

D Emperor 3171

Chapter 3171: Zombie King

"There is a great possibility to know that he did not take a long time to pass the eighth floor. This shows that the ordinary ghosts on the eighth floor can't trap him at all. His strength may be more than we thought. Strong!"

"Yes, if you can pass the ninth level and complete the assessment, it may not be a good thing!"

At this moment, many Ming Ape War Clan hope Lu Ming can pass the ninth floor.

Through the ninth floor, it is enough to illustrate Lu Ming's talent.

Lu Ming has such a talent, with Landing Ming, Nether Ape War Clan, will probably be stronger.

On the ninth floor of the eighteenth floor hell, Lu Ming was also besieged by a large number of ghosts.

This layer of ghosts is a kind of zombie. It is as hard as iron, and its defense and strength are very amazing. It is not afraid of death, and it is very difficult to kill.

And most of them are the **** of the Ninefold, and there are even a lot of half-step **** king realm.

Surrounded by a large number of such zombies, it is not easy to break through, let alone find the zombie king.

Moreover, killing such zombies is very expensive.

boom! boom! boom!

Lu Ming waved his lance, and the guns were like mountains, pressing against these zombies. These zombies were shot and flew out like cannonballs, and fell into the mud.

"Broken!"

In the end, Lu Mingren's guns were united and turned into a dazzling lance, which rose into the sky and killed a **** path, flying towards the distance.

Roar roar...

On the ground, countless zombies roared and chased toward the landing.

"So many zombies, if they have been entangled by so many zombies, I am afraid that they will be exhausted soon!"

Lu Ming's face was finally dignified.

He is not afraid of the strength of these zombies, and can be easily killed, but the number of zombies is too much, so if he continues, he will have to use up all the power even if he has a lot of magic power.

"How can it be done for other people like this kind of difficulty? There should be a place to rest and recover interest rates!"

Lu Ming thought.

If there is no place to resume interest rate adjustment, Lu Ming does not believe that someone can complete it, unless the strength is too strong, it is possible to complete.

Lu Ming fought all the way, killed a **** road, and randomly found a direction to fly.

After fighting for several hours, Lu Ming's own divine power is almost exhausted, and he can only call his divine power from the amount of words.

Soon after, Lu Ming saw a huge stone pillar that stood between heaven and earth.

A stone pillar suddenly appeared on the ground, which seemed very abrupt.

Not unusual.

Lu Ming's eyes flickered a few times, and then flew to the stone pillar, falling on it.

Strangely, when Lu Ming landed on the stone pillar, the zombies who were chasing him suddenly stopped, looking left and right, as if losing Lu Ming's trail, and walking around for a while, these zombies left , Disappeared above the earth.

All gone.

"It really works!"

Lu Ming smiled.

It seems that this stone pillar was provided for rest and recovery. Otherwise, in the face of so many zombies, not many people can resist it. Sooner or later, the divine power will be consumed.

With this resting place, you can calmly restore the divine power, and then slowly look for the zombie king.

But speaking of it, the difficulty of this ninth floor is also much harder than the previous one.

Lu Ming sat cross-legged and slowly recovered.

A few days later, Lu Ming set off again.

However, when he was not far from the stone pillar, he was surrounded by a large number of zombies.

Lu Ming continued to fight with the zombies, flying while flying.

After rushing for a long distance, Lu Ming found another stone pillar.

Obviously, the eighth floor of **** has a stone pillar at every distance.

Lu Ming fell on the stone pillar, and the zombies disappeared.

In this way, Lu Ming stopped and walked, and it took three years to find the place where the zombie king was. It was a zombie cave in which a large number of zombies lived.

Roar!

As soon as Lu Ming came to the zombie cave, there was an angry roar in the zombie cave, and then a large army of zombies rushed out.

These zombies are clearly stronger than zombies scattered elsewhere.

Inside, most of them are half-step zombie zombies, and the number is as much as three hundred.

Three hundred and a half zombies in the God Realm, one by one, could not penetrate the wall, their bodies were as hard as an artifact, and they roared to the landing to fight.

After three hundred and a half zombies of the God King Realm rushed out, a zombie came out of the zombie cave.

This zombie, with a burly figure and a height of three meters, exudes a strong breath.

"Zombie King!"

Lu Ming concluded that this is the zombie king.

Before Lu Ming had been killed in the zombie cave, the zombie king would automatically kill him with the army.

Roar!

Lu Ming shouted, and his body began to swell rapidly, turning into an ancient **** of green armor.

Turned into an ancient **** of green armor, Lu Ming's combat power skyrocketed, and huge spears smashed towards these zombies like a mountain.

With Lu Ming's current strength, turned into the ancient armor of the ancient armor, how strong is the power, these zombies in the half-step **** realm, no matter how strong their strength and defense are, how can they be against Lu Ming?

bump! bump! bump!

One by one zombies burst and fell on the spot.

Three hundred and a half zombies in the God Realm of God were not nearly killed by Lu Ming.

Roar!

The zombie king made an angry roar, like a golden lightning, rushed to Lu Ming, and his long claws, like a blade, caught Lu Ming, and gave a horrible roar.

Lu Ming waved his spear, swept out, and greeted him.

when!

A violent collision sounded, the spears buzzed and shook, Lu Ming felt a powerful force, and came toward him, Lu Ming could not help but stepped back a few steps.

The zombie king also retreated backward.

"What an amazing power, the strength of this zombie king, I'm afraid it will compete with Yuanyu!"

Lu Ming moved.

This zombie king is also equivalent to the **** king twice awakened by the divine power factor, which is equivalent to Yuanyu. Plus the zombie king is extremely hard, infinitely powerful, and fearless to die. The overall strength will not be weaker than Yuanyu.

At the beginning, when Lu Ming was in the Seventh Heaven of Gods, he did not display the door of domination, and he was not Yuan Yu's opponent.

Now he breaks through the eightfold of Tenjin, but he can compete.

Roar!

Seeing that the zombie king did not kill Lu Ming, he was even more furious, and he continued to rush towards the landing ming, and his claws were like blades, and he continued to kill the landing.

"kill!"

Lu Ming shouted and killed the zombie king.

Lu Ming did not cast the door of dominance. The zombie king is a good hone opponent, which can be used to hone his various mysterious magic skills.

Lu Ming will show the magic method of the dragon dragon for a while, the yin and yang **** pupils for the first time, and the three strikes for the World Extinguishment for the next time, to fight the zombie king.

Despite Lu Ming's many means, but after dozens of wars, Lu Ming actually faintly fell.

Lu Ming still did not display the door to domination, and continued to fight the zombie king.

Chapter 3172: Continue down

Lu Ming and the Zombie King battled more than two hundred moves. Although Lu Ming fell a bit down, but the Zombie King wanted to defeat him, it was not so easy.

"My three annihilations are about to break through!"

Lu Ming's eyes brightened.

With three strikes at the World Extermination, Lu Ming broke through to the eighth weight very early and has been stuck at the peak of the eighth weight.

Now after fighting with the zombie king, he finally feels that the three strikes of the world are about to break through.

By this time, Lu Ming would not even use the door of domination, purely to fight the zombie king with the three strikes.

"Break the sky, cut the moon, burst the star..."

Three strikes at the World Extermination, Lu Ming took turns to use it, and continued to fight against the zombie king.

Uh!

Suddenly, just as Lu Ming played the trick of 'cutting the moon', a brighter crescent-shaped spear burst out, slashing toward the zombie king.

This time the power of cutting the moon is obviously stronger than before.

Breakthrough!

The World Extermination three strikes broke through to the ninth heavy.

This is also the highest weight of the three strikes.

Breaking through to the ninth level, the power of the World Extermination Three Strikes has been enhanced again.

boom!

The crescent-shaped spearman, once again bombarded with the zombie king's claws, this time, Lu Ming and the zombie king, both retreated, this time, divided equally.

Lu Ming showed a happy look.

In other words, he can now fight Yuanyu without relying on the door of domination.

"about there!"

A smile flickered at the corner of Lu Ming's mouth, and the three strikes of the World Extermination broke through. Lu Ming was satisfied, it was time to kill the Zombie King.

"Door Gate, come out!"

Lu Ming whispered, and the door of the ruler appeared above his head.

boom!

The Gate of Domination was shocked and then suppressed towards the Zombie King.

The door to **** is as powerful as it is terrible.

The zombie king tried his best to resist, but was blown out and smashed a huge mountain.

"kill!"

Lu Ming continued to control the door of the ruler and suppressed to the zombie king.

The zombie king rushed out of the pile of rocks and faced the bombardment of the door of the ruler. The body of the zombie king was bombarded into the ground again.

In the face of the attack by the Gate of Domination, the Zombie King has no room to fight back.

After more than ten consecutive attacks, even with the defensive power of the zombie king, he couldn't resist and his body burst apart.

The ninth floor, pass!

In front, a dark vortex appeared. Obviously, this was the gate to the tenth floor.

Lu Ming thought for a moment, and did not enter the vortex, but thought about walking inside the zombie cave.

The lair of the zombie king has not been searched yet, how can he leave so easily.

Sure enough, in the old den of the zombie king, Lu Ming found another shaded building block.

And the yin qi of this yin building block is stronger than the previous two trees.

Lu Ming overjoyed to cut off the Yin building blocks and devoured the volume of words.

Then, Lu Ming walked out of the zombie cave and came to the gate to the tenth floor. This time, Lu Ming stepped into the gate of the tenth floor without hesitation.

Passed the ninth floor, has passed this assessment, but Lu Ming does not want to end this way.

He has to go down, he has to see, he can finally pass through the layers.

The more layers you pass, the more obvious your talents are. The Wraith Ape Clan hasn't convinced him even more, is he stubborn?

Also, Lu Ming wants to get more Zhiyin treasures.

This 18-story ***** is a treasure land for Lu Ming.

Starting from the seventh floor, each layer has the treasure of Yin, which is very helpful to Lu Ming's refining the energy of the star core.

Moreover, the ghosts here are also good targets for tempering.

Through constant fighting, Lu Ming's understanding of various divine skills, secret techniques, and even various divine powers will be greatly improved.

Anyway, there is still much time, and the speed of cultivation here is definitely much faster than the speed of the training to return to the starry sky camp.

It's better to practice here. It's more than one thing. Why should he go out?

Outside, a large number of masters of the ape warfare clan stared at the stone tower.

Suddenly, the ninth floor of the stone tower shone brightly.

After a breath, the light dimmed slightly.

After the king of ghosts in each layer is killed, the corresponding layer of stone towers will shine a few times.

At this moment, the brilliance of the ninth floor shone, which accelerated the heartbeat of many Wraith apes.

"Passed, he passed the ninth floor!"

"Unexpectedly, really unexpectedly, he actually passed the ninth floor, a miracle, really a miracle!"

"Okay, Tenjin passed through the ninth floor, this is a world of arrogance, qualified to be the new war ancestor of my ape war tribe!"

"This person has become the new war ancestor, I have no opinion!"

At the scene, there was a lot of noise, and all the apes fighting tribes were talking about it.

Seeing Lu Ming passing through the ninth floor, almost all of the Ming Ape War Clan agreed to Lu Ming as the new war ancestor. Even the ape who had strongly opposed it before, a smile appeared on his face at the moment.

Ape Huan is even more ecstatic.

"It's worthy of being the one that Jing Yu Zhan Zu fancy, the talent is really amazing!"

Ape Huan sighed.

All the Winged Apes Warriors are waiting for the landing Ming to come to support Lu Ming to formally become the new war ancestor.

But they did not wait until Lu Ming came out.

"Why didn't Zhanzu come out?"

Some people are puzzled.

Suddenly, someone screamed: "Look, the tenth floor is bright, and the war ancestors are on the tenth floor!"

"what?"

The other apes battle group was shocked, and quickly looked towards the stone tower, and really saw the tenth floor of the stone tower, shining brightly.

This means that Lu Ming has reached the tenth floor.

"He actually entered the tenth floor. Does he want to challenge deeper levels of hell?"

"Great, worthy of Zhanzu!"

Many ghost apes couldn't help but marvel.

"You said, what level can Zhanzu pass?"

"It's hard to say, I think Zhanzu can pass the eleventh floor, but the twelfth floor is probably not passable!"

"Not necessarily, after the ninth floor, each layer has different difficulty. Maybe Zhanzu can't even pass through the tenth layer?"

"It's very likely that the tenth floor and the previous nine floors have changed a lot!"

"Look!"

The remaining warriors of the apes, including Ape Huan and Ape from the two, are curious, staring at the stone tower, and they are speculating in their heart that Lu Ming can pass through the several layers.

Lu Ming didn't know that his appearance on the tenth floor would cause so many thoughts of the apes.

He was looking at a ghost in front of him curiously at the moment.

This is a black swordsman, a headless black swordsman.

As soon as Lu Ming appeared on the tenth floor, he saw the black swordsman.

Keng!

The sword light soared, and the black sword came out of the sheath, slamming toward the landing.

Half Step God Realm!

Lu Ming had just arrived at the tenth floor, and the first ghost he encountered was the half-step **** king realm. The tenth floor is absolutely uncommon.

Lu Ming brandished a spear and swept it, destroying the swordsman in black.

Chapter 3173: Headless black swordsman

Lu Ming took a shot and defeated the swordsman in black, but at the next moment, Lu Ming's face changed slightly.

He felt that from the sword light of the black swordsman, there was a strange energy, and the long spear of Long Ming landed directly into Lu Ming's body, rushing towards his sea of knowledge and bombarding Lu Ming's soul.

Lu Ming's soul trembled slightly and felt a slight tingling.

"Soul attack!"

Lu Ming's eyes flashed.

This headless black swordsman can actually launch a soul attack.

However, Lu Ming got a lot of magic night springs in the beginning. Over the years, he has long refined the magic night spring, and his soul has been tempered, which is much stronger than the practitioners at the same level. It caused substantial harm, but it was enough to surprise Lu Ming.

Soul attack has always been extremely special.

The reason why the people of the Nine Nine Heavens Palace are terrible is that they can attack their souls, which often can greatly affect their state. Ten percent of their strength cannot be played out.

Keng!

The sound of Jianming sounded again, and the headless swordsman in black attacked Lu Ming again.

At the same time, behind Lu Ming, the sound of Jianming also sounded.

I don't know at what time, behind Lu Ming, there are also five black knights, a total of seven, and at the same time launched an attack on Landing Ming.

咻咻咻...

The black sword light, forming a net of sword qi, slammed towards the landing.

Weng~!

Lu Ming shook his spear, swept out, and bounced off all the sword lights.

However, in each sword light, there is a strange energy, rushing to Lu Ming, to shock Lu Ming's soul.

However, Lu Ming has a picture of Jing Yu.

As soon as his thoughts moved, the picture of Jing Yu surrounded Lu Ming's soul.

Those attacks fell on Jing Yu's scroll and were all blocked.

Soul attack is not effective for Lu Ming. Lu Ming's spear swept across all directions and squashed past. Seven or eight headless swordsmen in black all exploded.

However, after the body of this headless black swordsman exploded, it turned into a plume of black smoke and re-condensed not far away.

"kill!"

At this time, a violent shouting and killing sounded, and some hills not far away, a black light rose into the sky, and several black shadows rushed towards the landing.

These black shadows are not headless black swordsmen, but a few ghosts wearing black armor and holding giant swords.

These ghosts are very fast, the giant sword breaks into the air, and slashes towards the landing.

Lu Ming blocked with a spear!

when! when! ...

The giant sword was cut over the spear, and Lu Ming's spear shocked, and these black armor swordsmen flew out.

"Pure power, interesting..."

Lu Ming's eyes flashed.

He felt that the strength of these black armor swordsmen was amazing, surpassing the headless black swordsmen, but without the power of soul.

The tenth floor is really different.

call out! call out! ...

Jin Guang broke the sky, headless black swordsman, black armor swordsman killed Lu Ming at the same time, sword net like silk, enveloped Lu Ming.

"Destroy it!"

Lu Ming whispered, the body's magical power surged violently, the spear was shocked, and the guns burst like a meteor.

bump! bump! bump!

The headless black swordsmen and the black armor swordsmen all shattered apart. This time, those headless black swordsmen could not reunite their bodies.

As long as the strength is strong enough, it can completely destroy the headless black swordsmen, making it difficult for them to reunite.

After defeating these headless black swordsmen and black armor swordsmen, Lu Ming flickered and left here.

However, the tenth floor was full of black swordsmen and black armor swordsmen, and Lu Ming was under siege.

Lu Ming rushed all the way. Fortunately, like the ninth floor, there is a stone pillar at every distance. Only when he stepped on the stone pillar, those black swordsmen and black armor swordsmen seemed to see Lu Ming. , Dispersed one after another.

Lu Ming took a break and continued to set off, looking for the tenth floor king.

The territory on the tenth floor is even bigger. Lu Ming goes round and round, while fighting with ghosts and honing various magical secrets while searching for ghost kings.

After nine explorations, Lu Ming has had some experience, but where the ghost king is located, the number of ghost kings is definitely the largest, and Lu Ming specifically went to the place with the most ghosts.

This time, just over a year later, Lu Ming found the location of the ghost king.

"kill!"

The shouting shook the sky. On a mountain, a large number of headless black swordsmen and black armor swordsmen gathered.

At the top of the mountain, there is a headless black swordsman, riding on a headless warhorse, breathing.

"Ghost King!"

Lu Ming's eyes lit up.

This headless black swordsman riding a war horse is definitely the ghost king of this layer, because the breath is in the **** king realm.

The ghost king shouted, and the densely headless black swordsmen and black armor swordsmen slammed towards the landing, and the number was thousands.

Thousands of strong men in the half-step God Realm, and among them, the headless black swordsman attacking the soul, and the black armor swordsman with amazing power, which cooperate with each other and have amazing power.

Generally, Tianjiao, even if it can pass the ninth floor to the tenth floor, will face a big loss in the face of this means of attacking the soul. If you are careless, you will lose.

However, the soul attack is not effective for Lu Ming, so this time, it is not difficult for Lu Ming.

Lu Ming turned into an ancient **** of green armor, and was killed in the black swordsmen and black armor swordsmen group.

For the attacks of the black swordsmen, Lu Ming had no defense at all, and his spears waved, and all the black swordsmen and black armor swordsmen burst apart.

Soon, Lu Ming killed him and went towards the ghost king.

"kill!"

With a loud shout, the headless swordsman Ghost King had no head, and the voice did not know where it came from, then the war horse stepped into the air, brandished the war sword, and slammed towards the landing.

when!

The two slammed at each other, and Lu Ming retreated slightly.

"Still the king is important, but there is a soul attack..."

Right, Lu Ming probably knows the strength of the headless swordsman riding a horse.

The strength of this 'ghost king' is also equivalent to awakening the existence of the second divine power factor, which is equivalent to the ninth layer of the golden-haired zombie king.

However, this "ghost king" contains a soul attack, which is obviously more difficult than the zombie king.

For other Tianjiao, the tenth floor may be more difficult than the ninth floor.

But for Lu Ming, the difficulty is smaller than the ninth floor.

Jing Yu's scroll blocked the soul attack. The soul attack didn't affect him at all. Lu Ming killed him with a gun.

Losing the killer skills of soul attack, this "ghost king" is not as powerful as the zombie king, and Lu Ming can suppress the opponent without having to display the door of domination.

Roar roar...

Long Yin Zhentian, nine clawed dragons emerged one by one, rushing towards the 'Ghost King', and at the same time, the ice chain was like a long snake, winding towards the other party.

And Lu Ming, using three strikes to kill the world, killing the other party.

After a fierce battle between the two, after dozens of moves, Lu Ming began to occupy the top, pushing the opponent back again and again.

Chapter 3174: Two ghost kings

Roar...

Suddenly, a few nine-clawed dragons condensed above Lu Ming's head.

During the war, the Shenlong Faxiang formula made another breakthrough, and a few more came out.

In this way, Lu Ming condensed Shenlong's tactics with all his strength, and a total of 25 nine-clawed dragons could be condensed.

With so many nine-clawed dragons shot together, the power is also extremely amazing, crazy fighting 'Ghost King'.

bump!

The remaining war horse of the headless black swordsman ghost king was hit, and one leg burst.

"Cut the moon!"

Lu Ming seized the opportunity and shot out with a single shot, hitting the ghost king and splitting his body in half.

However, the body of this 'ghost king' withdrew, the body split into two halves, and reunited again.

"Starburst!"

Lu Ming did not give the other party a chance to reunite at all, and displayed a starburst trick to cover the other party with the power of destruction.

At the same time, above Lu Ming's head, an ancient gate emerged, which was the gate of domination.

The power of the starburst and the door of the ***** bombarded down at the same time.

The ghost king screamed, his body burst, and he never recovered.

As soon as the ghost king died, all the other black swordsmen and black armor swordsmen dispersed.

"Are there any treasures?"

Lu Ming's eyes showed the color of expectation, and headed towards the top of the mountain.

At the top of the mountain, two thick and dark trees suddenly attracted Lu Ming's eyes.

"Yin building blocks, really there are, or two!"

Lu Ming was ecstatic.

The yin of these two shaded building blocks is very rich, each one is similar to the one on the ninth floor.

Worthy of being the tenth floor of the eighteenth floor hell, it is extraordinary.

Without hesitation, Lu Ming took out the war sword, cut off the two shaded bricks, and then let the volume of the word swallow.

After receiving the Yin building blocks, Lu Ming stepped out and walked toward the gate of the eleventh floor, then came to the eleventh floor.

The eleventh floor and the tenth floor are very similar. The ghosts are actually the kind of black swordsmen and black armor swordsmen, but the strength is slightly stronger. For Lu Ming, there is not much difficulty.

After spending some time, Lu Ming found the ghost king on this floor.

The ghost king on the eleventh floor is actually a black swordsman on a horse.

The only difference from the tenth floor is that the number of this 'Ghost King' is even greater, reaching 3,000.

But in the three thousand black swordsmen and black armor swordsmen, there is still a heavy presence of the **** king, they actually formed a large formation, and slammed towards the landing.

So many powerful ghosts formed a large array, and the difficulty suddenly increased a lot. Even Lu Ming had to face it seriously, exert his full strength, and even used the door of the master to fight with these ghosts.

After a long battle, the ghost king also came in to cooperate with the army of ghosts and siege Lu Ming.

The strength of this ghost king is similar to that of the tenth floor. The main difficulty is that his men also know how to use tactics.

After fighting for a full hour, Lu Ming finally killed the ghost king and passed the eleventh floor.

At this level, Lu Ming also got two shaded bricks.

"Twelfth floor!"

Lu Ming's eyes flickered, did not stay, and entered the twelfth floor.

The outside apes battle group is even more surprised.

"It has entered the twelfth floor, and the war ancestor has entered the twelfth floor!"

"Great, great!"

Many Winged Ape Warriors marveled, and unconsciously, even the name of Lu Ming was changed, and Lu Ming was called the war ancestor. Apparently, Lu Ming was fully recognized in his heart.

Lu Ming came to the twelfth floor and found that it was different from the eleventh floor.

In addition to the black swordsmen and black armor swordsmen, there are other ghosts, such as zombies, skeletons and so on.

The ghosts that appeared in the previous layers all appeared here.

The strength of all kinds of ghosts is very amazing, most of them are the half-step **** king, the weakest are the gods Jiuzhong, and even ghosts in the **** king realm occasionally appear.

Lu Ming fought all the way, and finally, Lu Ming found a ghost barracks.

Yes, it is really a barracks, a barracks where the ghost army is stationed.

Roar!

With a roar, a headless swordsman in black wearing a war horse, and with the army of ghosts, walked out of the barracks.

"It's this product again, it seems that this product is the ghost king here!" Lu Ming smiled.

Then killed the past. Like the eleventh floor, the ghost king here will also form a large formation to fight with Lu Ming.

At the same time, the ghost king also took action to cooperate with the army of ghosts and the war of Lu Ming.

The strength of the ghost king here is similar to that of the eleventh and tenth floors, mainly because the army of ghosts is difficult to deal with.

Roar!

While fighting fiercely, a roar came from another direction, and then another army appeared.

Lu Ming dumbfounded.

Isn't there already an army of ghosts and creatures here?

Rumble!

The ground shook, and the army of ghosts slammed towards the landing.

This one is actually an army composed entirely of zombies.

Headed by, it is a golden retriever zombie king.

"Nest, it seems that there are more than one ghost king in this layer!"

Lu Ming turned a thought in his heart.

Ape Huan they just said that they would kill the 'Ghost King' on the first floor, and they would pass, but they didn't say that there was only one ghost king on each floor.

Two large troops besieged Lu Ming.

At the same time, the zombie king also killed Lu Ming.

As a result, Lu Ming's pressure doubled.

He exerted his utmost strength, tried all kinds of means, the main gate of the main attack, and other attacks continued to attack the ghosts and the two ghost kings in all directions.

Fortunately, Lu Ming was immune to the soul attack and replaced it with other Tianjiao. Even Lu Ming's combat power could not be supported, and he had long since lost.

"War word strategy, five times the fighting power!"

In the course of the war, Lu Ming tried his best to trigger the warfare formula five times the combat power.

The warfare tactics are five times as powerful, and Lu Ming's chance of triggering is only a few tenths, but under the constant trigger of Lu Ming, he finally succeeded.

Suddenly, Lu Ming's strength became stronger, and he felt his muscles bulge, with endless strength.

"What a powerful force, my **** body, I can hardly support it!"

Lu Ming secretly said.

This is his first level of triggering the warfare tactics five times the combat power, he immediately found that the five times the combat power on his **** body is very heavy, and his current **** body can only barely support it.

Fortunately, there is the heart of the ancient god, who is always refining his **** body, so that his **** body slowly evolves towards the ancient god, otherwise, even if he comprehends five times the combat power of the war character tactics, he can't use it.

Triggered the warfare tactics five times the combat power, so that Lu Ming's strength also skyrocketed.

The power of War Words and the Gate of Domination are superimposed, and the power is even more terrifying.

boom!

The Gate of Domination was suppressed and bombarded on the Zombie King. The Zombie King roared, his extremely hard body was torn apart, and was killed by a single move.

At the same time, Lu Ming swept the gun, blasted the black swordsman king out, and by the way killed hundreds of black swordsmen and black armor swordsmen.

Chapter 3175: Tenjin Kuju

Triggering the warfare tactics five times the power, so that Lu Ming's strength soared, has been completely above the zombie king and the headless black swordsman king.

The Gate of Domination moved the town to kill the Zombie King. Lu Ming shot the Black Sword King in one shot. Then, Lu Ming rushed towards the Black Sword King, and the Door of the King suppressed the opponent.

boom!

This black swordsman king stepped into the footsteps of the zombie king and was torn apart.

However, the vitality of the black swordsman king was even more tenacious, and his torn body wanted to condense again, but would Lu Ming give him the opportunity to suppress the gate again and kill the black swordsman king completely.

As soon as the two ghost kings died, the other ghosts all fled.

Huh...

Lu Ming gasped for breath and quickly lifted the state of five times the combat power. Then the body shrank and returned to normal, and the door of the master also closed.

Lu Ming's several killing moves have very high demands on himself.

Qingjia Ancient God, used for a long time, has high requirements for physical strength, and the battle word tactics five times the combat power, the load on the **** body is high.

And the gate of domination, the consumption of divine power is also amazing.

After all was put away, Lu Ming felt weak for a while.

Fortunately, as soon as the ghost king died, all other ghosts escaped.

In front, a dark vortex emerged.

Lu Ming ignored it, but sat cross-legged and tuned in.

After a period of time, Lu Ming returned to its peak, and then Lu Ming walked toward the barracks in front.

In the military camp, Lu Ming also found two shaded bricks.

"There are two ghost kings here. Should the zombie king also have Yin building blocks!"

With a move in Lu Ming's heart, he did not step into the dark vortex and enter the thirteenth floor, but searched everywhere.

It is strange to say that after the two ghost kings were killed by Lu Ming, the ghosts in this layer saw Lu Ming and fled directly, and did not dare to fight Lu Ming at all.

Lu Ming was unobstructed all the way, and soon after, he found another barracks, naturally the barracks of the zombie king.

In the barracks of the zombie king, Lu Ming also found two shaded bricks.

"Hahaha, with so many negative blocks, you can refine a lot of energy!"

Lu Ming was overjoyed.

"I don't know how the ghosts on the thirteenth floor, go ahead!"

Lu Ming smiled and returned to the gate leading to the thirteenth floor, then stepped into the gate and came to the thirteenth floor.

outside...

"Go inside, Zhanzu entered the thirteenth floor..."

"Zhan Zu actually passed through the twelfth floor and entered the thirteenth floor. He was just the eightfold cultivation of the gods, which is amazing!"

All of these powerful apes have been shocked.

The eightfold cultivation practice of Tenjin, which reached the thirteenth floor, has never appeared in the history of the Ming Ape War Clan.

You know, the biggest difficulty of each layer, although it is the ghost king, but the eleventh layer and the twelfth layer are the most difficult, in fact, it is an army of ordinary ghosts.

It is clear how difficult it is to coordinate with each other.

The thirteenth floor...

There are more kinds of ghosts in this layer. Lu Ming came in an hour and found seven or eight kinds of ghosts, and their strength is more powerful.

The lowest thing that Lu Ming encountered was the half-step **** king, and the presence of the **** king also appeared frequently.

While fighting, looking for the ghost king.

This is a good way to practice.

Lu Ming's various magic skills and secret methods are constantly improving.

Even the comprehension of various other forms of divine power is slowly improving.

In this way, Lu Ming was on the thirteenth floor, fighting for three years, and finally found the ghost king here.

The ghost king on the thirteenth floor, Xiu Wei impressively reached the second level of the **** king.

However, this ghost king did not awaken the original divine power factor, but only control the divine power, so the strength is limited. The main difficulty is the army of ghosts under the ghost king.

In this army of ghosts and creatures, the number of **** kings increased dramatically, and there were hundreds of them.

The overall difficulty is a bit harder than the twelfth floor.

In the end, Lu Ming triggered a five-fold combat power, and displayed the dominant stone gate. After a fierce battle, he finally killed the ghost king in this layer.

At this level, Lu Ming did not find the Yin building blocks, but found a black lacquered spar. This spar, the same as the treasure, was even more powerful than the Yin building blocks.

After letting the volume of words swallow the crystal, Lu Ming killed the fourteenth floor.

At this level, Lu Ming finally failed.

The ordinary ghosts in this layer have amazing powers. Lu Ming finally found the ghost king in this layer and found that the strength of the ghost king in this layer is the double of the **** king, but he awakened the source divine factor.

In the Divine King Realm, the gap between each weight is very large, especially if the original divine factor is awakened, or there are multiple awakenings, the gap between each weight will be greater.

At this level, the ghost king and his army of ghosts joined forces to defeat Lu Ming. Lu Ming coughed up blood and retreated and was hit hard.

Lu Ming retreated, successfully came to a stone pillar, and all the ghosts retreated.

Lu Ming sat cross-legged, and a few days later, his injury healed.

However, Lu Ming did not withdraw from the 18th hell.

Anyway, it is still a long time since the Taixu Royal Sanctuary is convened, and Lu Ming intends to practice here for some time.

After the state returned to its peak, Lu Ming killed the ghost king again. Naturally, it was a fierce fight, and finally Lu Ming was injured and retreated.

After Lu Ming recovered, he killed him again.

In this way, Lu Ming was on the fourteenth floor in a blink of an eye and stayed for ten years.

Every ten years of fierce fighting has been a battle of life and death, and Lu Ming has greatly improved in all aspects.

First of all, several divine skills, such as Jiutian Kunpeng and Nine Heavy Red Gold Armor, broke through to reach the ninth weight.

In this way, Lu Ming's three strikes and the nine-fold red gold armor, Lu Ming has cultivated to the highest level, Lu Ming has already begun to practice the magical skill "God of War" from Chu Baxing.

In addition, the understanding of other divine powers has also been greatly improved.

Many awakenings of divine power have reached 50%, or 60%.

Lu Ming puts the overlord's gun power in the main training position. Therefore, the overlord's gun power has made the most progress. Over the years, Lu Ming has been enlightening. Now, it has reached 99%, and it is completely awakened. Only one step away, of course, this step is extremely difficult.

In the past ten years, under the influence of Zhiyin Treasure, the quantification tactics finally refined a powerful energy, and now it is ferrying to Lu Ming to help Lu Ming impact the **** of heaven.

On a stone pillar, Lu Ming sat cross-legged and his body was full of breath. Now, his cultivation practice has reached the peak of the eight gods of the gods, and he is pounding the nine gods of the gods.

Rumble!

In his body, the divine power circulated, making a rumbling noise.

Three days later, a strong breath broke out in Lu Ming.

Ten Gods, breakthrough!

Chapter 3176: Overlord Gun

Lu Ming finally broke through to Tenjin Jiuzhong and his strength greatly increased.

"The Zhiyin Treasure is really easy to use, otherwise, even if there is the energy of the stellar nucleus, it will take at least a few hundred years for me to break through the God of Heaven!"

Lu Ming thought about it secretly, eager to get more treasures of Yin.

"kill!"

Lu Ming got up, whispered, and then killed the ghost king on this floor.

Soon after, a fight officially started.

However, Lu Ming has now broken through to the Ninth Heavenly God, and at the same time the awakening degree of various divine powers has also improved a lot, and the overall combat power has skyrocketed.

After adding Lu Ming's five-fold combat power to trigger the war character tactics, he exhibited the Gate of Domination, and finally defeated the ghost king army, and finally cut this layer of ghost king under the horse.

Here, Lu Ming got two spars with supreme yin.

After swallowing the spar, Lu Ming entered the fifteenth floor.

Outside, the Ape War Clan who saw this scene has become numb.

It is already a miracle that Lu Ming can come here. Next, they want to see what other miracles Lu Ming can create.

The fifteenth layer of ghosts is undoubtedly stronger, especially the ghost king, which is stronger.

The double cultivation of the **** king, but the source divine factor awakened twice.

With such strength, Lu Ming is no longer an opponent.

The difference between each weight of Heavenly God Realm is not as great as God's King Realm after all. Although he has promoted a heavy cultivation, but the degree of promotion cannot be as great as that of God's King Realm.

Nor did the original Divine Power Factor awaken as much as an improvement. In this battle, Lu Ming was injured. After a fierce fight, Lu Ming highlighted the encirclement.

"I want to defeat this ghost king unless Xiuwei makes another breakthrough, or there are more kinds of divine powers, awakening the original divine power factor!"

Lu Ming analyzes his situation.

Along the way, Quanzi Jue absorbed a large number of Yin building blocks and a few pieces of that kind of crystal, and merged a part of the energy of the star core to let Lu Ming absorb it, but the Yin treasure has not been completely refined, and The rest is constantly neutralizing the energy of the star's nucleus.

However, it takes more energy to break through the half-step **** king, and it is not so easy to break through in a short time.

In addition, the realization of divine power is not something that can be done overnight. Lu Ming has made long-term cultivation plans.

"continue!"

After Lu Ming returned to the peak, he killed the ghost king again.

After a war, Lu Ming retreated back.

In the following days, Lu Ming wholeheartedly practiced here, hone his fight.

Cultivation has no years, time passes day by day, year by year.

In a blink of an eye, Lu Ming has entered the eighteenth floor of hell, and it has been 120 years.

In total, one hundred and twenty years is less than sixty years from the date of the Taixu Royal Sanctuary.

On this day, Lu Ming, sitting cross-legged on a stone pillar, suddenly opened his eyes, and a thick, ancient atmosphere of oldness filled him.

"Overlord's gun power finally awakened the original divine power factor!"

Lu Ming smiled.

After so many years of training, Bawang's gunpower finally awakened the original divine factor.

In this way, Lu Ming has a total of three divine powers, awakening the original divine power factors, namely, dominating divine power, indestructible sword power, and overlord gun power.

Lu Ming controlled a total of eight kinds of divine power, there is also a holy power, a kind of king power.

In addition to these three divine powers, the other five divine powers, the level of awakening, all reached 99%.

Over the past 100 years, Lu Ming has spent time in constant fighting. During the fighting, he needs to constantly operate the divine power. Therefore, the understanding and application of the divine power is very fast, so Lu Ming can achieve it in more than 100 years. This degree.

call out!

A long spear appeared in Lu Ming's hand. The spear shuddered and pierced forward. A spear burst out and flew thousands of miles away in a blink of an eye to pierce a zombie in the kingdom of God.

"After the awakening of the gun power of the overlord, the power when using the spear really improved a lot!"

Lu Ming smiled.

Using a spear is still the best match for the overlord's gun power, and the power can also be played better.

Moreover, for more than a hundred years, Lu Ming's progress is not just all kinds of divine power.

Such as various mysterious magic skills.

First of all, the magic formula of the Dragon Dragon has made great progress. Now Lu Ming can gather 36 Nine Claw Dragons in one go.

In addition, Lu Mingxin's "God of War" is also cultivated by Lu Ming to the eighth peak. As long as he breaks through the ninth level, the power can catch up with the three strikes of the world.

The most important thing is that Lu Ming's cultivation practice broke through again and reached the half-step **** realm.

In his body, ten magical fires have disappeared, and replaced by ten vortices of divine power, the divine power of ten divine vortices condenses to the extreme.

As long as the ten divine vortices were completely crystallized and turned into star cores, he officially entered the realm of God King.

Of course, this step is very difficult, and countless practitioners are stuck at this step, it is difficult to improve.

Xiuwei has reached the half-step **** king, and has greatly improved in all aspects. Lu Ming's strength has reached its peak.

However, Lu Ming is still not satisfied, he can still improve, because he has divine source beads on his hands.

Lu Ming intends to use the source of the Divine Power on the gun power of the Overlord, and awaken the original secret technique from the gun power of the Overlord.

As soon as his thoughts moved, Shen Yuan Yuanzhu appeared in Lu Ming's hands. Without any hesitation, Lu Ming swallowed Shen Yuanzhu in his mouth.

As soon as Divine Power Source Pearl entered Lu Ming's mouth, under Lu Ming's control, he flew to Lu Ming's Dantian, and merged with the superpower of the gun power of the overlord.

In an instant, the source of divine power turned into a peculiar energy, which was completely integrated into the gun power of Bawang.

At this moment, Lu Ming seemed to have entered a special state. He saw an amazing scene from the overlord's gun power.

A spear traversed the cosmic starry sky. Wherever the spear passed, the stars exploded and the cosmic starry sky was torn to a terrible crack.

The strong men in front of the spear were penetrated one by one and killed.

Powerful, terrifying and unmatched.

Lu Ming seemed to be able to touch this spear.

Lu Ming knows that this is the original secret technique of Bawang's gun power. Lu Ming's concentration is highly concentrated, and he can quietly understand the experience at this moment.

Time rushed, more than ten days passed.

"Passionate Gun!"

Suddenly, Lu Ming growled in his mouth, and then his right hand was held empty, and a long gun appeared in Lu Ming's hand.

This seems to be a stone gun, filled with the ancient atmosphere of the wild, full of traces of years, as if crossing the endless years.

This gun is exactly the same as the long gun that Lu Ming saw through the universe.

The original secret technique!

This is the original secret technique of Overlord Divine Power, Overlord Gun!

"kill!"

Lu Ming sipped and shot forward.

Chapter 3177: Intimidating the Apes

Lu Ming held the Ba Shen gun in his hand, and stabbed with a gun. A horrible lance appeared in the sky and spurted forward.

Bump bump bump...

The ghosts within tens of thousands of miles in front of the Ba Shen Gun, regardless of their strength or weakness, exploded and turned into ashes.

All of a sudden, a gap of tens of thousands of miles appeared between heaven and earth.

"Great!"

Lu Ming's eyes brightened.

The power of Overlord Gun is no weaker than that of the Gate of Domination, and the two are equivalent.

But don't forget that Lu Ming's magical skills are lance-type magical skills.

If Lu Ming is holding a tyrant gun and is using his magic skills, his power will be stronger than that of the ruler.

"So, this one, go!"

Lu Ming is proud and shows confidence.

Uh!

His figure moved, breaking through the air, and rushed towards the ghost area.

When he came to the ghost king area, a large army of ghosts rushed to Lu Ming.

Ghostly, he squeezed towards the landing.

Among this group of ghost kings, at least half of them are the strongest kings of the gods. Among them, they even awakened the existence of the original divine power factor.

Moreover, Lu Ming saw the existence of the Golden Rex Zombie King and the headless black swordsman king in this layer. This kind of existence is only a general, not a king.

Therefore, Lu Ming has never been able to pass this level. The army of ghosts alone is amazingly powerful.

"Shenlong Fashen, kill!"

Lu Ming Changxiao, his fists swayed out, and in the sky, a series of nine-clawed dragons emerged, a total of 36 nine-clawed dragons, fighting against the army of ghosts.

Taking Lu Ming's current practice as the **** of the half-step god, and exhibiting the magic formula of the dragon dragon, the power is naturally completely different from the previous one, and it has to be too strong.

Boom!

Thirty-six nine-clawed dragons struck in a vertical and horizontal direction, entrapping a large number of ghosts.

Lu Ming's figure moved, killing the depths of the ghost.

Long before killing here, Lu Ming has triggered five times the combat power, and his combat power is at its peak.

boom!

A shot swept across and hit a golden retriever zombie king.

This golden retriever zombie king is the king of the previous layers. The **** king has a heavy cultivation, twice awakening the original divine power factor, which is comparable to the strength of Yuanyu in those years.

However, when the rifle was swept through, the Golden Retriever Zombie King was hard to resist, his body was bombarded like a shell, and after hitting hundreds of ghosts, his body also burst.

One move, spike.

Roar!

At this time, from the depths of the army, there was a loud roar, and a giant appeared.

At this time, a bone dragon, 10,000 meters long, is the ghost king of this layer.

Cultivation is in the double of God King, the power factor awakened twice, the power is very scary.

The bone dragon twisted and slammed towards the landing.

But now Lu Ming is not afraid of bone dragon silk.

His palm glowed, and an ancient stone gun emerged. It was Lu Ming's other original secret technique, the Ba Shen Gun.

"Cut the moon!"

Lu Ming screamed, and the Ba Shen gun burst out, slashing toward the bone dragon.

Bone Dragon shouted, protruding out of his claws, and grabbed Lu Ming.

boom!

The lance and the dragon claw of the bone dragon bombarded together.

The dragon claw of the bone dragon is covered with the power that awakened the original divine power factor, but it still can't resist the attack of the lance. At the moment of collision, the dragon claw vibrated violently, and then burst apart, turning into bone debris flying around. .

A huge dragon claw of the bone dragon exploded.

The power of using a super weapon is almost more terrifying than the artifact. It is very handy, so that Lu Ming's magical power has been increased by 20%.

Uh!

Lu Ming waved his backhand, and the Ba Shen Gun strode across the void, striking towards the bone dragon's head.

The bone dragon growled and fought hard to resist.

However, Lu Ming, who used a combination of a super weapon and a magic skill, exploded in strength, and has completely surpassed the bone dragon.

Despite his efforts to resist, Bone Dragon was only beaten. Under Lu Ming's attack, Bone Dragon backed up again and again, and his body was continuously hit by Lu Ming.

Every time it is hit, the bones on the bone dragon's body must burst a large piece.

After more than a dozen strokes, Lu Ming finally struck Gu Long's head, and the skull of the bone dragon head exploded and was completely killed by Lu Ming.

After the bone dragon was killed, the other ghosts ran out of their legs and disappeared.

The fifteenth floor, adopted.

At this level, Lu Ming again found two spars containing the Yin Qi.

Then, a dark vortex appeared in the air.

This is the vortex leading to the sixteenth floor.

"Eighteen layers of hell, every three levels of difficulty will have a big increase, I don't know how difficult the sixteenth layer, go and see!"

Lu Ming stepped out, rushed into the gate, and entered the sixteenth floor.

Outside the eighteenth floor hell...

The sixteenth floor of the stone tower lit up.

All the masters of the Nether Ape Battle Clan have their pupils glared, and their eyes are full of shock.

"Through the fifteenth floor, Zhanzu actually passed the fifteenth floor!"

"Tenjin eightfold, through the fifteenth floor, this is incredible, it is a miracle!"

"Tianjiao, the world's rarest Tianjiao, my ape war tribe can definitely rise under the leadership of the war ancestors. In the future, the famous Zhentai Taixu pilgrimage, no, it is the famous Honghuang universe!"

Some Netherworld warriors could not help shouting, their faces flushed with excitement.

They are all old monsters who have lived for endless years. No big scenes have been seen, but talents like Lu Ming are simply unheard of. It is no wonder that they are so excited.

Even Ape Huan, the ape became extremely heavy from breathing.

The sixteenth floor...

"What a terrible ghost..."

Lu Ming was shocked.

As soon as he came to the sixteenth floor, he was besieged by many ghosts, and the strength of these ghosts was all the same as God King.

A large number of **** kings besieged Lu Ming once and fortunately, Lu Mingxiu has made great progress in these years, and has made a lot of progress in all aspects to stop the attacks of these ghosts.

If Lu Ming had just entered the eighteenth floor of hell, he would definitely not be able to resist it, and he would be bombarded by these ghosts.

Bloody killing all the way, rushed out of the encirclement, found a stone pillar to rest, after rest, rushed out again.

In this way, Lu Ming spent several years and finally found the ghost king here.

After finding the ghost king here, Lu Ming did not hesitate and turned away.

Mainly, the ghost king and his men are too scary.

The army of thousands of ghosts, led by the ghost king, rushed towards the landing.

From the point of view of breath, the cultivation behavior of the ghost king has reached the triple triple of the **** king, and it is the triple triple of the king who has awakened the original power factor twice.

This kind of strength, I am afraid to kill the ghost king of the fifteenth floor in one move.

In addition, his army of ghosts and creatures are all kings of God, and there is no lack of the Golden Rex Zombie King.

Among them there are several terrifying generals, who are cultivated as the second king of the gods, and also awakened the existence of the original divine power factor twice, which is equivalent to the fifteenth layer of the ghost king.

It's just that there are ghosts under his hands, so horrible, so many numbers are rushing towards Lu Ming, and it's strange that he doesn't run away.

Chapter 3178: Nether Ape Battle Clan's horrible strength

The ghost king and his army on the 16th floor are really terrifying. With Lu Ming's current strength, if surrounded, it is estimated that there is only one way to die.

Lu Ming performed the nine-day Kunpeng technique and fled like a lightning bolt.

In the process of escaping, Lu Ming took out a piece of jade rune, and pressed his fingers to crush the jade rune. A powerful force enveloped Lu Ming. At the next moment, Lu Ming disappeared from the sixteenth hell.

This jade rune was given to Lu Ming by Ape Huan. Only Lu Ming crushed the jade rune and could send out 18 layers of **** at any time.

Although it is still more than fifty years from the date of the Taixu Holy pilgrimage, Lu Ming does not want to try again.

Want to defeat the ghost king and his army of the 16th floor, unless Lu Ming's combat power, then make a major breakthrough.

For example, Lu Ming's cultivation was to break into the realm of God King, or the second awakening of the original source divine factor, which dominates the divine power, or five other divine powers, all awakened the original divine factor.

In this way, Lu Ming can pass the 16th floor, otherwise, no way.

However, it is extremely difficult to achieve one of these conditions. If there is no chance, it will not be achieved in decades, and it will take time to accumulate.

For example, breaking through the King Realm.

Breaking through the God King was originally a huge hurdle. Most people want to break through, not only need a lot of resources, but also need to accumulate, plus talent and opportunity.

Not to mention that Lu Ming took control of the ten divine powers, making it more difficult to break through.

Moreover, the Yin building blocks he had obtained before and the Yin treasures were almost consumed, and there were only two pieces of Yin Shi obtained from the fifteen layers, which could not support his breakthrough at all.

Since it was impossible to pass within a few decades, Lu Ming simply left. After all, he had practiced here for many years. He was afraid of Qiuyue and they were worried about the blue businessmen.

A band of power landed, and at the next moment, Lu Ming found that he had left the eighteenth floor of **** and appeared outside.

With a glance of his eyes, he saw the Ming Ape War Clan, and he watched Landing Ming directly.

"Subordinate, see Zhanzu!"

Then, all the apes fighting tribes respectfully saluted Lu Ming, including the Great Elder Ape.

"Everyone, don't need to pay more!"

Lu Ming quickly waved his hand.

These ghost apes are all strong men. Although he has become the new war ancestor, he can't be tempted to instruct others. Maybe someone else will not kill him.

If you want others to die, you still need to have both morality and ability.

"Zhanzu, before I was eye-catching, I still asked Zhanzu to punish!"

At this moment, the Great Elder Ape came over and paid a deep respect to the landing.

Now, he is completely convinced of Lu Ming.

He has seen it, Lu Ming's cultivation base has reached the half-step **** king.

When Lu Ming entered the eighteenth floor hell, but the **** of the eightfold, he never heard of it, saying that once he went to the eighteenth floor hell, it would take a hundred years to repair it and he could break the double. This rate of progress, too fast.

In addition, Lu Ming passed the fifteenth floor and entered the sixteenth floor. This talent is simply higher than Jing Yu. At this moment, he wholeheartedly supports Lu Ming as the new war ancestor. Whoever does not agree, he will With whom to hurry.

"The elders said so much, you are also thinking about the ape war tribe, is there any reason for punishment?"

Lu Ming quickly lifted the ape from.

There were smiles on the faces of the Nether Ape War Clan.

The new war ancestors are not only powerful, but also friendly and generous, which is undoubtedly the best for them.

"Zhan Zu, now that you have passed the assessment, we will go back to the tribe, and hold a ceremony to let all the apes and tribes know you!"

Ape Huan walked over and said.

Lu Ming nodded.

After that, they returned to the land of the apes and war tribes. Ape Huan passed orders from all directions, and the new War Ancestral Inheritance Ceremony was held.

On this day, Lu Ming officially became the ancestor of the Ming Ape War Clan.

In a hall.

"Patriarch, what is the strength of the Ming Ape Battle Clan now? How many masters at all levels?"

Lu Ming asked.

"Zhanzu, in this bone rune, there are detailed records, Zhanzu please look!"

Ape Huan took out a bone charm and handed it to Lu Ming.

Lu Ming took it, and Lingzhi entered the bone charm to check it.

In the bone runes, all of them are the names of the strong apes and warlords, followed by the corresponding repair marks.

Upon seeing it, Lu Ming's eyes suddenly widened and his tongue gaped.

He was really shocked.

The number of strong apes and warlords far exceeded his imagination.

The pinnacle is, of course, the strong man of God's King Realm.

There are more than one hundred strong men in the ape warfare ***** monarch realm.

Yes, there are more than one hundred powerful people in Divine Realm.

This is the Divine Monarch Realm, each of which is capable of starburst.

There are more than one hundred ape war tribes.

Is there a total of one hundred princes hidden in all the family forces of the Nine Heavenly Kings?

Not necessarily!

That is to say, if the apes of the apes fight with all their strength, the strength may not be weaker than that of Jiu Jue Tian Wang Fu.

This is in the realm of God, and as for the number of God Kings, it is even more numerous.

Now, this force is under Lu Ming's control, and Lu Ming's heart suddenly jumped.

"Zhan tribe, this is all the power of my ape zhan tribe, listen to the post-war tribe dispatch at any time!"

Ape Huan said.

"calm down..."

Lu Ming took a few deep breaths to calm himself down.

Although the strength of the Winged Ape Warrior is strong, it is estimated that it is much worse than the Taixu Sheng Dynasty. Therefore, even if he took the strong Winged Clan Warrior to the Taixu Sheng, he would investigate the case of Jingyu being destroyed. It also doesn't work. If someone knows the relationship between the Winged Apes and Jingyu, it will be destroyed soon.

You should know that the forces that Jing Yu controlled at that time were far more than that of the Winged Apes and other powerful forces. In the end, they were not destroyed.

Therefore, it is not the time for the Hades to fight.

"Patriarch, Senior Jingyu was framed and fell by people. I must definitely investigate this matter. I will definitely need to use the power of the Ape Warrior, but it is not the right time. I need your help. Will come to you!"

Lu Ming said.

Later, Lu Ming continued: "Now, I am going to Taixusheng to do an important event. Time is running out. I have to leave the ghost manta, patriarch, where is the other exit?"

"Zhan Zu, you hold this bone rune. You will come to the ghosts in the future and you can send me a voice anytime. I will take you to another exit!"

Ape Huan said.

Later, Lu Ming followed Ape Huan to a secret place.

Here, a large altar, Ape Huan informed that this is another entrance to the ghosts. In ordinary times, the ape warfare clan seals it, which is afraid of being perceived by outsiders.

"open!"

Ape Huan lowered his breath, his hands filled with a divine light, and did not enter the altar.

The altar shook slightly, and the brilliance filled, then a dark vortex emerged.

Chapter 3179: Test strength

The exit of the ghosts opened.

"Patriarch, say goodbye!"

Lu Ming took a fist to Ape Huan, and then stepped into the vortex in one step.

The light fell into darkness, but it didn't take long for the light to shine again, and then Lu Ming discovered that he appeared in a starry sky.

From a distance, there is a planet floating in front.

That planet is the planet where they enter the entrance to the ghost.

Obviously, the other entrance to the ghost is not on that planet, but in the cosmic sky.

"Go, go back to the starry sky camp!"

With a move in his heart, Lu Ming performed Jiutian Kunpeng, like a Jiutian Kunpeng flying in the starry sky, and flew towards the Jiu Jue Tianwang Mansion at an amazing speed.

Jiu Jue Tian Wang Mansion was heavily guarded, but when Lu Ming revealed his identity as a disciple of Xingkong Camp, he easily entered Jiu Jue Tianwang Mansion and returned to Xingkong Camp.

After returning to the Starry Sky Camp, Lu Ming first met Qiuyue.

Qiuyue was naturally very happy to see Lu Ming coming back. After all, Lu Ming disappeared for more than 100 years, and she was still very worried.

Although it was normal for them to practice for tens of thousands of years, she still couldn't help worrying.

After seeing Qiuyue, Lu Ming found Wu Ming and Wu Yue and asked Lan Feng about the news.

Wu Ming Wu Yue informed that Lan Feng left Jiu Jue Tian Wang Mansion more than 100 years ago and returned to Taixu Shengdu.

Lu Ming nodded and headed towards the place where the blue merchant lived.

Lan Shang was very excited after seeing Lu Ming.

After all, Lan Feng came out of the ghosts, and then the Jiu Jue Tianwang Mansion sealed the entrance of the ghosts. This made the Lanshang merchants very worried. For fear of Lu Ming's accident, he was relieved to see Lu Ming at this moment.

"Lu Ming, what happened to the Ming Ape War Clan? Did it fall to you?"

Blue Business asked.

"Successful!"

Lu Ming nodded.

Mr. Lan exhaled with a sigh of relief.

As a teacher of Jing Yu, how strong the Ming Ape War Clan was, he knew very well that Lu Ming had subdued the Ming Ape War Clan, and finally had some foundation and a foundation for standing.

Immediately, Lu Ming explained the general situation of the ghosts and his party to the blue business.

"Your cultivation base has broken through to a half-step **** king?"

Lan Shang's eyes were gleaming and he stared at the landing, revealing a trace of surprise.

His soul is extremely powerful, and Lu Ming's cultivation behavior is immediately induced.

"Ok!"

Lu Ming nodded.

"Okay, okay, come on, Lu Ming, you attack me with all your strength, I will see where your current combat power has reached!"

Blue Business Road.

"Full strength?"

Lu Ming said.

"Good, full strength, rest assured, your strength can't hurt me!"

Lan Shang smiled faintly.

Lu Ming naturally knows that he can't hurt the blue merchant at all, but the other party is a character who can abuse the peak **** king.

"it is good!"

Lu Ming nodded, and then began to trigger the war word tactics five times the combat power.

After so many years of training, Lu Ming has raised the chance of five times the combat power, Lu Ming has increased from one fiftieth to one thirtieth.

Triggered for dozens of times in a row, Lu Ming successfully triggered five times the combat power.

"Shenlong Faxiang!"

Lu Ming snorted, his fists waved, and nine-clawed dragons continued to condense out in the sky. In the end, thirty-six nine-clawed dragons formed and rushed towards the blue merchant.

"Thirty-six pieces, good!"

Lan Shang nodded. He still carried his hands on his shoulders. He saw his brow glowing, and a powerful soul rushed out, rushing toward the thirty-six nine-clawed dragons like a wave of water.

Shocked by this force, thirty-six nine-clawed dragons collapsed instantly, and disappeared into energy, which had no effect on Lanshang.

However, at the same time as displaying the magic formula of the Dragon Dragon, Lu Ming's combat power was fully opened, and he turned into an ancient **** of green armor for the first time, and then above him, the door of the master was suspended.

Lu Ming reached out his hand, grabbed the door of the master, and hurled towards the blue merchant.

Lan Shang's expression remained unchanged, still carrying his hands, and he waited until the door of the dominance was about to bombard him, before he stretched out a palm, pushed forward, and landed on the door of the dominance.

boom!

The violent shaking of the Gate of Domination, Lu Ming's body was also shocked, and then followed the Gate of Dominance to retreat back.

And blue business, there is nothing at all.

"On this strength?"

Lan Shang spoke lightly.

"Come again!"

Lu Ming shouted, all the magical powers in the body were mobilized and madly surging.

Buzz! ~

The Gate of Domination gave a slight shock, then suppressed towards the Blue Merchant.

At the same time, Lu Ming's palm glowed, and an ancient stone gun emerged.

"Starburst!"

Lu Ming snorted and stabbed out.

The combination of the original mystery tyrant gun and the starburst turned into terror energy and rushed towards the blue merchant.

This is Lu Ming's current strongest blow.

Five times the combat power of the war character tactics, the ancient armor of the blue armor, and two original secret techniques.

"This is... the second secret technique?"

Lan Shang's eyes lit up, and then he shot them with a palm.

Rumble!

Lan Shang shot with a palm, the earth and the earth were shocked, and the terrifying power, like a row of mountains and oceans, rushed to the landing.

The first to bear the brunt was that the Gate of Domination was shaken out. After a few shocks, it quickly shrank and disappeared.

Then, Lu Ming's attack was completely defeated, and a powerful force hit Lu Ming. Lu Ming's body was violently shaken, and he retreated backwards.

"do not fight!"

Lu Ming took a few breaths and then shrank quickly.

He has exerted all his strength and there is no need to fight anymore.

"This is your strongest combat strength?"

Lan Business asked.

"Not bad!"

Lu Ming nodded.

"With your cultivation base, having such a combat capability is already shocking enough!"

The blue merchant spoke.

Without waiting for Lu Ming to show his joy, Lan Shang then said: "But with your current strength, it is impossible to enter the top ten when the Taixu Royal Sanctuary is held!"

"Totally impossible?"

Lu Ming's eyes narrowed, and at first he was a little dissatisfied, but when he thought of Lan Feng, his dissatisfaction disappeared.

Lan Feng's strength is astonishing. With his current strength, I am afraid that he will try his best and is not Lan Feng's opponent.

So, how much is the strength of the entire Taixu dynasty comparable to Lan Feng, or above it?

Thinking of this, Lu Ming's face dimmed.

"Although your strength is strong, there are also many weaknesses. First of all, the ancient **** body is very exhausting. Also, your tactics of warfare should be cultivated to five times the combat power, but the chance of triggering is too low. During the war, The other party will not give you time to trigger success!"

Blue Business Road.

Lu Ming nodded. Indeed, what he is most suitable for now is four times the combat power and 100% success.

However, the chance of triggering five times the combat power is too low. The duel between the Tianjiao and the arrogance is so far from the truth, how can others give you time to trigger?

Chapter 3180: Taixu Sandu

"So, you want to enter the top ten when the Taixu Royal Sanctuary is convened. There are two aspects that must make a major breakthrough, that is, cultivation and the original divine factor!"

"There must be a breakthrough in these two areas before you can be sure."

"For example, cultivation to reach the realm of God King, or your other divine powers have awakened the original power factor, and the second awakening of the master power!"

Blue Business Road.

Lu Ming smiled bitterly. It is not far from the date of the Taixu Royal Sanctuary. With such a short period of time, how can he break through in these aspects? Any kind of breakthrough will require a lot of time!

"It is less than sixty years from the date of the Taixu Royal Sanctuary. To be precise, it is fifty-six years. Under normal circumstances, it is impossible to break through any aspect in fifty-six years!"

"However, there are some peerless treasures that may allow you to break through in a short time!"

Blue Business Road.

"I'm afraid this kind of treasure is outrageously expensive, how can it be easily obtained!"

Lu Ming smiled bitterly.

"Jiujue's King Palace is not there, it does not mean that there is neither Taixu Sheng!"

"There are some powerful families in the Taixu Shengdu, all of which have some treasures to suppress the heritage. The effect is very anti-sky, and some can help you break through, so I plan to take you to the Taixu Shengdu first. The hospital will soon be held!"

Blue Business Road.

"Go to Taixu Sandu?"

Lu Ming's eyes lit up, revealing the look of expectation.

Jiu Jue Tian Wang Mansion is so magnificent, so what is the scenery of the holy capital?

Anyway, Taixu Shengdu, he will go sooner or later.

"I was in the Taixu Holy Capital at that time, and I still mixed well. There are some friends who have had life and friendship. I went to ask them. It should allow you to use those treasures to cultivate and break through!"

"You are ready to go in two days!"

Blue Business Road.

"Okay, by the way, Uncle Lan, can I bring others together?"

Lu Ming said.

"You want to take the girl next to you, of course!"

Blue Business Road.

"Thank you Uncle Lan!"

Lu Ming said, he really wanted to take Qiuyue with him. It should not be difficult to join Qiuyue's talent in Qiuyue's royal sanctuary.

In the practice of Taixu Royal Sanctuary, Qiuyue will improve faster.

Returning to the place of residence, I will talk to Qiuyue about the trip to Taixu Shengdu.

In the next two days, they did not practice and quietly enjoyed life.

Two days later, Lu Ming took Qiuyue to the place where the blue merchant lived.

At the door of Lanshang Bieyuan, Lu Ming saw an ordinary young woman.

"Who is this?"

Lu Ming was surprised.

However, when Lu Ming saw the subsequent expression of an ordinary woman, Lu Ming knew who she was.

"Humph!"

After seeing Lu Ming, the ordinary woman snorted heavily, especially when she looked at Qiuyue, her eyes were even colder.

Blue Spirit!

Needless to say, Lu Ming also knew that this woman was Lan Ling.

Obviously, Lan Ling passed through the face.

Lu Ming understands that Blue Spirit must also follow the Blue Merchant to the Taixu Shengdu, but Wu Fan, the son of the master of the country, took a fancy to the Blue Spirit. If Lanling went to the Taixu Shengdu with the real appearance, he would definitely encounter unnecessary Trouble.

Lan Shang walked out of the other courtyard and said, "The people are here, let's go!"

...

Jiu Jue Tian Wang Fu is far away from the Holy Capital of Taixu and is far away, separated by many star fields.

Even if they took the interstellar teleportation array, it took several years before they arrived at the Taixu Shengdu.

"Is that too sacred city?"

Standing in the starry sky of the universe, looking forward, Lu Ming and Qiuyue both looked dumbfounded.

Rao is mentally prepared, and Taixu Shengdu is beyond Lu Ming's imagination.

In front, a giant city, suspended in the universe starry sky.

Yes, it is a giant city.

A dark and ancient giant city is simply astonishing, even bigger than the life planet.

A city is bigger than a life planet. What is this concept?

And around this giant city, there are life planets, which constantly rotate around the giant city.

Lu Ming counted a total of 36 planets.

Thirty-six planets, orbiting a giant city, this scene is really shocking.

"Huh, I have never seen the world!"

Seeing Lu Ming and Qiu Yue's expressions of dementia, Lan Ling seized the opportunity and snorted.

Of course, Lu Ming directly ignored Lan Ling's words.

He is now completely immune to Blue Spirit.

"Go!"

Lan Shang looked at Taixu Shengdu, revealing a hint of intricate color, said softly, and flew towards the giant city.

Several people in Lu Ming followed.

The closer to the giant city, the more magnificent the giant city is.

There are eight gates in every direction of the giant city.

It is absolutely terrifying to lay out these various big killers on the city wall.

Needless to say, there must be terrible strongmen sitting on the walls.

If you want to enter the Taixu Holy City, only enter through those gates.

Slowly, they flew to one of the gates.

"What a big city gate!"

Lu Ming sighed.

A city gate is huge, with a length and width of more than a million miles.

Even if you are in a huge race, you can easily pass through the city gate.

From a distance, I saw countless creatures flying towards the city gate.

Lu Ming lined up with them, and flew towards the gate with the crowd.

Entering the Taixu Holy Capital requires registration information and leaving a breath of life, which is very similar to entering the Jiu Jue Tian Wang Mansion.

Soon, it was Lu Ming's turn to them.

"Isn't this the blue merchant?"

"Really Blue Merchant, he is back!"

"What is he doing here? Do you want to report it?"

"No, his star cores have been discarded, just a waste person, no need to notify!"

The sergeants who defended the city clearly recognized the blue merchant, and whispered.

"you guys..."

Lan Ling was upset and wanted to be angry, but was stopped by the blue merchant.

"Register information!"

Lan Shang said lightly.

Since Jing Yu's fall, his star core has been abolished.

"Ha ha!"

The guards sneered a few contemptuously, and then they registered for the Blue Merchant.

After registering, they passed the gate and entered the Taixu Holy Capital.

Entering the city gate is an endless building.

Various tall and ancient buildings are endless, and you can't see the end.

The wide streets are thousands of miles wide, and a large number of creatures walk on the streets, prosperous.

Many creatures exuded a terrifying and breathing atmosphere, and Lu Ming felt a little surprised, and was very surprised.

God King, God King...

There are **** kings everywhere on the street, and the number of **** kings is more than that of **** kings.

How many **** kings are there in the entire Taixu Sheng?

"Today, the Royal Sanctuary of Taixu is getting closer and closer, so the powerful people from all over the world are coming together, so there will be so many **** kings on the street. There can't be so many!"

Lan Shang explained.
