

D Emperor 3351

Chapter 3351: The taste of conspiracy

Liu Fengjunhou, a knife cut out, is thousands of knives of light, slashing towards those wild beasts.

Bump bump bump...

Knife light fell, and a wild beast was cut off.

At this time, Bigger also shot. She was burly and fat, but she possessed infinite strength. She punched a punch, punched the starry sky with one punch, and hurled towards the Liufeng Junhou. The prince and his chariot shattered together.

If this boxing force bombards a life planet, it can directly bomb a life planet.

But Liu Fengjun cut it with a knife, and split this seemingly terrifying punch into two halves.

"It is said that the leaders of your four pirate groups, Xiu Wei, are all at the peak of the Divine Monarch Double. If you look at it today, it is so true. If so, then send you on the road!"

Liufeng Junhou said indifferently, and his eyes flashed with a terrible color.

Then he stepped out and stepped out of the chariot.

When he stepped out of the chariot, a more terrifying breath erupted from him.

Under this breath, the starry sky was violently shocked, filled with terrible coercion.

Beside him, there were some small fragments of meteorites suspended at the moment, silently turning into powder.

"Shenjun triple!"

Beasts and Bigger whispered, their faces showing a strong fighting intent.

"If you only have these means, then stay today, kill!"

Liufeng Junhou drank coldly, crossed the starry sky, and killed towards Beast and Bigger.

"Liufenghu, don't think that only you have reached the triple triple of God, today, you are the one who died!"

Facing the triple wind tiger of Divine Monarch, the Beast Silk was fearless and roared, his body swelled up sharply, thick hair grew out of his body, and finally turned into a giant beast thousands of meters high.

This is the body of a beast, a bizarre giant beast.

Roar!

The beast roared, and a terrible breath erupted, setting off a cosmic storm.

"Shenjun triple!"

Liu Fengjunhou exclaimed, very shocked.

It has always been said that the leaders of the four pirate groups are all at the peak of the Divine Monarch Double, three steps away from the Divine Monarch, and one step away. Unexpectedly, the Beast is no longer the Divine Monarch Double, but the Divine Monarch Triple.

"Quack..."

At this moment, Bigger made a weird smile, his body became fatter, and his breath also rose sharply, and he quickly crossed the limit of Divine Monarch and reached another state.

The triple of princes and the cultivation of Bigger also reached the triple of princes.

This time, Liu Fengjunhou's face changed wildly, became very ugly, and also with incredible.

If a single beast broke through, that's okay, but Bigger also broke through, which is abnormal.

In addition, this time the four major pirate groups suddenly joined forces, which made Liu Fengjunhou smell the conspiracy.

"Liu Fenghu, you died today!"

"kill!"

The beasts and Bigger shouted and killed toward the Liufeng prince.

"Don't think that you will be able to fight me if you break into the triple triple of Divine King. I tell you that even if it is the same level, the combat power is different!"

Liu Fengjun quickly calmed down and spoke indifferently, holding a tiger-headed sword, and slayed towards the beasts and Bigger.

Boom!

A terrifying collision erupted, and the attacks of the three collided together, evoking a terrible cosmic storm.

Even the strong men of other Divine Monarch realms did not dare to get too close, and they retreated again and again, pulling away from their battlefield.

"Tiger God Cut!"

Every time Liu Fengjun cuts out, there is a roar of a tiger, the power is terrifying, this is a terrible secret technique.

After fierce fighting between the two sides for more than a dozen moves, Liu Fengjun and Yue Yue fought even more bravely.

Liufenghu, before the long years, was also the arrogance of the Taixu Royal Sanctuary. He was qualified as a Kaifu clan. After the Tianfuxingyu Kaifu clan, the strength continued to expand. With his own strength, he created this monarch palace, The strength is naturally strong.

"Monarch invincible!"

People in Liufengjunhou's house shouted and were very excited.

The pirate group looked ugly.

Seeing that the balance of victory tilted towards Liufeng Junhou Mansion, but at this moment, the sudden change occurred.

"kill!"

Suddenly, in the other direction, Zhentian's shouting and killing sound came, and an army came from that direction and rushed toward the army of Liufengjunhou's house.

The headed person, with a red beard on his face, is an army of red beard pirates.

"Red Beard Pirates, how is it possible?"

"What's going on? How did the Red Beard Pirates kill?"

Liufeng Junhou Mansion, a mess.

They did not expect at all that their rear would suddenly kill a large army, and they were still extremely powerful Red Beard Pirates.

Therefore, when the Red Beard Pirates were killed, for a time, they were in a hurry and had no time to deploy defensive formations.

For a time, blood was splattering, and a large number of people in Liufeng Junhou Mansion were killed.

"Kill, kill the miscellaneous deeds of the glorious prince's mansion!"

"Kill them all!"

The red-bearded pirate squawks excitedly, wielding weapons, and continually killing the people of Liufengjunhou.

On the other side, I saw that the Red Beard Pirates had suddenly killed. The Beast Pirates and the Bigger Pirates suddenly became excited, and their morale increased greatly.

Liufeng Junhou's house had already gained the upper hand, but now, it fell to the lower wind all at once, completely passive, and a large number of strong men fell.

In particular, the leader of the Red Beard Pirates, Red Beard, is amazingly powerful, and it has actually reached the triple of God.

He held a huge war sword, and with each sword, a large number of powerful men were killed.

In the end, he killed the Divine Monarch battlefield and beheaded a Divine Monarch in Liufeng Junhou Mansion.

"Ah, **** it!"

Liufeng Junhou roared wildly in his heart, and his anger was skyrocketing.

"Waste, a group of waste, that group of debris are all waste..."

Liu Fengjun roared, Lu Ming and others were naturally cursed.

According to his predictions, Lu Ming and others went to the Feile Galaxy ahead of time, where they set up a large formation, and if they were desperate for a battle, how could they block the Red Beard Pirates for a few days.

He can use these days to defeat the Beasts and Bigger Pirates first, and then deal with other pirates and break down one by one.

But now, the Red Beard Pirates are killing so quickly, this is not resisted at all.

"Haha, Liufenghu, it seems you lost today!"

The beasts laughed.

"If you want to defeat me, stop thinking, it's you who died today!"

Liu Fenghu roared, and his breath was even more terrifying. He exhibited his mastery at the bottom of the box and launched a crazy attack.

For a time, the oppressed Beast and Big retreated one after another, completely defeated.

puff!

The beasts were careless, and were swept over by the tiger's head knife, and a huge wound appeared. The blood was flowing, and the painful beasts wailed.

Chapter 3352: betrayed

"Red Beard, come and help us first, solve Liufenghu first!"

The beasts shouted.

"The two of you are really useless. The two of you joined together and are not opponents of Liufenghu!"

Red Beard sneered, but still killing Liuliu.

Uh!

The red beard was cut out with a sword, the giant sword was in the air, spanning a distance of hundreds of millions of miles, and cut into the Liufenghu.

when!

Liu Fenghu waved his sword to resist, the swords collided, and a terrible sound wave erupted, and the sword's sword gas covered the vast starry sky.

"It's all triple gods, what's going on?"

Liu Fenghu was very shocked.

First the Beast, Bigger, and now the Red Beard, all reached the triple of the Divine Monarch, which is incredible.

Do these three people get some kind of supreme treasure at the same time?

"Liu Fenghu, die!"

"kill!"

Beasts, Bigger and Red Beard shouted one after another and killed Liufeng Tiger.

"It's not enough for you alone!"

Liufeng Tiger roared and swept his sword to fight.

To be honest, Liufeng Tiger is indeed very strong. With one enemy and three, it actually blocked the siege of the three masters. For a time, the fight was inseparable.

However, Liufeng Tiger blocked it, but his men did not block it. In the face of the front and back attacks of the three pirate groups, the people of Liufeng Junhou's palace retreated and people continued to fall.

"Damn it!"

Liu Fengjun looked in his eyes, anxiously in his heart, his heart was bleeding.

These men are his accumulation for a long time, and he will use this as the foundation to attack the King's Mansion in the future.

Every death in a battle is a huge loss, not to mention that so many people have died in a series of battles.

"Damn Lu Ming, **** meteor palace..., a bunch of waste!"

Liu Fenghu shouted in his heart, blaming everything on Lu Ming's head.

"Hahaha, Liufenghu, look at whether you are in a hurry. Your men will soon die, but you can rest assured that we will send you down to accompany them soon!"

The red beard laughed and stimulated Liufenghu, but the offensive was even more violent.

In a flash, the two of them fought hundreds of moves.

"Don't think you can kill me, die me, die..."

Liu Fenghu's eyes were red, his body glowed with infiltration.

"Blood tiger trick, blood kills the world!"

Liu Fenghu roared, and at this moment, he was covered with dazzling blood, especially the tiger-headed sword in his hand, which was even more strange and red.

when!

Slashed out and collided with Red Beard's War Sword. Red Beard's body was shocked, and he was directly flew out.

"Be careful, this guy is desperate!"

Red beard exclaimed.

"Forcing me to make a bleeding tiger trick, you will die!"

Liufeng Hu growled.

The blood tiger trick is a desperate secret technique controlled by the Liufeng tiger. It is less than a last resort and will not be used. Because the sequela is very large, it will hurt the vitality after the use of the meeting. It will take a long time and cost a lot of talents. To recover.

Only when you are desperate, it will be displayed.

Now is the time to desperately.

Using the bleeding tiger formula, Liufeng tiger's strength skyrocketed.

After he repelled the red beard, he turned around and killed the beasts. The blood-red knife light illuminated the starry sky.

All the beasts were shocked and quickly backed away, but it was too late, they were crossed by the knife, one leg was cut off, and they flew far away.

Then, Liufeng Tiger killed Bigger again, and Bigger was also invincible.

In a blink of an eye, Liufeng Tiger repelled and wounded the three powerful players.

"Join together, don't distract!"

Redbeard yelled and came to Beast and Bigger. The three gathered together and joined forces to fight Fenghuo.

However, the Liufeng Tiger in this state is too strong, even if the three of them are together, they are not enemies. They are forced to fall in the wind, and they retreat again and again. Soon after, all three of them are injured, and they are injured.

"Retreat first, don't fight him first, he cast some kind of secret technique, there will definitely be side effects, we temporarily avoid its sharp edge, and then kill back later!"

Redbeard transmitted to Beast and Bigger.

"Ok, retreat first!"

Both Beast and Bigger nodded.

It is not wise to fight the Liufeng Tiger now, it is better to avoid its edge temporarily, wait until the time of the Liufeng Tiger's secret technique has passed, and then come back too late.

Dangdang...

They secretly voiced their men. Suddenly, the bells of the three pirate groups sounded. This was the retreat horn.

The three pirate regiments joined together and retreated backwards.

Liu Fengjunhou's troops are in a weak position and they dare not pursue them.

Beasts, Bigger, and Red Beard joined forces to block Liufenghu's moves and retreated.

Liu Fenghu wanted to pursue, but he didn't dare. The blood tiger trick he played had time. If he pursued, and after the time passed, he didn't kill the opponent, he was the one who died.

He was not sure or chased, and could only watch the three pirate groups disappear into the starry sky.

"Count the casualties!"

Liu Fenghu shouted.

Soon, the number of casualties came out, and the result turned Liu Fenghu's eyes red.

This time the loss of Liufeng Junhou Mansion was too great. Even Shenjun lost two, not to mention the existence of God King Realm, and the loss was even more alarming.

Liufeng Junhou Mansion, this time he was seriously injured.

Want to recover, do not know how many years it will take.

"Isn't someone secretly monitoring the Feile Galaxy? Calling those people back, I want to know, what happened to the Feile Galaxy?"

Liufeng Tiger roared.

Soon after, several people hurried over.

These people are exactly what Liu Fenghu sent to Feile Galaxy to monitor Lu Ming and others.

Feile Galaxy, Lu Ming and others directly retreated and let the red-bearded pirate group enter the hinterland. They naturally knew that, in shock, they quickly wanted to report to Liufenghu.

However, the people of the Red Beard Pirates were faster. They took a large teleportation array and directly killed Liufeng Junhou Mansion.

A few watchers, hurriedly hurried, waited until the war was over before they arrived here. It was too late.

"Say, what's wrong with the Feile Galaxy? Why did the Red Beard Pirates come here so quickly, Qianlong Mansion, Meteor Mansion, Qianyue Mansion are all destroyed?"

Liu Fenghu asked with a somber face.

"Betrayed, Qianlong Mansion betrayed, I don't know why, all the other governments have listened to the orders of Qianlong Mansion. They didn't stop the Red Beard Pirates, they retreated directly, and the people who sent the Red Beard Pirates came in!"

One of them reported.

"what?"

Liu Fenghu stood up suddenly, his body burst into a violent breath, like a volcano, killing the sky.

"Qianlong Mansion, Lu Ming, actually dared to betray me, yell at me behind, find death, find death..."

Liu Fenghu roared with horror, killing thoughts, and his voice was extremely cold.

On the edge, the others were silent, daring not to say a word.

"If you come, call back Qianlong Mansion, Meteor Mansion, and others. If you don't follow, don't talk about killing!"

Liu Fenghu ordered, his face was extremely ugly, and he wished to unload Lu Ming.

Chapter 3353: Senior, misunderstanding

Liu Fenghu understands that this time, he was tainted by Lu Mingyin, the other party intentionally did not stop the Red Beard Pirates, and let the Red Beard Pirates come in directly, causing him heavy losses.

His original intention was to use the red-bearded pirate group to get rid of Lu Ming and others, and Lu Ming would definitely fight desperately for their lives. In this way, for him, it is the best of both worlds.

On the one hand, Lu Ming and others can be eliminated, on the one hand, the Red Beard Pirates can be blocked for a period of time.

He never thought that Lu Ming was so bold that he dared to let the Red Beard Pirates come in directly.

"Lu Ming, I will let you die without burial!"

Liu Feng tiger's ugly opening.

The matter was somewhat beyond Liu Fenghu's expectations. Not long afterwards, Lu Ming and others actually came and did not resist.

On a huge square, Liufeng Tiger sat on it, overlooking Lu Ming.

Below is the head of each government.

This time, Liu Fenghu not only summoned Lu Ming back, but also called back other government officials. His purpose was to kill Lu Ming and establish his prestige in front of the government officials.

"Lu Ming, your bold courage, actually betrayed the Holy Spirit and fled without fighting, what crime should be?"

Liu Fenghu sat on the top, a cold voice came out, staring coldly at the landing, and wished that Lu Ming would be depressed.

It was because of Lu Ming that he lost so much.

"What a sin?"

Lu Ming smiled contemptuously and said, "Liufenghu, you sent us to guard the Feile star field and resist the red-bearded pirate group, that is let us go to die, I will be so stupid, to die in vain?"

"Fighting for the pilgrimage, even if the battle is dead? Acting like you, it's a sin to die!"

Liu Fenghu shouted.

"Lu Ming, you have not knelt down to confess guilt!"

Aside, Liu Fengxiao also shouted.

"When I destroy the four pirate regiments, I will naturally be able to pass the merits, so I don't need you to worry!"

Lu Ming carried his hands on his back and spoke lightly, not giving Liu Fenghu a face.

"Destroy the four pirate regiments, ha ha ha, it's up to you. It's ridiculous, arrogant and ignorant. This time, you have to pay heavy penalties, come and win Lu Ming!"

Liu Fenghu shouted.

Suddenly, several masters of Jiuyou held the iron chain and flew towards the landing.

"Who dare I think?"

A figure appeared in front of Lu Ming, filled with a strong breath.

General Qianyue!

This surprised the heads of other governments. General Qianyue, in order to fight Lu Feng for Lu Ming, is this crazy?

"Qianyue, I heard that you have turned to Lu Ming, hehe, you are a god, you turned to a younger generation, it seems that he has some skill, then even you won!"

Liu Fenghu drank coldly, waved his hand, and suddenly, several powerful princes stepped out to suppress General Qianyue and win Lu Ming.

However, beside Lu Ming, several warriors of the apes walked out step by step, standing in front of Lu Ming like a mountain, and naturally they were all powerful in the Divine Monarch Realm.

The other governments took a breath.

Under Lu Ming's men, there are so many powerful monarchs, which is really amazing.

Liu Fenghu's pupils shrank, and then sneered: "It turns out that there are many masters, no wonder they can conquer Qianyue, but with these people, they want to fight against me, delirious, and today, I will kill you myself!"

Liu Fenghu rose slowly, a terrifying breath blooming from him.

The triple prince is really too strong, and it is much stronger than the heavy prince. You can kill the ordinary super prince with a wave of your hand.

Although Lu Ming has a few people under God's King Realm, he didn't put it in his eyes at all.

Without a strong man at his level, everything is false.

"Dad, don't kill him first, abolish him, I want him to die better, dare to treat me like that..."

Liu Fengxiao yelled, his face ugly.

He was abused by Lu Ming at the beginning, and he wanted to repay Lu Ming 100 times.

"Okay, I won't let him die easily!"

Liu Fenghu also spoke indifferently, and then stepped on the void, the speed was very amazing, and immediately came not far in front of Lu Ming, and pressed the palm towards the landing.

The speed is fast, it's almost to the extreme, and even the other apes war tribes of several gods and kings haven't reacted.

However, even if they reacted, they would not be worried, because Ape Cong was beside Lu Ming.

When Liu Feng's palm was about to be caught on Lu Ming's body, the big furry hand protruded out of Lu Ming's side and grabbed Liu Feng's wrist.

Then, Liu Fenghu's hand could not move at all, no matter how Liu Fenghu broke his magical power, he could not move at all.

"you you..."

Liu Fenghu stared at Ape Cong, completely stunned, all eyes were incredible.

He is the triple existence of Divine Monarch, how powerful is his strength, but after his wrist was held by Ape slave, he could not move at all.

What kind of strength is this?

Thinking of this, his heart trembled.

However, other people did not know the inside story, and they were curious to see Liufenghu as if he was set there.

"Strange, why didn't Lord Junhou continue to shoot? Let him be caught by the Wraith Apes?"

"Yeah, weird!"

Some people are talking.

"Dad, get rid of that kid, look, that kid is scared!"

At this time, Liu Fengxiao also shouted.

Liufeng Hu almost cried, turned around and roared against Liu Fengxiao: "Shut up for me!"

Liu Fengxiao's expression stiffened there suddenly, staring at Liu Fenghu in a daze for a moment, his face stunned, not understanding why Liu Fenghu yelled at him.

The other people's expressions were similar, and they also looked dazed.

After roaring Liu Fengxiao, Liu Fenghu turned to look at Ape Cong, his face squeezed a smile that was uglier than crying, and said: "Previous...Predecessor...Misunderstanding...ah!"

Liu Fenghu screamed before the words were finished, because the ape suddenly squeezed his wrist bones off.

Then, the ape slammed hard and threw the wind and the tiger heavily on the ground.

boom!

The ground was violently blasting and bursting continuously, and tens of millions of cracks appeared on the ground like a cobweb.

Fortunately, this is just a resource star, not a life planet, otherwise it will cause disaster.

Liu Fenghu screamed, inlaid on the ground, twitching all over his body, vomiting blood in his mouth, it was terrible.

Quiet!

The scene fell into a deadly silence, everyone widened their eyes, stared at the ape from a start, and then looked at the stray dog like a dead dog.

They couldn't believe the scene they saw in front of them. Some people thought they were dreaming.

Liu Fenghu, a monarch of the monarch's house, and a triple character of the **** monarch, in front of the ape, was actually abused without the power to fight back. How could this be possible?

How strong is this ape?

Thinking of this, many people took a breath.

Even those who had turned to Lu Ming's Meteor House Master, General Qianyue and others, were stunned.

Chapter 3354: You can't surrender

At the beginning, Lu Ming only sent out Shenjun's second-level Nether Ape War Clan, and suppressed General Qianyue and others. They thought that Shenjun's Second-level is the strongest person under Lu Ming's men.

However, now the apes started to let them know that they still looked down on Lu Ming.

I don't know why, General Qianyue is very happy now.

Originally, he was forced to swear by Lu Ming with the origin of life, always loyal to Lu Ming, and there are still some unwillingness. Now when he sees the ape from the shot, he is unwilling and disappears without a trace.

Didn't you see that even Liu Fengjun was so miserable, then he was suppressed, it was not normal.

Among the people, the most terrifying thing is that Liu Fengxiao, his eyes were almost glared, it was incredible, and then the whole body was trembling and non-stop, that was scary.

Uh!

At this moment, Lu Ming stepped out and walked towards Liu Fengxiao.

"You...what do you want to do?"

Liu Fengxiao shouted in horror.

"What do you want to do? Of course it is to kill you!"

Lu Ming spoke indifferently.

Liu Fengxiao has a deep hatred for him. Even if he wants to surrender, Lu Ming refuses. Only by killing can he get rid of future troubles.

Liu Fengxiao was shocked and could not help backing up, his face pale.

"Come here, block him, protect me!"

Liu Fengxiao shouted.

However, there is no one in Liufengjunhou's mansion, and none of the remaining powerful people in Divine Monarch Realm.

Ape Cong's strength is too strong, raising his hand to suppress Liu Fengjun, strong strength against the sky, if they shot, only a dead end.

Who is willing to save Liu Fengxiao?

Seeing this scene, Liu Fengxiao shouted frightly and backed away madly, trying to escape, but his speed was far worse than Lu Ming. Lu Ming flickered a few times and caught up with Liu Fengxiao. The lance, pressed down.

The guns are like mountains, and they are pressed towards Liufengxiao.

Liu Fengxiao couldn't stop it, and was directly suppressed. He was crushed to the ground by the gun and vomited blood.

"No, no, let us go, we are willing to surrender!"

At this moment, Liufeng Tiger roared.

At the juncture of life and death, he chose to surrender.

He roared in his heart, planning to surrender Lu Ming first, stabilize Lu Ming, and then move the rescuers to Taixu Shengdu to get rid of Lu Ming.

"Liufeng Junhou Mansion, everyone else can surrender, even if your father and son can't, let him go on the road first!"

Lu Ming spoke indifferently, his spear shuddered and pierced through.

Poof!

Liu Fengxiao's eyebrows were pierced by guns and nailed to the ground.

"Do not..."

Liu Fenghu roared furiously, his whole body was blazing, his body revealed a dazzling red.

He desperately burned everything and wanted to kill Lu Ming.

but...

boom!

The ape stepped on one foot, the breath that Liufenghu just erupted, like a balloon was pierced, disappeared without a trace.

He screamed, and there was a crackling sound all over his body, and his bones didn't know how many were broken.

Many people sighed that the ape was too strong, and no matter how the Liufenghu broke out, it would not help.

At this moment, Liufeng Tiger is half dead.

"Get rid of him!"

Lu Ming gave the order.

boom!

As soon as the words fell, the ape blasted out from the punch, the ground was violently shaken, and Liu Fenghu's whole person was completely exploded and turned into fly ash.

Many people took a breath, and the overlord of the heavenly mixed star domain, a generation of princes, was just killed.

Liufeng Junhou Mansion, some people's eyes flickered, and their bodies slowly backed away, wanting to leave here.

"Did I let you go?"

Lu Ming glanced at those people like electricity.

The people suddenly stiffened and dared not move.

"Lu Ming, no, Lord Lu Fu, this matter has nothing to do with us. From beginning to end, Liu Feng Hu and his son are going to target you!"

A divine prince said in a princely palace.

"So you are still alive, but it doesn't mean you can leave!"

Lu Ming spoke indifferently.

"So what do you want?"

The prince asked.

"It's very simple, swear by the origin of life, loyal to me!"

Lu Ming said.

"Swear by the origin of life?"

Everyone's face is wild.

"Yes, now I will speak. All of you will swear allegiance to me with the origin of life, those who refuse, kill!"

Lu Ming spoke, murderous.

The ape erupted from his body, like a vast Tianwei, enveloped the starry sky, and enveloped everyone in it.

Everyone was cold and sweating. They had no doubt that if they did not agree, they would be struck by the thunder of the ape.

No one on the scene could survive the ape from a thunder strike.

Either die or surrender!

Needless to say, everyone naturally chooses to surrender.

Finally, everyone at the scene swears by the origin of life and loyalty to Lu Ming.

In this way, Lu Ming's large and small houses are all under the control of Lu Ming.

Although Lu Ming is still a soldier's mansion, his strength and territory under his control are already comparable to those of the monarchs.

"Master, what should I do next? The four pirate groups will soon be attacked!"

Someone asked.

"It's very simple, remove all the defenses from other places, and then there is news that we are fighting inside, Liufeng Tiger is injured, and wait for the four major pirate groups to hook!"

Lu Ming said.

The plan is very simple, wait for the four pirate groups to join forces to kill, and then one-sided.

"Yes!"

Everyone bowed to life.

There are apes, they are very confident, the four pirate groups came to death, just to death.

Immediately, everyone began to arrange.

Some housekeepers returned to the place where they were guarding, and brought the strongmen of each house to Lu Ming.

The power of the various governments is brought together.

Then came the news that they were fighting inside and Liufeng Tiger was injured.

Sure enough, after hearing the news, the four pirate groups all gathered together, and hurriedly killed Lu Ming on their side.

Nearly a hundred search huge warships, overwhelmingly, flying from the distant starry sky, violent roar.

Nearly a hundred search huge warships, giving a strong oppression.

"Arrange!"

Among the crowd, Lu Ming's voice came out.

Suddenly, with him as the center, the figure in this area flickered, and the people of each government cooperated with each other, laying a huge defensive formation.

In one of the battleships, the leaders of the four pirate groups gathered and watched from a distance. After seeing Lu Ming deploying their formation, Red Beard sneered: "I thought we could block us by deploying a defensive formation? Really? Naive, the warships attacked, breaking their formation!"

"Shoot!"

Several other leaders gave orders one after another.

Buzz!

Hundreds of warships shook slightly, filled with dazzling runes, and then beams of light burst out and rushed to Lu Ming.

However, Lu Ming's formation with their full strength and defensive strength is also very amazing. Layers of masks cover them, and those beams bombard the mask, all blocked by the mask.

The photomask kept shaking, and it didn't break.

Chapter 3355: Kill all

"Continue to attack!"

Redbeard yelled, and at the same time, Beasts, Bigger, and the Green Haired Pirates all gave orders to continue their offensive.

suddenly...

With a loud roar, the battleship on the far right of them suddenly exploded like a gorgeous firework.

The pirates in the battleship screamed and then turned to ashes in the fire.

The leaders of the four pirate groups changed their faces wildly.

"what happened?"

Redbeard yelled, because the ship that exploded was his.

"Under attack, under attack..."

Someone shouted.

boom!

At the next moment, another battleship exploded, blazing with fire, shining on the starry sky like a planet exploding.

In that battleship, a figure flew out, but before it had flew out, it was reduced to ashes under the power of destruction.

In a battleship, I don't know how many interstellar pirates, and there are many strong ones among them, but for a while, these interstellar pirates all fell.

In the starry sky in the distance, above Lu Ming's head, a large piece of resting stone was suspended, recording all this.

These are all credits that can't be missed.

"who is it?"

This time it was the turn of the beasts to roar, because the warship that had just broken up was his.

"Someone out of the flames!"

Someone shouted.

The four pirate groups watched together and saw a tall and burly figure in the warship that had just broken up.

This is an ape, huge, with flared fangs and a violent breath, like a sea like an abyss.

This ape monkey is naturally a warrior of the apes, and it is also a big elder ape.

The ape turned into a giant ape from the display of ghost battle tactics, and directly killed the battleships of the four pirate regiments, bombing two battleships in a row.

"Open fire and bombard him!"

Red beard yelling.

Some warships turned their direction, and the runes lingered above, preparing to attack the ape, but the ape disappeared from its place as soon as it flashed from the figure.

"not good!"

Red Beard and others shouted in their hearts. At the next moment, another battleship exploded. Obviously, this battleship was bombarded by the ape.

boom! boom!

Next, the sound of explosions kept coming, and the battleships exploded one after another, like gorgeous fireworks.

It didn't take long for more than a dozen warships to explode.

"Retreat, the battleship retreats, and people go out to kill him!"

Red beard, beasts and others shouted.

Rumble!

The remaining warships quickly retreated, and then flew densely out of each warship.

They want to kill the ape from the crowd.

This time, the four pirate groups joined forces, and the masters are like clouds. Even if they are strong in the Divine Realm, there are more than a dozen.

咻咻咻...

The sky full of rainbow light, across the universe starry sky, from the kill to the ape.

Not only that, the leaders of the four pirate regiments also shot, flew out of the battleship, and rushed to the ape.

"Surround him, I want to smash him!"

Red beard yelling.

They are very confident. This time, the leaders of the four pirate groups have all encountered adventures, cultivated as breakthroughs, and have reached the triple triple of gods.

In the heavenly universe, they are confident and invincible.

Seeing the dense figure, the ape stopped instead.

Soon, the dense figure surrounded the ape from the group.

"To attack together and destroy him!"

Red beard yelling.

"kill!"

"kill!"

Countless people yelled, and an attack erupted, and countless gorgeous lights shining out, blasting away from the ape.

At this moment, the ape flashed from the figure, like a phantom, directly evaded countless attacks and killed to the side.

Suddenly, screaming for days, blood splattered, and a large block of interstellar pirates were killed.

The ape has been too strong. If he punches freely, he will have a huge fist that will crush many pirates.

A free punch can blast a planet, and these pirates come together to find death.

A large number of large pirates exploded continuously, the whole starry sky, bloody.

No matter what you do, no matter whether it is the Divine King Realm or the Divine Monarch Realm, the result is the same.

"how is this possible?"

The leaders of the four pirate groups saw this scene, their bodies shuddered, their faces pale and unbelievable.

The powerful people of the Divine Monarch Realm were all killed by a punch, without the slightest resistance, what strength is this?

Such strength is by no means what they can resist.

"retreat!"

The leaders of the four pirate groups started to retreat and shouted, then retreated backward.

But will the apes ever make them back?

The ape flashed from its body shape and disappeared from its place. The next moment, it appeared directly in front of the four chiefs.

The red-bearded four quickly stopped their bodies, and their faces were pale.

"Since it's here, stay!"

The ape spoke from indifference.

"Want to stay with us, it's not so easy, kill him together!"

"Shoot!"

Red beard and other people shouted, revealing a terrible color, a powerful force, all exploded.

All are the triple cultivation of the Divine Monarch.

The four teamed up to attack the strongest move, four terrible attacks, towards the ape from the bombardment, to apes from the bombardment.

However, the ape emerged from the palm of his hand like a knife, and a black divine light burst out, directly breaking the four people's attack.

"Trick and worm!"

The ape spoke lightly.

"How is it possible? Divine King is more than four!"

The red-bearded four were shocked in their hearts.

What can easily block their attack is definitely not the triple triple of the prince, but the quadruple of the triple prince, even upward.

Such an existence is definitely not something they can deal with.

"Spread away!"

The red beard roared into a rainbow, rushing in one direction.

The same is true of the other three.

The four people fled from four different directions, one can escape one, and as for who can escape, it depends on luck.

"In my hands, I still want to escape, really naive!"

The ape said coldly, and then stretched out his hand. A huge palm extended toward the front and grabbed towards the red beard. The speed was almost extreme, covering the red beard.

Redbeard screamed in horror, attacked with all his strength, and wanted to stop it, but nothing helped.

With the palm of his hand pressed, the red beard screamed, and his body exploded directly, destroying all forms.

While killing the red beard, the ape stepped out from one foot, and a giant foot suddenly appeared in the starry sky, stepping towards the green hair.

Green Hair also entered the footsteps of Red Beard and was killed by the ape.

The Divine Monarch is triple, and there is no slight resistance in front of the ape.

After continuously killing the leaders of the two pirate regiments, the ape never stopped, his figure flickered, appeared in front of Bige, punched out, Bige died.

The leaders of the four pirate groups died three in a blink of an eye, leaving only one beast.

"I surrender, I surrender..."

The beasts almost scared to death and screamed directly, intending to surrender. He knew that he would definitely not be able to escape and would be killed by the ape.

"Refused to surrender, the whole army attacked and wiped out the interstellar pirates!"

Lu Ming spoke indifferently, his eyes cold.

Chapter 3356: Promotion to general palace

Lu Ming rejected the surrender of Beast.

These interstellar pirates do nothing but evil. Everyone's hands are covered with blood. No one is innocent and should be killed.

Moreover, after killing these pirates, you can get credit, why should Lu Ming let them go?

Lu Ming gave the order and the whole army attacked.

"kill!"

The shouting was like a mountain and a tsunami. On Lu Ming's side, a warship flew out and killed a pirate warship.

The Ape Cong also shot, punched out, the huge bodies of the beasts burst into pieces, and blood splattered into the stars.

After killing the beasts, the ape emerged from the body with dense runes, which is a teleportation.

The powerful of the Divine Monarch Realm can engrave a large formation on the body and can directly transmit it.

After a while, the ape disappeared from the figure, and at the next moment, appeared behind the battleship of the Star Pirates, blocking their retreat.

"Destroy me!"

The ape drank from the cold, his fists continually waved, and a huge fist print blasted these warships.

Every time a fist seal passed, a battleship exploded.

In a flash, more than 20 warships exploded.

"The ape obedient, his men are merciful, only kill pirates, don't destroy the battleship!"

Lu Ming quickly transmitted the sound to the ape.

Each of these warships is at least hundreds of thousands of miles long, and a large one million miles long. Building a ship requires countless materials and resources. It is so unfortunate that it is so destroyed.

Lu Ming looked at the pain.

He will develop in the future. These warships are all useful.

The ape nodded, not so violent, only blocking the warships and preventing them from running.

After a while, Lu Ming led the army to kill them and surrounded these warships.

"Kill in!"

Lu Ming waved his hand, and a large number of masters flew out of the battleship and killed the opponent's battleship. They broke open the defense of the battleship, rushed in, and launched a war in the battleship.

Just after being killed by the ape, the four pirate groups have killed many masters here, and their strength has greatly weakened.

On Lu Ming's side, the master is like a cloud.

There are more than ten gods and kings of the apes and war tribes brought by Lu Ming.

In addition, the strong man of Liufeng Junhou Mansion, as well as the other strong man in the general palace, the number of Divine Monarchs adds up, there are more than two dozens, completely suppressing the interstellar pirate group.

In the interstellar pirate group, every battleship has a fierce battle, but Lu Ming has the upper hand completely.

The ape never continued to attack, but stood in the starry sky, his eyes like electricity, and seemed to be glancing at something.

"Want to leave, come out for me!"

Suddenly, the ape shouted and punched at a certain void.

The vanity shook wildly and there was a big explosion.

Then, a figure emerged out of thin air.

This is an interstellar pirate, covered with runes. Obviously, this is an interstellar pirate in Divine Monarchy. He wanted to initiate a large teleportation escape and was forced out by the ape.

At this moment, the face of this interstellar pirate was full of horror, he vomited blood in his mouth, and his body retreated.

However, in front of Ape, he was as weak as a baby.

boom!

The fist of Ape Cong broke out, and this intergalactic pirate in Divine Monarch Realm was beheaded.

After beheading this interstellar pirate, the ape continued to glance around from the eyes like electricity, and he was staying here to prevent the interstellar pirates in the Divine Realm from escaping.

Soon after, the ape shot again, hitting a fist in a void, and bombing a celestial pirate who wanted to escape.

In this war, the ape intervened from this horrible existence, and there was no suspense.

In front of this existence, the number of people is meaningless, and the result is already doomed.

The battle lasted for a long time.

Half a day later, the battle between the warships slowly stopped.

Most of the interstellar pirates have been killed, only a small number are still stubborn, but they can't affect the overall situation.

In the past half a day, all warships have calmed down, and the masters of the various governments, as well as the powerful people of the Divine Monarch Realm, have come over and reported the news to Lu Ming.

Extinguished!

In this battle, all four interstellar pirate groups are wiped out.

The masters of all the palaces all exclaimed in their eyes.

The four pirate groups in the sky mixed star field have been in the sky and star field for countless years. Unexpectedly, this time they were all annihilated.

Of course, this is also the four major interstellar pirates teamed up to attack, will give Lu Ming such an opportunity.

In the past, the four interstellar pirate groups wandered and snatched everywhere, and had no place to live. Even if there were stronger men coming, it would be difficult to destroy them.

This is why the four major interstellar pirates can survive for so long.

"The Lord of the House, caught a few barbarians!"

At this time, a few apes and war tribes came, carrying a few burly creatures in their hands.

Lu Ming, a creature of this kind, once met at the Black Jade Gold Mine, and it was the barbarian who had been fighting the Taixu Holy Years all the year round.

"Barbarian?"

Lu Ming looked a little surprised.

Barbarians, how could they be in the battleship of the Star Pirates.

"This time the four major pirate groups suddenly attacked the Taixu Holy Palace and the four leaders' breakthroughs were all broken. Could it be that the barbarians pushed behind?"

Lu Ming moved.

This is very possible, otherwise it is difficult to explain all this.

"This time, are you barbarians pushing interstellar pirates to attack us?"

Lu Ming glanced at several barbarians and asked.

"Yes, what do you know? I tell you, the Taixu dynasty will be destroyed by my barbarian sooner or later, so wait for your death!"

One of the barbarians said coldly, looking at Landing with a terrible look.

"Sure enough!"

Lu Ming's eyes moved, and the barbarians did this. What was the purpose?

"Master, these barbarians, how to deal with it?"

The Nether Ape Warrior asked.

"Of course it was killed!"

Lu Ming waved his hand.

After beheading several barbarians, they began to count the battlefield and count casualties.

In the previous war, although they completely wiped out the interstellar pirates, they also suffered some damage, but it was not big, and it was still within Lu Ming's acceptance.

There is no loss for the main Winged Ape Clan. Most of the war dead are from other provinces.

After finishing, the crowd drove the battleship and rumbling back to Qianlong Star.

Next, Lu Ming began to merge the governments, so that some of the core strongmen of the governments came to Qianlongcheng. Of course, those occupied planets also need to send people to guard.

After this battle, Lu Ming's strength skyrocketed.

More than half of the territories of the Sky and Stars are occupied by Lu Ming, and there are many more masters.

While consolidating the forces under his command, he sent people to Taixu Shengdu to report the credit for this time.

Two months later, the order from the military aircraft department came down.

This time Lu Ming made great contributions to annihilate the four major pirate regiments, and the credit was enough to upgrade. He directly upgraded the soldiers' palace to the general's palace and appointed Lu Ming as general Qianlong.

After upgrading to the General's Mansion, Lu Ming can recruit people blatantly.

Chapter 3357: Legion Call

Before Lu Ming started to recruit people, he selected a group of strong men and came to practice under the original god.

As soon as these strong men practiced, they were shocked by the effect of the original idol, and then after the practice was over, the news about the original idol naturally spread.

Not only in the sky mixed star field, but also in other surrounding star fields, you know that General Qianlong Palace has a primitive idol, the effect is mysterious, and cultivation under this primitive idol, the effect is excellent.

When the news of recruiting general Qianlong's mansion came out, a large number of people naturally came to take refuge.

Of course, those who take the initiative to take refuge naturally cannot let others swear on the origin of life. That is unrealistic. In that case, even if there are primitive gods to attract, it is estimated that not many people take refuge.

Of course, all those who want to take refuge must go through the test of the blue merchants to prevent Lu Ming's enemies from sending people undercover.

For example, Guoshi Mansion, Lan Family, etc., most of them will send people to mix into Qianlong Mansion. With this large formation, some people with ulterior motives can be eliminated.

At the same time, Lu Ming also asked those who were under his command, whether they knew a strong man, to recommend it.

In fact, in the sky mixed star domain, in addition to the masters of the governments, most of the strong men who surrendered to the governments are mostly loose repairs, or only small forces behind them.

These people, of course, also know a lot of loose training.

After introductions by these people, it turned out that many masters came to surrender to Lu Ming, of course, the main thing is to come to the original idol.

It is very difficult for these people who do loose cultivation, or small forces, to have a mysterious primitive idol.

Hearing that Lu Ming had an extremely mysterious original idol, many masters were moved.

Time rushed, two years passed.

In the past two years, Lu Mingzhao has received a lot of strong men.

Even the **** prince, seven or eight people surrendered.

In this way, in addition to the Ming Ape War Clan, under Lu Ming's men, there are more than 20 powerful people in Divine Monarch Realm, which is an extremely powerful force.

Many powerful monarch palaces, the powerful of the **** monarch realm, are just this amount.

This is the advantage of upgrading to the General's Mansion. If it is only the Warrior's Mansion, I am afraid that many strong men will not surrender, thinking that there is no future.

If it is upgraded to the monarch's palace, coupled with the propaganda of the original idol, I am afraid that there will be more strong men surrender.

Everything is going well. Lu Ming's strength is improving step by step. These are all forces that he has developed. He is under his control and listens to his orders.

In addition, there is good news.

That is the pantheon, breakthrough!

The original cultivation practice of the pantheon was at the peak of the **** king. During this time, he honed a bit outside and directly broke into the realm of **** king.

The original strength of the pantheon was terrifying, and now it has broken through to the realm of the gods, and I don't know how powerful it is.

"Ball, this guy, is about to evolve!"

In Long Huangcheng, a courtyard, Lu Ming looked at a huge metal ball in front of him and smiled.

After annihilating the four pirate regiments and conquering other governments, Lu Ming controlled too many resources. During this time, the best thing was the ball.

Eat all kinds of high-level artifacts.

As long as the ball is eaten, it can continue to evolve, but no, only a few years later, it will have to evolve again.

Half a month later, the metal ball exhaled a strong breath, and then wriggled, slowly shrinking in size.

The ball evolved successfully, and Xiuwei reached the seventh king of the god.

"I want to eat, I want to eat..."

The ball opened with a big mouth and stared at the land.

"You guys, sooner or later I will be eaten poor!"

Lu Ming laughed and scolded, and then waved his hand, a lot of artifacts flew to the ball.

All of them are above the seventh-order best artifact.

The ball immediately stretched out tentacles, grabbed these artifacts, chewed chewed, and ate with relish.

"You eat slowly, I'm going to practice!"

Lu Ming smiled, then came to practice under the original idol.

There are many figures sitting cross-legged around the primitive idols, and here they are enlightened.

Of course, not everyone can come to practice under the original idol. Lu Ming set the rules. Only those who have accumulated a certain amount of credit can come here to practice, and there is still a time limit.

This is to let his men work.

Otherwise, these people do not work here every day, what is the use of Lu Mingzhao these people?

Time rushed and another few years passed.

"My gun power has reached the peak of the second awakening, but unfortunately, I can't break through!"

Lu Ming ended his practice and frowned.

The effect of this primitive idol is indeed amazing. Lu Ming has been improving rapidly in recent years, but there have been no major breakthroughs.

For example, there is a new magical power to awaken the original mystery, or the breakthrough of the number of awakenings of the original power factor has not been done.

Nowadays, the eleven kinds of divine powers still have only three awakenings, and the other ten kinds of divine powers are still awakening twice.

However, the gun power of the Overlord has reached the limit of the second awakening, but it is too difficult to break through three times. Lu Ming has not been able to break through.

"It seems that we need to find a chance to hone up..."

Lu Ming pondered.

Since coming to the Tian Xing Xing Realm, Lu Ming rarely shot it himself, but gave it to him.

If you don't do it, you won't get discipline. For cultivation, you won't get a stimulating effect.

Lu Ming is the kind who prefers to fight and practice. Only during the fight and practice, his potential can be completely exploded. The safe and steady cultivation is not suitable for him.

He planned to practice for another period of time. If the overlord's gun power could not be broken, he went out to hone it.

However, a few days later, a news came and shocked many people.

Not long ago, the barbarians suddenly attacked, attacking the border of the Taixu Holy Pilgrimage.

This time, the barbarians gathered a large amount of military power to attack the mountains and rivers, and the Taixu Sheng Dynasty retreated on this side. Only half a month later, a star field was occupied by the barbarians.

Moreover, the offensive has not stopped.

This caused a shock to the high level of the Taixu Holy Cult.

At the border of Taixu Holy Dynasty, the major legions guarded against the dead, temporarily blocking the barbarians' offensive.

At the same time, the Military Aircraft Department ordered that the large and small forces in the various star areas along the border be summoned to the battlefield to fight against the barbarians together.

The sky mixed star field, which belongs to the star field at the border between the Taixu dynasty and the barbarians, is naturally within the convening.

The military aircraft department issued an order to send Lu Ming to send a large army to report to the Eighth Army.

"The battlefield? Exactly!"

Lu Ming whispered, his eyes bright.

He was about to go out to hone some things, and now he went to the battlefield, just as Lu Ming wanted.

Soon afterwards, Lu Ming took a group of people and headed towards the Eighth Army.

This time, Lu Ming brought dozens of powerful people in the Divine King Realm. As for the Divine King Realm, there were 5,000 people.

In addition, Wanshen and Lanshang followed Lu Ming together.

Qiuyue stayed in Qianlongxing for peace of mind.

Qiuyue's inheritance from God's Eyed Tianjun is exactly the opposite of Lu Ming's. He hardly needs to practice, as long as he can practice with peace of mind, he will be able to break through the barrier.

Chapter 3358: Barbarian Battleship

This time, Lu Ming did not bring the ape together.

The ape has been too strong, but it will bring people's attention, especially the Guoshi Mansion and the Prince.

There is another one, with the ape follower, wouldn't Lu Ming not get disciplined?

The border between Taixu Holy Dynasty and Barbarians has been fighting all year round, so Taixu Holy Dynasty has laid a heavy army here.

There are a total of thirteen legions, known as the thirteen army.

What Lu Ming was going to was the Eighth Legion of Extermination.

"It's spectacular!"

When they came to the headquarters of the Eighth Army of Ruman, Lu Ming was shocked.

In the starry sky, huge warships are suspended, and they can't be seen from the side. I don't know how many warships there are.

The point is, these warships are too huge.

In Liufeng Junhou Mansion, or the four pirate regiments, the largest warship is a million miles long.

But here, you can hardly see a million-mile-long battleship. The smallest ones are several million-mile-long.

It is even tens of millions of miles long, and there are even hundreds of millions of long warships.

Those millions of miles of warships, in front of such giants, are like ants in front of elephants.

Some of the largest warships are really equivalent to some small planets.

Countless such giants, suspended in the starry sky, converge into a breath of terror, and those who are not mentally strong will be suppressed by this breath from afar. Ten percent of their strength, I am afraid they will not play 20%.

"This is the Eighth Legion of Brutality, so horrible!"

Lu Ming secretly marveled.

The army he is now in control of, compared with the Eighth Army of Destruction, is entirely candlelight and Haoyue. It is totally incomparable, and the difference is too great.

In this army, I don't know how many strong men there are.

This is just the Eighth Army of the Barbarians, the border between the Taixu Holy Dynasty and the Barbarians, there are thirteen such troops.

One can imagine how terrifying the strength of the Taixu Holy pilgrimage.

"You are Qianlong Mansion, come with me!"

At this time, a group of sergeants wearing armor flew over.

Lu Ming nodded and followed the group of armored sergeants, came to a tens of millions of miles of warships, arranged a place for them.

"You rest here first, if you have a task, someone will notify you!"

Headed by an armored sergeant road.

"Thank you!"

Lu Ming clenched his fists.

Little Sergeant Sergeant, then left.

Next, they stayed here and waited quietly.

In a blink of an eye, a month passed. On this day, an iron sergeant came to inform Lu Ming that there was a mission.

Lu Ming followed the Sergeant Sergeant to a hall of a battleship of hundreds of millions of miles.

On both sides of the hall, there are tables and chairs.

It was already full of people.

At the top of the hall, there is a big armored man with a burly figure and a black horn in the center of his head.

"People are almost here. Let me introduce myself. My name is Xihuang, the current right-wing general of the Eighth Army!"

The burly man introduces himself.

Everyone was shocked, the right-wing general of the Eighth Army of the Extermination of the Barbarians. This identity is incredible. It can be said that it is the pinnacle of the Eighth Army of the Extermination of the Barbarians. His strength is absolutely unfathomable.

"Have seen the general!"

The people in the two rows of seats got up and saluted.

"You're welcome, sit down!"

Xi Huang raised his hand and everyone sat down.

"Everyone present here is the head of the various governments gathered this time. This time, I hope you will cooperate with us in fighting the Eighth Army!"

Xihuang Road.

"Sure!"

"General assured!"

Everyone spoke.

In normal times, the major clan houses on the border will send people to join the army to fight against the barbarians.

Not only can he hone himself, he can also accumulate credit and accomplish two things with one stone, so naturally no one will refuse.

This time, the governments also readily agreed.

"Okay, now talk about the mission!"

Speaking of which, Xi Huang took out a piece of jade rune. The jade rune glowed, and a huge pattern floated in the air.

The pattern is a starry sky, and huge warships appear in the starry sky.

These warships are slightly different in shape from the warships of the Taixu dynasty. They are engraved with pictures of wild beasts.

"Barbarian Battleship!"

Someone spoke.

"Yes, these barbarian warships, you should already know that some time ago the barbarians launched an offensive suddenly. Our side was caught off guard. They were retreating. A star field was already occupied by the barbarians. This barbarian warship is going to us. A field of stars, ready to attack, our next task is to eliminate this barbarian fleet!"

Xihuang Road.

"Is that kind of formation?"

At this moment, Lu Ming thought.

The Taixu Holy Pilgrimage estimates that a large number of arrays have been deployed in the cosmic starry sky at the border, which can project images in the starry sky.

Just like the formation of the blue merchants, several killers wanted to kill Lu Ming, they were observed in advance.

Obviously, the Taixu dynasty also deployed this formation in the starry sky. Otherwise, the universe's starry sky is too large. How to monitor the other party's actions? It is this method of formation.

"The fleet of barbarians is half a month away from the next star field. You will start today. I will send an army to support you. You must complete the mission!"

Xihuang Road.

"The general is assured that we will completely destroy this barbarian fleet!"

An old man said.

This old man is a monarch of the monarch's palace, with great strength.

"Okay, then you go back and prepare, and leave in three hours!"

Xihuang Road.

Lu Ming and others got up and went back to prepare.

Three hours later, in the starry sky outside the battleship, Lu Ming led his men and assembled with the army of various provinces.

"There is a wormhole here, so you can rush over and set off the fastest!"

Xihuang also sent an army to meet with them. The men and women of each province followed this army and came to a wormhole.

Through the wormhole, they also reached their destination very quickly.

In just two days, they came to the Devil's Star Field.

Demon Star Zone is the star zone that the barbarian will attack next.

Later, they came to the border of the Devil's Star field, lurking on a planet, waiting for the arrival of the barbarian fleet.

Ten days later...

Rumble!

In front, the barbarian fleet has been approaching.

The barbarian warships are also huge, the smallest, all of which are millions of miles long.

There are dozens of battleships coming towards this side.

"kill!"

With a loud roar, Lu Ming killed them and rushed towards the barbarian fleet.

"People from the Taixu dynasty, kill them!"

"attack!"

As soon as Lu Ming shot them, the barbarians spotted them, the battleship glowed, and then a terrible beam of light came at them.

These beams are extremely powerful, even if ordinary gods are hit, they are dangerous.

"Avoid!"

Lu Ming shouted, their figure kept flashing, changing their positions constantly, avoiding the beam attack.

Chapter 3359: Kill a battleship

Although the power of the battleship's attack is huge, the battleship itself is too huge, and flexibility is naturally impossible, and it will be easily avoided.

Lu Ming moved forward in a snake-like manner, constantly changing their positions, avoiding the attack of the warship.

They are scattered, and each team is eyeing a different battleship.

Soon after, Lu Ming and Panshen, as well as some of his masters, rushed to a tens of millions of miles long battleship.

Click!

When Lu Ming approached the battleship, many doors opened on the battleship, and the barbarian figure appeared.

"Kill them!"

The barbarians roared, rushed out, and called them to the landing to kill them.

"kill!"

Lu Ming shouted, led the way, and killed the barbarians.

On him, the ball turned into an armor covering him, making him stronger.

With a punch, lightning flashed out. Two barbarians were struck by lightning and turned into coke.

"The debris of the Taixu Holy Dawn, die for me!"

A barbarian with a height of more than three meters, a burly figure, and hair covered him, staring at Lu Ming, holding a battle axe and slamming towards the landing.

An axe came out, the void thundered, a huge axe slammed toward the landing, and the power was extremely terrifying.

This is a god!

The barbarian prince is terrifying and extremely belligerent.

However, the Winged Ape Warrior is better at fighting than him. On the side, a strong Winged Ape Warrior, holding an iron rod, killed him and killed him with this barbarian god.

At the same time, a figure flickered around Lu Ming, a pantheon.

He was very fast, rushing to the front and rushing towards a gate.

"Slain him!"

At least a dozen barbarian warriors stood in front of the pantheon, and various attacks attacked the pantheon.

However, the stone spear in the pantheon's hand was shocked, and these attacks were instantly destroyed. The stone spear kept on rolling over and over, and dozens of barbarians were instantly killed.

"Your opponent is me!"

Seeing this scene, a barbarian prince roared and killed towards the gods.

"dead!"

The gods spoke indifferently, the stone spear broke, and they pierced the barbarian prince.

puff!

The barbarian prince wanted to attack, but his attack was broken instantaneously, his eyebrows were penetrated, and he fell on the spot.

The other barbarians were horrified. A **** was directly killed by a second, which was terrifying.

"Great!"

Lu Ming also sighed.

All gods, just broke through the **** monarch soon, but the same level **** monarch in front of him, only the part of the second kill, no resistance at all.

All gods were like a sharp knife, and they passed through, and the warriors of the barbarian were continuously killed wherever they passed.

Soon, he killed the gate.

"Rush over!"

Lu Ming shouted and took the strong man under him to kill the past.

This time, he brought more than a dozen princes. This level of strength is comparable to that of some monarchs. In each of the coming palaces, the strength is considered superior.

A single tens of millions of miles long warship, although there are many masters, but they are too scattered, distributed all over the warship, can not gather together at once, this gives Lu Ming their chance.

They entered through the gate and killed them all the way, leaving a large number of corpses of barbarian warriors along the way.

In the end, the barbarians dared not resist, and all retreated, gathering all the barbarians in this battleship, ready to fight Lu Ming with them.

Other warships were also attacked, and fierce battles were taking place on dozens of warships.

Lu Ming killed them all the way and came to the control room of the battleship. This is a huge hall, tens of thousands of miles in length and width.

All the barbarians gathered here.

Lu Ming was attacked as soon as they came.

"Kill them all!"

The barbarians roared and rushed towards the landing Ming, the number of them was tens of thousands, ten times that of Lu Ming.

However, Lu Ming, without any fear, killed them directly.

The strong man of the Divine Monarch Realm rushes to the forefront and fights against the Divine Monarch of the Barbarians.

The existence of the Divine King Realm is fighting together.

Divine King vs Divine King, Divine King vs Divine King, divided into two battlefields, fierce battle.

"Long shots!"

Lu Ming took a sip and held a gun with a tyrant. After a shot, a long river of gunshots appeared and enveloped a group of barbarians. These barbarians screamed, their bodies were pierced by guns and fell on the spot.

In the blink of an eye, dozens of barbarians were killed by Lu Ming.

"court death!"

A burly barbarian, armed with a war knife, slammed towards the landing, slashed out, and the void shook like a wave of water.

This is a pinnacle god.

"Zhanzu..."

On the side, a strong man of the apes fighting cries exclaimed and wanted to rush over to help Lu Ming.

"To deal with your own enemy, I can deal with myself..."

Lu Ming took a sip and waved the Ba Shen Gun, triggering the four-fold combat power of the Zhanzi Jue and striking forward.

boom!

The two's attacks collided together, Lu Ming's body throbbed, his foot stepped into the void, and he stepped back several steps in a row.

The barbarians are infinitely powerful and extremely powerful. In a battle of the same level, barbarians often have the upper hand.

"Boy, die for me!"

The barbarian's pinnacle **** roared roaringly, wielding a war sword, and launched a stormy offensive to kill Lu Ming.

Lu Ming was fearless and faced up, striking the overlord gun to the extreme, fighting fiercely with the other party.

Of course, Lu Ming did not exert his full strength, such as various other original secret techniques, and did not show it. Lu Ming's purpose was to use the other party to hone himself and hone the king's gun power.

Moreover, the ball turned into armor and wrapped around Lu Ming. Lu Ming didn't need to consider his own defense at all, as long as he kept attacking.

The two fought fiercely, the battle was fiercely fierce, and in a flash, they fought dozens of moves.

"Right, that is it!"

Lu Ming became more and more courageous in battle, and his fighting intentions became stronger and stronger. He felt that his blood was boiling.

Lu Ming will feel this way only during the war.

And in this feeling, Lu Ming's comprehension of all kinds of magical skills will increase rapidly.

"Quick, fast!"

Lu Ming has a feeling that Bawang's gunpower is finally breaking through, and he is only close to the goal.

But at this moment, another strong man at the peak of God King killed Lu Ming.

The two barbarian strongmen joined forces to kill Lu Ming.

Because Lu Mingzhan's strength is too strong, only the God of God is fivefold. There is such a fighting power. There is no doubt that it is a terrible arrogance. The Taixu Shrine has such a arrogance. For the barbarians, it is a big one. Trouble, naturally want to get rid of.

"Then solve you guys!"

Lu Ming flashed cold light in his eyes, and there was dense lightning all over his body.

This is the lightning that the ball possesses. These lightnings converge towards the Ba Shen Gun, and as Lu Ming stabs out, the lightning bursts out and envelopes towards the two barbarians.

At the same time, Lu Ming's eyes turned into two rounds of vortex, which is Yin and Yang Shentong.

Infinite runes, turned into terrible silk thread, covering two barbarians.

The two barbarians roared and resisted with all their strength, but they still shivered.

Chapter 3360: Terrible pantheon

The ball now reaches the seventh level of the King of God, the kind of lightning is even more terrifying, and the King of the Peak will be numb if he is hit.

"Door Gate!"

Taking advantage of this opportunity, Lu Mingshi exhibited the door of dominance and killed one of the barbarians.

As for himself, the man and the gun were united into a dazzling lance, killing another barbarian.

puff!

The gunman directly penetrated the opponent's defense. The barbarian roared and evaded quickly, but still a step slower. The chest was stabbed by the gunman, and the hole penetrated a large hole, which was translucent.

Then, Lu Ming's left hand was like a knife, slashing out.

In this move, Lu Mingshi exhibited the Devil's golden body, and his palm was harder than the Divine Sword.

The palm was cut, blood flashed, and the head of the barbarian flew high.

A barbarian of the pinnacle of God King Realm fell.

On the other side, the Gate of Domination was suppressed, and the dizzy beat of the barbarian strongman turned, with Venus in his eyes.

Lu Ming rushed out, tearing his hands and killing the barbarian.

Around, many people were shocked.

The Nether Ape War Clan is better. After all, many people know that Lu Ming is a gifted person with unparalleled fighting power.

The most shocking are those who have just turned to Lu Ming for a short time. Before that, they had never seen Lu Ming do anything. They only knew that Lu Ming was standing behind a group of amazing apes.

Seeing Lu Ming's shot now is ten times more shocking than they saw the shot of the Ming Ape War Clan.

Because it is too strong, the **** king is only fivefold, but it can kill the peak **** king, they have never heard of it.

"I surrendered to him, perhaps the most correct choice in my life!"

Many people couldn't help thinking of such a thought.

"Damn, kill!"

The barbarians were also shocked and roared to kill Lu Ming.

"Your opponent is me!"

"kill!"

Nether Ape War Clan, and Lu Ming's men shouted, blocking those barbarians.

Although the number of people brought by Lu Ming this time is even smaller, they are all elites, all of whom are advanced.

Although the number is small, the overall combat strength is no weaker than the opponent.

The struggle between the two sides is inseparable.

"kill!"

Lu Ming entered the unmanned state and rushed to kill.

He has the ball to guard, he doesn't care about his defense at all, as long as he rushes to kill, he can attack.

Every time he rushed, several barbarians were killed by him.

Except for the pinnacle **** king, the barbarians below the **** king ninth level are not Lu Ming's enemies, and they are constantly being hunted.

Finally, Lu Ming exhibited the ancient armor of the blue armor, which turned into a kilometer high, and dozens of barbarians were killed after each punch.

Lu Ming is almost invincible in this battlefield under the Divine Monarch, and no one can stop it.

Soon after, the barbarians killed by Lu Ming alone reached thousands.

This alarmed those barbarian princes.

"Go and kill the kid!"

"This kid, **** it!"

Several roars sounded, and then a barbarian prince rushed out to kill Lu Ming.

However, a burly figure, standing in front of him, is a pantheon.

"Now, the warm-up is over!"

All God smiled, showing his white teeth, and then punched out.

The punch came out, and a door of dominance emerged, suppressing towards the other party.

"broken!"

The barbarian prince shouted and tried his best to resist, trying to open the door of domination.

However, everything was in vain. The door of the Lord suppressed it, and the barbarian prince screamed, and his body was torn apart.

After killing this monarch, the pantheon's figure flicked to the next monarch, Zhangkou Changxiao, a galaxy emerged and swept out.

The barbarian prince was drawn into it by the Milky Way, and even without screaming, he was killed.

"Three original secret techniques!"

"Monster, another monster!"

The barbarians couldn't be more shocked.

Before Lu Ming was scary enough, now a pantheon appeared, which was equally scary.

boom!

The Void Shock, an extremely burly barbarian, came from the foot of the Void, and the Void Shock rumbling.

"kill!"

This barbarian, with amazing strength, is actually a double existence of a god.

He shouted, and the tomahawk split towards the gods.

This axe is enough to kill an ordinary prince.

Divine monarch is double enough to kill Divine monarch once.

However, the gods did not let it go, holding the stone spear and facing up.

when!

The stone spear collided with the battle axe, and a horrible roar erupted, but the result was unexpected.

The pantheon was immobile, but the strong barbarian who was a double king of the prince's body retreated.

"how is this possible?"

The barbarian prince growled and his face was shocked.

Divine Monarch Realm, every gap is astonishingly big. One higher realm can easily kill the existence of lower one realm. If you want to fight across levels, it is as difficult as going to heaven.

But the strength of the pantheon is obviously above him.

"This is the Divine Monarch Double, but so, kill!"

The gods spoke indifferently, and the breath on his body became more violent, stepping out one step and killing the other.

One mouth, hanging the Milky Way to the other side, and at the same time, the door of the domination, also suppressed toward the other side.

The barbarian strongman was shocked, the axe danced wildly, and the airtightness of the wave was tight.

However, everything is in vain. When several primitive mysteries fall, the barbarian of the Divine Monarch's double screams and flesh and blood.

When the light dissipated, only half of the barbarian's body was left, and the other half had been blown to pieces.

A strong double hero, was almost killed.

Seeing this scene, those barbarian princes were terrified and trembling. This was seized by other strong men on Lu Ming's side and attacked continuously. Several barbarians were careless and seriously injured.

After killing the barbarians of the Divine Monarch, Pantheon kept on moving towards other barbarians.

With his strength, there is almost no unity of enemies, and every time he shoots, someone is killed.

There were more than a dozen princes of the barbarians. In a moment, five or six people were killed by the gods. The rest were surrounded by masters on Lu Ming's side.

"retreat!"

The barbarians are afraid. The leader of this warship is a powerful trio of princes. He used to fight against a triad prince tribe.

Among the strong men brought by Lu Ming this time, there is a triple-mongering ape warfare tribe of gods and kings. These are the eleven warlords from Lu Ming coming from Lu Ming.

The barbarian prince shouted and wanted to retreat.

However, All Gods stared at him and launched a fierce attack.

The result is amazing.

This barbarian actually lost, and was completely crushed by the gods.

Barely resisted dozens of tricks, was pierced by the pantheon stone spear, and killed here.

Others were shocked.

Lu Ming is also amazed that the strength of the pantheon is too perverted.

Only Lu Ming knows that Panshen hasn't used his full strength yet. If we only say that the original secret technique, Panshen has mastered at least a dozen kinds, it's not used.

Once used, it will be more terrible.
