

D Emperor 2261

Chapter 2261: Five Star Emperor

This is the fourth ancient tree of Taoism that Lu Ming has seen.

One of his own strains, as well as the Titan long beetle, one of the top ten war beasts that he saw in Yuanlu, there was also one beside the Titan long beetle.

There is one in the Gu Family, and one here.

One plant here, and one plant from Titan beetle, are already mature.

Here, it is a cultivation holy land in the Two Realms. He has that kind of token and can come in to practice at will.

Lu Ming flew forward, the closer he was to the ancient trees of Wudao, the more he could feel the majesty of the ancient trees of Wudao, and his body and mind became extremely peaceful.

The speed of practicing here, the law of enlightenment, and the skill of supernatural powers are definitely far higher than other places.

Under the ancient tree of Taoism, many people are practicing.

Lu Ming chose a precarious place, sat cross-legged, and realized quietly.

Time was flying fast, ten days passed by.

Lu Ming has taken a preliminary introduction to the cultivation of the immortal ancient scriptures.

The law of life, the law of formation, and the law of art are intertwined to form a strange magical art. Once it works, his vitality will reach an astonishing point.

Not only for the flesh, but also for the soul, it also has a great effect. The speed of recovery is several times that of the simple law of life.

You have to know that there are only three kinds of laws. If you practice to a great degree, the supernatural powers formed by the 18 kinds of laws are so amazing that they are almost immortal.

Of course, the mystery of the immortal ancient scriptures does not stop there.

He not only has the function of recovery, not only the vitality becomes stronger, he also has the means of attack.

Inside, there is another kind of supernatural power, called the immortal golden body.

Cultivating this kind of supernatural power seems to turn into a peerless magical soldier. It has amazing defense power, immortality, and terrible attack power.

Every part of the body is like a magic soldier, but it can explode with amazing power.

This is the indestructible ancient script, both offensive and defensive, and amazing resilience.

No wonder even Emperor Tian is jealous and wants to get it.

Lu Ming immediately realized.

Soon, Lu Ming practiced under the ancient tree of Taoism for a month.

Practicing supernatural powers here is amazingly fast.

In just one month, Lu Ming had already cultivated the ancient scriptures to a certain level.

Of course, if you want to increase the power, you need to understand the other laws in the immortal ancient scriptures. The more laws you control, the stronger the power.

However, Lu Ming has no intention of comprehending other laws.

Now that he has mastered the nine laws, he needs to consume a lot of energy to understand, and he can't chew too much. Lu Ming still intends to focus his energy on the current nine laws.

"Now, it's time to refine Chaos!"

Lu Ming smiled, left the place, and returned to his place of residence. With a thought, he entered the mountain and river map.

Then a chaotic stone appeared in his hand.

Lu Ming's power to run the world, as soon as he sucked it, there were three air currents in the chaotic stone, which were sucked out.

It is the three chaos.

Generally, a chaotic stone contains three chaotic atmospheres.

Lu Ming took a deep breath, and the three Chaos Stones were sucked into his mouth, then poured into the small world, and Lu Ming began to refine it.

Rumble!

The small world is slightly shaken and becomes more stable, and at the same time, the area is getting larger and larger.

Three chaotic gases, after refining, he took out another chaotic stone, sucked out the three chaotic gases, and continued refining.

In this way, a month later, he refined all three chaotic stones and a total of nine chaotic gases.

The chaotic atmosphere of nine things made his cultivation skyrocket.

His cultivation base was originally just the breakthrough of the four-star virtual emperor. Now, he has made a breakthrough in one fell swoop and has reached the five-star virtual emperor, and even reached the peak of the five-star virtual emperor.

This speed is amazing.

It should be known that the more the cultivation practice is behind, the more difficult it is to improve, and the more energy is required.

From this we can see how precious the Nine Dao of Chaos is.

"If there are endless chaotic stones, wouldn't Xiuwei be able to continuously improve?"

Lu Ming's eyes were hot, but then he shook his head again.

This is impossible. The main reason why he can improve quickly is that he has nine kinds of laws, all of which have reached the first level of perfection. The laws of the filament cover the entire small world, making the small world very stable, so that it can continue to refine. Energy boost.

If it is someone else, the rules are not in place. Such a crazy improvement may make the small world burst.

"My law of chaos!"

At this time, Lu Ming's eyes lit up.

He felt that the law of chaos was about to break through.

Immediately, Lu Ming closed his eyes and seized the passing inspiration.

A day later, Lu Ming vacated a gray law, which was the law of chaos, but at this time, the chaos law he controlled was more powerful than before.

The second realm!

Lu Ming's law of chaos took the lead in breaking into the second realm.

During Lu Mingdu's Heavenly Tribulation, after successive battles, Lu Ming's perception of various laws has increased, and now, because of refining chaotic air, chaotic air and chaotic laws, Lu Ming and the places that communicate with each other, Lu Ming Finally caught a hint of inspiration and successfully broke through.

The breakthrough of the law of chaos undoubtedly made Lu Ming's strength stronger.

"Now, my strength, I don't know how strong it is!"

Lu Ming thought secretly.

Now if he were to face Xuanwu Lin, one of the nine, he could easily defeat each other.

"Go to the ancient tree of Tao again!"

Lu Ming cheered up and wanted to go to the ancient trees of Taoism, to make a fuss and see if he could break through several more laws.

He came under the ancient tree of Taoism again, and was involved in the law of enlightenment.

A month later, Lu Ming was disappointed.

His other eight laws all encountered bottlenecks.

When you encounter a bottleneck, you can't break it through simple hard work and hard work.

In this regard, the ancient trees of Taoism have little effect.

The ancient Tao of Taoism is like Chaos Law. Only when it has just broken through the bottleneck, the effect is great, which can make Lu Ming continue to deepen his understanding and improve the fire.

"It seems that it's time to hone on the battlefield!"

The best way to break through the bottleneck is to carry out life-and-death battles. Only in life-and-death battles can one inspire potential and improve rapidly.

When Lu Ming crossed the robbery, it was because he was faced with life and death, and finally fell into the realm of life and death, and realized how to integrate the law of life with chaos and the law of death.

Lu Ming left here. First, he bought a piece of information that introduced the battlefield and took a closer look.

The battlefield between Hunyuan Tianyu and Taiqing Tianyu is huge and very vast.

In addition to some ordinary battlefields, some strange battlefields are also divided.

For example, when Lu Ming first came, the ancient battlefield was very peculiar. No one dared to enter before.

In addition, the Celestial Realm and the aliens have also divided several special battlefields for the two strong parties to fight.

That is the Battlefield of Emperor Emperor, Battlefield of True Emperor, and Battlefield of Emperor.

These battlefields correspond to people with different cultivation styles.

Chapter 2262: Back to the battlefield

For example, the Emperor Xu Emperor's battlefield was where the two Emperor Xu Emperors entered and hunted each other.

One can hone oneself, second, one can hunt opponents, weaken the opponent's strength, and get rewards.

On the side of the heaven, it is stipulated to hunt aliens and take the alien's crystal nucleus to get rewards.

There is also a corresponding reward on the other side, and hunting for the strong side of the heaven can also receive rewards.

The battlefield of the true emperor is that the real emperors hunted each other.

The same is true of the Great Battlefield!

And for so many years, the two sides have an unwritten rule that the true emperor and the strong cannot enter the battlefield of the virtual emperor.

The great emperor cannot enter the battlefield of the true emperor.

However, the Emperor Xu can actually enter the Battlefield of the True Emperor and the Battlefield of the Great Emperor, as long as you are not afraid of death.

Because if the high realm can enter the battlefield of the low realm, these battlefields are meaningless.

You let people with high realm enter the battlefield of low realm, and hunt down people with low realm cultivation, then we can also send people. In this way, these battlefields have no sense of existence.

After seeing it again, Lu Ming knew a little about the battlefield outside, and then walked out of the Two Realms.

At a relatively partial city wall, there are special people to guard it, and at the same time, it also opens a light door to freely enter and exit the two cities.

Of course, there is a big formation here. If aliens want to mix in, they will be immediately identified and killed by the strong guards here.

Lu Ming passed this light door and came outside the Two Realms.

Uh!

Lu Ming condensed his breath, then pressed against the ground and rushed away in one direction.

The first thing Lu Ming wants to go is the Xu Emperor Battlefield.

He was very fast, and swept across the ground like a ghost, and after a long distance, Lu Ming finally entered the battlefield of the Emperor.

Entering the battlefield of Emperor Emperor, Lu Ming slowed down. However, after arriving here, Lu Ming did not converge, but revealed his breath completely.

This is nothing but the battlefield of Emperor Emperor, the strongest is Emperor Emperor, Lu Ming has no fear at all.

Today, he is already a five-star virtual emperor. In the territory of the virtual emperor, he has no fear of anyone.

He exhaled a breath to attract aliens to hunt.

Lu Ming fully bloomed the breath of a five-star virtual emperor, and then walked slowly on the battlefield, waiting for the big fish to hook.

Lu Ming walked for a while, not far away, five figures were hidden on a mountain peak.

These five figures are all people from the side of heaven, and far away, they saw Lu Ming.

"What's going on with that kid? It's actually looking for death in the battlefield!"

"This kid must be a stunned young man. He must have come to the battlefield for the first time. He thought he had five-star virtual emperor's cultivation behavior, and it was remarkable. In this battlefield, I don't know how many can kill him!"

Several of them mocked.

"No, the people in the same realm can't see death and not save. I think he should have no experience. For the first time on the battlefield, let's remind him!"

A middle-aged Dahan Dao, this person with a Chinese face looks quite righteous.

After he finished speaking, he flew out, and several others followed him.

Ok?

Lu Ming raised his eyebrows, heard the movement, looked towards several people, and at first glance, he showed disappointment.

It turned out to be a man of heaven, but he thought he was an alien.

"Little brother, this is your first time to the Emperor Battlefield!"

That Chinese character has a big face.

"Yes!"

Lu Ming nodded.

"Little brother, you are breathing like this. It's too dangerous. It's equivalent to exposing yourself to the enemy's eyelids. It will soon attract a lot of aliens to converge, find a place to ambush, or covertly act, so that you can hunt aliens. !"

The man with Guozi face kindly persuaded.

"Thank you brother, I know what to do?"

Lu Ming smiled and stepped away.

However, the breath in him still did not converge.

"Stubbornness, I am really looking for death. Such a person, I think it is a big family disciple. I think that I have some strength, so I don't take others into my eyes!"

"You know, some peak emperor emperors have lived a long time, and their combat power is comparable to that of ordinary emperors. Even if he is a genius, he will die!"

Several others said uncomfortably.

"Despite what he does so much, we have reminded him that he is arrogant and deserves to die, let's go!"

A slender old man, the most unhappy, sneered.

They returned to the mountain where they had just ambushed.

However, the Chinese character with a big face still frowned, and it seemed a bit unbearable.

After a while, Guozi faced the big man and said: "No, that young man, at a young age, has reached the five-star virtual emperor. It is definitely a top-level arrogance. If I grow up in the future, I might be able to have an extra strong man. It just felt so much, it was a huge loss. I decided to persuade him again and admonish him!"

"Go anyway? The kind of person who doesn't let him suffer a lot will not wake up and think he is the best in the world!"

Said the thin old man.

"That being said, but those who are also in the realm of heaven, must remind, go!"

After the Chinese character Hanhan finished speaking, he flew out in the direction of landing.

The national character face is obviously quite majestic, although several others did not want to, they still followed.

Lu Ming did not have a breath of convergence at all, and went all the way.

Although the Chinese characters of the Han Dynasty were good-hearted, they did not understand Lu Ming's combat strength.

"Why haven't attracted aliens yet?"

Lu Ming complained. Suddenly, Lu Ming's eyes lit up, and he saw a large mountain ahead.

These mountain peaks, rugged rocks and ancient trees are the most suitable for ambushing.

Maybe there are aliens hiding here.

Lu Ming stepped towards these peaks.

Lu Ming guessed right, in this mountain peak, there are indeed strong people of different races ambush.

Moreover, these aliens have already discovered Lu Ming.

"Hey, it's a man in the heavens. This kid is mostly a stunned man. He dared to sway and act here, really to death!"

"It's a young age, and the cultivation is not weak. It is estimated to be a arrogance. Killing a celestial arrogance, there are many rewards!"

Peaks and hills at least hid dozens of aliens, each one secretly transmitting sounds, revealing the color of excitement.

"Shoot!"

When Lu Ming approached, a Clan of Evil Gods shouted, and dozens of Clan of Evil Gods rushed out of the mountain and surrounded Lu Ming Tuan.

"finally come!"

Lu Ming smiled at the corner of his mouth.

At this time, several people with Chinese characters and big faces finally came to the neighborhood, a long distance away, and their faces changed wildly.

"No, it's an alien, that kid, was ambushed!"

"I said he was going to die by himself. Let's go fast, otherwise we will all die!"

Several thin and big men shouted again and again, trying to escape.

Because, those evil **** clan also found them.

The complex face of the Chinese character's face showed a complex color, and he was about to escape after clenching his teeth.

Do not run away, they will all die!

But at this moment, he froze, and several others also froze, his body stiff in the air.

Because at this time, Lu Ming shot.

Chapter 2263: Sweep all the way

Lu Ming didn't have any extra words, he shot directly.

call out! call out! call out!

Lu Ming points out dozens of fingers in a row, and the finger strength is vertical and horizontal. In each finger strength, there are three kinds of laws.

During this time, Lu Ming also tried to create some new supernatural powers by himself.

If other rules are incorporated into the Chaos Tribulation Finger, or the Chaos Divine Palm, a new supernatural power is changed.

Although the power is not as good as Chaos Hammer, Sword of Death, Infinite Dragon Gun and other supernatural powers, it is enough for ordinary use.

What Lu Ming is now exhibiting is an upgraded version of Chaos Tribulation Fingers, which adds other rules. This is not a simple rule fusion, but a magical power evolved through a wonderful interweaving.

puff! puff! puff!

A dozen evil spirits could not resist it at all, and the eyebrow shape was directly penetrated and fell on the spot.

Regardless of strength or weakness, it is a spike, including a seven-star virtual emperor.

After killing dozens of aliens, Lu Ming waved his hands, and the power of the world turned into a sharp blade, breaking through the bodies of the evil gods and pulling out their crystal nuclei.

More than a dozen fist-sized crystal nuclei exude bizarre fluctuations, shining brilliantly.

Lu Ming smiled. This was the first harvest. Lu Ming took out an empty storage ring and put the crystal core into the storage ring.

Then, Lu Ming turned around, nodded to the Chinese character face Han, then turned around, stepped away, and suddenly disappeared here.

Guozi faced a big man, a skinny old man, caught in petrification, his eyes rounded.

It was half loud before they reacted.

"The terrifying strength, with five stars and five levels of cultivation, instantly killed more than a dozen evil **** clan, including a seven-star virtual emperor!"

"And it seems effortless, all of them are spikes, this person is definitely a rare arrogance, amazing combat strength!"

Several people who mocked Lu Ming before were amazed at the moment.

"It seems that we are sitting in the sky and thinking that he is stunned, he has such strength at all, deliberately exhaling breath, attracting aliens to kill him, talent limits our imagination!"

Chinese characters face big sigh.

The thin old man, with a flushed face, was ashamed.

Just now, he was the most ridiculous, saying that Lu Ming was stunned, not self-controlling, and was trying to die.

Now it is found that it is not at all, but that he has short-sightedness and sits in the sky.

"Come on, let's go back and continue to ambush, we have no such strength!"

Guo Zihan laughed at himself, and then left here.

Lu Ming continued to exhale breath as before, and sure enough, he attracted aliens in succession, but he was all beheaded.

But then, Lu Ming's reputation spread on the battlefield.

Many people know that there is a peerless arrogance in heaven, and the fighting power is amazing. For a time, those aliens who saw Lu Ming did not come out at all.

Lu Ming's move failed.

Lu Ming is very speechless.

It seems that this trick can't be used for a long time, and can only be used to find the evil **** family.

Lu Ming headed towards the center of the Xu Emperor's battlefield.

In the center of the virtual emperor's battlefield, there are a group of top virtual emperors. The top virtual emperors on both sides hunt each other there.

Lu Ming was very fast. He didn't need to hide and hide. He passed directly across the sky and flew towards the center of the battlefield quickly. Soon after, he came to the core of the Emperor's Battlefield.

boom! boom! ...

As soon as Lu Ming entered the core area, he heard a deafening roar coming in front of him, and a ray of bright rays of light continually soared into the sky. The scene was amazing.

Someone is fighting, and there is more than one person.

But there are many people fighting.

Lu Ming's eyes lit up, he stepped on his feet and flew in that direction.

At this time, in front of Lu Ming, a tragic war is taking place.

A group of celestial masters were besieged by a group of evil **** clan strongmen.

There are about twenty masters in heaven, but there are about fifty masters of evil gods.

Both sides are masters, all of whom are above the six-star Emperor Emperor.

"Rush, rush out!"

On the side of the heaven, there is a real dragon, which turns into a hundred meters long, roaring repeatedly, and the dragon horn continuously bursts of lightning, trying to rush out.

This real dragon is very powerful. The Seven-Star Emperor has five rules in his control. It can be said that his strength is very powerful.

However, the opponent has the same level of existence, blocking him.

At this time, there were more than twenty masters in the heavens, each bathing in blood, and some people had been seriously injured.

On the ground, there was a corpse, a human race, and a variety of gods and beasts.

what!

A scream came out. On the side of heaven, a giant elephant was split in half by an axe of an evil **** family and fell to the spot.

"Damn, rush, you must rush out!"

The real dragon roared.

This time, they won.

In this core area, the top virtual emperors of the two sides are hunting each other. This time, they have gathered dozens of top virtual emperors in the realm. They originally wanted to be a big ambush clan.

But unexpectedly, instead of being ambushed by the other party, the other party dispatched more powerful men. As soon as they fought against each other, Heaven Realm suffered heavy losses.

They only have more than 20 people left, struggling hard to break through.

However, the number of opponents is too large, which is double that of them. Even if they try their best, it is difficult to rush out.

"Rush out, you can rush out one by one, not all die here!"

Someone shouted.

A strong human race has amazing fighting power and is not weaker than the real dragon. He struck hard, but he was besieged by two strong men of the same level. He was spitting blood and retreated.

"None of you want to escape, today, all will be destroyed!"

A burly evil spirit clan spoke indifferently.

These Evil God Clan are all Purple Scale Evil God Aristocrats, and each has amazing fighting power.

The master of heaven is in danger.

By this time, Lu Ming had arrived.

call out!

Like a rainbow, he flew from a distance very quickly, and alarmed everyone.

"There is only one person in the heavenly realm, or a five-star virtual emperor!"

The strong man of the Evil God Clan relaxed when he sensed Lu Ming's cultivation behavior.

On the heaven side, one by one showed disappointment.

"Little brother, go away and leave here!"

Someone shouted and did not want to see Lu Ming coming to die.

"Since it's here, don't want to go, I'll take him on the road!"

An Evil God Clan equivalent to the Six-Star Emperor, holding a battle axe, slammed towards the landing.

Uh!

He axed and hacked towards the landing.

In Lu Ming's hands, general war swords came out.

Supernatural Power-Sword of Death!

However, it is only composed of seven kinds of laws, and Lu Ming did not add chaotic laws.

However, the power of Lu Ming's current cultivation erupted, and the power was amazing.

A sword light was cut out, which directly defeated the attack of the evil **** clan, and even the body with a battle axe was split into two halves by Lu Ming. At the same time, Lu Ming manipulated the world's power in a roll and collected the opponent's crystal nucleus.

Chapter 2264: Enter the real emperor battlefield

One sword beheaded a six-star virtual emperor's evil **** family, neat and clean.

After beheading this evil spirit family, Lu Ming continued to step forward, a flash of fiery light flashed in his eyes.

In total, there are more than fifty evil spirits above the six-star virtual emperor. These crystal nuclei should be able to be exchanged for many treasures.

"This kid has a little strength, go to a few more people and kill him!"

There is a strong roar of evil gods.

"kill!"

"kill!"

Suddenly, there are six evil **** clan, killed Lu Ming.

Among them, there are two seven-star virtual emperors, two six-star virtual emperors, and six simultaneous shots, which are amazingly powerful.

call out! call out! ...

The third eye of the Evil God Clan exudes a dazzling light, and six rays of destruction go towards the landing Mingdong.

Lu Ming cut off with a sword, and directly scattered the six rays of destruction, and then cast six **** wings. Under one flap of his wings, his body suddenly disappeared from the place, as if penetrating the space, appearing in six moments. In front of Evil God Clan.

The sword of death suddenly became large, tens of meters long, and cut across.

puff! puff!

Three of them were swept away by Jianguang, and were directly cut into two parts. The destructive forces on all sides completely destroyed the vitality of the evil gods.

The remaining three Evil God Races were shocked and wanted to retreat, but it was too late.

call out!

Lu Ming cut out with another sword, and the remaining three Evil God Races also died.

The volume of the world's power collected all the crystal nuclei of the six evil gods.

"This..."

Those Evil God Clan who are fighting in the war, as well as the powerful Celestial Realm, are a bit stunned, and even the war has stopped.

That's two seven-star virtual emperors and four six-star virtual emperors. Together, the fighting power is absolutely amazing. In the virtual emperor realm, not many creatures can resist.

However, six such masters, in front of Lu Ming, are like Chinese cabbage, arbitrarily cut and hacked.

They finally understood that there was a terrifying master.

Otherwise, a five-star virtual emperor, seeing so many masters, dare to rush over.

And the creatures in heaven are ecstatic.

They were already in danger, and would probably be wiped out by the Evil God Clan and all died here.

Such examples often happen on this battlefield.

But Lu Ming's appearance gave them hope.

"kill!"

The six masters of the Evil God Clan were beheaded, Lu Ming kept on, and the six feather wings fluttered towards the Evil God Clan.

puff! puff!

Lu Ming is like a tiger entering the flock, destroying and withering away, each sword is cut out, at least one evil spirit clan is killed.

Regardless of whether it is a six-star virtual emperor or a seven-star virtual emperor, as long as it is a virtual emperor, it is the same in front of Lu Ming, killing him with a sword.

After a few breaths, Lu Ming even killed more than a dozen evil **** clan, plus the one he just killed, and within a minute, Lu Ming beheaded more than twenty evil **** clan.

More than fifty evil spirits have suddenly become more than thirty.

"Retreat, retreat!"

The Evil God Race panicked and understood that it had encountered a horrible genius. In the face of such a genius, it could not be confronted at all and could only escape.

"Don't let them go!"

"Kill!"

The creatures in the heavens were excited and shouted, ignoring the injury, desperately killing the evil **** clan, entangle them, and not let them escape.

"Go away!"

"roll!"

Those evil spirits panicked and madly shocked, but most of them were still beheaded by Lu Ming. Only a few people escaped.

But their speed is far different than Lu Ming.

Lu Ming cast six wings of the gods, and his figure kept blinking, catching up with the evil gods who had fled, and beheaded one by one.

Then he went back and killed those evil spirits who were entangled in the spirits of heaven.

There is no suspense in this battle.

Soon after, the Evil God Clan was all beheaded, and none remained.

More than fifty evil spirits are all above the six-star virtual emperor, all fell here.

The creatures in the heavens are like a dream.

In the beginning, they were ambushed with heavy casualties and then under siege. Many people thought that there was less fierce today, but because of Lu Ming's arrival, he easily turned the king and turned the battle completely over.

"Thank you little brother, don't know what to call?"

That real dragon turned into a middle-aged man and came over to thank Lu Ming.

Others also came to thank.

"My name is Lu Ming, you are welcome, I just passed by!"

Lu Ming smiled.

"Lu Ming? Is it Lu Ming who became the emperor with multiple laws?"

"It must be him, otherwise, who else can have this combat power?"

Upon hearing Lu Ming's name, the spirits of the heavenly realm were respected one after another.

During this time, the name of Lu Ming has been circulating in the heavens. Many powerful people in the two realms have also heard of Lu Ming's name.

Before he became an emperor, he controlled nine kinds of laws, and even three of the strongest laws among them.

The most important thing is to become an emperor, breaking the truth, creating a myth, and it is difficult to think about it.

Celestial beings, after hearing Lu Ming's name, finally reacted. No wonder Lu Ming's combat power is so amazing, if it is that Lu Ming, then it is not surprising.

"Goodbye, everyone!"

Lu Ming smiled, said nothing, and left here step by step.

Just now, those crystal nucleus and storage bracelets of Evil God Clan were taken away by Lu Ming.

Next, Lu Ming wandered around the core land and killed some of the top virtual emperors of the evil gods.

"In this Emperor Emperor's battlefield, it's too easy for me, there is no opponent at all, and in this way, there is no slight tempering effect!"

Lu Ming thought.

The most important thing for him to enter the battlefield is to hone himself and strive to raise other laws to the second level.

But in the battlefield of the Emperor Emperor, nobody is his enemy!

He decided that he would enter the battlefield of the True Emperor!

The real emperor battlefield, the absolute master is like a cloud, that is where he hone!

Thinking of this, Lu Ming did not stay, flew towards the battlefield of the True Emperor.

The Battlefield of the True Emperor is close to the Battlefield of the Emperor Emperor, but its area is much larger than the Battlefield of the Emperor Emperor.

The Battlefield of the True Emperor is undoubtedly more dangerous. Those who can practice and hunt in the Battlefield of the True Emperor are masters of the True Emperor.

Lu Ming was extremely fast. On the road, he met two waves of short-eyed evil spirits who wanted to attack him and was directly killed by Lu Ming.

Soon after, Lu Ming came to the battlefield of the True Emperor.

At this point, Lu Ming no longer dared to sway like the battlefield of the Emperor Xu.

Lu Ming converged his breath, landed on the ground, and proceeded carefully.

Lu Ming did not intend to enter the core area of the True Emperor's battlefield, but intended to hone in the peripheral area.

The battlefield was very quiet, and no figure could be seen at all.

In the battlefield, most people don't dare to go against the sky, because that goal is too big, it's an act of seeking death, unless it's a terrifying existence.

Lu Ming runs cautiously, and at the same time the spiritual knowledge permeates out, always paying attention to the movement of the Quartet.

boom!

Suddenly, the rock beneath Lu Ming's feet exploded, and a huge claw caught at Landing Ming.

Chapter 2265: Encounter a strong enemy

A large hand, covered with purple scales, is as big as a water tank, and it screams towards the landing. It has amazing power.

At a critical moment, Lu Ming reacted, his footsteps suddenly stepped down, and the violent force burst out, bombarding with the big hand.

boom!

With a violent roar, Lu Ming's body, like a shell, was blasted high into the air, bursting with tingling, and coming from his feet, he was almost cracked apart.

"Good strength!"

Lu Ming secretly panicked.

Just before colliding with that claw, Lu Ming felt the power of that claw, which was astonishing, far above him.

The ancient scriptures are running, and the injuries on the feet are quickly healed.

boom!

On the ground, gravel splashed, and a burly Evil God clan appeared.

The Evil God Race, covered with purple scales, is extremely burly, four meters high, holding a thick iron bar, staring coldly at the land.

bump!

This evil **** clan stepped hard, the rock on the ground exploded, and his figure rose into the sky, lifted the iron rod, and banged Lu Ming with a stick.

The iron rod suddenly grew larger, like a mountain, pressing against Lu Ming, the void was constantly bursting, and the endless space storm was rolled up.

Lu Ming's pupils contracted sharply. At this moment, Lu Ming did not retain anything at all, and cultivated his body to the extreme.

In his hand, a long spear appeared, which was the supernatural power-infinite dragon spear, which contained nine laws.

The power of the world poured into the Infinite Dragon Gun crazy, Lu Ming also swept out a gun, turned into a shocking gun, and collided with the iron bar.

boom!

This void was rippling like a wave of water, and then burst continuously, stretching for thousands of miles.

Then, a figure was directly flew out.

Lu Ming!

At this moment, Lu Ming's arm was covered with cracks, which was extremely unbearable.

This is because the laws conflict with each other, but more often, the other party's terrifying power comes in, hurting Lu Ming.

Even though Lu Ming exerted all his strength and exhibited nine laws of magical powers, he was still invincible, was blown out, and was injured by the other party.

You know, when Lu Ming shot, he had already transported the immortal gold body, his body defense was amazing, but he was still injured. It shows how powerful the opponent's skill is.

"Evil God Cultivation's strength is strange and illegal, but the attack power is extremely terrifying and can penetrate the law!"

Lu Ming frowned.

He felt that the power of cultivation of the Evil God Clan was somewhat similar to that of the ancient system.

Such as Taiko demon road, Taikoo demon road, the power of cultivation is extremely pure, the power is very terrible.

"A virtual emperor can actually stop me without dying!"

The evil **** clan also showed shock and disbelief in his eyes.

"This person must be the celestial arrogance of the heavenly realm and must be killed!"

Next, he was excited, filled with a terrible killing opportunity, stepped in the air, and slammed towards the landing.

"kill!"

Lu Ming did not give in, but also killed the other party.

Although the opponent's combat power is stronger than him, it is not too outrageous to kill him with one stroke.

Can't kill him with one stroke, Lu Ming has no fear, but he has an immortal classic.

The ancient scriptures are running, and the injuries he just received have been healed, and Lu Ming is still in the peak state.

Lu Ming uses the nine laws, physical power, and world power to the extreme, wielding the infinite dragon gun, and fighting with the other party.

boom! boom!

After two consecutive moves, Lu Ming was blasted again, his whole body made a broken sound, and there was blood in his mouth.

However, his injury is recovering at an alarming rate, a breath, his injury is better than half.

This is the terrible place of the indestructible ancient scriptures, and the recovery effect is not comparable to a single law of life.

"Come again!"

Lu Ming showed excitement in his eyes.

pressure! He finally felt the pressure!

In the Emperor Emperor's battlefield, it is impossible to have it. The True Emperor's battlefield is really extraordinary. As soon as he comes in, he encounters such a terrible opponent.

However, this is also the best object to hone, let Lu Ming do his best to fight.

Lu Ming rushed towards the opponent with a spear.

The two continued to fight together.

In terms of attack power, Lu Ming is not at all enemies. He was blasted out every time and was injured by the opponent, but he was able to heal quickly every time, recovering at an alarming speed.

"Monster, this monster!"

Evil God cries roared with horror in his eyes.

"kill!"

Lu Ming Chang Xiao, momentum like a rainbow, constantly rushing towards each other, as if fearing life and death.

But at this moment, Lu Ming sweated up and felt a fatal crisis.

bump!

The ground exploded and a figure rushed out to fly to Lu Ming at an alarming speed. At the same time, a few black lights slashed Lu Ming's head at a more terrifying speed.

Those are several sharp blades, so sharp that they can easily cut through the space.

"Dangerous, extremely dangerous!"

Lu Ming turned a thought in his head. At the critical moment, the Infinite Dragon Gun waved out and blocked two sharp blades.

Zizizi...

The blade was cut on the Infinite Dragon Gun, making a piercing sound. The Infinite Dragon Gun was completely interwoven with the power of the world and nine kinds of laws, but at this moment, the law vibrated and was cut by the blade. Two cuts.

Fortunately, these two blades were blocked, but there is a third!

Yes, there is a third blade, which cuts off to Landing Ming's neck.

Lu Ming was shocked, cast six **** wings, and quickly backed away.

puff!

The blood was splashing, although Lu Ming avoided the point, but on the chest, he was still chopped with a sharp blade, and there was a deep wound, blood flowing, and his body was almost cut in two.

Lu Ming runs the ancient scriptures, the wounds move quickly, automatically seal, and recover quickly.

"this is..."

At this time, Lu Ming only saw the evil **** clan attacking him.

This evil spirit clan has a very strange appearance, which is very different from the evil spirit clan Lu Ming saw before.

Although this evil spirit family is covered with purple scales, it is extremely small, only about one meter high, and is thin, but the most strange thing is that the other party actually has four arms.

Four arms, each holding a sharp blade.

There is also a third eye in the eyebrows of this evil **** family.

"What kind of evil **** family is this?"

Lu Ming's heart moved. He had never seen such an evil spirit family before.

"A virtual emperor, who is so difficult to deal with, is definitely a rare arrogance. He must be killed, killed!"

Cruel colors appeared in the eyes of the thin Evil God Clan. Under a trembling figure, they disappeared directly from the place. The next moment, Lu Ming felt a terrible crisis from behind.

Thinking about it or not, Lu Ming cast six **** wings, transparent wings fanned at a rapid speed, avoiding the opponent's blow.

However, a huge iron bar smashed towards the landing, with strong energy, and pressed Lu Ming couldn't breathe.

It was another evil spirit clan who took action, spotted Lu Ming's retreat, and made a move.

Chapter 2266: Division of the real emperor realm

Lu Ming was besieged by two Evil God Clan and could not escape it.

At a critical moment, Lu Ming waved the Infinite Dragon Gun and stood in front of him.

boom!

Lu Ming's arm rattled, his bones broke, and a terrible force pressed over, causing Lu Ming's body to fly out and cough up blood.

At the same time, the thin Evil God Clan, once again, shot towards the landing.

Lu Ming roared and tried his best to evade, while the golden body was running, and his body was as hard as a magic soldier.

However, the opponent's sharp blade was cut on Lu Ming, and the indestructible gold body was still broken, and several deep wounds appeared, touching the bones.

If there is no indestructible golden body, his body must be cut in two.

"Damn, why is this kid so hard to kill, kill, kill, kill!"

The skinny evil **** clan kept roaring, four arms and four sharp blades, waving continuously, launching a stormy offensive against Lu Ming.

At the same time, another evil spirit clan also killed Lu Ming.

The two besieged Lu Ming into a crisis.

Lu Ming was running full strength, constantly dodge, and occasionally counterattacked. However, he was still injured continuously, and he was almost cut off his head several times.

Fortunately, there is an indestructible ancient scripture, and his injuries are recovering quickly.

However, if this doesn't work, he will still lose, and he will be beheaded by the opponent.

The other party has a powerful force and an amazing speed. Both of them must be above Lu Ming.

Lu Ming began to consider whether to use a falling star bow.

Just then, not far away, a rainbow of light roared, and the speed was amazing.

"Human race!"

Lu Ming's eyes lit up.

Lu Ming saw that it was a gray-haired old man who rushed directly towards their battlefield.

call out!

Very far apart, the old man cut out a sword light and slashed towards that thin evil **** clan.

The skinny evil spirit clan waved four blades to resist and collided with Jianguang.

A few roars, the body of the skinny Evil God Crazy, flew out.

By this time, the white-haired old man had arrived, holding a long sword, and the cold sword light exploded, pouring towards the thin evil **** clan.

This old man, with amazing strength, is still above the skinny evil **** clan. Suddenly, the skinny evil **** clan has no counterattack power and can only defend one after another.

There is only one burly evil **** clan, Lu Ming's pressure suddenly reduced.

Buzz!

Lu Ming waved the infinite dragon gun and killed towards the burly evil **** clan.

Although he lost to the burly evil **** clan, Lu Ming completely ignored his own defense and launched a crazy attack.

Even if the opponent's attack falls on Lu Ming, as long as it is not a spike, Lu Ming is not afraid.

In the fierce battle between the two, at the beginning, Lu Ming was still at a disadvantage, but as time passed, he began to move back to his disadvantages.

He disregarded the defense, even if he was injured, he could recover quickly, but the other party could not do it. He needed to be distracted by the defense. After a long battle, the consumption was very serious.

Slowly, Lu Ming took the upper hand and was suppressed.

"Keep going!"

Lu Ming's eyes became extremely bright.

Among the fights between life and death, the most exciting potential is the deepest understanding of the law.

At this moment, Lu Ming felt that his understanding of the law of Dao and the law of death had reached a limit, and he was about to touch the breakthrough window.

Just a little bit, as long as the window paper is pierced, Lu Ming can break through.

what!

At this time, a scream rang out.

The skinny evil **** clan lost to the white-haired old man and was beheaded by the white-haired old man.

The skinny Evil God Clan was beheaded, the burly Evil God Clan was shocked, and the square was in chaos. After being shot by Lu Ming, a translucent hole appeared in his body.

The burly evil **** clan turned around and ran away despite the injury.

He knew that he would lose, and he would not run, only die.

He ran from the other direction of the white-haired old man, sprinting swiftly, with amazing speed.

"Want to go!"

Lu Ming's eyes were cold, the falling star bow appeared, and as soon as he pulled the bow string, a nine-color arrow flew out.

With Lu Ming's current practice, pulling the falling star bow, the power is even more amazing.

The arrow flew over the void in an instant, and the burly evil **** clan wanted to resist, but he couldn't stop it under the serious injury, and was directly shot in the head, his brain like a watermelon, bursting apart.

The two evil gods all fell!

"Haha, amazing, amazing, really amazing!"

The old man with white hair laughed and looked at Lu Ming, full of surprise.

Lu Ming's cultivation practice was nothing more than a five-star virtual emperor, but his combat strength was so amazing that he was very shocked.

"Thank you for your help!"

Lu Ming thanked with clenched fists.

"Haha, you don't have to thank me. With your strength, even if you don't shoot me, you will be fine. You are nothing but a five-star virtual emperor. The power of the fifth-order combat power of the real emperor really surprised me! "

"True Emperor's fifth-order combat power?"

Lu Ming showed his doubts.

"Little brother does not know the division of the power of the true emperor?"

The white-haired old man was surprised.

Lu Ming shook his head, he did not know.

"Don't know the division of the power of Zhendi, dare to come to the battlefield of Zhendi, this..."

The old man with white hair was a little speechless, and then said: "Little brother, we will first take the crystal core, and then leave here to talk again. I just feared that it will attract others to come over!"

"it is good!"

Lu Mingfei flew to the burly evil **** clan and collected the other party's storage bracelet and crystal core.

The white-haired old man put away the storage bracelet and crystal nucleus of the thin Evil God Clan.

Then the two left here, and soon after, they appeared in a hidden cave.

On the way, Lu Ming knew that the old man was called Bai Tai, and Lu Ming also told his name.

But the old man had never heard of Lu Ming's name, because the other party had been killing and hunting aliens on the battlefield, and had not gone out.

"Senior Bai, I don't know how the fighting power of the True Emperor Realm is divided?"

Lu Ming asked again.

Previously, he was very curious about what Bai Tai said about the 5th order of the real emperor, instead of being called a few stars.

"True Emperor Realm is a very complex state. According to cultivation, it is usually one star to seven stars, but the combat power among them is different by 180,000 miles. That is because of the rules!"

"In the real emperor realm, the law determines the combat power, and cultivation is not so important. For example, a seven-star real emperor has only three or four rules in the second realm. You are in control of the nine third-level laws. Then you say, who is stronger or weaker?"

Bai Tai explained, and then asked back.

"Naturally, the people who control the nine third-level laws are stronger!"

Lu Ming said.

"Good, so in the real emperor's realm, although cultivation can also determine the combat power, it is not so important. The rule has a greater influence on the combat power!"

"But the rule of the real emperor realm is too big!"

"As we all know, as long as cultivation reaches the peak of the virtual emperor, and cultivates three laws to the second realm, it can impact the real emperor realm and become a one-star true emperor, but this is the weakest one-star true emperor, only three This law is only in the second realm!"

"If you want to become an emperor, you must cultivate nine laws to the third realm, and some of the laws of the true emperor at the peak have control over the nine laws of the third realm!"

"Three kinds of second scenes, nine kinds of third scenes, each scene, and the strength of the weather, how big is the gap?"

Bai Tai explained in detail.

Chapter 2267: Join hands

Lu Ming touched his nose, and he understood that the gap was one hundred and eighty miles away.

Three kinds of second realm and nine kinds of third realm, this gap is really amazing.

"The real emperor's weakest one is the cultivation of one star, controlling the three second-level laws, while the peak emperor, the cultivation of seven stars, controlling the nine third-level laws, the difference in strength is too amazing, simple With one star, two stars, and three stars, it is impossible to accurately distinguish the fighting power of the true emperor!"

"So, in ancient times, the ancestors made a more detailed division of the real emperor realm, that is, the division of combat power. According to the combat power, the real emperor was divided into eighteenth order!"

"This is the Eighteenth Order of the True Emperor!"

Bai Tai explained.

Lu Ming suddenly realized that he finally understood.

"True Emperor, actually divided into eighteenth order combat power!"

Lu Ming also sighed.

"For example, the one who has just broken through the True Emperor and only controls the three second-level laws is the weakest True Emperor's first-level combat power. Of course, the same level of combat power also has strength and weakness. Some people control the strongest law, Some people control the laws of kingship, some people control the common laws, and the use of magical powers also affects the combat power!"

"Even if you control the three second-level rules, plus one or two first-level rules, it is also the first-order combat power of the true emperor!"

"Similarly, those who control the four or five second-level laws are cultivated to be one-star true emperor, and second-order combat power of the true emperor..."

"In short, the division here is very complicated, and it is difficult to make clear in three words. I will give you a jade symbol with a detailed division of the real emperor's real power. You can take it and see!"

After words, a jade symbol appeared in Baitai's hand and handed to Lu Ming.

"Thank you, Senior Bai!"

Lu Ming took it, swept the consciousness, and watched it carefully.

After a while, Lu Ming put down the Jade Fu, and finally divided the fighting power of the True Emperor Realm to understand clearly.

In the real emperor realm, the law most affects the combat power, but cultivation, that is, the power of the world, the power of the flesh, the magical power, etc., can also affect the combat power.

Therefore, the total combat power is divided into eighteen levels.

The two Evil God clan that they were beheaded by before had the fifth rank of the real emperor.

After a comparison, Lu Ming estimated that he had the fourth order combat power of the True Emperor.

Although Lu Ming's cultivation practice is only a five-star virtual emperor, Lu Ming's physical body is very strong, which can make up for the lack of cultivation practice.

Lu Ming is in control of nine rules, but three of them are the strongest rules, turning into magical powers. The attack power is very amazing, and the law of chaos has reached the second realm to have the fourth order of the true emperor.

It is already extremely amazing.

In history, there has never been a five-star virtual emperor who can reach the fourth order of the real emperor.

The strongest, it is equivalent to the first order combat power of the true emperor.

However, Lu Ming also understands that although his combat power is the fourth-order combat power of the True Emperor, but with the immortal ancient scriptures, Lu Ming is enough to fight the fifth-tier

combat power of the True Emperor, and even consume it, consuming his opponents with energy consumption. The previous battle was enough to explain the problem.

"My combat power is the seventh rank of the real emperor!"

Bai Tai informed.

Lu Ming nodded, no wonder the other party could easily kill an evil **** clan of the fifth order of the true emperor.

"Lu Ming, on the battlefield of the true emperor, only the strong ones dare to come in. Generally, the worst ones have the fourth-order combat power of the true emperor. The weaker ones dare not come in and are easily killed!"

Baitai Road.

Lu Ming smiled bitterly. It seems that his combat power is the weakest in the battlefield of the True Emperor.

However, Lu Ming was not worried, but more inspired his fighting will.

Only in this environment can he break through faster.

In the previous battle, Lu Ming felt that the law of death and the law of formation would soon be broken.

Moreover, Lu Ming has a lot of cards, such as the falling star bow, and the body of the Emperor Tian. In case of encountering the perverted True Emperor, he is self-careful.

"Lu Ming, next, why don't you think that we two would join forces to hunt down the Evil God Race together?"

Bai Tai proposed.

"it is good!"

Lu Ming pondered a little, then nodded and agreed.

First of all, he thinks that the Baitai people are good, not like that kind of insidious person. In addition, he is indeed very strange to the battlefield of the True Emperor. Only by joining Baitai can he hunt the evil gods better.

"Okay, but the periphery of the Emperor Zhen's battlefield is also very dangerous. There are so many masters and we can't rush around. Let's first find a place to ambush to see if we can ambush the Evil God Race!"

Bai Tai suggested that Lu Ming naturally had no opinion.

The two left here and found a secret place. Bai Tai took out a black cloth and covered them. Suddenly, they merged with the rocks around them, the colors were exactly the same, and they couldn't be seen at all.

Moreover, this cloth also has the function of masking the breath, if it is not close, it will not be noticed.

Lu Ming secretly wondered. It seems that those who can be active on the battlefield all year round have unique tricks.

The two waited like this.

In the first two days, there was no movement at all, no aliens were seen, and even the creatures of the heavens did not touch one.

It wasn't until the third day!

"coming!"

Bai Tai's eyes lit up, looking north.

Lu Ming also looked over, saw three figures, walking on the ground, the speed is not fast, and it is very secret. If you don't look closely, you can't see it.

It is a person of the evil spirit family.

Two burly cult gods, one slender figure, with four arms.

The three evil spirits are very careful and look at the Quartet carefully to prevent being ambushed.

"Senior, shall we shoot?"

Lu Ming sent a message to Bai Tai.

"Shooting, but you can't rush out, you need a strategy!"

Baitai Road.

In the real emperor realm, it is difficult to judge the strength of the opponent's combat power when not doing it.

True Emperor Realm is different from other realms. Other realms can be judged a little according to the strength of cultivation, but True Emperor Realm is not easy to say.

Some people cultivate low, but the law is amazing and the combat power is naturally amazing.

Therefore, in the battlefield of the Emperor, sometimes luck is also very important.

For example, if you are ambushing someone, if you are unlucky and ambush into a terrorist presence, you can only admit that you are out of luck.

Therefore, it is difficult for these three evil gods to judge each other's strength.

If in the past, he met three people, Bai Tai would not be able to shoot, because the risk is too great, but now, he decided to shoot.

"Well, wait a minute, you don't want to shoot first, let me first try to test the opponent's combat power. If the opponent's combat power is stronger than me, you will use that bow and arrow to suppress the opponent and we will retreat!"

"If it is the other party's combat power, within our coping range, we will shoot together and kill the other party!"

Bai Tai proposed.

"Senior, so are you in danger..."

Lu Ming said, I was touched.

He understands that Bai Tai is protecting him. If the opponent's combat power is too horrible, far above them, then Bai Tai rushes out, and he will be more aggressive, but Lu Ming can survive at least.

"On the battlefield, there is no danger at all."

Bai Tai smiled.

Chapter 2268: Continuous breakthrough of laws

They waited for a while, and when the three evil gods were close enough to them, Baitai shot.

call out!

Baitai seems to be transformed into a divine sword, the sword of man is united, penetrates the void, and kills him, facing the vital point of a burly evil **** clan.

"There is an ambush!"

A Crow of the Evil God cries, the Clan of the Evil God who was attacked by Baitai, a battle axe appeared in his hand and cut towards Baitai.

call out! call out! ...

At a critical moment, Bai Tai's sword changed, and originally a sword light, differentiated into eight sword lights, and killed him.

Although the opponent blocked six of the sword lights, there were still two sword lights that fell on the opponent.

bump!

The Evil God Clan was directly blown out, his body was almost cut into pieces, scales flew, two deep wounds appeared, and blood flowed.

"It is equivalent to the sixth order of the real emperor!"

With a move in Lu Ming's heart, he judged the combat power of the evil **** clan injured by Bai Tai.

"dead!"

Baitai wanted to fight this evil spirit clan, but the other two evil spirit clan had already started, killing Baitai.

The fighting powers of the two Evil God Clan are very amazing. Bai Tai dare not carelessly and can only stop defense.

The three of them collided several times in a row, and Bai Tai was shot and flew out.

"kill!"

"kill!"

The two Evil God Clan, killed towards Baitai, Baitai broke out with all his strength, and fought against each other, falling for a while.

"A true emperor's seventh-order combat power, a true emperor's sixth-order combat power!"

Lu Ming judged the fighting power of the remaining two evil gods.

One of them is as powerful as Baitai.

The two teamed up and Bai Tai fell to the disadvantage, but Bai Tai devoted himself to defending and would not lose for a while.

At this time, the wounded Evil God clan struggled to stand up, revealing a terrible color, and wanted to kill Baitai.

"True Emperor's Tier 6 combat strength, I will try it!"

Lu Ming showed a hint of war and rushed past.

In the process of rushing out, Lu Ming condensed a spear in his hand. Nine laws were intertwined in it.

Uh!

He turned into a flash of lightning and killed the wounded evil **** clan.

"Emperor Emperor!"

Sensing Lu Ming's breath, the Evil God Clan slightly stunned, and then revealed a terrible murderous opportunity, saying: "A virtual emperor, dare to fight with me and kill!"

As soon as the words fell, a light of destruction burst into his third eye. This light of destruction was transformed into a sword of war, and it blew towards the landing.

Lu Ming took a long shot and collided with the War Sword.

With a bang, the War Sword was split and flew out, Lu Ming was stagnant, and then continued to strike forward.

"So strong?"

Evil God Race was shocked.

Originally thought that Lu Ming was just a virtual emperor, even if the fighting strength is strong, it is also a problem solved by one trick.

But Lu Ming was shocked when he could attack Fei's attack.

"Genius, definitely a peerless genius, kill!"

The wounded evil **** clan, with fiery eyes, held a battle axe and slammed towards the landing.

Lu Mingsi was fearless and killed him in the past.

bump!

The two collided together, a force of terror came from the battle axe, Lu Ming was violently shaken, he was shot and flew out, his arm was covered with wounds, but under the influence of the immortal ancient scripture, it was fast Healing.

"kill!"

Lu Ming stopped for a while, then killed him again.

"Boy, die for me!"

Evil God Race roared and launched a terrible attack.

The two men fought several times in a row, and Lu Ming lost his opponent. His body was hit by the destruction light of the other side, and a translucent wound appeared.

However, the muscles of the wound moved quickly and healed at an alarming rate.

"Good strength, it is worthy of the sixth order of the true emperor. Fortunately, the other party was injured!"

Lu Ming thought.

If it was the sixth order combat power of the true emperor in the heyday, Lu Ming would be dangerous even if he had an immortal ancient scripture.

But the opponent was just attacked and injured by Bai Tai, and his combat power was greatly reduced.

Lu Ming can resist such fighting power.

"kill!"

Lu Ming ignored the injury and killed him again.

The two kept fighting, Lu Ming was completely in the leeward, and was continuously injured by the other side, but under the influence of the immortal ancient scriptures, he would soon heal.

Even in a side battle, his injuries can heal quickly.

"Monster, this monster!"

Evil God Clan showed a trace of fear, Lu Ming seemed to be an undead monster.

"The law of death, the law of formation, break through, give me a break!"

Lu Ming shouted in his heart. In the fierce fighting, Lu Ming once again saw the breakthrough gas engine. Nine laws were turned to the extreme by Lu Ming.

boom!

Suddenly, Lu Ming's strength was strengthened, and the opponent's attack was opened with a swagger.

"Breakthrough, the rule of battle!"

Lu Ming was happy.

The rule of the line finally broke through and broke into the second realm.

The principle of the battle line broke into the second realm, and Lu Ming's combat power undoubtedly improved by a few points.

Uh!

Uh!

One shot after another, stab at each other.

"It's actually a breakthrough, what if it's a breakthrough, it's the same as death, kill, kill, kill!"

The evil **** clan violent anger, regardless of injury, launched a stormy general attack.

Lu Ming tried his best to fight against each other. Although it still fell, the situation was better than before.

"The law of death, the law of death!"

Lu Ming's spirit is fully concentrated, hitting the bottleneck of the law of death.

After more than ten moves in a row.

Lu Ming's body suddenly filled with a powerful and immeasurable meaning of death. At the same time, Lu Ming's powerful surge increased greatly.

boom!

Lu Ming collided with Evil God Clan again. This time, Lu Ming did not retreat, but Evil God Clan, and Lu Ming's repeated retreat.

Break the law of death!

Lu Ming's death rule officially entered the second realm.

The law of death, but the strongest law, is not comparable to the law of array. A breakthrough, combined with the law of chaos, allowed Lu Ming's combat power to be greatly improved.

Lu Ming's strength began to suppress the opponent.

"How can it be?"

The other party shouted in disbelief.

Actually, in the battle with him, a continuous breakthrough, how can there be such a person? This talent is also too evil.

"kill!"

Lu Ming's combat power soared, his confidence soared, and he began a counterattack.

call out! call out! call out!

One shot after another, covering the whole body of Evil God Race.

puff!

Evil God Clan was stabbed by Lu Ming with a spear, and passed through directly, bringing long blood.

If this evil spirit clan was in its heyday, it would still be stronger than Lu Ming.

Although Lu Ming broke through two consecutive laws and the combat power soared, Lu Ming's combat power did not rise to the rank 6 of Zhendi's combat power at once. It was probably the peak of the rank 5 of Zhendi's combat power. .

But the opponent was injured by Bai Tai before, and after fighting with Lu Ming for so long, the combat power became weaker and weaker. At this moment, the combat power is not as good as Lu Ming.

Lu Ming's offensive was like a storm, and he was going to kill the other party, completely disregarding his own defense, and the other party was even more invincible.

After more than a dozen strokes, half of his body was crushed by Lu Ming and severely injured.

Chapter 2269: Two years, the strength has increased

"Come and save me!"

The Evil God cries shouted and called others to rescue him.

There is an evil spirit clan fighting against Baitai, with the sixth-order combat power of the true emperor. At this moment, Baitai is laid down to kill the landing, and another evil spirit clan with seventh-order combat power of the real emperor continues to fight against the Baitai.

Uh! Uh!

The evil **** clan rushing towards the landing is a thin, four-armed evil **** clan, which is very fast, flashes in the void, and kills the landing.

Lu Ming took out the falling star bow directly!

In this battle, Lu Ming's goal has been achieved, and there is no need to delay it.

With the breakthrough of Lu Ming's law, the power of the falling star bow is getting stronger and stronger.

The power of the law and the power of the world are poured into the bow of the falling star, and an arrow that emits nine colors is formed, shooting at the other party, dragging out a long tail like a comet.

The skinny evil **** clan was frightened, four arms were continuously waving, and four sharp blades were chopping out, trying to block the nine-color arrows.

Keng! Keng! Keng! Keng!

Four consecutive roars, four thin blades of the thin Evil God Clan were swayed open, and his body shook wildly, retreating again and again.

Although he blocked part of the power of the arrow, he did not completely block it, and the arrow continued to shoot.

puff!

The skinny evil **** clan was directly penetrated by the arrow, and a big hole appeared. The terrible destructive power in the arrow has wiped out his vitality.

Now, Lu Ming's own combat power has reached the peak of Zhendi's fifth-order combat power. It is not difficult to pull the falling star bow and shoot the existence of a Zhendi's sixth-order combat power.

Seeing this scene, the evil **** clan that was injured by Lu Ming almost scared him to death.

"kill!"

Lu Ming put away the falling star bow and killed him. This time, without much effort, he beheaded the other party.

At this moment, the evil spirit clan fighting with Baitai was shocked and simply incredible.

The two Evil God Clan of the Sixth Order of the True Emperor actually lost to a virtual emperor and were killed by a virtual emperor, almost making him think he was dreaming.

Distracted, he was hit by Bai Tai with a stroke and was blown out, vomiting blood.

Will Bai Tai let this opportunity pass and take the opportunity to launch a stormy attack.

bump!

The Evil God Clan tried his best to make a move, and turned to escape.

Lu Ming took out the falling star bow and shot it out.

boom!

The Evil God Clan was pierced by an arrow, and was seriously injured and dying. Bai Tai, who was rushing over, seized the opportunity and beheaded with a sword.

All three evil spirits were killed.

The two put away the storage bracelets and crystal nuclei of the Evil God Clan, and left the area, lurking in another secret place while viewing the loot.

In this battle, Lu Ming got two storage bracelets, plus the previous storage bracelet, Lu Ming checked them one by one.

"Heart of the world!"

Lu Ming's eyes lit up. In the storage bracelet, he found the heart of the world, a total of five pieces.

Generally speaking, only the strong of the real emperor realm, the small world is stable, after the killing, you can take out the complete heart of the world.

After the Evil God Clan killed the real emperor on the side of the heaven, they went back to receive the reward with the heart of the world.

The heart of the world is of great use to the souls on this side of heaven.

As long as the power of the law on the heart of the world is removed, the energy of the heart of the world can be directly absorbed and refined, which can condense the small world and improve the cultivation.

Of course, if the law of the other party's world heart is exactly the same as your own, then congratulations are more effective.

However, the high level of the Two Realms City has regulations that on the battlefield, the people between the heavens and the realms cannot kill each other. Therefore, if you want to get the heart of the world, you can only grab it from the evil **** clan.

The Evil God Clan will hunt the masters of the Celestial Realm and charge the heart of the world. As long as the Evil God Clan is killed, the heart of the world can be obtained.

Take out the heart of the world, install it separately, check other things at random, and put it away.

"Lu Ming, these three hearts of the world, for you!"

At this time, Bai Tai also completed the inventory, took out three pieces of world heart and handed it to Lu Ming.

"Senior, you are..."

Lu Ming was slightly surprised.

"Take it, you are so young, you have unparalleled talents, and you will have unlimited achievements in the future. I am different. I have run out of potential. I want to improve. It is very difficult. I can just leave a little bit myself. It is better to give you resources!"

Baitai smiled.

"Senior, how can this be!"

Lu Ming refused.

"Hold it, my ancestor, originally from Hunyuan Tianyu. Later, Hunyuan Tianyu was invaded by aliens, and they fled to Taiqing Tianyu on my ancestor. For so many years, my Bai family has been in the two worlds and the aliens. Fight, ancestors, almost all died in battle, my purpose of survival is to hunt aliens!"

"However, with my talents, my achievements are limited in the end, and the aliens that can be hunted are also limited. In the future, you still have to rely on geniuses with unlimited potential, take it!"

Baitai Road.

Looking at the sincere and expectant look of the old man, Lu Ming couldn't refuse, and accepted the three hearts of the world.

After that, they laid an ambush here, but unfortunately, for three consecutive days, none of the Evil God Clan had seen it.

Lu Ming simply took out a heart of the world and refined it.

The rolling energy was refined into a part of Lu Ming's small world.

The power of his world is rapidly improved.

The hearts of these worlds are all left by the low-level true emperors. They have limited energy, and it is impossible to make Lu Ming advance by leaps and bounds, but the speed of improvement is also very amazing.

Lu Ming's cultivation practice is rapidly moving towards the peak of the five-star virtual emperor.

In the next half month, Lu Ming refined the five hearts of the world, and his cultivation practice reached the peak of the five-star virtual emperor.

For half a month, I haven't encountered an evil spirit family.

The two plan to leave here and go to ambush elsewhere.

The two converged and ran carefully.

Unfortunately, a few hours later, they were ambushed by Evil God Race.

This time the opponent's combat power was very strong. There were three powerful players of the seventh rank of the real emperor. Lu Ming took out the star bow and shot the other one, and the other two fled.

In this battle, Bai Tai was hit hard. They found a secret place where Bai Tai healed his wounds.

After Baitai's injury improved, they continued to go out to hunt the evil **** clan.

In the following days, Lu Ming was on the battlefield of the True Emperor, together with Baitai, constantly between hunting and being hunted. Every once in a while, there will be a war.

Time flies, Lu Ming has been fighting for nearly two years in the battlefield of the True Emperor.

In the past two years, Lu Ming has experienced fifty-six fights. On several occasions, he almost fell, almost forcing him to use the Emperor's flesh.

Dozens of life and death fights, the rewards are also amazing, Lu Ming improves very quickly.

The laws of engulfing, the laws of maximum force, the laws of the Tao of Taoism, and the laws of the Dao, all entered the second realm.

Only the law of life and the law of penetration, there is no breakthrough.

But Lu Ming felt that it was fast and could break through at any time.

And Lu Ming's cultivation practice has also reached the peak of the Six-Star Emperor Emperor.

Chapter 2270: Seven Star Emperor

Lu Ming's combat power has also skyrocketed. Up to now, his combat power has surpassed Bai Tai. With the restoring ability of the indestructible ancient scripture metamorphosis, his combat power is already top in the periphery of this true emperor's battlefield. Yes.

At this time, Lu Ming planned to return to the Two Realms.

On the battlefield of the True Emperor, there have been continuous battles. Over the past two years, dozens of battles have been fought in succession. Every day, I was tense. I need to go back to the Two Realms and relax.

The two converged and spent several days returning to the Two Realms.

After returning to the Two Realms, Lu Ming and Bai Tai separated.

"Go to exchange resources!"

The first thing Lu Ming wanted to do was to exchange resources, then take a good rest for two days, and then go to some holy places to practice.

Lu Ming went to the place where the treasure was exchanged. Soon, Lu Ming came to a grand hall, walked into the hall, and came to a counter.

"Little brother, is there anything I need to help?"

A big man about fifty years old, looking at Landing Ming with a smile.

"Senior, I want to exchange alien crystal nucleus for a treasure!"

Lu Ming said.

"What kind of treasure do you want to exchange?" Dahan asked.

"Chaos Stone!"

Lu Ming said that his purpose was Chaos Stone.

Other treasures are of little use to him. Only the gas of chaos in the chaotic stone can help him improve his cultivation, and he can even sense the law of chaos.

"Do you want to exchange Chaos Stone? Little brother, Chaos Stone is not so easy to exchange. It requires a lot of alien crystal nuclei. I have a list here, which records the alien crystal nuclei needed by various treasures. Look!"

After that, Dahan handed Lu Ming a list.

Lu Ming took it and swept the consciousness.

Inside, there is a dense list of heterogeneous crystal nuclei needed for the exchange of various treasures.

Lu Ming ignored the others directly and found the Chaos Stone. At first glance, he was dumbfounded.

"Need so much?"

Lu Ming was really speechless.

To exchange chaotic stones, there are too many exotic crystal cores. Lu Ming estimates that the heterogeneous crystal cores he obtained in the past two years can be exchanged for three chaotic stones in total.

You know, in the past two years, he has experienced dozens of battles, and he has gained a lot. Originally, he thought that at least ten chaotic stones can be exchanged for impacting the real emperor's realm.

Now it seems that he thinks too much.

But think about it too, chaos stone, this consumable, and non-renewable, use one piece less, with the passage of time, the number will be less and less, the price is precious, and it is normal.

It can be seen that the reward given to him by the Six Saints of Heaven was already rich enough.

Three chaotic stones are equivalent to the two years of his birth and death.

"Little brother, do you want to change?"

The middle-aged man asked with a smile.

"change!"

Lu Ming gritted his teeth.

It must be changed. The Chaos Stone has a great effect on him, even if it is expensive.

The middle-aged big man was slightly surprised, a little surprised.

Originally, he saw Lu Ming's very young age. At such a young age, it was almost impossible to hunt enough foreign crystal nuclei to exchange for Chaos Stone.

So he gave Lu Ming a list, let Lu Ming have a number in his heart.

Unexpectedly, Lu Ming still had to change, he knew that he looked away.

Lu Ming took out a storage ring and handed it to the big man, saying: "Senior, this is my alien crystal core, take a look!"

The big man took a look and was more surprised, then nodded and said, "These crystal nuclei can be exchanged for three chaotic stones!"

After that, Dahan also took out a storage ring and handed it to Lu Ming. Lu Ming took a look, and there were three chaotic stones in it.

Lu Ming overjoyed away, thanked him, and left here.

Lu Ming didn't have the first time to hit the realm. After returning to his residence, he rested for two days and headed towards the small world of the ancient tree of Wudao.

On the battlefield of the True Emperor, Lu Ming has made great progress in fighting for two years. There are six kinds of laws to break through. Only the laws of life and penetration have not yet reached the second level.

However, Lu Ming has a feeling, coming soon!

The threshold of breakthrough has been touched, and with a little understanding, it is possible to break through.

Lu Ming intends to use the mature ancient tree of enlightenment to wait for these two laws to break through, and then hit the realm with chaotic stones.

Came under the ancient tree of Wudao, Lu Ming quietly realized.

Sure enough, this time the practice was very smooth. It only took two months. The law of life and the law of penetration have successively broken through to reach the second level. Lu Ming's combat power has skyrocketed.

While Lu Ming was practicing, someone in a hall of the Lan family was discussing things.

"You said, Lu Ming exchanged three chaotic stones for a large number of alien crystal cores?"

Lanjia Tiandi Blue City, asked an old man.

"Yes, the people of my blue family, in the exchange hall, saw Lu Ming, and afterwards found out that Lu Ming did use a large number of crystal cores to exchange three chaotic stones!"

An old man from the Lan family answered.

"It seems that this kid Lu Ming entered the battlefield to hunt aliens. In just two years, the hunted crystal nuclei can be exchanged for three chaotic stones. This kid can never be kept. Know his whereabouts, do you understand?"

Blue City ordered.

The old man nodded.

All this, Lu Ming naturally did not know.

"Now, go back and hit the realm!"

Under the ancient tree of Taoism, Lu Ming smiled on his face, left the place, and returned to his residence, Lu Ming entered the mountain and river map,

Then, Lu Ming took out a chaotic stone and drew out the three plumes of chaos, sucked in, sucked the chaos into his mouth, and began to refine it.

The last time, he refined three chaotic stones and spent a month.

This time, it took him only half a month to refine all three chaotic stones and a total of nine chaotic gases.

Rumble!

Lu Ming's small world has undergone dramatic changes and has begun to expand. The power of the world has become stronger and stronger, surging in the meridians.

Lu Ming's breath also improved sharply, which was a two-fold increase from before.

After a while, Lu Ming's breath stabilized and converged into his body.

Seven Star Emperor!

Lu Ming finally broke through to the Seven Star Emperor.

This speed is absolutely very amazing. It will spread to scare people.

Lu Ming became Emperor, how long it took, more than two years, to reach the Seven Stars Emperor Emperor, this speed is too horrible.

Lu Ming was able to improve so fast, mainly because the accumulation was too strong before, and once he broke through, he reached the four-star virtual emperor.

Moreover, Lu Ming's law structure is very complete, and all nine laws reach the second level, far beyond the cultivation base.

You must know that as long as there are three rules to reach the second realm, you can attack the true emperor. Lu Ming's rules have far exceeded the requirements. His small world is extremely stable, so he can continue to refine energy and improve cultivation. for.

"I still have some heart of the world on hand, continue to refine and see if I can use this to rush to the real emperor realm!

Lu Ming showed his expectation.

In the battlefield of the True Emperor, he got a lot of world hearts, all from foreign races.

On the battlefield, although he has refined some, but not many, mainly on the battlefield, it is not so stable for you to refining, and now it is just refining.
