

D Emperor 3571

Chapter 3571: Anti Wings

More than a few hundred dragons rushed to Lu Ming and Man Ning, and they were still shrouded in terrifying dragon power, like two little ants, as if they were about to be torn apart in a flash.

Roar!

Just then, a more majestic dragon chant sounded.

Lu Ming inspired all the primitive **** blood, his body swelled up sharply and turned into a huge primitive **** dragon.

Turned into a primitive **** dragon, the surrounding dragon power has no effect on him at all.

And his body exudes an older, more pure Longwei.

Suppressed by this dragon's power, those Shenlong dragons condensed from Wanlongyin seemed to be greatly suppressed and their strength declined.

When Lu Ming's claws stepped on, seven or eight divine dragons exploded in an instant.

Then surrounded by the dragon, a dozen dragons were exploded by him.

"This...this..." Man Ning was shocked. Unexpectedly, Lu Ming would turn into a primitive dragon.

"That's a primitive dragon, is he a dragon?"

"No, he is a human race, that is the primitive **** body. This kid has already cultivated the primitive **** body to the point of primitive **** blood!"

Many people yelled at Wings.

"He can transform the original primitive dragon, if he takes him into the dragon clan star, will he be able to take a step ahead and seize more opportunities?"

"Perhaps, can it really make a difference?"

The arrogance of many wing human races, their eyes start to brighten up, especially some evil characters.

The Dragon Mother Star, vast territory, heyday, has many different types of dragons, sitting on all sides, although the back is destroyed, but certainly left a lot of remains.

These ruins cannot be guaranteed without danger, but if they are brought to the original dragon body, they will definitely be of great help.

Many people's eyes are fiery with arrogant eyes.

Boom...

At this moment, Lu Ming is killing and killing all the dragons, whether it is six or seven claws, or even nine claws, these are not real dragons, but a large array of condensed, not Lu Ming's. The opponent was killed by Lu Ming.

In a blink of an eye, there were not many left.

"Boy, quit, you don't have to continue exploring!"

At this time, the arrogance of the winged people cried.

"Ha ha!"

Lu Ming responded indifferently, tearing the last nine-clawed dragon, he was suspended there, with no intention of withdrawing at all.

"Boy, have you heard you talking to you? Quit, we don't need you to find your way!"

There are also winged human clan roaring.

"Fool...a group of birdmen..."

Lu Ming spoke indifferently.

"what did you say?"

"Hello brave..."

Some wingmen roared with arrogance.

Lu Ming actually dared to say this to them. Their winged human race, but the ranks of the Hundred and Thousand Races ranked 130th, high on the top, is the pinnacle race and distinguished.

Lu Ming, dare to talk to them in such a disdainful tone, to death!

This time, Lu Ming ignored them directly and looked down at the funnel.

It seems that he can rush into the Dragon Mother Star again, but I don't know why, Lu Ming still feels a sense of crisis.

There is also danger, not so simple.

But Lu Ming decided to make a break.

It is impossible to withdraw.

Here, he turned into a primitive dragon, and had advantages, but withdrew to face the emperor, he could not resist.

Lu Ming ignored the people of the Wings, and his body slowly approached downward.

This attitude angered the people of the Wings.

"court death!"

"Go get this guy!"

Suddenly, there were dozens of winged human tribes arrogant, burst out, and rushed towards the landing.

The Shenlong just now was torn by Lu Ming, so for a time, there was no new Shenlong condensing out, and the Wing Human Race Tianjiao quickly approached Lu Ming.

However, that kind of Long Wei is still there.

As soon as these wing human races Tianjiao approached Lu Ming's area, they were crushed by the dragon's power, their bodies shook wildly, and their strength declined rapidly.

"kill!"

Lu Ming shouted, turned back suddenly, and slayed towards these winged human races. Nine dragon claws kept tearing down.

"Ah, dare you..."

A winged human clan shouted at Tianjiao, then was torn by dragon claws directly and fell to the spot.

Then, the other dragon claws also tore down, and the winged human clan screamed, and their bodies continued to burst.

In a few seconds, dozens of winged human tribes were all killed by Lu Ming, and one was not left. The storage ring was put away by Lu Ming.

Although the strength of these wing human races Tianjiao is very strong, but here, suppressed by Wanlongyin's Longwei, it is far from Lu Ming's opponent, and Lu Ming is easily killed.

"You...bold!"

The rest of the Wings were stunned, and then some people roared, anger raged, and the whole body was cold and murderous.

Some people dared to kill the arrogance of their winged human race, this is to find death?

Even if the race is stronger than them, they dare not easily kill the arrogance of their wing human race, because the angel race among the top ten races stands behind their wing human race.

If you offend them, you probably offend the angels. Any race must be weighed.

But Lu Ming, a divine prince with a heavy rubbish, actually dared to kill the arrogance of their winged human race, and there were dozens of them in one kill.

"A group of miscellaneous hairy birds, come one to kill one, dare to come?"

Lu Ming spoke coldly, disdainful.

These human-winged human races are powerful and overbearing, let him speak, he has moved to kill.

Whatever your identity, kill it.

Moreover, he came from a distant Taixu sacred pilgrimage. No one knows his background. He is now alone, unconcerned, what dare not do?

No matter if you are a winged human race or an angelic race, if you offend him, you can still kill him.

"you..."

Many winged humans have ugly faces to die, but for a time, no one dared to step forward.

The dozens of people just now were killed instantly.

"A bunch of miscellaneous hairy birds, don't dare!"

Lu Ming sneered. Anyway, killing dozens of people is also killing, then killing a few more people is also killing. Lu Ming also wants to inspire some wing human races to come in and kill a few more people.

Sure enough, these arrogant winged human races, Tianjiao, couldn't stand it anymore. They roared into the sky, and their murderousness turned into a raging fire.

"I'll kill him, who is with me!"

A wing man clan Tianjiao stepped out.

The person's feathers are golden yellow, like gold, full of majesty.

"Yu Bo!"

Many winged human eyes light up.

Yu Bo is a famous arrogance among the Wing-Man clan. Although the cultivation is just a triple of the king, but among the Wing-human clan, it has become famous and is known as an invincible person at the same level.

In the Wing-Man race, one player at the same level can compete with Yu Bo, one hand can count.

"Okay, I am with Yu Bo!"

"Me too!"

More than a dozen winged human races have stepped out.

They understood that in the weak point area, there was Longwei suppression, and Lu Ming turned into a primitive divine dragon, and would not be suppressed. When they entered, they would be strongly suppressed.

Chapter 3572: Chopper Wings Top Tianjiao

However, after all, Lu Ming's cultivation base is only one of Divine Monarchs, and Yu Bo's cultivation base is threefold of Divine Monarchs, and his combat power is extremely powerful. Even if he is suppressed, he can kill Lu Ming.

They believe this!

What's more, there are other wing human races that help each other.

Uh!

Yu Bo and others flew towards Landing Ming.

"Manning, hide in my scales!"

Lu Ming sent a message to Manning, a huge scale spread out.

"Thank you!"

Manning thanked her. She knew that without Lu Ming, she must have died here.

As the figure moved, Manning entered Lu Ming's scales.

Lu Ming's current shape is several million meters long. Manning entered a scale, like a grain of dust, with no effect at all.

At this moment, Yu Bo and others have entered the range of weak points.

Their bodies shook and their faces changed.

Because they felt a strong repression, Yubo Shenjun triple cultivation, here, was even suppressed to the level of the early Shenjun double, just like the breakthrough of the Shenjun double.

"Shenjun Duo, killing the kid is more than enough!"

Yu Bo flashed a thick ray of murderous opportunity.

His combat power is extremely strong. In the Wing Human Race, there are not many people who can compete with him at the same level. Now, his cultivation performance is higher than Lu Ming. He is confident that he can kill Lu Ming.

"Boy, die for me!"

Yu Bo drank coldly, and the bright golden light on his body turned into a ray of blade, slashing towards Lu Ming.

However, a long spear emerged from Lu Ming's dragon claw, which was a Ba Shen gun.

The Bashen Gun was so huge that it swept away, directly destroying this ray of blade.

"kill!"

Yu Bo shouted and rushed towards Lu Ming. A pair of golden wings exuded a radiant brilliance and turned into two huge war knives. They turned into gold and reached a length of one million meters. They cut towards Landing Ming and cut Lu Ming into Two cuts.

"go with!"

With a move in Lu Ming's heart, the Ba Shen Gun flew out and collided with the opponent's knife light, setting off a violent storm, full of energy.

Then, Lu Ming stepped out of the air, nine dragon claws, tearing the void constantly, killing Yubo.

Boom!

The void shook, Lu Ming's dragon claws stepped on, the void was directly torn, terrifying.

Especially the Ba Shen Gun, which turned into a ray of light, was amazingly fast, and kept piercing towards Yu Bo.

"Primitive body, do you think I don't have one?"

"Benyuan Mystery cut the shackles, do you think I won't?"

Yu Bo spoke indifferently, his body was more radiant, and a golden sword appeared. This sword was Yu Bo's original secret technique. On it, it exuded an ancient breath and cut off a chain of shackles.

In addition, Yu Bo's body constantly rushed out of the sword, making his body look like a battle sword.

"A knife body?" Lu Ming thought.

Obviously, Yu Bo also practiced the physique mystery, a knife body, similar to Emperor Jianyi's Yuanling sword body.

Yu Bo burst into full force and turned into a bright sword, killing Lu Ming.

when!

The collision with the Pasir Grab broke out, and a roar of thunder broke out. The Pasir Grab was directly hit and flew out, but Yu Bo's body also retreated backward.

"This guy is not weak..."

Lu Ming's eyes flashed.

Yu Bo, has been suppressed in the early stage of Shenjun Duo, but the combat strength is extremely strong, and he can already compete with him.

Lu Ming estimates that this Yubo's fighting power at the same level is almost as much as Murong Qiushui. Of course, there is still a gap compared to Emperor Jianyi.

Tianjiao at this level is already amazing.

But did not know, Yu Bo was even more shocked.

"Is this the original **** body with the original **** blood? Really terrible, but today he will be killed!"

Yu Bo roared in his heart, and then shouted: "I come to attack, you help me!"

When the words fell, Yu Bo once again slammed towards the landing, and the people were united, even Longwei was slightly broken.

At the same time, another dozen wing human tribes Tianjiao launched attacks from the side. Various attacks attacked Lu Ming's head.

"Trick and worm!"

Lu Ming sneered, the divine power worked, and a bell floated out, it was the Bell of Heavenly Evil.

Jingle Bell!

The bell of heavenly evil sounded, and invisible ripples emanated.

Yu Bo, and dozens of wing human races Tianjiao's body shook, and their bodies were stiffened, and their souls were attacked.

"kill!"

Lu Ming drank coldly, the sword of broken emptiness came out, the broken void, and the light of the sword flashed.

Puff puff...

Too fast, blood flashed out, and a dozen or so strong wingmen were all beheaded with a sword.

Only Yu Bo shouted at a critical moment, his body retreated, and he escaped the killing blow.

But one of his wings was still chopped out and his feathers fluttered, scaring him to sweat.

"You have other source secrets!"

Yu Bo shouted, his body receded, and he dared not fight again.

Lu Ming itself is powerful, and with the secret technique of attacking the soul, it is almost seamless, and he has to retreat.

"If I have not been suppressed, I will definitely cut you!"

Before leaving, Yu Bo had to make a ruthless speech.

The retreat beaten by Lu Ming was really shameful, so he dropped a cruel word and wanted to regain some face.

But Lu Ming will not let him leave easily.

"Now I want to go, it's late, let me stay!"

Lu Ming drank coldly, manipulated the Sword of Breaking Void, and shattered the Void, instantly caught up with Yu Bo and killed him.

At the same time, Lu Ming twisted his body, nine claws stepped into the air, the speed was amazing, he caught up with Yu Bo, and the dragon claws continued to grab it.

At the same time, the Ba Shen Gun also bombarded down, and in addition, the Gate of Domination also condensed out.

Roar!

There is a roar in the door of domination, and the power of the master with five awakenings is very amazing.

Yu Bo shouted and tried his best to cut out the sky of the sword, blocking the broken sword and the Ba Shen gun.

But it did not block Lu Ming's dragon claws.

The dragon claws stepped on, he coughed up blood, his body was almost torn, and golden feathers flew around.

Then, the Gate of Domination suppressed, Yubo resisted with the original secret technique, but failed to stop it, the sword of the golden body continued to vibrate, and finally burst.

Yu Bo screamed, and his mouth was screamed with blood, hit hard.

Moreover, he could not retreat, because the strong attraction above the gate of the Domination attracted him.

"Send you on the road!"

Lu Ming's indifferent voice sounded, and a dragon claw grabbed toward Yu Bo.

"Don't..."

Yu Bo shouted, almost scared to death.

"stop!"

"You dare to kill him, you must die without a burial place!"

The arrogance of the Wings is even roared by the prospective emperor.

Yu Bo is not an ordinary Tianjiao, but a top-level Tianjiao. If it grows up in the future, it will definitely become a strong player and contribute to the achievements of the Yiren. This kind of Tianjiao is a great loss.

But Lu Ming was too lazy to notice that in Yubo's desperate eyes, the dragon claw stepped on and Yubo's body burst apart.

Chapter 3573: A dragon claw

Yu Bo's body was directly exploded by Lu Ming's dragon claws, even the soul did not escape, and the form and spirit were destroyed.

"you wanna die..."

"You are dead, even if you have 10,000 lives, you are dead!"

The people of the Wings clan roared, especially a few emperors, and a terrible breath erupted in the air.

"Dare to do it to me, you must be prepared to be killed by me. Whatever your identity, the winged man's miscellaneous hairy bird, kill it!"

Lu Ming sneered, and the domineering side leaked.

"You're a mess, no one can save you!"

A winged human clan screamed.

"There is so much nonsense, kill me, come and kill!"

Lu Ming sneered.

The winged tribe calmed down, and no one started.

The prospective emperor could not get close, otherwise the Wanlong Seal would destroy him for the first time.

For the younger generation, the strongest is only the triple king, and the key triple king will be suppressed by Longwei. Even Yu Bo is dead, and the other people will also be the end.

"Don't dare to come in, still whispering, a bunch of unrecognized goods, the hirsute is the squirrel!"

Lu Ming sneered and sneered, and many angry wing human race Tianjiao almost vomited blood.

"Come out and fight!"

The winged human clan roared.

"You princes are threefold, and my princes are onefold. You are a race of 130 people from the Hungry Peoples List. You have a strong bloodline talent. Now you are asked to go out to fight? It's really shameless!"

"Come in for a war, here you are suppressed, just happened to fight me fair, if you dare not fight fair, just shut up for me!"

Lu Ming drank coldly.

The people of the Yiren clan shut up because they couldn't speak.

They are really depressed to vomit blood.

Their bloodline talents are strong, the same level of battle, the general small race, are crushed by them.

Under normal circumstances, how can they suppress people with a realm?

But Lu Ming is too perverted, and they have no choice!

"Boy, let you be arrogant for a while now, there is a kind of you never come out!"

Tianjiao of the Winged People sneered.

"A group of uncultivated guys, I am too lazy to accompany you!"

Lu Ming said sarcastically, and then did not stay, slowly toward the weak point.

This period of time is the weak period of Wanlongyin. Each weak point has the weakest power. After this time, the power will become stronger, and Lu Ming cannot spend time here.

It is impossible to go out, the quasi-Emperor of the Wing Human Race is guarding the town, and he has only one dead path to go out.

It is impossible to continue to wait, until Wanlongyin is more powerful, he is more finished, even if there is a primitive dragon body.

It is most appropriate to go now.

Lu Ming slowly flew to the bottom of the funnel, there has been no strangeness, and no dragon has condensed out.

"good chance!"

Lu Ming did not hesitate and rushed towards the bottom of the funnel, as if a film had burst out and came to a new world.

But at this moment, Long Yin shook the world.

Then, a dragon claw suddenly emerged from the void, and this dragon claw was so huge that it covered the sky and sun, and caught it towards the landing.

Even the dragon body, which is several million meters long, looks like an earthworm under this dragon claw.

"not good!"

Lu Ming's complexion changed greatly. It seems that he hasn't really broken through the range of Wanlong Seal yet, he still has an attack.

He twisted and rushed forward, trying to rush out.

But he found that the Void was locked, as if the cement had solidified, making his speed into a turtle speed.

The dragon claws continued to grab down and locked Lu Ming, avoiding it unavoidably, only hard to connect.

"Manning, send you out first!"

Lu Ming shouted, divine shock, suddenly thrown Manning out.

Anyway, it is better to send Man Ning away first, but also to return her graciousness for sending Dream God Jade.

Manning was like an electric light, flew and flew out, and after a few breaths, he flew out of the range of the dragon claws and disappeared into the sky.

Roar!

Lu Ming shouted, not escaping, but rushing upwards, rushing towards the dragon claws.

At the same time, a variety of original secret techniques condensed out.

Sword of Destruction, Blade of Heavenly Demon, Door of Domination...

There are eleven kinds of original secret techniques, no matter what the function is, a brain rushes out to the dragon claw.

boom! boom! ...

At the next moment, eleven kinds of primitive secret techniques collided with the dragon claws and burst into a roar, but at the next moment, various primitive secret techniques were shaken wildly.

bump!

The Sword of Breaking Deficiency, the first burst, and then the blade of the Demon...

One by one, the original secrets explode and dissipate into energy.

Lu Ming's body shook wildly, and he spouted a spit of blood.

"Nest, this dragon claw, why is it so powerful?"

A thought flashed in Lu Ming's heart.

This dragon claw is more powerful than he imagined. After a few breaths of eleven kinds of original secret techniques, he was defeated, and he was bitten back.

However, Lu Ming found that the light of the dragon's claws seemed to be dimmed, and its power became smaller.

This shows that the eleven kinds of original secret techniques are still useful and offset part of the power of dragon claws.

However, the dragon claw still caught at the landing.

The distance is getting closer.

"Fight, come on!"

Lu Ming shouted in his heart, and the nine dragon claws stepped out continuously. This was the magic trick of the dragon. One hundred and eight dragons condensed out and flew towards the dragon claws.

Bang Bang Bang...

Nine-claw Shenlong's phalanx collided with the dragon's claws and burst apart.

One hundred and eight nine-clawed dragons were constantly exploding, and soon all disappeared.

In the end, Lu Ming's body collided fiercely with Dragon Claw.

boom!

The sky was violent, and the violent energy swept through all directions, as if to devour everything.

Lu Ming's body shook wildly. At this moment, he felt an unimaginable force running through his body.

Click...

He seemed to hear the sound of broken bones and torn muscles all over his body...

Nine dragon claws burst in an instant, and then, the dragon body...

The dragon body, which is several million meters long, is also constantly cracking and bursting, and finally, Lu Ming can no longer maintain the original state of the dragon body, returning to human form.

Fortunately, after his series of attacks to resist, the dragon claw finally dimmed, and the last touch turned into light dissipated.

But Lu Ming's body, like a meteorite, fell down.

Huh...

Quick, too fast, Lu Ming's body rubbed against the air, turned into a fireball, and landed on a vast land.

"Did I finally come in, is this the Dragon Mother Star?"

Lu Ming whispered, however, he wanted to stop his falling state, but he found that the power in his body dried up, and the most important thing was that his musculoskeletal meridians were severely damaged and could not move at all.

There are a lot of divine powers stored in the volume measurement tactics, but these divine powers cannot actually pour into Lu Ming's body, because the meridian in his body is broken so badly that it almost shatters, and the divine power cannot work.

Chapter 3574: Serious wounded and dragon

"It's over, my injury is too serious!"

Lu Ming wailed in his heart.

It's really too serious. The musculoskeletal meridians are almost smashed. Lu Ming can't even move, and can't hold his body at all.

The ground below is getting bigger and bigger. Lu Ming found that he did indeed fall towards a continent. At the last bang, he smashed heavily on a barren mountain. The ground vibrated and the gravel splashed. He smashed the ground out A big pit.

puff!

Lu Ming vomited blood.

"Good hard ground!"

At this time, Lu Ming still thought about this.

According to his power fall, if it hits an ordinary planet, it is enough to smash that planet and make it explode.

But now, only one pit can be smashed.

Lu Ming spit out a few mouthfuls of blood, his eyes fluttered, and he almost fainted.

"Can't be dizzy, I can't be dizzy..."

Lu Ming shouted in his heart to keep himself awake, and finally did not faint.

The Dragon Mother Star is sealed for dozens of stellar years. Who knows what is happening now.

Dozens of stellar years are too long. An ordinary star has a life span of only one stellar year.

Such a long time, no one knows what the dragon clan evolved into. If a wild beast came, wouldn't Lu Ming want to be buried at the mouth of the monster beast.

"Leave here first!"

Lu Ming whispered, trying to get up.

But as soon as he moved, tearing and transparency came from all over his body. The point is, he couldn't move.

"No, the injury is too serious, and the skeletal muscles and meridians of the whole body are smashed!"

Lu Ming sighed, and what shocked Lu Ming most was that even the star nucleus showed tiny cracks.

Eleven star cores are covered with cracks.

This is an unimaginable hit.

Is this still a weak point? It's too dangerous. Lu Ming bet that not many people can break into the Shenjun triple.

"The other 18 weak points are definitely not so dangerous, otherwise not many people can come in. But thirty-three years ago, those 18 weak points seemed to be very dangerous too. Most of the people who went to break down, I don't know if there are Several people broke in!"

Lu Ming thought.

"Don't think about it, the first priority is to heal!"

Lu Ming took a deep breath, and then ran "Qiankun Ten Thousand Decisions" to absorb the spirit of the outside world for healing.

Huh...

Immediately, there was a lot of energy in the air, converging towards the landing Ming, like a small snake, and got into Lu Ming's body.

"This..."

Lu Ming's eyes could not help kicking, surprised.

Without him, the concentration of the spirit here is too amazing, and the richness is not as good as the richness of the outside world.

Run the exercises randomly, and the rich spirit is like a small snake that has penetrated into him.

And this divine energy, not only rich, but also extremely pure, is easily absorbed and refined into its own divine power.

"It is said that the Dragon Mother Star was sealed for dozens of stellar years, and then recovered. This is worthy of the word "recovery" and it is the Dragon Mother Star!"

Lu Ming marveled.

The Dragon Mother Star has been bred since the beginning of heaven and earth. On it, forty-nine primitive dragons were bred. This is an unbelievable star and one of the top cultivation holy places in the universe.

At that time, there were countless dragons, five claws, six claws, seven claws... all the way to nine claws, where countless dragons practiced and proliferated, scattered throughout the universe.

At the beginning, the Dragon Clan became one of the most powerful races in the Honghuang Universe by relying on the Dragon Clan's parent star.

This shows how extraordinary this planet is.

However, this made Lu Ming overjoyed.

The spirit is so strong, for Lu Ming, it is undoubtedly a great piece of good news, allowing him to quickly repair his wounds.

Huh...

Lu Ming adjusts his breathing and continuously displays the "Qiankun Wanda Jue" to absorb the strong spirit between heaven and earth.

The rich demeanor seemed to turn into substance, and continually penetrated into Lu Ming's body, transformed into a burst of warm energy, poured into Lu Ming's limbs and corpses, and repaired Lu Ming's wounded body.

His musculoskeletal meridians are recovering at a rate visible to the naked eye.

After about ten minutes, Lu Ming's injury has recovered partly. He tried to move and found that he was able to move.

Despite the movement, there will still be tears of pain.

Unfortunately, there are still many cracks on the star core, and there is no sign of recovery. It is estimated that the time is too short.

"not good..."

At this moment, Lu Ming's face changed, because he felt a creature approaching quickly.

From all directions, surrounded by him, very fast.

Obviously, before he fell down, he still attracted the creatures on the Dragon Mother Star.

"My current state..."

Lu Ming frowned. His current state was too bad. The star core was covered with cracks, and even a trace of divine power could not work.

"Hurry up to recover..."

Lu Ming can't wait to die, he continues to run the "Qiankun Wanda Jue" to repair the wound, and the recovery is a trace.

If you recover more, you will have more hope.

The sound of breaking the sky sounded, after almost a dozen breaths, there were more than a dozen figures around the pit.

A dozen burly men, middle-aged and young, surrounded Lu Mingtuan.

"Human...No, not..."

Lu Ming looked away, revealing a strange look.

More than a dozen people, adult form, not much different from the human race, wearing black armor, strong momentum.

But unlike the human race, their foreheads have a piece of scale armor, and there are also some scale armor on the neck, which is clearly a dragon scale.

Moreover, there was a touch of Longwei popping out of them.

"Dragon, this is a dragon, but it is not the same as the dragon outside!"

Lu Ming turned his thoughts.

The dragon outside has blood of the dragon family, but has a tail behind it, and looks more orcish towards the orc.

Some people say that those dragons are a new race born from the combination of the Shenlong and the human race. Others say that the dragon people are the descendants of the born dragon and the human race.

But these 'dragonmen' in front of them are more human-oriented and have no tail behind them. Except for some scales on their bodies, they are almost indistinguishable from the human race.

"Is it a stranger?"

"It should be. The fireball just dropped from the sky just now. It must be someone outside the sky!"

"It is said that people outside the heavens are all demons, and they will destroy us if they are evil!"

"This outsider should be injured. We took the opportunity to kill him!"

More than a dozen 'dragon men' are communicating with each other, staring at the land with bad eyesight, and finally, their eyes look at a young man.

The young man's figure is very burly, his muscles bulge, and he is full of beauty of strength.

He looked at Lu Ming, a ray of murderous opportunity flashed in his eyes, and said: "People outside the sky can't stay, they must kill, otherwise it will cause us harm!"

Chapter 3575: Black Dragon Family

"It's not that easy to kill me!"

At this moment, Lu Ming ended the practice of "Qiankun Wandaoyue", opened his mouth coldly, glanced around, looking for a way out.

Although he was injured, but the power of the soul is still there, so he already knew the cultivation of these people.

The highest level of cultivation is the Triple King of God.

The others are the two kings, and the king one.

If it is placed in the period of his heyday, he can shoot all these people to death.

But he is too seriously injured and he doesn't need much strength at all. I'm afraid he will be shot dead by these people.

Hulu Pingyang was bullied by dogs!

"Oh, I still have primal Divine Blood, this should work!"

Suddenly, Lu Ming's eyes lit up.

He was seriously injured and his divine power was constantly running. The original secret technique could not be performed, but it was still primordial blood.

Immediately, he began to communicate with the primordial blood, and it was very smooth. At the heart, part of the energy of primordial blood poured into Lu Ming's body.

Roar!

There was a sound of Long Yin from Lu Ming's body.

"Wait, the breath of the dragon, he is not an outsider.. don't shoot first!"

Suddenly, the burly young man slammed his eyes and shouted.

Originally, everyone else had to take action, and stopped at this moment.

"Think I am my own? By the way, I am a person with primitive dragon blood!"

Lu Ming's eyes moved, and in an instant, there were dozens of thoughts in his heart.

Then he got attention.

Manipulating the primal **** blood, a layer of dragon scales appeared on the surface of his skin, and a powerful dragon power continued to diffuse out.

"Long Wei, so strong Long Wei, he is his own! He is also a dragon!"

"He is not a stranger!"

Suddenly, these black armor 'dragonmen' cried out, and the breath was also collected.

Lu Ming secretly breathed a sigh of relief and seemed to be right.

"This brother, what's going on? How did you smash this place into a big pit? I thought someone from outside came in?"

The burly young man laughed.

"There are indeed outsiders here. I was practicing nearby. When I saw people outside, I rushed up and wanted to kill the other party. I didn't expect to be the opponent. I was seriously injured by the other party and fell down!"

Lu Ming said that he had fallen and was injured and found a good excuse.

"It turns out that way, what about the person outside of heaven?"

The faces of the burly youths and others immediately became dignified and looked alertly around.

"The person from outside came in and should have been injured. After hurting me, he left directly and should not be near here!"

Lu Ming said.

"It turns out so!"

The burly youth and others nodded and relaxed.

"This brother, which force are you from? I think you are seriously injured. How about we send you back?"

The burly youth said that it was good.

"I don't have any power. I'm practicing outside alone!"

Lu Ming said.

"It turns out that you are a casual repairer. We are from the nearby Black Dragon family. My name is Black State. How about you and me going back to the Black Dragon family first to raise the injury?"

The burly youth road.

Ok?

Lu Ming thought deeply.

However, since the other party thought he was also a dragon, there was no hostility and it seemed sincere.

"Okay, that's troublesome black brother!"

Lu Ming pondered a little, then nodded and agreed.

He responded to the party with several considerations.

First, of course, the other party is not hostile. Lu Ming has much stronger soul power than the other party and has a keen sense of sensitivity. If the other party is hostile or has a hint of killing intention against him, he can feel it.

But Black State is sincere and has no hostility, which is why he agreed.

After all, he really needs a place to heal now. It's too dangerous to be alone.

Second, the range of the Dragon Mother Star is too large and the territory is vast. If you want to find Qiuyue and Xie Nianqing, like a needle in a haystack, it is better to mix into the local people first. Borrow the relationship between the local people and find Qiuyue and Xie Nianqing. Find, do not know how much stronger.

Based on these two considerations, Lu Ming agreed directly.

"My name is Lu Ming!"

Lu Ming introduced himself.

"Brother Lu, go!"

Black State waved a hand, and a war sword flew out. The war sword was surrounded by a black dragon statue, which was quite domineering.

The war sword suddenly became larger and became 100 meters long and 10 meters wide.

Lu Ming jumped up and landed on the War Sword.

At this moment he borrowed the power of primordial divine blood and still had the power to fight.

"Go, go back!"

Black State Road, mobilizing the War Sword, flew in one direction.

The others followed Black State together.

"Huh? These people are God King Realm, but the flight speed is so slow?"

Lu Ming was surprised.

He discovered that the cultivation practice of Black State was Triple King of God, and the others were Double King of King or Single King of King, but the flight speed was very slow.

Outside, a **** king, flying at full strength, amazingly fast, can traverse the cosmic sky, leap from planet to planet, cross a galaxy, and it won't take long.

But the speed of Black State and others has slowed down, I don't know how many times.

"It is estimated to be related to the environment of the Dragon Mother Star?"

Lu Ming whispered.

For example, Lu Ming had entered the primitive spirit world at that time, and there, their flying speed was also greatly affected.

On the way, Lu Ming chats with Black State while running the exercises and absorbing the healing energy.

For two purposes, it is nothing to Lu Ming.

Through chatting, he knew a lot of things.

Black State is a nearby force, the young master of the Black Dragon family. Before he practiced outside, he suddenly saw someone fall from the sky and thought that someone from outside came in. He came to check it and happened to meet Lu Ming.

Moreover, Lu Ming passed the side knocks and knew that the Dragon Mother Star, the previous environment, is completely different from the present.

In the past, the cultivation environment of the Dragon Mother Star was extremely harsh. The entire Dragon Mother Star was cultivated to the highest level, and it was only the peak of the god. No one broke through the God King.

But from a hundred years ago, the Dragon Mother Star suddenly mutated and exploded, an endless demeanor appeared, everything grew madly, there were countless magic drugs, and countless talents.

The dragon clan star seems to be recovering.

Everyone's cultivation behavior also skyrocketed, cultivation cultivation was hurricane, and the people of the **** realm appeared like mushrooms.

Now, the dragon clan star has already appeared the character of the peak of the **** king.

Black State, one hundred years ago, was one of the most talented gods, and now it is already a triple king.

"Hundreds of years, so many breakthroughs!"

Lu Ming was secretly surprised.

Black State, one hundred years ago, was the only deity, and now it has soared to the triple king.

The Dragon Mother Star, previously cultivated as the highest talented **** peak, is now the highest, and actually reached the peak of the **** king. This speed is almost terrifying and unimaginable.

Lu Ming has a lot of word skills, and his adventures are constant, and he can be cultivated for improvement, not so fast.

Chapter 3576: Ancient ruins

In a hundred years, it has been a miracle to cultivate so much for Cyclonus.

And it's not a case, it's because many people's cultivation practices are hurricane.

Black State and others, claiming to be dragons, possess the blood of the Shenlong.

Lu Ming speculates that the reason why these people can promote so fast is probably related to the blood of the Shenlong, but it is only a part of the relationship. The speed of the practice of other people here must be very fast.

"The Dragon Mother Star was originally one of the most magical planets in the universe. The cultivation environment of that year was definitely against the sky!"

"Later sealed by the Shenlong tribe, it went silent. After so many years, the seal suddenly broke out, so it created an unprecedented cultivation environment!"

Lu Ming kept speculating in his heart that his eyes were bright.

No wonder the geniuses of the whole universe are going here, all wanting to enter the Dragon Mother Star.

Not to mention anything else, this cultivation environment is a great opportunity.

An hour later, there was a peak ahead.

In front of the peak, there is a huge city, this city is the Black Dragon family.

After an hour of healing, Lu Ming's injury was much better. The musculoskeletal meridians barely coalesced, but there were still many cracks, and there were still bursts of tingling.

However, Lu Ming was able to move freely without relying on primitive blood.

They entered the city.

The Black Dragon family has a wide range, the most powerful force in this area.

As a minority of the Black Dragon family, Black State naturally occupies a huge courtyard with hundreds of rooms. He arranged for Lu Ming to live in one of the rooms.

"Start healing!"

Lu Ming did not delay at all. After staying, he started to run the Qiankun Wandao Jue directly and began to heal.

The air between heaven and earth, like a small dragon, burrowed into Landing Ming's body, it was too rich.

These divine energies are constantly transformed into Lu Ming's divine power, part of which enters the musculoskeletal meridian to repair the wound, and part of it enters the eleven star nuclei to repair the star nuclei.

Lu Ming's injury is recovering at a speed visible to the naked eye.

His vitality is very strong, and his physical repair speed is very fast. In just three days, his physical body is completely healed, leaving no trace of sequelae.

Unfortunately, the star core is still covered with cracks.

Although these three days have been repaired so that Lu Ming can barely use the divine power, but now, he can only play the cultivation practice of the peak period of the god.

"However, the spirit here is extremely strong. I am afraid that the star core can be fully recovered and reach its heyday in up to two years!"

Lu Ming thought.

After three days of cultivation, Lu Ming felt even more extraordinary here.

His injury was really serious, and the star core was cracked, which can be said to be extremely dangerous.

If this kind of injury is outside, it will be difficult to recover in tens of thousands of years.

Problems with the star core are the most difficult to solve.

But here, Lu Ming grasped that it would fully recover within two years.

Now, every day, his strength will recover.

"Hurry to restore strength to be able to protect yourself. I don't know how about the other 18 weak points? The other weak points should not be so dangerous. Some people must have come in."

"Most of the Wings will come from other weak points. I have to recover to the heyday as soon as possible, otherwise it will be dangerous to meet the Wings!"

Lu Ming felt a sense of crisis and continued to exercise his strength to heal.

Three days later, Lu Ming's cultivation was restored to the weight of God King.

In the past ten days, Lu Ming's cultivation practice has been restored to the Triple King of Gods.

The recovery speed is gratifying.

On this day, Lu Ming heard a noisy noise from outside, and it seemed very wild.

Lu Ming frowned. This is the black house where Black State lives. Black State is the young master of the Heilong family. What happened when his other house became so noisy?

Lu Ming decided to take a look.

Lu Ming walked out of the room and walked through a corridor, and saw a group of people carrying a stretcher and hurried in.

Lu Ming walked over and saw that the person lying on the stretcher was actually Black State.

At this moment, Black State's face was pale and his breath was weak, and there was no slight fluctuation in his body.

"what happened?"

Lu Ming asked a middle-aged man.

"The young master explores the Black Dragon Valley, is attacked by the dragon beast, the dragon vein is destroyed, hey..."

The middle-aged man gave a long sigh.

"Black Dragon Valley? The dragon vein is destroyed?"

Lu Ming wondered.

"Don't tell you, we have to take care of the young master!"

After the big man finished speaking, he put Black State into a room.

"It seems to be seriously injured!"

Lu Ming frowned. Now that Black State had just returned, it was not appropriate to disturb. Lu Ming returned to the room and continued to practice.

A day later, he repaired something more, but he has not yet reached the fourth level of God King.

At this time, Lu Ming ended his practice again and planned to visit Black State.

After all, Black State took him back to the Black Dragon family, so that he could recover with peace and gratitude to him, and now the other side is injured, it would be unreasonable not to look at it.

When she came to the black room, a maid stood outside the door.

"Master Lu Ming, Young Master is resting!"

The maid stopped Lu Ming.

When Lu Ming came before, Black State introduced Lu Ming, so this girl knew Lu Ming and knew that Lu Ming was a friend brought back by Black State.

"I want to see Brother Black State to see how he is injured?"

Lu Ming said.

"can..."

The mammoth wanted to say more.

"Let Brother Lu come in!"

From the room, the voice of Black State came.

The maid nodded and pushed the door open, and Lu Ming walked in.

In the room, Black State was sitting on a table and was drinking alone. It seemed that the injury was not serious, but the breath was weak, just like an ordinary person.

"Brother Black, what are you doing?"

Lu Ming asked.

"Brother Lu, my dragon vein is destroyed, already a waste person!"

Black State grinned awkwardly, with a look of despair in his eyes.

"Scrap?"

Lu Ming was shocked.

"Yeah, our dragon human race has a dragon vein in the body. The dragon vein is the key to cultivation. The dragon vein is destroyed. Even if there is a star core, it is a waste person and cannot use divine power..."

Black State said miserably, and then drank another glass of wine.

"Brother, what the **** is going on? I heard that you went to Heilonggu? Where is Heilonggu?"

Lu Ming asked.

"Brother Lu, do you know the ancient ruins?"

Black State Road.

"Ancient ruins?"

Lu Ming was surprised and shook his head.

Black State disregarded it and said, "Brother Lu, you are a loose repairer. Perhaps you don't know much. Legend has it that our planet is the planet of the dragon, and we are all descendants of the dragon!"

"In ancient times, this planet was extremely glorious, countless dragons survived on this planet, possessed countless strong men, possessed countless powerful forces, but unfortunately, after World War I, countless outsiders attacked the planet, countless dragons were killed !"

"The divine dragon is overthrown, the powerful divine dragon's forces are falling apart, and what remains after the destruction of those forces is the ancient ruins, or the ancient holy land!"

Chapter 3577: Family conflict

Lu Ming knew very clearly that the war of extinction that Black State said should be a battle of other races attacking the Shenlong tribe before dozens of star years.

That battle directly killed most of the Shenlong clan.

Black State continued: "Heilonggu, in ancient times, the strong people of the Heilong family lived, and later the black dragon was destroyed, but the black dragon valley remained, but has been in the seal!"

"And my black dragon family is a descendant of the black dragon family. One hundred years ago, the seal of the black dragon valley was loose, and you can enter the black dragon valley. In the black dragon valley, there are countless treasures..."

After the explanation of Black State, Lu Ming finally understood the following things.

A hundred years ago, the Dragon Mother Star recovered, and some of the ancient holy sites left by ancient times also began to recover, bursting out of mysterious mystery, with seals, the seals began to loosen, they could not enter, and they became accessible.

The Black Dragon Valley originally had heavy seals and was difficult to enter, but from a hundred years ago, the seals became loose and became accessible.

There are a lot of treasures in it. The Black Dragon family is also relying on the Black Dragon Valley to rise rapidly. The cultivation of the Black Dragon family has grown exponentially.

One hundred years ago, the black dragon family was the highest, and it was only the five gods. Now, there are a lot of **** kings.

However, the treasures in the Black Dragon Valley are not arbitrarily taken. They are very dangerous. For so many years, a lot of dragon beasts have been bred in them.

These dragon beasts do not have psychic intelligence, but they are amazing in strength, powerful, and fiercely abnormal. In these years, many people of the black dragon family have died in the dragon beast mouth.

A few days ago, Black State and some people from the Black Dragon family entered the Black Dragon Valley to explore. Black State was seriously injured by a dragon beast, and the dragon's veins were destroyed and became a waste person.

"Dragon vein?"

Lu Ming was curious.

For the first time, he heard that there was a dragon vein. The dragon vein was destroyed and the cultivation practice was abandoned. This is different from the outside.

Perhaps, it is related to Shenlong.

Although Lu Ming was curious, he did not show it. After all, he is also pretending to be the dragon family of the dragon clan's star. If he is curious, isn't it exposed?

Lu Ming was looking for an excuse to see what happened to some dragon veins. At this time, there was a loud noise outside.

"Master Kurokawa, Young Master is resting..."

Outside, the voice of a maid from Black State came.

"Give up, I know his dragon veins are broken, but people are not broken!"

Outside, a cold voice came.

"Kurokawa!"

Black State frowned, then got up and walked outside.

Lu Ming was curious and followed.

In the courtyard outside, six or seven people came. One of them was a young man. He looked as old as Kuroju, and his face was cold.

"Black State, you came out, it looks like you have a good look, and your body is fine..."

The young man smiled.

"Cousin, do you have anything to do with me?"

Black State Road.

Kurokawa is the cousin of Kuroshu and the son of Erbo Kuroshu.

"Black State, discuss something with you!"

Kurokawa turned his eyes and said.

"What's the matter?" Black State asked.

"Black State, you see that your dragon veins are now destroyed, and you can no longer practice, and you have no combat power. According to the rules, you can't continue to control the black dragon family, it is better to give me the black dragon order, how?"

Kurokawa Road.

Hearing this, Kuroshu's complexion changed greatly, and he looked at Kurokawa in disbelief and said, "You...Do you want my Black Dragon Order?"

"Black State, the Black Dragon made you stay on the body, it's useless, and your dragon veins were destroyed. To be frank, you will be a waste person in the future. What will you do if you stay in the Black Dragon Order? You are not qualified to control the Black Dragon Order!"

Kurokawa continued, but his voice had cooled down.

"you...."

Black State was extremely ugly and sad.

His dragon veins had just been destroyed, and Kurokawa had actually brought people to ask for the Black Dragon Order, which he could not believe.

Previously, his relationship with Kurokawa was very good, just like a brother.

And this time, the reason why he was injured by the dragon beast and the dragon vein was destroyed is entirely because of Kurokawa.

In the Black Dragon Valley, Kurokawa was chased by the dragon beast, and then the black beast tried to block the dragon beast before saving his life. However, he was injured by the dragon beast and destroyed the dragon vein.

It was because he saved Kurokawa that he became a waste person, but now, only two days later, Kurokawa actually took someone to seize his black dragon order, making him difficult to accept.

The Black Dragon family, the head of the previous generation, was the father of Black State.

A hundred years ago, the dragon clan recovered, and the Black Dragon Valley seal was loosened. His father entered the Black Dragon Valley to investigate, and was killed by the dragon beast inside.

The position of the family head of the Black Dragon family would have fallen to the black state. However, the black state was still young, and it was not officially in charge for the time being. Instead, as the young master, it managed the Black Dragon family together with the elders of the Black Dragon family.

Moreover, Black State is extremely talented, and is the first person in the young generation of the Black Dragon family, indeed qualified to inherit the Black Dragon family.

The Black Dragon Order is a symbol of the head of the Black Dragon family and the key to entering the Black Dragon Valley.

"The Black Dragon Order, only the head of the Black Dragon family can be in charge. Heichuan, you are not qualified to control. Why should I give you?"

Black State said coldly.

He called the other party a cousin just now, but now his heart is cold and he calls his name directly.

"Yes, the Black Dragon Order is indeed controlled only by the owner, but you are now abolished, you are a waste person, you must not be qualified to control, and I, as the strongest arrogance of the current Black Dragon family, the position of the future owner is none other than me. !"

"You said, can I hold the Black Dragon Order?"

Kurokawa sneered, since he had already said it, he did not hide his ambitions.

"You... you still want to seize the position of the head of the Black Dragon family, you don't want to!"

Black State roared.

"Xiu Xiang? Black State, don't forget, you are a waste person now, you are no longer qualified, who in the Black Dragon family is qualified except me?"

Kurokawa sneered, revealing a rich sarcasm.

"I was hurt by the dragon beast just to save you. You are ungrateful, mean and shameless..."

Black State shouted.

"Black State, don't talk nonsense!"

Kurokawa shouted, his eyes cold, and said: "You are greedy and you want to **** the treasure, so you were injured by the dragon beast, actually said it was to save me, Kurokawa, you are too mean, too shameless !"

"you you...."

Black State's body was trembling, his eyes were red, and he almost vomited blood.

Obviously, he was injured by the dragon beast in order to save Kurokawa, but now, Kurokawa not only does not admit it, but also says that he is slandering.

Not only that, but also to take away his Black Dragon Order, but also said that he was mean, really...

He understood that Kurokawa had a good relationship with him before, it was all fake and pretended.

This is a white-eyed wolf who will fight back whenever he has a chance.

However, Heilongling, he will never hand it over, this is left to him by his father, he will never give it to others.

Chapter 3578: Careless?

"Hello, you said, you were in the Black Dragon Valley, you were on the side, you saw it, was it that I was injured by the Dragon Beast to save Kurokawa?"

Black State looked at a middle-aged man.

This middle-aged man, one of Black State's men, followed his father, and then followed him.

Previously in Heilonggu, only he saw the truth.

"Hey, Master Black State, why are you framing Master Kurokawa, you were greedy and only injured by the dragon beast, tell the truth, no one will blame you..."

Black sighed heavily.

"You...you betray me too!"

Black State roared, his eyes cracking.

Obviously, Kurokawa has already turned to Kurokawa, and he came in with Kurokawa just now.

"Black State, I know you want to pretend to be like a good person, pretend to be innocent, pretend to be injured to save me, get rid of your responsibilities, but the truth is the fact, it can't be thrown away, well, now Give up the Black Dragon Order, you can continue to stay in the Black Dragon family in the future, delicious and delicious, I will not treat you badly!"

Kurokawa sneered.

Everything is under his control. Today, he will definitely get the Black Dragon Order, and will later take charge of the Black Dragon family.

He waited for this day for a long time.

Thinking of being in Black Dragon Valley before, he was scared after a while.

He saw a kind of magic medicine, and became greedy. He wanted to take it off, but was attacked by a powerful dragon beast. Fortunately, the fool of Black State arrived and rescued him.

And the dragon vein was destroyed by the dragon beast, which is really great news.

"Don't think about it, even if I die, I won't give the Black Dragon Order to you this mean villain!"

Black State shouted.

"Black State, don't be stubborn, Master Kurokawa has given you a face, you are stubborn, Master Kurokawa will not do anything, I can't see it!"

Aside, Hei took a big drink and took the opportunity to perform well in front of Kurokawa.

"You, this wolf-hearted thing, let me go!"

Black State was angry.

"Black State, do you recognize the reality for me, do you think you are the first day of the Black Dragon family? You are a waste person now, you are nothing, you will not surrender the Black Dragon Order, don't blame me merciless!"

Hei drunk coldly, and he was forced to go to Heichuan step by step.

Aside, Kurokawa looked at with a sneer, with no intention of stopping at all.

Originally, when he came today, if he was going to fail to pay the black state, he would directly take the snatch. Hei shot sharply, and he also saved himself.

"Hey, you... do you dare?"

Black State roared, backing up again and again.

Hei Da Da, is only the king of God. In the heyday of Heizhou, he can kill Hei Da spike in one stroke, but now his dragon veins are abolished, and he is not an opponent of Hei Da Da at all.

"Stubbornness, let me pick it up myself!"

Hei drunk coldly, stepped on his feet, and rushed to Kuroshu as a phantom, his hand clawed down to Kuroshu.

In the current state of Black State, it simply cannot be avoided.

Just when Hei Da was about to grab Black State, a palm suddenly came out from the side and grabbed Hei Da's wrist.

No one knows when this palm was protruded, because it was too fast.

The shot was naturally Lu Ming.

He has been silently watching on the side before, although he does not know the specific details, but through the conversation just now, he can guess a little.

Moreover, from the fact that Black State can rescue him and let him recover here, it can be seen that Black State has a kind heart, and Lu Ming naturally believes in Black State, so when Hei made a big shot, he did not hesitate to take it.

"Boy, it's you!"

Hei was taken aback and looked at Lu Ming.

He was surprised, Lu Ming could actually grab his wrist.

When rescued Lu Ming came back, he also followed the black state, personally explored Lu Ming.

Lu Ming was seriously injured, and according to his breath, Lu Ming's breath was very weak, and it was just a waste of Heavenly Realm. Now, can he grab his wrist?

Careful!

Hei Da believes that it was his own carelessness. He hadn't put Lu Ming on his heart before, so he was caught carelessly by Lu Ming's wrist.

"Now, immediately, get out!"

Lu Ming spoke lightly.

"What are you talking about? Boy, you are a waste of God's God Realm, and dare to speak eloquently, then I will suppress you first!"

Black laughed sharply.

Lu Ming was injured before, the star nucleus cracked, and the breath was weak.

boom!

Hei broke out with all his strength, and the power of a king of the gods broke out, like a storm, rushing towards his wrist.

In his view, this time, Lu Ming's palm can definitely be cut off. Lu Ming will definitely show a terrified and desperate expression. He seems to have seen such an expression.

next moment...

There was no movement, there was no movement at all, and the large black power rushed towards Lu Ming, as if the stone were sinking into the sea, without even arousing a little splash.

"How do you..."

Black's eyes widened wide, and he watched Landing marvelously.

"waste!"

Lu Ming said coldly, and then exerted pressure on the palm of his hand.

Click!

The sound of broken bones sounded, and then the large black pupils enlarged sharply, a face was twisted, and at the next moment, a screaming tremendously.

"My hands..."

Black shouted sharply, miserable, and one of his arms had turned into a twist.

bump!

Lu Ming's palm shook slightly, and a large black arm exploded directly. He retreated backwards and hit the wall of the yard heavily, knocking the wall out of a big pit. He was embedded in the wall and vomited blood. .

It was abandoned, and his dragon veins were also abandoned, becoming a waste person.

Thinking of this, his eyes were full of despair.

Just now, he seemed to see Lu Ming showing incredible and desperate colors. After two breaths, these expressions were not seen on Lu Ming's face, but appeared on his own face.

Really impermanent!

"It's really hard..."

Lu Ming whispered, he didn't mean black and big, he meant the courtyard wall.

Although he just used the double power of the King of God just now, but if this kind of power is placed outside, it can break the small half of the planet, and the ordinary meteorite will definitely explode.

But here, it was just a small piece of broken wall.

The mother star of the dragon family is really extraordinary, even more extraordinary than the primitive spirit world.

Lu Ming checked the data of the dragon clan's mother star in the fantasy **** jade, and it was born from the beginning of heaven and earth. One of the earliest planets in the universe contains countless secrets.

Lu Ming's thoughts flew away, while Kuroshu, Kurokawa and others were startled, wide-eyed, and watched Landing Ming.

They didn't expect that Lu Ming actually had such a strong strength that he could kill the black sharply.

"Boy, I didn't expect you to hide your strength!!"

Kurokawa looked coldly at Naruto.

Chapter 3579: Kick kick

The origin of Lu Ming, Kurokawa has long been inquired. From the large mouth of Hei, Lu Ming is a casual repairer who was injured by someone outside and rescued by Kuroju.

Cultivation is probably heaven and earth.

This is the information he got, so before, he directly ignored Lu Ming who was standing aside, and did not put Lu Ming in his eyes at all.

Unexpectedly, Lu Ming actually had the power to spike black sharply.

"Now, immediately, get out!"

Lu Ming drank coldly.

Kurokawa's face gloomed down, his eyes flashing like a viper, staring at the landing, and said: "Boy, look at your strength is not bad, give you a chance, surrender to me, be my dog in the future, I will let you do what you want What can we do today, we can do this!"

"It seems that you are deaf, I let you go, you did not hear, give you three breaths, three..."

Lu Ming started to count down.

Kurokawa's complexion was extremely gloomy and coldly said: "Giving shameless things to the face, thinking that there is a little strength, we can barely rampage in our hands, and we can get rid of it together, and give me his dragon veins, so that he changes like black state. Into a waste dog!"

boom!

Kurokawa started by himself, and a powerful breath burst out.

Divine King, this is the practice of Kurokawa.

In addition, several other people who came from Kurokawa also shot, and there are two others, who are also the king of God, and the others are the king of God.

A total of six people came to the landing.

So many masters, even if Lu Ming is the second king of the gods, he will be beaten into scum.

"No, Brother Lu, don't worry about me, go away!"

Black State's complexion changed and shouted.

"Now I want to go, late!"

Kurokawa sneered.

"Go? Who said I was going?"

Lu Ming smiled faintly, and at the next moment, his figure flickered like a flash of lightning and rushed towards Heichuan and others.

then...

Boom...

After the figure, they retreated backward, flew out like a sandbag, and hit the wall of the yard.

In an instant, the five figures all hit the wall, stepped into a large black trail, embedded in the wall.

Only Kurokawa was left.

Of course, Lu Ming deliberately left him.

Kurokawa's pupils widened sharply, his hair stood upside down, the blood flow accelerated, and his heart beat violently. At this moment, he felt that his thinking had stopped working.

"What's going on? How could this be?"

Kurokawa was stunned.

Among the people he brought, there were two double kings. Even if the strength was weaker than him, it would not be much worse, but Lu Ming was killed.

This is still the cultivation of Heavenly God Realm, Goofy!

"Retreat..."

Heichuan shouted in his heart. At this moment, he had only one idea, that is, to retreat, leave here quickly, and then move the rescuers, and then come to suppress Lu Ming.

"Retreat now, late!"

Lu Ming was like a wind and was amazingly fast. He appeared in front of Kurokawa, staring at Kurokawa indifferently.

what!

Kurokawa yelled furiously, struggling to shoot, Jianguang was like a dragon, slashing towards the landing Ming, but Lu Ming shot it, Jianguang broke, and Lu Ming's claws were caught on Kurokawa's shoulder.

Click!

The sound of broken bones came out, and Kurokawa's shoulder was directly crushed, and Kurokawa screamed mournfully.

"stop!"

At this moment, a roar came from the air, a strong breath filled down.

In the air, a middle-aged man appeared, his eyes very cold.

"Dad, daddy, come and save me, abandon this kid, I want him not to die!"

Kurokawa saw the middle-aged man overjoyed and shouted excitedly.

"Let me go and spare you!"

The middle-aged man stepped down, a strong breath, like a storm, squeezed down to the landing.

"God is fourfold!"

With a move in Lu Ming's heart, he knew that this middle-aged man was the cultivator of the Four Kings of God.

"God king is only fourfold, I want to see, how can you not let me die!"

Lu Ming smiled faintly, his palms suddenly exerted force, a powerful force burst out, and Kurokawa's body was like a meteorite, hitting the ground fiercely.

boom!

The ground roared and a large pit was smashed.

The ground here is incredibly hard. He was smashed into a big pit by Kurokawa, which shows how powerful Kurokawa was bombarded. He was lying in the big pit, spouting blood, his body was like a pool of mud, and he could not move. .

"you wanna die..."

The middle-aged man's anger was unstoppable, and a terrible killing erupted. His eyes were all burning anger and killing intentions. With the outbreak of divine power, his body swelled up, and more scales appeared on the surface of his body.

And his claws turned into claws like dragon claws, rushing towards the landing clan.

The breath is violent, and I don't know how much stronger it is than Kurokawa.

However, Shen Wang's fourfold, in Lu Ming's eyes, is really weak.

Although Lu Ming is now only restored to the triple king, Lu Ming controls eleven kinds of divine power, and all of them are more than four awakenings, and there are original secret techniques, and even primitive **** blood.

The middle-aged big man, the original divine power factor, was only an awakening. Even if Lu Ming was a bit higher than Lu Ming, in Lu Ming's eyes, it was still a ants, the gap was too big.

bump!

Lu Ming kicked out with a single kick, almost fiercely, and then came first, kicking directly to the middle-aged man's face.

The middle-aged man can't resist it at all.

bump!

The soles of the feet are steady and accurate, not too small. They kicked on the face of the middle-aged man. The middle-aged man gave a dull, unbelievable scream, his body flew back faster than before, and then it was heavy. Hit the wall of the yard.

One of his faces was completely deformed, his nose was crooked, his mouth was slanted, and a clear footprint was printed on it.

The middle-aged man is completely ignorant, what is going on? What am i doing where am I?

It took a while for his thinking to recover, and then it was shocked and incredible.

His training was obviously higher than Lu Ming, and was actually killed by Lu Ming.

Behind, Black State was also dumbfounded.

Lu Ming's strength is completely beyond his expectations.

"Just let you roll, just now, if you want to roll, you have no chance!"

Lu Ming said coldly, stepping out, persecuting towards the middle-aged man.

"Brother Lu, be merciful..."

At this time, Black State shouted.

Lu Ming frowned and stopped, saying, "You want to let them go?"

"They are my loved ones after all, just forgive them once, this time, they also taught them!"

Black State Road.

"You let them go, they may not let you go behind them, I'm afraid they will get revenge!"

Lu Ming said.

"The Black Dragon family, it is not their final say, there is also the elders' home. I am the young master of the black dragons' family. The elders' home will preside for me!"

Black State Road.

Lu Ming shook his head slightly, and Black State was still too soft and too kind.

But because of this, he would save him a stranger.

Since Black State said so, Lu Ming didn't say much. Anyway, he knew a little about the strength of the Black Dragon family. He didn't think about it. If he came again, he would kill it.

Chapter 3580: Dragon vein

"You're in charge!"

Lu Ming waved his hand.

"You guys, get out, if you come again next time, you will never be spared!"

Black State said coldly, still decided to give the other party a chance.

The middle-aged man is his second uncle.

In this world, he is also his only relative.

"go!"

The middle-aged man quickly took Kurokawa and others and fled in embarrassment.

"Black State, and that kid, I want you to die!"

The middle-aged man roared in his heart, he must repay today's revenge, and he must get the Black Dragon Order.

...

"Brother Lu, what do you do?"

Black State looked at Lu Ming, full of surprise.

Lu Ming's strength surprised him.

He and others like Kurokawa originally thought Lu Ming was the cultivation of the heavenly realm. After all, Lu Ming was too weak when he first saw Lu Ming.

"I was seriously injured before, and the star core was also hit hard, but now it has been repaired to recover some!"

Lu Ming smiled.

"It turns out so!"

Black State nodded, not caring about what Lu Ming said 'restored some'. In his view, Lu Ming's current strength has far exceeded his heyday.

"Oh, what happened to those people just now?"

Lu Ming asked.

"That middle-aged man is my second uncle..."

Immediately, Black State explained the whole story.

"My second uncle was very good to me before. I didn't expect that when I was injured, I showed my true face. It seems that I had misread them before!"

Black State sighed, very lonely.

"It's really mean!"

Lu Ming nodded, and Black State was injured for Kurokawa, and the dragon's veins were destroyed and reduced to waste. However, the other party didn't know what to do. In return, he would take away his Black Dragon Order, and who would be cold.

"By Black Brother, let me look at your dragon veins and see if I can find a cure!"

Lu Ming said.

Lu Ming is a man who knows how to give thanks. He saved him, and he will return. See if there is any way to cure the dragon veins of Black State.

Another one, he is also very curious about the dragon veins, want to see.

"Dragon veins are destroyed, it is almost difficult to heal. I have never heard that the dragon veins can be cured. Brother Lu is more troublesome!"

Black State sighed, his eyes full of loneliness, and a trace of despair.

Now that the Dragon Mother Star is recovering, this is a great opportunity. It is the moment of taking off, but he has become a waste person and lost the hope of continuing to climb up. Anyone must be desperate.

It's rare that he can keep his state of mind.

"Maybe there is a way, there is no absolute thing in the world!"

Lu Ming smiled.

Finally, Black State nodded and let Lu Ming take a look.

Lu Ming waved his hand, and a divine force entered the black meridian, dispersed into the whole body of Black State, and began to check Black State's injury.

Black State's physical injury was not serious, and he basically recovered, and Lu Ming did not pay much attention to it.

After a while, Lu Ming found a meridian in the black spine.

This meridian is thicker than any other meridian, like a divine dragon, running through the black fields of Dantian and the brain.

However, this meridian has been destroyed, broken, and dead.

Dragon veins!

Lu Ming knows that this is the dragon vein.

"This is the Dragon Vessel. It's really wonderful. There are no creatures outside. Perhaps, it's related to the Shenlong. These people are the true descendants of the Shenlong and have the blood of the dragon!"

Lu Ming thought, secretly surprised.

This is the first time he has heard of this dragon vein.

Outside, there are also dragons, but there is no dragon vein at all.

"Perhaps, the so-called dragon people outside are not descended from the Shenlong at all, but the wild dragon!"

Lu Ming thought of the dragon people outside.

Those dragons, with their tails and terrible looks, are not like dragons but more like wild dragons.

"Brother Lu, is there a way?"

Asked Black State.

Although he said in his mouth that he could not be cured, he inevitably held a glimmer of hope in his heart.

Ok?

Lu Ming didn't answer, but frowned.

Seeing Lu Ming not answering, the slightest hope in Black State's heart was also extinguished, sighing: "Brother Lu, anyway, I also know that it is impossible to repair, the dragon vein is destroyed, how can it be repaired!"

The expression is full of loneliness.

But Lu Ming's next words almost made Black State jump.

"Brother Black, although your dragon vein is destroyed, it is not impossible to repair!"

Lu Ming said.

Black State's body was trembling, trembling violently, his eyes widening, staring at the landing, and hopeful: "Lu...Brother Lu, you...you mean, my dragon veins can be repaired?"

"Good, okay!"

Lu Ming nodded, very seriously.

call!

Black State exhaled for a long time, and seemed to drop a big rock, and then looked at the landing song doubtfully, and said, "Brother Lu, what can you do?"

"Simple, as long as I give you a potion to drink, you can heal your dragon veins!"

Lu Ming said.

"Potion?"

Black State surprised, a kind of medicine, so simple?

"Yes, Brother Black waits for me for a while, I will go back to the room to dispense medicine!"

Lu Ming nodded.

The medicine he said is actually fake, but he has a way to heal the dragon veins of Black State, but it is true.

As long as his blood is enough.

Now, he has refined into primitive divine blood and dwells in his heart at all times. Although it is only a drop, it is not trivial, assimilating his blood at all times, so that his blood also has some of the properties of primitive divine blood.

His blood may be useless to other people, but it is of great use to the descendants of the Shenlong race, such as Black State.

As long as a small cup of his blood, it can definitely restore the dragon vein of Black State completely, even better than before.

But this cannot be said directly, so as not to cause suspicion, so Lu Ming just frowned in contemplation, and finally said it was a medicine.

"Okay, okay, Brother Lu, despite the configuration of medicament, if there is any need, just mention it to me!"

Black State said quickly, excited.

Originally he was desperate. Now that there is hope, it is strange that he is not excited.

"No, I'll go back to the room and configure it for a while, it won't take long!"

Lu Ming smiled.

Then went back to the room and took out a jade bottle. Yun Gong forced some blood into the jade bottle.

After thinking for a while, Lu Ming took out two more Shendan, kneaded it into powder, and poured it into the jade bottle.

These two kinds of Shendan powders do not have any special effect, but can neutralize the blood and remove the **** smell. Looking at this bottle of blood, it looks more like a medicine.

After matching, Lu Ming waited another half an hour before returning to the black room.

"Lu...Brother Lu, but what help is needed?"

Asked Black State.

"No, I have prepared the potions!"

Lu Ming smiled.

"Is it ready? So fast?"

Black State's eyes widened in surprise.

Originally, he thought that the medicine that can repair the dragon veins must be very complicated, requiring a lot of precious medicinal materials and taking a long time.

But now, only half an hour.

If he knew that Lu Ming had deliberately waited for half an hour before coming, I don't know how he felt!
