

D Emperor 3601

Chapter 3601: The situation of the dragon star

bump!

Ba Shen Gun successfully broke through the defense of the Fire Centipede, pierced with a single shot, translucent before and after, a violent burst of energy, the body of the Fire Centipede exploded into two pieces and fell directly.

In the shot just now, Lu Ming has exploded the power of the Ba Shen Gun after cutting off the shackles.

In addition to not using other original secret techniques, Lu Ming's individual attack power has almost been exerted to the extreme, easily breaking the defense of the fire centipede.

It is also a trio of Divine Monarchs. The Huoji tribe's natural arrogance is powerful, and its combat power is stronger than that of the Holy Fire Sword Sect.

Faced with the arrogance of the Holy Fire Sword Sect, Lu Ming did not need to excite the power of the original Divine Blood, he just shot one shot and solved it easily.

In the face of the arrogance of the Huoji tribe, Lu Ming, after inspiring the power of primordial blood, was almost the same, one shot.

After killing one of the fire centipedes, the Ba Shen Gun swept across and another fire centipede was hit.

With a bang, the flame centipede also exploded and fell to the spot.

"how is this possible?"

"Damn, damn, this is not true!"

The remaining eight fire centipedes were so shocked that they couldn't believe it.

Their fire centuries, needless to say, are very powerful, but what is even stronger is their defense. It can be said to have both bow and bow. In addition to being slower, others are very strong.

But now, their proud defense, in front of Lu Ming, was unable to withstand a blow, one blow to another.

They are afraid!

"Retreat, leave here!"

"This kid is evil, go back and bring everyone together, let Master Wu Tian come to kill him!"

"go!"

The remaining eight fire centipedes were afraid, and kicked back, wanting to leave here.

"Now I want to go, late, kill!"

Lu Ming roared, other primitive secret techniques on his body continued to emerge.

In an instant, at least seven or eight kinds of source secret techniques were used.

In addition to the Shield of Heavenly Profound Shield, the primitive mystery of the auxiliary type such as the ancient dragon's horn, Lu Ming used the other primitive types of attack.

Jingle Bell!

The celestial bell vibrates, and the sound wave that shakes the soul emanates, causing the eight fire centipedes to tremble.

Then, Sword of Destruction, Blade of Heavenly Demon, Gate of Domination, Moon of Lunar Moon, Sun of Sun...

All kinds of original secret techniques have launched an offensive.

All of these original secret techniques have cut off a chain of shackles, and they all burst out with amazing power.

puff!

A fire centipede was split in half by the blade of the demon.

Then, another fire centipede, pierced its head by the hole of the broken sword, and the soul was annihilated.

At the same time, a large hand was found in the door of the Dominator, squeezing a fire centipede alive.

The lunar moon, the sun day, sprinkled the glow, let the two fire centipedes body turned to ashes.

Lu Ming swept across the eruption with a bullseye gun, and all the fire centipedes exploded.

Lu Ming's fighting power was full, and only a few breaths. The remaining eight fire centipedes were slaughtered.

Even these fire centipedes were too late to take out the dream **** jade to spread the news and were killed.

"It's cool to return to the peak!"

Lu Ming was energetic, but calmed down quickly.

Although these fire centipedes are unbearable, Lu Ming will not underestimate the heroes of the world.

The fire centuries are only ranked 10,000 in the Honghuang Wanzu list. Although the blood talent is powerful, it is also limited.

But the races in the top of the Honghuang Wanzu list have amazing blood talents and very powerful combat power. If they are two taller than Lu Ming, Lu Ming is probably not an opponent.

For example, the Wing Bo in the Wing Man Clan was suppressed by Longwei in the early stage of the Divine Monarch Double, but the combat power was extremely powerful. Lu Ming broke out with all his strength before killing this person.

It is conceivable what kind of existence exists in the top 100 races or even the top 10 races in the Honghuang Wanzu list.

It's hard to predict!

Maybe, the top ten races are a bit proud, and it is normal for the same level to compete with Lu Ming, even stronger than Lu Ming.

Those race blood talents are too strong, and if you add some adventures, it will be very amazing.

In addition, those weak races should not be underestimated.

Even in the small world, it is normal to be able to walk out of Lu Ming, and what kind of abnormality appears in such characters as Emperor Jianyi.

Lu Ming quickly picked up his mood, packed up the bodies of the Huo tribes, put them in a storage ring, and threw them to the black state, which naturally attracted a stunned state of the black state.

"Black State, did you hear any news during this time?"

Lu Ming asked.

"Brother Lu, the two women you said, there has been no news!"

Black State shook his head.

Lu Ming was slightly disappointed, but soon recovered, the Black Dragon family had limited manpower, and it was not easy to get the news of Qiuyue and Xie Nianqing.

"However, I have heard a lot of news about the area around me!"

Black State Road.

"Tell me!"

Lu Ming asked.

Now, the public area of Dream Space is still quiet, and Lu Ming can only rely on the Black Dragon family to get news.

"Now, outsiders are coming in large numbers. During this time, outsiders appear on the three continents of the Dragon Mother Star!"

Black State began to elaborate.

Lu Ming knew before that the entire Dragon Mother Star has three continents, and among the large continents, there are endless oceans.

The three continents are Longteng Continent, Longyue Continent and Longling Continent.

The continent where the Black Dragon family is located is on the southeast side of Longteng Continent.

Each of the three continents is vast, and the Black Dragon family only occupies a corner.

On the three continents, there are countless dragon and tribe forces.

"During this time, a large number of outsiders have come, and their strength is very strong. They are all in the presence of Divine Monarch Realm. They use their powerful strength to control the size and power of our dragon clan star, work for them, search for treasures, and search for magic drugs for them. And they also occupy various ruins and holy places, hey..."

Speaking of the back, Governor Black sighed, his face was very unsightly.

The dragon clan of the dragon clan star is simply enslaved by outsiders and used as a slave.

Their Black Dragon family, if not Lu Ming, is estimated to have been enslaved by other outsiders.

They are very angry, but they are helpless, and their strength is not as good as people. What can they do?

It is not that no one rebelled, and the rebels were directly beheaded.

Lu Ming nodded and did not speak. This result was normal.

The Dragon Mother Star has been recovering for centuries, not only those relics contain magic drugs, but also a large number of magic drugs and other treasures appear in other places.

It's normal for people outside to control the Dragon Clan on the Dragon Clan's parent star and enslave these people to search for various treasures.

"Those flame centipedes, did you hear the news?"

Lu Ming asked.

"I heard it!"

Black State nodded and said: "In the west of our black dragon family, there was originally a force called the golden dragon family. There are many fire centipedes that occupy the golden dragon family!"

Chapter 3602: Three kinds of five awakenings

"The Golden Dragon Family?"

Lu Ming whispered.

"Yes, and the Golden Dragon family also has a relic left by ancient times, called Jinlongling, which is said to be the habitat of the Golden Dragon family in ancient times!"

Black State Road.

"Jinlongling!"

Lu Ming's eyes lit up.

Lu Ming is very hot for the relic holy land on the Dragon Mother Star. A black dragon valley alone gave him a lot of surprises. What other treasures will there be in other relic holy sites?

Lu Ming is looking forward to it.

However, now that the Black Dragon Valley hasn't finished exploring, let's not rush to other places first. Lu Ming plans to explore Black Dragon Valley again, and then go to Jinlongling!

After a few more chats with Black State, Lu Ming returned to the room, took the birth grass, and continued to refine it.

Two days later, the last two plants were also refined by Lu Ming. Overlord Divine Power, a successful breakthrough, awakened five times.

In this way, Lu Ming has two kinds of divine power, reaching five awakenings of the original divine power factor, and Lu Ming's combat power has increased a bit.

"Go back to Black Dragon Valley!"

Lu Ming got up, walked out the door, and found Black State.

During this time, Black State also continued to refine and rejuvenate the magic medicine. The cultivation progress was very fast, and it quickly approached the five kings of the gods. This speed, outside, is incredible.

But now it's normal to be the dragon star.

These dragon clan, born in the dragon clan star, have the dragon veins through, which is more suitable in itself, cultivation and absorption of the dragon clan's energy and magic medicine, cultivation progress, faster than outsiders.

Everyone has an explosive improvement.

Lu Ming and Black State said that he was going to the Black Dragon Valley, and Black State naturally agreed without hesitation.

Lu Ming now, but the backer of the Black Dragon family, without Lu Ming, the Black Dragon family is occupied by outsiders, and they have nothing.

Opening the Black Dragon Valley, Lu Ming entered it again. Lu Ming did not stay outside, and drove forward quickly to the direction of the last 'mirror'.

Lu Ming walked through the 'mirror' without hesitation.

"Huh? The pressure seems to be less!"

Lu Ming moved.

He found that the pressure behind the "mirror" was not as great as it was last time.

"It seems that sooner or later Heilonggu will be fully manifested, and maybe everyone can enter!"

Lu Ming thought, and then began to flash in shape, began to look for treasures.

Soon, Lu Ming discovered several magic medicines, filled with vigorous life energy.

Lu Ming put it away in a polite way.

"That's...Dragon Blood Stone!"

Suddenly, Lu Ming's eyes lit up, and he saw another dragon stone. He stepped forward, took out a war sword, and dug up.

Clang clang...

Mars is everywhere, but Lu Ming's current strength is not many times stronger than when he came here last time. Soon, the fist-sized dragon bloodstone was dug out and Lu Ming was put into the storage. Thing ring.

Roar!

At this moment, a violent roar came through the gold cracked stone, shaking the void.

Rumble!

A huge dragon and lion beast ran towards the landing, full of murderous opportunities.

"It's your beast again, this time, solve you!"

Lu Ming looked cold.

Through the breath of life, Lu Ming clearly felt that this dragon, lion, and beast was the one who chased him last time.

Last time, Lu Mingxiu was still weak, only the cultivation of God King Realm, this time, Lu Ming was restored to Divine King.

At the thought of the last time he was chased, Bi Ming rolled into a piss, Lu Ming became guilty.

bump!

Lu Ming stepped on the foot and rushed straight over. With a wave of his palm, the door of the dominance emerged, and the huge door of the dominance smashed hard towards the dragon, lion and beast.

Although Lu Ming is still under a lot of pressure here, it is already less than the last time.

Moreover, Lu Ming, who reverted to the rebuilding of the Divine Monarch, even under pressure, is far from being able to be defeated by a Dragon, Lion, and Beast with a Divine Monarch.

bump!

The Gate of Domination suppressed and fell on the head of the dragon and lion beast. The dragon and lion beast was directly smashed on the ground. The head was broken and bleeding, dying, watching the landing sound, full of fear.

He also knew Lu Ming, but he couldn't figure it out, it didn't take long for this, how could Lu Ming be so strong?

bump!

The Gate of Domination then exerted force and completely killed this dragon and lion beast.

Roar roar...

At this moment, in several other directions, long screams continued to be heard, and the ground shook. At least five or six dragons and lions appeared, killing towards the landing.

"It seems that this is a small dragon, lion and beast community!"

Lu Ming's eyes flickered, without fear, and faced up.

Soon after, five or six huge dragons and lions were all lying on the ground.

After killing these dragons, lions and beasts, Lu Ming searched in this territory again. Soon after, he got more than a dozen magic medicines, and two strains of source grass, a dragon blood stone.

Lu Ming is overjoyed, this is a good thing.

Especially Shengyuan Grass and Dragon Blood Stone are invaluable treasures.

After this area was searched, Lu Ming went on.

After going forward for a while, I came across a dragon beast, not a dragon lion beast, and other types of dragon beasts. This time, there was actually a double dragon beast with great power.

However, even if Lu Ming was suppressed, Divine Monarch was not his opponent, especially after he inspired primitive Divine Blood, it actually had a deterrent effect on these dragons and beasts.

Therefore, Lu Ming easily killed these dragon beasts and got many treasures.

In this way, Lu Ming continued to explore in this area, but continued to move forward, the strength of the dragon beast appeared also became stronger and stronger.

Behind, there appeared a triple dragon beast of Shenjun. Under this pressured environment, Lu Ming wanted to do all he could to exert his full strength to kill a triple dragon beast of Shenjun.

In this way, Lu Ming spent three days in the Black Dragon Valley.

Later, when the four dragon beasts of Shenjun began to appear, Lu Ming could only retreat.

"The resources I have now are enough for me for a while!"

Lu Ming showed a happy look.

This time, he got more than two hundred magic medicines.

In addition, I got five strains of source grass and six dragon stones, one of which was about the size of a basin, which was dozens of times larger than a fist-sized dragon stone.

This is a big harvest.

Lu Ming exited the Black Dragon Valley and returned to the room to practice non-stop.

First of all, refining the five baht raw source grass, there is another kind of divine awakening five times the original divine factor.

In this way, Lu Ming has three divine powers, awakening the original divine power factor five times.

The fourth divine power is coming soon.

Lu Ming had to sigh that Shengyuancao is truly magical.

At the same time, Lu Ming was stunned again.

The Dragon Mother Star has such treasures.

Those big clan with the same name as the dragon clan also have the same planet as the dragon clan, such as angel clan, soul clan, Buddha clan, etc. These terrible races should also have treasures like Shengyuan grass.

How terrible is the arrogance of these races?

Chapter 3603: Huo Huo

After refining and cultivating five biogenic grasses, Lu Ming took out another dragon stone and began refining.

The dragon blood was transformed into rolling energy, which was absorbed by Lu Ming, and the second drop of primal **** blood also continued to grow.

After the five fist-sized dragon blood stones were refined, Lu Ming's second drop of primordial blood was already complete, and it was the same size as the first drop of primordial blood.

In this way, Lu Ming already has two perfect drops of primordial blood.

The two drops of the original primordial divine blood continuously exuded the vast ancient energy, submerged in Lu Ming's body, and subtly strengthened Lu Ming's divine body. In this way, Lu Ming's divine body will become stronger.

"Those Huohu people didn't actually kill, it's good, then continue to refine..."

In Lu Ming's hand, there appeared a basin-sized dragon blood stone, which was dozens of times larger than a fist-sized dragon blood stone. The contained dragon blood energy was extremely rich.

Lu Ming didn't hesitate and began to refine directly.

The basin-sized dragon blood stone is much more difficult to refine. Lu Ming spent a full month before refining the basin-sized dragon blood stone, and Lu Ming obtained five full drops of original primal dragon blood.

In this way, a total of seven drops of primordial dragon blood were condensed in Lu Ming's body.

"Seven drops, burst together, the power does not know how strong!"

Lu Ming smiled from the corner of his mouth.

Should I go to Jinlongling? There are so many opportunities in Black Dragon Valley. What about Jinlongling? Lu Ming is looking forward to it.

Going out of the door, Lu Ming did not tell Black State and others to go directly to the direction of Jinlongling.

Jinlongling, the family of the Golden Dragon, is completely occupied by Huo people.

At least there are more than one hundred cents of the Huoji tribe, all of which are in the presence of the Divine Monarch Realm. The people of the Golden Dragon family can't resist at all. They can only be enslaved by the Huoji tribe and become slaves of the Huoji tribe. treasure.

In a mountain range not far from the Golden Dragon family, a group of people from the Golden Dragon family are looking for treasures such as magic medicines.

"Damn, these outsiders are so abominable that they really made us slaves!"

Someone shouted, angry.

"That is, and it occupies the Jinlongling. In this way, we can't get all the benefits. The parent star is not easy to recover. It is a once-in-a-lifetime opportunity to make rapid progress. But now, we can't get anything, everything. How do we make progress to turn in?"

"Damn outsiders are all demons. The ancient dragon family was destroyed by these people in ancient times!"

Many people complained that anger was incomparable, but anger turned into anger, making them rebel against the Huo tribe, but they did not dare.

The people of the Golden Dragon family have not resisted, but the rebellious people are dead.

"Hey, I heard that this time, a lot of outsiders have come, the parent star is everywhere, big and small forces, all controlled by outsiders, just like us!"

"Who made us weak?"

Some people sighed.

"I heard that there is a strong man in the Black Dragon family, who killed the Huoji people, I don't know if it is true or not!"

"I also heard that the Huoji people were furious. Over a month ago, they sent ten masters to the Black Dragon family to destroy the Black Dragon family, but those ten masters never returned!"

"Don't you be killed, really hope it is true, have our dragon clan star already appeared such a strong man?"

"It's not easy to say, I heard that the Huo people are extremely angry. Their leader has recently practiced retreat. As soon as he exits, he will go to the Black Dragon family!"

The people of the Golden Dragon family whispered again.

They really hope that there will be peerless masters on the Dragon Mother Star, destroying outsiders.

"Look, there are people there!"

Suddenly, someone looked to the sky.

The people of other Golden Dragon families also looked towards the sky.

In the sky, a young man, carrying his hands, his hair flying, is heading in the direction of the Golden Dragon family.

"This person is going in the direction of the Golden Dragon Family?"

"Among the Huoji people, I haven't seen this person. What is this person going to Golden Dragon Family?"

"Is it an outsider or a person on the parent star?"

"It's from the direction of the black dragon family, is it the master of the black dragon family? Would you like to take a look?"

"Go, let's go back quietly to see!"

Many people from the Golden Dragon family talked, revealing their emotions, and then quietly followed Lu Ming and went in the direction of the Golden Dragon family.

Lu Ming, a member of the Golden Dragon family, also found it naturally, but he was too lazy to pay attention to it and stepped forward. The speed was very fast. Soon, a huge building complex appeared in front of Lu Ming.

At this moment, in the Golden Dragon Family Hall, the masters of the Huo tribe gathered together.

Above, a red-haired young man sat.

This person is the most talented and the most powerful of this group of Huojians. It is the highest arrogance within Huojians.

"Now, all of our cultivation practices have returned to their peak, and my body of Tian Wu has also broken through..."

The red-haired youth opened his mouth and caused an uproar.

"What? Your body is broken!"

The arrogance of many Huoji people exclaimed, revealing an incredible look.

However, they knew that the body of the red-haired youth had reached an important bottleneck, and if it broke through, it would enter a new realm and its combat power would skyrocket.

The fighting power of the red-haired youth was already amazing, how strong can it be?

"Yes, the resources on the Dragon Mother Star are really good, better than our holy cultivation ground of the Huo Clan, my Tian Wu body has broken through, and now, you follow me to the Black Dragon family, I want to see , Who dares to kill me, the arrogance of the Huo Clan!"

The red-haired youth's eyes were cold.

More than a month ago, they sent ten of the earliest restored to the triple existence of the **** prince to kill the black dragon family.

During this time, they have not killed the Black Dragon family to get revenge. First, many people have not yet returned to their peaks. Secondly, the body of the red-haired young man is the key to breakthrough, and the time is not up.

The Huojiu Tianjiao, who can kill ten triple gods, is not weak.

"Okay, go to the Black Dragon family, I want to see, which force is so bold, and dare to fight against our Huo Clan!"

Someone said coldly.

They thought which force occupied the Black Dragon family.

"Huge centipede reptile, get out!"

At this moment, a long roar came from outside, wearing gold cracked stone.

In the hall, suddenly quieted down and looked at each other for a while, many people of the Huo tribe showed a murderous opportunity.

"Which **** is yelling outside!"

"court death!"

"Kill it out!"

The fire centuries' public arrogance screamed.

"Let me go and see!"

The red-haired young man opened his mouth and strode forward, and the others followed behind him and went out.

Chapter 3604: One person over one family

When the Tianjiao of the Huo tribe walked out of the hall, they saw a young man, carrying his hands and standing above the Golden Dragon family.

This person is naturally Lu Ming.

"A person?"

The Tianjiao of the Huoji tribe was slightly stunned to see that Lu Ming had only one person.

A person who dares to kill here is really dead and alive.

Lu Ming's eyes turned to the Huoji family's celestial arrogance. His face was calm, and his voice came out: "Now, give you a chance, get out immediately, leave here, you can avoid death!"

"Hehehe..."

Lu Ming's words made more than a hundred people of Huoji tribe laugh.

Give them a chance, let them go, can they die?

Is this person an idiot?

"Boy, who are you?"

The red-haired young man was calmer, staring at the landing Ming carefully and asked Shen Sheng.

"Who am I? Are you unclear? Before, you have been sending people to kill me, and you forgot so quickly?"

Lu Ming said coldly.

"You came from the Black Dragon family?"

The red-haired youth's eyes narrowed.

They were about to go to the Black Dragon family. Unexpectedly, the other party killed first.

"Not bad!"

Lu Ming responded.

This makes the eyes of all Huoji tribes become very cold, and the cold killer's chances are released unabashedly.

"Boy, don't cover up, ask your companion to come out, hide in a dark place and want to sneak attack, can't fill us!"

The arrogant voice of a Huozu.

"companion?"

Lu Ming smiled casually and said: "Don't guess, no one, no one, just me. It was me who killed you Huojiu before. I'm giving you a chance to get away at once!"

"Only you? Ha ha!"

The Huo people sneered and didn't believe it at all.

What do they think, Lu Ming is just a divine prince.

A prince with a heavy weight can kill a prince with a triple weight?

Moreover, they are ten people at once, how is this possible?

When their Huoji tribes are all waste? Stand there and let him kill?

Therefore, they didn't believe Lu Ming at all, they thought Lu Ming was doing some tricks, wanted to paralyze them, and then let others secretly attack.

"You protect the Fa for me. I slaughtered this kid and forced others out!"

The Tianjiao of a Huoji tribe spoke, and then stepped out, forcing towards the landing.

The spirits of the Huoji people exude, covering the void.

Some people even flickered and surrounded the surrounding area to prevent people who were 'hidden in the dark' from sneaking in.

Seeing the Huoji people being so cautious, Lu Ming was speechless.

Will he be alone?

What are you doing so much?

Why are there so many scenes?

He stared indifferently at the Huoji tribe Tianjiao, whom they had forced against him.

"Boy, pretend to be a ghost, and now the surroundings are blocked. Your people can't save you, let me die!"

The Huojiu Tianjiao showed a terrible color, covered with fiery red flames, and his palm was like a sky knife, and his palm slammed toward the landing.

The power is very strong, reaching the triple of the prince, and it is also the arrogance of the powerful racial fire centuries. This palm, not to mention that one prince is the first, that is, the two princes, should also be beheaded.

Every gap in Divine Monarch Realm is not a joke.

However, Lu Ming's face was calm and he didn't panic at all.

At the moment of a fist, Lu Ming had inspired five times the fighting strength of the war character, and at the same time, inspired a drop of primordial blood, a layer of dragon scales appeared on the surface of his fist.

"This guy is a dragon race, not someone outside!"

Many people of Huo Clan's eyes flashed very surprised.

They originally thought that Lu Ming, like them, was a foreign race. There were many masters together. Unexpectedly, Lu Ming was actually a native of the Dragon Mother Star. Like the Golden Dragon family, he was a dragon.

"Shenjun's heavy cultivation behavior also dared to take a hard blow to me to find death!"

The young Huohu sneer with a sneer and a grimace, as if he had seen Lu Ming's ending in two.

boom!

The next moment, Lu Ming's fist collided with the opponent's palm.

A violent roar erupted, followed by the sound of broken bones, the scene of flesh and blood flying.

A scream of sorrow sounded, and the Huojia Tianjiao's body receded, and one of his palms had burst apart, flesh and blood flying.

He drove back thousands of kilometers, covered with cold sweat, and watched Landing inconceivably.

Hard hitting hard, his palm was actually smashed by Lu Ming.

Although he turned into a humanoid, his defensive power is still amazing. I didn't expect it to be such a result.

The other Huoji people were also shocked, somewhat incredible.

A man with a heavy weight is so strong.

"kill!"

Lu Ming shouted, stepped on the void, and the boots of the wind extinction appeared, blending with his feet, making his speed become fast, he stepped out, and went towards the other side, holding the palm of the sky, holding the gun. appear.

Buzz!

Lu Ming waved hard, the violent power all poured into the Ba Shen Gun, and then smashed towards the other party.

The sky was shaking, the energy was violent, and the power was terrifying.

"not good!"

The Huoju tribe was frightened, his body receded, and during the retreat, his body changed sharply, turned into a huge fire centipede, and the surrounding legs turned into war knives, constantly flying out.

Clang clang!

Hundreds of war knives flew out, wanting to block Lu Ming's attack, but, Lu Ming's long gun was depressed, the war knives continued to burst, and finally, the Ba Shen gun bombarded the head of the fire centipede, the upper half of the fire centipede, It burst directly and fell on the spot.

Almost a trick, spike!

The scene fell into silence, and all the Huoji people looked at the landing stunned somewhat.

Lu Ming's combat power really exceeded everyone's expectations and made them appalling.

The Golden Dragon family is not far away. Many people of the Golden Dragon family are watching from a distance. Although they are separated by a certain distance, they still see clearly what happened just now.

At the moment, it was a dumbfounded look.

"Dragon, is the dragon, he is the person of the dragon star!"

"It's our people, ha ha ha, I didn't expect our dragon clan star to have such a strong existence, a trick to kill the firecracker trifles, it's great!"

"so amazing!"

"Legend, the dragon family on our mother star of the dragon family is a great existence in the whole world. What is it to give birth to some peerless strong people?"

The people of the Golden Dragon family were overjoyed, and they desperately hoped that Lu Ming could kill the Huoji people and save them from fire and water.

"This kid, evil, let's do it together!"

"Good, shoot together, kill him!"

The arrogance of many Huoji people opened their mouths, and the breath erupted continuously, converging together, and squeezed towards the landing.

Chapter 3605: Attack

Now, the Tianjiao of the Huoji tribe no longer dare to underestimate Lu Ming.

One move, killing a god's triple arrogance, such fighting power is simply incredible.

Now, they believe that Lu Ming really came by himself. It is possible that the ten Tianjiao before going to the Black Dragon family could have been killed by Lu Ming.

"Now if you don't get away, there is no chance!"

Lu Ming spoke indifferently, and a murderous outbreak broke out.

He has given each other a chance. Since the other party does not cherish it, don't blame him for being cruel.

boom!

Lu Ming was very decisive, and shot directly. The Ba Shen Gun shocked and inspired the power to cut off the shackles. Hundreds of guns burst out, killing all the people of the Huo tribe.

Hundreds of spears broke out at once, and the power was scattered. Naturally, it was impossible to kill the other party, but he didn't need to kill the other party, as long as he blocked these Huoji people.

Lu Ming, holding a Ba Shen gun, killed two of the Huo Clan.

"not good!"

Seeing Lu Ming killing, the faces of the two Huoji people changed greatly, and they turned into the body one after another, bursting out a bright sword light and slashing towards Lu Ming.

But Lu Ming's strength was so amazing. The Ba Shen gun waved, breaking the knife light, and the spear traversing the void, nailing a fire centipede in the air.

"help me..."

Another fire centipede was shocked and retreated backward.

"Boy, do you dare?"

"kill!"

A few Huoji tribes were arrogantly shouted and killed Lu Ming. The terrible sword light seemed to destroy everything.

"Huh? Cut off the shackles..."

Lu Ming whispered.

The arrogance of these fire centuries is very amazing, and the mystery of the source has actually cut off the shackles.

This level of arrogance, Lu Ming still rarely encountered.

However, it is also normal. The powerful race of the Hungry Ten Thousand Peoples List has powerful talents. It is normal to have the triple shackles in the Divine Monarch.

Although the fighting power of these people is also triple, they are stronger than other Huojia Tianjiao. The other Huojia Tianjiao were blocked by Lu Ming's guns, but after they broke out, suddenly broke Lu Ming's gun and killed Lu Ming.

Lu Ming can only turn back and fight these few people.

Boom!

Lu Ming vibrates the spear, and the gun blasts into the sky, striking with the knife light.

The violent roar sounded, and the gun and the knife disappeared together.

"kill!"

"kill!"

Several top centuries of the Huoji tribe shouted, huge bodies, such as a dreadful war knife, a man with a knife, cut to Lu Ming.

Lu Ming's eyes narrowed slightly.

These people are indeed very strong. The original divine power factor is also five awakenings. In addition to the strong physical talent, they cut off the shackles, and the triple cultivation of the Divine Monarch. The strength is extremely terrible.

Far from being comparable to those of the Holy Fireblade Sect, although at the same level, the combat power is a whopping ten thousand miles.

Lu Ming had to take it seriously.

boom!

Lu Ming exploded with all his strength, and there were already three kinds of divine power, which had reached five awakenings, and was urged to the extreme.

At the same time, Lu Ming's body, the Bell of Heavenly Evil, the Gate of Domination, the Shield of Heavenly Profound...

Suddenly, seven or eight kinds of original secret techniques emerged, each of which cut off the shackles.

The Huoji people were almost stunned, and their eyes were stunned.

A person actually controls so many kinds of original secret techniques, but they all cut off the shackles. What kind of evil is this?

Jingle Bell!

The Bell of Heavenly Evil made a clear sound, which shocked the souls of the Huoji people.

Although the Tianjiao of the Huoji tribe possessed the treasures of the soul defense, they were somewhat affected by the attack of the Heavenly Evil Bell.

Taking advantage of this opportunity, Lu Ming controlled the Gate of Domination to suppress a top-level Tianjiao, and then broke the original secret techniques such as the Sword of Desire and the Blade of Heavenly Demon, and also slammed into this person.

This fire centipede, although extremely powerful, was attacked by so many mysteries of the original source, and also retreated in embarrassment. There was a wound on the hard carapace, and blood was flowing.

"kill!"

In the end, Lu Ming held the Ba Shen gun and launched a fatal blow.

puff!

The tyrant gun pierced into this person's eyes, and the violent energy poured into it frantically, and then exploded, the flame centipede gave a unwilling roar, and the soul was destroyed.

A top-level Tianjiao of Huo Clan was beheaded by Lu Ming.

All this happened between electric light flint.

Just now, Lu Ming urged with the bell of heavenly evil, so that all Huoji people have such a stunned moment. Lu Ming took advantage of this opportunity to launch an offensive. Others wanted to rescue, too late.

By the time they attacked, Lu Ming had already killed the opponent, his figure flashed, and he escaped the attack of the Huo tribe.

"Damn, this kid is an ancient cultivator, and he can also attack with soul, be careful of his soul attack!"

"We attacked head-on, you attacked sideways, and bombarded him!"

The Huoji people roared, and the strongest Tianjiao launched a stormy attack on Lu Ming.

And those ordinary arrogances launched attacks around them, countless blades of light, slashing towards the landing, to submerge Lu Ming in the infinite blade of light, and slashing them into minced meat.

Lu Ming's body kept flashing, avoiding these attacks and seizing the opportunity to fight back.

But at this time, Lu Ming suddenly felt a sense of crisis, and Ming Ming diffused from the side to the landing.

Uh!

On the side, a fiery red knife light cut towards Lu Ming.

This is a fiery red centipede, the human sword is one, and the whole body is transformed into a war sword, which is terrifying.

The attack of this fire centipede gave Lu Ming a great threat, surpassing the strongest arrogance of the fire centipede.

"Unexpectedly, there are such people in the Huoji family!"

Lu Ming moved.

This is obviously a terrible arrogance of the Huoji tribe. He had not shot before, just waiting for the opportunity. When the time came, the other party shot directly, and attacking Lu Ming from the side was not insidious.

This kind of strength is also an attack, and most people really want to be killed by the other party.

However, Lu Ming's strength does not stop there.

As soon as his thoughts moved, the shield of Tianxuan was blocked on the side.

At the same time, at the heart of Lu Ming, seven drops of primordial blood, all excited.

Roar!

At this moment, there seemed to be a fierce dragon-yin sound in Lu Ming's body, as if the primitive divine dragon had recovered.

Suddenly, Lu Ming's body was filled with violent power.

when!

The other party's attack bombarded the Tianxuan Shield. The Tianxuan Shield shook endlessly, and even a crack appeared on the shield, which was directly blown out.

This shows the power of the opponent's blow.

This attacker was really the red-haired young man of the Huo tribe.

Upon breaking the shield of Tianxuan, the red-haired young man kept on killing Lu Ming, but he was greeted by a tyrant.

boom!

Lu Ming wielded the tyrant gun and collided with the sword of the red-haired youth. This area, filled with violent energy, formed a layer of shock and swept through all directions.

Chapter 3606: No one can save you

The vigorous madness rolled around, and the slain lights around him were hit by this shock wave, and they broke up directly.

At the next moment, a huge body retreated backward and was a red-haired young man.

At the moment, the eyes of the red-haired young man were full of incredible colors. He felt a sharp pain all over his body, and his body almost burst.

How can this be done?

He is unbelievable.

His own strength is extremely powerful. The source divine factor awakened five times. The source mystery cut off the shackles. Not only that, his body of Tian Wu has just broken through, and his strength is stronger than that of several other powerful Huo Clan. cut.

In the case of a sneak attack, a full blow was not only blocked by Lu Ming, but was also shot by Lu Ming, and his body almost burst.

The power of Lu Ming's hit just now made him terrified.

He couldn't even dream of it. A person with a heavy monarch's weight could contain such a terrifying power.

"escape!"

At this moment, a word flashed in the mind of the red-haired young man, that is, escape.

He had never thought that he would have such a thought when facing a person with a heavy weight.

But at this moment, he really wanted to escape.

However, Lu Ming has not given him such an opportunity.

"kill!"

Lu Ming Changxiao, at this moment, he felt that his body was filled with endless power, holding a sacred gun in one hand, grabbing the door of the master in one hand, and killing the red-haired youth.

The primordial blood of God broke out, and Lu Ming's physical power was indeed astonishingly powerful.

However, various other secret techniques of origin can not be increased. Only by being caught in Lu Ming's hands can they be increased and burst out with amazing power.

boom!

The door to domination, the Ba Shen Gun, became huge and completely enveloped towards the red-haired youth.

Red-haired young people can't avoid it, they can only hard-wire.

"Shoot together, shoot together, kill this person!"

The red-haired young man shouted, bursting out all his strength, and his divine power burned up and started desperately.

His body seemed to turn into a flame war knife, chopping through the heavens and killing Lu Ming.

Other Huoji people also killed Lu Ming.

boom!

Lu Ming took the door to dominate, and made a move with the red-haired youth.

The Gate of Domination was caught by Lu Ming and waved in his hand. The power was so amazing that he drove the red-haired youth out.

Then the right-handed tyrant spear swept out of a thousand troops.

bump!

There is another top arrogance of Huo Clan, who was swept away by Lu Ming and directly exploded.

At this moment, Lu Ming's firepower was fully on, seven drops of primordial blood, all kinds of magical powers broke out, and the fighting power was already powerful to an unimaginable level.

Even the top arrogances of the Huoji tribe were difficult to contend with and were killed by a second.

Not only that, but there are five or six ordinary Huotian Tianjiao, who were exploded by the remaining power.

"Demon, retreat, retreat!"

This time, those Huoji tribes were really scared. While breathing cold, they retreated crazy, and they no longer dared to fight Lu Ming. In their eyes, Lu Ming was simply a demon.

"kill!"

The Huoji tribe retreated, and Lu Ming concentrated his energy and killed the red-haired young man.

Boom!

There were two consecutive roars, and the red-haired young man screamed. His body had exploded, and flesh and blood flew across.

Although they all avoided the key points, red-haired youths were also hit hard.

It must be said that the strength of the red-haired youth is really strong. In the battle of the same level, Lu Ming was second only to Emperor Jianyi and Murong Qiushui in all the Tianjiao encountered by Lu Ming.

Several consecutive moves did not kill the red-haired youth.

However, the red-haired youth was almost scared to death.

Where is this pervert? How could the Dragon Mother Star have such a powerful metamorphosis.

At this moment, he deeply realized the power of the dragon family.

At that time, the Dragon Clan was able to rank in the top five in the Honghuang Ten Thousand Clan List, which is far from the Huo Wu Clan.

Although such a race is extinct, it is possible to have some **** inheritance and some terrible arrogance.

At this moment, he regretted for the first time, should not come here, should not come to the dragon clan star.

"Take shots together, take shots together!"

The red-haired young man was not willing to be killed and yelled wildly, wanting to get other Huoji people to shoot, so maybe he could find some life.

However, those Huohu people have been frightened, and no matter where they dare to shoot, not only did they not approach, but they retreated backwards farther away.

"No one can save you, kill!"

Lu Ming drank coldly and launched a stormy attack.

"You can't kill me, I'm the Peerless Pride of the Huo Clan, my grandfather is the Huo Clan's elder, your dragon clan's Wanlong Seal will be weaker sooner or later, if you kill me, my grandpa won't let you go, I Huohu will not let you go..."

The red-haired youth yelled and struggled last.

But Lu Ming was unmoved, and the offensive was still violent.

Overlord Gun and Domination Gate, bombarded continuously.

At last. . .

With a bang, the Red Youth finally couldn't resist, and his body was exploded, bursting in the air and destroying all forms.

"Run away!"

The rest of the Huowu youth roared and fled in madness in all directions.

Lu Ming did not pursue.

There were too many people on the other side, and nearly a hundred people fled in all directions. Even if he wanted to chase, he couldn't kill them all.

At most, you can only kill some parts.

Therefore, Lu Ming is too lazy to bother.

After the war just now, he believed that Huo people would not dare to stay in this nearby area, most of them would run far.

He is here, the purpose is Jinlongling.

At this moment, around the Golden Dragon family, those of the Golden Dragon family were stunned, one after another, dumbfounded.

Finally, they looked at each other, and they saw shock and ecstasy from each other's eyes.

The Huo people were killed and fled, and Lu Ming was actually a dragon family, and they were saved.

"Strong, too strong, we Dragons, actually have such a strong!"

"It's amazing, it's really amazing. My Dragon Clan finally doesn't have to be afraid of outsiders, hahaha!"

Many people in the Golden Dragon family shivered in excitement.

Before, they couldn't resist the outsiders at all, they were all gods, and I heard that the strongest on the dragon clan's star was also the king of the gods, which made them desperate.

Now it seems that on the Dragon Mother Star, some people have entered the Divine Monarch Realm, with strong strength, they can already fight against outsiders, how can they not be excited.

"Are you from the Golden Dragon family?"

Lu Ming stood high in the sky and glanced at the people of the Golden Dragon family.

"Come on, Lord asks us, come on!"

"Look back in the past!"

The people of the Golden Dragon family quickly flew over to Landing Ming with respect and respect.

In their eyes, Lu Ming is likely to be the top power of the Dragon Race now, and they are naturally respectful.

Chapter 3607: Jinlongling

At least thousands of people from the Golden Dragon family stood respectfully around Lu Ming.

"Looking back to Master, we are from the Golden Dragon family!"

"Thank you for your rescue this time, otherwise we don't know when it will be enslaved by outsiders!"

"Thank you for your help!"

The people of the Golden Dragon family thank you respectfully.

"You don't have to pay too much effort. I heard that there is a ruin in your Golden Dragon family called Jinlongling. Can you take me in?"

Lu Ming opened the door to see the truth and directly expressed his intention.

"of course can!"

In the Golden Dragon family, an old man walked out and agreed without hesitation.

Although Jinlongling is a relic left by their Golden Dragon family lord, it contains great chances and gave birth to many magic medicines. However, it has been occupied by the Huo people before and got many magic medicines.

And they think that Lu Ming is a Dragon Clan, and the strength is amazing. So many Huo Wu masters have just been killed and repelled by Lu Ming. Lu Ming now wants to enter Jinlongling. Do they dare to agree?

"Jinlongling, how to enter, what is needed?"

Lu Ming asked.

"Just go straight in, there are no restrictions!"

The old man of the Golden Dragon family said.

Lu Ming was surprised. He thought that Jinlongling, like the Black Dragon Valley, also needed the Black Dragon order to open the ban to enter. It seems that not all the remains on the Dragon Mother Star require tokens. In order to enter.

Not all ruins are forbidden.

After inquiring about it, Lu Ming knew the location of Jinlongling, and it was on a mountain deep in the family of Jinlong Family.

"By the way, something needs your Golden Dragon family to help!"

Lu Ming said, and then took out the portraits of Qiuyue and Xie Nianqing, and asked the people of the Golden Dragon family to help find it. The people of the Golden Dragon family naturally nodded and agreed.

Immediately, Lu Ming went deep into the Golden Dragon family.

In the depths of large buildings, there is a small hill.

"Is this Jinlongling, so small? Is it space folding technology again?"

Lu Ming whispered, a little curious, then stepped out and walked forward.

One step away, close to the horizon!

At the next moment, the surrounding scenery changed drastically. The hill in front of Lu Ming quickly grew into a vast mountain, which looked vast and magnificent.

The air is full of extreme energy, floating in the air, take a breath, you feel refreshed.

"It really is a space folding technology. It looks small outside, but it contains a lot of space, and the intensity of the spirit is not worse than Black Dragon Valley!"

Lu Ming turned a few thoughts, and then showed a happy look.

In the Black Dragon Valley, there are a lot of magic medicine, and found the source grass, and dragon blood stone.

What will be here?

Lu Ming is looking forward to it.

Lu Ming didn't stay, and looked up in this area. Unfortunately, although the spirit was very strong here, he found nothing and did not see the trace of the magic medicine.

Lu Ming knows that this is the outer periphery of Jinlongling. Most of them have been searched by the Huo Clan. It is strange to find the magic medicine.

"Those Huoji people have been here for so many days. I don't know what they have gained. Take it out and see!"

Lu Ming thought, a few storage rings appeared in his hand.

These storage rings are exactly what he got from the hands of the Huotian Tianjiao, the strongest red-haired young man's storage ring also fell in his hands.

But soon, Lu Ming was disappointed.

In the storage ring, except for some ordinary divine crystals, divine qualities, and refining materials, the elixir, there is no such outstanding divine drug, let alone a treasure like Shengyuancao.

Lu Ming shook his head and smiled. The Huoji tribe must have refined these treasures, and more than 100 Huoji tribes occupy it. I am afraid the treasures are not enough.

"Look for yourself, deep inside Jinlongling, there are probably treasures..."

Lu Ming smiled and went towards the depths of Jinlongling.

Jinlongling, like Black Dragon Valley, also has many dragon beasts, but the dragon beasts outside Jinlongling are not very strong, and were easily killed by Lu Ming.

Lu Ming speeded up and went towards the inside.

It is very similar to the Black Dragon Valley. The more it goes, the stronger the dragon beast is, and Lu Ming is also suppressed by a strong pressure, making it difficult for him to exert all his strength.

Soon, Lu Ming turned over seven mountains and entered the eighth mountain.

Roar!

The wild beast roared like thunder, a powerful wild beast, ten meters tall and tens of meters long, shaped like a tiger, rushing towards the landing.

The wind is violent, the energy is strong, and it is extremely powerful. This is a triple dragon beast.

Lu Ming triggered five times the combat power of the war character tactics, and the divine power was running at full strength. He held the tyrant gun, and inspired all the power in the tyrant gun, stabbing it with one shot.

call out

This gun is extremely powerful. Now Lu Ming has awakened five times with three kinds of divine powers and exploded with all his strength. Eleven kinds of divine powers are twisted together, and the power is getting stronger and stronger.

The gun is like a broken bamboo, killing this dragon beast directly.

Even under the circumstances of being suppressed, the general Divine King Triple Dragon Beast is not an enemy of Lu Ming.

After killing this dragon beast, Lu Ming continued to move forward, and then killed the triple dragon beast of Shenjun, Lu Ming finally found out, and found two extremely powerful magic drugs.

Lu Ming showed a happy look.

It seems that here, it has reached the limit of the Huozu exploration.

Also, this is the eighth mountain. The dragons and beasts living on it are almost all triple gods.

In fact, on the seventh mountain, there are many dragons and beasts of the gods.

Although the number of Huoji people is large, it is greatly suppressed here. It is not so easy to kill rough and thick dragon beasts.

Moreover, many people of the Huoji tribe did not return to the triple cultivation of the gods not long ago, so they did not explore too far, and only set foot on the eighth mountain at most.

So Lu Ming's harvest began.

With Lu Ming's exploration, a strain of magic medicine was discovered by Lu Ming and entered Lu Ming's storage ring. Soon afterwards, Lu Ming got a dozen magic medicines.

Unfortunately, Lu Ming didn't see Shengyuan Grass and treasures like Dragon Blood Stone.

Lu Ming was not reconciled and continued to search.

Jinlongling is really too big. The mountain range alone is very wide.

After looking for a while, I found some magic medicine.

Roar!

At this time, another roar sounded, and a huge dragon beast slammed towards the landing.

This dragon beast, covered with dragon scales, had a pair of wings that spread out and were hundreds of meters long.

With a roar, Changhong breathed through.

Divine King!

Lu Ming's eyes narrowed slightly.

This dragon beast, Xiuwei has reached the fourfold power of the Divine Monarch.

If it is outside, Shenjun Sizhong is not Lu Ming's opponent and can be killed at will.

But here, Lu Ming was greatly suppressed, and it was difficult to exert all his strength.

Chapter 3608: Metal Dragon Horn

Uh!

The flying dragon beast's wings spurred a wind blade, like a blade, shouting towards the landing, and the power was extremely amazing.

Lu Ming's thoughts moved, and the Boots of Wind Extinction appeared, causing his speed to increase dramatically.

His figure moved like a phantom, avoiding the attack of the wind blade, and approaching the flying dragon beast, a shot was stab at the flying dragon beast's head.

But the flying dragon beast responded quickly, and his wings flew like a magic knife, sweeping the overlord gun.

boom!

A violent roar, full of energy, the Ba Shen gun vibrated endlessly, and Lu Ming's figure drifted back.

"It's a very strong force, and God's King Realm is rebuilt as high as one. The strength is really different. It seems that I will do my best!"

Lu Ming's thoughts turned sharply, and the seven drops of primordial blood in his body exploded.

In an instant, Lu Ming was full of explosive power.

In the past, Lu Ming was just a drop of primordial divine blood, and when he was excited, all of his power surged, not to mention that he now has seven drops of primitive divine blood.

The powerful force made Lu Ming Changxiao seem to be coming out of the body.

"kill!"

Lu Ming Changxiao, the Ba Shen gun was swept out again, and drove against the flying dragon beast.

This time, one of the wings of the flying dragon beast burst directly and flesh and blood flew.

When Lu Ming inspired seven drops of primal **** blood, the flying dragon beast was already crushed in strength.

The flying dragon beast retreated, Lu Ming kept up, and the gun was like a dragon, constantly sweeping out.

After several consecutive shots, the flying dragon beast was hit hard, and then Lu Ming pierced his head with one shot and assassinated the spot.

"If it is outside, without being suppressed, I can kill the ordinary Divine Monarch..."

Lu Ming summarized his combat strength.

In the Divine Monarch Realm, the ability to kill the Divine Monarch with one heavy attack can be astonishing.

Of course, this refers to ordinary gods, not including the arrogant characters of all ethnic groups.

For example, this time it was almost Tianjiao who entered the Dragon Family Mother Star.

Even among those powerful races, there are even more terrifying characters. For example, among the Huoji people, there is the red-haired young man. In the face of such arrogance, Lu Ming cannot naturally cross so many fights.

After killing the flying dragon beast, the dragon beast in a nearby area was swept away, and Lu Ming searched with peace of mind.

"That is..."

Soon after, Lu Ming made a discovery.

A huge piece of metal, inserted upside down on the ground, up to tens of meters.

Dragon Horn!

Lu Ming saw at a glance that this was a dragon horn, which constantly exuded Longwei.

What's special is that this dragon's horn is in the form of metal, and its tail is smooth. It seems that it was cut off from the dragon's head by someone.

"Jinlongling? Is it the dragon horn of a metal dragon?"

Lu Ming whispered.

The Shenlong family is divided into many branches and there are various kinds of Shenlong.

Such as black dragon, white dragon, silver dragon, golden dragon, blood dragon, magic dragon, water dragon, wind dragon, fire dragon, metal dragon and so on...

Among them, the metal dragon can be classified as a kind of metal life. The whole body metal is similar to the ball.

This piece of dragon horn is completely metallic, most likely the dragon horn of a metal dragon.

And after so many years, it also contains a strong dragon, the owner of this dragon horn, is no small matter.

"Dragon Horn, it's mine..."

On Lu Ming's wrist, the ball was already about to move. At this moment, the ball was rushed out and turned into a huge metal ball, like a liquid, wrapping the metal dragon horn.

"This guy..."

Lu Ming smiled, but looked forward to it.

Ball's physique is very special. I don't know what will be gained after refining this dragon horn.

During this time, with Lu Ming looking at the supply of artifacts, the progress was very fast, and now he has reached the realm of the divine double.

However, when entering the dragon clan star, the ball was also hit hard with Landing Ming, and it only took time to recover.

In the days of the gods and gods, the ball strength is good, and they can fight across levels, which is equivalent to the arrogant characters of other races.

But in the realm of God, the ball has been unable to keep up.

In the primitive spirit world, the ball swallowed a broken sword. If it turned into that broken sword, the combat power is very strong. It may be able to fight against the triple existence of the Divine King. Even so, it can't help Lu Ming much.

But with this dragon horn, Lu Ming is still looking forward to it.

The ball wrapped around the dragon's horn, like a pool of liquid, and kept creeping. With the ball's creeping, his body slowly shrank, and of course, the dragon's horn also shrank.

Finally, the ball turned into a normal size, and the dragon's horn naturally entered the ball's belly.

"Lu Ming, eat it, I want to refine it!"

The ball mumbled a few times and turned into a bracelet, which was carried on Lu Ming's hand.

Lu Ming smiled, although this trip has not yet had any big gains, but the ball got a dragon horn, this trip is worthwhile.

Lu Ming flashed, and continued to search.

After searching for this area, Lu Ming got some magic medicine, and then continued to go deep into Jinlongling.

If you continue to move forward, you will inevitably face the challenge of the dragon and beast. In the next two days, Lu Ming explored in the Golden Dragon Ridge, fighting with the dragon and beast. In two days, a total of eight gods and four dragons died in his hands. on.

Of course, if he encounters the five-fold dragon beast of Divine Monarch, Lu Ming runs away with his legs.

In this place, Lu Ming was greatly suppressed. When he met the five-fold dragon beast of Divine Monarch, he was definitely not an opponent.

In the past two days, Lu Ming has also gained a lot.

In particular, there are three Tianyuan fruits, which make Lu Ming smile and smile.

Tianyuanguo, like Shengyuangrass, is also a rare treasure with infinite price.

However, the effects of Tianyuanguo and Shengyuangrass are different.

Shengyuancao can help cultivate the source divine factor, while Tianyuanguo can help cultivate the source mystery, which is very helpful for cutting off the shackles of the source mystery.

Lu Ming smiled all over his face, which was a big harvest.

It is a pity that Lu Ming did not find the Dragon Blood Stone here.

Two days later, Lu Ming withdrew from Jinlongling, because if you continue to move forward, the pressure is getting stronger and stronger, and the dragon beast is getting stronger and stronger. You can meet the five-fold dragon beast of Shenjun. Because it is difficult to continue.

Lu Ming intends to withdraw, to digest the income of this period and improve his strength.

After quitting Jinlongling and explaining the people of the Golden Dragon family, Lu Ming returned to the Black Dragon family.

After thinking for a while, I took out the fantasy Shenyu to see what was in it.

Startled at first sight!

The public area has already exploded.

The reason is that the Huo people have released a period of influence. Lu Ming looked at it and it was his influence that killed the Golden Dragon family and beheaded the Huo family.

The Huoji people cried and said that the Dragon Star mother star native was too arrogant and called on all the outside to join forces to kill Lu Ming.

As soon as the news came out, many people appeared in the public area, and there was a lot of noise.

Chapter 3609: Octopus Dragon

Earlier, Lu Ming had seen that the public area of Dream God Jade Space was quiet and no one spoke.

But after the Huohu people released the video, it immediately caused a commotion.

"Aboriginal locals, there is such a strong presence?"

"This man is powerful and cannot be underestimated!"

"It seems that we have underestimated the local indigenous people, so be careful when you act behind!"

"Huh, an indigenous person also dares to be arrogant, I suggest people nearby to join forces to kill this person!"

"Yes, I also suggest that the Huo people will release the specific address, and the powerful people of all ethnic groups around to go to kill this person, let the local indigenous people completely disappointed!"

...

In the public area, there is a lot of hustle and bustle, and most people talk to kill Lu Ming together.

An indigenous is so arrogant and so powerful that they are not allowed to be strangled in the cradle.

"Nest..."

Lu Ming looked and almost scolded.

Isn't it just to pretend to be a local native, it will attract so many people to crusade.

Then, the firefly people in the public area released the specific address, and then a group of people began to discuss **** Lu Ming.

Of course, they did not hide anything, and various proposals were sent upwards, but they did not expect that all of this was seen by Lu Ming.

In their thoughts, Lu Ming, a local aborigine, could not have possessed such treasures as Dream God Jade. Lu Ming certainly did not know what they said.

I don't even know, Lu Ming sees it all in his eyes.

"The people of Yiren Clan didn't take it through me?"

Lu Ming muttered.

The Huoji people posted an image on it. It should be that during the war, Huoji Clan Tianjiao recorded it with the fantasy **** jade.

On the image, the appearance is clear and clear. It stands to reason that the people of the Yiren clan have seen Lu Ming. As long as the Tianjiao of the Yiren clan sees it, they can definitely recognize Lu Ming and know that Lu Ming is not a local indigenous.

However, none of the winged people jumped out and said.

"This is to borrow a knife to kill someone!"

Lu Ming thought for a while, sneered, and soon understood the idea of the Wings.

If it appears that Lu Ming is not a native, but an outsider, I am afraid that many people will not deal with Lu Ming.

After all, there are countless racial forces from outside. It is normal for these racial forces to compete against each other.

Lu Ming killed Huo Wu people. Why should others deal with Lu Ming and help Huo Wu people?

Maybe there are a lot of people who are gloating.

But Lu Ming is a local native, it is different.

The natives are so strong, how can they suppress the natives in the future and let the natives work for them?

If other indigenous people knew that there were such strong people among them, would their morale be shocked and resist them?

Therefore, they will have to join forces to kill Lu Ming.

"Huh, I'm afraid of Lu Ming, come on, let's kill one by one!"

Lu Ming sneered, and then continued to browse the public area, wanting to get more information.

Suddenly, another message caused an explosion.

Another race posted a video. Like the Huohu, this video is also the influence of a local indigenous killing alien arrogance.

Lu Ming took a look.

In the influence, a divine dragon with eight dragon claws in the abdomen, **** red, roaring up in the sky, tearing the arrogance of dozens of outsiders in a row, and many of the outsiders killed were frightened and fled.

Octopus Dragon!

This is a pure eight-claw dragon.

The public area caused a lot of noise.

The mother star of the dragon family actually has the pure dragon family, and it is also an eight-claw dragon.

Nowadays, although there are still many dragons living in the vastness of the universe, many powerful forces have kept many dragons to use them as mounts and enslave the dragons.

Even the original Emperor Taixu had raised some dragons as tools for pulling carts.

However, they are generally five-clawed dragons, six-clawed dragons, and up to seven-clawed dragons.

As for the Octopus Dragon, there are very few!

Nowadays, there are very few octopus dragons in the vast universe.

Among the clan dragons, the eight-clawed dragon is the top-level arrogance. Any eight-clawed dragon is very talented and has unlimited potential.

Of course, there are nine-clawed dragons above the eight-clawed dragons.

However, the Nine Claw Dragon is even rarer, and it can even be said to be extremely rare.

In today's vast universe, the Nine Claw Dragon has almost disappeared.

Even before dozens of stellar years, when the dragons were in their heyday, the nine-clawed dragons were very rare, very rare.

Every nine-clawed dragon appears, the dragon family will be excited, because this represents talent.

Nine-claw God Dragon is a peerless natural arrogance among the dragon clan. It has endless potential for talents. As long as it grows up, it will definitely become a powerful person in the world.

There is a lot of noise in the public area, and many people have begun to talk about this eight-claw dragon again.

There were fewer people staring at Lu Ming.

Many people suggested that they work together to kill this eight-clawed dragon, and some people even spoke to suppress this eight-clawed dragon as a mount.

Public areas are getting more and more lively, and many people have come out to speak.

Also, after coming to the Dragon Mother Star for a period of time, most of the people have recovered from their injuries. The injuries are healed, and they are full of energy. Unlike the previous ones, they dare not speak and fear being targeted.

Everyone chatted and chatted, and suddenly, someone released a video, which caused an explosion.

In the video, a man wearing flame armor wrapped around a dragon, holding a dragon sword, stepped on the void, around his body, at least hundreds of nine-clawed dragons were suspended, and his teeth were danced, fighting with a group of outsiders. The fighting power was very powerful. In one breath, he killed the arrogance of more than ten outsiders.

There is also a native arrogance of the Dragon Mother Star.

Everyone can see at a glance that this person is a native of the Dragon Clan, the home star of the Dragon Clan.

Sure enough, someone said that this was encountered on the Dragon Spirit Continent, a native dragon, extremely powerful.

"Shenlong Fa Xiangjue!"

What makes Lu Ming care more is that the secret technique performed by this dragon actually has the magic method of the dragon.

The hundreds of nine-clawed dragons are exactly the dragon-dragon phases condensed by the dragon-dragon phases.

"It seems that the Dragon Mother Star is not easy!"

Lu Ming whispered.

He is a counterfeit, not a native of the Dragon Mother Star, but the eight-claw divine dragon, and the young man wearing the flame dragon armor, are mostly local people.

Black State previously said that the strongest native of the Dragon Mother Star, the peak of the Talent King, now appears to be incorrect.

What Black State saw was only superficial.

The Dragon Mother Star is not simple.

But this is also good, can share a lot of Lu Ming's firepower.

In the public area, there was a lot of discussion about **** Lu Ming, the Eight-Clawed Dragon and others.

After watching for a while, Lu Ming put away the fantasy Shenyu.

"It seems that these people will come to the door sooner or later, I must upgrade and repair as soon as possible!"

"Also, the people of the Black Dragon family, let them leave here first, so as not to suffer!"

Lu Ming thought.

Chapter 3610: Giants

Although Lu Ming's strength is very strong, he can defeat more than one hundred Huo Wu people and kill many masters.

However, after all, the Huo tribe only ranks 10,000 in the Honghuang Wan Clan List, and there are more races than the Huo Wu.

Those stronger races may not have terrible arrogance.

On the Dragon Mother Star, there are anti-sky treasures such as Shengyuan Grass and Tianyuan Fruit. Will those large races have no similar treasures?

The natural arrogance of those big races, the bloodline talent is already strong, and there are similar treasures, the original divine power factor and the original secret technique, will it be worse?

I am afraid that some people are very shocking and terrifying, Lu Ming must be careful.

Not careless!

Immediately, Lu Ming came to Black State and told Black State that he had recently discovered that there were a lot of outsiders peeping in the vicinity, which might be detrimental to them, so that Black State would temporarily disperse with the people of the Black Dragon family, leaving the Black Dragon family, He sat alone in the Black Dragon family.

Black State and others were frightened that they could only follow the method of Lu Ming to let the people of the Heilong family leave temporarily and spread them around, so that they can also explore some news.

Soon after, the Black Dragon family was empty and there was no one.

Lu Ming crossed his knees in a courtyard of the Black Dragon family, and then waved his hands. At least a few hundred magic medicines were suspended in the air.

"Old volume, it's yours!"

Lu Ming sent a voice to Liangzi Jue.

He intends to let the word formula to refine these magic drugs to help him hit the realm.

Previously, Lu Ming needed to heal wounds and directly absorb the life energy of these magic drugs, which was more effective.

However, after refining the quanzi recipe, it will become pure energy, but the life energy inside is insufficient, so before, Lu Ming did not allow the quanzi recipe to refine the magic medicine.

But now, Lu Ming intends to use these magical drugs to impact the realm, and let the amount of words to refine, it is appropriate.

"Relax, these magic drugs are very pure, easy to refine, and handed over to the old lady!"

The sound of Measure Word Juice sounded, and then an attractive force burst out, absorbing these magical medicines and starting to refine it.

Sure enough, within a short period of time, there was a stream of pure energy that poured into Lu Ming's body. Lu Ming operated "Qiankun Wandao Jue", eleven kinds of divine power, eleven star cores, and worked together to absorb this energy. , Continuously transformed into various divine powers.

In Tan Tianzhong, eleven star cores are shining, and a ring of stars around them is getting brighter and brighter.

In Lu Ming's body, the divine power is getting stronger and stronger.

While practicing, part of the mind and focus on the surrounding, while waiting.

One day, two days, three days...

Soon, fifteen days passed.

Fifteen days later, Lu Ming moved slightly.

He felt a void in the distance, flashing slightly, there was someone there.

But they are far apart.

Indeed, in the distant sky, two young figures appeared, looking at Lu Ming from afar.

"It's that kid, seems to be practicing!"

One of the youth roads.

"Shall we shoot?"

Another youth road.

"Don't worry, as you can see from the video, this kid is very powerful. More than a hundred Huohu tribes have been killed. They can't underestimate the enemy. Let's wait and wait until the others arrive!"

At the beginning, the youth road was relatively steady.

"Just by defeating some Centipede reptiles, how much strength can they have?"

The young man in the back sneered and seemed to disdain the Huo Clan, but after all, he did not act rashly and did not shoot.

They backed away for a while, lurking in a cloud, watching Lu Ming from a distance, but did not know that they had been discovered by Lu Ming.

"No action, it seems to be waiting for the arrival of other people, let's go together!"

Lu Ming sneered and continued to practice.

After half a month, Lu Ming's body, Lu Ming's accumulation has reached the limit.

The star core glows, the star ring is shining, and his cultivation behavior has reached the peak of Shenjun's weight.

"Start...break!"

Lu Ming whispered, and began to strike with all his strength, striking the Divine Monarch Double.

Boom!

Lu Ming vibrated endlessly in his body, but outside his body, there was no breath at all, and he felt very calm.

After several consecutive shocks, finally, at Dantian, above the eleven star cores, a second star ring suddenly appeared.

Divine King is double, break through!

Lu Ming smiled at the corner of his mouth.

However, he continued to operate the divine power, suppressing the breath, so as not to explode, and shocked the young people not far away.

"Finally break through to the Divine Monarch Double, come on, let me kill a few!"

Lu Ming sneered.

Breaking through to the second level of Divine Monarch, Lu Ming was a hundred times confident.

Divine Monarch Realm, the gap between each weight is very large, and it is difficult to break through. It requires endless resources and time.

If it is not in the Dragon Mother Star, there are hundreds of magical medicines, Lu Ming will definitely not break that fast.

Of course, after the breakthrough, the improvement is also very large.

Breaking through to the second level of the Divine Monarch, Lu Ming's combat power soared a lot. Now, if he breaks out with all his strength, he can easily kill the red-haired youth of the Huo Clan.

However, Lu Ming remained silent and continued to practice.

Hundreds of magical medicines, and some of them have no refining power, just continue to absorb and stabilize the cultivation.

At this time, there were more youths around Lu Ming.

There are more and more figures in this area.

However, these people did not act rashly.

Three days later, more than 30 young people have appeared in this area, all of which are top-notch Tianjiao.

They have watched videos of Lu Ming and Huo Wu clan fighting, knowing that Lu Ming is powerful, and since they know they dare to come, although they have plans to rely on the advantage of the number of people, they also have extremely strong fighting power.

"You're almost there!"

"This kid has been there for a long time, and there is only him in this area. Did he find us long ago?"

Someone whispered.

"What did you find? Huh, I'll kill him, you help me plunder!"

An extremely burly young man drank coldly, full of tyrannical murderous opportunities between his eyes opening and closing.

After he finished speaking, he stepped out directly, a violent breath burst out, and the void shook.

At the same time, his body grew dramatically, becoming a hundred meters high, and his body was extremely burly, like a metal casting.

This is his body, but still humanoid, just like an ordinary person who has become many times bigger.

"Giant Race!"

Lu Ming's eyes narrowed slightly.

The Honghuang Universe has giant races, which are much stronger than ordinary races, and are extremely powerful. They are also the races in the Honghuang Wanzu list.

"Boy, native, die for me!"

The giant clan shouted with arrogance and screamed towards the landing.

The air burst, the speed was astonishing, and the violent fist pressed against the landing.

"The strength is very strong, not weaker than the red-haired young man of the Huoji tribe, it seems to be the top arrogance of the giant tribe!

Lu Ming's heart moved not only fearlessly, but also showed excitement.
