

D Emperor 2471

Chapter 2471: New ranking

Yi Yang is dead!

Some commanders exhaled and looked at Lu Ming with dignity.

The ability to kill Yi Yang has already surpassed most of the commanders. Only some of the top leaders can do it.

Rama's eyes were cold, but he didn't speak.

Among the people on the scene, Binbu and Liao Min were the most shocked.

"So strong, so strong? How could this be?"

Binbu whispered, his eyes full of shock.

Thinking that he had offended Lu Ming before, he could not help shivering.

Lu Ming could kill even Yi Yang's command, and it was easy to kill him if he wanted to kill him.

"Okay, Lu Ming, you killed Yi Yang, then take his place, and temporarily rank ninth. Wait a minute, you can participate in the challenge of leading the conference!"

Lord Fengming announced.

"Thank you Lord!"

Lu Ming thanked with a fist, then returned to the stands.

"Subordinates, please see Master!"

As soon as Lu Ming returned to the stands, Liao Min saluted respectfully.

Now, Lu Ming took over Yi Yang's position, became the leader, and became their boss.

Liao Min secretly sighed. Not long ago, Lu Ming was just like them, just a escort, but now, as soon as he changed shape, he became the leader and replaced Yi Yang's position.

This is the world of spiritual practice, with the strong being the most respected, as long as you have the strength, all the reputation status can be easily obtained.

"Subordinates, participate in commanding adults!"

On the side, Binbu also saluted quickly, his head lowered deeply, respectfully.

Lu Ming glanced at Bingbu indifferently, and Bingbu's body trembled, and cold sweat came out of him.

"No need to be rude, sit down!"

Lu Ming waved his hand.

Then sit down.

Next, the challenge continues.

Still the leader of the frontier city, he initiated the challenge.

Originally, the leader of the border town was to challenge Yi Yang, but now Yi Yang is dead, and the leader has become Lu Ming.

He also saw the combat power of Lu Ming just now. He understood that he was not Lu Ming's opponent at all, so he simply skipped Lu Ming and challenged the eighth-ranked leader. As a result, he was naturally defeated.

Next, it was Lu Ming's turn to challenge.

"I give up the challenge!"

Lu Ming shouted.

Having achieved the position of command, Lu Ming did not intend to continue to challenge, too late, he still understands the truth.

Using this position of command, he can already do a lot of things for him.

Lu Ming gave up the challenge and made some leaders happy, especially the leader in front of him.

The challenge continues.

The next challenge is not much suspense.

For a hundred years, for a master like them, it is too short, and the strength will not change much.

Soon, it was Rama's turn to challenge.

"Will he challenge Lu Ming first?"

Many people think so.

Lu Ming just killed a powerful guard of Rama. How could he easily pass Lu Ming with Rama's character.

However, Rama glanced at Lu Ming for a few times and did not challenge.

After all, Lu Ming's strength still made Rama a little afraid. He was afraid to challenge Lu Ming and then challenge the Jade War Commander, not in the peak state.

Therefore, he did not challenge Lu Ming, but looked towards Yu Zhan.

Sure enough, the guards sent by Rama afterwards were all guards who challenged the leader of the Jade War.

The struggle between the two sides is inseparable.

However, the leader of Rama finally lacked a guard.

The opponent also has an escort. Rama no longer has an escort, and he must be asked to play on his own.

Rama leapt onto the battle platform, looked at the leader of the Jade Warfare, and said, "Jade Warfare, let's fight down!"

"You beat my **** first!"

Yuzhan said coldly, and then his guard jumped onto the battle platform.

The last guard guarding the Jade Warfare is also a powerful Emperor of Heavenly Emperor Realm, but only a Star Emperor of One Star.

"A virtual environment is important, and I want to consume my strength. It's really a delusion, let me go!"

Rama screamed and slapped out with a palm. His terrible palms poured into the other side like a row of mountains.

Triple virtual reality!

The cultivation practice led by Rama is threefold to eliminate the virtual realm, which is equivalent to Samsung Emperor, much stronger than Yixing Heavenly Emperor.

Although the opponent used all means, but still could not change the result, he was blown off the battle platform by the power of Rama.

"Jade War, do it yourself, don't call these little ones!"

Rama looked to the commander of the Jade War and filled with a strong war intention.

"Fight for a hundred years, see where your confidence comes from!"

Jade War Commander spoke indifferently, and as soon as his figure moved, he appeared on the battle platform, standing opposite to Rama Commander.

boom!

Both men burst into a powerful breath, and the breath collided with a violent roar.

There is no doubt that the Jade War Commander is also a Samsung Emperor.

boom!

Suddenly, the two moved, turned into two light and shadow, and collided fiercely, starting a fierce battle.

bump! bump! ...

The two attacked and collided continuously. On the battle platform, the roar continued, and in a blink of an eye, the two fought dozens of moves.

Immediately afterwards, there was a violent roar, and the two bodies receded quickly.

The difference is that Jade War retired more than twenty steps, while Rama only took a dozen steps back.

"Rama, you... your cultivation..."

Commander Yuzhan looked at Commander Rama in shock, his eyes full of disbelief.

"Hahaha, jade war, now I am four steps away from the virtual realm, only one step away, see how you fight me!"

Rama laughed wildly, full of confidence.

This time he confidently defeated the Jade War, not only because of the alien royal family, but also his own strength.

Over the past 100 years, his cultivation practice has finally made another breakthrough. It is only one step away from the fourfold of the virtual reality. It has reached the limit of the threefold virtual reality, and its combat power has exceeded the jade war.

Other commanders are also shocked.

This time, the ranking of the leader may be changed.

"Jade War, defeat me!"

Commander Rama continued to kill Commander Yuxiang.

"Come on!"

Commander Yu Zhan angered, and the two launched a fierce fight.

However, although the leader of Rama was stronger, he could not be too much. Under the desperate resistance of Jade War, Rama wanted to win, it was not easy.

The two men fought more than two hundred battles. The Jade War Commander was eventually defeated and defeated by the Rama Commander.

Commander Jade War, with a ugly face, returned to the grandstand, and he was injured.

"Okay, this time the leadership conference is now over, and then I announce the ranking of the leadership for the next hundred years!"

The main road of Fengming Kingdom.

Everyone's spirit was shocked, and a new ranking is coming out, which involves the subsequent division of interests.

"First place...Rama!"

Lord Fengming announced the first place.

"It really is Rama!"

Many people felt shocked.

This time, although Rama did not have a guard, but his own strength was extremely powerful. Thirteen commanders, unmatched, personally defeated the Jade War Commander and was ranked first, which is normal.

Yuzhan commander's face was gloomy, while Rama commander laughed, and then thanked the master of Fengming Kingdom.

Chapter 2472: Bullying

"Second place, jade battle!"

"Third place, few places!"

...

"Ninth place, Lu Ming!"

Soon, Lu Ming reported the rankings of all the leaders.

The rankings have hardly changed. The only change is the battle between Rama and Yu, and Lu Ming killed Yi Yang and replaced his position.

"Okay, the conference is over, Zhong Aiqing eats and drinks!"

Lord Fengming smiled, and then ordered people to serve a variety of delicacies.

Until the next day, the crowd dispersed.

Lu Ming took Binbu and Liao Min back to the commanding palace.

Along the way, Bingbu frightened, fearing that Lu Ming would trouble him.

"Subordinates see the leader!"

As soon as I returned to the Commanding Mansion, I saw other guards, with the people of the Commanding Mansion, greeting Lu Ming respectfully.

Obviously, they had received information that Yi Yang died in Lu Ming's hands, and Lu Ming inherited the position of command.

"You don't need to pay much courtesy, I will rely on you and do things for me in the future!"

Lu Ming smiled.

"Willing to die for the leader!"

Binbu was the first to arrive.

"May you die for the leader!"

Others came loudly.

"Okay, during this time, we will stay in the imperial capital first, you go and do one thing for me, and send someone to find these people with three eyes!"

Lu Ming took out a jade rune, the jade rune glowed, and a picture appeared in the air.

These pictures are exactly what different races and different races look like.

"You find these people, don't hit the grass and startle the snake, come back and report to me!"

Lu Ming ordered.

"Yes!"

Everyone saluted, then Lu Ming let everyone go.

Lu Ming picked a room, and after entering the room, a storage ring appeared in Lu Ming's hands.

This storage ring was led by Yi Yang.

Lu Ming is looking forward to it. I do not know how many resources there are in the Yiyang storage ring.

Lu Mingling entered and began to count.

Soon after, Lu Ming smiled.

Three million **** stones!

In Yiyang's storage ring, there are three million **** stones, which is equivalent to 300 billion pieces of superb gemstones.

Lu Ming was overjoyed that these resources were enough for him to break through the four-star emperor and even the five-star emperor.

However, in Yi Yang's storage ring, there is no equivalent to the soldiers of the level of the Taoist soldiers, only the weapons equivalent to the great soldiers.

It seems that weapons equivalent to the level of the Taoist soldiers, even in Huangquan Mountain, are relatively precious.

However, Lu Ming is already satisfied.

Next, as long as someone is sent to find the alien, if he can kill him, Lu Ming will kill him directly.

However, it is more troublesome to find the creatures in the heaven.

The creatures in the Celestial Realm are relatively close to those in the Huangquan Mountain. Unless he touches them in person, he can sense them. The aura of the Celestial Body on the other party is difficult for others to find.

In addition, Lu Ming also had to inquire about the cursed land of Fengming Kingdom and see when to find an opportunity to enter.

However, these things are not in a hurry, and step by step, Lu Ming closed his eyes and began to practice.

In a blink of an eye, half a month later, Lu Ming ended his practice and went out.

However, after Lu Ming turned around for a while, it felt a bit strange.

There are fewer people in the house.

At this moment, a figure flashed, and Liao Min appeared not far away.

"Have seen the leader!"

Liao Min salutes, but her face is a little unsightly.

"Liao Min, what's wrong? How do I feel that the people who are in charge of the government have become much less?"

Lu Ming asked.

"Commander, something happened!"

Liao Min said ugly.

"Oh? What happened?"

Lu Ming asked, his face still calm.

"Sometimes ago, Rama commander issued a message over there, saying that you have killed his effective guard, this account will not be so, he will kill you sooner or later!"

Liao Min said.

"and then?"

Lu Ming's face was still calm, and he couldn't see what he was thinking.

"Then Rama continued to speak and say this, the fault lies with you. It's not about the affairs of the other people in the governor's house. As long as other people take refuge in him, he will not blame him, and he will be responsible!"

Liao Min answered.

"Then, those people went to Rama?"

Lu Ming smiled and said, but deep in his eyes, but a flash of cold light flashed.

"Yes, Nabim, the first to surrender to Rama. During this time, he continued to fan others to surrender to Rama. Now, of the eighteen guards, ten have already surrendered to Rama!"

Liao Min gritted his teeth.

"Oh, Rama..."

Lu Ming sneered.

He didn't want to go too far, but some people forced him.

At this time, there was a loud noise outside the commander's mansion. Lu Mingling extended his knowledge and saw a group of people around the door of the commander's mansion.

Among the few headed, among them were Binbu.

In addition, there are a few people who are the guards of Rama.

Under Lu Ming's men, several guards stopped them outside the door.

"You guys, still stubborn, follow Lu Ming to death?"

Bingbu glanced at the guards, sneering.

The guards looked a little ugly and hesitated.

"Now, the Rama leader, as the head of the thirteen commanders, masters the heavy soldiers, and is powerful in itself. It is simply not comparable to Lu Ming. Lu Ming offended the Rama leader and will die sooner or later. You continue to follow him, just die The current manager is Junjie, you better turn to the Rama leader earlier!"

Binbu continued.

"Bimbu, you traitor!"

Liao Min couldn't hear it anymore, rushed out and scolded.

"Traitor? It's ridiculous, then Lu Ming is going to die. Why should I accompany him to die? Liao Min, you better turn to Lord Rama quickly, I can say a few words for you, and do a job for you, Otherwise, your end will be miserable!"

Bingbu sneered, a pair of eyes, sweeping around Liao Min, filled with fiery light.

"you..."

Liao Min was furious, and his face turned red.

"I have your last chance, you have only three days, and after three days, you will not fall back to Lord Rama, then accompany Lu Ming to die!"

Bingbu said coldly.

"Really? I want to see what you have!"

An indifferent voice came, and Lu Ming's figure stepped out.

"Lu Ming!"

Seeing Lu Ming, Bingbu's eyes narrowed, and he subconsciously stepped back a few steps, revealing a terrified look in his eyes.

But the next moment, he thought of something, emboldened, and stopped.

"Bimbo, I have given you a chance, but unfortunately, you don't cherish it yourself!"

Lu Ming said indifferently, and there was a cold murder in his body.

"Lu Ming, what do you want to do? I am now the guard of Lord Rama, do you dare to move me? You are looking for death!"

Binbu shouted.

"Rama's guard, haven't I already killed one?"

Lu Ming sneered.

"you..."

Bingbu's face changed wildly.

"Lu Ming, Lord Rama has spoken. You are going to ask him for guilt now, and then surrender to him and do things for him. He may consider forgiving you!"

On the edge of Bingbu, a Rama guard.

This person has the cultivation of a star emperor.

Chapter 2473: Go to the door

"Call me to do things for him?"

Lu Ming's mouth slightly raised, revealing a trace of sarcasm, said: "You, go back and give him a talk, just say I Lu Ming, give him three days, within three days, he came to kneel to pay guilt, and then surrendered to me , Do things for me, otherwise, in three days, I will kill him and take his dog's life!"

what?

Lu Ming's words made everyone stunned.

Rama's words were to let Lu Ming turn to him and do things for him.

Now, Lu Ming actually asked Rama to kneel to pay guilt, and then act for Lu Ming.

This contrast made everyone stunned and thought they had heard it wrong.

"You... what are you talking about?"

A Rama guard, trembling fingers landed, thinking he was dreaming.

"Go back and talk, get out!"

Lu Ming drank coldly.

"Lu Ming, you are stubborn, you are looking for death, Liao Min, have you seen it, Lu Ming is arrogant, stubborn, and he is looking for death, and he will take you to die with you, but you still can't come Surrender, I will help you to say a few words in front of Rama!"

Bingbu cried.

"Are you going to surrender?"

Lu Ming looked at Liao Min.

Liao Min gritted his teeth and clenched his fists: "May I die for the leader!"

"what about you?"

Lu Ming looked at the remaining guards again.

The guards changed their faces for a while, then gritted their teeth and said, "May you die for the leader!"

"it is good!"

Lu Ming smiled on his face.

"You... stubbornness, you are looking for your own way!"

Binbu shouted.

"Scratch!"

Lu Ming spoke indifferently, his figure suddenly moved, appeared in front of Binbu, and pointed out.

puff!

A vigorous hole pierced through and directly pierced Bintian's Dantian.

Binbu's eyes glared round, and he watched the landing song unbelievably, then yelled frantically.

"Ah, ah, you abolished my cultivation, you abolished my cultivation..."

He screamed, but he didn't expect him to be the guard of Rama now, Lu Ming actually dared to attack him.

He was full of despair.

Although the cultivation of Huangquan Mountain is different from the Celestial Realm, one thing is the same. That is Dantian, which is still the key and the place where energy is stored.

Dan Tian was destroyed, and he was a waste of cultivation.

"I don't kill you now, I want you to see, how did I destroy Rama, go!"

Lu Ming drank coldly and flew Binbu out.

The others were terrified and quickly took Binbu and retreated quickly.

Lu Ming did not speak and turned back to the Commander's Mansion.

Regarding Lu Ming's request for Rama to kneel down and pay guilt to him, if he didn't make a guilt, three days later, he would kill Rama's house of command. At the speed of the whirlwind, it spread out and spread throughout the country.

The country is shaking.

In the past few days, many commanders have not returned to their respective territories. Just now, they were alarmed, looking forward to the next development of the matter.

Rama ruled the house, and Rama's angry roar came.

"Child Lu Ming, don't have this reason, and look for his own way. I think you will kill me three days later."

Rama roared, a cold murderous opportunity, shrouded in the entire House of Command.

The entire country, countless powerful people, are paying attention. For a time, the atmosphere of the country is extremely depressed.

In a blink of an eye, three days passed.

"Go, follow me to rule the Rama House!"

Lu Ming strode out the door of the command and walked toward the commanding palace of Rama.

Liao Min, as well as several other guards, gritted their teeth and landed.

They gamble!

In the past few days, they found that Lu Ming was too relaxed.

This was not done intentionally, but really relaxed.

If they are not sure, how can they relax so, so they gamble, Lu Ming is sure to deal with Rama, if they gamble right, they must fly Huang Tengda.

"Lu Ming set off!"

As soon as Lu Ming came out, the country was frying pans, and secretly, countless people followed Landing Ming and headed for Rama's house.

Soon afterwards, Lu Ming came to the Rama Commanding House.

Rama ruled the palace, and had already laid down heavy soldiers.

"stop!"

Outside Rama's house, someone stopped Lu Ming.

"roll!"

Lu Ming drank coldly and stepped out in one step. The terrible breath burst out, forming a storm-like strength and rushing forward.

boom!

Those who guarded the gate were directly flew out with vigour.

Lu Ming walked in with great strides.

Inside the gate, there is a wide courtyard, which is now full of people.

At the top, Rama sat on a Taishi chair, standing beside him, guarding masters one by one.

Lu Ming glanced and found that Bingbu was also there, looking at Naruto with a vicious look.

"Lu Ming, are you here to indemnify me?"

Rama sneered, deep in his eyes, flashing through the murderous chance.

"Come and get your head!"

Lu Ming said indifferently.

"Bold, die!"

"Dare to be rude to Rama!"

The Rama guards shouted one by one.

But when Lu Ming's indifferent gaze swept to them, all of those people's faces changed greatly, and they were cold and sweaty.

"Now, give you a chance, I will give you ten interest time to consider, after ten interest, surrender to me, after this matter, I can not blame!"

Lu Ming glanced at all directions, a pair that didn't put Rama in his eyes at all.

"Hahaha!"

Rama smiled anxiously and stood up from the Taishi chair. The violent breath filled out, leaving everyone under great pressure.

Rama, who has reached the triple limit of virtual reality, in Fengming Kingdom, no one is his opponent except the owner.

"It's time to start!"

Outside the commanding palace, other commanders and other masters are all paying attention, and my heart is shocked.

"Kill, kill him!"

Bingbu roared in his heart, wishing to unload Lu Ming eight pieces.

"Today, I will let you die better than life!"

Rama spoke indifferently, and as soon as his voice fell, he rushed towards the landing.

Uh!

In Rama's hands, a snow-white machete appeared, sharp, and beheaded to the landing.

Lu Ming shook his hand in a false way, mastering the way, condensed a long gun, and swept it out.

when!

The two's attacks collided together, arousing terrible energy, sweeping all directions.

"Rewind!"

The people around them backed away frantically, afraid of being involved.

With a roar, Lu Ming and Rama both stepped back a few steps.

"have equal shares!"

"how is this possible?"

Many people were shocked.

Lu Ming could actually stand with Rama.

They finally knew why Lu Ming dared to kill here. It turned out that he had enough capital.

"Kill, kill, kill!"

Rama roared, exploding his fighting power to the extreme, and madly killed at the landing.

Lu Ming killed him with a spear.

Lu Ming did not explode the power of the flesh, only to dominate the enemy with the way of domination.

Now, Lu Ming's cultivation base is that he can reach the Samsung Emperor, even if he only relies on the way of domination, he can suppress the ordinary Samsung Emperor.

Chapter 2474: Kill Rama

The machete in Rama's hand kept chopping out.

His knife technique is fierce and fierce, and the angle is tricky, and he specifically cuts the key point of Lu Ming.

However, Lu Ming's spear was shocked and turned into a gun, blocking everyone's knife.

In a blink of an eye, the two played dozens of moves.

From the yard of the mansion where the two commanded, the two reached a high altitude and were full of vigor, like wind and waves, sweeping all directions.

However, in the midst of vitality, Rama's figure kept receding.

Every time he collided with Lu Ming's lance, his footsteps had to take a step back. After dozens of strokes, he had stepped back dozens of steps.

"Damn, how is it possible? How could he be so powerful?"

Rama roared in his heart.

Based on his cultivation of the triple limit of virtual reality, in Fengming Kingdom, only Lord Fengming can suppress him. Now, a Lu Ming, it seems that cultivation is not high, and the combat strength is actually stronger than him. He is unbelievable. .

"impossible!"

In the crowd, Binbu shouted in his heart, a face completely twisted.

He was abolished by Lu Ming's cultivation practice, and he was very much looking forward to Rama's defeat of Lu Ming.

It is a pity that his wish is doomed to fail.

Liao Min and others are overjoyed.

They knew that they were gambled right, Lu Ming was able to cope with Rama, they were not afraid.

"Kill me, kill!"

In the sky, Rama roared, exerting his strength to the extreme, and even his body was covered with a layer of blood-red blood mist.

The scimitar in his hand was also covered with a layer of blood, and the power suddenly increased a bit, and he could instantly fight Lu Ming without falling.

"The creatures in the Huangquan Mountain have a battle of the same level, and their fighting power is stronger than those of the Heaven Realm or the Evil God Realm!"

Lu Ming's heart moved, but also a little surprised.

In the outside world, with Lu Ming's combat power, the outburst of dominance alone broke out, and so many battles, I am afraid to kill a Samsung Emperor, unless the other party's talent is amazing.

But now, in the face of Rama alone, he can only barely gain an advantage.

The spirit of Huang Quanshan, the strength of cultivation, is extremely condensed, and the combat skills of cultivation, combined with that kind of strength, are amazing and invincible.

This is a bit like Xie Nianqing!

However, Xie Nianqing is stronger!

"Rama, is this your full strength, then come to an end!"

Lu Ming spoke indifferently.

Buzz!

At this moment, his musculoskeletal body shook sharply.

At the same time, the spear in his hand disappeared and replaced by the Great Waste Gun.

Lu Ming used his physical strength, as well as Heavenly Dao Bing and Dahuang Gun.

The increase of the two has made Lu Ming's combat power soar.

Boom!

The Great Waste Gun swept out, collided with Rama's scimitar, and burst into a thunderous roar.

Buzz!

The scimitar in Rama's hands, the constant shaking, the terrifying power, directly flew Rama out, his arm was almost broken, his body was full of blood, and a sip of blood was directly sprayed out.

"Your... weapon?"

Rama was shocked.

call out! call out! ...

Lu Ming didn't give Rama a chance to breathe. The guns of the Great Waste continued to pierce, and the guns, for thousands of miles, penetrated the space and assassinated Rama.

Rama was frightened and furiously resisted. However, he couldn't stop it at all. Every time he blocked a gun, he had to be blasted out. After blocking more than a dozen, he finally showed a gap and was stabbed in the chest by Lu Ming. , A big transparent hole appeared.

Rama vomited blood, and under the devastating power, half of his body exploded.

He was hit hard and his strength was reduced sharply.

Lu Ming came out of the air, the Great Waste Gun vibrated and swept out.

"No, no, I'm willing to surrender..."

Rama shouted in horror.

He understands that he is not Lu Ming's opponent. If he does not surrender, he will die.

"Before, I have given you a chance, but unfortunately you don't know how to cherish!"

Lu Ming spoke indifferently, and would not give the opponent another chance.

The spear carried terrible power and ran over.

Rama's combat power decreased sharply, and he couldn't avoid it at all. He could only block the machete in front of him.

Boom!

The Great Waste Gun swept on his scimitar, and with his scimitar, he bombarded him heavily. He was flying like a broken sack and flew out horizontally. During the flight, his body exploded several times.

"Kill!"

Lu Ming stabbed out with a gun across the sky, a lance, penetrated the void, and destroyed Rama's soul. Then, with a roll of strength, he put Rama's storage ring in his hand.

Rama, dead!

The scene was silent!

Everyone knew that Rama was dead, and the ranking among the remaining commanders must have changed dramatically.

Thump!

Among the crowd, Binbu's body was soft, and he directly collapsed to the ground, his face desperate.

Lu Ming glanced coldly at Binbu and did not kill the other party.

A waste person, keep your own life!

"To command mighty, command invincible!"

Liao Min shouted excitedly.

Then, several other guards who did not betray Lu Ming also shouted excitedly.

They, knowing that they bet correctly, were naturally excited.

Lu Ming's eyes swept to Rama's men and guarded them.

Lu Ming's eyes swept the guards, all of them trembling, cold sweating.

"Do any of you want to avenge Rama, despite the shots, I will go on together!"

Lu Ming said coldly.

Those people's faces were covered with cold sweat.

"The commander is invincible, and I am willing to serve the commander!"

Immediately, several people rushed out to salute Lu Ming respectfully.

"Several of you, there is also a face to command the commander, really shameless!"

Liao Min scolded, because these people were originally Lu Ming's escorts. They had turned to Rama before.

"Eh!"

Lu Ming waved his hand, stopped Liao Min, and said with a smile: "This commander is generous and generous. As long as you come back to do your job for this commander, you can never blame it!"

Huang Quanshan, for Lu Ming, is just a passer-by, he will not stay here long.

The main thing for him now is to use the power here to find aliens, and to inquire about the cursed land to gain opportunities.

Therefore, whether the other party betrayed, what kind of mentality he does not care, as long as he can use it for him.

He has scrapped Binbu, killed Rama, and killed the chicken and monkey.

"Thank you for your command!"

Those people were ecstatic.

"It's the same with you. Now you trust me and work for me with peace of mind. I can't blame it in the past!"

Lu Ming looked at Rama's men.

Those people looked at each other and then saluted Lu Ming together, shouting: "Willing to serve the leader!"

"Willing to serve the leader!"

For a time, all of Rama's subordinates saluted Lu Ming to show surrender.

At this moment, an old man in official clothes flew over and said, "The Lord of the Kingdom has orders, Feng Luming is the first commander, and he will command all the original troops and territory of Rama!"

Chapter 2475: Identity was discovered

Obviously, Lord Fengming has always been concerned about this matter. Lu Ming has just won. Lord Feng Ming sent people to come immediately, and sealed Lu Ming as the first commander to win over Lu Ming.

"Thank you Lord!"

Lu Ming clenched his fists.

"Congratulations to Commander Lu!"

"congratulations!"

Other commanders also stepped forward to Xiangming Lu.

Lu Ming nodded and responded. Soon after, the crowd dispersed, and Lu Ming officially took charge of Rama's governing house, and took charge of Rama's army and territory.

Two days later, Lu Ming began to send people to investigate the aliens in Fengming Kingdom, and sent people to find clues about the cursed land.

There are many cursed places in Huangquan Mountain, and the souls of Huangquan Mountain cannot enter.

In Fengming Kingdom, there is a cursed place, guarded by heavy soldiers sent by Fengming Kingdom.

After more than ten days, there was finally news that a trace of aliens was found in the north of Fengming Kingdom.

According to the report, there are three aliens, the cultivation is unknown, but they did not disturb the other.

Lu Ming flashed a cold light and set off directly.

When encountering interracial, there is no reason to let go.

Lu Ming directly killed the past.

In a valley, three aliens are also negotiating how to enter the Fengming Kingdom and find opportunities to enter the cursed land.

However, these three aliens, the strength is not particularly strong, two one-star heaven emperor, and another one is the emperor.

Lu Ming felt the other party's cultivation behavior, and without hesitation, he shot directly.

call out! call out! call out!

Lu Ming rushed into the sky and stabbed three guns. There was no suspense at all. The three aliens were killed directly.

Then the other party's storage ring was taken away, a fire burned the alien's body to ashes, and Lu Ming left here.

Next, no trace of aliens was found in Fengming Kingdom.

Huang Quanshan is very big, Fengming Kingdom is just a corner, and this time there are not many people coming in from different races. There are only thousands of people scattered. There are naturally not many people in Fengming Kingdom.

Lu Ming put more energy on the cursed land.

Lu Ming thought about how to find an opportunity to sneak into the cursed land.

At this time, the master of Fengming Kingdom sent someone to summon Lu Ming.

Inside the palace, in a large hall, the Lord Fengming was seated high.

Lu Ming walked into the hall and clenched his fists: "Lu Ming has seen the Lord!"

"Lord Commander, please sit down!"

Lord Fengming waved his hand with an inexplicable smile on his face.

Lu Ming sat down.

"I don't know what the Lord called Lu Ming, what is the so-called thing?"

Lu Ming asked.

Lord Feng Ming seemed to laugh, but he pondered for a moment, then suddenly said: "Lu Ming, if I guessed right, are you not from Huangquan World?"

Lu Ming felt a shock in his heart, but his face was still calm and said, "The Lord of the Kingdom laughed. I am not from Huangquan World. Where will it be?"

"From heaven!"

Lord Fengming opened his eyes and his eyes were brighter, saying: "In my ancient books of Fengming Kingdom, there are records in the ancient past. I don't know how many years ago, there were people from outside who came. Huang Quanshan's cursed land is free to come and go!"

"And you, I can't find any information about you, it seems to appear out of thin air, and after you become the commander, you immediately send people to investigate some inexplicable people. The most important thing is that you have been investigating about News of the Cursed Land!"

"Huangquan World, but no one will be interested in the cursed land, because the people in Huangquan World can't enter these cursed land at all. Only people outside the world will be interested in the cursed land, I said, right? ?"

Lord Fengming has bright eyes and stares at the land.

Lu Ming's thoughts changed sharply, and he pondered for a while, saying: "Yes, I am indeed from heaven!"

Now that you have doubts about the opposition, then there is nothing to hide, it is better to just say it and discuss the conditions with the other party.

"It's really a stranger!"

Lord Fengming's eyes were extremely bright and excited: "Unexpectedly, unexpectedly, the original records in the ancient books are true, I always thought it was just a fiction, just a legend!"

After a while, Lord Fengming calmed down.

"Lu Ming, do you want to enter the cursed land?"

Lord Fengming asked.

"Not bad!"

Lu Ming nodded and told the truth.

"Legend, the land of curse is Huanghuang World, the oldest ancestor left, you have a great chance, Lu Ming, let's cooperate, I will let you enter the land of curse, the treasure you got inside, five or five points how is it?"

The main road of Fengming Kingdom.

"Yes, five or five points, I won't let you enter the cursed land, and you won't be able to enter. You must understand this!"

Feng Mingguo's main path is filled with a strong breath.

Lord Fengming is a four-fold virtual world, equivalent to a peerless master of the Four Star Heavenly Emperor.

"it is good!"

Lu Ming nodded without hesitation.

A win-win cooperation, Lu Ming can't make trouble with the other party.

"Okay, ha ha ha, commander Lu, go back first, I will inform you in a few days!"

Lord Fengming smiled.

Lu Ming clenched his fists and stepped away.

Lu Ming returned to the Commanding Mansion and waited while practicing.

He looked forward to the cursed land.

However, it is up to luck to enter the cursed land and see if there is any gain.

Because, before the Ten Thousand Tribulation, someone also came to Huangquan World.

However, before the Ten Thousand Tribulation, it was too far away. I am afraid that the Celestial Realm was still in the earliest period of desolation. At that time, I am afraid that there were not many strong people.

There may be many places of curse that have not been explored.

In a blink of an eye, three days passed, when Liao Min had something important to report to Lu Ming.

"Commander, there are more than a dozen people outside, saying that they are your fellow countrymen and want to see you!"

Liao Min said.

"Community?"

Lu Ming's eyes lit up. Isn't his fellow countryman the man of heaven?

"Let them come in!"

Lu Ming ordered.

"Yes!"

Liao Min nodded and retreated. After a while, he led a dozen people in.

"Six Saints!"

Seeing one of them, Lu Ming's eyes lit up and greeted him.

These dozen people are the creatures of the heavenly realm, and one of the old men, Lu Ming also knows, is the Six Saints Heavenly Venerate who is guarding the two realms, a four-star heavenly emperor.

At that time, he also had several connections with Lu Ming.

With the exception of Liusheng Tianzun, more than a dozen people didn't know Lu Ming. Seeing the cultivation base, both Tiandi Realm and Great Emperor Realm have it. Among them, Liusheng Tianzun's cultivation is the highest.

"Liao Min, please step back!"

Lu Ming ordered Liao Min and others to retreat.

After Liao Min and others retreated, only Lu Ming and Liu Sheng Tianzun were left in the hall.

"Senior, are you also near Fengming Kingdom?"

Lu Ming asked.

"No, we came here to find you!"

Liu Sheng Tian Zun said, sighed and said, "Lu Ming, now Fengming Kingdom, I am afraid it is not safe!"

"what happened?"

Lu Ming's face changed slightly.

"The alien race has gained the trust of the Dragon Empire, and the powerful strength of the Dragon Empire is in control!"

Six Saints Heavenly Path.

Chapter 2476: Enter the Cursed Land

"Dragon Empire!"

Hearing this name, Lu Ming's complexion changed, and he became dignified.

During this time, in Fengming Kingdom, he checked a lot of information and naturally knew the Dragon Empire.

This is a powerful empire far above the Fengming Kingdom.

In Huangquan World, there are many countries and forces.

These national forces are divided into four levels according to their strength.

The first level is such as Fengming Kingdom, the strongest is the power of the four-star heavenly emperor, even the five-star heavenly emperor, such power is the lowest level.

The second level is that there are Six Star Heavenly Emperor, and even Seven Star Peak Heavenly Emperor sitting in town. This kind of force is much stronger than Fengming Kingdom.

In the third level, there are invincible strongmen sitting in town.

What is an invincible strong?

In Heaven, Chaos Emperor, Immortal Emperor, is the invincible strong.

They were half-footed and stepped into the realm of Wushen. Under Wushen, they were invincible in vertical and horizontal directions, and their strength was stronger than that of Peak Emperor.

There are not many such forces in Huangquan World.

The fourth level, which is the strongest force, is the force that has Wushen sitting in town.

There is only one such force in the entire Huangquan World, which is the Huangquan Empire, which occupies a large territory in the center of the Huangquan World.

In the Huangquan empire, there were war gods sitting in town, and there were more than one lord. The true supremacy commanded all directions.

The dragon empire belongs to the second-level forces. Among them, there is a pinnacle emperor sitting in the town, which is more powerful than Fengming Kingdom.

The Fengming Kingdom is just a small country around the Dragon Empire.

Now, the aliens have already achieved great power in the Dragon Empire.

"Now, with the power of the dragon empire, the aliens swept through some small countries around us. In our heaven, many people died in the hands of aliens. We escaped. I heard that the leader of Fengming Kingdom is called Lu Ming, I guess it's you, so I hurried over to see!"

Six Saints Heavenly Path.

"So, I'm afraid that interracial people will soon send masters to Fengming Kingdom!"

Lu Ming said.

"I'm afraid yes. It is said that Fengming has a cursed land. There are not many cursed land in the small country around the Dragon Empire, which will definitely be targeted by the other party!"

Six Saints Heavenly Path.

Lu Ming pondered for a while, and said, "It's a pity to leave now. Lord Fengming has promised to let me enter the cursed land. Let's wait again. Once we enter the cursed land, take the opportunity inside, We will leave immediately!"

"Okay, just do it!"

Liu Sheng Tian Zun and others nodded.

It is too wasteful not to take the chance, let alone to leave it to the aliens.

Liu Sheng Tian Zun and others stayed in the palace.

Fortunately, they didn't wait long. After two days, Lord Fengming sent someone to call Lu Ming.

Lu Ming took Liusheng Tianzun and others to the palace.

"they are?"

Lord Fengming looked at Liusheng Tianzun and others curiously.

"They are my friends. Let's enter into the cursed land together. I don't know if there is any danger. If more people go in, the grasp will be bigger!"

Lu Ming said.

"Alright, but our share ratio cannot be changed!"

The main road of Fengming Kingdom.

"This nature!"

Lu Ming nodded.

"You follow me!"

The main road of Fengming Kingdom, and then took some people to the north of the palace, left the palace, and soon after, they came to a dense forest.

Through the forest, through a canyon, they saw a high mountain.

Of course, along the way, there are strong guards.

"The front is the land of curse. Go in. As for whether there is any danger in it, I don't know!"

The main road of Fengming Kingdom.

Lu Ming nodded, and then they went forward.

There is a stone door at the foot of the big mountain in front, half open, with a dark paint inside.

Everyone slowed down and approached carefully.

In the cursed land, I don't know if there is any danger, so they dare not carelessly.

Six Saints of Heaven is the highest, walking in front, everyone enters the gate carefully.

Inside the gate, there is a passageway, quiet and silent.

Everyone moved forward carefully. This passage is very long, thousands of meters long, and it is a huge underground cave.

The cave was empty and there was nothing.

There are some stone doors around the cave.

The people did not disperse, they still joined together and walked towards some stone gates.

After the first stone gate, there was a secret room with nothing in it.

Everyone came to the second stone gate, also a secret room, which was also empty.

Everyone looked at each other.

Could this cursed place have been visited before the Ten Thousand Tribulation, and its contents have been swept away?

Everyone was unwilling to continue searching.

There is a passage behind some stone gates. When you walk in, you see a secret room, but these secret rooms are empty and contain nothing.

Everyone showed disappointment, it seems that today, we really want to return empty-handed.

However, it was unwilling to leave at this point, and they planned to turn this place over and search for it.

He continued to walk to those stone gates that had not been found.

"Hey, behind this, there is a passage, there is no secret room!"

Suddenly, humane.

The crowd walked, and it turned out that they found a passageway that led all the way to the front.

Everyone went straight along this passage.

I don't know how far I walked, and the passage became wider, but everyone had to stop.

In front, there is a place, on the walls, on the ground, carved with strange lines, exuding a dim light.

The combination of these lines looks like a large array.

"Be careful!"

Liu Sheng Tianzun reminded, and then took out a great soldier, control the great soldier, and flew forward.

Buzz!

When the Great Emperor soldiers passed that section of road, the lines suddenly radiated a brilliant light, and then, countless filaments filled the passage.

Some of these filaments turned snow white and some were red.

Like a very small sword gas, it exudes cold and hot breath.

Yes, cold and hot coexist.

The Great Soldier, enveloped in these filaments, was constantly pounding, making a harsh and unpleasant sound.

Click!

Just a few breaths, the Great Soldier was covered with cracks, then exploded, turned into powder, and floated in the air.

Hiss...

Several cold breaths came.

This was really a big formation, and the power was amazing. A great soldier flew past, a few breaths, turned into powder, and there was no residue left.

If people go in, it is not a dead end.

Those below Heavenly Emperor's realm, their faces are white, they know that they must be unable to get in, and stop here.

"I'll try!"

A burly big man stepped out and walked forward.

Chapter 2477: Sword blocking

This great man, covered in darkness, cast like black iron, is full of infinite power.

This great man is not a human race. The body is a mythical beast, a giant ape, with great power and strong defense.

Moreover, he has the cultivation of the two-star emperor.

bump! bump! ...

He was cautious and stepped forward step by step, and finally, he stepped into the area of the large formation.

Buzz! Buzz!

The runes seemed to vibrate, and the light was shining, countless filaments, like a small war sword, stab at the Han.

"Block it!"

The big man screamed, and the power of the world was all over his body. At the same time, he took out several defensive great soldiers and stood in front of him, struggling toward the front.

However, those small sword qi, too powerful, in an instant, at least tens of thousands of small sword qi hit him.

The emperor soldiers densely wrapped around his body instantly covered with cracks, and then exploded and turned into fly ash.

Ding! Ding! Ding! ...

The Great Emperor's soldiers were shattered, and the endless little sword gas was all bombarded on the Han. The Han's body was violently shaken, and his originally slow-moving figure was stiffly blocked.

And, on his body, covered with a layer of frost, while crimson.

The big man's face was ugly and dying, his body shivered, he suddenly vomited blood, and his breath plummeted.

"not good!"

Liu Shengtianzun's complexion changed, and he rushed straight over, suddenly pulled the big man, and pulled him out.

Everyone saw that the body of the big man was covered with tiny holes, and there was a constant flow of coldness and heat inside.

The big man sat cross-legged in a hurry, swallowed a handful of medicine, and healed his wounds.

Just a moment ago, he was hit hard. If he were not saved by the Six Saints, he would definitely fall here.

Others' faces were dignified.

The power of this large array is too strong.

The two-star Heavenly Emperor can't resist every bit. I am afraid that Samsung Heavenly Emperor goes in, too.

"I'll try it!"

A Samsung Emperor is unwilling to try.

It is a pity that he still can't do it, and soon he was defeated by the small sword gas and he vomited blood.

He was better than the previous big guy and took the initiative to retreat, but he also suffered a lot of injuries.

Samsung Emperor is not good, everyone's eyes turned to Six Saints.

At the scene, his cultivation was the highest, and now he can only rely on him.

"Let me do it!"

Liu Sheng Tian Zun strode forward into the large formation.

As soon as he stepped into the large formation, a pagoda appeared in his hand, enveloped him, and then strode forward, wanting to rush over.

That pagoda is a heavenly soldier!

However, the runes around them were more radiant, and the infinite sword energy rushed toward the Six Saints.

Especially in front of Liushengtianzun, there is more sword energy, which is many times more, and a wall of swordqi is formed, which is in front of Liushengtianzun.

Ding! Ding! ...

Those sword spirits, crazy attacks on the heavenly soldiers, the heavenly soldiers shook violently.

bump! bump!

Six Saint Heavenly Venerable, full of power broke out, a powerful breath filled out, he controlled the Heavenly Dao soldiers, struggling forward, stepping forward step by step.

However, every step is extremely difficult.

After a few minutes, the Six Saints of Heavenly Sovereign did not reach ten meters.

You should know that this section with a large array has a length of hundreds of meters.

The sound of intensive collisions is getting stronger and stronger, and Heavenly Dao soldiers are shaking more and more.

Zizi...

Mars was shooting everywhere, and the Heavenly Dao soldiers made a harsh sound.

Liu Shengtianzun's complexion changed greatly.

Even the Heavenly Path Soldiers were damaged and could not be stopped.

Liu Sheng Tian Zun, quickly retreated, dared not move forward.

It is much easier to retreat than to move forward. Soon after, the Six Saints of Heaven will withdraw from the large array area.

He quickly checked the Heavenly Dao Bing, and found that there were more small holes on it, and Six Saints Tianzun showed a heartache.

Celestial soldiers are so rare, but now they are damaged and repaired, which is very troublesome.

"It seems that we can't get through it!"

"This large formation is difficult to pass without the cultivation of more than Six Star Heavenly Emperor!"

Others sighed.

But at this time, a figure came out step by step.

"Lu Ming!"

Others were shocked.

Lu Ming actually had to give it a try, not even the Six Saints of Heavenly Venerable, could Lu Ming do it?

bump! bump! ...

Lu Ming was extremely fast and stepped directly into the big formation.

Lu Ming did not use Tiandao soldiers.

The Six Saints Heavenly Sovereign has proved that Heavenly Daoists are useless. Using Heavenly Daoists will damage Heavenly Daoists.

Lu Ming wants to give it a try with his own strength.

call out! call out! call out! ...

As soon as Lu Ming entered the large formation, there was endless little sword energy, rushing towards the landing Ming.

These sword spirits are partly cold and partly hot.

Lu Ming felt that he was in a melting furnace where coldness and hotness met.

Buzz!

Lu Ming's muscles shook sharply, and at the same time, he transported the immortal gold body to block those sword qi.

Ding! Ding! ...

Those sword qi, stabbed on Lu Ming's body, actually made a harsh metal clash, and many sword qi were blocked.

However, Lu Ming felt a pain like a needle stick on his body.

Although a lot of Jianqi was blocked, some of them also broke through Lu Ming's defense and penetrated into his body.

Lu Ming quickly transported the indestructible ancient scriptures and quickly recovered.

Fortunately, Lu Ming's physical body is extremely powerful and vitality, coupled with the help of the immortal ancient scriptures, the injuries he suffered quickly recovered.

bump! bump! ...

Lu Ming took a few steps in a row, but the more he moved forward, the greater the amount of Jian Qi.

There was more sword energy, piercing Lu Ming's body, Lu Ming's recovery speed could not keep up with the speed of the damage.

"dominate!"

Lu Ming snarled, and his body was filled with purple-gold light, and the dominating power covered the whole body.

A dense voice sounded, the power of the master shook, but it was not pierced, and the sword gas was blocked.

"The power of **** is really effective!"

Lu Ming was very happy.

Then stepped continuously, less than a minute, Lu Ming walked more than fifty meters, far exceeding the previous Six Saints.

"So fast?"

"What kind of power is this so terrifying that it can block the attack of Jian Qi?"

"The first arrogance in the realm of heaven, it is really extraordinary, very human can compare!"

Others lamented, hoping that Lu Ming could walk over.

Nowadays, Celestial Realm and aliens are at the juncture of life and death.

They naturally hope that Lu Ming can walk over and gain something.

bump! bump! ...

Lu Ming continued to step forward, sixty meters, seventy meters, eighty meters...

Lu Ming step by step, one meter by one meter forward, quickly walked over a hundred meters.

But here, the power of the large array is even more terrifying, the sword energy is endless, and the land is roaring densely.

Chapter 2478: Statue with the meaning of domination

Especially in front of Lu Ming, there was more Jianqi, which formed the Wall of Jianqi, which constantly impacted him and wanted to shock him back.

The dominating force covering Lu Ming's body also shook more and more, and in some places, a wave of ripples appeared.

In this way, Lu Ming can't resist for a long time, and in front, there is at least a distance of more than 100 meters.

"Don't stop here?"

Lu Ming thought, somewhat unwilling.

Although I don't know what is ahead, maybe the front is still empty in the past, but since I have come here, I don't want to go over and look at it, Lu Ming is a little unwilling.

"The way to dominate, dominate all directions, dominate the power of heaven and earth. It stands to reason that everything in this world can dominate, including these sword spirits!"

Lu Ming turned his thoughts.

Then his eyes lighted and he growled: "Leave me dominate, let me go!"

He uses the way of **** as a medium, through the world, to dominate those sword qi.

call out! call out! ...

Those sword qi flew at extremely high speed, but when approaching Lu Ming, they actually formed an arc and flew past Lu Ming's body.

"Effective, really effective!"

Lu Ming was overjoyed, and then he controlled the way of the master with all his heart, and the master controlled the sword qi.

Sure enough, whenever the sword qi approached Lu Ming, it became an arc and flew past Lu Ming.

Lu Ming speeded up and drove forward very fast.

"This..."

Liu Sheng Tian Zun and others were dumbfounded and dumbfounded.

bump! bump! ...

Lu Ming's speed soared and strode forward. Although there was more and more sword energy in front of him, he could not stab Lu Ming. Soon, a distance of more than 100 meters was crossed by Lu Ming and Lu Ming passed This large formation.

"The way to dominate is really mysterious, can it really dominate the world, that is really horrible!"

Thinking of this, Lu Ming secretly rejoiced.

In this way, wouldn't even the enemy's attack dominate.

For example, the opponent's attack is about to attack him, he is controlled by him, and he attacks the enemy, what is the scene?

However, Lu Ming also understands that this is also related to cultivation and strength.

If the power of this sword array is stronger, Lu Ming will be difficult to dominate.

Similarly, if the enemy's combat power is too strong, Lu Ming is also difficult to dominate.

Everything is still related to his own strength.

"Everyone, then Lu Ming went to look ahead!"

Lu Ming waited for the Six Saints to honor humanity.

"Go, be careful!"

Six Saints Heavenly Path.

Lu Ming nodded and walked along the passage.

Soon after, the passage reached the end. At the end of the passage was a stone room.

The stone room was empty, and Lu Ming showed disappointment.

It seems that this time it will be empty-handed again.

and many more!

Suddenly, Lu Ming's eyes turned to a statue against the wall in the stone room.

This statue sculpts a young man.

This man is very handsome and looks like he is in his twenties.

He carried his hands on his shoulders, staring like a star, and a mood that dominated the world came out.

That's right, it is the artistic conception of the master, very similar to the master's way of understanding Lu Ming.

"How can this be? This kind of artistic conception is absolutely the way to dominate, absolutely right!"

Lu Ming whispered, shocked in his eyes.

At this moment, he imagined, and thoughts turned in his mind.

Could it be that there are other people between heaven and earth, who understand the way of domination?

He couldn't help thinking that when the alien ancestor saw his power, he seemed to recognize it.

In addition, Zulong also recognized this power, and directly called the power of the master.

Previously, Lu Ming thought that the power he realized was unique.

Because he had learned the ten strongest laws, and there were seventy-one laws of the kingly way.

Now it seems that it is really possible that other people have realized the way of domination.

Just like the owner of this statue, he must have comprehended the way of domination, otherwise the meaning of **** will not be so rich.

Lu Ming's eyes lit up.

Others have realized the way of domination. For him, it is not a bad thing, but a good one.

If he alone understood the way of domination, then he could only rely on his own. If someone else understood the way of domination, then he could have a ready way.

"The dominance of this statue is of great use to me!"

Lu Ming's eyes were bright, and he immediately crossed his knees to control the way of the master, and the power of the master diffused toward the statue.

Buzz!

It seems that it resonated with Lu Ming's way of domination. The statue was slightly shocked, and the statue was also filled with a layer of purple gold.

At this moment, Lu Ming seemed to see a young man with his hands on his back, and he was a master of the world.

At this moment, Lu Ming's comprehension of the way to dominate slowly deepened.

And just when Lu Ming realized the way of the master, outside the cursed land, Lord Fengming took some people and stayed outside, waiting for the moment when the landing Ming came out.

At this moment, a middle-aged man flew at a rapid speed, his face flustered.

"Sovereignty, great things are not good!"

Far apart, the middle-aged man shouted anxiously.

Lord Feng Ming frowned, saying, "What makes you so panic?"

"Sovereign, Yuanhai, Dayan, Mingyue, and the three nations joined forces to send troops to attack Fengming. We already have 18 cities and are occupied by each other!"

Middle-aged Han Han newspaper.

"what?"

Lord Fengming was shocked.

"How is it possible? These three countries, each with hatred against each other, how can they jointly attack my Fengming country?"

Lord Fengming is hard to believe.

"Report!"

At this time, another big man flew over.

"what's up?"

Lord Fengming's anxious opening.

"The lord of the country, the country of source sea, the country of the moon, and the envoys of the three countries, see the lord!"

Han Han newspaper.

"See, see you soon, just outside the capital!"

Lord Fengming said quickly.

Then, he hurriedly drove people back.

Two days later, Lord Fengming was outside the capital and met with the messengers of the three kingdoms.

"That is..."

Lord Fengming was shocked to find that the messengers of the three kingdoms were followed by several strange-looking people.

These people have three eyes.

If Lu Ming is here, I know at a glance that these people are all evil gods.

The envoys of several countries were followed by people of the Evil God Race.

Moreover, next to the messenger of each country, there is a four-star **** emperor level.

"You guys, I don't know why you should join forces to attack my Fengming country?"

Lord Fengming asked.

In particular, the Mingyue Kingdom among them, usually had good relations with Fengming State, and now they come to attack Fengming State, making him unknown.

"We are also ordered to act!"

The messenger of Mingyue Kingdom said.

"Being ordered to act?"

Lord Fengming was shocked.

"Yes, an adult of the Dragon Empire ordered you to curse the land of Fengming Kingdom and let these outsiders enter the cursed land!"

The envoy of the Mingyue Kingdom, pointing to those evil gods, Tao.

Chapter 2479: Crisis is coming

"Foreign visitor? It's a stranger!"

Master Fengming moved in his heart and understood.

There must be someone outside of the sky who has been valued by the big dragon empire, or it has to cooperate to enter some cursed land and obtain the treasure inside.

Just like his cooperation with Lu Ming.

"Several messengers, I am afraid you are coming one step late. Someone has already entered the cursed land here!"

Lord Fengming explained.

"Someone went in? Who is it? What does it look like?"

A purple-headed evil spirit clan asked, but it was a royal clan of the evil spirit clan.

In fact, this time the people who came to Huangquan Mountain, the alien royal family, are still relatively large.

"That man is called Lu Ming..."

Lord Fengming described Lu Ming's name and appearance.

"Lu Ming, Lu Ming!"

"It turned out to be Lu Ming, okay, the Holy Ancestor has ordered that as long as Lu Ming is encountered, there will be no amnesty!"

Several aliens spoke in succession, and three eyes glowed with cold luster.

"You, take us to the land of curse, otherwise, Fengming Kingdom, destroy!"

An evil **** clan said.

"Yes, yes, I will take you here, you can rest assured!"

Lord Fengming nodded quickly.

No way, the other party was sent by the Dragon Empire, he did not dare to disobey.

The dragon empire, but the strongest people in the virtual realm peak are sitting in the town. As for the four or more virtual realms, the number is not small. Fengming Kingdom is the only one who has four virtual realms and defies the dragon empire. There is only one dead end.

"Lu Ming, don't blame me for being ruthless, and blame only for your bad luck, offending people who should not offend!

The Fengming Kingdom predominates.

Then, he took the messengers of several other countries and the masters of the evil **** clan to the cursed land.

Soon, they came out of the cursed land.

"Is there any danger in this cursed land?"

Asked the evil **** clan royal family.

"This, I don't know!"

Lord Fengming shook his head.

At this point, he is indeed uncertain, and there is no record in the classics.

"Generally the place of curse is a bit dangerous. I suggest that we stay outside and let Lu Ming take risks inside and help us open the way. It is best for him to die inside. If he doesn't die, he will get the chance to marry us. How about clothes?"

An evil **** clan said.

"Okay, so good, then Lu Ming got some chances and came out happily, and found that the Siskin was behind, don't know what expression?"

"Hahaha!"

Several evil spirits laughed.

"Everyone, besides Lu Ming, there are other people, among them there is a master of the four layers of virtual reality, we are worse than this..."

The eyes of Lord Fengming turned around and offered a conspiracy.

"Okay, hahaha!"

After listening to the Evil God Race, they laughed.

...

Lu Ming knew nothing about the outside world. He devoted himself to comprehend the way of mastering. In an instant, Lu Ming felt very rewarded in the past half a month.

In this half-month doctrine of domination, it is comparable to groping for a few years outside.

"Go and Liusheng Tianzun and say to them, I guess I still have to be enlightened for a while!"

Lu Ming thought.

Although there is nothing here, for Lu Ming, there is nothing more useful than this statue.

This is his chance.

Lu Ming went back to the edge of the large array and found that they were still there.

Lu Ming said the situation inside again.

"Lu Ming, you go to practice, I'll wait for you here, take a look at other places, and search for it!"

Six Saints Heavenly Path.

This cursed place, they have not completely searched before.

While Lu Ming is retiring, they can conduct a comprehensive search.

"Thank you senior!"

Lu Ming nodded, then returned to the statue and continued to understand the way of the master.

Time rushed, three months passed.

Lu Ming's understanding of the way to dominate has greatly improved.

Lu Ming feels that as long as he has enough resources, he can break through and reach the four-star emperor.

After Lu Ming plans to go out, he will find a place to break through.

"Unfortunately, the dominance of this statue is limited, and I have already learned about it!"

Lu Ming sighed.

He felt that even if he continued to enlighten, the way of **** would not be greatly improved.

Click!

At this moment, a crack suddenly appeared on the statue.

The cracks started to be very thin, but then quickly grew longer and larger, and finally, a series of cracks, like a cobweb, were densely spread on the statue.

bump!

In the end, the whole statue burst like this and turned to ashes.

Lu Ming was dumbfounded.

How is this going?

Could it be that the statue will collapse if you fully comprehend the meaning of the master on this statue?

Only this explanation makes sense, otherwise, Lu Ming really can't figure it out.

"Huh? That's..."

When the statue exploded, a strong fragrance came out.

Lu Ming found that there was a pit under the statue, and there was a plant in the pit.

The plant is bare and has no leaves, only a main stem, on which is a red fruit.

The fruit is crystal clear, with precious light flowing, and full of medicinal fragrance.

"What kind of fruit is this, a rich life essence!"

Lu Ming carefully recognized, did not recognize what this plant is? There is no similar record among the various elixir, sacred medicine, and imperial medicine he has been in contact with.

However, the essence of life in this fruit is really too rich, it is simply amazing.

"If I refine this fruit, my body will probably make a breakthrough!"

Lu Ming turned a thought in his heart, and thought of this, his eyes were fiery.

For his physical body, if he makes a breakthrough, he will cultivate the "Seven Gods Xuan Gong" to the mid-sixth level. With the power of his physical body, he can suppress the ordinary four-star Heavenly Emperor, even with the four-fold virtual reality in Huangquan Mountain. , Can also fight.

Coupled with the way to dominate, his combat power will skyrocket.

"Refinery!"

Lu Ming took the opportunity to make a decisive decision, and then walked over to observe it carefully, without any danger.

Lu Ming uprooted this plant, then picked the fruit and planted the roots in his own small world.

Lu Ming sat cross-legged, holding this piece of fruit and observing for a while.

The size of the fruit fist, the majestic essence of life, constantly overflowing.

Lu Ming gritted his teeth and swallowed the fruit in his mouth.

boom!

As soon as the fruit entered Lu Ming's body, it was like a volcanic eruption. A burst of hot energy erupted and rushed into Lu Ming's limbs.

"What an amazing energy, good, good..."

Lu Ming was not surprised but rejoiced.

Now, his physical body is equivalent to Heavenly Emperor Realm. It is too difficult to break through.

You know, his physical breakthrough is to span several levels, and the energy required is too much and amazing.

And the more energy this fruit contains, the greater his grasp of breakthrough.

Chapter 2480: Great increase in strength

boom! boom! boom!

The fiery red fruit, like a volcanic eruption, exploded in Lu Ming's body, turned into a wave, and poured into Lu Ming's limbs and corpses.

Lu Ming is like his own body, wrapped in endless magma. It needs to be melted and tingling, spreading all over his body.

The energy contained in this fiery red fruit is really amazing. The present flesh of Lu Ming can't bear it, and must be torn apart.

"Indestructible ancient scripture, the power to dominate!"

Lu Ming shouted, running the indestructible ancient scriptures, repairing the wounds on his body, and at the same time, running the way to dominate.

Dominating the way, dominating everything, Lu Ming tries to dominate these energies, thus manipulating them.

It really works!

Under the way of domination, those energies have become more docile.

Then Lu Ming ran the "Seven Gods Xuan Gong", musculoskeletal, shaking up with ten billion times per second to refine these energies.

Hula!

A lot of energy, like the river water, exhausted Lu Ming's flesh.

With every vibration, there is infinite energy exhausted, refined and penetrated into Lu Ming's muscles and bones, strengthening Lu Ming's body.

Lu Ming's flesh is rapidly ascending.

It is really fast, much faster than the practice of using dragon pulp pool in Zulong Nest.

The energy of the ancestral dragon's nest is relatively mild, and the energy of this fruit is extremely violent.

This is fortunately Lu Ming, if someone else swallowed the whole piece directly, I am afraid he would die directly.

But the fury brought about was a rapid physical improvement.

"Lian, Lian, Lian!"

Lu Ming worked hard to refine, and soon, a month passed.

boom!

Before the energy of the fruit was completely refined, Lu Ming's body sounded like thunderous vibrations.

Breakthrough!

The flesh broke through, and "Seven Gods Xuan Gong" broke through to the sixth mid-term.

Now, Lu Ming's physical strength alone is enough to suppress a four-star Heavenly Emperor, and his combat power has greatly increased.

There are still some remaining powers in the body, Lu Ming continues to run "Seven Gods Mysterious Power" to refining all the remaining energy.

The remaining energy is naturally not enough for Lu Ming's physical body to continue to break through, but it can also be consolidated.

A few days later, Lu Ming refined all the energy, and then he ended his cultivation.

A smile appeared on Lu Ming's face.

This time, Lu Ming's trip to the cursed land was already very rewarding.

The dominance is deepening, the physical breakthrough, the strength is greatly increased, and what chance is better than this.

bump!

Lu Ming stepped out and walked toward the way back.

Soon, Lu Ming came to the sword array, the other side of the sword array, only a few people.

"Lu Ming is out!"

The few people saw Lu Ming and smiled.

bump!

Lu Ming strode out and rushed directly into the sword array.

When Lu Ming rushed into the sword array, the large array lit up again, and a small sword gas appeared, rushing towards the landing Ming.

This time, Lu Ming didn't show the way to dominate. With the flesh and the indestructible ancient scriptures, he stiffly blocked the attack of Jian Qi.

Lu Ming bluntly rushed out of a hundred meters, and then began to show the way of domination, manipulating those sword qi, rushed out of the sword array.

"You, Senior Six Saints!"

Lu Ming asked.

"They are waiting for you outside!"

Humane.

Lu Ming nodded and followed a few people.

On the way, Lu Ming learned that they had no other gains in this cursed land.

Obviously, this place of curse had been searched by people before the Ten Thousand Tribulation.

Through the passage, I came to the huge stone room and saw the Six Saints and other people.

After a few chats, everyone went out. After a while, they came out of this cursed place. Far away, they saw Lord Fengming waiting with some people.

"Hahaha, Lord Lu, you are finally out!"

Far away, Lord Fengming greeted him with a smile on his face.

"Guardian!"

Lu Ming clenched his fists.

"Lord Commander, the cursed land and his party, what's the gain?"

Lord Feng Ming asked with a smile.

"Hey, Lord, don't hide it, this time, go back empty-handed!"

Lu Ming sighed.

"Go back empty-handed?"

Feng Mingguo's face changed slightly.

"Yes, this cursed place, I am afraid that someone had been in it before the Ten Thousand Tribulation. If the proprietor did not believe, Lu Ming could swear!"

Lu Ming said.

"Hahaha, swear, I certainly believe in command, go, go back and catch the wind and dust for you, this Dad Brother, please!"

Lord Fengming laughed, and speaking of the back, Lord Fengming reached out to invite the Six Saints.

Six Saints, no precautions!

Uh!

At this moment, Lord Fengming suddenly shot, and a sword suddenly appeared in the palm of his hand, stabbing towards the Six Saints.

At such a short distance, and the Six Saints had no precautions at all, I never thought that Lord Fengming would suddenly shoot him, trying to dodge, it was too late.

puff!

The long sword runs through the heart of the Six Saints.

"Roar!"

Liu Sheng Tian Zun burst into a roar, his palms blasted out.

Lord Fengming retreated with his sword.

Liu Sheng Tian Zun fell to the ground and vomited blood, which was hit hard.

Suddenly, Lu Ming and others were shocked, and his figure flashed, surrounding the Six Saints of Heaven.

"Why do you do this?"

Lu Ming looked at Fengming Lord indifferently.

"Of course to get rid of you!"

It is not the Lord Fengming who speaks, but others.

Uh! Uh! ...

All around, the figure flashed, and figures appeared one after another.

"It's the Evil God Race!"

There was a commotion in the rest of the world.

"It really is the Evil God Clan!"

Lu Ming narrowed his eyes.

Seeing the Evil God Clan, he understood everything.

It must have been that after they entered, the Evil God Clan was killed, and the Lord Fengming surrendered directly. He just deliberately pretended to talk to Lu Ming and attacked them.

Because in the recognition of Lord Fengming, the Six Saints of Heaven is a threat, so he made a sneak attack and took the lead in removing the Six Saints of Heaven. At least let Six Saints respect the creation. In this way, Lu Ming and they were caught in the urn.

"Lu Ming, the ancestor confessed that if you meet you and kill without forgiveness, you can go with peace of mind!"

"Hahaha, kill you, we can also be valued by the holy ancestor, Lu Ming, your worth of death!"

Several evil spirits laughed.

"You think you can kill me?"

Lu Ming said coldly.

"Oh? Do you want other people to save you? Tell you, don't think about it, your wastemen are here!"

An interracial sneer, a few waves, several heads fell to the ground.

"Liao Min, Wu Fan..."

Upon seeing those heads, Lu Ming's eyes were red, and there was an extremely cold murder in his body.

Liao Min, Wu Fan...

They were all Lu Ming's guards. They followed Lu Ming from the beginning, did not betray Lu Ming, but now, they were beheaded by the other party.

Anger, anger is unstoppable!

"Today, all of you are dying!"

Lu Ming's voice was very cold. Finally, he looked at Lord Fengming and said, "You Fengming Kingdom, be extinct!"
