

D Emperor 2861

Chapter 2861: Planet devourer

Lu Ming, Ouyang Qingxiang, and two other men and women set foot together on the teleportation array. The next moment, they appeared in midair.

On top of them, there is a vortex, which slowly rotates.

Three months later, as long as they come back here, they can return to Kong Xuanzong.

"It seems that the three of us have different locations to send in."

Lu Ming looked away.

He and Ouyang Qingxiang and two other men and women were together, but they did not see their figures, the Supreme Son and the Floating Son. Obviously, they were separated after being sent in.

"That's fine, let's go and find the planet devourer."

Ouyang Qingxiang said.

The four flew downward.

The ground below is dead.

The planet devourer is a terrible creature in the wilderness universe. This kind of creature will be born naturally when a certain planet is about to die.

They will devour the planet's energy and accelerate the planet's aging and depletion.

The ground below, without any trees, is very thin, and there are caves on the ground, densely packed like honeycombs. These caves were excavated by planet devourers devouring the energy of the planet.

"Go, we enter these caves, the planet devourers must be hiding in these caves."

Ouyang Qingxiang said.

Lu Ming nodded and flew towards a cave.

Just then, one of the cave figures flashed, and then a figure rushed out.

Creak...

There was a harsh voice in the mouth of this figure.

"It's the planet devourer."

All four eyes are bright.

Unexpectedly, I came across a planet devourer.

The body of the planet devourer is extremely tall, ten meters high, like a huge insect, with two claws in front of it, like two magic swords.

In particular, its mouth is large and pointed, covered with fangs, and it is very cruel.

And its body is bronze.

This is the bronze planet devourer.

"A bronze planet devourer, let me destroy him." The young man behind Ouyang Qingxiang stepped out, and with a battle axe in his hand, he was going to kill the bronze planet devourer.

A man and a woman brought by Ouyang Qingxiang are named Kang Chong and Liu Jie. These two are the best talents of Ouyang Qingxiang's men.

The divine power controlled by the two, although not the holy divine power, is also the top-level Wangpin divine power.

Of course, their cultivation time is not short, they have been practicing for hundreds of thousands of years, otherwise there is no such advanced cultivation practice.

Among the disciples of Kong Xuanzong's inner disciples, those who have been practicing for hundreds of thousands of years are considered younger generations.

Kang Chong's momentum is blooming, the magic power is running, the battle axe is shining, and an axe is cut towards the planet devourer.

Creak...

The planet devourer screamed, his body twisted, and at an alarming speed, he rushed towards Kang Chong, and two sharp claw-like claws slashed towards Kang Chong.

"So fast!"

Lu Ming and Ouyang Qingxiang were shocked.

Kang Chong was also shocked. Obviously, the speed of the planet devourer was so amazing.

At a critical moment, he roared, his moves changed, the battle axe was chopped out like a storm, and hundreds of axes were chopped out in an instant. Around the body, there were shadows of the axe.

when! when! ...

In the middle of the air, there was a dense collision and roar, and then the two figures backed away.

Kang Chong, and the Planet Devourer, each retreated tens of thousands of meters.

"Good strength!"

Lu Ming and Ouyang Qingxiang were shocked in their eyes.

This planet devourer can actually contend with Kang Chong.

You should know that Kang Chong's cultivation practice has reached the fourfold of the gods, and the combat power is absolutely not weak, otherwise, Ouyang Qingxiang will not choose him to help.

And this planet devourer is just a bronze-level planet devourer, and has such a strong combat power.

How strong should the higher-level silver devourer and the golden planet devourer be?

Several people looked at each other, and they saw the dignity in their eyes.

It seems that this point is not easy to get.

"kill!"

At this moment, Kang Chong roared, brandished a battle axe, and used his magical skills to kill the bronze planet devourer.

The Bronze Planet Devourer also screamed, killing Kang Chong, the two fought fiercely together, fighting dozens of moves, it is difficult to distinguish the winner.

"Together, quick battle."

Ouyang Qingxiang opened his mouth, and his body rushed out, and a blue sword gas bloomed, slashing towards the bronze planet devourer.

Keng!

Jian Qi chopped on the claws of the planet devourer, and cut a deep trace, almost cutting the claws in two.

Ouyang Qingxiang's cultivation practice, although it is also the fourfold of the gods, but its strength is much stronger than Kang Chong. As soon as she shot, she completely suppressed the planet devourer.

"Qinglian Sword Song!"

Ouyang Qingxiang sipped, a blue sword gas bloomed, covering the planet devourer. Although the strength of the planet devourer was strong, it was still completely suppressed.

After a few strokes, the sword flashed and the planet devourer's head was cut off.

With a wave of his hand, Ouyang Qingxiang put away the head of the planet devourer. At that time, as long as he took the head of the planet devourer back, the points could be calculated.

"go!"

Subsequently, the four rushed into a cave.

The entire planet seems to have been dug, covered with caves, extending in all directions, like a maze.

The four were flying along a cave without direction.

It's a pity that after searching for several hours, a planet devourer didn't encounter it.

"It seems that there are not many planet devourers."

Lu Ming frowned.

"What should I do? If this continues, three months will pass quickly. If we are out of luck and have not found many planet devourers, wouldn't it be better than the other two parties."

Kang Chong said anxiously.

In Kang Chong's and Liu Jie's minds, their strength is the weakest, but it is no match for the Supreme Son and Fuguang Son, so this round is crucial.

If the first round of points is higher, it can be compared with the other two parties. If the first round of points is not as good as the other two parties, then it really cannot be compared.

"The habit of planet devourers is to consume the energy of the planet, so it must be extremely sensitive to energy. We leave these caves and go to the ground, and then use the crystal or various gemstones to emit energy fluctuations, which may attract planet devourers. ."

Lu Ming said.

Ouyang Qingxiang, Kang Chong, and Liu Jie all had bright eyes.

"Lu Ming Shengzi is really keen, Kang Chong admires."

Kang Chong clenched his fists.

"Go, give it a try."

Lu Ming said, and then the four of them flew towards the wind. They were too lazy to return along the channel, directly bombarding the rock, puncturing the rock, and rushing to the surface.

Chapter 2862: Continuous battle

After rushing to the surface, they took out a large number of divine crystals, as well as some precious gemstones, various refining materials, urged by divine power, so that the energy of these materials fluctuated and spread far away.

And a few of them just waited like this.

In an instant, a few hours passed.

Creak...

In the distance, a sharp voice came.

"coming!"

Ouyang Qingxiang several people, eyes bright.

call out! call out! ...

In the distance, several figures rushed here like lightning.

A total of five planet devourers are all bronze.

Kung fu pays attention to people, this method is really useful, and suddenly attracted five heads.

"Kang Chong, Liu Jie, you two deal with a planet devourer one by one, and the remaining three heads, give me Lu Mingsheng son."

Ouyang Qingxiang assigned her respective tasks, and then flashed out of the figure, rushing out of her, a blue sword light bloomed in her hands, and killed towards the two bronze planet devourers.

Kang Chong, Liu Jie, and Lu Ming rushed to each one.

boom!

In the process of rushing out, Lu Ming triggered four times the fighting strength of Zhanzi Jue and stabbed him with one shot.

A spear pierced a planet devourer.

when!

The planet devourer clawed his claws, slashing towards Lu Ming like a sword, collided with his spear, and burst into a violent shock. Lu Ming felt a sharp and terrifying power coming in, and his body stepped back a few steps.

The planet devourer was also blown out by Lu Ming.

"The strength is amazing."

Lu Ming's heart moved, and then nine ice chains flew out and entangled toward the other party.

Lu Ming did not use ancient gods.

Although the power of the ancient **** body is powerful, it also consumes a lot of physical energy. After it is used once, it needs at least two days of rest before it can be used again.

So under normal circumstances, Lu Ming will not use ancient gods.

After using the chain of ice, Lu Ming again exhibited the magic formula of the dragon, a nine-claw dragon flew out, culling the bronze devourer.

In addition to the ancient gods not being used, Lu Ming can be said to have done all he could to suppress the bronze planet devourer.

The two battled fiercely.

However, Lu Ming did not exhibit the ancient **** body, and his combat power was not as good as Ouyang Qingxiang. He wanted to kill the bronze devourers. It was not so easy. After dozens of battles, Lu Ming seized an opportunity and used this to cut the moon. Trick, one trick broke the stomach of the bronze devourer and hit it hard.

Then, nine ice chains seized the opportunity to entangle the Bronze Planet Devourer firmly, stiffening the opponent's body.

"Cut the moon!"

Lu Ming swept out with a spear, and a crescent-shaped spear flashed, and the bronze devourer's head was cut off.

With a wave of his hand, the head of the bronze devourer was put away, and he looked in the other direction.

At the moment, Ouyang Qingxiang has solved two bronze devourers, but Kang Chong and Liu Jie are inseparable from the battle of a bronze planet devourer.

Ouyang Qingxiang and Lu Ming rushed to one person to help each other kill the bronze planet devourer.

Soon, the remaining two were also killed by them.

In this way, they killed a total of six bronze-level planet devourers and scored six points.

This point is naturally too little, but this method of attraction is useful, they continue to attract.

Unfortunately, for most of the next day, no planet devourer came.

"It seems that all the nearby planet devourers are here, and we will change places."

Lu Ming proposed.

The people nodded, put away all the gemstones, and chose a direction to fly away.

About 10 million miles were flown, and it was estimated that the distance was almost the same. They stopped, put down the crystals and gems, and continued to attract planet devourers in this way.

"Come! A lot!"

Kang Chong exclaimed suddenly.

This time, in less than an hour, a squeaking sound came from far away, coming from different caves.

Then, in some caves, the figure flickered, rushing out a planet devourer.

Ten!

This time, there were ten of them all at once, all of which were bronze-level planet devourers.

Several people's faces are dignified.

"Kang Chong, Liu Jie, you two join hands and pay attention to self-preservation."

Ouyang Qingxiang ordered Kang Chong and Liu Jie.

Faced with so many bronze-level planet devourers, the strength of Kang Chong and Liu Jie is somewhat dangerous.

"The saint, don't worry, don't worry about us."

Liu Jiedao.

"kill!"

Lu Ming was very simple, holding a spear, and rushed directly towards the bronze devourer. During the process of rushing out, Lu Ming's body swelled up sharply, turning into a 100-meter-high ancient green armor.

With so many planet devourers coming at once, Lu Ming couldn't care about retaining his strength, otherwise, it would be difficult for Ouyang Qingxiang alone to fight against so many bronze planet devourers.

Turning into an ancient god, Lu Ming's strength skyrocketed, and his spear was swept out like a mountain.

boom!

A planet devourer was directly swept away by Lu Ming and hit a mountain peak. The mountain exploded, and the planet devourer was half dead.

Casting an ancient **** body, Lu Ming is stronger than Ouyang Qingxiang, and can completely crush the bronze planet devourer.

Creak...

A sharp voice sounded, and at the same time there were five planet devourers, who rushed to Lu Ming from five directions. The speed was amazing.

"Broken, Broken..."

Lu Ming continued to perform three annihilation blows, and five spears burst out, stabbing the five planet devourers.

bump! bump! ...

Although the five shots were stabbed in a row and the power was weakened separately, it still suppressed the five planet devourers and flew the five planet devourers out.

"Three strikes to destroy the world, cut the moon!"

Lu Ming rushed towards one of them, swept it out, beheaded the planet devourer, and then killed the other.

While Lu Ming shot, Ouyang Qingxiang also shot.

She performed the Qinglian sword song, and a lot of blue lotus emerged, and the sky was full of sword gas, which enveloped the four planet devourers.

At the same time, Kang Chong and Liu Jie also went to help Ouyang Qingxiang. Suddenly, a bronze planet devourer was killed by Ouyang Qingxiang.

"Kill, kill, kill!"

Lu Ming alone, killing the devourers of other planets is completely crushed. In every move, a planet devourer is killed by Lu Ming.

After a while, five planet devourers were killed by Lu Ming, plus the first one, Lu Ming killed six.

At this moment, Ouyang Qingxiang and others are about to resolve the battle.

Of the four planet devourers, three have been killed, leaving only the last one.

call out!

Ouyang Qingxiang was chopped off with a sword, and the last planet devourer was also beheaded.

But at this moment, Lu Ming's pupils shrank and shouted: "Be careful!"

Chapter 2863: Silver Devourer

"Be careful!"

Lu Ming shouted.

Because at this moment, in the cave below, there was a flash of light suddenly, this light was silver, like a heavenly sword, slashing towards Ouyang Qingxiang at an alarming speed.

Quick, too fast!

This light completely covered Ouyang Qingxiang, Kang Chong and Liu Jie.

At this moment, Ouyang Qingxiang wanted to avoid it, too late.

And even if she could avoid it, Kang Chong and Liu Jie could not avoid it.

"Qinglian Sword Field!"

Ouyang Qingxiang drank, and on her body, a blue sword gas bloomed, forming a lot of lotus flowers, floating around them, covering the three of them.

bump!

That silver ray of light was chopped on the blue lotus, which constantly exploded and burst.

The light kept bombarding Ouyang Qingxiang.

Ouyang Qingxiang has long exhibited her body protection skills, wearing a body armor, but was hit by this attack, and her body flew out, vomiting blood.

"Holy Lady!"

Kang Chong and Liu Jie were frightened and rushed to Ouyang Qingxiang.

At the same time, Lu Ming performed the nine-day Kunpeng technique, which seemed to turn into a huge Kunpeng. Under a flash, the figure of 100 meters high was blocked in front of Ouyang Qingxiang and others, looking forward.

At that moment, the silver light finally showed its true meaning.

It was a silver planet devourer. It looked almost the same as the previous bronze devourer, except that it was silver.

"Silver planet devourer!"

Lu Ming's eyes narrowed slightly.

Silver level planet devourer, kill one, you can get five points.

The silver devourer, staring at the ice cold, staring at the landing Ming, suddenly twisted his body, turned into a silver light, and killed Lu Ming.

"Ice Chain, come out!"

Lu Ming whispered, nine chains of ice flew out, and killed the White Bank Star Devourer.

However, the speed of the White Bank Star Devourer is extremely alarming, constantly flashing in the air, directly avoiding the attack of the ice chain and continuing to kill Lu Ming.

"Broken, Broken..."

Lu Ming's spear burst out, stabbing a dozen shots instantly.

This time, the White Bank Star Devourer was not evading, waving his sharp claws, and slashed to Lu Ming.

when! when! ...

In an instant, the two collided a dozen tricks.

Lu Ming felt that a force of terror came along the spear, causing his arm to numb, and his body could not help backing up again and again.

"What a terrible power..."

Lu Ming was shocked.

After the collision just now, Lu Ming was shocked to find that the power of this white bank star devourer was still above him.

He is now, but the existence of the ancient **** body is still suppressed in strength.

Squeak...

The sharp cries sounded, and the two claws of the White Bank Star Devourer, like a storm, slashed towards Lu Ming.

Lu Ming waved his spear and fought against the opponent with all his strength. Nine ice chains continued to wave out, but was easily crushed by the opponent's claws.

However, some of Lu Ming's divine power is that the ice chain was destroyed and continued to condense out. In this way, the cold air on the ice chain eventually caused some influence on the White Bank Star Devourer.

Roar!

Long Yin Zhentian, Lu Ming displayed the magic dragon magic formula, a nine-clawed dragon screamed out.

Lu Ming did his best to stabilize the situation.

"Lu Ming, I will help you."

Ouyang Qingxiang stabilized the injury, surging in divine power, and a huge blue lotus emerged, pressing against the White Bank Star Devourer, endless sword energy, and constantly killing the Planet Devourer.

Lu Ming and Ouyang Qingxiang joined forces, and finally recovered their disadvantages, and finally began to prevail.

Although the strength of the White Bank Star Devourer is strong, it must be defended against Ouyang Qingxiang's attack and Lu Ming's attack while suddenly losing.

"Cut the moon!"

Lu Ming waved his spear and attacked the Silver Devourer insanely.

bump!

The White Bank Star Devourer struggled to resist, but was blasted for thousands of kilometers.

"Qinglian Sword Field!"

Ouyang Qingxiang's hands pressed, and a lot of small blue lotus appeared, appearing around the silver devourer, infinite sword energy, leaving a scar on the white bank star devourer.

Besieged by Lu Ming and Ouyang Qingxiang, the White Bank star devoured, and finally lost, was completely suppressed.

Dozens of more battles.

puff!

Lu Ming took a shot and penetrated through the mouthpiece of the White Bank Star Devourer. Then, Ouyang Qingxiang cut out with a sword and cut off the head of the White Bank Star Devourer.

Huh...

Lu Ming and Ouyang Qingxiang often breathe out.

Finally solved the white bank star devourer.

The strength of the White Bank Star Devourer is beyond their imagination, it is too strong, Lu Ming alone can only barely contend, and is not the opponent of the White Bank Star Devourer.

Coupled with Ouyang Qingxiang, so many battles, only the White Bank star devourers were killed.

Lu Ming's body shrank and turned into a normal form. He felt a sense of weakness coming from him. This was caused by too much physical exertion.

Lu Ming has the quantification tactics, the divine power is constant, but the physical strength is not the divine power.

Turning into the form of an ancient god, the physical energy consumption is very large, the longer it is maintained, the greater the physical energy consumption.

Of course, as Lu Ming's body becomes stronger and stronger, his physical strength will also become stronger.

Physical strength is related to the strength of the divine body and has nothing to do with divine power.

"Come on, let's leave here and find a place to rest."

Lu Ming said.

Ouyang Qingxiang and others nodded, and a few people left in a flash, found a secret place, and stopped.

Ouyang Qingxiang was previously attacked by White Bank Star devourers and suffered a lot of injuries. Lu Ming also needed to restore his strength.

They stayed here for two days, and after two days, everyone's condition has returned to its peak.

"Next, we still have to be careful, don't release too many **** crystals or gems, so as not to attract too many planet devourers."

Lu Ming proposed.

The last time it only attracted a white bank star devourer, they almost fell into crisis. If there were more white bank star devourers, they would all be in danger.

In case, a golden planet devourer is even more terrifying.

The White Bank Star Devourers are so powerful, the strength of the Golden Planet Devourers can be imagined.

"Unexpectedly, the strength of the planet devourer is so strong, I don't know what their record is for the Supreme Son and the Floating Son?"

Kang Chong sighed, worried.

The strength of the planet devourer is too strong, he and Liu Jie came in, did not help much, a little guilty.

"No need to think about it, let's go!"

Ouyang Qingxiang patted Kang Chong and Liu Jie's shoulders, just about to leave.

"Wait!"

Lu Ming suddenly called out.

"Brother Lu, what's wrong?"

Ouyang Qingxiang said with surprise.

"Be careful, there is something under the ground?"

Lu Ming said solemnly.

"There is something underground?"

Ouyang Qingxiang, Kang Chong, and Liu Jie all changed their faces, and they felt their emotions.

Chapter 2864: Injured Gold Devourer

Rumble!

Ouyang Qingxiang and others sensed it, and really heard a dull sound beneath the ground, and it seemed that something was walking under the ground, coming towards them.

Lu Ming and the four of them are running their magical powers, laying defenses on their bodies and concentrating.

Rumble!

The roaring underground is getting louder and louder, and the sound of vibration is getting louder and louder.

"Sky!"

Lu Ming's complexion suddenly changed and shouted.

bump!

At this moment, the ground exploded with a golden light, slamming toward the landing.

Tolerating Lu Ming's thoughts, he brandished a lance with a rail in front of him.

when!

With a trembling shock, Lu Ming's body rushed back out and smashed through a mountain.

"Lu Ming!"

"Son!"

Ouyang Qingxiang and others were shocked.

"Don't mind me, go to the sky!"

Lu Ming roared, rushed out of the pile of rocks, and rushed to the sky, a trace of blood spilled from the corner of his mouth.

At the same time, Ouyang Qingxiang and others also rushed into the sky.

bump!

The ground exploded, and a behemoth appeared on the ground.

Planet devourer!

The difference is that this planet devourer is extremely burly, stands on the ground, is 30 meters high, and the body is golden yellow.

The golden planet devourer.

Four people Lu Ming tremble in their hearts.

Especially Kang Chong and Liu Jie, their faces are even white.

The golden planet devourers actually took the initiative to find them.

"No, this planet devourer was injured. Look, he has a wound in his abdomen."

Lu Ming spoke suddenly.

Ouyang Qingxiang and others watched carefully, and they saw wounds on the Golden Planet Devourer.

"That seems to be a fist print. What a terrible strength. Who can leave a fist print on the Golden Planet Devourer?"

Kang Chong said with a pale face.

"It is the Supreme Divine Fist, the Supreme Son, this golden devourer, most likely escaped after being injured by the Supreme Son, and just escaped to our side."

Ouyang Qingxiang said.

"Injured Golden Planet Devourer!"

There was a cold light in Lu Ming's eyes. No wonder he just took a move and felt that although the power of the golden planet devourer was strong, it was not too strong.

After all, he was caught off guard just now, and under normal conditions, he also blocked the opponent's blow.

"Kill him!"

Lu Ming spoke coldly.

"It is good!"

Ouyang Qingxiang is also a decisive person, nodding directly.

A golden planet devourer, but worth fifty points, need to kill fifty bronze planet devourers, or ten white bank stars devourers, to have such points.

Since they were hit by an injured gold devourer, they should not be missed.

But obviously, they want to kill the golden planet devourers, and the golden planet devourers also want to kill them.

Creak...

The Golden Planet Devourer made a sharp cry and stepped on the ground. The ground burst and burst. The Golden Planet Devourer turned into a few golden war knives and soared into the sky, screaming at the landing, Ouyang Qingxiang and others.

"kill!"

Lu Ming shouted, and his body began to grow rapidly, turning into a 100-meter-high ancient god, and killed the golden planet devourer with a gun.

"Qinglian Sword Song!"

Ouyang Qingxiang also shot, a sword as thick as a mountain, chopped towards the golden planet devourer.

boom! boom!

The attacks from both sides collided together, and a violent roar erupted, full of energy.

Lu Ming and Ouyang Qingxiang were shocked and drifted back.

However, the body of the Golden Planet Devourer also drifted back tens of thousands of meters.

This move is equally divided, but the faces of Lu Ming and Ouyang Qingxiang show a happy look.

This golden planet devourer was really injured, seriously affecting the combat power, and they were able to contend.

"Qinglian sword song, sword swings the world!"

Ouyang Qingxiang drank, her entire body was shrouded in cyan sword light. Under her feet, a huge cyan lotus appeared, and the petals turned to wrap Ouyang Qingxiang inside. Ouyang Qingxiang seemed to turn into a blue Sword Qi, descending from the sky, slashed towards the Golden Planet Devourer.

"Chain of Ice, Fascination of the Dragon, Three Strikes..."

In an instant, Lu Ming used various magical techniques and secret techniques.

Various attacks rushed towards the Golden Planet Devourer at the same time.

Creak...

The golden planet devourer screamed. Two front claws, like two golden war knives, came out in two, and two golden lights of light burst out.

boom! boom! ...

The attacks from both sides dissipated, but there was no pause, and the next round of attacks broke out.

In such a battle, Kang Chong and Liu Jie couldn't get in the way, and could only wait on the sidelines.

They only saw three figures, constantly flashing in the air, and constantly colliding, inspiring a terrible wave of strength.

Every collision, there is a circle of energy ripples, pervading all directions, the two of them can only retreat one after another.

Life and death on both sides, fierce battle to madness!

"Shenlong Fa Xiangjue..."

Lu Ming Changxiao felt that the blood in his body was boiling, and a burst of Long Yin came from him.

Roar! Roar!

Two consecutive sounds of dragon chanting came out, and two nine-claw **** dragons appeared above Lu Ming's head.

Lu Ming's magic formula for the magic dragon actually broke through at a critical moment, condensing two magic patterns for the dragon in one fell swoop.

The two nine-clawed dragons roared, and from two directions, they rushed to the golden planet devourer.

Up to now, the two sides have fought nearly one hundred moves. The Golden Planet Devourer was finally injured, and the combat power has weakened a lot. In addition, during the battle, the injury occurred and gradually lost to Lu Ming and Ouyang Qingxiang.

"Fragrant Fragrance Lady, you trap it for a while, and I will attack his injured place."

Lu Ming sent a voice to Ouyang Qingxiang.

"give it to me!"

Ouyang Qingxiang responded.

"Qinglian Sword Field!"

Ouyang Qingxiang drank, the war sword in his hand, waved in a mysterious posture, the infinite Qinglian sword gas burst out, the sword gas was vertical and horizontal, forming a Qinglian sword domain, which pressed against the golden planet devourer.

The infinite sword energy, the Qinglian sword domain formed, although the attack power is not strong, but the role of trapping the enemy is very weak.

The Golden Planet Devourer was suppressed by the Qinglian Sword Domain. Although he waved two front claws to split the Qinglian Sword Domain, it was still stiffened by the infinite sword gas.

Lu Ming wanted this opportunity.

"Three strikes to destroy the world!"

The man and the gun are united, and Lu Ming turns into a dazzling lance, which pierces the void and pierces the Golden Planet Devourer, and what Lu Ming is facing is the fist print on the chest of the Golden Planet Devourer.

The golden planet devourer, covered with a carapace, is very hard and difficult to break.

However, the carapace on its abdomen is the thinnest, and it was also injured. There are several punches. This is its weakness.

Lu Ming's long spear accurately punctured a fist print on the abdomen of the Golden Planet Devourer.

"Break me!"

Lu Ming Changxiao, with a divine power, exploded in madness.

Poof!

The spear finally pierced the carapace of the Golden Planet Devourer.

Chapter 2865: Chase

Lu Ming's spear pierced the carapace of the Golden Planet Devourer, and there was no gun handle. The powerful magical power burst out and exploded inside the Golden Planet Devourer's body.

Creak...

The Golden Planet Devourer burst into a screaming scream, and his two front paws waved wildly, slashing towards Lu Ming.

Lu Ming's face changed, he could not pull out his spear, and his body quickly retreated, avoiding the attack of the Golden Planet Devourer.

boom! boom! ...

The Golden Planet Devourer is completely crazy, and his front claws are madly slashed, instantly destroying the Qinglian sword territory, and then turning into a golden streamer, quickly escaping towards the distance.

"This beast, so strong vitality!"

Lu Ming was also shocked.

Just a moment ago, he pierced through the opponent's body with a single shot, and the divine power erupted from the opponent's body, but he didn't kill him.

"Lu Ming, do not chase!"

Ouyang Qingxiang asked.

"Chasing! Of course we have to chase, go!"

Lu Ming said, moving, chasing in the direction of the golden planet devourer.

One of the golden planet devourers is worth fifty points. At this moment, the other party has been seriously injured. This is a rare opportunity. How can it be missed?

If they are intact golden planet devourers, they are absolutely difficult to kill.

"go!"

Ouyang Qingxiang, Kang Chong, Liu Jie and others also chased after Landing Ming.

After chasing and fleeing, the two sides flew hundreds of thousands of miles in a blink of an eye.

Lu Ming performed the Nine-day Kunpeng technique, which is extremely fast, and has gradually reduced the distance from the golden planet devourer.

But at this time, the Golden Planet Devourer rushed directly into a cave on the ground and disappeared.

Lu Ming's face changed, and then rushed into the cave, but the next moment, Lu Ming had to stop.

Because, among the caves, there are dense, criss-crossing patterns, like a labyrinth, and the golden planet devourers have disappeared.

"unfortunately!"

Lu Ming sighed, and was actually escaped by the other party, missing fifty points.

Lu Ming flew out of the cave, Ouyang Qingxiang and Kang Chong, Liu Jie and three, and chased.

"Lu Ming, how is it?"

Ouyang Qingxiang asked.

"Under this cave, there are passages, and the Golden Planet Devourer disappears into the cave."

Lu Ming shook his head and smiled.

"It can't escape!"

At this moment, Liu Jie suddenly said.

"Yes, I am naturally in control of a star-stamping method. The biggest function is to track. During your previous war, I have quietly attached a star-stamping method to the golden planet devourer. I You can trace its whereabouts by using the starry sky printing method!"

Liu Jie looked at herself.

"really!"

Lu Ming was happy.

"It's true, Liu Jie does control the starry sky."

Ouyang Qingxiang said.

"Okay, follow up immediately, and when his injury recovers, it will be hard to deal with."

Lu Ming said.

Liu Jie nodded, and then began to display the seal. On her body, there was constant light of stars shining, forming a mysterious rune.

This is Liu Jie's own and was born.

Lu Ming secretly wondered, the vastness of the universe, as expected, there are all kinds of people.

"Here, go!"

After a while, Liu Jie spoke and flew in one direction.

Everyone followed Liu Jie. They had been tracking for most of the day, and finally stopped their bodies in a dark seam.

"I can feel that the golden planet devourer is just below this seam."

Liu Jiedao.

Lu Ming and Ouyang Qingxiang looked at the seam.

The ground seam is not wide, swarthy, and it is not clear what is underneath. It can be seen that this ground seam is very deep.

"How can I feel a sense of crisis vaguely!"

Ouyang Qingxiang frowned.

"I have this feeling too. I'm afraid there will be other planet devourers below."

Lu Ming said.

"So what should we do?"

Ouyang Qingxiang asked, unconsciously, Ouyang Qingxiang has paid more attention to Lu Ming's opinion.

"Well, let us two go down, Kang Chong and Liu Jie stay on it."

Lu Ming said.

He and Ouyang Qingxiang's strength is strong, and everyone in the bottom card can save their lives in case of any situation. Kang Chong and Liu Jie will go down. In case of a crisis, they may be dangerous.

"How can the two of us stay on our own alone, we have to go down together."

"Not bad!"

Kang Chong and Liu Jie spoke one after another and were very loyal to Ouyang Qingxiang.

"No, you stay on it!"

Ouyang Qingxiang waved his hand, slashing the gold and iron, beyond doubt.

Kang Chong and Liu Jie can only nod and agree.

However, Lu Ming and Ouyang Qingxiang cannot go on immediately.

Because Lu Ming turned into an ancient **** body before, the physical exertion was severe, and he has not recovered.

Lu Mingpan sat in the air and took out a few divine pills to swallow down. This divine pill could quickly restore physical strength.

If Lu Ming recovers normally, it takes two days for physical strength to return to the heyday, but with this kind of magical pill, in just two hours, Lu Ming has returned to its peak.

"go!"

Lu Ming and Ouyang Qingxiang stepped out and drifted down towards the ground.

The two did not dare to carelessly, and they started the defensive magic skills, covering the whole body.

Lu Ming opened the nine-fold red gold armor, a red gold armor, covering him.

On the body of Ouyang Qingxiang, there is a blue lotus.

The ground seam is very deep. The two of them keep going down. The more they go down, the bigger and wider the space below.

Creak...

On the walls on both sides of the ground seam, there was suddenly a shrill cry.

"Be careful..."

Lu Ming reminded.

Lu Ming's voice didn't fall, the wall on one side suddenly burst apart, and a silvery light chopped towards Landing Ming.

"White Bank Star Devourer!"

Lu Ming's eyes narrowed and his spear burst out.

The previous spear was lost on the Golden Planet Devourer, but Lu Ming had more than one spear on his body.

Prior to this, Lu Ming had purchased several spears, all of which were of the top-grade artifact level, and were dedicated to the powerful players of the **** of heaven.

Keng!

The lance collided with the White Bank Star devourer, and a violent roar erupted, and both sides retreated.

"Qinglian Sword Song!"

Ouyang Qingxiang seized the opportunity, and also killed him, with a sword spirit, covering the white bank star devourer.

At the same time, Lu Ming twitched the dragon's magic formula, and the two nine-clawed dragons rushed to the White Bank Star Devourer. At the same time, Lu Ming exhibited three World Extermination strikes and killed the White Bank Star Devourer.

Lu Ming and Ouyang Qingxiang joined forces, plus Lu Ming's strength has improved a bit, and soon began to suppress the white bank star devourer.

Seeing that they will join forces to kill the White Bank Star Devourer, not far away, there is a sharp cry, and then, there is another flash of silver, and another White Bank Star Devourer is killing them.

"not good!"

Lu Ming and Ouyang Qingxiang both had their faces sinking.

Here, there are actually two White Bank Star devourers.

The two of them can deal with a white bank star devourer, but it is difficult to deal with two.

Chapter 2866: Ouyang Qingxiang Breakthrough

The planet devourer in the back fought towards Ouyang Qingxiang, while the devourer in front of the white bank star attacked Lu Ming with all his might.

Lu Ming shot with all his strength and could only draw a tie with a white bank star devourer.

However, Ouyang Qingxiang is invincible, and she is completely under the wind by the devourer of the planet behind, and the situation is in jeopardy.

call out!

Ouyang Qingxiang was inadvertently cut into the claws of the devourer of the White Bank Star and directly broke her body protector Qinglian, almost cutting Ouyang Qingxiang into two pieces. Although Ouyang Qingxiang successfully avoided it, she still remained A blood stain appeared, and blood flowed.

"Not good!"

Lu Ming frowned.

But now, he is entangled by a white bank star devourer, and he can only save himself. It is almost impossible to rescue him.

Ouyang Qingxiang was injured and the situation was even more critical. She was swallowed by a North Bank star and forced to retreat again and again.

"Qinglian recovers!"

Ouyang Qingxiang's eyes showed a decisive color, and with a sip, she radiated a dazzling radiance, infinite sword spirit, and gathered into a huge blue lotus, which enveloped Ouyang Qingxiang.

Keng! Keng!

The claws of the White Bank Star Devourer were continuously chopped on the blue lotus. The blue lotus kept shaking, and Mars was shining, but it was still blocked.

However, the crazy attack of the White Bank Star Devourer, two claws like lightning, can instantly cut out hundreds of attacks. The blue lotus around Ouyang Qingxiang's body is shaking more and more violently, so it can't stop it for a long time.

"How to do?"

Lu Ming was battling against the White Bank Star Devourer while pondering the countermeasures.

Ouyang Qingxiang will certainly not be able to support it for too long.

Today, there is only one way before Lu Ming's eyes, and that is to burn the heart of the ancient god.

Burning the heart of the ancient god, Lu Ming's strength will definitely soar, but the consequences are also very serious.

After the ancient god's heart burns, it will turn into nothingness, and even Lu Ming can't turn into an ancient **** body in the future, it's hard to say.

It is very likely that the heart of the ancient **** burned, and even the ancient **** body could not be transformed in the future, the loss to Lu Ming would be too great.

However, if you don't burn the heart of the ancient god, Ouyang Qingxiang is likely to fall here.

Lu Ming hesitated for a while.

bump! bump! ...

The attack of the White Bank Star devourer, the crazy attack on the blue lotus of Ouyang Qingxiang, the blue lotus shakes more and more violently.

Click!

Finally, a crack appeared on Qinglian, and the crack increased sharply.

"do not care!"

Lu Ming gritted his teeth. Under such circumstances, he could not die, and Lu Ming planned to start burning the heart of the ancient god.

But at this moment, the green lotus around Ouyang Qingxiang's body burst into burst, and at the same time, a strong breath burst out.

This breath, no doubt, belongs to Ouyang Qingxiang, but it is much stronger than before.

"This is...Five Gods!"

Lu Ming stunned for a while.

At the moment of crisis, Ouyang Qingxiang actually broke through, breaking through to the five gods of Tenjin in one fell swoop.

There is a big gap between each weight in Heavenly God Realm, and every time a breakthrough is made, the combat power will be greatly improved.

What's more, geniuses like Ouyang Qingxiang, cultivated as a breakthrough, and the power of mysterious magic skills and so on, have also skyrocketed.

call out!

A blue sword spirit bloomed from Ouyang Qingxiang's hands and slashed towards the white bank star devourer.

Keng!

While Mars was shining, the White Bank Star Devourer was chopped off by Ouyang Qingxiang, and hit the wall on one side, and the gravel splashed.

"Qinglian sword song, kill!"

Ouyang Qingxiang drank, the bright sword light broke out, and continuously slashed to the silver devourer.

When Tenjin was fourfold, Ouyang Qingxiang's strength was not as good as the White Bank Star Devourer, but Ouyang Qingxiang's strength was completely above the Silver Devourer, even above Lu Ming.

Swords of light enveloped the White Bank Star Devourer.

Contrary to the previous situation, in the past, Ouyang Qingxiang was suppressed by the White Bank star devourers, but now, Ouyang Qingxiang completely suppresses the White Bank star devourers.

Keng! Keng! ...

Jianguang and the White Bank Star Devourer kept colliding. After dozens of collisions, Ouyang Qingxiang seized the opportunity and broke the belly of the White Bank Star Devourer with a sword, hitting the White Bank Star Devourer badly.

Then, a sword light swept through and completely killed the White Bank Star Devourer.

After killing each other, Ouyang Qingxiang rushed to Lu Ming and killed the White Bank Star Devourer who fought with Lu Ming. The two teamed up and naturally crushed a planet devourer completely. After a few strokes, they beheaded each other.

Then, the heads of the two White Bank Star devourers were put away.

"Fragrance of the Fragrance Lady, it's amazing, at a critical moment, you can break through and cultivate."

Lu Ming smiled.

"This time was also a fluke. There was no way to deal with the danger just now, and I tried hard. I didn't expect to succeed."

Ouyang Qingxiang smiled slightly.

Ouyang Qingxiang breaks through, and they are more confident, as long as they don't encounter too many White Bank Star devourers, they will be fearless.

So, they slowly fell again.

Next, none of their planetary devourers met, as if the previous two white bank star devourers were all planet devourers.

Soon after, the two finally came under the seam.

Under the seam, there is a huge underground space, very spacious, and there are also channels around it, leading to all directions.

On one side of space, they saw the golden planet devourer.

It was the one who had been injured by them before, and Lu Ming stabbed the spear on the golden planet devourer, who had already pulled it out and threw it aside.

The wound has stopped bleeding, but the breath is still weak.

Before Lu Ming's move, the divine power exploded directly in its body, exploding the internal organs of the devourer of the golden planet. If its vitality is really strong, it may have fallen.

Creak...

Seeing Lu Ming and Ouyang Qingxiang, the Golden Planet Devourer made a sharp cry, and there was a bitter color in his eyes, as well as a cold killing opportunity.

Lu Ming and Ouyang Qingxiang, slowly approached the Golden Planet Devourer, preparing to launch a fatal blow.

Creak...

At this moment, a sharp cry came from a side channel, and then Lu Ming and Ouyang Qingxiang both saw a huge planet devourer crawling out.

This planet devourer also has a golden body.

Another golden planet devourer, and this golden planet devourer, appears to be in a hey state, and is not injured.

Lu Ming's and Ouyang Qingxiang's faces changed greatly.

A gold devourer in its heyday, even if Lu Ming and Ouyang Qingxiang join forces, I am afraid they are not opponents.

"No, let's retreat!"

Lu Ming sent a voice to Ouyang Qingxiang, and the two of them rose into the sky, intending to leave here.

Chapter 2867: Burning the Heart of the Ancient God

But at this moment, from another direction, a golden light flashed, and then, a huge monster appeared above Lu Ming's heads, and several golden lights shone toward Lu Ming and Ouyang Qingxiang, exploding There was a horrible roar.

"not good!"

At a critical moment, the two broke out to attack and resist, but the attack against them was too strong. The body of the two thundered and fell to the ground. They fell heavily on the ground and smashed the ground into two big pit.

The two felt numb, their qi and blood churned, and they almost vomited blood.

"The third golden planet devourer!"

Ouyang Qingxiang trembled, and Lu Ming's pupils contracted sharply.

It was another golden planet devourer who attacked them just now.

Here, there are actually three golden planet devourers.

The golden planet devourer appeared behind, suspended in the air, blocking the two of them from retreating.

And the second golden planet devourer, without hurrying, slowly paced towards them.

Creak...

Just as Lu Ming and Ouyang Qingxiang were thinking about how to get out, sharp noises were heard in several other directions.

Then, Lu Ming and Ouyang Qingxiang saw golden figures again and crawled out of each cave.

The golden planet devourers are all golden planet devourers.

Lu Ming glanced away and saw ten of them.

Plus the one that was injured by them before, it was eleven.

Their hearts have been sinking.

Here, there actually appeared eleven golden planet devourers.

A golden planet devourer, the two of them joined forces, they are not enemies, let alone eleven golden planet devourers.

"It's over, Lu Ming, this time it's me that will hurt you."

Ouyang Qingxiang's pretty face is white.

Facing eleven gold-level planet devourers, even if they are strong, they will definitely die.

"There may not be a chance of a war."

A cold light flashed in Lu Ming's eyes.

There is no way to fight, only to fight.

"It seems that burning the heart of the ancient gods today is burning!"

Lu Ming sighed. When dealing with the two White Bank Star devourers, Lu Ming planned to burn the ancient god's heart, but then Ouyang Qingxiang broke through, and he naturally didn't need to burn.

I originally thought that the heart of the ancient **** does not need to burn. I never expected that there are eleven gold-level planet devourers here. This is simply a den of the golden planet devourers.

"Lu Ming, you... have a way?"

Ouyang Qingxiang was uncertain, and she couldn't think of any way to deal with eleven gold-level planet devourers at the same time.

"You stand behind me!"

Lu Ming said.

Ouyang Qingxiang trusts Lu Ming very much. He heard the words and came to Lu Ming behind him.

At this moment, they have been surrounded by eleven gold-level planet devourers.

Creak...

Eleven gold-level planet devourers screamed, exhaling cold murderous opportunities.

call out! call out! call out! ...

Suddenly, in addition to the injured planet devourer, the other ten, at the same time, culled Xiang Luming.

"Come on, the heart of the ancient god, burn..."

Lu Ming shouted, and the ancient **** burst into flames.

When the ancient god's heart burned, a tremendous amount of energy burst out and poured into Lu Ming's body.

In the blink of an eye, Lu Ming's ancient **** body suddenly became stronger.

Roar!

Lu Ming made a violent growl in his throat, just like the resurrection of the ancient god.

Buzz!

Lu Ming shook the spear and instantly stabbed a dozen shots.

More than a dozen gunshots burst into amazing power, assassinating ten gold-level planet devourers.

bump! bump! bump!

The bodies of the ten gold-level planet devourers, like shells, were blown out by Lu Ming and hit the surrounding walls, causing the entire underground space to vibrate violently.

"This..."

Ouyang Qingxiang looked dumbfounded.

Lu Ming's combat power suddenly soared a lot, actually hitting ten gold-level planet devourers with his own strength. This combat power is already far above the Supreme Son.

And Lu Ming is just the cultivation of the true **** realm.

Ouyang Qingxiang's heart turned over the river and the sea, and ten gold-level planet devourers made a sharp cry, rushed out of the rocks, and killed Lu Ming one after another.

In addition, the injured gold-level planet devourer also killed Lu Ming.

As for Ouyang Qingxiang, they are completely ignored by the gold-level planet devourers. In their hearts, Lu Ming is the biggest threat. As long as Lu Ming is resolved, Ouyang Qingxiang can be killed at any time.

"Dead!"

At the moment, Lu Ming's body seemed to be filled with a tyrannical atmosphere, and there was only one word in his heart, that is, "war"!

war! war! war!

Lu Ming waved his spear, and stabbed fiercely at the abdomen of a gold-level planet devourer, regardless of other planet devourers.

puff!

Lu Ming's spear directly penetrated the gold-level planet devourer and nailed it to the ground.

At the same time, the attacks of other gold-level planet devourers have already fallen on Lu Ming.

"Be careful!"

Ouyang Qingxiang exclaimed.

Keng! Keng! Keng! ...

The claws of other gold devourers were cut on Lu Ming's body. However, the sharp claws before had not cut Lu Ming's body.

The green scales on the surface of Lu Ming's body became very hard. The claws of the gold-level planet devourer were cut on the scales on the surface of Lu Ming's body, emitting clangs, and Mars was shining, leaving a shallow line on it. White marks.

"kill!"

Lu Ming shouted, and stabbed out with another shot, assassinating a gold-grade planet devourer, and the other hand grabbed out, grabbed a gold-grade planet devourer, and pinched it directly. The gold-level planet devourer burst.

In the state of burning the heart of the ancient god, Lu Ming is too strong, completely crushing eleven gold-level planet devourers.

Next, Lu Ming launched thunder means, killing with terror, killing with special killing.

A terrible gold-level planet devourer was killed by Lu Ming.

Not long afterwards, eleven gold-level planet devourers lay everywhere in a row, all beheaded.

Ouyang Qingxiang looked dumbfounded, completely ignorant.

Huh...

At this moment, Lu Ming gasped for breath, and his body began to shrink rapidly, becoming the size of a normal person. He felt that a sense of weakness came from him, as if he would faint.

"The heart of the ancient **** is almost extinguished."

Lu Ming sensed the heart of the ancient god, and found that the heart of the ancient **** was dead, and there was no such vigorous vitality before. I am afraid that even the ancient **** body can't be used.

"Fortunately, all eleven gold devourers were beheaded!"

Lu Ming smiled bitterly.

As long as you save your life, the temporary loss is nothing.

"Lu Ming, are you okay!"

Ouyang Qingxiang reacted and hurried to the landing.

"I'm fine!"

Lu Ming smiled.

"Giggle, okay, okay, you can actually kill more than a dozen of my unskilled men, okay!"

Just then, a sharp laugh sounded.

Chapter 2868: Open copper coffin

Just when Lu Ming and Ouyang Qingxiang both breathed a little, a sharp laugh sounded and their faces changed greatly.

"Who?"

Ouyang Qingxiang sips.

This sound, she sounded very strange, not the Son of Fuguang, or the Supreme Son and his people.

Click, click...

A voice came from a cave, and then a huge figure crawled out of a cave.

This behemoth, no doubt, is a planet devourer, and it is golden.

Another gold-level planet devourer.

Moreover, this gold-level planet devourer is very different from the previous gold-level planet devourer.

This gold-level planet devourer actually has three heads and six extremely sharp front claws, which looks very infiltrating.

"No, it's a mutated gold-level planet devourer, which is several times stronger than a normal gold-level planet devourer."

Knowing the sea, the bone demon cried.

Lu Ming's heart sank.

This one is actually a mutant gold-level planet devourer. It is several times stronger than a normal gold-level planet devourer. How can I fight this?

In Lu Ming's current shape, let alone a gold-level planet devourer, even if it is a silver-level planet devourer, Lu Ming is not an opponent.

Moreover, this planet devourer actually speaks, and the previous planet devourers cannot speak.

"Hey, hey boy, you are so powerful, you have so many cards, fortunately, I am smart, let those idiots kill out first, hey, now, you fight me with anything, let me die."

The mutant golden planet devourer screamed and waved a claw, and a golden light slashed towards Lu Ming.

"Qinglian Sword Song!"

Ouyang Qingxiang drank, standing in front of Lu Ming, doing her best to show the Qinglian sword song, a huge sword gas, slashing forward.

Taking Ouyang Qingxiang's current five-fold cultivation practice as a god, he exploded with all his might, and his power was amazing.

However, when her sword light was chopped with the mutated gold-level devourer's light, her sword light shattered instantly, Ouyang Qingxiang groaned, her body flew away far and hit the wall, He vomited blood, and all of her armor was torn open, revealing a bone wound.

In one move, Ouyang Qingxiang was hit hard, unable to fight anymore.

"Such strength, I also want to block me, almost to death, hehe hehe!"

In the mouth of the mutant golden planet devourer, there was a sharp laughter, and his eyes looked coldly at the landing sound.

"Boy, your cultivation is very low, but your strength is so powerful. There must be a secret. I can feel that your flesh and blood are full of energy and it must be delicious. As long as I eat you, my strength will definitely be able to skyrocket. , Hehehe!"

The scarlet tongue deep inside the mutated golden planet devourer sneered, and hurried toward the landing.

"Senior Bone Demon, what now?"

Lu Ming is asking for help from the bone demon.

"Boy, don't expect me anymore. In my state, I can't beat this mutant gold-level planet devourer. Your only hope now is that copper and copper coffin."

Bone Magic Road.

"That red copper coffin?"

Lu Ming wondered.

"Yes, that copper and copper coffin, heavy like a mountain, is used for sneak attacks, maybe you can hit it a bit, you can take the opportunity to escape."

Bone Magic Road.

"Okay...okay!"

Lu Ming nodded, and now it can only be so.

As soon as his thoughts moved, Lu Ming's eyebrows glowed, and the picture flew out, towards the mutant gold-level planet devourer, and to the top of the other party's head.

"A broken picture, break it for me!"

The mutant golden planet devourer sneered sharply, and his claws chopped towards the scroll to tear the scroll.

"Smash me!"

Lu Ming yelled and manipulated the scroll. The scroll shook and shook, and then a copper copper coffin fell from the scroll, hitting the mutant golden planet devourer heavily.

Keng! Keng! Keng! ...

The claws of the mutant gold-level planet devourers keep chopping out, chopping on the copper copper coffin, making a clanging sound, but they can't stop the speed of the copper copper coffin.

bump!

The copper copper coffin was heavy like a mountain, and suddenly pressed on the body of the mutant golden planet devourer, almost smashing one of its heads.

The mutant Golden Planet Devourer was crushed to the ground all at once, with six claws madly kicking and struggling crazy.

"Really useful!"

Lu Ming was delighted, but did not expect that the copper and copper coffin was so heavy that it could crush the mutant golden planet devourer.

"good chance!"

Will Lu Ming miss this opportunity? Now he spares no effort, holding a spear, and killing the mutant golden planet devourer.

call out!

Lu Ming shot at the neck of the mutant Golden Planet Devourer.

But when the opponent's head was tilted, Lu Ming did not stab the opponent's neck, but instead stabbed on the carapace on the opponent's head, making a sound of nails, and Mars was shining. Lu Ming did not pierce the opponent's defense.

Lu Ming is not in the state of an ancient god. His strength is too different from his opponent's strength. As long as he doesn't hit the opponent's key points, he can't even break his defense.

"Want to hide, how do you hide?"

Lu Ming's spear continued to pierce, puncturing each other's eyes and neck softly.

"Want to kill me? Stop thinking, stop thinking, die for me, die for me..."

The mutant Golden Planet Devourer frantically roared, three heads twisted frantically, six claws grabbed randomly, and several claws were caught on the copper copper coffin, trying to push the copper copper coffin away.

Click!

Suddenly, the copper copper coffin made a clicking sound.

Because, the claws of the mutant Golden Planet Devourer were caught on the lid of the copper copper coffin. Just now, the lid was pushed a bit.

Click!

Then, the coffin lid was pushed again, and there was a gap between the coffin lid and the coffin body.

Roar!

At this moment, there was a roar in the gap between the copper and copper coffins.

This roaring, earth-shattering, trembling Lu Ming's eardrum buzzed, and a spit of blood spewed out directly.

Then, in the copper and copper coffin, there was a terrible breath, and Lu Ming, the mutant golden planet devourer, enveloped it.

Roar! Roar! ...

In the copper and copper coffin, the roaring sound was even more terrifying, and a terrifying power was suppressed on Lu Ming.

At this moment, Lu Ming couldn't move at all, as if he was controlled, even his senses were controlled. In front of him, he fell into darkness.

But at the next moment, in front of him, it was bright again, and then he found that he actually came into a cosmic sky.

In the starry sky, there is a giant, immense, and a fist, bigger than a planet.

Ancient god!

Lu Ming jumped wildly in his heart, which is clearly an ancient god.

I saw the ancient **** roaring with a punch, and in the starry sky, there were planets bursting apart, the scene was terrifying.

Chapter 2869: Aoko ancient shrine

But at the next moment, the scene changed again.

Lu Ming came to the other side of the boundless starry sky. In this starry sky, he saw a group of ancient gods.

Yes, not one, but a group.

This group of ancient gods, every body is standing tall and immense.

Every one exudes a terrifying and breathless atmosphere, and the whole universe trembles under such pressure.

These ancient gods seem to be fighting with something, which is almost ruining the world, and the cosmic stars are collapsing and bursting one by one.

Lu Ming even saw a series of galaxies burst and burst out.

This scene is really appalling.

But at the next moment, the scene changed again.

Lu Ming saw a copper copper coffin, floating in the starry sky, floating all the time, not knowing where it was floating.

Lu Ming has also been floating in the starry sky. I don't know how long after that, he was sleepy and slowly slept deep.

Not knowing how long it had passed, he woke up again and came into view, an underground cave.

"Lu Ming, are you okay!" A clear voice came into Lu Ming's ear.

Lu Ming turned his head and saw Ouyang Qingxiang's concerned eyes.

"It's okay!"

Lu Ming smiled, then looked around.

He is still in that underground cave, but the former mutant golden planet devourer is dead.

His body was shriveled, and his golden armor had extremely dim light, without the slightest breath of life, as if his whole body of energy had been pumped away.

The copper and copper coffin is still suppressed on the mutant golden planet devourer.

However, the gap that the coffin lid was originally opened had been completely closed, and there was no gap.

"Just now, what are those I saw? Is it the vision in the copper and copper coffin? Also, why is that mutant golden planet devourer already dead, but me, Ouyang Qingxiang is all right?"

Lu Ming turned his thoughts in his heart, and there were many more questions.

"Danger, boy, this time it's really dangerous, I'm miserable by you..."

Knowing the sea, the voice of bone demon came out.

Lu Ming's internal knowledge found that the bone demon was lying on the picture. The shiny bones were also dim and gloomy.

"Senior, what's wrong with you?"

Lu Ming asked.

"It wasn't just to help you close the purple gold coffin, it was caused."

Cried the bone demon.

"Copper copper coffin? Senior, what is there in the copper coffin? Is the mutant golden planet devourer, is it because of the purple copper coffin?"

Lu Ming asked out his doubts.

"Yes, the mutant golden planet devourer died because of the copper and copper coffin. As for what is in the copper and copper coffin, I don't know. Maybe a corpse of a powerful person is buried in it. It is also possible to bury a world with a history. ..."

Bone Demon whispered, his eyes gleamed with dignity.

"Buried a world, a period of history?"

Lu Ming wondered.

It's easy to understand that a strong man is buried, but what about the burial of a world, a period of history?

"I guess the origin of this copper and copper coffin is amazing. I don't know what is in it, but in short, it is very dangerous, no, it is extremely dangerous."

"Fortunately this time, only a gap was opened before I could cover it back. Otherwise, God knows what will happen. It is absolutely terrifying. You and I are going to die, boy. Don't try to open this red copper coffin easily in the future. ."

Bone Demon cautioned carefully.

Ok!

Lu Ming nodded.

"Boy, this time I lost a lot of money to cover the copper and copper coffin. It was your boy who picked up Tianda's bargain."

Bone Demon said very uncomfortably.

"I picked the big bargain?"

Lu Ming was puzzled, but the next moment, he froze.

Because he found that he was full of strength, and the heart of the ancient **** thumped, strong and powerful, and his blood was surging to the extreme.

Before, he burned the ancient god's heart, so that the energy of the ancient god's heart was almost exhausted, but now, it is restored again, and it is more powerful than before.

Lu Ming has a feeling that his ancient **** body has broken through. As long as it is now turned into an ancient **** body, it may not only be the ancient armor of the green armor, but it may be the fifth ancient armor of the green armor.

Thinking of this, Lu Ming's heart thumped, intending to give it a try.

He said hello to Ouyang Qingxiang, Lu Ming thought, his body continued to grow bigger, and finally turned into an ancient **** up to 200 meters.

His scales were no longer green, but turned blue.

It is really an ancient **** of green armor.

Lu Ming was ecstatic. At this moment, he felt all over his body, with endless power, many times stronger than before.

"My cultivation behavior also broke through and reached the limit of the Ninefold True God."

Lu Ming was pleasantly surprised to find that his cultivation practice actually broke through, not only to the True God Ninefold, but also to the limit of the True God Ninefold, and the distance is also not far away.

"What's going on? Is it related to the kind of vision I saw before?"

Lu Mingfu wanted to join hands, all he saw just now was about the ancient gods.

An ancient god, hitting one planet after another with a punch, crossing the starry sky, terrifying to the extreme.

In another picture, a group of ancient gods and enemies meet, the scene is even more amazing, the universe starry sky has shattered, the entire galaxy collapsed directly.

All this must be related to the copper copper coffin.

Blessed by misfortune, really blessed by misfortune.

Lu Ming's face was full of smiles.

Before, he burned the ancient god's heart and fought fiercely with the golden planet devourer. The energy of the best ancient god's heart was almost exhausted. Lu Ming thought that he would never use the ancient god's body again in the future. Can be used, but also evolved into the ancient **** of green armor.

Even the cultivation practice has been broken, saving a lot of time.

Bone Demon said it well. Lu Ming really picked up Tianda's bargain. Suddenly, Lu Ming felt a bit sorry for Bone Demon.

After condensing his mind for a while, Lu Ming was transformed into a human form again.

Aside, Ouyang Qingxiang has been in a dumbfounded state, and after a while, she wakes up.

"Miss Ouyang, let's clean up and go out!"

Lu Ming said to Ouyang Qingxiang.

"Well, good, good,..."

Ouyang Qingxiang nodded again and again.

This time, it was really a big harvest. Before, the eleven golden planet devourers killed by Lu Ming, and the mutant golden planet devourer, did not give specific points, Lu Ming regarded them as ordinary golden planets. Devourer forget it.

However, the mutant golden planet devourer has three heads, which is equivalent to three golden planet devourers, and together, there are fourteen golden planet devourers.

This is an amazing gain. Needless to say, this time the competition, their points are definitely the most. They don't believe that the Supreme Son and the Floating Son have so many points.

Chapter 2870: Whose gains are big

The two flew out of the underground fissures and merged with Kang Chong and Liu Jie.

When Kang Chong and Liu Jie knew that Lu Ming had actually hunted fourteen golden planet devourers, they were stunned, and there was no response for a long time.

Now, there is still a long time from the three-month period, and the people have not gone out, and hunted some planet devourers by the way.

In the following days, they did not encounter the golden planet devourers, but the silver and bronze planet devourers, and encountered some.

Today, Ouyang Qingxiang's cultivation is a breakthrough, and Lu Ming's combat power has skyrocketed, making it easier to hunt down devourers.

With Lu Ming's current combat power, even if he is facing the White Bank Star devourer alone, he can be easily killed.

In a blink of an eye, three months passed.

Three months later, Lu Ming and Ouyang Qingxiang returned to the passage where they came in. When the period of March arrived, they flew into the vortex, and at the next moment, they returned to Kong Xuanzong's contest.

Empty Xuanzong, still crowded.

For three months, for everyone, it was just a blink of an eye, and a little wait to pass.

"Look, they came out."

Suddenly, someone called.

Then, everyone saw a figure appear in the large teleportation in the air.

Supreme Son, Floating Son, Lu Ming, they appeared almost at the same time, and then looked at each other.

Four people went in on each side, and there were still four people out, with no loss.

"Oh, I don't know how many planet devourers you hunted? Take it out and see?"

The Supreme Son glanced over the Floating Son, Ouyang fragrancd them, the cold and quiet way.

"Wait, you will know!"

Shengguang Shengzi snorted.

Ouyang Qingxiang's face was calm and she didn't speak.

However, in the eyes of Kang Chong and Liu Jie, there was a trace of anticipation and excitement, and they looked forward to what the Supreme Son would look like when they saw their harvest.

Around, other people are speculating.

"I don't know which side will gain more this time?"

"It's needless to say, it must be the Supreme Son. With his combat power, he can certainly hunt many planet devourers!"

"Yes, I still stick to the original judgment. The Supreme Son is the first, the Floating Son is the second, and the Ouyang Qingxiang and Lu Ming are definitely the weakest."

Some people are very firm and still think that Ouyang Qingxiang and Lu Ming are the weakest.

"Okay, now, take out the planetary devourers you hunted. Bronze-grade planet devourers score one point, silver-grade planet devourers score five, and gold-grade planet devourers score fifty."

The veteran supreme move of the senate once again stepped out and announced loudly.

"Floating, don't you want me to know, how many planet devourers have you hunted? Take it out and see!"

The eyes of the Supreme Son looked at them again.

In the mind of the Supreme Son, the biggest competitor in this round is still on the side of Fuguang Shengzi. After all, on the side of Fuguang Shengzi, but four Saints and Saints joined forces.

As long as he knew what they were gaining from the Son of Floating Light, he had a deep heart.

The Son of Floating Light snorted, strode out, then waved his hands, the heads of the planet devourers flew out, suspended in the air.

There are silver and bronze.

Lu Ming glanced at it and saw the quantity.

Twelve white bank stars devoured heads, and fifty-two bronze level devoured heads.

A total of sixty-four.

This amount, Lu Ming was not too surprised.

Today, the cultivation of the Son of Floating Light is also the fivefold of the God of Heaven. The combat power will never be weaker than that of Ouyang Qingxiang. In addition, the other three Saints and Saints cooperate with each other to hunt down the silver-level planet devourers. There is absolutely no problem.

It took three months to coordinate well, and it was normal to hunt to twelve.

The Supreme Son swept his gaze, revealing a hint of lightness in his eyes.

"Twelve silver-level planet devourers, a total of 60 points, and fifty-two bronze-level devourers, fifty-two points, a total of one hundred and twelve points."

Supreme Action announced.

The crowd didn't speak. Most people didn't have any idea about the strength of the planet devourer, so they didn't have much idea about one hundred and twelve points.

You also need to know the scores of others and compare them to reach a conclusion.

"Oh, only 112 points, still want to compete with me?"

The Supreme Son chuckled, then stepped out, waved his hands, and the heads of the planet devourers flew out.

There are silver and bronze.

Eighteen white bank stars devoured heads, and eighty bronze planet devoured heads.

Seeing this number, the Son of Floating Light looked ugly and dying.

Supreme Son looked proudly at Fuguang Son, and then looked at Lu Ming and Ouyang Qingxiang, and said with a smile: "You think that my harvest is all this? Then you will show me good."

After speaking, the Supreme Son waved again, and another planet devourer's head flew out.

The head of this planet devourer is golden yellow.

The head of a golden planet devourer.

Seeing this head, the Son of Floating Light, the Son of Zhixia, the Son of Yankong, and the Son of Xuetao were all white.

Even Ouyang Qingxiang and others have their faces dimmed.

The Supreme Son, they can actually hunt gold-level planet devourers. Their strength is really amazing.

There was also a smile on the old face of the Supreme Master, announcing loudly: "The Supreme Universe has hunted a gold planet devourer, eighteen silver planet devourers, and 80 bronze planet devourers. Earn a total of 220 points."

Fuguang Shengzi's face was even more ugly, and the points they obtained were almost half of the Supreme Son, the difference was too big.

The crowd is full of discussion.

"The Supreme Son is worthy of being the Supreme Son, and actually got 220 points. The number of points is almost double that of the Floating Son!"

"The Son of Floating Light, but the four sons and daughters joined forces. If they were separated, wouldn't it be worse? This gap is too big."

"The gap is indeed amazing. There are so many virgins and virgins, and the Supreme Son is unique. I have known for a long time that the Supreme Son is unmatched.

"There are Saint Fragrance Girls and Son Lu Ming, their points have not been calculated yet."

"It goes without saying that this is the number of the Fragrance Lady and the Son of Lu Ming, the number is absolutely the smallest. I bet that their points will never exceed 100 points."

In the discussion, the Supreme Son turned his eyes to Lu Ming and Ouyang Qingxiang.

"Two, what are your gains, come out and see!"

Supreme Son Road, a relaxed face.

He also felt that Lu Ming's gains would definitely not surpass them.
