

D Emperor 2331

Chapter 2331: Five years

Lu Ming nodded, he could understand this.

Just like he used to integrate some memory fragments of Kowloon, but that can't affect him, it just means that there are some more memories, but he is still him and will not become another person.

The same is true for Xie Nianqing. As long as Xie Nianqing's memory in this life prevails and devours the memory of the previous life, then she will have some more memories. Not only is there nothing, but she can also get a great chance.

"What should I do to make Xiaoqing's memory of this life swallow the memory of previous life?"

Lu Ming asked.

"It's easy!"

Xie Nianjun smiled slyly and said, "Actually, now you have an advantage. With a son, it is Xie Nianqing and your son. Having a son by his side can greatly affect Xie Nianqing's memory in this life and make her obsession more important. Reluctant to let go, so too, her memory in this life can not be merged with the memory of previous life until now!"

"Later, as long as you can stay more with Xie Nianqing and accompany her, her obsession will naturally be heavier. Even, more like her, and more in the same room, her memory of this life will naturally prevail, and then devour the previous life. memory!"

"what?"

Lu Ming was a little dazed.

More rooms?

It's that simple?

"How is it? Feeling happy, I teach you a good way!"

Xie Nianjun smiled.

Lu Ming smiled bitterly.

"Her memories of her previous life, I hated me. I'm afraid she didn't wait for me to get close, she killed me, let alone the same room!"

Lu Ming touched his nose.

"So, your practice is too weak. In the future, practice well. As long as your practice exceeds Xie Nianqing, you can suppress her, subdue her, everything, and not do whatever you want!"

Xie Nianjun smiled very cunningly.

Lu Ming was completely speechless and felt pressured.

The main reason is that Xie Nianqing's cultivation speed is too fast. A strong man who doesn't know how strong is reincarnated, even if the memories of the past and present are not merged, but the speed of cultivation is still amazingly fast.

Lu Ming wanted to catch up and even catch up with Xie Nianqing, it was too difficult.

"Besides this method, there is no other way?"

Lu Ming asked unwillingly.

"No more!"

Xie Nianjun shook his head.

"So to say, in a short time, it is impossible for Xiaoqing to recover?"

Lu Ming asked again.

"Yes!" Xie Nianjun nodded.

Lu Ming sighed helplessly, after all, he was too weak.

"Why are you helping me?"

After a while, Lu Ming asked curiously.

"It's very simple. Once Xie Nianqing's memories of this life have swallowed memories of previous lives, her practice speed will definitely decline. In the future, she will no longer be my opponent, giggling!"

After speaking, Xie Nianjun Jiao smiled again and again.

Lu Ming was speechless, it turned out to be for this reason.

Let the memories of the previous life dominate, then Xie Nianqing turns into that horrible strongman, and the speed of cultivation will naturally be surprisingly fast.

But the memories of this life engulf the memories of previous lives, but there are only some more memories. Although they are also unprecedented, there will still be a big gap.

Finally, Lu Ming stayed here, accompanied Lu Shenhua for some time, and gave Lu Shenhua some cultivation resources.

Lu Shenhua's system of cultivation and illegality is the system of Xie Nianqing's cultivation. Lu Ming has never seen it, but it is extremely exquisite and the power is amazing.

Lu Ming stayed again for a month, but this month, Xie Nianqing never appeared.

Lu Ming was helpless. After a month, Lu Ming left.

Lu Shenhua did not follow Ming Ming, and stayed here to accompany Xie Nianqing.

"Cultivation, I must accelerate the speed of cultivation, help Xiao Qing's memory of this life and devour the memory of previous life!"

On the way back, Lu Ming vowed secretly.

Originally, he thought that his practice speed was already very fast. Before that, he defeated Xuanyuanyi, pressed all the arrogances, and won the first place, giving him a feeling of standing on the top.

But now, he is under a lot of pressure.

Because Xie Nianqing!

Xie Nianqing's cultivation speed is faster than him. If you want to catch up with or even surpass Xie Nianqing, it's not easy to talk about. This forces Lu Ming to continue to move forward.

Soon after, Lu Ming contacted Tu Yi and others.

Lu Ming took the first class of the soil, and had a physical training, and returned to the Two Realms.

With the addition of these masters, the strength of the two realms increased greatly.

As for the news about the Blue Moon City World War I, it has now spread throughout Taiqing Tianyu, and Lu Ming's reputation has reached its peak.

Strongly defeated Xuanyuanyi, there is no doubt that Lu Ming stood at the pinnacle of the younger generation, and behind Lu Ming, the Emperor who stood was even more amazing.

There is no doubt that Lu Ming has already had a great influence in the heavenly realm, even greater than some heavenly emperors.

After Lu Ming returned to the Two Realms, he devoted himself to cultivation.

And Long Chen, Huang Ling, and Bubble Bubbles also came to the Two Realms to practice. Sometimes they went to the battlefield outside the Two Realms to fight and hone themselves.

In addition, the Stellar River, Yuanxin, Destiny and others, as well as other Tianjiao in the Heaven Realm, including Jiu Ju, are all desperately practicing.

During the Battle of Blue Moon City, they saw Lu Ming's combat power. Lu Ming brought them unimaginable pressure and made them understand their own shortcomings, forcing all Tianjiao to work hard.

In this arrogant world, once stagnated, or progress is not fast enough, it will be surpassed and crushed by others.

Time flies, spring goes to autumn, and in an instant, five years have passed.

For five years, for some emperor-level strongmen, it was just a blink of an eye.

But for five years, it is of great significance for Lu Ming and their arrogance.

In five years, Lu Ming has made great progress in all aspects.

First of all, in "The Seven Gods Xuan Gong", Lu Ming has already practiced to the fourth stage.

Let Lu Ming's physical strength soar. Now, Lu Ming can rely on his physical strength to defeat or even kill the powerful of the eighteenth order of the true emperor.

This is just the power of pure flesh.

However, at the heart, the drop of Zulong blood was almost consumed, leaving only a little.

In addition, Lu Ming's remaining laws have all reached the third level.

Lu Ming's nine laws all reached the third level.

In these years, Lu Ming has refined all the 100 chaotic stones from the Lan family. Lu Ming's cultivation has also obtained the peak of the Six-Star True Emperor, not far from the Seven-Star True Emperor.

This is an all-round improvement. Lu Ming doesn't know how strong his combat power is now. Anyway, for the strong man of the eighteenth order of the true emperor, he can be killed at his fingertips.

"My current strength, I do not know how it compares to the emperor?"

Lu Ming thought.

The great emperor is much stronger than the real emperor.

The emperor cultivated all nine laws to the third realm, and then evolved into a avenue with the nine laws.

The emperor, with the power of the avenue and the strong combat power, is not comparable to the true emperor, and the difference is too great.

Chapter 2332: Challenge the emperor

Therefore, Lu Ming is curious now, whether he can fight the emperor.

"Try it!"

Lu Ming finished his practice and flew in the direction of the Two Realms.

Soon, Lu Ming came to an extremely open land.

Here, there is no limit. This is a school ground in the Two Realms. Normally, the army and the strongmen in the Two Realms are trained here.

Far away, Lu Ming saw several huge masks, like a few large bowls, upside down on the ground.

Around the mask, there are different creatures.

There are various gods and beasts in the human race.

At a glance, Lu Ming saw a dozen real dragons, hovering this body, hovering in the air, and seriously looking at one of the masks.

There are eight or nine phoenixes, more than ten unicorns...

Here, very rare beasts in other places can be seen everywhere.

The two world cities have brought together a small group of Taiqing Tianyu's strongmen, not just to talk about it.

boom! boom! ...

There were violent roars in several masks, and someone was fighting inside.

Lu Mingfei passed by and came to one of the masks.

Inside, there is a strong human race, and a huge sky snake, fighting each other, constantly fighting.

Both are true emperors. They have the fifteenth rank of the real emperor. Among the real emperors, they are regarded as top experts.

The creatures standing around the mask are all in the realm of the real emperor.

"This is the place where the real emperor contests!"

Lu Ming moved.

These masks, like a battle platform, are a place for confrontation, for the powerful of the two cities to fight against each other and hone themselves.

The light mask is formed by a large array of condensed, solid and immortal, fighting inside, you can explode your strength.

After all, it is too dangerous to experience in the battlefield outside the two realms. If you are not careful, you are in danger of falling.

Therefore, many people are here to fight each other and hone themselves.

Of course, the effect is definitely not good in the battlefield, because here, you can't kill the opponent, and the most serious injuries.

"Lu Ming..."

"It's Lu Ming!"

As soon as Lu Ming came, many people recognized it and caused a commotion, and many people's faces changed.

Is Lu Ming going to shoot, who is Lu Ming's opponent in the real emperor realm?

Five years ago, Lu Ming could easily kill the presence of the Eighteenth Order of the True Emperor. Now, five years later, Lu Ming must be even more unfathomable.

However, Lu Ming had no intention of shooting.

In the real emperor's realm, he has no interest at all, and he has no tempering effect on him.

Lu Ming looked at it for a while, then walked towards another mask.

This reticle is more than ten times larger than the previous one, and the light circulates, shining like a metallic luster.

Inside, there are two figures, constant collisions, terrifying roar, and shocking people.

A vigorous burst of energy was scattered, but was blocked by the mask, which kept shaking, but it was not broken.

"Emperor!"

Lu Ming's eyes lit up.

It is the strong man in the Great Emperor Realm who is fighting in this mask.

Around the mask, some people watched, but the number was much smaller.

In the realm of heaven, the number of real emperor realms is very large, not less than that of emperor emperor.

Because it is not particularly difficult to break through the Emperor and the Emperor from the Emperor.

As long as there are three laws to reach the second realm, cultivation base to reach the peak of the Seven-Star Virtual Emperor, you can break through.

As long as the talent is not too bad, it is not difficult to break through after a long time.

But if you want to break through the emperor, it is not a boil, you can boil it out.

The premise of breaking through the emperor is that there are nine kinds of rules to reach the third realm, and at least one kind is the rule of kingship.

People with insufficient talents will not reach this step in their lifetime.

Not to mention, with nine rules, you can understand the road.

One hundred true emperors may not be able to give birth to one emperor.

The Great Emperor, in the heaven realm, is considered a first-class strong man, and wherever he goes, he must be respected.

Therefore, the emperors here are scarce and normal.

"Lu Ming..."

Seeing Lu Ming coming, the eyes of the great emperors were all moved.

Does Lu Ming want to discuss with the emperor?

Not only did the great emperors think so, but the original emperors thought so too.

"Lu Ming has gone to the battlefield of the emperor. Does he want to learn from the emperor?"

In the area of Zhendi, someone exclaimed.

"Impossible, the difference between the true emperor and the emperor is too great. Even if Lu Ming can easily kill the existence of the eighteenth order of the true emperor, it is difficult to match the emperor!"

"In history, no one has ever been able to fight against the emperor with the cultivation of the real emperor realm!"

"Go and see!"

Many true emperors flew towards the battlefield of the emperor.

Even the Emperor Xu's battlefield farther away was alarmed. Many Xu Emperors also flew over and watched from a distance.

Lu Ming did not speak, staring at the two inside the mask.

The two in the mask should be two-star emperors, and the battle is fierce.

boom! boom!

The two controlled the power of the avenue, and continued bombardment, which evolved a terrorist attack. Soon after, the two were equally matched, and no one could beat anyone. It was a tie, and they withdrew from the mask.

"Lu Ming, what are you doing here? Do you want to find an emperor who can't fight!"

At this moment, a voice sounded, and a burly middle-aged man came over.

"Not bad!"

Lu Ming nodded without concealing.

He came here, but he was looking for an emperor to fight against him to check his combat strength.

Many people were shocked.

Lu Ming, actually really wanted to fight the emperor, so much confidence.

"True Emperor Realm Emperor, hehe hey, I never heard of it, are you too arrogant?"

The middle-aged man sneered, showing a trace of sarcasm.

Lu Ming's eyes narrowed slightly.

The person taunted him as soon as he came, and it seemed uncomfortable to him.

Which force is it?

Lu Ming thought.

"What are you doing?"

Lu Ming asked back.

"One Star Emperor!"

Middle-aged man answered.

"Okay, it's you, now I challenge you, come in a battle!"

Lu Ming was very direct, directly challenged the other party, said nothing, and stepped into the mask.

Entering from the outside, the mask will not respond at all, but if there is a strong bombardment inside, the mask will have a strong defense.

Seeing Lu Ming actually challenge him, the middle-aged man's eyes burst into a cold light.

"Everyone, Lu Ming is so arrogant and self-esteeming, I challenged me first, but I did not bully the small and rely on the bully!"

The middle-aged man said with excitement.

He had originally wanted to find a reason to challenge Lu Ming, but he did not expect Lu Ming to challenge him first, which was exactly what he wanted.

Although he is only a one-star emperor, he understands that it is an ordinary avenue, but he is confident enough to easily suppress Lu Ming.

The great emperor is far from the real emperor.

The most top-notch Tianjiao, who controls one of the strongest rules, eight kinds of kingly rules, and all cultivated to the third realm, is only the eighteenth order of the true emperor.

Even the weakest emperor is much stronger than the eighteenth order of the true emperor.

True Emperor, cannot be the opponent of the Great Emperor, this is the truth!

Chapter 2333: Guild Wars

Everyone at the scene was also shocked. Unexpectedly, Lu Ming really wanted to fight a great emperor, and still took the initiative to challenge.

True emperor vs. emperor, this is enough to shock the world!

bump!

The middle-aged man stepped out and stepped into the mask, standing opposite Lu Ming!

"You said, Lu Ming and blue film, who can win?"

Outside, some people whispered.

"I think it's definitely a blue film victory. Although Lu Ming is strong, he can easily kill the 18th-ranking power of the true emperor five years ago, but the difference between the true emperor and the emperor is too great. I have never heard of the true emperor. The one who can fight the emperor, even the strongest true emperor, is not an opponent of the weakest emperor!"

"Yes, Lu Ming is definitely not an opponent. I guess Lu Ming will be defeated within 20 strokes!"

"Twenty strokes? If Lu Ming hasn't made much progress in these five years, I guess the ten strokes can't stop it!"

Many people are talking, but no one thinks that Lu Ming can fight the emperor because the gap is too big.

"Blue film? It seems that you are from the Blue family!"

Lu Ming spoke indifferently, a cold light flashed in his eyes, no wonder he was mocked by the blue film as soon as he appeared here.

"Yes, Lu Ming, you are really arrogant. Although you can't kill you here, but you will be abused, no one will say anything!"

The gruesome blue film.

"Really? It depends on whether you have the ability!"

Lu Ming smiled faintly.

"Then let me see, what is your first arrogance in heaven?"

The blue film opened indifferently, and then with a bang, the blue film's figure blew towards the landing. The speed was amazing, and it punched out like a mountain in the sky. It rang to the landing.

At this moment, Lu Ming's eyes narrowed, the power of the flesh, and the power of the world, all burst out.

Uh!

Lu Ming split it out with one palm. On this palm, there are six kinds of luster wrapped around it, including six kinds of laws.

The law of chaos, the law of death, the law of engulfment, the law of organs, the law of formation, and the law of Dandao.

This is a magical technique.

Lu Ming got an advanced version of the Chaos Ancient Scripture, which recorded many magical techniques, including a variety of rules.

There is a palm law, which contains nine kinds of laws, is an evolved version of the chaos **** palm.

However, among the nine laws, Lu Ming practiced only four of them, but over the years, Lu Ming has improved and incorporated the law of death and other laws into Lu Ming's unique magic power, which is even more amazing.

Lu Ming is now performing this kind of supernatural power.

Boom~!

Lu Ming's palm collided with the blue-film fist, and a terrifying roar, a terrible energy, erupted from the palms of the two colliding, blasting in all directions, bombarded on the mask, and blocked by the mask .

bump! bump! ...

The bodies of the two were shocked, and then they retreated back and back out a dozen steps respectively. The ground stepped on and rumbling.

what?

Everyone's eyes were glared, showing shock.

The first move, Lu Ming actually blocked the blue film attack, the two equally divided.

how can that be?

"The blue film hasn't used its full strength, it's just a tentative attack!"

An emperor said that an emperor could be repulsed by a true emperor, which is very shameless, and even other emperors feel embarrassing.

Inside the mask, the blue film was furious.

He was actually repelled by a true emperor, and the emperor was repelled by the true emperor, and it never happened.

"Lu Ming, you succeeded in angering me, kill!"

The blue film shouted like a cannonball, rushed towards Landing Ming, and his fists kept bombarding away. Before the fist arrived, there was terrible coercion, and the Landing Ming was suppressed.

That is the coercion of the avenue!

The great emperor can control the avenue and borrow the power of the avenue, which is amazingly powerful.

The avenue is a mystery stronger than the law, and it is infinitely powerful.

Lu Mingsi was fearless and waved his palm to face up. This time, Lu Ming's palm had one more law and seven laws.

bump! bump!

The two collided in succession, and in a blink of an eye they fought dozens of moves.

It is still difficult to win or lose.

"The power of the avenue is really amazing!"

During the war, Lu Ming was also shocked.

Lu Ming's current supernatural powers contain seven laws, but under the bombardment of the other party's avenues, it is in danger and has a feeling of being torn down and torn.

If it weren't for Lu Ming's physical strength, which made up for this deficiency, I'm afraid it would be difficult to contend with each other.

The two beat fast, continually collided, terrible strength, bombarded on the mask, so that the mask issued a tremendous vibration.

"Damn!"

Blue film roared, so many moves, Lu Ming couldn't take it, making him feel lost face.

If he could not defeat Lu Ming today, he must be reduced to the laughing stock of the emperor. On the contrary, he became Lu Ming instead, making Lu Ming more prestigious.

Roar!

Suddenly, a blue roar came out of the blue film, and a huge lion emerged above him.

This is a golden lion with golden hair, brilliance and magnificence.

This is not a real lion, but a magical art, a magical art condensed with the avenue.

The lion covered the blue membrane. The blue membrane was in the center of the lion, like a golden lion.

Roar!

The golden lion roared and rushed towards the landing.

"Did you finally use the trick?"

Lu Ming's eyes narrowed. At this moment, Lu Ming's palm filled with nine kinds of brilliance.

All nine rules are used.

This kind of supernatural power is no weaker than the infinite dragon gun, and it is most suitable for close combat.

Uh!

Lu Ming's figure also rushed out, his palms splitting out, and the void was broken directly, revealing the black void space.

His palm seemed to have traveled through the space and bombarded.

The blue film, waving a lion claw, grabbed Lu Ming.

bump!

The two collided again, and this time, the roar was even more intense, evoking terrible energy.

But as a result, the two were still equally divided, and their bodies retreated.

"impossible!"

Blue film roared, extremely incredible.

He had put all his energy into it, and he couldn't take Lu Ming, which shocked him.

He roared and slammed towards the landing. The two were fighting together, extremely fierce.

The people in the mask battle were shocked for a while.

"Oh my god, Lu Ming can really fight against the blue film without falling down at all!"

"It's too scary, true emperor. It's so powerful. How is this possible? What's going on?"

"The same is true emperor, the other true emperors, in front of him, can't bear a blow!"

Many people are unbelievable because the true emperor cannot be the opponent of the emperor. This is the truth, but now, the truth is broken.

Lu Ming is not weaker than the Great Emperor by virtue of the cultivation of the True Emperor.

Metamorphosis is really the metamorphosis of becoming an emperor with multiple laws, which cannot be measured by common sense.

In the end, everyone can only comfort themselves like this.

Chapter 2334: beat

In a blink of an eye, the two played dozens of tricks again, and it was still difficult to differentiate.

"The emperor really is extraordinary. This blue film, the road to comprehension, should be just an ordinary road. The power is so powerful. I don't know the most powerful road. What is the power?"

Lu Ming thoughts turned around in his mind.

The avenue is divided into two types!

In the real emperor realm, there is no comprehension of the strongest rule, only the rule of kings plus common rules evolved into a avenue, that is the ordinary avenue.

And enlightenment to the strongest law, with a strongest law, everything else is the path of the evolution of the rule of kings, known as the most powerful way.

Among the same level, the most powerful road is much stronger than the ordinary road.

The blue film only comprehends the ordinary avenue, and is cultivated as a one-star emperor. Among the emperors, it is definitely weak.

If a one-star emperor who comprehends the most powerful Taoism comes, Lu Ming would be hard to beat.

"Then play another way!"

The light flashed in Lu Ming's eyes, and the offensive suddenly changed into an all-out attack, completely ignoring the defense.

This is a desperate play.

As soon as the offensive changed, Lu Ming's offensive surged and suddenly suppressed the blue film.

"Damn, regardless of defense, I thought I was afraid of you, kill!"

Blue film shouted, also gave up the defense and attacked with all his strength.

Ordinary people play against each other, they will use some of their defensive force in defense, at this time it becomes a full attack, and both of them have made a move.

bump! bump!

Blue Film punched Lu Ming on the shoulder, and Lu Ming slapped it on the shoulder of Blue Film.

Both of them shook their bodies and retreated backward.

The difference is that Lu Ming's shoulder has a pit, but there is no trace of blood flowing out, and the wound is recovering quickly.

The blue film is much worse. His shoulder, as if he was cut by a war knife, almost cut off a picky arm, revealing a deep wound, blood flowing, and even his bones shattered.

The blue film's face was pale.

The resilience of the emperor, although extremely amazing, is simply not comparable to Lu Ming.

"kill!"

Lu Ming did not give the blue film any time to recover, and launched an attack on the blue film.

The blue film was injured, one arm was almost difficult to move, and the combat power was greatly reduced. For a time, it fell completely into the downwind and lost to Lu Ming.

bump! bump!

Next, the blue film made consecutive strokes and he was spitting blood out of Lu Ming.

Although he also hit Lu Ming, Lu Ming did not cause much harm and did not affect the combat power.

"Indestructible ancient scriptures!"

The blue film shouted, extremely unwilling.

He knew that Lu Ming used the immortal ancient scriptures and was not afraid of injuries.

bump!

The blue film was distracted, and Lu Ming seized the opportunity and bombarded his face with a palm. The blue film screamed, his body flew out, blood mixed with teeth in his mouth, and flew far away, hitting the mask. Above.

The blue-film brain buzzed and was completely stunned.

Will Lu Ming let go of this opportunity, rushed over, his fists and feet together, all greeted on the blue film's face and body.

The blue film was like a sandbag, and was instantly bombarded by Lu Ming with dozens of moves.

After dozens of strokes, the blue film flew out and fell to the ground, all covered with blood, lying there twitching nonstop.

Hiss...

A voice that sucked in cold air came out. Outside the mask, whether it was the Emperor Xu, the True Emperor, or the Great Emperor, they all opened their mouths in shock, and there were shocking waves in their hearts.

An emperor was defeated and defeated by a young true emperor!

Moreover, it was so miserable that it was defeated, and it was almost tyrannical.

What a miserable!

Needless to say, the blue film must become a laughing stock, and Lu Ming's reputation must be pushed to the top.

The true emperor defeated the emperor, which completely broke the truth and created a miracle.

"Haha, it's not bad, have fun today!"

Lu Ming laughed.

Basically, he figured out his fighting power.

Probably equivalent to the weakest emperor. Of course, he used the indestructible ancient scriptures and desperate style of play to suppress the opponent and should be able to compete with the one-star emperor who understood the most powerful way.

In this battle, his main purpose was to test his own strength. Now that it has been tested, Lu Ming intends to leave.

The blue film was originally awake, and after hearing Lu Ming's words, a breath of blood spurted out directly, roared, and fainted.

"fainted!"

Lu Ming pouted, and then stepped out, leaving the mask.

Others saw Lu Ming coming out and automatically gave way, which was an invisible power.

Lu Ming, at such a young age, but with combat power, has already stepped into the realm of the emperor. It will be a few years later, and fortunately, he will certainly become an invincible overlord in the future.

Lu Ming left the place and returned to his residence. When his heart moved, his soul appeared in a small world, appeared on a mountain, and looked into the distance.

In today's small world, there are 600,000 miles in the world, and it is vast.

Moreover, in the small world, Lu Ming planted a lot of elixir and sacred medicine, and planted seeds of various vegetation.

Today, in many parts of the small world, the green grass and various flowers flourish.

In some places, some small trees also appeared.

Now the age is not very long, and no big trees have appeared yet.

Similarly, there are no animals, monsters and the like.

However, the small world and the outside world are still more and more similar. After Lu Ming, he plans to put in some animals, monsters and the like to come in. In this way, it is no different from the outside world.

Of course, Lu Mingxiu's promotion is fast, and there are still a large territory, and there is no silence.

It takes time for vegetation to slowly multiply in the small world.

As soon as his mind moved, Lu Ming came under the ancient tree of Taoism.

The ancient Taoist tree, planted on a plain, is now 500 meters high.

This is entirely a contribution to the five-colored soil.

The 500-meter-high ancient Taoist tree, straight through the sky, the trunk is extremely thick, and there are roads between branches and branches. When you practice here, the speed of enlightenment will be greatly enhanced.

With the ancient trees of Budo as the center, this plain is full of green grass and flowers and fragrant.

The main reason is the five-colored soil. The vegetation in this area is extremely powerful, and there are many elixir sacred medicines, and the medicine is fragrant.

Lu Mingpan sat under the ancient tree of Taoism and practiced quietly.

The story about Lu Ming's defeat of the blue film is spreading at a whirlwind speed.

Anyone who hears this news is shocked, then overjoyed, amazed, jealous, roared, with various expressions and emotions.

Lu Ming, another wave of waves spread across the vast territory of Taiqing.

Seven days passed in an instant, and on this day, Emperor Hengyu came to Lu Ming's residence.

Emperor Hengyu did not hide his breath. As soon as he came, Lu Ming felt it.

Lu Ming ended his practice and met with Emperor Hengyu.

"Senior Hengyu came to Lu Ming, I don't know what happened?"

Lu Ming smiled.

"Lu Ming, I heard that you defeated the blue film, so I came over and looked at it, ha ha ha, really amazing, even I was surprised!"

Emperor Hengyu smiled.

Chapter 2335: Nether God Island

Emperor Hengyu was very happy. Lu Ming came from Yuanjie. He and Lu Ming were also deeply connected. Seeing that Lu Ming had such achievements, he was more happy than his breakthrough.

"Lu Ming, with your current combat strength, I am afraid that the effect of training will be less effective in the two realms!"

Emperor Hengyu said.

"I am planning to practice for a while, and I will improve my cultivation base to the peak of the true emperor, so I will go to the battlefield of the emperor and have some experience!"

Lu Ming said.

"Emperor battlefield? Going now, I am afraid there is no effect!"

Emperor Hengyu said.

"No effect?" Lu Ming froze.

In the battlefield of the emperor, aren't many emperors on both sides fighting, training?

"Now, there is no one on the battlefield of the emperor. The emperors on both sides have gone to Void God Island!"

Emperor Hengyu said.

"Void God Island?" Lu Ming wondered, this was the first time he heard the name.

"Yes, Void God Island. A few years ago, a mysterious place was found in the eternal void, which contains infinite treasures. Now, many characters of the Great Emperor Realm have entered Void God Island!"

Emperor Hengyu explained.

"Even aliens can enter?"

Lu Ming asked.

"Yes, that Void God Island is in a void, eternally suspended, reachable from both sides, and contains countless treasures, various treasures of heaven and earth, chaotic stones, Hongmeng stones, superb original stones, road fragments , Mark of Heavenly Dao, even Heavenly Dao soldiers have it!"

Emperor Hengyu said with fiery light in his eyes.

"Heavenly soldiers!"

Lu Ming was also surprised.

Heavenly Dao soldiers, also known as Heavenly Emperor Soldiers, contain Heaven Dao.

Once the characters of the Heavenly Emperor Realm control the Heavenly Emperor's soldiers and stimulate the power of Heavenly Dao inside, Heavenly Emperor's combat power will be greatly enhanced.

However, Heavenly Emperor soldiers are rare.

Heavenly Emperor soldiers are not like Great Emperor soldiers, Great Emperor soldiers, Heavenly Emperor soldiers can be refined, and even some powerful Great Emperors can be refined.

However, Heavenly Path Soldier, Heavenly Emperor himself, could not be refined.

Heaven Emperor can only borrow the power of Heavenly Dao. It is simply impossible to refine weapons containing Heavenly Dao.

Heavenly Emperor soldiers can only be refined if they are superior to the Heavenly Emperor.

In addition, in the nature of heaven and earth, there can be some emperor soldiers that contain heaven, but the number is very small.

In fact, most of the Emperor Heavenly Emperors used the Great Emperor's Soldiers.

Once a Tiandi soldier is in control, Tiandi's combat power will skyrocket.

Therefore, the price of the Tiandi soldiers is surprisingly high.

Lu Ming did not expect that this Void God Island actually contained Heavenly Emperor soldiers.

"Yes, and there are definitely a lot of them. In the past few years, someone has brought out Tiandi soldiers from inside, which caused a sensation!"

Emperor Hengyu, the fiery color in his eyes is more intense.

There is no Heavenly Emperor soldier in his hand.

For example, the sword of Heavenly Emperor in Lu Ming's hand is not Heavenly Emperor's Soldier, but only Great Emperor's Soldier, and does not contain Heavenly Dao.

"Such a treasured land, wouldn't the Emperor all be jealous, what would the Emperor go in there for?"

Lu Ming wondered.

"Void God Island contains amazing coercion. That kind of coercion can suppress Heavenly Dao and the characters of the Heavenly Emperor. They can't enter at all. Only people below the Heavenly Emperor can enter. Therefore, it is most appropriate for the Emperor to enter!"

Emperor Hengyu said.

"What? Even Heaven can suppress, this..."

Lu Ming's eyes widened in shock.

What is the highest in this world? Heavenly way!

Heavenly Dao controls all things in the world, and all things in the world evolve and survive under the operation of Heavenly Dao.

Heavenly Emperor, the pinnacle of martial arts, but he can only borrow the power of Heavenly Road. Now, Lu Ming heard that there is actually coercion, which can suppress Heavenly Road, naturally shocked.

Is it Zulong's realm?

With a move in Lu Ming's heart, he thought of Zulong!

Dan Dan once said that the realm of Zulong surpassed Heavenly Emperor and completely reached another realm, a supreme realm.

"Many people speculate that the Void God Island, in the very long past, was a dojo of the supreme figure, floating in the eternal void. Those characters have already transcended the Heavenly Path, and the Heavenly Path must be suppressed by him, so it is so Horrible coercion!"

"This can also explain why there are so many Emperor Soldiers in the Void God Island. That kind of character can completely refine the Emperor Soldiers!"

Emperor Hengyu explained.

Lu Ming was deeply shocked. It was really hard to imagine the existence of the dojo that existed. It was not surprising that any treasure appeared.

"I came this time to ask you if you want to go to Void God Island. However, Void God Island is very dangerous. There are some dangerous places on the God Island, plus the alien emperor, and the sky side. Great Emperor, it's very dangerous. If you don't want to go, you can practice in the Two Realms!"

Emperor Hengyu said.

"Go, I will go!"

Lu Ming nodded immediately, his eyes firm.

With such a treasure, Lu Ming will never miss it.

Above, there are various treasures of heaven and earth, chaotic stone, Hongmeng stone, avenue fragments, etc., which will definitely help Lu Ming's cultivation.

And to hone on it, to fight in life and death, the training of Lu Ming will be greater.

He wanted to catch up, even surpass Xie Nianqing, and follow normal practice. It must be impossible. He must take risks.

"Okay, I will arrange it for you, but there is one thing you have to remember. On the island of Void God, sometimes the crisis will come from the people on the side of the heavens and grab the treasure on it, but there is no limit. I will do it myself!"

Emperor Hengyu said.

Lu Ming nodded, he experienced so much, this point is naturally clear.

"During this time, you try to improve your strength as much as possible. I will inform you after I arrange it!"

After finishing talking, Emperor Hengyu left here.

Lu Ming returned to his residence, thinking about the direction of the next practice.

Next, Lu Ming intends to upgrade his cultivation base to the Seven Star True Emperor.

This is currently the fastest way to increase combat power.

Once the cultivation base reaches the seven-star true emperor, you can try to break through the emperor realm.

However, Lu Ming did not intend to break through the Great Emperor Realm so quickly.

Once the Great Emperor Realm is broken, the avenue is fixed, and it is difficult to integrate more laws!

Lu Ming has an ambition. He wants to practice all the ten strongest laws successfully, cultivate to the third realm, and then break through the emperor. In that case, he does not know what level he will reach.

This is something ordinary people don't dare to think about, but Lu Ming is entirely possible.

After thinking for a while, Lu Ming took out a few pieces of the heart of the world, and began to refine it to enhance the power of the world.

All the chaotic stones in his hands have been refined, and now, only the heart of refining the world and the original stones, to enhance the power of the world, the speed is naturally much slower.

However, Lu Ming's cultivation practice was originally at the limit of the Six-Star True Emperor, and it was only one step away from the Seven-Star True Emperor. It was not difficult to break through.

After spending a month, Lu Ming finally broke through the bottleneck and upgraded his cultivation base to the Seven Star True Emperor. Lu Ming's combat power was undoubtedly stronger.

Chapter 2336: Through the void

Then, Lu Ming continued to consolidate a few days later, Emperor Hengyu arrived.

It has been arranged and can be set off immediately.

Soon after, Emperor Hengyu brought the landing tones, tearing the space and rushing towards a place.

An hour later, Lu Ming appeared above an endless sea.

This sea is an inland sea in the Taiqing area, vast and endless.

At this moment, there are already some people waiting here.

Lu Ming glanced over. In addition to Hengyu Heavenly Emperor, there were three other Heavenly Emperors. In addition to the three Heavenly Emperors, there were also five Great Emperors.

The five great emperors, old and middle-aged, two of them drew the attention of Lu Ming.

Because the two men are exactly the same in length, they are obviously twins.

It is extremely rare that the twin brothers have all reached the emperor realm.

Obviously, these great emperors must also go to Void God Island.

Lu Ming glanced at the sea again.

In front, there is a space that is extremely unstable, constantly twisted, and occasionally a space crack appears.

This is the space passage to the Void God Island.

On the way, Hengyu Tiandi and Lu Ming have talked about this space passage in detail.

In fact, the Taiqing Tianyu came from other heavens, not only the two worlds, but also another battlefield and two passages.

There are other secret void channels that can enter other heavens, and even some can enter other worlds, such as Evil God Realm.

However, this kind of passage is generally very small and extremely small, and it is unstable and chaotic. Generally, it can only pass through one person, a little more than two people, and three people at a time.

No matter how much, it won't work.

Moreover, these passages are extremely confusing and very dangerous. It is possible for the emperor to enter and get lost.

Only Heavenly Emperor can pass safely.

At these entrances, there are naturally terrifying strongmen guarding the heaven.

Although now, except for these people, they are empty and have nothing, but Lu Ming is sure that there are absolutely terrifying strongmen in this area. Once an alien strongman comes across the channel, it will be strong. kill.

Moreover, this kind of passage can generally only allow one person, two or three people to pass, if the aliens dare to come over, they will be besieged by the masters of the heaven.

In fact, there are several such channels in Taiqing Tianyu, all of which are guarded by the strong, which is to prevent the alien strong from coming over.

"Lu Ming!"

Everyone's eyes looked at Lu Ming, full of surprises.

Unexpectedly, Lu Ming had to enter the Void God Island.

"The same people in the heaven, I hope you enter the Void God Island and can help each other!"

A heavenly emperor opened his mouth and looked at them at Lu Ming.

"This nature!"

"definitely!"

The emperors nodded, and Lu Ming nodded.

"It's almost time, let's go!"

Another great emperor said.

Immediately, he waved his hand, a force that enveloped the twin brothers.

Just here, the space on the sea was twisted and a space crack appeared. On that day, the emperor's figure moved, and with his twin brothers, he rushed into the space crack and disappeared.

This channel, once, can only allow three people to travel together.

Others waited quietly, and after a while, another Emperor, with two people, rushed into a space crack.

In the third batch, a heavenly emperor, with a woman in palace dress, rushed into a space crack.

At the scene, only Hengyu Tiandi and Lu Ming were left.

They waited for a moment.

"Lu Ming, go!"

Emperor Hengyu waved his hand, an energy enveloped Lu Ming, and with a flash of landing sound, he burst into a space crack.

As soon as they burst into the space crack, there was an endless space storm, which swept toward the two people. Hengyu Tiandi ignored it and rushed into the space storm. Soon, they passed through the space storm and came to a small void channel .

This void channel is extremely small and very small. It can only allow three people to walk together. All the surroundings are chaotic and dark, and there is a strong pressure to press them.

Emperor Hengyu brought a landing sing, which was amazingly fast, moving at a rapid speed, and the void around him was constantly passing by.

I don't know how long it has passed, and suddenly there is no way ahead, and it becomes dark.

The void channel is broken.

Hengyu Tiandi brought the landing sound, stopped, closed his eyes, and felt carefully. Suddenly, Hengyu Tiandi brought the landing sound and rushed towards the right side, breaking through the darkness. After a while, they came to a void channel on.

This is also the strong of the Heavenly Emperor Realm, so that he can sense and find the right path. If the average person, even the Emperor, I am afraid that he will be lost in the dark void, with bad luck, will never be able to get out, and will always wander in the dark void.

In this way, a few days passed, a sudden glory came in front of me.

Luminous light would come from the eternal and silent dark sky, which surprised Lu Ming slightly, and at the same time knew that the destination was coming.

Sure enough, at the next moment, they walked through the void channel and came to a vacuum area.

Yes, this area seems to have been opened up by people in the dark sky. There is no trace of space in this area, as if it is the sky outside.

This area is amazing.

In the center of this area, there is an island suspended there, looking from a distance, just above the island, there seems to be a sun hanging in the sky, the radiance is the sun scattered down.

The Heavenly Emperor who came in before, as well as the twin brothers and others, waited here and saw Hengyu Heavenly Emperor and Lu Ming coming. Everyone nodded and flew towards the island.

This area is very vast and amazing. It took them at the speed of the Heavenly Emperor Realm to fly them, and they all flew for a short time.

When they approached the island, they discovered that the island was also amazing.

Where is the island, is clearly a continent.

"This Void God Island has a very large area. Some people speculate that it may be as large as one tenth of the Taiqing Heavenly Territory!"

Emperor Hengyu spoke.

Others were astonished that it was one-tenth as large as the Taiqing Tianyu. This is just a humane field, and it is really a big deal.

But when they came to a certain distance from Void God Island, Hengyu Tiandi and others stopped.

"We can't go any further, we will be suppressed by that pressure, and then you will go by yourself!"

A heavenly emperor said.

"With your cultivation, don't go too far into Void God Island, but you can move around Void God Island, because many high-level emperors have gone deep into Void God Island!"

Another emperor of high order.

Everyone nodded, and then flew towards the Void God Island alone.

"Senior, leave!"

Lu Ming said goodbye to Emperor Hengyu.

"Lu Ming, be careful!"

Emperor Hengyu solemnly said.

Lu Ming nodded, then turned and flew towards the Void God Island.

Chapter 2337: Fight hard

A group of six people flew towards Void God Island, the closer to Void God Island, the more they felt the vastness of Void God Island.

It is one-tenth the size of the Taiqing Heavenly Field, and it is too extensive. Below, there are endless mountains, endless plains, and all kinds of rivers and lakes.

As they approached the edge of the Void God Island, they suddenly felt a terrible pressure on them.

They seemed to be carrying an endless weight, and the body could not help falling down, falling down extremely fast.

The six people's faces changed, and the power of the world was fully used to slowly stabilize their bodies.

Lu Ming exerts the power of the world, and at the same time, the muscles continue to vibrate and shake the air, so that he can stabilize himself, otherwise, I am afraid to fall directly.

"What a terrible pressure!"

The faces of the six people are very unsightly.

Although Emperor Hengyu and others have warned them recently, the pressure here is alarming, but I was actually very surprised.

Five of the six are the emperors, and Lu Ming also has the fighting power of the emperor. With their cultivation practice, they were almost unable to fly because of the pressure. It is conceivable how terrible such pressure is. .

If the True Emperor came, I am afraid that he could not fly at all. He was directly pressured by this pressure and fell directly to the ground, falling alive.

"This pressure, this breath..."

The more the six people feel, the more shocked they are.

That kind of pressure, that kind of breath seems to be higher than Heavenly Dao, detached from everything and dominate everything.

Under such breath, Heavenly Dao must be suppressed!

It is as if there is a supreme existence in the center of the island, which is exhaling breath and threatening the universe.

However, a few years ago, someone set foot on this island. Over the past few years, everyone speculated that this island was not known how many years ago, and the owner of the island had long since left.

The breath on the island should be the breath that the island owner preached here, closed here, and left.

Lu Ming and others were even more shocked when they thought of this.

It's just that the remaining breath hasn't been known for many years. It's so terrifying. It's really terrifying. Even Heavenly Emperor can't suppress it.

After several people stabilized, they slowly landed on the ground.

Soon, they were only tens of thousands of meters above the ground.

"what is that?"

Suddenly, someone looked ahead.

There was a dark cloud flying towards them at an astonishing speed.

Quack...

Then, a shrill chirp came over.

"No, it's a crow, all crows..."

Someone exclaimed.

"Go away!"

Their faces changed, they turned around and rushed down quickly.

Quack...

The group of crows, covering the sky and the sun, and the dark ones, the number is unknown.

Each one, the breath of it is very terrifying.

Among them, there are real emperor realm and virtual emperor realm, the key number is too much, they can only retreat.

However, the speed of those crows is also very fast, approaching fast.

call out! call out! ...

At this moment, under Lu Ming, there was a stream of black streamers shooting towards them.

These black streamers are also all crows, covered with black, and have the size of a head, just like a black iron cast.

"Why are we so unlucky that we encounter this crow as soon as we come in..."

One of them roared.

As far as they know, there are also some terrible beasts on the island of Void God. This kind of crow is one of them. It is very terrible. They are in groups. Some people have bad luck. They just encountered this when they landed. It is very dangerous to grow a crow, and many people fall into the mouth of this crow.

But the Void God Island is so vast, and the chances of encountering it are not very great. It can only be said that their luck is too bad.

"Kill it out!"

Lu Ming shouted, and a spear was condensed in his hand, shining in nine colors.

Hey! Hey! call out!

The spear burst out and turned into a lance, colliding with these crows.

The guns are extremely sharp, and every gun can pierce a crow.

Others also shot.

Among the other six people, only one is a one-star emperor, the other four people, three are two-star emperors, and the other is a three-star emperor, whose attack power is much stronger than Lu Ming.

With six shots, a large crowd of crows was killed and the body fell to the ground.

However, there are too many crows, and they are constantly being impacted from below.

And the group of crows in the distance rushed over too much.

Lu Ming, they were so delayed, they were suddenly surrounded by crows.

"Join together, kill!"

The Samsung Emperor was a middle-aged great man with amazing fighting strength. He held a battle axe and split it with an axe, that is, a tens of thousands of meters long chopped out, and a large crow was killed.

The virtual emperor, the crow of the real emperor realm, could not stop him at all.

Headed by him, supplemented by others, and together, suddenly torn the crows out of a passage, constantly rushing outward.

Quack!

At this moment, a raspy voice sounded, and a fiery red light rushed towards the middle-aged man.

The middle-aged man cut off with an axe and collided with the fiery red light, making a violent roar. The fiery red light was blown out.

It was a fiery red crow with red feathers, like a flame burning.

This crow, astonishingly strong, was hit by an axe of a middle-aged man, but he didn't die.

This is an emperor-level crow.

Quack! Quack! ...

The piercing sound rang continuously, and everyone saw that there was a fiery red light flashing continuously among the crows. They were all fiery red crows, and all were crows in the Great Emperor Realm, with a dozen or so.

Six people's faces changed!

There are dozens of crows in the Great Emperor Realm. Such strength is amazing.

"Push, hurry!"

Someone shouted, they exploded with all their strength. At this moment, no one was hiding, and all their strength was used, and they were bombarded out constantly to rush out.

However, a dozen fiery red crows have arrived at an alarming speed.

Quack! Quack!

The piercing sound resounded through the sky, their wings flapped, they were as fast as electricity, and their claws were indestructible, and they slammed towards the landing.

"roll!"

Lu Ming shook his spear and swept it out, colliding with a fiery red crow.

Buzz!

The spear continued to vibrate, and a force of terror came along the spear. Lu Ming shook his body and stepped back several steps. The spear that had the strength of the world and the laws condensed was almost scattered.

"Good strength!"

Lu Ming was shocked.

The crow was just blown out by Lu Ming, but was not injured. There was a cold light flashing in his eyes, a flap of wings, and once again rushed to Lu Ming.

The other five people also fell into bitter fighting.

These crows, the worst, have the fighting power of a one-star emperor, and the strongest are no weaker than the middle-aged man.

Six people were in a bitter fight.

Chapter 2338: Came a group

More than a dozen fiery red crows, full of horrible flames, the temperature is astonishing, like dozens of small suns, and they are constantly rushing to the landing Ming Ming six people, the speed is amazing, and the power is also terrifying.

Six people from Lu Ming struggled to resist, but for a time, they were still in danger.

Karma! Karma!

At this time, there were two fiery red crows attacking Lu Ming.

Lu Ming exerted all his strength, without any reservation, and a lance in his hand kept piercing.

boom! boom!

The claws of two fiery red crows collided with Lu Ming's lance, and the lance continued to vibrate, and Lu Ming himself, the body violently, continued to recede.

The two fiery red crows are the fighting power of the one-star emperor. If there is one, Lu Ming can still deal with it, but for two, Lu Ming will fall into the wind and his arm will be numb.

"war!"

In Lu Ming's eyes, a splendid war spirit burst forth, running the indestructible ancient scriptures, and fighting with two fiery red crows.

With the terrible defense and recovery ability of the immortal ancient scriptures, Lu Ming can also resist.

But others are in danger.

Another old man in the one-star Great Emperor Realm, a careless one, was caught by a crow, and a piece of flesh was suddenly torn apart, and a deep wound appeared. The blood flow made him pale, and his breath was a little weak.

Others are also dangerous, and they are overwhelming.

"rush out!"

Someone shouted, and they rushed towards the bottom, trying to rush to the ground, using the complex terrain of the ground, to get rid of this group of crows.

However, there are too many crows.

More than a dozen fiery red crows are all crows in the Great Emperor Realm. The crows below the Emperor Realm are in groups and constantly attacking. It is also a huge trouble for Lu Ming and others.

Therefore, they simply cannot rush out.

bump!

Another person was fanned by the wings of a fiery red crow, and was almost cut into two pieces by the waist, dangerous and abnormal.

"Everyone, in this case, let's take care of ourselves!"

At this moment, the middle-aged man suddenly opened his mouth, making other people's faces change.

"What do you want to do?"

An old man shouted ugly.

boom!

At this time, the middle-aged man did his best.

The middle-aged man has the realm of Samsung Emperor, the strength is among them, and the strength is the strongest.

At this moment he drove back a fiery red crow that attacked him equivalent to the Samsung Emperor, and he seized the opportunity and rushed to the side.

He wants to escape alone.

If he stayed with Lu Ming and them, he would only be killed by so many crows, but if he fled alone with his strength, a crow of the Samsung Emperor Realm alone might not be able to keep him.

"Damn!"

Others roared, if this middle-aged big man fled, and the crow of the Samsung Emperor Realm attacked them, then they were really dangerous, and they might all stay here.

Karma! Karma! ...

The crow screamed, and several fiery red crows besieged the middle-aged man.

However, the only real threat to him was the crow of the Samsung Emperor Realm. Therefore, under the desperation of the middle-aged man, several crows were struck by him. After paying a little injury, he rushed out.

The middle-aged man turned into a rainbow of light and went away at a rapid speed. The hearts of others began to cool down.

Without a middle-aged man, they would really finish playing.

Lu Ming's eyes narrowed slightly.

Do you want to use the Emperor's flesh now?

In these years, most of the black spar Lu Ming will get from the aliens has been absorbed by the Emperor's flesh. For example, the energy stored by the Emperor's flesh is extremely abundant.

If you use the Emperor's flesh to kill these crows, there is absolutely no problem.

However, Lu Ming originally intended to keep the Emperor's flesh and use it when entering the Void God Island.

Void God Island, gathered a large number of great emperor realm, aliens, and heaven here, there are even a few great emperors.

In addition to the danger of the Nether God Island itself, Lu Ming intends to keep the Emperor's flesh and use it when it is in danger.

It's a pity to use it before entering Void God Island.

But now, it doesn't matter.

Just as Lu Ming thoughts were turning in his mind, in the distance, a sharp cry rang out.

Karma!

The same crow's cry, but this cry, with the prestige of wearing gold crack stone, seems to be able to tear the space.

In the distance, a group of fiery red crows appeared.

Yes, it is a group of dozens or twenty, all of them are fiery red crows, and all have the realm of the emperor.

Some of them are scary with high breath, overwhelming, overwhelming the eight wilderness, strong breath, even above the crow of the Samsung Emperor.

Above Samsung Emperor, that is the high-end emperor.

Except for Lu Ming, everyone's complexion turned pale.

Originally in a desperate situation, now there is a group of more terrifying crows, which is simply dead.

The dozen or so crows from behind rushed toward the middle-aged man.

The middle-aged man had a pale face and no blood.

He screamed, his body shone brightly, his speed soared and he wanted to escape.

This is his potential for burning life, which greatly improved his strength.

However, those crows are so terrifying, there are several crows, with incredible strength, one wing, like red lightning, chasing towards the middle-aged man.

Soon after, the middle-aged man was caught up.

嗤嗤...

A crow, as big as a mountain, with huge claws, grabbed towards the middle-aged man.

The middle-aged man roared, bursting out all his strength, attacking the strongest move, wanted to block it, but his attack was directly torn by the claws of the crow, tearing off half of his body directly. .

The middle-aged man screamed, his body receded, and he gave a desperate roar.

Immediately afterwards, several other terrible crows had already been attacked. The middle-aged man was unable to return to the sky. Under the attack of several terrible crows, his body was torn and then swallowed by several crows.

The middle-aged man, who wanted to escape alone, fell for the first time.

Others did not feel happy because the middle-aged man was killed. At this time, they had only despair.

"It's over!"

Someone shouted.

As soon as the middle-aged man died, it was their turn.

"Lu Ming, what a pity!"

An old man looked at Lu Ming with pity.

Lu Ming, so young and so talented, has unlimited achievements in the future. It is very likely that he will become the invincible powerhouse of the heavenly realm, but it is a pity to die here.

"Even if I die, I will kill a few!"

Another person shouted, trying to desperately.

Karma! Karma! ...

At this time, the fire-red crow that killed the middle-aged big man stared at Lu Ming and fluttered their wings. They flew towards the landing and they flew at speed. Their blood-red eyes were full of cold murderers.

"It seems that the Emperor Tiandi can only be used!"

Lu Ming whispered, and then a small stone statue appeared in his palm.

The stone statue grew rapidly, holding a huge war sword in his hand.

Chapter 2339: Desperately

The stone statue quickly became the size of a mountain. Lu Ming stepped out and his body merged into the stone statue.

Keng!

The sound of the sword roared through the sky.

A stone sword burst forth with a dazzling sword spirit, and a sword slashed out.

puff! puff!

The two fiery red crows besieging Lu Ming were directly cut into two pieces by the stone sword.

Two one-star crows in the Great Emperor Realm were directly beheaded.

In the past five years, Tiandi's body has absorbed a lot of energy, but Lu Ming has never used it. Now, the energy stored in Tiandi's body has reached 80%.

Eighty percent of the energy, the explosive power, is already terrifying.

Lu Ming speculates that if the stored energy of the Emperor's flesh reached 100%, it was enough to compete with the Peak Emperor.

Therefore, the stored energy reaches 80%, enough to kill the ordinary five-star emperor.

"kill!"

Lu Ming shouted and controlled the body of the Emperor Emperor. The powerful energy burst. The Sword of the Emperor Emperor seemed to be invincible.

Jian Xiao was endless, the harsh sound of sword gas cut off the void.

Several crows were beheaded one after another. Even the crows of the two-star emperor were killed in seconds without any suspense.

This puts pressure on others and reveals the ecstasy.

They did not expect that Lu Ming actually had such a treasure, and suddenly showed his hope.

Karma! Karma! ...

Other crows, seeing Lu Ming slashing several fiery red crows, suddenly made a sharp cry, various attacks, and kept bombarding them towards the landing.

And the dozen or twenty terrifying crows coming from behind approached Lu Ming quickly. They were separated by a distance. They waved their wings and feathers, like a sword, bursting into them.

Lu Ming cut off with a sword, Jianmang cut off the void, and blocked all these feathers.

"rush out!"

Lu Ming shouted and rushed towards the bottom, others followed closely.

And those fiery red crows did not give up at all and pursued them hotly.

Coming from the back, plus the front, there are more than 30 fiery red crows, all kinds of attacks, to drown them Lu Ming.

Lu Ming can only turn back to resist and block all attacks.

"kill!"

Then, Lu Ming went into the crows alone.

Rather than resisting the crow's attacks and wasting energy, it is better to kill them all.

puff! puff!

Lu Ming brandished his sword, and his sword spirit was indestructible. In an instant, he killed five fiery red crows.

Karma!

The remaining crows screamed, seeming to be furious.

Several of the most powerful crows culled Xiang Luming.

Lu Ming chopped out with a sword, and a violent roar erupted, with a few of the strongest crows.

Several crows were flew out by Lu Mingzhen.

"Three four-star emperors, one five-star emperor!"

Lu Ming moved.

Through a match, Lu Ming probably judged the fighting strength of several crows.

Three four-star emperors, and one five-star emperor, this is absolutely terrifying power.

Karma! Karma! Karma!

Several crows retreated and slammed towards the landing.

"Then kill you all!"

Lu Ming's eyes were cold and cold. Inside the Emperor's flesh, the strong energy exploded in full and rushed towards several crows.

Lu Ming completely ignored his own defense and attacked with all his might.

boom! boom! boom!

After a series of attacks, they landed on the body of Heavenly Emperor, but only on it, leaving a shallow trace.

Heavenly Emperor's flesh, after all, is left by the Heavenly Emperor's realm. It is extremely strong. Even the Peak Emperor, it is difficult to break it. The four-star emperor and the five-star emperor cannot be broken.

As for other crows, it is even hard to leave traces.

puff!

Disregarding the defense, Lu Ming fought with all his heart, and the sword of war slashed out, chopping off a crow of a four-star emperor realm with one wing. In addition, a crow of a two-star emperor realm was swept by the sword light and was cut into two. Half, feathers flew.

The crow of the four-star emperor wailed, blood spattered into the void, and his figure retreated.

How could Lu Ming let go of the other party, struggling to catch up.

The attacks of other crows continued to fall on Lu Ming, and the explosion of "Dong Dang Dang" erupted.

But Lu Ming's speed could only be reduced slightly. Lu Ming forcibly rushed over, slashed out, and cut off the head of the crow.

The soul inside the head was also killed by Lu Ming.

With a flash of light, Lu Ming collected the body of this crow into his own small world.

The crows of the Great Emperor Realm are full of treasures and are of amazing value, but they cannot be wasted.

After beheading a four-star emperor, Lu Ming turned to stare at the other crows and hunted down quickly.

Those under the four-star emperor couldn't stop Lu Ming's sword. They were directly beheaded by Lu Ming, and the body was taken into the small world by Lu Ming.

Karma!

Soon after, another wailing sounded, and a crow in the four-star emperor realm was beheaded by Lu Ming.

At this point, before and after adding up, a dozen fiery red crows have been killed by Lu Ming.

But there are only twenty or so left.

Several companions were beheaded by Lu Ming. These crows were even crazier. The crows under the emperor even rushed to Lu Ming.

Although these crows can't break the defense of Heavenly Emperor's flesh, they can continuously consume the energy of Heavenly Emperor's flesh.

"If this doesn't work, you must first slash the strongest crows!"

Lu Ming thought.

Heavenly Emperor's flesh stores 80% of its energy. Although it is extremely powerful, it constantly fights against the existence of the Great Emperor Realm, and at the same time, it also has other crows attacking crazily. It is also amazingly fast to consume.

In this way, it won't take long for the energy in the Emperor's flesh to be exhausted.

If the energy of the Heavenly Emperor's flesh is exhausted, and the other party's Samsung Emperor, Four Star Emperor, and Five Star Emperor are not dead, then they are in danger.

Therefore, before the energy of the Emperor's flesh is exhausted, be sure to kill some of the strongest existences of the other party.

At the moment, Lu Ming does not care about other crows, and aims at the existence of the other party's Samsung Emperor.

puff! puff!

The blood was splattering, the blood stained the sky, and there were two fiery red crows in the three-star emperor realm, beheaded by Lu Ming.

In this way, there were only two red crows above Samsung Emperor.

One four-star, one five-star!

Lu Ming tried his best to deal with these two.

Uh! Uh! Uh!

Lu Ming waved his war sword frantically, killing these two crows, the horror roaring, the continuous eruption, the sky was beaten, and the hot temperature, it was necessary to burn everything, including space.

After more than a dozen moves, the four-star crow was finally slashed by Lu Ming, and suddenly a five-star emperor's crow was left.

"kill!"

Regardless of other attacks, Lu Ming went crazy towards this crow.

This crow, as big as a mountain, is very powerful, with claws and wings, invincible and extremely terrifying.

However, Lu Ming just happened to restrain it, without fear of its attack, the war sword kept slashing to its vital points.

For a time, Lu Ming had the upper hand.

Chapter 2340: Spirit in the desert

At this time, the twin brothers and two others, a total of four, had already rushed to the ground and fled wildly.

"We left Lu Ming like this, not very good!"

An old man opened his mouth, showing concern.

"What's wrong, Lu Ming's puppet is astonishingly powerful. In my opinion, it is stronger than the five-star emperor. He is enough to protect himself. We stay and let him get in the way!"

One of the twin brothers is humane.

"Yes, we need to leave first before Lu Ming can let go of the war. We can't help with our stay!"

The twin brothers said the same.

The old man sighed, knowing that the twin brothers were right, and then several people quickly left the place with the help of the terrain below.

In the high sky, Lu Ming and the fiery red crow of the five-star Great Emperor Realm have become fiercely fighting.

Regardless of the defense, Lu Ming completely suppressed the crow. After dozens of battles between the two sides, the crow was bloody.

One wing was almost cut off by Lu Ming, leaving only a trace hanging on it.

At the same time, Lu Ming was stabbed on the chest, blood flowed.

With only one wing remaining, the speed of this crow was greatly reduced, and it was not even Lu Ming's opponent. He could not even retreat.

bump!

Lu Ming took a hard blow to the opponent, his body shook slightly, and then stab with a sword in his backhand.

puff!

This sword pierced directly from the opponent's heart.

Karma!

The other party wailed, struggling violently, filled with fiery red flames, and rushed towards the landing, but to the Emperor's flesh, it had no effect.

"Dead!"

Lu Ming shouted, the energy exploded madly, the sword of the Heavenly Emperor, the constant shaking, the sword gas whizzed out.

bump!

Lu Ming crosses out, and finally, splits the crow's body in half, and the soul is also blown away by this blow.

This five-star emperor's crow fell.

"No, the energy consumption is too great!"

At this time, Lu Ming's face changed.

Before killing so many fiery red crows, the energy originally consumed was very amazing, and the crow war with this five-star emperor realm, the energy consumed is even more terrifying.

Now, Lu Ming feels that the energy in the body of the Emperor is about to be exhausted, and he has no power to continue to kill the remaining crows.

Lu Ming was filled with light, covering the body of the crow, and put the body of the crow into the small world.

Then Lu Ming rushed towards the earth in a rush.

The crows blocking in front were beheaded one by one, and Lu Ming successfully rushed out of the enclosure.

But at this moment, Tian Di's flesh shook and quickly shrank, and Lu Ming's body flew out of Tian Di's flesh.

The energy of Heavenly Emperor's flesh was officially exhausted.

Lu Ming put away Tiandi's flesh, and then fled wildly.

The crows saw Lu Ming put away Tiandi's flesh, made a harsh cry, and chased after landing.

Among them, there are more than a dozen fiery red crows in the Great Emperor Realm, many of which are still two-star Emperor Realm crows. If Lu Ming is surrounded, it will be very dangerous.

Lu Ming cast six **** wings, flying towards the distance at a speed, and the crow behind him chased at a speed.

The two sides chased and fled, crossing a long distance.

Those crows bite the ground tightly, but Lu Ming casts six feather wings, and the speed is very fast. Only the crows of the Great Emperor Realm can barely keep up with Lu Ming's speed.

Soon after, there was an endless desert ahead.

On the ground, all are golden sands, and, far apart, a wave of heat hits.

Lu Ming has been rushing into the desert area.

The strange thing is that when Lu Ming rushed into the desert area, the crows actually stopped, wandered around for a while, and left.

This made Lu Ming curious.

"Did these crows actually not enter this desert, is it because of the problem in their own area, or is there a scary existence in this desert, which makes these crows afraid?"

Lu Ming turned his thoughts in his heart, dared not to carelessly, and used the breathing technique to converge his breath, completely converging.

Then, Lu Ming went deep into the desert.

This desert is full of golden sand, endless, and the temperature is amazing.

The temperature here does not come from the sun in the sky, but from the ground.

Underground, there are constantly hot temperatures diffused out, making it difficult to burn.

In addition to the pressure between heaven and earth, if the real emperor came here, it would be extremely unbearable and unstoppable, but for Lu Ming, it was okay.

Lu Ming walked forward for a while and found this desert, a dead silence, without any vegetation or creatures.

In addition to fine sand, it is still fine sand.

Fortunately, there is always a sun hanging above the center of this void island.

This sun will never change position, so this can be used as a basis for distinguishing directions.

As long as you walk towards the sun, you are walking towards the center of the Void God Island.

Lu Ming walked in this desert for three days without any abnormalities or dangers.

"Huh, a plant!"

Suddenly, Lu Ming's eyes lit up, and in front of him, he saw a plant.

It's been three days since I walked into this desert. This is the first time Lu Ming has seen plants.

At such a high temperature, there are still plants, Lu Ming came to interest, and flew past.

This is a purple plant, shining brilliantly, with medicinal fragrance.

Imperial Medicine, there is no doubt that this is an Imperial Medicine.

But Lu Ming is more interested in the root position of the Imperial Medicine. There is a small pool with some liquid in it, which emits amazing energy essence.

Lu Ming's eyes lit up, and he knew that it was this small pool of liquid that gave birth to this imperial medicine.

These liquids are valuable.

"These fluids contain powerful essences of life. Even in such a Jedi, they can conceive a royal medicine. It is extraordinary. I am practicing "Seven Gods Mysterious Power" now, I just need this kind of spirit fluid, otherwise Hard to break through!"

Lu Mingsiw!

Now, in his heart, there is not much energy left in that drop of Zulong blood. If you want to break through the flesh and cultivate "The Seven Gods Xuan Gong" to the fifth level, the remaining Zulong blood is not enough. It needs other energy.

Of course, holy medicines, imperial medicines and the like can also assist in the cultivation of the flesh, but to Lu Ming's current state, extremely high-grade imperial medicines are required to be effective.

Immediately, Lu Ming carefully dug out this imperial medicine and planted it in his own small world, then took out a jade bottle and collected all the liquid in the small pool.

"These liquids have been enough for me to practice for a while. I will first find a place to refine these liquids to see if I can break "The Seven Gods Xuan Gong" to the fifth level!"

Lu Ming turned his thoughts in his mind.

Now, his rule system does not intend to break through to the realm of the emperor so quickly, he wants to break through all the strongest laws and realize success.

If you want to improve your combat power quickly, you can only practice Taikoo style and break through the body.
