

D Emperor 3441

Chapter 3441: Fourteenth famous mountain

In the Barbarian League, the people of the original Barbarians have long left, and the rest are all from the arrogance of various races.

When Lu Ming's eyes came to him, these arrogances looked at each other and then clenched their fists at the same time, saying: "I'll wait to return to Longmeng!"

"Okay, then stay in Fengyun Mountain. The proportion of the original Shenjing turned over is the same as the others in the Dragon League!"

Lu Ming said.

As for some people in the Dragon League who originally wanted to deal with Bo Yi and others, he was too lazy to deal with it.

In this world, there is no loyalty. Everyone is cooperative and passers-by. Once everyone leaves here, no one can control anyone.

As long as these people can condense the original **** crystal for Lu Ming, Lu Ming is too lazy to control.

Then, Lu Ming ordered to continue to integrate Fengyun Mountain. The entire Fengyun Mountain was completely owned by Lu Ming and was unified and became the twelfth famous mountain to be unified.

"Leader, you killed the three deputy mountain owners of Qitong Mountain, be careful of the revenge of the mountain leader of Qitong Mountain!"

At this time, Boyi flew over, his face dignified.

"Oh, Master Qitong, what is your strength?"

Lu Ming asked.

"Very strong, although it is also the cultivation practice of the pinnacle **** king, but the original **** body has already reached the ninth change, far above the bark and others, it is absolutely easy to kill the bark and others!"

Boyi Road.

"Does the ninth change?"

Lu Ming whispered.

His ancient **** body has also practiced to the ninth change, and it is the peak of the ninth change. If it matches the ball, it may not be able to fight against the Qitong Mountain Master.

"However, thirty years later, the legendary fourteenth famous mountain is about to be opened, so all the famous mountain owners are retreating hard to improve their strength. Fortunately, when the fourteenth famous mountain opened, Get a chance!"

Boyi Road.

"The fourteenth famous mountain? There are fourteen famous mountains?"

Lu Ming was shocked when he heard it.

Isn't there only 13 famous mountains?

"Have you not heard of it?"

Bo Yi was surprised. Lu Ming shook his head. He was the first to hear that there were 14 famous mountains.

"The fourteenth famous mountain is very special. It is completely different from other famous mountains. It is in a state of seal all year round, and it will only be opened every long time!"

"Once opened, outsiders can enter. The fourteenth famous mountain is very different from other famous mountains. There are great fortunes and great opportunities in it. I heard that someone once brought out the fresh blood of the original gods from it, thus successfully breaking through the original gods. The ninth change limit, entered another unpredictable level, condensed a drop of blood of the original gods in the body, so that the gods get mutation!"

Boyi explained.

"The blood of primitive gods?"

Lu Ming's pupil shrank.

In the world today, there is no longer the primitive gods, let alone the fresh blood of primitive gods.

This is definitely a precious treasure for those who cultivated primitive gods, and the effect is unimaginable.

"How come there is fresh blood, is there a living primitive **** in the fourteenth famous mountain?"

Lu Ming was puzzled. If that was the case, it was really explosive news.

Bo Yi shook his head and said, "There are no primitive gods alive, but there are several sayings. One is that in the fourteenth famous mountain, a primitive **** was once bred, but it has not yet fully conceived and appeared. The accident caused the primitive deity to fall, leaving blood behind. Due to the special geographical location, the blood has been kept and kept fresh!"

"Another way of saying is that there was a primitive deity who was seriously injured and died. He returned to the fourteenth famous mountain and sealed his blood in that famous mountain. However, there are many opinions and it is difficult to have a unified statement!"

"It turns out so!"

Lu Ming nodded.

"Actually, there are many famous mountain owners, whose cultivation can already attack the Divine Monarch and break through the Divine Monarch Realm, just to wait for the fourteenth famous mountain to appear, and keep suppressing the cultivation, stay here, just want the big inside. Opportunity!"

Boyi explained.

Lu Ming nodded and understood.

Generally speaking, the cultivation of the primitive **** body to the ninth change is the limit.

If you want to make a breakthrough in the next step, you must condense a drop of real primitive **** blood in your body. In this way, the primitive **** body will break through, and the closer to the primitive god's physique, the power will be terrifying.

But it is too difficult to practice on your own.

Once you get a drop of blood of primitive gods, refining this drop of blood, with the power of blood, you want to condense your own blood, it is much easier.

"Oriental bird of Qitong Mountain has been closed, but if it is heard that the three deputy mountain owners have been killed, it is likely that they will go out of the customs and find trouble with the leader!"

Boyi was worried.

"According to the rules, he can't directly kill Fengyun Mountain!"

Lu Ming said.

Now that the barbarian town guards have left, there will surely be new town guards who will come and will naturally handle it impartially.

"According to the rules, it is impossible to come in and interfere with things inside Fengyun Mountain, but the other party can challenge you, in the name of personal grievances, the guards will not control!"

Boyi Road.

"Oh, anyway, during this time, I am going to retreat and practice. Once the Oriental Sparrow comes to challenge, you use this jade card to notify me!"

After talking, Lu Ming took out a jade card, and then dropped a drop of blood on the jade card.

The jade brand flashed, and the drop of blood disappeared.

"At that time, as long as you crush this jade card, I can feel it even when I'm closed!"

Lu Ming said.

"it is good!"

Boyi nodded, then put away the jade card.

Lu Ming was alone, heading towards the gap leading into the famous mountain.

The outburst of primordial energy here is basically over, and there is no one around.

Lu Ming looked at it and found that when no one was around, he rushed into the gap, and then took out the copper copper coffin and flew down.

Soon, Lu Ming came underneath, sitting cross-legged, and a copper copper coffin suspended above Lu Ming's head, spilling a special breath, blocking the pressure from outside.

Then, in Lu Ming's hands, there were four more storage rings.

These four storage rings were obtained from the hands of Mank and Lin Xin.

Lu Ming was quite looking forward to it. It is needless to say that Lin Xin and others, as the deputy mountain owners of Qitong Mountain, do not need to condense themselves, and have divided. How many original **** crystals have accumulated over the years?

Lu Ming opened it and explored them one by one.

Even with preparation, Lu Ming's heart was still beating violently after the investigation.

Sent, really sent.

Mang has been in control of Mangmeng for a short time, but there are more than two million primitive **** crystals in the storage ring.

The main reason is that there are many people. There are tens of thousands of people under the barbarian league. No one can condense a primitive **** crystal in a month, and twelve in a year.

90% is turned in, at least 10 yuan is to be turned in, 10,000 yuan is turned in every year.

Therefore, over the years, Mangke has also accumulated more than two million primitive **** crystals.

Chapter 3442: Breakthrough

The most amazing is the three Lin Xin.

The three of them are the deputy mountain owners of Qitong Mountain, and their separation is not so high, but they have been here for a long time, at least for thousands of years, and even for thousands of years.

Each of them has tens of millions of primitive **** crystals in their storage rings.

The three add up to more than 30 million yuan.

Really sent.

The primitive Divine Crystal is of great use to Lu Ming. Not only does he have to practice himself, but after going out, he plans to build the Hades of the Apes, transform the Hades of the Apes with primal spirits, and allow the Hades to fight the primitive gods, However, cultivation must require primitive **** crystals, otherwise progress will be too slow.

Only with the original Divine Crystal can rapid progress be achieved.

The original God Crystal, the more the better.

After tidying up, Lu Ming was in a good mood. After a while, Lu Ming adjusted his mood and then began to meditate.

Suddenly, Lu Ming entered a wonderful state.

His body seemed to be wrapped in a layer of warmth and was extremely comfortable, as if he were the original **** that was conceived.

In this mysterious state, his understanding of the source divine power factor and the source divine power are all fast.

In thirty years, the fourteenth famous mountain will be opened. It contains fresh blood of primitive gods and other opportunities. Lu Ming is also excited and does not want to miss it.

But those famous mountain owners are not so good to deal with, one is stronger than the other.

According to Bo Yi, some famous mountain owners are too strong.

Prior to this, there were eleven famous mountain and mountain owners, undoubtedly, the eleven strongest in the world.

The Eastern Bird of Qitong Mountain, ranked eleventh, is the weakest among the eleven mountain owners.

Lu Ming has no confidence in meeting those people and must improve his strength.

Lu Ming is in control of eleven primitive divine powers. Naturally, it is impossible to comprehend together, but the same.

First of all, Lu Ming began to understand the overlord's gun power.

Originally, Lu Ming had the deepest understanding of the dominance of the divine power, but this year, Lu Ming used the Ba Shen Gun the most, and the most convenient, and the more he used, the deeper the nature of the understanding, and gradually exceeded the **** divine power.

From the beginning, Lu Ming's comprehension of the overlord's divine power made rapid progress.

Overlord Divine Power, at an alarming speed, started from three awakenings to four awakenings.

It was only a year later, Lu Ming exuded a more intense and ancient atmosphere, the fighter's gun power was dazzling, covering Lu Ming's entire body, and turned into countless small guns.

"Breakthrough, really breakthrough, four awakenings!"

Lu Ming was ecstatic.

Originally, although the gun power of the Overlord was the most profound, it didn't take long to break through three awakenings. I wanted four awakenings.

But now, only one year has passed. Lu Ming's overlord gun power has reached four awakenings. This speed is really terrifying.

This is simply open, cheating!

"Keep going..."

Lu Ming took over the gun power of the overlord and began to realize the dominance of the master.

It was also a year or so that the master divine power broke through again, reaching four awakenings.

Then there is the lunar power...

The speed of cultivation is so amazing that the various magical powers behind it break through once a year on average.

In ten years, in a flash, Lu Ming already had nine kinds of divine power, reached four awakenings, and there were two remaining.

When Lu Ming came here for thirteen years, the remaining two divine powers all reached four awakenings.

At this time, Lu Ming eleven kinds of divine power, all awakened four times, so that his strength skyrocketed.

"Now, although my cultivation base is still the Seventh King of Divine King, my divine power should not be weaker than those of the Four Peak Awakening King King!"

Lu Ming smiled confidently.

Before, his divine power had been awakened three times, and it was too bad for those four peak awakenings.

The revision is inherently weak, and the source divine factor is awakened and weak. Even if it triggers a five-fold combat power, it is still not enough to make up for the gap. It must be coordinated with the ball to make up for the gap.

But now, he has not lost any money in cultivation and spiritual power.

"Now, let's start to enlighten the original secret technique. See if you can enlighten the remaining divine power!"

Lu Ming thought.

He now awakened a total of six kinds of primitive mysteries, namely, the Gate of Domination, Overlord Spear, Sword of Deficiency, Moon in Lunar Moon, Sun Day, Horn of Taikoo Dragon.

There are also five kinds of divine powers, without awakening the original secret technique, namely the magic power of the Dao, the divine power of the wind, the divine power of the heavens, the divine power of the heavens, and the divine power of the eyes.

First of all, Lu Ming realized the magic power of the magic road.

It is very difficult to awaken the original secret.

Every kind of divine power seems to be covered in layers of mist, which can't be seen clearly or touched.

However, in such an environment, it seems that there is a mysterious power, turning the fog away, so that Lu Ming can see the essence of a divine power.

In just one month, Lu Ming succeeded.

The demonic qi filled, a stone warrior, filled with terrifying magic qi, suspended above Lu Ming's head.

This is the original secret technique awakened by the magic power of the magical road, the blade of the heavenly demon.

Lu Ming held the blade of the heavenly demon and cut it out with a knife. The vast blade of the sword was cut towards a side wall, making a sonorous sound and sparks.

Of course, the walls here are not open by Lu Ming, and no traces are left.

But Lu Ming is already very satisfied, the attack power of the Sky Demon Blade is very strong, and has the overbearing power of the magic road.

"Then the second kind is the wind extinction power!"

Lu Ming put away the Blade of Heavenly Demon, and began to understand the power of extinct wind.

This kind of open cultivation environment is hard to come by. Lu Ming does not want to waste a minute of time and seize every moment of cultivation.

In the past month, the original secret technique of extinct wind power awakened!

A pair of stone boots emerged, surrounded by this breeze, full of devastating power.

Windbreaker boots, this is the name of this original secret technique.

"Try the power!"

With a move in Lu Ming's heart, the Windbreaker's boots flew to his feet and merged with his feet.

Uh!

With a move in Lu Ming's heart, his figure burst out into a ray of light and shadow at an alarming speed, appearing thousands of miles away.

"What an amazing speed!"

Lu Ming was overjoyed.

When he uses the Windbreaker's Boots, he can increase his speed exponentially. If he works with the Nine-day Kunpeng Technique, his speed will increase.

Most of the original secrets he had awakened before were mainly attacks. His attacking methods were enough, and now there is finally an auxiliary source secrets. He is naturally overjoyed.

The Horn of Xiangtai Ancient Dragon, although it does not look like an attack-like source secret technique, but the specific mystery, he has not discovered it.

And he feels that the boots of the wind-breaking are not only fast, but also full of destructive power, and the attack power is also amazing.

Chapter 3443: Great Eastern Sparrow

"There are three remaining divine powers that haven't awakened the original mystery. I hope that these three kinds of auxiliary mysteries will appear!"

Lu Ming was looking forward to it.

To be honest, he has enough of the original secret technique of attacking, and it is enough.

Sometimes, the auxiliary source of the secret technique can play a big role.

For example, the boots of the wind, can save lives at a critical moment.

Lu Ming was preparing to continue his cultivation. At this time, he looked slightly and waved his hand. A jade sign appeared in his hand.

The jade brand is shining.

"Boyi is looking for me. It seems that Naqi, the mountain bird, is out of the customs!"

Lu Ming moved.

"Huh, then make a quick decision, solve this Oriental Sparrow, come back to practice again!"

Lu Ming snorted coldly, then his body rose to the sky and flew upward.

The west of Fengyun Mountain is surrounded by people at the foot of the mountain.

On a bluestone, a young man in fiery red robes sat cross-legged and blocked the entrance of Fengyun Mountain.

This person is the owner of Qitong Mountain and Oriental Sparrow.

He had been retreating before, but when he went out, he heard that the three deputy mountain masters were killed. He was furious and killed Fengyun Mountain.

Of course, he could not kill in Fengyun Mountain, because the new guardian stopped him.

He can only block outside Fengyun Mountain and challenge Lu Ming.

The people of Longmeng looked at the Oriental Sparrow on Fengyun Mountain.

There are also a large number of people outside Fengyun Mountain.

These people, some from Qitong Mountain and some from other famous mountains, heard the Oriental Sparrow challenge the leader of the Dragon League, so they hurried to see the lively.

"Lu Ming, let him get out and die!"

A young man in Qi Tongshan shouted, roaring like thunder, and thunder exploded.

"We said that, our leader is in retreat, want a battle, and wait until he goes out!"

Boyi answered.

"Huh, I think he is afraid. When he shrinks his head tortoise, he dare not fight our mountain master, so he hides!"

The young man of Qi Tongshan sneered, full of ridicule.

Boyi and others looked ugly and did not answer.

"Then Lu Ming can't come out, we are stuck outside Fengyun Mountain, don't you think about it, stay in Fengyun Mountain all your life!"

The young man of Qi Tongshan said coldly.

Although they can't kill Fengyun Mountain, if the people of Fengyun Mountain come out, there is no limit, they can attack at will.

"Have you sent a message to the leader?"

In the Dragon League, someone secretly asked Bo Yi.

"The news has spread, I believe the leader will arrive soon!"

Boyi Road.

"Even if it's there, it's dangerous. The Oriental Sparrow has been sitting in the same mountain for many years. Its strength is extremely strong. Is the leader the opponent?"

"Yeah, in this world, no one can fight the Eastern Sparrow except ten other mountain owners!"

Many people in the Dragon League showed concern.

Relatively speaking, Longmeng gives the best treatment, and they don't want Lu Ming to be killed in this way.

"After the leader comes, we persuade the leader to tell the leader to be patient and not to fight. There is no way for the Oriental Sparrow. We stay in the Fengyun Mountain and practice with peace of mind. I don't believe that the Oriental Sparrow can block for a lifetime!"

"Good, wait a minute to persuade the leader!"

Many people are talking.

"The leader is here!"

Suddenly, someone called out.

Everyone looked in one direction, and in that direction, a young man came out of the air, not Lu Ming, but who could it be?

Soon, Lu Ming came to Bo Yi and others.

"Lu Ming, you are finally here!"

The Oriental Sparrow stood up, and a huge breath burst out. He was filled with flames, and the horror of high temperature caused the void to twist.

"Are you a Oriental Sparrow?"

Lu Ming said lightly.

"Not bad!"

Oriental Sparrow responded.

"What are you doing with your people, outside my Fengyun Mountain? Disturb our cultivation, do you know, my time is precious..."

Lu Ming shouted.

After seeing the anti-sky cultivation effect inside Fengyun Mountain, Lu Ming really wanted to stay in it all the time, and his time was really precious.

But Oriental Sparrow thinks Lu Ming is humiliating him.

The flaming flames all shivered.

"Lu Ming, you killed me three deputy mountain owners of Qitong Mountain. Now I officially challenge you and get out of battle!"

The Oriental Sparrow shouted.

"It turned out to be a battle, come on, don't talk nonsense!"

Lu Ming said nothing, and stepped out, the figure rushed out.

"Leader..."

Many Longmeng people were dumbfounded. They had wanted to persuade Lu Ren, but before they could speak, Lu Ming rushed out impatiently, as if in a hurry.

At the moment of rushing out, Lu Ming's hand gun speared out, and just when he saw the Oriental Sparrow, he had already started to trigger the war character formula, and now he has successfully triggered the war character formula five times the combat power.

boom!

The tyrant gun was like a mountain, pressed down towards the Eastern Sparrow, and the void was violently shaking, as if squeezed by something, like a stream of water, sweeping towards both sides.

"Skyfire Bow!"

The Eastern Sparrow screamed, and the flames on his body were more intense. At the same time, a fiery red long bow appeared in his hand. A bowstring was pulled, and a fiery red arrow pierced the void, and flew towards the landing, speed. It's almost amazing.

boom!

The fiery red arrows collided with the Ba Shen Gun, bursting into a violent roar, like the sun exploding, and the hot flames filled all directions.

The Ba Shen Gun shook away all the flames.

"The original secret technique of the bow and arrow type? No, just a common secret technique!"

Lu Ming's eyes moved.

At this time, the Oriental Sparrow continued to work, the divine power surged, and the long bow suddenly became larger, and with a buzz, there were dozens of huge arrows suddenly flying towards the landing.

The terrible roar, the void on the side, and the temperature between heaven and earth are rising sharply.

Lu Ming wielded the tyrant gun and killed it. At the same time, he ruled the door and the sword of breaking the virtual appeared. From two other directions, he killed the Eastern Sparrow.

The Eastern Sparrow's eyes were cold and waved, the arrows, the rapid change of direction, turning around in the air, blocking the gate of the ruler and the sword of breaking the virtual.

The Oriental Sparrow is worthy of being a peerless genius, and cultivates a common mystery skill not weaker than the power of the original mystery skill.

The bow string continued to vibrate. This time, hundreds of arrows hit Lu Ming.

"Shenlong Faxiang!"

Lu Ming stepped out in one step. Ninety-nine nine-clawed dragons appeared between heaven and earth, rushed out and blocked all these arrows.

If it was before, he wanted to stop it, I am afraid it was not so easy, because the Oriental Sparrow obviously awakened four times, but now, Lu Ming's eleven magical powers are also awakened four times. Still all blocked.

"No more temptation, let's be real, I don't have time to spend with you!"

Lu Ming said coldly, the man and the gun were united, broke two arrows, and killed the Eastern Sparrow. The Eastern Sparrow's face changed, its body flashed like a ray of fire, and it retreated tens of thousands of meters.

Chapter 3444: runs fast

"A little strength, no wonder he can kill my deputy mountain master, kill!"

The Oriental Sparrow shouted loudly.

Karma!

Then, a sharp cry came, and the body of the Oriental Sparrow grew rapidly, and finally turned into a huge flame bird.

To be precise, it is a flame sparrow, which is the body of the oriental sparrow. He is not a human race, but a flame sparrow of the gods and beasts.

This is not over yet. After turning into a flaming bird, his body swelled up again, and finally became a million meters in size, covered in flames, and looked from a distance, like a sun.

The original **** body!

This is the original **** body of the other party, which turns into a primitive **** sparrow.

"Die to me!" The Oriental Sparrow shouted, flapping its wings, countless feathers flew out, turned into countless arrows, and shot at Lu Ming.

"This is the ninth change of the original **** body!"

"It's terrible, back away!"

The people who watched the battle all around backed off again and again, daring not to approach.

The Oriental Sparrow turned into the ninth change of the primitive **** body, and its wings were thousands of arrows. The coverage area was too wide, and they did not dare to stay.

If it is hit by an arrow, there is only one way to die.

"Windbreaker Boots!"

In Lu Ming's heart, a pair of stone boots appeared and merged with Lu Ming's feet. Lu Ming stepped out, like a streamer, constantly flashing, faster than the feathers of Oriental Sparrow.

Uh, uh, uh!

Everyone only saw Lu Ming's figure in the sky, dodge the feathers and arrows completely, and all of them hit.

"The original secret technique of the speed class, I think you're fast, or mine fast!" The Oriental Sparrow screamed with a huge body, striking toward the landing with amazing speed.

Huge wings flapped, bringing a terrifying gust of wind, and a sky of flames, and mingled toward the landing, covering this area, even if Lu Ming was fast, it was difficult to avoid for a while.

At the same time, the Oriental Sparrow grabbed Lu Ming with a huge paw, and Lu Ming's body was like a ant.

"The original **** body has not broken the ninth change, and I want to fight me, naive!"

The oriental bird's cold and proud voice sounded, and the giant claw quickly approached Lu Ming.

"Do you think that only your original **** body broke through the ninth change?"

Lu Ming's voice sounded, and then a loud roar came, and then Lu Ming's body suddenly became larger.

In an instant, Lu Ming turned into a giant with a height of one million meters and a golden body.

The ancient armor of the Golden Armor, a terrifying breath, filled all directions and shocked everyone.

"The ninth change of the original **** body is the ninth change of the original **** body!"

"God, Lu Ming's primitive **** body has also been cultivated to the ninth change, how is this possible?"

"No wonder he is so confident that he directly fought against the Oriental Sparrow!"

The scene exclaimed.

Buzz!

Lu Ming turned into the ancient armor of the Golden Armor, feeling that he was full of power. The Ba Shen Gun was shocked and swept out, bringing an endless storm, directly flying the flames fanned out by the Oriental Sparrow, and then collided with the giant claw of the Oriental Sparrow.

boom!

The two sides collided, and there was a tremendous roar, terrifying strength swept across all directions, and then a figure quickly retreated. The figure that retreated was the Oriental Sparrow, and Lu Ming, the figure just wobbled.

"You actually practiced to the ninth change!"

The Oriental Sparrow shouted in shock.

In this world, as far as he knows, no more than fifteen people can cultivate to the ninth change.

In addition to the eleven famous mountain masters, there are also some of the most powerful famous mountain, with several deputy mountain masters practicing to the ninth change. In addition, there is no one else. Unexpectedly, a previously unknown Lu Ming, Actually practiced to the ninth change.

"The ninth change, there is nothing to be proud of, suppress you today!"

Lu Ming spoke indifferently, and his breath was even more violent. He cultivated himself and was promoted to the extreme. At the same time, a sword appeared in his left hand.

At the top of the head, the gate of dominance, the sword of breaking emptiness also appeared.

call out!

The Sword of Breaking Deficiency is the fastest. When it first killed the Eastern Sparrow, the Gate of Domination also suppressed toward the Eastern Sparrow.

Lu Ming held the Ba Shen Gun and the Blade of Heavenly Demon, and stepped on the void to kill the Eastern Sparrow.

Several primitive secret techniques were shot together, the offensive was like a frenzy, and the face was bombarded towards the Eastern Sparrow.

The Eastern Sparrow grows and fights with all its might. His original secret technique is a pair of wings that can inspire endless feathers and arrows to cover the sky.

But Lu Ming avoided the wind boots, one by one, and then he squeezed the gun, and a splendid gun stabs toward the oriental sparrow.

On the other side, the blade of the heavenly demon was chopped out, the blade of the sword screamed, and a huge magic knife traversed the void and cut off the oriental sparrow.

Wherever they passed, feather arrows fell apart.

The Eastern Sparrow was shocked, covered in endless flames, and turned into two flame war swords, blocking the Ba Shen Gun and the Demon Blade, but he himself was repelled by Lu Ming's violent power, and he became the gate of **** and the sword of emptiness. When it fell, he couldn't resist, screamed, feathers fluttered, and his body was almost split.

Today, Lu Ming is not much worse than the Eastern Sparrow in terms of divine power. When all the means are done, the Eastern Sparrow completely loses, and he is injured in a few strokes.

"Flying bird!"

The Eastern Sparrow roared, and his wings of the original secret technique flew out, turning into a terrible blade of light, exuding a hot breath and slashing towards Lu Ming.

He was unwilling to fail, he had to fight back and defeat Lu Ming.

However, the strength gap is there, no matter how unwilling he is.

Boom!

Under the bombardment of several original mysteries, the pair of wings were directly blasted, and the tyrant spear pierced, almost pierced the chest of the Oriental Sparrow, and almost pierced his head.

This time, the Oriental Sparrow was really shocked, scared, shouted unwillingly, and turned and ran.

"Lu Ming, this account, I remember, sooner or later I want you to pay it back!"

The Oriental Sparrow roared loudly, then waved its wings desperately, rushing towards the distance.

"Want to leave, leave me!"

Lu Ming drank coldly, stepped on the void, the speed was astonishing, like a stream of light, rushing towards the Eastern Sparrow, and at the same time, the Sword of the Broken Sky had already caught up with the Eastern Sparrow and slashed down towards the Eastern Sparrow's neck.

The Oriental Sparrow was frightened and quickly moved sideways, finally evading the vital point, but still not completely avoiding it, one wing was cut off and blood spattered into the sky.

The Eastern Sparrow screamed, and was even more shocked in his heart, condensed into wings with divine power, desperately flew forward, and at the same time controlled his original secret technique, slashing towards the landing.

"burst!"

In the end, the Oriental Sparrow roared, his original secret technique wings exploded directly, turned into rolling energy, and rushed to Lu Ming.

Lu Ming wielded the Ba Shen Gun and the Devil's Blade and blasted out continuously, finally blocking the rolling energy, but unfortunately, after such a delay, the Oriental Sparrow had gone far away, and disappeared to the horizon.

"Count you run fast!"

Lu Ming sneered.

After this battle, I believe the Oriental Sparrow dare not commit another crime.

Chapter 3443: Cut off the shackles

At the scene, it was quiet, everyone was shocked to see the landing sound.

"Lu Ming, actually won!"

"What a terrible combat strength, this combat strength is enough to squeeze into the top ten!"

"It's worthy of being able to unify the existence of a famous mountain. It's true, really terrible!"

Many people talked, and many people in other famous mountains flashed their eyes.

Lu Ming's combat power is enough to compete with the top ten strong players, and they have heard that the proportion of the original **** crystal charged by the Dragon League is very low, much lower than other famous mountains.

Only charge 70%, you can leave 30%, other famous mountains, at least 90%.

Many people had an abacus in their minds and wondered whether they should turn to Lu Ming. After all, Lu Ming's current strength was enough to protect them.

"The leader wins!"

The most incredible is the people of the Dragon League.

Lu Ming actually defeated the Oriental Sparrow, which was far beyond their expectations.

Many of them, but watched Landing step by step, grew too fast, and the speed was too horrible.

They are all genius evildoers, but compared with Lu Ming, it is garbage.

"Okay, it's over, it's all gone!"

Lu Ming waved his hand, and then flew back to Fengyun Mountain to collect the original Shenjing accumulated over the past few years. In more than ten years, he can also get income of one to hundreds of thousands of original Shenjing.

After collecting it, Lu Ming instructed Boyi and others to return to Fengyun Mountain for cultivation.

Then, Lu Ming continued to enlighten the original secret technique, and now there are three divine powers that have not awakened the original secret technique.

Afterwards, the practice was very smooth, mainly because the environment inside the famous mountain was so good. It was only half a year, and the remaining three divine powers all cultivated the original secret technique.

Celestial Divine Power, the original mysterious technique cultivated by Lu Ming, is called Celestial Shield, which is a stone shield.

Lu Ming was overjoyed, this is the defensive source of the secret technique, can save life at a critical moment.

When Lu Ming turned into a primitive **** body, although the defensive power was amazing enough, who thought the defensive power was strong? Naturally, the stronger your defense, the better.

In this way, Lu Ming's attacking, defensive, and speed-type secrets are all available, and there is no weakness.

This is absolutely perverted. You must know that these are all mysterious techniques of the origin, which can exert the most power and have unlimited potential.

Others generally can only awaken one kind of original secret technique, which is very simple and requires the practice of ordinary secret technique assistance.

But how can ordinary occult techniques compare to the original occult techniques, and their potential is much worse.

"Next, what should I practice?"

Lu Ming thought.

Now, he has eleven kinds of divine power, all four times awakening, and all awakening the original secret technique.

There are two main directions to practice next.

One is to continue to enlighten the divine power, and to enlighten the original divine power factor, so that the original divine power factor continues to awaken to reach five awakenings.

However, from four awakenings to five awakenings, it is really too difficult. It is important to know that the difficulty of each awakening increases geometrically.

From three awakenings to four awakenings, it takes more than a year. The four awakenings to five awakenings may take hundreds of years.

Yes, even here, it takes hundreds of years. If you are outside, if you want to awaken five times, the time required will be even more terrifying.

Others are based on stellar years.

And now it is only 16 years since the opening of the fourteenth famous mountain.

If we continue to understand the original divine power factor, there will not be much gain in 16 years.

"Then enlighten the source secret technique!"

Lu Ming made a decision.

There are nine yokes on the mystery of the source, and each time you unlock it, the power will increase greatly.

Some primitive secret techniques, such as the Gate of Domination, Overlord Gun, and Lu Ming have been awakening for a long time. Over the years, the fire of understanding has been deeper, and maybe they can make a breakthrough.

"Go to the Ba Shen Gun first!"

Lu Ming thought.

Lu Ming, the Overlord Gun, is the most used, and now it is also the deepest enlightenment, followed by the Gate of Domination.

As soon as the thoughts moved, Lu Ming's gun appeared. He was held in his hand by Lu Ming and placed in front of him. Then he closed his eyes and fell into the ethereal realm.

Enlightenment here, his understanding and comprehension of the Ba Shen Gun is advancing by leaps and bounds, but it is extremely difficult to unlock the shackles above.

Time passed quickly, year after year.

In a blink of an eye, it was fifteen years from the opening of the fourteenth famous mountain, and there was only one year left.

At this moment, Lu Ming finally made a major breakthrough.

"See it!"

Lu Ming's eyes were brilliant, like two rounds of the sun, a magical scene appeared in his eyes.

Nine chains appeared on the Ba Shen Gun, which was locked on the Ba Shen Gun, and like the nine runes, the Ba Shen Gun was sealed.

"Nine Dao Shackles, I saw it!"

Lu Ming's eyes were extremely bright, but soon, the other eight shackles disappeared quickly, disappeared, and only one shackle remained, still emerging.

"Cut me!"

Lu Ming took a light drink, the Ba Shen Gun vibrated, and a powerful force burst out from inside the Ba Shen Gun, slashing the yoke.

This kind of shackles cannot be slashed with external force. For example, Lu Ming cannot touch such shackles by using divine power or soul power. Only the power of the original secret technique can touch it.

Dangdang...

The power of the Overlord Gun constantly bombarded the yoke, and actually made the sound of gold and iron fighting. The yoke continued to vibrate, but it was not broken.

Dangdang...

Lu Ming continued to control the source mystery bombardment. This process lasted for three hours. Finally, there was a gap in the shackle.

"Quick, fast!"

Lu Ming was overjoyed and continued to control the Ba Shen Gun.

Dangdang...

With Lu Ming's continuous bombardment, the gap in the shackles finally became larger and larger. Two hours later, with a touch, the shackles were finally broken.

boom!

As soon as it was bombarded, the Ba Shen Gun flew up, bursting out an amazing force.

"A strong force, this force is several times stronger than before!"

Lu Ming was overjoyed.

When the shackles were broken, it was as if the power of the seal had been released in the Ba Shen Gun.

Lu Ming held the Ba Shen gun and waved it casually, and there was an explosion in the void, and a horrible roar.

"Haha, my strength is stronger!"

Lu Ming was overjoyed.

The Ba Shen gun broke a shackle, and Lu Ming's strength has undoubtedly skyrocketed. If he fights with the Eastern Sparrow at this moment, he can definitely kill the other party easily.

Now, Lu Ming is finally confident and fighting against the top ten mountain owners.

He heard that some of the top ten mountain owners were extremely terrifying, and reached the extreme in all aspects. In fact, they could have broken through the realm of God and King, but they have been suppressing it.

These people have all kinds of terrible means, even if some people have cut off the shackles of the original secret technique, it is normal, Lu Ming will not underestimate the heroes of the world.

Chapter 3444: Murong Qiushui

"There is still a year left, let's get to know the door of the master first!"

Lu Ming put away the Ba Shen Gun and began to understand the door of the master.

A year passed quickly, and Lu Ming could not have made a major breakthrough in a year, but only had a deeper understanding of the Gate of Domination.

"Time is up!"

Lu Ming ended his practice, and then rose into the sky, left here and returned to the Dragon League headquarters.

"Master, you are back, many people are ready to go!"

Boyi Road.

The opening of the fourteenth famous mountain is the top priority in this world, and there will be countless days of pride.

Almost most of Tianjiao will rush over, do not want to miss this rare opportunity.

If you can meet the opportunity in it, you may fly into the sky and become the master of a famous mountain in the future.

After all, now that these famous mountain masters have to leave sooner or later, they cannot stay here all the time, because they need to break through cultivation practice. If they have been suppressing cultivation practice for a long time, they have missed the golden age of cultivation. For future cultivation, there are Great obstacles.

Therefore, some of the strongest arrogance will sooner or later leave.

And these people are gone, and the famous mountains are destined to change owners, which is the opportunity for others to rise.

If you can get a chance in the fourteenth famous mountain, the combat power skyrockets, and when other mountain owners leave and occupy a famous mountain, it is also a great opportunity.

Occupy a famous mountain and stay for thousands of thousands of years, how much can you gain? How many original **** crystals can I get? It is completely unimaginable, even if you leave later, there are a lot of resources, which will be used as capital for future cultivation.

This is endless temptation.

But there are only so many famous mountains. In every era, so few people can become the masters of famous mountains.

This trip to the 14th famous mountain is very important and must not be missed.

In fact, before Lu Ming came back, a lot of people in Longmeng had already left in advance.

"set off!"

Lu Ming gave the order and took the rest of the Dragon League towards the fourteenth famous mountain.

The fourteenth famous mountain, in the southernmost part of the world, is called 100,000 volcanoes, which means there are infinite volcanoes here.

As soon as they came to this place, a wave of heat came, and the people rushed into this area with their body protection. When they went deep into this volcano, a huge mountain appeared in front of them.

This giant mountain is very huge, even bigger than other famous mountains, but the air around the giant mountain is twisting, and there seems to be infinite fire waves that envelope the giant mountain.

This is the fourteenth famous mountain, which has not yet been completely born, looming.

This area is already full of people, densely packed, and at a glance, there are hundreds of thousands.

"Lu Ming!"

A cold voice sounded, full of murderous opportunities.

Lu Ming looked down at the voice and saw a young man looking at Landing Ming coldly. This person was the owner of Qitong Mountain and Oriental Sparrow.

"How? Last time you ran away, this time I wanted to die, I don't mind sending you a ride!"

Lu Ming sneered.

"Sigh, who can you kill?"

At this time, another body influenced, another young man appeared beside the Oriental Sparrow.

This man is also in a fiery red robe, and looks similar to the Oriental Sparrow.

"The lord, this man is called Oriental Sky Sparrow, but he is the brother of the Oriental Sparrow. He is the owner of another famous mountain, and he is the only pair of brothers in the world, each occupying a famous mountain, and this person is very strong. Ranked sixth!"

Boyi explained on one side.

Lu Ming suddenly realized that he was the elder brother of the Oriental Sparrow. No wonder it looks a bit similar in six or seven points.

"Why? Want to be angry for your brother, be careful to become a rooster!"

Lu Ming smiled faintly.

"Boy, spare your life now, wait for the famous mountain, don't let us encounter it!"

Eastern Skylark said coldly, of course, he didn't dare to shoot here, because there were other famous mountain owners, if they were to Lu Ming, they would only let other famous mountain owners take advantage of the fishermen.

Nearby, a gaze turned to this side.

Lu Ming felt that his eyes were sharp, like a sword.

"A lot of masters!"

In Lu Ming's heart, his eyes were swept away by these eyes, and his skin was tensed uncontrollably. These people all threatened him.

"That's the owner of Flame Mountain, that's the owner of Longhu Mountain..."

Bo Yi introduced Lu Ming one by one. They are all famous mountain owners and the top ten figures of the **** king. Lu Ming remembered them one by one.

"Allied leader, that is the owner of Liumin Mountain, this person is extremely terrible, the **** king list is ranked third, if you encounter ten million attention!"

Bo Yi whispered to Lu Ming.

Lu Ming looked at it, and it was a young man in black robe, with all kinds of ghosts painted on it.

This man's eyes are like two rounds of dark swirls, and he is also looking at Lu Ming, revealing an inexplicable smile.

"This person is terrible!"

Lu Ming's heart moved, this is definitely a top-level master, not comparable to Oriental Sparrow.

"Leader, there is that one, Feng Qingxue, this person is ranked second in the **** king list, and the strength is even more amazing!"

Bo Yi looked at another direction.

It was a woman in white, she looked like she was in her twenties, she was unparalleled in beauty, and she looked absolutely stunning. Among the women Lu Ming had seen, she was definitely top.

Such a beautiful woman is actually the second-most existence in the Gods King List.

This world, which has gathered the arrogance of many ethnic forces in the wilderness universe to cultivate the original **** body, can rank second among so many arrogances, which is enough to see how terrible it is.

Of course, the God King List here only refers to the God King List at a certain stage. For example, before a long time ago, there were other famous mountain lords, but they only left after breaking through to become God Kings.

Feng Qingxue's face was very cold, and even her surroundings were filled with chills, and many people distanced from her.

"Which one is the first in the King of Gods?"

Lu Ming asked.

He is very curious, how strong is the **** king list.

"I haven't come yet, but this person is extremely terrible, and the fighting power is amazing... Wait, here!"

Halfway through Boyi, his eyes suddenly widened, looking in one direction.

The same is true of everyone else, looking over there.

In that direction, a group of people came out of the air, led by a young man in blue robe, very handsome, with a face like Guan Yu, and a gentle smile on his face.

"No. 1 in the God King List, Murong Qiushui!

Boyi swallowed, his face dignified.

Lu Ming knew at a glance that this blue-robed young man was Murong Qiushui.

This is the intuition of the strong, this person is very strong, unfathomable.

On the side, Feng Qingxue, and the mountain owner of Liumin Mountain, his face was extremely dignified, and he seemed to be very afraid.

The Oriental Sparrow and the Oriental Sky Sparrow, even with a trace of fear in their eyes, seemed to be afraid of Murong Qiushui.

"You came so early!"

Murong Qiushui smiled, stood on one side, and greeted everyone, as if very kind.

Chapter 3445: Another piece of life soul stone

Murong Qiushui greeted everyone, as if he was very kind and smiling. However, when he looked at Lu Ming, an amazing breath erupted from his body, which shocked the people around him and retreated back.

"what happened?"

Everyone was shocked, and they didn't understand why Murong Qiushui suddenly became out of control and burst out of breath.

Murong Qiushui's eyes were like electricity, and he looked at Lu Ming, as if to pierce Lu Ming, his eyes filled with cold murder.

"Life Soul Element Stone Fragment, that guy has Life Soul Element Stone Fragment!"

At this moment, the cry of Life Soul Yuan Shi Ling was heard from the still life Soul Yuan Shi.

"What? This guy has life soul stone fragments!"

Lu Ming was shocked.

At the beginning, the soul stone he obtained was only a fragment. Shi Ling once told him that the life soul stone fragment had a stone spirit, and he would specifically find the peerless genius to recognize the Lord.

And the two with the soul stone element stone fragments close, each other's stone spirit, can sense.

Lu Ming finally understood that when Murong Qiushui looked at him, his emotions would break out of control, and even reveal a cold murder. Needless to say, the other party also knew that there were fragments of life soul stone in his body.

"I really didn't expect that I would encounter someone with fragments of Life Soul Yuan Stone here. I am a relatively straightforward person. I will give Life Soul Yuan Stone fragments to me. I can spare you!"

A voice, coming into Lu Ming's ear, was obviously Murong Qiushui's voice.

"Really? This sentence is the same I want to give you, you take the initiative to give me life soul element stone fragments, I can spare you a life!"

Lu Ming responded coldly.

These words made Murong Qiushui's face gloomy, and his gentle smile disappeared, and some were extremely cold.

This killing, like a biting ice, caused the temperature of the scene to drop sharply.

Originally, this was the area of Flame Mountain, the ground was filled with flames, and at this moment, the flames seemed to be solidified under this murderous opportunity.

"what happened?"

"Why did Murong Qiushui suddenly have such a terrible killing opportunity!"

The people around were shocked and stepped back. The conversation between Lu Ming and Murong Qiushui was conducted by way of voice transmission, and they did not know it.

"very good..."

Murong Qiushui stared at Landing Ming and even said that two were good.

Since the previous top Tianjiao broke through the Divine Monarch Realm and was sent away, since he took the throne of the God King List, no one has dared to talk to him like this for a long time in this world.

Even if it is the second and third existence, they dare not.

"It's him..."

Many people looked at Lu Ming with uncertainty.

Obviously, Murong Qiushui's killing was aimed at Lu Ming.

May Murong Qiushui, why Lu Ming is targeted.

"This kid, offended Murong Qiushui, it seems that we don't need to do it!"

Oriental puffin and oriental puffin sneered.

"It seems that during this time, I have been retreating, and some people have not put me in the eye, very good, just before entering the fourteenth mountain, exercise some muscles!"

A cold voice came out of Murong Qiushui's mouth. Then, in his hand, a stream of water appeared, and the water continued to creep, turning into a flying knife.

call out!

With a wave of his hand, Murong Qiushui turned the flying knife into a blade of light and came towards the landing.

Quick, almost to the extreme.

As soon as the light flashed, the flying knife approached him, piercing towards his eyebrows. At such a fast speed, Lu Ming wanted to perform the original secret technique to resist.

At a critical moment, Lu Ming can only raise his hand, blocking his eyebrows.

when!

The flying knife was cut on Lu Ming's wrist bracelet. The bracelet was transformed into a ball, and a loud noise erupted. The bracelet transformed into a ball was almost exploded. Lu Ming felt a row of powers Wrist came up, the body retreated like a cannonball, and flew thousands of miles before stabilizing his body.

"Good strength!"

Lu Ming felt severe pain in his arm, as if his bones were to be broken.

The other party did not display the original **** body, just a flying knife transformed by a stream of water, and Wei Neng was so horrible.

The **** king list is the first, really terrible!

"It turned out to be a metal life. Do you think you can save a life by a metal life? Then kill this metal life together!"

Murong Qiushui spoke indifferently, incomparably powerful and overbearing, and there was a terrifying breath on his body. Several streams of water emerged, and he immediately shot.

Rumble!

At this moment, a violent roar came from heaven and earth, and the sound came from the fourteenth famous mountain.

The fourteenth famous mountain is constantly shaking, the surrounding void is shaking, and there is a terrible roar. Originally, the air around the fourteenth famous mountain was distorted. At this moment, it completely disappeared, and the calm wind became calm.

Seen from afar, mountains peaked in the sky.

The fourteenth famous mountain is too large and endless. The surrounding secondary peaks tower into the clouds, and the main peak in the middle is standing tall.

The fourteenth famous mountain opened.

Everyone's eyes light up.

Uh, uh, uh!

Suddenly, countless people moved, turned into a rainbow of light, and rushed towards the inside of the famous mountain, afraid that it would be a step slower than being.

"go!"

The Oriental Sparrow, the two brothers of the Oriental Sky Sparrow, and other mountain owners also rushed towards the famous mountain.

The main wind of Wumin Mountain, Wu Qiqi, and Feng Qingxue, swept Lu Ming and Murong Qiushui, and rushed towards the famous mountain.

Many people originally wanted to see the results of Lu Ming and Murong Qiushui, but there was no time. They entered the Fourteen Mountains one step later and might be taken away by others.

Opportunity for this thing is far from perfect, one step behind, maybe someone else's.

"Leader..."

Boyi looked at Lu Ming, his face also anxious.

"You go first!"

Lu Ming waved his hand.

Murong Qiushui is going to fight, so let's fight.

"Be careful, lord!"

Boyi gritted his teeth and rushed towards the famous mountain.

In a blink of an eye, only Murong Qiushui and Lu Ming were left here.

"kill!"

Murong Qiushui drank cold water, his body began to grow, and finally turned into a strange creature.

This creature, as high as one million meters, is majestic and has six arms behind him.

This is the original **** body of Murong Qiushui, and has been cultivated to the peak limit of the ninth change.

He must make quick decisions and resolve Lu Ming in one fell swoop.

咻咻咻...

His six arms flicked, and suddenly six flying knives flew towards the landing.

Quick, accurate, ruthless!

The power is terrifying, the void is penetrated, and the power is more than ten times stronger than before.

Lu Ming had been prepared this time, so he did not dare to show off the ancient **** body directly and turned it into a golden armor ancient body. The Ba Shen gun appeared, and six guns were stabbed in an instant.

Six lances stabbed towards the six flying knives.

Boom...

Six terrible explosions came, like six planets exploding, violently rolling, Lu Ming shivered, and took two steps back.

Chapter 3446: Fight East again

"It turns out that you have become the ninth change of the original **** body, and the life soul stone fragment has chosen you. Sure enough, there is a set, boy, then I will wait for you in the fourteenth famous mountain. I hope you dare to come in!"

Murong Qiushui said coldly, his face a little gloomy.

Lu Ming's strength is beyond his imagination. To solve Lu Ming, he must be turned into a hand and foot, but in this way, he will have to enter the famous mountain one step later, for fear of the opportunity inside, falling into the hands of others.

Leaving a word, Murong Qiushui stepped out, rushed into the famous mountain, and disappeared into the vast mountains.

"This guy, so strong, really horrible!"

Lu Ming whispered, but he was not afraid.

Murong Qiushui is terrible, and his strength is unfathomable. He just shot, and absolutely did not use his full strength.

Of course, Lu Ming didn't use his full strength. For example, he didn't use the five-fold combat power of the battle word tactics, and no other source secrets, and even the Ba Shen Gun did not stimulate all the power.

Ba Ming Gun Lu Ming had cut off the first shackle, but the power of the first shackle was not released just now.

"go!"

Lu Ming did not stay, but also rushed towards the 14 famous mountains.

Their goal is the highest main peak in the middle. It is said that the real main peak is within that main peak.

However, it is very far away from the main peak.

And within the Fourteen Mountains, not only are they filled with terrible flames and high temperatures, but they also have a strong pressure that makes them very slow.

It is not so easy to fly to the main peak.

Hundreds of thousands of people flew into the vast peaks and completely disappeared, just like a few drops of water into the sea, without arousing a little wave.

Lu Ming flew towards the main peak. About an hour later, he flew over the two secondary peaks, still a lot away from the main peak.

"So rich and original primitive..."

Lu Ming marveled. He found that the primitive spirit of the 14th Mountain is stronger than Fengyun Mountain, and there is that kind of special pressure. Cultivation here is definitely better than Fengyu Mountain.

But now is not the time to practice, but to enter the main peak and get the chance.

Lu Ming's goal is the blood of primitive gods. As long as he gets it, Lu Ming can break through and condense primitive **** blood.

As Lu Ming flew over a mountain, the figure flickered, and several figures flew out, surrounding Lu Ming in the middle.

"East Oriental Sparrow, Eastern Sky Sparrow!"

Lu Ming narrowed his eyes slightly.

These people are the two brothers of Oriental Sparrow and Oriental Sparrow, and there are three other young people, and their breath is particularly strong. Lu Ming speculates that he is a deputy mountain master.

"Lu Ming, I didn't expect your luck to be so good, I could survive in Murong Qiushui!"

The oriental bird's eyes are cold.

"It seems that Murong Qiushui was eager to enter the Fourteen Mountains, before letting him go, but your luck has come to an end, and when you meet us, I will send you on the road today!"

Eastern Skylark said coldly.

"Do you think you can kill me on your own?"

Lu Ming sneered and glanced at the Oriental Sparrow disdainfully, meaning that he wanted to find abuse again.

"Lu Ming, I tell you, my elder brother's strength is far above me. Moreover, this is a volcanic area. Here, you will be suppressed, and we will be stronger. Today is your death!"

The Oriental Sparrow shouted, and its size quickly became larger, turning into a primitive god.

At the same time, other people also shot, and turned into primitive gods.

There is no doubt that the original **** body of the Oriental Skylark is also the ninth change, and is the limit of the ninth change.

The other three deputy mountain owners, there was actually a person who cultivated the original **** body to the ninth change. It seems that it was the early stage of the ninth change.

The five men rushed to the landing at the same time and launched an attack.

Endless fire waves swept through, and Lu Ming was to be turned into ashes.

Lu Ming's palm tyrant spear appeared, one shot stabbed, and suddenly five spears appeared, stabbing at five people.

Boom...

Five roars in a row, the strength swept between them, four figures retreated, but the Oriental Sky Sparrow did not retreat, but the figure shook.

"What a powerful divine power, this oriental puffin is so powerful, it is an ancient cultivation method!"

With a move in Lu Ming's heart, he found that the power of the Oriental Sky Sparrow was so strong that he could clearly feel that the other party possessed two kinds of power.

Ancient cultivation method!

Eastern Sky Sparrow, who has also practiced ancient cultivation methods, possesses two divine powers.

This was Lu Ming's second encounter with Tianjiao, who practiced ancient cultivation methods. The first one was the first day of the Taixu dynasty.

Moreover, Lu Ming found that ancient cultivation methods cultivated many kinds of divine powers, which was very different from the cultivation of ten thousand powers.

Practicing the Ten Thousand Doctrines of Heaven and Earth can indeed cultivate multiple divine powers, but the strength of each divine power, such as the size of the star core, is the same as that of ordinary people.

But the result of ancient cultivation is that the star core is larger than ordinary people, and each kind of divine power will be more solid and condensed.

Don't look at the Oriental Sky Sparrow only practicing two kinds of divine power, but the divine power is strong, at least comparable to the ordinary three kinds of four, which makes his strength become very amazing.

"Is this your strength, die for me!"

The Oriental Sky Sparrow shouted, its wings pierced the sky like two swords, and cut through the void.

"Kill your brother first and let you live longer!"

Lu Ming's indifferent voice rang from the ear of the Eastern Skylark. Then, a pair of stone boots emerged and merged with Lu Ming's feet. Lu Ming stepped out and disappeared. For a moment, Lu Ming appeared in front of a deputy mountain master.

boom!

Lu Ming triggered five times the combat power of the war character formula, and at the same time turned into the ancient armor of the Golden Armor, eleven kinds of divine power exploded in full, and one shot stabbed at one of the deputy mountain owners.

Quick, too fast, with the wind extinguishing boots, Lu Ming reached the extreme speed.

With a snorting sound, blood was splattering, and the eyebrow of the deputy mountain master was directly penetrated, the soul was annihilated and fell on the spot.

Killing this deputy mountain master, Lu Ming shook his body, and then killed another deputy mountain master. The gate of the master suppressed it, and after the broken sword came first, the deputy mountain master panicked and broke out to block the gate of the master. He and the sword of breaking the virtual, but Lu Ming has been killed, the other side is no longer able to resist, was killed by a shot.

Killing the two deputy mountain masters in a row frightened the rest, and quickly retreated to the Oriental Sky Sparrow.

"Lu Ming, you are dead!"

The Oriental Sky Sparrow was very angry, waving its wings, bringing a raging flame, sweeping towards Lu Ming.

Eastern Skyfinch's original secret technique, like Oriental Skyfinch, is also a pair of wings. It has amazing power and has two effects of speed and attack power.

At the same time, the Oriental Sparrow also shot, and its wings flew, and countless arrows flew to Lu Ming.

But Lu Ming thought about it, and a huge stone shield appeared in front of him. It was the original secret technique, the Tianxuan shield.

Boom!

The arrows hit the shield of Tianxuan, and they were all blocked.

Chapter 3449: Oriental Puffin

"How can this kid have so many source secrets!"

The Oriental Sparrow was shocked.

"Even if you have more primal secrets, kill!"

The Oriental Sky Sparrow shouted and its wings were waving like a Sky Sword, slashing on the Sky Profound Shield, causing the Sky Profound Shield to explode violently.

Uh!

Lu Ming shook his body and appeared in front of the third deputy mountain master, kicking his foot towards this person.

This deputy mountain master is very strong, and he also cultivated the ninth change of the original **** body. Its strength is not much worse than that of the Oriental Sparrow, and it is also the top 30 characters in the **** king list.

He screamed and banged out with a punch.

With a roar, the man's figure receded wildly, and the Windbreaker's boots also possessed a strong attack power.

"Sunday!"

Lu Ming took a light drink, a big sun emerged, and a dazzling light erupted. The flames between the world and the sky converged toward the day of the sun, then burst out a terrible ray of glow, enveloped in this deputy mountain master Body.

Lu Ming possesses the divine power of the sun. In such a flame-filled environment, he is not affected at all. Instead, when he uses the day of the sun, his power is stronger.

what!

The glow of the sun on the sun caused the deputy mountain master to yell and send out a scream.

"Damn, Lu Ming, be sure you don't run away!"

The Eastern Skylark roared, waved its wings, and rushed towards the landing Ming. One wing was cut forward, the void was split directly, the flames rolled, and the Lu Ming was cut.

However, the Shield of the Heavenly Profound appeared silently in front of him, blocking his attack, and then dominated the door, breaking the sword of emptiness, and the blades of the Heavenly Demon launched attacks, attacking the Oriental Sparrow and the Eastern Sky Sparrow, temporarily blocking The two attacked.

Lu Ming launched a stormy attack towards the deputy mountain master.

Although the deputy mountain owner is strong, there is still a gap compared with Lu Ming. After barely resisting a few moves, Lu Ming was pierced through the head with a shot and fell to the spot.

The three deputy mountain owners brought by Eastern Skylark all fell.

Boom..

Behind, a roaring sky roared, accompanied by an angry roar, the Eastern Skylark was indeed very strong, carrying a terrible air wave, blasting out the Sky Shield and Sky Demon Blade, etc., floating around Lu Ming's body.

"Sixth in the list of **** kings, really deserved reputation!"

In Lu Ming's heart, the Oriental Skylark was indeed very strong.

If he doesn't show his full strength, he will be able to help Oriental Puffin in a little while.

boom!

Thinking about it, the Eastern Skylark was killed, and his wings were like a sword, slashing towards Lu Ming, and Lu Ming shot his opponent at the opposite direction. His body fluttered and could not help but take a few steps back. Of course, the Oriental Skylark also took a few steps back. .

"Some strength, let you see, my real strength!"

Lu Ming held the Ba Shen Gun and pointed at the Oriental Sky Sparrow. At the next moment, an amazing breath erupted inside the Ba Shen Gun. A spear burst out automatically and stabbed the Oriental Sky Sparrow at an amazingly fast speed.

Eastern Skylark blocked its sharp gun with its wings, and with a bang, Eastern Skylark's body shook and could not help but retreat backwards, while dozens of feathers flew in the air.

"Cut off the shackles, your original secret technique cuts off the shackles!"

Eastern Skylark shouted in shock, full of incredible.

It is extremely difficult to cut off the shackles of this source secret technique. As far as he knows, there are only two or three people in this world.

Lu Ming actually cut off the shackles too, which is too scary.

"Brother, go away!"

Eastern Skylark roared, and turned and ran.

Lu Ming's original strength was astonishing. After adding the Yuanyuan secret technique to cut off the shackles, he knew that even if he added the Oriental Sparrow, he was definitely not Lu Ming's opponent and hurried away.

In fact, the Oriental Sparrow reacts faster than the Oriental Sparrow. At the moment the Oriental Sparrow opens, the Oriental Sparrow has turned around and ran away.

"Ball, haunt him!"

Lu Ming waved his hand and the ball flew out, turning into a huge war sword and slashing towards the Eastern Sparrow.

boom!

The ball and the Oriental Sparrow paired with each other, split equally.

At the same level, the ball was probably not the opponent of the Eastern Sparrow, but since the ball swallowed the truncated sword, it turned into the strength of the broken sword. The attacking power was amazing. When it turned into the broken sword, it was barely able to compete with the East. Sparrow battle.

Lu Ming killed the Eastern Sky Sparrow.

boom!

Under the pressure of the overlord gun, the sky violently blasted, and continued explosions. The terrible coercion caused the ground to vibrate violently. The eastern sky sparrow was extremely frightened, and there was a long roar, and the flames were all over the sky.

He put his wings together, and then came out, a huge flame sword was formed, slashing towards the landing, trying to block the Ba Shen gun.

But when it collided with the Ba Shen Gun, the Flame Warblade violently blasted, and then burst directly, from the beginning to the end, it also blocked half of the breath.

The Ba Shen Gun kept bombarding and bombarding the Oriental Sky Sparrow.

The huge body of the oriental puffin fell like a meteorite towards the ground, and it hit the ground heavily, causing the ground to vibrate violently.

However, the rocks here are extremely hard, and such a horrific attack only makes the ground break a few rocks.

But in this case, the oriental puffin was hit harder, he vomited blood, and his bones didn't know how many broken.

"Brother..."

The Oriental Sparrow roared with horror.

If the Eastern Skylark is dead, he can't live anymore. He makes a hysterical roar and frantically attacks the ball.

But the ball's vitality is amazing, and the defense is also amazing. It was nothing to be bombarded. It was okay. It was like a dog skin plaster that entangled him.

After Lu Ming hit the Eastern Skylark, he didn't stay at all. He swooped down, and the gun was united, stab the Eastern Skylark.

The Oriental Sky Sparrow was frightened and tried its best to resist, while traversing, trying to avoid Lu Ming's attack, but his defense was broken open by the Ba Shen Gun.

Now Lu Ming will spur all his strength to the extreme and reach the highest point in history, which has completely surpassed Oriental Sky Sparrow.

puff!

In the end, the Eastern Skylark avoided the head of the skull, but the body was pierced by the lance, and the power of destruction exploded in the body of the Eastern Skylark.

The oriental puffin screamed, and then its body shrank quickly. It turned into a little bird more than one meter long, and flew to the distance in horror.

He turned into a sparrow and wanted to evade Lu Ming's attack in a flexible form, but Lu Ming had the wind-extinguishing boots and cooperated with the Jiutian Kunpeng technique, and the Oriental Sky Sparrow was hit hard.

Lu Ming stepped out a few steps, caught up with the Oriental Sky Sparrow, and then stabbed out.

This time, the Oriental Skylark was no longer able to escape, and gave an unwilling roar, a one-meter-long body, in Lu Ming's present state, no different from the ants who had been ants.

A sharps gun can completely cover him with a spearpoint.

Chapter 3450: Mobile maze

bump!

The oriental puffin was stabbed by the spear and issued an unwilling scream, and the whole body exploded directly, destroying everything.

Eastern Puffin, die!

As soon as the Oriental Sparrow died, the Oriental Sparrow was even more frightened. An inadvertent, almost chopped by the ball's transformed sword, but was still crossed by the blade, falling hundreds of feathers.

Lu Ming moved like a light and shadow, and appeared not far from the Oriental Sparrow.

"Don't kill me, I am willing to surrender, and swear by the origin of life, always loyal to you!"

The Eastern Sparrow shouted, he was really scared, and even his big brother was dead, he had only one way to die.

He could not understand why Lu Ming was so scary.

More than a decade ago, when he was fighting Lu Ming, Lu Ming was strong, but it was only a little stronger than him, far from such a terrible strength.

Lu Ming has actually cut off the shackles of the original secret technique.

He was pretty sure that Lu Ming did not cut off the shackles of the original secret technique more than ten years ago. Otherwise, he was killed more than ten years ago.

In just ten years or so, Lu Ming has achieved such amazing results, and certainly got a great chance.

"Allegiance to me? Sorry, like someone like you, it is still safe to send you on the road!"

Lu Ming said indifferently.

The other party is definitely from the big forces. He doesn't want to get out of the way. Only killing him is the safest way.

call out!

Lu Ming shot, and the Ba Shen Gun assassinated the Eastern Sparrow.

At the same time, the ball was added, and the Oriental Sparrow had no chance at all, barely resisted two moves, and stepped into the footsteps of the Oriental Sparrow and fell on the spot.

At this point, all five of the Oriental Skylark have fallen.

Then, Lu Ming flashed, and there were five more storage rings in his hand.

Lu Ming's eyes glow, this is a storage ring for Oriental Sky Sparrow and others.

The two brothers, Oriental Sky Sparrow and Oriental Sky Sparrow, are the owners of a famous mountain. How many primitive **** crystals will there be?

Lu Ming remembered very clearly that the three deputy mountain owners of Qitong Mountain added together, but contributed more than 30 million primitive **** crystals to Lu Ming.

As a mountain owner, the Oriental Sparrow definitely has more net worth than the three deputy mountain owners.

In addition, there is the sixth-ranked Oriental Skylark and three deputy mountain owners. The original God Crystal inside is absolutely amazing.

Lu Ming just swept with his spiritual knowledge, and then he saw a pile of primitive **** crystals.

"Hahaha, cool!"

Lu Ming did not count in detail, because there was no time, just put away the storage ring first.

The ball turned into a bracelet and was brought to Lu Ming's hand. Lu Ming rushed towards the depths of the 14 famous mountains.

The back was very calm, and nothing happened. Lu Ming spent about a whole day before coming to the main peak of the fourteenth mountain.

There was no one, quietly, as if everyone had disappeared.

Soon, Lu Ming knew what was going on. He turned around the main peak and found a huge cave.

This cave is too big, with a width of tens of thousands of miles, and a height of tens of thousands of miles.

It looks like a giant cave.

The inside is dark, I don't know where to go.

"Everyone should have entered this cave!"

Lu Ming groaned slightly, then stepped out and rushed into the cave.

The cave is very long. Going forward, Lu Ming walked for an hour, and then... there were two forks.

Lu Ming frowned, the two forks were exactly the same, and there was no slight difference. How to choose?

Only one can be chosen at will.

In the end, Lu Ming chose one casually and ran forward, but it didn't take long before two more roads appeared in front of him.

Lu Ming can only choose one as before.

But after a further journey, there were two same forks.

Lu Ming frowned, this is not over yet?

But he was helpless and there was no better way to go on.

In this way, Lu Ming experienced seven forks before and after, and finally came to an end.

Yes, it is really the end, because there is no road ahead, and the wall in front is broken.

"I won't believe it!"

Lu Ming hit the front wall with a punch, and made a violent roar, but the wall showed no traces, even a crack did not appear.

"Hard rock, how could it be so hard?"

Lu Ming was shocked.

The rocks of the famous mountains are indeed extremely hard and difficult to destroy, but with Lu Ming's strength, they can still crush some rocks slightly.

But here, with a punch, the rock showed no traces, which is unusual.

"try again!"

Lu Ming appeared in the hands of the Ba Shen Gun, and then shot at the rock wall.

boom!

The wall vibrated again, but the Ba Shen Gun also vibrated violently, bending into an arc, but there was still no trace on the wall.

"There are still no traces, this is too hard, try on both sides!"

Lu Ming stabs towards the walls on both sides with a superb gun.

But the result is the same, the walls are immortal, and no traces are left.

"Is this a maze?"

Lu Ming frowned.

In this case, he could only return, come to the nearest fork, and then proceed along the other road.

On the way, Lu Ming also experimented, and bombarded the wall with the Ba gun, and no traces were left. Lu Ming could only stop. It seemed impossible to destroy the wall. He could only find his way.

Sure enough, shortly after he traveled, there was a fork again, and even this time a trifurcation appeared at once, with three roads ahead.

Lu Ming chose one at random, and went on like this. After a few forks, he walked to the end and saw the wall.

Lu Ming had no choice but to return to the previous fork.

"wrong..."

When Lu Ming retreated to the previous fork, his face changed greatly.

He clearly remembered that there was a three-fork intersection before, but at this time, it became a five-fork intersection.

The most important thing is that the way he came before is gone.

How do you go out?

This is a mobile labyrinth, and the roads are constantly changing.

That is to say, if you can't find the exit, there is no escape route.

The most important thing is that in this way, Lu Minglian didn't even know the road that he just walked on, because you are moving forward, and you are returning. The road you just walked on may have changed.

And the walls are so hard that they can't leave a mark, how can this be done?

"Can't leave a mark, I can always leave items!"

Lu Ming took out an ordinary **** crystal and threw it at the intersection he had just walked through.

In this way, whenever there is a mark at the intersection he walks through, he will know that he has walked through, as long as he has not walked through, he will go out sooner or later.

But what stunned him was that when Shen Jing landed on the ground, the rock actually wriggled and swallowed Shen Jing directly, and then the rock returned to its original state.
