

## **D Emperor 2221**

### Chapter 2221: To the lonely house

The other courtyard where the evil swordsman is located is near Lu Ming.

"Sister Muran!"

When Lu Ming walked into the evil swordsman's other courtyard, he happened to see Mulan alone, practicing a set of swordsmanship in the courtyard.

Seeing Lu Ming coming, Muran stopped to practice and floated, with a bright smile on his face, saying: "Lu Ming, are you well injured? I went to see you two days ago and saw that you are still practicing! "

"Completely!"

Lu Ming smiled and then joked: "I haven't seen it in years, and my sister is more beautiful!"

"Is it?"

Mulan smiled more, and then sighed pretendingly, "Unfortunately, some people don't understand it!"

"How could it be? Who doesn't understand it is simply blind!"

Lu Ming continued to laugh, making Mulan's smile brighter.

"Right, senior evil swordsman, how is the injury?"

Lu Ming asked.

"You didn't come by accident, Senior Evil Swordsman, left yesterday, and returned to the ancient battlefield with Jianfeiliu!"

Muran said.

"left?"

Lu Ming was slightly surprised.

"Senior Swordsman said that he still lives in that ancient battlefield and is more free!"

Muran said.

Lu Ming nodded. Perhaps, in that ancient battlefield, there were many comrades in the evil swordsman. In the war of the year, countless people died, and the place where countless friends buried their bones, will there be no pain in his heart.

"Senior Swordsman also said that although the channel completely collapsed, it is estimated that it will reappear after only a hundred years!"

Muran said again, frowning.

Opposite that passage, but Yuan Lu, there are her relatives and friends.

"One hundred years, one hundred years later, the aliens can't survive!"

Lu Ming's eyes opened and closed, showing strong confidence.

"Right, Sister, I will leave here soon, let's join us!"

Lu Ming said.

"Okay!"

Muran nodded.

Now, she has inherited a peculiar strongman's heritage, and cultivation is already the limit of the quasi-empire, and it is a matter of time to prove that he is an emperor.

Once he became an emperor, as long as he survived the emperor, he would have a long life.

So now, she will not escape again, she must grasp her happiness.

The two went together and returned to the other courtyard where Lu Ming was, and found Dandan.

Soon after, they found Song Tianlong, said goodbye to them, and flew east of the Two Realms.

In ancient times, every person knew a person, and he had control of many laws before he became an emperor.

The man studied for a lifetime and made a major breakthrough in his later years, which may help Lu Ming find a way to become an emperor.

Now, they just want to go to that person's family and seek that method.

That family is in the southern part of Taiqing Tianyu.

Taiqing Tianyu can be said to be the most expansive celestial territory in the celestial nine-sky territory, with an area of no less than Yuanlu.

The two boundary cities are just to the west of Taiqing Tianyu.

Soon after, they flew out of the bounds of the Two Realms, and they saw the vast mountains, the peaks rising into the clouds, one after another, as if there was no border.

"The original energy of the heaven realm is indeed stronger than that of the Yuan realm, and the rules are also clearer. Or, only the strongest place in the ten realm of the Yuan realm, the land of the destiny, can be compared!"

Lu Ming turned his thoughts in his heart.

Then, the three men walked in the air and flew towards the distance.

Heaven is familiar.

Flying over the mountains, there is a public transmission area, they will take the transmission array to the southern part of Taiqing Tianyu.

Half a month later, they had arrived in the southern part of Taiqing Tianyu and flew in a remote place.

Here, at a glance, there is boundless bamboo sea.

No matter it is a mountain or a plain, it is covered with bamboo. There are all kinds of bamboo.

"Dan Dan, we have been searching for so many days? Would you go the wrong way?"

Lu Ming asked.

"How is it possible? How can I lead the wrong way, the lonely family, in this area, hiding in a purple bamboo forest, if there are no major problems, they will not move places!"

Once and for all.

The three men glanced around to look for the purple bamboo forest.

Another half day passed.

"found it!"

Dandan shouted and flew towards the front.

Lu Ming and Muran kept up. Soon, a bamboo sea appeared in front, all of which were purple bamboo.

At a glance, it was a purple ocean.

Purple bamboo, even the leaves are purple, the bamboo pole is crystal, like the beautiful purple jade carved.

Deep in the bamboo forest, they saw a palace, very elegant, dotted in the boundless purple ocean.

"Haha, they have been here for so many years, let's go!"

He smiled and flew towards the palace.

But it didn't fly far. In the bamboo forest below, several figures rushed out to block them.

There are three people, a middle-aged man and two young men.

They have one thing in common, they are all wearing jade crowns and wearing white gowns, they are very elegant.

"How many? Here are the orphans. I don't know how many of them came to my orphan. What's the matter?"

The middle-aged man clenched his fists and said politely.

"We come to the lonely family, of course, to find someone!"

Said sternly.

"Find someone, don't know how many, who are you looking for?"

The middle-aged man asked.

"Lone Starry Sky, how many people are there in Lone Starry Moon, I come to find them!"

Once and for all.

This remark made the face of the three lonely people change a little, and it became a little ugly.

"This little brother, the two you said are my solitary ancestors, and it is too disrespectful for you to call their names like this!"

An angry man flashed in the eyes of the middle-aged man, but he could not bear it, and was a little unhappy.

"What disrespect? They are just my juniors. I am not named, what is it?"

Dip your lips.

"Bold, I think you are here to find fault, do you really think my lonely family is bullying?"

A young man was furious and shouted loudly. At the same time, a long sword appeared in his hand, and the sword emptied.

The middle-aged man was also very ugly.

How old is it now? It was actually said that the two ancestors of their orphans were his juniors, which obviously came to find fault and insulted their orphans.

"Nest, I'm telling the truth, these people actually have to do it..."

It is called strangely.

Lu Ming is speechless, are you talking like this? If you say this, it is strange that others are not angry.

At this time, there was a figure flying out of the depths of the bamboo sea.

Obviously, the movement here shocked the orphans.

There are dozens of people, older and younger, but they all have one thing in common. They are all in a white gown, regardless of men and women, it is very elegant.

"what happened?"

Asked an old man with white whiskers.

The solitary family hadn't answered yet, and immediately cried out: "Call Lone Starry Sky, Lone Star Moon came out to see me, old friends came to see them!"

"Bold!"

"Dare to insult my solitary ancestor!"

Suddenly, all the orphans were angry, roaring one by one.

"What? Ancestor, aren't Lone Star Moon and Lone Star Sky hanging, will they!"

Shouted.

Chapter 2222: Tianjiao

Lu Ming was speechless, this guy said anything.

Sure enough, the orphans were furious, and even a few old men showed their anger, and there was a terrible breath on their bodies.

"Wo Chao, Great Emperor, this time, this guy was miserable!"

Lu Ming sensed that two of them actually exhaled the breath of the emperor.

"Hey, what are you doing? The orphans are known as gentlemen's homes, and they all boast of being gentlemen. Do you want to bully the small and win more?"

Shouted.

With this call, the elderly, middle-aged people of the lone family, their eyes blinked, and each one of them calmed down, but the anger in his eyes could not be extinguished.

"Dare to insult my solitary ancestor, I must be taught, otherwise I really think my solitary family is bullying, and my solitary family will not bully the small and win more, and today, let me meet you!"

A cold voice sounded, and then a young man stepped out.

This young man, wearing a jade crown, a gown and sword eyebrows, is very handsome.

Seeing this young man walk out, the orphans did not stop, but instead showed confidence, and seemed to have full confidence in this young man.

"Xiu Wei is too weak, I am not interested, Lu Ming, leave it to you!"

Dan Dan waved his hand, and a look with no interest made the youth in white more angry.

"Under the heavy shadow, who will enlighten me!"

The young man in white resisted his anger and clenched his fists.

"This lonely family is really a gentleman one by one!"

Lu Ming thought, on the way, I heard Dandan talk about this orphan.

In the mouth of the dandan, the orphans are a group of wooden knots with rigid brains. I don't know the workaround, and I call myself a gentleman.

Now, at first glance, it is so!

However, the relationship with several orphans was pretty good.

"Under Lu Ming, please!"

Lu Ming stepped out, also a fist.

"Be careful!"

Gu Ying reopened, and immediately, the sound of the sword rang, and a long sword appeared in Gu Ying's heavy hand, a brilliant sword light, slashing towards the landing.

"Samsung Emperor!"

When Gu Yingzhong shot, Lu Ming saw Gu Yingzhong's cultivation behavior.

boom!

Lu Ming shot, very direct, and slammed out with a palm.

This palm did not use any laws, just the outbreak of pure flesh and divine power.

boom!

Lu Ming's palms bombarded the opponent's sword light. The sword light continued to vibrate, and the sword roared, and finally the sword light collapsed. Lu Ming's figure also retreated several tens of meters.

"Good physical strength, are you an archaic bodybuilder? No, your strength is holy power, you have not yet become an emperor..."

Gu Ying began to think that Lu Ming was an archaic body repair, but then he reacted because Lu Ming's power was holy power.

Once become an emperor, the holy power will be transformed into the power of the world.

But Lu Ming still used the Holy Power, indicating that Lu Ming had not yet become an emperor, which shocked Gu Ying.

The others in the solitary family were also taken aback.

Before he became an emperor, he could take Gu Ying's first move. Such strength is amazing.

You know, Guying is important, but the first day of the solitary family is arrogant.

"Try your best, so you can't win me!"

Lu Ming said, he knew that Gu Yingzhong didn't use his full strength at all, just a tentative attack just now.

"You haven't become an emperor yet. Although the fighting power is amazing, it can't be my opponent!"

Gu Ying reopened, full of strong self-confidence.

"How can you know without a full fight?"

Lu Ming is also very confident.

"Now that is the case, then fight!"

Gu Ying's fighting spirit reappeared, the long sword shook, and the sword continued, the power of the law burst out, making Gu Ying's heavy sword energy even more amazing.

"Two laws, one of the strongest laws, and one kind of kingly laws!"

Lu Ming moved.

call out!

Gu Ying moved again, and the sword became one, turned into a sword light, and killed Lu Ming.

Lu Ming's palms were held in the void, and the sword of death came out. At the same time, there were a lot of laws on his body.

This time, it really surprised the orphans.

"God, what do I see? Four laws, he controls four laws!"

"How to control the four laws before becoming an emperor!"

"Legend, I have an ancestor in my orphan's family, so I am so shocked that when I am not an emperor, I also control many laws!"

There was a heated discussion among the lonely crowd.

Gu Ying's heavy eyes also flickered, but his sword continued to kill Lu Ming.

Uh!

Lu Ming waved the sword of death and greeted him.

boom!

The two collided together, an amazing collision erupted, the sword spirit was wanton, and many lonely people retreated.

After the two collided, their bodies were shocked and they retreated dozens of meters. The difference was that Lu Ming retreated a shorter distance.

"The second rule of the strongest rule, this person is not weaker than Lan Yun, Yan Xi a few people!"

Lu Ming moved.

Gu Yingzhong's two laws, the strongest of which has entered the second realm, and is cultivated as the Samsung Emperor, no doubt, this is a top-level arrogance.

If it were before, Lu Ming's sword of death contained only four laws, and he was not such a proud opponent.

However, Lu Ming's physical body, due to the coagulation of Zulong's blood, was twice as powerful as before, which also made Lu Ming's combat power stronger.

So now, Lu Ming is able to gain the upper hand by simply exhibiting four laws.

"Come again!"

Gu Yingzhong's eyes were stronger in his eyes, and his breath also suddenly increased.

"Three laws!"

Lu Ming's eyes moved slightly, and Gu Ying regained his body, and a third law appeared.

This is a kind of kingly rule, and it seems to have reached the second level.

This is a stronger arrogance than Lan Yun, Yan Xi and others.

call out!

call out!

Jianguang smashed the sky and slammed towards the landing.

Lu Ming carried the sword of death and killed him towards the other party.

when! when!

The two collided continuously in the air, the sword was overflowing, and the sword roared for miles.

Fortunately, a lonely family shot, a layer of light curtain, blocking the purple bamboo forest below, otherwise, the purple bamboo forest within a thousand miles, will be destroyed under sword gas.

Both were very fast, and in a flash, they had hundreds of moves.

Roar!

The more the battle, the faster the blood flow on Lu Ming's body, the sound of Long Yin came out of his body, and a layer of dragon scales appeared on the surface of his skin.

"this is..."

Lu Ming himself was also stunned.

At that time, when he was still weak, he would have dragon scales on the surface of his skin because of the blood of Jiulong.

However, as his cultivation improved, he could control the blood of Jiulong as he wished. There would be no dragon scales on his surface, but now, he turned his body to the extreme, and actually appeared a layer on the surface of the body. Dragon scales.

"Perhaps this is related to the blood of Zulong!"

Lu Ming thought of Zulong blood.

He had refined a part of the blood of the ancestral dragon before, and made the flesh soar. At this moment of the fierce battle, the blood was boiling, and then the dragon scales appeared.

Chapter 2223: Main body

Lu Ming became more and more courageous in battle, even if Gu Ying reused three rules, two of which were still in the second stage, still blocked by Lu Ming, and Lu Ming couldn't help it.

Keng!

Suddenly, Gu Ying's long sword buzzed, and the sword light became even brighter.

"This is... the fourth rule!"

This time, even Lu Ming was shocked.

Gu Yingzhong, actually controls the fourth law, which is also a kind of kingly rule, but fortunately, it is not the second realm, only the first realm.

But this is no small matter.

Samsung Virtual Emperor, and still so young, controls four rules.

One of the strongest rules, three kinds of kingly rules.

And the strongest rule and one kind of kingly rule have reached the second realm, and the other two kinds of kingly rule are also the first realm.

This talent is amazing.

Such as Lan Yun and Yan Xi, known as the top celestial celestial in heaven, are about as old as Gu Ying, but they are only in control of two laws.

"Unexpectedly, the Gujia has another top-notch Tianjiao!"

As soon as he whispered, his eyes showed admiration.

Many lonely people also showed their pride.

boom!

The fourth law was used. Although only the first realm was completed, it also made Gu Ying's strength stronger.

This time, Lu Ming was shocked out.

"Lu Ming, I have to admit that your strength is indeed amazing. I have only seen it in my life. For the sake of your difficult practice, let's just leave it for today's affairs. Leave!"

Lonely Shadow said.

"Thank you!"

Lu Ming clenched his fists, and Gu Yingzhong was indeed a gentleman. This kind of demeanor is not for everyone.

However, the purpose of Lu Ming's coming today has not yet been achieved, so how could he leave here.

"But the battle between you and me is not over yet!"

Lu Ming laughed again.

"You haven't done your best?"

Gu Ying's eyes narrowed and his eyes opened.

"of course!"

Lu Ming smiled, the color of the sword of death in his hand was more gorgeous, and there were two more colors.

It is the law of Dan Dao and the law of Qi Dao.

"Six laws!"

Gu Ying exclaimed again, showing incredible colors in his eyes.

The others in the lonely family were also shocked.

It's just incredible that you can control the six laws before becoming an emperor.

Is the legend true, one of their ancestors, in the absence of becoming an emperor, also controlled a variety of laws?

Originally, some people have a sceptical attitude about the legends of various laws that they have an ancestor before they became emperors, because this kind of thing is really incredible, and after such a long time, who knows this legend True and false.

But when they saw Lu Ming today, they knew that the legend was true.

But their shock is not over.

Because Lu Ming's left hand, a hammer emerged.

Hammer of Chaos!

It is composed of the law of chaos and six other laws.

This time, the lonely family was completely stunned.

Even Gu Yingzhong is the same.

After a while, they reacted.

"God, the strongest rule, the two strongest rules!"

"One person, who has not yet become an emperor, not only controls multiple laws, but also controls the two strongest laws at the same time. How is this done, incredible, incredible!"

Whether it is the old or the young of the lone family, it is shocking to add.

Controlling the two strongest laws completely broke their knowledge of the laws and was naturally shocked.

Uh! Uh! Uh!

At this time, a figure appeared in the deep bamboo forest.

There are at least a hundred ways, and there are a few people, who exude amazing behaviors, and they are all characters in the realm of the emperor.

Lu Ming secretly sighed that Heaven Realm is worthy of Heaven Realm, inheriting the endless years, the master is really amazing, only a lonely family, there have been four or five emperors before and after.

It is really unimaginable.

Like the land of Yuanshan, there are not many emperors in the entire territory.

In fact, it is not the strength of Yuanjie, which is really so different from Tianjie.

There is a gap, but it will not be so outrageous.

The main thing is that many strong players in Yuanjie have left Yuanjie and have come to heaven to join the war and practice.

Like some overlord forces in the Land of Destiny, their strength is also very amazing, and many strong men stay there.

"See the owner!"

The orphans saluted one of the middle-aged and elegant men.

This person is the head of a lonely family.

"Okay, this battle, stop here!"

The lonely family spoke.

"Yes!"

Gu Ying focused on her head, her breath converged, and she took a few steps back.

The head of the lone family looked at Lu Ming, full of excitement, and said: "Unexpectedly, there are people like this in this world who have not yet become emperors. "

"The lone family master has won the prize, but unfortunately, it is difficult to become an emperor!"

Lu Ming sighed.

"Indeed, my solitary ancestor also had a stunningly stunning figure, and he was in control of various laws before he became an emperor. It was a pity that he did not become an emperor in the end!"

"You guys, came here only after hearing the legend of my solitary ancestor!"

Lonely family dominates.

"Yes, that's true!"

Lu Ming nodded.

"Since you have something to ask for, you still insult my orphan ancestor.

An old man from the solitary family walked out, his face still a little bit upset.

The head of the lone family also looked at Dandan.

"What insults? What do you juniors know? Lone Starry Sky, Lone Starry Moon, I knew it already, and the Lonely Sky who controls the various rules before the Emperor is my friend!"

Dandan said carelessly.

"You... dare you?"

The lonely family were furious.

When the lone family head raised his hand, the lone family quieted down.

"Excuse me, are you?"

Asked the lonely house owner.

"Then you can see clearly!"

Once he lipped his lips, his body suddenly changed and transformed into the body.

Then, his body quickly became large, turning into a giant turtle, suspended in the sky.

"This... this is the legendary top ten war beast, the world turtle!"

Someone shouted in shock.

Everyone in the lone family's eyes widened.

The top ten war beasts have now become legends, and they have long been invisible.

In the ancient world war, the death and wounds of the top ten war beasts have long been lost.

Many people speculate that the top ten war beasts may have died in battle.

Unexpectedly, now, the world turtle, one of the top ten fighting beasts, actually appeared here.

"Are you... the legendary tortoise?"

The lone family head, first react.

"That is of course, if fake replacement, it is my old man!"

The giant tortoise spoke, then shrank quickly, and turned into a little Taoist again.

"Senior Tortoise, what's the matter with your cultivation?"

The solitary house owner asked, and his attitude became respectful.

Because, in the ancient books of the Gu Family, there are indeed records that the ancestors of the Gu Family at that time had no relationship with the world turtle.

Chapter 2224: I can become an emperor

"Hey, it wasn't just a battle that year, and this seat almost died. If you don't have this magical power, you won't see me!"

Dandan began to sigh, but soon became energetic and said, "Who is the oldest in your lonely family?"

"The oldest one in Gujia is the son of Ling Tian's ancestor, Gu Xinghui's ancestor!"

"Gu Xinghui, it turned out to be that little devil, you call him to see me!"

Dandan said abruptly, a look like a senior master.

The rest of the lonely family's eyelids jumped straight, and their faces were a little unsightly.

Gu Xinghui, but now the ancestors of the solitary family, who lived from ancient times to the present, lived a long time, but are now called devil, what are they?

But the thought of the other world's turtle was relieved.

Each of the top ten war beasts of the year was a pinnacle, and the years they lived were also amazing.

"Senior Tortoise, wait a minute, I'll report the ancestor!"

The lone family head clenched his fists, and then headed towards the palace deep inside the lone family.

Lu Ming and them didn't wait long before they saw the lonely head of the family and an old man with Chinese hair coming from the sky.

The old man, Tong Yan Hefa, is energetic and his eyes are bright.

The lonely family head followed the old man with a respectful face.

"Participate in Ancestor!"

The lonely family salutes the old man at the same time.

Needless to say, this person is the oldest ancestor of the Gu family, Gu Xinghui.

"No more gifts!"

Gu Xinghui waved his hand and glanced at Dandan, the spiritual consciousness diffused out, sensing the breath of Dandan, and there was a trace of joy on his face, saying: "Senior Turtle, it really is you!"

"Hahaha, isn't it me, you little kid, who hasn't seen in many years, has become so old, haha, still this young one!"

Laughing.

"Senior tortoise, I just heard that a little brother, before he became an emperor, controlled a variety of laws, and even controlled the two strongest laws. You are here, but for the father's stay?"

Gu Xinghui asked straight away.

"Yes, I heard that Gu Lingtian has been studying for a lifetime, and when the time is coming, he has gained a lot, so I want to see what he has done!"

Once and for all.

Gu Xinghui looked at Lu Ming, revealing a surprised look.

He lived for a long time. When he heard that someone had not become an emperor, he controlled a variety of laws, and even controlled the two strongest laws. Even his heart couldn't help shaking and curiosity.

"Little brother, can you show your rules to the old man!"

Lone Star said.

"it is good!"

Lu Ming nodded, his heart moved, seven kinds of laws, one after another flashed out.

Gu Xinghui's eyes were extremely bright, and he repeatedly sighed: "Miracle, miracle!"

Halfway, he said: "My father did have a great breakthrough. He once said that he finally found a way to become an emperor, but unfortunately he couldn't achieve it at all, and only left it to the destined!"

Lu Ming's eyes brightened, and his heart thumped uncontrollably.

Gu Xinghui's remarks obviously said that Gu Lingtian had really found a way.

"Haha, Gu Lingtian is worthy of being a rare hero. I didn't expect that he really found a way, but unfortunately, if he is not higher than heaven, his achievements might not be much weaker than me!"

Dandan sighed, it is rare to exaggerate a person.

In Lone Star's eyes, there was also some gloom.

"Senior Turtle, come with me!"

Lone Star radiated, and then made a gesture of invitation, coming out of the depths of the Lone House.

Lu Ming, Dan Dan, and Mulan followed.

The others in the solitary family also dispersed.

The three Lu Ming followed the lone star, leapt through the large palace, and came to a peaceful place.

It is very quiet here, there is only a small house made of purple bamboo.

Quiet and elegant.

Outside the hut, there is a small courtyard with a stone table and a few stone benches on the side.

"Senior tortoise, you sit down, I'll go as soon as I go!"

Lone Star said, and then walked into the bamboo house. After a while, he took out a bronze box and walked out.

"This is what my father left behind!"

Lone Star glowed, and then opened the bronze box, and a jade box appeared.

"Father put his life-long research into this jade box, but this jade box has never been opened since the death of his father, and a formation is placed on it. If it is forcibly opened by force, this jade box, including the things in the jade box, it will be wiped out!"

Lone Star said.

"Can't open it? No!"

He was speechless.

Lu Ming's heart also sank.

"Yes, but I speculate that my father wanted to leave it to someone who was a good man, just like Brother Lu Ming who hadn't become an emperor yet, and he was in control of a variety of laws. Brother Lu Ming could take it to look, maybe it could be opened !"

Gu Xinghui hands the jade box to Lu Ming.

Lu Ming took it and studied it carefully.

The jade box was covered with fine runes.

Lu Ming looked at it for a long time, and did not find it.

"let me see!"

Shouted.

Lu Ming handed the jade box to Dandan and studied it carefully.

He was a great expert in the formation, and really made a great discovery, his eyes lit up, and said: "No wonder no one can open, it turns out that such conditions are needed, haha!"

"Dan Dan, do you see it?"

Lu Ming asked.

"Of course, don't look at who I am? The world turtle, the head of the top ten beasts of war, I can't see without a formation. To open this jade box, two conditions are required!"

"First, you need to use Holy Power!"

"Second, the five laws need to be used at the same time, but there is no stipulation which five laws are!"

"If the two conditions are separated, it is very simple, but when combined, it is very harsh, because the two conditions require the same person to complete!"

Dandan explained.

Several people were stunned, and then immediately reacted.

This condition is very obvious, that is, you need a person who has not yet become an emperor, but at the same time control the five rules, this is the lonely sky, left to him.

"Lu Ming, you try it!"

Dandan handed the jade box to Lu Ming.

Lu Ming took it, and according to Dandan's method, he operated the Holy Power and controlled five laws at the same time, shrouded in a jade box.

Buzz!

The jade box really moved, and began to glow, the runes on it circulated, and finally clicked, the jade box opened.

There is a jade card in the jade box.

"opened!"

Gu Xinghui is also very excited.

Lu Ming, Dan Dan and Muran are also very excited.

"Lu Ming, take a quick look. Is there a way to make you a successful emperor!"

Said excitedly.

Lu Ming took a deep breath and took out the jade card, sinking the spirit into it.

"I am desperate..."

Immediately, a voice sounded in Lu Ming's mind.

Half-sounding, Lu Ming put down the jade card, and there was a look of surprise on his face, saying:  
"With, there is really a way, I can become an emperor!"

Chapter 2225: Another ancient tree of Taoism

Lu Ming knew the life of Gu Lingtian from the jade card.

Lonely sky, an unrivaled generation, and a world of arrogance are the most dazzling stars of that era.

However, Guling Tianxin is higher than the sky, and wants to go out of a way different from others, a path that the predecessors did not go through, or did not go through.

Before he became an emperor, he used his terrifying talents to practice a few rules. He wanted to cast a small world with multiple rules when he became an emperor.

It is a pity that he didn't get through this path after all, and was blocked. This block is the years of his life.

Gu Ling Tian spent his whole life in research, and finally in his later years, he developed the method.

Before he became an emperor, he controlled a variety of rules. If he wanted to become an emperor, he should pay attention to a balance.

Because when becoming an emperor, various laws want to condense the heart of the world, it is too difficult, the laws will collide with each other, burst out a terrifying force, will tear the sacred heart and tear the flesh.

Therefore, it is difficult to become an emperor.

But as long as many laws are balanced, it will not burst out the tearing force, and can successfully evolve the Sacred Heart and prove the way to become an emperor.

But many laws are difficult to achieve balance.

On this issue, it is not a son of God, but an advantage.

Because it is the Son of God, he controls one of the strongest laws, and then you master other laws, among which, it is difficult to achieve balance.

According to Gu Lingtian's speculation, for example, a king body, controlling three kinds of kingly rules, six or nine kinds of kingly rules, can achieve balance and justify the king.

However, before becoming an emperor in history, those who have the ability and talent to control a variety of laws, are all the sons of God and control the strongest laws.

Controlling one of the strongest rules, no matter how you match them, it is difficult to achieve balance among many rules.

Because the strongest law is too strong, it is difficult for other laws to keep a balance with the strongest law.

Gu Lingtian speculates that if one person can control the three strongest laws and the six kingly laws, one can maintain a balance and successfully evolve the heart of the world.

Or, one person can control the six strongest laws, or the nine strongest laws, can also evolve the heart of the world.

"Three strongest rules, six kingly rules, I can!"

Lu Ming's eyes were particularly bright, and his heart was overwhelmed by ecstasy.

Now, he has control of the two strongest laws, the five kinds of kingly laws, and he can fully comprehend one kind of strongest laws and one kind of kingly laws.

Gu Lingtian also mentioned that these laws must be at the same level to maintain balance.

For example, if one of the laws reaches the second level, the others are in the first level, and that will not work.

Lu Ming secretly rejoiced that he had no rule to reach the second level.

As long as all these laws are practiced to the first level, he will be able to justify the emperor.

Lu Ming's words made Dan Dan and Mulan also very happy.

"Lu Ming, quickly, let me have a look!"

Shouted.

Lu Ming handed the jade card to Dandan, and Dandan immediately looked at it.

After reading it, he was silent, and then gave the jade card to Gu Xinghui. After that, Muran took it and read it.

"Unfortunately, unfortunately, this guy, Lonely Sky, was really shocked, and finally controlled one of the strongest rules, eight kinds of kingly rules, but after all, he could not achieve a balance and it would be difficult to become an emperor!"

Sighed.

And Lone Star's eyes are full of sadness.

"The method recorded by my father seems to be simple. In fact, it is really difficult to achieve it. Before becoming an emperor, I want to control a variety of laws. The average person can't do it. Only the talent of the Son of God can do it! "

"But it is difficult for one person to control more than two of the strongest rules at the same time, so almost no one can achieve such a condition, so in my opinion, the method developed by my father is completely tailored for Lu Ming's little brother! "

Gu Xinghui sighed.

"That's it!"

Dandan also sighed.

Mulan also rejoiced for Lu Ming.

"Brother Lu Ming, I hope you can prove to be an emperor. In this way, it can be regarded as fulfilling his father's will!"

Lone Star said.

"for sure!"

Lu Ming was very determined.

"Well, I will take you to a place where it will help you to understand various laws, but become an emperor as soon as possible!"

Lone Star said.

Subsequently, Lone Star Hui walked into the sky, Lu Ming and Dan Dan, and Muran followed.

They headed deep into the purple bamboo forest, and soon after, they came to a huge ancient tree.

This ancient tree, with a high energy of hundreds of meters, is about as thick as a dozen people.

Gu Xinghui waved his hand and a light door appeared on the ancient wood.

"It turns out that there is a small world hidden here!"

Lu Ming moved.

Obviously, the light door on this ancient wood is the entrance to the small world.

Lone Starlight entered the Light Gate, and Lu Ming entered them one by one.

As soon as you enter the Gate of Light, you come to another world.

"The rules here are so clear, there is a feeling of freshness and inner spirit!"

As soon as he entered this small world, Lu Ming and others felt abnormal.

Especially Lu Ming, he has a feeling of sitting under the ancient trees of Taoism and practicing.

"follow me!"

Gu Xinghui smiled and walked away.

After flying a long distance, they came to a mountain range.

But this mountain range has no grass, no vegetation, only a giant tree in the middle of the mountain range.

"That's... Ancient Taoism!"

Looking at the giant tree, Lu Ming was dumbfounded.

Yes, there is indeed an ancient Taoist tree here. Although the species is different from that of Lu Ming, it is indeed the ancient Taoist tree.

This ancient Taoist tree, compared with Lu Ming's, is completely incomparable.

The Lu Ming plant, cultivated to the present, has been rooted on a mountain peak in the mountain and river map, which is more than 30 meters high.

But the strain in front of him is at least a thousand meters tall.

The ancient trees are towering, and the branches are surrounded by avenues. Everyone feels that their minds are ethereal and their minds are very clear.

The effect is better than that of Lu Ming's, I don't know how much better.

"Okay, you alone, actually cultivated an ancient tree of Taoism secretly, great!"

Dan Dan grinned and sighed, eyes shining.

"Unfortunately, after cultivating endless years, still not fully mature!"

Gu Xinghui sighed.

"It's good to be able to cultivate to a height of thousands of meters. I also had one plant at that time, but unfortunately it was not mature. It was destroyed in the later war!"

With that said, he also gave Lu Ming a glance.

Lu Ming's heart moved. His old Taoist tree was cultivated by a dead branch. The dead branch appeared together with Dandan and was obtained together. Could it be that Dandan?

This is very possible!

"You can practice here in the future!"

Lone Star said.

"Haha, okay, okay, Lu Ming, this is the best place for you at this stage!"

Dan Lu said to Dan.

Lu Ming nodded, indeed.

He is now mainly based on the law of enlightenment, which is indeed very suitable for him.

Chapter 2226: The eighth and ninth rules

The solitary family's ancient Taoist tree is already thousands of meters tall, and its effect is much better than his own ancient Taoist tree. It is the most suitable way to learn the law here.

"You are here to practice, if there is any need, please give me a voice!"

Gu Xinghui left a sentence, leaving them a jade symbol of sound transmission, and his figure disappeared.

Lu Ming and others went towards the ancient trees of Taoism.

As they approached, they discovered that under the ancient trees of Taoism, several people sat cross-legged and were practicing.

Obviously, they are alone.

Lu Ming also finally understood why Gu Ying is so young that he can control four kinds of laws, and even two of them. He has reached the second level, which is absolutely related to the ancient trees of Taoism.

When the three came, someone from the lone family sensed it, opened their eyes and looked at Lu Ming, revealing a strange look.

Because he didn't know the three Lu Ming at all.

However, it was just a surprise, and did not say much.

Because this is the secret place of the lonely family, if there is no lonely family leaders to lead the way, no one else can find.

Obviously, Lu Ming, Dan Dan and Muran were able to come in. They must have been brought by the senior family of the Gujia family. Since they were brought by the senior family of the Gujia family, he would not say much.

Nodded to Lu Ming, the man continued to practice with his eyes closed.

"The two of you are here to practice, I want to find a place to retreat and hit the real emperor realm!"

Once and for all.

"I wish you a breakthrough soon, or wait for me to become an emperor, and will soon catch up with you!"

Lu Ming laughed.

"Dream, do you still want to catch up with me?"

He lip-filled his lips, and then his body flickered away.

Lu Ming and Mulan came to the Taoist ancient tree and found a bluestone, sitting on the bluestone.

The ancient tree of Wudao has a high energy of thousands of meters and is huge. Between branches and leaves, there is a road surrounded by it. Whether it is the law of enlightenment or the technique of enlightening supernatural power, the effect is very great.

"To enlighten the nine laws, the three strongest laws, and the six royal laws, I still have one strongest law and one royal law, which two should I enlighten!"

Lu Ming thought about it.

"If the rule of kingship is better, you should understand the rule of penetration!"

Lu Ming moved.

The law of penetration, the power of penetration, is very amazing. If it is enlightened, the attack power will increase a lot.

Moreover, the six-winged divine wings passed on to Lu Ming once and for all contain six kinds of laws. In addition to the law of formation, the law of Dandao, and the law of instrumental Tao, the law of penetration is also one of them.

Seeing through the law of penetration, the body flies as if it can penetrate all barriers, and it is also very amazing for the speed increase, so it is contained in the six feather wings.

After enlightening the law of penetration, the power of the six feather wings will also increase dramatically.

After setting the rule of kingship, it is necessary to determine which strongest rule of enlightenment.

The remaining eight strongest laws, Lu Ming is most optimistic about the law of fate.

Because of the law of fate, it is indeed very mysterious, and its power is very amazing.

However, the law of destiny has very high requirements for talent, and it is also the most difficult to cultivate.

Lu Ming thought for a while, but still shook his head, excluding the law of fate.

"Now, I have the law of chaos and the law of death. The attack is not weak. The next law does not necessarily have to increase the attack power, defense or vitality. It is also very important!"

"Then, the law of life!"

Finally, Lu Ming made a decision, intending to understand the laws of life.

Lu Xiangxiang is the body of life. Lu Ming is relatively familiar with the laws of life.

In addition, once you control the law of life, the vitality will become very amazing. Even if you receive some fatal injuries, you can heal quickly, which will greatly improve your life-saving ability.

The next two laws, Lu Ming decided to understand the law of life, and the law of penetration.

Close your eyes, Lu Ming's mind is ethereal, the mind and the world merge into one, and capture the fluctuation of the law.

"Penetrate, penetrate everything, everything is unstoppable..."

Lu Ming whispered and realized.

As Lu Ming's laws of enlightenment became more and more, his experience of the laws of enlightenment became more and more sufficient, and the enlightenment became more and more efficient.

In just a few days, the law of penetration has been introduced.

Half a month later, Lu Ming successfully applied the laws of life to the introduction.

In this way, he has controlled nine kinds of laws, and what he has to do now is to raise the law of the law.

The law of Dandao, the law of organs, the law of penetration, the law of life.

At present, Lu Ming still has four laws that have not reached the first level of consummation. However, the laws of Dandao and Qidao have already reached about 90%.

Lu Ming was fully aware of the four laws.

In a flash, half a year passed.

On this day, there were thunder billows in the distance, Lu Ming, who was practicing, and the lonely family, all opened their eyes.

"Someone becomes an emperor, and the emperor robs!"

Someone in the solitary house whispered.

"Sister Muran, you are about to become an emperor!"

Lu Ming smiled.

Muran received the inheritance of a peerless strongman, and the process of inheritance lasted five years. During these five years, Muran's cultivation practice suddenly increased to the limit of the quasi-empire, and then stopped.

Muran was already a little bit away and could become an emperor.

Now, after more than half a year of accumulation and polishing, Muran finally crossed the bottleneck and became the emperor.

Lu Ming stepped out and came not far from Muran.

Mulan was covered with a layer of blood, which turned into a series of attacks to fight against the Heavenly Tribulation.

It seems that Mulan is still quite relaxed. Soon afterwards, Mulan successfully survived the Sky Tribulation.

boom!

At this moment, there was an amazing change in Muran's body. That was the evolution of the Sacred Heart, the divine power was transformed into the power of the world, and a faint diwei was released from Muran.

Half an hour later, Muran's breath stabilized and formally entered the Emperor Wu Realm.

"Congratulations, Senior Sister, justify the Emperor!"

Lu Ming stepped forward and said to Lu Ming.

Mulan looked at Lu Ming, with joy on his face, and said, "I believe younger brother, I will become an emperor soon!"

"Little girl is not bad, he became an emperor so soon, it seems that you are really suitable for the cultivation path of that guy!"

A voice came, and then the light flashed, and the figure of Dandan appeared.

"Dan Dan, did you break through?"

Lu Ming looked at it and asked curiously.

"That is, of course, what is this seat? Real Emperor, it means nothing. I will soon break into the Realm of Emperor, then the Realm of Heaven, and finally surpass the previous, break into the Supreme Realm, hahaha!"

He laughed proudly, as if thinking of a bright future, his eyes were shining straight.

"This guy..."

Lu Ming despised, but also happy for him.

After a while, he laughed and said, "Lu Ming, come and come, let's talk together and see how you have learned the law during this time?"

"You are the real emperor now, and I will discuss with you, is it not being abused?"

Lu Ming pouted, and immediately refused.

Dandan this guy is the world turtle of the top ten fighting beasts, and his memory is completely restored, and he has controlled a variety of laws. Although he has just broken through the true emperor, his combat power is absolutely amazing.

Chapter 2227: Diandan's guidance

"Hahaha, I knew you were afraid of me, but I didn't use the power of the world, I just learned from you with the rules of law, so you are still afraid?"

Dan Dan grinned and squinted at Lu Ming.

Lu Ming was upset and said, "Come and go, let's learn from each other!"

After several people flew a distance, they started to fight.

Dandan did not suppress Lu Ming with Xiu, but used a little bit of world power to urge the law and deal with Lu Ming, but Lu Ming was defeated by Dan Dan with one move.

This made Lu Ming speechless, so much different?

Although Dandan also controlled nine laws, he also controlled nine laws, but after colliding with Dandan's laws, his laws were completely vulnerable.

"Lu Ming, although there are many rules under your control, but only the most superficial fusion, there is no ancient scripture to explode the power of these rules, so the power is too weak!"

Once and for all.

"Unfortunately, there is no ancient scripture!"

Lu Ming also had a hard face.

Although he created the Hammer of Chaos and the Sword of Death, it was only a short time after its inception, and it was far from achieving great success, and its power was limited.

"The ancient scriptures were not created by others. Those who created the ancient scriptures also created those ancient scriptures according to the laws of their own control. Now, you are still inexperienced and the magical power you created cannot be fully realized. Just come out!"

"If you can fully exert the laws you have mastered, the power must be stronger than many ancient scriptures. After all, this is your own creation!"

Dandan explained.

"Dan Dan, you have so much experience, it is better to teach me!"

Lu Ming smiled and looked at Dan Dan.

"Haha, now that you know how powerful this seat is, rest assured, I am looking for you to learn, that is, to point you at it intentionally, come again, use your full strength!"

Laughing, very proud, carrying a hand, a style of peerless master.

This time, Lu Ming did not dismantle the station.

Uh!

Then, Lu Ming flickered, and in his palm, the hammer of chaos condensed out and bombarded towards Dandan.

Once a finger pointed out, at least five laws broke out at the same time, forming a finger, bombarded on the hammer of chaos, the hammer of chaos violently vibrated, and finally burst.

Lu Ming's Hammer of Chaos also contains five laws, but it is like tofu, while the five laws of Dandan are like steel, which immediately defeated Lu Ming's Hammer of Chaos.

"Come again!"

Lu Ming then rushed towards Dandan, fighting against the law.

But every time, Lu Ming was defeated.

One day later, Lu Ming was exhausted and stopped.

But in this battle, Lu Ming was very productive. He applied the laws more easily, exerting the hammer of chaos, or the sword of death. The various laws matched each other, and the power of the explosion also increased.

After all, although bragging every day, sometimes very unreliable, but the experience really lies there.

And the world turtle, known as the world, is born with unrivaled control over the rules, and is stronger than the other top ten fighting beasts, so it is often possible to point out the shortcomings of Lu Ming's use of the rules, so that Lu Ming can improve quickly.

"You go back and digest it, we will continue to compare after seven days!"

Dan Dan grinned and walked towards Tao.

Several people returned to the ancient trees of Taoism and continued to practice.

Mulan had always watched Lu Ming and Dan Dan play against each other.

The next day, Lu Ming had one more thing, and that was to play against Dan Dan.

Every seven days, he meets Dandan once. His understanding of various laws and the application of laws are advancing by leaps and bounds.

The laws of Dandao, the law of instrumental law, the law of penetration, the law of life, these four laws of fire, promoted very quickly. After all, here is under the ancient tree of enlightenment, plus Lu Ming's talent, it is difficult to think of ascension .

At the same time, Lu Ming's two self-created supernatural powers, Hammer of Chaos, and Sword of Death, are becoming more powerful.

Not only did the original law apply, but the penetration law was also added.

One form of magical power, containing seven kinds of laws, continues to deepen its power.

Finally, after Lu Ming practiced here for a year, he had another rule to achieve perfection.

Dandao Law!

The rule of Dan Dao was perfect, the rule became a river, and Lu Ming's physical body and holy power were once again refined, greatly improved.

There is no doubt that Lu Ming's combat power is also rapidly increasing.

After coming here to practice for a year and a half, Lu Ming's law of Taoism has also reached completion.

Up to now, Lu Ming still has the law of penetration and the law of life, which has not yet reached the first level of consummation.

The law of life is the strongest law. Relatively speaking, the rate of improvement is much slower.

In the distance of the ancient trees of Wudao, a flat land, Lu Ming and Dan Dan, continue to fight.

Although Lu Ming's strength has improved rapidly, but Dan Dan's guy is improving faster. Lu Ming feels that the nine laws controlled by Dan Dan may have reached the second level.

Lu Ming naturally lost.

The two made a blow to each other, and Lu Ming stepped back.

"Unfortunately, my strongest rule cannot be integrated!"

Lu Ming sighed.

Whether it is the hammer of chaos or the sword of death, it only contains one of the strongest rules. If you can integrate other strongest rules into it, the power might increase.

But the strongest rules are not compatible, it is too difficult to integrate.

"not necessarily!"

Once he opened his mouth, he said, "It's impossible to control the two strongest laws by one person, but aren't you doing it? Since you can control many of the strongest laws, you can naturally integrate them into a supernatural power. in!"

"Let's talk about it, Lu Ming, your way is completely different from others. If you go to practice the ancient scriptures created by others, you can't fully excite your potential. Other people's ancient scriptures are all based on the single strongest rule. Yes, but you have control over many of the strongest rules, and you want to fully excite your potential, you need to create it yourself!"

Rarely take it seriously, and instruct Lu Ming seriously.

Lu Ming was greatly touched!

Indeed, none of the peerless masters who created various ancient scriptures controlled many of the strongest laws. They did so by mastering one of the strongest laws and then combining them with other royal laws and common laws.

There is no one suitable for Lu Ming.

Lu Ming wants to dig out his full potential, he must create his own ancient scriptures and create his magical powers.

Lu Ming felt suddenly and cheerful, he felt that he saw his future path.

"Thank you, thank you!"

Lu Ming thanked Dan Dan very seriously.

"Hahaha, who is this seat, the head of the top ten fighting beasts, the invincible peerless wizard, now believe it!"

Once he grinned, he only felt comfortable and very happy.

"Come, continue, let this seat guide you, let you merge the strongest laws as soon as possible!"

Shouted every day, full of energy.

Although Dandan did not control many of the strongest rules, his experience was there to help Lu Ming.

However, it is too difficult to integrate into a magical power with different strongest laws.

After many attempts, Lu Ming still failed, but they did not give up and have been studying.

Chapter 2228: The indestructible ancient scripture was born

Winter comes to spring, time flies.

Lu Ming has been practicing here for three years.

After three years of hard work, the law of penetration has also reached the first level of completeness. Lu Ming's physical body and divine power have become stronger after repeated tempering.

The physical strength is extremely strong, and the divine power condenses to the extreme.

Moreover, the application of the law is getting stronger and stronger. A few tricks of self-made magical power have surged a lot.

Compared with three years ago, Lu Ming's combat power did not know how much he improved.

However, the law of life is still a little bit short of perfection and stays at a ninety-nine stage.

Lu Ming was not in a hurry, the strongest law was improved, and it was indeed slower. This is still practiced under this ancient tree of Taoism. If it is outside, for three years, it is impossible to cultivate so many laws to the first level. .

It was still that flat place, Lu Ming and Dan Dan met.

Uh! Uh!

Holding a sword of death, Lu Ming kept slashing out, and his power was extremely amazing.

But once he was relaxed, he waved his hands freely, and various laws worked, easily blocking Lu Ming's attack.

"Almost, almost!"

Lu Ming's eyes are firm and persistent. He is trying to integrate the law of chaos into the sword of death.

"It's almost, let me melt!"

Suddenly, Lu Ming roared, and his whole body of law was agitated, the sword of death in his hand, constant shaking, Jian Xiao shook the sky.

Buzz!

Suddenly, the power of the sword of death skyrocketed, and a terrible sword light was cut toward Dandan.

This sword contains not only the power of death by the law of death, but also the heavy mountain-like power of the law of chaos.

Succeeded!

Lu Ming was ecstatic, but at the next moment, Lu Ming was shocked. He felt the two strongest laws and burst out a terrifying tearing force. His palms were torn apart by this tearing force. Come.

"Nest!"

Opposite, shouting and shaking his palm, a turtle shell emerged, like a shield, blocking him.

boom!

With a violent roar, the shell shields condensed by Dandan burst apart, and Dandan's body retreated sharply, avoiding the edge of the sword of death.

"Boy, did you merge successfully?"

He looked at Lu Ming every day.

In Lu Ming's hands, the sword of death disappeared, only to see that his palms, even his arms, were covered with cracks, and blood oozed continuously.

The law of life is running, and the wound on the arm is recovering quickly.

"Unfortunately, the two laws still conflict, and amazing power erupted, hurting myself!"

Lu Ming smiled bitterly.

"This is normal. You have just started to integrate and you are not skilled yet, but it proves that our direction is right. As long as you keep trying, this side effect will disappear!"

"Hahaha, we have created history. If it spreads, I'm afraid it will scare people!"

Everyday excited.

Lu Ming also smiled, he understood that after so long efforts, he finally succeeded.

Although the two strongest laws are fused together and will cause injury, but now it is only imperfect. With the continuous improvement in the future, these side effects will definitely disappear.

Under the action of the law of life, Lu Ming's arm wound has been completely healed.

"Once again, come again!"

Lu Ming rushed towards Dandan, where to find such a good sparring partner.

boom!

In Lu Ming's hands, the sword of death reappeared, and immediately, the law of chaos erupted, merging toward the sword of death.

Buzz!

This time, it succeeded immediately, but still conflicted with each other, and a terrible force broke out, making Lu Ming's arm covered with wounds.

However, the power of this sword has reached an astonishing point, and it needs to be treated with dignity before it can be blocked.

This is arguably Lu Ming's strongest move now.

"In the future, the law of life will also be integrated into it, and the power will definitely be stronger!"

Lu Ming thought.

Lu Ming was looking for Dandan to continue, a figure flashed, and a grey-haired old man appeared, it was Lone Star.

For the first time in three years, Gu Xinghui appeared.

"Brother Lu Ming, it seems that you have made great progress in these years!"

Gu Xinghui smiled.

"Thank you for bringing the juniors here to practice, otherwise, the juniors may have to practice for several more years before they can achieve what they are doing now!"

Lu Ming said.

"Your boy, how come you are free today?"

Dandan came over and said carelessly.

"Of course it is a big deal!"

Lone Star said.

"What's the big deal? What's the big deal?"

Asked curiously.

"Immortal Mountain is now born. It is said that the immortal ancient scripture is hidden in the immortal mountain!"

Lone Star said.

"what?"

Dandan almost jumped up, his eyes shining, staring at Lone Star Faith: "What are you saying is true?"

"It's true, the indestructible mountain emerged from the void, and now it is stopped over the ancient city of Shaoguang. Now it is in the Qing Dynasty, and countless masters have rushed over, and I want to get the indestructible ancient scripture, so I come here and ask if you go go with!"

Lone Star said.

"Go, of course, go, the immortal ancient scriptures that do not destroy the emperor, must not be missed!"

Eyes shine every day.

On the side, Lu Ming and Muran were a little dazed.

They don't destroy the mountains or the ancient scriptures.

"This immortal ancient scripture is so magical?"

Lu Ming asked.

"That is, of course, it is said that if you practice the immortal ancient scriptures, you will never die, and your vitality is extremely strong. Even a trace of blood, a strand of hair, and a trace of remnant soul can be recovered!"

"Although the law of life is tenacious, it is much different from the ancient practice of immortality!"

"The immortal ancient scripture, but the emperor's housekeeping skills, do you know the emperor? That is the same name as the emperor Chaos!"

He cracked and explained a bunch.

Lu Ming was shocked by the incredible power of the immortal ancient scriptures and the strength of the immortal Emperor.

According to Dandan, those who can be called emperors are invincible figures, and emperors are respected and invincible in the world.

Like the Chaos Emperor, the Emperor is not destroyed.

"Since Emperor Immortal is so strong? How can others get the immortal ancient scriptures, let's go, don't we die?"

Lu Ming asked curiously.

"Don't destroy Emperor Zun, already dead!"

Once and for all.

"Dead, such a character, and cultivated the indestructible ancient scriptures, how could he die?"

Lu Ming was surprised and puzzled.

"Hey, it's not the Evil God Clan. In ancient times, in the early days of World War II, Emperor Immortal was besieged by several people of the same level in the Evil God Clan. Now!"

"Ever since Emperor Immortal fell, he lived in the Unending Mountain, he escaped into the endless void, wandering in the eternal endless dark void, no one can find it, really did not expect that the Unending Mountain will suddenly appear, many It is speculated that the immortal ancient scripture is about to be born again!"

Lone Star Hui sighed.

Lu Ming also showed his intention to move.

"Okay, let's go and see!"

Lu Ming said.

Chapter 2229: Heavenly Emperor

Before becoming Emperor, just go out and adjust his status to prepare for Emperor Cheng.

At the same time, you can also try your luck. If you can really get the immortal ancient scriptures, it is really great luck.

Immediately, Lu Ming, Muran and Dandan followed Gu Xinghui and left here to come to the palace of the Gu family.

This time, the Gu Family will send people to it, mainly to try their luck.

Unbreakable Mountain, wandering in the eternal dark space for so many years, suddenly appeared, relying solely on cultivation, it is likely to be difficult to obtain, and need opportunity.

Therefore, the Gujia sent out some arrogance, and the first day of the solitary family was heavy, and of course it was among them.

However, there are quite a few strong men. People from the Real Emperor Realm and the Great Emperor Realm all went to be led by the lone family.

The crowd emptied and headed towards the nearest teleportation area.

The ancient city of Yaoguang is located in the western part of Tianqing. A few days later, the lonely family has come to the ancient city of Yaoguang.

Yaoguang Ancient City is one of the oldest ancient cities in the heaven.

In the heaven, there are not many that can be called ancient cities, each of which spans the endless years and is full of traces of mottled years.

During this time, this ancient city, which has not been known for many years, has become very lively.

The crowds are all strong.

There are strong men coming from all parts of the Taiqing heaven.

Not only the human race, but also the various beast races.

Such as true dragons, sky tigers, phoenixes, etc., can be seen from time to time.

In the sky at the north gate of Yaoguang Ancient City, a huge immortal mountain is suspended there, huge and majestic, like the legendary Taishan God Mountain.

This is, the mountain is not destroyed!

Lu Ming and they did not enter the ancient city of shaking light at the beginning, but went towards the immortal mountain.

boom! boom! ...

Far apart, I saw the brilliant light flashing non-stop, and heard an amazing roar.

Some people want to climb the indestructible mountain, and it is a very amazing powerhouse.

Lu Ming saw that a figure, shrouded in divine light, rushed towards the Unending Mountain at an alarming speed, but no matter how fast he rushed toward the Unending Mountain, it seemed difficult to cross that section. For a short distance, he could not get close to the indelible mountain.

On the indestructible mountain, there is a layer of light, seeming to stop there, but it cannot be approached.

"Is that the character of Heaven Emperor Realm!"

Someone from the Gu family asked in a dry voice.

"Yes, it is indeed a character of Heavenly Emperor Realm!"

Lonely family dominates.

Everyone took a breath, could not even the characters of the Heavenly Emperor Realm be able to ascend the indestructible mountain?

Tweeted!

At this time, a chirp sounded through the sky.

Everyone saw that a phoenix soared its wings and flew towards the indestructible mountain.

This phoenix, with its breath, is full of earth and earth, and its body is even larger, with its wingspan spread, covering the sky and the sky.

This is definitely a terrifying phoenix. Cultivation is not weaker than the previous strong human race. There is no doubt that it is the existence of a heavenly emperor realm.

It flapped its wings, collapsed in the void, and formed a terrible dark space. It flew to the indestructible mountain at an unimaginable speed.

However, this horrible phoenix is still difficult to climb the indestructible mountain.

Roar!

There was a roar and it spread to all directions.

A huge white tiger, filled with endless killing opportunities, rushed towards the indestructible mountain, but like the phoenix, it is still difficult to climb the indestructible mountain.

The white tiger roared and found a giant claw. It was terrifying and bigger than the mountains. It grabbed from the sky to the immortal mountain.

Obviously, the white tiger can't climb the mountain, and he is furious.

Its giant claws are bigger than the indestructible mountain, but unfortunately, when it is taken down, the indestructible mountain is like a phantom, and it grabs an empty space and catches nothing.

Next, the crowd saw several powerful beings, trying to climb the indestructible mountain, but in the end they failed.

There were many people watching nearby. Lu Ming learned from the population watching nearby that during this time, there were no less than ten Heavenly Emperor Realms that came to this place, using all kinds of methods, trying to climb the Unending Mountain Ancient scriptures, but all failed.

There are also great emperor realm, real emperor realm, and virtual emperor realm.

Some people speculate that it is obviously impossible to seize power by the immortal ancient scriptures before they are born.

You know, the Emperor Zun was not destroyed, but it was an enemies without enemies.

Many people stayed in the ancient city of Yaoguang, waiting for the opportunity.

Lu Ming and others watched around Mount Everlasting and found nothing. Even this guy shook his head, and everyone could only come to the ancient city of Yaoguang to find a place to live.

"The ancient city of Yaoguang, I heard that it is one of the oldest cities in the realm of heaven. Many powerful people have been born in history, leaving a lot of monuments, how about we go around?"

Gu Ying reinvited Lu Ming, Dan Dan, and Mulan.

Orphans, who have lived in seclusion for generations, have rarely been born, and there are few opportunities for Guying to come back. This time, if the ancient scriptures are not destroyed, they will not bring them out.

He was hard to come by, and he was naturally curious.

"it is good!"

Several people nodded, and together with Gu Yingzhong, they went out of their place of residence and wandered around the ancient city of Yaoguang.

The ancient city of Yaoguang is not only ancient, but also covers a very large area. There are countless streets all over it, and there are also countless ancient ruins.

For example, there is a piece of stone stele, which is the enlightenment stele. These enlightenment stele have engraved avenues left by the strong, which is very helpful to the Emperor Wu.

Many people under the Emperor Wu sat under the Taoist monument and quietly participated in the cultivation.

Another example is a place where there are many statues, all of which are well-known statues of the past, each of which exudes the will to dominate the world, making people heartbroken.

Many people watched here, and several people from Lu Ming also came here.

"Look, that is the statue of the top ten fighting beasts!"

Gu Ying whispered.

Lu Ming looked over and saw a statue of a different species.

A Kowloon, with a meandering body and nine dragon claws under its belly, the scales on the body are clearly visible, lifelike, like the resurrection of Kowloon.

A giant elephant, like a hill, has obvious muscle lines, as if it has explosive power. This is an archaic dragon elephant.

Next, you will see the Titan Beetle, the Undead Sky Phoenix, the Nine Life Demon Silkworm...the statues of the top ten war beasts.

A total of nine were seen, but the statue of the world turtle was not seen.

"Dan Dan, it seems that without you, your reputation is not good, or others think you are not worthy to be tied with the other nine!"

Lu Ming looked at Dandan and quipped.

"Fart, those who sculpted the statue must have no knowledge, or have hatred against me, Nina, actually did not put my statue in!"

It was extremely uncomfortable, and there was a bit of teeth in the end, and finally my eyes brightened and said: "I know, they must be unable to carve the charm of my great shore, so there is no statue of me, it must be like this, ha ha!"

cut!

Lu Ming and others despised.

After a while, the people left here.

"Lu Ming, it's you? You... how come you came to heaven?"

At this moment, a voice sounded and seemed very surprised.

"Luo Cangqiang? And... Stellar River!"

Lu Ming turned his head and looked, his eyes flashing coldly.

Chapter 2230: One stroke kill

Not far away, several young people came step by step.

Two of them are Lu Ming's old acquaintances, Luo Cangqiang and Stellar River from Yuanjie.

Beside them, a young man followed, Lu Ming did not know.

Luo Cangqiang and the Stellar River seemed very surprised.

At the beginning, Emperor Kong Yin did not bring Lu Ming to Heaven Realm. How could Lu Ming appear in Heaven Realm now?

After being surprised, it was a cold murder.

Luo Cangqiong and the Stellar River are the same. The murderous opportunity is not concealed. The figure flashes, and Lu Ming surrounds several people.

"Lu Ming, I didn't expect you to come to Heaven Realm, wouldn't it be good to stay in Yuanjie for retirement? I just had to go to Heaven Realm to die, or save me a special trip!"

Luo Cangqiong said coldly, his body filled with a strong breath.

The two-star Xudi seems to have reached the peak of the two-star Xudi, and can step into the Samsung Xudi at any time!

At the same time, there are two kinds of laws pervading him, both of which are the rules of kingship, and both are the first realm of perfection.

Obviously, after coming to Heaven Realm, Luo Cangqiong made great progress.

At the beginning of the ten-place battle, Luo Cangqiong just broke through the one-star virtual emperor. Now, he has reached the peak of the two-star virtual emperor, and has realized the second law and reached the peak of the first realm.

In five years, this progress has been considered very fast, and a lot of resources have definitely been cultivated.

In Wudi Realm, the distance between each step is very large, and it is difficult to cross. If there are no resources, it takes a long time to practice honestly.

Lu Ming glanced at Luo Cangqiong lightly and said, "I haven't seen it in five years. It's a bit of progress, but do you think it's my opponent?"

There was a deep disdain in the voice.

Luo Cangqiong looked ugly.

He, alone, had no certainty about Shang Luming.

In the battle of the ten places, Lu Ming was able to fight the Celestial Celestial Pride, but the Celestial Pride that controlled the strongest law was much stronger than he is now.

Although, in his understanding, Lu Ming is a peerless waste body and cannot become an emperor. The combat power should be no different from that of five years ago, and there will be no progress. However, he is not an opponent of Lu Ming now.

However, he is not afraid because there are others beside him.

"Huh, Lu Ming, this is not Yuanjie, or five years ago!"

Luo Cangqiong said coldly.

"Oh? Do you mean both of them?"

Lu Ming smiled indifferently, glancing at the Stellar River and the strange young man.

"I am enough!"

The stellar river opens, showing strong self-confidence.

Stellar River's cultivation base has reached Samsung Emperor's Emperor, and the progress has been amazing. It has made two strides. At the same time, the law has made amazing progress. His combat power is much stronger than that of the ten-place battle five years ago.

The Stellar River is now not weaker than the heavenly arrogance that came to Yuanjie.

His talent is very strong, not weaker than those celestial arrogances of Heaven Realm, and now he has been trained by Heaven Realm's resources to make rapid progress.

He was confident enough to beat Lu Ming alone.

"He is the peerless waste of Yuanjie?"

The strange young man opened his mouth, and he was not weak in cultivation. He had a three-star virtual emperor, and he controlled three laws. Although there was no strongest law, two of the kingly laws had arrived in the second realm, and their strength was also amazing.

"Yes, it's him!"

Luo Cangdao said, his voice was cold.

"A lot of people took him to the sky, how powerful it is, I want to give it a try today!"

The strange youth sneered.

"Those who blow to heaven are all his friends!"

Luo Cangqiong sneered and said, "Lu Ming, today, you will die!"

At that time, in that lotus world, Luo Cangqiang was mistreated by Lu Ming, Luo Pokong was killed by Lu Ming in public, and he, in public, was stepped on the face by Lu Ming, and even used as a humanoid weapon to fight the Stellar River. , Lost his face.

He always wanted revenge!

But in the battle of the ten places, Lu Ming's demonstrated strength shocked him, but what happened later made him ecstatic.

Lu Ming is actually a peerless waste body and cannot go to heaven to practice.

He was overjoyed and decided to return to Yuanjie after practicing in Heaven Realm and kill Lu Ming with his own hands.

He didn't expect that he would meet Lu Ming in the realm of heaven, but his heart that killed Lu Ming would not change.

"Lu Ming, give me the body of Heavenly Emperor, I can give you a happy heart!"

The stellar river said coldly, of course, to Lu Ming. He didn't want the emperor's flesh to be known by others.

In his view, the body of the Heavenly Emperor should belong to him, and everyone else with his fingers would die.

Lu Ming, he will kill.

The three people in the Stellar River completely overwhelmed each other, and the solitary shadow was so heavy that Muran ignored it.

How strong can it be with a waste body like Lu Ming?

They disdain!

"Lu Ming, who are these three evil pens? When I came, I cracked and put a bunch of farts!"

Said unpleasantly.

The words made Luo Cangqiang and the three people of the Stellar River face black.

"Originally, it's not your business, but now, you are going to die and be responsible for your own words!"

Luo Cangqiang said indifferently.

"Wo Chao, this kid has no skill at all, but he is very arrogant. I will slap him to death!"

Everyday is even more uncomfortable, you have to start when you roll up your sleeves.

"They give it to me, I will solve it!"

Lu Ming waved his hand and stopped Dandan.

"You solve it? I see how you solve it!"

The unfamiliar young man spoke indifferently, stepped forward, and slammed towards the landing.

His palm was like a sword, and he split it down like a sword of heaven.

The world power of his Samsung Emperor completely broke out, and three kinds of kingly rules also broke out together. Two of these rules have arrived in the second realm, and their power is extremely amazing.

In this blow, the void collapsed, and the terrible blade of light cut towards Lu Ming, who wanted to split Lu Ming in half.

Around him, countless people were alarmed and looked to this side.

Faced with this blow, Lu Ming's face did not change at all, and he was very calm.

boom!

Just when Daoguang was about to cut Lu Ming, Lu Ming shot and pointed out.

With one finger, he hit the knife light, and the knife light shattered directly, and the finger kept on, pointing at the strange young man with amazing speed.

The pupils of the strange youth contracted sharply, and there was a panic in their eyes, and their figures receded wildly.

However, Lu Ming's fingertips were faster, and in a flash, he caught up with the strange young man.

"no no..."

The strange youth shouted in horror.

At this moment, his heart was full of fear and regret. He couldn't even dream of it. Lu Ming was a waste body. How could his strength be stronger like this, more powerful than the legend, his attack had no effect at all.

He felt death approaching.

He shouted to escape first, but everything was too late.

puff!

Zhi Jin passed through his eyebrows and destroyed his soul, too.

The unfamiliar young man, his eyes glared round, full of unwillingness, and then the body fell to the ground with heavy weight.

Luo Cangqiong, the star river, their pupils contracted sharply.
