

D Emperor 2291

Chapter 2291: Shoot one by one, the place of dusk

Ren Chan and others were ecstatic. They did not expect that Lu Ming actually had such a strong strength that he could kill the existence of the 17th-order combat power of the True Emperor.

In this way, they can completely reverse the situation.

Other interracial are also shocked.

At this time, Lu Ming pulled the bowstring for the third time and shot an arrow, aiming at another real emperor of the seventeenth order.

boom!

This alien, who was hit hard with a single arrow, and the strong man who fought with him, how could he miss such an opportunity, rushed to kill him with a knife.

The aliens of the 17th order of the two true emperors of the other party were instantly beheaded.

Then, Lu Ming rushed to the aliens who left the 17th order of the true emperor.

Every time Lu Ming draws an arrow, the opponent must be hit hard, and then be beheaded by his opponent.

After Lu Ming shot the fifth arrow, all of the opponent's seventeenth-order combat powers had fallen.

On Lu Ming's side, the three powerful seventeenth-ranking strongmen of the True Emperor took their hands out to strangle the remaining aliens.

With the participation of three Zhendi 17th-tier combat powers, the battle situation was completely one-sided. Soon after, the remaining aliens were all killed. Only the alien of the Zhendi 18th-ranking combat power, and the white-haired old man The intricacies of the war are inseparable.

"Damn!"

The alien roar of the eighteenth order of the true emperor looked at Lu Ming with a vicious look.

It was because of Lu Ming that the battle ended so much.

But what responded to him was Lu Ming's arrow.

call out!

A nine-color arrow, dragged out a long tail, and shot at this alien.

bump!

The aliens struggled to make a move, blocking the nine-color arrows, but he was also physically shocked, showing flaws.

The white-haired old man seized the opportunity and struck the other side with one stroke.

"Shoot together!"

At the same time, other people also shot, more than 20 attacks, and drowned toward each other.

The alien, tired of coping with it, backed off again and again, during which Lu Ming shot two arrows.

Two consecutive arrows, shot consecutively, made the other party startled, and repeatedly shot to resist.

In this way, he was not an opponent of the white-haired old man at all, and was continuously attacked by the white-haired old man. Finally, he was killed by the white-haired old man in desperation.

At this point, all the aliens in this vein have been killed.

"Lu Ming, this time, thanks to you!"

Ren Chan and others came over to thank Lu Ming.

This time, if there was no Lu Ming, they would be in danger, let alone get the original stone, even if they could escape, they would have suffered heavy losses.

"Since we are here together, I will naturally try my best!"

Lu Ming smiled, then took a long breath, put away the falling star bow, took out a pile of rough stones, and engulfed it.

The continuous shooting of the Seven Arrows just now is very expensive for Lu Ming and needs to supplement the power of the world.

"I'm here to take care of you, you go to collect the original stone!"

Ren Chan is humane to others.

The others nodded and then entered the mine veins to collect the original stones.

Ren Chan showed his magical powers, observing the surrounding movements through the vegetation.

Lu Ming sat cross-legged to the side, absorbed the original stone, and resumed cultivation.

After a few hours, Lu Ming has returned to the peak, but he did not go to dig the original stone.

He still has a lot of original stones, enough for Lu Ming to use for decades.

Lu Ming sat aside and waited.

After a few days, all the talents ended digging the rough.

This time, the harvest is not small, it is enough to add some time. Now it must leave. The longer it stays, the more dangerous it will be. If the other party has an emperor figure here, they will all die.

A group of people left here and ran along the mountains and hurried towards the small world where they lived.

Any cicada can sense, they are very safe and can avoid the aliens perfectly.

However, they did not dare to explode indiscriminately. In this way, after half a month's journey, they finally came to the small world where Ren Chong lives.

In front, the mountains are crowded, but there is no vegetation, it looks dead, there is gray mist everywhere, and the visibility is extremely low.

"Here, it is the dusk of one of the three forbidden places in the celestial realm, and it is the first of the three forbidden places. It is known as the dusk of all creatures. It is full of terrible field energy and very dangerous!"

Ren Chan explained to Lu Ming.

With a move in his heart, Lu Ming understood that Ren Cicada's entrance to the small world where they lived should be in this place of dusk.

"Here, are no aliens here?"

Lu Ming asked.

"Yes, of course!"

Ren Chan said: "The three forbidden areas in the Land of All Souls have long been targeted by the aliens. The other two forbidden areas have been captured by the aliens one after the other. Terrible field performance, aliens attacked many times, suffered a big loss, and suffered heavy losses!"

"Our entrance to the small world is also just outside the dusk ground, so we dare not go deep, because it is dangerous, wait a minute, you must follow us!"

They converged, and went carefully into the dusk.

Because, there are still aliens wandering around here, and it is absolutely impossible for the aliens to find that there is an entrance to the small world, otherwise, the consequences will be very serious, and the aliens will not let them go.

Entering the place of dusk, their speed slowed down. The old man with white hair walked at the forefront, and everyone else followed the route of the old man with white hair.

In this area, the mountains are ups and downs, and there is a terrifying pressure that permeates. When you look at it, you have a strong sense of crisis.

The terrain here naturally forms a variety of terrifying field energies. The more the core of the dusk, the more terrifying the field energy is, very dangerous.

They walked carefully, spent several hours, and finally entered an underground crack, entered a dark river, passed the dark river, and came to an underground cave.

Here, there is a dark swirl.

The entrance to the small world is here, which can be described as extremely secretive. It is no wonder that since such a long time, it has not been found by aliens.

They stepped into the vortex, and the next moment, Lu Ming, they came to a mountain range.

"Here, let's go to the city!"

Ren Chan smiled, and everyone flew forward.

This small world is very huge and wide in area. After they flew for a while, they came to a giant city.

There are still a lot of people or gods in this small world. After all, it is a small world. After so many years of reproduction, the number is naturally large.

Therefore, the cultivation of resources has become a scarce thing, in short supply.

After coming to the city, Ren Chan arranged a residence for Lu Ming.

Lu Ming stayed here with peace of mind.

They come, the security!

Lu Ming is now only looking for a way to return to the Taiqing Heaven while practicing.

Or, when he is strong enough, he will go straight back, but it is not known how many years it will be.

A few days later, the senior of this small world invited Lu Ming to ask some questions.

Lu Ming came from Taiqing Tianyu, and this incident shocked some powerful people in the small world.

They inquired about the situation of Tianqing Tianyu and how Lu Ming came.

Chapter 2292: Mount Wanling

The seniors of the small world want to know how to get to Taiqing Tianyu.

This is not the way to go. The cultivation resources of this small world are getting less and less. It is difficult for a strong person to be born. If it is found by aliens, it will be destroyed sooner or later.

Only going to Taiqing Heaven is the best policy.

In ancient times, not all people retreated, and not all of them retreated. Many of them stayed in the Wanling Heaven Realm without having time to retreat.

This is the case in this small world.

Unfortunately, they got nothing from Lu Ming, but only knew the current situation of Taiqing Tianyu.

Next, Lu Ming stayed here and practiced with peace of mind.

He enters the mountains and rivers every day, enlightens the Tao under the ancient trees of Taoism, and participates in the Law of Enlightenment.

Today, the ancient Taoist tree has grown to a height of 50 meters, but compared with the mature ancient Taoist tree, the effect is much worse.

But it is better than nothing.

However, after practicing for several months, Lu Ming's other laws have not broken through, and he is still the peak of the second realm.

It is not so easy to break through the third realm.

During this time, Ren Cichan would visit Lu Ming from time to time.

In this small world, Ren Chan has no doubt that her peers are invincible. Now she comes to Lu Ming, her age is similar to hers, but her combat power is far above her. She naturally finds Lu Ming often.

After two visits, the two are already familiar.

On this day, Ren Chan came to look for Lu Ming again.

"Lu Ming, we plan to go out and go to Wanling Mountain to pick some elixir and come back. Do you want to go together?"

Ren Chan said.

"Wanling Mountain?"

Lu Ming's eyes moved.

"Yes, Wanling Mountain is the first mountain in the Wanling Heaven Realm. In Wanling Mountain, there are endless elixir and holy medicine, and in the Wanling Mountain, there is sacred earth, which is very suitable for the growth of holy medicine elixir!"

"When we go this time, the first purpose is to bring back some elixir elixir. In the small world, there is a serious lack of elixir elixir, and many low-level martial arts are lacking elixir elixir cultivation!"

"If conditions permit, we can dig back some sacred earth in Wanling Mountain, then it would be better, and a lot of elixir can be planted!"

Ren Chan explained.

"Okay, let me go!"

Lu Ming said.

"Lu Ming, Wanling Mountain is no better than other places. Although our elixir holy medicine is not very useful for foreign people, they don't want to be obtained by us, so Wanling Mountain has a lot of strong guards, so it's very Danger, if you don't want to go, I won't force it!"

Ren Chan said.

"Anyway!"

Lu Ming smiled.

Lu Ming also wanted to go out and hone, otherwise, cultivation progress was slow.

Moreover, Lu Ming killed a large number of aliens on the battlefield of the True Emperor, and obtained many black crystals unique to the aliens. In the past few months, Lu Ming also took time to allow the Emperor Tian to absorb a large number of spars. The energy stored in the flesh once again reaches about 30%. With the emperor's flesh, the self-protection energy is much stronger.

"Okay, we will be leaving soon, let's go together!"

Ren Chan smiled and came to a square with Lu Ming.

Here, some people have gathered.

This time, they had to mobilize a lot of masters, and even the emperor's figures had dispatched as many as five.

In Wanling Mountain, there is definitely an alien emperor guarding him, and if he does not dispatch the emperor, he will never get the elixir of elixir.

"People are almost here, let's go!"

An old man whose hair is almost bleaching is speaking. This person is a veteran of the small world. In the realm of the emperor, they are all strong.

Lu Ming understands that this small world is guarded by the characters of the emperor, but it has never been closed, so the veteran characters are the highest level.

This time, it was led by a veteran, assisted by five other emperors, and the others were all true emperors, with more than 100 people.

This is already a strong force.

They went out of the exit of the small world, carefully out of the dusk, and went in one direction.

Wanling Mountain, located in the center of Wanlin Land, is the most famous holy place in Wanling Land.

It is said that the names of the land of all spirits are all from the mountains of all spirits.

In ancient times, when the aliens had not invaded the Land of All Souls, the Land of All Souls flourished to the extreme. Above the Mountain of All Souls, there was the strongest gate of the World of All Souls, which was guarded by the All Souls.

Later, the alien invasion, the destruction of the Wanling Sect, the death of the masters and wounds, and the Wanling Mountain were also occupied by the aliens.

They traveled very carefully, and did not encounter aliens along the way.

According to Ren Chan, in the past ten years, the number of aliens in Wanling Tianyu has suddenly decreased a lot, and the number of aliens guarding all over the world has decreased dramatically.

Therefore, they dare to come out and get resources everywhere.

If in the past, they absolutely did not dare to pay attention to Wanling Mountain, as the first holy place of Wanling Tianyu, Wanling Tianyu stationed a large number of strong aliens.

However, in recent years, the aliens on Mount Wanling have lost a lot, and many have retreated.

"Is it because of the attack on Taiqing Tianyu?"

Lu Ming guessed.

There are two battlefields in Taiqing Tianyu. In the past ten years, they have been attacked by aliens.

Perhaps, it was the aliens who transferred the strong players of other heavens to the battlefield of Taiqing heaven, so the number was reduced.

This is very possible!

It took them more than half a month before they came to Wanling Mountain.

In front, the mountains are towering and towering into the clouds.

However, there is a mountain among them, which is the most majestic and magnificent.

That is Mount Wanling, the original gas here is extremely rich and has turned into mist.

"Ren Chan, you probe it!"

The elder commanded.

Ren Chan nodded, then probed through the flowers and trees.

Soon, Ren Chan ended his investigation and said, "Four of them are very powerful, they should all be great emperors!"

"Four great emperors, okay!"

The veteran exclaimed, saying, "Wait a minute, we will take action to contain the other's great emperor. You rush in and pick up the holy medicine. If you can dig some sacred earth, that's best!"

After the elder commanded, he looked at the other four emperors, nodded silently, and rushed out together.

The five great emperors of the realm rushed to Wanling Mountain. The breath of terror immediately alarmed the aliens.

Uh! Uh! Uh! Uh!

In the Wanling Mountain, four rainbow lights rushed out immediately. They were all powerful in the Great Emperor Realm, and they fought fiercely together with the five elders.

"Let's go!"

Someone spoke, and they rushed towards Wanling Mountain.

When approaching Wanling Mountain, they were scattered in groups.

Disperse, enter Wanling Mountain, pick the elixir of elixir, and then go out to confluence.

Their trip is mainly stepping on the elixir of elixir, not fighting with each other.

More than fifty people, divided into a dozen batches, into different directions, rushed towards Wanling Mountain.

Lu Ming and Ren Chong were in a group of people. They rushed along the forest to Wanling Mountain.

boom! boom! ...

Soon, they heard violent roars from other directions. Apparently someone encountered an alien and a war broke out.

Chapter 2293: Five colored earth

In other directions, the Evil God Clan has already been encountered and a fierce battle has begun.

However, they have any cicadas. Ren cicadas can sense the enemy's breath through the trees and trees, so they have avoided the evil gods all the way.

Soon after, they successfully entered the depths of Wanling Mountain.

Here, the original gas is extremely rich, the grass is green, and among the green grass, the elixir or holy medicine can be seen from time to time.

"Quick pick!"

Ren Cianjiao yelled, and several people started, picking all the elixir and sacred medicine in the blink of an eye.

Here, there are too many elixir and sacred medicine, and the rich flavor of the medicine cannot be opened. Every few steps, there is an elixir or sacred medicine.

"That is..."

Suddenly, Lu Ming saw a medicine, which was shining brightly, exuding a little luster, and the fragrance of the medicine was much stronger than other elixir and holy medicine.

"This is imperial medicine!"

Lu Ming's eyes lit up.

Unexpectedly, before reaching the main peak of Wanling Mountain, I saw Emperor Medicine.

The elixir is of great use to martial arts.

The holy medicine is of great use to Wusheng. As for the imperial medicine, as the name implies, it corresponds to Wudi.

In fact, the ancient tree of Taoism can be regarded as an imperial medicine, a top-level imperial medicine.

Lu Ming rushed over, and the power of the world condensed into a shovel, shoveling out the imperial medicine, and put it away.

Uh! Uh!

The speed of several people was amazing, and all the elixir, holy medicine, and imperial medicine had been dug away.

This is a rare opportunity. The rare number of aliens will decrease. If the number of aliens increases in the future, there will be no such opportunity.

Therefore, it is natural to dig out some herbs.

In a short time, Lu Ming dug hundreds of medicinal materials of different levels.

Three medicines have been dug up.

At this time, the three have come to the real Wanling Mountain.

"There is sacred earth in Wanling Mountain, this is the most precious, we dig!"

Ren Cic has a few people with bright eyes, and the power of the world is turned into a hoe, digging down towards the ground.

bump! bump! bump!

The hard rock was broken, and soon they opened the rock on the surface of Wanling Mountain, and suddenly, a five-color ray of light diffused out.

Lu Ming's eyes widened suddenly.

Under the rocks of Wanling Mountain, there is actually a kind of soil, a kind of soil of five colors.

This soil, like mud, is not hard, it looks very soft, and it flows.

"Do it!"

Ren Cic, a few people, gathered the power of the world into a big hand, and suddenly grabbed the five-colored mud, but each time, they could only grab a small piece.

"Such trouble, can't you just take it away!"

Lu Ming took out a storage ring and wanted to take away the entire Wanling Mountain directly, but to no avail.

Then, Lu Ming wanted to collect the five-colored soil, which was useless.

"Lu Ming, useless, this sacred earth can't be taken away at all, even if the small world is used, it can only be dug a little bit!"

Ren Chan informed.

Lu Ming was helpless.

Also followed by the power of the world to condense a big hand, grab it.

But the five-colored soil, as if it were one body, was so thick and sticky that it couldn't be grasped at all. Each time, it could only be grasped a little bit. Compared with the huge Wanling Mountain, it could only be said to be nine cows.

"This is too slow. Even if I dig for a few days in a row, I can't dig up a lot of colored soil. I don't know if it's use of Wudao ancient trees.

Lu Ming sighed, and then his eyes lit up.

This kind of five-colored mud is amazingly strong, and the elixir, holy medicine, and imperial medicine near Wanling Mountain can only be bred because of this five-colored mud.

If Lu Ming has a lot of five-colored soil, his ancient trees of Taoism can definitely grow quickly.

Several people hurry up and dig as fast as possible.

But not long after, he was still discovered by the aliens.

"It's the aftermath of heaven, kill!"

There are more than ten aliens who screamed at the landing, and the breath was amazing.

Ren Chong several people, just want to fight.

"These aliens are handed over to me. I will evacuate them. You continue to dig up the five-colored soil and excavate the medicinal materials!

After Lu Ming finished speaking, he rushed out towards the aliens, and the infinite dragon gun came out in his hand, killing these aliens.

call out! call out!

Lu Ming stabbed several guns in succession, shattering the void and killing aliens.

Among the aliens, there is an extremely burly alien, wielding this mace, huge, and blocking Lu Ming's guns one by one.

"True Emperor Rank Seventeen!"

Lu Ming's heart moved, the strongest of these aliens, with the seventeenth order of the True Emperor, is very powerful. Lu Ming did not fight hard, but cast six **** wings, one wing, Lu Ming's figure, like A phantom, bypassing this alien and killing other aliens.

call out!

A spear, a flash of light, and an alien of the real emperor's twelfth-level combat power, was assassinated by Lu Ming.

Then, with a spear sweep, an alien of the 14th order of the true emperor was swept away, his body almost burst apart, and he vomited blood.

"court death!"

Under the eyelids of the real emperor's seventeenth-order fighting force, Lu Ming dared to kill him, almost to death.

He could not care for Cicada and others, and he wanted to kill Lu Ming wholeheartedly.

He slammed towards the landing, Lu Ming turned around and left, and fled in the other direction.

"chase!"

The headed alien roared, with other aliens, chasing crazy towards the landing.

With Lu Ming's current strength, it is still a bit faster to cast six feather wings, than the real emperor's seventeenth-level combat power, but Lu Ming did not rush away from the other party, deliberately slowed down a bit, so that the other party felt able to Catch up with him.

Therefore, those aliens clenched and landed, and immediately turned to Wanling Mountain in another direction.

"This is it!"

Lu Ming stopped suddenly.

"Boy, you know you can't escape, let's die!"

Those aliens slammed towards the landing.

"Send you on the road!"

Lu Ming took out the falling star bow and shot it with an arrow.

bump!

The alien of the seventeenth-order combat power of the True Emperor was directly hit hard, spitting blood in his mouth, and his eyes were full of terror.

Then, Lu Ming shot another alien.

call out! call out!

Then there were two arrows, shooting two aliens of the 16th rank of the real emperor.

The remaining aliens were frightened and wanted to escape, Lu Ming put away the falling star bow, cast six **** wings, and chased.

The remaining aliens, the most powerful but the fifteenth order of the real emperor, are not Lu Ming's opponents at all. They want to escape, and they are not as fast as Lu Ming. Soon after, all the aliens were beheaded by Lu Ming.

In a wave of hands, all the alien storage rings and crystal nuclei were put together. Lu Ming landed on Wanling Mountain, picked a place, broke the rock, and exposed the five-colored mud inside.

"Look at the ancient Taoist tree!"

Lu Ming thought, and entered the mountain and river map.

The ancient Taoist tree was rooted on a mountain peak in the mountain and river map. Lu Ming directly crushed the mountain peak and pulled out the ancient Taoist tree.

Lu Ming's figure reappeared on Wanling Mountain, placing the ancient Taoist tree in the five-colored soil.

Abnormal changes!

Chapter 2294: Planting the small world

When Lu Ming placed the ancient Taoist tree on the five-colored mud, an amazing scene happened.

The roots of the ancient Taoist tree grew madly and got into the five-colored soil.

The roots grow too fast, some dig into the soil, and some grow outside, along the five-colored soil, wrapping large pieces of the five-colored soil into it.

At this moment, the ancient Taoist tree grew wildly, the leaves spread out, the branches became longer and thicker, and the entire ancient tree of Wudao grew rapidly.

The ancient Taoist tree was originally fifty meters high, and soon it grew to sixty meters, sixty-five meters, seventy meters...

Lu Ming was overjoyed, it was indeed a sacred earth, and it nourished vegetation. The effect was amazing.

Lu Ming cultivated for decades and spent a lot of resources to cultivate the Taoist ancient trees to a height of 50 meters, but now, just a moment of effort, they have grown nearly 50 meters.

In particular, the roots are still growing wildly, and it seems that all five-colored soils are to be wrapped in them.

After a while, the height of the Taoist ancient tree has grown to a staggering 100 meters.

At this time, there was a flash of light in the distance, and a strong man came here.

"Close!"

Lu Ming embraced the ancient tree of Wudao and used the power of the small world to cover it.

Rumble!

The ancient tree of Wudao was pulled up and headed for the small world of Landing Ming.

Those roots are like countless hands and claws, holding a lot of five-colored mud, and moving towards the small world.

Rumble!

The whole Wanling Mountain, about one-tenth of the five-colored soil, was carried by the ancient trees of Wudao, and entered the small world of Lu Ming together. These five-colored concrete, I don't know how many, too much, if they are so slow If you dig slowly, I don't know when to dig.

"I made it this time!"

Lu Ming was overjoyed, so much five-colored soil, used to cultivate herbs, I don't know how much it can be cultivated, and, after enlightening the ancient trees, I don't need to buy any spirit solution to irrigate. There are so many five-colored soils, enough, growth rate, absolute It will be amazing.

"Human, die!"

In the distance, there was a roar, and aliens rushed towards this side. Lu Ming cast six **** wings, and flew out of here with a flash.

Soon after, Lu Ming shook off the aliens and entered Wanling Mountain, picking elixir, sacred medicine and imperial medicine insanely.

They agreed well. After two hours, they must leave here and meet at the corresponding place.

Lu Ming kept picking, and at least picked thousands of medicinal materials of various levels. At this time, he met Ren Chan and others, who were being chased and killed by several aliens. Lu Ming took out the falling star Bow, shoot the aliens.

Then they continued to pick herbs, and soon, two hours soon, they could only stop and rushed out of Wanling Mountain.

In response to Ren Cicada's reaction, there was only a wave of aliens on the road, but they escaped and flew all the way, and soon came to a hidden mountain.

This is where they have agreed to meet here.

However, they are the first to arrive, others have not arrived yet.

"I don't know what happened to the others?"

Ren Chan was worried.

Soon, someone came, four people in a group, but all suffered injuries to varying degrees. Once here, he worked hard to heal.

Soon, people kept coming.

After half an hour, only about thirty people came here.

When they came here, there were more than fifty people, but now, only about thirty people come back, which makes everyone's face look a little unsightly.

Most of the people who haven't come are already fierce!

Uh! Uh! ...

As soon as the void moved, five figures appeared, it was the elders and the other four great emperors.

"Come on, let's go back!"

The elder commanded.

"Elder, what about others? Should we wait!"

Humane.

"No need to wait, let's go!"

The veteran sighed.

Others showed a trace of sorrow, listening to the elders, the others were more or less fierce.

They are helpless, and now the aliens occupy the entire Wanlin heaven. They are like turtles in the urn. They hide and hide all day long, facing crises all the time, and don't know when they will fall into the hands of aliens.

It would be great if I could go to Taiqing Tianyu!

Someone sighs!

Wanling Mountain was attacked, and the news spread quickly. The aliens in Wanling Tianyu shook, and Lu Ming was hunting them everywhere.

Along the way, they were cautious and relied on Ren Chan's induction to successfully avoid aliens. After ten days, they returned to the small world.

After returning to the small world, they will hand over the picked elixir and the five-colored soil to the elders of the small world, who will distribute them uniformly.

Lu Ming also handed in some.

However, for the five-colored soil, Lu Ming only handed over a little bit, while Lu Ming surrendered 80% of the elixir, sacred medicine, imperial medicine and others.

"Brother Lu Ming, your elixir, holy medicine, etc., you can keep it yourself!"

A veteran smiles, Lu Ming is not a person in this small world after all, they have been very grateful to go adventure with them.

"It's okay, I don't have much use for these elixir holy remedies. Elders, I want to collect some elixir seeds, or plant seeds and the like!"

Lu Ming smiled.

"Okay, in two days, I will send it to you!"

Elder Road.

After that, Lu Ming returned to his residence. As soon as he entered, Lu Ming thought, and in his small world, a body condensed out.

This is not Lu Ming's body, but the body where the power of soul condenses.

In Lu Ming's own small world, Lu Ming is a **** and can control everything, because the laws of this small world are controlled by him.

The power of the soul is condensed in its own small world, it is no different from the entity.

Lu Ming stepped out and came to a plain.

The plain is vast, and the ancient trees of Taoism are rooted here. Under the roots, all are colorless soil.

In more than ten days, the ancient Taoist trees have grown a lot longer. Of course, naturally, they did not grow as fast as when they just obtained the five-colored soil.

However, the height of the ancient Taoist tree still reaches 200 meters.

The blades are shining brilliantly, and there is a breath of avenues, and here the Tao is realized, the speed is much faster than outside.

At the moment, Lu Ming dug some colorless concrete from under the ancient Tao tree and placed it in other places, and then planted the remaining hundreds of holy medicines and elixirs everywhere.

The small world that has just evolved has no creatures or vegetation and needs to be added by itself.

In the Great Emperor Realm, the birth spirit can evolve, but it takes a long time to add it by yourself, it is the fastest.

In a blink of an eye, three days passed, and after three days, the veteran sent people to send a variety of elixir, seeds of vegetation.

Lu Ming scattered these seeds around the small world, so that after some years, these seeds took root and germinated, and in the small world, they had vitality.

Next, Lu Ming practiced here.

Chapter 2295: Interracial kills come in

There are no years of practice, and time passes quickly.

Lu Ming is practicing in this small world. Sometimes he talks with Ren Chan, sometimes he goes out with them to obtain resources. Soon, two years have passed.

In the first year, Lu Ming and Ren Chan often went out. In the second year, they rarely went out.

Because in the second year, the number of aliens in Wanling Tianyu increased, and there were a lot more masters.

Lu Ming guessed whether the aliens no longer attacked Taiqing Tianyu, but withdrew.

Moreover, during this time, there were also more aliens at dusk.

The entire Wanling Heaven Realm, only the land of twilight, has not been captured by aliens. Obviously, the aliens are very curious about this area, and dispatched a large number of masters, wanting to conquer the land of twilight.

During this time, the aliens have been conquering the twilight land. The whole twilight land is roaring constantly. The aliens forcibly bombard the earth, destroy the structure of the earth, and destroy the field energy here.

After paying some price for the aliens, the structure of the Duskland was indeed destroyed by the aliens, and a safe path was blazed.

On the side of the small world, I also pay attention to it all the time and send people out to inquire about the situation.

Because it is about their survival and safety.

If the land of twilight is completely captured by aliens, their small world may be found by aliens.

Soon after, an amazing news came.

The aliens hit the depths of the dusk, but they were attacked terribly.

Deep in the dusk, some kind of terrible creatures awakened, attacked aliens, and started a terrifying war.

On that day, deep in the dusk, roaring like thunder, it seemed that there was a huge beast waking up.

In that battle, the aliens suffered a great loss, and a large number of strong men died in it. It is said that the strong men in the Heavenly Emperor Realm were killed and fell inside.

The aliens retreated and retreated from the depths of the dusk.

Ren Chan and Lu Ming were shocked when they heard it.

What is there in the depths of the dusk? Even the existence of Heavenly Emperor Realm fell into it, which is really amazing.

"My strength is not enough, I must continue to improve the combat power!"

Lu Ming whispered, condensed his body with his soul, entered his own small world, came under the ancient tree of Taoism, and participated in the law of enlightenment.

The law of enlightenment does not require an entity, the soul can still enlighten.

Now, he mainly understands the laws of life.

In the past two years, he has only one rule of law, breaking through to the third realm, and he has refined all the remaining chaotic stones and raised his cultivation base to the peak of the four-star true emperor.

The law of life has also reached the limit of breaking through.

This is because he is enlightened by the immortal ancient scriptures, the laws of life and the law of the Tao, and the enlightenment is faster than other laws.

This time the practice was very smooth. The law of life had already reached the limit of breakthrough. A few days later, Lu Ming successfully broke through and broke the law of life into the third realm.

In this way, Lu Ming's three strongest laws have all reached the third realm. In addition, the laws of devouring, the law of organs, and the law of formation are also the third realm.

Only the law of Dan Dao, the law of diligence, and the law of penetration are still in the second realm.

Coupled with Lu Ming's four-star Zhendi peak cultivation base, now Lu Ming's combat power has reached the limit of Zhendi's seventeenth order.

As long as he has another rule, or cultivates to break through the five-star true emperor, his combat power can reach the eighteenth order of the true emperor.

The eighteenth-order combat power of the true emperor, known as the peak combat power of the true emperor, cannot be achieved by anyone.

It has a hard rule that it has mastered one of the strongest rules, plus eight kinds of royal rules, all cultivated to the third realm, and then cultivated to reach the peak of the Seven Star True Emperor.

Such a person is the eighteenth order of the true emperor.

But without mastering the strongest law, even if you practice to the peak, you cannot have the eighteenth-order combat power of the true emperor, at most only the seventeenth-order combat power of the true emperor.

Some people, even the strongest, can only reach the 16th order of the true emperor.

This is also the reason why Lu Ming rarely encounters the eighteenth-order combat power of the true emperor. Most of the eighteenth-order combat power of the real emperor is in retreat and impacts the emperor's realm for one reason.

And Lu Ming, whether it is the law or cultivation practice, has not reached the peak, and will soon reach the eighteenth order of the true emperor. If he cultivates the law and the law, he will reach the peak. That strength, I don't know how strong it is. .

Of course, it doesn't mean that you can't impact the Emperor Realm without reaching the eighteenth order of the True Emperor. Many do not control the strongest laws, but there are nine rules that have reached their peak, and they can still impact the Emperor Realm, as long as one of them is kingly. The rule is fine.

Yes, impacting the emperor's realm, at least one of the nine laws governed by the rule of the king, which is why the king body has the potential to become an emperor.

Rumble!

At the end of Lu Ming's practice and thinking, there was a sudden shaking of the sky, as if the whole world was shaking.

"what happened?"

Lu Ming's face changed.

Rumble!

The whole world is shaking more and more, shaking violently.

"The small world is attacked, converge, everyone converges!"

A voice spread through every corner.

Lu Ming's face changed, could it be that the aliens found this small world.

Uh! Uh! ...

In the huge city, countless figures rose into the sky and gathered outside the city walls.

Lu Ming also flew over and saw Ren Chan and others.

Everyone's face was very ugly and heavy. They looked in the direction of the exit of the small world, and the violent vibration came from that direction.

Uh! Uh! ...

In that direction, a rainbow of light flew, and they were strong men guarding the exit, and they were all panicked at the moment.

"Aliens are coming in!"

Someone shouted.

Many people have pale faces.

They thought of rumors that chickens and dogs would not stay where the other races have been.

"How is it possible? How can aliens find the entrance to the small world?"

Someone shouted.

After so many years, the aliens have not found the entrance to their small world. At this time, why did they suddenly find it?

"In any case, prepare to meet the enemy!"

An old man whose hair is almost bleaching, standing at the forefront, is a veteran of the small world.

There are five elders in the small world, all of whom are extremely powerful emperors.

Rumble!

At this moment, the deafening roar came from the front, as if thousands of horses and horses were walking in the air, and the void was constantly shaking.

Then, a dark black cloud rushed towards this side.

That is not a black cloud, but an alien.

Countless aliens, riding various alien beasts, rushed over.

"The remnants of heaven, kill them, kill them all, one will not stay!"

The aliens roared, the beasts shouted, waving weapons, and rushed towards this side.

"Kill us, kill!"

A veteran shouted, this small world, all masters gathered, rushed to the alien.

Lu Ming, Ren Chan and others also followed the crowd and killed them together.

The two parties collided together.

The first to bear is the great emperors of the two sides, colliding together, erupting astonishing and terrible fluctuations, fierce fighting together.

Chapter 2296: Brutal fight

"kill!"

In Lu Ming's hands, a long spear was condensed, and the spear pierced, the gun burst shot, and in an instant, there were dozens of aliens who were killed by Lu Ming.

With Lu Ming's current combat power, there are almost no opponents in the true emperor. Even if he meets the real power of the eighteenth order of the real emperor, he can win by virtue of the mystery of the immortal ancient scriptures.

Therefore, Lu Ming seemed to be in a state of no one, not at all defending, and attacking and killing with all his strength. He continued to be killed by aliens.

Where Lu Ming passed, the aliens fell like raindrops and landed on the ground.

However, there are too many aliens, there are a lot more than them, and there are more masters.

The screams were undulating with each other, and people on this side of the sky were constantly being killed and fell here.

Especially in the duel of the Great Emperor Realm, the side of the Heaven Realm has also fallen, and the powerful Emperor Realm has fallen.

The situation is very unfavorable to them.

"kill!"

An alien of the Eighteenth Order of the True Emperor stared at Lu Ming and killed him at the landing.

boom! boom!

Lu Ming and the two collided in succession. Lu Ming launched a crazy attack regardless of his defense.

Lu Ming hit the other party, and the other party also hit Lu Ming, the two coughed up blood and retreated.

However, Lu Ming has an immortal golden body and amazing defense. With the breakthrough of the law of life, the power of the immortal ancient scriptures is even more terrifying.

Lu Ming's injuries are constantly recovering.

Lu Ming completely ignored his injury and rushed towards the other party, which was completely a desperate play.

The alien roared with a stern face and screamed at the landing.

The two continued to fight each other. After more than ten consecutive moves, the aliens finally lost, Lu Ming could recover quickly, but the other could not.

"kill!"

Lu Mingren's guns were united, and one shot pierced the other person's head.

A strong man of the eighteenth order of the True Emperor was killed by Lu Ming.

Lu Ming's current strength truly stands at the pinnacle of the real emperor's realm.

The world's power rolls the opponent's body into the small world. Lu Ming casts six feather wings and kills an alien with a seventeenth-order combat power of a true emperor.

After a few strokes, this alien was also killed by Lu Ming.

Lu Ming flickered, and selected some top real emperors to hunt.

Like the 16th rank of the real emperor, the 17th rank of the real emperor...

In this way, Ren Chan and others could finally relax.

"Go and kill the kid!"

In the high sky, there was an alien emperor who stared at Lu Ming.

The number of out-of-town emperors is already greater, and the emperor can be drawn to do other things.

"kill!"

An alien emperor came to the landing.

Lu Ming's pupils contracted, and his current combat power is almost invincible in the real emperor realm, but in the face of the emperor, it is definitely invincible, even the weakest emperor can easily kill him.

Lu Ming intends to use the Emperor's flesh.

Originally, there were too many alien masters, and there were many top-level emperors. Even if Lu Ming used the Emperor's flesh, it would not have much effect on the overall situation.

Therefore, Lu Ming intends to use it at a critical moment, but now, he has to use it.

boom!

Just when Lu Ming was going to use the Emperor's flesh, there was a terrifying and terrifying pressure in the depths of the small world.

That was Tianwei, the coercion of heaven.

God!

Lu Ming turned a thought in his heart.

It is said that there is another Heavenly Emperor dormant in this small world, which seems to be true.

"Ancestor!"

The strong men on the heaven side roared and cheered up.

call out! call out! ...

In the depths of the small world, several sword lights exploded. Wherever the sword light passed, the space was torn apart by sprawling cracks.

Several sword lights aimed at several emperors, one of them was the emperor who wanted to fight Lu Ming.

"It's God!"

The strong aliens yelled and retreated in fright.

But how can their speed compare with that of Heavenly Emperor?

puff! puff!

Several alien emperors were directly beheaded by a few sword lights, and then, in the void, a sword light flashed, and an old man with a white hair gown appeared.

This is the ancestor of this small world, a heavenly emperor, known as Juejiantiandi!

Keng!

Emperor Sword Heaven Emperor, with amazing sword roar in his hand, Jianguang burst out, and he was going to kill the alien emperor.

But at this time, Juejian Tiandi's complexion changed suddenly, and the sword's power turned into a bright and huge sword light, which cut to the side of the void.

boom!

The void exploded in that side, and a huge endless hand appeared, which was covered with purple scales and collided with Jianguang.

After a thunderous roar, Jianguang collapsed, and the big hand shrank back. On the big hand, several scales were cut off, and a trace of blood oozed out.

Then, the void shuddered, and a burly alien appeared in the air.

This alien, also exuding terrible coercion, is no weaker than Juejian Tiandi.

This is also a powerful existence of a heavenly realm.

"Unexpectedly, there is still a fish in the net of the Emperor Emperor Realm, you are not allowed to stay, today is your death!"

The alien Heavenly Emperor spoke indifferently, killing Heavenly Sword Heavenly Emperor.

Emperor Sword Heaven Emperor, a bright sword light burst out from his body, fighting with the other party, at the same time, a voice spread through the ears of everyone in the heaven.

"Don't fight, just rush out!"

The voice of Juejian Tiandi sounded.

"Rush!"

The five veterans, as well as other powerful men from the Great Emperor Realm, gathered with Lu Ming and rushed to the forefront, rushing out regardless of life and death.

"Leave me all!"

The aliens yelled, launched a siege, and gave them no chance.

"You rush first!"

"Must rush out!"

There were two elders shouting, and their bodies were filled with bright light, burning like flames.

Two veterans, this is desperate, burning their own source, their strength soared, blocking a large group of alien strong.

"Elder!"

Many people shouted.

Burning the source of life, after which life will certainly be exhausted, and there is no doubt that it will die.

"Rush!"

The veteran shouted.

"Rush out with us, kill!"

The rest of the elders, as well as the great emperor realm, with all people, continue to shock.

Two veterans struggled to stop, and they finally broke through the encirclement and rushed towards the exit of the small world.

In the rear, the aliens hunted down quickly, and during the escape, some people continued to fall.

Soon, they saw the exit of the small world.

At this time, the export of the small world was torn apart by strangers, and the export was expanded hundreds of times.

They rushed straight out.

But when they rushed out, their faces became more ugly.

In front, densely packed, all are aliens, in an arc, enclosing the exit of the small world.

Obviously, aliens are prepared.

Moreover, in front of the aliens, two big men were also seen. It was the people on the side of the heavenly realm that Lu Ming had seen before.

The two big men sneered at Landing Ming.

"Nangong Kang, it's you, you betrayed the small world, you betrayed us!"

Someone shouted.

They finally knew why the aliens found the entrance to the small world because someone betrayed them.

Chapter 2297: Rush deep into the forbidden area

Everyone's eyes showed a cold killer, staring at the two big men.

They were betrayed.

"Hey, hey!"

At the moment, the two big men gave a cold laugh.

Then, a black light radiated from them, and then twisted up, two black shadows emerged from them, and beside them, two figures appeared like shadows.

"They are possessed!"

An elder spoke.

They were not betrayed, but the two people who went out to find out the news were caught by the aliens and then possessed and set out the address of the entrance to the small world.

At this time, the two big men also came to awake. When they saw Lu Ming, they instantly understood that they were used and found the entrance to the small world.

"what!"

The two roared, their eyes red, and turned back towards the alien race.

It is difficult for them to accept all this.

However, the aliens of the Great Emperor Realm took two palms and directly killed the two great men.

"Hey, hey, the aftermath of heaven, want to escape, kill, don't let one go!"

An alien from the Great Emperor Realm waved.

Suddenly, an army of aliens called them to the landing and killed them.

"rush out!"

A veteran shouted and killed him first.

The melee broke out again, and the two sides fought fiercely together.

However, the following aliens were killed again, Lu Ming and they were not opponents at all.

"Kill, kill, kill!"

Lu Ming slapped his eyes, armed with a spear, and slapped in a row, and he was repeatedly beheaded by aliens. He was bathed in blood, and had his own and aliens.

He keeps running the ancient scriptures, repairing his injuries, just like a killing machine, never tired.

Lu Ming no longer knows how many aliens he has killed, but the number of people around him is decreasing.

Ren Chan has also been hit hard, and if not protected by Lu Ming, has fallen.

"We block and let them rush out, we must rush out!"

A veteran shouted, his body burning like a flame.

Burn the source of life.

Not only him, but other elders, including those in the Great Emperor Realm, mostly burned the source of life.

Burning the source of life, the combat power skyrocketed, and finally they were torn open.

"Rush out, Ren Chan, you must survive!"

A veteran shouted.

Ren Chan, Lu Ming, the talents are too good to die here. Only by fleeing will they be expected to rise in the future.

Young people are the hope!

"Elder, elder..."

Ren Chan wailed.

The same is true of others!

Elders and elders, this is to protect them, otherwise, with their own fighting power, the hope of rushing out is greater.

At this moment, Lu Ming's nose was also sore.

In the past two years, he has integrated into this small world, and he already has feelings.

But now, it is a kind of sorrow to see with your own eyes that people you are familiar with die one by one in front of your own eyes.

"Strength, strength, I need supreme strength!"

Lu Ming shouted.

If there is no strength, it is foreseeable that if his Taiqing Heaven domain is broken, then Yuanjie will not be spared. At that time, his relatives, his friends, and his lover will not be able to protect him.

This is unacceptable to him.

"rush out!"

A veteran shouted.

"kill!"

Lu Ming, Ren Chan and others followed the roar and killed toward the gap.

"Stop them!"

Alien strong, crazy attack, but they were blocked by the elders.

Lu Ming and their group of people were rushing towards the road, and in front of them, there were several characters from the Great Emperor Realm.

Along the way, there are still people fighting to death, but they are unwavering.

Finally, they rushed out of the siege, but the elders and the elders of the other emperor realms were already overwhelmed by the aliens and could not see the figure.

They knew that most of the elders and elders would not survive.

"kill!"

In the distance, aliens chased after them, the situation is still very critical.

"Where are we rushing?"

"There are aliens everywhere, and no matter where you go, it's a dead end!"

Many people have pale faces, and even if they rush out, they still have no way to go.

"Into the dusk!"

At this moment, Lu Ming spoke and spread throughout the audience.

Many people looked at Lu Ming involuntarily.

Entering the place of twilight, that is the first forbidden place in the world of all spirits. It is full of crises.

Before, a large number of strong people from different races entered the depths of the dusk, and finally suffered heavy losses, and even the Heavenly Emperor fell. They went in, didn't they seek death?

"If we flee to other places, we will definitely not be able to escape. Sooner or later, we will be caught up. There will be only one way to die!"

"Only by entering the depths of the dusk will it be possible to die from the dead, or we will have no chance!"

Lu Ming spoke, his voice firm.

"Okay, just do it. We have no time and rush into the depths of the dusk!"

Ren Cianjiao drank.

"go!"

The only few remaining emperors also made a decision and rushed towards the depths of the dusk.

In the rear, alien races continue to hunt, and they are approaching.

While escaping, while chasing and killing, some people keep falling.

"Our queen!"

Several great emperors came to the rear to block the aliens.

The place of dusk is very dangerous, full of terrible field energy, killing invisible.

However, because of the offense's attack, the structure of the terrain has been changed, and there are traces of pits against wow, and the field energy has disappeared.

They just followed the path opened by the aliens, otherwise they would all die under that kind of field energy.

Shocked all the way, constantly going deep into the dusk.

But after rushing for a while, they came across a group of aliens.

There are also inter-ethnic guards on this road opened by inter-ethnic groups.

Seeing Lu Ming and them, these aliens roared and killed them.

There are strong enemies in the front and chasing soldiers in the rear.

Today, there is only one battle.

"Rush over!"

Lu Ming took the lead, his eyebrows glowed, and Tiandi flew out.

Now, I have to use Tiandi flesh.

Fortunately, in the past few years, Lu Ming was free, and he would store energy for the body of Heavenly Emperor.

Lu Ming beheaded so many aliens in the real emperor realm, got the kind of spars of the other party, the number is amazing, and it is constantly transformed into the energy of the emperor's flesh.

In more than two years, the energy stored in the Emperor's flesh has reached a staggering 55 percent.

With such a strong energy, the power is naturally amazing and natural terror.

Lu Ming merged into the body of Heavenly Emperor. The body of Heavenly Emperor held a war sword and cut it out with one sword. The aliens below the Emperor suddenly died a large piece.

"Such a powerful puppet!"

Ren Chan and others were delighted. They thought that Heavenly Emperor was a puppet.

Lu Ming controls Tiandi's flesh, taking the lead and rushing to kill.

Heavenly Emperor's flesh is sturdy and immortal. Lu Ming does not care about defense at all, as long as he rushes to kill.

Chapter 2298: Golden Retriever Zombie

Heavenly Emperor's flesh, which stored 55 percent of its energy, exploded, which was really amazing.

An alien one-star emperor rushed over and was directly beheaded by Lu Ming.

Fifty-five percent of the energy exploded in full force, enough to kill Samsung Emperor.

"kill!"

With Lu Ming striking down and down, with Lu Ming showing great power, the aliens in front were finally defeated and they rushed past.

But because they were blocked by the front and followed by aliens, they lost a lot of people.

Someone keeps falling!

Now, they have less than 3,000 people!

In the entire small world, the number of people is staggering. Naturally, it is far more than 3,000.

However, some who are too low-cultivated have been taken into the small world by the powerful of the real emperor realm.

But this is also extremely dangerous, because as long as the true emperor is killed, everyone in the small world will die.

So, along the way, I don't know how many people died and how many gods and beasts.

The number is endless.

This is the war between the two realms, very cruel!

When the aliens attacked Heaven Realm, the falling creatures of Heaven Realm were endless and could not be counted.

Less than three thousand people rushed all the way to the depths of the dusk.

But after rushing for a while, they encountered a group of aliens.

No way, this road was developed by aliens. Naturally, there are aliens to guard, but it is more dangerous to walk elsewhere. The field energy of the dusk can kill everything.

Everyone fought hard to fight, **** battle, rushed to the past, and hundreds of people stayed here forever.

Fortunately, after encountering several waves of aliens in a row, no other aliens were encountered in the front, and Lu Ming went to the back to fight against the aliens who came after him.

Killed to the back, the energy of Heavenly Emperor's flesh was completely exhausted and could not be controlled.

Lu Ming can only put away Tiandi's flesh. At this moment, he doesn't know how many aliens he has killed.

To the back, their number is only about two thousand.

This is a very heavy loss.

At this time, they finally reached the depths of the dusk.

In front, one mountain after another, undulating each other, endlessly.

Here, those aliens actually stopped and finally retreated.

In the eyes of those aliens, everyone saw panic and fear!

Lu Ming and others, cheered up, did not dare to have the slightest carelessness.

"These mountains look like how they look like big tombs!"

Someone spoke, and his voice was dry.

Others were silent. Indeed, these mountains, one by one, really looked like big tombs. Although there was no tombstone or something, the shape looked very similar.

"Shouldn't it? These high mountains are so majestic, how can they be the tomb?"

After a while, someone spoke, wondering.

"Next, what should we do?"

Someone asked.

"The aliens retreat, let's take a rest first, restore strength, part rest, part patrol the Quartet!"

The elders of a great emperor.

Now, among them, there are only three characters in the Great Emperor Realm.

Everyone nodded, and now it can only be so.

They were about to arrange a rest. Suddenly, the dull roar came from the mountains.

Everyone was frightened, they could not rest, stay together, and be alert.

Rumble!

Several majestic mountain shocks, in the eyes of everyone shocked, actually split apart.

Roar!

In the cracks of the mountain, there was a roar, a terrible fierce air, erupted out, terrible, making the heart beat faster, there is a great horror.

Roar! Roar! Roar!

Roaring came out of several consecutive mountains. In the roaring roar, the mountains were trembling, and even the earth was shaking. The clouds in the sky were directly scattered by the earthquake, and a fierce crack appeared in the space. .

Among those mountains, it seemed that there were a few wild beasts dormant.

"This... what is this?"

Someone's voice trembled.

They heard the news they heard before. Some time ago, the aliens entered into the depths of the dusk, but in the end, they came back. In the depths of the dusk, there were terrifying creatures awakening, and the aliens and the emperor fell here.

Is this kind of creature now?

Their faces were pale, and they were a dead end. There were aliens in the back and such creatures in the front.

However, they didn't mean to blame Lu Ming. Even if they didn't go this way and rushed to other places in Wanling Tianyu, they would have no way to go. They would be chased by other races. Die.

Since being found by aliens at the entrance to the small world, their destiny seems to have been doomed, just like other creatures in the Wanling Heavenly Realm.

Roar!

In those mountains, there were several horrible roars in a row, and then, a few figures came out from inside.

Suddenly, a terrifying breath of death erupted madly, and shrouded the world.

Many are weak, and vomit blood directly.

"That's...human race, wrong, wrong, zombie, zombie..."

Someone exclaimed loudly, shocked.

The figure coming out of the mountain is not a huge monster. It is an adult, tall, and more than two meters.

However, these figures were covered with golden long hairs, blood in their eyes, the gas of death and the fierce anger, which could not be melted away.

This is clearly a zombie.

These mountains are indeed tombs. Among the tombs, horrible strongmen were buried and turned into zombies after death.

Lu Ming thought about them.

But what kind of existence is needed to turn into such a horrible zombie, and even the alien emperor fell here.

Roar!

A total of five zombies, blood-red eyes, stared at Lu Ming, and the terrible ferocious air came towards them.

"not good!"

The remaining few emperors rushed forward and broke their breath, trying to stop the evil spirit.

But after being stricken by the fierce anger, several great emperors shook their bodies and backed off again and again, showing shock in their eyes.

It was just a fierce rush that they could not resist. The strength of these zombies is terrifying.

However, these zombies are amazing in strength, but they are not as sane as they are. With a roar, the fierce anger becomes stronger and turns into a cold killer.

"Not good, back, back..."

An emperor shouted.

Roar! Roar! ...

The five zombies roared, and their bodies moved like lightning, rushing towards the crowd, and the speed was almost extreme.

"It's over..."

Everyone flashed a thought.

These zombies are astonishingly powerful, and they are not something they can resist at all, they will be easily torn apart.

"stop!"

At this moment, a roar came from the depths of the dusk.

Then, the bodies of the five zombies stopped suddenly, suspended in midair.

Uh! Uh! ...

In the depths of the dusk, behind the towering mountains, at least more than a dozen figures came from the sky, and the speed was very fast. In an instant, I came to the crowd.

Chapter 2299: Archaic Sports

"Human race is a human race!"

Ren Cui screamed, and others also cheered up.

The dozen or so people, definitely human races, are middle-aged men, a burly individual with a strong atmosphere.

They are full of powerful life spirits, not zombies, but real human races.

They did not expect that in the depths of the dusk, there were actually human races, and it seemed that the powerful zombies still listened to their orders.

If they are human races, they will be saved.

More than ten big men came near, first bowed to the zombies, which was surprising.

Afterwards, more than a dozen people looked at Lu Ming with a strong impunity in their eyes.

"You are a rule system? Did you disturb your ancestors' sleep a while ago?"

The head of a big man spoke, his voice cold.

"Law system? Ancestral sleeping?"

Lu Ming, Ren Chan and others, he was very surprised.

What does this big man mean?

Why do they say they are a system of laws? This statement is very strange. Isn't the other party practicing the law system?

And the ancestors were sleeping, could it be those zombies?

"Senior, some time ago, it was not our ancestors who were disturbed by the sleep, but aliens!"

Ren Chan said.

"Interracial? What interracial?"

The middle-aged man led by doubt.

"In my opinion, it is them, the system of laws, there are no good people, first take them all down and give them to the elders for interrogation to see what conspiracy they have!"

Shouted another big man.

"Not bad!"

The other big men also nodded, which made Lu Ming change their faces.

The big man headed nodded. Suddenly, more than a dozen big men were moving like lightning, appearing in all directions on Lu Ming.

boom! boom! ...

Over a dozen great men burst into a breath of breath, as did the sound of a thunderous explosion. On them, a pillar of blood flew out of the sky, rising into the sky like wolf smoke.

It was pure blood, more than a dozen big men, like more than a dozen ancient barbaric dragons, full of blood to the extreme, forming terrible pressure!

"Physical training, archaic physical training, they are archaic physical training!"

An emperor exclaimed.

Others were shocked.

Archaic physical training, these people are actually archaic physical training!

No wonder these people call them the rule system, the Taikoo cultivation system and the rule system are indeed two completely different cultivation systems.

However, the archaic body cultivation has long been lost, and now there are only a handful of people who are still circulating, and there are also very few people who practice.

Here, more than a dozen archaic body repairs suddenly appeared.

"Senior, you misunderstood. We came here for the first time. We were also chased and killed before we fled here. Those who disturb you are indeed aliens!"

An emperor explained.

The breath of these dozen or so great men is amazing, the blood is very strong, like a wild dragon, the muscles vibrate slightly, and they actually make a terrible roar.

That was caused by the extremely rapid vibration of muscles and bombardment in the air.

This is pure archaic body repair.

According to legend, the archaic body repair, pure body repair, qi and blood like a dragon, the physical body is incredible.

In their body, there is no such force as the Holy Power, the Power of the World, but they can still fly through the air and even break the void.

It depends on the flesh.

Their muscles vibrate and can resonate with the space, allowing their bodies to fly through the air, and they have used their bodies to the extreme.

This is the case with the dozen or so big men in front of us.

"Is it a misunderstanding, go and explain to our elders, go, don't force us to do it!"

The headed big man said indifferently, with a terrible atmosphere, and shrouded the world, clearly his body was no different from ordinary people, but he felt that he was facing a wild monster.

Roar! Roar! ...

The five zombies also roared with a terrible breath, covering Lu Ming and others.

Everyone's face changed.

These five zombies are extremely arrogant, and with the dozen or so big men, they simply cannot contend. If they do, they will only have one dead end.

"Anyway, they are all human races, which is better than landing on alien races!"

"Good, then we will follow them!"

Some people heard, and finally, several emperors nodded, intending to follow each other.

"Come with us!"

The big man headed first walked toward the depths of the dusk.

Lu Ming and others followed, and the other big men fell behind, blocking their retreat.

They flew towards the mountains like the tombs, and the five zombies flew into the cracks of the mountains as they approached the mountains, and the mountains closed together one by one.

"Could these zombies be strong men who practiced Taiko body training before they died?"

Lu Ming guessed.

Archaic body repair, the body is extremely powerful, and the body is difficult to decay after death, and these zombies, so powerful, are likely to be transformed by the ancient body after death.

The strong of the cultivation law system is not as powerful as the flesh, and even if it turns into a zombie after death, it will not be so powerful.

Moreover, these zombies do not seem to be wise, but following the orders of the big men, those big men, calling those zombies ancestors, explains the problem even more.

A group of people have been heading towards the inside, and after crossing those mountains, it is still the mountains that appear in front of them.

"So many mountains, not every mountain, there is a powerful zombie!"

Someone whispered, full of shock.

If this is the case, it will be terrifying, no wonder that aliens will suffer a big loss here.

They at least flew over hundreds of mountains, and in front of them, a few mountains surrounded a mountain depression, in which there was a huge stone gate.

This stone door is open, among them, there is a dark whirlpool.

"This is the entrance to the small world!"

Lu Ming and others moved their hearts.

The big man headed, first entered the Shimen, then, Lu Ming, they also entered the Shimen.

After stepping into the stone gate, the next moment, they came to a huge square. There were already many people around the square. They were all middle-aged and powerful men. They all had strong blood and blood. At a glance, they knew that they were all archaic systems.

The first forbidden land in the Land of All Souls, and the depths of the dusk, there is actually a small world, and there are a lot of archaic body repairs, which is really surprising.

"You follow me!"

The big man headed before stood in front of the crowd. After that, he took them and flew forward.

"This space is not right. Is it a small world born naturally?"

Lu Ming felt more and more surprised.

There are many small worlds in this world, most of them are artificially cultivated, and cultivation can reach a true emperor realm, and a relatively stable small world can be cultivated.

However, there are also a very small number of small worlds, which are not artificially cultivated, but born naturally.

For example, when the Celestial Realm was born, some small worlds would be born, depending on the Celestial Realm.

However, there are very few such small worlds.

The archaic body-building was inhabited naturally by heaven and earth.

Chapter 2300: Physical world

After flying for a while, a giant city appeared in front.

In the city, all kinds of stone buildings rise up into the sky, densely packed, and can't be seen at a glance. From afar, there are a lot of people in the city.

Here, like a real world, like a huge country.

According to legend, during the ancient times, there were many cultivation systems.

Such as Taikoo physical training, Taikoo martial arts, Taikoo demon road, Taikoo demon road, etc...

Numerous ways of cultivation make the flowers flourish and the prosperity is incomparable.

Later, the rule system rose, expanded and spread at an alarming rate.

Because the Swire cultivation system has very high requirements in all aspects, the cultivation conditions are harsh, and there are only a few people who can cultivate.

However, the law system does not have such high requirements. As long as it has some talents, it can be cultivated, and it naturally grows very fast.

It didn't take long for the system of laws to become the first powerful training system.

Where there are people, there are rivers and lakes!

Fighting is inevitable among the major systems, and later, a terrifying war broke out.

The major systems of Swire, and the war with the rule system.

That battle was terrifying, but in the end, it ended with a victory over the rule of law system.

Other systems, many of which have been passed down, are falling apart, slowly, and getting weaker. Today, not many people still practice the ancient system.

But here, there is such a world, did you stay here during the ancient times?

Everyone imagination!

After that, they flew into the city, and countless people looked at Lu Ming curiously, whispering one by one.

Soon after, they came to a square again, and there were already many people in the square.

There are old people, middle-aged men, and young people.

The blood is strong, like a wild dragon.

Even those old men have white hair, but their skin is smooth and their muscles are full, as if full of endless power.

"Elder!"

The big man, headed, came to a few white-haired old men, bowed to the report, and then met Lu Ming and others, and said it in detail.

After listening, several old men nodded, and one of the old men walked towards Landing Ming and others.

"Some time ago, it was you who disturbed the ancestor's sleep,"

The old man asked.

"Senior, not us!"

Lu Ming on their side, a great emperor said.

"Not you? Some time ago, the ancestors were disturbed, walked out of the tomb, roared, and fought against others. This time, we sent people to check, just to see you, and say not you?"

The old man's face sank.

"Senior, it's really not us. It was the aliens who attacked here. We were also chased by the aliens before we fled here!"

An emperor explained.

"Alien? What alien? Is it a beast? There are many beasts among you!"

The old man was puzzled and looked at Lu Ming among them.

"Not a beast, an alien, but a race from another world. It is fierce and brutal. Most of the territory of the heavens is occupied by aliens, and countless souls die!"

The great emperor explained.

"What? Race of another world?"

The old man's complexion changed greatly.

On the side, other archaic styles, and his face also changed.

"I have a physical training, and since the first war of Swire, I have lived in seclusion here. I have never been outside. What is happening to the outside world now?"

The old man asked.

Everyone's heart moved, no wonder that the other party did not know the alien, originally from the time of the ancient times, has been hiding here.

Taikoo is much older than ancient times. During the ancient times, the aliens had not invaded yet.

"Senior, like this..."

The great emperor, who was about to invade the aliens in the ancient years, talked about it in detail.

Then, I also talked about how they were besieged, how to defeat them, and how to escape to the depths of the dusk.

The old man, as well as other archaic body repairs, listened carefully. After listening, his face became very heavy.

"Seniors, such as today's Jiu Tianyu, have already occupied eight heavens by aliens. Wanling Tianyu was occupied before the endless years. Today, Wanling Tianyu's countless small worlds and other forbidden areas are all aliens. Captured, only this dusky place is not occupied, I speculate that the aliens will definitely not let go, and will mobilize a large number of strong men to attack here!"

The Great Emperor said.

The old man's face was uncertain, and after a while, he said, "Is it true or false?"

Obviously, they still doubt it.

In the World War I, the Archaic Body Surgery was defeated by the rule system, and they did not like people in the rule system.

"Sentences are true!"

The Great Emperor said that the others nodded.

Uh! Uh! Uh!

At this moment, several big men flew here at a speed, and their faces were a little panicked.

"Elder Qi Yun, the place where the ancestors slept, a large number of strong people appeared, and I don't know which group they are attacking the place where the ancestors slept!"

A big man reported.

"What? Call the strong and meet the enemy!"

The elder shouted, and the sound came from afar. Soon, the sound of the bell sounded in the giant city.

Uh! Uh! Uh!

Among the buildings, dense buildings flew out of the buildings, and countless figures flew towards the exit of the world.

"A lot of strong people!"

Lu Ming secretly panicked them.

Among them, some people have a terrible atmosphere and are absolutely the characters of the Great Emperor Realm, and there are even some strong people in the Heavenly Emperor Realm.

"You watch them, don't let them go around!"

The elder instructed the people around him, and then he rose into the air and went out to the world.

Around there are more than a dozen big men, staring at Landing Ming and others.

Lu Ming waited for them quietly.

In the past two days, they saw that a large number of figures flew back and flew back into the city.

"It seems to have won, Archaic Sports, really powerful!"

Ren Chan beautiful eyes flashed, said.

Others also showed a happy look. In any case, Taikoo is also a human race, better than aliens.

At this time, several figures flew over, and the youngest one was in the middle.

The young man looks like he is in his twenties, with a burly figure and strong muscles, as if full of infinite strength.

He flew to Lu Ming and others, looked at Lu Ming curiously, and said: "The elders let me talk, he believes that what you said is true, in the present situation, all the races in the heaven should be united with each other, so you I will be free to move here in the future, and I will arrange accommodation for you!"

Ren Chan and others were ecstatic.

Saved, apparently, the strong men of Taikoo style went out to fight against the aliens and finally believed their words and promised to accept them.

"This brother, don't know what's going on outside?"

Lu Ming stepped out and asked with a fist.

"The alien outside has been repulsed by the strong men and the ancestral holy body!"

Youth Road.

"I speculate that the aliens will increase their troops and send more powerful men!"

Lu Ming said, his face was still dignified.
