

D Emperor 2601

Chapter 2601: Once and for all, the origin of the bubble

Once the dominant power is transformed into divine power, it is the dominant divine power. This is divine power. Even in the vast and vast universe, there is very little divine power. The riotous galaxy has never appeared.

Now, some people can control the power of domination.

"No wonder it's so terrifying, it is amazing to defeat the virtual realm and defeat the virtual **** realm!"

"The power of the master, which power is this evil?"

"Unfortunately, the repair is too low, otherwise it will be terrible!"

Many people looked at Lu Ming, full of shock.

"Still recognized!"

Lu Ming himself was also speechless.

When he just started, he had done some hands and feet, and did some hiding, but he was still recognized as the dominant force.

The main thing is that once the power of dominance is used, the characteristics are too obvious and it is easy to be recognized.

"It seems that we still have to find a way to hide the characteristics of the power of the master, otherwise it will be recognized by the person after the start, which is too eye-catching!"

Lu Ming thought.

Before there is too much strength, it is too eye-catching, which is not a good thing, and sometimes it will cause death.

"Senior, I won!"

Lu Ming walked towards the silver-haired old man.

"The little brother is really a peerless wizard. If you have a chance, the old man will ask you to have a drink!"

The silver-haired old man smiled and took out two storage rings and handed them to Lu Ming.

Lu Ming took it away and smiled, "The younger generation still has something to do. If you have a chance in the future, please invite the senior to drink!"

Politely, Lu Ming and Tong Xi'er left here.

"Lu Ming, I must report this hatred!"

Under the battle platform, Situ got up struggling with a smile, looking in the direction of Lu Ming's departure, his face green and full of resentment.

Lu Ming and Tong Xi'er didn't stay. They came to the teleportation array of Yunfeng City and headed towards Zhengtianxing.

A few days later, Lu Ming returned to Zhengtianxing.

This time, Lu Ming wins Situ laughs at 20,000 God Crystals, and Lu Ming is in a good mood. This trip to Yunfeng City did not go in vain.

On Lu Ming, there are 38,000 more **** crystals, which is more than a few thousand pieces before him.

Back at the residence, Lu Ming took out a bunch of artifact fragments and gave them to the ball.

The ball was suddenly excited, holding a lot of artifact fragments, banging, happily eating.

Ok?

At this moment, Lu Ming looked in one direction, a strong breath came from that direction, a giant turtle emerged from the void, and endless runes permeated.

"Dandan..."

Lu Ming whispered, stepped out, and appeared above a mansion in the city.

This mansion was formerly a place of residence.

Dandan is striking the realm of Wushen, it has come to Honghuang Universe for many years, has been concentrating on retreat, and finally began to attack the realm of Wushen.

"Brother Lu Ming!"

A figure flashed, and bubbles appeared beside Lu Ming, grabbing Landing Ming's hand, shaking vigorously.

I haven't seen it for a while, and the cultivation of the bubble has also improved a lot. Now it has reached the peak of Heavenly Emperor.

The talent of the bubble, needless to say, is absolutely top-notch, and the cultivation environment of the Honghuang Universe is too good, plus some resources given by Lu Ming, its cultivation is rapid, and it is normal.

But in the past so many years, the bubble looks like it is still six or seven years old, and the growth rate is surprisingly slow.

Uh! Uh! ...

A series of figures, appearing nearby, were all attracted by the breakthrough.

"This old turtle actually broke through faster than us!"

Titan beetle sighed.

On the edge of Qing Cang, several people of the Nine Demon Silkworm also sighed.

They and Dandan, almost time to break through the semi-god realm, but now, they are still some distance away from the Wushen Realm, but Dandan, has already broken through.

boom!

In the Dandan mansion, the breath is stronger. A huge turtle figure, suspended in the air, between heaven and earth, endless energy gathers towards Dandan,

"This guy, the breakthrough is really great!"

Lu Ming's eyes moved.

The dynamics of the breakthroughs are not as good as those of Xie Nianqing and Xie Nianjun, but they are stronger than others.

"The world turtle, originally from the wilderness universe, is really extraordinary!"

At this time, Zulong also appeared not far away.

"The world turtle, from the wilderness universe?"

Lu Ming wondered.

The Titan beetle, the Nine Life Demon Silkworm, Qing Cang and others also looked at Zulong curiously.

"Not bad!"

Zulong nodded and said, "In the beginning, most of the top ten war beasts in the Heaven Realm were variations of various gods and beast races, and their talents are unique, but there are also several kinds, originally from the vast universe, of which the world turtle is one of them. !"

"There is another one, this little one!"

After speaking, Zulong looked at the bubble.

"Is the bubble also from the wilderness universe?"

Lu Ming whispered.

"In addition to the two of them, the Holy Spirit ants also come from the wilderness universe, but unfortunately they have fallen in the ancient war!"

Zulong sighed.

At this moment, the breath of Dandan was even more amazing, like a black hole, madly absorbing the air outside.

"The energy is not enough, go!"

Lu Ming saw at a glance that Dandan broke through and absorbed the energy outside, which was not enough. He immediately waved his hand and 3,000 pieces of Shenjing flew out and flew towards Dandan.

The Divine Crystal shattered and turned into a rolling spirit, which was absorbed by Dandan.

After absorbing these **** crystals, the breath of Dandan reached its peak and then converged again.

"Hahaha, this seat broke through and finally reached the realm of martial arts!"

A rampant voice came out, rising up into the sky, full of divine power, not forever.

He felt full of tremendous power, as if inexhaustible.

He glanced at Lu Ming and others.

"Lu Ming, come and come, compare with me, I will not be surpassed by you, I want to let you know how powerful I am!"

Shouted arrogantly.

"Oh that's fine!"

Lu Ming smiled and stepped out of the air, slap in the palm.

A large purple-gold hand formed, pressing down towards Dandan.

"Ah, Lu Ming, you..."

Lu Ming's face changed as soon as Lu Ming shot, and then he struggled to resist, but it was useless. With his big hand depressed, Dan Dan fell to the ground like a meteorite and stirred up the sky.

"Ah, Lu Ming, you pit me..."

At the next moment, the gray and gray face rushed out, wanting more embarrassment, more embarrassment.

"Hahahahaha..."

The former servants of Titan beetle and others laughed back, tears flowing.

"You'll find me to contest!"

Lu Ming looked innocent.

"You...you perverted..."

It took a long time to hold back this sentence.

He originally thought that he had made a breakthrough, the combat power had skyrocketed, and the magical power he controlled was extraordinary. He could compete with Lu Ming. Now it seems that he is very wrong.

He was determined to pay attention, unless in the future he was absolutely sure that Lu Ming would never contest.

"Old Turtle, break through the Wushen Realm, don't you invite us to drink?"

"Go around, drink and go..."

Qing Cang, Titan Longhorn, and others, took Dandan and asked him to treat him to drink.

As the strength of the people coming out of the heaven and earth became stronger and stronger, everyone felt a lot lighter.

Chapter 2602: Beishangxing

Back at the residence, I saw the ball still holding a bunch of artifact fragments. The material of the artifact fragments is not trivial. The digestion of the ball is naturally not so fast.

Moreover, every time it eats something, it has to stop and digest it.

Lu Ming didn't go to the ball and practiced alone.

In a flash, half a year passed.

The ball completely ate all the artifact fragments purchased by Lu Ming, and he finally evolved again, and the cultivation level was improved again by one step, reaching the triple of virtual **** realm.

However, at this time, Lu Ming had no artifact fragments for it, and he could only take some ordinary metallic refining materials for the ball to eat, while Lu Ming continued to learn and practice.

In this way, five years have passed.

After five years of hard work, Lu Ming has greatly improved in all aspects.

His cultivation practice went one step further and entered the Five-Star Heavenly Emperor. Of course, Shenjing also consumed more than 10,000 yuan.

In addition, his comprehension of Zhanzi Jue is getting deeper and deeper. Now, with the application of Zhanzi Jue, the attack on him has increased in magnitude.

In addition, the probability of triggering double combat power is also getting higher and higher, and it can be successful by triggering twice on average.

However, the cultivation of Zhanzi Juice seems to have encountered a bottleneck again. Lu Ming has been there for a while, and there is no improvement.

"Blinded practice is still not possible, or you need to go out and hone your adventure!"

Lu Ming finished his cultivation and thought to himself.

No bottlenecks are encountered. Quiet hard work is fine, but once a bottleneck is encountered, it is just hard work, and the effect is not very great. The practice is hard, and it takes fighting to trigger inspiration and break through.

This is also the reason why many people often take risks outside. If you hone your adventures outside, you can not only gain opportunities, but also temper yourself and break through the bottleneck.

"Go to Zhengtianjun!"

Lu Ming walked out and headed towards Zheng Tianjun.

When they came to the headquarters of Zhengtianjun, there was no one to stop them. Although Lu Ming and they did not formally join the Zhengtianjun, Zhengtianjun already regarded them as a part.

Zhengtianjun headquarters has a mission hall.

In fact, most forces will have this kind of mission hall.

"This predecessor, what kind of characters have you recently done for the virtual **** realm?"

Lu Ming came to a counter and asked an old man with white hair.

"Recently, the biggest and most important task is to play against Yuanluodian and Xiaoyaozong!"

The white-haired old man said.

"Yuan Luo Dian and Xiaoyaozong?"

Lu Ming frowned slightly.

"Yes, in recent years, Yuan Luo Dian and Xiaoyao Zong joined forces and have been attacking some of the life planets our Zheng Tianjun controls. We, Zheng Tianjun, have always sent masters to fight the two sides, but when they kill Yuan Luo Dian and People from the Xiaoyao Sect will be rewarded!"

The white-haired old man said.

"Yuan Luo Dian and Xiaoyaozong joined forces? Was it caused by the last time I beat the Situ laugh?"

Lu Ming couldn't help thinking.

"Huh, that Xiaoyaozong, I have long wanted to join forces with Yuan Luo Dian to deal with my Zhengtianjun, and now it is shot, little guy, do you want to take this task, take this task, I will register for you!"

Asked the gray-haired old man.

"Okay, then I will take this task!"

Lu Ming nodded, it seems that it was not because he beat Situ Xiao that caused the two parties to attack, but Yuanluodian and Xiaoyaozong had already planned to join forces.

Soon, the old man completed the formalities for Lu Ming.

"Registered for you. Recently, many people took this task. Tomorrow morning, I will come here to join other people, set off together, and go to Beishangxing!"

The old man with white hair gave Lu Ming a black iron token.

Lu Ming took it, and then left here.

One day passed and Lu Ming returned to the mission hall early the next morning.

"Those who go to Beishangxing to carry out their missions will meet here!"

As soon as Lu Ming came, he heard someone shouting in the mission hall.

Lu Ming walked over.

"Is this brother going to the Beishangxing mission?"

Yihe Han looked at Lu Ming.

"Yes!"

Lu Ming took out the black iron token.

"Okay, wait here first, and wait for someone to come, we will start!"

Dahan Road.

Lu Ming nodded and walked aside.

As time passes, more and more people come to meet.

Half an hour later, more than two hundred people have gathered here, all of whom went to Beishangxing to carry out their missions, and they all have a virtual **** realm.

"Okay, people are almost there, let's go!"

That Dahan Dao.

The crowd moved towards the teleportation.

A large teleportation group cannot send so many people at a time, and needs to take turns.

Groups of people went up and stepped into the teleportation group and disappeared into the group.

Soon, it was Lu Ming's turn, and Lu Ming also embarked on the teleportation array. The next moment, he appeared on a flat ground.

"This is... an island!"

As soon as Lu Ming appeared, he heard the sound of waves slamming everywhere, and the salty sea breeze blowing, refreshing.

Lu Ming rose into the sky, looked around, and found that this is indeed an island, the island is not big, at a glance, you can see the boundless ocean.

Soon, everyone passed the teleportation array.

"You come with me, go to Qixing Island first, and assign specific tasks, and, while I am on the road, I will explain to you the situation of Beishangxing now!"

Dahan Road.

The crowd followed the big man one after another, flew out of the island, and flew into the vast sea.

The big man's name is Pan Jiang, who has been guarding the Beishangxing this time. This time, he specially picked them up.

On the way, Pan Jiang introduced the current situation of Beishangxing.

The situation of Beishangxing is quite special, and it is located at the junction of Zhengtianjun and Yuanluo Hall. Therefore, Beishangxing has become an indisputable place for the two forces.

Therefore, Beishangxing, half occupied by Zhengtianjun and Yuanluo Hall respectively.

The area of the mainland and the ocean of the Northern Business Star each account for 50%.

Zheng Tianjun, occupying the oceans and marine islands of Beishangxing, develops the resources in the ocean.

The Yuanluo Temple, after occupying the land part of the Northern Shangxing, finished the resources on the land.

The two sides often fight each other, and often there will be masters of the Zhengtian Army, sneaking into the mainland of the Northern Business Star, secretly hunting and killing the people of Yuanluo Temple, and seizing resources on the mainland.

Or, some people from Yuanluo Temple secretly entered the marine islands and hunted the masters of Zheng Tianjun.

In short, the two sides have never killed each other, but in the past two years, Yuanluo Palace has invested more power in the Northern Business Star, and the two sides have been fighting more frequently.

Zheng Tianjun has also been increasing the strength of the Northern Business Star.

Qixing Island is the headquarters of Zhengtianjun in Beishangxing.

Leaping over the vast ocean, along the way, passing many islands, three days later, they finally came to Qixing Island.

Qixing Island is so huge that it is an island, but in fact it is no different from the mainland.

At least in Lu Ming's view, the area of Qixing Island is definitely not smaller than the Tianqing Tianyu.

On Qixing Island, there are many people coming and going, all of them are masters. At a glance, there are no fewer than thousands of people, all of whom are powerful in the virtual **** realm.

Lu Ming secretly panicked, only a seven-star island, there are so many masters, the strength of the entire Zhengtian Army can be imagined.

Chapter 2603: Evil God Race? Three Eyes!

You know, Zheng Tianjun occupies more than a dozen life planets, and there are some planets where no creatures live, but there are also strong guards who are exploiting resources.

In the end, how many strong men of the virtual **** realm are there in the entire Zhengtian Army?

The entire riot galaxy is not weaker than Zhengtianjun, or stronger than Zhengtianjun. There are not one thousand but eight hundred.

It's hard to count how many powerful imaginary gods there are in the entire riot galaxy.

No wonder, Honghuang Universe is also called God Realm, the world of gods!

They stayed in an open space on Qixing Island.

"You guys are waiting for me here, I'll ask, where do we stay!"

After Pan Jiang finished speaking, he flew into a hall.

Soon, Pan Jiang came out of the hall and said, "The island we are going to station is Chen Jindao. Come with me!"

Pan Jiang first flew in one direction, and everyone followed.

On the way, Pan Jiang introduced Chen Jindao again.

Chen Jindao, in the north of Qixing Island, is a mineral vein island.

On the island, there is a large vein of gold deposits.

Chen Jin, a metal refiner metal, although not very precious or rare, has a very wide range of uses.

Generally, when refining the inferior artifact, a part of Chen Jin will be added as an auxiliary material to improve the toughness of the artifact. Therefore, Chen Jindao will often be attacked by Yuan Luo Temple.

Chen Jindao, originally had the strong guard of six hundred virtual **** realms to guard, but now, the six hundred virtual **** realms are getting a little harder to defend, so they need reinforcements.

They are the reinforcements of Chen Jindao.

One day later, they came to Chen Jindao.

Chen Jindao is not very big. There is a large ore vein above it. There are cave houses around it. In each cave house, there are masters of the virtual **** realm.

In the ore vein, there are tens of thousands of creatures below the virtual **** realm, and the Chen gold ore vein is mined day and night.

When Lu Ming arrived, they were naturally received and assigned to Dongfu.

Soon, Lu Ming was assigned to a cave house, which was quite spacious and full of energy.

Lu Ming just had to sit down and take a rest.

Boom! Boom! Boom!

Outside, suddenly the sound of drums came.

"Enemies, enemies..."

Shouted all over the island.

"What a coincidence..."

Lu Ming was also a little speechless. As soon as they arrived, they encountered an enemy attack.

Without time to think about it, Lu Ming flashed and rushed out of the cave.

boom! boom! boom!

call out! call out! call out!

In the air of the island, there was a deafening roar, swordsmanship, shining sky, various colors of divine power, collision and interweaving in the air, many people have been fighting together fiercely.

"kill!"

Lu Ming rose to the sky and killed a big-mouthed man.

Each of them came here with a black iron token on their body. The black iron token is both a task token and an identity token. It is bound to their breath of life. Once they die, the black iron token will also broken.

They can distinguish each other's identity through this breath of black iron tokens. In this way, it is easy to recognize whether they are the people of Yuanluo Palace.

"Boy, a virtual world, dare to do it with me, I eat you!"

The man with wide-mouthed fangs exposed his fierce eyes and slammed toward the landing, struck out with a knife, the momentum was quite weak, and he had the double cultivation of the virtual **** realm.

boom!

Lu Ming directly set off the double combat power of Zhanzi Jue, and at the same time took out the meteor gun and stabbed it with one shot.

The meteor gun, as if turned into a meteor, passed away in a flash, and the big-browed fang's eyebrow shape was directly penetrated and fell on the spot.

"kill!"

Holding a meteor gun, Lu Ming killed another master in Yuanluo Temple. The master had a threefold cultivation of the virtual **** realm, but he still didn't catch Lu Ming's shot and was stabbed by Lu Ming.

Today, Lu Ming's cultivation base has broken through to the Five-Star Heavenly Emperor, and his combat power has improved again.

In Lu Ming's four-star Heavenly Emperor, coupled with double combat power, he was able to contend with a powerful four-layered virtual realm.

Now, with Lu Ming's cultivation practice, coupled with the double combat power of the war character tactics, Lu Ming is enough to kill the fourfold existence of the virtual **** realm.

Of course, if it is against the strong five-fold power of the virtual **** realm, I am afraid it is not an opponent.

The main reason is that every time Heaven Emperor Realm upgrades a rehabilitative act, the span of improvement is not as large as that of the False God Realm.

In order to fight against the five-fold existence of the False God Realm, Lu Ming probably needs to break through to the Six Star Heavenly Emperor to be able to do so.

"Boy, you are dead!"

Seeing Lu Ming kill two people in a row, a big purple-skinned man stared at Lu Ming and killed at the landing.

Hiss!

This purple-skinned man, using a pair of war halberds, wields and is intimidating.

"The four peaks of the virtual **** realm, come well!"

Lu Ming's eyes lit up, waving a meteor gun, and killed the past.

The spear shook, and a splendid spear burst out, fighting with the purple-skinned man.

when! when! ...

The two collided in a frantic fight, and immediately exchanged dozens of moves.

call...

The purple-skinned big man could not resist after all, was suppressed by Lu Ming, and retreated.

"how is this possible?"

The purple-skinned man was shocked.

Lu Ming, but only for the cultivation of the virtual realm, how can he have such a strong combat power, but he is the four peaks of the virtual **** realm, he is actually not Lu Ming's opponent, but instead is suppressed by Lu Ming, it is like a fantasy. general.

The purple-skinned man broke out frantically, and his halberd waved wildly, fighting with Lu Ming.

"Not enough, not strong enough!"

Lu Ming whispered in his heart, his spear kept on, and the other party was forced to back away.

The existence of the four levels of the False God Realm can't bring him too much pressure, and his training has limited effect.

bump!

After a few more battles, the opponent was hit by Lu Ming's spear, his body exploded, and he vomited blood.

"dead!"

Lu Ming opened his mouth indifferently, and shot a piercing eyebrow at the purple-skinned big man's eyebrow. The speed was incredible.

"not good!"

The purple-skinned man was horrified and retreated crazy, but the speed of his retreat couldn't keep up with the speed of Lu Ming's retreat.

Uh!

At this moment, a snow-white knife flashed by, almost to the extreme, and accurately cut on Lu Ming's spear.

Buzz!

The spear shook madly, with a terrible blade, and rushed towards Lu Ming's arm along Lu Ming's spear. Lu Ming felt a tingling pain in his palm and was about to be cut apart.

Lu Ming exploded madly to dominate the power, only to block the sword.

At the next moment, in front of the purple-skinned big man, there appeared an old man with a thin figure and purple hair, but three eyes in his heart.

"Evil God Race!"

Lu Ming was shocked.

This old man is very similar to the Evil God Clan in Evil God Realm.

Most likely, it is the same race as the alien ancestor.

Lu Ming consulted a lot of information in Zhengtianjun and knew that the Honghuang Universe had a race called the Three-Eyed Clan, and the Evil God Clan, which probably belonged to the Three-Eye Clan.

Chapter 2604: Serve the ball

This man is obviously a member of the three-eyed tribe, but his strength is greater than that of the alien ancestor, I do not know how many times stronger.

"Five levels of False God Realm!"

Lu Ming whispered.

"The way to dominate, boy, it seems that you are the ants that escaped from that small world, the people of my family in that small world have died in your hands. Today, I will put you down!"

The three-eyed old man's eyes were cold, he stepped out, and the power was surging. The war knife in his hand shook, forming a terrible sword gas, and pressed toward the landing.

"bring it on!"

Lu Ming's eyes showed a strong fighting intention.

The five levels of virtual **** realm, such a strong man, can bring him strong pressure.

In Lu Ming's body, the power of **** and the power of the world are running crazy, the meteor gun glows, and the combat power is raised to the extreme.

"kill!"

The three-eyed elder shouted, the battle sword was pale, and the void was cut, and it was almost to the extreme, and it came to the landing.

Lu Ming waved his spear and greeted him.

when! when! when! ...

In an instant, the two collided a dozen strokes, Lu Ming felt that the other's knife strength, like a row of mountains and seas, a wave of waves came to him, powerful and amazing.

The long gun vibrated and his arm became numb. Lu Ming was retreated by this force.

"Awesome, there are five levels of False God Realm. Sure enough, I am not an opponent!"

Lu Ming turned a thought in his heart.

Before, he estimated his own strength. Most of the five levels of False God Realm were not opponents. At this time, he realized that the strength of the five-fold existence of False God Realm exceeded his expectations.

In the False God Realm, the span of each weight is very large, the more upward, the greater the span.

However, this inspired his fighting spirit even more.

"Come again!"

Lu Ming stepped into the void, and his body and spear merged into a lance, killing the three-eyed elder.

"This kid..."

A trio of shocks flashed in the eyes of the three-eyed elders. The killing in his heart was even stronger. The sword of war broke out and killed Lu Ming.

The two continued to fight together, but Lu Ming was not an opponent at all. He was suppressed by the three-eyed elders and kept retreating, but Lu Ming's toughness was amazing, and he blocked the three-eyed elders. The other party wanted to kill him And it's not that easy.

In a blink of an eye, the two again fought dozens of moves.

"Happy, happy..."

Lu Ming's eyes shined.

In his bones, he was still belligerent, eager to risk fighting, at this moment, his blood was boiling again.

"This kid is so terrifying, it must be removed, it must be removed!"

The more he beats, the more terrified the three-eyed elder is.

Lu Ming is too strong, but it only dissolves the virtual realm. Actually, he has such a strong combat strength. Not to mention seeing it, he has never heard of it.

If such a combat power becomes a god, will it still be enough?

"Quick, you guys shot with me to kill this son!"

The three-eyed **** clan transmits sounds to the masters of Yuanluo Palace around them.

At this moment, the entire Chen gold mine is over the sky, fighting fiercely.

There are six or seven hundred people in Yuanluo Dian attacking. They are masters of the False God Realm, and masters of the Zhengtian Army.

There are many people fighting around Lu Ming and the three-eyed **** clan elders. Naturally, some powerful people noticed Lu Ming.

Suddenly, the master of Yuan Luo Dian shook off his opponent and rushed to Lu Ming.

The master of Zhengtianjun wants to block, but for a while, he can't catch up.

For a time, at least three masters rushed to Lu Ming.

The three are the fivefold existence of the virtual **** realm.

boom! boom! boom!

The five-fold existence of the three virtual **** realms was shot at the same time. In addition, it included the purple-skinned man who was suppressed by Lu Ming.

With so many masters shooting together, Lu Ming is absolutely unstoppable and will be killed instantly.

"Ball..."

Lu Ming waved his hand and kept a bracelet on his wrist and flew out.

This bracelet is naturally made of balls.

The ball flew out, swelled sharply, and the liquid metal-like body wriggled into a huge shield, blocking Lu Ming in front of him.

Boom! Boom! ...

Roaring sounded, all attacks were blocked, Lu Ming did nothing.

Then, the ball's body moved into a metal ball with a diameter of ten meters, and the head was smashed towards the purple-skinned man.

Poof!

The purple-skinned big man's body, like a big watermelon, was smashed directly by the ball and fell to the spot.

The ball is now promoted to the triple level of False God Realm, and its combat power has skyrocketed.

You should know that when the ball was first in the virtual **** realm, it could contend with the fourfold existence of a virtual **** realm. Now, even if it faces the strong six-fold virtual **** realm, it is not virtual.

The purple-skinned big man is just four levels of False God Realm, which naturally can't stop the ball from hitting.

After killing the purple-skinned man, the ball bounced and hit the five powerful players in the virtual **** realm.

bump!

The strong man was directly smashed and spit blood.

"What monster is this..."

Others were horrified. This metal-like ball, unlike an artifact, was astonishingly powerful. A five-fold existence of a virtual **** realm was retreated by the vomiting blood of a single stroke. It was seriously injured and the power was too terrifying.

Uh!

The metal ball hit the old man of the three-eyed protoss again.

"Join together, join hands!"

The old man of the Three-eyed Protoss shouted.

He teamed up with three other masters of the five virtual imaginary realms to make the strongest blow and collide with the ball.

boom!

With a violent roar, the three-eye **** clan elders still have three imaginary gods and fivefolds of existence. At the same time, their bodies violently shaken back and forth, and the corners of their lips overflowed with blood.

Qiuqiu's current strength is comparable to the sixfold of the virtual **** realm.

A virtual **** realm with six layers is much stronger than a virtual **** realm with five layers. Even if the three-eye **** clan four people join forces, they can't bear the ball's attack.

"Ball, go on!"

Lu Ming greeted the ball, at the same time, he also rushed over, shot with all his strength, the attack continued to blast out, specifically against the injured virtual **** five strong.

The ball also rushed out, bulging into a metal ball with a diameter of ten meters, and bombarded toward the opponent continuously.

At this moment, several masters of Zheng Tianjun also arrived, killing the three-eye **** clan elders and others.

In this way, they couldn't stop it. Suddenly, four of the three-eyed Protoss elders were injured, especially the one who had been hit by the ball before, the injury was more serious.

"Ball, smash!"

Lu Ming passed the ball to the ball.

boom!

The ball stared at the injured existence and smashed it hard.

The other party was already injured. Wherever he could stop it, his half body smashed by the blow burst and almost fell directly.

Will Lu Ming miss this opportunity, the meteor gun pierced through, completely killed the person, dominated the volume, collected the person's storage ring, and of course the artifact used by the other party, was also by Lu Naruto put away.

The other party is a five-character figure of the False God Realm, and his net worth must be rich. How can he miss it?

"Rewind, rewind!"

The trio of three-eyed tribe saw that one person had been killed. They were terrified and frightened.

Chapter 2605: To be promoted again

However, Lu Ming, how can they easily let go of each other.

Lu Ming teamed up with several strong soldiers of the Zhengtian Army to entangle three of the three-eye **** clan elders.

"Ball, smash!"

Lu Ming stared at the old man with three eyes, greeted the ball and smashed his head up.

"Old man fights with you!"

The three-eyed old man roared, and the sword in his hand was madly cut towards the ball.

On the ball's rounded body, a large mouth with fangs suddenly appeared, biting it down and biting it on the sword of the three-eyed elder.

Click!

The sword of the three-eyed elder was directly bitten off.

The three-eyed old man was stupid, dumbfounded, completely stunned, he felt completely messy.

His battle sword, but the fifth-order inferior artifact, is extremely hard. Where can it be easily broken?

However, now he was bitten off by the ball, he really looked dumbfounded!

At this time, Lu Ming seized the opportunity and shot with a shot, directly piercing the eyebrows of the old man of the Three Eyes and killing him.

With a wave of his hands, he put away the storage ring of the three-eyed elder clan.

Click, click!

Ball opened his mouth wide, swallowed the opponent's sword, swallowed into the mouth in twos and twos, chewed satisfactorily, and clicked loudly.

Even the masters of Zheng Tianjun were a little stunned. The other two masters of Yuanluo Temple seized the opportunity and rushed out of their siege.

"Retreat, retreat!"

At this moment, in the sky, a voice spread throughout the audience.

It was a terrifying existence in Yuanluo Temple. The breath exuded from his body was astonishing and unfathomable. Lu Ming estimated that he was a powerful player with nine levels of virtual **** realm.

However, there are also characters of this rank on the side of Zhengtianjun.

The two had been fighting in the past, and at this time they were separated, and the people in Yuanluo Hall gave the retreat order.

Uh! Uh!

The master of Yuanluo Hall retreated, turned into a rainbow of light, disappearing instantly without a trace.

Zheng Tianjun didn't pursue, they didn't pursue it, they still understood, and their task was to guard Chen Jindao.

The people in Yuanluo Temple retreated, Zheng Tianjun counted the casualties, cleaned the battlefield, and returned to Dongfu one by one.

During a war, some people were injured and some people suffered heavy losses and all needed to be recovered.

Lu Ming also returned to the Dong Mansion, and then took out some **** crystals and began to recover.

The double combat power that triggers the war character tactics is very serious for the consumption of world power and master power.

Half an hour later, Lu Ming has completely recovered.

Then, in his hand, a piece of black iron token appeared, it was the mission token.

At this moment, the dark iron token radiates a touch of light.

Lu Ming guessed that this was the only master who killed Yuanluo Hall, but taking this token back, the people in the mission hall should be able to know Lu Ming's record through some method and give rewards.

After collecting the tokens, Lu Ming took out several storage rings.

These storage rings were all obtained by Lu Ming before he beheaded his opponent.

Among them, two of the five powerhouses of False God Realm were left, and Lu Ming looked forward to it and began to count them.

After an inventory, Lu Ming smiled shut his mouth.

Shenjing, there are 60,000 pieces.

Plus the previous, the crystal on Lu Ming's body is approaching 100,000.

In addition, there are dozens of artifacts of various levels.

The highest artifact is a fifth-order inferior artifact. Others are all third-order and fourth-order artifacts, which add up to great value.

Lu Ming threw two third-order inferior artifacts to the ball.

The ball catches up and eats quickly.

Lu Ming smiled and closed his eyes to practice.

In the consciousness of the sea, the picture of Jing Yu opened, filled with a strong sense of domination.

Lu Ming calmly realized.

This practice is ten days, and these ten days are very calm. Yuanluo Hall has not attacked.

After finishing the training, Lu Ming got up.

"Huh? What about the ball guy?"

Lu Ming glanced and found no trace of the ball.

Lu Ming glanced inside the cave house, and soon he discovered it.

This cave house, except for the holes, is closed on all four sides. They are all special rocks of the veins here, which are extremely hard.

But now, in the depths of Dongfu, a cave appeared.

Looking at the traces, it was clearly gnawed out, and there were teeth on both sides of the cave.

"It's not gnawing out of it!"

There was a movement in Lu Ming's heart, and then his musculoskeletal began to wriggle, and finally, his whole body became smaller and rushed into the cave.

The cave is very long. Lu Ming walked all the way for thousands of feet before seeing the ball.

The ball guy is opening his mouth wide and eating the rocks around.

The rocks here are actually Chen gold deposits.

Chen Gold Mine is mixed with rocks and becomes extremely hard.

Normally, if you want to mine Chen Jin, you must extract Chen Jin from the rock mine, and the process is complicated.

However, the ball directly swallowed the vein directly into the mouth, and after a while, some powder impurities were sprayed out.

"This guy, isn't it Chen Chen who is absorbing it, is this okay?"

Lu Ming was a little surprised.

The ball found Lu Ming, glanced at Lu Ming, and continued to eat a bite. It ate very quickly, and soon ate a huge cave in this area.

Lu Ming looked interestingly.

After eating for a long time, the volume of the ball swelled for a full circle before it stopped. It rolled like a leather ball to the side, and also had a full hiccup, and then it was motionless.

Obviously, I ate too much and began to digest.

"This guy..."

Lu Ming smiled and didn't care.

Anyway, this vein is huge. The ball steals some food and should not be discovered.

Lu Ming returned to Dong Fuzhong and continued to practice. Occasionally, Lu Ming would walk out of Dong Fu and inquire about the situation outside.

During this time, no one from Yuanluodian had attacked Chen Jindao.

A few days later, a news came.

Yuanluodian sent a large number of masters to attack Qixing Island.

"Is the real purpose of Yuan Luo Temple is Qixing Island? Before attacking Chen Jindao, just want to cover it?"

"Perhaps, they want to break through the Seven Star Island, completely push us to the heavenly army, drive out the Northern Business Star, and monopolize the Northern Business Star!"

"Most likely!"

Many people are guessing.

With the passage of time, Yuanluodian attacked Qixing Island more and more frequently, and the pressure on Qixing Island increased greatly, and some experts from the surrounding islands began to draw reinforcements from the past.

Chen Jindao was originally guarded by about 800 people, but was also transferred to 400 people, leaving 400 people.

Lu Ming was not transferred away and still sat on Chen Jindao.

Soon, Lu Ming came to Chen Jindao for a month.

On this day, Lu Ming felt that there was a wave of fluctuations in the channel that the ball hit.

Lu Ming rushed into the passage with a move.

Deep in the passage, a huge underground space has been gnawed by the ball, and a lot of mineral veins have been swallowed by the ball.

At this moment, the ball exudes a glory.

It will be promoted again.

Chapter 2606: Here again

The ball is about to advance again!

During this time, it was here, devouring a large amount of Chen gold veins, although Chen Jin is not very precious, but a large amount!

The underground space in this area was swallowed by the ball into a huge underground hole. I don't know how much Chen Jin was swallowed.

The surface of the ball is filled with brilliance, it will swell for a while and shrink for a while, so it will stabilize for a while.

Succeeded!

Lu Ming felt that the ball had reached the four levels of the virtual **** realm!

This speed of progress, even Lu Ming was very surprised.

At the time of getting the ball on Wan Venus, it was only the False God, and it was only a few years before it reached the False God.

It is not so easy to improve the virtual **** realm, it is not comparable to the heaven emperor realm, but the ball seems to have no bottleneck at all, as long as there are precious metals, it can continue to advance.

"Honghuang Universe is really wonderful, this kind of creatures are there, but the more abnormal you are, the better!"

Lu Ming smiled and couldn't close his mouth.

The ball bounced a few times in the air, flew to Lu Ming's side, shrank quickly, and turned into a bracelet, wrapped around Lu Ming's hand.

Lu Ming smiled and was planning to go out to inquire about the news.

Boom! Boom! Boom! ...

Suddenly, a fierce drum of war rang, and even Dongfu shook.

"Enemies!"

Outside, a roar came.

Uh!

Without any hesitation, Lu Ming rushed out of the cave directly.

"so many people!"

Lu Ming was shocked when he rushed out of the cave.

Above the ore veins, silhouettes flew in vertical and horizontal directions, exhaling powerful breaths one by one.

The masters of Yuanluo Hall are all masters of Yuanluo Hall. This time, there are so many masters from Yuanluo Hall, at least thousands of them.

And now, the master of the Chen gold mine is only about 400 people.

"Kill! Kill! Kill!"

The master of Yuanluo Temple, densely packed, swooped down and killed the people of Zheng Tianjun.

puff! puff!

The blood was splattering, and immediately, some masters of the Zhengtian Army were killed!

There are too many people in Yuanluodian, almost three times the number of Zhengtianjun. Two or three people joined forces to deal with Zhengtianjun alone.

"kill!"

As soon as Lu Ming rushed out, two people killed him.

However, these two people, a virtual **** realm triple, and a virtual **** realm quadruple, Lu Ming has no fear at all.

Lu Ming rushed straight over, and the meteor gun appeared, spurting out.

call out! call out!

Two dazzling guns burst through the hole.

puff!

The triple existence of the False God Realm was directly pierced by the gun, and fell on the spot. Although the master of the False God Realm quadruple was blocked, the figure was also retreating.

"So strong!"

The fourfold existence of the imaginary **** revealed shock in his eyes.

He used to see Lu Ming was just a virtual reality, and thought he could kill it easily, but unexpectedly, he kicked the iron plate.

"kill!"

After Lu Ming repulsed the man, the gun continued to kill him, the long gun vibrated, and the guns burst out through the hole.

The other party tried hard to resist, but it was still invincible.

"That kid is still there, be sure to kill him, kill!"

At this time, not far away, a few people flew, staring at the land screaming.

"It's them..."

Lu Ming moved.

Two of them were the last two existences of the five gods who escaped from him and the ball player last time. This time, the two came with two other masters to kill Lu Ming.

The other two have a terrible breath, which is stronger than the five-fold imaginary god.

The sixfold existence of the False God.

"This person is talented and must be killed!"

One of them stared deadly.

"Today, he will definitely die!"

There is a sixfold existence of a false **** realm.

The four of them slammed towards the landing with all their strength. Before they arrived, they attacked Lu Ming one by one.

Lu Ming didn't make a hard connection, his figure retreated suddenly.

"Where to go!"

The five people, chasing after each other, approached Lu Ming as fast as possible.

"Ball, smash!"

Lu Ming waved his hand and the ball flew out directly into a large metal ball with a diameter of ten meters, facing the five-fold existence of a virtual **** realm, and smashed his head with his face covered.

"Not good!~"

The existence of the five-fold imaginary **** knew the strength of the ball, and quickly backed away, avoiding the ball's attack.

"Be careful, this metal ball has a sixfold attack power of the False God!"

A five-fold existence reminder of False God Realm.

"It's okay, I'll block this metal ball, you go to kill the kid!"

A man with a six-fold imaginary realm, holding a steel whip, rushed towards the ball, and the whip was pulled out. The space roared, and the power was extremely amazing.

The ball also hit the person in the past.

boom!

With a terrible roar, the result was that the big man with six layers of False God Realm vomited blood and retreated.

Now, the ball has been promoted, reaching the four levels of False God Realm, and its combat power has skyrocketed. Where is the existence of a six-fold imaginary God Realm comparable.

"how come?"

The other three people's faces changed dramatically, with an incredible expression.

They wanted to rush to kill Lu Ming, they didn't guard against metal **** at all.

boom!

After the ball struck the six-pronged Dahan of the False God Realm, he directly smashed into the five-fold existence of the two False God Realms.

The two had no precautions and were directly hit. After two screams, they fell directly on the spot.

"Not good, retreat!"

The sixfold existence of the False God Realm, his face changed wildly, receded at a rapid speed, and pulled away from the ball.

"Retreat, retreat!"

At this moment, a roar came from high altitude, and it was a strong player of the Nine Heavy Forces of the True God's Virtual God Realm.

On the side of Zheng Tianjun, they are not opponents of Yuanluo Palace at all. The number of people differs too much. As soon as they fight, a large number of powerful men will fall.

"Want to leave, today, none of you can leave!"

Indifferent voices sounded, and there were several terrible figures, killing the strong man of the ninth heavy **** of Zheng Tianjun.

boom!

The two sides collided together.

The figures in Yuanluo Hall are all nine-fold cultivation of the virtual **** realm. There are three people in total.

Three hit one, no suspense.

It was just a few tricks. The strong man of the Zhengtian Army gave an unwilling roar and was killed in the air.

"Kill, don't stay!"

A master of Yuanluodian, who is the ninth level of the false god, gave orders.

"Rush, rush out!"

"Combine and rush out!"

On the side of Zheng Tianjun, some people shouted, and the remaining three hundred people rushed in one direction and gathered together.

"Ball, go!"

Lu Ming waved his hand to greet the ball and rushed towards the crowd.

Now, only by joining forces together can it be possible to live alive, otherwise, you will die!

Lu Ming and the ball rushed towards the crowd of Zheng Tianjun.

"If you kill the kid, you must kill him!"

The six heroes of the False God Realm who had been injured by the ball before shouted and killed like a sword.

call out!

Then, a terrible knife slashed toward the landing.

Chapter 2607: Tenjin Tofu

Lu Ming was about to fly to the crowd of Zheng Tianjun, and a terrible blade of light hit him halfway.

Daoguang was terrible, and before he arrived, Lu Ming jumped quickly in his heart and stood upside down.

Dangerous, extremely dangerous.

This is definitely an extremely terrible existence shot, the strength far exceeds the sixth level of the virtual **** realm, and even more than the seventh level of the virtual **** realm.

There are terrible characters, staring at Lu Ming.

"not good!"

Lu Ming could only turn around for a year, and it was too late to defend.

At this moment, the ball appeared on the left side of Lu Ming, turned into a shield and blocked there.

boom!

The blade of light cut into the ball and directly penetrated the shield formed by the ball.

However, the ball has already crotched most of the power of the knife light, and the remaining power is very limited, and the speed is greatly reduced. Daoguang.

"Ball..."

Lu Ming's heart tightened, the ball was penetrated, it would be alright.

At the next moment, Lu Ming was relieved.

The ball's body turned into a ball again, and as soon as it jumped, it returned to Lu Ming's shoulder, as if nothing happened.

"This guy, really good..."

Lu Ming sighed in his heart, and then speeded up, rushing towards the people of Zheng Tianjun.

"There is such a treasure..."

Not far away, a silver-haired old man, with intense eyes, stared at the ball.

This silver-haired old man, holding a silver war knife, was the one he just cut.

He moved quickly and rushed toward the landing.

At this time, Lu Ming had merged with Zheng Tianjun's people.

Nearly three hundred people gathered together, like a sharp knife, striking outward with all their strength.

"Kill, kill, kill!"

Around them, more than a thousand people from Luo Dian surrounded Lu Ming and kept attacking, terrifying attacks, killing them.

Lu Ming was also in the crowd, wielding a spear, resisting the surrounding attacks.

"Boy, die!"

The silver-haired old man stared at Lu Ming, and the silver sword continued to slash out towards Lu Ming.

Fortunately, the ball turned into a shield, protecting Lu Ming's vital point, which only blocked the opponent's attack, otherwise, Lu Ming was mostly dangerous.

Rush! Rush! Rush!

The people of the Zhengtian Army are desperately struck by shock, and some people have even burned their divine power.

Although the people of the Zhengtian Army kept fighting to death, it was effective. After a while, they finally rushed out of the enclosure and flew towards the ocean.

"Don't chase it, that matter!"

A powerhouse with nine levels of virtual **** realm stopped others and then came to the center of the Chen gold mine.

"It should be here, everyone gathers their strength and breaks this mine!"

Commanded by a strong man with nine levels of virtual **** realm.

"Yes!"

Thousands of people in the Yuanluo Temple converged, and then shot at the same time, attacking one after another, slamming into the vein of Chen Jin.

boom! boom! ...

The Chen gold veins were roaring violently, with gravel splashing, and a large number of veins were struck and scattered all over the place.

However, the people in Yuanluo Palace did not take a glance. Their purpose did not seem to be the Chen gold deposit.

Lu Ming and others, flying at speed, have been flying out for more than 100,000 miles, and found that the people in Yuanluo Temple did not come after, and then slowed down.

"Damn!"

"hateful!"

Many people roared.

This time, the loss was too great.

There are more than 400 people, but only about 200 people are left. The loss is heavy.

This time, they did not expect that Yuan Luo Dian would have concentrated on attacking Qixing Island, how could he suddenly mobilize such a strong force to attack Chen Jin's veins.

"Tell the news to Qixing Island, this hatred must be reported!"

Someone gritted his teeth and then passed the news to Qixing Island.

boom!

At this moment, a beam of light rose into the sky in the distance, straight above the clouds.

"That is..."

Everyone was shocked to look in that direction, which was clearly the direction of the Chen gold deposit.

"It's from the Chen gold mine, what's going on?"

Some people are very confused.

"Such an amazing vision, we are far away from 100,000 miles, we can clearly see that there must be a strange treasure, or a strong man cave, or what remains are born!"

Someone guessed.

"It must be this way. I understand that Yuanluodian must have known the news. Their original purpose was for the Chen Gold Mine Vessel. It was an illusion to attack Qixing Island before!"

Someone shouted.

Everyone's heart moved, perhaps, really!

The people in Yuanluo Temple attacked Qixing Island before, maybe it was really an illusion, confusing them, not only can it contain the power on Qixing Island, but also attract some masters of Chen Jin's

veins, and then Yuan Luodian concentrated their power and occupied Chen Jin in one fell swoop. Mineral veins.

"No, let's report this matter, and report it to the leader!"

Someone will immediately pass the news to Yuyin.

Then they decided to send someone close to Chen Jin's vein to check the news.

At this moment, the Chen gold deposit has completely changed.

The ore veins disappeared. Below the ore veins, a hole was exposed. In the hole, a beam of light burst through the sky and broke through the sky. It took half an hour to disappear.

"Tenshen Cave Mansion, hahaha, there is really a Tenjin Cave Mansion, quickly, pass the news to the Hall Master!"

A big man laughed wildly.

Others, full of smiles, flashed fiery light in their eyes.

Tenjin Cave House, this is the cave house left by Tenjin, it is hard to imagine.

The riotous galaxy, the vast expanse, the innumerable cultivators, the gods who reach the virtual **** realm, do not know how many.

However, there are only a handful in history who can cultivate to the gods.

Today, the known **** is the most powerful force in the riotous galaxy, the patriarch of the Yunfeng Pavilion.

That is the only celestial realm known by the rioting galaxy.

One can imagine how amazing the value of a cave house left by a god.

Even if the **** left some useless things in the cave, for others, it is the supreme treasure.

The people of Yuanluo Palace immediately spread the news, not only to Yuanluodian Palace Master, but also to gather more Yuanluodian strongmen to come together.

Soon after, in the sky, a group of strong men flew, all masters of Yuanluo Temple, they came to meet and enhance the strength here.

And a hundred thousand miles away, there are also a group of people from the heavenly army, meeting with Lu Ming.

Before they heard the news, they told each other where they were.

"what happened?"

Later Zheng Tianjun, someone asked.

"Chen Gold Mine was attacked by Yuan Luo Dian. They dispatched more than a thousand False Gods. We were killed more than 200 people. Only these people escaped!"

Someone explained that it was full of frustration.

"Damn Yuanluo Hall!"

Later, the Zhengtian Army, someone roared.

"Why did Yuanluodian sneak into the Chen gold ore vein?"

Someone asked.

"There should be strange treasures on Chen Jindao..."

One person just explained that there were several figures flying in the distance. It was the same people who had sent Chen Jin's veins to observe.

"Chen Gold Mine vein, a cave mansion has appeared, and now there are a large number of Yuanluo Palace strongmen gathered!"

One person who went to inquire about the news.

Chapter 2608: The mouth is so good

"What? Dongfu, as it turns out, must be a strong man!"

"The people of Yuanluo Hall must be for this cave house, hum, they do not want to monopolize, we are here to wait for the leader to come, and then kill back!"

"it is good!"

He was shocked to hear that there was a strong man's cave in Chen Jin's vein.

They have been digging the Chen gold vein for so many years and have not found it.

Immediately, the people of the Heavenly Army waited here.

Chen Gold Mine!

"You guys, leave some to guard outside, others, come in with me and explore first!"

A burly old man ordered.

"Yes!"

Everyone bowed their heads and looked at the old man with awe in their eyes.

Because, this old man, but a master at Yuanluo Hall, a terrible strongman of the true **** level.

Every true god, in the Yuanluo Hall, is a top power, hegemony, and has the power to kill and kill.

Immediately, the people of Yuanluo Temple, under the arrangement of the old man, left some people to stay outside the cave house, and others, following the old man, went down to the cave house.

...

One hundred thousand miles away, Lu Ming was waiting quietly, and Lu Ming was sitting on the sea and resting.

Click, click!

At this moment, the ball showed a big mouth, biting hard, a pair of eyes, staring straight at the direction of the Chen gold mine veins.

"What do you want to do?"

Lu Ming asked.

Click, click!

The ball's big mouth kept biting, teeth collided, banged loudly, and even extended a tentacle, pointing in the direction of Chen Jin's veins, revealing the color of longing.

"Do you want to go to the Chen Gold Mine?"

Lu Ming asked.

Click, click!

The ball's tumbling body rolled a few times.

"Okay, I'll go with you, but be careful!"

Lu Ming groaned.

He was also quite curious in his heart, and wanted to see the cave house of the Chen gold mine. What happened?

The ball turned into a bracelet and was carried on Lu Ming's hand. Lu Ming didn't tell anyone else. He walked alone towards the vein of Chen Jin.

A distance of one hundred thousand miles will arrive in a while.

"So many masters!"

Approaching the Chen gold ore vein for a distance, Lu Ming discovered that on Chen Jin Island, the number of Yuanluodian strong men was staggering, at least thousands.

"So many masters, it is impossible to get close to the front, what should I do?"

"Oh, from the sea..."

Lu Ming saw it, then entered the sea, dived all the way, dived into a distance of thousands of meters, and then approached Chen Jindao.

In the sea, there are no Yuanluodian guards, because the entire Chen Jindao, almost all of the Chen Jin deposit, is extremely hard, and they are not worried.

Soon, Lu Ming came to the bottom of Chen Jindao.

After arriving here, the ball flew out directly, opened his mouth wide, and bite at Chen Jindao.

Hula!

The speed of the ball was very fast. Soon, Chen Jindao was bitten out of a large hole, and then recommended all the way inside, and a passage quickly appeared.

Lu Ming's eyes lit up. Perhaps, they could use this to enter the inside of Chen Jin Island's cave.

Lu Ming showed a happy look, immediately after the ball.

Kaka Kaka...

The ball is getting faster and faster, heading deep into the island.

Originally, the ore veins of Chen Jindao were extremely hard. Even a master who wanted to dig a channel was very difficult.

And there will be a lot of movement, so that the master of Yuanluo Temple on the island will find it.

However, the ball swallowed Chen Jin's veins, and there was little movement.

I don't know how long it has been.

"Be careful, there is movement ahead!"

Lu Ming whispered.

Because there was a roar in front of him, it seemed that there was a war.

The ball slowed down a bit, and there was no sound when the mouth bit the veins.

After a while, the vein appeared to have been dug through, revealing a gap.

Lu Ming looked through the gap and looked out, seeing the scenery outside.

Outside, there is a huge building made of a black rock, so huge that it can't be seen at the end.

At the front of the building, there is a gate, and at the moment, a group of people are bombarding it.

However, the gate was obviously covered with a large array, and there was a ray of light shining, but the continuous bombardment of the group of people could not break the large array at all.

In particular, one of the old men was extremely terrifying and gave a terrible feeling. Every move exploded with terrifying power and bombarded the gate.

"What a terrible powerhouse!"

Lu Ming was shocked secretly, even if there was not a short distance, but the breath of the old man still shocked him.

"Yuan Luo Temple, there are already such terrible strong men, this cave house is definitely different!"

Lu Ming thought.

However, Yuanluodian's strongmen have been bombarded, but they can't break through.

"Damn, this large formation is too strong. Even the walls around it are covered with a large formation that cannot be broken at all. Now, only when the Hall Master arrives can they find a way to break it!"

After bombarding for a while, the old man stopped and said a little uncomfortably.

The people in Yuanluo Temple were helpless and could only stop and wait.

"Ball, let's leave..."

Lu Ming whispered the ball to the fairway, and then the ball turned around and left the place. Then, he approached the building again. Soon after, the mineral veins disappeared, and a dark wall blocked them.

This wall is exactly the wall of that building.

Lu Ming took out an artifact war sword and stroked it on the wall, but there was no trace of it.

"The stone of this kind of wall is very special, solid and immortal, and there is a large array of power on it, it can't be broken at all, it seems that we can only stop here!"

Lu Ming sighed.

This cave mansion can attract people from Yuanluo Hall to make teachers and move people. It must be a trivial matter. If you can sneak in and get some treasures, you must definitely send it. Lu Ming is also quite emotional. Unfortunately, it is helpless to go in.

At this moment, the ball opened its mouth and bit against the wall.

Click!

A small piece was directly bitten off the wall.

"This...does this work?"

Lu Ming was dumbfounded.

On this wall, there was a large array, even the horrible old man in Yuan Luo Hall, could not break through, the ball could actually bite away.

This directly ignores the big battle!

Now, Lu Ming has only one feeling, that is the guy with the ball and his teeth are too good.

Click, click!

The ball bit hard, although the bite was not fast, each time, only a small piece could be bitten, but if you continue to do so, you will definitely be able to bite through the wall and enter the facade of the building.

Lu Ming waited expectantly.

At this moment, there are more and more powerful players in the Luoyuan of the Chen Gold Mine.

And beyond a hundred thousand miles, there are more and more powerful soldiers in the Celestial Army.

However, both sides did not start, they are also waiting for the arrival of the strongest on both sides.

Chapter 2609: Sneak in

Yuanluodian headquarters is located on a huge planet.

On this planet, there is a giant city.

There are two figures in a hall in the city, discussing matters.

The two of them, one of them, is a middle-aged man who looks somewhat similar to Kang Long. This person is the master of Yuanluo Temple, Kang Ji.

The other is an old man with three eyebrows and long blond hair. This person is also a man of three-eyed tribe.

This old man's identity in Yuanluo Palace is not the same as Xiaoke, but he is the elder of the Supreme Lord and is extremely powerful. He is the same level as the Yuanluo Palace Lord. This person is called the niches.

Yuanluodian, the two of them, are the strongest.

"Tenshen Cave Mansion, I didn't expect that there is really Tenshen Cave Mansion on the Northern Shangxing!"

The old niches of the three-eyed tribe have fiery eyes.

"I originally thought that at most it was a True God Cave Mansion, but I didn't expect it to be a Tenjin Cave Mansion. This is a great opportunity!"

Yuanluo Dian is also fiery in his eyes.

"The Lord of the Palace, that Zhengmingjun Faming, I am afraid that I have received the news, I am afraid that I will also rush to the North Shangxing, it is a trouble!"

The niches frowned.

Faming is the name of Fazu.

"The ants of the Little Thousand World, as long as I knew it, directly killed him in those years, there would be no trouble now!"

Speaking of the Fazu, Yuanluo Diandian's eyes struck with a murderous chance.

"Unfortunately, he has become a climate, and now the two of us join forces and we may not be able to kill him!"

The niches were helpless.

"When we get the treasures of Tenjindong Mansion, our strength has greatly increased, and we must kill him. And, this time, I already have a plan. The old man Fu Heng still owes me a favor. I have passed on to him. He I will hold on to Faming for a while!"

Yuan Luo Dian Dian Dian main road.

"The lord of the hall is wise. If Fu Heng takes action, I will be relieved. The lord of the hall, let's go!"

The niches rejoiced.

"go!"

Yuanluodian Hall Master and the niches, together with a part of Yuanluodian masters, headed towards the Northern Shangxing.

...

Zhengtianjun, Zhengtianxing.

"Powerful cave house? Worth Yuan Luo Temple so much, go and see!"

In a palace, Fazu also received the news, stepped out, was about to go to the teleportation array, and went to Beishangxing.

"Brother Faming, in such a hurry, where are you going?"

At this moment, an old voice sounded, and suddenly a figure appeared above the sky.

This figure is an old man with silver-white skin, obviously not a human race.

The old man was wearing a white gown, standing above the clouds, smiling at Fazu.

"Fu Heng!"

Fazu frowned, and said, "Fu Heng, what wind blows you to my Zhengtianjun?"

"Brother Faming, I haven't seen each other for tens of thousands of years. I came here today to find you the next game!"

Fu Heng smiled.

"Look for me to play chess? Change the day, there is no time today!"

Fazu Road.

"Only today can you play this game of chess. For other days, this game of chess cannot be played!"

Fu Heng smiled, stepped out, and came to Fazu, blocking Fazu's way.

"Kang Ji came to you?"

Fazu's complexion gloomed.

"I was so blessed by him once, this relationship, I have to pay it back!"

Fu Heng sighed.

"It seems that the Dongfu of Beishangxing is really not a trivial matter. Kang Ji actually found you to hold me back so that I can't rush to Beishangxing!"

How clever Fazu was, when he thought about it, he figured out everything.

"Brother Faming, let's go to the next round. When one round ends, I will leave!"

Fu Heng smiled, waved his hand, and a large flag appeared in the void.

Fazu frowned. Fu Heng's strength was very powerful. If he really wanted a battle, he would not be sure at all, and he might even lose the opponent.

In an instant, Fazu turned his thoughts.

"Okay, since you are so elegant, let's play one game!"

Fazu was also helpless, and then sat cross-legged in the air, sitting opposite Fu Heng across the board.

At the same time, he sent a message to inform the people of Zheng Tianjun that he wouldn't take action no matter what happened to him before he arrived at Beishangxing.

Then, he and Fu Heng started playing chess.

Northern Shangxing, Chen gold ore vein, Yuanluo Diandian Kang Ji and others came.

"See the lord!"

The old man of the true **** realm, as well as other Yuanluo Dian, bowed and saluted.

"How? This cave mansion, did you explore it first?"

Yuanluo Dian asked the master.

"The Lord of the Palace, we have already explored it first, but outside the gate of the Dong Mansion, a strong defensive formation was laid, and the cultivation of his subordinates could not be broken. I am afraid that the Lord of the Palace and the elders of the Taishang need to take action together, To break!"

The old man of the true **** realm reported.

"There is a big formation, in anticipation, go!"

The master of Yuanluo Palace, with a group of experts, walked into the cave house and came to the gate of the building.

boom!

The master of Yuanluo Palace shot directly, and a terrible attack hit the gate.

On the gate, there was immediately Dao Dao's light shining, resisting the attack of Yuanluo Dian.

boom!

A violent roar, a large array of doors, violently shaken.

The strength of Yuanluo Dian Lord is much stronger than that of the true **** realm old man.

The old man of the true divine realm, but the real cultivation of the real god, and the master of Yuanluo Palace, has reached the fourfold of the real divine realm.

"effective!"

"The Lord of the Hall is really amazing!"

The others in Yuanluo Temple's eyes lit up, and then a bunch of horse farts slapped past.

"Shoot together, break the big battle as soon as possible!"

The master of Yuanluo Dian ordered.

Then many masters of Yuanluodian shot together.

However, this large formation is indeed very strong. Even if their attack is effective, it will not be able to break open in a moment and a half. You need to slowly grind and slowly wear off the energy of the large formation to break open. Time.

On the other side, the ball is still biting the wall.

At this moment, a large hole has been bitten out of the wall, which is one meter deep.

"This wall is really hard!"

Lu Ming was also speechless.

Now, he can only wait patiently, and he can't help with his cultivation.

In this way, one day passed.

The wall has been bitten out by the ball three meters deep.

Click!

As the ball bit down, the wall was finally bitten through.

"It's done!"

Lu Ming's eyes lit up.

Click, click!

The ball also came in spirit, cheer up and bite, and soon, a hole appeared, the wall was completely cleared, opposite, the dim light came.

Lu Ming's body shrank and rushed into the wall cave. The next moment, he appeared in a passage.

This passage has dark walls on all four sides. They dug in the wall directly from the middle of the passage.

Lu Ming discerned the direction and strode deep into the passage.

Chapter 2610: Swept away

The passage is hundreds of meters long. After walking through the passage, Lu Ming found a courtyard.

It turned out that the passage just now was just a side path, and here is the main courtyard.

boom! boom! ...

Outside the courtyard, there was a burst of roar. Obviously, outside the courtyard was the gate of the building. The master of Yuanluo Palace and others were bombarding the gate.

They never imagined that they had not broken through the gate formation, and someone had already entered the building in advance.

"I'm going to speed up!"

As soon as Lu Ming flashed, he walked towards the courtyard.

Inside the courtyard is a hall.

Lu Ming's eyes glanced immediately.

The hall was empty and there was nothing, Lu Ming was disappointed.

However, after the main hall, there is an inner hall, Lu Ming walked into the inner hall.

The inner hall is a bit messy and has a huge platform.

Lu Ming carefully recognized and recognized this platform, which should be used for weapons, and around the corners, some materials were randomly stacked.

Click, click!

The ball has already started to eat up, stretched out two tentacles, grabbed those materials and ate.

"This is star silver, black sky gold..."

Lu Ming glanced at it, and found two extremely precious refinery materials.

Star silver and black sky gold are all materials that can be used to refine middle-class artifacts, which are very precious.

"and many more!"

Lu Ming rushed over, two or three times, grabbed the star silver and black sky gold in his hand, and put it away.

This is just what Lu Ming knows, there are many others that Lu Ming doesn't know, and the estimated level will not be low.

Lu Ming and the ball, like the wind and the clouds, collected all these materials.

Click, click!

The ball glared at Lu Ming, seeming to say that Lu Ming grabbed his rations.

"You guys, these ingredients are not cheap. Take them out and give them something else for you!"

Lu Ming smiled.

The refining materials that can refine the middle-class artifacts are absolutely valuable.

However, in addition to these materials, no other valuable things have been found.

Lu Ming speculates that this should really be a strong man's cave. The strong man is here forging pots, some corners and corners, and the unused materials are thrown on the corner, which is Lu Ming's previous collection. Those materials.

However, the thing that the strong man cannot see is also of great value to others.

Lu Mingxi looked around and found nothing again.

Exited the inner hall, came back to the outer hall, and found a corridor on the side of the outer hall. Lu Ming walked along the corridor and came to the back. It was another courtyard. In front of the courtyard, there was a tall building, but the courtyard gate was closed. On the gate, there is also a large array.

Lu Ming tried it and found that he couldn't get in at all and was blocked by the large array.

"It seems that we have to detour again!"

Lu Ming pondered for a moment, then returned to the way he came, came to the side passage, from the gap that the ball bite, and exited here.

"How to plug this gap?"

Lu Ming pondered.

Later, if the Lord Luo Yuan broke through the large array and entered this place, they might find this gap after searching.

The ball seemed to see Lu Ming's thoughts. It opened its mouth wide and a sticky black liquid spewed out like a black liquid metal.

The black liquid metal poured into the gap, and then solidified very quickly, completely blocking the gap.

"This..."

Lu Ming was a little dazed, speculating that the black liquid metal was the impurity eaten by the ball?

Anyway, Lu Ming was overjoyed when the gap was blocked.

Then the ball continued to cheer, eating the gold veins of Chen and heading towards the inside of the building.

It was estimated that the distance had exceeded the gate, and the ball began to bite up the black wall again.

A few days later, the ball bit through the wall, Lu Ming entered through the gap, and it was found that he had entered the building inside the gate.

Here, there is a secret room, Lu Ming began to search.

At first, several secret rooms were empty.

I didn't find it until I came to the largest secret room.

Around this secret room, there are several shelves, and some jade bottles are on the shelves.

"Sacred Pill!"

Lu Ming's eyes lit up.

It is the Divine Pill that has a great effect on Wushen Realm.

Here, there are actually some magic pills.

Lu Ming picked up a jade bottle and found that there were runes engraved on it. These runes were used to seal the jade bottle to prevent the loss of medicine.

However, time should have passed for many years. The power of the seal has weakened. Lu Mingyun took the lead and soon broke the seal.

Then opened the jade bottle, suddenly, a strong medicinal fragrance filled out.

"There is still medicine!"

Lu Ming was ecstatic.

However, Lu Ming does not know what the Shendan is called in the Jade Bottle and what effect it has.

Lu Ming knew nothing about Shendan.

"No matter, put it away first, then go out and identify it slowly!"

Lu Ming waved his hands and put all these jade bottles away, and there were more than fifty jade bottles.

After putting away, Lu Ming looked at the secret room.

In the center of the chamber, there is a trace, the color is darker.

"This should be an alchemy chamber, and the trace in the center should be the place where the alchemy furnace is placed!"

Lu Ming speculated.

Although Lu Ming doesn't know much about Shendan, he is also an alchemist in Heaven. He is very familiar with alchemy's customary steps. He can speculate a lot of things by looking at the layout of this secret room.

Obviously, this is an alchemy secret room, but the owner, who later left, took away the alchemy furnace and most of the medicine.

Perhaps some immortality medicines that were not so important to the owner of Dongfu were left behind, which was obtained by Lu Ming before.

But I am afraid that the owner of this cave house is not a trivial matter.

Walking out of this chamber, Lu Ming searched again, and then he found a passage, but this passage also deployed a formation, and Lu Ming could not pass it at all.

"This cave house is really big, there are still inside, then... continue!"

Lu Ming smiled.

This cave house was obviously abandoned by its owner, and almost all the good things were taken away, but even if it is left unimportant to the cave house owner, it is also a treasure.

Lu Ming went out from the gap they came in again, the ball trick was reapplied, and the liquid metal was sprayed to block the gap, and then they continued to dig the pit and went deep into the cave house.

After going forward for a while, the ball continued to bite the stone wall out of a gap, and Lu Ming entered it.

This time, the place they entered was a little special.

They seem to have entered a passage, which is very large, at least a hundred meters in diameter, and smooth walls on all four sides.

In front of the passage, it was painted black, and I didn't know where it was going.

Lu Ming pondered for a while, and then walked along the passage.

Huh...

Suddenly, a horrible roar sounded in the passageway, and then a strong attraction was generated in the passageway, sucking Lu Ming over.
