

D Emperor 2591

Chapter 2591: Flee

The metal ball is extremely heavy, and the bursting power can be equivalent to the four levels of the virtual **** realm, but it can't stop the attack of the bald man.

Tong Xi'er was extremely anxious on the side, but, with her strength, she was so different from the bald man that there was only one way to go.

"Boy, die for me!"

The bald man roared. He watched the metal ball and landing Ming. He was the most serious to Lu Ming. He had to solve Lu Ming first.

Lu Ming's pupils squinted, his figure receded at a rapid speed, and at the same time, the power of the master was exploded to the extreme.

Uh!

The bald man's knife light, extremely dazzling, slashed towards the landing.

While Lu Ming retreated, he also cut a sword and collided with the bald man's sword.

when!

Swords collided, Mars was shining, Lu Ming felt a terrible power, and he rushed towards him, his body flew out like a cannonball, and hit the walls of the valley, even the metal walls, They all burst apart and sunk into it.

puff!

Lu Ming spurted blood out, only to feel that his arm was about to break, and the artifact war sword in his hand was actually popped out of a gap.

"Fifth-order inferior artifact!"

Lu Ming moved.

The war sword in the bald man's hand is a fifth-order inferior artifact, and the war sword in his hand is only a third-order inferior artifact. It is normal for the opponent to get out of the gap.

In the vast universe, artifacts are divided into four grades: inferior artifacts, middle-grade artifacts, superior artifacts, and superlative artifacts.

Each level is divided into nine levels.

The war sword in Lu Ming's hand was given to him by White Fang, and it was a third-order inferior artifact. It was the highest-level artifact in Lu Ming's hands.

boom!

At this time, the metal ball rushed to the bald man again, its volume became larger, and the diameter was ten meters full, like a small mountain bag, hit the bald man.

"Xie Nianjun, Dark Holy Light!"

Xie Nianqing sent a message to Xie Nianjun.

"It is good!"

Xie Nianjun nodded.

boom! boom!

The two of them burst out with a brilliant light, one black and one white, like a black sun and a white sun.

Then, the black light and the white light are intertwined to form a cage, and the bald man is enveloped in it at once.

boom!

The bald man struck hard, hitting the cage, but did not break it.

This is a dark cage of holy light. Only Xie Nianqing and Xie Nianjun can work together to perform the secret technique.

At the time, when Heaven Realm and Evil God Realm were decisively fighting, the two of them had joined forces to display, trapping the Sacred Ancestor of the Heart for a while.

At that time, the cultivation behavior of the two of them was only half god, and they could both trap the sacred heart ancestors of the virtual **** realm.

Now, the two of them have both broken into the virtual **** realm, and the practices they have practiced have transformed, and they are in control of the sacred power. They can display this trick. The power is not the same as it used to be.

boom! boom! boom!

The bald-headed man is mad, the sword is dazzling, and he launches a crazy attack, but they are all blocked by the dark holy light cage. For a time, they can't be broken.

"Lu Ming, attack!"

Xie Nianqing drank.

"kill!"

Lu Ming burst into tears, he exerted his full strength, and the sword of war slashed out madly, with a sword spirit, without money, and rushed towards the bald man.

At the same time, Tong Xi'er also came to attack with all his strength.

In addition, the metal ball pressed to seize the opportunity, from time to time to give a note to the bald man.

The dark holy light was caged. For Lu Ming, there was no hindrance to them. Their attack could roar the bald man.

At this moment, the bald man is like a living target, and Ren Luming attacks them.

The bald man waved his sword with full force to resist Lu Ming's attack.

However, the dark light cage cast by Xie Nianqing and Xie Nianjun not only trapped him, but also had a means of attack.

In the cage of dark holy light, a lot of black and white lotus emerged, turned into a sword gas, flying vertically and horizontally, killing the bald man.

For a time, the bald man was in a hurry and could only resist desperately.

However, he can only resist, not attack, and become a living target, and there are always negligences.

puff!

He was crossed by a black sword light, and there was a deep sword wound, blood flowing.

He roared, his body receded, and hit the dark light cage, a white sword flashed, and his chest was almost penetrated.

Roar!

The bald man roared like a beast.

His five-fold existence of the imaginary **** realm was actually hurt by several juniors with a imaginary **** realm, and he was so angry.

It is a pity that no matter how great the anger is, it is useless.

After a while, he was even more invincible. He was hit by a metal ball and stumbled. Lu Ming seized the opportunity and nearly cut off his head with a sword, leaving a few feet of sword wound on his chest .

Injury and injury, the strength of the bald man began to weaken.

"Today, it is you who died!"

Lu Ming spoke indifferently, and the attack became more violent.

"Xiu Xiang, few of you juniors, Xiu wanted to kill me!"

The bald man roared, and his breath suddenly rose, as if there was a flame burning in the flames.

Burning divine power!

Bald man this is desperate!

Ordinary people will not burn the divine power until the critical moment, because if the divine power burns the drama, it is likely to regress the state, and even leave a terrible sequelae, and it will be difficult to improve it later.

It is generally not a particularly dangerous situation, and it will not be so desperate.

However, if the bald man does not work hard, he may fall here.

boom! boom! ...

Burning the divine power, the strength of the bald man was improved a bit, he broke the attack of everyone with a knife, and then cut heavily in the dark holy light cage.

boom!

The dark holy light was shaken violently.

boom! boom! ...

Then, the bald man frantically bombarded the dark holy light cage, causing the dark holy light cage to shake more and more violently and crazyly.

The delicate bodies of Xie Nianqing and Xie Nianjun were also trembling, and their faces were pale.

The bald man has bombarded 50 or 60 strokes in a row, and he bombarded a place.

Click!

That place was finally unable to resist, revealing a crack, and then, the crack broke apart and a gap appeared.

Uh!

The bald man seized the opportunity, broke out of the gap, and then turned into a rainbow, galloping away into the distance.

"This hatred, I will report it sooner or later!"

The sound of the bald man's roar came. He didn't dare to stay. He needed to find a place to stop and burn the magical power, and then heal the wound. Otherwise, he would not only go backwards, but also leave a terrible sequelae.

If you leave a terrible sequelae, and you will not be able to improve your cultivation in the future, you will lose a lot. Compared to killing Lu Ming, of course, his future is more important.

To kill Lu Ming, there is still a chance in the future.

In a blink of an eye, the shadow of the bald-headed man escaped.

"unfortunately!"

Lu Ming sighed.

But he also knows that their cultivation base is too low, and it is already extremely amazing to be able to force the five-fold existence of a virtual **** realm into this.

Chapter 2592: Metal ball promotion

The bald man retreated with serious injuries, and Lu Ming did not stay, and immediately left there.

Next, they took a lot of caution, and went to a partly deviated place, so as not to encounter other warriors.

For the next ten days, they were very stable, and there was no big deal.

With the help of metal balls, their speed of hunting wild beasts has been greatly accelerated.

However, they found a situation where the metal ball can deal with the four beasts of the virtual **** realm, but it is very difficult to deal with the five or more levels of the virtual **** realm. It can scare the opponent, but the opponent turns and runs, The metal ball cannot catch up.

Therefore, the wild beasts they hunted are all below the four levels of the virtual **** realm.

During the period, Lu Ming, Xie Nianqing, Xie Nianjun and Tong Xi'er also tried their best to kill the wild beasts and hunt the beast core.

After all, if the metal ball is used alone, the beast core it hunts will be divided by half.

If they work together, the efficiency will be much higher.

Ten days, plus all the beast cores they hunted together, it is estimated that they can sell about 100,000 **** crystals, which is definitely a big harvest.

On this day, after the metal ball swallowed a veterinary nucleus, it suddenly radiated a bright radiance, and a strong breath filled out.

"Is this... to be promoted?"

Lu Ming was a little dazed.

This metal ball, can it be promoted by swallowing that beast core?

Lu Ming turned around the thought.

The metal ball, like a balloon, swells up and shrinks once, and so on, after a few hours, it stabilizes, and the breath of the metal ball also improves.

"Void God Realm is Double!"

Lu Ming understood that the metal ball really advanced and reached the double level of the virtual **** realm.

Lu Ming was overjoyed, the metal ball advanced, undoubtedly the strength will be stronger, then hunting wild beasts, the speed will definitely be faster.

As they continued to hunt wild beasts, a figure emerged from a hidden cave, it was the bald man in Yuan Luo Temple.

After more than ten days, his injury was finally completely healed, and the sequelae brought by the burning divine power were completely stabilized.

"Tong Xi'er, and that kid, don't think about it better, I can't get it, and don't think about it!"

The bald-headed man's gruesome opening, and then his body flickered and left here.

Tens of thousands of miles away, there are also a group of people hunting wild beasts, about a dozen people, this group of people, from another force, Fengyun Hall.

Fengyun Hall is also a force that is not weaker than Yuanluo Hall and Zheng Tianjun.

"Who?"

Suddenly, an old man headed by Fengyun Hall looked in one direction with the same gaze.

"Brother Feng is really keen, the younger brother admires!"

With a chuckle, a figure emerged, it was the bald man in Yuan Luo Temple.

"Kang Bing, it's you? Why, you want to hit me Fengyun Tang's idea?"

The old man in Fengyun Hall looked like electricity, glancing around.

The others in Fengyun Hall looked at the Quartet alertly.

The riot Xinghai was originally a chaotic place. There are numerous forces of all sizes, and these forces, fighting each other, are commonplace.

In Wanjinxing, in order to compete for the nucleus of the beast and fight each other, it is even commonplace. They naturally have to increase their alertness.

"Brother Feng laughed, I came to tell you a great opportunity!"

The bald man smiled.

"Tianda's chance?"

The corner of the old man's mouth slightly raised, obviously unbelieving, and said: "There is a chance, you Kangbing will be so kind to tell me? I have already occupied myself privately!"

"This opportunity is not in my hand, but was taken away by others. Those are the children of Zhengtianjun. They got a metal ball with spirituality, which can overwhelm other metal beasts on Venus, and then The efficiency of capturing the beast cores of those wild beasts is extremely amazing!"

Dahan Dahan Road.

"What? There is such a treasure? Kang Bing, you are not fooling me!"

The old man still seemed a little unbelieving.

"Believe it or not, the news has arrived, Zheng Tianjun has only four people, three women and one man, all young people, is it true, why don't you try it?"

The bald man smiled, then flickered and left here.

"Brother Feng, what should I do? This Kangbing, is it true or false?"

Someone asked the old man.

"Actually, there is such a powerful metal life, it can coerce other metal wild beasts, rather than trusting its existence, not believing its nothing. If it is true, then we will send it, and immediately look for the children of Zhengtianjun!"

The old man ordered to continue.

After that, the bald man shuttled around the land in search of people from other forces, and spread the news. Most people, like the old man of Fengyun Hall, would rather look for it.

More and more people joined the ranks of looking for Lu Ming.

Lu Ming, who knew nothing about it, was still hunting for beast cores.

With the advancement of the metal ball, the speed at which they hunted the core of the beast increased again, and even the five beasts of the False God Realm could be hunted.

"Someone!"

On this day, they were moving forward, and suddenly Xianianjun's eyes moved.

Lu Ming and Xie Nianqing also immediately sensed.

Uh! Uh! ...

Six figures appeared in front of the figure flashing.

These six people, there are snake people, there are tauren.

An old Snakeman headed, glanced at Lu Ming several people in a gloomy color, and finally landed on the metal ball on Lu Ming's shoulder.

"Exactly as Kang Bing said, there really is such a metal life!"

The old Snake Man, his eyes full of greed.

They came from a small force. Only six people were on Wan Venus. After hearing the news of Kang Bing, they immediately searched everywhere. Unexpectedly, they first found Lu Ming.

"Boy, give us the metal ball on you, and we will spare you!"

The old Snakeman spoke with a sharp, hoarse voice, and a snake tail flicked around, full of threats.

"Coming at the metal ball?"

With a move in Lu Ming's heart, he immediately thought of the bald man in Yuan Luo Hall.

It must have been the bald man who leaked it out, or simply wanted to borrow others to get rid of them.

"roll!"

Lu Ming drank coldly.

Of these six people, the one who cultivated the highest was the old Snake Man, but the four levels of the False God Realm. The others were all below the four levels of the False God Realm, and they had no fear at all.

"What are you talking about? A dare to talk to the old man, but you dared to hand over the metal ball. I can consider spare your life. Now, even if you kneel down and beg me, you will die!"

The snake man's voice is extremely cold, full of cold killing opportunities.

"I'll kill him!"

A tauren with three levels of virtual **** realm, holding a battle axe, a bow in the body, a step in the foot, and a figure like an arrow, rushed towards Lu Ming.

"Go, kill him!"

Lu Ming waved his hand, and the metal ball flew out directly, and at the same time swelled up sharply, smashing his head to the tauren.

Chapter 2593: Ready to leave

The metal ball grew bigger and fell towards the tauren, the tauren shouted, brandished a huge axe, and slashed heavily on the metal ball.

when!

With a loud and loud noise, the battle axe in the tauren's hand was directly jumped back, hitting his head heavily, and at the same time, the metal ball was directly pressed and hit the tauren's head.

The tauren screamed, his body exploded directly, and fell to the spot.

When the metal ball is in the first level of the virtual **** realm, its strength is equivalent to the fourth level of the virtual **** realm. Now it is promoted to be able to fight against the five strong players of the virtual **** realm.

"what?"

The old snake man was shocked.

A triple power of the False God Realm was directly killed by a second, and he couldn't even do it!

"go!"

The old snake man shouted, turned and ran.

The remaining few people were already terrified, and before the Snake Man had spoken, they ran away.

"Smash!"

When Lu Ming waved his hand, the metal ball flew out and smashed towards the Snake Man.

boom!

The metal ball, like a big mountain, fell towards the old snake man.

The old Snakeman resisted with all his strength, blasted out attacks, but they were all defeated by metal balls.

bump!

The old man of the snake man finally bombarded the metal ball with his palms. His body shook wildly, his mouth spit blood and flew out, and his arms were all broken.

Then, the metal ball continued to fly past and smashed heavily.

The old Snake Man couldn't stop the metal ball's attack at all. He tried his best to block a few moves and was still killed by the metal ball.

As for the remaining few people, Xie Nianqing and Xie Nianjun rushed out long ago, Jianguang flashed, and several people were killed.

Six people, including the Snake Man and the Elder, all fell here.

However, Lu Ming's faces were dignified.

Yuan Luo Dian's bald man can inform the Snake Old Man that they can notify others.

If you meet the stronger, it will be bad!

"go!"

Put away the storage rings of the old Snakeman and a few people, and a few people left here.

However, soon after, they were besieged again.

This time, they met the people of Fengyun Hall.

Fengyun Hall has more than 20 people, and among them, there are two virtual **** realms.

There are also four levels of False God Realm, and they are not opponents at all.

With the metal ball, blocking the opponent's several moves, they flashed back.

"Don't want to go, hand over the metal ball!"

Headed by Fengyun Hall, is an old human race, with a cold eyes, cultivated as a five-fold peak with a virtual **** realm, very arrogant, and they are close to Lu Ming.

Lu Ming didn't make a single glance and ran as hard as he could.

"Die to me!"

The old man of Fengyun Hall blasted out with a palm, like a row of mountains and a sea, slammed toward Lu Ming.

Wherever he passed, some metal condensed trees continued to explode and shatter.

"go with!"

Lu Ming pushed the metal ball out directly.

Boom!

With a loud roar, the metal ball shook and was flew back.

However, Lu Ming's speed was not affected by the slightest impact, and he ran as fast as possible.

"You can't escape!"

The old man of Fengyun Hall has a greasy face and greedy eyes flashing in his eyes.

That metal ball is actually so magical, and its strength is extremely amazing. If he can get it, it will definitely be more powerful.

Roar!

Suddenly, a loud roar came in front.

The roar is amazing, even if they are far apart, you can feel a strong coercion.

"That's the six-fold metal beast of False God Realm!"

Xie Nianjun spoke.

"Rush through!"

Lu Ming said, they kept running at a constant speed, and rushed straight ahead.

"You... look for death, you are looking for death!"

The old man in Fengyun Hall roared.

"Even if you die, it's not cheap for you. If you have the ability, just chase it!"

Lu Ming turned around and shouted disdainfully.

"Damn!"

The old man of Fengyun Hall roared, gritted his teeth, and continued to chase past.

Roar!

In front, roaring like thunder, they saw a huge metal giant tiger, a dozen meters high, cruising there.

As soon as Lu Ming approached them, they were spotted by this giant metal tiger. His cold eyes swept towards Lu Ming and Lu Ming, and they felt a strong pressure.

The six levels of False God Realm are terrible. Even if Xie Nianqing and Xie Nianjun join forces and add metal balls, I am afraid that they will be defeated instantly.

Roar!

The metal roar screamed, stepped, the ground shook, and then they ran towards the landing.

"You can only gamble!"

Lu Ming's gaze was determined, his figure kept on, and he continued to rush forward.

At this moment, the metal ball showed a big mouth and a pair of eyes, staring at the metal giant tiger, a big mouth opened and closed hard, making a clicking sound.

After seeing the metal ball, the metal giant tiger's eyes flashed a terrified look, and then twisted his waist, bypassing Lu Ming and rushing towards the Fengyun Hall.

"Damn..., run!"

The old man of Fengyun Hall shouted, turned and ran.

Not to mention that he has the strength of the five peaks of the imaginary realm, and there is only one dead word against the metal giant tiger with the six levels of the imaginary realm.

The metal beast on the venus, if it is at the same level, the metal beast must be stronger.

Because they are all made of metal, the defense is amazing, and the vitality is very tenacious.

Roar!

The metallic giant tiger roared and jumped for a hundred miles. He quickly caught up with Fengyun Tang's people. The huge claws swept out and two masters of Fengyun Tang were killed.

Then a bite was opened, and a master of Fengyuntang was bitten into two.

It's just slaughter.

"Ah, **** it!"

Feng Yuntang's old man ran the fastest and ran at the front, but he roared in his heart.

He couldn't understand why the metal giant tiger did not attack Lu Ming, but attacked them directly.

He was furious, but now he can only run wild.

call...

Lu Ming took a long breath.

Especially Tong Xi'er, feeling a thin layer of cold sweat.

However, they bet correctly, the metal giant tiger, did not attack them.

It seems that the metal ball has a deterrent effect on the six-fold metal beast of the False God Realm.

"go!"

They did not stay, and left here.

Running for a distance, they stopped.

"It seems that Wan Jinxing can't stay anymore. I'm afraid that the guy in Yuanluodian has already spread the news!"

Tong Xi'er said.

"Yes, we leave immediately and return to Zhengtianxing!"

Lu Ming also said.

After hunting for this period of time, the harvest was good. I sold it and replaced it with Shenjing.

Originally, if there was no danger, they planned to continue to hunt wild beasts on Wan Venus, but now it is too dangerous to stay in Wan Venus like this.

If they encounter the Sixfold of the False God Realm or even the Powerful of the Sevenfold of the False God Realm, they are in danger.

Chapter 2594: Metal beast tide

Several people discussed it and decided to go back.

Then Tong Xier took out the star battleship, and after urging the star battleship, several people entered the star battleship.

call out!

The star warship glowed, rushed into the sky, and broke through the sky.

However, just as the star warship rushed into the atmosphere, a terrible blade of light chopped down from above and was severely cut on the star warship.

boom!

The star warship roared violently, and it was very shocked.

"not good!"

Several Lu Ming's faces changed.

Through the starry sky warships, they can see that at high altitude, there is a big man with a burly figure and a single horn on his forehead.

This is a strong man of the rhinoceros. This person exudes fluctuations, as horrible as the stormy waves, and his eyes are indifferent.

Uh!

The white sword light illuminates Tianyu and bombards the star warship again. The star warship violently roars.

Fortunately, the defensive power of the star warship is strong enough, otherwise it can't sail in the starry sky, and the opponent is difficult to break open for a while.

However, the other party could not break them, but they could stop them. When the other masters came, they would be caught in the urn.

"Turn around!"

Lu Ming said.

Tong Xi'er manipulated the starry sky warship, turned around, and flew back to the ground.

In the sky, the rhinoceros man chased after him.

This great man, whose cultivation level is astonishing, is absolutely above the sixth level of the virtual **** realm, and is probably the terrible strongman of the seventh level of the virtual **** realm.

Obviously, this person had been patrolling high altitude before, just thinking that Lu Ming would escape with a star warship.

There are other areas in this area, maybe there are also terrible strongman patrols.

They approached the ground and did not leave the star warship, but flew the star warship.

The speed of the star warship is amazing, far above the rhinoceros, and soon, the rhinoceros was thrown away.

After throwing away the Rhinoceros, they left the Star Warship and flew on their own.

The Star Wars flies on the Venus, the movement is too big, too eye-catching, flying all the way, undoubtedly to find death, will not only attract other masters, but also attract a powerful presence in the metal beast.

However, their good luck seemed to run out, and this time they did not fly long before they met a group of people.

This group of people, as soon as they saw Lu Ming, their eyes lit up.

"It's them!"

"Kill them and grab the treasure!"

This group of people rushed directly to the landing Ming, rushing to the front of them, it is a five-fold existence of the virtual **** realm.

There are also four levels of False God Realm.

"Go, kill him!"

A cold light flashed in Lu Ming's eyes. With a wave of his hand, the metal ball flew out and smashed towards the five-fold existence of that virtual **** realm.

With the current strength of the metal ball, it is no problem to block a five-level powerhouse of the virtual **** realm.

Lu Ming and them rushed towards the rest.

Being chased all the way, Lu Ming held their stomachs in anger, and it happened to kill them now.

boom!

The metal ball collided with the strong five-level power of the False God Realm, and Xie Nianjun's long sword flicked into a sword light, which enveloped the two strong powers of the four virtual powers.

Xie Nianqing killed the other party's last four virtual **** realms.

Lu Ming triggered a double combat power and worked with Tong Xi'er to deal with others.

With Lu Ming's current combat power, as long as he does not encounter the fourfold existence of the False God Realm, he will be able to protect himself. Although the number of opponents is relatively large, Lu Ming is fully defensive, and the opponent is unable to help Lu Ming for a while.

But Xie Nianqing, dealing with the fourfold existence of a virtual **** realm, is completely crushed.

call out! call out! ...

Xie Nianqing swallowed the memories, fighting experience and fighting consciousness of the previous life, not much worse than Xie Nianjun, the sword light flickered, and the opponent was forced to retreat again and again.

puff!

After dozens of strokes, the opponent was crossed by Xie Nianqing's sword light, almost cut in two, and scared back.

call out! call out! ...

At this time, Xie Nianqing's sword suddenly turned, like a fairy outside the sky, killing those who fought with Lu Ming.

puff! puff!

The sword light flashed over and several heads flew out.

One virtual **** realm is triple, and two virtual **** realms are double, and they are killed directly.

"This kind of swordsmanship, this kind of fighting skills..."

What Lu Ming looked at was also secretly amazed.

The swordsmanship of Xie Nianqing and Xie Nianjun are in the same vein, very similar, and they are so wonderful that they are so wonderful.

Lu Ming thought he could not reach it.

Especially after Xie Nianqing and Xie Nianjun broke through the Wushen Realm, they reached an astonishing point.

This is not a divine skill, but simply the use of swords is a skill and experience.

The magic skills, with their current divine strength, are still difficult to support the outbreak.

In general, at least to reach the peak of the virtual **** realm, before going to practice divine skills.

Uh!

Killing three masters, Xie Nianqing's sword power, once again turned around, two people were killed.

"not good!"

The rest of the others were shocked. So many of them actually lost to Lu Ming's four young people, which shocked them.

Uh! Uh! ...

At this moment, there was a fierce sound of breaking the sky in the distance, and dozens of streamers exploded towards this side.

Another group of masters arrived.

Those people were overjoyed before.

"It's them, it's that they have treasure!"

"We joined forces to kill them!"

Those people shouted before.

"It's them, kill!"

Later those people saw Lu Ming and killed them one after another.

"go!"

Lu Ming shouted, withdrew the metal ball, and Tong Xi'er, Xie Nianqing, Xie Nianjun, turned around and left.

The enemy came with a group of people, among which there are also five levels of False God Realm. If you continue to stay hard, it will be too unwise.

"Where to go!"

Behind, a group of people chased wildly.

After chasing and fleeing, the two sides ran for tens of thousands of miles.

"Huh, no, this area, why no metal beast has been seen!"

Suddenly, Lu Ming frowned.

They ran a distance of tens of thousands of miles. It stands to reason that they will encounter a lot of metal beasts, but just now, they didn't even touch one, which is obviously not normal.

Rumble!

Suddenly, there were roaring sounds in the distance, and the earth shivered violently.

Moreover, this vibration does not come from a certain direction, but from all directions.

"what happened?"

Those who chase Lu Ming have changed their complexion.

Roar! Roar!

Ao!

Then, there was a beast roar.

The ground on all sides shook more and more, and then they saw countless metal beasts, like the tide, rushing towards them from all directions.

"Beast tide, wild beast tide!"

"Run!"

"Fly into the sky!"

Those who chased Lu Ming panicked and exclaimed one by one.

However, there are wild beasts everywhere, so many wild beasts rushed over, they must have no scum left, many people rose into the sky and wanted to escape from the sky.

But, the next moment, they are desperate!

Chapter 2595: Self-reliance

Karma! Karma!

In the sky, a sharp chirp sounded, and a flying beast appeared in the air.

Everyone's face was white.

"what should we do?"

Tong Xi'er's small face is also white.

"Just fight, little one, it's up to you!"

Lu Ming looked at the metal ball.

Metal **** can deter those metal beasts. Now, they can only rely on metal balls.

Rumble!

Countless metal beasts approached, and the terrible breath pressed like mountains and seas.

what! what!

Some people have been swept in by the beast tide and screamed, but in a blink of an eye, there was no sound.

The metal ball in Lu Ming's hand swelled up, and his big mouth snapped, glaring at his eyes, glaring at the metal beasts.

After seeing the metal ball, those metal monsters all showed a trace of fear, and actually bypassed Lu Ming directly, and did not deal with Lu Ming.

"effective!"

Lu Ming, they were overjoyed.

This scene was also seen by others.

"Rush towards them!"

"They are all right, with them, we can leave Wan Venus!"

The remaining undead people rushed to Lu Ming.

"go!"

Lu Ming, how could they stand stupidly? They opened the way with a metal ball and rushed directly into the beast tide.

"Ah, if you die, you won't be saved, you won't die..."

Seeing that Lu Ming rushed into the beast tide, they disappeared and shouted wildly.

Lu Ming disdains them, these people just want to kill them, they are not fools, so they might save them.

It's ridiculous to say what you can't do if you die.

Behind, screams and roaring sounds came, and soon after, there was no sound.

Lu Ming opened the way with a metal ball, but it was very safe, and passed through the beast tide with no danger.

However, when they traveled for a while, they encountered another amazing number of beast tides, running among the forests and roaring like thunder.

"I heard that Wan Jinxing will have a beast tide every 10,000 years, but I didn't expect it to be encountered by us this time!"

Tong Xi'er said, with fear on his face, this time, if there is no metal ball, they are also dangerous, most of them are fierce.

They crossed the beast tide with metal **** and then entered a mountain forest.

Roar! Roar! ..

Soon after they entered the forest, they heard a roar of barren beasts, and at the same time, there was a sword spirit, and the sword light rose into the sky.

Obviously, someone is fighting a wild beast.

The next moment, they saw a group of people rushing towards this side, followed by a pile of wild beasts.

"It's him!"

Lu Ming, their faces all moved.

One of the people in this group is the bald man in the Yuan Luo Temple.

There is one more person, who was the old man of Fengyuntang.

At the moment, they are all embarrassed and chased by a group of wild beasts.

"It's them, the miscellaneous pieces!"

Yuan Luo Dian's bald man also saw Lu Ming, their eyes burst into cold luster.

Then, the bald man in Yuanluo Hall rushed to the landing directly.

The others followed the bald man and rushed to Lu Ming together.

Obviously, they wanted to pull Lu Ming into the water.

"Really dead!"

There was a sneer in Lu Ming's mouth.

"We take them to that beast tide!"

Lu Ming sent a message to Xie Nianqing, and Xie Nianqing saw that they were all bright and understood what Lu Ming was going to do.

They turned and ran, rushing towards the beast tide.

The bald Dahan and others, chasing after each other, followed Lu Ming behind them. They had just crossed the tide of beasts, so they were not far away, and soon they saw a large group of wild beasts.

Lu Ming directly put the metal ball into the storage ring.

Roar!! Roar! !

Those wild beasts, as soon as they saw Lu Ming, rushed towards the landing Ming crazy.

"not good!"

"Damn!"

The bald man and others were shocked.

Lu Ming and them turned around and rushed towards the bald man, bringing a large group of wild beasts.

"Damn, **** you!"

"A group of lunatics!"

The bald-headed men and others screamed, they thought Lu Ming they could not escape, and they were to be dragged to die together.

"You guys, get out, get out!"

The bald man roared.

"Don't you just want to chase us? Why do you tell us to get out now?"

Lu Ming sneered and continued to chase them towards the bald man.

The bald-headed man and others showed the color of despair, with a large group of wild beasts behind, more wild beasts in front, and dense flying wild beasts in the sky.

There is nowhere to go.

At this moment, Lu Ming suddenly stopped, and then the metal ball in his hand appeared again.

Taking out the metal ball, those wild beasts automatically bypassed Lu Ming and threw them towards the bald man.

"Enjoy it!"

Lu Ming's sneer sounded, and then he and Xie Nianqing rushed into the wild beasts, safe and sound.

"Ah, ah!"

The bald man, the old man of Fengyun Hall, exasperated, hysterically roaring.

They suffocated, unwilling, afraid of dying...

They understood that they were pitted by Lu Ming.

They want to rush to Lu Ming, but countless wild beasts have drowned them.

A few wild beasts of the False God Realm rushed to the bald man. The bald man struggled to resist a few moves, and then was torn apart and fell to the spot.

The old man of Fengyun Hall did not support a few strokes, and was also torn by the wild beast.

Several people Lu Ming left here.

"Now there is a beast tide, whether it is on the ground or at high altitudes, there are terrible wild beasts, there should be no strong people intercepting us in high altitudes, we will leave now!"

Lu Ming said.

Everyone nodded. Those strong men, seeing the beast tide, are estimated to have left Wan Venus.

However, there are so many wild beasts in the sky, so naturally they cannot directly take out the starry sky warships. They need to pass through those wild beasts before they can leave.

They flew towards the sky.

Karma!

Suddenly, a sharp tweet sounded, and he had been covered with silver and white, like a large sculpture made of silver. He flew over and stared at Lu Ming.

A terrible breath spread out from the big eagle, making Lu Ming's heart beat faster.

terror! too horrible!

This big eagle gave them a feeling of horror that was even more horrible than the wild beasts of the Seventh Realm of the False God Realm that they had encountered before.

This is definitely a sevenfold existence that transcends the virtual **** realm.

This kind of existence is so amazing, Lu Ming felt that the opponent could kill him with just one move.

The silver eagle, the cold eyes, stared at them, making Lu Ming and others' bodies tense, and cold sweat oozed from behind.

Click, click!

The metal ball grew its mouth and stared at the big eagle.

The silver eagle's eyes fall on the metallic paint. Unlike other wild beasts, the silver eagle has no fear in its eyes.

Chapter 2596: return

Seeing the cold eyes of the silver eagle, with no fear, Lu Ming's several people felt nervous.

No, this silver eagle is not afraid of metal balls, then they are not going to finish playing?

Ignored by the silver eagle, the metal ball was furious, and it seemed to feel that its majesty was being provoked. Its body bulged and hit, its eyes squinted round, its mouth full of fangs exposed, and it snapped.

At the same time, two tentacles were stretched out of the body like a liquid metal, waving vigorously, as if threatening the silver eagle.

Lu Ming, Xie Nianqing, Xie Nianjun, Tong Xi'er, who dare not come out of the atmosphere, stood there, motionless.

Now, rely on the metal ball!

If the metal ball can't scare away the opponent, then they are in danger.

Fortunately, the silver eagle finally got some reaction. Its cold eyes swept over Lu Ming and then turned around. With a long roar, they waved their wings and left.

Not only that, even other flying beasts in the surrounding area also followed away.

"gone!"

Lu Ming took a long breath and felt that his back was chilling and had been wet with cold sweat.

Click, click!

The metal ball became smaller and reverted to a grunting metal ball, jumping around in front of Lu Ming, as if showing off its record.

"go!"

Lu Ming grabbed the metal ball and flew towards the sky.

This time, they were frightened, flying all the way up to the atmosphere, near the starry sky outside, and then stopped.

Here, there are no wild beasts and no other strong men. Tong Xi'er took out the star battleship and entered the star battleship. The star battleship turned into a streamer, flew out of the atmosphere, and rushed into the vast starry sky.

After entering the starry sky, they were relieved.

Many things happened on this trip to Wan Venus, and finally left without any danger.

"Wait later to be high, come again!"

Lu Ming whispered.

This is a treasure land, which can hunt a large number of metal beast cores, and Lu Ming also has treasures like metal **** to hunt beast cores with amazing efficiency.

However, in the near future, it must not come, not only because of the beast tide, after the beast tide, the masters of other forces return to Wan Venus, I am afraid they will still look for them.

After a few years, wait for the repair to become higher, then come again.

Then, they sorted out the storage rings they got from the enemy, but they also found some beast cores and **** crystals.

Organize these things together, wait for the return to Zhengtianjun, and sell the beast cores, and share them together.

The time was fast, and after more than a month, they returned to Zhengxingxing.

In Zhengtianjun, a place to buy, sell and even exchange treasures.

Back to Zhengtianxing, Tong Xi'er brought them to Mingling, came here, and sold all the metal beast cores.

Together with their spoils, there are a total of 120,000 **** crystals.

"Twelve thousand pieces of God Crystals, we each have thirty thousand!"

Lu Ming smiled and began to divide equally.

"No, I only need 10,000, this time, thanks to you, I didn't do anything!"

Tong Xi'er hurriedly refused, his face reddened.

This time, she really didn't make much effort, whether it was Lu Ming, Xie Nianqing, Xie Nianjun's strength was above her, and she had the least credit, and she was a little embarrassed to take 10,000 pieces of Shenjing.

"We said yes, the God Crystal got evenly, and since we said yes, we will naturally do it!"

Lu Ming pushed 30,000 pieces of God Crystal to Tong Xi'er.

Lu Ming this time, got the metal ball, already very satisfied, if Tong Xier took them, how could he get it.

However, Tong Xi'er still refused, and finally only received 20,000 Shenjing.

"Lu Ming, then I will return the Star Wars, and you talk first!"

Tong Xi'er left.

"One hundred thousand **** crystals..."

Lu Ming took out the remaining crystal.

"Just give me 30,000 yuan!"

Xie Nianjun waved his hand, took a storage ring with 30,000 pieces of divine crystals, and flew away.

The rest, only Lu Ming and Xie Nianqing, just to say, the two did not distinguish between each other, Xie Nianqing took 30,000 yuan, Lu Ming left 40,000.

"With these **** crystals, my cultivation behavior should be able to break through quickly!"

Xie Nianqing smiled.

She swallowed the memories of the previous life and practiced at an astonishing speed, especially her insight into the practice of spiritual practice.

Therefore, as long as she has the resources, she can break through very quickly.

However, Xie Nianjun's advantage is greater, and her integration with the previous life is equivalent to the resurrection of the previous life. She hardly needs to re-understand and break through. It is faster and has almost no bottlenecks.

The two chatted for a while and then went back to the room to practice.

On this trip to Wan Venus, after repeated battles, Lu Ming has made great progress. He has made a big step forward in comprehension of the tactics of warfare and the **** of the way.

Lu Ming had a feeling that it would not take long for him to break through.

Lu Ming placed the metal ball in the room and concentrated on the practice.

In a flash, a year has passed.

Lu Ming sits on the body for a year, and suddenly a strong attraction oozes out. The spirit between heaven and earth madly gathers towards his body and then rushes into his body.

Then, Lu Ming waved his hand, and a pile of Shenjing appeared, and it was continuously broken into a very rich spirit, which was absorbed by Lu Ming.

The power of the world in Lu Ming's body, and the power of the master, began to skyrocket and quickly became rich.

A few days later, Lu Ming's breath rose sharply, and then he concealed slowly.

Uh!

Lu Ming opened his eyes, two brilliant lights burst into his eyes, dazzling.

"Four Star Emperor!"

Lu Ming smiled.

After training in Wan Jinxing's experience, Lu Ming came back for a year of retreat, and Lu Ming made another breakthrough.

Of course, this is because Lu Ming's cultivation practice is still low, in the Heavenly Emperor Realm, and the cultivation environment of the Honghuang Universe is really much better than the Heaven Realm, so he made such a rapid breakthrough.

If it is in the celestial realm, it is absolutely impossible to break through in such a short time.

Of course, if you reach the virtual **** realm in the future, it will not be so easy to break through.

Reaching the False God Realm, every heavy breakthrough is difficult, unless it is against the sky's arrogance, plus some rare talents to help each other.

Reaching the Four Star Heavenly Emperor, Lu Ming's strength has undoubtedly increased a bit.

Now, if he triggers double combat power and kills the triple existence of the False God Realm, it is easy. Even if the False God Realm is fourfold, he can contend.

Lu Ming got up, stretched a lazy waist, and made a dense burst of sound.

"Huh, this guy..."

Lu Ming opened his eyes and found that the metal ball was lying on the ground softly, and a listless look almost turned into a pool of liquid.

"This guy, didn't eat it, that's it?"

Lu Ming guessed, then a metal beast core appeared in his hand.

Before, Lu Ming left dozens of scattered beast cores not sold.

Chapter 2597: Lu Ming's name level

As soon as the metal beast core in Lu Ming's hand appeared, the metal ball bounced immediately, shaking like a jelly. A large mouth and a pair of eyes appeared on it. The eyes only shined and stared at the metal beast core in Ming's hand.

Uh!

The metal ball jumped directly, opened his mouth wide, swallowed the beast core in one bite, and chewed.

After a while, a metal beast core was eaten up by the metal ball, and then stared at the landing.

Lu Ming took out a few more, but was also eaten up by the metal ball three or two times.

"It's not a way to go on like this, how can there be so many metal beast cores for it to eat!"

Lu Ming frowned.

"Metal beast core is actually a kind of refining material. I don't know other metallic refining materials. This guy can eat it!"

Thinking of this, a piece of refining material appeared in Lu Ming's hands, with various glosses, all of which are metals with different attributes.

Click!

As soon as Lu Ming took it out, he was swallowed by the metal ball and ate with relish.

"It's really eating, this guy's teeth are so good, then, soldiers, does it eat?"

Lu Ming thought for a while, and then took out a great soldier.

The metal ball stretched out two tentacles, grabbed the emperor soldier, chewed and smashed in two or three clicks, and then the round body, also shook, seemed to be saying that this soldier is not enough grade, and the taste is not enough. .

Lu Ming was speechless. At the next moment, a bow and arrow appeared in Lu Ming's hands.

This is the star-falling bow, a crippled Tiandao soldier. When Lu Mingxiu was still weak, he gave Lu Ming much help.

The metal ball grabbed it and swallowed it three or two times.

In this way, only a little satisfaction is revealed in the eyes of the metal ball.

"Give you a few more!"

Lu Ming took out several Tiandao soldiers, including the Great Barren Gun.

The Great Waste Gun had been damaged in a battle with the alien ancestors, and for Lu Ming now, the weapons of the level of the Taoist soldiers are useless. With a wave of their hands, they can crush the Tiandao soldiers.

The person who came to the metal ball refused, chewing and swallowing several Heavenly Soldiers one by one. After swallowing, a layer of brilliance radiated from the metal body, and then he watched the landing sound with his eyes.

"This guy, has a big appetite!"

Lu Ming had a headache.

Then he gritted his teeth and took out two weapons, a battle knife, and an axe, all of which were artifacts, but only first-class artifacts.

All are the loot Lu Ming got from the enemy.

In the battle of Wan Venus, Lu Ming each of them has harvested several artifacts, but the highest is not the third-order inferior artifact, and the fourth-order inferior artifact is not obtained.

Upon seeing two first-class artifacts, the metal ball shined with both eyes, grabbing the past and gnawing hard.

This is an artifact. Although it is a first-class inferior artifact, it is also very sturdy. Even with Lu Ming's current strength, it takes a lot of effort to destroy it, but the metal ball can bite a big chunk in one bite. , "Blowing incense" by clicking.

When eating an artifact, the metal ball should be eaten a little slower. After half an hour, the metal ball wiped out the two artifacts, and the whole body glowed with a satisfied expression.

"This guy will not eat artifacts often!"

Thinking of this, Lu Ming's face was dark.

Every artifact is expensive, so if you eat it like this, he will definitely go bankrupt.

But when he thought that this guy would be promoted if he ate too much, Lu Ming felt hot.

As long as there are enough metal materials and all kinds of weapons and the like to feed the metal balls, wouldn't the metal **** be able to advance all the time, then the future will help him greatly.

"Eat some low-level ones first, I will think of a way!"

Lu Mingsi thought, and then took out some of the refining materials he had collected over the years.

Over the years, he has collected too much material for metal smelters. He used to give them a part of Longmeng to let them take the smelters, but there are still many left.

However, the level is not high.

Although only a part of it was taken out, it was piled up like a hill. When I saw so many metal materials, the metal **** were shining with two eyes, one end plunged into the piles of refiner materials, and I ate.

In the next half month, Lu Ming observed the situation of the metal ball while stabilizing the state.

In the past half month, Lu Ming collected the refining material, which was almost eaten up by the metal ball. However, the metal ball showed no signs of promotion.

"It seems that the material grade of the refiner is too low to provide enough energy to the metal ball!"

Lu Ming sighed.

Lu Ming speculates that after swallowing the metal material, the metal ball can absorb the spiritual essence in the metal ball material and improve itself.

Only by absorbing enough spiritual Jinhua can it be transformed and then promoted.

The low-level refining material contains too little energy for the metal ball which is already a double layer of the virtual **** realm.

"What should I do? I don't have to feed artifacts all the time, how can I feed them!"

Lu Ming sighed.

"and many more!"

Suddenly, Lu Ming's eyes lit up.

The artifact can't be fed, then feed the artifact fragments.

In the vast universe, countless people fight each other every day, and countless people go to various forbidden places, dangerous places, and some unknown planet adventures.

Fighting against each other, every day, there will be a magical fragmentation. When the artifact collapses, magical fragments will be generated.

The metal ball just needs the spiritual essence in the metal. So, eating artifact fragments is essentially the same as eating artifacts.

However, the price of artifact fragments is many, many times cheaper than artifacts.

Even, the price of artifact fragments is cheaper than the material of the same level.

Refining materials can be used directly for refining, but if you want to reuse the magic fragments, you must first extract the materials from the fragments.

However, when refining artifacts, various materials have been completely interwoven and mixed, and it is very difficult to extract them.

The labor cost is also very high, which leads to the fact that the price of artifact fragments is not very high.

"Just buy artifact fragments, haha!"

Thinking of this, Lu Ming was overjoyed, grabbed the metal ball, and went out.

The metal ball itself is like a mass of liquid metal. At the moment, the palm of Shun Ming's palm wriggled and turned into a golden bracelet, which was carried on Lu Ming's wrist.

"Not bad, so good!"

Lu Ming was happy.

Turned into a bracelet on the wrist, so as not to attract attention.

"I will give you a name!"

Lu Ming looked at the 'bangle' on his wrist.

A pair of eyes immediately appeared on the bracelet, looking forward to the landing song.

"You guy is grunting, like a ball, I'll call you the ball, how about it? Isn't it nice?"

Lu Ming said.

The blinking eyes of the metal ball seemed to be quite liked.

"Dandan, bubbles, balls..."

Lu Ming thought of bubbled them up and down, smiled in his heart, and he was quite satisfied with the level of his own name.

Coming outside, Lu Ming rose into the sky, and soon afterwards, Lu Ming came to the place where Zheng Tianjun traded treasures.

Chapter 2598: Yunfeng City

Half an hour later, Lu Ming walked out of the place where Zheng Tianjun traded treasures, frowning slightly.

He bought some artifact fragments, but the amount is not much, only equivalent to about ten artifacts, and they are not high-level artifact fragments, which cost two hundred magic crystals.

"These artifact fragments are simply not enough. Where should I buy them?"

Lu Ming thought.

"Lu Ming!"

Suddenly, a clear voice sounded, Lu Ming looked up, but it was Tong Xier.

"Lu Ming, are you buying treasures here?"

Tong Xi'er flew over with a smile.

"Yeah, but I'm here to buy some artifact fragments, but there are too few artifact fragments here!"

Lu Ming said.

"Buy artifact fragments?"

Tong Xi'er looked at the metal ball.

"Zhengtianjun is not big after all, and lacks powerful refining materials, so there are not many artifact fragments in stock. Many people will not sell artifact fragments even if they have artifact fragments!"

Tong Xi'er explained.

"Oh, Xi'er girl, where can you buy a lot of artifact fragments?"

Lu Ming asked.

"If you want to buy a lot of artifact fragments, you can only go to Yunfeng City!"

Tong Xi'er said.

"City of Yunfeng, you mean, the city of Yunfeng where the Yunfeng Pavilion is located?"

Lu Ming's eyes moved.

The riotous galaxy has a vast territory and has a lot of life planets. In addition, there are many planets without creatures. The size of the planets is countless.

Therefore, the forces of all sizes are also amazing, such as Zheng Tianjun and Yuanluo Dian, there are not 1,000 but 800.

However, among so many forces in the rioting galaxy, the strongest force is undoubtedly Yunfeng Pavilion.

Because, Yunfeng Pavilion has gods sitting there.

There are so many forces in the riot Xinghe, and only the Yunfeng Pavilion has the gods sitting in it, which is undoubtedly the first force.

The Yunfeng City, where the Yunfeng Pavilion is located, is the most prosperous place in the riotous galaxy. Here, you can buy many things you want to buy.

"Yes, I'm just going to Yunfeng City to buy some immortals and prepare to hit the realm. We can go together!"

Tong Xi'er said.

"it is good!"

Lu Ming nodded.

Going to Yunfeng City, he also wanted to sell a handy weapon.

During this time, Lu Ming has been using the magic weapon sword that White Teeth gave him, but after a long time, Lu Ming still feels that the spear is better to use.

Although practicing warfare tactics, any weapon is handy, but Lu Ming after all began to use a lance shortly after he began to practice it. It is customary to think that the lance is easy to use.

Moreover, Bai Ya's artifact war sword is only a third-order inferior artifact, which is still a bit lower. Lu Ming wants to buy a higher-level spear.

Just now in Zheng Tianjun he also asked, did not find a suitable one.

Immediately, the two embarked on the teleportation array of Zhengtian Army and rushed towards the city of Yunfeng.

Zhengtianxing is very far away from Yunfengxing, where the city of Yunfeng is located. If you want to cross the boundless starry sky, even if you take the teleportation array, it is impossible to arrive at once, but you need to send it multiple times.

Moreover, the long starry sky teleportation, even in the teleportation array, takes a short time. After three days of continuous teleportation, they finally came to the city of Yunfeng.

"Good majestic city!"

Lu Ming sighed while turning on the streets of Yunfeng City.

When he came to the Honghuang Universe, Lu Ming felt that Tianyuan Yuanjie was too small.

The area of Dark Pluto is exactly the sum of tens of thousands of celestial meta-world Evil God Realm.

The area of the celestial star is several times larger than that of the dark Pluto.

However, the area of Yunfeng Star, where the city of Yunfeng is located, is at least dozens of times larger than that of Zhengtian.

Comparing Heavenly Realm, Evil God Realm and Yunfeng Star, it is simply dust.

The area of a city of clouds and peaks alone is estimated to be worth the sum of the area of the Evil God Realm of hundreds of heavens and realms. One can imagine how huge it is.

The city of Yunfeng is very lively, and all the forces of the rioting galaxy can come here.

The galaxy of the riot is very chaotic. Fights can be seen everywhere, but the city of Yunfeng is exceptional.

The Yunfeng Pavilion has regulations that the city of Yunfeng does business. It is not allowed to fight. If you want to fight, if you go to a specific battle platform, anyone who violates it will be chased by Yunfeng Pavilion.

Therefore, Yunfeng City is very safe, and only in this way can it attract countless people to do business, come to trade, buy treasures, or sell treasures.

If it is insecure and can kill people at any time, who dares to come?

So the two are more at ease and stroll around at will.

Two days later, the two came to the largest square city in Yunfeng City.

Here, there are many people and shops, and there are all kinds of shops.

Refining materials, all kinds of magic pills, artifacts, treasures of heaven and earth, everything.

Even, there are magic skills for sale.

Lu Ming went in and took a look, the price was amazing.

Even the lowest-level first-level magic skill is not what Lu Ming can buy now, at least they all started with tens of thousands of **** crystals.

In a Shendan shop, Tong Xi'er bought the Shendan she needed, and her accumulation was enough. After going back, she could hit the virtual **** realm twice.

Then they came to an artifact shop.

"Guest, may I ask, is there any need?"

Immediately, a beautiful young girl greeted her.

"Hello, I need to buy a lance-type artifact!"

Lu Ming smiled.

"Lion type artifact? What level do I need, I can recommend it to you!"

The young woman smiled.

"It's above the fifth-grade artifact!"

Lu Ming said.

"Okay, please follow me!"

The young woman led Landing to a room, where various spear artifacts were hung.

"This is a fifth-order inferior artifact hurricane gun, worth three thousand **** crystals!"

"This is the sixth-grade inferior artifact flame gun, the price is seven thousand **** crystals!"

...

The women introduced Lu Ming one by one.

"What an expensive price!"

Lu Ming sighed.

A fifth-order inferior artifact requires three thousand **** crystals.

The inferior artifacts correspond to the virtual **** realm. In general, the people of the virtual **** realm use the inferior artifacts, the true **** realm, and the middle grade artifacts...

By analogy, the King Realm uses the best artifacts.

You should know that the metal beast core is hunted in Wan Venus, a beast core of a five-fold wild beast in the virtual **** realm, and the price is only eighty **** crystals.

The fifth-grade artifact artifact lance requires three thousand **** crystals.

Of course, when refining an artifact, it is impossible to use only one kind of refining material. It needs multiple materials to match, and it also requires refining costs.

In the end, Lu Ming chose a sixth-grade inferior artifact-level spear, a meteor gun, and spent seven thousand **** crystals.

"This **** crystal is not enough!"

Lu Ming sighed.

Before, when he broke through the Four Star Heavenly Emperor, he used about 5,000 **** crystals, and now he spent another 7,000.

Forty thousand pieces of Divine Crystals, there are twenty eight.

Chapter 2599: Meet Kang Long again

"Girl, are there any artifact fragments for sale here?"

Putting down the meteor gun, Lu Ming asked again.

"Naturally, what level of artifact fragments does the son need? Different levels of artifact fragments have different prices!"

The young woman said.

"Artifact fragments of the inferior artifact level can be used at any level!"

Lu Ming said.

Then, under the introduction of the young woman, Lu Ming purchased a large number of artifact fragments.

It is worthy of Yunfeng City, where there are many artifact fragments, which can be said to be piled up like a mountain.

And the price is indeed cheap, let alone compared with the artifact, even if compared with the material of the refiner, it is much cheaper.

As Lu Ming gritted his teeth, he spent another 10,000 pieces of God Crystal and purchased a large amount of refining materials of various levels, enough for the ball to eat for a while.

The crystal on Lu Ming shrank again, leaving only 18,000 pieces left.

"Any way to earn some crystals!"

Lu Ming muttered.

For him, 18,000 pieces of God Crystals are not enough at all. With the improvement of his cultivation, more God Crystals will be needed when he breaks through in the future.

Both of them should have bought it, they bought it, walked out of the shop, and planned to go back in the teleportation array.

"Tong Xi'er, also, it's you kid..."

Suddenly, a sharp, harsh voice resounded with resentment.

Lu Ming turned and looked, and a sneer appeared in the corner of his mouth.

Coincidentally, I met an old acquaintance.

Behind, there are two young people, one of whom is actually the young master of Yuanluo Hall, Kang Long.

At this time, Kang Long was staring at him with resentment.

At the beginning, he was taken down by Lu Ming, and later handed over to Zheng Tianjun's people as hostages to exchange.

This incident was regarded as a shame and humiliation by him. He put Lu Ming into his bones, always thinking of seeking revenge on Lu Ming.

But Lu Ming was hiding in the Zhengtian Army, and he had no way. Unexpectedly, he would meet in Yunfeng City.

"Kang Long, Situ laughs!"

Tong Xi'er's eyes flashed and they recognized the two.

"Boy, sooner or later I will break you up!"

Kang Long's eyes were cold, all of them were cold killings, and he stared at the land.

If it weren't for Yunfeng City, he couldn't fight, he had already set Lu Ming down.

"The defeated men are also talking here, who won't brag?" Lu Ming squinted Kang Long, full of contempt.

"you..."

When Kang Long thought of being taken into captivity by Lu Ming for several months, he angered and gritted his teeth. When he saw Lu Ming's contemptuous look, he wished to slapp Lu Ming to death.

boom!

A strong breath erupted from Kang Long's body, and he pressed towards the landing.

A virtual **** realm!

Obviously, during this time, Kang Long broke through from the demi-god to the virtual **** realm.

The movement here attracted passersby to look sideways, looking at the lively look here.

"Want to do it, come!"

Lu Ming ticked his finger.

In the city of Yunfeng, he did not believe that Kang Long dared to take action.

"Boy, I will challenge you now and fight me on the battle platform!"

Kang Long glared at Lu Mingdao.

"You? Your men are defeated, not interested!"

Lu Ming pouted, Kang Long almost exploded his lungs.

Taking a few deep breaths, Kang Long reluctantly calmed down and said, "You dare not!"

At the beginning, he lost to Lu Ming. He felt that he was careless. Moreover, he has now broken through the virtual **** realm and his combat power has skyrocketed. He has full confidence and can easily suppress Lu Ming.

"You don't have to excite me, I really have no interest in my men's defeat, nothing else, don't block the road!"

Lu Ming waved casually.

He is telling the truth, Kang Long's cultivation is not a matter of virtual **** realm, he can suppress it by turning his hand, he is really not interested.

However, Lu Ming's defeat by one player at a time, listening to Kang Long's ears, is simply the biggest insult to him.

His face was red, and his teeth were gurgling.

"You don't fight against Brother Kang, then I will challenge you, can you dare to fight?"

At this time, the young man beside Kang Long spoke.

The man's face was white and clean, with a folding fan in his hand and he kept shaking, with a confident smile on his face.

"Lu Ming, this person is the master of Xiaoyao Zong Shao, Situ laughs, and there is a double cultivation of False God Realm!"

Tong Xi'er sent a message to Lu Ming.

Xiaoyaozong is also a powerful force similar to Yuanluo Palace and Zhengtianjun.

"Are you going to challenge me?"

Lu Ming looked at Situ and smiled.

"Good, can you dare? If not, I won't embarrass you!"

Situ smiled and smiled.

"To be honest, I don't have any interest in you at all, because with your cultivation behavior, I can suppress it with my hands!"

Lu Ming pouted.

Situ smiled and his eyelids jumped, and the folding fan that had been shaking also stopped, and a ray of cold murderousness burst into his eyes.

Lu Ming, actually said that flipping his hand can suppress him?

It was a big joke, he could clearly feel that Lu Ming was nothing but a virtual reality, and a virtual reality, so dare to talk so loudly, it was hardly alive.

"However, if you dare to gamble with me, I can fight you!"

Lu Ming paused, then continued.

"Gamble? How to gamble?"

Situ laughed.

"Betting on 20,000 God Crystals, we each took out 20,000 God Crystals, and whoever wins, take away the other 20,000 God Crystals, how?"

Lu Ming said.

"Twenty thousand God Crystals!"

Situ smiled slightly.

20,000 yuan, not a small number.

"Why don't you dare to gamble? Then forget it!"

Lu Ming looked contemptuous and turned away.

"I bet it's 20,000 yuan!"

Situ laughed.

He didn't think he would lose at all, so he simply agreed.

"Okay, then go to the battle platform!"

Lu Ming said.

Immediately, Lu Ming, Tong Xi'er, Kang Long, and Situ laughed toward the nearby battle platform.

"Go, let's go check it out!"

"That young man, who merely cultivated the virtual realm, actually dared to challenge the dual arrogance of a virtual god, interesting!"

People nearby, followed Ming Lu to leave them.

Soon, they came to a nearby battle platform.

The battlefield was surrounded by people.

"Take out 20,000 ***** crystals, I need to find a middleman, lest you lose the debt!"

Lu Ming looked at Situ and smiled.

"Will I lose? Ridiculous!"

Situ laughed coldly.

"It might be, I haven't fought, how do you know?"

Lu Ming smiled faintly, then looked around and said, "Which senior can help be a middleman?"

"Old man!"

A silver-haired old man walked out, a strong breath filled his body.

"Nine Heavy Virtual Realms!"

On the side, many people's faces changed.

In the riotous galaxy, the true **** realm is definitely a master, and the virtual **** realm is ninefold. In many forces, it is the backbone.

"Okay, thank you senior!"

Lu Ming gave a storage ring to the silver-haired old man.

Inside, there are exactly 20,000 **** crystals.

Lu Ming's original divine crystal was not enough for 20,000 yuan. On the way, he borrowed 2,000 yuan from Tong Xi'er.

Chapter 2600: Kneel

"Huh, that's fine!"

Situ laughed coldly and took out a storage ring and gave it to the silver-haired old man.

The silver-haired old man swept the consciousness, and then said: "There are 20,000 pieces of **** crystals, there is no mistake, whoever wins, who belongs to these **** crystals!"

"Boy, come on stage!"

Situ laughed coldly and set foot on the battle platform.

Lu Ming also flew onto the platform, standing opposite to Situ Xiao.

"The young man, who only cultivated the virtual realm, actually dared to fight against the dual existence of a virtual **** realm. Is there anything to rely on?"

"I can't figure it out, the difference between the virtual realm and the virtual **** realm is too big, even if it is a Tianjiao character, it is difficult to cross that big realm challenge!"

"His opponent is Situ laughs. I have heard that it is also an arrogant one, controlling Wangpin's divine power!"

"So, did the young man lose?"

"I don't know, I can't figure it out, just look at it!"

Around, many people were talking.

However, most people think that Lu Ming is definitely not an opponent. After all, the virtual realm is still in the first step of cultivation, and the virtual **** realm is already the second step of cultivation.

It is only one step away, but it is a world difference. Unless it is the kind of arrogance against the sky, it is possible to cross.

However, in such a small place as the riot Xinghe, will there be such pride?

However, some people feel that Lu Ming is very confident. Since he dares to fight, he should rely on it. They are curious about what Lu Ming has to rely on.

Everyone stared at the two on the battle platform.

"Boy, within three strokes, I want you to kneel!"

Situ smiled with a thick murderous flash in his eyes, and his body swayed like a glimmer of light. He came to Lu Ming and raised it with one hand. The divine power whistled like a mountain peak, and he pressed towards the landing. He wanted to put Lu Ming on the spot. Kneel down.

Situ Xiao has full confidence.

He is a character of Tianjiao, and he is in control of Wangpin's divine power, and his strength is far superior to those of the same level. This trick, even if it is also the double existence of the virtual **** realm, can't bear it.

However, Lu Ming's face did not change at all, and he pointed like a sword.

"Go to death! Then break your finger!"

Situ smiled with a smile, and added some strength.

bump!

Lu Ming's fingers collided with Situ Xiao's palms, and a violent roar erupted. Between his energy, a figure banged back continuously for five or six steps before standing firm.

Back, naturally Situ laughed.

"how is this possible?"

Around, many people were taken aback.

Lu Ming, actually repelled Situ laugh with one stroke, which was beyond everyone's expectations.

One virtual reality, one move repels the double arrogance of a virtual **** realm, which is incredible.

"Situ Xiao should be underestimating the enemy, no effort is used, but this is also extremely amazing!"

Someone sighed.

"you..."

At this moment, Situ laughed in shock.

There was a sting of pain where Lu Ming's finger was stabbed in the palm of his hand.

Just now, he really underestimated the enemy, and only used seven layers of power, but it was also extremely amazing. You know, he controlled, but Wangpin divine power.

"This kid, demon, today I will abolish him!"

Situ roared with a smile in his heart, his strength exploded with all his strength, and sang to the landing.

"Come well!"

Lu Mingsi was not afraid, but also exploded with all his strength. The whole body was filled with bright purple gold brilliance and rushed to Situ laugh.

boom! boom! boom!

The two collided in succession and fought fiercely. For a time, it was difficult to distinguish the outcome.

Situ laughed, although it was a double cultivation of the virtual **** realm, but his divine power was Wangpin's divine power. It was very solid and condensed, with strong attack power. His strength was enough to fight the triple existence of the virtual **** realm.

And Lu Ming, the cultivation practice of the Four Star Heavenly Emperor, was able to fight against the triple existence of the virtual **** realm without triggering the double combat power of the war character tactics, so for a time, the two were inseparable.

"It seems that it is also Wang Pin's divine power, which also has strengths and weaknesses!"

Lu Ming thought while fighting.

Tong Xi'er is also in charge of Wang Pin's divine power, but Lu Ming feels that Tong Xi'er is better than Situ's laughter in the same level.

The same is the Wangpin divine power, there are strengths and weaknesses.

bump! bump! bump!

The two of them fought dozens of tricks again, and it was still difficult to differentiate.

"How is it possible? How is this possible?"

Situ roared with a smile in his heart, at this moment, he was a little anxious.

He didn't want to let Lu Ming kneel now, he thought about how to win, otherwise, 20,000 pieces of God Crystal would be gone.

The most shocking thing in the battle is Kang Long!

His face was white, without any blood, and he kept muttering: "How is it possible? How can this boy be so strong? Damn, **** it!"

At the same time, he was afraid again and again, but fortunately Lu Ming did not agree to fight him, otherwise, he would lose miserably.

"I hope Situ laughs and can beat him!"

Kang Long prayed secretly in his heart.

Unfortunately, his wish is destined to fail.

"Are you with this strength, then it's over!"

Lu Ming's voice sounded, and at the same time, his power suddenly skyrocketed.

Battle word tactics double combat power, trigger!

Triggered double combat power, Lu Ming's combat power is enough to confront the fourfold existence of the virtual **** realm, where can Situ Xiao be able to match.

boom!

Lu Ming punched out with a fist, and his terrible punching force, like a row of mountains and rivers, pressed towards Situ with a smile.

Click!

Situ Xiao's arm was directly interrupted by Lu Ming's fist, and his body receded and he vomited blood.

bump!

Lu Ming stepped out and continued to attack.

Situ Xiao took out an artifact to counterattack, and Lu Ming was attacked and flew out.

"Kneel down for me!"

Lu Ming drank coldly, lifted his big hand and pressed it, and the power of the master was condensed into a huge palm, and he smiled at Situ and pressed it down.

Situ laughed and roared, struggling to fight against it, but it was not Lu Ming's opponent at all and could not stop Lu Ming's strength.

boom!

Powerful force, acting on Situ Xiaoxiao, his body bowed up, and finally with a touch, he knelt directly on the ground and knelt in front of Lu Ming.

what!

Situ laughed and yelled like a maniac, and he was so happy that he was kneeling in front of Lu Ming. He hated madness, and he wished that Lu Ming would lose his bones.

"What's it called? If you lose, you lose. Will it work?"

Lu Ming scolded, and his palm shook, and Situ Xiao's body flew out, flew out of the battle platform, vomited blood, and could not climb for a long time.

Lu Ming didn't kill Si Tuxiao because it was unnecessary.

Moreover, if Situ laughed, the Xiaoyaozong might be mad, and then he would kill Zhengtianjun with all his strength, which might be detrimental to Zhengtianjun.

"Failed, Situ laughed defeated!"

"How can it be possible to defeat the virtual pride of a virtual **** realm by transforming the virtual realm?"

"The power of the master is the power of the master, he controls the power of the master!"

"What? It's the dominating force, no wonder!"

The scene was noisy, and many people recognized Lu Ming's power as the dominant force.
