin!"

The ancient emperor was overjoyed.

He tried his best, spent a huge price, and did not recapture the ancient coffin. Now he is retrieved by Lu Ming, and he is naturally happy.

The ancient emperor put away the ancient coffin with a smile on his face, and then looked at Qiuyue, saying, "Lu Ming, this little girl, is the one you want to save!"

"Exactly!"

Lu Ming said.

"Well, it's good, it's sentimental!"

The ancient emperor smiled and said: "Lu Ming, you help me retrieve the ancient coffin, I will not forget, if something happens in the future, I can help you once!"

"Thank you Emperor!"

Lu Ming was happy.

Returning the ancient coffin to the ancient emperor was a wise choice.

The ancient emperor, but the great emperor of the realm, and the master of the ancient demon kingdom, the energy is too great, he helps Lu Ming once, and the value cannot be measured.

Chapter 2075: Go to the Land of Destiny

After returning the ancient coffin to the ancient emperor, Lu Ming and the two took a teleportation array and returned to Yuanshan.

Of course, it is impossible to send directly to the place of Yuanshan, but to a place close to the place of Yuanshan, Lu Ming and Qiuyue, flying to the place of Yuanshan.

After more than half a month, they finally returned to the ancient moon holy land.

Dayandan Temple is empty, and Uncle Kong is not there.

Lu Ming went to the Phoenix Palace to get news, and learned that the Phoenix Palace Master had taken some people to the place of destiny.

And I learned that Huang Ling, Long Chen, Huang Li and others have all ended their retreat, and they have also gone to the land of destiny.

However, the other party informed that a few sons of God should still be closed, but several great emperors would send them to the land of destiny.

Lu Ming speculates that the sons of God should be bubbles, Ouyang Moli, Xiangxiang several people.

"It seems that I am going to the land of destiny too!"

Lu Ming thought.

Some people have already gone to the place of God's destiny, and some emperors will send them over, without him worrying about it.

After resting for two days in the holy land of the ancient moon, Lu Ming and Qiuyue departed, heading to the land of the gods.

Going to the Land of Divine Life, it is naturally impossible to reach it directly by the teleportation array, because it is too far, and there are special reasons that it cannot be reached directly. After two teleports, the two came to the edge of the Yuanshan Land.

The Land of Destiny, in the middle of Yuanlu, is very special.

Because, he was surrounded by the sea.

It's as if a continent was bombarded by a huge ring, and it penetrated the earth. The ring turned into a sea, and the inner part of the ring was the land of destiny.

In the ten places of Yuanlu, except for the barren land of endless overseas islands, the other eight areas are all around the sea, surrounded by the sea, and surrounded by the land of life.

The Divine Land is undoubtedly the area with the largest area, the most vast area and the strongest strength among the ten places in Yuanjie.

It is said that the Land of Destiny is the sum of the areas of the other eight lands except the Barren Land. It is conceivable how big the Land of Destiny is.

The land of God's destiny, outstanding people, living in various races, many ancient Zongmen tribes, countless forces.

The Famine, in the long past, is also a powerful ancient race in the land of destiny.

So prosperous, there are countless natural arrogances.

Especially nowadays, in the golden age, no one knows how many arrogances were born in the land of the gods.

I am afraid that the top sons of God are not rare.

This time the Ten Earth Battles were held in the City of Destiny in the Land of Destiny.

In other places, if you want to go to the place of the destiny, you must pass the sea.

However, the surrounding sea is too wide, and the environment around the sea is extremely harsh.

Around the sea, there are terrible gusts of wind, heavy rain and lightning, and it is also commonplace. Even the space in some areas is very unstable, and there will be terrible space cracks and void storms.

If you want to fly through the sea, it is too difficult and very dangerous.

Therefore, some powerful forces in the land of destiny have developed a warship that can travel across the sea, and these warships, knowing some special channels, can avoid danger.

Ordinary people want to cross the sea and go to the land of destiny, they must take this warship, of course, they need to pay a huge amount of rough stone.

This is also the method of earning the original stone by the power of the Divine Land.

Especially during this time, in other regions, countless people gathered around the sea to go to the land of destiny. Every time the cross-sea battleship was full.

Lu Ming and Qiuyue came to a big city close to the sea, and after hearing the news, they came to the seaside of the sea.

Rumble!

The huge waves were deafening.

From afar, around the sea, hundreds of meters high waves, wave after wave hit the coastline.

In the sea, there are several giants docked.

Those were several cross-sea battleships, each of which was tens of thousands of meters long and several thousand meters high, and was magnificent.

The dense crowd, boarded the cross-sea battleship.

This is the first time that there will be a battle in ten places.

Moreover, it is now a golden age, and the world's arrogance is frequent. It will launch a peak showdown in the land of God's Destiny, which has attracted too many people to go.

It is a land of Yuanshan alone, and I don't know how many people poured into the land of fate.

Every day, a large number of people boarded the cross-sea battleship and went to the land of destiny.

Lu Ming and Qiuyue chose one at random, paid a large sum of rough, and boarded a cross-sea battleship.

The cross-sea battleship is very large, with many floors and many rooms, and all the people who board the battleship will have room allocation.

The two entered the room to practice and waited.

A few days later, the battleship roared, began to start, and officially set off, heading to the land of destiny.

After the battleship started, countless people poured out of the room and came to the deck.

The magnificent sea view has a variety of wonders. Many people come here for the first time and naturally don't want to miss it.

Lu Ming and Qiu Yue also came to the deck to watch around.

Rumble!

The huge battleship sailed in the direction of the land of destiny, riding the wind and waves. The speed was amazing, and soon it was far away from the land of Yuanshan and entered the boundless sea.

Sigh!

In the distance, there was a violent storm, and lightning struck the void, as if to split the sky.

However, on the cross-sea battleship, a layer of light mask was raised to block the rain and wind from outside.

Wow!

Soon after, they saw a behemoth appearing on the sea, it was a sea beast, so huge.

Although the environment around the sea is bad, these sea beasts still survive, and their strength is also amazing.

Qiuyue was very curious. He pulled up and rang, looking east and west, chattering nonstop.

It takes about half a month to go to the place of destiny. Lu Ming and Qiuyue did not rush to practice, just relaxed.

In the magic sea, in order to pass through the canyon, Lu Ming is practicing every day, jumping himself tight, now it is time to relax.

He stood on the deck, looking at the endless sea, only to feel open-minded.

In a flash, a few days passed.

"Another sea beast has appeared, and there are a lot of them!"

"Strange, often encountered sea beasts recently!"

"I heard other experienced people say that although there are sea beasts around the sea, the environment around the sea is too bad, so the number of sea beasts is not much. I usually go to sea and only occasionally encounter them. We have encountered them in the past few days. A lot, and many of them are in groups!"

"It's strange!"

Some people talked and felt a little strange, but didn't think much about it.

In a flash, another few days passed.

"Look, what is that?"

"No, that's sea beasts, so many sea beasts!"

Some people exclaimed, because there were dense sea beasts in front, blocking the front of the cross-sea battleship, which made the cross-sea battleship had to stop.

Then, the sea around the sea-going warships also continuously emerged.

The dense sea beasts surrounded the cross-sea battleship.

Boom! Boom! ...

On the battleship, a large drum vibrated, which was an alarm, indicating that a danger was encountered.

Chapter 2076: Sea Beast Siege

Drumming, deafening, in the battleship's room, countless people rushed out and rushed to the deck, when they saw countless sea beasts around, their faces were pale.

"What's going on? There aren't many sea animals around the sea. They rarely gather and rarely attack the warships. What's going on?"

"How come there are so many sea beasts!"

Some experienced people exclaimed, their faces dignified.

Some people from the Chamber of Commerce often travel between the two places and have never encountered such a situation.

"Everyone, the situation is not good, ready to meet the enemy!"

A middle-aged man with a violent breath, who had a real emperor's cultivation position, spoke at this time.

This person is the captain of the cross-sea battleship, and comes from the powerful forces of the Divine Land.

boom!

As soon as the man's voice fell, a huge pillar stretched out into the sea, as long as a giant stick, slamming into a warship across the sea.

boom!

This 'gigantic stick' bombarded the photomask of the cross-sea battleship, causing the cross-sea battleship to vibrate wildly.

At this time, many people found that this is not a giant stick at all, like the tentacles of octopus.

Hula!

Sure enough, the next moment, the sea rolled over, and a huge giant came out of the sea.

This is a huge octopus, bigger than the towering mountains, and much bigger than the warship across the sea.

boom! boom!

The eight tentacles of the octopus waved like eight giant whips, and they were drawn towards the cross-sea battleship.

The cross-sea battleships were shaken violently, and the huge cross-sea battleships had to be turned over at any time.

"How could this be?"

Countless people were pale.

This octopus is definitely a terrible existence, it should be a creature of the level of the true emperor, the breath is too strong and powerful.

In addition, among the sea beasts in all directions, there are many powerful existences. If the cross-sea battleship is broken, they will be in danger in the face of so many sea beasts and the harsh environment around the sea.

Many people look pale!

I have heard before that it is safe to take a cross-sea battleship, and there are very few accidents. Why did they have an accident as soon as they sat.

"Sinister, look for death!"

The captain of the cross-sea battleship, the middle-aged man, screamed at this time and rushed straight out of the sky. Outside of the mask, a sword appeared in his hand and was cut out with a knife.

A blade of light, tens of thousands of feet long, cut through the void and cut towards the octopus.

puff!

The tentacles of an octopus were cut directly by the knife, and the blood stained the sea.

Quack!

The octopus groaned strangely, seeming to be furious, and the remaining tentacles bombarded toward the big man.

The big man constantly cuts out his sword and fights with the octopus.

Both of them are extremely powerful. Their strength is tremendous and the battles are together.

Roar!

At this moment, a roaring sky roared from the sea, the sea rolled over, and another giant appeared.

"True Dragon!"

Lu Ming's eyes narrowed.

A behemoth that appeared in the sea was actually a real dragon.

This is a blue dragon, covered in blue, shining brilliantly, with a length of a thousand feet.

Two huge eyes, looking indifferently at the side of the cross-sea battleship, the terrible breath made people shudder.

This is also a powerful true emperor.

"Senior, why do you attack us, can you let us go!"

A young man stepped forward and spoke to the real dragon.

After that, the youth's body began to change, and it was actually a real dragon.

There are countless peaks of Shenxiu in the land of Yuanshan, and some real dragons naturally inhabit.

Roar!

But in the sea, the huge dragon, apparently not selling the bill, yelled and attacked the cross-sea battleship.

boom!

The blue real dragon stepped, the sea was roaring, and turned into a column of water, blasting towards the warship across the sea.

The warships across the sea vibrated, and the reticle trembled continuously.

But what is desperate is that in another direction, another behemoth appeared. This is a shark. It is so huge that it is not weaker than the real dragon. It also attacked cross-sea battleships.

"You guys, next, let's escape each other!"

Cross-sea battleships belong to a powerful force in the land of destiny. This force naturally has many people on the battleship. At this time, an old man speaks, and this old man is also a powerful existence.

boom! boom!

The cross-sea battleship continued to vibrate, and at the last touch, the defensive shield was broken.

The real dragon screamed and came across the sea. The dragon claws as big as the mountains grabbed the cross-sea battleship, struggling to tear it, and the hull across the sea was torn apart.

kill!

The old man killed the real dragon.

But the shark bumped over and hit the battleship, almost disintegrating the battleship.

At the same time, in all directions, countless sea beasts screamed and killed them.

"escape!"

"Run, run, run!"

On the cross-sea battleship, countless people rushed in all directions.

Lu Ming and Qiuyue also rushed down the cross-sea battleship and rushed toward the depths of the sea.

Roar! Quack! ...

The sea beasts made all kinds of strange calls, and he found that the powerful existence of those sea beasts was the first to stare at the existence on the battleship, and many of the existences above the Wu Emperor were fighting together.

The sea beasts under Emperor Wu, then attacked the people or gods and beasts under Emperor Wu.

On the sea, a melee broke out, extremely tragic, and someone screamed continuously, falling into the sea and falling here forever.

Of course, some sea beasts were cut and blood stained the sea.

"Autumn Moon, you have advanced pictures of mountains and rivers!"

Lu Ming sent a message to Qiuyue.

Qiuyue nodded, and she knew her strength was far from Lu Ming, who was more convenient to move.

Put Qiuyue into the mountains and rivers, Lu Ming flew towards the depths of the sea.

call out!

A huge silver swordfish, like a divine sword, killed a human holy person to Lu Ming.

bump!

Lu Ming chopped off with a palm and directly hacked the swordfish, his body torn apart.

However, there are more sea beasts in the Quartet, rushing to Lu Ming.

Lu Ming waved his hands continuously, killing seven or eight sea beasts.

"There are too many sea beasts, so it is difficult to break through!"

Lu Ming frowned. He would be in danger if he was stared at by a powerful virtual emperor or even a real emperor.

After all, in the first battle in the magic sea, Lu Ming controlled the body of the Tiandi Emperor. In the battle between the two emperors, the energy in the body of the Tiandi has little left, less than 10%, and it can no longer be controlled.

Without Heavenly Emperor's flesh, he could only break through on his own.

"Go into the sea!"

With a move in his heart, Lu Ming dived directly into the sea and swam deep into the seabed.

As the saying goes, the most dangerous is the safest place.

Those sea beasts are all in the sea, or chasing people and gods and beasts in the air, and their power in the sea will definitely be much weaker.

Sure enough, after Lu Ming entered the sea, he found that there were fewer sea beasts. Most sea beasts' eyes were on the sea.

Lu Ming swiftly moved forward.

However, the small number of sea beasts does not mean there are none. There are still sea beasts staring at Lu Ming and killing the landing.

Chapter 2077: God puppet

Lu Ming pointed out several fingers in a row, slamming his fingers, killing several sea beasts.

However, Lu Ming's combat power finally attracted the attention of a powerful sea beast.

This is a seal, the size of a mountain, rushing towards the landing.

"Equivalent to two-star Emperor!"

Feeling the other person's breath, Lu Ming's eyes narrowed slightly, but he was not afraid. He rushed towards the seal, cast the chaotic **** palm, and his palm became gray, which contained the power of four laws.

bump!

Lu Ming's palm bombarded one of the seal's paws, and the seal's body shook. Its claws were cracked by Lu Ming's shock, and blood continued to flow out. The huge body kept receding.

This seal was extremely shocked.

It is a two-star virtual emperor, especially in the sea. It is infinitely powerful and a little more powerful, but it is not Lu Ming's opponent and was injured by Lu Ming's palm.

But Lu Ming's breath has not yet reached the state of Emperor Wu, and he has such a powerful combat power that frightened him.

Uh!

Lu Ming didn't love war, and rushed forward, swimming towards the front, but the seal didn't dare to chase.

After that, Lu Ming successively killed several sea beasts, and gradually moved away from the battlefield.

Ok?

At this time, Lu Ming found that there was a young man who had been not far behind him.

Hula!

The sea was rolling, and several sea beasts were all in the quasi-imperial realm, and they chased this young man closely.

The young man waved his hands, and several figures appeared beside him.

"puppet!"

Lu Ming's eyes swept away, and found that the figures beside the youth were puppets.

This is a humanoid puppet, looks like a real person, all carrying such a sword of war behind.

But there was no breath of life on his body, so Lu Ming saw at a glance that this was a puppet.

Several puppets rushed out, fighting with those sea beasts.

The body of a puppet, without fear of life and death, without fear of pain, with amazing fighting power, actually pressed those sea beasts to fight, without many moves, he beheaded several quasi-imperial realm sea beasts.

"Curious puppet technique!"

Lu Ming was a little surprised.

Because those puppets actually understand the magical power and can control the power of the law, which is really incredible.

Lu Ming understands the puppet technique.

When he was still weak, he studied puppetry in Shenhuang Continent. At that time, his puppetry skills were not low.

But the puppetry of this young man in front of him was many times more brilliant than he did not know.

"The land of Yuanshan, I have not heard of the forces who are very good at puppetry. Is this person not a person of the land of Yuanshan?"

Lu Ming turned his head around and went on.

But he found that the young man always followed him, which made Lu Ming frown slightly.

What made Lu Ming's brows even more was that, not long afterwards, several sea beasts came after him.

To be precise, not chasing Lu Ming, but chasing that young man.

The young man manipulated the puppet, killed several sea beasts, and followed him to Landing.

Lu Ming frowned, stopped, and waited for the young man to approach, said coldly: "This brother, why do you keep following me?"

"Brother, can you do me a favor, let's leave this sea together!"

The young man clenched his fists.

The young man in a yellow robe is quite handsome, and does not feel domineering. He is very polite.

"Why should I help you?"

Lu Ming said calmly.

He doesn't know each other, why should he help him?

"Brothers, I don't hide. It's the place of God's destiny. The disciples of the God Puppet Sect, the God Puppet Sect, are named after the puppets. If the brothers help me, I can send you a rare flying puppet. The speed is amazing. Hundred times the speed of the flying shuttle!"

After the young man finished speaking, with a wave of his hand, a puppet like a goshawk appeared.

"Can reach a hundred times the speed of the flying shuttle!"

Lu Ming's eyes lit up.

This kind of puppet is absolutely rare and very high in value. It is best used to travel. However, to be honest, Lu Ming is a bit perturbed.

"God puppet of God's Land? Known as puppets, to be honest, I am very interested in your puppetry!"

Lu Ming looked around and smiled.

He is indeed very interested in the puppet technique of the other party. The puppet of refining can actually apply the law. If he can master it, the critical moment will be of great help.

"Brothers want to learn the art of puppets? Yes, as long as they are in the land of God's fate, the brothers and I can go to the God Puppet Sect to study. I can also pass on some puppet secrets to the brothers first!"

Youth Road.

"God puppet puppetry, willing to rumor?"

Lu Ming is suspicious.

"Brothers don't know that the God Puppet Sect is not a sect in the traditional sense. The God Puppet Sect is a combination of many powerful puppet masters. The purpose is to attract more puppet masters to join!"

"So, in the God Puppet Sect, everyone is encouraged to exchange puppet ways and exchange various secret techniques, and it is not forbidden to spread the word!"

Huangpao Youth explained.

After that, the young man in Huangpao threw a piece of jade to Lu Ming.

Lu Ming took it, swept the consciousness, and found that it was indeed a lot of puppet secrets.

"Why don't you find someone else, you have to find me?"

Lu Ming asked casually.

"Because your combat strength is strong, you can't reach Wu Emperor, but you attacked a seal with a two-star virtual emperor. This kind of combat power is really incredible. Unexpectedly, in the land of Yuanshan, there is such a natural pride! "

Speaking of this, the eyes of the young man in the yellow robe are full of wonder.

Before, he saw Lu Ming's combat strength, almost shocked his chin.

"The puppet, I also accepted it!"

Lu Ming waved his hand and put away the gosling puppet.

The young man in Huangpao was overjoyed, and Lu Ming accepted the puppet and agreed to help him.

Then, the two headed forward, and afterwards, Lu Ming knew that the young man in Huangpao was called Chao Kai.

Obviously, Chao Kai is also an arrogant figure, but a royal body, and the law of control is the law of the Tao of Taoism.

The law of the Tao is also a kind of rule of the king, and it is the same as the law of the line.

The law of the Tao of Taoism, which controls thousands of weapons in the world, is much smarter than the law of the ten thousand soldiers of the Wan Family.

The law of ten thousand soldiers can only control metalized weapons, while the law of weaponry, as long as it is a weapon, can be controlled.

However, not long after the two went forward, several sea beasts came after them and they were easily resolved by the two.

But after walking for a while, he met the sea beast again, which made Lu Ming frown.

They have left the battlefield. It stands to reason that there should not be so many sea beasts chasing them, but the fact is that sea beasts keep chasing them, as if locking them up.

Roar!

A huge sea lion roared, breaking through the water, breathing amazingly.

"One Star Emperor-level sea beast!"

Chao Kai looked pale.

Lu Ming rushed straight up to fight with the sea lion. There were few moves. The star lion's sea lion was directly cracked by Lu Ming's palm and died of fate.

"Brother Lu's combat strength is really shocking!"

Seeing Lu Ming with his own eyes, in a few strokes, he killed a star lion emperor's sea lion.

Chapter 2078: Reaching the land of destiny

Chao Kai was born in a desperate place, Son of God, and he had not seen him.

The power of the Son of God is indeed amazing. The Son of God who has reached the quasi-Emperor Realm is indeed able to fight against and even suppress the One Star Emperor.

The stronger son of God, after reaching the Quasi-Emperor, can even defeat the One Star Emperor, but it is difficult to kill.

And like Lu Ming, he killed a one-star quasi-imperial emperor in a few moves. He had never heard of it.

"I am afraid that this ten-place battle will be fierce. I don't know which freaks will appear?"

Chao Kai couldn't help thinking.

"Brother Chao, are you hiding something from me?"

Lu Ming's eyes were shining brightly, and Chao Chao was forced to stare.

He felt that things were wrong. Those sea beasts seemed to really lock them and keep chasing them.

"Brother Lu, why do you say that?"

Chao opened his face, his face slightly changed.

"These sea beasts are obviously directed at us, and I have nothing to be missed by these sea beasts, then you are the only one!"

"Moreover, I am really curious. How do you run to the land of Yuanshan in a land of destiny? Now, the people of the land are gathering towards the land of destiny!"

Lu Ming said.

Chao Kai smiled bitterly and said, "I knew that I couldn't hide Brother Lu, but I didn't hide it. A few months ago, I set out from the place of my destiny, entered the sea, and stole a treasure in the sea. Treasures are very useful for refining puppets!"

"However, at that time, they were chased and killed by the sea beasts, and all the accompanying people died. I was lucky and fled to the land of Yuanshan. This time I was going to return. Unexpectedly, I was still targeted by the sea beasts!"

Lu Ming changed his face slightly and said, "It seems that this time the sea beasts attacked the ship because of you!"

Lu Ming suddenly realized.

He finally understood why there were so many sea beasts and somehow attacked the ship.

Everything is because Chao Kai stole a peerless treasure in the sea.

"I didn't expect this to happen. I have laid a heavy seal on that kind of treasure. Originally, I thought that the sea beast could not be sensed. Now it seems that the sea beast still has a touch of induction, otherwise it will not attack the ship!"

"No sea beasts will keep coming after me!"

Chao smiled bitterly.

"It seems that the sea beast is only a little bit sensitive, otherwise, chasing you, then it is not some shrimps and crabs, but the real emperor!"

Lu Ming said.

"Brother Lu can have a solution?"

Chao opened the road.

"Yes, that is, you hand over the treasure to me for safekeeping. I can completely isolate the breath of the treasure!"

Lu Ming smiled slightly and looked at Chao Kai.

"it is good!"

To Lu Ming's surprise, Chao Kai nodded directly, took out a storage ring, and gave it to Lu Ming.

You know, what can cause so many powerful sea beasts to be dispatched is definitely a peerless treasure. Chao Kai actually gave it directly to Lu Ming, which was beyond Lu Ming's expectations.

"Brother Lu, the treasure is in the storage ring. I overlapped several storage rings and put them in the Dongtian treasure. I didn't expect it to be completely isolated!"

Chao Kai sighed.

With his identity, there will naturally be no shortage of treasures.

"Brother Chao, rest assured, I will return it to you!"

Lu Ming waved his hand and put Chao's storage ring into the mountain and river map.

Lu Ming naturally did not rely on the pictures of mountains and rivers to isolate the breath of that treasure.

There are also treasures in Chaokai, which cannot be isolated, and the pictures of mountains and rivers are naturally useless.

Lu Ming relies on Divine Breath!

The mountain and river maps are among Lu Ming's consciousness of the sea. Lu Ming uses the breathing technique to completely converge and completely isolate the breath in his body.

Naturally, it also cuts off the breath of the sea.

After that, the two continued to move forward. Sure enough, they no longer attracted the pursuit of the sea beast.

The two went along the way, and one day later, the two flew out of the sea.

"Brother Lu, if we are like this, we can't reach the land of destiny. The sea is changeable, easy to get lost, and there are many dangerous places. We need to stop a cross-sea battleship to reach the land of destiny! "

Chao opened the road.

"it is good!"

Lu Ming nodded, Chao Kai was the arrogance of the Divine Land, and knew more about the sea.

After that, Chao Kai took out a puppet, suspended in the air, and the two sat on the puppet, waiting quietly.

Now, they can only try their luck to see if the cross-sea battleship has passed.

Fortunately, during this time, there are many cross-sea battleships that may be encountered.

Lu Ming, sitting on the puppet, studied the puppet technique.

Among the jade symbols given by Chao Kai, the puppet technique recorded is extremely mysterious.

However, Lu Ming already had a foundation for puppetry, and most importantly, Lu Ming mastered the laws of formation.

Although the rules of formation do not fit the puppet technique like the rules of the Tao of Taoism, refining puppets is also inseparable from inscriptions and runes.

Therefore, mastering the laws of formation and understanding puppetry can do more with less.

In this way, they were here, waiting for half a month.

Rumble!

In front, a huge behemoth drove over, it was a cross-sea battleship, and the direction of travel was exactly from the land of Yuanshan to the land of fate.

The two exploded in breath and sent out movements, attracting the attention of the people on the cross-sea battleship.

As the cross-sea battleship approached, a strong man stared at them and said, "What's the matter with you? Why did it appear in the sea!"

"This adult, our cross-sea battleship, was attacked by a sea beast more than half a month ago and was exploded. We escaped!"

Chao Kai answered.

"It turns out that you are the survivors of that cross-sea battleship, come up!"

The strong man's expression moved, and then the two got on board.

The last time a cross-sea battleship was besieged by sea beasts, many people survived. This incident has been spread all over the place. Naturally, the cross-sea battleships have been heard.

Since they met the survivors, they naturally did not mind a journey.

Of course, the original stone must be paid.

Lu Ming and the two boarded the cross-sea battleship, and the cross-sea battleship restarted, heading towards the land of fate.

This time, no more danger, after seven days, they finally crossed the sea and came to the land of destiny.

"It's so rich and strong, the gas of the Land of Destiny is more intense than the land of Yuanshan!"

After getting off the cross-sea battleship and coming to the coast, Lu Ming took a deep breath.

"Brother Lu, God Puppet Sect, is a force close to the seashore and can be reached from the nearby teleportation array!"

Chao opened the road.

"it is good!"

Lu Ming nodded. When he first came to the place of destiny, he was unfamiliar with his life. He just needed to find a place to settle in and get to know it well.

Moreover, it is still more than four months away from the battle of the ten places. It is still too early. Don't rush to the City of Destiny, just go around.

"Brother Chao, this is your storage ring!"

Lu Ming returned Chao's storage ring to him.

"Thank you Brother Lu!"

Chao Kai took over and expressed his thanks.

He handed over the storage ring to Lu Ming before, and Lu Ming did not intend to return it. If Lu Ming did not return it, he would have no choice.

Lu Ming returned the storage ring to him. He was quite touched and admired Lu Ming.

The treasure is in front, but his heart does not move, he really admires.

Chapter 2079: Tianjiao gathering

The God Puppet Sect, located in the coastal zone of the Land of the Destiny, is a sect composed of many strong puppet masters. It pays attention to the concept of mutual discussion and common progress. Therefore, relatively speaking, the God Puppet Sect is very free.

Lu Ming took Qiuyue and Chao Kai to Shenyongzong, and no one was in charge.

"Curious puppet!"

Qiuyue marveled while walking within the Shenyangzong sect.

Within the God Puppet Sect, various puppets can be seen everywhere, in the form of beasts, humanoids, and some humanoids, almost exactly the same as humans.

These puppets are helping the **** puppets to deal with various things, such as mining minerals, smelting minerals, and even planting holy herbs.

Many things are not handled by humans and are directly handed over to puppets.

"I heard that puppetry can reach the highest level, and it can make puppets born spiritually and intelligently, which is really wonderful!"

Chao Kai sighed.

With a move in Lu Ming's heart, he thought of Tu Yi, Jin Yi and others in Chaos Hall. Are they not puppets, but they are no different from normal creatures.

Next, Lu Ming and Qiu Yue lived temporarily in Shen Piao Zong. There are some places in Shen Piao Zong who can help people understand puppetry.

Lu Ming walks around the **** puppet sect, seeing puppetry.

Of course, he will not put all his energy on puppetry. His own practice is king.

Puppetry, as long as it is a little proficient.

Half a month later, Lu Ming's puppet technique is ready to move forward, and he can control several powerful puppets at will with the power of the soul.

In this way, almost enough.

On this day, Chao Kai found Lu Ming and Qiu Yue and informed Lu Ming that in a few days, two powerful sons of God would fight in the ancient emperor station.

These two sons of God are still sons of death!

"Two sons of death?"

Lu Ming's eyes moved.

"Now, the arrogance of the heavens everywhere, and the arrogance of the mortal land itself, together with the arrogance of the celestial land itself, is truly arrogant, reaching a scene unprecedented in ancient times, brilliant and extreme!"

"Now the ten battles have not yet begun. Tianjiao everywhere, walking around the place of the destiny, will collide from time to time. Tianjiao will confront each other and often happen, especially the sons of God who control the same law, want to surpass each other and become The only thing is that the war is more intense!"

Chao Kai explained.

Lu Ming nodded, this is inevitable, and, before the Ten Battles, touch the strength of the opponent, you can also be confident.

"This time the two sons of God confronted each other and attracted a lot of Tianjiao to go. Do you want to see it?"

Chao opened the road.

"go with!"

Lu Ming nodded, and now he also understands the law of death, watching other children's duel, maybe he can understand it.

Also, he was curious, who are the two children of death?

He had seen two sons of death, one was the Blade of Death, and the other was Gelong in the Devil's Land.

Are they both?

Perhaps other people have mastered the law of death?

Immediately, they set off.

Ancient Emperor Terrace, there are two days away from this place, and the time of the duel, after three days, they do not want to delay, so as not to miss.

Two days later, they came to a small town near Gudital, where they rested overnight. On the second day, the day of the duel between the two sons of death, they headed towards Gudital.

When they arrived, it was already crowded.

At a glance, many are young people's arrogant figures, but also some older figures.

Everyone stands around a platform.

This platform looks very old, full of traces of mottled years. This is the ancient emperor platform. Legend has it that there is an ancient emperor who enlightened here.

This platform, sturdy and immortal, has also become a place for many powerful players to compete.

Around the platform, there are nine stone pillars, straight through the sky, there is a sense of height.

Lu Ming's eyes swept through the crowd, but found several acquaintances.

Such as Wei Tiandao, etc., are the arrogance of the land of Yuanshan, and they practiced together in the Yuanshan Shengyuan.

Uh!

At this moment, a figure flashed, rushed to one of the nine stone pillars, standing on the stone pillars, standing high above them, overlooking the crowd.

"Who is this person? Dare to stand above Wang Dizhu, so confident?"

"Is it a son of God, if not, he must be beaten into a pig's head!"

Some people exclaimed, and others sneered for gloating.

Chao Kai explained that Lu Ming understood the meaning of Wang Dizhu.

Wangdi, not ordinary Wudi, but Tiandi!

Stepping on Wangdizhu represents a symbol of talent, potential, and identity.

Only the strongest arrogance can stand on the Wangdi Pillar, and most people will step on it and they must be bombarded.

Uh!

Soon, another figure set foot on Wang Dizhu, this is a handsome young man, wearing a purple gold robe, with a cold and proud look on his face.

"That's purple tassels. He's just a king body. Although I heard that the light of the law is cultivated and the combat power is strong, but I want to stand on the Wangdi pillar. I'm afraid it is still not enough."

"Yes, look at it, there must be someone to shoot!"

Seeing a young man in Zijin robe flying up to Wangdizhu, there was a discussion around him.

Just as everyone was discussing, a young man in black robe stepped into the air. He stepped towards the purple tassel, step by step, with a strong breath, rolling towards the purple tassel.

"Every royal body, I also want to set foot on Wangdizhu, get me down!"

The young man in black robe spoke lightly, and his breath became stronger and stronger.

"If you want me to go down, then see if you have the ability!"

Purple tassels spoke indifferently, and a terrible breath erupted on his body. A burst of light spread out, covering the whole body. Not only that, but also a long purple river, flying around him, setting him like a god.

"The light of the law, the law becomes a river!"

Lu Ming's eyes narrowed slightly.

It is worthy of being the arrogance of all the earth, gathering the place of the gods, there are too many arrogance.

This purple tassel is absolutely powerful, but it is a peerless king body, and has reached the realm of the quasi-empire, and has cultivated the light of the law. These strengths were placed in the era when the sons of God were rare in the past. It is definitely the arrogance of suppressing the world.

The Son of God does not come out, who is fighting against the front, even if it is placed in the golden age of the present, it is also the top arrogance.

But the youth in the black robe was still calm, even with a touch of disdain, saying: "If you don't roll, then I will let you roll!"

Buzz! Buzz! ...

The space seemed to shake, and behind the young man in black robe, there suddenly appeared six dark swirls.

The whirlpool kept spinning, as if to draw the mind of the person.

"Six reincarnations are the rules of reincarnation!"

"This is a son of reincarnation!"

"I know who he is, Yuhe, he is Yuhe, the peerless arrogance of the Divine Land!"

Many people exclaimed.

Lu Ming was also moved. This person was actually the son of reincarnation, the same as Ouyang Moli.

This person encounters Ouyang Moli, I am afraid there will be a battle.

As soon as Yuhe's reincarnation rule came out, it was hard to look at purple tassels.

Chapter 2080: Six Sons of God

"Will you roll down yourself, or will I let you roll!"

Yuhe looked at the purple tassel lightly, and the color of disdain was more intense.

Purple Tassel's face was extremely ugly, and he gritted his teeth and said, "What about the son of reincarnation? Today, I will see how powerful the rule of reincarnation is!"

"Do not control yourself!"

Yuhe spoke indifferently and stepped out suddenly.

boom!

The six vortices behind Yuhe followed him and drove towards the purple tassel.

The six vortices spin at great speed, and a terrible force erupts. They are to attract the purple tassel and draw him into the cycle.

The purple tassel's face was extremely dignified, and it exploded with all its strength. The purple light burst out, forming a purple sword light, and slashing towards the Yuhe River.

The trick of purple tassels has already used its full strength, not to say it is not strong, in the eyes of ordinary people, it is scary enough.

However, he faced a son of reincarnation.

boom!

Under the pressure of six reincarnation vortices, the sword light of the purple tassel fell apart, turning into a purple light spot.

The purple tassel flew wildly like a cannonball and vomited blood in the air.

Everyone was shocked!

One move, only one move, the purple tassels were defeated, and the spitting blood was utterly unbearable.

"Is the difference between the royal body and the Son of God so great?"

Some people said unwillingly, this is also a royal body.

"Yuhe's cultivation behavior should also break into the realm of the quasi-emperor, otherwise it will not be possible to defeat the purple tassel!"

"But the difference between the Son of God and the King's body is indeed so great. In a battle of the same level, the King's body cannot be an opponent of the Son of God!"

"Unless the Son of God does not cultivate the light of the law, in that case, the king's body may have a contest, but the chance of losing is still great!"

Some Tianjiao spoke, and some sighed.

"There is no need to sigh. Under the Emperor Wu, the Son of God does have an absolute advantage. The first battle at the same level is almost invincible, but this is only under the Emperor Wu!"

"After waiting for the Emperor Wu, you can comprehend a variety of rules. Some kings, even not kings, have become late. Before the Emperor Wu, he performed mediocre, but after breaking through the Emperor Wu, he rose in one fell swoop and realized the strongest rule, enough to compete with the Son of God. , Even defeating the Son of God!"

Some young people spoke, full of strong confidence in themselves.

Hearing this remark, the light of hope appeared in the eyes of many people.

Yes, it is!

The so-called king body, the son of God, only has an advantage temporarily, but after Emperor Wu, this advantage will weaken.

Because Emperor Wu could comprehend a variety of laws, some people under Wu Emperor could understand only common laws, but after breaking through Emperor Wu, they could comprehend the strongest laws in one fell swoop, and then break all the way to become a strong man.

Historically, such examples are not rare.

After defeating the purple tassel, Yuhe landed on the Pillar of Emperor Wangdi, standing upside down, full of overbearing meaning.

Zi Liusu glared at Yuhe with hate, and finally did not set foot on other Wangdizhu.

If the strength is not enough, even if you step on it, you will be bombarded.

Originally, there were some other royal bodies that were also eager to move, and at this time, they were patient.

At this time, some people looked at the first young man who set foot on Wangdizhu.

This man was in a white robe. Even if he saw Yuhe defeating the purple tassel, his face was calm. Everyone knew immediately that this man was also a son of God.

Before the two dead sons of the duel had arrived, two sons of God appeared, which made people look forward to.

Will the sons of God converge, will they fight first?

"Haha, it's really hilarious!"

With a laugh, a young man in a red robe came out of the air, very directly, and also fell on a Wangdi pillar.

Some people recognize that this is also a son of God, from the land of God's destiny.

The Land of Destiny is the most powerful place in the Ten Realms of the Yuan Realm, with a vast area. Excluding the barren land, the area of the other eight places adds up to the size of the Land of Destiny.

There are many geniuses.

It is said that each of the ten strongest laws of the Land of Destiny has some, even some, and more than one.

The top ten converging in one place is really amazing.

"Amitabha!"

A buddha sounded, and a young monk came into the air.

A white robe, fluttering in the wind, dust and dirt.

This monk also fell on a Wangdi pillar.

"It is the dustless monk of Wuya Temple!"

Someone exclaimed and seemed very shocked.

"The dustless monk also came. I heard that the dustless monk controls the causal law, one of the ten strongest laws. Everything is in cause and effect!"

Someone solemnly spoke.

"The Law of Cause and Effect!"

Lu Ming's gaze was also condensed.

The law of cause and effect is also one of the ten strong laws. There is no doubt that it is a very terrible law, mysterious and mysterious.

Everything in the world has cause and effect, and cause and effect follow bad, and then constitute the world.

Controlling the law of cause and effect can control cause and effect, which is absolutely terrifying and can kill people invisible.

Four, now, have reached the four Sons of God.

Many people are looking forward to whether these sons of God will fight for the first time.

At this time, there were two rainbow lights in the distance, flying very fast.

These two rainbow lights are also two young people.

They kept their speed and landed directly on the lookout pillar.

"It's him!"

One of them, Lu Ming also knows, is the land of all demons, the utter arrogance of the undead demon kingdom, the child of nothingness.

Another person, some people recognized, was the peerless arrogance of God's destiny.

"Six Sons of God!"

Someone marveled.

"This time, it is a rare golden age in ancient times, and many sons of God were born everywhere!"

"There are forty thousand sons of God in my land of magic!"

Everyone talked about it, and then there was the arrogance of the Ten Thousand Devil's Land, which was quite proud.

There are four sons of God in one place, which is already amazing.

"How many children of God do you have in Yuanshan?"

Someone looked to Tianjiao in the land of Yuanshan and asked.

"Six!"

Tianjiao from the Land of Yuanshan answered.

"Six people? Bragging, can you have six people in Yuanshan?"

Tianjiao in the Land of Devil immediately doubted.

Among the ten territories in Yuanjie, except for the barren land, the strength of the land of Yuanshan is considered weak. Now, the Tianjiao of the land of Yuanshan actually says that there are six children of God in the land of Yuanshan.

Many people cast contempt on the land of Yuanshan.

Being taken lightly by others, Tianjiao in the land of Yuanshan was a little uncomfortable.

Among them, Wei Tiandao said: "In Yuanshan, there are indeed six children of God, namely the son of chaos, the son of eternity, the son of death, the son of time and space, the son of life, the son of reincarnation!"

"What? There is a son of Chaos in Yuanshan?"

"The more and more outrageous, it is possible to say that the other sons of God are, but it is mostly bragging that there are children of chaos!"

Some people despise.

Although the ten strongest laws are the same, they are juxtaposed, but in fact, there are two kinds of laws, the rarest, and the least probable in history.

That is the law of chaos, and the law of fate.
