

D Emperor 3301

Chapter 3301: Bad condition

Thirty-six wicked ape war tribes broke out with terrible lethality. With the masters brought by Chu Chengkong, the existence of five or six **** kings was tragically dying, and seven or eight **** king peak powerhouses were met. Hit hard.

"kill!"

The ape war tribe roared, the atmosphere was violent, the war intentions were going to the night, and they continued to launch a violent attack.

A few screams of unwillingness and sternness came out. Among the masters brought by Chu Chengkong, there were several pinnacle **** kings, which finally lost to the enemy and were exploded.

At this moment, everyone was shocked.

The fighting power of the thirty-six Nether Ape War Clan gave them great shock.

Before, most people believed that there was no powerful force behind Lu Ming, and no powerful expert could help him. At this moment, they all understood that they were wrong and underestimated Lu Ming.

The masters brought by Lu Ming are terrifying, all-in-one peak **** kings.

In particular, Chu Chengkong and Wu Fan, they have already taken actions so that Jiu Jue Tian Wang Fu can't send many masters to support Lu Ming. Unexpectedly, Lu Ming could actually bring so many strong men.

"It is the Winged Ape Warrior, **** Nine Heavenly King, actually released the Winged Ape Warrior!"

"Shoot, hurriedly, bombard these debris!"

Wu Fan shouted wildly after reacting.

Immediately, the thirty-six masters brought by Wu Fan shot, and the violent offensive, like the stormy waves, rushed to Lu Ming, and the entire starry sky, a big explosion occurred.

"All the pinnacle gods!"

Lu Ming's face also changed.

The thirty-six strong men brought by Wu Fan are all pinnacle gods. They deserve to be the state division house and have amazing strength.

"Block it!"

The Winged Ape Warriors screamed angrily, and could not continue to chase down Chu Chengkong's people. Most of the Winged Ape Warriors reversed direction to block the attacks of Wu Fan's men.

Nether Ape War Clan, each turned into a giant ape, with flared fangs and ghost spirits.

Some people use iron rods as weapons, while others directly punch their fists, and their combat power is powerful, just like a war machine.

Boom!

A terrifying shock erupted, and the void was exploded. The terrifying vigor was overflowing. Some meteorite around it was directly detonated and turned into powder.

Lu Ming was protected by the Ming Ape War Clan in the middle, otherwise, he could not bear the aftermath.

However, although the warriors of the apes are powerful, the number of opponents is too large.

The thirty-six strong men brought by Wu Fan, as well as more than twenty strong men under the empty hands of Chu Cheng, are almost double the number of the apes, and they are the same peak **** kings of the same level.

In this way, the Winged Apes are blocked, and it is difficult to form an effective kill on the other party.

"Nether Ape War Clan actually followed Landing, strange!"

"Interesting, I thought it would be a one-sided battle, this time, not necessarily!"

Around, some people whispered.

This scene was also beyond the expectations of Qian Shengxuan and Liu Kuan, and their faces were very different.

Boom!

In a blink of an eye, the two sides fought dozens of moves. However, the strength of the Ming Ape War Clan is indeed strong. Even if the other party has an advantage in number, it is still blocked by the Ming Ape War Clan, and it is difficult to divide the victory.

"Don't fight first, rush out!"

At this moment, Lu Ming transmitted a sound to the Ming Ape War Clan.

They are fewer in number, and after a long battle, they must suffer, and besides, there is a Liu Kuanhu staring.

Liu Kuan, but the prince's men, the masters they bring must be amazing.

Receiving Lu Ming's voice, thirty-six warriors of the apes began to gather together, and then rushed in one direction.

In that direction, the masters brought by Chu Chengkong, the number is slightly smaller, and was rushed by the strong of the ape warfare clan, almost broke apart directly.

"Stop them, they must not let them escape!"

Wu Fan shouted and gave orders in the rear.

Under Wu Fan's men, a horrible wave erupted, and he madly launched an attack on the Winged Ape Clan. A few Winged Ape Clan accidentally suffered a little injury.

"Kill it out!"

A screaming old ape warfare cries, holding an iron rod, the iron rod is open in the air, and the powerful terror. The two powerful kings in front of him are suppressed by him alone and keep retreating.

Lu Ming's formation is slowly assaulting outward, so going on and rushing out of siege is sooner or later.

"Ten of you, help Wufan them, today, we must leave Lu Ming!"

At this moment, Liu Kuan's eyes flickered coldly, secretly bringing him ten strong voices.

Uh! Uh! ...

The ten strong men immediately moved and rushed towards the landing to their battlefield. The speed reached its extreme point, and it instantly crossed the long starry sky and appeared around the battlefield.

boom! boom!

Ten strong men shot, showing a terrifying combat power.

There is no doubt that they are the pinnacle gods, and once shot, the power is terrifying, and the combat strength is not weaker than the strong ones of the apes.

These are the elites sent by the prince. When they were young, they were Tianjiao-class characters. They were powerful, and they were masters of the same level. Each one was not weaker than the fighting power of the apes.

With the joining of these ten strong men, the apes of the apes suddenly fell in the wind.

"Liu Kuan, you are mean, so many people besieged Lu Ming..."

Qian Shengxuan kicked her eyes and took her men to shoot.

However, there are still 26 people under Liu Kuan.

Liu Kuan waved his hand, and all of these 26 people erupted into a strong breath, which was extremely terrifying, like a great wall, blocking the road to the void.

boom!

The two sides shot, and made a move, but the result was that the thirty-six people brought by Qian Shengxuan were blocked, and some even backed off.

Thirty-six people, not twenty-six opponents.

Qian Shengxuan, as well as the masters of Qiansheng Heavenly King's palace, had a dignified complexion.

The person sent by the prince was really terrifying.

All are the pinnacle of God King, and the fighting power is extremely amazing.

The ten people who shot against the apes of the apes before were powerful, and even more amazing, the remaining twenty-six people were all elites.

The strong are all strong.

This made other people, such as Emperor Jianyi, Void Cliff, etc., look extremely dignified.

They are certainly peerless geniuses, but after all, cultivation is still weak, and it is only a way of defeating this kind of peak **** king.

The masters sent by the prince were too scary, and the people they brought were probably not opponents.

At the scene, it is estimated that only the masters sent by the Second Prince can fight it.

The fierce battle continues, but at this moment, the Winged Ape Clan has completely fallen below, not to mention the counterattack, the resistance is very reluctant.

Moreover, their formations were slowly broken apart, in twos and threes, pulling away from each other and fighting each other.

In this way, Lu Ming was exposed to others.

"Go and kill Lu Ming!"

"Now kill Lu Ming!"

Wu Fan, Chu Chengkong shouted almost simultaneously.

Chapter 3302: Capture Wufan

Wu Fan and Chu Chengkong shouted, and immediately, there were two strong men who pulled out and slammed towards the landing.

The two pinnacle **** kings rushed towards Landing Ming, bringing up violent energy, empty vibration, terrible oppression, and rushed towards Landing Ming.

"Not good, Zhanzu..."

The strong apes of the Nether Ape War Clan shouted and were frightened.

Taking Lu Ming's cultivation practice as the siege by the strong men of the two **** king pinnacles, he will definitely die.

"Lu Ming!"

Qian Shengxuan also exclaimed, showing an unbearable look.

She knows that Qian Sheng Lao Tian Tian attaches great importance to Lu Ming, but unfortunately, under such circumstances, Lu Ming will die.

Others have different faces.

Like Emperor Sword One, the glare of the sword flashes, and I don't know what I'm thinking.

In addition, some people sneered, gloating.

Some people sighed, regretting Lu Ming.

"Hahaha, die!"

Wu Fan laughed wildly. He seemed to have seen the end of Lu Ming's beheading. His foe was finally to be removed.

Lu Ming's eyes narrowed slightly, his figure retreated to the side.

"Want to go? Die for me!"

One of Wu Fan's men drank coldly and pointed like a sword, slashing down.

Suddenly, a tremendous sword light blew towards the landing, and a scary sword mark of millions of miles appeared in the starry sky.

At the moment, a set of flags suddenly appeared in Lu Ming's hands. With a wave of hands, a total of twelve flags flew out and landed in twelve different positions in front.

This is the strongest set of flags given to him by the Blue Merchants, specifically for defensive purposes.

The array of flags glowed, forming a wall of light, blocking Lu Ming in front of him.

boom!

The sword light, cut on the light wall, let the light wall shake madly, but, after all, was blocked.

"Want to block us with a set of flags, naive, kill!"

On the other side, under Chu Chengkong's men, a strong man of the God of War family was also killed. With a long gun, the gun was like a mountain, bombarding the light wall.

Rumble!

The terrifying energy exploded, igniting the waves of the sky, the light wall was shaking violently, then there were cracks on it, and finally burst.

The wall of light was broken, and twelve flags were simultaneously blown to ashes.

"Look at what else you have?"

Wu Fan's man has a particularly gloomy look. He wants to kill Lu Ming and make great contributions in front of Wu Fan. Maybe he can be rewarded by the master of the country and give him treasures that can help break through the realm of God.

The thought of being able to break through the Divine Monarch, he was particularly excited, a little faster, and drove towards the landing.

At this time, Lu Ming stopped, and a copper coffin appeared in his hand.

Buzz!

Lu Ming suddenly waved the copper copper coffin. The copper copper coffin vibrated, and the 'sludge' sticking to it flew out like a raindrop, and flew towards the two masters.

"Humph, carving insect skills!"

Under Wu Fan's men, there was also the strong man of the God of War family snorted, waved his palm, and burst out with divine power, wanting to smash the "sludge."

However, when their divine power came into contact with 'sludge', their divine power was like tofu, and it was directly penetrated by the 'sludge'.

The mud was non-stop, and continued to fly towards the two. The two suddenly changed color, screamed, and made a move with all their might, trying to fight the mud.

But as before, their attack was directly penetrated by the mud, and the dense mud was hit on them, and their bodies immediately became horse honeycombs.

what...

The two powerful men of God Realm screamed screamingly, their bodies shrivelled, they were corroded, and the scene was horrible.

"kill!"

Lu Ming drank coldly and performed Jiu Kun Kunpeng.

Now, Lu Ming has already trained the nine-day Kunpeng skill to the tenth weight, and the speed is even more amazing. Under a flash, Lu Ming appeared in front of the masters of the two **** king peaks, and the copper copper coffin blasted down.

bump! bump!

The strong men of the two God King's peaks burst apart and fell on the spot.

All this happened too quickly, and everyone around me was ignorant.

Wu Fan and Chu Chengkong were also dumbfounded and gaping.

The two powerful kings of the God King were killed in this way, which really shocked everyone's attention.

After killing the two pinnacle **** kings, Lu Ming did not stay at all, his figure flashed like a kunpeng, and went towards Wufan to fight.

Capture the thief and capture the king first!

Wu Fan has been far away from the battlefield and issued orders in the rear, without a master guarding him.

Seeing Lu Ming coming now, his scared face was pale, and he shouted: "Come on, save me!"

"Hugh wants to kill young master!"

One of Wu Fan's men roared towards the landing.

But Lu Ming waved the copper copper coffin, and some sludge flew out. The master stepped into the footsteps of the two before, his body was penetrated by the sludge, and a horrified scream was issued.

Others who wanted to rescue, fear in their hearts, and their body stiffened, hesitated for a moment.

Just like that, Lu Ming was approaching Wu Fan.

Wu Fan was reluctant to scream wildly and tried his best to resist.

Lu Ming did not use the copper copper coffin, but sacrificed the gate of the ruler.

Now, Lu Ming has no plans to kill Wu Fan, his purpose is to take Wu Fan and take the opportunity to get out.

The kind of sludge on the copper copper coffin was used in the black jade gold mine. After several times, the sludge on it was almost used up, leaving only a thin layer of glue on it.

Continue to use the copper copper coffin, there is not much power.

The Gate of Domination was suppressed, and Wu Fan's body shook wildly, vomiting blood and retreated.

He was not Lu Ming's opponent when he was held at the Taixu Royal Sanctuary that year. Although he has made great progress in these years, Lu Ming has made more progress. Now the two men's combat power is no longer in the same grade.

"Cathode pupil!"

After injuring Wu Fan with the Gate of Domination, Immediately after landing, Ming Shi exhibited the cathode pupil, and a vortex appeared above Wu Fan's head. The terrible chill shrouded Wu Fan.

In an instant, Wu Fan was frozen and difficult to move.

At the moment, Lu Ming has appeared beside Wu Fan, and the chain of ice flutters out to surround Wu Fan.

"Stop, otherwise, I will kill him!"

Lu Ming's indifferent voice sounded, spreading across the starry sky.

"Son, damn..."

When Wu Fan's men saw that Wu Fan was arrested, he could only stop.

Wu Fan's men stopped, and the pressure of the Ming Ape War Clan was greatly reduced, and many people gathered together.

However, Chu Chengkong's and Prince's men continued to attack.

"You guys, stop them, otherwise, I will kill Wu Fan now!"

Lu Ming called Wu Fan's hand down to block Chu Chengkong and the crown prince.

"You, don't go too far!"

Wu Fan's men angered and asked them to block the prince, wouldn't they want to fight against the prince?

"Don't you shoot?"

Lu Ming spoke indifferently, and a long gun was condensed in his hand, and a gun pierced Wu Fan's thigh, Wu Fan screamed in pain.

"Liu Kuan, Brother Liu, give me a face and stop shooting!"

Wu Fan screamed.

Chapter 3303: Successfully get out

Wu Fan screamed and pleaded with Liu Kuan, asking Liu Kuan to stop.

Now, he fell into Lu Ming's hands, and life and death were between Lu Ming's thoughts. He was really scared. If Lu Ming was impatient, a fish would die and he would die with him, then he would be finished.

He wanted to kill Lu Ming, but he didn't want to take himself in, and took himself in. What's the point of killing Lu Ming?

In his heart, 10,000 Lu Ming could not compare with his own hair.

Liu Kuan's eyes changed for a while, and then he waved his hand unwillingly: "Stop!"

As soon as Liu Kuan's voice fell, the prince's ten men stopped, flashing, and left the battlefield.

Wu Fan, after all, is the son of Guoshi. If he fell because of him, even if he is a prince, I am afraid that he cannot stop the anger of Guoshi, which is extremely unfavorable to his future path.

He is naturally willing to give Wu Fan a face.

"Retreat!"

As soon as the Crown Prince retreated, those brought by Chu Chengkong also retreated.

They also have no choice. The state of the State Division and the Crown Prince have stopped. Even if they want to continue their offensive, they are not opponents of the Winged Ape War Clan. If they continue to fight, it is estimated that they were destroyed.

"All come to me!"

Lu Ming shouted, and then, the masters of the Ming Ape Warrior gathered around Lu Ming.

Lu Ming glanced at him, slightly relieved.

Fortunately, no one from the Nether Ape War Clan died in battle, at most they were seriously injured.

Ning Ape War Clan is Lu Ming's precious wealth, and they will depend on them in the future. If they die in battle, Lu Ming's heart will bleed.

"Lu Ming, we have stopped, and now you can let Wufan son!"

An old man in Guoshifu said, his eyes were extremely cold.

"Now let him go, what will you do if you come to siege me again?"

Lu Ming sneered.

"What do you mean? Are you planning not to let your son?"

The old man in Guoshifu was even colder.

"I'll let him go naturally, but after we get out!"

Lu Ming said.

"No, wait until you get out, what should you do if you kill your son? No!"

The old man in Guoshifu encouraged him to drink, and he absolutely would not agree.

"Yes, with Lu Ming's character, when they get out, they will definitely kill Wu Fan, and they must not be allowed to leave!"

Chu Chengkong opened his mouth, his face cold, at this moment, he was hiding among those masters, protected by Tuan Tuan, afraid of ending like Wu Fan.

Then Liu Kuan also opened his mouth and could not let Lu Ming go.

Lu Ming's face was gloomy.

He really had this plan. After he got out, he directly cut off Wu Fan.

It now appears that the other party will obviously not let him succeed, but now that Wu Fan is released, the other party will certainly continue to work on them.

The scene suddenly stalemate.

"let's go!"

After a while, Lu Ming opened his mouth and led the people of the apes fighting tribe towards the core area of the broken universe.

"Can't let them go, chase!"

The masters of Guoshifu shouted and drove them to the landing.

Wu Fan must not have anything to do, otherwise, they cannot bear the anger of the master.

"Let's go too!"

Chu Chengkong opened his mouth, took his men, and chased at Landing Ming and others. He still didn't want to let Lu Ming so easily.

"go!"

Liu Broadband, who was holding the Prince's Mansion, also chased him.

"Let's go and see too!"

Qian Shengxuan took the people from Qiansheng Heavenly King's Mansion and followed them down.

As for the others, it did not follow.

Their goal here is the spirit factor, but it is not to see other people fighting.

Soon after, Emperor Jianyi, the Void Cliff and others set off, and with their strong men, they entered the core of the broken universe in search of the **** factor.

Lu Ming took Wu Fan and continued on.

The core of the broken universe is full of broken planets, broken warships, and huge and silent meteorite floating in the air.

They avoided the meteorites, and avoided some cosmic storms, and moved forward quickly, but the people behind Guoshifu, Chu Chengkong, Liu Kuan and others, were chasing after them.

"Lu Ming, let go of the son, if the son has three long and two short, you will die!"

People in Guoshifu shouted.

Lu Ming was too lazy to take care of it, and took the people of the apes fighting tribe to fly fast.

Soon, they flew for two hours.

Quack...

Suddenly, a sharp cry came from a nearby planet like a beast's head, and then, a black bird pressed against a large bird and flew over towards it.

This is a terrifying monster, with three heads, full of evil spirits, wingspan spread, and a few hundred meters.

The densely packed strange birds rushed towards this side.

"Yes!"

Lu Ming's eyes lit up, cast a chain of ice, wrapped around Wu Fan, the cold on the chain of ice, frozen Wu Fan, and then slammed violently, Wu Fan's body flew out like a cannonball, toward the group of monsters The bird flew away.

"Ah, save me, come and save me!"

Wu Fan shouted, looking at the strange birds getting closer and closer, almost scared to pee.

"Son, damn..."

The masters of Guoshifu roared, panicked, and rushed towards Wu Fan madly, using all their strength.

Finally, a few strong members of Guoshifu, who were good at speed, arrived in time, attacked one after another, and bombarded those strange birds.

Then, the rest of the Guoshi Mansion arrived and fought against the strange birds.

In this way, the people in Guoshifu could not continue to pursue Lu Ming.

Only the Prince and Chu Chengkong were left.

Liu Kuan and Chu Chengkong looked ugly and hesitated. Eventually, they stopped and did not pursue.

Only them are left, and they continue to chase. Even if they can catch up with Lu Ming, it will definitely be a hard fight. The strength of the Ming Ape War Clan is shocking. When the time comes, they will lose both sides.

And Lu Ming has many means, before actually killing the three peak **** kings, so that they have no idea.

What's more, far away, Qian Shengxuan also led people to follow.

In the end, they stopped to help the people in Guoshifu against the strange bird.

"let's go!"

In the rear, Qian Shengxuan took the people from Qiansheng Heavenly King's Mansion and left from another direction.

After a while, Wu Fan was finally saved, they rushed out of the strange bird's siege.

"Lu Ming, Lu Ming, I want to kill you, I want you to die..."

After Wu Fan was released, he roared like a wolf.

His hatred for Lu Ming turned into raging anger, and he was about to burn.

Of course, Lu Ming can't hear it now. He has long left here and is constantly heading towards the core of the broken universe.

After a few more hours, they stopped and rested on a meteorite.

Many people of the Winged Apes are injured and need time to heal.

They stayed here for two days, and no one else came.

Two days later, almost all of the wounded Ape Warriors were healed, and they continued to set off and continue to advance towards the core of the broken universe.

Chapter 3304: Monsters in Divine Realm

There are more and more monsters appearing in the ruined core of the universe. These monsters basically have no intelligence. When they see them, they attack.

They broke through several dangerous places in a row.

"There... the original idol reacted!"

Suddenly, Lu Ming's eyes lit up.

Here, Lu Ming has been holding a primitive idol, because here, the deity factor is increased, but it is difficult for them to sense, only the primitive idol can have induction.

At this moment, the original idol began to react, and a faint glow appeared on the surface.

This is a reaction that only occurs when there is a **** factor nearby.

"where is it!"

Lu Ming looked at them, looking at a mountain range ahead.

Yes, a mountain suspended in the starry sky is as huge as the planet.

Spiritual factors are emitted from this mountain range.

However, from a distance, they felt a strong wave in the mountains.

"Be careful!"

Lu Ming urged everyone to converge and land on the edge of the mountain.

There are no plants in the mountains, and there are bare rocks everywhere.

Lu Ming held the primitive idol and went towards the depths of the mountains.

Roar! Roar! ...

Soon, there was a horrible roar, a huge monster, and they rushed towards the landing, the breath was extremely horrible, and they all existed in the seven kings of God.

The two apes fighting step by step, the giant fist blasted out, and killed several monsters.

But then, more monsters were killed.

"Just ahead, rush to the past!"

Lu Ming said.

They started to rush forward, and Lu Ming supported the original idol, sensing the direction of the richest **** factor.

Monsters are constantly killing them. Soon after, they have killed at least a few hundred monsters, almost all of them are more than seven heavy gods, and even the presence of eight heavy gods.

After these monsters died, there was a ray of light flying towards the primitive gods, which were all **** factors, absorbed by the primitive gods.

"It is worthy of being the core place. The monsters contained in the monster are much stronger than the outside~"

Lu Ming showed a happy look.

He found that even if he hunted this monster, he could finally open the original idol.

"Coming!"

After a moment, Lu Ming whispered, because at this moment the original idol was shining brightly, and in the distance, there was a ray of brilliance that flew over.

This is a combination of divine factors, like a strip of light.

Prove that they are not far from the place where the **** factor is rich.

"That is..."

After another walk, Lu Ming saw a huge finger.

Yes, it's a finger that looks like a wild beast, huge, like a mountain, across the ground.

The rich divine factor emanates from this finger.

This finger almost decayed, revealing the bones as white as jade, but there is still a rich, ancient and ancient atmosphere.

"Is this the finger of a primitive deity? However, this finger is not particularly large!"

Looking at the finger in front of him, Lu Ming thought.

In Lu Ming's impression, those primitive gods are huge, and their bodies are bigger than the planet.

The finger in front of him, although it is also hundreds of miles long, is still incomparable to the original gods he remembered.

However, Lu Ming was already very excited.

Although this finger is rotten, it still contains a lot of **** factors, which should be enough to open the original **** statue.

However, the monsters appearing in this neighborhood are also much stronger.

There has even appeared the pinnacle **** king of **** king Jiuzhong. Fortunately, the number is not too much.

More than two dozen ape warfare tribes joined forces to continuously bomb monsters.

The remaining dozen of ape war tribes protect Lu Ming by their side.

Soon after, the ground was covered with corpses of monsters.

Supporting the original idol, Lu Ming finally came under his finger.

Buzz!

The primitive idol, and the finger, seemed to resonate, exuding the ancient atmosphere of the wild, like the resurrection of primitive gods.

Then, the rich divine factor flew to the original idol continuously, like a strip of light, wrapped around the original idol.

Lu Ming placed the original idol on the ground and waited on the side.

Thirty-six warriors of the apes, guarded around the original idol.

Roar...

Those monsters have not been killed. In all directions, there are still monsters rushing from time to time, but they are all killed by the people of the ape war tribe.

"It's really not easy to get the **** factor!"

Lu Ming sighed.

Fortunately, being able to come in with the strong and relying on themselves alone is absolutely unsuccessful and will be torn to pieces by the monsters here.

With the passage of time, the brilliance on the primitive gods became more and more intense, and slowly, a layer of wonderful breath filled out.

Under this breath, the speed of Lu Ming's divine power has accelerated, and it seems that the understanding of the original divine factor has also accelerated a lot.

"It worked!"

Lu Ming showed a happy look.

Although the original idol has not been fully illuminated, it has shown a trace of effect.

If you really turn on the light, the effect is definitely extraordinary.

He continued to wait patiently.

In a flash, two days passed.

Two days later, the divine factor diffused from that finger began to fade. This shows that the divine factor in the finger is almost absorbed.

"What's going on before it's turned on?"

Lu Ming was anxious.

Before coming here, he checked a lot of information about the broken universe and the opening of the original idol, and he probably had a bottom in his heart.

It stands to reason that the primitive **** has absorbed so many spiritual factors, and it should be successful in opening the light, but now, there is still no sign of successful opening.

"Is this my original statue special?"

Lu Ming thought.

His primitive idol is indeed taller than a thousand feet.

The original idol he got from the Tianjiao of the Nine Nine Heavenly King Mansion was only a hundred feet tall, and the volume difference was even greater.

This may be the reason. The larger the original god, the more spiritual factors are needed.

But the same, the larger the original god, the better the effect is once the light is turned on.

Roar!

A terrifying roar interrupted Lu Ming's thoughts.

In the distance, there was a terrifying breath, and the whole mountain was shattered towards this side, and the whole mountain range was shaken. Not only that, some meteorites not far away were shaking.

"It's a god!"

"No, it's a monster of God's Kingdom!"

The strong men of the Nether Ape War Clan changed their faces wildly.

Lu Ming's complexion also changed greatly.

This kind of momentum is definitely not what God King can have, it is definitely the existence of God's King Realm.

Here, there are monsters of God's King Realm.

"Go away!"

Lu Ming shouted, waved his hand, put away the original idol, and rushed into the sky with the people of the Winged Apes, and left here.

Chapter 3305: Silver Hair Killer

Lu Ming put away the primitive idol, and thirty-six wicked ape war tribes soared into the sky, and hurriedly left here.

Roar!

When they rushed out of space, just where they were just now, there was a horrible roar, starry vibration, a terrible shock wave, rushed out of the starry sky, spreading in all directions.

Lu Ming, they also suffered.

Thirty-six evil apes and war tribes encouraged drinking and laid heavy defenses in the rear, but when the shock wave rushed, still 80% of the defenses were defeated.

Many Nether Ape Warriors have pale faces, and with this power, they take Landing Naming away at a faster rate.

Fortunately, the horrible existence in the mountains did not pursue, and after a few more roars, it returned to silence.

Lu Ming took a long breath, feeling cold and sweaty.

The existence of Divine Monarch Realm is too terrifying, don't look at the fact that they have thirty-six strong kings, and each of them is a master, but if they really encounter a powerful emperor, they will be counted as thirty-six apes. Adding up the clan may not necessarily be the opponent of the opponent.

Encountered such a horrible existence, only escape.

After that, they were more careful, even if they encountered some monsters, they just rushed by, not daring to kill them, and fearing that they would lead to the terrifying monsters of the godly realm.

In the next half month, they passed through several special places, containing rich spiritual factors. Lu Ming let the original gods absorb the spiritual factors.

However, after absorbing the **** factors in several places in a row, Lu Ming's original idol still did not open.

Lu Ming was helpless and could only continue to search.

Fortunately, they still have a lot of time. They can stay here for ten years, but now it is not even a year.

On this day, they were flying in a broken area.

In this area, there are more abandoned items, various small meteorites, abandoned warships, and even abandoned giant magic soldiers, floating in the starry sky.

From a distance, these things are densely packed.

They slowed down, avoided these things, and moved slowly.

Suddenly, Lu Ming jumped in his heart, and he suddenly developed a strong sense of crisis, as if there was a terrifying existence staring at him.

"Be careful!"

Lu Ming quickly reminded.

As soon as his words were spoken, he heard a roar of a wicked ape war clan, punching in one direction.

boom!

In that direction, a terrible explosion came out, and a violent shock erupted. In that place, a dazzling white light burst out.

Uh!

A whitish white sword dazzled dazzlingly, and broke the fist of the Ape Warrior at once, and cut it on his fist, blood splattered, the fist of the Ape Warrior was cut abruptly. Layers of flesh and blood, saw the bones.

The figure of the ape war tribe retreated suddenly.

Uh...

Then, the dazzling sword light flickered, and actually slammed towards the landing.

"Come on!"

"kill!"

On the side, other Winged Ape Warriors screamed, and several Winged Ape Warriors shot in a row, and a terrible attack broke out, killing them towards the dazzling white light.

Several consecutive ape war tribes shot, and finally blocked the dazzling sword light.

The void continuously shook, and the two sides launched a fierce confrontation.

At this time, Lu Ming finally saw the appearance of the people who shot them.

It was a man, who appeared to be in his thirties, with silver hair, white skin, and handsome handsome.

It's just that his eyes contain amazing killing opportunities, the sword light in his hands is constantly being cut out, and the power is extremely amazing.

This person's cultivation practice is about the peak God King, but with his own strength, he actually resisted the four Winged Ape War Clan without falling down.

"Who is this person, so strong!"

Lu Ming's gaze narrowed slightly, revealing doubts.

This man's killing was very heavy, and Lu Ming felt that this killing was emanated from him.

Seems to want to kill him very much.

However, this person Lu Ming has not seen, is not a person in the state division, nor a prince, nor is it a person brought by Chu Chengkong.

Even the masters brought by others do not have this look.

boom!

There are other Winged Apes fighting step by step, wanting to siege this silver-haired man together.

But at this moment, in another direction, one of the small meteorites suddenly burst into a terrifying sword light.

The sword light was like a beam of light, and it came close in a blink of an eye, striking straight towards the landing.

The goal is also Lu Ming.

Fortunately, next to Lu Ming, there is the guardian of the ape war tribe.

A ghost ape war tribe screamed, appeared in front of Lu Ming, the iron bar swept out.

However, the sword light changed rapidly, and instantly turned into hundreds of sword lights, like raindrops, stabbing at the amber war tribe.

Poof!

The Wraith Ape Clan was difficult to resist, and a sword hole suddenly appeared on his body.

However, this Wraith Ape Clan is still in front of Lu Ming, never moving half a step.

"kill!"

A cold drink sounded, the pale sword light soared, and continued to kill the injured Ape War Clan, trying to kill one of them.

However, the other apes on the side also shot, roaring again and again, launched an offensive, blocking the sword light.

And Lu Ming also saw the person who shot here, also a man, with silver hair, about forty years old, except that he looks a little older, much like the previous silver-haired man.

"More than one, these people, what is the origin?"

Lu Ming was extremely puzzled.

"Together, kill them!"

Lu Ming gave the order.

Suddenly, more Winged Ape Warriors shot and attacked the two silver-haired men.

However, the two silver-haired men flashed their bodies, avoiding the attack of the apes

The two silver-haired men, like two sword lights, flickered in the void, and the speed was almost extreme.

Although the fighting strength of the Winged Apes is strong, they are far worse than the opponent in terms of speed. They can't capture the opponent's speed at all and can only defend together.

From time to time, a terrible sword light burst out, slashing towards Lu Ming.

Yes, those sword lights are aimed at Lu Ming repeatedly, just to kill Lu Ming in general.

Fortunately, the Ming Ape War Clan couldn't drain Lu Mingwei's water, and Jian Guang couldn't attack at all.

After a moment, Jianguang concentrated, and the two silver-haired men stopped attacking and stood on a small meteorite not far away, watching the landing sound with cold eyes.

Then they flashed into two rainbow lights, disappeared in an instant, and disappeared.

However, Lu Ming did not relax.

He has a lot of doubts in his heart. Who are these two silver-haired men?

Is it a strong man brought in by Tianjiao? Why kill him?

"I heard that the crown prince seems to have two Tianjiao coming in. Are these two silver-haired men the master brought by another Tianjiao?"

Lu Ming thought.

If it is true, it is really difficult to deal with, the two silver-haired men's combat power is so terrifying.

Chapter 3306: There were casualties

Lu Ming adjusted his mood, and continued to move forward with the powerful apes of the apes.

In the next two days, the two silver-haired men never appeared again, and Lu Ming and others rested.

On this day, they saw a huge battleship.

From the appearance, this battleship is very complete. It has not been cut or split in half, but only a lot of scars, such as swords, guns and sword marks, are seen on the outside.

The most important thing is that when I came here, the original idol in Lu Ming's hands began to shine.

In the battleship, there is a strong spiritual factor.

"Go in, be careful!"

Lu Ming urged the strong men of the Ape War Clan, and then a group of people flew into the battleship and landed on a passage.

According to the response of the original idol, the things that contained the **** factor are deep in this battleship.

A group of people walked carefully along the passage.

silence!

This battleship, with no sound at all, was silent, as if there were no creatures, not even the wind.

But somehow, Lu Ming always felt a sense of crisis, which made him feel a big rock in his heart.

Suddenly, this sense of crisis skyrocketed.

"Be careful!"

Lu Ming shouted.

call out! call out!

Just as Lu Ming's voice fell, the sword lights around him skyrocketed, and several pale white sword lights slayed towards the powerful apes.

The strong men of the Nether Ape Warfare are always ready to fight, and at this moment they roared and launched a counterattack.

The terrible collision, the harsh sound exploded, and those sword lights collided constantly with the attacks of the Winged Apes, and they immediately confronted hundreds of times.

"A silver-haired man again!"

Lu Ming's eyes flashed, and what made him frown was that this time there were more silver-haired people, and he saw five at a glance.

Even more, because there are sword lights flashing around, killing the masters of the apes.

In the end, a total of nine silver-haired men appeared, all of them men.

Nine silver-haired men, Jianguang Mantian, and Manjian Jianguang even enveloped thirty-six Wraith Apes.

Moreover, the suppressed Ape Warrior fell on the downside. Such strength is really amazing.

If the non-Amber Battle Clan has practiced ghost warfare tactics, the combat power erupted is amazing, and its vitality is extremely tenacious. For the ordinary peak **** king, I am afraid that someone has fallen.

Even so, the situation was very bad for them, and there were constant injuries to the Ming Ape War Clan, with sword wounds on his body.

Puff...

Blood was splattering, and in front of Lu Ming, there were two terrible sword wounds on the two apes fighting tribes, reaching the internal organs.

Then, the pale white sword light will penetrate the defense of the Ming Ape War Clan and kill Lu Ming.

There is no doubt that the goal of these silver-haired men is still Lu Ming.

"Come on!"

Several Wraith apes roared, and the iron rods swept open, sweeping towards the silver-haired man.

when! when! ...

The sound of Jin Tie's fighting sounded, and the pale white sword light was blocked.

"Want to kill Zhanzu, dream, burst me!"

The wicked ape war tribes were angry, violently violent, and their eyes were blood red. They displayed the ghost war tactics to the extreme. Like a violent ape, these silver-haired men could never be close to Lu Ming.

"Let's quit first!"

Lu Ming shouted.

In this battleship, there are so many silver-haired men. This is definitely not a coincidence. Lu Ming suspects that their whereabouts are always followed by the other party, so the other party will ambush in this battleship in advance.

Moreover, Lu Ming found that these silver-haired men had eyes full of shame and murder, and did not have much intelligence, as if they only knew the killing machine.

This is very weird. It seems that any Tianjiao who came in this time did not bring such a master in.

Lu Ming couldn't figure out many problems, but the top priority is to leave here first.

The masters of the Winged Apes began to turn around and shocked the outside.

With so many apes fighting together, these silver-haired men can't do anything to stop them.

They slowly walked out of the battleship.

Nine silver-haired men are chasing after each other, constantly attacking and slowing them down, but Lu Ming sees that they are about to escape from the battleship.

At this moment, in a small passage on the side, a sword light flashed, with a terrifying roar, and they chopped towards the landing.

What Jianguang passed was like a storm of sword gas, and there were scary sword marks on the strange metals on both sides of the passage.

The materials used to build this battleship are of a very high level. Even after many years, they are still extremely hard. The battle between the apes and the silver-haired men just now can only leave very shallow traces on them.

And now this sword light, just a storm of sword gas, can leave a clear sword mark on the front, showing the horror of power.

"Protect Zhanzu!"

"Block it!"

Several Winged Apes on this side roared, bursting out of full force, and several terrifying attacks, killing towards this sword light.

Rumble!

The attacks on both sides erupted in a horrible roar. Surprisingly, the attacks of several Ape Warriors suddenly retreated and were split by Jianguang.

The sword light kept on, and the bodies of several ape war tribes retreated, and their bodies were covered with sword marks, scary and bloody.

Although Jianguang was weakened by some power, he continued to kill Lu Ming.

Lu Ming's body was suppressed by a horrible sword, and his body was sore that it seemed to be split.

"not good..."

Lu Ming was shocked and felt a terrible crisis.

At this moment, he also sees the true face of the person who attacked him. This is also a man. However, unlike the nine silver-haired men, this man's hair is blond.

Except for the difference in hair color, the others are very similar. The handsome face is not ridiculous, and in the eyes, all the violent killing opportunities.

Everyone has a sword in one, and the sword light is terrifying. It is stronger than the silver-haired man.

Jianguang killed Lu Ming, and if he prepared for this sword to be cut, Lu Ming would definitely die.

"Be careful!"

A burly figured ape war tribe roared, rushed to Lu Ming, and made a move with all his might.

However, this Winged Ape Warrior had been injured before and could not stop the other party's attack at all. Jianguang directly broke through the Winged Ape Warrior's attack. With a snorting sound, blood flashed, and the Winged Ape Warrior's body was attacked. Split in half, the soul annihilates.

This Winged Ape Warrior fell, this is the thirty-six Winged Ape Warfare brought in by Lu Ming, and it fell for the first time.

"kill!"

Killed a dying ape war tribe, the blond man burst into drink, the killing opportunity was extremely cold, Jianguang flashed again, slashing towards Lu Ming.

Quick, it's too fast, and the other apes fighting tribes on the edge are too late to rescue.

What's more, the Nether Ape War Clan was entangled with nine other silver-haired men. Even if they wanted to rescue, it was difficult to withdraw.

Seeing that Lu Ming was going to be beheaded by this sword, the ball flew out on Lu Ming's wrist and turned into a shield, blocking it in front of him.

Chapter 3307: Hot pursuit

The ball turned into a metal shield, blocking Lu Ming.

However, due to the hardness of the ball itself, the sword of the blond man is still unstoppable.

The sword light was cut, and the shield formed by the ball was split in half.

"Ball..."

Lu Ming tightened his mind, thinking quickly about the countermeasures in his mind, thinking about all the things available on his body, what is there to deal with the blond man.

However, with his current strength, there is nothing that can stop the blond man.

In the end, Lu Ming could only think of a copper copper coffin.

However, the mud on the copper coffin is almost gone, leaving only a thin layer, can it be useful?

But now, Lu Ming has no time to think about it. He directly took out the copper copper coffin, brandished the copper copper coffin, and hurled towards the front, trying to stop the blond man's attack.

But what surprised Lu Ming was the sudden change.

When Lu Ming took out the copper copper coffin, the blond man's eyes actually showed a look of horror, the sword light converged, and his figure collapsed.

It was as if the mouse saw the cat, turned into a sword light, and went away in a blink of an eye.

Not only the blond man, but also the nine silver-haired men, who also showed a terrified look. All of them backed away, backed away a thousand feet away. Looking at the landing song in horror. Copper coffin.

This scene really was beyond Lu Ming's expectations.

"The blond man and the silver-haired man, afraid of the copper and copper coffin?"

Lu Ming was curious.

The other ape war tribes were also amazed, gathered around Lu Ming and prepared for defense.

The ball was originally split into two halves and turned into two groups of metal liquids. At the moment, they merged together, but the spirit was a little weak, and it didn't matter. Lu Ming rested.

"Kill, kill, kill..."

The blond man, and nine silver-haired men, stood in the distance, staring at the landing, groaning in their mouths, and striking in their eyes, there was not much intelligence.

However, when their eyes looked at the copper copper coffin, they would show a horrified look.

Lu Ming determined that the other party must be afraid of the copper copper coffin.

"let's go!"

Lu Ming said, and then headed out. Nine silver-haired men and a blonde man followed Lu Ming far behind them, staying about a thousand feet away, and dared not lean too close.

Lu Ming they stopped, the silver-haired man and the blond man also stopped, and their distance from Lu Ming was always kept at a thousand feet away.

Soon, Lu Ming and them left the warship and appeared in the starry sky.

The blond man and the silver-haired man also followed, and stared at them bluntly.

"go!"

Lu Ming snorted, and turned into a rainbow of light from the Aristocratic Warfare Clan, and quickly left here to fly towards the core of the broken universe.

Although there is a **** factor in this battleship, it can't be taken care of at this moment. Now it is important to get rid of these followers first.

However, blond men and silver-haired men always follow behind them, and it is really 'inseparable'.

Lu Ming was speechless.

And the speed of these people has reached the extreme, no matter how they accelerate, it is useless.

Behind, Lu Ming made the demon ape warfare people make a defensive posture, guarding him around, forming an iron barrel, and then put away the copper and copper coffin.

Sure enough, as soon as the copper and copper coffins were put away, the nine silver-haired men and the blond man turned into a terrible sword light, and they called to the landing to kill them and start a terrorist killing.

Lu Ming quickly took out the copper copper coffin.

When the copper copper coffin was taken out, the silver-haired man and the blond man, the gods retreated, and left far away, but never left.

In this way, Lu Ming tried several times before and after, all with the same result.

Lu Ming can be 100% sure that these people are extremely afraid of the copper copper coffin, but they are determined to kill Lu Ming.

Lu Ming never understood, why these people want to kill him is really strange.

Is there anything on him that appeals to these people?

What is the origin of these people?

Behind, Lu Ming ignored, always carrying a copper copper coffin, nine silver-haired men and a blond man, followed along, but most of the day later, the blond man yelled a few words, did not know what to say, and then blond The man and nine silver-haired men flashed away and disappeared.

"gone?"

Lu Ming's eyes lit up.

However, he did not easily put away the copper and copper coffin, but continued to carry the copper and copper coffin and proceeded with the people of the ape war tribe.

After a few hours, the blond man and the silver-haired man did not show up.

"Are you really gone, try it out!"

Lu Ming moved in his heart, and then let the Ape Warrior lay a defense around him, then put away the copper and copper coffin and waited quietly.

After a while...

call out!

A flash of sword light appeared from Lu Ming above their heads and went to the landing to kill Ming. It was the blond man.

At the same time, around them, nine silver-haired men also appeared and launched an attack.

It turned out that the other party did not leave. The other party did not know what mysterious secrets he had controlled. He could actually hide his body and hide himself in the void. At a critical moment, he launched a fatal blow.

Fortunately, Lu Ming had already made preparations, and as soon as he saw the other party appeared, he immediately took out the copper copper coffin.

As soon as the copper and copper coffin was taken out, the sword lights of the blond man and the silver-haired man suddenly stopped, then retreated, and their distance from Lu Ming was far away.

This seems to come from an instinct, instinctive fear.

Then, they glanced at Lu Ming for a few times, the figure flashed a few times, and disappeared.

Lu Ming smiled bitterly, he understood that the other party did not leave, still following them, just hiding in the dark, as soon as there was a chance, they would kill them.

"Go, we don't care about them!"

Lu Ming said, the big deal is to carry the copper copper coffin.

They continued to move forward, and then Lu Ming discovered that two places had rich spiritual factors. Lu Ming let the original idol absorb it, but unfortunately, it still did not succeed.

However, Lu Ming felt that it should be fast, as long as he absorbs a few more such places, he should be able to wake up.

In a blink of an eye, half a month later.

On this day, Lu Ming was flying towards them, and a group of people suddenly appeared in front of them.

"It's them, Liu Kuan!"

Lu Ming's eyes moved.

In front, there were a group of people, one of whom was Tian Jiao, Liu Kuan, and the thirty-six masters he brought with him.

The prince sent out the elites of the elite, so far no one has fallen.

In addition to Liu Kuan, there was another young man who also brought more than 30 people.

Lu Ming recognized that this young man seemed to have been sent by the prince.

This time, the prince sent a total of two young Tianjiao, each with thirty-six masters.

Chapter 3308: Borrow a knife to kill

The two princes under the crown prince, converging together, apparently want to cooperate with each other and absorb the **** factor together.

The masters brought by the two of them cooperated with each other, and the one who came in this time was unmatched.

"It's Lu Ming!"

Lu Ming found Liu Kuan and Liu Kuan and Lu Ming.

Immediately, Liu Kuan and another young man glanced at each other, and in their eyes, there was a murderous opportunity.

When he came in this time, the prince secretly warned them that they had a chance to get rid of Lu Ming.

Unexpectedly, now when they meet Lu Ming, they will not miss it.

"Go after it, don't let him run away!"

Liu Kuan sighed, and with his master, he rushed towards the landing Ming quickly, and the same happened to another young man, afraid that Lu Ming would run away.

The bodies of the Winged Ape Clan immediately tightened up and were ready for the war.

"Don't worry, these people just came!"

There was a sneer in Lu Ming's mouth.

He secretly transmitted sounds to the people of the Ape Warrior, and then they stood in the starry sky, motionless.

"This Lu Ming doesn't actually run, does he think that he can contend with us by virtue of those warriors? Ridiculous!"

Liu Kuan's heart moved, and a strong taunt and murderous chance flashed in his eyes.

Their speed was very fast. After a few breaths, they crossed a long distance and came to Lu Ming beside them.

"Surround them!"

Liu Kuan drank coldly.

Flashing in shape, Liu Kuan and another young master brought Lu Ming to surround them.

"Oh, Lu Ming, you didn't run away when you saw us, then today is your death!"

Liu Kuan sneered, and the killing made no secret.

"Escape? Why do you want to escape? How can I make a deal with you when I wait here?"

Lu Ming smiled.

"Trade, what trade?"

Liu Kuan asked.

"I found a place full of rich spiritual factors, but there are many powerful monsters in that place. I can't eat it alone. We join forces to hunt those monsters. How do we share the spiritual factors there?"

Lu Ming said.

He was pure nonsense, his purpose was to delay time, to let the blond man and nine silver-haired men follow.

However, Liu Kuan did not know.

His eyes moved slightly, and he said, "There is such a place, let's say, where is it?"

"Unless you swear we will act together, I will not say it!"

Lu Ming said.

"Don't say? Ha ha, Lu Ming, do you think you are qualified to bargain with me now? It's really naive, tell me to give you a whole body!"

Liu Kuan sneered.

"So let's do it!"

Lu Mingdao was very tough.

"Since you are dying yourself, then you will be fulfilled. Then we don't need any spiritual factors. Who knows what tricks you are playing? Or killing you is more reassuring!"

Liu Kuan said coldly, and looked at another young man, he would order an attack.

At this moment, Lu Ming suddenly looked at Liu Kuan behind them, revealing a terrified look, and said, "What is that?"

Liu Kuan and others were shocked and looked at it quickly, but saw nothing, empty.

"Lu Ming, still dare to play me, I'm ugly to make you die!"

Liu Kuan roared.

He did not notice that Lu Ming had collected the copper coffin at the moment.

"Be careful behind..."

Lu Ming shouted, reminding on purpose.

However, Liu Kuan and others did not believe Lu Ming's gibberish at all, thinking that Lu Ming was lying to them.

"Kill me..."

Liu Kuan exploded and just shouted three words.

Keng! Keng!

Around them, the sword light flashed, and the sky's sword light slayed towards the strong man brought by Liu Kuan and another young man.

The masters sent by the prince are indeed powerful, and the fighting power is horrendous, not weaker than that of the apes.

But at the moment, their attention is focused on Lu Ming, where will they pay attention to behind them.

Moreover, Lu Ming had fooled them just now, and now Lu Ming shouted again, they would believe that Lu Ming was strange.

Therefore, when the sword light flashed, they simply had no time to resist.

Ah...

Continuous screams came out, and in an instant, eight masters under the crown prince were beheaded.

The eight masters were all split in half, the soul was annihilated and fell on the spot.

Only two, good luck blocked the attack of two silver-haired men, but was also hit hard.

Liu Kuan and others were ignorant.

咻咻咻...

Immediately afterwards, the sword light flashed again, and the dazzling sword light illuminated the universe.

At this time, the master under the prince finally reacted and began to counterattack. Various attacks erupted and finally blocked Jianguang's attack.

After all, Liu Kuan and another young man brought together too many people, even if eight were killed, there were more than 60.

Although the silver-haired man is strong, he is still blocked.

However, the strength of the blond man is terrifying and difficult to resist.

Keng!

The sound of Jianming rang through the sky, the murderous flash in the eyes of the blond man, and the terrible sword light, constantly chopping out.

After a few moves, there was another scream, and under Liu Kuan's hand, another strong man was killed.

"It really works!"

Lu Ming's mouth twitched slightly, revealing a sneer.

Before, he deliberately did not leave, and stayed here surrounded by Liu Kuan and his group, just to attract silver-haired men and blond men to attack Liu Kuan.

Through observations along the way, he found that the mentality of the silver-haired man and the blond man was really not high, full of murderous and evil spirits, and he wanted to kill Lu Ming. As long as there was no deterrent from the copper and copper coffin, they would go crazy to land. The people around Ming attacked.

In their subconscious mind, they will think that the person with Lu Ming is Lu Ming's helper.

Sure enough, when he put away the copper copper coffin, the silver-haired man and the blond man shot, causing Liu Kuan to suffer heavy losses.

Moreover, the people brought by Liu Kuan and another youth surrounded Lu Ming in the middle, which was equivalent to protecting them indirectly.

But none of them knew about Liu Kuan.

At this moment, Liu Kuan was furious.

The strong men he brought were all elites brought by the prince. The death was a great loss.

In the moment just now, he and another young person both died, and nine died. This was a huge loss.

"Kill, kill these debris!"

Liu Kuan roared, staring at the blond man and the silver-haired man, desperately torn the other side to pieces.

The other young man was similar and shouted.

The strong man under the crown prince made all-out shots and launched a counterattack in order to kill the silver-haired man and the blond man.

The number of the two parties added up to more than sixty. Under the shot, the power was indeed terrifying. Those silver-haired men were crushed.

However, their speed is very fast, the whole person turns into a sword light, constantly flashing, although falling down, but the prince's people want to kill them, but it is not easy.
