

D Emperor 2101

Chapter 2101: Emperor Wuliang

The breath on Yuan Xin's body suddenly rose and turned into a horrible roar, sweeping into the air.

Diwei!

Realm of Emperor Wu!

Yuan Xin's cultivation practice has actually broken through to the state of Emperor Wu.

Around the battlefield, the people watching the battle were also shocked.

I have heard before that Yuan Xin retreat impacted Emperor Wu's realm, but I didn't expect it to succeed.

Once it proves to be an emperor, it is two different levels, all aspects will be transformed, and all aspects will be greatly improved.

The Sacred Heart began to evolve into a small world, and Shou Yuan was endless, as long as it could survive the catastrophe of the world and live the same life with the world.

This is an extreme transformation.

Quasi-Emperor is actually a holy realm, a martial realm.

And the emperor who proves the way is Emperor Wu.

"Yuanxin proved to be a great emperor. It was amazing. His original fighting power was invincible. Now who can prove to be an emperor, who else can be the enemy?"

"He is going to sweep all directions!"

"He is not necessarily, I secretly heard that the son of destiny has already become an emperor, and there are other Tianjiao, maybe someone will become an emperor!"

Some people talked, but still shocked.

At such a young age, he became an emperor. In the past, it was impossible to imagine.

The vast Diwei came out of Yuanxin and shocked everyone.

Lu Ming was also shocked.

"It seems that only identity can be revealed!"

Lu Ming turned his thoughts.

Yuan Xin has become an emperor, and the combat power will soar. He must do his best to contend.

In this way, he will reveal his identity.

Now exposed, not what he wanted.

After all, many people wanted to kill him wholeheartedly, and now exposed, I am afraid that Lu Xiangxiang will be affected.

Although the ten-place battle is now under way, they will naturally be protected by the major powers, but they are not afraid of 10,000, just in case.

Faced with a high-level virtual emperor, Lu Ming does not have the ability to protect himself, let alone the true emperor and the emperor.

If the energy of Heavenly Emperor's flesh is sufficient, Lu Ming would not have so much scruples.

Now, it is not the right time.

However, in the face of Cheng Emperor's Yuan Xin, he had no second path and could only fight hard.

"Hahaha, Yuanxin, you have become an emperor, so good, kill the kid!"

Mu Yang laughed excitedly.

At the same time, he worked hard to heal the injuries, and the injuries on his body were healing quickly.

He turned his gaze to Lu Xiangxiang and others, as long as his injury was good, he would let Lu Xiangxiang and others pay the price.

bump!

At this time, Yuan Xin stepped out, and the entire battle platform was shaking, terrifying breath, like a huge wave, squeezed towards the landing.

"broken!"

Lu Ming splits with a palm, breaking the breath of Yuan Xin.

"Negative stubborn resistance!"

Yuan Xin opened his mouth indifferently, his posture was upright, and at this time he exuded vast dignity, more majestic, like an ancient emperor, walking in the world.

"My hair!"

At this moment, a buddha sounded, and a monk walked with a smile. Every step he stepped out, a golden lotus appeared under his feet. He also had a powerful breath filled him, pressing towards the heart of the heart. .

This monk is naturally unscrupulous.

However, what made Lu Ming dumbfounded and dumbfounded was that the breath of Wuliang's body was clearly Emperor Wu.

The unscrupulous monk has already proved to be an emperor, even with Lu Ming's mind, he could not help but be stunned.

This unreliable monk has already proved to be an emperor.

There was an uproar around the battlefield, and many people were shocked.

Another Emperor Wu appeared, and was so young, it was really shocking.

Yuan Xin's eyes also showed a dignified color, looking at Wuliang, and said: "Do you want to start with me?"

"You let him go, I won't do it with you!"

Wuliang pointed to Lu Ming.

At this time, Wuliang was filled with golden light, a round of Buddha's light flashed behind his head, his hands were folded together, and his treasures were solemn, like a great virtuous monk.

"You and him, know?"

Yuan Xindao.

"I don't know, but he helped those two little guys just now!"

Wuliang pointed to Lu Xiangxiang and Ouyang Moli and said, "And the masters of these two little guys are Lu Ming, and they really don't hide them. Lu Ming and I came from the same place, but they were the little brothers I collected before, So, you get it!"

Unscrupulous monk has a serious way.

It was okay to hear the front and the back, Lu Ming face straight black line.

When did he become an unscrupulous younger brother?

Long Chen was speechless.

He and the unscrupulous monk are also old knowledge. The cultivation behavior of the unscrupulous monk shocked him, but this bragging ability also made him speechless.

"Then fight!"

Yuan Xin is very direct, stepping towards the unscrupulous monk.

boom!

The breath on his body exploded, shockingly, with a punch, the whole world was shaking.

"My hair!"

The Wuliang monk declared a Buddha number, and his body was covered with golden light. Behind him, a golden body Buddha appeared, reaching a height of 100 meters. He stretched out a palm of Jin Cancan and blasted toward Yuan Yuan.

boom!

A terrifying roar, terrible energy swept through, the others nearby were shocked, and even Lu Ming took two steps back.

"The law of cause and effect, the unscrupulous guy, also controls the law of cause and effect!"

Lu Ming's eyes moved.

When the unscrupulous monk came to Yuanlu, he definitely got a great adventure, or he was already talented, but he was not fully excavated in the God Wasteland.

"Chaos Fist!"

Yuan Xinchangxiao, his breath is stronger, like an invincible **** of war, killing the unscrupulous monk.

"Buddha Gold Body!"

The unscrupulous monk folded his hands together and whispered. Behind him, the huge Buddha golden body turned into a golden light, and flew into his body. His body, golden light, and even his skin turned into golden, like a golden person general.

He cast a big handprint of the Buddha, killing Yuan Xin.

boom! boom! ...

The two collided in succession, killing them madly, fighting continuously on the battle platform, sometimes in the east and sometimes in the west.

Many people were swept away by the aftermath of their wars, and were directly hit seriously or wounded off the battlefield.

Suddenly, a large number of people were bombed off the battle platform.

Some powerful natural arrogances are also used to evade the body, such as Yuhe, Gumo and others.

Lu Ming is staring at Muyang.

Unscrupulous shots are good, at least he doesn't need to be exposed for a while.

At the moment, Mu Yang's face was ugly.

I originally thought that Yuanxin could kill Lu Ming, but I didn't expect to run out of an unscrupulous half-powered, surprisingly uncomfortable fighting force and be able to compete with Yuanxin.

Now, Lu Ming is staring at him again, making him extremely depressed, and can only escape.

"Where did you escape? You might as well get off the battle platform yourself!"

Lu Ming chased toward Muyang and sneered.

Mu Yang gritted his teeth and vomited blood angrily. He kept flashing on the edge of the battle platform. If it was not possible, he really had to jump off the battle platform. Compared with chance, after all, it was still a small life.

"Okay, let's stop now!"

At this moment, the middle-aged emperor came to the battle platform, and a powerful breath filled out, causing everyone to stop.

The fight between Yuanxin and Wuliang also stopped.

Chapter 2102: Destiny Mountain

"ended?"

Lu Ming glanced and found that there were not many people on the battle platform. With him, there were exactly 80 people.

Lu Ming was speechless and didn't pay attention for a while, allowing MUYANG to escape.

"It's over, hahaha, over!"

MUYANG ecstatic.

He finally reached the end and became the last eighty people, able to get the chance.

"When I break through Emperor Wu, I will unload you eight pieces!"

MUYANG stared at Landing Ming and shouted.

"Good luck!"

Lu Ming pouted, then looked at the rest.

Bubble, Lu Xiangxiang, Ouyang Moli, Qiuyue, Huang Ling, Long Chen, Ouyang Wushuang, Luo Xiang, Luo Tianyi, they all successfully stayed on the battle platform.

In addition to Lu Xiangxiang and Ouyang Moli, everyone else entered the realm of the quasi-emperor, and a group of three, unless they met the son of God to target them, otherwise they are not difficult to reach the end.

"Okay, eighty of you, passed the screening. Now, let you adjust your interest rate. Then come with me. I have a great chance to wait for you!"

The middle-aged emperor announced.

The eighty people on stage were naturally happy, and those who were eliminated sighed one by one, somewhat unwilling.

On the battle platform, some injured people sat directly cross-legged and began to heal.

"This big brother, thank you for helping me!"

Lu Xiangxiang and Ouyang Mo walked away from several people and thanked Landing for a clenched fist.

"you are welcome!"

Lu Ming smiled slightly, of course, his voice also changed.

Qiuyue looked at Lu Ming curiously. She always felt that Lu Ming was very familiar. This was an intuition.

Later, Long Chen, Huang Ling, Huang Li and others also came over and thanked Lu Ming.

Lu Ming originally wanted to recognize everyone, but after thinking about it, he refrained.

Wait until later to recognize.

"My hair, Longchen, we haven't seen you for a long time!"

Wuliang monk walked over with a smile, Wuchen and Wuyue, with him.

Dust-free cultivation is at the peak of the quasi-empire, and it is a top-level arrogance because of its powerful and powerful rules.

It will be worse if there is no moon. Although there are also cultivation practices of the imperial emperor, it is only the king's body.

"Unscrupulous, I have disappeared for many years, but I didn't expect that you have become an emperor!"

Long Chen also greeted Wuliang.

"Haha, I tell you, I'm a reincarnated Buddha, a man destined to fight at the peak. At the beginning, he was in the God Wasteland, but he didn't discover the potential, so it is not your opponent. Now, whether it is you or Lu Ming, are not my opponents!"

The unscrupulous monk laughed and was proud.

"Well, if my master is here, you are definitely not an opponent!"

Listening to Wuliang degrades Lu Ming, and Xiangxiang is unhappy.

Mentioned Lu Ming, everyone was silent for a while, what happened to him now?

"My hair, you can rest assured that Lu Ming's boy is an old fox. He is very smart and will not die so easily. No one is his opponent except me who can barely suppress him!"

The unscrupulous monk spoke.

Lu Ming's eyelids jumped straight. Does this guy praise him or depreciate him? How can it sound so uncomfortable?

Lu Xiangxiang and Ouyang Moli glared at Wuliang. If they could not beat Wuliang, I am afraid to beat him.

Uh!

At this moment, the bubble suddenly flashed and came to Lu Ming, his big eyes blinked, curiously looking at the landing song.

I haven't seen it in a few years, the bubble is still two or three years old, it seems that it will not grow up, but the cultivation progress is fast, and it is almost breaking the emperor.

"You are Brother Lu Ming!"

The bubble suddenly opened.

Of course, the bubble is a sound transmission method, other people did not hear it.

Lu Ming touched his nose, and he still couldn't hide the bubbles. The top ten war beasts were no different.

"Bubble, it's me, don't say it for now!"

Lu Ming sent a voice to the bubble.

"I knew you were not dead!"

Bubble sounds, a big look in his big eyes, and then ran to sit on Xiangxiang's shoulders.

"Let's adjust the interest rate first!"

Luo Tianyi said, everyone just consumed a lot during the first battle.

Everyone sat cross-legged and began to adjust interest rates.

Not far away, Muiyang swept to Lu Xiangxiang and others from time to time, revealing a vulgar color, thinking of some poisonous plan in her heart.

In Lu Ming's eyes, there was a ray of murderous opportunity. He was afraid of exposing his identity, and what actions Mu Yang took to harm Lu Xiangxiang.

He seriously doubted that the last killer of the kingdom of death was invited by Muiyang.

Soon after a day, everyone adjusted their interest rates almost.

"Come with me!"

The middle-aged emperor instructed him to take everyone to the center of the city of fate.

Others have also kept up. They are curious, what is the so-called opportunity, in the end.

Soon, a majestic and magnificent mountain appeared in front of us.

This mountain is too majestic and too high to break through the sky.

This is the Mountain of Destiny, known as the most majestic mountain of the City of Destiny. Legend has it that it is connected to heaven and can lead to heaven.

Everyone landed on the mountain of destiny.

It was found that there were already many people on the Mountain of Destiny.

"Are you also in the southern theater?"

A beautiful woman looked over here.

"You Eastern Theater, but fast!"

The middle-aged emperor smiled and greeted each other.

Obviously, the other party is the Eastern Theater, and it has also selected eighty arrogant arrogants.

Tianjiao on both sides looked at each other.

"The Stellar River!"

Lu Ming saw the Stellar River among the 80 people in the Eastern Theater.

No wonder he hadn't seen him before, but the other party ran to the Eastern Theater.

"Okay, let's rest here. When the time comes, the chance will naturally appear!"

The middle-aged emperor said.

Everyone in their hearts was wondering, what is the so-called opportunity? Actually, it can help others to prove to be emperors, which makes people fiery.

Everyone was waiting here, and one day later, the Tianjiao of the northern theater came.

Two days later, the arrogance of the Western theater came.

And near the mountain of destiny, more and more people gathered, filled the sky.

At the highest point, there is a figure standing there, covered with divine light, unable to see clearly, but each one gives a vast and unfathomable feeling.

Emperor!

Everyone was awe-inspiring, knowing that these characters standing on a high place, shrouded in divine light, were all characters of the Great Emperor Realm.

It is not necessarily the emperor of the Divine Destiny, it is possible that there are emperors from other regions.

Time passed quickly, and in a blink of an eye, ten days had passed.

Suddenly, there was a ray of light blooming deep in the sky.

Then, this ray of light became brighter and brighter.

"coming!"

Some emperor figures spoke.

Everyone's spirit was shocked, everyone looked deep into the sky.

coming? What is coming?

Everyone was curious.

Rumble!

The sky shook, and then everyone saw that there was a road extending all the way to this side.

This is an ancient bluestone road, full of the mottled meaning of years.

Above the sky, there was a road that made many people dumbfounded.

Chapter 2103: A corner of the world opened in the Yuan Dynasty

In the depths of the sky, there was a road that stretched down and made people dumbfounded.

Where does this road come from, or rather, where does it lead?

Is the so-called opportunity related to this path?

Everyone looked carefully and found that this road has an end. At the end of the road, there is a light door. I don't know where the light door leads.

"You, now, tell you, what is the chance?"

This is, in the sky, a white-haired old man stepped out, this is obviously an emperor, and still a very strong emperor.

"The end of this road leads to a corner of the world. Why is it called a corner of the world, because that corner of the world was separated from when the Yuanjie first opened, and still retains the scene when the Yuanjie first opened!"

"There, the rules are very clear, and the innate source is strong. Whether it is the cultivation of the law system or the cultivation of the ancient system, the cultivation speed there will be amazingly fast!"

The white-haired emperor spoke.

At the scene, there was a lot of noise.

It was actually a corner of the world when Yuan Jie first opened, and it still retains the style of Yuan Jie when it first opened. That is absolutely unimaginable opportunity for cultivation.

Opportunities are really great opportunities.

The eyes of countless people are fierce, even those of Emperor Wu.

Cultivating into the realm of Emperor Wu, we must evolve the small world.

In the world that opened in the corner of the Yuan Dynasty, there is definitely a great improvement and promotion of the evolutionary small world.

It's no wonder that people who enter have a great possibility to break through the emperor's realm.

"This corner of the world is a powerful person who got from the void space, this time, used to reward the arrogance that passed the screening!"

"However, this corner of the world is not big after all, and after too many years, it has a great effect for the Emperor Wu or the lower-order virtual emperor. If it is higher, the entry effect will not be great!"

The white-haired old man once again explained, and made many martial arts strongmen sigh.

"You go in, you are in there for only two years. After two years, that mighty person will send you out. How much you can gain in it depends on yourself!"

"Two years later, the ten places will fight before they really start!"

The white-haired emperor announced.

Two years, they have two years.

Lu Ming's eyes are bright. During these two years, we must grasp it well.

"Now, let's go, follow this ancient road and set foot on it!"

The white-haired emperor said.

Uh! Uh! ...

When the voice of the white-haired emperor fell, there was a figure walking onto the ancient road, and then going up the ancient road.

"Let's go too!"

Qiuyue, Lu Xiangxiang and others also embarked on the ancient road.

There are also the Stellar River, Yuanxin, Muyang, and others, who stepped on the ancient road one by one and walked out into the depths of the sky.

The frontmost person has come to an end, stepped into the light gate, and disappeared.

Around him, countless people are envious.

Especially those young arrogance, eyes are fiery, but helpless.

This was a great opportunity. They knew that this group of 320 people would enter. Two years later, they will definitely be stronger.

The gap between them and these people will widen further.

The strong is strong!

However, no one dared to mix in. There are so many emperors here. Whoever thinks they can mix in is really a dream.

Lu Ming also embarked on an ancient road, step by step upward.

Soon, Lu Ming reached the end of the ancient road and came to the light door. Without hesitation, Lu Ming stepped in.

Soon, three hundred and twenty celestial arrogances stepped into the light gate and disappeared.

At this time, the ancient road began to withdraw and did not enter the light gate. Then, the light gate disappeared into the air.

"Senior, I don't know which powerful person, get this corner of the world!"

Someone asked.

Powerful people with great powers think about it. If they can visit this powerful person afterwards and let some of their power's juniors enter cultivation, how great is the benefit?

"From Heaven!"

The white-haired emperor said.

Everyone shut up, actually the power of heaven.

At the same time, everyone was secretly startled. Could it be that the Celestial Power is paying attention to this ten-place battle?

"You guys, come back in two years!"

The white-haired Great Emperor said, then stepped out and left here.

"After two years, who will rise and fall?"

Someone whispered.

They look forward to it.

Then, everyone dispersed, and near the Mountain of Destiny, tranquility was restored.

After Lu Ming stepped into the light gate, the heaven and earth twirled, and the next moment, he found him appearing on a raised rock.

"So strong pressure!"

As soon as Lu Ming appeared, he felt in all directions, there was infinite pressure, and he pressed towards him.

As if at all times, there are hundreds of mountains pressed against him.

bump!

Lu Ming tried to take a step, the earth roared, Lu Ming's body was heavy like a mountain.

"Is this the corner of the world that Yuan Jie first opened?"

Lu Ming whispered and looked around.

What is in sight is the endless rock.

There are rocks, land, and bareness, no vegetation, and no creatures.

A flood, an ancient breath, came out.

Moreover, Lu Ming found that the innate source here is so rich that it is unimaginable.

Between breathing and breathing, there was a strong innate source of energy, which turned into a beam of light and rushed into his mouth.

Moreover, Lu Ming feels that the law here is extremely clear, and spiritual consciousness emanates, as if the body is bathed in endless laws.

Lu Ming turned Shengli into his eyes, and was suddenly taken aback.

At this moment, everything that appeared in front of Lu Ming's eyes changed. Between the world and the sky, there were thin ribbons cruising around, emitting various rays of light.

It is as if thousands of filaments make up this world.

Those are the rules of the thread, and the rules are clear and intense to the extreme to form.

"The world where the world first opened, this is the world where the world first opened!"

Lu Ming muttered to himself with surprise in his eyes.

Legend has it that the world first opened and everything evolved. At that time, the bad environment of cultivation was the best. The rules were clear, and the innate natural gas was strong. When you cultivate, you don't know how fast it will be.

Opportunity, the middle-aged emperor is right, this is the opportunity.

The chances of the quasi-imperial figures practicing here and proving that they will become emperors will definitely increase greatly.

"However, the beginning of heaven and earth is like a wild world, and the pressure between heaven and earth is too great!"

Lu Ming sighed.

Here, it is impossible to fly at all.

Not to mention flying, even walking for a while, I'm afraid it will exhaust the divine power in the body.

The best way is to stay in place and practice quietly.

In fact, almost all of the people who came in were sitting cross-legged on the spot, quietly practicing and understanding.

This is a rare opportunity. They only have two years, so they should cherish it.

Lu Ming also sat cross-legged on the spot, spreading his consciousness, and he could clearly capture all kinds of laws between heaven and earth.

Chapter 2104: Power surge

Lu Ming vented his mind and began to understand the law of chaos.

Suddenly, he felt that the law of chaos between heaven and earth was extremely clear, and he did not know how many times it was clearer than the outside world.

As soon as the thoughts moved, the law of heaven and earth flew to the landing, and surrounded Lu Ming's body.

From the outside, Lu Ming was covered with a layer of radiance, holy and unparalleled.

Lu Ming feels that his understanding of the law of chaos is constantly deepening.

In a flash, half a month passed.

boom!

The breath on Lu Ming's body suddenly erupted and rose, and the law of chaos roared and filled Lu Ming's body.

As soon as his thoughts moved, the law of chaos between heaven and earth was easily manipulated by Lu Ming to form a large river, hovering around Lu Ming.

The law becomes a river!

The law of chaos finally broke the shackles and reached a perfect stage, forming a big river.

The law becomes a river, not that the argument really becomes a river, or the law is perfect, and when the mind is moved, it will condense together, like a river.

Then, the law of chaos continuously poured into Lu Ming's flesh, helping Lu Ming to refine the flesh and the holy power.

The last time, the law of battle arrays was completed, Lu Ming already had experience.

Two days later, Lu Ming's breath calmed down completely.

"Strength and divine power have skyrocketed!"

Lu Ming carefully sensed his own changes, showing joy.

The strongest rule, the rule became a river, entered the Quasi-Emperor, and the refining of the flesh and the holy power is much stronger than the rule of the kingly way.

The last time, the rule of the battle line broke through, and his physical body and holy power were improved, but this time, it was improved even more.

In Tan Tian, the Sacred Heart is crystallized, filled with endless Sacred Power. The Sacred Heart rotates, and the Endless Sacred Power pours into the meridians, such as the river bounces.

In Lu Ming's body, there is a faint glow of light, full of endless power.

Strong! too strong!

Lu Ming felt that his fighting power had skyrocketed again.

"Now start to understand the law of death and the law of devouring!"

Lu Ming showed his expectation.

If the law of death and the law of devouring are completed one after another, how strong will his physical body and divine power be?

Lu Ming looked forward very much and began to understand.

This world, indeed, has a unique understanding of the law, much faster than outside.

Not only that, this piece of heaven and earth was the corner left when Yuanjie was first opened, and it was also very helpful to the evolution of the small world.

However, Lu Ming has not yet reached the stage of breaking through Emperor Wu.

Cultivation has no years. With Lu Ming's dedication, time flies.

In a blink of an eye, another half year passed.

In half a year, Lu Ming successfully adopted the law of death, devoured the law, and practiced to ninety-nine times.

This speed is already amazingly fast, and it can't be done outside in five years.

However, after ascending to ninety-nine, if you want to practice at once to complete, it is difficult to do, and it takes time to accumulate.

At this time, Lu Ming began to think, he wanted to practice other laws.

"What is the best way to practice?"

Lu Ming frowned, thinking carefully.

Anyway, he can practice a variety of laws. The integration of the laws can greatly enhance his strength. Moreover, in this world, understanding the laws is too fast, and he does not want to miss them.

He understands other laws.

Rule of the best!

After thinking about it for a while, Lu Ming decided to practice the law of extreme strength.

The law of extreme strength, the ultimate strength, let every blow with its own terrible power.

Moreover, Longchen and Huangli are both the ultimate laws of cultivation. Lu Ming and Longchen and Huangli have discussed with each other many times. It is easier to understand and understand the ultimate laws.

Moreover, as more rules are fulfilled, Lu Ming's physical body and divine power are getting stronger and stronger. In addition to the chaotic rules, heavy as a mountain, his attack will become more and more aggressive.

If the law of extreme force is added, his attack will be even more terrifying.

Doing it when you think about it, Lu Ming began to earnestly comprehend the laws of extreme strength.

This world is really different. In just a few days, Lu Ming felt it. He felt the doorway. He realized it more seriously.

More than ten days later, Lu Ming really got started, realized the law of extreme strength, and punched with a punch, with extreme strength, amazing power.

Since then, he has simultaneously realized the law of death, the principle of swallowing and the law of extreme strength, and each kind of realization has changed for a few days.

In this way, in the past three months, the principle of swallowing was finally completed, and the law became a river. Lu Ming's physical body and sacred power were greatly enhanced.

Three months after the engulfment rule was breached, Lu Ming came here. It has been more than a year since the law of death also broke through, and the law became a river to achieve success.

His physical body and divine power were once again refined.

Now, Lu Ming feels his holy power leaping, powerful terror.

The flesh is full of explosive power.

He felt that now he could defeat a one-star Emperor Wu with his physical strength alone.

This is not an illusion, but really too strong.

Lu Ming didn't know what happened to his current combat strength.

The four laws are all complete, the laws become rivers, the two strongest laws, the two kingly laws, his body and divine power, are refined four times.

The fusion of the four laws of perfection is absolutely terrifying.

In addition, there is the law of extreme strength, which is now practiced by Lu Ming to an extremely high level, not far from the law.

When Lu Ming came in here, three times a year, the rule of maximum strength also broke through, and entered into perfection. Lu Ming's fighting power once again skyrocketed.

bump! bump! ...

Lu Ming casts the chaotic **** palm, moves in a vertical and horizontal direction, the fusion of the five laws, the rumbling of the world and the explosion of the world, such as the vibration of the Hong Zhong drum, will burst.

"Happy, happy!"

For a long time, Lu Ming stopped and took a long breath, his eyes bright and brilliant.

The pressure in this world is extremely huge, but Lu Ming's physical strength is too strong. He feels that he does not need the Holy Power and can block it with his physical body and travel far.

This average person is absolutely impossible.

"The law is perfect, it doesn't seem to be real perfect!"

Then, Lu Ming thought about the law again.

He realized the five laws in succession, and he felt a bit deeply. He found that the so-called perfection of the law is only a certain stage of perfection. It is not the end, and it can continue to break through.

In fact, he has long heard Kong Bo mentioned that the law is the foundation of the world, very high and deep, far from being that simple, what the imperial emperor called perfection is only the first stage of perfection.

The comprehension of the law is divided into several stages.

However, if you want to break through, it is very difficult. Generally, Emperor Xu is difficult to break through.

However, Lu Ming just thought about it at random, and he didn't think about it. He is still some distance away from breaking through Emperor Wu.

"It's been a year and three months since I came in. I don't have much time. I don't understand other laws for the time being. I will consolidate the five laws now and reach the point where I can break through Emperor Wu as soon as possible!"

Lu Ming set the direction of cultivation and continued to practice.

Chapter 2105: Mysterious youth

Lu Ming entered into the practice of selflessness, and all the arrogance that entered this world had great gains.

boom!

On a rock, a two- or three-year-old girl's breath rose sharply, and Diwei filled like a sea.

Soon, it was a thunderstorm, but the little girl passed easily.

"Finally broke through Emperor Wu, tweeted!"

The little girl whispered, this little girl is exactly the bubble.

In another valley, the same thunder robbery rolled up. Soon after, the thunder robbery disappeared, and the figure of a young man appeared, it was Muiyang.

At this time, a strong breath filled him, that was Di Wei, he also broke through and reached the state of Wu Emperor.

"Hahaha, I finally broke through the Emperor Wu, the boy Tianyun, I will meet him again next time, I will definitely put him down!"

Mu Yang laughed, confident.

He broke through Emperor Wu and his strength soared. He was 100% sure and killed Lu Ming.

Of course, he didn't know that Tianyun was Lu Ming, he just thought it was Tianyun.

Not only them, many people have broken through.

Yuhe, Stellar River, Deathblade, Gelong...

The sons of the gods were originally in the realm of quasi-imperialism. After accumulating in this world for so long, they broke the shackles and entered the realm of Emperor Wu.

Even some royal bodies made breakthroughs and entered Wudi.

Prospective Emperor to Emperor Wu is a heaven and earth. It is extremely difficult to break through if you want to break through. It takes a long time to accumulate. If you are outside, it will definitely not be so fast.

But in this world, just over a year, many people have broken through.

This is a great opportunity.

However, Yuan Yuan, who had already reached the Wu Emperor's realm, was unscrupulous, but he took a step closer and became stronger.

Everyone is making progress and their strength is soaring.

In a blink of an eye, it has been a year and eight months into this world.

At this time, Lu Ming stopped training.

He felt repaired, and he had reached a limit, intending to slow down a bit, and then began to impact the Emperor Wu Realm.

"This world is extremely rich in energy. I don't know if there will be any genius and treasure, it is better to check it out!"

Lu Ming began to think.

Others cannot travel far, but he can, because his physical strength is too strong.

He wanted to walk around.

In particular, he found that this place is uneven and has a slope. He was in the middle of the slope, and he wanted to follow the **** to the top.

Lu Ming started to move and walked up the slope.

The **** here is not large, but it does go up all the time, and Lu Ming found that the more upward, the pressure gradually increased.

Although this increase is not large, it is slowly becoming stronger, but with Lu Ming's physical strength, it can still resist.

Lu Ming walked along the **** for three days, but found nothing, it was smooth everywhere, there were no creatures, and no people came in from outside.

Lu Ming guessed that people coming in from outside might be below the slope.

Lu Ming left for another day, and he suddenly found that the ground had become flat, and he seemed to have reached the highest point.

Looking around, there are raised rocks in front, like a small mountain bag. Of course, I have seen some peaks, but there is no vegetation.

Here, the air of heaven and earth seems to be more intense.

Lu Ming went forward, he was still not reconciled and wanted to search.

Soon, he came to a valley.

"Someone!"

After entering the valley, Lu Ming felt a big shock in his heart, because he saw two figures.

The two young men, looking like they were in their twenties, sat cross-legged.

These two people are very familiar, Lu Ming has never seen.

Not two of the 320 people who came in.

Because, while waiting on the Mountain of Destiny, among the 320 people, they all looked at each other. With their memory, they would have an impression once they looked at it once.

But Lu Ming had no impression on these two young people.

Two young men, one of them, was wearing black robes, his hair was dark, and his face was cold.

The other young man, with long purple hair, is extremely handsome and has an unspeakable temperament that will make people look at it and never forget it.

"Who are they? Why are they here?"

Lu Ming was very puzzled.

In addition to their 320 people, who else came in?

At this time, the two young people also saw Lu Ming, and both looked at Lu Ming with surprise.

"Who is he? Very faceless, never seen!"

The dark-haired youth spoke, his voice cold and proud.

The eyes of Zifa Youth showed their thoughts, and suddenly his eyes lit up, saying: "Is it the Tianjiao of Yuanjie? Recently, I heard that there are also some Tianjiaos in Yuanjie, and enter this world of cultivation!"

Lu Ming was shocked by the conversation between the two.

What do you mean?

Zifa Youth said that he is the arrogance of Yuanjie. Does Zifa Youth come from Yuanjie?

Is it heaven?

Lu Ming thought of heaven.

But how can the people of heaven appear here?

"Where are you from? Heaven Realm? Or Yuan Realm?"

The dark-haired youth seemed to show a trace of interest.

"Yuanjie, are you guys?"

Lu Ming clenched his fists.

"It really belongs to Yuanjie. I didn't expect that there could still be people here in Yuanjie. It seems that your cultivation base is not weak. I'm really curious. Yuanjie's arrogance, how is cultivation base?"

It was still black-haired youth who spoke.

After talking, the dark-haired young man got up and showed his fighting intent, striding toward the landing.

Lu Ming was surprised, it seems that these two people really came from the realm of heaven.

At the same time, Lu Ming was speechless, just meeting, this dark-haired young man seemed to be about to do something.

boom!

The dark-haired youth stepped forward, and a strong breath erupted on his body. It was Diwei.

The black-haired youth is a Wudi.

"Shoot, let me see your strength!"

The dark-haired youth's footsteps were getting faster and faster, and finally turned into a black lightning, rushing toward the landing, and at the same time slammed out with a palm, terrifying palm power, blasted toward the landing.

"The power of reincarnation, this is a son of God!"

Lu Ming's eyes moved, and this dark-haired young man contained the law of reincarnation in his palm.

boom!

Lu Ming also shot, the same palm shot.

The palms of the two shot out, and a roar erupted, and the whole valley was shaking.

"Good, come again!"

The hands of black-haired youths are continuously shot, and dozens of palms are shot continuously, which is extremely amazing.

Lu Ming used the law of chaos to fight against the opponent. After dozens of moves, it was difficult to distinguish the winner.

"Every quasi-Emperor, actually has such a strong combat strength, your physical body is so strong, it is impossible, are you an archaic physical training, wrong, archaic physical training, how can you practice the law?"

The young man in black robe spoke continuously, full of surprise.

Even the purple-haired young man looked at Landing with some surprise.

"This guy is so strong!"

Lu Ming was also quite shocked.

With his current physical body and the strength of the Holy Power, coupled with the law of perfect chaos, the combat power is absolutely terrifying, but he can't help this young man.

Chapter 2106: Break through

"Your strength is not weak!"

Lu Ming spoke.

Lu Ming just told the truth, but the dark-haired young man was not happy, and Lengao's face was a little gloomy, thinking that Lu Ming underestimated him.

"Boy, I didn't use my real strength just now. You think you can compete with me. I will use my full strength now to see if you can stop me!"

The dark-haired youth spoke coldly, and the breath was more pressing.

At this moment, Zifa Youth said, "Sister, don't do it, time is up!"

The dark-haired young man's face changed, and he gave Lu Ming a cold look and said, "This time, I will let you go!"

After saying nothing, he turned and walked away, and Zifa Youth entered a cave.

Deep in the valley, there is a cave.

It seems that the two young men were waiting outside the cave.

"It seems that there is some kind of treasure in this cave!"

Lu Ming thought, Lu Ming still did not enter.

The two young men are obviously the celestial arrogance of heaven, and Lu Ming does not want to offend others inexplicably.

"Leave it first, look elsewhere!"

Lu Ming thought, then turned and left the valley.

At this time, it was difficult for him to calm down. It seems that this place is not very simple, and there is actually the arrogance of heaven.

Isn't this corner of the world not brought out by the powerhouses of the Yuan Realm, but by the powerhouses of the Sky Realm?

Lu Ming imagined in his heart.

After that, Lu Ming walked for another two days, and finally found a strange land in a depression.

Here, there is a spring eye like a magic pool or a spiritual pool. Inside, it is constantly filled with the innate natural gas, and the energy is amazing.

Lu Ming's eyes lit up, and he planned to let Heaven Emperor's flesh absorb energy. As long as the energy of Heavenly Emperor's flesh reached a certain amount, he could control it, and he acted without much scruples.

Immediately, Lu Ming took out the Heavenly Emperor's flesh, and started to manipulate the Heaven and Earth's flesh to start absorbing the energy.

Here, it is the innate innate energy, the scary energy is abundant, Lu Ming runs the magical method of manipulating the body of the emperor of the emperor.

Moreover, the energy and quality here are also very high, and the energy storage of Tiandi's flesh is rapidly improving.

Every moment, I can feel that the energy in the body of the Heavenly Emperor is increasing and strengthening.

In just a few days, the energy of Tiandi's flesh reached 10%.

When it reaches 10%, Lu Ming can control it.

Lu Ming was overjoyed, but he didn't stop and continued to control the body of Tiandi, absorbing energy frantically.

Since there is so much energy here, absorb more.

The more energy stored, the more powerful the Emperor's flesh will be.

A month later, the energy here almost dried up and was absorbed, and the energy in the body of Heavenly Emperor reached an astonishing 36%.

You know, before, the Emperor Tiandi had the most energy storage in his body, only 16%.

Thirty-six percent, the power is absolutely terrifying.

"It would be great if the energy of the world's flesh was completely refilled!"

Lu Ming's eyes glowed and his heart was moving.

If the physical energy of Heavenly Emperor reaches 100%, then in this era when Heavenly Emperor cannot come out, he can really walk sideways.

Thinking of this, Lu Ming was very hot and set off immediately to find other similar springs.

It is a pity that this kind of fountain eye is extremely rare. Lu Ming then searched for several days in a row, but did not find it.

Lu Ming didn't give up, and looked for a few more days. After searching for more than ten days in a row, he found nothing. Lu Ming finally gave up.

Time is precious here, and I can't afford to delay it. Lu Ming began to prepare to attack the Emperor Wu Realm.

He found a hidden place, sat cross-legged, and adjusted his condition.

A few days later, his state reached its peak, the spirit and spirit were perfect, and Lu Ming began to attack the Emperor Wu Realm.

Breaking through the Emperor Wu is to evolve the small world with the Sacred Heart as the core and the Law as the heart.

In a world, the law is the foundation.

With the rules, this world can continue to improve.

So first of all, we must evolve the heart of the world in the holy heart by law.

Then the world and the Sacred Heart combine to evolve the world.

It's like breaking the ground.

Ordinary people's breakthroughs are based on a law that evolves the heart of the world. After breaking through the Emperor Wu, you will understand other laws. In the small world, add other laws. The more laws you join, the more perfect the world will be.

However, Lu Ming is in control of the five laws, and it is up to them to evolve the heart of the world.

Otherwise, if he evolved according to a law, he would not succeed.

"Start!"

Lu Ming's eyes brightened, and he manipulated the five laws. He didn't enter the Sacred Heart and began to evolve the heart of the world.

But at this moment, his body was trembling, and he felt that the Sacred Heart was about to burst, even his body was torn apart by a wave of energy.

He stopped quickly, a spit of blood spewed, and his face was pale.

"How could this be?"

Lu Ming looked ugly.

As soon as he broke through, the five rules entered the Sacred Heart, and they collided with each other, producing a terrible power, almost bursting the Sacred Heart and tearing his flesh.

"Does Wu Emperor practice a variety of laws and cannot break the Emperor?"

"No, I don't believe it!"

Lu Ming began to adjust interest rates and repair his wounds. A few days later, he recovered from his injuries and once again hit the Emperor Wu Realm, but still failed.

"Impossible, I try a law to evolve the heart of the world!"

Lu Ming was unwilling to change his strategy.

But it still failed.

Because, five kinds of laws are involved in the whole body. When he manipulates one kind of law to evolve in the Sacred Heart, his four kinds of laws actually go in automatically. He can't control it, and Lu Ming is injured again. .

"How could this be?"

Lu Ming whispered and was extremely unwilling. If he could not break the emperor, it would be a huge blow to him.

"No, maybe my cultivation is not enough, I need to settle, and there are, or there are other methods, I can definitely prove to be an emperor!"

Lu Ming clenched his fists and took a deep breath to calm himself down.

Perhaps, it is not yet time to break Emperor, it is waiting for a while.

However, Lu Ming is naturally afraid to understand the new rules now. The more rules, the more difficult it will be to impact the emperor's realm.

"There is still a period of time, it is better to understand the application of the law. I control the five laws. If I can create the corresponding magical art, the power will definitely skyrocket!"

Lu Ming put aside the matter of breaking Emperor and began to consider the issue of his own combat power.

Now, his magical powers are all single-level magical powers, such as Chaos Palm, Chaos Tribulation Finger, Eye of Death, and Three Volumes of Formation.

Moreover, the so-called fusion of laws is only a rough fusion of laws to strengthen their power.

This is the most superficial application of the law.

Chapter 2107: Real showdown, start

To put it bluntly, Lu Ming's application of the law now is like applying brute force, and he has not brought out the magic of the law at all.

He heard Kong Bo said that after reaching Emperor Wu, he could understand various laws.

Different people naturally have great differences in understanding the law.

The fusion of different laws will also produce different magical skills.

Those supernatural powers contain several different laws. The power is so amazing that it is not comparable to the single supernatural powers.

The single law of supernatural powers can only be regarded as inferior supernatural powers.

Some laws contain a variety of magical powers, and their power is simply earth-shattering.

There are some ancient scriptures above the Emperor Wu, and there will be corresponding records. However, those ancient scriptures are astonishingly high in value.

"On the Chaos Sutra, there is only a single law of magical power, which is not right!"

Lu Ming thought of Chaos Sutra.

He guessed whether the Chaos Sutra he got was incomplete.

It stands to reason that the Chaos Sutra is the inheritance left by the Chaos Emperor. There must be more than low-level supernatural powers, there must be different laws, and supernatural powers that merge with the chaotic laws.

"Perhaps, the Chaos Sutra I got was really incomplete!"

Lu Ming thought.

In his hand, there is no corresponding magical art, he can only go to find it by himself.

In the following time, he focused on the application of fusion between different laws.

The time is very fast, two years later, is coming.

After months of groping, Lu Ming finally got something.

He found that the law of chaos and the law of death were mutually intertwined, and it was too difficult to understand what magical art.

The strongest rules are incompatible, not just talking.

However, Lu Ming still created two different magical arts, with amazing power.

They are based on the law of chaos, the law of array, the law of engulfment, and the fusion of the law of extreme strength, creating a magical trick, Lu Ming named it the hammer of chaos.

When performing this trick, a giant hammer can be condensed, which is amazingly powerful.

In addition, with the law of death, the principle of devouring, the law of formation, and the law of extreme strength, a technique of prodigy was created, and Lu Ming named it the sword of death.

After being exhibited, a war sword was formed and everything was cut.

Of course, this is only a preliminary understanding, and the power of various laws has not been fully exerted.

In such a short period of time, Lu Ming's perception has been extremely terrifying.

As I slowly cultivate my understanding and become more and more perfect, the mystery of various laws will burst out, and the power of these two moves will become stronger and stronger.

However, although it is only a preliminary understanding, it is also much stronger than the fusion of laws alone.

This has greatly improved his combat power.

In the past two years of entering this world, Lu Ming's combat power, I do not know how much he has improved.

"It's almost time!"

Lu Ming looked up at the sky.

Buzz!

Suddenly, a powerful force acted on Lu Ming. With his current strength, in the face of this power, there was still no resistance, his body disappeared from the place, the next moment, he found that he appeared in a void, in front of him, there was a huge light door.

Around him, his figure kept flashing, and figures appeared one after another.

He saw Qiuyue, Bubble, Huang Ling and others.

I also saw Yuan Xin, Mu Yang and others.

After seeing Lu Ming, Muiyang's eyes filled with cold murderous opportunities.

This time, he was full of confidence, he became an emperor, his strength skyrocketed, and he was quite sure to kill Lu Ming.

Many people have confidence in their eyes, and everyone has greatly improved.

"Go out!"

Suddenly a voice came from the sky, sounding very old.

Everyone felt awkward in their hearts, knowing that the master of this world had spoken, and was definitely a terrible powerhouse.

Lu Ming thought of more.

He has seen two heavenly arrogances from heaven, and the master of this world is probably from heaven.

The crowd stepped into the light gate, and their figure disappeared here.

Destiny Mountain, during this time, has gathered countless figures, even more than two years ago, more people.

Because, after two years, the ten-place battle will really start.

In addition, the 320 celestial arrogances entered the world left behind by the beginning of the Yuan Realm. How much innovation and strength did they gain?

Is it true that many people have stepped into the realm of Emperor Wu?

Everyone is very curious.

Above the mountain, a figure enveloped in divine light stood there, like a deity.

These are all powerful in the Great Emperor Realm, from all over.

In the land of Yuanshan, Kong Bo arrived, and stood with the Emperor Wuxiang.

In addition, Emperor Hengjia, Emperor Hejia, and Emperor Tianluo have arrived.

Not only that, the powerful forces of the major holy places, many strong people come, such as the powerful forces of the ancient moon holy land, there are people coming to participate in this first ten-place battle since ancient times.

Everyone waited quietly.

Suddenly, in high school, a light door emerged.

"It's coming out!"

Everyone showed his expectation and looked at the light door.

Soon after, a figure walked out of the light door and stood in the void.

Three hundred and twenty people, one is not many, one is not much.

"Sure enough, great progress has been made, and many people have stepped into the realm of Emperor Wu!"

The great emperors, the real emperors, watched closely and showed shock.

It is not difficult to see through the cultivation of the great emperor and the real emperor, and see through the cultivation of Lu Ming and others.

"Okay, two years have passed. Now, the ten-place battle is here. Everyone is backing away!"

A white-haired old man came out step by step and his voice spread everywhere.

He is the host of this time, an old monster from the city of destiny.

Everyone retreated, including the great emperors, and emptied the mountain of destiny.

Then, the white-haired old man waved his hand, and the sky above the Destiny Mountain was filled with light, and various stone platforms emerged out of thin air.

Each stone platform is very large, like a battle platform.

A total of three hundred and twenty yuan.

"The next competition is very simple. You each choose a stone platform at will and set foot on it."

"These stone platforms are set up in a large array, and they have their own laws of operation. After you step on them, the stone platforms will run and move. If the two stone platforms collide, the two people will fight until the top ten is determined. !"

The white-haired old man announced.

Everyone's eyes moved, it turned out to be such a rule, but is such a rule a lot of luck?

But many people are confident in their eyes.

They are confident enough in their own strength that they can beat no matter what kind of opponent they meet.

This time, everyone has a great harvest. They are already eager to try and want to show their strength in front of countless people.

"I'll come first!"

Someone moved, a burly figure rushed to a stone platform.

Uh! Uh! Uh!

Next, everyone moved and jumped onto a stone platform.

Chapter 2108: Bright collision

Lu Ming also randomly chose a stone platform and set foot on it.

When Lu Ming set foot on Shitai, he found that Shitai had a force that enveloped him.

There was a person standing on each of the 320 stone platforms between Xu Yu.

Afterwards, all the stone platforms moved slowly, seemingly in a certain pattern.

Soon, two of the stone platforms flew towards the middle and collided together.

On the two stone platforms, the eyes of the two young men collided, and they were filled with strong fighting intentions.

boom! boom!

A strong breath erupted from both of them, and there was a long river surrounding them.

Quasi-Emperor, both of them are in the realm of Quasi-Emperor.

"It is one of the laws of destruction, the same as the rule of destruction!"

Someone called out and recognized the law of the two.

The rules of control for the two young people are actually the same.

"The same rule of destruction, you are not my opponent!"

One person spoke very confidently.

"You lost!"

The other person is also very confident.

boom!

The two fought together and fought fiercely.

The two royal bodies have reached the level of quasi-imperialism, and their fighting power is very amazing.

Moreover, mastering the same rule, the cultivation base is equal, and the combat power is not much different. The two men fought extremely fiercely, and the fierce battles continued for more than two hundred rounds before they were divided.

In the end, one of them won slightly, defeated the opponent, and flew the opponent out of the stone platform.

After his victory, his stone platform took him back to the other people, and the stone platform of the defeated person turned into fly ash and dissipated.

The defeated man was very reluctant. He became the first to be eliminated in the ten-place battle.

This time, there is a simple rule,

That is, before the competition, you can admit defeat.

If you don't admit defeat, you will be at your own risk in life and death.

Of course, you can also rush down to Shitai to admit defeat.

After the first competition, the stone platform rotated again. Soon, two more stone platforms flew towards the center and collided together.

boom!

The two young men on the stone platform directly fought together.

There is no doubt that these are also two royal bodies.

In fact, every battle zone, who can enter the first eighty, is a royal body, and the cultivation base is not weak.

I practiced in that corner of the world for another two years, and the worst of them all entered the quasi-imperial realm.

Surprisingly, these two royal bodies have the same rules of control.

Is it the reason of Shitai?

Lu Ming thought of Shitai. Before, when he set foot on the stone platform, there was an energy covering him.

Can that energy induce the law? Or, there are other functions.

Not only Lu Ming, but others thought the same way.

Sure enough, most of the rules of the people who followed each other were the same.

This is to allow people of the same kind of rules to differentiate the outcome.

"It's so strong, they are all imperial emperors!"

"And they are all at the stage of the evolution of the small world, and they are about to prove their success!"

Many people sighed.

Indeed, in the past two years, everyone has made too much progress. Many people have not become emperors, but they are also fast, not far from becoming emperors.

Especially some young people are envious.

Some people used to cultivate similar to them, but now they are completely pulled apart.

Some people are still stuck in the Holy Consummation, and even a few have broken through the quasi-imperial realm in the past two years, but there is still a big gap from the evolution of the small world.

The battle is very fierce. In every matchup, there is little difference between cultivation and practice, and the rules are the same. At least it takes a hundred battles to make a difference.

Half a day later, there were only ten pairs of people fighting.

In the eleventh showdown, Lu Ming saw an acquaintance.

Longchen!

Moreover, Longchen has broken through to the realm of Emperor Wu.

Two years ago, he was a quasi-imperial realm, and this time it was normal to take the opportunity to break through.

His opponent is also Emperor Wudi, a person who controls the rule of extreme power, and the two collide with each other.

However, in the end, it was the Taiko Dragon Elephant that Longchen practiced, which had stronger combat power and defeated his opponent with a violent attitude.

This is the first time that there is a disparity between the same rules, the same rank, and the difference in strength.

"The blood of the top ten war beasts is extraordinary!"

"Indeed, it is said that the farther back, the more extraordinary, after reaching Emperor Wu, it will be stronger!"

There are senior figures talking.

The war continues.

Afterwards, Lu Ming saw that Huang Li, Luo Xiang, Qiuyue and others all came on stage.

Famine Force, Luo Xiang, Qiuyue, etc., really broke through the shackles, and all reached the state of Emperor Wu, a star Emperor.

They also defeated their opponents.

However, everyone also sees that most of the duels are the same rule, but it is not absolute, and there are also duels between different rules.

Very exciting, Lu Ming looked dazzled because he saw a variety of royal rules.

Today is indeed a great world. In the past, there were very few rules of kingship, but now they are all born.

The confrontation continued for several days, and people were eliminated.

There is no rule for a duel. It is not that you have finished a duel. You can wait for everyone else to finish the show before you get your turn, no.

Some people just finished the game, and after a few games, it was his turn again.

Decided completely according to Shitai's autonomous movement.

Some people had bad luck and encountered the terrible pride at the beginning.

For example, some people encountered Yuanxin, Wuliang, Gumo and others, and were almost defeated by one move, without the slightest resistance.

Lu Ming also saw Lu Xiangxiang, Ouyang Mo shot.

The two of them, after all, are still short in cultivation time. They are regarded as rising stars and have not broken through the Emperor Wu. However, they have reached the stage of evolving the small world. They are only one step away from the Emperor Wu. They can break through as long as they consolidate for a while.

They also easily defeated their opponents.

The stone platform moved, and Lu Ming drifted back forward, colliding with a stone platform.

Lu Ming finally got his turn.

Lu Ming's first opponent was a royal body, only the realm of a quasi-emperor.

"Do you want to admit defeat?"

Lu Ming asked seriously.

A quasi-imperial realm, Lu Ming did not have much interest, and the difference was too great.

"If I want to admit defeat, it also depends on whether you have this skill!"

The other party sneered, this is a young man wrapped in a black robe, his face pale, at this time, he took out a staff.

"Curse, weakness!"

"Curse, highly toxic!"

"Curse, corrode!"

The young man started directly, waved his staff, and a burst of energy appeared suddenly on Lu Ming, covering him.

"This is... the law of curse!"

Lu Ming raised his eyebrows.

The law of curse, but it is an extremely rare rule of kingship, is very strange, and powerful, with the power of curse, killing invisible.

There was a strange energy in him, and he desperately drilled into Lu Ming's body. If it were a normal royal body, it would definitely be unbearable.

But for Lu Ming, this is nothing.

Chapter 2109: Defeat Emperor Wudi

Lu Ming's physical body is too strong, his spirit is rolling, his blood is like a furnace, and every muscle is full of explosive power.

Roar!

Lu Ming's body moved, and there was a sound of dragon chanting in his body. In every pore of his body, there was a rolling blood, like a flame, and the strange energy covering him, the life of sorrow, turned into Cloud smoke dissipated.

"how come?"

The young man in control of the law of curse, his face changed wildly, and he must cast the curse to deal with Lu Ming.

"Go on!"

Lu Ming opened his mouth and punched out.

This punch is a punch of pure physical strength. This punch is a meteorite that rushes into the sea. The space is like sea water, and it bursts directly, forming a circle of ripples, rolling towards the other side.

The other party grunted and flew out, coughing up blood, and flew out of the battle platform.

This is still Lu Ming's hand, otherwise kill the opponent directly.

Lu Ming easily won.

However, although he spiked the opponent, he did not attract the attention of others.

Although the curse law is strange and mysterious, the young man is only a quasi-empire, as long as the people who stepped into the Wu Emperor at the scene could kill him with a single move.

"Humph, just defeat a prospective emperor, I really hope you can meet me!"

Mu Yang sneered, his eyes colder.

He really hoped to meet Lu Ming, and then slaughter Lu Ming, ashamed.

Lu Ming originally thought that his stone platform was about to be returned. Unexpectedly, his stone platform did not return, but moved again to meet another stone platform.

Play in a row!

Many people looked dignified after being shocked.

This is the first time someone has played in a row, which has to alert them.

As for the operation of Shitai, it seems that everything is possible. They will have to retain their physical strength in the subsequent competition, otherwise they will encounter continuous battles, which is not good for them.

This time it was a young man with short hair who was fighting Lu Ming. His eyes were sharp and very sturdy.

boom!

Without extra words, the other party directly erupted with a terrible breath, and the breath brought a gust of wind and pressed toward the landing.

Emperor Wu!

The other party is a Wu Emperor, a king who stepped into Wu Emperor.

Mu Yang's eyes lit up, and a king who stepped into the Emperor Wu's body could probably test Lu Ming's strength.

Not only Muyang, but also some people who belonged to the southern theater before, also moved their expressions.

Two years ago, Lu Ming was so powerful that he could defeat Muyang and was known as a seed master. Many people wanted to know what level he reached after two years.

"Buried soil, bury me!"

The other party started, and his body moved over. During the movement, his body seemed to turn into a stone tablet, and suppressed towards Landing Ming.

This stone monument is like a tombstone!

Boom!

Lu Ming squeezed his fist and punched it, hitting the tombstone, the tombstone vibrated, flew out, and turned into a human form.

"kill!"

The short-haired young man shouted, and came again, this time, his body glowed, and a layer of black light filled his body. Between waved hands, various tombstones appeared, constantly suppressing down to the landing.

"Land Burial Rule!"

Lu Ming's mouth twitched slightly, but today, he saw some wonderful rules.

The law of burial soil can bury everything and strangle it. The power is amazing.

The young man with short hair, using the law of burial soil to turn into a tombstone, is to bury Lu Ming.

The young man with short hair has stepped into the realm of the emperor and his leaps of strength are much stronger than the previous arrogance of the rule of curse.

Lu Ming squeezed his fists and blasted out constantly, smashing tombstones in the air.

Finally, the short-haired youth offensive broke out to the extreme. In the sky, large tombs appeared, and Lu Ming was to be buried.

The power is terrible. If people of the same level are buried in the tomb, it is difficult to come out.

boom!

On Lu Ming, a more amazing breath erupted, and the law of death permeated.

This made other Tianjiao glance.

Each of the Sons of God is not simple, it is worth noting that they entered the top ten opponents.

The air of death in Lu Ming's body became stronger and stronger, and finally turned into a long river, surrounding the whole body.

"The law became a river, he did not become an emperor, he was only a quasi-emperor!"

Many people took a long breath, revealing a relaxed look.

Quasi-Emperor, not to be afraid, is destined to be only a foil.

"Oh, in that small world for two years, it was just a quasi-imperial, it seems that talent is really not good!"

Mu Yang was ecstatic and couldn't help making mockery.

"Huh, even if others are low, they still abuse you. You forgot about it two years ago!"

Lu Xiangxiang was not angry and spoke mockingly.

Although he did not recognize Lu Ming, Lu Ming helped them two years ago. She was very fond of Lu Ming. Seeing that Yang Yang satirized Lu Ming, she also mocked Mu Yang.

Mengning the abuse, Mu Yang looked ugly and said, "He has some strength at this moment, but now, if he meets me, there is only one way to die, and I will let him die very badly!"

"One step ahead, one step ahead, I have become an emperor, he is still a quasi-emperor, he will never be my opponent!"

Mu Yang sneered, full of confidence.

Lu Xiangxiang snorted coldly without speaking.

At this moment, Lu Ming and the young man with short hair have already met again.

Lu Mingshi exhibited the law of death and his combat power increased greatly.

He cast the eye of death, as if there was a hand flying out of the soldiers and crushing the opponent's tomb.

bump!

Finally, Lu Ming, like a wild dragon, rushed over the body, penetrated the opponent's defense, and flew the short-haired youth out of the battle platform.

Lu Ming achieved this victory.

"Seeing that, even if he didn't enter the emperor, he could still defeat Emperor Wu!"

Seeing Lu Ming winning, Lu Xiangxiang showed a happy look, and mocked Yang Yang.

"It's nothing but defeating a royal body."

Mu Yang smiled faintly.

Although he said so in his mouth, there was a dignity in his heart.

The ability to defeat a royal body that stepped into Emperor Wu was enough to prove Lu Ming's terrible.

However, he is still confident and can brutalize Lu Ming.

There is still a big gap between the royal body and the Son of God.

After this battle, Lu Ming's Shitai retreated.

The test continues.

Suddenly, another day passed.

Up to now, half of the original 320 stones have been left, and half of them have been eliminated.

At this time, Luo Xiang met a terrible opponent.

Although Luo Xiang has entered Wudi, this time his opponent has also entered Wudi and is a son of God.

There is no suspense in this battle.

Although Luo Xiang did his utmost, the law of speed was applied to the extreme, but it was useless. The opponent directly broke his law of speed with terrible strength, and defeated Luo Xiang with a crushing state.

However, the opponent and Luo Xiang had no hatred, just wounded him, and did not kill him.

After the competition, it became more and more cruel.

Because almost all of the Emperor Emperor Realm was eliminated, few were left, almost all of them left into the Emperor Wu Realm.

Chapter 2110: Strong duel

Three hundred and twenty people, about half of them, are in the state of Emperor Wu, which is extremely amazing.

You know, there were not many people who entered Wudi two years ago.

But now, half of them have stepped into Emperor Wu, and one can imagine how much progress everyone has made in that world.

From this, everyone couldn't help but think, how strong were the people who entered Wudi two years ago?

Everyone's eyes looked at the son of destiny, Yuan Xin, Wuliang, and others. These people, two years ago, were all in the realm of Emperor Wu, and now they are even more unfathomable.

They stood quietly on the stone platform. Before, they also shot, but the opponent's strength was too low, they were easily killed by them.

Many people began to re-evaluate the seed master, and began to speculate, which ten people can enter the top ten.

Lu Ming was naturally excluded.

In the eyes of others, Lu Ming has not stepped into the Emperor Wu and has withdrawn from the competition.

The war became more and more fierce, and it was all duel of Emperor Wudi.

Moreover, the duels are at least all king bodies. Although many are in the one-star virtual emperor, the fighting power of the king body and the Son of God is far more than the general one-star virtual emperor.

Someone keeps getting eliminated.

Long Chen, Huang Li, Qiu Yue, Luo Tianyi and others were eliminated one after another. They all met terrible opponents and met the Son of God.

Lu Xiangxiang and Ouyang Moli were also eliminated. Their cultivation behavior, after all, was still weaker. They did not enter Wudi, and it was difficult to compete with the sons of God who entered Wudi.

Fortunately, they are all fine, at most only injured, so Lu Ming is relieved.

boom!

Muyang played, he was indeed strong, a king who stepped into the Emperor Wu Emperor, was almost exploded by him, and half of his body was turned into nothingness.

After Muyang's victory, he gave Lu Ming a provocative glance, which was full of provocation.

"Tianyun, you pray, don't meet me, otherwise, you are dead!"

Mu Yang sent a message to Lu Ming.

Lu Ming didn't even look at Mu Yang, and ignored him directly.

Later, Lu Ming did not know whether it was good luck or bad luck. In the next few days, he only played once and met a king who entered the emperor's body and defeated the other party.

When the duel entered the tenth day, there were only fifty people on the scene.

The reason why it is so slow is mainly because many cultivation bases are similar. The war is extremely fierce. It is not easy to distinguish the victory and defeat. Some people even fought for a long time to distinguish the victory and defeat. It is very tragic.

At this point, the remaining fifty people are all terrible arrogances. The remaining people have few royal bodies, and most of them are the Sons of God.

Ten places, in addition to the barren land, the other nine areas, each area, there are several children of God, especially the land of fate, there are more.

Together, there are more than fifty children.

More than fifty sons of God have gathered for a period of time. This is something that has never happened in Yuanjie.

Legend has it that only the Heaven Realm had such a grand event in the long past.

Of the remaining fifty people, Quasi-Emperor Realm, only Lu Ming is left.

"Which prospective emperor is called Tianyun?"

"Yes, it's called Tianyun. His luck is good, he hasn't encountered too strong."

"Well, next, his luck came to an end. Next, there were almost no weak people. He was amazing in the same level. Unfortunately, he was too weak and did not break the emperor. He will eventually be eliminated!"

Around, some people talked and expressed their opinions.

At this time, two more stone platforms collided together.

Many people felt shocked, and even Lu Ming showed the look of expectation.

Because of these two, one of them is an ancient demon.

Lu Ming is very clear that the ancient demon cultivates the ancient demon path, and its combat power is extremely powerful. In the past four or five years, the ancient demon is absolutely more amazing, and its combat power is absolutely unfathomable.

The other person, who is absolutely not weak, is also the son of God. Like Lu Xiangxiang, he is in control of the laws of life and has broken the emperor.

This will be a strong showdown.

The two did not have any extra words, and started directly.

The Son of God, in control of the laws of life, between the waves, the sky was covered with rattan arms.

Each rattan is extremely tough, like a sword, with amazing killing power.

But the ancient demon was stronger. He was covered with a layer of magic light. The light was condensed into a war sword in his hand, and he slaughtered vertically and horizontally.

Some rattan, wrapped around him, was shattered directly by the magic light on him.

Strong, too strong!

As soon as he shot, the ancient demon had an absolute advantage, broke through many obstacles, and killed the other party.

The other party tried their best and fell into the disadvantage, making it difficult to match.

This makes many people stunned and hard to believe.

"What's the situation with him, why can't I feel him, there are fluctuations in the law!"

Some young people have not heard of the Taiko Cultivation System, and they scream in surprise at the moment.

"This should be the Taiko Cultivation System, Taiko Magic Road!"

Some senior figures spoke and explained that many people were shocked, and some were decadent. Is the Taikoo cultivation system so powerful? The son of the gods, who was actually crushed, could not lift his head.

"Neither do you need to be discouraged. Now that the rule system is prosperous, it naturally has his advantages. The Taikoo cultivation system is not so good to practice!"

"Yes, the Taikoo cultivation system, the cultivation conditions are extremely harsh, and not every Taikoo cultivation system is so powerful. The ancient demon is obviously a peerless genius who cultivates the Taikoo demon road!"

Some senior figures explained, so as not to discourage some young people.

At this time, the ancient demon's offensive was getting more and more violent. The magic light on his body was condensed to the extreme, and nothing was broken, constantly penetrating the other party's attack and defense.

bump!

In the end, the two sides fought dozens of moves, the other side lost, and was blown out by the ancient demon.

A son of God who entered Wudi Realm was defeated.

The Son of God has always been synonymous with invincibility. In addition to the arrogance of the Son of God, he is unmatched, but today, he was defeated by the genius of the archaic devil.

"This ancient demon, too strong, is unparalleled in attacking power, and there is a great possibility to enter the top ten!"

"Yes, the top ten, it is likely that he has a place!"

Many people are very optimistic about the ancient magic.

Next, after several matchups, the remaining royal bodies all failed and were eliminated.

"Bubble is about to shoot!"

Lu Ming's eyes moved.

He saw that the bubble stone platform moved forward and collided with another fast stone platform.

"Such a small doll should not be a human race!"

Some people look at the bubbles, two or three years old, pink and tender, extremely cute.

Some young women, with their eyes shining, wished to hold the bubbles in their arms and loved them fiercely.

"Not a human race, the beginning of this little girl is amazing!"

An older character spoke, an emperor, who saw the body of the bubble.
