

D Emperor 361

Chapter 361: Measure 'potential'

The crowd headed north, and a group of more than 600 people flew over the imperial capital of the Yunhuang Empire.

Their goal is a mountain north of the imperial capital.

Only a hundred miles away, Xu Yu arrived.

Lu Xiu led the people to stay on a flat land in front of the two peaks.

"Okay, let me talk to you about the rules of the qualifier. The qualifier is actually very simple. It is divided into two rounds. The first round is to measure the "potential."

"Test your ignorance of the potential, and those who have not reached a great success will be eliminated!"

Lu Xiu announced loudly.

"What? It's going to be eliminated before it's overwhelming?"

Someone shouted and was extremely disappointed.

"Okay, you saw this stone pillar in front of you. It is a treasure for testing potential. As long as you enter the "potential" into this stone pillar, it will appear different color changes, divided into blue, purple, silver, and gold. Color, corresponding to the entry of "potential", Xiaocheng, Dacheng, and perfection, only let the stone column appear silver, it is considered to pass the level, start now!"

Lu Xiu announced loudly.

Lu Ming and others nodded. This rule is simple.

"I'll come first!"

A skinny young man took the lead and was very confident.

He walked in front of the stone pillar and shot it with a palm, and the powerful wind rushed out with the palm of his hand and poured into the stone pillar.

Suddenly, the stone pillar radiated a pale silvery light, beautiful and beautiful.

"The trend of wind, early stage of success, qualified, next!"

Lu Xiu announced that on the edge, someone was naturally registered.

"I come."

A strong young man stepped out, and a powerful 'potential' poured into the stone pillar.

The stone pillar immediately radiated a silvery light, which was darker than the youth before it.

"The trend of the soil, mid-adult, qualified, next."

Lu Xiu announced.

Then, one by one young people stepped forward to test.

These young people, all of their 'potentials' have reached Dacheng, some are in the early stage, some are in the middle stage, and only a few have reached the latter stage.

Those young people who have not reached Dacheng have never stepped forward to test.

"I'm on it too!"

"I'm together!"

Feng Wuji and Ling Yanchi also went up to test.

What Feng Wuji understands is the trend of wind, which reaches the early stage of Dacheng. Ling Yanchi understands the trend of fire, and reaches the middle of Dacheng.

Soon, more than four hundred people tested all of them.

By the genius level of the six heroes in the scorching sun, most people's 'potential' has reached a great success.

Of course, there are a few that have not been achieved.

However, no one has reached full potential.

The success and perfection of the "potential", although only one step away, are very different.

One is flawed, the other is perfect, and the power is several times different.

"Yang Liuji is here!"

On the field, many people's eyes lit up.

So far, no genius on the Yundi list has played.

They wanted to see what the genius of the Yundi list can achieve.

Yang Liuji walked in front of the stone pillar, exuded a hot breath, waved his hand, and poured into the stone pillar.

Buzz!

The stone pillar was shocked, and the extremely intense silver light radiated out, making the whole stone pillar look like sterling silver.

"The trend of fire has become the limit!"

Lu Xiu announced.

To reach the limit, one step away, you will reach completion.

This is by far the first person to reach the limit of Dacheng.

Lu Ming's eyes were calm, and there was no accident. He played with Yang Liuji. The strength of Yang Liuji was very clear.

The appearance of Yang Liuji opened the prelude to the appearance of Yundibang geniuses, and then, one by one.

It is a pity that most Yundi list geniuses have only reached the limit of success.

There are even a few people who are only in their late stages of success, and none of them have reached consummation.

Even the Cloud Emperor rankings are more than a dozen, but they are only reaching the limit.

"Princess Fire is on!"

Someone called.

Huo Lingzi strode forward, very cold and proud, but only to the limit.

After the opening, Qiu Changkong, Yan Feixun, Lan Yundao stepped forward one by one, but unfortunately, no one's 'potential' reached its fullness.

This shows how difficult it is to achieve consummation.

"I'm going to test, do you want to be together?"

Xie Nianqing glanced at Lu Ming.

"Okay!"

Lu Ming nodded.

The two stepped forward and attracted a lot of attention.

Lan Yundao, Yan Feixun, and Qiu Changkong's eyes looked at them coldly.

"I will come first, or you first!"

Xie Nianqing looked at Lu Ming.

"Anyway!"

Lu Ming laughed.

"Then you come first!"

Xie Nianqing said.

Lu Ming stepped forward, his body full of hot breath erupted, the fire rushed into the stone pillar, and immediately, the stone pillar became pure silver.

"The momentum of fire has reached its limit!"

Lu Xiu announced.

Many people did not have much surprises. Lu Ming was able to overcome the six poles of the Yang, and his understanding of the situation was naturally not bad.

Lu Ming smiled slightly and stepped back.

During this time, he cultivated the potential of fire to its limit, but it was difficult to break through to perfection.

The wind has reached the limit of Xiaocheng and is about to break through.

Lu Ming believes that the power of the two is not worse than that of perfection.

Lu Ming retreated and Xie Nianqing moved forward.

boom!

Suddenly, Xie Nianqing's body exploded in terror, surrounded by a cyan light.

call!

This is the trend of the wind, and the powerful wind flows into the stone pillars.

Buzz!

The stone column shook violently, and at the next moment, a ray of golden light diffused out.

"Golden light, golden light!"

Someone yelled!

"The situation is complete, this woman has already cultivated the situation to completion, horror!"

"Fairy, why have you never heard of it before?"

All around, there was a lot of noise and there was a burst of exclamation.

Lu Ming was also stunned for a while, and then sighed that the blood of the seventh-level king was really terrifying. Even the understanding of the situation was unique.

Yan Feixun, Lan Yundao, and Qiu Changkong's eyes flashed an astonishing murderous opportunity.

The Jianfeng Yun, the Heavenly Snake Master, and Jiang Hongwen all had brilliant eyes.

Especially the Heavenly Snake Master, staring at Xie Nianqing, flashing the flames of greed and lewdness/evil in his eyes.

Feng Wuji and Ling Yanchi opened their mouths in surprise.

"The wind is perfect, so good!"

Lu Xiu laughed and was overjoyed.

The stronger the genius in the Yundi Mountain area, the greater his contribution will be and corresponding rewards, and he is naturally happy.

"Humph!"

Xie Nianqing regained his anger and walked to Lu Ming's side, provocatively pouting his lips, as if to say it again, did you see it? I am stronger than you!

Lu Ming touched his nose with a wry smile.

"next!"

Lu Xiu shouted.

"Let me do it!"

Jiang Hongwen strode forward, waved his hand, and fell on the stone pillar.

The stone pillar vibrated, and then, also radiated golden light.

Potential, complete!

"I come!"

Afterwards, the celestial snake stepped forward, his body trembling slightly, like a long snake, bombarded on the stone pillar, the next moment, the golden light filled.

"It's your turn!"

Sky Snake looked at Jianfengyun.

Jian Fengyun smiled slightly, his body was immobile, and two sword lights suddenly shot in his eyes.

This is the sword light condensed by the potential, falling on the stone pillar.

The stone pillar shook sharply, emitting a rich golden light.

Similarly, the potential is complete.

Since then, only four people have reached their perfection.

They are Jian Fengyun, Tian Snake Master, Jiang Hongwen, and Xie Nianqing, who is suddenly emerging.

Chapter 362: Illusion

"Next, who else is going to test?"

Lu Xiu's eyes looked at the remaining sixty people.

These 60-odd people have been standing still, obviously they are not confident in themselves.

At the moment, each one looked ugly and hesitated.

"If you don't come up again, you will be disqualified and eliminated all!"

Lu Xiu announced.

"I come!"

Finally, someone came on the court and planned to fight.

It is a pity that the potential is only the limit of Xiaocheng, and has not reached Dacheng, was ruthlessly eliminated.

Then a few people stepped forward with the fluke in mind, but they were all eliminated one by one.

The rest shook their heads and sighed, and no one continued to test, because there was no need to know whether or not their 'potential' had succeeded, and they knew it best.

"Okay, the eliminated person, leave here, the successful person, follow me into the Magic Valley."

Lu Xiu said loudly.

Those who were eliminated, sighed, left the air, and ended the selection of Emperor Heavenly Guardian.

"Okay, come with me!"

Lu Xiudao, then turned around and walked back.

Wanhuan Canyon is the middle of those two peaks.

There are heavy guards.

Following Lu Xiu, naturally, without any obstruction, came to the canyon.

The canyon is very wide, thousands of feet wide, and there are thousands of cliffs on either side.

In front of the canyon, there is a huge light curtain that separates the canyon from the waist.

Behind the light curtain, there was a hazy, invisible.

"Behind this layer of light curtains, there is a large array of inscriptions called Wanxian Killing Array. Your second round of qualifiers will be held in this Wanxian Killing Array."

"As long as a person enters the Wanxian Killing Array, there will be a strong warrior or monster in it. If you kill the warrior or the monster, you can get the corresponding points, and the two stone tablets in front of the Wanxian Killing Array, It will show your points and ranking."

"Only if the score reaches five hundred points, can you be considered qualified to participate in the selection of the real Emperor Heavenly Guardian, and the time will only be half an hour, once half an hour, you will be automatically sent out, this standard, in the entire Tianxuan domain It's the same in many parts of the east."

Lu Xiu briefly introduced the rules of the second round of qualifiers.

Sure enough, in front of the light curtain, everyone saw two huge stone tablets with a height of 100 meters and a width of tens of meters.

"Okay, the rules are very simple. The next step is to see your strength. Wanxian Killing Formation can accommodate fifty people each time. You can choose your own. Now you can start."

Lu Xiu announced.

Lu Xiu's words fell, everyone looked at me, I looked at you, and then someone stepped out and walked towards the Wanxian killing array.

If someone takes the lead, others will naturally keep up.

In a few minutes, fifty people rushed into the Wanxian killing formation.

When fifty people rushed into the illusion of illusion, the two stone tablets in front were filled with hazy light.

And after only a few breaths, a few lines of writing suddenly appeared on the first stone tablet.

Hornets, one point.

Long Mao, one point.

...

Seven or eight names appear in succession, and behind the name, there are corresponding points.

After a few more breaths, some people's points changed from one point to two points, and then to three points.

On the stele, more and more names appear.

Two minutes later, fifty names appeared on the stele. Behind the names, there were corresponding points.

Some people improve their points very quickly, while others are much slower.

After a while, some people already scored 400 points, approaching 500 points.

As long as you reach five hundred points, you can pass the qualifiers and have the qualification to participate in the real selection.

At this moment, the light curtain shuddered and someone flew out of it.

Everyone saw that there were all wounds and blood on this person.

There was a sigh in the hearts of everyone, it seems that this large formation is not so safe.

As soon as the man flew out, his name disappeared on the first stone tablet.

The man's face was decayed. Obviously, he failed.

After this person, the light curtain trembles from time to time, and someone keeps flying out.

There is no doubt that these people who fly out have no points that reach five hundred points, and all of them end in failure.

When half an hour was about to end, forty-seven people had flown out, and for those 47 people, the points did not reach 500.

Only the last three people flew, with points above 500.

The highest among them is 553 points.

When the last three came out, the second stele glowed and three names appeared.

The first place, the Hornets, five hundred fifty-three points.

Second place,...

The three names are the three people who scored five hundred points.

These three people were naturally overjoyed, while the other 47 people looked ugly and discouraged.

The rest of the people who had not entered yet looked very dignified.

This elimination rate is too high. Of the 50 people, 47 were actually eliminated, and only three were qualified.

Although there are no geniuses in this group, this elimination rate still makes people feel cool.

"Okay, the first group is all over, the next group, continue!"

Lu Xiu announced.

But everyone looked at each other, no one came forward for a while.

"Come on, in the morning and evening, the result is the same, and it won't be easier at night."

Lu Xiu frowned slightly.

"I'm hesitant, I'll go!"

Yang Liuji snorted and strode forward.

Subsequently, a personal figure also walked forward.

Fifty people disappeared into the light curtain.

And almost just a breath into the light curtain, the first stone suddenly flashed a name.

Yang Liuji.

Then, the points of Yang Liuji soared wildly.

One point, two points, five points, very...

The rate of soaring is terrifying. In just five minutes, his points have exceeded five hundred points, and he continues to soar.

The others are slower than him, and I don't know how much.

Yang Liuji's points didn't slow down until it exceeded 1,000 points.

At this time, the light curtain continued to tremble, and someone flew out of it.

Soon, half an hour later, all the people in this group have come out.

This time, a total of six people scored more than 500 points and passed the qualifiers.

The names of these six people also appeared on the second stone tablet, plus the previous three people. On the second stone tablet, there were nine names in total.

The Yang Liuji received a total of 1,210, ranking first.

Yang Liuji had a good face and walked aside.

Subsequently, the third group of fifty people entered.

This time, five people qualified.

In this group, there is also a genius from the Yundi list. This person is a little stronger than Yang Liuji, with 22 points more than Yang Liuji, rushing to the first place, and Yang Liuji has become the second place. .

Then, the fourth group, the fifth group...

Going in groups one by one, the more masters you go in, the more people you pass.

Chapter 363: Indirect contest

In particular, the ranking on the second stone tablet is constantly ups and downs, and some people are constantly being surpassed, and some people are constantly rushing up.

After six groups, Yang Liuji has fallen to 21, which makes his face extremely gloomy, especially a few people who have never been known before, and there are no more famous people than him, which makes his face even more Ugly.

There are still many masters who have not played.

Originally, Yang Liuji was ambitious and wanted to rush to the top 30 or even the top 20 this time. Now it seems that there is no hope at all.

He can keep his position in the Yundi list.

The sixth group ends, and it is the seventh group's turn.

"Brother Yan, how are we going?"

Lan Yundao looked at Yan Feixun and smiled.

"Just what I want!"

Yanfei smiled.

"Add me one!"

A young man in a green shirt stepped forward, and everyone recognized that he was the seventh-ranked Ji Rufeng.

"The top ten geniuses are going to shoot!"

Everyone was shocked in the field, showing the look of expectation.

This time, will the top ten rankings change?

The figure flashed, and the young men rushed forward.

"Princess Fire also shot!"

"And autumn sky!"

Someone called.

Lu Ming looked up, and really saw a proud look of the fire spirit son, and Qiu Changkong.

These two people have attracted much attention recently, and many people are speculating whether they can rush into the top ten.

Uh! Uh! ...

Fifty figures rushed into the Wanxian Killing Formation.

Everyone's eyes were burning, staring at the two stone tablets.

There are many masters in this group, and the competition is definitely fierce.

Buzz!

Almost as soon as everyone rushed in for a breath, the first stone suddenly shone with names.

Blue Cloud Road, Ji Rufeng, Yan Fei Xun, Qiu Changkong, Huo Lingzi...

At the same time, behind their names, the score jumped quickly and started to skyrocket.

These five people have almost the same rate of soaring scores, far away from others.

In just two minutes, the scores of the five have exceeded five hundred points and continue to soar.

In eight minutes, the score exceeded 1,000 points.

At this time, the speed of the five slowly slowed down.

"It's amazing. Qiu Changkong and Huo Lingzi can keep up with the speed of Lan Yundao, which is amazing."

"Can they really rush into the top ten?"

"It's hard to say, the further the Wanxian killing team is, the more difficult it is to reach their level. If you want to win or lose, it depends on the contest behind!"

Many young people have talked about it.

The score continues to rise, 1,500, 1,800, two thousand...

In more than twenty minutes, the scores of all five have exceeded two thousand.

At this time, it can be seen that the Blue Cloud Road saw the fastest increase, followed by the seasonal wind.

And Yan Feixun and Qiu Changkong, Huo Lingzi three people are almost the same.

When breaking through two hundred and one hundred points, Yan Feixun, Huo Lingzi and Qiu Changkong's scores rose as fast as the turtle.

When thirty minutes were approaching, the light curtain trembled and several figures flew out.

It was Yan Feixun, Qiu Changkong, and Huo Lingzi.

The three men looked pale and fragile.

"Qiu Changkong leads, Qiu Changkong scores more than Huo Lingzi and Yan Fei Xun."

Someone shouted, full of shock.

Qiu Changkong's score is 2,235.

And Yan Feixun is 2,205 points, 30 points less than Qiu Changkong.

And Huo Lingzi, it is 30 points less than Yan Fei Xun.

"Damn!"

Yanfei Xun snorted, and a murderous flash appeared in his eyes.

He was actually surpassed by Qiu Changkong.

"Humph! Luckily, I'm going to fight head to head, I can definitely kill them all!"

Huo Lingzi sneered, very upset.

And when the last time came, the Blue Cloud Road and Ji Rufeng also appeared.

Both scored more than 2,400 points, but Lan Yundao had more, leading Ji Rufeng.

At this time, the second stone tablet was shining, and the ranking above also changed.

Lan Yundao is temporarily first, Ji Rufeng is second, Qiu Changkong is third, Yan Fei is fourth, and Huo Lingzi is fifth.

As for the Yang Liuji, it has already run to the 29th place.

This makes Yang Liuji's face gloomy like black charcoal.

"Next, the eighth group!"

Lu Xiu announced.

As soon as the words fell, a young man stepped out.

Sword Fengyun!

All the people in the audience were mad.

Jian Fengyun was about to shoot, and everyone was extremely excited.

Sword Fengyun, a rare demon in the world, dominates the Yundi list, and other geniuses in the Yundi mountain area are out of breath.

Because it is too strong.

And he hasn't seen him shot for almost two years. Now, what level has his cultivation practice reached?

"Haha, Jianfengyun, you are finally going to shoot. Well, although this is not a direct match, it is also an indirect contest. Let me see, what progress have you made during this time?"

Sky Snake sneered and stepped out.

"Since you all shot, then I also play together!"

Jiang Hongwen also walked out with a smile.

Everyone only felt that the heartbeat accelerated.

The top three geniuses in the Yundi list actually have to shoot together, which is amazing and exciting.

Everyone seems to have seen countless sparks shining.

There are two top ten geniuses who originally wanted to shoot, and they both stopped.

Shooting with Jian Fengyun, Heavenly Snake Master, and Jiang Hongwen can only be used as a foil.

"Sky Snake, I will let you see that the gap between you and me is growing."

Jian Fengyun smiled faintly, and his strong self-confidence revealed no doubt.

"Huh, strength, not by mouth!"

Heavenly Snake sneered.

Uh! Uh! ...

At the next moment, his figure flickered, and the figures rushed into the Wanxian killing formation.

Immediately, the crazy spike in scores began.

The scores of Jian Fengyun, Heavenly Snake Master and Jiang Hongwen soared at a terrifying rate.

Five hundred points, one thousand points, one thousand five hundred points, two thousand points...

After reaching two thousand points, they soared at the same speed, and continued to soar.

Many people put their hearts in their throats and stared at them, fearing that they might miss a wonderful scene.

Three thousand points...

When scoring three thousand points, the speed of Tianshe and Jiang Hongwen began to slow down.

But Jianfengyun's speed is still very fast.

"Oh my god, three thousand points, according to my guess, after three thousand points, the opponent who appeared was already the early stage of Wuzong Jiuzhong, and there were twenty as soon as they appeared!"

"Yes, their opponents are indeed 20 early masters of Wuzong Nine Heavy!"

Lu Xiu gave a positive answer.

Everyone took a breath, Lu Ming's gaze also condensed.

In the face of the siege of 20 early masters of Wuzong's ninth heavyweight, the score can be continuously improved.

As time passed, Tianshe and Jiang Hongwen made it harder and harder to improve their scores. Finally, they basically stopped.

And Jian Fengyun's score is still improving, and finally leads the Sky Snake son by more than six hundred points.

Uh! Uh! ...

After thirty minutes, several people were sent out one by one.

Chapter 364: Destroy the dead (fifth)

As soon as he came out, he looked at the stele hurriedly. When he saw the score on the stele, his face changed greatly and he roared: "Impossible, Jianfeng Yun, how can your score be so much higher than me?" ,impossible?"

More than six hundred points higher, this is no longer a little bit, but several levels higher.

Heavenly Snake Master could hardly believe that the gap between him and Jian Fengyun would be so great.

"There is nothing impossible, Heavenly Snake, you are nestled in the corner of the Yundi Mountain area. You think you are a genius, but you are just sitting on the sky and looking at the sky. You don't know how many people like you are."

Jian Fengyun faintly said.

"impossible!"

Sky Snake screamed, thinking that Jian Fengyun was deliberately hitting him.

Jian Fengyun sneered and walked to the side, too lazy to talk to Master Tianshe.

The mood of the others was shocked.

Sword Fengyun is too strong, it is worthy of the first place in the Yundi list, a big lead in the second place, and others can't surpass it.

Lu Xiu nodded, this time the Emperor Tianshenwei selection, Yundi Mountain area, will rely on Jianfengyun.

The second stone tablet has changed its ranking.

Sword Fengyun ranked first, and the Heavenly Snake Son was more than a hundred points higher than Jiang Hongwen, ranking second.

Jiang Hongwen was third.

However, the ranks of Lan Yundao and others dropped back three places.

"Okay, the ninth group is ready!"

Lu Xiu announced.

"Lu Ming, let's go together, let's see, who can suppress who!"

Xie Nianqing glanced at Lu Ming, quite provocative.

"I accompany you!"

Lu Ming smiled.

The two strode out.

Feng Wuji and Ling Yanchi also rushed forward.

"Xie Nianqing shot, her momentum reached a horrible consummation, I don't know how many places she could get?"

"It's not easy to say, Wan Fang kills the battlefield. The test is the comprehensive combat power. The "potential" is only one of the combat power, not all. Although Xie Nianqing's "potential" is very strong, the comprehensive combat power may not be very strong. It is necessary to consider the bloodline level, cultivation skills, physical training, martial arts comprehension, etc. Xie Nianqing's cultivation level is too low, and may not be able to reach too high a position. It can be good to reach 36."

"You are right. The top thirty-six is equivalent to being on the Yundi list."

"Look, Shangguan Yunyan shot them!"

There was a lot of discussion around the crowd, and suddenly there was a cry of exclamation.

Shangguan Yunyan, the fourth genius of the Yundi list, is also the only woman in the top ten of the Yundi list, peerless.

In addition, there are several top ten geniuses in the Yundi list, such as the sixth and eighth geniuses.

This batch is also very interesting.

As for Lu Ming, it was directly ignored.

Although Lu Ming defeated Yang Liuji, how many Yang Liuji are now ranked?

They are almost out of the Yundi list.

Even if Lu Ming can defeat him, where can he be strong? Dingtian rushed into the Yun Emperor List, which did not attract everyone's interest.

Uh! Uh! ...

Fifty people rushed into the phantom killing formation, disappeared.

After Lu Ming rushed into the light curtain, he suddenly felt a whirl of the sky, and the next moment, he found him standing on a grassland.

In front, the light was shining, and a demon beast actually came out.

A total of twenty black giant tigers, full of murderous watching landing sound, roared, and rushed to Lu Ming.

"Equivalent to Wuzong's fivefold pre-stage, kill one and get one point!"

Lu Ming's heart moved, and some information flashed in his mind.

At the same time, the demon gun appeared in his hand and swept out.

bump! bump! ...

Like fireworks bursting, twenty monsters equivalent to Wuzong's fivefold pre-stages were all exploded by Lu Ming's one shot, and turned into ray of energy dissipated in the air.

Huh...

After the 20 giant tigers exploded, the air energy swept through, and after a few breaths, another 20 giant tigers appeared.

The difference is that the breath of these twenty giant tigers is stronger than before, reaching the mid-five years of Wuzong.

In the middle of Wuzhong's fifth period, killing one can get two points.

Everyone came in, it was the same. The first encounter was 20 monsters from Wuzong's fivefold pre-stage. After they were all killed, stronger monsters would appear.

In the early stage of Wuzong's fivefold, kill one and get one point.

In the middle of Wuzong's fifth period, kill one and get two points.

In the later period of Wuzong Wuzong, three points each.

...

By analogy, every time you raise a small level, the score for killing one will increase by one point.

For example, Wuzong's five-fold peak, four points, Wuzong's six-fold pre-stage, five points...

If you want to get five hundred points, through the qualifiers, you must at least kill the late Wuzong sixfold and kill at least six Wuzong sixfold later.

Under the siege of twenty Wuzong's sixth-level monsters and beasts, six of them can be killed. Its comprehensive combat power is probably comparable to that of Wuzong's six-level peak.

In front of Lu Ming, the twenty giant tigers of Wuzong's fifth and middle stages are still unable to fight back.

call out! call out! ...

Lu Ming's spear shook, and his gun burst out, and twenty giant tigers were shot by the gun.

On the stone tablets outside, Lu Ming's points naturally soared.

However, it did not attract much attention. It was normal for the points to soar in the beginning.

In the illusion of killing, the fighting continued.

Twenty Wuzong monsters in the late fifth stage appeared immediately after the 20 giant tigers in the mid-fifth stage of Wuzhong were killed.

Still easy to kill.

Then, there were twenty Wuzong five-fold peak giant tigers.

When twenty giant tigers with five peaks of Wuzong were killed, the world suddenly changed, and Lu Ming found him in a swamp.

call out! call out! ...

In the swamp, suddenly twenty large snakes with thick bowls slammed out and shot towards the landing clan.

The breath is stronger than the previous giant tiger.

Wuzong's first six monsters.

Lu Ming looked calm and still stabbed with a spear.

bump! bump! ...

Big snakes burst in the air.

Wuzong's six-fold monster is not at all capable of defeating Lu Ming, and it is difficult to stop Lu Ming at all.

Lu Ming swept away with the destructive trend.

His points also soared.

Soon, it exceeded five hundred percent.

Continue to soar upward, six hundred percent, seven hundred percent...

After Lu Ming killed 20 monsters from Wuzong's six peaks, Lu Ming's score reached 720.

At this time, the surrounding scene changed again.

It became a big mountain, surrounded by rocks.

Suddenly, the turbulent rocks around them changed and wriggled into a giant stone man with a height of three meters. There were twenty stone men in total.

Boom! Boom! ...

Each stone man is equivalent to the early stage of Wuzong's seventh heavy, holding a mace made of stones condensed in his hand, stepping on the ground, roaring, and rushing to the landing song.

The mace fell like a mountain pressing against Lu Ming, like a mountain.

Lu Ming stepped on his foot, his body shot like a shell, the wind and fire on the spear merged, and one shot swept out.

bump!

A stone man was suddenly blown away by a long gun, and the gravel spattered.

Suddenly, Lu Ming's points increased by nine points.

In the early stage of Wuzong Seventh Layer, Lu Ming could not stop him at all.

Chapter 365:

call out! call out! ...

The spears kept piercing, and the stone men burst apart.

Soon, all 20 stone men were defeated by Lu Ming.

Next, it was Wu Zong's mid-seventh stone man, who also couldn't stop Lu Ming.

Swept all the way.

When 20 stone figures in the later period of Wuzong's Seventh Layer were defeated, Lu Ming's points had already surpassed that of Yang Liuji.

Outside the large array, Yang Liuji's eyes stared at the stone tablet with a clenched look.

"Lu Ming!"

Yang Liuji growled.

Although he was prepared in his heart, being surpassed by Lu Ming still made him feel extremely uncomfortable.

However, other people did not pay too much attention to Lu Ming, because the top ten in the Yundi list, the speed of points soaring, is no slower than Lu Ming.

boom! boom!

In the Wanxian Killing Array, Lu Ming shot several consecutive times and defeated the last two Wuzong Seventh Peak Stonemen. By this point, Lu Ming's points had reached 1,560.

At this time, the surrounding scene changed again.

Lu Ming found that he appeared in a huge canyon, where the wind screamed and torn the world.

Uh! Uh! ...

In the strong wind, bursts of air broke out suddenly.

At the next moment, a slash of light slashed toward Lu Ming, at a fast speed, like electro-optical flint, before Lu Ming blinked.

Lu Ming's eyes narrowed, his figure shivered slightly, and his body was like a glimmer of light, drifting back dozens of meters.

Buzz!

The lance was shocked, swept out, and a figure was shot.

At this time, Lu Ming only saw that it was a figure all wrapped in a black robe.

The illusion of illusion will not only gather monsters and beasts, but also martial artists.

Wow, wow!

Behind Lu Ming, there was also a slash of light towards Lu Ming.

when! when!

Lu Ming waved his long gun and blocked a few knives.

Each of these black robes has Wuzong Bazhong's early cultivation practice.

"The wind!"

Lu Ming exerted the wind and began to sense the trajectory of the black robe.

Although the speed of the black robe is fast, under the wind of Lu Ming, he still has nothing to hide.

"I found you!"

Lu Ming's eyes flashed suddenly, and the spear instantly pierced a dozen shots.

puff! puff!

Five or six people in black robes were pierced by Lu Ming in a row, dissipated into energy.

Based on Lu Ming's current combat strength, the early warrior of Wuzong Yazhong was not his opponent at all. After he found the trajectory, he was killed by Lu Ming one after another.

Soon, twenty black robes in the early stage of Wuzong's eighth annihilation disappeared.

At the next moment, there appeared twenty black robe men in the middle of Wuzong's eighth stage.

The speed of these twenty black robe men is faster, like lightning in the gusty wind.

Even Lu Ming's tendency to show the wind is difficult to capture the trajectory.

"Possibly, these people in black robe have actually mastered the wind!"

Lu Ming's eyes were full of shock.

"Wonderful, really wonderful, this is just a big formation, the martial arts condensed inside, actually grasp the trend of the wind."

Lu Ming marveled.

"This kind of wind trend is different from what I have realized. Yes, the wind trend can still be like this. I never thought of it before."

For a time, Lu Ming did not rush to kill these black-robed people, but instead resisted while feeling the wind.

Taking Lu Ming's current practice as an example, if full force is exerted, the display of Jiulong will definitely be able to cross the four small realms and fight against the warrior of Wuzong's eighth peak, and even win.

It is not impossible to break through with all strength and to pass this level.

However, Lu Ming is not in a hurry now.

Outside the Wanxian Killing Formation, everyone stared at the stele.

At the beginning, Lu Ming did not attract much attention, but when Lu Ming passed the Wuzong Seventh level and the points reached 1,560, it attracted many people's attention.

This is a hurdle. Even those who can pass this hurdle, even in the Yundi list, are top geniuses and can definitely rank in the top twenty.

"Lu Ming was so strong, the points reached 1,560. Below, he will face Wu Zong's early warriors."

"I don't know where Lu Ming can go?"

Many people are talking.

Yang Liuji listened to his ears and couldn't help but grit his teeth.

"This Lu Ming, I didn't expect the strength to be good!"

Yanfei whispered.

"A little skill, but still dying!"

Lan Yun said coldly.

"Lu Ming, Lu Ming, I didn't expect your strength, but I actually reached this step. It seems that this time the selection of Emperor Tianshenwei must find a chance to kill you!"

Qiu Wuyang's eyes shone coldly.

But after a while, their faces changed.

Lu Ming's points continued to soar, very fast, no slower than the top ten geniuses in Shangguan Yanchen's list of several cloud emperors.

"It's still improving, Lu Ming's points are still improving, too strong, can Lu Ming rush into the top ten?"

"I really didn't expect that Lu Ming's combat power was so terrifying. Before he defeated Yang Liuji, it is estimated that he did not use a little strength?"

"God, you see, Xie Nianqing's points are not bad, they are all from the raging empire."

"In addition to the autumn sky, the little blazing sun empire has actually produced three such terrifying geniuses, incredible!"

All around, exclaimed again and again.

Soon, Lu Ming's points rushed to 1,820, which shows that Lu Ming has already killed all 20 martial arts warriors of the eighth period of Wuzong.

"Next, Lu Ming was faced with 20 martial arts warriors of the eighth middle age. As long as he could pass this level, there is a high possibility of rushing into the top ten. If he can pass the next level, he can exceed Autumn sky, steadily entered the top ten."

"look forward to!"

"Huh? No, did you find that Lu Ming's points stopped moving."

"Yes, has he reached the limit?"

"Most of the time, I guess he has run out of lights and should be struggling to resist, so the points stop moving."

call!

Qiu Changkong, Yan Fei looked for several people, and also exhaled for a long time.

Especially Qiu Changkong, I saw Lu Ming's points soaring before, and there was a burst of nervousness for fear that Lu Ming would surpass him.

With his arrogance, if Lu Ming surpassed him, he would be absolutely unacceptable.

Fortunately, Lu Ming's points suddenly stopped.

"Oh, Lu Ming, is this your limit? Really disappointing."

Qiu Changkong whispered a smile on his face.

At the same time, several people in Lan Yun said with a sneer on their faces.

Lu Ming is nothing more than that, and poses no threat to them.

"Look, Xie Nianqing's points have also slowed down."

"Yes, it seems that Xie Nianqing's combat power is slightly higher than that of Lu Ming, but it is not as good as the top ten geniuses of the Yundi list, ranking behind the top ten."

Some people discuss with each other and express their opinions.

Because at this time, the top ten geniuses of the Yundi list continue to improve their points.

Soon after, the top ten geniuses of the three Yundi lists have surpassed Qiu Changkong successively, pushing Qiu Changkong to ninth.

And Yan Feixun fell to the tenth place.

"hateful!"

Yan Fei looked for his teeth. Originally he was the ninth. This time, he reached the tenth. Not only did he not improve, but he stepped back one, making him depressed for a while.

Chapter 366: You are the second child

The time passed slowly, and soon, the half-hour time limit was about to come. When the light curtain shook, Xie Nianqing had come out.

Lu Ming's scores are still stagnant, but they have not come out.

"It really works, but it's a qualifier. It's a score. What's the use of standing there?"

Qiu Changkong sneered.

But at the next moment, his eyes protruded directly, and he could swallow a dead mouse with his mouth open.

I saw that Lu Ming's stagnant score on the first stone tablet suddenly rose again, and the speed was terrifying.

On the field, other people's expressions were similar to Qiu Changkong, dumbfounded and dumbfounded.

"How is it possible? How is this possible? How did Lu Ming's points start to skyrocket?"

"Did he hide his strength just now?"

"impossible?"

There was a lot of discussion, and even Jian Fengyun was stunned.

Lu Ming's points exceeded almost two thousand points almost instantaneously, followed by two thousand one, two thousand two, and then surpassed the autumn sky in one fell swoop.

When Lu Ming's points reached more than 2,400, the light curtain shuddered, and his figure flew out directly, together with the top ten geniuses from Yunguan, such as Shangguan Yunyan.

"Nest, how can there be no time!"

After coming out, Lu Ming kept muttering, a little speechless.

Before, he watched those black robe people feel some sense, could not help but start to understand the trend of wind.

He had already reached the limit of Xiaocheng's wind potential. Under this understanding, the wind potential broke through smoothly and reached Dacheng.

The power of the wind is great, and the power of fire is great, and they merge with each other, and their power soars.

Before, the trend of wind and fire was strong and weak, and it was not balanced. Although the power after fusion was great, it did not reach the maximum.

Now, when the two potentials are balanced, the power is truly horrible, and it fully surpasses the power of a single potential's consummation.

Lu Ming's two potentials merged into the spear. After the spear was swept away, the black robe of the middle period of Wuzong's eighth layer collapsed one after another.

In just a few breathing time, the twenty black robe of the middle period of Wuzong Eighth Layer were all defeated.

Next were twenty black and black robe men in the later period of Wuzong Yazhong, but they were unable to resist Lu Ming's offensive and were killed in a short time.

When Lu Ming was preparing to fight against the twenty Wuzong Eightfold Peak Black Robes, the space suddenly shuddered and sent him out directly.

Lu Ming knew immediately that the time was up.

"Forget it, this score should be good!"

Lu Ming muttered.

"Brother Lu, congratulations!"

At this time, Feng Wuji and Ling Yanchi came over and clenched their fists.

It's just that their faces are helpless and bitter.

Lu Ming knows that the two must have failed, and the points did not reach five hundred points.

At this point, Lu Ming had already speculated in his heart that he didn't say much.

At this point, the light flashed on the second stone tablet and the ranking changed.

The top three, unchanged, are still Jian Fengyun, Tian Snake Master, Jiang Hongwen.

The fourth place changed and became Shangguan Yunyan.

The fifth place is still Blue Cloud Road.

The top seven of the Yundi list have hardly changed, and the eighth place has changed and became Lu Ming.

Qiu Changkong retreated to tenth place.

Yan Feixun, directly eleven, fell out of the top ten.

"Damn!"

Yan Fei's whole body was trembling.

Before this competition, he was still confident and wanted to rush forward a few more. Now, instead of rushing forward, he has retreated a few.

"All blame Lu Ming!"

Yan Feixun directly blamed everything on Lu Ming's head. If Lu Ming didn't rush into the eighth, how could he fall out of the top ten?

The eleventh and top ten, although only one difference, are completely two different levels.

On the other side, Qiu Changkong continued to see the murder in his eyes, and Lu Ming actually surpassed him, also from the scorching sun empire, he was difficult to accept.

From then on, Lu Ming, not him, was the first genius of the scorching empire.

"Kill, kill, kill!"

Qiu Chang shouted in the hollow.

Lu Ming seemed to feel Qiu Changkong's murderous intention, and looked at him, a sneer lingered in his mouth, and said, "Little Kongzi, I'm sorry, but accidentally, I surpassed you. In the raging empire, you change He's the second child."

"Lu Ming, you...!"

Qiu Changkong roared, his eyes red.

What did Lu Ming call him? Xiaokongzi?

What could he do to surpass him? Has he become the second child?

This is almost annoying every word, Qiu Changkong feels that the heart, liver, spleen, lungs and kidneys are pained by the qi.

"Lu Ming, Wan Huan kills a high score, it does not mean that you can win the real battle of life and death!"

Halfway, Qiu Changkong took a deep breath, but calmed himself, coldly said.

"Oh? Really? Then let's have a real life and death battle!"

Lu Ming's murderous eyes stared at Qiu Changkong.

Qiu Changkong is the person he will kill. If he can take advantage of this opportunity to solve him, it's just right.

But Qiu Changkong's eyes flickered a few times, but did not agree, snorted and walked aside.

Now, he has no chance of winning, and Lu Ming's combat power has no bottom in his heart.

"I didn't dare, it's a scam!"

Lu Ming pouted.

These words left Qiu Changkong's body staggering, his eyes red again, and he almost exploded his lungs.

He wished to turn around and unload Lu Ming.

But his reason told him to be patient.

"Lu Ming, sooner or later I want you to die without burial."

Qiu Chang roared in the hollow.

The test is still going on, and there is the last group left, but this group has no outstanding genius and everyone is not interested.

Soon, half an hour later, the last group ended, this time the qualifiers have been all out.

A total of 98 people passed the qualifiers and were qualified to participate in the selection of Emperor Tianwei.

More than 600 people came here, and only 98 people passed in the end. This probability is not low.

Don't forget, these six hundred people are all geniuses of the level of the six heroes.

"Okay, you ninety-eight people, through the qualifiers, won the selection of the Emperor Celestial Guard, the selection of the Emperor Celestial Guard, three months later, Wanxing City, you only need to rush to Wanxing City within three months. Now."

Lu Xiu announced.

"Million Star City?"

Many people are stunned, apparently never heard of it.

"Wanxing City is the branch palace of Emperor Tianshen Palace in the east of Tianxuan domain. You just have to rush to Wanxing City and gather at Yundi Mountain Bieyuan. I'll wait for you there. This is the map to Wanxing City!"

Lu Xiu gave a brief introduction, and then took out a stack of maps, each of whom sent a copy.

"Okay, let me go out now. For these three months, you will arrange it yourself!"

Lu Xiudao.

Afterwards, everyone followed Lu Xiu and went out of Wanhuan Canyon.

Then they dispersed.

"Lu Ming, this time you are surpassed, next time, I must surpass you."

On the way back, Xie Nianqing gritted his teeth to Lu Ming.

This time, Xie Nianqing ranked 15th, lagging behind Lu Ming, and she was grudging about it.

Lu Ming smiled bitterly, how could this chick think of surpassing him every day.

Chapter 367: Qianjiang waters

On the side, Feng Wuji and Ling Yanchi were blushing with a blushing face, and they looked like they wanted to laugh and embarrassedly laugh.

"Xiaoqing, you see that we are both husbands and wives. Don't be like this, let Brother Feng and Brother Ling look at jokes!"

Lu Ming approached Xie Nianqing's ear and whispered.

"You...who is with your husband and wife? Don't talk nonsense!"

Xie Nianqing's pretty face flew red, and she scratched Lu Ming's eyes hard.

"We have looked at each other and touched each other, not even an old wife or an old wife, do we really want me to deal with you?"

Lu Ming groaned, touching his chin.

"Lu...Ming...!"

The sharp cries sounded, and the thorny Lu Ming eardrum buzzed.

Xie Nianqing squeaked with a silver tooth grind. If Feng Wuji and Ling Yanchi were not there, she would pounce and bite Lu Ming.

"Gentleness, gentleness, do girls want to understand? Don't let Brother Feng and Brother Ling read the joke!"

Lu Ming carried his hands on his shoulders and smiled badly.

Aside.

"Ah! Brother Ling, today's starry sky is so beautiful, the moon is so dazzling!"

"Haha, what Brother Feng said is very true!"

It was clearly daytime, the sun was shining, Feng Wuji and Ling Yanchi looked up at the sky, opened their eyes to talk nonsense, and pretended not to see Lu Ming and Xie Nianqing.

Several people clamored all the way and returned to the inn.

And the situation about this test is also spreading wildly in Yunhuang Empire.

The strength and invincibility of Jianfengyun naturally aroused much discussion among many people.

In addition, the names of Lu Ming, Qiu Changkong, and Xie Nianqing are also frequently mentioned.

Because the three of them are from the same empire, the scorching empire, and that small projectile country.

A raging empire has so many horrible geniuses, and there are even two people who rushed into the top ten, which is more terrifying than many medium empire.

Like the Blood Zhao Empire, none of the top ten.

Two days later, on a mountain, Qiu Changkong fell down to an old man.

"Master, why did you come here?"

Qiu Changkong said extremely respectfully.

This old man is a great man who took the autumn sky as a registered disciple and the eastern part of the palace of the Emperor Tianxian Temple.

"Changkong, although you were ranked 36th in the Yundi rankings before, but you are proud and arrogant. You have never taken the geniuses of other Yundi rankings into your eyes. Through this qualifier, you should also realize that , Someone outside, is there a reason outside of heaven?"

"Moreover, this is only the Yundi Mountain Range. The Yundi Mountain Range, the land of projectiles, genius cannot be compared with other regions at all. If you want to successfully join the Emperor Heavenly Guardian, it is difficult!"

The old man sighed.

"Please also ask Master for advice!"

Qiu Changkong said respectfully.

"Well, this time, coming here as a teacher is to take you to Baishenpo to practice. This quota is for the teacher to get easily. You must cherish it."

The old man said.

"Baishenpo!"

After hearing this, Qiu Changkong was ecstatic.

Baishenpo, but an extremely famous cultivation holy place in Emperor Tianshen Palace, he had heard the name long ago, but he was not qualified to enter.

This time, his master actually got such a precious place for him.

"Thank you Master Zongkong, I'm willing to go through the flames for Master Zunyou, I will not say anything."

Qiu Changkong fell down again.

"Go!"

With a wave of his hand, the old man disappeared without a trace with Qiu Changkong.

...

The Emperor Capital of Yunhuang Empire, in the inn.

"Xiaoqing, are you leaving? Where are you going?"

Lu Ming asked.

Just now, Xie Nianqing quit with him.

"Of course I went to find a place to retreat. Fortunately, I surpassed you in three months. Well, we will see Wanxing City in three months!"

After finishing speaking, Xie Nianqing carefully looked at Lu Ming for a few moments, then turned around and left, disappearing in an instant.

Looking at the disappearing direction of Xie Nianqing, somehow, Lu Ming felt a little bit reluctant.

"Xiaoqing, three months later, what step can you reach?"

Lu Ming whispered.

Xie Nianqing's identity has always been mysterious, and Lu Ming still doesn't know where she came from?

And her sister, Xie Nianjun, is also a natural born king with a terrible talent.

Lu Ming has a feeling that when she sees Xie Nianqing again three months later, her cultivation will greatly increase the horror.

"It seems that I have to work hard, otherwise she may really be surpassed."

Lu Ming smiled slightly.

Halfway, Lu Ming looked at Xiangfeng Wuji and Ling Yanchi.

"Brother Feng, Ling Brother, what are your plans next?"

Lu Ming asked.

"We plan to return to the Sun Empire, Brother Lu, how about you?"

The wind has no bogey.

"I'm going to start here and go to Wanxing City, while I'm on the road, I'll practice!"

Lu Ming said.

He has seen the map, Wanxing City is too far away from Yundi Mountain.

Taking Lu Ming's current practice as his full flight, I am afraid it will take a month.

Therefore, Lu Ming decided to rush on the road while practicing.

Take this journey as a kind of experience.

Feng Wuji and Ling Yanchi both nodded.

"Brother Feng, after you go back, please help me to give my father and mother peace!"

Lu Ming said.

"Relax, it must be brought!"

Feng Wuji nodded.

Immediately, Feng Wuji and Ling Yanchi and Lu Ming said goodbye to the raging empire.

Suddenly, Lu Ming was left alone.

"I should go too!"

Lu Ming smiled, out of the imperial capital of the Yunhuang Empire, rose into the sky, flew westward, and disappeared to the horizon in an instant.

The Yundi Mountain area is located in the easternmost part of the Tianxuan domain, and is extremely far away from the Wanxing City. There are multiple areas on the way.

From the scorching sun empire to the imperial capital of the Yunhuang Empire, Lu Ming didn't explode at multiple speeds because of the relationship between wind and impunity, and Ling Yanchi. At this time, a person, he exploded with all his strength, and the speed was amazing.

Countless mountains, rivers, and plateaus passed by Lu Ming's feet.

In just three days, Lu Ming left the Yundi Mountain area and entered another area.

Qianjiang water area.

The Qianjiang water area is an area close to the Yundi mountain range. The area is several times the area of the Yundi mountain range. It is very wide, and it has produced hundreds of empires and countless populations.

Among them, the strongest empire, called the Qianjiang Empire, is a high empire, extremely powerful.

At the beginning, Jianfeng was in the Qianjiang water area.

The topography of the Qianjiang water area is completely different from the topography of the Yundi Mountain area.

In the Yundi Mountain area, there are many famous peaks and the terrain is steep.

In the Qianjiang water area, the terrain is flat and large rivers flow. On the vast land, countless large rivers are distributed.

Lu Ming was stunned looking over a large river.

Because this river is too wide.

Standing at a height of 10,000 meters and looking down, the river is wide and wide. If Lu Ming is not amazing, he can't see the edge at all.

As for the length, it can't be visually observed at all.

On the big river, big ships sail on the water.

"Sure enough, don't have a flavor!"

Looking at the vast river, Lu Ming only felt that his heart was open and his mood was very comfortable.

The true qi in the body can't help running quickly.

Chapter 368: Tianmen

Huh...

The cyclone in Dantian also spins up at a faster speed, and the aura of heaven and earth in all directions gathers frantically towards the landing sound.

After a moment, Lu Ming's body shivered slightly, and a sound like a big river rushed out of him.

A breath twice as strong as before, burst out, but the next moment, it quickly converged.

"Wuzong's five-fold early stage!"

Lu Ming smiled at the corner of his mouth.

Lu Ming's cultivation practice reached the peak of Wuzong's quadruple as early as a few months ago. In the past few months, he has been polishing his true energy and solid foundation, and has already reached a rounded state.

Just now, the mood was relaxed and the mind was relaxed, and the cultivation was natural. There was a natural breakthrough. There was no hindrance and no fart.

"Now, what is my strength in the Yundi list?"

There was a smile on Lu Ming's face, and his figure flickered, and Lu Ming flew forward quickly along the river.

"Look, it's Martial Master!"

In the middle of the river, there was a little sailing shadow. Someone on the boat saw Lu Ming and shouted.

Wu Zongqiang, even in the Qianjiang waters, is a big figure above all.

"Good young martial arts master, I want to be like him!"

Some teenagers looked at Lu Ming in the sky with envy.

These people did not arouse Lu Ming's concern, he was getting faster and faster, and the boundless river crossed under his feet.

This long river doesn't know how long it is. Lu Ming has flown along the river for 100,000 miles, but he still hasn't reached the end.

Along the way, countless tributaries passed, countless people built an empire near the river.

Lu Ming guessed that this river should be one of the main rivers in the Qianjiang waters. It is said that there are as many as 18 main rivers in the Qianjiang waters, with countless tributaries.

Wow!

At this moment, a violent roll sounded on the river below, and the water was splashing.

The water waves rolled, and Lu Ming saw countless fish in the water waves.

All kinds of fish jump, some fish are tens of meters long, very huge, and emit a strong breath.

It is clearly some fish monsters.

These fish monsters actually went side by side, swimming towards the front of the river.

Lu Ming was very curious and followed these fish monsters.

The further forward, Lu Ming was more surprised, because there were more and more fish in the river.

There are even many shrimps, turtles, etc., all aquariums, lined up and swimming forward.

"What's ahead? Actually attracted so many aquariums?"

Lu Ming thought about it and was very curious.

After traveling about a thousand miles, Lu Ming saw a tributary.

Said it is a tributary, in fact, it is also about a hundred miles wide, which is extremely wide.

From this tributary, a large number of aquariums also swam out and joined the team.

Uh! Uh! ...

The sound of breaking the sky sounded, and Lu Ming saw two middle-aged men and women, walking in the air, and like him, following the Shui.

The two middle-aged men and women apparently also saw Lu Ming, his eyes flashing and no words.

Lu Ming became more and more certain that there was a problem ahead.

Along the way, about ten thousand miles, the aquariums in the river are already densely packed, and there are already dozens of warriors in the sky.

Those who can walk in the air, without exception, are all masters of martial arts.

"It seems that the Dragon Gate will appear again. This time, the Dragon Gate doesn't know where it appears?"

There were several young people in the sky, and one of them whispered.

Lu Ming's ear moved, and naturally he heard it without saying a word.

"It's hard to say that Dragon Gate, also known as Tianmen, is extremely wonderful. The waters that appear each time are different, and the time is not fixed. This time we were hit by it. It is our chance. We must grasp it."

"Brother Pan said that the presence of Tianmen is said to be able to diffuse an extremely mysterious atmosphere. People in that range often have active thinking, especially an understanding of the

potential, which can greatly improve. I must seize the opportunity this time. , Break through the momentum of water to Dacheng!"

"Senior brother, I heard that various treasures will spew out of the Tianmen, is it true?"

"It's true, legend, Tianmen is extremely mysterious, connecting a very ancient and powerful world, and every time Tianmen appears, precious objects from that world will spew out!"

Perhaps these secrets are not uncommon in the Qianjiang waters, so when several young people discussed, they did not deliberately hide it, and Lu Ming heard it clearly.

"Dragon Gate? Tianmen? Is there such a magical thing?"

Lu Ming secretly sighed.

I was more curious in my heart and followed along.

After about thousands of miles, the aquarium in the river stopped.

In front, there is a huge intersection.

The three rivers are thousands of miles wide, and the huge rivers converge to form a wider river that flows into the distance.

At the intersection of the three big rivers, there is a huge vortex, and the river rotates like a funnel.

This vortex is huge and at least hundreds of miles in diameter.

In the other two rivers, there are also a large number of aquariums, as well as a lot of warriors.

All the warriors on the scene add up to about 100 people.

Rumble!

Suddenly, a violent roar came from that vortex.

In the big river, countless aquariums made different sounds, staring at the vortex one after another, revealing the color of awe.

"Haha, every time the Tianmen appears, it will attract a large number of aquariums. These aquariums are really stupid and really want to jump the dragon gate!"

A big man laughed.

Others smiled lightly, obviously not surprised.

Rumble!

At this time, the sound in the vortex was louder, and there seemed to be a behemoth coming out of it.

boom!

The next moment, the earth shook violently, and there was really something rushing out of it.

It was actually a mountain, and a mountain came out of the whirlpool.

At first it was the mountain peak, then the mountainside, and slowly the bottom of the mountain also appeared.

A huge mountain appeared at the junction of three large rivers, causing a large amount of river water to flow on both sides.

Buzz!

At this moment, the mountain was shocked, and a strong breath filled the mountainside. A huge stone gate appeared on the mountainside.

"Tianmen, Tianmen appeared!"

Someone shouted.

Lu Ming was also very surprised, looking at the mountainside across dozens of miles.

The stone door, as high as 100 meters, was filled with hazy light.

"Rush, rush up!"

Someone shouted and flew towards the mountain.

Lu Ming did not hesitate, followed the crowd, flew to the peak, stopped at the mountainside, and then ran towards the stone gate.

However, when there were about one thousand kilometers near the Shimen, Lu Ming felt a powerful force on his body.

This force is not an ordinary force, but a force like heaven and earth. It is very similar to the potential, but it is not known how many times higher than the potential.

"This is the power of Heaven and Earth Avenue!"

Lu Ming was shocked.

In it, he felt a mysterious and inclusive atmosphere.

It seems to contain countless kinds of potentials, countless kinds of heaven and earth.

bump!

Someone was kneeled down by this force.

Chapter 369: Genius in Qianjiang waters

"It is useless to resist with strength!"

Someone shouted.

boom! boom! ...

Suddenly, a variety of potentials broke out.

Wind, fire, gold, wood, mountain, thunder, water, etc.

Lu Ming found that among these people, those who understand the trend of water are the most.

It is estimated to be related to the environment of Qianjiang waters.

To resist, you can move forward.

Some Wu Zong who didn't understand the situation, knelt down directly about a thousand kilometers.

And Wu Zong, who realized the trend of entry, could walk within 900 meters.

Those in the early stage can enter 800 meters, and in the middle stage they can enter 700 meters.

For every point of strength, you can get close to Tianmen by one point.

However, Lu Ming stood motionless for about a thousand kilometers.

There he carefully understood.

He felt that the last palm of the Three Dao Palms was very similar to the breath of Tianmen.

"Heavenly Way, Heavenly Way, Heaven and Earth Avenue, so it turns out!"

Comparing Tiandao Palm with the breath from the present Tianmen, Lu Ming's eyes were magnificent.

He finally figured out a trace of Heaven's palm.

Heavenly palm, once claimed that once it is refined, the power is infinitely close to the heaven-level martial arts, and the power is terrifying, but there are few people in history who can be refined, it is too difficult.

Lu Ming practiced for a long time, but there was still no way. At this time, it seemed that a door was open in front of him.

"This kind of breath, I want to capture and engrave this kind of breath in my heart, and then reflect each other with the heavenly palm, I believe I will soon become a heavenly palm!"

Lu Ming's thoughts changed sharply, and he felt the breath with all his heart.

After a while, Lu Ming resisted and advanced 100 meters, but he quickly quit.

The kind of heavenly air in front is more intense, but the same, it is more difficult to capture something in mind, it is about 1,000 kilometers.

While Lu Ming understood it carefully, there were two figures, the fastest, and continued to move forward.

These are the two old men, they can actually walk within three hundred meters.

"The potential of becoming the limit, they are the double monsters of the Minjiang River."

Someone recognized the two old men and shouted.

Obviously, these two old men have a great reputation.

Lu Ming took a closer look and found that the cultivation practices of the two old men had reached the peak of Wuzong's eighth level.

"I can understand within three hundred meters, the effect is the best, and, the closer the Tianmen squirts treasures, the closer you are, the greater the chance you get!"

Some people are envious.

Everyone tried their best to rely on Tianmen for a point, so the gain would be bigger.

Uh!

At this time, a figure came from a distance, and came to the mountain in an instant, and continued to rush towards the Tianmen.

This is a young man in his twenties.

A strong momentum broke out in him, very fast, and soon approached the range of 300 meters.

"Who is this person? The power is so powerful?"

"Don't you know Liqiushui?"

"What? He is Liqiu Shui, ranked 78th on the top 100 list?"

Someone was shocked.

"Two old guys, get me off!"

Within 300 meters from Qiushui, his eyes looked coldly at the Minjiang River.

Minjiang Shuangguai's face sank, and one of them said: "Liqiushui, what do you mean?"

"What do you mean? I told you to get out of it. Within three hundred meters, only me was left!"

Li Qiushui sneered.

"Liqiushui, is your appetite too big, I'm afraid I can't hold it?"

Minjiang Shuangguai said in a deep voice.

"Can't hold it? Just the two of you? You don't deserve it!"

From Qiushui strong overbearing.

"Liqiushui, although you are a genius, our two brothers may not be afraid of you!"

Where is the Minjiang River Shuangguai willing to give in easily

"Don't go, that's only death!"

Li Qiushui's eyes suddenly froze.

call out!

A sword light broke through the sky and killed the double monsters in the Minjiang River.

"I'm afraid you won't succeed!"

The Minjiang River's double monsters roared and broke out to resist.

boom! boom! ...

With only five or six strokes, the Minjiang Shuangguai body trembled violently, and their bodies retreated backwards. On each of them, there was one more sword wound, and bones were deeply visible.

Sisi...

There was a cold breath in the audience.

The well-known double monsters of the Minjiang River, in the hands of Li Qiushui, were injured by five or six strokes.

Is it too strong from Qiushui?

Lu Ming's gaze was also fixed, deep in his eyes, revealing a dignified color.

He saw clearly that Li Qiushui's cultivation practice was at the peak of Wuzong's Sixth Chong, and the Minjiang Double Monster was two levels higher than him, and was actually injured within five or six strokes.

The ability to fight across levels from Qiushui has exceeded two levels.

Generally speaking, those peerless geniuses, in Wuzong Realm, can cross two levels to fight, which is almost the limit.

The geniuses at the level of Liejiejie, as well as those at the bottom of the Yundi list, can only fight across two levels.

It was only those geniuses that ranked lower in the Yundi list that were much higher than other geniuses, so they only made it on the Yundi list.

The top ten geniuses in the Yundi list are stronger.

Not only do they cultivate advanced skills, and they have the ability to fight across levels, they are also stronger.

For example, Blue Cloud Road and others have the ability to fight across levels, which exceed two levels, but cannot reach three levels, and are between two levels and three levels.

Lu Ming speculated that Jianfengyun might be able to fight across three levels.

The current Liqiu River can cross between two and three levels, and the strength of the battle is strong. Lu Ming speculates that it is no weaker than the geniuses in the Blue Emperor and other Yundi rankings.

But Liqiu Shui ranks 78th in the Qianjiang River Top 100.

The Qianjiang Waters Top 100 list has the same meaning as the Yundi List. It lists the top 100 geniuses in the Qianjiang waters.

Ranked 78th, it is so strong that Lu Ming has a deeper understanding of the strength of other regions.

"If you don't roll anymore, you die!"

Very cold from the autumn water.

Minjiang Shuangguai's face was extremely ugly. At the last bite, he withdrew from the 300-meter area and walked to the 400-meter area.

"Hahaha, away from the eldest son from Qiushui, it is really powerful!"

At this moment, with a big laugh, a red-haired man quickly ran to the Tianmen, exuding a strong momentum.

All the way to the 300m area, I stopped.

"It's Chifa Water Demon!"

Someone exclaimed.

Li Qiushui's eyes also gloomy, and he looked at Chifa Water Demon without speaking.

The cultivation of Chifa Water Demon has reached the early stage of Wuzong Jiuzhong, and he is not sure that he can defeat the opponent.

The Chifa Water Demon also stood in the 300-meter area without fear of leaving Qiushui, and looked at Tianmen fiercely.

At this moment, Lu Ming's eyes moved.

"Successful!"

He succeeded in engraving a faint breath of Heavenly Dao. As long as he thought hard, he would think of the faint breath of Heavenly Dao in his mind.

Although it is very light, but it should be enough to practice the heavenly palm and confirm each other.

"It's time to understand the potential!"

Lu Ming smiled at the corner of his mouth, then strode forward.

All the way, 800 meters, 700 meters, 500 meters...

Lu Ming has been walking towards the 300-meter area.

bump!

Finally, Lu Ming stepped into the 300-meter area.

At this moment, everyone's eyes focused on Lu Ming.

Chapter 370: The wind is great

Everyone's eyes gathered on Lu Ming, and then there was a fierce discussion.

"Who is this person? Can he walk to the 300-meter area? Dare to walk to the 300-meter area? Is he not afraid to kill him from Qiushui?"

"Is this person also a genius in the top 100 list?"

"I don't know. I have never seen this person. This time the Emperor Heavenly Guardian Qualifier, the top 100 list has been rearranged. I have not seen this person. It should not be a genius in the top 100 list!"

Many people whispered, watching Landing curiously.

Li Qiushui's face was gloomy and he looked coldly at Lu Ming.

"Boy, this is not where you should stay. If you don't want to die, get out."

Road cold from autumn.

Let the red hair water demon set foot on this area, making him very hot, and now there is another one, and he is still so young.

"Oh, if you open your mouth, you will let people roll down. I want to know, if you have a master who is stronger than you, let you roll down, I don't know what kind of expression you will be?"

Lu Ming curled his lips and smiled faintly.

"What's the matter, now I am the strongest here, this is the truth!"

From the autumn eyes, Bing Han looked at the landing sound.

"Are you the strongest? You really put gold on your face!"

Lu Ming showed a slight sarcasm.

"So you have the confidence to fight me? I want to see, where is your confidence!"

Keng!

As soon as the voice fell, the sword rang, and a white sword light like the Milky Way was cut from Li Qiushui's hands.

Like a fairy outside the sky, as fast as lightning.

Lu Ming sneered, the Zhenyao gun appeared in his hand, and he greeted him with a flicker.

If Lu Ming hasn't broken through Wu Zong's fivefold, he can't compete with Lan Yundao, he may not be an opponent, but now, he is trying to test his fighting strength.

boom!

The gunman and the sword blasted together, and a violent roar erupted.

The spirits overflowed, and the two bodies retreated together.

"It turned out to be a bit powerful. See if you can pick me up a few swords, the vast autumn sword!"

Scorn...

Sword qi like the Milky Way of the Nine Heavens appeared one after another, slashing towards the landing.

"Wind the fire!"

Lu Ming's spear shook, the wind and fire merged, and a blast of gunfire burst out, blasting with a sword, and a dense burst of sound rang in the air.

Around, the crowd watched in shock. They didn't expect that Lu Ming could even draw a battle with Li Qiushui.

"There is no such person in the Qianjiang Top 100 list. Is this person a hidden genius who has not participated in the Emperor Tianshenwei Qualifier?"

"It should be impossible. There is no young genius in the Emperor Tianshenwei qualifier. Let's not talk about becoming an Emperor Heavenly Guardian. You can practice in the Divine Palace of the Emperor Heavenly Divine Palace. The benefits are endless. It is said that there are also great opportunities in the selection competition. Will it be missed?"

"That's right, wouldn't it be a genius passing by in other areas?"

"Probably!"

Others are talking about it, not far away, Chifa Water Demon's face is also dignified, and he did not dare to carelessly take Wu Zongjiu's early cultivation as an example.

Boom...

The two of them blasted dozens of moves, and it was still difficult to distinguish the outcome.

"Take my last move, Qiu Shui Jiang Jian!"

Roaring from the autumn water, the breath of terror filled, a river appeared and surrounded him.

Lu Ming sees clearly that this river is completely formed by the convergence of sword qi, and the infinite sword qi condenses a river.

"kill!"

Drinking from the autumn water, this river rushed towards Lu Ming.

This is the strongest blow from Qiu Shui, and it is extremely powerful. Once, Wu Zong's early warriors were seriously injured by this move, and they were almost killed.

"Good, if the kid doesn't have a hole card, he's finished!"

Chifa water magic thought.

Other people who watched the battle had similar thoughts, their eyes glaring round and staring deadly. They wanted to see how Lu Ming cracked this trick.

Lu Ming's eyes also showed a dignified color, and his body suddenly rose into the sky.

"Nine Dragons!"

On Lu Ming, a wonderful wave came out, and he suddenly stepped out.

There was a faint sound of dragon chanting.

boom!

This step of Lu Ming seemed to encroach on the prestige of the world, and a wave of terror spread from Lu Ming's feet.

boom!

Nine Dragons and the Jianqi River from the autumn water slammed together.

The sky and earth were trembling and the energy was sweeping, but somehow, under the breath of the heavenly gate, it only spread out for a few meters, and then dissipated into the invisible.

The force that could have crushed a large mountain did not cause much vibration under the Tianmen.

Huh...

The energy dissipated, leaving Qiushui back a dozen steps, while Lu Ming flew backwards.

have equal shares!

Others looked at Lu Ming's eyes in shock, faintly revealing a trace of awe.

Obviously, they have regarded Lu Ming and Li Qiushui as a level of genius.

"The genius in Qianjiang's waters is really powerful, which is only 78. No wonder Jian Fengyun said that he was injured by the genius in Qianjiang's waters.

Lu Ming thought about it, and was shocked.

But I do not know, Li Qiushui's heart is even more shocked.

Lu Ming is just Wu Zong's five-phase preparatory practice, and he can even draw a tie with him, which is incredible.

To know that he is a genius who can fight across two multi-levels, then Lu Ming can not fight across four levels.

Fighting across four levels, in the realm of Wuzong, Lishui is almost unheard of.

Even the monster ranked first in the top 100 list, may not be able to fight across four levels.

"Where is this genius, how could it be so scary?"

Li Qiushui thought quickly, and his murderous eyes flickered.

But he didn't continue to shoot, standing aside, watching the landing cautiously.

Lu Ming did not shoot, looking at Tianmen.

At this time, in Tianmen, that kind of breath is getting stronger and stronger.

Someone had already sat cross-legged and began to understand in this breath.

"This kind of breath contains all the world, let me first understand the trend of the wind!"

Lu Ming thought, then sat cross-legged and began to understand the wind.

Of course, he left a part of his mind, pay attention to the surroundings, if someone shot him, he can fight back at any time.

However, no one shot at him, glanced away from Qiushui a few times, did not start, and sat cross-legged and began to understand.

"Boy, when my potential breakthrough is completed, it is your death time!"

Li Qiushui thought hard in his heart.

Slowly, the scene was silent, and most people began to understand cultivation.

Soon after, someone was ecstatic, apparently gaining something.

"The wind!"

Around Lu Ming's body, there was a faint wind blowing, light and elegant, unconceivable.

Lu Ming successfully found the way about the wind in the breath of Tianmen.

Suddenly, his understanding of the wind rapidly increased.

Around his body, a ray of blue wind was spinning, slowly and urgently.

Half an hour later, Lu Ming's wind around him suddenly converged and disappeared invisible.

Lu Ming opened his eyes and smiled.

The trend of wind has made a successful breakthrough.

Barely at the same level as the fire, the two tend to be balanced.

Lu Ming is very much looking forward to what kind of power can be produced by the fusion of the two potentials.
