

D Emperor 2301

Chapter 2301: Training ground

The youth nodded and said, "The elders have also thought that next, a large number of strong men will be sent to stay in the place where their ancestors sleep. At the same time, the elders are also thinking of other countermeasures. Well, I will take the first Where you live!"

Then, the young man turned and flew in one direction, and Lu Ming and others followed.

On the way, they knew the name of the young man and called it Honglu.

Soon, they came to an open land, there are large stone houses, and no one lives, Lu Ming they stay here for the time being.

In an instant, Lu Ming and they came here, more than ten days have passed.

Honglu is curious about Lu Ming, mainly curious about the outside world, so they often come to Lu Ming for them.

Lu Ming, Ren Chan, and Hong Lu are all young people, and naturally they are more talkative than others.

Lu Ming and they know a lot about this world.

Their vein has been hidden in the depths of dusk since the defeat of Taikoo World War I.

The Dusk Land, the most dangerous forbidden land in the Land of All Souls, has terrible field energy everywhere. For so many years, no one has discovered that there are actually a large number of archaeological retreats.

The exit of this world, which is the place where the ancestors slept as mentioned by the Archaic body repair, is indeed the place where the ancestors of the ancient body repair are buried.

Many of the archaic bodybuilders will fall there and will be buried there. Under the effect of the wonderful field energy, the bodies of those strongmen will turn into zombies.

The zombies, although they have no psychic intelligence, but the ancient body repairs a vein, has a special method, and can communicate with those zombies, thereby controlling those zombies, forming a powerful combat power.

At first, when the aliens attacked the depths of the dusk, they were alarming the zombies, and the zombies woke up and repelled the aliens.

The zombie awakened and was also alarmed by Taiko Sports, so he sent someone to check it out later. They happened to meet Lu Ming and mistakenly thought they were attacking that area.

During the period, Honglu has been inquiring about information from the outside world, and Lu Ming will tell you what he knows.

"Interracial, so fierce, it's abhorrent, **** it!"

Honglu roared, filled with righteous indignation.

"Brother Lu, Ren Chan girl, I will take you around? Enjoy the scenery and customs on our side!"

Honglu invited.

"Okay!"

Ren Chan said, she was also very curious about this place, but when she first arrived, she did not dare to walk around.

Lu Ming also nodded.

Immediately, Honglu led the way, and everyone turned around.

Most of the archaic bodybuilders are very simple. When they saw Lu Ming, they looked at them curiously and nodded with a smile.

They made a large circle in the city and came to a wide land behind them.

This is a training ground, a training ground for the Swire system.

The practice ground is very wide, and many people are practicing, but most of them are not old.

There are two or three years old little farts, there are also five or six years old, seven or eight years old, the oldest is also a teenager.

To Lu Ming's surprise, the power of these little farts is all amazing.

Lu Ming saw that a four- or five-year-old little **** boy, with his buttocks bare, carried a tens of thousands of pounds of big tripod and ran around.

A seven or eight year old child, carrying a small hill, is walking vigorously.

One by one, amazing.

Let Lu Ming and Ren Chan be dumbfounded.

"Our archaic body training, from the age of one, we need to lay the foundation, soak with spirit fluid, and polish the body. At the age of three, we must practice the physical method, all of which is above the flesh, so the strength is relatively strong. !"

Honglu explained with a smile, quite proud.

"Great, really good!"

Lu Ming sighed.

Archaic body repair, unparalleled in flesh, really powerful.

With the cultivation law system, with the improvement of cultivation practice, the flesh will also be tempered and slowly become stronger. After arriving in the Emperor Wu Realm, the cultivation of spiritual bodies has all kinds of magical effects and powerful vitality.

However, simply speaking of the flesh, Lu Ming found that, not to mention the Emperor Wu, even many of Wu Sheng's flesh are not as strong as some 7-8 year olds here.

Those teenagers are even more amazing.

bump! bump! ...

In the sky, the two figures are fiercely fighting.

Two fifteen or sixteen-year-olds are constantly colliding in the sky, like two rainbow lights, the speed is amazing.

"It is equivalent to the fighting power of Ming Shengjing, and this kind of physical use is amazing!"

Lu Ming looked closely, and was amazed.

These two teenagers, fifteen or six years old, have the fighting power of Ming Shengjing, which is already very good.

Moreover, their use of the flesh is amazing.

I saw that their muscles were vibrating rapidly, resonating with the air and the space, allowing their bodies to fly with amazing speed.

This kind of vibration is very subtle. If Lu Ming's eyesight is amazing, he can't see it.

The attack method of the two is very simple, it is completely a collision of power, and fist to flesh.

bump! bump! bump!

The two of them fought for hundreds of moves before stopping, and each found a place to resume cultivation.

"Brother Lu, I can feel that your blood is very strong, and your body is powerful, far exceeding other systems of cultivation laws. I am very curious. Have you also practiced physical training?"

Honglu looked at Lu Ming and asked curiously.

Honglu is a master of physical training and is very sensitive to people with strong flesh.

He can naturally feel that Lu Ming's physical body is also extremely powerful.

"I haven't practiced physical training, I'm just by chance, and my body is stronger!"

Lu Ming laughed.

His spiritual body was originally a superior celestial body, and he refined the atmosphere of chaos in it, which was exceptionally powerful.

Afterwards, it was refined through nine kinds of laws when it became a river, and part of the energy of Zulong's blood was refined afterwards, making Lu Ming's flesh powerful and amazing.

In the rule system, the warriors of the same level, with no human body, can be compared with Lu Ming.

"Brother Lu, how about comparing with us?"

Honglu said.

He has not yet competed with other strong players in the cultivation system. He has always been very curious about how strong the rule system is. During the Taikoo period, he was able to defeat other cultivation systems.

"it is good!"

Lu Ming nodded, and he was also curious as to how strong the pure physical training in the ancient times was.

Violence is also an archaic physical training, and it is very powerful. At the beginning of the ten world battles in the Yuan Realm, Lu Ming fought with Virtue and was very impressed.

The two of them moved into the sky.

In the practice field, those teenagers and children were attracted.

"Brother Honglu is going to shoot!"

"Brother Honglu is invincible in his younger generation and has not shot for a long time. This time he can study hard!"

The teenagers and children shouted in excitement.

Even older ones are attracted.

Honglu, as the strongest arrogance of this generation of archaic bodybuilding, has no doubt about its combat power. They also want to see how powerful the arrogance of the rule system is.

Chapter 2302: Cultivation method

"Brother Honglu, please!"

Lu Ming waved his hand.

"Brother Lu, be careful!"

Honglu spoke, the muscles in his body bulged slightly, and there was a horrible roar in his body.

That's because qi and blood are too rich, and the fluctuations generated by the operation are like the roar of a real dragon.

It is absolutely terrifying to reach this level of qi and blood. Even if there is no law of life, there is no unstoppable ancient scripture, the vitality is amazing, and the general injuries can be quickly healed.

boom!

Honglu's muscles vibrated, his body rushed towards the landing, and a punch rang towards the landing.

Lu Ming's eyes narrowed slightly, the power of the world in the body was running to the extreme, and the power of the flesh was all mobilized by Lu Ming.

In addition, Lu Ming used a law, that is the law of chaos.

boom!

Lu Ming also punched out.

This punch is a combination of Lu Ming's physical power, the power of the world's power, and the power of the law of chaos.

With Lu Ming's current cultivation practice and the Chaos Rule of the Third Realm, the power of this punch is also extremely amazing.

bump!

The fists of the two bombed together.

At this moment, Lu Ming's face changed slightly, he felt that Honglu's fist was like hundreds of mountains, a force of terror, rushing towards the landing, even the chaotic law of the third realm, all it was a shock, and was almost penetrated. Lu Ming's body couldn't help but retreat.

And Honglu's body just stabilized a little, and then stabilized!

"Good strength, strong combat strength!"

Lu Ming was shocked.

Taking Lu Ming's current cultivation practice as a rule of chaos, his fighting power is astonishing. Few people in Taiqing Tianyu at the same level can block it, but Honglu has kicked him back.

Honglu's combat power, even in Taiqing Tianyu, is top-notch.

"Great, Brother Honglu is great!"

The children and teenagers cried out in excitement.

But Honglu himself was very dignified.

Although he retired Lu Ming with a punch, he felt that Lu Ming did not use his full strength at all, and contained terror in his body.

"Brother Lu, you should not use your full strength, use your full strength!"

Hongludao.

"Come!"

Lu Ming has only one word, and at the same time, there is a constant light on him.

The rule of array, the rule of instrument, the rule of penetration, the rule of force.

Lu Ming, has come up with four kinds of laws successively. Among them, the law of array and the law of law are the third state, the law of penetration and the law of strength are the second state!

Lu Ming's breath is stronger.

boom!

The fusion of the five laws, blessed on Lu Ming's fist, Lu Ming burst out another punch.

Honglu also slammed towards the landing and punched.

bump!

The two banged together for the second time. Where the fists intersect, the space continues to explode, revealing a cobweb-like crack.

This time, the two bodies flicked at the same time and backed away a few steps.

Then the two fought together again.

bump! bump! bump!

The collision of fist and fist is very direct and bombards together.

Lu Ming did not use the magical technique, the law of life and the law of death, Lu Ming did not use it either, the two confronted hundreds of moves, and finally tied.

Another trick, the two backed away, Honglu gasped.

"It's a pleasure, a pleasure, the rule system is really wonderful, Brother Lu, have you tried your best, tell me!"

Honglu stared at Landing.

"Well, almost, almost, haha!"

Lu Ming smiled.

He did not use all his strength, mainly in front of the children, to save some face for Honglu.

After all, Honglu is the strongest arrogance of the Taikoo body repair generation and the idol of these children. If Honglu is defeated, it will inevitably hurt the self-confidence of these children.

"You guys, I know, we will fight again next time!"

Honglu was also bold, he smiled, did not mind, stared at the land and said: "Your flesh is really strong, it is not weaker than some physical training, or else, you try to practice physical training methods, how?"

"A method of physical training?"

Lu Ming was shocked.

"Look there!"

Honglu points to the north. There is a huge cliff on the edge of the practice field. From a distance, you can see the dense words on the cliff.

"Then the above is a physical cultivation method, let's go and see!"

Hongludao.

"Brother Hong, this is the physical training method, let's go to see, I'm afraid it's inappropriate!"

Lu Ming said.

Every system has its own methods of cultivation, many of which are not passed down. They are not cultivators, so if you look at it this way, it would be bad if you violated taboos.

"It's okay, that physical training method is only for solid foundation, everyone can practice, not the core method!"

Honglu Road, walk towards the cliff first.

Lu Ming and Ren Chan are very curious, and they also walked to the cliff face.

"Xiaotian Xuan Gong!"

Lu Ming looked closely and found that what was recorded on the cliff was a physical training method called "Xiao Tian Xuan Gong".

"This little heavenly mystery is the archaic body practice, which is the most widely spread and the most suitable for practicing the foundation. Anyone can practice it. It is divided into twelve levels. If you are interested, you can practice it. Look, it's still very helpful for improving the body!"

Hongludao.

"Thank you!"

Lu Ming and Ren Chan thanked each other, then watched carefully.

"It's really amazing, it turns out that the body has so much attention..."

While watching, Lu Ming sighed. Soon after, he wrote down all the contents, and then sat cross-legged and quietly realized.

Two days later, Lu Ming began to practice.

First, he runs the first method of "Xiao Tian Xuan Gong".

Buzz!

His muscles, his bones, and even his internal organs all heard a buzz.

This buzzing turned into a wonderful power, like sound waves, penetrating into every place of Lu Ming's body.

At this moment, Lu Ming felt numb all over his body, like an electric shock. His body was trembling slightly according to a wonderful rule.

Lu Ming noticed that his physical body was slowly becoming stronger, and some places that were difficult to harden before were also becoming stronger.

Although the magnitude of this increase is very weak, it is indeed becoming stronger.

It is like the body, being thoroughly baptized and polished.

Soon after, Lu Ming felt that he had successfully cultivated the first repetition of "Xiao Tian Xuan Gong".

"Next, the second level!"

Lu Ming continued to practice the second level.

On the second level, Lu Ming found that his physical and mental refinement was more thorough. His musculoskeletal tremors were shaking with a mysterious frequency, the whole body was itchy, and the musculoskeletal was slowly degenerating.

You know, Lu Ming's physical body is already very powerful, but now, it can still be transformed, which is very amazing.

Soon after, Lu Ming practiced the second level, and then practiced the third level.

Chapter 2303: Practice directly to the top

Before and after, Lu Ming spent three days to successfully complete the first three layers of "Xiao Tian Xuan Gong".

On the side, feeling the fluctuations coming from Lu Ming, Honglu was secretly surprised.

In three days, the first three times of "Xiao Tian Xuan Gong" practiced successfully. Even if Lu Ming knew that his physical strength was very strong, Honglu was still taken aback. This kind of speed is too fast.

However, Lu Ming did not stop, he was completely fascinated.

Every moment, I feel that the flesh is getting stronger and lifting, the musculoskeletal is itchy, and there are wonderful fluctuations. This feeling is too cool, too wonderful.

Lu Ming was completely silent in cultivation, completely forgetting about himself and forgetting the time.

After the third level of training, Lu Ming began to practice the fourth level, then, the fifth level, the sixth level...

The more you practice to a higher level, the greater the improvement to Lu Ming.

Xiaotian Xuangong was originally based on physical training to build foundations.

And Lu Ming, who had never practiced physical training before, his physical body was entirely promoted by foreign objects and external forces.

In this way, the foundation is inevitably not strong. For example, there are some dead corners in the body, and some extremely secret places have not been tempered, and this has a flaw.

Now, Lu Ming is equivalent to reorganizing the flesh.

Although his physical strength has not improved much, the physical strength and physical quality are different from before.

Moreover, when Xiao Tian Xuan Gong was trained to a weight above six, his foundation was already very strong, and the strength of his body began to rise.

Seventh, eighth, ninth...

It took Lu Ming half a month to cultivate "Xiao Tian Xuan Gong" to the ninth level, and Lu Ming didn't mean to stop, he was already attacking the tenth level!

This shocked Honglu.

"How is it possible? In just half a month, Xiaotian Xuan Gong practiced to the ninth level, and continued to practice. This is a peerless genius, a peerless genius of physical training. This matter must be reported to the elders!"

Honglu muttered to himself, and then quickly left here to report the matter to him.

Soon after, a rainbow of light appeared here, and a dozen or so old men came, all of whom were elders with an ancient archipelago.

When these characters looked at Lu Ming, they stared one by one.

"It has reached the tenth weight, incredible!"

"A person who cultivates the rule of law system can cultivate "Xiao Tian Xuan Gong" to the tenth level in such a short time, which is definitely a peerless genius!"

"I don't know if he can successfully complete the twelve times of "Xiao Tian Xuan Gong"!"

A dozen old men, excited and shocked discussion.

Although "Xiaotian Xuan Gong" is a method of solid foundation of physical training, it is also the most important method. Only by practicing "Xiao Tian Xuan Gong" to be superb enough can you practice the core method of physical training.

However, not everyone can cultivate "Xiao Tian Xuan Gong" to perfection. In fact, it is already very good to be able to practice to the ninth level. It is a genius with a pulse of physical training, and his future achievements will be remarkable.

As for the twelfth level of cultivation to the highest level, physical training hasn't been many since ancient times.

Ruhong Road is such a natural arrogance, but it takes a lot longer than Lu Ming.

It is unique to be able to cultivate "Xiao Tian Xuan Gong" to this level in such a short time.

Everyone waited quietly.

Later, Ren Chan also finished her cultivation. Now that she has practiced, she has become the third layer. If she continues, she feels that she is not capable enough and needs time to polish.

When she saw more than a dozen old men, she stared at the landing momentarily, startled.

After inquiring Xiang Honglu, he understood the whole story.

"Abnormal!"

Ren Chan sighed.

Body training, not knowing Lu Ming's metamorphosis, she knows it, but Lu Ming is in control of the three strongest laws. This is also the character who shook the ancients in the system of laws.

Now, Lu Ming practiced the physical training method, and she was so perverted that she had to sigh.

As for everything outside, Lu Ming did not know, he was immersed in cultivation.

Soon, he completed the tenth heavy practice and broke into the eleventh heavy.

He felt that his flesh was constantly growing, becoming tougher and stronger.

In particular, there was a drop of Zulong blood in his heart. As Lu Ming practiced "Xiao Tian Xuan Gong", there was a trace of energy flowing into Lu Ming's body, which was refined by Lu Ming and increased Lu Ming's Physical strength.

The eleventh weight, for Lu Ming, was not difficult, and was quickly cultivated successfully!

Then, it is the twelfth weight!

Buzz! Buzz! ...

It is also the final weight of "Xiao Tian Xuan Gong". At this stage of cultivation, Lu Ming's flesh continuously trembles and makes a buzzing sound. He feels that his physical strength is extremely strong.

One month after Lu Ming practiced "Xiao Tian Xuan Gong", Lu Ming finally practiced "Xiao Tian Xuan Gong" to completion.

"Successful, he succeeded in cultivating. God, in a month, he cultivated "Xiao Tian Xuan Gong" to perfection. This kind of talent is amazing!"

"The talents for such physical training cannot be wasted. I think I should pass the "Seven Gods Mysterious Skills" to him!"

"I agree!"

More than a dozen old men, their mouths excited, their eyes glowing, when they look at Lu Ming, they look like a peerless treasure.

Honglu was surprised!

The elders actually wanted to pass the "Seven Gods Xuan Gong" to Lu Ming.

"Seven God Xuan Gong" is completely different from "Xiao Tian Xuan Gong". "Xiao Tian Xuan Gong" is just a method of practicing the foundation of the pulse. It is widely spread and everyone can practice.

But "Seven Gods Xuan Gong" is the core method of physical training, one of the top secret methods. Generally, only the genius in the physical training can be cultivated. Honglu himself is the method of cultivation.

It can be seen how much the elders appreciate Lu Ming.

In just one month, you can cultivate "Xiao Tian Xuan Gong" to perfection. It is unique in the history of physical training. Such talents are too amazing. If you do not practice physical training, it is a waste.

call!

At this moment, Lu Mingchang breathed out and opened his eyes.

"Strength has doubled!"

Lu Ming felt his power and showed excitement.

His physical body has become a lot stronger, and his strength has doubled. With the power of the world, and various laws, Lu Ming's combat power has undoubtedly increased.

Lu Ming felt that if he broke out with all his strength now, he would have reached the eighteenth order of the real emperor.

Then, Lu Ming's eyes swept, and he was shocked, because there were more than a dozen pairs of bright eyes staring at him.

"Little guy, how are you feeling? Is the body a lot stronger?"

"You're a peerless genius in the physical training world, so, don't practice the law system in the future, change the physical training, and the old man will accept you as a disciple!"

"Go away, he is my disciple!"

More than a dozen old men glared at each other and began to scramble, all wanting to accept Lu Ming as an apprentice.

Lu Ming was dumbfounded!

Chapter 2304: Seven Gods Xuan Gong

More than a dozen gray-haired old men glared at each other with a cross-cutting look, but when they looked at Lu Ming, their eyes were fiery.

It was half a while before Lu Ming reacted.

"Well, the seniors and the juniors are practicing the rule system, and there is no plan to give up the rule system and focus on the physical body!"

Lu Ming said honestly.

It is not easy for him to achieve today's achievements with various laws, and he has paid too much.

And he is in the system of laws. It is ancient and modern, and there is no ancient people before. In the future, he can master more of the strongest laws.

"You still need to practice the law system? Boy, I tell you, your talent in physical training is definitely higher than the law system. Do you understand?"

"If you don't trim your body, it's a waste. Don't cut your future!"

A dozen old men suddenly panicked, and bitterly persuaded Lu Ming.

"My seniors, I have decided that I will not change it, but..."

Lu Ming's eyes rolled, and a smile appeared on his face, saying: "But, I can take a two-week break, the rule system and the flesh, practice together, several seniors, how do you think?"

"Practice together?"

A dozen old men were quiet, big eyes to small eyes.

"Boy, how difficult it is to cultivate, one of them doesn't know how much energy it takes to spend. Many people have a very poor life, and it is difficult to cultivate one of them to the peak. If you want to cultivate two, I am afraid that you will not chew too much. !"

"Yes, neither of them will be fixed!"

A dozen old men criticized Lu Ming severely.

"Senior, I understand this truth, but others are others, and I am different from others. With my talents such as ancient and unparalleled in ancient times, it is certainly no problem to practice the law system and the physical body together!"

Lu Ming's "shameless" way, his face is not red and his heart is not beating.

"This kid is brazen!"

"But it also makes sense that with his talent, it is really difficult for anyone to compare!"

"Could we pass on "The Seven Gods Mysterious Skills" to him?"

"He doesn't specialize in physical training, so it's not good to pass it on to him. "The Seven Gods Xuan Gong" is the highest mystery of physical training, and it can be practiced to the supreme realm of legends. In my opinion, I still ask for advice too Elders!"

"Yes, I think so!"

A dozen old men got together to discuss, and after a while, an old man said to Lu Ming: "Boy, you are waiting here, let's go and ask the elders too!"

After that, a dozen old men had left here.

"Lu Ming, you actually cultivated "Xiao Tian Xuan Gong" to completion in a month, how did you practice?"

Honglu came over and was amazed.

Ren Chan also looked at Lu Ming curiously. She had practiced before, but she could only practice to the third level. She wanted to continue to improve and did not know how much energy it would take. She knew the difficulty.

But Lu Ming can cultivate it to the peak in one breath, which is simply a miracle.

"I don't know. It's difficult to practice if you just practice it a bit."

Lu Ming asked in surprise.

Ren Chan and Hong Lu jumped their eyes and opened their tongues, unable to say anything at all, and depressed to vomit blood.

It was completely hit.

"Uh, it's not difficult..."

Hold back for a long time, Honglu held back such a sentence.

"It should have something to do with Zulong blood..."

Lu Ming was thinking about it himself.

He felt that the reason why he was able to cultivate "Xiao Tian Xuan Gong" to fullness in one breath was closely related to a drop of Zulong blood.

Because when I practiced in the back, the energy of Zulong's blood was constantly being refined, so Lu Ming cultivated "Xiao Tian Xuan Gong" to completion in one breath.

Next, Ren Chan asked Lu Ming for the cultivation method of "Xiao Tian Xuan Gong", while chatting and waiting.

They didn't wait too long, a dozen old men went back.

"Boy, we have asked Taishang elders. Taishang elders feel that your talent is really rare. If you don't cultivate your flesh, it's a pity. "

An old man said, then took out a roll of animal skin and handed it to Lu Ming.

"The cultivation method of "The Seven Gods Xuan Gong" is recorded on it, you write it down, you want to return this roll of animal skin to us!"

The old man said.

"Thank you senior!"

Lu Ming thanked and was overjoyed, then took the hide and watched it carefully.

Soon after, he wrote down all the contents on the hide and returned the hide to a few old men.

Lu Ming closed his eyes and carefully understood the contents inside.

"Seven Gods Xuan Gong", the supreme method of physical training, does not know how much more subtle than "Xiao Tian Xuan Gong".

"Seven Gods Xuan Gong" is divided into seven levels, each of which is divided into early, middle, and late periods. Lu Ming spent seven days to understand the contents of the previous ones, and then began to practice.

Buzz! Buzz!

His whole body of muscles, bones, internal organs, and even every drop of blood sent out a wonderful tremor, and a wonderful force penetrated into every corner and every cell of Lu Ming's body.

Lu Ming's flesh is undergoing transformation.

The first two levels of "Seven Gods Xuan Gong" are also foundations, and the foundation of the foundation is similar to that of "Xiao Tian Xuan Gong". Lu Ming practiced it with ease and quickly succeeded in practicing the first two.

Seven days later, Lu Ming entered the third level of "The Seven Gods Xuan Gong".

"Seven Gods Xuan Gong" practiced to the third level, with the power of the flesh alone, you can contend with the Emperor Xu.

And the fourth level of cultivation, with the power of the flesh alone, can compete with the true emperor.

The fifth weight corresponds to the emperor!

The sixth weight corresponds to Emperor Tian!

And the seventh highest level corresponds to the supremacy!

After stepping into the third layer, Lu Ming's cultivation speed slowed down. He continued to run "Seven Gods Mysterious Skills", and in his heart, the drop of Zulong blood also continuously flowed energy to Lu Ming's body. The operation of Seven Gods Xuan Gong penetrates into every cell in Lu Ming's body, constantly strengthening the body of Ming Ming.

Time, day by day, Lu Ming is constantly breaking through.

The third early stage, the third middle stage, the third late stage...

Only in the past two months, Lu Ming cultivated "The Seven Gods Xuan Gong" to the third stage.

But Lu Ming did not stop, he felt that he could continue to break through.

In the past two months, Ren Chan, Honglu, and a dozen old people have been watching nearby.

"Genius, genius, cultivate 'The Seven Gods Xuan Gong' to the third stage in one breath, and it doesn't mean to stop!"

"There is nothing in Kulai!"

More than a dozen old people marveled.

At this time, several big men flew over, their faces dignified, and they reported: "The elders, the big things are not good, the exit, the place where the ancestors sleep, a large number of aliens have gathered, and the attack has been launched, the strength is very powerful!"

"Come, go, call all the strong!"

An elder's eyes were cold, filled with a strong breath, and spoke coldly.

Chapter 2305: Combat power surge

More than a dozen elders, all left here, exited towards the small world.

At the same time, there are a large number of archaic cultivators who rushed towards the exit.

The exit of the small world, the place where the archaic body ancestors slept, and a terrible war took place.

Innumerable alien strongmen, like the wind, bombard those tombs.

The tombs cracked open, and zombies came out.

These zombies are very terrifying, and many of them are the fighting power of the Great Emperor Realm, and even the fighting power of the Heavenly Emperor Realm.

These zombies were top powerhouses in physical training before they died.

In addition, there are people who have been trained in the archaic style, and they are fighting with endless aliens.

More than a dozen elders, and a large number of strong physical training rushed out, killing those aliens.

"kill!"

Those old men looked gray and gray, and at this moment they drank, their blood rising into the sky like wolf smoke, and a terrible force erupted in their bodies, like the ancient ancient dragons awakening.

boom! boom!

Their attack method is very simple, a simple punch, the fist is broken in the void, and a large number of aliens are killed.

And those zombies are more direct, fearing life and death, ignoring defense, and crazy offensive.

For a time, Taikoo Bodybuilding achieved an advantage.

The aliens attacked a few times, were repelled, and retreated from the depths of the dusk.

However, the archaic body trains in one vein, dare not slack off, and sends people to guard it.

Sure enough, every few days, the aliens attacked again, and the overall strength was stronger than before.

The two sides fell into anxious battle, fighting continuously. After a period of war, the aliens retreated, but after a while, they will attack again.

Lu Ming has been practicing.

Earlier, it took him two months to successfully practice the first three levels of "Seven Gods Xuan Gong".

After that, he spent another month and successfully broke through and entered the fourth pre-stage.

Then, it took another month to cultivate "The Seven Gods Xuan Gong" to the fourth middle stage.

After practicing here, Lu Ming had to stop.

Because he feels that his original accumulation has been exhausted, and he has encountered a bottleneck, and it is difficult to break through for the time being, and it needs to be polished for a while.

Moreover, the energy of that drop of Zulong's blood has also been refined for half a year.

At this moment, Lu Ming opened his eyes and took a long breath.

"My strength is so strong!"

Lu Ming felt the power in his body, excited.

This is the physical strength, pure physical strength, Lu Ming feels that his physical strength is now dozens of times stronger than before.

"The fourth middle stage, now, with my physical strength alone, I can contend with the master of the 13th order of the true emperor!"

Lu Ming speculated in his heart.

Don't underestimate such power, this is extremely terrifying, because this is the power of pure flesh, no other is added.

In the past, Lu Ming's physical strength, although powerful, was far inferior to the present.

At that time, the strength of Lu Ming's physical body, combined with the power of the world, combined with the law, could increase Lu Ming's strength.

But if it is based on the power of the flesh alone, it will not work at all, at most it is equivalent to a low-level virtual emperor.

Now, Lu Ming does not need anything. With the power of the flesh alone, he can contend with a strong 13th-order force of the true emperor.

If we add the power of the world and all kinds of laws, Lu Ming's strength will reach an astonishing point, far surpassing the eighteenth order of the real emperor.

Lu Ming is now able to crush the opponent in the face of the powerful eighteenth order of the true emperor.

Physical training, combined with the law system, will burst out with amazing power.

"My current body defense and recovery capabilities have also been greatly enhanced. With the immortal ancient scriptures, I don't know how amazing it will be!"

Lu Ming himself can hardly imagine how amazing the fighting power would be if he broke out with all his strength.

"Lu Ming, to what level did you cultivate "The Seven Gods Xuan Gong"?"

Honglu came over and asked.

"Fourth mid-term!"

Lu Ming said.

"God, it's the fourth mid-term so soon, metamorphosis, I've been practicing for decades, and it's only the fourth mid-term, you metamorphosis!"

Honglu wailed, looking shocked.

Lu Ming touched his nose silently.

His rise so fast is mainly related to his previous accumulation.

Before, his flesh was refined many times, and it was already very strong. With the cultivation of "Xiao Tian Xuan Gong" to completion, with the help of a drop of blood from Zulong, it could be so fast.

In the future, the speed will slow down.

Moreover, the cultivation of the flesh requires a lot of heaven and earth spirit materials, all kinds of elixir, holy medicine, and imperial medicine, which are indispensable.

This time, he completely relied on the energy of Zulong's blood, so he didn't need various herbs.

"Oh, what about your predecessors?"

Lu Ming looked away and asked.

"I went to fight with the aliens. In the past two months, the aliens have attacked more and more frequently. We have already killed many people!"

Speaking of which, Honglu's face was a bit ugly.

"Have the aliens already attacked?"

Lu Ming's face also dignified.

"It's not a way to go on like this. The strength of the aliens is too strong, and the number is constant. It's not that I underestimated the strength of the archaic body training, but if I go on like this, I can't hold it any longer!"

Ren Chan also said.

"so what should I do now?"

Honglu was also anxious.

"We go to the front, I want to talk to your seniors!"

Lu Ming said.

"Okay, let's go!"

Honglu nodded, and immediately the three of them headed towards the exit of the small world.

At their speed, it didn't take long before they came to the exit of the small world.

Near the exit of the small world, there are temporarily many more buildings, and a large number of archaic masters are stationed here.

When Lu Ming came, they obviously had just experienced a war outside, and many people had just withdrawn from the outside.

In a huge stone palace, a few elders who have been trained in the archaic style, and more than twenty elders, are discussing matters.

However, their faces were dignified, their brows closed, and the atmosphere in the stone palace was very depressed.

At this time, one person reported, saying Honglu, Lu Ming they asked.

"Let them come in!"

At the top, a Taishang elder spoke.

The elders in the Taikoo style are all powerful in the realm of heaven.

After a while, Lu Ming, Ren Chan, and Honglu three came in.

All eyes were on Lu Ming.

"Boy, what level have you practiced "Seven Gods Xuan Gong"?"

An old man asked curiously.

"Fourth mid-term!"

Lu Ming answered truthfully.

"Fourth mid-term!"

These old men in the stone palace, and some middle-aged men, have their eyes widened.

They knew, however, when Lu Ming began to practice, only a few months later, Lu Ming had already practiced "Seven Gods Xuan Gong" to the fourth middle stage.

At this rate, Rao is the elder. The elders have lived for a long time. At this time, they are dumbfounded and shocked.

Chapter 2306: Withdrawal

Honglu, the most outstanding arrogance of the Taikoo body repair generation, but it also took decades to practice until the fourth mid-term.

Lu Ming is only a few months.

"Good, good, peerless genius, peerless genius!"

Several old people sighed, after a while, they calmed down.

"You come to us, what is it?"

An elder prince asked with a smile.

"Predecessors, now that the aliens have been eyeing this place, they will never let it go. If this continues, the situation will be very unfavorable!"

Lu Ming said.

"At this point, we also know, what countermeasures do you have?"

A too elder said.

"Rush out and leave here, otherwise, it will be broken sooner or later, and everyone will be spared!"

Lu Mingdao said his thoughts directly.

"leave here!"

In the stone palace, everyone's face changed.

"We have built a line of Taikoo style. Since the defeat of the Taikoo period, we have lived here in seclusion. We have lived here for endless years and have taken root here. Do you want us to abandon here?"

A big man spoke.

Others are also silent, indeed, they have survived the endless years here, just give up so, who will?

"Seniors, it's not that I look down on the strength of physical training, but that the strength of the aliens is too strong, and now the attack is only a small part of it!"

"During the ancient times, the heavens were extremely prosperous, and the strong gathered, and the invincible and strong were in the world, but in the end, they were still being defeated. Countless strong were killed in battle. Nine Heavens, only Taiqing Heavens left, barely supporting!"

"If the aliens come from the battlefield of Taiqing Tianyu, some masters will be transferred, and by then, they will definitely not be able to hold it!!"

Lu Ming advised.

The archaic body has a serious face, thinking seriously.

They also understood that Lu Ming was right.

Their veins are only one of the archaeological styles of the ancient times. Their strength is far from comparable to that of the ancient archetypes during the heyday of the ancient times.

However, the pulse of physical training in the heyday of the Archaic period was still defeated by the system of laws.

Later, after many years of development, the rule system flourished to the extreme, but it was still broken by the aliens. It can be seen how strong the aliens are.

"In our small world, in addition to this one exit, there is actually another exit. If you want to retreat, you can retreat from another exit!"

After a long time, a Taishang elder spoke, his voice full of helplessness.

"Is there another exit?"

Lu Ming's eyes lit up. In this case, it was better than rushing out.

"You guys, talk about it, can't you withdraw?"

The elder who spoke just now looked at the others.

"I agree to retreat!"

"I agree, we can't stop this line!"

"I agree!"

.....

The remaining elders, too elders, all expressed willingness to retreat.

There are only a few people who are silent and somewhat unwilling.

"I have a question. In our small world, where the population is so huge, how do you take it out when you retreat?"

One of them asked.

"It's easy to handle. With our rule system, when you reach the real emperor realm, you can condense the small world. Even if you are a one-star real emperor, the small world has a radius of 100,000 miles, enough to bring everyone out!"

Ren Chan said.

"Then where do we go after we retreat?"

A big man asked.

"Go to Taiqing Tianyu!"

An overly elder spoke.

"Taiqing Tianyu?"

This time, not only many elders with archaic body styles were stunned, but even Lu Ming and Ren Chan were stunned.

Is it possible that Wanling Tianyu can reach Taiqing Tianyu?

If so, why haven't the aliens been found for so many years?

"How can I get to Taiqing Tianyu?"

Many elders have their eyes lit up.

If you can go to Taiqing Heaven, it would be better.

"In our body training, there is an ancient book, which records that starting from Huangquan in the Nine Nether Heaven Domain, we can reach the passage between the Taiqing Heaven Domain and the Hunyuan Heaven Domain!"

"According to the small brother Lu Ming, the channel between Taiqing Tianyu and Hunyuan Tianyu is now a battlefield. As long as we get there, we can enter the Two Realms and enter Taiqing Tianyu!"

Another elder, too, also said.

"Wouldn't it be necessary to go to the Nine Serenities Realm?"

Someone spoke.

"This is the only way to do it now!"

A too elder said.

"Seniors, this is completely feasible. Jiuyou Tianyu and Wanling Tianyu are connected by a channel. As long as we cross the channel and enter Jiuyou Tianyu, we can reach Huangquan and then go to Taiqing Tianyu!"

"Moreover, the energy of the alien cultivation is different from ours. They are in the Heaven Realm, although they can also absorb the original gas cultivation, but the speed is very slow, and the refining is very inefficient, so except for the battlefield in the Taiqing Heavenly Territory, other days Although the domain is occupied by aliens, the number of aliens is not large. With the strength of your predecessors, you can kill Huang Quan!"

Ren Chan said.

This statement made everyone's eyes bright.

"Okay, then do this. First, please trouble you, put all the people under the Emperor Wudi into the small world, and then retreat!"

A Taishang elder announced that he had given orders.

Immediately, everyone acted.

The people who practiced the system of laws began to take action, and all the people of this small world were put into the small world, and those above Wudi were left outside.

The archaic body repairs a vein. After so many years of development, the population of this small world has reached tens of billions.

However, this is not a thing at all!

A one-star true emperor's small world has a radius of 100,000 miles.

An emperor's small world, with a radius of a million miles, contains tens of billions of people, which is completely trivial.

After spending a few days, the people of this small world, as well as all the resources, were put away.

At this time, they began to retreat.

However, some people are still left, staying at the exit, manipulating some zombies and fighting against aliens.

This is also impossible, someone must stay, otherwise aliens will find out.

Those who stayed there will surely die.

And all the martial emperors in the physical training line, with a part of powerful zombies, came to the other direction of the small world.

Here, there is another exit.

After they passed this exit, they came out and were out of the twilight.

Then, they flew towards the channel of the Nine Nether Sky at a rapid speed.

However, on the way, they still encountered aliens.

Although, these aliens, the strong men who were repaired by Taikoo style, were easily killed.

However, there were still aliens who spread the news before they died.

The aliens in the Dusk Land received the news, and suddenly angered, launched a fierce attack towards the depths of the Dusk Land.

Those archaic body repairs left behind were naturally lost, and they were all beheaded in the end.

When the aliens rushed into the small world of archaic bodybuilding, they found that people went to the empty building, and they were furious.

However, it is too late!

Chapter 2307: Sky Warrior

Lu Ming's speed is very fast, plus some strong men in the archaic body repair, the strength is very strong, although there are inter-ethnic obstacles behind, but the aliens gathered in a hurry, where is their opponent, they are easily killed.

A few days later, they came to the passage of Wanling Tianyu and Jiuyou Tianyu.

The channel here is very similar to the channels of Taiqing and Hunyuan Tianyu, with a very wide area.

However, there are not many alien guards here.

Except for the Taiqing Heavenly Territory, the other eight Heavenly Territories are all under the control of aliens. They naturally do not need to leave too many people to guard these passages.

Without being too strongly blocked, they broke through the passage and rushed to the Nine Nether Heavens.

The Nine Nether Space, the legendary Netherworld, is full of Nether Air. In ancient times, it was also an extremely powerful heaven.

Netherworld Mansion, the famous Zhentian Realm, masters like clouds.

Later, it was still attacked by aliens, and the masters suffered heavy casualties.

The legendary Huang Quan and Nai He Bridge are all in the Nine Nether Heavens.

That year, when Lu Ming entered the tomb of the reincarnation emperor, he saw Huang Quannai, that is, the Nine Life Demon Silkworm, which was established according to Huang Quannai in the Nine Serenities.

There are many ancient books in the archaic physical training, which record many secrets, and there are also records of the territory of the Nine Nether Heavens.

After they entered the Nine Nether Space, they rushed towards Huang Quan.

Along the way, some aliens were also encountered and were easily defeated.

The area of Jiuyou Tianyu is very broad. Although it is not as good as Taiqing Tianyu, it is not much different.

After flying for several days, a large river ran across the ground ahead.

The river is so wide that it can't see the opposite bank at a glance.

The water in the big river is yellow, very thick and full of disgusting stench.

This is Huang Quan!

Legend has it that the water of Huangquan has terrible power of erosion, power to swallow, power to curse.

Once falling into Huangquan, there is only one way to die. It is said that even the powerful of Heaven Emperor Realm, falling into Huangquan, is in danger.

Huang Quan doesn't know how long it is.

No one really knows, where the source is, or where it is going.

Because someone walked all the way along Huangquan, and finally found that Huangquan flowed into the eternal void, and along the void, it would pass through the passage between the Taiqing and Hunyuan heavens, which is now the battlefield.

This is their hope, they will go along Huang Quan all the way.

"kill!"

On the side of the Huangquan River, densely packed aliens gathered, and at this time they were killed towards them.

"No, it seems that the aliens have guessed that we are coming to Huangquan, where we gather a lot of strong men!"

Someone's face changed.

"Kill the past from the other side!"

Taikoo Taixiu, a Taishang elder, shouted, and everyone rushed in the other direction.

But not long after, a large number of aliens also came in that direction.

"Rush over!"

A great elder shouted, and everyone rushed over.

We have reached Huangquan, and we can only hope if we rush over.

The strong sides of both sides collide fiercely.

On Lu Ming's side, under Emperor Wu, all of them were taken into the small world. Those who stayed outside were all strong men above Wu Emperor.

Using the Taikoo style to repair some of the strongest Taishang elders as a frontier, they rushed into the alien army like a sharp blade.

puff! puff! puff!

Countless aliens were beheaded and exploded.

However, the aliens also have strong men, and even the existence of the Heavenly Emperor Realm. The Heavenly Emperor Realm is really terrifying. With one shot, it is the power to destroy the world.

Lu Ming's sharp edge was suddenly blocked, and the speed slowed down.

In the rear, a large number of aliens rushed in and the two sides fought bloody.

"kill!"

Lu Ming shouted, killing crazy.

Nine laws cover Lu Ming's body. At the same time, Lu Ming's operation is immortal.

The immortal golden body, combined with Lu Ming's current physical strength, exploded into infinite power.

Lu Ming completely disregarded the defense, like a war beast, rushed into the aliens, and his fists continued to blast out.

Every punch, at least several aliens, was beaten by Lu Ming.

As long as it is not the Great Emperor, no matter how many ranks of the True Emperor's combat power, in front of Lu Ming, he was only killed in seconds.

Even if it is the eighteenth order of the true emperor, it is so!

Lu Ming Now, the true True Emperor is invincible!

bump! bump! ...

Lu Ming no longer knows how many aliens have been killed and bathed in the blood of the aliens.

Slowly, they broke through the alien defense and came to the shore of Huangquan.

"Sacrifice the Tongtian Battleship!"

A Taishang elder shouted, and at the same time, he waved his hand and a warship flew out, suspended above Huangquan.

"You control the ancestor war body and defend against aliens, we have to start the Tongtian battleship!"

A voice spread everywhere.

boom!

Then the elder, who was too high, roared all over his body, rushed out of blood, and did not enter the battleship.

Buzz!

The sky-rocketed warship shuddered, hummed, and filled with terror, and at the same time, it was rapidly becoming larger.

If you want to go from Huang Quan, you can't do it without powerful treasures.

Once a person enters Huangquan and gets into the Huangquan water, there is only one way to die. Even the Emperor of Heaven is dangerous.

Only relying on the ancestral treasures of the archaic body repair, the Tongtian battleship, can enter Huangquan and ride the Tongtian battleship to the eternal void.

boom! boom!

Then, there were a few elders who had archaic body repairs, excited the blood, and poured into the Tongtian warship. The Tongtian warship was trembling more and more, and the whole body glowed and became larger.

"Stop them, kill, kill!"

Roars of aliens, from all directions, there are aliens rushing.

In particular, there are five or six aliens, powerful and amazing, are all powerful in the Heavenly Realm.

They walked in the air, exuding a wave of horror, blasting out in one move, the world was torn apart, powerful and unimaginable.

"Block it!"

Taikoo shouts for some elders.

They are not opponents, only rely on those zombies.

They manipulated the zombies and rushed up.

Some zombies, with the power of the Heavenly Emperor Realm, resisted the alien Heavenly Emperor.

However, there is not much more than the other party, and one pair is suppressed.

bump! bump!

Some zombies in the Great Emperor Realm were hit by the alien Emperor and burst open in the air.

But now, there is no way to continue to sacrifice these zombies to buy time for the Taishang elders.

Buzz!

After a while, the Sky Battleship turned into a giant of tens of thousands of meters and landed on the Huangquan River.

"Climb to the Sky Battleship, we cover!"

A Taishang elder shouted and rushed over to fight the alien emperor.

The other elders too rushed over.

The others were weak, and rushed towards the Tongtian battleship.

Especially the people of the rule system, because they have a large population in their small world, so the elders of the archaic body repair, protect them and let them board the sky warship first.

Lu Ming, Ren Chan and others also boarded the battleship.

Then, the others boarded the battleship one after another, only the elders of the Taishang, and some powerful zombies, fought against each other.

Chapter 2308: came back

"Retreat!"

The Taishang elders who are in archaic sports, retreat while fighting.

"Don't let them go, stop them!"

A heavenly emperor from a different race roared, bursts of destructive light burst into his eyes, terrifying, and blew towards the bodybuilding elder.

Other alien emperors also launched fierce attacks.

For a time, the elders of physical training were too difficult to retreat to the ancient warships.

In the archaic body training, there is an old man, a peerless strong man, and a scary person with high combat power. Unfortunately, there are also such strong men among the aliens who resisted him.

In the end, they had no choice but to let a few powerful zombies launch a suicide attack before they temporarily dragged each other off. Several elders who were too high took the opportunity and rushed into the heavenly battleship.

Roar! Roar!

However, several powerful zombies were stopped by the other party, under siege, and the indestructible body was torn apart by the other party.

"go!"

The celestial battleship roared and drove deep into Huang Quan.

"Stay!"

A total of six or seven aliens, after chasing them, are all the existence of Heavenly Emperor Realm.

They did not give up, and a terrible attack erupted, wanting to explode the sky-high warships, so that all of them would be buried in Huang Quan.

However, the elders of the physical training teamed up to block the opponent's attack.

And, one of the strongest elders of the Taishang, who punched through the space with a boxing, vomited blood from an alien shock of the Heavenly Emperor Realm, his body flew back into the Huangquan River.

Wow!

The Huangquan River wave rolled up, and there was a wave that hit the alien emperor. The emperor screamed, his body fluttered in the sky, his burly body quickly shrivelled.

In the end, the emperor blocked the erosion of the yellow spring water, but the breath was weak and almost fell.

Everyone sucked in the cool air. The water of Huangquan was really terrifying. Even the powerful of Heaven Emperor Realm, who was hit by the wave of Huangquan Water, would be hit hard.

What is the origin of this Huangquan water and how did it form? It's too scary, right?

Heaven Emperor, but stood at the pinnacle of this world. Although the alien Heavenly Emperor may just be an ordinary Heavenly Emperor, some yellow spring water can hit him hard, which is amazing.

The other alien emperors all showed fear, and they dared not pursue them.

In case of being dropped down the Huangquan River, the consequences will be unpredictable.

Just being hit by the wave, a heavenly emperor was hit hard. If it fell directly into the Huangquan River, wouldn't it be a dead end.

The aliens can only watch the Tongtian battleship, and drive towards the depths of Huangquan.

Everyone took a long breath and finally got rid of the alien race.

At the same time, they were secretly surprised that the Sky Battleship, without knowing what materials it was made of, was able to drive on the Huangquan River without being damaged by the water of Huangquan.

During the archaic body repair, an elder Taishang informed that the celestial battleship was an ancestor of the body repair in the archaic era, which was found in an ancient ruin.

Everyone can only imagine what the relics are, and they can get such treasures as the heavenly battleship.

The sky-rocketed warship is huge, traveling in the Huangquan River, along the direction of the river flow, and has been moving forward, I don't know where it will flow.

Everyone can only wait patiently.

A month later, the Tongtian battleship has traveled a long distance, and in front, it has become nothing.

Already reached the edge of the Nine Serenities.

However, the Huangquan River did not break, but flowed directly into nothingness.

A river, not on the ground, leads into nothingness, which is really shocking.

Everyone stared in a daze, a little dazed.

I have to sigh, the magic of heaven and earth.

The Tongtian battleship, along the Huangquan River, drove into nothingness.

They looked around and looked in all directions, completely dark and empty, and the Huangquan River, like a passage, did not know where it was going.

At this point, the elders were too elders and got their spirits up.

Because, according to ancient books, the Huangquan River will pass through the battlefield between the Taiqing and Hunyuan heavens. They must concentrate on capturing the chance of passing away and rushing out of here.

Time goes by day by day.

They are in the dark sky and do not know how far they have traveled.

It is silent and eternal.

"Look, what is that?"

Suddenly, someone exclaimed and looked forward in surprise.

Others also looked at it.

"That is..."

At first glance, Lu Ming was also taken aback, his eyes widening.

In front of the Huangquan River, I don't know how far away, there is a big mountain emerging.

The mountain is in front, looming, but everyone will not be wrong, there is really a mountain.

"On the Huangquan River, a mountain will appear, unheard of!"

An old man lamented that he was too elder in physical training, but he had never heard of such a thing.

In the past rumors about the Huangquan River, there is no such statement.

Will there be big mountains on the Huangquan River?

The celestial battleship has been moving forward, but the mountain is still suspended in front of it, and it seems that it has not drawn the slightest distance.

"Is that the end of Huang Quan?"

Someone mumbled to himself.

Others were shocked!

Is the end of Huang Quan a big mountain? This sounds really incredible.

"Here, go!"

At this moment, a Taishang elder shouted, his body full of blood and blood, and punched him towards the void on the right.

This punch is astonishingly powerful. With a punch, the space is constantly exploding, just like paper.

At the same time, other Taishang elders also shot, constantly blasting in that direction.

So many strong men, shot together, superimposed together, the terrible and powerful point, the space was completely smashed, torn apart, and you can see the situation outside.

Outside, there is a dead earth.

"The battlefield, that battlefield!"

Lu Ming was overjoyed, and he could judge that the battlefield between Taiqing Tianyu and Hunyuan Tianyu would not be wrong.

The Huangquan River will indeed pass through the battlefield between the Taiqing Heavenly Field and the Hunyuan Heavenly Field. Here, the space from that battlefield is very thin, and it was blasted away by a few elders.

"go!"

An elder who is too high, driving a sky-high battleship, rushed towards the space gap.

Those space gaps are automatically healing, and the other elders, who are constantly bombarded, open up the cracks in the space gap.

Rumble!

The Sky Battleship successfully left the Huangquan River and rushed into the gap.

Soon after, the Tongtian battleship thundered out of the space gap, landed on a piece of earth, and stirred up the sky and dust.

"came back!"

Lu Ming felt it carefully, revealing the color of great joy.

Here, it was definitely the battlefield that was right. After making a big circle, Lu Ming returned to this battlefield again, and brought back a large number of strong men.

With the addition of this group of archaic body repairs, the strength of the Two Realms can also be improved.

"Brother Lu Ming, now we will follow you!"

An elder of the Taishang waved his hand, and the Tongtian warship shrank at a rapid speed. He was put away and smiled at the landing.

Chapter 2309: Blue Family Banquet

Everyone's eyes turned to Lu Ming.

Everyone here has never been to Taiqing Heavenly Territory, nor has he ever been to this battlefield. Naturally, it is up to Lu Ming.

"Seniors, come with me!"

Lu Ming discerned the direction and left in the direction of the Two Realms, and the others followed the landing.

The battlefield where they are located is not a virtual emperor battlefield, a real emperor battlefield, or an emperor battlefield, but an ordinary battlefield.

A large group of them, the breath is too strong, across the void, amazing power.

On the way, aliens met them, their faces changed wildly, turned around and ran, but were punched and killed by the strong man of Taiko Sports.

A few waves of aliens were encountered before and after, all of them were bombarded by Taikoo Xiu under the rage.

Now, the Archaic styles are rage one by one because they have lost their homes and ancestral land because of alien races, and they are naturally rage.

Soon after, the two realms finally appeared.

Boom! Boom! ...

When Lu Ming approached them, a deafening drum drum sounded on the two realms. On the walls of the city, the light shone, and each figure appeared one by one.

Obviously, the strongmen in the two realms have already discovered them, but their numbers are too large, and many people have a strong atmosphere, which naturally aroused the vigilance in the two realms.

"You are your own people, we are the creatures of heaven!"

Someone called out.

"Who are you?"

Voices were heard from the two cities.

At this time, the people in the two realms were also very surprised.

Although there are a lot of creatures in the heavens outside the battlefields of the two realms, the number is not so much, and some people have a breathtaking atmosphere, and they are very strange and have never been seen.

This is amazing!

"Everyone, this is Lu Ming!"

At this time, Lu Ming came out and shouted.

"What? Lu Ming!"

The people in the two realms were obviously taken aback!

"Isn't Lu Ming dead? It appeared again!"

"Don't he die, the rumors are wrong, then who are the people beside him?"

For a time, there was a lot of talk in the two realms.

"You, these are your own people, you open the formation, let us go in!"

Lu Ming shouted.

"Lu Ming, you can come in, but others, we need to report, so many masters, the future is unknown, and hastily put into the city, in case something happens, we can't afford it!"

A burly man speaks.

"I'll wait!"

At this moment, a voice came from the two realms, and as soon as the sound fell, several figures appeared on the two realms.

It is headed by Hengyu Tiandi!

Emperor Hengyu looked at Lu Ming with a happy face on his face.

"They are all human races, or gods and beasts of the realm, and they are not aliens, open the formation and let them come in!"

Emperor Hengyu spoke.

"Yes!"

Others take orders.

Hengyu Heavenly Emperor is Heavenly Emperor, and not an ordinary Heavenly Emperor. Its combat power is very strong. After Tianzun-level characters, he speaks, and others dare not follow him.

Soon, the mask outside the two boundary cities rippled, and a huge gap appeared.

"Go in!"

Lu Ming rushed in first, and others followed him, too.

Soon after, everyone entered the two-tier city, and the mask outside the two-tier city re-healed.

"Hahaha, Lu Ming, I knew you were all right. There were rumors that you were dead, and I didn't believe it at all!"

Emperor Hengyu came over and laughed, very happy.

Afterwards, he looked at Taikoo Xiu Xiu, Ren Chan and others and asked, "Lu Ming, who are they?"

Emperor Hengyu was very shocked.

Because some of them make him feel palpitations, there is a strong pressure.

And these people, he had never seen at all, which made him quite shocked and curious.

"They are from the Wanling Celestial Realm, these are the veins of archaic body repair..."

Lu Ming briefly introduced it, and at the same time, briefly described his own experience.

"An archaic body trains!"

The pupils of Hengyu Tiandi contracted sharply a few times, and then a few fists of Taishang elders were trained towards Taikoo. They said, "How many Dao friends have you seen in Xiahengyu?"

"polite!"

The old man of Taikoo sports repair also nodded politely.

"Lu Ming, I didn't expect it. There were rumors that you fell, but I didn't expect that you ran to the Wanling Heaven Realm. It was really wonderful!"

Emperor Hengyu exclaimed.

"Senior Hengyu, it is said that it is the Lan family and the Yan family who fell?"

Lu Ming spoke, a cold light flashed in his eyes.

"Yes, they also said that it was you who made money and killed lives, murdered the fellows of the heavenly realm, sought treasures, was met by them, wanted to take them, and inadvertently rushed into a broken small world, and finally the small world collapsed!"

Emperor Hengyu said.

"Oh, Lan family, Yan family, really shameless, thieves cry to catch thieves, obviously they want to kill me, seize my indestructible ancient scriptures, the people of the heavens, they also killed, marry me!"

Lu Ming's voice was very cold. When he thought of Bai Tai's death because of him, Lu Ming was full of murderous opportunities.

"I knew that, really, Lan Family, Yan Family, very good!"

After hearing this, Emperor Hengyu was also furious, and his eyes filled with murderous opportunities.

"Since I come back this time, this hatred, I must report, Lan family, Yan family, I will take a trip!"

Lu Ming said indifferently.

Even if it is nothing else, Bai Tai's hatred, he must report it, he will never let go of those who did it.

"Lu Ming, now the Lan Family and Yan Family are not in the Two Realms!"

Emperor Hengyu said.

"Not in Two Realms?"

Lu Ming wondered.

"Yes, the headquarters of the Lan Family and the Yan Family are not in the two boundary cities originally, but in the central area of the Taiqing Tianyu. The two boundary cities are only their residences. In the past two years, the aliens have stopped their offensives and fighting. Less, so some masters of the Lan family and Yan family are not there!"

"Plus recently, Lan Xia's proud daughter Lan Xia, will marry Xuanyuanyi, hold a feast, countless masters, gather Lan family, all in the middle of Taiqing Tianyu!"

Emperor Hengyu explained.

"Lanxia, Xuanyuanyi, two of the nine!"

Lu Ming's eyes moved.

He has heard of these two names, and it is precisely two of the nine younger generations of Tianjie's younger generation, both of whom are arrogant.

Xuanyuanyi, in particular, ranks second in Jiuju, and many people say that he has the opportunity to impact Jiuju first, standing in the two circles of Tianyuan, the pinnacle of the younger generation!

"Lan Xia is Lan Tian's proud daughter, but Lan Yun's sister. This time, marrying Xuanyuanyi can be described as a strong alliance, which has attracted everyone's attention. I heard that this time Lan Jia also invited After most of Tianjiao's arrogance went to heaven, there will be a grand event!"

Emperor Hengyu said.

"When is their wedding day?"

Lu Ming asked.

"After half a month!" Emperor Hengyu said.

Chapter 2310: Reappearance of Chaos Hall

"Half a month later? Just take a trip, Lan Family and Yan Family, the price to pay, always pay!"

Lu Ming whispered, his voice getting colder and colder.

"Lu Ming, don't act rashly. The Lan family is by no means comparable to ordinary forces. The Lan family is an extremely old family with profound heritage and masters. It's not just a blue city emperor. It is said that the Lan family has an old man. The ancestor is a peerless powerhouse in the Four Star Heavenly Realm!"

Emperor Hengyu, his face dignified.

But Lu Ming's eyes were firm and unmoved!

"In addition, the Lan family inherits the endless years and has good relations with many major forces, such as the Yan family. The Yan family is just an ordinary powerful force. There is a Heavenly Emperor who sits in the town and has a marriage relationship with the Lan family. The two relations are very close!"

"In addition, there are many forces similar to the Yan family, and there are a lot of good friends with the Lan family. This time, they will rush over. If you rush past, I am afraid that you will suffer a big loss!"

"So, if you are going, you must be cautious. If you really want to go, I will accompany you on a trip, but the other emperors of Yuanjie must guard the two-city city.

Emperor Hengyu explained the structure of Lan's forces and their approximate strength to Lu Ming, but after seeing Lu Ming's eyes firm, he knew that Lu Ming had set his attention and promised to accompany Lu Ming for a trip. .

"Thank you Senior Hengyu!"

Lu Ming thanked and said, "I'm going, I'm sure to be sure!"

After saying something, the elders who went to the Taikoo style training elders clenched their fists and said: "You seniors and juniors have something to do. I want to ask some seniors for help!"

"What are some of our old bones, despite speaking!"

An old man smiled, very bold.

"Want to invite some seniors to follow me to a place..."

Lu Ming was about to go to the Lan family and said something about it.

"no problem!"

The Taigu elders who were too elders promised.

Since Lu Mingzhan revealed his peerless physical training talent, they have attached great importance to Lu Ming.

Moreover, this time they can enter the two realms, thanks to Lu Ming, Lu Ming has something to do, they naturally have to help.

Emperor Hengyu also smiled. He knew that these old men were very scary. With their help, their grasp would be much larger.

"Lu Ming, let me help them arrange a place to live!"

Emperor Hengyu said.

"Senior Hengyu, is there any place where there is no one? This time, with the pulse of physical training, many people came, all in our small world!"

Lu Ming said.

"Oh, how many people are there?"

Emperor Hengyu asked.

"There are about 30 billion people!" Lu Ming said.

"Oh, it's only 30 billion yuan, that's easy to manage, and not far from the two world cities, there is a vast uninhabited mountain range, enough for them to inhabit!"

Emperor Hengyu thought for a moment, and then he thought of a place.

Thirty billion people seem to be many, but for the vast territory of Taiqing, the territory is only a fraction of the total.

The population of Taiqing Tianyu is simply impossible to count. The number of people in a small territory is more than tens of billions.

Soon after, they set off and came to a vast mountain range.

This mountain range spans millions of miles and accommodates 30 billion people.

Immediately, Lu Ming had people from the small world, and a lot of people appeared in this mountain range.

Then, there were strong men from the Archaic Bodybuilding who arranged to cut down the wood, move the stone, and repair the house.

Archaic sports practice, most of them are extremely powerful. Do these things, don't be too easy, I believe not a few days, they can settle down here completely.

Ren Chan and they chose a place and settled down.

In their eyes, it was a little sad. Their small world had a large population, but now, there are not many, many, who have come here to death.

In particular, some top experts have not come here!

Lu Ming and Emperor Hengyu discussed with them and planned to go to the Lan's house no later than a few days!

Lu Ming returned to the Two Realms and met with Muran.

Seeing Lu Ming, Mulan was naturally very happy.

The two recounted old, Lu Ming returned to his residence, intending to take a good rest.

"I don't know the Hall of Chaos, can I get in touch now?"

Lu Ming thought of Chaos Hall again. Thinking of this, Lu Ming took out the Hundred Yuan token.

Unexpectedly, this time when I tried, Hunyuan token actually had a movement.

Lu Ming was overjoyed and entered the power of the world.

Buzz!

The Hundred Yuan Token vibrated, and then a beam of light appeared, enveloping Lu Ming in it.

Then, Lu Ming's figure disappeared in place.

Lu Ming seems to be traveling through the void, and that feeling is like riding a teleportation array at a very long distance.

Soon after, Lu Ming came to a hall.

It is the Hall of Chaos!

As soon as Lu Ming appeared, light flashed in the Chaos Hall.

There are nine figures in total, with different colors on their bodies.

"Tuyi, Jinyi..."

Lu Ming's eyes lit up.

"Have seen the young master!"

Tu Yi, Jin Yi and others bowed to Lu Ming.

"Seniors, you're welcome!"

Lu Ming quickly waved his hand.

"Ceremony is not wasteful, the young master has defeated the primordial heart of the son of Chaos, and you have become the emperor with a variety of rules, and even control the strongest rules. Such talents, such as the ancient and modern, and later, you are the master of the Chaos Palace , Also our young master!"

Tu one by one solemnly said.

"You guys, have you heard me?"

Lu Ming asked curiously.

"Of course, the Chaos Hall was originally in the Taiqing Heavenly Realm. The Young Master's fame has spread throughout the Taiqing Heavenly Realm. We naturally heard it!"

Tu Yi smiled.

"The Chaos Hall, is in the Taiqing Heaven Realm? Then why can't I contact you before?"

Lu Ming asked curiously.

Chaos Hall is in the Taiqing Heavenly Realm. This is not difficult to guess. At first, he could enter the Chaos Hall directly from Yuanlu. It is not difficult to speculate that the Chaos Hall was in the Taiqing Heavenly Realm.

Because of the Taiqing Heavenly Territory, there are only channels that communicate with Yuanlu.

Hunyuanzong Mountain Gate is also estimated to be in Taiqing Tianyu!

Lu Ming was curious. Why didn't they contact Tu Yi before, now they can contact him again.

"Young Master, this is the case. There are two battlefields in the Taiqing Heavenly Realm. The place where the Chaos Hall is located is near one of the battlefields!"

"More than ten years ago, the aliens suddenly invaded in a big way. On that battlefield, a fierce battle broke out. We took the Chaos Hall to the battle and cut off the outside induction, so you can't keep up with us!"

Tu Yi explained.

The other eight people nodded.

Lu Ming suddenly realized that it was so!

Recently, the aliens have not invaded, so Lu Ming was able to contact the Tuyi people again.

"Seniors, I want to ask about the Chaos Sutra..."

Lu Ming asked, the Chaos Sutra in his hand seemed incomplete.

"Young Master, the Chaos Sutra in your hand is indeed incomplete, only the part before the Emperor and the part after the Emperor. It would have been after the Young Master became the Emperor, and then I will give it to you. Now the Young Master has become the Emperor and has reached the True Emperor, Naturally, I will give it to you, Young Master follow me!"

When Tu said nothing, he walked in one direction, and Lu Ming followed and came to a secret room.
