

D Emperor 3311

Chapter 3313: Narrate old

The silver-haired man's speed is extremely fast, turning into a sword light, flickering vertically and horizontally. Although the prince sends out many strong men, but he wants to kill the opponent, it can't be done for a while.

And the blond man is even more terrifying.

Jianguang screamed, smashed through the sky, and traversed the starry sky. There were scary sword marks in the void, killing the prince.

The prince under the prince, the multiplayer teamwork is not the opponent of the blond man, the slain repeatedly backed away.

Soon, there was another scream, and another person was beheaded.

"Quick, many people join forces and set up a combined attack!"

Liu Kuan shouted.

Without his name, the strong man under the crown prince has already begun to deploy the art of combined strike.

Twelve pinnacle gods, standing in different positions, form a formation.

The formation of the formation, the convergence of divine power, soaring power, and finally blocked the blond man's attack.

Then, the others on the edge rushed over to form a joint attack, killing the blond man.

call out! call out!

Just then, there was another sword light flashing in the void above his head.

This is a new sword light, a total of two, the power is terrifying.

"There are new..."

Lu Ming jumped wildly.

He saw that two figures suddenly appeared in the void above his head. These two figures, covered with blond hair, were extremely handsome, and they were two blond men.

And the strength is the strongest, not weaker than the blonde man who first appeared.

The sword light fell, and each sword light split the two masters.

Poof!

The screams accompanied by blood, four masters were beheaded.

"not good..."

The Prince's men were shocked and quickly resisted.

However, the strength of the blond man was too strong. At this time, when the prince did not set up a large formation under the raid, it was difficult to resist.

Two blond men appeared in the back, like tigers entering the flock, Jianguang vertical and horizontal, and the sky was full of ghosts.

Immediately afterwards, another strong man was killed and fell continuously.

Liu Kuan, and another young Tianjiao, really panicked.

For a while, from the time these blond men and silver-haired men appeared, up to now, the two of them have fallen, and sixteen strong men have fallen.

This is the elite among the sixteen peak **** kings. This is a huge loss. They don't know how to explain to the prince after going out.

"Retreat, let's retreat first!"

Frightened, Liu Kuan shouted and shouted.

"Good, go away!"

Another young man shouted.

If this continues, they will fall into more people.

The most important thing is, they can't figure out what is the relationship between these blond men and silver-haired men and Lu Ming?

If Lu Ming cooperates with these people, they are even more dangerous.

Lu Ming is no longer concerned, and it is important to preserve strength.

Liu Kuan and another young man were arrogant, the two people joined together, and the crazy impact, after dropping two corpses, they finally rushed out and ran towards the distance.

Fortunately for them, after they rushed out, the blond and silver-haired men did not chase them.

"what happened?"

Liu Kuan glanced back and found those blond men and silver-haired men, turning their heads to the landing and naming them to kill them. The sky was full of light, covering the entire starry sky, and Lu Ming enveloped them.

"These people... are they here to kill Lu Ming, and the target is Lu Ming?"

Liu Kuan is not a fool. He is a arrogant figure. He is very clever. Seeing this situation, he immediately guessed the facts.

Thinking of this, he almost vomited blood.

"Damn..."

The muscles on Liu Kuan's face were twisted by Qi.

At the same time, other people also thought of this, one by one teeth, incisors, really hurt by the heartache and liver pain all over the body.

They understood that Lu Ming was playing tricks.

They finally knew why Lu Ming did not run away after seeing them before.

Use them?

The blonde men's silver-haired men's goal was Lu Ming, but they stupidly blocked Lu Ming's guns and were killed by 18 strong men.

"what...."

Liu Kuan couldn't bear it, and roared like a beast.

"Stop, I want to watch the kid die..."

Liu Kuan roared.

They stopped not far away. He wanted to see Landing Ming. They were killed. If Lu Ming rushed out of them, they would go down the rock and intercept, making Lu Ming unable to live.

But the next moment, they widened their eyes.

Originally, Man Guangjian was about to cover Lu Ming with them. At this time, Lu Ming suddenly took out a copper copper coffin.

As soon as the copper and copper coffin appeared, the blond and silver-haired men, like scared mice, fled backwards and quickly withdrew from the distance.

"This... what's going on?"

Liu Kuan almost bit his tongue.

But at this time, Lu Ming's eyes turned to Liu Kuan and they, with the people of the Winged Ape War Clan, quickly flew towards Liu Kuan and their side.

"Liu Kuan, don't run, my previous proposal is still valid, we work together to absorb the **** factor..."

Lu Ming yelled and flew towards Liu Kuan.

The distance between the two sides is close.

Liu Kuan jumped up and shouted: "Lu Ming, don't come over, get me off..."

Liu Kuan yelled, ran forward with his master, and did not dare to let Lu Ming approach.

"Don't go, tell the old..."

Lu Ming cried, sticking Liu Kuan all the way to them.

Liu Kuan wanted to swear and yell, who told you old, who knew you, are we enemies?

Seeing Landing Ming they are getting closer and closer, he is almost crying.

In the rear, three blond men and nine silver-haired men flashed and disappeared directly.

Liu Kuan et al.'s eyes lit up, and thought that the blond man and the silver-haired man had left, and their courage suddenly became bigger.

"Lu Ming, you shit, dare to hurt us, find death, shoot together, and destroy him!"

Liu Kuan shouted.

Another young man, Tianjiao, also had the same idea. This time, they suffered heavy losses and could not explain to the prince when they returned.

When they thought of the prince's terrible means, they shivered and sweated.

Now, only by killing Lu Ming, can he make up for the merits and explain to the prince.

The two of them sang to the landing and killed them.

Although they lost some of their manpower just now, they still think it is more than enough to kill Lu Ming and others.

Both sides are approaching quickly.

Lu Ming directly put away the copper copper coffin.

Thirty-five Nether Ape War Clan laid their defenses and formed an iron bucket.

Boom...

The strong man under the crown prince took action, and a terrible attack erupted, and the attacks slammed them toward the landing.

However, the thirty-five Nether Ape War Clan did not seek meritorious service but never fought for it. They did their best to defend themselves and laid a lot of defense, successfully blocking Liu Kuan's attack.

"Look how long you can block, kill me!"

Liu Kuanhong shouted.

Chapter 3314: Attract alone

The Winged Apes blocked a wave of attacks by Liu Kuan and others, and Liu Kuan and others immediately launched a second wave of attacks.

But at this moment, in all directions, the sword light flashed, and the terrible sword light shrouded Liu Kuan and Lu Ming.

Again are those blond men and silver-haired men.

Lu Ming immediately took out the copper copper coffin, and as soon as the copper copper coffin was taken out, the sword lights attacking them suddenly converged.

However, Liu Kuan and others are not so lucky.

Sword light flashed, screams rang out, blood light burst out, and in an instant, at least seven or eight masters were beheaded.

"what!"

Liu Kuanqi shouted insanely, because there was a sword light just now, passing by him, splitting a strong king of the **** king into two halves, he almost scared to pee.

"Damn, retreat, rewind!"

Liu Kuan reacted and shouted hysterically.

He understood that the blond man and the silver-haired man did not leave at all, and he was pitted by Lu Ming again. At this moment, he just wanted to escape.

Liu Kuan and another young man, Tian Jiao, gathered together, and they rushed outward crazy, unwillingly to fight.

As a result, they are more passive, completely suppressed by blond men and silver-haired men, and people are being beheaded continuously.

When they succeeded in highlighting the encirclement, they gave eight more powerful lives.

At the beginning, each of them brought 36 people, adding up to 72 masters, but now, there are only half left, and only 36 people are left, which is really miserable.

Liu Kuan almost cried, tears twirling in his eyes.

It's too wrong.

"Ah, Lu Ming, I must kill you!"

Liu Kuan roared, the killing was extremely cold.

"What? You are going to kill me, then come!"

Not far away, Lu Ming carried the copper copper coffin and rushed over with the masters of the apes fighting tribe.

"You... don't come over!"

Liu Kuanqi shivered, and ran towards the distance with the rest, daring not to stay.

"Don't run, don't you want to kill me? Don't run..."

Lu Ming chased urgently, still shouting in his mouth.

"Don't come, you get out..."

Liu Kuan shouted, his face scared pale.

"Come on, hurt each other!"

Lu Ming continued to chase, trying to use blonde men and silver-haired men to annihilate Liu Kuan's people.

But this time, Liu Kuan and others learned well and did not stay dead. Even if they saw blonde and silver-haired men disappearing in the air, they wouldn't stay and run wild.

Lu Ming led people to chase behind and chased for most of the day, but Liu Kuan and others ran desperately and could not catch up.

Lu Ming knows that Liu Kuan and others will not stop anymore, and will not take Lu Ming's fools. The previous opportunities are no longer there.

In the end, Lu Ming stopped chasing and stopped, while Liu Kuan and others disappeared in Lu Ming's sight.

However, blond men and silver-haired men, etc., certainly did not leave, lurking in the void around them, waiting for the opportunity to attack.

"go!"

Lu Ming, with the apes of the amber war tribe, continued to head towards the core of the broken universe, but in the next few days, they did not leave the blond man and the silver-haired man.

The blond man and the silver-haired man, like the tarsal cone, entangle them with death, as if they did not kill Lu Ming, they would not give up.

I can't get rid of it.

"Why are these people killing me? How do I get rid of these people?"

Lu Ming frowned, but couldn't think of an effective plan.

Lu Ming was a little worried, fearing that if this continued, the deterrent power of the copper coffin would be reduced, and the blonde and silver-haired men would risk attacking, and they would be in danger.

Soon after, they came to a broken planet.

"The blonde men and the silver-haired men should be me, so you stay here first, and I will lead each other away!"

Lu Ming spoke, he finally made a decision, and led away the blond and silver-haired men alone.

He didn't want to see the Nether Ape War Clan suffered a loss. Lu Ming had fallen one before, and Lu Ming was heartbroken for a long time.

These Winged Ape Warriors are loyal to him and are the cornerstone of his future rise. Every loss is irreparable.

Continuing this, these Winged Apes Warriors are dangerous, so Lu Ming made such a decision, let these Winged Apes Warriors stay, he alone, led away the blond men and silver-haired men.

Anyway, the goal of the blond man and the silver-haired man is him, as long as he leaves, the Ape Warrior should be fine.

"No, it's too dangerous!"

"We must not let Zhanzu take risks alone!"

"Yes, it's a big deal to fight the opponent!"

When Lu Ming opened his mouth, those Winged Ape Clan shouted immediately, and firmly opposed Lu Ming's proposal.

"This is an order. Do you want to violate my order?"

Lu Ming's face sank and his tone increased.

"Zhan Zu, we don't want to violate your orders, but it's too dangerous!"

"Yeah, absolutely not!"

Nether Ape War Clan spoke again.

"I have a copper and copper coffin, what are you afraid of? You thought I would be in danger, and rest assured, I have full confidence to get rid of them, well, I have decided this, you don't need to say anything!"

Lu Ming said.

"but..."

The ape war tribe would like to say more.

"Needless to say, if you want to violate my order, it is against the rules of the clan and directly expelled from the apes!"

Lu Ming waved his hand, slashing the gold and iron, undoubtedly.

In the end, those wicked ape war tribes shook their heads and sighed without saying anything.

"This primordial idol is given to you, your task is to open it up, and then wait for me here, rest assured that I will be fine.."

Without saying anything, Lu Ming did not stay, carrying the copper and copper coffin, soaring into the sky, and flew thousands of miles in an instant.

Looking back, the Ape Warrior really didn't get attacked. Obviously, the blond man and the silver-haired man were both chasing him.

"To chase, come chase!"

A cold light flashed in Lu Ming's eyes, exhibiting the Jiutian Kunpeng technique, as if incarnate into a giant Jiutian Kunpeng, his wings flapping away toward the depths of the starry sky.

However, Lu Ming always felt that there was a terrible murderous envelope over him, no matter how he flew, there was such a killing.

Then, for a month and a half, Lu Ming didn't know how far he had flown, but that kind of killing always appeared.

Lu Ming knew that the blond man and the silver-haired man always followed him and did not leave.

This kind of feeling is really bad. It is stared by some horrible existence all the time, and life is threatened. This is a kind of suffering.

Fortunately, Lu Ming has a tenacious mind and has gone through big winds and waves. To be an ordinary person, he really has to collapse.

However, what made Lu Ming's face solemn was that, to the back, those blonde men and silver-haired men, the courage seemed to be getting bigger and bigger, and from time to time exposed their bodies around Lu Ming, cold murderer stared at Landing Ming.

This seems to be a kind of temptation, to test the copper copper coffin, is there any danger!

Chapter 3315: A continent

Lu Ming's face was dignified, which was not a good sign. The blond man and the silver-haired man began to test, which showed that they began to doubt the deterrent power of the copper copper coffin.

If they find that the copper and copper coffins are not dangerous, they will attack.

With the strength of a blond man and a silver-haired man, Lu Ming can't stop a trick, it is definitely a dead end.

The key point is that Lu Ming didn't know why the other party was afraid of the copper copper coffin and could not make corresponding countermeasures.

Not far away, a blond man emerged, with blond hair fluttering and extremely handsome. If he went out, it would make countless women crazy.

But his eyes didn't have any wits, he was full of anger and killing thoughts, his eyes turned back and forth on Lu Ming's body and the copper copper coffin.

Lu Ming's body tensed uncontrollably, his heart accelerated, and cold sweat came out of his palm.

Because he felt a terrible murderous opportunity, covering him, he had a feeling as if the opponent would launch a fatal blow at any time.

The two confronted each other for a moment. In the end, the blond man did not attack, and his figure flashed and disappeared into the air.

call...

Lu Ming secretly breathed a sigh of relief, feeling that his whole body was soaked with cold sweat.

"It won't work like this, you must find an opportunity to get rid of these people..."

Lu Ming thought, and then continued to fly toward the depths of the starry sky.

"That is..."

Soon after, Lu Ming stared.

Because he saw a continent, immensely huge, floating in the stars.

In the starry sky, a continent is suspended, which is too big to see the end at a glance, many times larger than the life planet.

Lu Ming never thought that there would be a continent in the depths of the starry sky.

Lu Ming flew over directly and flew into the mainland.

Karma!

Suddenly, a chirp sounded, blaming the bird all the time, rushing to the sky and rushing towards the landing crow.

The wings are like swords, slashing towards Lu Ming, bringing horror.

Lu Ming was shocked, and the copper copper coffin waved out without hesitation.

boom!

The copper and copper coffin bombarded with the wings of the strange bird, and a violent roar erupted. Lu Ming felt hit by a big mountain, his body violently shook, and retreated backward.

"Shenwang's Eightfold Peak, but a strong force..."

Lu Ming was shocked in his heart, feeling that the blood in his body was tumbling, and the corner of his mouth was overflowing with blood.

With Lu Ming's current strength, he is against the existence of a **** king Yazhong outside. It is absolutely beyond words. If the means are exhausted, he can even beheaded.

However, although this strange bird's realm is also God King Eightfold, but its strength is amazing, it is a lot stronger than the God King Eightfold that Lu Ming encountered outside.

Lu Ming was injured after a touch.

However, the strange bird was even worse. One end of the copper copper coffin was still covered with a layer of sludge. At this moment, the sludge stuck to the wings of the strange bird, causing the wings of the strange bird to corrode quickly.

In an instant, the wings of the strange bird were completely corroded.

Quack...

The strange bird yelled wildly, and then there were yells in the distance, it seemed to be the companion of the strange bird.

Lu Ming was shocked, and now there are no masters of the Dark Ape Warrior beside him. If he is surrounded by these strange birds, he is also dangerous. He did not hesitate to dive down and rush towards the ground.

The terrain on the ground is complex and can avoid the sight of strange birds.

The ground is full of strange stones, mountains, etc. Above the mountains, there is an ugly plant, which towers into the clouds.

Lu Ming rushed into a valley and suddenly lost track.

Then run towards the depths of the mainland.

Soon, the sky heard the tweets of strange birds. At the next moment, the sword light exploded and dozens of strange birds were split in half.

Lu Ming saw that it was a blonde man who shot.

The strange bird seemed to be very keenly aware, found the blond man hidden in the void, attacked him, and beheaded by the blond man.

After beheading the strange bird, the blond man's eyes looked like electricity, looking in the direction of Lu Ming, bursting into a cold killing opportunity, then his body flashed and disappeared.

Lu Ming ran in the mountains, constantly changing his position, hoping to get rid of those blond men and silver-haired men.

However, he feels that he has always been locked in a killing opportunity. He knows that he hasn't thrown away the other party.

On this continent, there are many terrible monsters, strange birds and so on. Lu Ming often has to avoid these monsters and monsters, which is really exhausting.

In a flash, another two days passed.

The blond men and the silver-haired men were more courageous, and they emerged not far from Lu Ming from time to time, staring at the landing sound with cold eyes, and the distance from Lu Ming was getting closer and closer.

Two days later, a real crisis appeared.

Three blond men and nine silver-haired men suddenly emerged, surrounded Lu Ming in the middle, and broke Lu Ming's retreat.

Keng! Keng!

The sound of Jianming continued to sound, and this area was filled with terrible sword pressure.

Lu Ming looked ugly.

It seems that these blond men and silver-haired men have finally tried to do it after much trial and error.

"bring it on..."

Lu Ming's eyes flashed insanely, and he decided to fight.

Aren't these people afraid of copper and copper coffins? Then Lu Ming fought and opened the copper copper coffin.

Opening the copper and copper coffin was very dangerous to Lu Ming himself. He didn't know what would happen, but now, there is really no way but to fight.

Three blond men and nine silver-haired men slowly approached the landing, seemingly still exploring, the distance between the two sides was getting closer and closer.

Finally, the distance between them is only about one kilometer.

The distance of one kilometer is nothing for them, such as the strong.

Keng!

The sound of Jianming suddenly rang and became more intense.

The opponent is about to shoot.

"Give me..."

Lu Ming angered, and suddenly grabbed the copper copper coffin, to open the copper copper coffin.

Click!

The copper copper coffin made a clicking sound, and then, a gap was revealed.

There was only a slight gap, and it was not as wide as the hair, but there was a horrible wave that spread out.

The blond and silver-haired men seemed to find something terrifying. They screamed, turned into a ray of light, and rushed in all directions. They disappeared in a blink of an eye, and they didn't know where they were going.

"Cover..."

Lu Ming hurriedly put the copper copper coffin on the cover, and the trace of the gap disappeared.

call...

Lu Ming took a long breath.

Fortunately, the copper and copper coffin did not open too large a gap, otherwise, he himself felt dangerous.

Moreover, that sense of crisis also disappeared, proving that the blond man and the silver-haired man have left.

"I am so afraid of the copper copper coffin!"

Lu Ming smiled slightly, then chose a direction and rushed away.

After a few hours, Lu Ming didn't know how much distance he ran.

"Should get rid of those blond men and silver-haired men!"

Lu Ming thought, and then began to look around.

This continent gives people an ancient atmosphere of wildness, Lu Ming speculates that there are estimated to be many **** factors on this.

Chapter 3316: Mysterious youth

Immediately, Lu Ming took out the original idol.

The original idol he gave to the Ape Warrior was obtained from Tianjiao, the Nine Serenity King's Mansion. The one in his hand is his own.

However, he did not dare to put up the copper and copper coffin, fearing that the blond man and the silver-haired man would go back and attack him.

After being attacked by those strong men, Lu Ming was mostly dead.

Therefore, he dragged the copper copper coffin in one hand and supported the original idol in one hand.

As soon as the original idol was taken out, it glowed a little.

"There are **** factors nearby. There are really many **** factors on this continent!"

Lu Ming's eyes moved, showing joy.

Then, according to the reaction of the original idol, he went in one direction.

Soon, he found a small hill, reddish red. As soon as Lu Ming approached here, the small hill radiated a faint glow, a ray of light, and flew to the original god.

These are all **** factors, absorbed by the original idol.

Lu Ming speculates that this small hill may have the blood of primitive gods scattered in the long past, so it is the **** factor.

However, after all, there are not many **** factors in this hill, and it will be absorbed after a while.

"Go elsewhere!"

Lu Ming launched the action, and soon after, he discovered a place containing the spirit factor, but not many. After the absorption, the original **** still did not open.

Lu Ming continued his search. After a while, he discovered a valley, and the original idol produced a strong reaction, indicating that the deity factor here is extremely rich.

However, there was a terrible atmosphere in the valley, and there were many terrible monsters inhabiting it. Lu Ming could feel that there were even a lot of monsters in the realm of the peak **** king.

Lu Ming sighed. He had a feeling that if the primitive **** had absorbed the deity factor of this valley, it would probably be awakened. Unfortunately, the monster inside was too strong and he could only retreat in the end.

Over the next day, Lu Ming discovered several places, all of which contain rich spiritual factors. Unfortunately, there are terrible monsters inhabiting, which he cannot deal with.

Lu Ming can only find places where there are relatively few **** factors, after all, can he grow more with less.

But on this day, Lu Ming's body suddenly stiffened, because he felt a terrifying murderous opportunity, covering him.

Needless to say, Lu Ming also knew that it was those blond men and silver-haired men who appeared.

The other party found him again.

"hateful!"

Lu Ming roared in his heart, why did those blond men and silver-haired men kill him, they always pestered him, he was speechless.

Lu Ming put away the original idols, and those copper copper coffins were alert.

Uh! Uh!

Not far away, three figures emerged.

A blond man and two silver-haired men.

The three of them appeared not far from Lu Ming, full of murderous staring landing sounds.

"kill!"

Suddenly, the blond man growled, stepped out, rushed towards the landing, and the void was shaking.

The same is true of the other two silver-haired men, whose eyes are full of madness.

Lu Ming was shocked, just about to open the copper copper coffin. At this moment, a horrible roar came from a short distance away, and then a stone spear flew over at a terrifying speed, rushing towards a silver-haired man.

The silver-haired man shouted and cut out dozens of sword lights in an instant, trying to block the stone spear, but the collision shouted, the sword light continued to burst, and the stone spear was like a broken bamboo, defeating the sword light, and the silver hair man's head was pierced.

The silver-haired man was instantly killed and the body fell to the ground.

"So strong!"

Lu Ming was shocked.

This stone spear actually killed the silver-haired man in one stroke, which was really horrible.

Lu Ming is very clear about the strength of the silver-haired man. Although he is also the pinnacle king, his combat power is extremely terrifying, and he can deal with several masters of the apes.

But now, it is directly killed.

The remaining blond man and silver-haired man suddenly stopped and looked nervously in one direction.

Rumble!

There was a dull explosion in the air, and a figure flew from that direction.

This is a young man, looking only in his twenties, with a burly and strong body, wearing an animal skin vest, exposing bronze skin, full of explosive power.

This man is not particularly handsome, but gives a wild feeling, and his eyes are filled with powerful domineering.

With a wave of his hand, the stone spear flew back to the young man.

"kill!"

The young man snorted and stepped forward. The stone spear pressed forward and killed the blonde and the silver-haired man.

Keng!

The sound of Jianming resounded through the sky. The blond man and the silver-haired man also killed the youth, and the two sides fought.

"Who is this young man?"

Lu Ming was extremely puzzled.

This young man seems to be young, but his cultivation base is ridiculously strong, and he is also a pinnacle god.

The most terrifying thing is its combat power.

The fighting strength of the blond man is enough to defy the sky, killing the pinnacle king of the same level, like chopping melons and vegetables.

But now I met a young animal skin, but it was completely suppressed.

boom!

The stone spear of the young animal skin hit the sword light of the blond man, and the blond man's body was shocked, and he was directly flew out.

Then, the young skin spear of the animal skin swept through, crushing the silver-haired man's sword light, and struck the silver-haired man. The body of the silver-haired man exploded directly and was smashed into a cloud of blood mist.

After the killing of the silver-haired man, the young animal skin continued to walk towards the blonde man.

The blond man's strength is outstanding, and the speed is amazing, but he is still not the opponent of the young animal skin.

In the end, the blond man was about to run away, turned into a sword light, and rushed into the distance.

However, the young animal skin roared and opened his mouth, and his mouth actually spit out a galaxy, covering the void, and the blonde man was suddenly shrouded in. It seemed to be greatly suppressed and the speed dropped.

call out!

The stone spear broke through, flew out, penetrated the blond man, and killed it.

Lu Ming took a breath, the young man of hides and skins was really terrifying. This kind of combat power, chasing the strong man of God's Realm, a blond man and two silver-haired men, were killed in just a few clicks.

After killing the blond man, the Milky Way and Stone Spear disappeared at the same time.

"Is this the original secret technique, two kinds of original secret techniques!"

Lu Ming was shocked.

He will not admit mistakes. The stone spear and the galaxy just now are the original secret techniques of the young animal skin.

This is the first time Lu Ming has seen other people in control of the two original secret techniques.

At this moment, the young animal skin stepped out, and actually cried towards the landing, and immediately came to Lu Ming.

Lu Ming couldn't help being surprised, his body backed up again and again.

"You...you rest assured...I won't kill...kill you!"

The young animal skin spoke, it seemed to stutter, and the speech was intermittent, but Lu Ming still understood.

Chapter 3317: Celestial people

"Who are you? Why save me?"

Lu Ming asked, staring tightly at the young animal skin, not daring to take it lightly.

The opponent's strength is too horrible, if you want to deal with him, he has only one dead end.

"who am I?"

The young animal skin showed a confused color, and various complex emotions flashed in his eyes.

"Who am I? Who am I? I don't know who I am?"

The animal skin youth whispered, his face blanker and thicker.

Lu Ming looked dazed.

Young skin animal, who doesn't even know who he is, is it amnesia?

After a while, the emotions of the young beasts stabilized, and they looked at Lu Ming again, saying, "I don't know who I am, but I save you, because I can feel that you are my fellow race, and those heavenly races, is my enemy!"

After a few words, the young animal skins spoke more and more smoothly, and in the end, they almost stuttered.

"I'm of the same race as you? What is the Celestial Clan?"

Lu Ming was even more puzzled. How could he be the same race as the young animal skin?

"Of course, I can feel it!"

The young animal skin said, after he finished, his body was filled with blood and blood, and a breath of old and ancient, filled out, like the resurrection of the ancient god.

"This is...the breath of primitive gods!"

Lu Ming couldn't help widening his eyes.

He felt it, and the young animal skin exuded a strong atmosphere of primitive gods.

Lu Ming finally understood why the other party said they were of the same race.

Because Lu Ming cultivated into the heart of the ancient **** and possessed the blood of the ancient god.

The ancient god, plainly speaking, is also a member of the primitive gods, so speaking, Lu Ming and this animal hide man are really of the same race.

"What do you mean by the Celestial Clan?"

Lu Ming asked again.

Honghuang Universe has countless races, but Lu Ming has never heard of the Celestial Clan.

"The Celestial Clan is the enemy of my clan. These people want to kill me, and I want to kill them too!"

The burly young man showed a strong murder in his eyes. After a while, his eyes turned to the copper copper coffin in Lu Ming's hand.

"This thing in your hand makes me feel very kind. I really wanted to see it, but I can't remember it again. I really seem to have seen it. What a familiar feeling, what is it?"

The burly young man muttered to himself, frowning and tightening his brows, and finally, the blankness in his eyes became stronger.

Roar...

Suddenly, the young animal skin roared like a beast, his face twisted and changed various expressions.

Lu Ming was startled and couldn't help asking: "You, what's wrong with you?"

"I don't know, my head hurts, it seems that there are many kinds of memories and many kinds of thoughts in it, but it is very messy, ah..."

The young animal skin said, roaring again, hitting his head **** the ground.

The ground vibrated violently, bursting directly, and a huge deep pit appeared, and cracks spread like spider webs in all directions.

"This..."

Lu Mingxun circled, I don't know what happened to the young beasts.

At the same time, he had more doubts in his heart.

The young animal in skin said that he seems to have seen a copper copper coffin?

How could this be possible, the copper copper coffin was brought by Lu Ming from the ancient **** world. It stands to reason that the copper copper coffin was silent in the ancient **** world for endless years before it was taken out by Lu Ming. ?

Is the young skin animal very old? However, Lu Ming found that the other party's age was absolutely young, similar to him, by observing the life breath of the young animal skin.

In addition, the current state of the young animal skin is very wrong, giving him the feeling that the young animal skin knows the sea and has countless spiritual consciousness.

"Wonderful, really wonderful, is this so..."

At this moment, the bone demon whispered in the sea, and seemed to be surprised.

"Senior Bone Demon, what do you see?"

Lu Ming asked.

"I'm not quite sure yet. Ask him if he came from outside? Or was he born here?"

Bone Magic Road.

Lu Ming was a little surprised, not knowing the use of the bone demon to ask this question.

However, Lu Ming still intends to ask.

After a while, the state of the young beast skin stabilized.

"Brother, are you better?"

Lu Ming asked.

"It's better, strange, I really feel familiar with this thing!"

The young animal skin stared at the copper copper coffin again.

Lu Ming quickly moved away the copper copper coffin, so as not to attack the young hideskin.

"Brother, are you from the outside world, or were you born in this world?"

Lu Ming asked.

"As soon as I wake up, I am in this world. I have never left. Is there a world outside? Very big?"

The young animal skin curious.

"Sure enough, my guess can't be wrong!"

Bone Magic Road.

"Senior Bone Demon, what do you see?"

Lu Ming asked.

"This young man is no different. If I guessed right, he was bred from the essence of the flesh and blood of the original god!"

Bone Magic Road.

"What? The essence of the flesh and blood of the original gods was born!"

Lu Ming was shocked. Was it the same as those monsters he met.

"Boy, don't compare those monsters with them. The difference is too far. This young man was not only bred by the flesh and blood essence of primitive gods, but also more than one, but the flesh and blood essence of many primitive gods. After endless years of evolution, It turned into a brand-new life, so his soul was filled with the consciousness of different primitive gods. When he saw something familiar, the consciousness would be in chaos. The situation just now appeared!"

"It's amazing how heaven and earth are made. This is equivalent to the birth of a new life out of thin air. It is completely different from those monsters who can cultivate and understand the growth of life."

Bone Demon is also amazing.

Lu Ming dumbfounded, things would be so unbelievable.

"So, is the copper copper coffin related to the original gods? Senior Bone Demon, do you know the origin of the copper copper coffin?"

Lu Ming's eyes lit up and asked the bone demon.

The young animal skin is evolved from the essence of the flesh and blood of many primitive gods. The soul contains the residual spiritual seeds of those primitive gods.

He looked familiar with the copper copper coffin, as if he had seen the copper copper coffin. In fact, it was the primitive gods who had seen the copper copper coffin.

The copper and copper coffins were obtained from the ancient **** world, obviously related to the original gods.

"I don't know. To be honest, I have seen or heard a lot of ancient things, but I have never seen or heard of this copper copper coffin!"

Bone Demon shook his head.

Lu Ming was a little disappointed. He hadn't even seen the bone demon, and he didn't know how old it was.

"By Senior, have you heard of the Celestial Clan?"

Lu Ming asked again.

The young beasts called these blond men and silver-haired men "celestial beings." He was very curious.

"Heavens, hey, I naturally know, how can I forget it!"

Bone Demon sneered, Lu Ming followed Bone Demon's tone, and heard the icy killing.

Chapter 3318: Lord of the Temple

In the tone of the bone demon, it seems to be full of strong killing opportunities for the Celestial Clan, which makes Lu Ming have to guess whether the Celestial Clan has an enemy with the Skeletal Demon.

"Do you know Tiangong?"

Bone Demon didn't answer directly, but asked back.

"of course I know!"

Lu Ming answered.

Who doesn't know the Tiangong, in this era, known as the Tiangong era, the Tiangong is the ruler of the vast universe, supreme, what is too empty, in the eyes of the Tiangong, that is an ant, can be pinched to death.

Even the top ten big clan on the Honghuang Universe Ten Thousand Peoples List can't compete with Tiangong.

Qiuyue was inherited by God Eye Tianjun, who was a giant from Heavenly Palace.

Could it be that the Terran family is related to the Tiangong?

Lu Ming couldn't help thinking.

"Tiangong was created by the Celestial Clan, and the Celestial Clan was the master of the Celestial Palace!"

Bone Magic Road.

Lu Ming felt a big shock in his heart, but he did not expect that. The Celestial Clan was the ruler of the Celestial Palace, and his power was absolutely terrifying. It was not too much to be called the No. 1 Clan of Honghuang Universe.

"Did the previous people come from Tiangong?"

Lu Ming said, his face dignified.

If the Celestials want to kill him, it means that the Tiangong wants to kill him. If it offends the Tiangong, is it not a dead end?

"Those people, it may be said that they came from Tiangong, but not all from Tiangong!"

Bone Demon explained, making Lu Ming more confused, what does this mean?

"Before the endless years, there was a terrible battle between the Celestial Clan and the primitive gods. This broken universe is the battlefield between the Celestial Clan and the primitive gods. Here, a large number of primitive gods were killed, and of course a large number of Celestial Clan."

"The original gods who died in war, the essence of flesh and blood have evolved and turned into the youth of the hide, while the celestial beings who died in war, the essence of flesh and blood have evolved and turned into the people you have seen, but obviously the evolution is not perfect, there is nothing There is only one instinct left for spiritual wisdom, an instinct for hunting primitive gods!"

"And inside you, there is the heart of the ancient gods, the blood of the ancient gods, the descendants of the primitive gods, and those evolved celestial beings, instinctively want to hunt you, so you don't have to worry that the people in the celestial palace will kill you, and the times will change. Now that Tiangong is in charge of Honghuang Universe, the primitive gods are almost dead, so it's not a cause for concern, so even if Tiangong finds descendants of primitive gods, they won't chase them down!"

Bone Demon explained in detail.

Lu Ming felt a sigh of relief in his heart.

It turned out that these Celestials were only evolved from the essence of the Celestials' strong blood and flesh at that time, and they were incompletely evolved, lacking intellect, far inferior to animal skin youth, and were inferior.

Only the instincts of those warriors who died in the war were completely different from the current Tiangong's thinking.

Although he was bold, he faced the Celestial Clan with his strength, and that was the act of seeking death. He was naturally worried.

Lu Ming finally figured out what was going on.

"Can I follow you?"

At this time, the young animal skin turned around a few times, and of course, more of his eyes were still on the copper copper coffin, because the copper copper coffin gave him a kind feeling, even Lu Ming let him have This kind of feeling is not willing to leave.

"Are you going to follow me?"

Lu Ming was slightly surprised.

"Take him away, Lu Ming, you have to take him away. This child has at least dozens of blood lines of primitive gods, perfect evolution, endless potential, growing up absolutely terrifying, and will become your good helper!"

Bone Demon quickly called out.

Lu Ming moved in his heart, but his face remained silent. He looked at the young animal skin and said, "You can follow me, too, but you will listen to me in the future!"

"Okay, okay, I must listen to you!"

The young beasts nodded again and again, showing excitement.

The young animal skin is very simple, the mind is like a child in their tens, and they are not mature yet.

"Oh, do you have a companion?"

Lu Ming asked.

The animal skin youth is so powerful, and has unlimited potential, and the mind is not very high. If there are more, Lu Ming is not going to send it.

"No, as soon as I wake up, I will be alone!" The young animal skin shook his head.

Lu Ming was slightly disappointed, and then asked, "What's your name?"

"Name? I have no name!"

Beast skin youth road.

Lu Ming couldn't help but touch his nose, yes, the young animal skin woke up alone, without a companion, where there is a name, unless he gave himself a name.

"Then let me give you a name, um, how about it being called a pantheon? The essence of thousands of primitive gods is condensed!"

Lu Ming said.

Although the level of his name is really bad, but he prefers this way, and often complacent.

"Okay, okay, my name is Pantheon, I have a name..."

The young animal skin, should be overjoyed.

Immediately, Lu Ming asked about the Tianren race.

According to the gods, after he woke up, he often encountered the killing of the Celestial Clan. He also knew from the very few memory fragments in the soul that the other party was the Celestial Clan.

These human races, like him, were born in this world.

The two sides fought each other and suffered damage to each other.

"I'm going to kill all these human races!"

The killer flashed in the eyes of the gods.

He also inherited the instincts of primitive gods and saw that the human race would kill.

"About the number of Heavenly Clan?"

Lu Ming asked.

"I have been killed a lot by these years, but now there are six blondes and fifteen silver hairs left, but before I killed one blonde and two silver hairs..."

Pantheon explained.

Lu Ming was shocked. It seemed that not all he had dealt with before was just three blondes and nine silver hairs.

In addition to the three killed by the gods just now, there are still four blondes and 13 silvers.

"Well, gods, you hide, I will attract those human races, how about killing you?"

Lu Ming said.

These days the human race is not dead, he is uneasy, he does not know when he will be attacked.

These catastrophes must be completely resolved.

"Okay!"

All gods readily agreed.

Then they started to move and changed places.

Lu Ming found a place to sit cross-legged, and the gods lurked not far away, converging.

Lu Ming sensed it carefully, but could not sense the breath of the gods, as if the place was empty.

"Fight!"

Lu Ming took a deep breath, and then put the copper coffin into the Jingyu scroll, and then agitated the heart of the ancient god. The heart of the ancient **** thumped, and the breath of the ancient **** radiated away.

Lu Ming rallied, the spirit was highly concentrated, and the spiritual consciousness emanated, paying attention to every move around.

Although there are gods beside him, he dare not carelessly, the horror of the Celestial Clan, he knows very well that if one does not pay attention, he will die.

Chapter 3319: Dozens of original secret techniques

Lu Ming waited like this quietly, waiting for the advent of the Celestial Clan.

In a flash, two hours passed.

call out!

Suddenly, a dazzling sword flashed, screaming from a distance to the landing, illuminating the starry sky, terrifying.

Celestial Clan, shot!

Jianguang's speed was so fast that Lu Ming could hardly respond.

However, someone is faster than Jianguang, that is the pantheon.

A stone spear hole pierced the void, flew out, hit the sword light, and crushed the sword light. Almost at the same time, the figure of the gods appeared in the air, Zhangkou Changxiao, and a long river rushed forward, sending a silver hair Men shrouded in it.

The silver-haired man screamed and his body exploded in the long river.

"kill!"

The pantheon held the stone spear and swept the starry sky. The stone spear turned into a giant spear. When the starry sky was swept across, the starry sky exploded.

At the next moment, the sword light skyrocketed, and in an instant, more than ten sword lights burst out, chopping towards the stone spear of the gods.

Boom!

The terrible explosion kept ringing, the stone spear shook, and it was shaken back.

Then, a figure appeared in the void, all of them are the Celestials.

Three blond men, ten silver-haired men, a total of thirteen people, more than they dealt with Lu Ming before.

Obviously, there are more people gathering.

At this moment, Lu Ming had already taken out the copper copper coffin, and his body retreated, ready to open the copper coffin.

"So many, can all gods be enemies?"

Lu Ming suddenly became nervous.

The appearance of so many heaven and human races is extremely terrifying. Can the gods be able to withstand it?

Lu Ming is ready, if the pantheon is invincible, he ventures to open the copper copper coffin and stuns the Celestial Clan.

"kill!"

However, the pantheon was extremely powerful, bursting into a blast, fighting in the air, holding a stone spear and breaking through the sky.

Shimao hole pierced the void and killed a silver-haired man.

Keng! Keng!

The sound of Jianming continued to sound, and three blond men and ten silver-haired men moved at the same time. The terrible sword light seemed to split the continent under their feet.

Dangdang...

The two sides confronted each other continuously, and hundreds of moves were exchanged in an instant.

The stone spear in the hands of the gods kept shaking and finally made a clicking sound, and a crack appeared on it.

"not good!"

Lu Ming's face changed. This stone spear was the secret technique of the gods. It was cracked and had a great influence on the fighting power of the gods.

Touch~!

As soon as Lu Ming thought about this, the stone spear of the gods exploded and disappeared into energy.

"not good..."

Lu Ming was shocked, just about to rush over, venture open the copper copper coffin, and startled the Celestial Clan.

But at this moment, the gods screamed angrily, and there was a terrible wave in their bodies, and the extreme divine power erupted like a volcano. Then, a big clock condensed on him, made of stone, and enveloped himself.

Those sword lights slammed on the big clock, making a violent roar, but did not break the defense of the big clock.

"Again...there is a secret technique!"

Lu Ming gaped.

This is already the third kind of source mystery displayed by the gods.

But at the next moment, Lu Ming's eyes were almost staring, and he could swallow a duck egg with his mouth open.

boom!

On the gods, the divine power boiled, and then a stone knife condensed out, opened up a dagger, and cut to a silver-haired man.

Immediately afterwards, another stone sword flew out and killed a blonde man.

It's not over yet. Then, an ancient stone gate exhaled a vast atmosphere and suppressed towards a blond man.

The Gate of Dominance, this is the Gate of Dominance, exactly the same as the Gate of Dominance of Lu Ming.

Then, a round of vortexes appeared, and a terrifying devouring force erupted, shrouding two silver-haired men...

A stone tower appeared...

An ancient volcano...

.....

The original secret technique is all the original secret technique.

Lu Ming watched with amazement as Pan Shen exhibited a variety of original secret techniques. At first glance, there were more than a dozen...

One person is in charge of more than a dozen kinds of original secret techniques. What is the situation?
Lu Ming has been ignorant.

Moreover, the divine power of the pantheon is unimaginable, and it is full of rich ancient atmosphere.
Lu Ming couldn't understand the divine power of the pantheon several times.

Boom...

Dozens of original mysterious techniques bombarded, and the bodies of the seven silver-haired men of the Nine Nether exploded and fell to the spot.

The remaining three silver-haired men were also hit hard and vomited blood.

The three blond men were better and blocked the attack, but were repulsed.

"kill!"

Pantheon launched a second wave of attacks, a dozen kinds of original secret techniques, overwhelmingly killed towards the remaining Celestial Clan.

The three silver-haired men were killed directly, leaving no scum left.

The three blond men also vomited blood and retreated into shape, which was hit hard. There was even a blond man who was cut in half by a stone sword and nearly died.

Then, Pantheon launched a third wave of attacks, a dozen kinds of original secret techniques, and killed three blond men.

The offensive is like a sea, like a storm, pouring down...

Boom...

The three blond men resisted with all their strength, but were completely suppressed and retreated.

They wanted to break out and leave, but in all directions, all of the original secret technique, the back path was blocked.

bump!

After a few strokes, the blond man who had been cut off from the waist just now was suppressed by an ancient gate, and his body burst into blood mist.

There were only two blond men left, not even opponents of the gods, who were completely suppressed.

This battle did not last long. Two blond men were also killed by the gods.

As a result, three blond men and ten silver-haired men were wiped out.

"This this..."

For a long time, Lu Ming did not respond, and was shocked by the strength of the gods.

The fighting power of blond men and silver-haired men is absolutely terrifying, and it is very easy to kill the peak **** king of the same level.

Unless it is a very powerful character of Tianjiao, a battle at the same level can contend with those of the human race.

However, three blond men and ten silver-haired men joined forces and were killed by the gods, and they could not even escape.

I am afraid that the fighting power of the gods can kill ordinary gods.

Lu Ming thought so.

Divine princes are much stronger than **** princes, and it is difficult for ordinary people to fight across levels.

But the pantheon is too terrifying, and it is more terrifying than any Tianjiao Lu Ming has seen. Not only can he fight across borders, but also be able to kill enemies across borders.

With more than ten kinds of mysterious techniques, who can stop it.

"Boy, this is normal. He doesn't know how many kinds of flesh and blood essence evolved from the primitive body, and he doesn't know how much potential is contained. I'm afraid the potential is still far from being tapped!"

"A miracle, it is a miracle. There are countless wars in history. How many strong men have died? But it is a miracle that can evolve such a perfect life. It cannot be copied!"

Bone Demon marveled again and again.

Chapter 3320: Tens of thousands

In the long history of the Honghuang Universe, I have experienced many wars that I do not know how many, and I did not know how many powerful men died.

The flesh and blood left by these powerful men will evolve into various creatures.

But the most is the unwise monsters that Lu Ming encountered before, although powerful, but with limited potential.

Stronger, evolved into the kind of blond-haired man and silver-haired man before, it is already a big deal.

It is really a miracle to be able to evolve into a pantheon.

This is the first time I have met bone and demon.

At this moment, Pantheon put away all the original secret techniques, and then flew to Lu Ming, blushing and panting.

Lu Ming must envy this point.

At the same time, so many kinds of original secret techniques broke out, and they were already drained for being ordinary people, but the pantheon was okay, so Lu Ming was envious of death.

"Goddess, you will go out with me in the future, be low-key, don't use so many secret techniques at once..."

Then, Lu Ming warned seriously.

I used a dozen kinds of original secret techniques at once, it was really too perverted, and it must be studied as a monster outside.

Not to mention more than a dozen kinds, Lu Ming now controls five kinds, and they dare not use them arbitrarily, otherwise they will be caught and studied as monsters.

"Okay, okay!"

Pan Shen touched his head. Although it was a bit strange, he did whatever Lu Ming said.

Then, Lu Minghe discussed with Wanshen again, intending to continue to attract the remaining Celestial Clan.

There is still a blond man and three silver-haired men, all of which are not removed and are always uninsured.

"Heavens like to haunt a mountain range on the right, we go there to attract..."

Pantheon.

Then, the two went to the right, and soon after, they saw a huge mountain.

This mountain range, exuding the fluctuations, is also extremely terrifying. After Lu Ming came here, he felt a strong pressure, like Tianwei.

Bone Devil speculates that this mountain range may have a powerful Celestial Clan to death, and the Celestial Celestial is coercive.

Therefore, those evolved celestial beings like to haunt here.

After Wanshen hid his body, Lu Ming sat cross-legged nearby and put away the copper and copper coffin.

Sure enough, it didn't take long for the Celestial Clan to attack.

This time, a blond man and three silver-haired men all came out.

As soon as the celestial beings came out, the pantheon attacked.

A blond man and three silver-haired men, who were not opponents of the gods, were easily crushed and quickly beheaded.

"Amazing!"

Lu Ming had to sigh.

The Celestial Clan, which caused them enormous trouble, had little effect in the hands of the gods.

In the past, the reason why the gods never removed the Celestial Clan was that the first reason was that when the gods were more awakened, their strength was still weak, and it was far less powerful than the present. Facing the Celestial Clan, they were all retreating fate.

Later, he became stronger, and the Celestials did not dare to take the initiative to attack the gods, and the two sides had been entangled.

Now the Tianren tribe was attracted by Lu Ming, and was seized by the pantheon to kill him in one fell swoop.

After killing all the Celestial Clan, Lu Ming relaxed his mood and put away the copper copper coffin. Afterwards, he finally stopped carrying the copper copper coffin every day.

After killing the Celestial Clan, Lu Ming took out the original **** statue again and began to find a place to absorb the **** factor.

Soon after, they came to a mountain range, which contained a rich spiritual factor, but dwelled in many powerful monsters.

But with the great master of the gods, all problems are not a problem.

The gods wiped out the monsters here.

One person's strength is stronger than thirty-six warriors of the apes. I don't know how much.

Lu Mangan assured the primordial **** to absorb the **** factor.

In the mountain range, it resonated with the original idol and formed a strip of light. It flew towards the original idol and was absorbed by the original idol.

The primordial idol shines, and the accumulated divine factors are increasing.

After more than half a day, the divine factors flying out of the mountains became less and weakened, and at this time, the original idol suddenly exuded a strong wave.

This fluctuation is extremely mysterious.

Shrouded in this wave, Lu Ming's mind seemed to fall into an ethereal state. He seemed to see the primitive spirit roaring and practicing.

Let him realize the various divine powers several times faster.

"Successful, Kaiguang succeeded!"

Lu Ming was overjoyed.

He understands that the primitive idol has finally succeeded, and now he is practicing under the primitive idol, bathed in the wonderful fluctuations of the primitive idol, and enlightening the source divine power factor, or the source secret technique, several times faster.

However, the effect is many times worse than the effect in the Pantheon.

This is because the primordial deities absorbed less deity factors.

After the primitive **** opened the light, it did not mean that he could not absorb the **** factor. Quite the contrary, turning on the light was only the first step.

After the light is turned on, you can continue to absorb the **** factor. The more the **** factor absorbs, the better the effect of the original idol.

Lu Ming intends to continue to absorb the **** factor on this continent.

"Brother Lu, do you need this... this kind of **** factor?"

At this time, the gods spoke.

Brother Lu, Lu Ming asked him to call him that.

According to the time when the pantheon was awakened, the pantheon was indeed younger than Lu Ming.

"Do you know where there is?"

Lu Ming asked.

"I know, there is a place near my awakening place, there are a large number of such spiritual factors!"

Pantheon.

"A lot? A lot? How is it better than here?"

Lu Ming asked.

"It's probably tens of thousands more times than here, I don't know the exact details..."

All gods muttered.

"How many...tens of thousands?"

Lu Ming's pupils couldn't help but widen, and his heart beat faster.

"Go, hurry and say you want to grab with me, who am I anxious with!"

Then, Lu Ming shouted, excited.

Then, Lu Ming followed the pantheon and headed towards the core of the mainland.

About half a day later, they came to a huge open space.

This open space is covered with various hills and covered with strange grass.

Lu Ming took out the original idol, the original idol suddenly radiated incomparable brilliance, and then the whole open space appeared a strip of light.

Innumerable bands of light gathered toward the original idol and fell into the original idol.

The divine factors are all divine factors, which is too rich and beyond Lu Ming's imagination.

I'm afraid it is stronger than what the gods describe.

"Hair is made, this time it is really made, and so many **** factors have been absorbed. What is the effect of my original idol?"

Lu Ming was very excited.

The primitive idol is very important. The stronger the effect, not only can he stay in the primitive idol at all times to improve the speed of enlightenment.

His friends and relatives are fine too.

In the world of Xiaoqian, the efficacy is equivalent to the ancient tree of Taoism, even greater.
