D Emperor 2621

Chapter 2621: Amazing elimination rate

"Quickly, the 20th floor is bright!"

"Twenty-one!"

At the scene, people kept exclaiming.

Obviously, this group of people, there are terrible Tianjiao characters, very fast.

After half an hour.

Suddenly, the space around the giant tower shuddered suddenly, and then the figure of a young snake person appeared.

This young man suspended a token above his head, but this token was dim and dull.

Obviously, this young man was eliminated and was sent out without going through the 36th floor.

"Eliminate, exit the square!"

The old man with copper skin spoke before.

The young Snake has a very ugly face and is extremely unwilling.

"Sir, I was negligent just now, can you give me another chance!"

The young Snake cried out.

He really couldn't be reconciled to such an opportunity and missed it. If he could join the thirteen cases of Qin Tian, he would be able to fly into the sky.

"Exit the square, I will say it one last time!"

The Tongpi people spoke indifferently, and there was a cold breath on their bodies.

The Snake-Man youth shivered violently, daring not to stay, and flew out of the square in disgrace.

As soon as he flew out of the square, the token above his head dissipated automatically.

Next, around the giant tower, people were continuously sent out, all were eliminated.

After being eliminated, all of them looked ugly, and they knew that a big chance was lost.

Yunfeng Pavilion and others looked indifferently.

No such screening will pass. Even if you participate in the Qin Tian thirteen students' assessment of enrolling disciples, there is no trace of success at all, it is only a joke.

As time passed, more and more people were eliminated.

The young people who hadn't entered the tower looked nervous.

However, the light on the giant tower is also getting brighter.

"The thirty-sixth floor is over. Someone has crossed the thirty-sixth floor!"

Someone called out.

At this moment, the thirty-sixth floor has already shone brightly.

However, the people who have broken through have not yet come out, and obviously have to continue to break through.

Lord Yunfeng, there is no regulation. After going through the 36th floor, you will come out. After you have passed, you can continue to go.

The higher the break, the stronger the nature will be, and the more it will be valued by the Lord Yunfeng.

Sure enough, soon after, the thirty-seventh floor also lit up.

However, when the thirty-sixth floor is lit, the speed of going through the barriers will be much slower.

Moreover, more and more people are sent out.

In the end, nearly nine thousand people were sent out, all of which failed.

However, immediately afterwards, some successful people were sent out. These people, the tokens above their heads, sparkled, indicating that they passed the assessment.

Many people looked at these people enviously, and the successful people also showed joy.

"Hahaha, this is my disciple of Huang Fengzong, he passed the screening!"

"That's my disciple of Liuyunjiao, he also passed!"

Outside the square, some people laughed in surprise, and they were all powerful players.

Some people rejoice and others worry!

However, the barrier was not over yet, and half a day passed before the last person was sent out.

This is a cold-faced young man who has reached the forty-sixth level and is the first of this group.

He looked cold and proud, glancing around, feeling quite like Ni Bahuang.

"With such a talent, there is a great possibility that it will be selected by the 13 cases of Qin Tian!"

"It's very possible!"

Around the square, there are powerful people of all sizes, envious.

And the people of that young man's power are ecstatic one by one.

Among the 10,000 people, it is highly possible to be ranked first, and was selected by Qin Tian's 13 cases.

Because the total number of young people who participated in the screening of the riot Xinghe was only 50,000 or 60,000.

Of the first 10,000 people, more than 9,000 were eliminated, and only about 1,000 passed the level.

The elimination rate is nine.

Those who have not yet participated in the level crossing are not nervous, and some people are already sweating.

However, Lu Ming and Xie Nianqing were very relaxed.

"next batch!"

Lord Yunfeng ordered.

Immediately, another 10,000 people flew into the giant tower. Among them, Lu Ming saw Kang Long, Situ Xiao and others.

After 10,000 people flew into the giant tower, the giant tower closed and everyone waited patiently.

Kang Ji, the master of Yuanluo Palace, and Situ Haonan, the head of the Xiaoyao Sect, looked nervously at the giant tower, with anticipation and anxiety in their eyes.

This time, after only about 20 minutes, someone was eliminated and sent out.

After that, more and more people were eliminated.

In the end, more than 9,000 people were eliminated.

Buzz...

Someone sent it out, and among them, Kang Long, Situ laughed.

However, the token above their heads, sparkling, clearly passed.

Their faces were full of smiles and excited.

When looking at Lu Ming, it was full of provocation.

"Boy, when I join the thirteen Qin Tian, I want you to die without a burial place!"

Kang Long couldn't help but send a voice to Lu Ming.

Lu Ming's mouth twitched upwards, revealing a hint of sarcasm, and then looked at other directions, ignoring Kang Long directly.

"Hahaha!"

Outside the square, Kang Ji, Situ Haonan laughed, excited, his mouth cracked open.

Especially Kang Long and Situ Haonan also looked at Fazu provocatively, but they were ignored by Fazu directly.

Fazu knew Lu Ming, Xie Nianqing, and Xie Nianjun's talents, and Kang Long was a fart.

The break-in continues and some people have not come out yet.

Over time, someone has already crossed the 45th floor and headed towards the 46th floor, approaching the first in the previous batch.

Soon after, the forty-sixth floor was lit, and the first batch of best results had been tied.

But apparently, it hasn't stopped, and the breakthrough continues.

Then, the forty-seventh, forty-eighth, and forty-ninth floors gradually light up.

"It's amazing, this group of people, some people have crossed the forty-ninth floor, so amazing!"

"I don't know which force's arrogance. This is very likely. It was selected by Qin Tian's thirteen cases!"

"Look, fifty floors!"

In the square, countless people stared at the giant tower, and there was much discussion.

Even Yunfeng Pavilion's eyes brightened.

"Maple hasn't come out yet, is it inside Maple?"

At this moment, Situ Haonan was excited.

Because, his son Situ Situ Feng, has not yet come out.

Almost everyone else came out.

Is it Situ Feng who is breaking into the tower?

Thinking of this, Situ Haonan couldn't be more excited.

"Look, fifty-one!"

Someone yelled.

Everyone was quite shocked. They had already reached 51. They were very curious. Who is it, who can reach 51.

However, 51, is not the limit.

Fifty-two, fifty-three...

One day later, the fifty-fifth floor was lit up, which was nearly ten floors taller than the first in the previous batch.

This is extremely amazing.

At this time, the void around the giant tower shuddered, and a young figure appeared.

The token above the young man's head shone like a sun.

Chapter 2622: Pass

"Brother, it's my brother!"

Seeing this young man, Situ shouted with exultation.

This young man is Situ Feng.

Around the square, everyone's eyes were gathered on Situ Feng, envy and jealousy, and all kinds of emotions.

"Not bad!"

The Lord Yunfeng looked at Situ Feng and also showed satisfaction.

Yunfeng Pavilion, as the strongest force in the riotous galaxy, is qualified to recommend Tianjiao to participate in the assessment of 13 disciples of Qin Tian.

Moreover, once selected by 13 cases and become 13 disciples, she will also have rewards.

Therefore, the more riotous Xinghe Tianjiao, the happier she is.

Situ Feng is so talented, there is a great possibility that he will be favored by Qin Tian's thirteen cases, and even by the three major overlords.

It is undoubtedly difficult to add to the disciples of the three major overlords, but once joined, the future is boundless.

Lord Yunfeng, his eyes were a little fiery.

"Hahaha, it's Fenger, it's my son Situ Feng, it's my son..."

At this moment, Situ Haonan reacted and laughed in surprise.

"Brother Situ, congratulations!"

Kang Ji's face barely squeezed out a smile, congratulations to Situ Haonan.

In his heart, jealous to die.

Situ Feng is so talented that once he joins the thirteen cases and is even favored by a certain big figure, then the status of Xiaoyaozong will increase.

He was jealous in his heart. On the surface, he still had a good relationship with Situ Haonan.

"Brother Stuart, it turns out that Tianjiao is Linglang. Linglang's talent is really shocking!"

"Yes, yes, Brother Situ, the younger brother will invite you to drink someday, but you must enjoy the face!"

"Brother Stuart..."

Immediately, the masters of the powerful forces around Situ Haonan greeted Situ Haonan with a smile on their faces.

Obviously, it was in Bastille Stuart.

Just kidding, Situ Feng's talent is so amazing, there is a great possibility that he will be favored by thirteen cases and be accepted as a disciple.

"Hahaha, you are polite and polite, now you may not be favored by Qin Tian's thirteen sects, not necessarily..."

Situ Haonan grinned widely.

Although he said that Situ Feng may not be favored by thirteen cases, his expression was extremely excited. , The situation of being a disciple.

In his heart, soothing!

"Situ Feng has such an amazing talent..."

Among the crowd, Fazu was also shocked.

He had also heard of the name of Situ Feng before. Rumor has it that Situ Feng is a martial arts devoted to cultivation. Unexpectedly, his talent is so amazing.

However, when he thought of Lu Ming, he was relieved.

No matter how strong the talent is, how can it match Lu Ming.

Lu Ming, the way to control is the way of mastering. Once he becomes a god, it will become the master of divine power. That is divine power.

There are few who can control the divine power, even in the vast Qin Tianxing domain.

This group of people, on the whole, is similar to the first group, eliminating about 90%, and only about a thousand people successfully pass the barrier.

Among them, a total of two people in Yuanluo Hall successfully passed the barrier, and there were three in the Xiaoyaozong.

Lu Ming's face was calm and unmoved.

"The second batch is over, the third batch, go in!"

Lord Yunfeng Pavilion, once again commanded.

"Let's go in!"

Lu Ming looked at Xie Nianqing and others.

"Good!" Xie Nianqing and others nodded, then rose into the air and flew into the giant tower.

As soon as Lu Ming flew into the giant tower, the surrounding environment immediately changed, and he appeared in a vast chamber, and there was no one except him.

This was Lu Ming's expectation.

This giant tower is obviously equipped with a large array. As long as you enter, most of them are alone, and it is impossible to be with other people.

Above Lu Ming's head, a token emerged.

At this time, the secret room was glowing, and there were several figures condensed.

These figures, all puppets condensed from a large array, slammed towards the landing.

Lu Ming took a spear and swept it out, and the puppets shattered one by one.

The first floor, get through!

There was a staircase in the back room. Lu Ming climbed the stairs and came to the second floor.

Sure enough, there are puppets condensed out, the strength is stronger than the first layer, but for Lu Ming, there is no slight difficulty.

With a shot, the puppet collapsed and Lu Ming boarded the third floor.

In this way, Lu Ming rushed along the road, like a broken bamboo.

The third layer, the fourth layer, the fifth layer...

Soon, Lu Ming reached the 30th floor.

After arriving here, the strength of the puppet has been quite strong, but for Lu Ming, there is still no difficulty, at most, his speed has only slowed down a bit.

call out! call out! call out!

The rifle vibrated, piercing through the holes, puppets burst apart.

Lu Ming set foot on the thirty-first floor.

Then there are the thirty-second and thirty-third floors.

Soon, Lu Ming boarded the thirty-sixth floor. When Lu Ming defeated all the puppets on the thirty-sixth floor, the token above his head sparkled.

This shows that Lu Ming has passed.

"enough!"

Lu Ming smiled slightly, did not continue to break in, but walked to a light door on one side.

Lu Ming did not intend to continue.

Enough is enough, as long as you pass the level, there is no need, it is too eye-catching.

His goal is to join the 13 cases of Qin Tian, and now, it is just a screening, as long as they can pass the level.

Lu Ming stepped into the light gate and was sent out by the light gate to come outside the giant tower.

After Lu Ming came out, he suddenly had a few glances at him.

Including Kang Long, Situ Xiao, Kang Ji and others.

"Huh, it was sent out so early, the token brightness is not as high as mine, it is estimated that it has just passed through the thirty-sixth floor!"

Kang Long sneered.

"Yes, I thought he had such a talent, but that's it!"

Situ laughed sneerly.

And Kang Ji, Situ Haonan was also talking.

"I didn't expect that this kid from Zhengtianjun could successfully pass the barrier, but looking at the brightness of the token, it was so-so. There was little hope for joining the thirteen cases of Qin Tian!"

Kang Ji sneered and raised his voice deliberately to let Fazu hear.

Lu Ming's mouth slightly raised, too lazy to ignore.

Lu Ming's talent is very clear. If he goes all out, he will never come out so early. Obviously, Lu Ming does not want to be too flamboyant, as long as he can pass the level.

Lu Ming, almost did not attract the attention of others.

It didn't take long for Lu Ming to come out, and Xie Nianqing, Xie Nianjun, and a few people came out one after another.

They, of course, succeeded in breaking through, but the brightness of the token is similar to that of Lu Ming.

Obviously, their thinking is similar to that of Lu Ming, and it is enough to just pass the level.

After a while, Tong Xi'er also appeared.

Tong Xi'er also passed the level. The brightness on her token was much brighter than that of Lu Ming. She reached more than 40 levels.

Chapter 2623: messenger

After a period of time, Lu Ming's group of people also ended the break.

However, among this group of people, there are no more people as stunning as Situ Feng. The highest person has crossed the forty-five floors, which is the same as the first group of highest people.

Next is the fourth batch, the fifth batch!

In the next two batches, there were also top-notch Tianjiao, but at most one person had crossed 50 floors, and no one could surpass Situ Feng.

This made Situ Feng attracted much attention and became the first person in the young generation of the rioting galaxy.

And Situ Haonan, Xiaoyao Sect, is naturally highly touted, a group of power masters surround Situ Haonanba guitar, Situ Hao's face is full of smiles.

"My son Situ Feng, such a genius, my unrestrained sect can rise, and when my son joins the thirteen of the Qin Tian, the Zhengtian army will be destroyed by hand!"

Situ Haonan turned his thoughts, his eyes cold.

After the fifth batch, this time through the screening, it is all over.

Passers, happily, did not pass this, listless.

At high altitude, the master of Yunfeng Pavilion waved her hand, and the giant tower became smaller, she was put away.

"Okay, this screening is all over, a total of 5,050 people have passed the screening!"

Speaking of which, the Lord Yunfeng Pavilion paused for a moment and then said: "However, this is just the screening I set. Don't think that if you pass it, you can participate in the 13 assessments for disciples and need to go through 13 schools. The messenger's quiz comes only if the messenger feels qualified, then it is truly qualified, understand?"

Many people are tense.

It turned out that it was necessary to pass the test of thirteen messengers. Otherwise, they would not be considered qualified and might not be able to participate in the examination of thirteen disciples.

"Okay, go back first, and then come here again after three days, when the messenger will come and test you yourself!"

Yunfeng Pavilion spoke, turned and left.

On the square, everyone also dispersed.

Lu Ming waited quietly when they returned to the inn.

In three days' time, it was just a flash.

Three days later, they returned to the square. The square was still full of people. However, only Lu Ming who succeeded in the last time they could pass the barrier could enter the square.

Soon, 5,060 people gathered.

"coming!"

Suddenly, someone spoke.

Everyone's eyes looked in one direction.

In that direction, a few people came out of the air.

One of them is the Yunfeng Patriarch.

But now, Lord Yunfeng is not at the forefront, but is behind a position, with a smiling face beside an old man in Jinpao.

The old man in Jinpao, with a burly figure, stood with his hands on his shoulders, and released a great dignity of freedom, giving a strong pressure.

Master!

This old man in Jinpao is definitely an extremely terrible master, even above the master of Yunfeng Pavilion. There is no doubt that this is the existence of a heavenly realm.

Everyone knows without guessing that this is the messenger sent by the thirteen sects of Qin Tian.

"Messen Lin, this is the arrogance that my riot galactic screened out!"

Standing high in the sky, the host of Yunfeng Pavilion introduced the old man of Jinpao with a smile on his face.

In front of these figures, even if she is the Lord of the Yunfeng Pavilion, she dare not carelessly.

The old Jinpao's eyes swept over Lu Ming and their 6060 people, frowning slightly, and said, "This is the arrogance of your riotous galaxy? It's too weak!"

In speech, the color of contempt is self-evident.

Too weak?

Many people are tense.

Is this too weak?

These 5,060 people can be said to be the strongest group of young people in the rioting galaxy, but in the eyes of the old Jinpao, it is too weak.

In particular, some young Tianjiao, very confident, at this moment is despised, but somewhat disgruntled.

"At this level, it is ridiculous to want to participate in the examination of thirteen cases of Qin Tian!"

The old man in Jinpao added.

This time, even Lord Yunfeng was a little embarrassed, and his face was red.

"Okay, I don't need to talk too much nonsense. If you want to really participate in the assessment of 13 disciples of Qin Tian, you still need to pass me!"

After speaking, the old man in Jinpao waved a stone door and flew out.

As soon as the stone gate flew out, it grew up against the wind, suddenly enlarged, and turned into a height of one hundred feet. With a bang, it landed on the square.

"As long as you can pass this door, even if you pass my assessment, it is difficult to participate in the assessment of the 13 cases of Qin Tian's enrollment of disciples!"

Said the old man in Jinpao.

So simple?

Many people were shocked.

As long as you pass this door, you can pass the examination of the Jinpao old man.

Certainly not easy!

Then, many people thought like this, their eyes flashed, and their thoughts turned around.

"Who comes first!"

Asked the old man in Jinpao.

However, for a time, no one stepped forward. Everyone had the same idea. They didn't understand the assessment of this door. They wanted to wait for others to step forward and find out.

Everyone looks at me, I look at you.

"Did anyone step forward?"

The old man in Jinpao asked again, and a glimmer of displeasure flashed in his eyes.

"I come!"

At this moment, Lu Ming spoke and stepped out.

Going early and going late is the same, it is better to go early.

Moreover, Lu Ming is very confident. He is confident that he can pass. If he can't pass, it is estimated that no one can pass the entire riot galactic.

Lu Ming stepped out and came to Shimen, inside and outside the square, everyone's eyes were staring at Landing Ming.

"It's this kid, huh, dare to be the first to play, it's really stupid, I hope he can't pass it!"

Outside the square, Kang Ji sneered.

"This kid is really stupid, to find a way for others!"

In the square, Kang Long sneered.

bump! bump! ...

Lu Ming kept walking, stepping at a constant speed, and stepped into the stone gate.

Buzz!

Just as Lu Ming stepped into the stone gate, the stone gate glowed and a rune emerged. Then, a few red-red divine lights blew toward the landing, as fast as lightning.

Uh! Uh! ...

Lu Ming shot, the palm of his hand was like a knife, and he continued to hack out, knocking out a few rainbow lights, all easily, without any difficulty.

"That is..."

The old man in Jinpao saw Lu Ming shot, and his eyes were stunned, revealing a trace of surprise and doubt.

"What kind of power is that? Something like the legendary domination, but in a riotous galaxy, how is this possible?"

The old man in Jinpao whispered.

The reason why he didn't fully recognize Lu Ming's way of dominating is because during this time Lu Ming found a way to make some changes to the way of dominating, such as color, now Lu Ming uses the way of dominating , The color is dark purple, less conspicuous.

As long as Lu Ming did not explode his full strength, it would not fully show up.

Lu Ming continued to walk, the Shimen ray of light flourished, and more light burst out, constantly bombarding Lu Ming, but Lu Ming waved at will and shattered all these divine lights.

"It's easy!"

Lu Ming smiled and stepped again. This time, more light flashed, but Lu Ming was easily defeated.

After this attack, there was no more attack, and Lu Ming easily crossed the stone gate.

Chapter 2624: very simple?

"Pass!"

The voice of the old man in Jinpao came out, and at the same time thoughts turned in his heart.

"This person is unique and must be observed!"

Although he is not very sure, Lu Ming's control is the way to dominate, but the way to dominate is not trivial. If it is true, then it is not enough.

"It's over, he's over!"

"Wo Chao, it turned out to be so simple, how hard do I think?"

"It seems that it is simpler than breaking into the tower before. It seems that the assessment of the Lord Yunfeng Pavilion is stricter!"

"Yes, that kid can pass, I must be easy!"

Seeing Lu Ming passing easily, many people relaxed and a smile appeared on their faces.

They all believe that the assessment set by the old Jinpao is very simple.

"Next, who will come?"

The old man in Jinpao spoke.

"I come!"

"I come!"

...

Suddenly, hundreds of people shouted and rushed towards the stone gate.

Since the assessment is so simple, of course, it is necessary to go up early to get the limelight.

"Come one by one!"

The old man in Jinpao spoke indifferently, and a strong breath pressed down, stopping hundreds of young people.

"you first!"

The old man in Jinpao pointed at a handsome young man.

"Haha, let me go first!"

The young man smiled and rushed towards the stone gate first, rushing past in one breath.

Buzz!

When he stepped into the stone gate, the stone gate immediately glowed, and several divine lights flew out, blasting towards the youth.

The young man's face was relaxed, his divine power burst out, and he waved his palms. He wanted to learn Lu Ming, and he easily defeated these divine lights.

However, when the young man came into contact with these divine lights, his face changed, and one face was full of incredible, and then screamed, his body flew backwards, fell heavily on the ground, and vomited blood. , Twitching all the time.

What?

Many people were stunned.

This young man, even if he didn't catch the first attack, was blasted away.

Just now, Lu Ming was very relaxed when he passed.

How is this going?

Many people were dumbfounded.

The blasted young man struggled to get up, swallowed a healing potion, and stabilized the injury.

"Fail, next!"

The old man in Jinpao said coldly.

"Wait, Senior, wait!"

The failed young man shouted.

"What's the matter?"

Said the old man in Jinpao.

"Senior, it's unfair. I think it's unfair. When the kid passed the stone gate just now, the stone gate's attack was not as strong. Why did the stone gate's attack become so strong when I passed?"

Cried the young man wronged.

He saw clearly that Lu Ming was only clearing the practice of the virtual realm, and he, but the dual practice of the virtual **** realm, there was no reason for Lu Ming to pass, he could not pass.

"Rave, do you dare to doubt the messenger?"

Yunfeng Pavilion cold drink.

The young man immediately sweated in cold sweat.

"Anyway!"

The old man in Jinpao raised his hand to stop the Yunfeng Pavilion Master, and then glanced at the audience, saying: "The old man told you that my assessment is absolutely fair!"

"However, I can also tell you that this stone door, according to the entry of different people, his attack will indeed be different. The stone door will be adjusted according to the age of the person entering, the strength of the divine power, etc., only the comprehensive Only those with higher talents can break through. The mediocre can't break through. Do you understand?"

"Moreover, the 13 cases of Qin Tian, the standard for recruiting disciples, never look at your cultivation level, because the cultivation level is of no significance to the 13 cases of Qin Tian, even if you are a god, As far as the thirteen cases are concerned, it does not have much effect."

"Thirteen cases of Qin Tian, I enroll students, what I value is talent and potential!"

The voice of the old man in Jinpao sounded in everyone's ears.

Indeed, for the 13 cases of Qin Tian, the level of cultivation is really meaningless. There is no difference in their eyes between the first level of the False God and the nineth level of the False God Realm.

They want talent and potential.

However, the handsome young man was still unwilling.

Why can a person who reduces the virtual realm pass through, but he has a double emptiness and cannot pass through?

"It seems that you are still unwilling, but do you really think that if you cultivate higher than him, can you beat him?"

The old man in Jinpao said lightly.

"Of course I can beat him, I only need three moves, no, I only need one move to suppress him!"

The handsome young man shouted, and looked at Lu Ming with a pretentious look.

"Oh? Since that is the case, then I will let you fight and let your defeat be convinced, little guy, would you like to shoot?"

Speaking of the back, the old man in Jinpao looked at Lu Ming.

"no problem!"

Lu Ming smiled, stepped out, and came to the handsome young man.

"Boy, I will suppress you with one trick, let everyone know who is eligible to participate in the assessment of thirteen students!"

The handsome young man opened his mouth arrogantly, a flash of cold color flashed in his eyes, and then his body burst out, striking out with one stroke, a huge palm print, and roaring towards the landing.

However, Lu Ming looked calm and stood there motionless, as if he didn't see the other party's attack.

When the opponent's palms approached, Lu Ming pointed a finger.

puff!

The finger strength was like a gun, directly pierced through the other person's palm, and shot on the other person's shoulder.

The handsome young man screamed, his shoulders were pierced, and his strong force flew him to the edge of the square. He fell heavily on the ground and vomited blood.

"This..."

The scene calmed down at once.

One trick, just one trick, Lu Ming defeated the handsome young man, just like when he had just passed through the stone gate, it was easy.

"Good genius!"

Many people were shocked.

Lu Ming is just dissolving the virtual realm. It is really incredible to be able to cross the big realm and defeat a double powerful god.

After Lu Ming pointed a finger, he turned around and walked back.

A false **** in charge of ordinary divine power is just two layers. For Lu Ming, there is no slight challenge.

"What a terrific divine power, if it breaks into the Wushen Realm, even if it is not divine power, it is also Wangpin divine power. Unexpectedly, a rioting galaxy has such a strong pride!"

Elder Jinpao's eyes brightened.

"Humph!"

Kang Long, Situ Xiao and others sneered, and they were very upset when they saw Lu Ming's limelight.

But Situ Feng had a calm face and could not see any thoughts.

"Did you see that my stone door is absolutely fair? Next, the assessment will continue. If you lose, you will lose, and if you win, if you have any doubts, you will be disqualified!"

The old man of Jinpao announced that he was very domineering.

Just now, the reason why he promised the handsome young man to challenge Lu Ming was mainly to see that Lu Ming shot, otherwise, the handsome young man dared to have doubts about him, and he was bombed away long ago.

Next, the assessment continued, and another young man stepped forward, but also failed, and was flew out by Shimen.

Chapter 2625: Wan Ling Xing

With the increase in the number of assessments, everyone was shocked to find that the difficulty of assessment of this stone gate was surprisingly large, and the elimination rate was surprisingly high.

Of the ten people, only one can pass.

At this time, everyone understood that they had completely underestimated Lu Ming before.

Lu Ming can pass easily, not because of the low difficulty of passing through the stone gate, but because Lu Ming has high talent and strong strength, he can pass easily.

"Situ Feng shot!"

Suddenly, someone spoke.

Situ Feng's face walked calmly towards the stone gate. A sword of war appeared in his hand. The sword light burst out. Every time, he pierced into the empty space, and did not bombard with the stone light burst out of the stone door, but those **** lights disappeared one by one. Come on.

Situ Feng also passed the assessment easily.

"Good insight!"

The old man in Jinpao nodded slightly.

After Situ Feng, it was Kang Long, Situ Xiao and others.

Kang Long, Situ laughed, and the divine power he controlled was all Wangpin divine power. Although it was not very easy, he passed it one by one.

However, Yuan Luo Dian and Xiaoyao Zong's other two failed.

In this way, only three people in Yuanluo Temple and Xiaoyaozong passed the assessment.

Soon, Dandan, Xie Nianqing, Xie Nianjun, Tong Xi'er and others also stepped forward.

As a world tortoise, Dandan, after becoming a god, also has amazing potential. He mastered Wangpin's divine power and passed the assessment.

Xie Nianqing and Xie Nianjun, naturally needless to say, relaxed, which made the eyes of the old Jinpao bright.

Then, Tong Xi'er also passed the assessment, but the rest of Zheng Tianjun failed.

In this way, Zheng Tianjun, plus Lu Ming and them, a total of five people passed, which made Kang Ji and Situ Haonan look a little unsightly.

The Shimen assessment lasted a few days, and finally, 5,060 people were all tested.

Five hundred people!

In the end, only 500 people passed the Shimen test, and all others failed.

This success rate is surprisingly low.

The entire riotous galaxy is close to a thousand forces, five or sixty thousand young arrogances, and in the end, only five hundred people passed the assessment.

One percent probability.

"Okay, my test is over, you five hundred people can go to the Qin Tianxing domain Wanlingxing to participate in the assessment of the 13 cases of Qin Tian, this jade card, you continue!"

After speaking, the old man in Jinpao waved, and five hundred jade pieces flew out, respectively, to Lu Ming and others.

They reached out and used the jade cards, one by one.

The Jade brand is warm and thick, with a small rune on it. It looks very beautiful.

On the side of the jade card, there is a pattern, which is a pattern of ruins.

"The ruin pattern on the jade card is the representative of the riotous galaxy. Different galaxy patterns are different!"

Said the old man in Jinpao.

Many people laughed bitterly, indeed, the riotous galaxy is a ruin in the eyes of many powerful and rich galaxy.

"Now, you engrave your name on the jade card with your own blood. This jade card will be completely bound to you. Only you can use it. Other people can’t use it. This is you. Voucher to participate in the assessment of 13 cases of Qin Tian!"

Said the old man in Jinpao.

Immediately, Lu Ming forced a drop of blood and wrote the word "Lu Ming" on the jade card.

After writing, the blood penetrated into the jade brand and disappeared. This jade brand was completely bound to Lu Ming's breath. No one except Lu Ming could use it.

This is to prevent people from taking part in the assessment, robbing others' jade cards and impersonating them.

In this way, even if you grab the jade card, there is no use.

"Okay, the assessment of the 13 cases of Qin Tian will be held in Wanlingxing three months later, and you will rush over by yourself within three months!"

"However, I can tell you in advance, don’t think that if you pass the old man’s test, you will be able to join Qin Tian XIII Middle School. If you want to join Qin Tian Thirteen, it’s extremely difficult. Twenty of your 500 people can Joining the 13 cases of Qin Tian is pretty good!"

The old man in Jinpao remarked and turned away, accompanied by Yunfeng Pavilion Master and others.

"Is it good to have 20 people joining?"

Many people felt shocked and their faces dignified.

Everyone thought about it and left here.

"Go, let's go back to Zhengtianjun first. I will arrange things and take you to Wanlingxing!"

Fazu Road.

Then, the crowd returned to Zhengtianxing through the teleportation array.

Lu Ming returned to his place of residence, explained things, and said goodbye to his parents.

If you go to Wanlingxing and join the Zongmen forces to practice, I am afraid that you will not come back in a short time.

Fazu also arranged the affairs of Zheng Tianjun, and then led them to the landing and set off.

Lu Xiangxiang, Ouyang Moli, stayed on Zhengtianxing.

However, the bubble is entangled with the landing sound. To follow the landing sound, Lu Ming also brought the bubble.

Lu Ming, Xie Nianqing, Xie Nianjun, Dan Dan, Bubbly, Tong Xi'er, and Fazu, a total of seven people, headed towards Wanlingxing.

Wanlingxing, in the middle of the Qin Tianxing River, is at least dozens of galaxies apart from the Riot Galaxy, which is too far away.

Even in the teleportation array, it takes a long time.

They first came to the city of Yunfeng and took the teleportation array in the city of Yunfeng to the next galaxy.

Next, they have been riding on the ultra-long distance teleportation array, so that the speed will be faster, of course, the consumption of God Crystal is also amazing.

The teleportation array can not be done in vain, every time you do the teleportation array, you must consume Shenjing.

Even so, it still took them nearly two months to reach Wanlingxing. At this time, it was less than a month away from the period of March.

"It's so rich!"

Standing on the land of Wan Ling Xing, take a deep breath, feel the sigh of breath, pour into your body, and feel comfortable.

The cultivation environment here is much better than the riotous galaxy, and the difference is huge.

Wanlingxing, located in the center of Qin Tianxing domain, is the largest trading planet in Qin Tianxing domain.

This planet does not belong to a certain force, and countless large and small forces are trading here, and it is extremely prosperous.

The assessment of the 13 cases of Qin Tian’s enrollment of disciples has always been placed on Wan Ling Xing.

The location is in Wanlingxing's largest city, Wanling City.

Lu Ming and they came to Wanling City and found an inn to stay.

With the passage of time, there are more and more people in the Wanling City, and on the street, you can see three or five groups of young Tianjiao.

Some people's breath is extremely terrible, at first glance it is extremely evil.

Qin Tian Xingyu has hundreds of galaxies, rioting galaxies, but the worst and most uninteresting galaxies.

Any other galaxy, just come up with one, they are more prosperous than the rioting galaxy, stronger than the rioting galaxy, and the number of Tianjiao is far from comparable to the rioting galaxy.

In the riotous galaxy, only 500 people passed the test and can take the test.

However, even if the other galaxy is the worst, there are thousands of people who can participate in the assessment.

Chapter 2626: Assessment rules

Thirteen cases of Qin Tian, recruiting disciples once every thousand years, is the grand event in the eyes of Qin Tianxing's countless days, and is also the days of countless days of arrogance.

Soon, there are three days before the assessment day!

On this day, bursts of bells spread in Wanling City.

"Let's go, it's the convening order of Qin Tian's 13 cases, and it is time to announce the assessment rules!"

Fazu said, leading them with a landing, and headed in the direction of the bell ringing.

In the middle of Wanling City, there is a vast open space. Here, it was originally a huge square city, but during this time, the square city was removed and used as an assessment.

This open space is too big, even if it accommodates hundreds of millions of people at the same time, there is no problem.

Soon, this open space was already full of people.

Not only the young Tianjiao who wants to participate in the assessment, but also many people who watch the lively.

In fact, there are more people looking at the lively crowd than there are people taking the assessment.

Uh! Uh!

At this moment, several figures appeared suddenly above the sky, and the scene became quiet.

"There are three days to go before the assessment. Now, I will talk about the specific conditions and rules of this assessment!"

In the sky, a majestic man spoke.

The scene was silent, and everyone listened quietly, afraid of missing any details.

"This kind of identity jade card to participate in the assessment, each of you should have it!"

The middle-aged big man took out a jade card, which was almost the same as what Lu Ming got, except for the pattern on it.

"Three days later, as soon as the assessment time is up, as long as you are in Wanling City, no matter where you are in Wanling City, this jade card can take you to a virtual space, which we call the dream space!"

"In the dream space, everything is virtual, but your spiritual consciousness enters into it, and, in the dream space, your cultivation will be suppressed to the realm of virtual **** realm!"

"If it is the realm of virtual **** realm, it will not change. If it is not enough, it will not change!"

"However, although your cultivation practice has been suppressed to the level of the virtual **** realm, the divine attributes will not change. If you control the Wangpin divine power, in it, it will still be the Wangpin divine power. Divine power is still holy power!"

"The assessment is divided into two rounds. In the first round, the dream space will be divided into 20 areas. All the participants will be divided into 20 areas for fighting!"

"However, one thing, you can rest assured that before entering the twenty areas to fight, you will enter a special area, where there are a lot of incomplete divine skills, these incomplete divine skills, even the virtual **** You can also cultivate the power of cultivation with a heavy level of practice!"

"You start, there will be a year to comprehend the incomplete magic skills, and then you will enter the twenty areas to fight and decide the ranking!"

"This time, we counted that the entire Qin Tianxing domain, hundreds of galaxies, and a total of millions of people participated in the assessment. By then, there will be 50,000 people in each area!"

"Fifty thousand people fight each other, the rule is that every time you kill the other person, you can get one point, and at the same time, take half of the other person's points, each person has two lives, that is, two opportunities!

"In the end, the top 100 in each region can participate in the next round, and those who do not enter the top 100 will be eliminated!"

The middle-aged man, in one breath, explained all the rules. After he finished speaking, he stopped and let everyone digest.

"It turns out so!"

Lu Ming's heart moved and summed it up.

This time, the assessment is very simple, divided into two rounds.

A total of about 1 million people participated. The identity jade card will take them into the dream space. Inside, they will be killed without real death, and cultivation will be suppressed by the False God.

Of course, such as Lu Ming is not as important as the virtual realm, it can only be left as it is.

Then, they had a year in advance to learn about the impaired magic skills, and then more than one million people entered 20 areas, each area, there were more than 50,000 people, and more than 50,000 people fought each other to get points, the previous one One hundred to enter the next round.

Moreover, each person has two opportunities.

This is also for the sake of fairness, lest some arrogance, be met with a powerful enemy from the beginning, be beheaded, it would be a bit wrong.

"Actually, more than one million people participated!"

Lu Ming was also secretly surprised.

After a while, when almost everyone digested, the middle-aged man continued to speak.

"In the first round, those who are eliminated will not necessarily have no chance to join Qin Tian's 13 cases. As long as you perform well and earn higher points, you will have a chance to be selected by 13 cases!"

"Of course, the better you perform, the more you will be valued!"

"Okay, things are here, the specific rules, on your jade card, will also show up later, you take a good look at yourself, do you have any questions?"

The middle-aged man finished speaking and glanced at the audience.

"Senior, I have doubts!"

At this time, a young man spoke.

"Say!"

Middle-aged Dahan Road.

"Senior, why do you want to suppress cultivation as one level in False God Realm? If I cultivate to Sixth Level in False God Realm, wouldn't it be impossible to develop it?

The youth said.

"Sixfold False God Realm? Do you think you are a genius?"

The middle-aged man asked.

The young man did not speak, but his expression was clearly default.

"Cultivation is never a gift. I can tell you that in the thirteen cases of Qin Tian, those who have reached the sixth level of the virtual **** realm within ten thousand years of practice will be able to catch a lot of them!

"Even if you have cultivated your true physical state within ten thousand years, there are many, even, some people have already reached the heaven and **** realm. What is your ninth virtual **** realm?"

"Thirteen cases of Qin Tian, will lack a person with six levels of virtual **** realm? As long as the thirteen cases of Qin day command, Qin Tian Xingyu, how many existence of six levels of virtual gods can be called?"

The middle-aged man, who kept asking questions, made the young man speechless.

"There are many ways to improve cultivation practice, there are natural talents, some adventures, or a longer period of cultivation, so cultivation practice is of no use to thirteen Qin Tian!"

"Thirteen cases of Qin Tian recruit disciples, they are looking for talent, potential, cultivation, and some ways to improve!"

"And putting all of your cultivation to suppress the virtual **** realm, giving you one year, is to test your talent, your perception!"

"Only those with a high degree of talent and understanding can join the thirteen Qin Tian, understand?"

Middle-aged Dahan Road.

The young man blushed and did not speak. He was born into a powerful force. He usually cultivates and consumes not knowing how many talents he has.

However, in the thirteen cases of Qin Tian, will there be fewer natural materials and treasures?

Chapter 2627: Enter the dream space

Many people also showed their thoughts.

Indeed, under this assessment mechanism, one can see a person's talent perception.

In Wushen Realm, talent perception is the most important.

Therefore, they only retain their divine power level, and have a year to allow them to learn about the incomplete divine skills, and then fight.

In this way, people with high levels of divine power and strong senses can stand out.

Controlling the high level of divine power is talent.

However, perception is also very important.

Because the level of divine power is not innate and can be cultivated.

Some terrible and exquisite divine powers can fully cultivate Wangpin divine power, holy divine power, and even divine divine power.

There are such terrible divine powers in Qin Tian's thirteen sects, and as long as they practice to an extremely high level, they can cultivate advanced divine power.

It is said that the Zhenzong divine power of the three major overlords can reach the highest level and cultivate divine power.

Therefore, a person, if the level of divine power is not high, but the perception is amazing, the future is not limited.

Of course, some people, without practicing these divine skills, naturally cultivate high-level divine power, and many, many more.

Such as Lu Ming, Tong Xi'er and others.

The 13 disciples to be enrolled in Qin Tian's case are one with a high level of divine power and the other with a superb understanding.

"Also, I tell you that some of you have been born into some powerful forces, and may have practiced some incomplete divine skills long ago, but in the dream space, the incomplete divine skills you originally cultivated are not allowed to be used, only Using the incomplete magical skills enlightened in the dream space, once violated, they will be eliminated directly. Thirteen cases of Qin Tian will never be recruited. Do you understand?"

The voice of the middle-aged man spread throughout the audience.

"understand!"

Many people shouted.

"Okay, that's all for now, and good luck!"

After all, the middle-aged man and others turned and left.

After the middle-aged Dahan and others left, the others in the square slowly dispersed, and Lu Ming returned to their place of residence.

Soon after returning to the place of residence, a large piece of information appeared on the jade card, all about the assessment and some rules.

Lu Ming looked at them again, and then actively prepared.

In three days, the assessment is about to begin. Not only they, but everyone, are actively preparing.

In a huge courtyard, there stood a group of people, all of them tall and burly, made of metal sculptures.

These people are a terrible tribe of the vast universe, a branch of the Vajra tribe.

The King Kong tribe is a very strong tribe in the Honghuang Universe. Among the countless races in the Honghuang Universe, it can be ranked in the top 10,000.

The Honghuang Universe, there is a list of ten thousand races, which lists the 10,000 most powerful races in the Honghuang Universe, the Vajrasattva.

However, the Vajrasattva tribe is not in the Qin Tianxing domain, but it is just a branch.

At this moment, dozens of Vajra families, like the stars holding the moon, surround a young Vajra family.

This young Vajrasana is more burly and has a height of three meters.

"Jin Sheng, you are a rare genius of my Qintian tributary of the Vajrasana family in 100,000 years. This time, you must obtain the top three and join the three major overlords in the assessment of the 13 cases of Qin Tian!"

An elderly Vajrasana commanded.

"The patriarch is assured, only the first three, I have full confidence!"

Jin Sheng laughed confidently.

On a big mountain in Wanling City, here, it was bought by a group of tigers.

The tiger race, in the entire wilderness universe, is only a small race, far from ranked in the top 10,000, but in the Qin Tianxing domain, the strength of the tiger race cannot be underestimated.

Roar!

On the top of the mountain, a young tiger roared up in the sky, and the situation was turbulent.

"This time, the top three, no, I want to hit the first!"

The young tiger has eyes full of power and is full of king tyrants.

To the north of Wanling City, there is a lake. The lake is not big, but it is very clean. Like a mirror, you can clearly see the fish in the lake.

On the shore of the lake, there is a simple pavilion.

At this moment, there are two figures in the pavilion, looking at the calm lake.

A whitish old man with a white gown and fairy bones.

The other person is a young man in his twenties. This young man looks handsome, and he is also dressed in a white shirt, like a handsome young man.

"Ye'er, can you have confidence in the assessment of 13 cases of Qin Tian this time?"

The old man asked the youth.

Young man named Linghu Ye!

"According to the rules this time, I have full confidence, the first is none other than me!"

Linghu Ye opened his mouth, his face calm, without the slightest pride, let the Buddha explain a fact.

"Okay, with your talents, as long as you give full play, the first is none other than you, and you can definitely enter the three major hegemonic forces, and even get focused training!"

The white-haired old man was holding his beard and looked at Linghu Ye, very satisfied.

If you do not enter the dream space and fight outside, Linghu Ye may not have that much advantage.

However, this time the rules will give a year to comprehend the incomplete divine skills, which is the biggest advantage of Linghu Ye.

Linghu Ye’s perception is the strongest that the old man has seen in endless years. Although Linghu Ye’s divine level is not high, it is because he lacks chance and divine ability, but Linghu Ye’s terrifying perception can fully compensate come.

The old man is full of expectations. As long as Linghu Ye joins the three major overlords, and is focused on training and practicing divine skills, Linghu Ye will definitely explode and enter the realm of terror.

...

In a flash, three days passed.

On this day, Lu Ming, Xie Nianqing, Xie Nianjun, Tong Xi'er, and no one at all, gathered in a room in a round shape, sitting cross-legged.

To participate in the assessment, there is no need to go to a certain place, as long as they are in the Wanling City, the identity jade card can bring them into the dream space.

Buzz! Buzz! Buzz! ..

At this time, Lu Ming and Xie Nianqing's jade cards in their hands vibrated slightly, exuding a shining light, suspended above their heads.

Then, a beam of light fell from the jade cards and enveloped them.

Then, Lu Ming and others felt that the spirit and soul were pulled away, and flew into the jade brand, the eyes were dark.

Almost immediately, their eyes lit up and they opened their eyes.

"this is..."

As soon as they opened their eyes, they found that they were now on a huge platform, and in front of the platform was a stone tablet.

The endless stone monument stands on the vast earth.

Each stone tablet has a height of 100 meters, and each stone tablet is engraved with some text and some patterns.

There are too many, there are too many stone tablets. At a glance, they are endless and I don't know how many pieces there are.

"Is this stone tablet a crippled divine skill?"

Lu Ming moved.

Next, they will stay here for a year to learn about the incomplete divine skills.

Chapter 2628: Tiger’s provocation

At this time, Lu Ming found that a badge appeared on their chests, and on the badge was a pattern of ruins, which became jade.

This is their logo.

People who come in from different galaxies have a badge with a different pattern on their chest.

"My cultivation behavior has not changed at all!"

Then, Lu Ming carefully perceives his body and finds that his cultivation behavior has not changed at all, and he is still the Seven Star Heavenly Emperor, and the power of **** is surging.

Of course, their weapons, storage rings, etc., cannot be brought in.

As a matter of fact, this time the competition was not able to bring weapons. If you want to use weapons, you will condense with divine power and rely solely on your own abilities.

"Have your practice been suppressed?"

Lu Ming looked at Xie Nianqing, Xie Nianjun, Tong Xi'er and Dan Dan.

"It is suppressed in the virtual **** realm, but the power level has not changed!"

Xie Nianqing said.

"me too!"

Tong Xi'er also nodded.

"Mine has not changed!"

Once and for all, his cultivation behavior was originally in the virtual **** realm, so there was no change.

Lu Ming nodded, as he said in the rules.

At this moment, many people flashed on the platform and rushed towards the steles.

Time is limited, they only have one year.

It's too short to use a year to learn the incomplete magic skills!

They must seize the time, find the incomplete skills that suit them, and seize the time to practice.

Every time you practice more, you may be able to get deeper in the heat, and when you fight with others, you will have an advantage.

Millions of people rushed into the boundless stone tablets to find their own magic skills.

Lu Ming also rushed down the platform and headed towards the stele.

Soon, he came under the first huge stone tablet.

At this moment, under this stone tablet, two young people have been watching carefully.

The stone tablets are engraved with lines of characters and pictures.

This is a kind of palm technique, which is biased towards femininity. Lu Ming glanced at them, and they passed by directly.

Not suitable!

They continued to move forward.

As they walked, they attracted the attention of many people.

The main reason is that Xie Nianqing and Xie Nianjun walked together. They were so beautiful. They looked exactly the same.

"The two beautiful women are exactly the same!"

"Look at their badges, they are from the riot galaxy. Unexpectedly, there are so many beautiful women in the riot galaxy!"

"Who is that person? Actually walking with such a beautiful woman!"

Around, many people were talking, looking at Xie Nianqing and Xie Nianjun fieryly.

Tong Xi'er is also a gorgeous beauty, but standing together with Xie Nianqing and Xie Nianjun is somewhat ecstatic.

Xie Nianqing and Xie Nianjun, since breaking into the Wushen Realm, their temperament has become more and more extraordinary, and even people with similar appearances must be compared by them.

When many people looked at Lu Ming, they were full of envy, jealousy and hatred.

Lu Ming's side, although still following Dandan, but Dandan's goods, like a 16-year-old boy, still wearing a robe, was naturally ignored by others.

Both Xie Nianqing and Xie Nianjun looked indifferent, directly ignoring the eyes of others, and concentrated on finding a suitable divine skill.

"Two beautiful women!"

Not far away, there were more than a dozen burly figures, gazing fiercely at Xie Nianqing and Xie Nianjun.

These dozens of people are all handsome men of the Tiger race.

Tiger people, not the entire head is a tiger, this is not the case.

They look very similar to human races, but there are stripes on their faces, but tiger stripes.

Moreover, they are burly, each with a height of more than two meters and thick hair.

"How can you miss such a beauty, let's go, let's get to know!"

One of the young tigers with golden hair smiled and approached them, and the other dozen young tigers laughed and followed.

The figure flickered, and more than a dozen young tigers stood in front of Lu Ming.

Lu Ming stopped them.

More than a dozen tiger youths looked at Xie Nianqing, Xie Nianjun, and Tong Xi'er with unscrupulous eyes.

"Riot Galaxia? Unexpectedly, there is such a beauty in the violent Galaxia. We are the arrogance of the Tiger people. My name is Hu Mao and the beauty. How about making friends?"

The young tiger man with golden hair all smiled confidently.

Lu Ming and Dan Dan almost laughed out loud.

Tiger hair?

This name has enough "depth".

However, Xie Nianjun didn't want to laugh. She looked cold and shouted, "Go!"

"Oh yo, my temper is quite strong, but my Tiger people like to be tempered, brothers, isn't it?"

Hu Mao didn't take it seriously, but instead made fun of it.

"Yes, the stronger the temper, the better, play hard!"

"Hahaha!"

Other Tigers youth laughed.

On the side, the others looked over at the lively expression.

"You've been told to roll, can't you hear it? Is your ear deaf, or what? Roll immediately!"

At this time, Lu Ming scolded.

The smile on the tiger's face suddenly disappeared, and the cold light flashed in his eyes.

"Boy, what are you talking about?"

"A lot of **** in a riotous galaxy, dare to talk to us like this, so tired, right?"

"Give you three seconds, hurry and roll me, far away, what are your qualifications, stand by the two beauties!"

More than a dozen tiger youths burst into roar, flashing cold murderous opportunities on their bodies.

"three!"

"two!"

"One!"

Lu Ming's disdainful opening helped him count the time. After three seconds, Lu Ming stepped forward and took Xie Nianqing's small hand, disdainfully saying: "A bunch of stupid forks!"

Provocative, disdainful, taunting!

This is Chi Guoguo's sarcasm.

More than a dozen young tigers have a murderous strike.

"Boy, immediately kneel down to admit your mistakes, palm yourself a hundred mouths, otherwise, I will let you die without a burial place!"

The tiger fur was angry, revealing an uneven fang.

"Oh? Ability to do it!"

Lu Ming disdainful opening.

"you..."

Tiger Hair, as well as other young Tigers, stared at Lu Ming one after another, with wide eyes.

However, they dare not start!

The assessment has not started yet. In the course of this year's enlightenment and cultivation of incomplete divine skills, it is forbidden to do it. Anyone who does it will be disqualified.

If not, Hu Mao and others have already started to tear Lu Ming into pieces!

"Boy, you are a kind, you wait for me. In the assessment one year later, you should not touch the people of my tiger race, otherwise you will die miserably!"

The tiger hair spoke coldly, and then said to the other tiger races: "Brothers, go and inform the other race people. In the subsequent assessment, if you meet this person, you will have no amnesty to kill!"

"Okay, there are so many people in the Tiger Family, he is dead!"

"He will die miserably!"

Other Tigers cried out.

Chapter 2629: Enlightenment of incomplete skills

"A bunch of fools, Xiaoqing, let's go!"

Lu Ming pulled Xie Nianqing, Xie Nianjun, Tong Xi'er, Dan Dan, and passed the tigers directly towards the depth of the stele forest.

More than a dozen tiger youths almost exploded their lungs, and their teeth clattered.

"This kid is so impulsive that he dares to offend the tiger's arrogance!"

"It is estimated that in the riot Xinghe, it is the top arrogance, and the arrogance is used to, but in a riotous galaxy in every district, it is king and dominates, and it runs into the entire Qin Tianxing domain, and it is nothing!"

"Yes, the Tigers, but the Qin Tianxing territory's clan, the Qin Tianxing territory has hundreds of galaxies, and the Tigers have an exclusive one, which is extremely powerful. I heard that this time, there are thousands of Tigers Tianjiao participating in the assessment of 13 cases!"

"Yes, there are indeed thousands of people. Even if there are evenly evenly divided into 20 areas, the number of Tigers will definitely be quite large in each area. Moreover, I have heard that in this generation of Tigers, a peerless life was born. Tianjiao, controlling the divine power, that kid, will die miserably!"

"In front of the beauty, it is unwise to prevail for a while!"

All around, those who saw this scene talked a lot.

These sounds naturally spread to Lu Ming's ears, but Lu Ming just smiled lightly and didn't care.

By the time it was time to fight in 20 areas, the Tigers would be more willing to trouble him.

What is he not happy about giving him points?

Lu Ming and they wandered among the steles and looked at them one by one.

Soon after, Xie Nianjun stopped under a stone tablet.

This stone tablet is engraved with a sword technique. Just glancing at it, it seems that a holy sword light burst out.

"It's a good swordsmanship, I choose this one!"

Xie Nianjun said, then stood under the stele and watched it carefully.

Lu Ming and they continue to look up.

This stone stele forest is very large and has a lot of incomplete magic skills.

Attacking incomplete magic skills, defensive incomplete magic skills, physical skills incomplete magic skills...

Everything!

After more than one day, Tong Xi'er and Tong Xi'er have found suitable incomplete skills and practiced.

"I will practice this swordsmanship!"

Xie Nianqing walked under a stone tablet.

This stone tablet also records a sword technique, which is fierce and devilish.

Xie Nianqing and Xie Nianjun, both good at swordsmanship, chose a sword technique respectively.

Lu Ming was left alone, and Lu Ming continued to wander around.

Lu Ming found that most people choose to attack the incomplete magic skills.

Also, divine skills, even with incomplete divine skills, the difficulty of practicing is certainly extremely amazing.

They only have one year, so naturally they have to choose attack-type magic skills to enhance their attacking power, so that they can kill their opponents as soon as possible and gain points in the assessment after one year.

Lu Ming wandered around for another long time.

"That's it!"

Lu Ming came under a stone tablet. This fast stone tablet recorded a deficient skill of marksmanship.

And under the stele, there was no one left, Lu Ming simply chose this.

Immediately, Lu Ming looked closely.

This kind of marksmanship does not have a name. In fact, the incomplete divine skills here have no names. They are all strong men of the thirteen ancestors of Qin Tian, which evolved from complete divine skills.

For masters above the virtual **** peak, there is no practical significance and no great use. Those masters can already practice complete divine skills.

However, for master cultivation below the peak of the virtual **** realm, the effect is still quite large.

"What a wonderful skill..."

After a lot of insights, Lu Ming felt something in his heart.

Divine skills are all kinds of exquisite use of divine power. They are extremely powerful and very exquisite. It is more difficult to enlighten than the magical arts of heaven.

There are a total of seven levels of this incomplete divine skill, but it is very difficult to cultivate to the first level.

Lu Ming discarded the distracting thoughts and became aware of them.

This insight is a month.

For a month, Lu Ming had not yet started.

call out! call out! call out!

Lu Ming condensed a spear with the power of the master. The spear vibrated at a wonderful frequency, sometimes struck out, sometimes stabbed forward, and the guns flashed.

However, halfway through cultivation, Lu Ming stopped again.

"No, it's still wrong..."

"This kind of marksmanship, once the practice is successful, one shot, can stimulate a heavy gravity path, the strength of the force is superimposed, the power is endless, and there are many different changes, but I still can't find that feeling!"

"The divine power works wrong..."

In Lu Ming's mind, he turned a lot of thoughts and summarized the results of his previous cultivation.

Half a day later, Lu Ming began to learn again.

It is too difficult to practice because of incomplete divine skills. With Lu Ming's talent for understanding, it is so difficult to comprehend, others can imagine.

Time rushed and another month passed.

Buzz!

The long spear in Lu Ming's hand swept out, and a terrible roar burst out in the air. After three sounds, the roar disappeared.

"It's done, and finally stepped into the first layer!"

Lu Ming showed a happy look.

After more than two months of painstaking understanding, Lu Ming finally cultivated this incomplete divine skill to the first level.

When you reach the first level of practice, you will be shot with a single shot. In a blink of an eye, there will be a triple power burst, which is very powerful.

At the same time, there are three kinds of changes embedded in it, which make people unpredictable and unpredictable.

If the cultivation reaches the second level, and one shot, there will be five levels of power burst, with five changes.

The higher the temper of cultivation, the stronger the power.

"carry on!"

Lu Ming continued to understand.

After cultivation reaches the first level, the difficulty of cultivation becomes even greater.

The greater the back of any magical skill, the greater the difficulty.

Getting started is so difficult, one can imagine how difficult it is later.

Lu Ming devotes himself to cultivation, and does not ask outside the window.

Half a year later, Lu Ming finally broke this shot to the second level.

So far, Lu Ming and they have been here for eight months, four months before the assessment begins.

Four months later.

One year, it's time!

It's a pity that Lu Ming's marksmanship still stays in the second level, but not the third level.

Buzz! Buzz! Buzz!

Suddenly, there was a continuous buzzing sound in this world, and a rune appeared in the sky, which was gorgeous and colorful.

"It's about to start!"

"It's finally starting!"

Many people whispered.

Some people are nervous, but some people are looking forward to it.

Suddenly, a beam of light appeared in the sky, covering everyone in the beam of light. Then, all of them walked along the beam of light and flew into the sky, disappearing.

The next moment, Lu Ming discovered that he appeared in a room.

"Is this...the assessment area?"

Lu Ming whispered.

This time, the assessment will be divided into 20 areas, with more than 1 million people, each entering 20 different areas for fighting.

As for which area to enter, it is completely random.

Chapter 2630: Fight begins

At this moment, in the City of All Souls, the square that announced the news a year ago was full of people.

Densely packed, countless people gathered here.

At this moment, in the high altitude of this open space, there appeared twenty huge screens. Above these twenty huge screens, there were names.

On each screen, there are more than 50,000 names.

All are the names of the people taking part in the assessment. Behind each name, there is a corresponding galaxy.

For example, Lu Ming’s name appears in the 20th district, and the word “Riot Galaxy” is marked behind the name.

Xie Nianqing, in the first area, Xie Nianjun, the third area.

Tong Xi'er, the tenth region, Dandan, the eighteenth region.

"Quick, find out which Kanglong is in!"

"Also, Fenger, Xiaoer is in that area!"

Among the crowd, Kang Ji, Situ Haonan and others were looking for it.

With their eyesight, they naturally looked at thousands of lines, and the speed of watching was amazing. After a while, they found the area where Kang Long, Situ Xiao, Situ Feng and others were located.

This time, the rioting galaxy, led by the Lord Yunfeng Pavilion, came to watch thousands of people, all came to watch and gather together.

Fazu is also among them, not far from Kang Long.

Not only them, but other people from the Galaxy, also found Tianjiao of their factions to participate in the assessment.

Now, the names are random and random, but when the fight starts, the names will be sorted according to the score.

The one with the highest score will be ranked first until three months later. In each region, Tianjiao, who ranks in the top 100 points, wins, and the others are eliminated.

Just look at the points, not whether they were killed.

As long as you have enough points to be ranked in the top 100, you will be promoted even if you are killed.

"It's started, it's started. In the sixth area, Huya has points, so fast, it's three points!"

Someone called.

At the beginning, there was only one point for each person, kill one person, and get one point.

In other words, after a while, Huya has already killed three people.

"In other areas, Jin Sheng is not slow!"

"The fight has started in full, and many people have points!"

I saw that on the twenty screens, the names flashed constantly.

Some names appear directly in the first, second, or front position, and corresponding points appear after the name.

More than one million names are constantly flashing, and it is also because the masters on the scene can only see clearly. If it is an ordinary person, it will take a glance.

Area 20!

Lu Ming opened the room and went out.

"Am I showing up in a city?"

Lu Ming guessed that the place where he is now is in a courtyard, and he can see other places and other tall buildings.

"Wait, this area cannot fly!"

Lu Ming just had to take off, observed the situation, and suddenly felt that his body was heavy like a mountain and could not fly at all.

This area is prohibited from flying.

boom!

Suddenly, a roar came from a tall building not far away.

The building roared, the energy was wanton, and the walls burst, and Lu Ming saw that the two figures were fighting together fiercely.

The two men have the same fighting power, and the fierce battle is difficult for a time.

bump!

At this moment, the gate of Lu Ming’s courtyard was blasted open, broken wood flew around, and a tall and burly figure walked in.

This person glanced at the badge on Lu Ming's chest, revealing a stern sneer: "The debris of a riotous galaxy just became the first person I hunted and became my first point!"

bump! bump!

The man stepped out, condensed a war sword with divine power, and a knife slammed toward the landing.

This is the incomplete divine skill that he cultivates, the sword light is extremely fast, is filled with the tyrannical atmosphere.

Lu Ming's face was calm, and in his hand, with the power of the master, he condensed a spear and stabbed it.

call out!

This gun is as fast as lightning, and in five moments, five changes have occurred.

"this is..."

The other party wants to resist, but for a time, I do not know how to resist.

Boom!

Lu Ming's spear directly pierced the opponent's eyebrows and pierced through.

"you you..."

The other party's eyes were round and his face was incredible.

Originally, he also wanted to kill Lu Ming, making Lu Ming the first point he earned. Unexpectedly, he died in Lu Ming's hands with one move.

A rioting galaxy is so strong?

"Sorry, what you said is exactly what I want to say. It is your pleasure to contribute my first point!"

Lu Ming smiled lightly, then the spear shook, and the other party's body was torn apart, dissipated into energy.

Of course, with this rule, there are two chances that the opponent can be resurrected elsewhere and continue to participate in the fight.

If you die again for the second time, there will be no chance, as many points as there are points.

After killing a person, the badge on Lu Ming's chest suddenly showed a faint light, and a message appeared in Lu Ming's brain.

Lu Ming: The twentieth region, from the rioting galaxy, currently scores one point and ranks 28,560.

"It turns out, this badge, and this use!"

Lu Ming smiled.

In this way, he can always know his ranking.

"Three months, enough!"

Lu Ming smiled and walked out of the yard.

Walking out of the courtyard is a wide street.

On both sides of the street, there are all kinds of buildings.

At the moment, the two men had already divided the victory and defeat, one of them was beheaded, but the other one was also injured, dared not to stay, and escaped in secret.

Uh!

Lu Ming rushed into a house, and then ran across the room.

This is very dangerous and easy to be targeted by others, but Lu Ming intentionally.

Instead of looking for those people one by one, it is better to let others come to him.

Sure enough, someone started!

In a house, a figure, like an arrow from the string, pounced on Lu Ming, and at the same time, the sharp sword light pierced Lu Ming's eyebrows.

"Come well!"

Lu Ming's backhand was a shot.

when!

The spear hit the opponent's sword light, the opponent's body thundered, flew backwards, blood sputtered in his mouth, eyes were full of incredible colors.

He felt very clear that Lu Ming was only to cultivate the virtual realm, and had not yet reached the virtual **** realm.

And he, although the cultivation practice was suppressed here, but there is also a cultivation practice of the virtual **** realm, which was actually directly flew by Lu Mingzhen, and was seriously injured.

"kill!"

Lu Ming stepped **** both feet, and his body swooped out. At the same time, a sharp spear pierced the void and killed the opponent in the air.

Kill easily!

Lu Ming's expression remained unchanged.

The other party's control of the divine power is just ordinary divine power. Although Lu Mingxiu is not as good as the other party, the other party is suppressed in the virtual **** realm. He killed him easily.

This is still here, under the premise that the war character tactics cannot be used, if the war character tactics can be used, Lu Ming's strength will be even more amazing.
