

D Emperor 3361

Chapter 3361: Took one

The barbarian princes and kings were completely down, and even the chiefs were killed. The remaining barbarians had no morale at all.

"Retreat, retreat!"

"Go away!"

The rest of the barbarians were in chaos, some people were resisting, and some were already retreating. As a result, they were not even Lu Ming's opponents. They were beaten by Lu Ming.

And some of the princes under Lu Ming also pulled out and killed the barbarians under those princes.

The scene was completely one-sided. Although there were many barbarians, they were harvested like straw.

Massive masses of barbarians were beheaded.

The barbarians fled, and Lu Ming chased them crazy. Tens of millions of warships were fighting everywhere.

A few hours later, the battle on this battleship was over, and almost all the barbarians were killed.

Lu Ming returned to the control room.

"It would be nice if such a large battleship could be put away!"

Lu Ming muttered.

In his hands, the largest warship is only a million miles long, which is several grades worse than this type of warship.

Lu Ming looked at his heart, and according to the rules, he wanted to hand over this warship, but Lu Ming couldn't bear it.

It's a pity that this battleship is too big to hold such a battleship at all.

"Boy, the picture of Jingyu, which contains space, is huge. It is more than enough to put up a battleship of this size!"

At this moment, the bone demon sent a voice to Lu Ming.

"Jingyu Scroll!"

Lu Ming's eyes lit up.

"Then let's quit first!"

Lu Mingdao, then summoned everyone, withdrew from the battleship, and came outside the battleship.

Now, on other battleships, fighting continues, no one will notice here.

Lu Ming's thoughts moved, and the picture of Jingyu flew out, and a radiance filled out, covering the battleship, and then, an amazing scene appeared.

The originally huge battleship quickly shrank, and finally turned into a streamer, flying into the jade feather scroll.

Lu Ming's men were stunned again, and they felt that Lu Ming was really mysterious.

Of course, there was an expectation in their hearts.

The stronger and more mysterious Lu Ming is, the more promising it will be in the future. Since they have turned to Lu Ming, the stronger they are, the happier they are.

"Go, let's go to other warships to help!"

Lu Ming shouted and led the crowd to another tens of millions of warships.

Lu Ming will not attack those larger warships.

The larger the battleship, the stronger the master of the town. Even if there is a master of the gods, Lu Ming is not willing to take risks.

This battleship is still fighting.

It was a strong man in the monarch's palace who attacked the warship. They killed the central control room and were madly resisted by the barbarians. After fighting for several hours, they still did not win or lose.

"There are so many masters in this battleship!"

The prince of the princely palace shouted in his heart that he was the triple existence of the prince, but the other party also had the triple existence of the prince, blocking him.

The remaining barbarians are not weaker than the masters he brought. For a time, they fell into a hard fight.

After a few hours of war, both sides suffered great losses.

At this moment, Lu Ming killed him.

"who is it?"

Seeing someone killing, both the Junhou Mansion and the Barbarians were shocked, not knowing whether they were enemies or friends.

But soon, they saw Lu Ming and others.

The barbarians were shocked.

The man in the monarchy's house was first happy, and then sighed again.

"It turned out to be a man in the general's palace!"

The prince shook his head in his heart.

How many masters can there be in a general mansion, and there are two or three princes, are all terrible things, and will not play a big role in the overall situation.

Originally, he thought it was other monarch's palace, or the army of the Eighth Regiment.

"You contain them from the side!"

The monarch shouted and asked Lu Ming to restrain the barbarian from the side.

With Lu Ming's strength, it would be good to be able to contain it.

"Why bother so much, just destroy them!"

Lu Ming smiled.

"Destroy them? Young people don't underestimate the enemy, you are very strong, you have to suffer a big loss..."

The monarch quickly admonished, but he froze before he spoke.

Because Lu Ming had already killed them, and the breath he showed made him dumbfounded.

There are more than a dozen powerful monarchs in the realm, and the gods below the monarchs are also elite.

As soon as Lu Ming started their work, the barbarians were suppressed, especially the Pantheon, and they killed two barbarian gods in a row.

"Is this still the General's Palace..."

The monarch embarrassed circle, and then cheered up and led a fierce attack.

With the joining of Lu Ming, the outcome of the battle was already doomed. Not long after, the barbarians on this battleship were also annihilated.

"Unfortunately, someone is present, this battleship cannot be taken away!"

Lu Ming muttered.

"Little brother, thank you, don't know what to call?"

The monarch came over and thanked with a fist.

Now, he dare not despise Lu Ming because Lu Ming is the general's palace.

"Lu Ming!"

Lu Ming smiled.

"Lu Ming? Lu Ming, the Tanhua of the Royal Palace of Taixu!"

The monarch's eyes moved and blurted out, apparently hearing Lu Ming's name.

"Just the junior!"

Lu Ming smiled.

"It's really a hero who is a teenager, and the name of Hualang is well-deserved!"

The monarch marveled.

"The prince has won the prize, let's go out first!"

Lu Ming said.

Subsequently, they withdrew from the battleship.

As soon as they arrived outside the battleship, they heard a violent roar in the distance.

It was from the biggest warship.

In front of the battleship, the fire was soaring into the sky, and a huge gun rushed out of the battleship.

A battleship of hundreds of millions of miles has burst a large chunk.

boom!

Then, there was another big explosion in that area, the warships continued to burst, and the debris was scattered.

Later, Lu Ming saw that there were two figures in a fierce battle.

One is a general of the Eighth Army of Destruction, and the other is a burly barbarian.

The two are fighting, the starry sky is shaking, terrifying energy, filled the starry sky.

"What a terrible strength!"

Lu Ming's pupils contracted for a while.

The strength of these two men is extremely powerful and terrible, and their combat power is definitely far above the gods.

This is definitely a terrible existence of more than four levels of Divine Monarch.

Both are very fast, and in a flash, they fought dozens of moves.

However, the general of the Eighth Army of Destruction was still stronger.

In fact, this time they came to attack, there was a plan, and the people they came with were able to annihilate these barbarian fleets, otherwise they would not venture to attack.

The general of the Eighth Army of the Barbarians screamed, the starry sky shook, and the guns burst into the night, putting the barbarian strong down.

After a few more strokes, the barbarian was swept by the gun, half of his body exploded and his body receded.

Chapter 3362: Ten years, progress

The barbarian general was hit hard, and the general of the eighth army of barbarians launched a fierce attack without giving the other party a chance to breathe.

After a few more strokes, he finally bombarded the other party and killed him in the starry sky.

The barbarian general was killed.

Seeing this scene, Lu Ming knew that this battle had already been doomed.

"Let's go to other battleships!"

Immediately, Lu Ming led people to kill other warships.

Now is a good opportunity to get credit, not to be missed.

Then, they killed a larger warship, fighting with the barbarians inside.

Lu Ming has always been on the front line, specializing in finding the barbarians of the Peak God King Realm to fight and hone himself.

This battle did not last long.

As the barbarian general was destroyed, the general of the eighth army of barbarian army joined the battle, and the situation of the battle began to collapse.

After most of the day, they had gained an advantage on each warship, and many barbarians on the warships were almost destroyed.

Half a day later, the battles of the warships gradually subsided, the barbarians were destroyed, and the Taixu Holy Dynasty won a big victory.

"Okay, we won this battle!"

When the strongmen of the various provinces came together again, the general declared, but his eyes were like electricity, and then said:

"However, this is just the barbarian's first force. The big troops behind haven't arrived yet, but our army will soon come and will launch a total counterattack and regain the star field that was captured by the barbarian!"

The general announced.

After that, they took these warships and found a place to rest, waiting for the arrival of the followers.

More than ten days later, a large army of the Eighth Army of Destroyer came, and at the same time brought news that other legions of the Destroyer were also ready, and they will launch an attack soon.

Sure enough, a few days later, they launched an attack and attacked the star domain occupied by the barbarian.

The vast starry sky is full of wars and battles.

Lu Ming and them, following the Eighth Legion of the Barbarians, fighting with the barbarians, while accumulating war power, hone themselves.

This is a protracted battle, and it is impossible to win or lose soon.

In the following days, a war will break out every few months.

Time rushed, Lu Ming entered the battlefield for nearly ten years.

In the past ten years, Lu Ming has experienced dozens of battles.

Of course, there are losses, but the people who survived are elite, all have been tempered, and the will to fight the night.

In the battle of life and death, some people even made breakthroughs.

Some people have a breakthrough in their original divine power factor, while others have a breakthrough...

And Lu Ming's harvest is also great.

After continuous fighting and training, his overlord's gun power finally achieved a breakthrough and achieved three awakenings.

Not only that, but another kind of lunar divine power also broke through in one fell swoop and entered three awakenings.

Three consecutive awakenings of the two divine powers undoubtedly made Lu Ming's strength stronger.

Three awakenings are the basis for entering the Divine Monarch.

Countless people are trapped in the pinnacle **** king, that is, they have not awakened three times.

And Lu Ming, who is only the five kings of the Divine King, has already awakened three kinds of divine powers three times. If these peak Divine Kings know, their envious eyes will turn red.

Of course, the most advanced is the pantheon.

Pantheon, the potential is endless, he is making progress every day in the fight.

His strength is getting stronger and stronger, and the power of various secret techniques is also getting stronger.

Even, his cultivation practice broke through the first level, and stepped into the second level of Divine Monarch.

This speed will scare people.

You should know that it didn't take long for Pantheon to break through the weight of the Divine Monarch, and it broke through the weight only after more than ten years. Such a speed is incredible.

After ten years of fighting, the Taixu dynasty invested a lot of troops and finally took the upper hand. It recaptured the star field that was previously taken by the barbarian.

However, the Taixu dynasty did not intend to forget it.

They are increasing their troops, preparing to counterattack, attacking the territories of the barbarians, and giving each other a lesson.

...

On a resource planet, Lu Ming is temporarily stationed here, waiting to be dispatched.

"The sun's power is still worse!"

Lu Ming's disk sits on a piece of high and low. In the sky, a huge star is suspended, a ray of light scattered, converging toward the landing Ming, and absorbed by Lu Ming.

This is the energy of the star. From the most yang to the most powerful, Lu Ming is using the energy of the star to understand the divine power of the sun.

Taiyin's divine power has been awakened three times, but the sun's divine power is still one step away. Lu Ming wants to see through as soon as possible. In this way, the original mysteries corresponding to these two divine powers can burst out the strongest power.

Just when Lu Ming was seriously enlightened, he received a voice from Lan Shang.

General, please!

Lu Ming moved his body and returned to the camp, where he saw a great man in armor.

"Lu Ming, General invites you to discuss!"

Warrior Dahan Road.

"it is good!"

Lu Ming nodded and doubted that he was there.

It is normal for the generals of the Barbarians to ask them to discuss matters.

Lu Ming followed the Iron Man and flew outward.

But after flying for a while, Lu Ming felt something was wrong.

Because the place where they traveled is getting more and more desolate.

"General's barracks, it seems not in this direction?"

Lu Ming stopped and asked coldly.

"This time the general is not calling you in the barracks, but elsewhere!"

Iron Armor Dahan Road.

"is it?"

Lu Ming whispered, a flash of cold light flashed in his eyes, his body suddenly burst out, rushed towards the armored man, and screamed angrily: "Who the **** are you?"

boom!

With a big hand, he grabbed the iron armor.

The armored man was startled, screamed, and his breath exploded.

This armored man has the cultivation of the pinnacle **** king, but it is not Lu Ming's opponent at all. The two battled each other, and the armored man shook his body, backed up again and again, crashing a mountain.

"Who sent you, say!"

Lu Ming drank coldly.

"I think you misunderstood, it was really the general who sent me to find you!"

The armored man is still hard-mouthed, but his figure is continuously receding, trying to distance himself from Lu Ming.

"Dare to quibble, then only take you down and confront the general!"

Lu Ming drank coldly, his foot stepped on the ground suddenly, and the ground exploded. Lu Ming, like a Kunpeng, rushed towards the armored man. The speed was extremely alarming, and he quickly caught up with the armored man.

The armored man in desperation tried his best to confront Lu Ming.

But now Lu Ming is a bit stronger than ten years ago, and the general Peak King is not his opponent at all.

The two collided several times in a row, and the armored man flew out of the body, breaking several mountains and coughing up blood.

"Say, did you come here?"

Lu Ming stepped on the void and stood above the armored man, speaking indifferently.

"I..."

The armored man opened his mouth to speak, and suddenly, in the sky, a sword light burst out and cut towards the armored man.

Quickly, the extreme sword light is coming!

Chapter 3363: Scary killer

A sword light, quickly unimaginable, cut towards the armored man.

Like a fairy in the sky, it illuminates the earth.

"you..."

The armored man showed a terrified look, just about to shout, Jianguang arrived.

Poof!

The whole armored man was split in half.

Then, in the sky, a figure wrapped in black robe stepped down.

The man was wrapped in a black robe, and a strange energy enveloped his whole body, making Lu Ming completely unable to see through the other person's appearance. Even the spiritual knowledge was difficult to penetrate.

"who are you?"

Lu Ming narrowed his eyes and stared at each other, making a defensive posture.

Although the other party killed the Iron Man, Lu Ming would not think that the other party was here to help him.

Because, Lu Ming clearly felt that the opponent's body exuded a faint killing opportunity, which was obviously aimed at him.

"The one who killed you!"

The black robe spoke, and his voice was hoarse and unpleasant, like metal friction.

Keng!

The other party's voice just fell, and the sound of the sword rang through the sky, and a terrible light of sword slashed toward the landing.

Facing this sword light, Lu Ming instinctively produced a strong sense of crisis.

"Passionate Gun!"

Lu Ming exhibited a tyrant gun and stabbed it. A huge **** of war appeared in the sky, holding a lance and assassinating forward.

However, after Jianguang cut through, a harsh voice broke out, and the God of War condensed by Lu Ming was actually defeated and cut in half.

"kill!"

An indifferent voice sounded, and the figure of the black robe flickered, and he didn't see how he moved. It flickered twice, and came to Lu Ming. The sword light was like electricity, and he slashed at Landing Ming's brow.

Quick, ruthless, accurate!

The power is terrible, and a layer of goose bumps appears on Lu Ming's body.

"Door Gate!"

Lu Ming growled, and the door of the Lord emerged, blocking him.

when!

Jianguang cut the door of the ruler, causing the door of the ruler to shake violently, as if to collapse.

At the same time, a terrifying force acted on Lu Ming, and Lu Ming's body shook and quickly backed away.

"What a terrible strength!"

Lu Ming pressed down the tumbling qi and blood, and was shocked.

The strength of this black robe is terrible.

It's not how high the other's cultivation practice is. Lu Ming can clearly feel that the other party is not the cultivation of Divine King Realm, but the Divine King Realm.

Not even the pinnacle king, but a lower level.

However, the other party seems to be deliberately hiding the cultivation behavior, and has performed some mysterious technique. His body is covered with a mysterious breath. It is difficult for Lu Ming to accurately judge the cultivation behavior of the other party.

But this is definitely a terrible character.

When Lu Ming retreated, the other party continued to attack, with terrifying sword lights, and slammed towards the landing.

Each sword light is comparable to the full blow of the peak **** king.

Lu Ming did not dare to carelessly, exhibited the ancient **** body, the body suddenly became larger, and turned into a blue armor ancient god.

boom!

As Lu Ming stepped, he waved the Ba Shen Gun in one hand, and a river of gunshots appeared. He wanted to envelope the opponent.

Simultaneously control the door of the ruler and suppress down towards the opponent.

Moreover, at the same time as these attacks broke out, Lu Ming also exhibited the mysterious technique of Yin Yang Shen Tong.

In the sky, two rounds of whirlpools suddenly appeared, one round to the cold, and one round to the hot, all exploding devastating attacks, killing the black robe.

Lu Ming's shot was a stormy attack.

Once such an attack comes out, even a peak **** king will be beheaded.

On time, the robe in black roared with a loud roar, and the sword light soared into the sky. He seemed to turn into a sharp sword, as if he could break through the universe and cut off the starry sky.

The sword light skyrocketed, splitting the long rifle like a galaxy into two halves, then struck the door of the ruler horizontally, flew out the door of the ruler, and a deep sword wound appeared on it.

Finally, the destructive power that burst out with the Yin and Yang **** pupils, constantly collided, and inspired the sky.

Countless energies bombarded the earth, and this resource star exploded, and the ground burst continuously, and magma soared into the sky.

In this way, it won't take long for this huge resource planet to be destroyed in the battle between the two.

"what happened?"

The war here has alarmed the military camp on the resource planet. Many people looked at this place and thought they had been attacked by barbarians.

Although the resource planet is very large, tens of thousands of times larger than many small thousand worlds, but reaching their level, the wars are too dynamic, colliding with each other, the entire planet is shaking, and will enter destruction, even on the other end of the planet People can feel it clearly.

"Kill the Sword!"

It seems to know that the people in the barracks were disturbed, and the black robe used a trick. Immediately, a few horrible sword lights burst into the sky and broke through the starry sky.

Every sword light contains a terrifying killing opportunity. This is a sword of killing, powerful and terrifying.

Jianguang enveloped Lu Ming from different directions. Obviously, the other party must resolve Lu Ming before the men in the barracks came.

boom!

At this moment, a more terrifying breath erupted in Lu Ming's body, and the majestic power was like the sea.

Battle word tactics, five times the combat power!

From the beginning just now, Lu Ming has been constantly triggering the war character tactics, and finally successfully triggered the war character tactics five times the combat power.

Five times the combat power, plus the ancient blue armor, made Lu Ming's power extremely powerful.

boom!

The Overlord Gun swept across, the void exploded, and brought a violent airflow, rolling in all directions.

boom! boom! boom!

The Overlord Gun collided with the Sword of Slaughter, and a terrible roar erupted. The planet continued to explode, and the entire resource star burst directly.

Lu Ming and the black robe were rising into the sky, rushing into space and facing each other.

In the distance, a rainbow of light rushed towards this side at an alarming speed.

"This time, you are lucky!"

The hoarse voice of the black robe sounded, and then turned into a sword light, flashing in shape, disappearing without a trace.

The black robe had just left, and several big men in armor flew over and stood in the void, glancing like electricity.

This is the powerhouse of the Eighth Army of the Exterminator. On this resource star, besides Lu Ming, there are other clan houses and the army of the Eighth Army of Extermination.

"General Qianlong? What happened just now?"

An armored man recognized Lu Ming.

Lu Ming is the head of a general's palace, which can be called the head of the palace or the general.

"Someone just attacked me!"

Lu Ming said.

"Someone attacked you? Barbarians?"

Iron Armor Dahan Road.

"I don't know, the other party is dressed in black robes and can't see clearly, but it should not be a barbarian!"

Lu Ming said.

"Not a barbarian?"

Several armored generals turned their eyes and murmured.

Not a barbarian, is it Lu Ming's enemy, if so, they are not easy to intervene.

"So, we will send someone to investigate immediately, General Qianlong, you go back to the barracks first!"

An iron armor Dahan Road.

"Then a few troublesome!"

Lu Ming nodded and flew towards his barracks.

Chapter 3364: Lu Ming's speculation

Lu Ming flew to the barracks, frowning and locking, he was guessing, who is that black robe? Or, who sent it.

"Is it the crown prince, or was it sent by the state teacher?"

Lu Ming thought, but it didn't feel like it.

If it is a prince or a national division, I am afraid that a strong person in the Divine Monarch Realm will be sent directly to kill him, but the man in the black robe before is obviously not a Divine Monarch, but a Divine King, but the strength is amazing.

This is a peerless genius with terrible fighting power.

"Boy, the other party has the ancient characters!"

At this moment, the voice of the measuring word sounded from Lu Ming's knowledge of the sea.

"What? Have ancient characters?"

Lu Ming was shocked.

"Yes, although in the previous war, the other party did not use the ancient ancient characters, but there is still a little fluctuation, I found out!"

Measure the word.

"The original ancient characters, is it him!"

A ray of fine light flashed in Lu Ming's eyes.

In the Taixu dynasty, there are only one person who has the original ancient characters, and one Emperor Sword!

Lu Ming thought more and more likely.

In the previous war, the other party seemed to be deliberately hiding, and did not display the original secret technique, which was obviously afraid of being recognized by Lu Ming.

So to speak, we should know Lu Ming.

Moreover, among the heavenly arrogance Lu Ming knew, cultivation under the divine monarch, with such terrifying strength, is only possible with Emperor Sword.

Because Emperor Jianyi has always been mysterious, and Lu Ming has never seen Emperor Jianyi use his full strength.

"Emperor Jianyi, why kill me?"

Lu Ming frowned.

"I guess, he guessed you have ancient characters on your body!"

Measure the word.

"Guess I have ancient characters on my body?"

Lu Ming's eyes narrowed.

"Yes, although the other ancient Chinese characters are not as sensitive as I can feel, but the ancient Chinese characters still have some characteristics, such as the war character tactics, which can continuously explode multiple times of combat power, such as the old lady, I can store a lot of Divine power, infinite power!"

"The other party has the ancient characters of the original source, knowing the characteristics of some other ancient characters of the original source, it is not difficult to guess!"

Measure the word.

"It turns out so!"

Lu Ming suddenly.

He had many wars, especially when the Taixu Royal Sanctuary was convened. He manipulated the war word tactics and measuring word tactics many times. These were all seen by Emperor Jian.

Through these observations, perhaps Emperor Jianyi had already guessed that Lu Ming had the original ancient characters, so he would want to kill him and seize the original ancient characters on his body.

That being said, it makes sense.

Emperor Jian guessed that Lu Ming might have the original ancient characters on his body and wanted to seize it, so he bought the iron-clad big man before and tricked Lu Ming out to kill Lu Ming alone.

Because Lu Ming stayed in the military camp, or in Qianlong Mansion, there were too many masters around him, and the opponent could not start.

However, the other party was afraid that Lu Ming could not be killed, so he concealed his identity, the ancient characters of the original source did not dare to move, and the original secret technique was not used.

But after all, the other party made a mistake. I didn't know that Lu Ming had the quantification formula. Even if the other party didn't urge the ancient Chinese characters, it was still felt by the quantization formula.

"Emperor Sword One!"

The cold light flashed in Lu Ming's eyes.

"Since you want to seize my ancient characters, then the ancient characters on your body are mine!"

Lu Ming whispered, killing cold.

But despite this thought, Lu Ming did not dare to look down on Emperor Jianyi.

The strength of Emperor Jianyi really shocked Lu Ming and was unfathomable.

It was deliberately hidden before, and most of them did not show their full strength, which was so terrible. If they show their full strength, I don't know how amazing it should be.

However, Lu Ming speculated that Emperor Jianyi's cultivation should be above him.

If he is at the same level, he does not believe that the other party has such a terrible combat power, which is too unnatural.

Thinking about it, Lu Ming has returned to the barracks.

"Lu Ming, what's going on?"

As soon as Lu Ming came back, Lan Shang and others greeted him and asked worriedly.

"Nothing, just a barbarian spy, who has been killed!"

Lu Ming randomly found a reason, so as not to worry about the blue businessmen.

After that, the savage army mobilized to find the man in black robe, but it turned out to be nothing.

This is within Lu Ming's expectation. Since the other party is Emperor Jianyi, how could it be possible to find out that the other party is now estimated to be free in the army.

Sure enough, after a period of time, there was no result found, so it was impossible.

In the starry sky, large battleships are suspended, very spectacular.

Here, is the right wing army of the Eighth Army of Destruction, led by Xihuang.

On this day, an uninvited guest came from the battleship of Xihuang.

"Brother Wu is not enjoying the blessings of the State Teacher's Mansion, how come he came to my border?"

Xi Huang gave a fist a slight fist to an old man.

This old man, who is the cousin of the current state teacher, named Wu Yan, is an important figure in the state division. Even as a border general, he must be polite.

"The National Division has something to ask the army to help!"

Wu Yan smiled.

"The National Teacher has something to do, I will do my best, I don't know what it is?"

Xi Huang asked curiously.

"Now, General Qianlong's Mansion in Tianxianxing Realm, should it be under the general's rule?"

Wuyan Road.

"Good, is this matter related to General Qianlong Mansion?"

Xi Huang asked.

"Yes, Lu Ming, Qianlong Mansion, has a big feud with the national division. The national division wants to find an opportunity to get rid of Lu Ming. These small things, can't help the general?"

Wuyan Road.

"Remove Lu Ming!"

Xi Huang's face changed a little, and he was dignified, saying, "This kind of thing is not easy to handle..."

"General, rest assured, the national division will not forget you, if you have any requirements, just mention it!"

Would Wu Yan not know Xi Xihuang's thoughts, and immediately gave Wu Yan a peace of mind.

"Hahaha, since the national teacher is so refreshing and good, then I will definitely help the national teacher!"

Xi Huang laughed.

There is a Lu Ming in every area. In this border war, he can have dozens of ways to rectify Lu Ming casually, and he can also conquer the national division. Why not do it?

"The general is refreshing, then I will go back and wait for the good news of the general!"

Wu Yan smiled, got up and clenched his fists, and then left.

"Lu Ming, if you offended the master of the country, don't blame me. Come, call Lu Ming from Qianlong Mansion!"

Immediately, Xi Huang ordered people to call Lu Ming.

Lu Ming was cultivating, and was surprised when he heard someone coming to invite him again.

However, after seeing the person coming, Lu Ming didn't think much, because this person he knew was a guard of Xihuang, and should not be bought by others.

Lu Ming followed this person to a hall.

Xihuang sits high on the seat, and there are several people on both sides.

"Have seen the general!"

Lu Ming clenched his fists.

"Lu Ming, this time there is an important task for you!"

Xihuang Road.

"General, please!"

Lu Ming said.

"it is good!"

Xi Huang nodded, and then waved his hand, a pattern appeared in the sky, and a huge planet appeared on the pattern.

Chapter 3365: Bait

"Rainbow Star, this is a huge resource star, and it is also an important way. It needs someone to guard. Now this general will hand this task to you Qianlong Mansion, you Qianlong Mansion, go to guard here for ten years, how? "

Xi Huang pointed to the planetary road in the pattern.

"Keep the planet?"

Lu Ming was slightly surprised.

Now that he is in war, let him go to guard for a week, won't he get no credit.

Fortunately, it was only ten years. It wasn't too long. In a blink of an eye, Lu Ming didn't care too much. He nodded and said, "Okay, when are we going?"

"You can start tomorrow!"

Xihuang Road.

Lu Ming nodded and then left.

"General, let Qianlong Mansion go to guard this rainbow star, is this appropriate? You know, rainbow star has a wormhole entrance."

After Lu Ming left, there was a doubt on the edge of Xi Huang.

"Yes, at the entrance of the wormhole, the barbarians have always been thinking about attacking. There is a Qianlong Mansion in every area. I am afraid that they can't hold it at all. When they go, they will die!"

Another humane.

"I naturally know that after the people of Qianlong Mansion pass by, we will lay down heavy soldiers in the darkness of the nearby starry sky. When the barbarians arrive, they will be wiped out!"

Xi Huang smiled.

"The other end of the wormhole is in the barbarian territory, and this one, in our territory, the barbarian is afraid that our side will be guarded by heavy soldiers. They dare not send people directly across the wormhole, and our side does not dare to send people through the wormhole. Go to the other side and be afraid of each other!"

"The barbarians want to attack our side and eagerly want to occupy this wormhole. They will definitely send a strong military force. Those people in Qianlong Mansion are absolutely impossible to block. Is it not a dead end?"

Xihuang has a heart and soul.

"If you want to kill the barbarian, a little sacrifice is naturally inevitable. The Qianlong Mansion, which is the bait I put out, attracts barbarian masters!"

Here are the confidants of Xihuang, Xihuang didn't hide, and bluntly stated his purpose.

He let Lu Ming go to guard this planet is false, let Lu Ming go to bait, to die.

In this way, not only can he help the national teacher solve Lu Ming, but he can also lure a group of barbarians, get credit, and get two results at once.

"General wise!"

A few confidants started flattering.

After Lu Ming returned to the station, he ordered this task to continue. The next day, they started to go to Rainbow Star.

Rushing through the wormhole, the speed is very fast, a few days later, they came to the rainbow star.

The rainbow star is very huge. It is named after producing a rainbow fruit.

"Master Lu Mingfu, I will hand it over to you later!"

On the Rainbow Star, there was originally a team of guards. At this time, the leader of this team transferred the guarding power to Lu Ming.

And this man left the place.

After Lu Ming took over here, he began to arrange it.

First, it is necessary to explore every place on the planet so that it can be conveniently arranged.

Also, this is the defense of the planet.

This planet was originally equipped with a large defensive array that could defend the entire planet.

However, after investigating the Blue Merchants, they felt that this large formation was not perfect enough. In the following time, the Blue Merchants took a few people who were proficient in the formation methods to concentrate on perfecting this large formation.

Lu Ming led the army and was stationed in a valley.

Time passed day by day, and a few months passed, and the entire rainbow star was also explored by them.

"Lu Ming, I found something!"

On this day, the blue merchant suddenly sent a message to Lu Ming, saying that he had discovered a strange place.

Lu Ming immediately hurried over and saw the blue business.

"Uncle Lan, what did you find?"

Lu Ming asked.

"Lu Ming, look at this lake..."

Lan Shang pointed to a lake in front and let Lu Ming look at it.

Lu Ming looked forward. The lake in front was thousands of miles long and the water was clear. Lu Ming looked at it halfway, but couldn't see the slightest difference.

"Uncle Lan, what's so strange about this lake?"

Lu Ming asked.

"This lake has been laid out in a large formation, a very strong hidden formation, it seems to be hiding something. If I have not been perfecting the defense of the planet, I will check it step by step, I am afraid I can't easily find it!"

Blue Business Road.

"Hidden big formation?"

Lu Ming was a little puzzled. According to Xihuang, this is just an ordinary resource planet. Why did it hide a large formation and hide?

"Blue Merchant, can you break it?"

Lu Ming said.

"Yes, but it will take a while!"

Blue Business Road.

"Okay, let's get started!"

Lu Ming nodded.

Later, Lan Shang stepped out, suspended above the lake, the power of his brow soul jumped, shining a ray of brilliance, his hands waved quickly, a rune came out, and fell on the lake.

The lake suddenly filled with glory, and a rune emerged, forming a formation.

Here, there really is a big hidden.

Immediately, Lu Ming sent a voice to Wanshen and others, and soon, Wanshen came with a group of masters.

Lu Ming called a group of masters, just in case, I don't know what is hidden here.

Blue Merchant's formation skills are very strong, but the star core is abolished, leaving only the power of the soul. It is more difficult to crack the formation. It took more than two months to break the hidden formation on the lake.

As soon as the array was broken, a beam of light rose into the sky, and then the water of the lake began to rotate rapidly, forming a vortex.

The water of the lake flowed into this vortex, disappearing without a trace, leaving only a dark cave.

"This hole**, what is hiding?"

Lu Ming frowned, not knowing why, he had a bad feeling.

Originally I heard that it was just an ordinary resource planet, but here, there was a hidden large formation. Under the large formation, there was a cave, which was inconsistent with the news he knew.

Finally, Lu Ming decided to take a look.

He took the pantheon, and several **** aristocrats of the apes and warlords, and flew towards the cave together with the blue merchant.

They slowed down, not daring too fast, for fear of danger.

The cave was deep. They went all the way down and flew to a depth of about tens of thousands of miles, and then the cave went forward parallel.

It was very calm along the way, without any danger or encountering any creature.

They flew along the passage for another period of time. At the end of the passage, a huge underground space appeared.

In front, the space is constantly distorted and waved like a lake.

In the twisted space, there is a huge cave, do not know where to lead!

"This is... Wormhole!"

Lu Ming was taken aback.

He recognized at a glance that this was a wormhole.

Here, there is actually a wormhole.

In the Taixu pilgrimage, each wormhole is very precious, because through the wormhole, you can instantly go from this star field to another star field, which is a very precious resource.

Every wormhole must be guarded by heavy soldiers.

But here, why is no one guarding?

Chapter 3366: out on a limb

It can be seen from the previous hidden array method that it has been discovered by people long ago, and it is impossible that it has not been discovered by others.

But here, no one is guarding.

"There is actually a wormhole here, and it is also hidden by the hidden formation method. It seems that we are afraid that this is not right..."

Lan Shang's brows were tight and he had a bad hunch.

"Let's go out and talk!"

Lu Ming immediately.

He felt that this matter was not easy. He had to go out and call the convener to discuss it.

at this time...

Rumble!

There was a rumbling noise outside, and the ground was shaking violently.

"No, there is a war outside, go out!"

Lu Ming shouted.

They unfolded at full speed and rushed towards the outside. They hurried at full speed. The speed was too fast. After a few breaths, they rushed out of here and came to the ground.

Rumble!

A deafening voice came out of the sky.

At this moment, the rainbow star radiates dazzling light everywhere, forming a huge light mask, covering the entire planet in it.

This is a defensive array of the planet. After the improvement of the blue business, the defensive power has improved a lot.

Lu Ming saw that a burly figure appeared outside the mask.

Every figure exudes a terrifying atmosphere, which is extremely domineering.

These figures are attacking the defense of the planet.

"Barbarians!"

Lu Ming and others were shocked.

These figures are all barbarians, and they are everywhere outside the starry sky. I don't know how many barbarians there are.

Moreover, the breath of some barbarians is too terrifying. The breath of the starry sky trembles only by the breath.

"What a horrible practice!"

Lu Ming and others looked extremely ugly.

The cultivation of some barbarians is terrible, even if they are far apart, they can feel the terrible pressure.

That is definitely the existence of the Divine Monarch more than fourfold, how high it is, I can't feel it at all.

"go!"

Lu Ming broke out at full speed and rushed to the station.

At the moment, Lu Ming brought about 5,000 men and looked at the sky pale.

The strength of these barbarians is too strong to be able to fight against them. I am afraid that they will be crushed in a flash.

"Quick, break through the planetary defense formation, this wormhole is ours!"

Outside the sky, there were barbarians shouting.

boom! boom! ...

More barbarians have joined the attack, and a terrifying attack has landed on the mask formed by the star formation, causing the mask to continue to vibrate.

In this way, it won't take long for the defensive battle to be broken.

This is the reason why Blue Merchants has been perfecting and strengthening this time, otherwise, it may have been broken.

"Wormhole, actually for the wormhole!"

Lu Ming's face was extremely ugly.

"Lu Ming, we won the prize and became the victim..."

Lan Shang said solemnly.

"Rhinoceros..."

Lu Ming growled.

In Lu Ming's mind, as soon as Lan Shang said, Lu Ming completely wanted to understand.

He was pitted by rhinoceros.

Before, there was someone guarding here, and a hidden formation was set up. Xihuang definitely knew that there was a wormhole here, and most of them knew that the barbarians coveted this wormhole, but they also sent him here. This is to let him die.

"There must be someone else intervening behind..."

Lu Ming gritted his teeth.

He did not offend Xi Huang, why should Xi Huang kill him? Must be instructed by others.

Lu Ming estimated that either the prince or the master of the country!

As for Emperor Jianyi, or other forces, there is not so much energy that can make Xihuang work.

Rumble!

The vibration in the sky was even stronger, and a large burst of shaking continued.

"Break me!"

A barbarian strong man shouted and his voice shook the starry sky. This is an extremely terrible existence, and the cultivation base is definitely above the four levels of Divine Monarch.

He held a battle axe, and an axe came out, splitting on the mask.

The mask shook wildly and was cracked.

"Master, what should I do now?"

Many people asked Lu Ming, his face pale, with a look of horror.

When the large formation broke open, the barbarian army was killed, and there was only one way to wait for them.

"Go to the wormhole, enter the wormhole..."

Lu Ming shouted.

Today's plan, there is no way but to fight.

The starry sky of the entire planet is surrounded by barbarians, and it is impossible to rush out.

And the opponent's strong men are too terrifying. I am afraid that some strong men will kill them all with a slap and rush out without a chance.

Charge towards the wormhole, there may be a little chance.

Because, Lu Ming does not know where this wormhole leads, what if it leads to other places of the Taixu Holy Pilgrimage? Then they are safe.

From this point of view, it is still possible to hide the large array under the cloth and hide the wormhole.

But this time, Lu Ming was wrong.

The Xihuang people let people hide in a large array, not because the wormhole leads to other places of the Taixu pilgrimage, fearing that Lu Ming will have a way back.

It was because he was afraid that Lu Ming would find the wormhole and become suspicious and left Rainbow Star early.

"go!"

Lu Ming shouted and rushed towards the wormhole with his men.

Fortunately, the place where they are stationed, not far from the wormhole, are all powerful in the **** king realm, how fast is it, a few flashes, they came to the place of the wormhole.

Click, click!

At this moment, there are more and more cracks on the mask, dense and dense, covered with sky, and the defense is in a big formation, and it will soon be broken.

"go!"

Lu Ming didn't hesitate, rushed into the cave directly, and soon came to the entrance of the wormhole.

"Go in!"

Lu Ming went in first, and others followed, rushing into the wormhole and disappeared.

Just a few breathes after Lu Ming entered the wormhole, Rainbow Star's defense burst completely.

As soon as the defense was broken, the dense barbarians rushed down.

Uh! Uh! ...

A large group of barbarians came to the entrance outside the wormhole.

"Those ants, rushed into the wormhole, shall we chase?"

There are barbarians speaking.

"No need to chase, they entered the wormhole, and they also died. Next, we have to guard the entrance of this wormhole. It is estimated that someone from the Taixu Holy Dynasty will attack here!"

A barbarian leader spoke coldly, his eyes flashing coldly.

On the other side, but the road leading to the barbarian territory, rushing into the wormhole, there is only one dead path.

In the distant starry sky of the rainbow star, the rhinoceros stands in the starry sky, standing on the negative hand.

His eyes flickered, as if looking through the distant starry sky, and looking above the rainbow star.

"Have you finally done it? Lu Ming, you go, I will avenge you!"

Xi Huang spoke lightly, with a cold smile on the corner of his mouth.

Then, a series of runes appeared on his body, and he disappeared here in the next moment.

Soon after, huge warships appeared from all directions and rushed towards the rainbow star.

Rainbow Star suddenly broke out.

But all this has nothing to do with Lu Ming.

Chapter 3367: In a desperate situation

After Lu Ming entered the wormhole, in an instant, they seemed to have crossed an infinite distance.

The next moment, they appeared on a flat ground.

Behind them is also an entrance to a wormhole.

"where is this place?"

Lu Ming looked around and looked around.

In front, there is a towering mountain, blocking the view.

Here, they seemed to be a mountain ridge, surrounded by mountains, but did not see a figure.

"Here, is it really a place of Taixu Holy Pilgrimage?"

Lu Ming was very happy.

But at this moment, Le Ji was sad and the sudden changes occurred.

Behind them, the entrance to the wormhole suddenly filled with infinite runes. These runes formed a large formation, completely sealing the entrance to the wormhole.

"what happened?"

Many people under Lu Ming were shocked.

"Hahaha, finally the debris of the Taixu Holy Dynasty came over!"

There was a loud laughter in the distant mountains.

Then, a powerful breath erupted, forming a strong pressure, and they screamed at the landing.

Then, a burly figure rushed out of the mountains.

"Barbarians..."

Someone roared, full of despair.

The barbarians appeared in all directions. Obviously, the side of the wormhole did not lead to the Taixu pilgrimage at all, but within the territory of the barbarians.

They came to the barbarian's den.

"Damn!"

Lu Ming shouted, his face extremely ugly.

This time, it was really miserable and stepped into a desperate situation.

The wormhole behind him was blocked by a large formation and there was no escape route.

Moreover, even if you can retreat and return to the rainbow star, that is a dead end.

"Unfortunately, there are only a few miscellaneous fish, and no big fish!"

A barbarian glanced at Lu Ming and others, then sighed, revealing a pity.

The cultivation behavior of these people Lu Ming is indeed not high. One of the strongest aristocratic warfare tribes is also the threefold cultivation practice of Shenjun.

Not in the eyes of these barbarians.

These barbarians did not rush to attack. They looked at Lu Ming like cats and mice.

"It is indeed a few fishes. Quickly shoot, kill them, open the formation, maybe some fishes may come!"

There are barbarians speaking coldly.

"How to kill the chickens with a slaughter knife. How many of these miscellaneous fish will be handed over to my ministry?"

A square-faced barbarian said, with a murderous flash in his eyes.

"Also, you can take your people and destroy them!"

"We're also good at watching movies!"

Other barbarians are sneering.

The barbarians here are also divided into different armies.

"Well, brothers, follow me and destroy them!"

Fang face barbarian shouted, took a group of barbarians, yelled, and killed Lu Ming and others.

This group of barbarians, the number is about 5,000, and Lu Ming and they are equivalent.

However, this group of barbarian masters obviously has more people than Lu Ming.

Some barbarians rushing to the front have a terrifying breath.

Especially the barbarian of that face, and there are two other barbarians, the most terrifying breath, they are all threefold existence of Divine Monarch.

What they can see is that among Lu Ming and others, there is only one Divine King triple, they have three Divine King triples, and there are more masters than Lu Ming, and killing Lu Ming is more than enough.

"How to do?"

Under Lu Ming, some people looked pale.

Only the Ming Ape War Clan, with firm eyes, stood around Lu Ming, revealing a strong fighting intention.

"Protect the war ancestors and fight against them!"

"Fight to death!"

The strong apes of the Nether Ape War Clan shouted.

"Want to die, fulfill you!"

The face-faced barbarians roared roaringly, and an axe slashed towards the landing Ming. He could see that Lu Ming's group was led by Lu Ming.

He was going to kill Lu Ming directly.

"Come on!"

The triple-strength of the apes and warlords, who roared, waved iron bars, and killed the barbarians in the square face.

boom!

The two attacked with a horror, and a horrible roar broke out.

what!

Just then, a scream of horror and horror sounded.

Many barbarians were shocked at first glance.

I only saw a burly barbarian who was caught in the heart by a young man and struggled frantically there.

This barbarian, but a strong man who is not weaker than the square-faced barbarian, cultivated to reach the triple triple of the prince, but now, he has been caught through his heart and is dying.

This young man is naturally a panacea.

"kill!"

The gods shouted, their hair fluttered, and they were torn apart. The triple barbarian of the Divine King was directly torn, blood spilled onto the ground, and fell to the spot.

drink!

Then, the gods screamed, and a galaxy appeared, suddenly enveloping a large barbarian, including the third superpower of the third prince.

Thousands of barbarians were killed when the barbarians screamed.

Anyone who was shrouded in by the long river almost fell. Only the barbarian of the triple prince struggled to roar and rushed out desperately, but he was covered with blood and was hit hard.

Waiting for him is the stone spear of the gods.

puff!

The stone spear flew over and pierced the head of the barbarian.

The second prince is triple, dead!

All of this happened between electro-optical flint, and it was so fast that many barbarians did not react.

After killing these barbarians, the pantheon sacrificed out the door of the ruler.

There is a terrible black hole in his door of domination, constantly rotating.

Roar!

In this black hole, a roar erupted, like the roar of an ancient god, shaking the earth and the earth.

A large number of barbarians were directly shocked to death, their bodies exploded and turned into blood mist.

Today, the pantheon has reached the second level of the divine prince, and the fighting power is even more terrifying. Even the triple level of the divine prince can kill in seconds.

"Damn, retreat!"

At this time, the barbarian of the square face reacted and confronted the Shenjun triple clan ape battle clan, and his figure backed wildly.

The remaining barbarians also quickly retreated.

The gods did not chase, but stood in front of Lu Ming, the body's breath became stronger and stronger, filled with a rich and ancient atmosphere.

"What a terrible strength!"

Even Lu Ming's other men have seen the pantheon shot many times, and they are still amazed at the moment.

But immediately, they were desperate.

Pantheon is strong, but Xiuwei is too low, even if it is strong, it will not affect the overall situation.

Just now, it was just that the barbarians looked at them and sent out one of the teams. There was no real horror.

Once shot, they will have no chance.

"Damn, **** fish..."

The square-faced barbarian roared repeatedly, but in his eyes, there was also a look of horror.

If the pantheon killed him just now, he would definitely die.

"It's a terrible combat power, and has control of three kinds of source secrets!"

"This person must be the peerless demon of the Taixu Holy Dynasty. This time I caught a big fish!"

Other barbarians also looked at Pantheon in shock, including some terrible existence.

A person who controls so many root secret techniques, and the pervert with strong strength, especially so young, has reached the double level of the god, which is simply too evil.

If it grows up, it will be a disaster for barbarians.

Chapter 3368: Wormhole

Kill, be sure to kill!

Many barbarians, looking to the gods, are full of murderous opportunities.

boom! boom! ...

The atmosphere of terror erupted, and more barbarians stepped forward and drove them to the landing. The pressure was like a row of mountains and rivers, and they drove them to the landing.

Some were weak, shivering and almost kneeling.

It's really too much pressure.

"kill!"

Suddenly, there were barbarians yelling, and suddenly, at least dozens of barbarians shot.

These dozens of barbarians are all the cultivation of the realm of the divine prince, among them, there is even no shortage of the triple prince.

They carried out indiscriminate attacks, all kinds of attacks, pouring them towards the landing.

This time, they will no longer give Lu Ming their chances, nor will they despise them any more. A total of dozens of Divine Monarch realms are shot, and the scene is shocking.

"It's over!"

Many people lamented that in the face of such attacks, they had no chance but to die.

"Boy, you're done!"

Even Bone Devil sighed like this.

"Fight!"

Lu Ming growled, he took out the copper copper coffin, and planned to open the copper copper coffin regardless of the consequences.

In the past, Lu Ming only opened a crack at most, and terrible things happened. If the copper and copper coffin is fully opened, absolutely amazing things will happen.

Lu Ming didn't know what would happen, but it was better than being killed by the barbarian.

At the very least, it is necessary to pull each other to the end.

Roar!

At this moment, the pantheon roared with horror, like an ancient ***** roaring.

In the end, a stone clock flew out, suddenly enlarged, suspended on the road above their heads, scattered a ray of light, and enveloped Lu Ming with them.

The attacks of dozens of barbarian strongmen were all blocked by Shi Zhong or the glow of Shi Zhong falling.

Boom! Boom! Boom! ...

The stone bell shook violently and gave a horrible roar.

However, those attacks were actually blocked, completely blocked, and did not bombard Lu Ming on them.

However, the pantheon was also uncomfortable. His body was shocked, and there were dense blood marks on the surface of his skin, and blood continued to flow from his mouth.

Blocking so many terrifying attacks, one can imagine how much pressure the pantheon was under and he was hit hard.

"People..."

Lu Ming shouted.

It won't work like this, relying solely on the gods alone, absolutely can't stop the other party's attack.

"I blocked them first, then opened a passage and rushed out..."

Pantheon sent a message to Lu Ming.

"Continue to attack..."

A barbarian shouted and continued to attack. The attacks landed on the stone clock. The stone clock vibrated even more, and even cracks appeared on it.

The pantheon coughed up blood, and there were more blood marks on his body, and his body seemed to crack.

Roar!

The gods showed unyielding intent, shouted, and the world shook.

There seems to be flames burning on the gods, these flames are constantly twisted, and actually form a different figure, that is a different figure of the original gods.

These figures seem to be illusory, but they also follow the roar of the gods, and the world is boiling, as if there are dozens of primitive gods, coming across time and space.

This kind of vision surprised all the barbarians and was a little dazed for a while.

"Broken Sword!"

The gods shouted and his hair fluttered, and a stone sword appeared in his hand, emitting infinite glory.

call out!

The stone sword turned into a sword light, not to the barbarian, but to the void.

The space suddenly rippled like a wave of water. Then, a dark vortex appeared in the sky. This vortex spun wildly, and finally turned into a cave.

"This... this is a wormhole?"

Lu Ming dumbfounded, it was hard to believe his eyes.

The gods actually opened a wormhole with a stone sword.

This is incredible!

"A miracle is simply a miracle. It is said that in the era of the original gods, a primitive god's body could open a wormhole, and the gods must have inherited the ability of the primitive god!"

At this moment, even the bone demon shouted inconceivably.

"Wormhole..."

All the barbarians shouted inconceivably, almost glaring their eyes.

They never dreamed that a person can open a wormhole in abrupt way, and it still happened to a strong person in the divine realm.

In today's vast universe, no one can open wormholes. Some horrible races returning to their ancestors can open wormholes in the starry sky after they have reached a terrible point.

Legend has it that the race of space-time spirit rats has some terrifying geniuses, the bloodline returns to its ancestors, and has the power of primitive gods. When the cultivation reaches a certain level, it can open wormholes.

But it is not possible to do it in the second level of Divine Monarch.

"Go away, I can't support it for long!"

At this time, Pantheon yelled at Lu Ming and others.

"go!"

Lu Ming shouted, knowing that this is a once-in-a-lifetime opportunity, and he could not hesitate anymore.

Immediately, Lu Ming's men rushed into the wormhole and disappeared.

In a blink of an eye, there were a few people from the Ming Ape War Clan and Lu Ming.

"Zhanzu, you go first!"

There are the apes fighting tribes drinking.

"Let's go, rush!"

When Lu Ming yelled, he rushed over and rushed into the wormhole with a pantheon, people with the apes fighting tribe, and the blue merchant.

When Lu Ming rushed into the wormhole with the gods, the stone bell that the gods condensed also collapsed.

"chase!"

At this moment, the barbarian crowd woke up like a dream and shouted, rushing towards the wormhole, but when they approached the wormhole, the wormhole twisted sharply.

"Rewind, the wormhole is about to collapse!"

A barbarian strongman shouted in horror, but it was still a step behind. A barbarian strongman couldn't retreat, was caught in the energy of the wormhole collapse, and instantly became shattered.

The energy of the wormhole collapse is extremely terrifying, even ordinary gods are difficult to resist.

At the next moment, the whole wormhole disappeared completely.

"hateful..."

The barbarians shouted, extremely unwilling.

This time they had so many masters, they didn't leave Lu Ming, but they lost such masters, which is a shame.

"I don't know where they fled?"

"That kid, who is a super hero, can open a wormhole. It is already a miracle, but the distance can never be too long, and it is difficult to control the direction. Maybe we are still in the barbarian territory. We will report the news to the marshal. Send someone to chase!"

An elderly barbarian sneered.

Then they reported the news.

After Lu Ming stepped into the wormhole, they appeared on a planet the next moment.

When they left the wormhole, the wormhole behind them twisted and then collapsed.

"It collapsed!"

Lu Ming was not surprised but rejoiced.

The collapse of the wormhole means that the enemy cannot chase it. This is not a bad thing, but a good thing.

Chapter 3369: Marshal Extermination

"The cultivation of the gods is too low. It is already a miracle to be able to open the wormhole. It is naturally difficult to maintain, so the wormhole he opened will soon collapse!"

"There are some terrifying existences in legends that open wormholes and can be permanently maintained, exactly the same as the wormholes naturally produced by heaven and earth!"

Bone Demon explained, Lu Ming suddenly realized.

"Where is this?"

Randomly, Lu Ming looked closely and saw the barren, barren rocks everywhere, without any vegetation.

"Be careful, my repair is too low. Even if the wormhole is opened, the distance will not be very long, and it is difficult to control the direction. It may still be in the barbarian territory!"

At this time the gods spoke, but after a few words, he kept spilling blood in his mouth.

The wounds of the gods were too heavy, his face pale, his breath weakened, his body was covered with cracks, and his body seemed to disintegrate at any time.

Before, he had been hit hard in order to resist the barbarians' offensive.

Later, he forcibly opened a wormhole, which was even worse.

With his practice, he opened a wormhole. Even a short-range, uncertain wormhole bore a huge load and exceeded his ability.

This kind of pressure has caused the pantheon itself to be hit hard.

Now, the pantheon is unable to fight anymore.

"Goddess, you feel at ease to recuperate, let us know what happens next!"

Lu Ming walked over, took out a top-healing panacea, and let the gods take it.

After taking the panacea, Wanshen sat cross-legged and quietly healed his injuries.

Lu Ming ordered his men to explore the neighborhood first.

Some people converged, and headed in all directions. Soon after, they returned.

Now they land on a planet, this planet is barren, there is no soul, it should be an abandoned planet.

As for whether it is within the barbarians, it is still uncertain.

Lu Ming breathed a sigh of relief in his heart. It was not the worst. If it fell on a life planet within the barbarians, that would be the worst.

Finally, Lu Ming intends to stay here for a few days first, and wait for Pan Shen's injury to be slightly better before they set off.

The physique of the gods is extremely terrifying. It was born from the blood of dozens of primitive gods. The vitality is amazing. It is only a few days. His face has looked better, and he has recovered some vitality. It almost disappeared.

With such a serious injury, it would be difficult to recover to this point in a few months if it was changed to an ordinary person.

Panshen recovered some vitality, Lu Ming and they left the planet.

Lu Ming took out a battleship, and they all entered the battleship.

This warship is not big, it was obtained from the barbarians in the battle with the barbarians.

At least you can take some cover when riding a barbarian warship.

Soon after, they discovered a planet from afar, this is a life planet.

"I'll investigate it!"

Blue Business Road.

"Uncle Lan, be careful!"

Lu Ming reminded.

"Relax, I cover my breath with the array, and watch it from a distance, it won't hinder!"

Lan Shang smiled and flew towards the planet.

But it didn't take long for the blue merchant to return.

Upon returning, Lu Ming's heart sank.

Because the blue merchant's face is very dignified, this does not seem to have found good news.

"That life planet is all barbarians, we are in barbarians!"

Blue Business Road.

This remark made Lu Ming's heart sink, and his face was very solemn.

Sure enough, still in the barbarians, this is really not good news.

The territories controlled by the barbarians are all barbarians. They are not barbarians and can be recognized at a glance.

How do they escape?

If they are discovered by the barbarians within the barbarians, it is a real danger.

The point is, they are here, there is no map of the stars, like a headless fly, flying around.

"Master, what should I do?"

Some people looked pale and looked at Lu Ming.

"Don't panic, we ride in the barbarian warship, how much can we hide, and then look for the opportunity to find the map of the star field, and then leave the barbarian territory and return to the Taixu Holy Pilgrimage!"

Lu Ming said.

Seeing Lu Ming's face confident, other people's hearts also settled down.

"Let's leave here first, and then don't get close to the barbarians' life planet, go to the remote starry sky, look for the barbarians who started the order, and grab the map of the star field!"

Lu Ming talked about the plan afterwards, and then they flew the star warship, left here, and flew into the starry sky.

In a star field at the junction of the barbarians and the Taixu dynasty, dense warships were suspended.

Each battleship is magnificent and surprisingly large.

Billions of warships abound.

This is the barracks headquarters where the barbarians fought for the Taixu dynasty, and Marshal Elixir sat in town.

Above the huge fleet, there is a huge palace suspended. This palace is the mansion of Marshal Void, and moves with the army.

At this time, many people discussed things in the palace.

Sitting at the top is Marshal Destruction.

But what is surprising is that this Marshal Vandal is not a barbarian.

This is a middle-aged man, tall and burly, three meters tall, with scales on his skin and a single horn on his eyebrows.

This is a unicorn.

It is a very strange thing that a one-horned crocodile actually served as a barbaric marshal.

The one-horned crocodile, that is, Marshal Destruction, sits at the top, while at the bottom, sits many barbarians, these are barbarian generals.

"Marshal, I received the news not long ago that I heard that a group of miscellaneous fish from the Taixu sage rushed into our territory!"

Below, a barbarian general reports.

"What kind of cultivation method does the miscellaneous fish of the Taixu dynasty?"

Marshal Extermination asked.

"Listen... I heard that Xiu is the highest one, and that the Divine King is triple!"

The barbarian general reported it.

boom!

There was an aura of terror in Marshal Destruction.

This breath is very infiltrating, full of breath of destruction, as if to destroy everything, and burst the galaxy.

The barbarian generals below, although all of them are extremely terrifying in strength, but under this atmosphere, one by one, the atmosphere is not dare to breathe.

"It's all waste. A group of the strongest fishes with only triple gods can also let the other party enter our territory. What do they eat?"

The icy voice came from the mouth of Marshal Destruction, murderous and icy.

"Marshal, I heard that there is a young man among the group of people who can...can open the wormhole?"

The barbarian gave a report, but he was hesitant when he spoke.

A young man, can open a wormhole? is it possible? It's the same as the night fantasy.

"A young man, can open a wormhole? Ha ha ha, this naive reason can also be found out, is it easy to be a bully when you are a coach?"

Marshal Xu's cold opening made his face even more ugly.

Chapter 3370: Was found

Marshal Destroyer's face was even more ugly. Those barbarian generals were even more afraid to speak. They knew the terrible Marshal Destroyer's horror, and their hands were covered with the blood of countless Taixu dynasty strongmen, otherwise, to How could his identity as a crocodile be a marshal.

"Marshal, his subordinates were also unbelievable, but at least tens of thousands of people witnessed this scene, and they all vowed that these were true, and the other party escaped by using wormholes, otherwise they would have been annihilated! "

The barbarian general said.

"Wormhole?"

Marshal Elixir whispered, his brow furrowed, and it was still a bit weird, but tens of thousands of people witnessed and swear, which made people have to believe.

"The news says that the man's cultivation base is still low, but it's just the double of the gods. Even if the wormhole can be opened, the distance will not be too far. It is likely to be in my barbarian territory, or even within a few stars on the border, please marshal Order a search!"

The barbarian general said.

"Okay, pass me an order, and search across the country. Once found, don't talk about killing!"

Marshal Destroyer coldly gave the name Leng, but after he finished, he continued: "Wait, the young man who can open the wormhole don't kill, I want to live, I want to see, a young man, What kind of demon can actually open the wormhole!"

"Yes!"

The barbarian general commanded, and then withdrew to arrange.

At this moment, many powerful forces at the border between the barbarians and the Taixu Holy Pilgrimage have received news.

On a huge, skull-like planet, there is a powerful force.

"Has the debris of the Taixu Holy pilgrimage enter my barbaric territory? Very good, go all out to catch and crush these ants!"

The master of this force gave orders.

"Full hunt!"

"Destroy the ants of the Taixu Holy Pilgrimage!"

Within a few star fields along the border, forces of all sizes began to dispatch and searched Lu Ming for them in the universe.

...

Lu Ming, they dare not get close to those life planets, they all circumvented them far away, and ran to remote places.

Fortunately, they were riding a barbarian warship. On several occasions they circumvented the life planet, but they were still found by the other party. They only saw that they were barbarian warships and thought they were patrolling. .

In the meantime, they met the barbarians who were single-handed and shot down the opponent. Unfortunately, they didn't get the map of the star field, which made them feel bad luck.

In this way, they flew in the dark and infinite starry sky for more than three months.

In the absence of a star map, they can only fly indiscriminately, without direction.

What they did not know was that during these three months, not only did they not approach the Taixu dynasty, but they moved away from it.

Because they flew in the opposite direction, but flew in the direction of the barbarian center.

Fortunately, in three months, the injury of Pantheon has been healed and returned to its peak state, which gave them some confidence.

After all, the strength of the pantheon is obvious to all.

"Someone in front!"

Suddenly, someone opened his mouth, and through the control room of the battleship, they could see that a fleet flew towards the depths of the starry sky.

It can be seen that this fleet has more than ten warships, but the volume is not too large. The longest one is about several million miles long.

Compared to the Big Macs on the battlefield, I don't know how many times it is.

However, the heartbeat of Lu Ming and others accelerated.

It is unwise to turn around and run at this moment. Doesn't it mean that they are guilty and will definitely cause the other party's suspicion.

Can only go forward daringly, hoping that the other party will not investigate.

Rumble!

The battleship flew through the void, making a loud rumbling noise, and soon the two sides approached.

"The battleship ahead, stop!"

Suddenly, a sound came out of the barbarian battleship, shaking the starry sky, and always passed into their ears.

This is definitely the opening of the powerful in the Divine Realm, otherwise it is impossible to pass into the ears of the star warship.

Lu Ming sank their hearts.

The other party told them to stop, the situation is not good.

"Stop first!"

Lu Ming said.

After that, the man who controls the battleship stops the battleship.

In front of them, the dozen or so warships were scattered in a fan shape, looming their warships.

"We are searching for the people of the Taixu sacred pilgrimage. Now we are going to search your warships. Most of them have offended them. All the people inside come out to be investigated!"

The voice rang again.

bad!

Lu Ming shook their hearts.

The barbarians have already hunted them down, and apparently suspected them, and asked them to go out for investigation.

As soon as I went out, wouldn't it be all exposed.

"Start the battleship and rush over!"

Lu Ming gave the order.

Buzz!

The warship made a slight trembling sound, and a large array on the surface of the warship was activated. A dense rune appeared, which enveloped the warship.

boom!

A beam of light burst out of the battleship's head, blasting toward the battleship in front.

The other party obviously didn't expect that Lu Ming would suddenly attack, and it was too late to dodge.

With a loud noise, the battleship was directly hit by the beam of light.

Lu Ming's warships were taken from the battlefield, and their power was very amazing. They are definitely not comparable to these small warships.

The warship that was hit directly exploded and turned into a blaze of fire.

Lu Ming and their battleship rushed past.

"Damn, it's the debris of the Taixu Holy Pilgrimage!"

"Don't let them run away, chase!"

"Spread the news!"

There was a roar from the battleship behind.

More than ten warships started, and they chased after landing.

But their warships are obviously inferior to Lu Ming's warships, the speed is thrown away, and the distance between the two sides is getting farther and farther away.

But it didn't take long for Lu Ming to sink their hearts.

Because in the front, a fleet flew to this side, forming a fan shape, blocking the way.

Obviously, the other party received the news and intercepted them here.

"It's a person from the Taixu dynasty, fire!"

There was a cold voice in the battleship ahead.

boom! boom! boom!

On the dozen or so warships, the runes filled up, and then a beam of light burst out, blasting them towards the landing.

With so many warships attacking from different directions, Lu Ming's warships could not avoid them and were directly hit.

Lu Ming's surface of their warship, although protected by a large array, still violently shook.

At this time, more than a dozen warships chased by the rear also arrived, and a beam of light burst out, blasting them to Lu Ming, making their warships more vibrating.

If this continues, their battleship will be destroyed shortly.

"I went down and destroyed their battleship!"

All Gods said.

"Let's go too!"

Other powerful people in Divine Monarch Realm also spoke one after another.

In this situation, only by destroying the opponent's battleship can there be a way out.
