

D Emperor 3431

Chapter 3431: Into the interior of the famous mountain

Lu Ming stared at the three giant wolves and killed them, and the sword light was like a storm. The two instantly banded a dozen tricks. After all, Lu Ming was stronger and broke through the attack of the three giant wolves, and the sword light fell on the other party. With a loud noise, blood was splattering, and the heads of the three giant wolves were severely cut off by Lu Ming.

The three giant wolves uttered a wailing sound, and their figures retreated.

"kill!"

Lu Ming shouted and continued to kill each other.

"court death!"

Bark, Lin Xin and others shouted, and various attacks rushed to Lu Ming again.

Lu Ming still didn't dodge, and he was attacked by everyone. He stumbled and almost fell, but he resisted the attack and continued to attack the three giant wolves.

The three giant wolves were cut off a head, severely hit, their strength declined, and they were even more invincible. Although they quickly retreated and laid dozens of defenses in front of them, they were still cut by Lu Ming's battle sword, leaving a deep in the chest Sword wound.

Just when Lu Ming wanted to take the opportunity to hunt down, he was violently charged and rushed to the three giant wolves at an alarming speed to resist Lu Ming's attack.

With barbaric defensive power, Lu Ming can only retreat it, it is difficult to break through his defense.

"unfortunately!"

Lu Ming lamented that it was a pity that the other party had too many people to support each other. He still had difficulty in staring at one person to kill.

Then Lu Ming turned around and killed the one-horned giant tiger.

The two sides started a fierce battle, and in the blink of an eye, they fought dozens of tricks again. It has to be said that the strength of the ball is getting stronger and stronger, and it is getting closer and closer to the realm of the gods. There is no shortage of defensive artifacts such as shields, so his defensive power is also getting stronger.

Only Lin Xin in the top four players can truly break the defense of the kick-off and hurt Lu Ming.

But with Lu Ming's own tenacity, he resisted hard.

So the two sides fought so many moves, although the other party had the upper hand, but failed to kill Lu Ming.

"This guy's metal life, defense is too strong, what should I do?"

Bark secretly transmitted sounds to several others.

"No matter how strong the defense is, it will die. It will force him to the hole where the primordial spirit erupted, and bombard him into Fengyun Mountain. He will definitely die!"

Lin Xin's face was fierce, and it was also a voice.

"Yes, inside the famous mountain is full of terrible intimidation. The people at the top of the **** will die when they go in. This kid will die, no doubt, just do it!"

Bark's eyes lit up.

At this point, the three giant wolves recovered some, and then came back, but they just followed the barbarians and dared not leave.

The four master masters landed and rang, attacked continuously, and slowly, their battlefield shifted to the top of the hole where the original breath erupted.

At this moment, the primordial spirit almost exploded, but the primitive **** crystal still flew out from time to time.

"It's time, suppress me!"

At this moment, Lin Xin drank coldly, waved his hand, and a stone tower appeared.

This stone tower, as high as one hundred floors, suddenly became large and turned into a huge stone tower, like a mountain, suppressing toward the landing.

"Break me!"

Lu Ming brandished the sword and cut to the stone tower, wanting to fly the stone tower.

when!

The war sword was cut at the bottom of the stone tower, which caused the stone tower to vibrate, but the bottom layer of the stone tower suddenly burst, forming a terrible gravity, pressing against Lu Ming.

Lu Ming's body fell involuntarily towards the bottom of the hole.

"No, they want to force me to be inside the famous mountain!"

Lu Ming's face changed.

With his current cultivation practice, if he enters a famous mountain, there is absolutely a dead end. Even if the ball is stubborn, it will be crushed into ashes by that terrible coercion.

Inside the famous mountain, that was the place where the original gods were bred. What is the existence of the original gods, can blow away a **** in one breath, and the pinnacle of the vast universe.

"Rush!"

Lu Ming shouted and used Jiutian Kunpeng to the extreme, turning it into a Jiutian Kunpeng.

However, the stone tower began to explode again, and it exploded several layers in a row.

Boom!

Several terrible gravitational forces rushed to Lu Ming in a row, and Lu Ming's upward momentum was suddenly blocked.

"Cut me!"

Lu Ming shouted and continued to swing his sword, trying to break through the gravity suppression, but after barely breaking through the weight, it was pressed down several times in a row, and Lu Ming's body continued to fall.

"Haha, I was suppressed by my hundred-gravity tower, and I wanted to rush out. It's naive. Let me go down, burst me!"

Lin Xin laughed and sipped, and the stone tower continued to suppress the landing, while several layers of explosions exploded.

Every time the stone tower exploded, there was a force of gravity against Lu Ming, which bombarded Lu Ming continuously.

"Leader, it's over!"

At this moment, when I saw the members of the Dragon League, I sighed deeply.

Lu Ming was bombarded inside the Fengyun Mountain, and there was only one dead road, and it was impossible to survive.

"Retreat, let's retreat!"

At this time, Bo Yi shouted, the people who called the Dragon Alliance gathered together, and then backed away.

Although the primordial divine eruption is not over yet, there are still primordial divine crystals constantly erupting, but at this moment, the primitive divine crystal has been ignored.

Lu Ming fell, and no one was able to balance the barbarity, not to mention the three deputy mountain owners of Qitong Mountain. If they continued to fight for the original **** crystal, there was only one way to die.

They retreated towards Fengyun Mountain, and Mang's eyes glanced, and did not call for chasing.

"Humph, let you live longer!"

Quite coldly, it is still good to collect the original Shenjing first. As for the Dragon League, Lu Ming is gone, and sooner or later he will be destroyed.

"Burn me, burst, burst..."

Lin Xin shouted, pinched the Yin Jue with both hands, manipulated the stone tower, and continued to explode, a burst of gravity, which kept pressing toward the landing, Lu Ming rushed up, and every time gravity pressed against him, his body , You have to go down a lot.

In an instant, Lu Ming fell tens of thousands of meters away.

Boom Boom...

Here, Lu Ming's ancient god's heart jumped violently because of the coercion from all directions.

The further down, the pressure from all directions became more and more terrifying, more and more amazing, and Lu Ming's pressure was a bit uncomfortable.

However, the stone tower continued to press, with a total of one hundred floors, and gravity continued, and Lu Ming's body continued to fall wildly.

When it fell to 30,000 meters, the pressure here was already terrifying, Lu Ming's body was sore, and there was a crackling sound from his bones, which could not be broken.

There were bloodstains on his body surface, and there was blood flowing directly, even if it was protected by the ball, it was useless and could not bear it.

What's more, the ball itself is uncomfortable, wriggling and shrinking into a ball, it is difficult to protect itself, it is difficult to protect Lu Ming.

Chapter 3432: The copper copper coffin opened by itself

"It hurts!"

The ball screamed, the body continued to wriggle, and even burst into smoke.

"Ball, hold on, we will not die, hold on!"

Lu Ming shouted at the same time, constantly thinking in his mind, thinking about countermeasures.

In an instant, he had dozens of thoughts in his mind and thought about dozens of ways, but no one could do it.

Mainly, the pressure outside was too strong. At this moment, Lu Ming couldn't move.

And the stone tower above can't bear it anymore, trembling constantly.

But at the next moment, the stone tower exploded in madness. Originally, there were more than fifty layers left in the stone tower that did not explode. At this moment, the remaining fifty layers all exploded in an instant. Naruto went away.

"It's over!"

Lu Ming had a thought in his mind, and then, with more than fifty gravitational forces, a brain impact hit Lu Ming and the ball. The two fell like two meteorites.

In an instant, the distance dropped by nearly a few hundred thousand meters.

"this is..."

Down here, Lu Ming glanced, revealing shock.

This is an underground space, which is obviously the inner area of Fengyun Mountain. The space is very large, filled with a thick blood-red mist, all of which are primitive.

The walls around them were covered with longan-sized crystals that turned blood red.

The primitive **** crystals, all of which are primitive **** crystals, are scattered on the walls of the square. I don't know how many, millions, tens of millions?

Lu Ming did not know, in short, there are countless.

How long has Fengyun Mountain existed? The primitive spirit inside is strong to a certain point, and it will condense into the primitive **** crystal. Up to now, it is not known how many primitive **** crystals have appeared.

Poof!

At this time, Lu Ming's body flashed blood, his body was cracking and disintegrating.

The coercion here is so terrifying that as soon as Lu Ming enters, the body will disintegrate under this coercion.

"It hurts, I'm dying!"

The ball screamed, and cracks appeared on the metal-like body.

"such a pity..."

Lu Ming sighed, what's the use of any more treasures here, he can't even live, let alone get the treasures.

At first sight, Lu Ming's body was about to disintegrate. At this moment, Lu Ming's brow glowed, and the copper and copper coffin that had been kept in Jing Yu's scroll actually flew out.

As soon as the copper and copper coffin flew out, it emitted a soft light and enveloped Lu Ming and the ball inside.

Shrouded in this light, the pressure of the outside world disappeared without a trace.

Huh...

Lu Ming gasped for a long time, feeling very relaxed.

The ball is similar, shrinking into a round ball, opening a big mouth, and panting there.

"saved!"

Lu Ming was ecstatic, but unexpectedly, at a critical moment, he was rescued by a copper copper coffin.

In fact, before, he wanted to take out the copper and copper coffin, but his body was suppressed by the pressure from outside, and he couldn't do it if he wanted to take out the copper and copper coffin.

"This is the place where the original gods were bred. The copper copper coffin can actually resist the pressure here. It is really mysterious. What is inside the copper copper coffin? What kind of secret?"

Lu Ming looked at the copper and copper coffin and turned his thoughts.

He even suspected that there was a living primitive **** in the copper and copper coffin.

Because the copper and copper coffins revealed information about the original gods everywhere, Lu Ming had to think so?

Even if there is no primitive **** alive, there is probably a primitive **** who has fallen, otherwise, how can there be such a mysterious?

Shaking his head, he shook away his thoughts and Lu Ming looked around.

Here, almost at the bottom of Fengyun Mountain, the primitive spirit can't be melted away, and the surrounding walls are primitive **** crystals.

Then, when Lu Ming looked at the bottom, his eyes widened even more.

On the ground at the bottom, blood red fluorescent sparkles, a large number of longan-sized crystals are stacked, all of which are primitive **** crystals. At a glance, I don't know how many pieces are there, more than the primitive **** crystals on the surrounding walls. Many times.

"That is..."

Suddenly, Lu Ming kicked his eyes, and he found another kind of treasure in the pile of primitive **** crystals, the source of divine power.

Yes, he glanced at a glance, at least saw ten divine source beads, this is just what he saw, absolutely more than here.

In addition, Lu Ming also saw several plants, swaying in various poses, emitting a gorgeous glow.

Treasures, plants that grow in this environment, are peerless dilution treasures of immense value.

There is nothing wrong with the legends of the outside world. Inside the Fengyun Mountain, there are indeed endless treasures. If the treasures here are seen by people outside, they must be crazy.

"Send, get rich, hahaha!"

Lu Ming looked around silly, almost drooling, and smiled innocently.

How much resources does this bring, and it will absolutely shock the Taixu Holy Spirit and what kind of power can it develop into?

With these treasures, Lu Ming doesn't need to fight other people in the future. He can also use money to kill others.

Lu Ming is fantasizing about the beautiful future, and at this time, the copper and copper coffin has changed again.

With a click, the lid of the copper copper coffin actually opened a gap.

Lu Ming was frightened, his hair was blown up, his body was tense, and his heartbeat accelerated.

The copper copper coffin actually opened by itself, what's going on?

Is there really a creature in the copper and copper coffin? Climb out of the copper and copper coffin?

Thinking of this, Lu Ming was cold and sweating.

Click!

The coffin cover of the copper copper coffin continued to open, slowly becoming larger, and finally revealed an inch wide crack.

"Strange, there is no such terrible gas engine..."

Although Lu Ming was shocked, he still felt strange.

Previously, when Lu Ming took the initiative to open the copper copper coffin, as long as there was a crack that was thinner than the first fan, there would be a terrifying gas machine. The kind of gas machine was so powerful that even he could not bear it, and it contained a terrible crisis. .

But now, the copper and copper coffin opened to an inch wide distance, but no strange air machine was released.

"Damn it, is there really a living creature in it..."

Lu Ming felt nervous.

This is so similar, like when he went to open the copper and copper coffin, the existence inside was uncomfortable, and he would exhale that terrible Qi machine, but when he opened it, he would not emit that Qi machine, because it was voluntary.

At the next moment, something happened that made Lu Ming wailing. Within the copper and copper coffin, a strong attraction suddenly broke out, covering all directions.

Huh...

Suddenly, the primordial spirit around him madly gathered towards the copper copper coffin and was sucked into the copper copper coffin.

Not only that, the original **** crystals on the ground and on the walls also moved, and they flew towards the copper copper coffin, and they flew into the copper copper coffin and disappeared.

"No!"

Lu Ming screamed and watched countless primitive **** crystals flew into the copper and copper coffin.

Chapter 3433: Primal Spirit

In just one breathing time, a large number of primitive **** crystals flew into the copper copper coffin.

Hundreds of thousands, millions? I'm afraid it doesn't stop there.

In addition, the attraction in the copper and copper coffin is getting stronger and stronger, as if there is no end to it. Those primitive spirits and primitive **** crystals flew into the copper and copper coffin at a faster speed.

"My original **** crystal!"

Lu Ming screamed and wanted to rush out to intercept, but as soon as he approached outside, there was a terrifying coercion pressing on him, almost bursting his body.

He flinched back quickly, afraid to go out.

Wow!

In all directions, the original divine crystal constantly flew towards the copper copper coffin, and even inside it was mixed with divine source beads. Although the number was not large, Lu Ming saw at least a dozen.

Those were dozens of divine power source beads, and when they were taken outside, they could all be sold at a surprisingly high price, but now, they disappeared all at once.

Lu Ming felt distressed, liver pain, lung pain, and pain all over his body.

My heart is breaking.

"My treasure!"

Lu Ming screamed, the one who called was miserable.

However, the copper and copper coffin did not mean to stop at all, and continued to absorb.

A large amount of primitive spirits, accompanied by primitive **** crystals, flew into the copper copper coffin, which was mixed with divine power source beads, and even those peculiar plants were absorbed.

This is the real search, Lu Ming's heart has been bleeding.

After a few minutes, the absorption of the copper and copper coffin finally stopped, and with a click, the copper and copper coffin cover was covered with copper, and it was suspended quietly, and a ray of light was scattered, covering Lu Ming.

"This this..."

Lu Ming looked around and found that the original **** crystal inside the Fengyun Mountain was almost searched, leaving only a small part, sparse.

The primitive spirit is also a lot thinner, but the mysterious place here will continue to produce primitive spirit, but it will not be exhausted.

"This **** guy, has too much appetite!"

Lu Ming cursed, of course, just thinking in his heart, not daring to say it, he really can't figure out what is in the copper and copper coffin now, and in case of uncomfortableness, he swallowed it and finished playing.

After whispering, Lu Ming had fewer complaints, and then manipulated the copper copper coffin and flew towards a wall. Here, there are a few rare primitive **** crystals. Lu Ming will not let it go, intending to finish the search.

Flying over, Lu Ming condensed a big hand with divine power, grabbed the original Divine Crystal, and broke it down.

Click, click...

Next, Lu Ming continued to collect the remaining primitive **** crystals.

Although only a small part is left, it is relative to the previous ones. In fact, the number is also very amazing. After Lu Ming made a circle on the surrounding walls and the ground, Lu Ming still collected millions of primitive **** crystals.

There are millions of fast, which is just a little bit left. I can imagine how much there was before, and it is no wonder that Lu Ming has such a strong grudge.

What made Lu Ming vomit blood the most was that there was only the original Divine Crystal, Divine Power Beads, and that peculiar plant, all swallowed by the copper copper coffin, and there was nothing left.

"any left..."

Lu Ming's eyes glanced around thieves, not letting go of every corner. This place is a holy place between heaven and earth, but everything that appears appears to be a rare treasure.

Roar!

At this moment, a roar came out, and Lu Ming was shocked. Under this, there are creatures?

This is definitely not trivial.

Then, Lu Ming saw a ground glow, and a ray of ray of light fluttered out.

This ray of ray of light, like a thread, hovered in the air, intertwined and intertwined, and actually formed a monkey-like creature.

Of course, it is not a real creature, only a silhouette, composed of a ray of glowing light, but it is very real. This creature is indeed like an ape.

It is as if the ray of glow is the veins of a person, forming a contour.

At the next moment, Xianguang scattered again and flew around. After a while, they gathered together again to form the silhouette of the ape and roared.

"This... what is this?"

Lu Ming was a little confused.

"Sent, boy, you sent it!"

At this time, the sound of bone demon surprise sounded.

"what happened?"

Lu Ming said.

"If I am not mistaken, this kind of glow is the most basic material that gave birth to primitive gods!"

Bone Magic Road.

"The most basic material that gave birth to primitive spirits?"

Lu Ming was shocked.

"Yes, if there is enough time, this material can even conceive a primitive **** again, but today the conditions are different and the environment is not supported. Even if there is more time in the past, it will not be really successful! "

"Lu Ming, this is a great opportunity. Although this amount is very small, it is only a few strands, but as long as you refine it, your ancient **** body will skyrocket and continuously break through!"

The bone demon spoke continuously, and it was hard to conceal the excitement.

"Can it be refined directly?"

Lu Ming's eyes lit up.

"Yes, this kind of glow is the purest energy for the souls who cultivated the original **** body, and it is easy to be refined!"

Bone Magic Road.

"it is good!"

Lu Ming was very decisive and manipulated the copper copper coffin and took him towards Xianguang.

At the same time, he was very nervous, fearing that the copper copper coffin would open again and **** Xia Guang away.

Facts have proved that he was too worried, and the copper copper coffin did not respond at all.

Obviously, before the copper and copper coffins did not absorb Xianguang, they were either not used or left deliberately, Cheng Luming.

Thinking of this, Lu Ming jumped in his heart. Is the copper copper coffin so humanized?

Soon, Lu Ming approached Xia Guang, but at this time, he made a new discovery.

There was a small pit on the ground where the Xiaguang was rising. There were some blood-red liquids in the small pit. These liquids are very strange. Not only are there mists, but these mists are constantly twisted and changed, forming a single The shape of the ape.

"This is primitive spirit fluid, good thing, Lu Ming, don't miss it, take it all away!"

The bone demon cried again.

"Primitive Spirit, what is the role?"

Lu Ming asked.

"This place, the primitive gods gestated at the beginning, should be related to apes. It is likely to be primitive **** apes. The ancestors of all apes. This primitive spirit is probably left by primitive **** apes, perhaps primitive **** apes. Sweat, or saliva, or even urine..."

Bone Demon explained.

Lu Ming was dumbfounded and dumbfounded.

The saliva or urine of the primitive **** ape? Lu Ming was quite speechless.

"Don't underestimate it, this is probably left by the primitive **** apes. It is the purest and has extraordinary effect. Other creatures can regenerate their bones with just one drop. The body has a trace of primordial **** ape and can be cultivated. The primitive gods related to primitive gods and apes have improved rapidly!

Bone Magic explained.

"You can cultivate the original **** body with a single drop!"

Lu Ming was really shocked.

Chapter 3434: Crazy breakthrough, ninth becomes great

A drop of primitive spirit liquid can make a person practice the primitive **** body, which shocked Lu Ming.

You know, the original **** body is not so good to practice. If you want to practice successfully, even if it is only the first change, the difficulty is very great and the conditions are extremely harsh.

At that time, Lu Ming was also able to cultivate the ancient **** body only by chance.

In fact, all physique secret techniques are extremely difficult to practice, and there are a series of harsh conditions.

In this world, the people Lu Ming met, all of them cultivated primitive **** bodies one by one, and all of them were very good and deep. That's because, all the people who came to this world come from different races and different from the Honghuang universe. Genius of power.

It is hard to tell how many races and forces there are in the vast universe. It is normal for each force to have so many arrogances that have been cultivated into primitive gods.

At the same time, this world is too helpful for the cultivation of primitive **** bodies, so these people are so advanced, but for ordinary people, physical mysteries and primitive **** bodies are all extravagant hopes.

For example, in the Taixu dynasty, those who practiced physique mysteries are a few, generally genius characters.

Doesn't that mean that Lu Ming has these primitive spirits, and can train a group of troops that cultivate primitive gods?

Thinking of this, Lu Ming's eyes began to shine.

He has an ancient **** body, which is definitely not needed, but others can use it.

For example, Nether Ape Battle Clan!

This primitive spirit was left behind by primitive **** apes, and the apes of the apes are also apes, which are just right and complement each other. Maybe the effect will be better.

As for the primitive **** body cultivation method of apes, Lu Ming doesn't have to worry about it at all. What kind of primitive **** body cultivation method does this world have?

He had seen other people display the primitive gods of apes before, and later he could just buy one.

Lu Ming was fierce in his heart, and took out a jade bottle of excellent material. This jade bottle was a kind of secret treasure. From the opponent he killed, there was a lot of space inside, which was specially used to contain spirit liquid.

Tractioned with divine power, the original spirit fluid in the small pit flew towards the jade bottle, and finally, all were contained in the jade bottle, and there was no drop left.

Putting the Jade Bottle into the Jingyu scroll, Lu Ming stared at the few rays of light again, and then slowly approached.

Boom Boom...

His ancient god's heart beat violently, exuding a strong attraction, enveloped a few rays of glow.

"Suck!"

Lu Ming took a sip, the attraction suddenly increased, a few rays of ray of light suddenly flew over, flew into the heart of the ancient god, disappeared.

As soon as this kind of ray of light enters the heart of the ancient god, it turns into a ray of finer rays of light, starting from the heart, along Lu Ming's blood vessels and distributed throughout Lu Ming's body.

Then, there was a loud roar, and these glows penetrated through the blood vessels into Lu Ming's body.

Suddenly, Lu Ming felt that his body was bursting with tears and transparency. The bones, muscles, meridians, and everything in the whole body began to tremble and start to twist, transforming at a terrible speed.

Pain, extremely painful, but Lu Ming gritted his teeth to resist it.

He understands that this is caused by rapid transformation, as long as he resists this process, his gain will be very great.

Lu Ming's body is undergoing earth-shaking changes.

Roar!

After a while, a roar of the ancient **** came out from Lu Ming's throat. His body, uncontrolled, swelled up autonomously and turned into an ancient **** of purple armor.

However, after being transformed into a 10,000-meter-high ancient purple armor, his body expansion did not stop, and it was still growing rapidly.

Ten thousand meters, twenty thousand meters, thirty thousand meters...

The speed of growth is extremely alarming.

However, here is the space inside Fengyun Mountain. How big is Fengyun Mountain, and the internal space is huge. Lu Ming is inside it, no different from an ant.

Soon, Lu Ming's size grew to 50,000 meters. At this time, the color of the scale armor on his body began to change. It was originally dark purple. At this time, the purple color began to recede, and it was replaced by silver.

Light silver.

This is the symbol of the eighth change of the ancient **** body.

"The eighth breakthrough has changed, so fast!"

Lu Ming was overjoyed.

Originally, his ancient **** body was cultivated to the peak of the seventh change, but even if it is the seventh change peak, it takes a long time to cultivate to the eighth change, even if there is the original **** crystal, it is the same, no So easy to break through.

But relying on that kind of glow, only one hour away, he will completely break through the eighth change.

His size is still growing and has not reached the limit.

The eighth change, the size can grow to 100,000 meters high.

In a blink of an eye, another two hours passed, and Lu Ming's size finally became 100,000 meters high, completely entering the eighth change.

However, in the early days of the eighth change, the scale armor on his body was still light silver.

However, that kind of glow is only a small part of it, and there is still a lot left.

This kind of radiance is too much, and the effect can be much more than that.

"carry on!"

Lu Ming's ancient magic formula is intact, and he continues to cultivate and refine that kind of glow.

However, in the process of operation, Lu Ming felt a trace of obscurity slightly, but under the kind of anti-sky effect of the Xianguang, this trace of obscurity was not harmful at all, and his ancient **** body was rapidly becoming stronger.

Lu Ming did not think much, and practiced with all his heart.

His ancient **** body is becoming stronger at a terrifying speed.

It was only half a day, his ancient **** body, from the early stage of the eighth change, was abruptly promoted to the peak of the eighth change, and then, impacted on the ninth change.

Roar roar...

Lu Ming's body exudes dazzling brilliance, and these brilliances condensed into a huge ancient **** phantom. The ancient **** phantom roared in the sky and his breath became stronger and stronger.

After a while, Lu Ming's body heard a crackling sound again, and his body began to change again. This time, the speed of change was even more amazing.

Then his body began to grow sharply again.

Thousands of meters high, 200,000 meters high...

In just one day, his body reached a staggering one million meters.

The scale armor on his body also faded from the silver light, and replaced it with gold.

Pale gold.

The ninth change of the original **** body.

It was only in such a short time that Lu Ming broke through to the ninth change of the original **** body. If it spreads out, it will scare the dead.

By this time, that kind of glowing light had finally consumed a large part, and there was not much left.

However, Lu Ming's body is still being strengthened, and Lu Ming's body is getting stronger every moment.

One day later, when the last ray of light was refined, Lu Ming's scaled armor turned into deep gold.

The ninth change of the ancient **** body is complete.

Lu Ming has cultivated the ninth change to great success.

"I heard that after the cultivation of the primitive **** body to the ninth change, it is considered to be a major achievement, but behind it, there is a more mysterious state, and even the blood of primitive gods can be condensed!"

Lu Ming thought.

Chapter 3435: Primal Divine Blood

The ninth change of the original **** body is not really the end, but the peak of the preliminary stage, there is still a way behind.

Because, even if the cultivation reaches the ninth change, there is still a gap of ten thousand miles from the original gods.

The primitive **** body, known as cultivation to the peak, can be transformed into primitive gods and possess the power of primitive gods.

Therefore, there is still a way after the ninth change. It is said that as long as it crosses, it can even condense the blood of primitive gods, which is called primitive **** blood.

But if you want to go through this step, it will be difficult and difficult.

Even if it is a peerless genius, it is difficult to leapfrog. Once it is leapfrogged, it will gain infinite mighty power and its combat power will skyrocket.

However, to the ninth change of cultivation, Lu Ming was very satisfied. At this moment, he felt that his body was filled with endless power.

"Furthermore, the cultivation conditions here are really good. Here you can learn about the source divine factor and the source secret technique. The speed is amazing!"

Lu Ming sighed.

In the process of the transformation of the original **** body before, he felt it. Here, he can learn the source divine power factor and the source secret technique, the speed will be amazing, and it will advance by leaps and bounds. It is not comparable to the original god.

Here, it is the place where the original gods were bred. Although the original gods bred here, the original divine power controlled, may be different from Lu Ming's cultivation.

But the primitive gods are essentially the same in nature. They are all born in the ancient times, and the universe of heaven and earth. Consciousness is useful for all kinds of divine powers, and the effect is amazing.

"However, I am going out now. Come in and practice later!"

Lu Ming whispered.

It has been several days since he came in, and he was a bit worried about the Dragon League.

Quite gram, will never let go of the Dragon League.

Lu Ming can only pray. Bark and others first collected the primitive **** crystals on it, and they haven't had time to deal with the Dragon League.

But a few days have passed, and no one knows what will happen.

As soon as his thoughts moved, Lu Ming's body quickly shrank and became the size of a normal person, and then he rose into the sky and rushed upward.

The cave that was pierced by the primordial spirit is naturally still there. This kind of cave will gradually gather and disappear with the passage of time. Of course, this time will not be too short.

Fengyun Mountain also had a burst of spirit before, rushed out of this gap, and all of it disappeared automatically.

Soon, Lu Ming rushed up hundreds of thousands of meters. Here, the terrible coercion disappeared. Lu Ming put away the copper and copper coffin and performed the nine-day Kunpeng technique.

Soon after, he finally saw the gap and the light fell down.

"Ranker, I hope you haven't done it yet!"

Lu Ming's eyes flashed an indifferent light, rushed directly out of the hole, and rushed into the sky.

Near this gap, there are still people, but the number is not large, only a hundred people, guarding around.

Among them, there are barbarians, but Bark and others are not here.

These people suddenly saw the gap rushing out of a person, almost scared to death, stunned.

Inside the famous mountain, there are creatures rushing out, what's going on?

However, they were even more shocked when they saw the people who rushed out.

"Lu Ming, Lu Ming!"

"How is it possible? Isn't he already slammed into the famous mountain, how could he still be alive?"

"Hurry up with the leader!"

These people exclaimed again and again, and some even took out the jade symbol to be heard.

Uh!

Lu Ming rushed over, a big hand pressed, and a huge palm formed, pressing towards these people.

These people couldn't care about the voice, and they attacked and confronted each other, but they were too far away from Lu Ming. With their big hands pressed, these people coughed up their blood and paled.

"Shenlong Faxiang!"

Lu Ming took a light drink and pushed with both hands. Ninety-nine nine-clawed dragons condensed out and rushed in all directions.

Immediately, hundreds of roars sounded, and hundreds of barbarians all spit blood and were seriously injured.

Then, Lu Mingshi exhibited a chain of ice, entangled these people and sealed them with ice.

"Say, where's the bark!"

Lu Ming asked coldly.

These people have pale faces.

"You never want to know!"

A barbarian shouted.

puff!

Lu Ming flicked his fingers and a gun flew out, directly penetrating the person's eyebrows and killing him.

"I said, I said!"

Immediately, someone called out.

Not all barbarians here, most of them are the arrogance of other races. They are not sincere about Bark, seeing Lu Ming's fierceness, they immediately entrusted them all.

"Vanke took people to your Dragon League station!"

Cried the young man.

"What? Damn, when did it happen?"

Lu Ming shouted.

"Just recently left, less than an hour!"

The youth said.

"It's only an hour, fortunately, it should be able to catch up!"

Lu Ming was slightly relieved, and then waved his hand, bursting out of the gun, killing all the barbarians at the scene.

As for the arrogance of other races, Lu Ming did not kill them, and these people have no hatred against him.

After killing the barbarians, Lu Ming rose to the sky, rushed towards Fengyun Mountain, and rushed to the Dragon League station.

Seeing Lu Ming leave, those surviving Tianjiao breathed a long sigh of relief, but they were still frozen by the ice chain, and it was difficult for them to get out without some hardship.

...

The Longmeng headquarters, outside the valley, is crowded with people.

Around the valley, they were surrounded by barbarians.

The people of Dragon League, such as Bo Yi, are hiding in the valley, relying on the formation of the valley to resist.

"Just like this formation, would you want to block me? Naive!"

Bark was transformed into a barbarian ***** with a height of 100,000 meters, holding a bronze war sword, chopping off continuously and bombarding a large formation outside the valley.

At the same time, beside Bark, Lin Xin and the three deputy mountain owners of Qitong Mountain were in awe, watching coldly.

Boom!

The continuous wave of shock finally couldn't resist, there were cracks, and the last burst burst.

Breaking through the formation, Bark stopped instead. He looked down at him and said indifferently, saying: "Lu Ming is dead, you are still fighting fearlessly. It is really beyond your control!"

Boyi et al.'s face was pale, and it seemed that Longmeng was really in danger.

"I am willing to surrender!"

"I am willing to surrender too!"

In the Dragon League, many people shouted.

This is normal. Many Tianjiao joined the Dragon League, but it was only a cooperative relationship. They turned in the original God Crystal, and they could get a part of the original God Crystal.

In this world, there are such rules of operation, and there is nothing heartfelt or heartfelt.

They are in this world just for cultivation. When they succeed in cultivation, they leave this world and return to their original world in the vast universe.

"I surrender too!"

The people of the Dragon League, the large crowds shouted to surrender.

Boyi and another deputy leader of the Dragon League looked ugly. They were defeated by Barker last time and did not surrender. This time they will not.

Chapter 3436: Why aren't you dead

With a sneer on his face, Mang looked at the Dragon League people. After a while, the voice came out: "You want to surrender, you can kill them, you can surrender!"

After all, Bark pointed to another deputy leader of Bo Yi and Dragon League.

"What? Kill two of them and allow surrender?"

The faces of the other Dragon League members all changed.

"Yes, killing the two of them, I will be rewarded. Otherwise, if you don't want to surrender, you will be buried with Lu Ming today!"

In Mang's eyes, Sen Leng's killing and madness flashed.

"You... you dare, I am the prince of the heavenly holy dynasty from the vast universe, you dare to kill me, your barbarians are waiting to be destroyed!"

One of the youths shouted.

"Oh, don't scare me with your identity and kill you. How would you know the people of the Heavenly Holy Dynasty? And here you are, it's common to fight, and you are killed, your Heavenly Holy Dynasty will attack other forces, Isn't it a joke? Will be laughed at by other forces!"

Quite sneer.

The man's face was pale, indeed.

In this world, there are natural arrogances from different forces, fighting every moment, every day someone is killed in battle, and they all retaliate. Isn't the universe messed up already?

"You killed both of them, you can live and get a reward!"

Quite sneer.

Many people's eyes flickered, staring at the two artists, constantly flashing, and the murderous opportunity came out.

Boye's face changed.

"Very brutal, either fight, don't humiliate us this way!"

Bo Yi shouted.

"I just want to humiliate you, what's wrong?"

Quite sneer, he was extremely uncomfortable with the two artists.

The last time, he didn't turn to him, but finally turned to Lu Ming, he could let others go, he wouldn't let him go.

"Very brutal, let's fight!"

Bo Yi shouted, his figure rose into the sky, turned into an ancient **** body, and killed towards the barbarity.

The other deputy leader, too, killed Bark.

They would rather die in battle than besieged by others in the Dragon League, which is a shame.

The two broke out with all their strength, and decided to fight against Barbara.

"Unrestrained!" Mang opened his mouth indifferently, with a piece of bone in his mouth. The white bone flew out and gave a terrible roar. Suddenly, the souls of the two artists were shocked, and their figures shuddered.

Uh! Uh!

The bronze war sword in Mang's hands was killed towards the two players. The two men's original fighting strength was not as good as that of Mangke, and their souls were shocked and even more invincible.

Then, Mangke cut two consecutive swords and cut them on Boye, who snorted and fell to the ground, showing a deep sword wound.

Bark did not continue to kill the two players, but looked at the Dragon Alliance people again and said, "You still don't want to kill them, kill them both!"

The eyes of more Dragon League people flickered. At the moment, the two players have been injured and it is easier to kill. Many people are excited.

"Mack, fight with you!"

Gaming roared, and broke out with all its strength, it was necessary to rush up and fight hard.

"Boyi, leave it to me here!"

At this moment, a sound came from high above.

The voice was clear, but unusually cold, full of cold killing opportunities.

Hearing this sound, Boye's body shuddered, and then showed excitement, looking towards the sky.

The other members of the Dragon League were also shocked.

"This is... the voice of the leader?"

"It's the voice of the leader!"

Many Dragon League people exclaimed.

"how is this possible?"

Mank also felt a shock in his heart. He was too familiar with Lu Ming's voice and would never forget it in his life.

But isn't Lu Ming dead, how could it appear?

Mank looked up to the sky, and in the sky, a young man stood in the void, staring at them indifferently.

Not Lu Ming, who can it be?

At the same time, the three deputy mountain owners of Qitong Mountain also looked at Lu Ming.

"impossible!"

Lin Xin growled, his eyes were incredible.

A few days ago, he obviously used the 100-weight gravity tower to blast Lu Ming down the bottom of Fengyun Mountain. Why is Lu Ming still not dead?

The Hundred Gravity Tower is a secret treasure he accidentally obtained. It is very mysterious. Once exploded, it will form a force of gravity and press against the opponent.

At the beginning, he exploded all the 100-story gravity towers at once to form a 100-gravity gravity. He was fully confident that he could blast Lu Ming into the bottom of the famous mountain.

Lu Ming is just a **** king in every area. He was bombarded into the bottom of a famous mountain, but he is still not dead. What's going on?

Lin Xin was stunned for a while, completely unable to figure it out.

Uh!

Lu Ming stepped out, his figure landed down, and landed in front of Bo Yi and others.

"Lu Ming didn't die!"

Some of Longmeng's eyes flashed. They were just about to start the game with the two players just now, but now they have dispelled this idea and plan to see the situation.

"Lu Ming, Lu Ming, you have to say, your life is so big, you didn't die like that, but you are too stupid. Since you aren't dead, you should find a place to shrink up, so that you can save your life. I didn't expect you. Dare to appear in front of me, today, I will make you completely dead!"

Quite groaned, and his eyes were terrible.

"I don't come out, how can I kill you?"

Lu Ming said lightly.

"Kill me? Hahaha, it seems that you were bombarded inside the famous mountain, it's not nothing, your brain is broken!"

Mangke laughed wildly, and then shouted, "You guys, shoot with me to kill this person!"

"It hurts me to lose a hundred-weight gravity tower, he must die!"

Lin Xin said coldly, his voice falling, his body bulging sharply, and turned into a golden giant ape, holding a unicorn war halberd.

At the same time, the other two deputy mountain owners of Qitong Mountain also turned into primitive gods.

"It seems that you have a primitive **** body related to apes. It just happens that the secret is not on you?"

Lu Ming stared at Lin Xin and asked.

"What about now? Do you still want to fight my primitive **** body? Ridiculous!"

Lin Xin asked back.

"Just right!"

Lu Ming showed some joy.

As long as you get the practice method of Lin Xin's primitive body, and add primitive spirit fluid, you can practice.

With these, he can even form an Xeon invincible army.

"So much nonsense with him? Kill him!"

Barbaric shouted, brandished a bronze war sword, and killed Lu Ming.

Roar!

Lu Ming roared, and his body began to swell up sharply, turning into an ancient **** body.

In the blink of an eye, it grew to 10,000 meters, but it still didn't stop. It had grown up to 100,000 meters before stopping, all covered with silver.

Lu Ming exhibited the ancient armor of Silver Armor, and Lu Ming's breath skyrocketed. Before that, he began to mobilize the warfare tactics five times the combat power. At this moment, he urged success.

Buzz!

The Ba Shen Gun appeared, and a shot swept out, colliding with the sturdy bronze war sword, and a violent roar erupted.

Chapter 3437: Slash

Lu Ming urged the ancient **** body to the peak of the silver armor ancient **** body, and confronted Mank with a trick, a violent roar, and two figures of 100,000 meters tall receded back.

This move is equally divided.

Before that, Lu Ming couldn't be beaten by the ball without the help of the ball. When he collided head-on, he definitely fell.

But now, Lu Ming urged the ancient **** body to the peak of the silver armor ancient **** body. Without the help of the ball, he can already resist the brute force.

"The eighth change of the original **** body, you... how are you possible?"

Quite shocked.

In addition, Lin Xin and others were also shocked.

A few days ago, Lu Ming was only the seventh change of the original **** body. Why did it break through to the eighth change after a few days?

This speed is too fast!

"Thank you for your blessings, you slammed me into the famous mountains, and I got an adventure. The original **** body broke through smoothly. Thank you!"

Lu Ming spoke slightly, and at the same time the ball wriggled, covering Lu Ming's whole body.

The ball can be big and small, even if Lu Ming is 100,000 meters high, it can still cover Lu Ming.

Not to mention one hundred thousand meters, even if it is one million meters high, it can be the same.

"To thank you, I will send you on the road!"

Lu Ming's eyes turned into a cold killing opportunity, like two ice pools.

On the palm, the ball condensed into a war sword, and Lu Ming held it in his hand.

"kill!"

Lu Ming shouted and killed towards Barbaric.

Quite frightened, he quickly manipulated the piece of bone and merged with him, turning it into a piece of bone armor.

This piece of bone can only be fused with himself three times, and it will lose its effectiveness. At this time, it is already the third time. After this time, it will be useless.

Mang's heart is bleeding, but he can no longer care about it, Lu Ming's previous strength is so amazing, and with the ball, he can share with him even the attack power is still above him.

Now the original **** body has broken through the eighth change, and his strength is even more terrifying.

when!

While swiftly retreating, Mang wielded a bronze war sword and bumped into Lu Ming. A horrible roar erupted, and violent energy swept across the world.

Bark's body thundered, almost unable to hold the bronze war sword, and his huge body retreated like a shell.

"kill!"

This is that Lin Xin and the three have already been killed, and killed Lu Ming.

"Kill you first!"

Lu Ming's eyes were like electricity, and he wielded the sword of war, killing three Lin Xin, and in an instant, he opened up nine sword lights.

After several roars in succession, Lin Xin's faces changed and they retreated one after another. The three of them joined forces and were repelled by Lu Ming.

After repelling several people, Lu Ming stared at one and killed him, it was the three giant wolves.

Three giant wolves screamed, and terrible beams were continually sprayed out of three mouths, but with Lu Ming's current strength, he had already surpassed him. Once the war sword waved, he broke through the beam, and his body quickly followed up. Chop down.

puff!

Blood was splattering, three giant wolves were cut horizontally, three heads were cut off, and two were cut off.

A few days ago, the three giant wolves had their heads cut off by Lu Ming, but these days they have recovered, but now they have been cut off two at a time and have been hit hard.

The three giant wolves stepped back in horror and wanted to escape, but this time, Lu Ming would not let him escape again. The body of 100,000 meters tall continuously stepped into the air, the war sword was cut, and the entire void was enveloped by the war sword.

"Do not..."

The three giant wolves shouted in despair, and he was useless to resist.

A few days ago, Lu Ming hadn't broken through, and his strength slightly exceeded him. At this moment, he exhibited the eighth change of the ancient **** body. He was not an opponent at all, and he couldn't walk if he wanted to go.

His attack, and his defense, could not withstand a blow, like a paper paste, was split by Lu Ming with a sword, and even his body was also split.

In the desperate roar of the three giant wolves, his soul was annihilated by the power of destruction and fell completely.

A deputy mountain owner of Qitong Mountain, die!

At this moment, Lin Xin's attack fell on Lu Ming. Lu Ming's body shook, and only Lin Xin broke the ball defense.

However, after breaking through the ball defense, the power was also greatly reduced, and it was only able to cut the silver scale armor on the surface of Lu Ming's body, leaving a blood mark.

"Passionate Gun!"

Lu Ming snorted, and the left-handed tyrant appeared, sweeping thousands of troops and Lin Xin.

In the state of the ancient armor of the silver armor, wielding the Ba Shen Gun, the power is naturally stronger than before. With two roars, Lin Xin and the two were retreated.

Then, the master's door, the sword of breaking the virtual, the lunar moon, the sun's day and other primitive secret techniques, a brain was cast by Lu Ming, and the head was slamming toward Lin Xin.

Lu Ming brandished a war sword and cut to another deputy mountain owner of Qitong Mountain.

This person had just been repelled by Lu Ming with a tyrant gun, and he hadn't stabilized his body yet. Lu Ming had already been killed. Under fright, he barely resisted a trick and was split by Lu Mingli, split in half, and fell completely.

From Lu Ming's hands to killing the two people, it only happened in an instant, and it was incredible.

At this moment, the talents around have reacted unbelievably.

"This this..."

The people of Longmeng were stunned. Unexpectedly, Lu Ming's strength was so strong.

And Rucker was even more shocked.

Lu Ming was bombarded inside the famous mountain. Not only did he not die, but his strength improved greatly. He was desperate to vomit blood and was terrified at the moment.

Lu Ming has launched a general storm offensive against Lin Xin.

Lin Xin is a little stronger than the other two, and can be ranked in the top 30 of the **** king list in the world, but facing Lu Ming's stormy rain, there is only one way to die.

Zizizi...

Every attack by Lu Ming contains the lightning of the ball. Lin Xin's body will numb every time he takes a move. In this way, his strength is also discounted, and he is even worse than Lu Ming.

puff!

He was cut in the chest by Lu Ming, and a wound of several thousand kilometers appeared. If he had not evaded in time, his body had been split in half.

"Quick, fast, come and help me!"

Lin Xin shouted.

Bark's face changed for a while, revealing a look of terror, and then turned around and ran, while shouting: "Lin Xin, you resist for a while, I will move the rescuers to save you!"

"Ah, you're so **** * you!"

Lin Xin shouted in despair, and Bark went to move the rescuer to rescue him, joking, is it still too late to move the rescuer, clearly wanting to run away by himself.

"Relax, after killing you, I will send him to accompany you on the road!"

Lu Ming sneered, all kinds of secret techniques of the origin attacked Lin Xin, and the opposite party revealed a trace of flaws. Then, the sword of war fell down.

This time, Lin Xin could no longer escape, and was hit. His body, which was 100,000 meters high, was split in half and fell completely.

Man Ke Lingzhi swept this scene, almost scared to death, and ran faster.

But Lu Ming quickly chased towards Bark.

Quite gram, must die!

Lu Ming's speed is obviously faster than Bark, Barbarian God is good at defense, and the speed is short board.

Chapter 3438: All gods come

Bark hadn't escaped Fengyun Mountain yet, he was caught up by Lu Ming.

After catching up, he slashed with a sword directly, and Mang quickly waved his sword to resist, but with a bang, his body retreated suddenly and broke a mountain.

Then, Lu Ming waved his sword again and cut it on the chest of Mr. Wu.

Zizizi...

The war sword was cut on Bark's chest, and Mars was radiating, making a harsh sound.

"Break me!"

Lu Ming burst into roar, bursting out all the power, and with the power of the ball, it burst out in full.

Boom!

The rock beneath Bark kept exploding, the gravel splashing, and a big pit exploded.

In the end, the barbaric attack was broken, and the bone bone armor was cut through a crack, and even the barb-like crystal armor below was broken, blood flowing.

what!

Mang shouted in horror, and his proud defense was broken, which made him terrified, so that he would die.

He quickly waved the bronze war sword to rebel, but was blocked by Lu Ming's left hand gun, and the right hand war sword continued to slash down and cut on the wound just now.

Poof!

The War Sword chopped in from the wound, blood splattered, the power of lightning, and Lu Ming's divine power, rushed in from the wound and exploded in the barbaric body.

Bark's body shook, his body was completely destroyed, and his internal organs were blown to pieces.

This kind of injury is definitely a dead end for ordinary people, but it is quite a killer, but the God King is not so easy to die, but it is also seriously damaged. It is difficult to maintain the state of the original **** body. The body shrinks sharply and becomes the original form.

"No, don't kill me, help!"

The pretty hysterical shouted.

"Go on the road, today, no one can save you!"

Lu Ming spoke indifferently and cut off with a sword.

But at this moment, a terrible breath erupted in the sky, and the huge palms kept catching at the landing.

The palm prints roared and the sky shook.

The terrible strength made Lu Ming's face change greatly.

This palm print had a fatal threat to Lu Ming. He didn't care about killing Bark and cut his sword with all his strength towards the sky.

boom!

The war sword was cut on the palm print, and Lu Ming's body was shocked, as if hit by a planet, and his body moved back several thousand kilometers to stabilize his body.

And that palm print was also blocked by Lu Ming.

In the sky, a burly figure appeared.

Defender!

This person is really the guardian of Fengyun Mountain and a descendant of the barbarian god.

The guard was really standing in the void, exuding a violent breath from his body, staring at the landing clan, and said, "This battle is over, let it all go!"

This remark made other people very surprised, especially the Dragon League.

The town guards actually intervened in person. According to the rules, the town guards are not allowed to intervene in the battles in the famous mountains, and let them develop.

Only when people from other famous mountains attack this famous mountain will he intervene.

How is this going?

"This is the end, rest assured, when I kill Bark, this battle is over!"

Lu Ming said coldly.

"You don't understand what I mean? It's pretty sturdy, you can't die. From then on, you and Fengyun Mountain are half of you!"

The defender said coldly.

"Ha ha ha, half a person? Ridiculously, the succumb is my defeat, what qualifications are half of me? Also, as a guardian, you can't intervene in the affairs of the famous mountain. Why should you intervene?"

Lu Ming shouted.

"Bold, don't think that you have some talent, you can talk to me like this, I want you to die, it's not much harder than pinching an ant!"

The defender Morin coldly said.

"Don't mind the guards, the people of Qi Tongshan came to attack us. You don't intervene to stop it. Instead, we are fighting inside now, but you want to stop it. I must report it to the law enforcers. You should wait for the penalty!"

Lu Ming shouted.

"Stubbornness, find death!"

There was a strong murderous, terrifying breath in the town guards, which erupted in an all-round way, forming a terrible pressure, which enveloped Fengyun Mountain.

Some were weak, unable to resist this pressure, and sat on the ground with a thud, pale.

"Since you are looking for death, then kill you completely!"

The defender spoke indifferently, his right hand held high, and a huge axe came out, exuding terrible coercion, and was about to slash to the landing.

Lu Ming's face was extremely dignified.

The strength of this defender is definitely more than four times that of the prince. It is too strong. It is definitely not something he can confront, and he can easily kill him.

But it is impossible for Lu Ming to ask this person for mercy.

"Do you dare to do it, I promise you a miserable death!"

At this moment, a distant voice came from the horizon.

Hearing this sound, Lu Ming's eyes lit up and he was overjoyed.

Because this is the voice of the gods.

Lu Ming hurriedly looked over. From the distance, a figure came out into the air, and the speed was extremely fast.

Who is it not a pantheon?

But the pantheon came alone, and the blue merchant was not around.

"All gods, are you okay!"

Lu Ming asked quickly.

At the beginning, they were chased by the barbarians. Pantheon was seriously injured and comatose. The injuries were extremely serious. Lu Ming was quite worried.

"It's okay, it has been cured already!"

All gods smiled.

"Boy, who are you?"

The defender's eyes narrowed slightly, looking at the gods.

"his friends!"

All gods said Lu Mingdao.

"Aren't you from Fengyun Mountain?"

The defender said.

"No!"

Pantheon.

"Not from Fengyun Mountain, then go, you are not qualified to take care of things here!"

The keeper keeps cold.

Lu Ming was really angry, this guardian was really shameless.

The people of Qi Tongshan came to him regardless, now that the gods are coming, he will manage?

Wanshen ignored the defender directly, looked at Lu Ming, and said: "Lu Ming, what are you going to do, continue to do, this guy, give it to me!"

"it is good!"

Lu Ming nodded and walked towards Bark.

"Bold, die!"

The defender was furious, and with a wave of his palm, the huge battle axe slashed towards the landing.

"I see you dead!"

The gods shouted, the stone spear appeared, became huge, penetrated the void, and hit the huge battle axe, the battle axe shattered directly.

The spear kept killing the guard.

"you..."

The defender was shocked, but he never expected that the gods had such a strong strength that they could defeat his tomahawk with one stroke.

Although it was just a battle axe that he condensed with divine power, it was amazing enough.

"Dare to shoot the town guards, to death!"

The defender took a cold drink, stepped out, the world shook, and the terrifying divine power erupted like a volcano.

"Wild fist!"

The defender snorted, and his fists were continuously swayed, instantaneously dozens of fists, dozens of fists, like rows of mountains and seas, blasted towards the gods.

With a fist, the void burst, and the power was terrifying.

The gods' faces were calm, the stone spears shook, and dozens of strokes were pierced in an instant. There seemed to be dozens of stone spears in the sky, bombarded with the opponent's punches.

Chapter 3439: Pinch

The attack of the pantheon collided with the attack of the defender, and the world was trembling. Then, the pantheon drifted back, and the punches of the defender all disappeared.

blocked!

Everyone was dumbfounded.

It seems that the gods are definitely young people, but they can actually block the attack of the town guards. This talent is too scary.

The key is that the cultivation of the gods is in the realm of the gods, how can it appear here?

Here, don't let the Divine King enter, and once someone breaks the Divine King, they will be sent away.

"Shen Jun Realm, how did you come in?"

The defender shouted.

"How do I get in, do you need to control it? Or take care of yourself!"

The pantheon erupted into the sky, and stepped out. The stone spear became huge like a mountain and pressed towards the defender.

"kill!"

The defender shouted, and his body shone brightly. This time, a bronze tomahawk came out.

This is the original secret technique of the defender.

The defender moved his true form and killed all the gods.

boom! boom! ...

The two fought a fierce battle, the sky kept shaking, and every collision seemed like a star burst.

For a time, it was difficult to tell the difference.

"This **** is cultivated for...this..."

Lu Ming was shocked and shocked by the cultivation of the gods.

Before they came into this world, the cultivation of all gods was a double of divine monarchs.

But now the cultivation of the gods is definitely not only the double, but even more than the triple.

Judging from the masters Lu Ming has encountered before, the cultivation of the pantheon has reached the terrible prince four levels.

How long does it take? The cultivation of the gods actually broke two more levels and reached the four levels of the **** monarch, which is too horrible.

Divine Monarch Realm, how fast can you practice?

"It seems that Pantheon must have had adventures during this time!"

Lu Ming moved.

Also, this world is related to primitive gods everywhere, and the pantheon is evolved from the bloodline of dozens of primitive gods. The talent is too scary. In this world, it is like a fish, with a little chance, it will advance by leaps and bounds.

In a blink of an eye, the pantheon and the defenders fought hundreds of moves.

The more the guards frightened, the more terrifying they were.

But he was the cultivation of the six peaks of Shenjun, but he couldn't help but a young man.

Below, Mang almost scared to death.

The defender is his backer. Now, his backer is blocked. Who will save him?

bump!

Lu Ming stepped out and walked towards Bark.

"Now, see who can save you, die!"

Lu Ming spoke indifferently, with a huge figure, looking down on the bark.

"Help!"

Bark screamed and called for help from the town guards.

"Boy, get out of here!"

The defender shouted, and his body swelled up sharply, turning into a giant with a height of one million meters.

The defender has also cultivated the barbaric **** body, and has been trained to the ninth change, the strength is very amazing.

The bronze giant axe became so huge that an axe was chopped out as if it could open up to the heavens.

The gods were fearless, and with a long roar, his body exuded a dazzling brilliance, and a series of primitive secret techniques flew out, breaking the void, and killing the defenders.

There are eighteen kinds of original secret techniques, more than before.

Boom...

A series of explosions came, and the defender's attack was blocked.

"Eighteen secrets, how is it possible? Also, your primitive god..."

The guards shouted in shock, and their pupils contracted sharply, as if they saw something incredible.

He can become a guardian. When he was young, he was also a peerless arrogant, otherwise how could he awaken the original secret technique and cultivate the original **** body to the ninth change.

It can be said that his strength, among the same level, is top-notch. The six-folded ordinary **** is not his enemy.

But now he takes the practice of being twofold higher, but he can't help the gods.

The gods not only controlled the 18 kinds of source secrets, but each of the source secrets realized the extremely deep fire.

Moreover, the **** body of the pantheon is too scary. Although it is only the size of an ordinary person, it completely surpasses the ninth change of the original **** body.

What kind of monster is this?

Faced with the storms of pantheon, the defenders are too busy to protect themselves.

Bark showed a desperate look and turned to escape.

"Master Bark, go away, let's hold him back!"

A dozen old barbarians rushed over.

These old barbarians are coming to the limit, they are not afraid of death, and they want to keep Bark.

With the talent of Bark, he will definitely become a giant of Barbarians in the future, and he must not die here.

More than ten years old barbarians are the cultivation of the Peak God King, and they are all three awakenings of the original Divine Power Factor. It can be said that the combat power is extremely strong, surpassing the ordinary Peak God King.

But now facing Lu Ming, he is vulnerable.

"kill!"

Lu Ming drank coldly, the battle sword burst out, a tremendous sword light, swept through the void, accompanied by a huge lightning, slammed toward the barbarians and old men.

Bang Bang Bang!

These barbarian elders were first struck by lightning and then struck by lightning. They exploded directly and fell on the spot.

More than a dozen barbarian old men died instantly.

Now the general peak **** king, in Lu Ming's hands, can't bear a blow, not to mention, now also added the ball.

Beheaded and killed a dozen barbaric elders, Lu Ming continued to walk towards Bark, grabbing with a big hand, and barking toward Bark.

Mang uttered a desperate scream. Although he tried his best to resist, it was useless and was directly caught by Lu Ming.

Lu Ming is 100,000 meters tall and grabs the bark, just like grabbing an ant.

"Send you on the road!"

Lu Ming spoke indifferently, squeezing hard in the desperate eyes of Bark, Bark screamed, his body exploded directly, and fell to the spot.

"go!"

Bark was killed, and the remaining barbarians, who dare to stay, fled out of Fengyun Mountain, fearing that Lu Ming would be liquidated.

Lu Ming was too lazy to pay attention to these little ones and watched the battle in the sky.

"It's amazing. It turns out that the original secret technique can still be used in this way. Is this a shackle?"

Lu Ming looked at the mysterious technique of the origin of the gods and sighed.

Every kind of original secret technique has infinite potential, and there is great potential to be tapped.

The original secret technique of the awakening is only the most superficial application.

Like a pantheon, the power of the original secret technique is exerted to an astonishing level.

The same is the gate of domination. When the pantheon is used, a vortex will appear, and a roar will sound inside, as if there are terrifying creatures to rush out.

There are other mysteries, all of which burst into amazing power.

Lu Ming heard that every kind of primal secret technique is covered with heavy shackles, but it is invisible to the naked eye and can't be sensed. You can sense it only when you realize a certain level of

this kind of primitive secret technique. As long as the shackles are cut off, the power of the original secret technique will skyrocket.

Chapter 3440: Pantheon

This shackle is like a seal, which seals the original power of the original secret technique. Once the seal is unlocked, the power will explode.

There are more than one yoke on each mystery of the original source. It is said that it is completely cut off, and the power will not be weaker than the power exerted by the real primitive gods. The power can shock the sky and break the universe.

Of course, trying to break the chains is even more difficult than even awakening the original secret technique.

Up to now, Lu Ming has not seen anyone else who cut off the shackles of the original secret technique except for the gods, and Lu Ming has not been able to do it.

The gods are fighting fiercely with the defenders.

"kill!"

The gods shouted, the more and more courageous the war, the stronger and stronger the fighting intent.

The defenders were more and more startled in the Vietnam War, and their fighting intentions became weaker and weaker.

bump!

Finally, the guardian was careless and was hit in the forehead by the door of dominance by the gods, his body suddenly retreated, and the dizzy head was directly beaten.

If it weren't for him to cultivate a high level and become the ninth change of the barbaric **** body, the defense power is extremely amazing. I am afraid his head has blossomed.

Even so, he was still dazzled, a big bag in his forehead, and a high bulge, followed by anger and anger.

The presence of the guardian of a famous mountain in his hall, the existence of the six peaks of the Divine Monarch, was actually hit by a young man, which is a shame.

Roar!

The defender made a crazy roar, intending to burn the divine power and desperately, and desperately want to cut off the gods.

"enough!"

At this moment, a majestic voice came from above, and then a strong pressure burst out.

The defender and the pantheon were overwhelmed by this pressure, and they couldn't bear it. Their bodies shook and they retreated.

In the high sky, an old man in grey walked down into the air and fell between the guard and the gods.

"Master Law Enforcer!"

Seeing the old man, the defender's face changed, and he quickly bowed his fists and saluted.

"This is the law enforcer?"

Lu Ming moved, he had long heard that there are three law enforcers in the world, above the defenders, but he has never seen it before, only to see it today.

"Old man, don't stop me, I will kill him!"

All gods shouted.

"Whoever kills is not necessarily!"

The defender said coldly.

"Shut up!"

The law enforcer snorted and looked at the guard, so that the guard did not dare to say anything.

Afterwards, the law enforcer looked at Wanshen again, revealing a wry smile, and said, "Panshen, looking at the old man's face, this matter is all right, how?"

It seems that the law enforcement and the gods know!

"Humph, this guy, I will kill him sooner or later!"

The gods snorted coldly, and gave the town watcher a cold glance.

The defender's face was ugly, but he didn't say much. He knew that today Lu Ming couldn't help but he himself would be punished.

"I've gotten a rough idea of the course of this incident. It's pretty rude. You have indulged other people from the famous mountains to interfere with Fengyun Mountain. You have violated the rules. Do you know?"

The law enforcement said coldly.

"Subordinate convicted!"

The barbarian's barbarous bowed his head.

"Well, since convicted, then deprive your guardian of the power, go back and wait for the punishment!"

The law enforcement officer waved his hand.

"Yes!"

Nodded headlessly, then turned into a rainbow, flew in one direction, and left here.

"Lu Ming, are you okay!"

After being able to leave, Pantheon flew over and watched Landing worries rather worriedly.

"I'm fine!"

Lu Ming smiled, his body shrank and became the size of an ordinary person.

"Oh, where have you been this time? Also, Uncle Lan, isn't he with you?"

Lu Minglian asked several questions.

"As soon as the two of us came in, we appeared in an underground palace. The cultivation environment there was very good. I practiced for more than a hundred years. The cultivation practice broke through twice, but Uncle Lan had better luck and he got a kind of Qi Yu, I'm retreating there now. I believe you will come to you after the cultivation is over!"

Pantheon.

Lu Ming breathed a sigh of relief when he heard that Blue Merchant was fine.

"By the way, Lu Ming, I came to see you this time to leave you!"

At this moment, the gods said suddenly.

"Farewell?"

Lu Ming was stunned. The gods said goodbye to him. Where are they going?

Lu Ming's eyes looked at the law enforcers involuntarily.

Instinctively, Lu Ming felt that this matter had something to do with law enforcement.

"The gods will follow the old man and go to the deep world!"

The law enforcement walked over.

"Deep world?"

Lu Ming was puzzled.

"Yes, since you are a friend of all gods, you will know sooner or later, it's okay to tell you, in fact, this world hides a big secret, beyond your imagination. The world you are in now is just the outer world, the real core, in the deep world!"

Law enforcement officer explained.

"There is still a deep world, where is the entrance, why haven't you heard, wait... that door?"

Lu Ming's thoughts changed sharply, and he suddenly thought that when he first entered the world, he found a huge, looming gate in a mountain range.

Could it be that the door is the door to the deep world?

"You should have heard that as long as you cultivate above the Divine King, you will be sent away. I tell you that some people have entered the deep world to practice, and some people are sent back!"

The law enforcement explained again.

"Yeah Lu Ming, that deep world, I've been there for a while, that world is too suitable for me, so I want to say goodbye to you!"

A thousand ways.

"Yes, the pantheon is the most talented and the most suitable for the original gods among the people I have seen. It is incredible. If he enters the deep world to practice hard, the progress is absolutely amazing. He can definitely advance by leaps and bounds. I can hardly predict him. Achievements!"

Law enforcement said.

"Go!"

Lu Ming smiled, looked at the gods, and said: "Practice well and strive to get to the top as soon as possible!"

Lu Ming knew very well that the pantheon was evolved from the blood of dozens of primitive gods. The talent is too horrible, and this world is the world of primitive gods. It is too suitable for the gods to stay and practice here.

Absolutely can make rapid progress. Following him will only waste talent. He is also happy for the gods.

"Lu Ming, I will definitely work hard, go out and help you soon!"

The gods said firmly.

"Okay, I'll wait for you!"

Lu Ming smiled.

"Also, I will leave the coordinates here. Uncle Lan will find it here when he goes out!"

Speaking of which, Wanshen came over and gave Lu Ming a hug and said, "Lu Ming, take care!"

"Take care!"

Lu Ming responded with a smile.

Subsequently, Pantheon followed the law enforcers, stepped into the air, and disappeared here in an instant.

After the law enforcers left, the scene was quiet, and everyone's eyes fell on Lu Ming.

Now Bark is dead, Fengyun Mountain, Lu Ming is the king.

"Do you want to surrender or leave?"

Lu Ming's eyes looked at those who were originally Barbarian.
