

D Emperor 3711

Chapter 3711: Trading secrets

Fire source fruit!

Many people who practiced fire's divine power have their eyes bright again.

Then someone started to redeem.

However, Lu Ming has little interest in all this.

In his view, Huoyuanguo and Sword God Crystal have a big gap compared with the Shengyuangrass and Tianyuanguo obtained from the Dragon Family Mother Star, and they can't even be compared at all.

The Sword God Crystal is only useful for the original mysteries of swords, and the efficiency is only increased by 50%.

The fire source fruit is only useful for the fire attribute divine cultivation of the original source divine factor, and the efficiency can only be doubled.

Of course, these two durations are longer than Shengyuan grass and Tianyuan fruit.

But the efficacy is too far apart.

First, Shengyuancao and Tianyuanguo, but there is no attribute limit, and it is useful for the magic power of any attribute, or any source secret technique.

Second, Shengyuan grass and Tianyuan fruit, refining one, can directly greatly improve the original divine power factor or the original secret technique, it does not need much time to slowly grind.

With these two, the value differs by many times.

The transaction continues, but Lu Ming is not interested in the treasures these people bring out.

Lu Ming is now interested in two treasures.

One is a treasure containing a lot of energy, but Lu Ming now has a lot of magic medicine in it, which is enough for a while.

In addition, Lu Ming is interested in various secret techniques, which is also the purpose of his coming.

However, no one took out the secret technique to change.

A day later, at least hundreds of people traded treasures, none of which Lu Ming wanted, so Lu Ming simply stood up.

"Let me do it!"

Lu Ming got up, and many people looked at him.

The palm glowed, and a magic medicine appeared in Lu Ming's palm.

"This is a monarch-level magic medicine. The cultivation at any level of the monarch realm can be improved very quickly after refining. It is also very useful for breaking through the realm, and the power is three times that of the same level of magic medicine!"

Lu Ming introduced.

Indeed, after the seal of the Dragon Mother Star for so many years, the magical drugs produced in the ruins of the holy land have a very amazing effect, which is many times that of the same level.

Hundreds of thousands of fiery eyes all gathered together in Lu Ming's magic medicine.

After all, most of the people on the scene are the cultivation of Divine Monarch Realm, very few of Divine Emperor Realm.

For them, this magic medicine is too effective.

"What do you need to change?"

Someone asked.

"I want mystery, a magic medicine, and three kinds of mystics, and it's the one I don't have!"

Lu Ming said.

"Secret change?"

Everyone was surprised.

Like Jiang Lebang's doubts before, most people don't have high requirements for occultism, they only practice a few auxiliary occultisms, and the main practice is still the original occultism.

Unless it is a physique mystery, or the legendary three thousand ancient mystery.

I don't know what Lu Ming did for these secrets, but everyone didn't think much about it. It was his thing that Lu Ming changed so many secrets.

They just want to get the magic medicine.

"I'll exchange it with you!"

"I'll change it!"

.....

Immediately, many people cried out, at least dozens of people.

"I will speak first, I will change first!"

"Who said it was you who spoke first? But there is evidence that obviously I spoke first!"

Dozens of people actually competed fiercely.

"You guys!"

Lu Ming raised his hand and the scene was quiet.

"Everyone, there is more than one magic medicine on my body. As long as you have a secret technique, I will exchange it!"

Lu Ming said.

In this way, all people are quiet.

"I am the first!"

An old man rushed out and came to Lu Ming, then took out three jade cards and handed them to Lu Ming.

"Little brother, there are three kinds of secret techniques inside, you see!"

The old man said.

Lu Ming took it, swept his consciousness, and shook his head slightly: "I have the Sky Eye Tong in these three secret techniques. I need the secret technique I don't have before I change it!"

"Okay, I will change it!"

The old man quickly took out another jade card.

Lu Ming took it, swept the consciousness, and nodded in satisfaction.

Lu Ming does not have this secret technique.

Lu Ming handed the magic medicine to the opponent and successfully obtained three new secrets.

After putting away the secret surgery, another magic medicine appeared in Lu Ming's hands.

"This magic medicine has the same effect as the previous one, and it still changes to three secret techniques I don't have..."

Lu Ming said.

"I come!"

"I'll come first!"

Immediately, a large group of people cried again.

Because, Lu Ming needs to change the secret technique he doesn't have, so one step earlier will be beneficial.

If it is late, does the secret technique overlap with the person in front, can't it be exchanged?

Lu Ming is speechless, he can only choose.

"Just this senior!"

Lu Ming pointed to a middle-aged man and successfully switched to three new secret techniques.

In this way, Lu Ming used ten magical medicines in exchange for 30 new secrets.

In this case, there are 190 types of successful Lu Ming cultivation, and 130 types of those who have not yet practiced.

However, at this time, Lu Ming did not continue to take out the magic medicine for exchange.

After all, he also needed the magic medicine, and later cultivation could not do without energy.

Lu Ming will keep the rest.

However, Lu Ming still has several treasures.

Shengyuan Grass and Tianyuan Fruit!

Shengyuan Grass and Tianyuan Fruit are of no use to Lu Ming's present body, but are of great use to the past body, so Lu Ming did not bring much on his body, and each brought only a few, looking for opportunities to exchange some resources.

As soon as the thoughts were moved, a source of grass appeared.

"At this time Shengyuancao, everyone should have heard of it!"

Lu Mingdao didn't make too many introductions, because this kind of treasure is impossible for everyone to know.

Sure enough, as soon as Lu Ming opened his mouth, there were bursts of exclamation, and then he stared fiercely at Shengyuan Grass.

Shengyuan grass, but it is very useful for the magic power of any attribute, and the effect is amazing. It is simply the best of the best among the treasures of the original source of the power factor.

"I need to use a Shengyuan grass to exchange for twenty kinds of mysteries I need!"

Lu Ming opened the terms.

"Twenty!"

Everyone looked at each other.

Ordinary people, there will not be too many secret techniques on their bodies, twenty kinds, they simply take it out.

Moreover, it is still the secret technique Lu Ming needs, which coincides with the secret technique controlled by Lu Ming, he does not want it.

This condition is too difficult.

"You change the condition, I can use other treasures to exchange with you!"

A voice sounded, and everyone saw that it was the young Tianjiao of the locust clan.

He looked indifferent, and it seemed that he was not negotiating with Lu Ming, but a command.

Everyone was shocked.

This is the first time that the young locusts have traded, and they must have moved towards the students.

Also, the more genius you are, the more you will feel excited about these treasures.

Shengyuan Grass can save a lot of time, which is too attractive for Tianjiao, which can help him walk in front of other Tianjiao.

Chapter 3712: Made me look bad

Many people sighed, they knew that the Tianjiao tribe's Tianjiao spoke, and Shengyuancao was no longer playing with them.

Does Lu Ming dare to give Tiancao tribe a proud face?

It must be compromised!

However, Lu Ming's next reaction was beyond everyone's expectations.

Lu Ming shook his head and said, "I don't need other treasures, I only need mysteries, twenty mysteries, no one can be less!"

This statement shocked other people.

Lu Ming, actually rejected the condition of the Tianjiao clan Tianjiao?

The Tianjiao clan's natural arrogance had a strange and gloomy face, and it was even more gloomy at the moment, with a cold light flashing.

"Boy, do you know who I am? I am the sky locust..."

Tianjiao tribe Tianjiao was about to move out of his backstage, but halfway through, he was interrupted by Lu Ming.

"I don't care what race you are, if there is no secret technique, just shut up!"

Lu Ming said coldly.

Lu Mingke no matter what kind of arrogance you race, in the dragon clan star, he even killed the 16th yin and yang clan peerless evildoer, will he be afraid of you locust clan?

Many people took a breath, Lu Ming was too courageous, right? This is simply death!

The Tianjiao clan's mouth was half open, and he was there.

He obviously did not expect that, in his capacity, in this Shangchuanxing, some people dared to like him.

"Hahaha, locust side, it seems that others will not give you a face!"

On the other side, Yue Chang laughed.

He is not afraid of the locusts.

Locust's face was extremely ugly, and Lu Ming glanced coldly for a few moments. Without a word, he sat down.

"This brother, your raw grass, I want it. I will buy some secret techniques and exchange with you!"

Yue Changdao.

Immediately, Yue Chang took out other treasures or divine crystals, purchased secret techniques with others, gathered twenty secret techniques needed by Lu Ming, and exchanged Lu Yuan with Lu Ming.

"This brother, if you still have Shengyuan grass, or similar treasures, I can exchange them with you!"

Yue Chang looked at Lu Ming again, revealing the look of expectation.

"No more!"

Lu Ming shook his head.

On him, there are Shengyuan Grass and Tianyuan Fruit, and even imperial medicine, but he did not intend to take it out.

There are too many treasures exposed, I am afraid they will be targeted.

This time, Lu Ming was satisfied with fifty new secrets.

The transaction continued and another day passed.

There is no treasure that makes Lu Ming too emotional.

And the transaction is gradually coming to an end.

"Okay, this time, let's end this way. Three years later, we will hold it again. We welcome all of you!"

The old man said before and announced the end of this trading conference.

The crowd dispersed, and Lu Ming and Jiang Lebang went together.

This time Jiang Lebang also traded twice, and obtained the treasures he needed, which was also full of return.

Halfway along, Lu Ming's eyes narrowed slightly.

And Jiang Lebang, his expression narrowed.

Because, they were blocked.

It is a person of the sky locust family.

Locust side, with four middle-aged big men, blocked Lu Ming in front of them.

Seeing Lu Ming, the four big men flashed in shape, surrounding Lu Ming and Jiang Lebang.

"Locust, what are you doing?"

Jiang Lebang asked coldly.

The background behind him is not small, and he is not too afraid of the locusts.

"Jiang Lebang, this matter has nothing to do with you, I am here to find this kid!"

Locust said coldly, then smiled evilly, and looked at Lu Ming: "Boy, you were so brave just now, I will give you a chance now, give me your storage ring, then kneel down and slap yourself twenty , Kowtow admits wrong, I can spare you a dog's life!"

Locust's eyes flashed with greed, staring at the storage ring in Ming Ming's hands.

He believes that Lu Ming can take out a source of grass, and most of the inventory is still in his hand, making him greedy Dasheng and his eyes are fiery.

"That kid, it's over!"

"I'll say, that kid has no one in his eyes, he's bold, and he dares to hit the locust side of the locust clan in public. This is really death!"

"A prince is fourfold, so bold, hehe, he's dead!"

On the side, many people saw the situation here, and some people were gloating over them.

Some people are like this. What they dare not do, others do it, they are upset and hope that person is unlucky.

But the next moment, they shut up and stared.

Because Lu Ming said coldly: "Go!"

roll!

Lu Ming let the locust side roll~!

Everyone was dumbfounded, even the locust side was stunned, and Jiang Lebang was also a little stunned.

"It's dead, this kid is dead, I don't know what to do!"

"He had just handed over the storage ring, knelt and kowtowed to admit his mistake, slapped himself for twenty slaps, and could save a dog's life. Now, he is dead and no one can save him!"

The people around them concluded that Lu Ming was dead.

The locust tribe, Honghuang ten thousand people list ranked 356, this ranking, it seems not high, but it is not.

The wilderness universe is too big, with countless ethnic forces, like the Ganges gravel, no one can tell.

Countless racial forces are distributed in the endless vast universe. Not to mention the ranking of 356. Even if they are ranked in the thousands, they are all terrifying big races. They dominate the vast territory of one side and command countless souls.

A race like the locust race is really unimaginable.

Not to mention the locust tribe, just the locust party and the four middle-aged big men brought by him are far from what Lu Ming can handle. The quasi-imperial emperor, who kills Lu Ming, is no different from killing an ant.

Sure enough, Locust's face was extremely ugly.

The killings on his body came out unabashedly.

"Boy, I was so compassionate and wanted to give you a chance, but you don't know how to cherish it. Now that you are dead, I will betray you!"

The locust side spoke indifferently.

He looked at Landing Ming with indifferent eyes, standing high above him. In a word, he wanted to betray Lu Ming to death.

"moron!"

Lu Ming spoke lightly, and when he finished, stepping out, he was leaving.

This locust side is only six heavy gods, and the four middle-aged big men are also quasi-imperial.

Not long ago, he also killed the 130-ranked Wings, and 60 prospective emperors. Will these people be taken into consideration?

"court death!"

The locust's lungs were all exploding, roaring, his palm like a knife, and he beheaded the landing.

Celestial locusts, their arms are like swords, and the swordsmanship is terrifying.

What he beheaded was not Lu Ming's head, but Lu Ming's arm. He didn't want Lu Ming to die so happy. He wanted to torture Lu Ming and let Lu Ming die in pain, letting people know that he offended him. Yes What ends.

Uh!

Lu Ming didn't even look at it, and he chopped towards the locust side with a palm.

"Do not control yourself!"

Seeing Lu Ming actually slashing, the locust almost laughed, his eyes full of ridicule.

Lu Ming actually confronted him with a knife?

His palm was evolved from the front paw of the locust, and it was tougher and sharper than the real magic soldier. Even the magic soldier must be cut off by him.

Lu Ming this is self-deprecating!

Chapter 3713: Kingdom of God

Not only the locust side, but also others think so.

The palm of the locust family is famous in the universe.

Finally, the palms of the two collided together.

The result is almost what everyone imagines.

Click!

The sound of a broken arm sounded, and then a figure screamed and flew out.

The only difference is that this man who was blasted and had broken arms was not Lu Ming, but the locust side.

The locust side fell heavily on the ground. One of his arms was no longer broken, but was completely exploded.

In his eyes, it was all incredible and frightened.

Just now, he collided with Lu Ming's palm, and found that Lu Ming's palm was not like a physical body, and it was hundreds of times harder than Shenbing.

Around others, other people were also dumbfounded, their eyes round and unbelievable.

Not to mention the rigidity of the arm, the locust side is much taller than Lu Ming alone.

The lord of the locust side is sixfold, and Lu Ming is just the fourfold of the monarch.

The high two rebuilds, is actually defeated by the low two rebuilds?

"Shoot, kill me, kill him!"

The locust hysterical roared.

"court death!"

"kill!"

The four middle-aged men screamed angrily and rushed to the landing to kill.

Lu Ming's face was gloomy, his thoughts moved, and every cell in his body had a powerful force burst out, and then he rushed towards the four middle-aged men.

Both sides, the palm knife, is extremely fast, and in a flash, more than ten moves were fought, a continuous roar sounded, and then the two sides separated.

The difference is that Lu Ming stood still in place, and the four middle-aged big hens of the locust clan flew back and back, and they stepped back several hundred steps in a row before they stood firm.

Their bodies were trembling and a sip of blood spewed out at the same time.

Look at their arms, trembling, blood flowing, they have completely deformed.

Sisisi...

A cold breath came out.

Everyone stared at Landing Ming like a ghost, as if watching a monster.

A prince was fourfold, and in an instant, he injured four masters of the Quasi-Emperor Realm, and was also the Quasi-Emperor of the Celestial Clan.

Are you dreaming?

This is incredible!

Jiang Lebang also widened his eyes and stared at Ming Ming, with an unbelievable expression.

"Brother Jiang, leave!"

Lu Ming clenched his fists and left here.

He did not kill the locust side and others.

After all, there are so many people watching here, he killed the locust side, I am afraid that he will be retaliated by the locust clan, and finally have an identity, but don't make it chased and killed by the whole world, it is not good.

Lu Ming stepped away and disappeared.

"Damn!"

Locust stared at the direction where Ming Ming left, all eyes were full of resentment.

Lu Ming did not stay on Shangchuanxing, he flew through the sky, left Shangchuanxing, came to a barren planet, and began to retreat.

He must first practice all 150 secret techniques in his hands.

Lu Ming familiar with the road, Lu Ming one after another secret techniques, practice.

Time flies, three years in a flash.

In three years, Lu Ming has completed all 150 secret techniques and integrated them into the cells of the whole body.

This will undoubtedly increase Lu Ming's combat power.

"The power of these ordinary secrets is limited after all. I don't know how mysterious the three thousand ancient secrets are."

Lu Ming whispered, looking forward.

The three thousand ancient mysteries are different from the ordinary mysteries. They are mysterious and unpredictable. They have infinite power, and they are not weaker than the original mysteries. They cut off the nine chains.

However, to date, Lu Ming has not encountered the three thousand ancient secrets, and failed to see its power.

Now, Lu Ming has incorporated 340 secret techniques.

After practicing secrets, Lu Ming took out a magic medicine and began to refine it.

Lu Ming had stored some energy before, and felt that it was stored to 30%, but during this time, Lu Ming consumed a lot, so he continued to store.

This magical drug produced by Lu Ming is an emperor-level magical drug with amazing power.

After more than two years, Lu Ming felt that the energy stored in the cells in his body was as high as 50%.

The potential is amazing, waiting for him to develop and tap.

Of course, this 50% is relative to Lu Ming's present. After Lu Ming's cultivation has been improved in the future, if you want to store the same to 50%, you need more energy.

At this moment, Lu Ming's heart moved, and then a message appeared from the fantasy **** jade.

It was Jiang Lebang's message to him.

"What's the matter with Jiang Lebang sending me a message at this time?"

Lu Ming thought.

Jiang Lebang's message to him was not too clear, but said that he had the same chance and wanted to invite Lu Ming together.

Lu Ming thought about it and planned to go and see.

Now, Lu Ming's combat power has been improved, and a lot of energy is stored, which needs to be developed.

For the fastest development, adventure is the best way.

Taking risks can both exploit potential and gain opportunities.

Lu Ming set off for Shangchuanxing.

Shangchuanxing is not far from the barren planet where Lu Ming is located. Soon, Lu Ming came to Shangchuanxing and saw Jiang Lebang.

"Brother Jiang, what do you mean by chance?"

Lu Ming asked.

"About the Tianyue God Kingdom Ruins!"

Jiang Lebang said.

"Tianyue God Kingdom?"

Lu Ming was puzzled and never heard of it.

Jiang Lebang explained: "Tianyue Shenguo was a huge divine kingdom in this star field about a few dozen years ago. It is very powerful and not weaker than the race on the Hongwan Wanzu list, but then overnight, The kingdom of Tianyue Divided into pieces, destroyed, and disappeared from the world!"

"A powerful force comparable to the Hungry Peoples List disappeared overnight. How is it possible? What happened?"

Lu Ming was a little surprised.

Of the races on the Honghuang Wanzu list, which is not inherited from the endless years, has a profound heritage and is extremely powerful.

How can it be so easy to destroy?

It was destroyed overnight, and it was amazing.

"I don't know, nobody knows what's going on, but some people speculate..."

Speaking of which, Jiang Lebang stopped.

"Guess what?"

Lu Ming asked.

"Can't say, can't say, the brothers can understand it by themselves!"

Speaking, Jiang Lebang pointed his finger to the sky.

"Tian Gong!"

Two words appeared directly in Lu Ming's heart.

"Now, I learned through secret channels that the Tianyue Kingdom site is about to appear. Someone found the entrance of the Tianyue Kingdom site. If it is true, there are many treasures left in it. This is a chance!"

Jiang Lebang's eyes showed a hot glow.

A race comparable to the hordes of hordes, the treasures left behind are absolutely amazing.

"Okay, let me go together!"

Lu Ming nodded and agreed to the matter.

"Okay, we set off in half a month, not only us, but also three other forces, because the entrance was discovered by several of our forces!"

Jiang Lebang said.

Lu Ming nodded, then found a place to live, and half a month later, they set off to the entrance of the Tianyue Shenguo site.

Chapter 3714: Bleeding stone tower

The ruins of the Kingdom of Gods in Tianyue are in a special galaxy, which is shrouded in dense clouds.

This galaxy is called Yunwu Xinghe.

Lu Ming, Jiang Lebang, and Jiang Lebang brought a group of masters to appear outside the Yunwu Galaxy.

In addition to them, there are three other forces.

There are many people on each side, with hundreds of people.

"A lot of masters!"

Lu Ming sensed a little, and found that among the Quartet forces, it was the prospective emperor, and a large number of prospective emperors.

Most of the rest is the existence of Divine King Jiuzhong.

After entering the prosperous starry sky, it really wasn't too imaginary.

The Taixu dynasty is only a pseudo-universal force, not even a real cosmic force. It's too close to the prosperous starry sky.

Among the powerful races in the starry sky, the prospective emperor is just a cannon fodder, and the real **** emperor is a master.

However, Lu Ming did not sense the breath of the Divine Emperor.

Of course, it may be that the **** emperor is too strong, and Lu Ming can't sense it. After all, Jiang Lebang didn't say that the Tianyue God Kingdom site, the **** emperor can't enter, so Lu Ming didn't dare to carelessly.

"go in!"

Jiang Lebang spoke to the other three forces.

Then, the four forces converged and entered the Yunwu Galaxy, and some people took out a map and followed the map. After a long time, they found a huge stone gate suspended in the air.

The stone gate looks very old, full of traces of years, but it is not decaying.

"This is the place. This stone gate is the entrance to the Tianyue Kingdom Kingdom!"

There is a Chinese costume middle-aged.

"let's start!"

Jiang Lebang said.

Later, the Quartet sent some masters, these are masters of formation, around the stone gate, began to engrave rune of formation.

A rune did not enter the stone gate. Soon, a rune appeared on the stone gate, walking like a snake.

Buzz!

Suddenly, the Shimen shook slightly, and then emitted a dazzling brilliance. The Shimen slowly opened, revealing a dark passage.

"go!"

Immediately, a force rushed in.

"Brother Lu, go!"

Jiang Lebang yelled, and also led people, rushed in, Lu Ming followed.

The people of the four major forces disappeared into the channel in an instant.

Feeling a slight turn of the void, the next moment, Lu Ming found that he had appeared in a high altitude, and a strong gravitational force came to let his body fall.

His heart moved, his muscles twitched slightly, he stabilized his figure, suspended in midair.

With a quick glance, Jiang Lebang and others were all around, suspended in mid-air, and looked down.

Lu Ming also looked down.

Below, there are strange buildings.

These buildings have an oval shape with a sharp top, straight through the sky.

At a glance, and at a glance, they are all such buildings.

However, many buildings collapsed, some even broke, or were split in half...

On the vast earth, sword marks and knife marks can be clearly seen.

Obviously, it is not known how long ago there was a war.

"Tianyue Shenguo was destroyed overnight, it seems that they have experienced a fierce battle, but outsiders do not know it!"

Someone sighed.

However, some people have already rushed towards the building below, and others worry about being preempted by others, and have rushed down.

This area is very vast, and people from all major forces are scattered to find buildings and opportunities.

Lu Ming also rushed towards a building on the side and fell to the ground before it happened. These buildings are really huge. Each building is more than a kilometer high.

Lu Ming entered a building and found that on both sides of the building stood a statue, a total of eighteen.

But these statues are just ordinary statues, which seem to be of little value.

Lu Ming didn't stay, but went inside.

It was very chaotic and there were statues, but it had collapsed and it was a mess, obviously experiencing a fierce battle.

Lu Mingling swept away and found nothing valuable.

"There is something underneath!"

At this time, a sound sounded, but it was a ball.

The ball is not with the past body, but with the present body and come out together to take risks.

The ball flew out, a few pairs of claws emerged from the round body, and it was grabbed out. The rock under the ground was picked up by the ball, and then an iron rod was exposed.

To be precise, half of the iron bars and the other half have disappeared.

The ball jumped up in excitement, opened his mouth wide, and swallowed half of the iron bars in one bite.

"Is this baby?"

Lu Ming was curious.

"Baby, baby..."

The ball cried.

Lu Ming also showed joy, hoping to improve the ball.

During the period of the Dragon Mother Star, Lu Ming killed a large number of adversaries, and received numerous magic weapons. Most of these magic weapons entered the belly of the ball. The peak of the heavy is not far away from Shenjun Liuzhong.

There are not many people who can be called babies by the ball. After eating the ball, most of them can be cultivated for great advancement, and even evolved corresponding attacks.

After the ball was eaten, it was transformed into a bracelet, which was carried on Lu Ming's hand.

The ball-shaped bracelets are very popular, and a lot of catches on the street are not afraid that others will recognize him based on this.

Then I searched again, found nothing, and went on to other buildings.

Next, Lu Ming searched several buildings, but did not find much. The broken weapons found a few, but none of them were rated as precious by the ball. They can only be said to be average.

"Look up high!"

Lu Ming thought.

Because he found that some buildings, built on a peak in front, may be the center of this building, there will be big discoveries.

Lu Ming left the building and flew towards the peak.

Obviously, many people have the same idea as him. Nothing is found in these buildings, and they all flew towards the buildings on the peak.

However, the crowd stopped at the foot of the mountain.

At the foot of the mountain is a tall stone tower that stands there.

The stone tower looks very dilapidated, but there is a magnificent and tall breath, filled out.

Many people's eyes flickered and wondered whether there was treasure in this stone tower.

"Look, there is blood on the stone tower!"

Suddenly, someone called out.

Everyone took a closer look, and my heart was shocked.

Sure enough, there was blood on the stone tower, and like blood, the red was bright and even flowing slowly.

It was as if it had just been splashed.

And this blood also permeates the qi machine that permeates people.

"Does this crack under the stone tower?"

Some people speculate.

"Would you like to move the stone tower away?"

Someone suggested.

But other people looked at each other, this stone tower looks very strange, if you move away, in case something strange happens, wouldn't it be asking for trouble.

Chapter 3715: Sky Surveyor

Everyone is a little bit uncertain.

Wouldn't it be a pity not to move away or look in the stone tower in case of treasures?

But in case there is something weird, is it not dangerous?

But at this time, Lu Ming found something strange.

When he stared at the blood on the stone tower, the blood seemed to emit a dazzling red light, and then the red light diffused, and the world in Lu Ming's eyes turned into a blood red.

Then, the world suddenly changed.

The location is still this location, but the people have changed.

Jiang Lebang and others disappeared, and there were countless others.

"kill!"

Shouting to kill Zhentian, many strong men flew out of various buildings, rose into the sky, and killed towards the sky.

A violent roar came from the sky.

"Heartless people, all **** it!"

Indifferent voices came from above.

Lu Ming looked towards the sky and saw the clouds tumbling in the sky. Indistinctly, there were several huge figures.

Not a human race, blocked by clouds and fog, and unable to see the specific appearance clearly.

I can vaguely see that a head like a crocodile exists and the body is huge like a hill.

There is another, like a huge octopus, eight tentacles waving, with a flash of lightning.

The voice fell, and an attack fell on the sky.

The lightning is as thick as a mountain, and there are also axe mansions.

Suddenly, there were screams between heaven and earth.

The lightning in the sky, the axe in the sky fell, and those figures rising from the sky directly turned into fly ash in a terrifying attack, destroying all forms.

The blockbuster powerhouse was killed.

The scene is extremely tragic.

"Leihai destroys the world!"

In the sky, an indifferent voice came out, and there was infinite thunder and lightning, forming a sea of thunderstorms, which pressed down below.

The thunderstorm also contained a dreadful axe.

Leihai enveloped all the buildings, and countless figures exploded into ashes.

"What kind of strangers? Why do you want to add to your sins? The Heavenly Palace is tyrannical.

In a building on the peak, there was a voice of grief and indignation, and an old man appeared.

This old man looks very old, his hair is almost gone, and his face is covered with wrinkles.

On his face, there was a color of grief and indignation, a roar, and he rose into the sky, radiating a bright golden light all over his body.

"Go against Tiangong, kill without amnesty!"

Indifferent voices came from the clouds.

Then, Lu Ming saw the figure like a giant crocodile, brandished a battle axe, slashed down, and with a tremendous axe, slashed towards the old man.

boom!

The old man and the axe collided together, and a dazzling golden light erupted.

Then, the golden light collapsed, and the old man's body fell towards the ground, spitting out a bit of blood.

"Today, the kingdom of heaven and the sky will be destroyed!"

Indifferent, high voices spread across the world.

"Even if the old man is dead, he wants to bring you together!"

The old man shouted, covered in blood, and rose again, but this time, a stone tower appeared in his hand.

Lu Ming's eyes moved. This stone tower was exactly the same as the stone tower they had seen before.

boom!

Holding the stone tower, the old man burst into the clouds.

At this moment, the surrounding pictures changed again, all disappeared, and returned to the previous state.

Jiang Lebang and others are still around him.

"Brother Jiang, did you see anything strange just now?"

Lu Ming asked.

"No!"

Jiang Lebang shook his head and asked curiously: "Did Brother Lu find something strange?"

Lu Ming looked at the others and found that they were not abnormal at all, as if he had only seen the scene just now.

"I just stared at his blood, and suddenly found that the environment has changed..."

Immediately, Lu Ming said what he had just seen.

There is nothing to hide, so Lu Ming is very loud and many people have heard it.

Many people were shocked when they heard it.

"Did you see the projection of the war that year?"

"Is this really about Tiangong...?"

"Could it be the Sky Surveyor?"

Many people said solemnly.

"Sky Surveyor?"

Lu Ming was curious. He knew that the Tiangong had a sword of sky surveying, suppressing the heavens, and making it a treasure of the heavenly palace. It was terrifying and powerful. At that time, Yale Tianjun held the sword of sky surveying and broke the defense of Wanlongyin.

But Lu Ming, the Sky Surveyor, heard it for the first time.

However, Jiang Lebang and others seem to be very dreadful and did not say much.

"The so-called Sky Surveyor is nothing but the executioner of the Temple of Heaven!"

In the sea, the voice of the bone demon sounded.

"There are celestial soldiers on the surface of the celestial palace, which is responsible for suppressing the universe, maintaining the majesty of the celestial palace, but secretly, a group of sky surveyors have been trained. personal!"

"From time to time, I don't know how many forces or individuals have been secretly killed by the Sky Surveyor. Obviously, this is the same as the Kingdom of God, and it was destroyed by the Sky Surveyor!"

Bone Demon sneered.

"It turns out so!"

Lu Ming finally understood what he had seen before.

The giant crocodile, and the octopus-like creatures, are the sky surveyors.

The Tianyue Divine Kingdom, for unknown reasons, was regarded as dissident by the Tiangong and sent out sky surveyors, which destroyed the Tianyue Divine Kingdom overnight and caused the Tianyue Divine Kingdom to disappear from the universe.

"It seems that this stone tower is really extraordinary, and no skywalker will be suppressed below it!"

"Is the blood on the stone tower the Skywatcher?"

"Let's not move this stone tower anymore!"

After fearing for a while, everyone finally decided not to move the stone tower.

The crowd bypassed the stone tower and flew towards the peak.

Lu Ming is the same.

He was fast, and in a blink of an eye he reached the peak and entered a huge palace.

Lu Ming saw through the previous picture that this palace was the palace where the old man lived.

In the main hall, there were only some broken statues. Lu Ming skipped them directly and went towards the palace.

"this is..."

Deep in the palace, there is a room. There are some shelves in the room, and there are some jade symbols on the shelves.

Lu Ming picked up a piece of jade and saw that it was a secret technique.

"Are these jade symbols all secret techniques?"

Lu Ming's eyes lit up.

Here, there are at least hundreds of jade symbols, and Lu Ming waved them all away.

In addition to the jade symbol, Lu Ming also found a chain of bracelets.

The bracelet is made of stone beads connected in series, a total of twelve.

Starting with gentleness, like jade, but extremely heavy, Lu Ming grabbed in his hand, as if holding twelve mountains.

"baby!"

Lu Ming's eyes lit up, which was obviously extraordinary.

Uh, uh, uh!

At this moment, a dozen figures rushed in, but another master of the four forces, called Qianli Zong.

Qian Lizong's master, when he saw the bracelet in Lu Ming's hand, suddenly showed greed.

"Boy, hand over the bracelet in your hand? Also, what did you get just now? Hand it over!"

A middle-aged man carrying a war sword stared at Landing, his eyes fiery.

Chapter 3716: The stone tower moved

The middle-aged man with a sword of war, and dozens of others, all stared at him.

They not only need the bracelet in Lu Ming's hands, but also Lu Ming's storage ring.

There are many shelves here, only one bracelet? They don't believe it.

"The four forces entered this place, there are words first, first come first served, I come here first, and the things here are naturally mine!"

Lu Ming said.

"First-come-first-served? Haha, don't you know the truth that the master comes first?"

The middle-aged man with a sword of war sneered.

"The master must first know, so to speak, this treasure should belong to me even more!"

Lu Ming smiled faintly and put the bracelet into the storage ring.

"Boy, you are dead!"

The middle-aged man with the sword of war burst into his eyes with a cold murder.

In his view, Lu Ming was playing him.

Lu Ming means that Lu Ming is stronger?

He is a quasi-empire, a prince in Luming District is fourfold, stronger than him?

Isn't this what he is playing with?

"Boy, give you a chance you don't want to go to death, then you are all done!"

The middle-aged big man carrying the war sword drank coldly and pointed like a sword, screaming toward the landing.

A sword gas, extremely sharp, pierced Lu Ming.

The sword repair of Quasi-Imperial Realm, with a single blow, is very terrifying.

Gan Lizong's others showed a relaxed smile. In their view, Lu Ming was dead.

A prospective emperor wants to kill a prince who is a quartet. This person has only one result, that is, there is no way to die, and there will be no second result.

In an instant, Jian Qi killed Lu Ming.

The middle-aged man with the war sword carried a greasy smile on his face, as if to see Lu Ming's expression of regret, and then he was killed.

Unfortunately, he did not see any expressions of regret or panic from Lu Ming's face.

Compared with Lu Ming's expression, there was no slight change.

Calm and indifferent!

Just when Jian Qi was about to hit Lu Ming's eyebrows, Lu Ming stretched out **** and pointed at Jian Qi.

Poof!

Jian Qi was like a ray of useless airflow, which broke up directly without causing any harm to Lu Ming.

"This..."

The others, Li Qianzong, could not help but open his mouth, surprised.

Obviously, this scene is completely different from what they imagined.

"This kid, can block Brother Liu's blow? How is it possible?"

"It is estimated that it is good luck, and Brother Liu just now, just a random blow, it is estimated that not much power is used!"

"definitely!"

These people nodded again and again, as if to find a reason to persuade themselves.

Let them believe that a prince's fourfold can block a prospective emperor's blow, impossible!

They don't want to believe, otherwise, it means they are too wasteful?

However, the middle-aged man with the sword of war was not so relaxed. His face dimmed, and only he knew that he had used three points of strength just now.

The triple power of a prospective emperor, don't say that a prince is fourfold, even a prince is eightfold, already dead.

Divine monarchs must be treated with caution.

Lu Ming caught it lightly, which was not normal.

"Boy, you have some strength, but your ending today is already doomed!"

The middle-aged man carrying the war sword spoke indifferently, and pulled the war sword from behind.

Lu Ming blocked his blow and did not let him retreat, but inspired his stronger killing opportunity.

If he retreated today, how could he raise his head in front of his disciples?

Buzz!

The war sword shook, and a terrifying breath erupted.

"kill!"

The middle-aged Dahan Li sipped, holding the sword in both hands, his body burst out, and beheaded to the landing.

Jian Qi roared, covering Lu Ming's body.

"Do not die!"

Lu Ming shook his head.

He was already merciful, and he wanted to let the other party retreat, but the other party was about to die, then he could only complete the other party.

boom!

Lu Ming punched out directly.

The sky was violently shaken, and the space exploded directly, converging into a terrifying boxing power, like a mountain tsunami, rolling towards the middle-aged man.

bump!

The opponent's sword qi was directly broken.

The fist bombarded the middle-aged man's war sword. His war sword exploded like glass, and his fists kept on hitting the middle-aged man.

"Do not..."

The middle-aged man made a scream of horror and regret, and then his body fell to ashes under Lu Ming's fist.

"This this..."

The rest of Qian Lizong was completely stunned and demented!

A prince is quadruple, punching a prospective emperor with one punch!

How is this going?

Are they blinded, or are they dreaming?

If it is true, how is it possible?

"Shen Huang, this is a Shen Huang, deliberately playing pigs and eating tigers, come to pit them!"

In their hearts, an idea came up involuntarily.

"Go! Go!"

One of them shouted and retreated backward.

The rest also reacted and wanted to escape.

However, Lu Ming's eyes were cold.

Since he has already started, Lu Ming will not let these people go.

According to his experience, he has killed a middle-aged man and offended Gan Lizong. If these people are allowed to leave, Gan Lizong will not stop there. Instead, he will retaliate against him and send a stronger master.

This kind of thing, Lu Ming has experienced too much.

In order to reduce a potential enemy, these people must be eliminated.

These people are not good people. If Lu Ming's strength is not good, these people will kill him without hesitation.

"kill!"

A cold voice sounded, Lu Ming launched an attack.

With Lu Ming's current fighting power, they broke out with all their strength, and these people could not escape.

In less than a minute, more than a dozen masters of Lizong all fell, and Lu Ming quietly left here.

boom!

At this moment, a horror roar came, shaking and shaking.

Roar!

Then, a tyrannical roar came out, like a demon who had been suppressed for endless years.

"what happened?"

Lu Ming was startled and rose into the air, looking towards the distance.

The same is true of others, flying up to the sky and looking in the direction of the sound.

"It's that stone tower, **** it, someone moved that stone tower!"

Someone shouted.

Sure enough, there were more people on the side of the previous stone tower.

Thousands of people are afraid of being densely packed.

"Sky locust, Bingyue vine..."

Lu Ming's eyes moved, and among these people, he saw the figures of the locust tribe and the ice moon vine tribe.

The locust side that I met at the trade fair was always there every month.

Chapter 3717: War of gods

And that stone tower was moved away by a big man of the locust clan.

Under the original stone tower, shining glare.

Zizi...

Thunder and lightning burst out from under the stone tower.

Roar!

Another horrible roar came out, and the shaking world shook violently.

"Not good, a strong man was suppressed under the stone tower, let's go back!"

"fast!"

At this moment, the locust clan, the ice moon vine clan, as well as several other forces, all shouted in shock.

The big man of the locust tribe wanted to put the stone tower back, but it was too late.

The roar continued, and the thunder sky, from the place where the stone tower suppressed, just extended a few tentacles, like tentacles.

Each tentacle is huge and over 100 meters long.

Tentacles swept across, and a huge thunder burst out.

Many people were shrouded in thunder without even screaming, and their bodies turned to ashes directly.

In a flash, at least dozens of people were killed.

It is the same whether it is Divine Monarch Eightfold, Divine Monarch Nine Heavy, or Divine Emperor.

Spike!

"Rewind, rewind!"

The crowd retreated, the locust side, monthly, under the protection of many masters, quickly retreated.

The big locust clan who moved away from the stone tower quickly dropped the stone tower and retreated.

"Alien, kill!"

An indifferent and tyrannical roar came out, and then a huge octopus appeared!

This octopus floated in mid-air, eight tentacles waved, burst into a thunder, and rushed towards the crowd.

Some thunder, they also rushed towards the landing.

"Damn, why are the locust clan and the ice moon vine clan here?"

On Lu Ming's side, someone roared and fled.

"We can find the entrance to the Kingdom of Heaven and the Gods, others will naturally find it, go!"

The crowd fled and fled, avoiding the Thunder's attack.

But someone was hit by thunder and turned to ashes.

"Blood, I need blood!"

The octopus seemed to wake up like a dream, and finally saw the current situation. Instead, his eyes showed deep greed and longing, and rushed towards the crowds of the sky locusts and the ice moon vines.

The speed is very fast, and in a flash, they caught up with them.

"Sinister, look for death!"

A roar came from the crowd of locust tribes, and then an old locust tribe rose into the sky, and a rune appeared all over his body.

These runes broke apart, and a breath of terror burst out.

"Shen Huang, this must be the breath of Shen Huang!"

Lu Ming's eyes flashed.

Celestial Clan, the strong man of God Emperor Realm came in, but just covered his breath with runes.

These **** emperors seem to be afraid of anything, so they can seal their cultivation practices by the method of sealing.

This is true for the locust clan, and it is likely that other forces will do the same!

Uh!

The **** emperor of the locust clan turned into a prototype, a huge locust, rushing towards the octopus.

The claws of the locust clan, like a magic knife, cut towards the octopus and collided with the thunder attacked by the octopus. In this area, a big explosion occurred, destroying the world.

After a few strokes, the strong man of the locust race retreated.

However, he was blocked.

"You, don't do it at this time, but when will you wait? This octopus has been suppressed for many years, and there is not much strength left. We will kill him together, otherwise, we will be destroyed by him and we will all die!"

The **** emperor of the locust clan roared.

"kill!"

The octopus screamed, the eight tentacles were huge, and they continued to extend, sweeping all directions.

The suction cup above the octopus' tentacles bursts out with amazing appeal.

Many people were sucked by the suction cup in exclamation, and then the whole person disappeared into the suction cup, and the bones were gone.

"Shoot!"

"Together to kill this octopus!"

Several roars.

In the direction of the Ice Moon Vine family, a figure rushed out, and there were many runes filled with this person. This is also a seal rune, which seals his own breath.

boom!

The seal rune collapsed, and a breath of God Emperor Realm broke out completely.

At the same time, several other forces, such as Qianli Zong, Jiang Lebang's forces, etc., all have the presence of Divine Emperor Realm, breaking the seal and exuding the atmosphere of Divine Emperor Realm.

A total of seven **** emperors killed the octopus.

Boom...

A brilliant divine light erupted, a wave of energy swept across half of the sky, and a terrible explosion exploded.

The war in the Divine Emperor Realm was terrifying. Others did not dare to come close and left far away.

Lu Ming was extremely fast, with a few flashes, he opened the distance far away.

"Is this God Emperor? I am not an opponent!"

Lu Ming's face was solemn.

Although he can easily kill the existence of Quasi-Emperor Realm, the difference between Quasi-Emperor and Divine Emperor is too far. Even though he is powerful, he is still not an opponent of Divine Emperor, even the lowest level Emperor.

In this battle, the non-divine emperor can not participate, and under the emperor, all have left far away.

Lu Ming also flew quickly towards the distance and left here.

This building complex was almost under his investigation anyway. Lu Ming obtained some secret techniques, as well as a series of bracelets of unknown efficacy, worth it.

After a moment, Lu Ming had left the building complex far away, where Lu Ming could not feel the fluctuations of the war.

Lu Ming continued to fly forward, and soon, he came to a virgin forest.

The forest is very dense and the trees are old.

Standing at high altitude, Lu Ming watched from a distance, and found a shadow of a huge building in the forest.

If you have architecture, you may have a chance.

Lu Ming flew carefully towards the forest.

Along the way, there is nothing strange. This forest has only flourishing plants and no animals.

Soon, Lu Ming came to the forest center.

There are indeed a lot of buildings here, but they all collapsed, and many buildings were completely unshaped. It was clearly after a fierce battle that broke apart.

"That is..."

Suddenly, Lu Ming's eyes narrowed, and he saw a huge bone.

The flesh and blood have decayed, leaving only a skeleton, the bones are crystal clear, more exquisite than the finest jade.

It is not clear what race this is, some are like tigers, some are like lions, but there is a single horn on its head, straight to the sky, very sharp, even sharper than the Excalibur.

But what attracted Lu Ming's attention was every joint.

In every joint of this skeleton, there are actually white beads like jade.

Bone beads!

Lu Ming's eyes lit up.

This is a special race. Under special conditions, bones will condense in the body after the fall, and gather a lot of life essences of this creature during his lifetime. It is the top treasure in the universe.

Unexpectedly, this creature actually formed bone beads.

Even if they are separated by a distance, Lu Ming can feel the vast life energy inside the bone beads.

Although Lu Ming has a lot of magic drugs on his body, it is enough in a short time, but this treasure is naturally more beneficial.

As Lu Mingxiu improves, his energy consumption will become more and more amazing. The magic drugs on hand are simply not enough.

Chapter 3718: Black shadow

Lu Ming did not immediately collect the bone beads, but sent out the consciousness to explore the sights around Fangyuan.

Spiritual consciousness emanates from the soul, and now Lu Ming's soul is scattered among the cells of the whole body, so his spiritual consciousness also emanates from the cells of the whole body.

Very calm, without any abnormalities, or with any creatures, Lu Ming didn't feel any dangerous qi.

Lu Ming lowered his heart and moved towards the bone.

When Lu Ming approached the bone, the warning sign burst, and every cell in his body trembles slightly.

"Dangerous, retreat!"

Lu Ming's body collapsed.

At that moment, the shadow cast by the bones suddenly moved.

A shadow stretched out like a javelin, striking Lu Ming at an alarming speed.

"Block it!"

Lu Ming banged out with a punch, but the shadow was not only surprisingly fast, but also unpredictable. When approaching Lu Ming's fist, a twist, bypassing Lu Ming's fist, pierced Lu Ming's chest.

"not good!"

Lu Ming screamed badly, and in an instant, his body radiated dazzling light.

This is his defensive secret technique integrated into the cell. More than fifty defensive secret techniques all burst out.

However, these defensive mysteries are actually difficult to block the "shadow" attacks and are directly penetrated.

With a snap, a blood hole appeared in Lu Ming's chest. Lu Ming's body flew out and broke several large trees over ten meters in diameter.

"Good attack power, also includes soul attack..."

Lu Ming felt a hot chest pain, and his face was dignified.

The shadow attack just now, his secret technique, has little effect. The reason is that the other party contains a powerful soul attack. Straight through his secret defense.

His chest was completely pierced, and a blood hole appeared, as did his heart.

However, although Lu Ming's body structure is similar to that of ordinary people, he is no longer critical.

There is no difference between the major organs, the head, and the ordinary muscles of the hands and feet.

Potential erupted in the cell, and his wound was recovering quickly.

As for the soul attack, his soul has been dispersed into every cell. The soul in the cell was really hit where it was just attacked.

But the soul is scattered into sixty trillion parts. These attacks are harmless.

The power of the soul in other cells is constantly replenishing the place where it was attacked, and the souls of the place being attacked are also recovering quickly.

In an instant, Lu Ming's wound healed.

"What attack is this? Or what kind of creature?"

Lu Ming's eyes fixed on the shadow under the bone.

Before, Lu Ming thought it was the shadow cast by the bones. Now it seems that it is not that simple.

In other words, there are strange creatures hidden under the shadow of the bones.

Lu Ming looked at it carefully, but he was still unwilling to leave.

The life energy of that kind of bone beads is too abundant, the value is definitely above the emperor-level magic medicine, and it is extremely rare.

"Get it as fast as possible!"

Lu Ming showed a decisive color, and then his body shook and burst out, rushing towards the bone.

The moment he threw himself into the cell, all the speed-like secrets burst out.

This made Lu Ming's speed soar, like a flash of lightning, rushing towards the bones.

However, just as Lu Ming approached the bone, the shadow below swiftly wriggled, and then there were five or six black shadows at once, stabbing towards the landing Ming.

Each one is like a javelin, but the speed is astonishingly fast.

flash!

With a move in Lu Ming's heart, his body changed position rapidly to avoid the attacks of these shadow javelins.

However, the group of shadows suddenly and rapidly expanded along the ground, suddenly enlarged, covering a radius of a hundred miles, and from all directions, numerous javelins appeared and assassinated Lu Ming.

"not good..."

Lu Ming's face changed greatly.

He knew that he underestimated the enemy and underestimated the shadow. The power of the shadow was beyond his imagination.

In all directions, at least hundreds of shadow javelins were assassinated towards him, covering every direction.

Even if Lu Ming wants to dodge, it is difficult to avoid.

Can only break open!

"broken!"

Lu Ming shouted, radiating a brilliant light like a sun.

His double fists kept blasting out, bursts of punches bursting out in one direction.

At the same time, there are many mysteries of attacking type, all of them blasted out.

The magic law of the dragon, the long roar of Kowloon...

Ice chains, nine chains like a long snake flurry...

Nine Qi sword tactics, sword tactics...

All kinds of attacks, attacking the shadow javelins together, this space was exploded and violently roared.

Under the incomparable power, the soul attack of the Shadow Javelin was somewhat affected, some were distorted, and some were slower.

But it is still difficult to stop them all. These shadow attacks are still tenacious.

Puff puff...

With blood splashing, Lu Ming immediately had more than a dozen wounds on his body, terrifying.

Lu Ming's operation was fully recovered, and then he stepped up and rose into the sky.

But it was too late. At that moment, the shadow was like a ball, completely enclosing a hundred miles of space.

Swish swish...

There was also a shadow javelin above his head, assassinating Xiang Luming.

Lu Ming resisted with all his strength, but was still hit, and there were more wounds on his body.

"If you can't go on like this, you must rush out, or even if I am a taboo body, I will be killed by this monster!"

Lu Ming's thoughts changed sharply.

Although he recovered very quickly, he could recover even with serious injuries.

But it takes time and energy.

Although he had stored a lot of energy before, he felt about 50%, but under severe injuries, the energy consumption was extremely amazing.

At this moment, he felt that his whole body of energy was being consumed quickly.

Therefore, he cannot be trapped here and has to rush out.

"Rush!"

Lu Ming gritted his teeth and stared in one direction, with a rapid impact, while his fists were constantly blasting out, and various secret techniques were constantly blasting out, while his body kept on, his head rushed straight.

The consequence of this is that he is constantly being hit, and there are more and more wounds on his body.

He was all red with blood.

But regardless of his disregard, he continued to shock.

He is not an ordinary person, ordinary people suffer such serious injuries, their combat power will be greatly reduced, and it will be very dangerous.

But he won't. As long as he can rush out, he can recover from serious injuries.

Finally, Lu Ming rushed to the border enveloped by the black shadow, and in front of him, was blocked by a black shadow light curtain.

boom!

Lu Ming punched continuously, several punches struck the shadow light curtain, but the shadow light curtain didn't move at all.

Chapter 3719: God of War

The violent attack fell on the shadow light curtain, which was motionless.

no effect!

Lu Ming looked pale.

His attack could not break the shadow light curtain.

At this time, the shadow light curtain counterattacked with all strength.

From the light curtain, a javelin appeared, slamming towards the landing.

On Lu Ming's body, a wound immediately appeared, translucent before and after.

Lu Ming coughed up blood, but his eyes were still firm and he didn't lose hope.

"Forbidden Power!"

Lu Ming sipped.

The cells on his body quivered quickly, and a ray of forbidden power spread out.

This time, the power of taboo did not hide in the body, but emerged.

A layer of transparent power covered Lu Ming's fist.

Boom~!

Lu Ming blasted out again, hitting on the shadow light curtain.

An astonishing scene appeared. Lu Ming punched the shadow light curtain directly with a punch. A screaming scream came from the shadow light curtain, and then wriggled sharply.

Boom!

Lu Ming blasted again several times in a row, the screaming sounded again, the shadow light curtain wriggled even more, and then quickly contracted to surround Lu Ming, which was naturally broken.

"Unexpectedly, the power of taboo floats outside the body, can restrain this shadow, go!"

Lu Ming turned his thoughts, not daring to stay in the slightest, rushing forward.

Instantly rushed a few hundred miles away, and then looked back, his eyes narrowed involuntarily.

The shadow shrank and turned into a dark creature.

This creature, like a tiger but not a tiger, has a single horn on its head, which is very similar to the figure of the bone.

"Aren't these shadows evolved after the death of the boneless creature?"

Lu Ming turned his thoughts, and then ran forward.

The unicorn shadow beast just watched the landing cry coldly, but did not pursue it. After a while, its body slowly faded back into the shadow of the bone.

Lu Ming continued to run, while running, his injury recovered while recovering very quickly.

Within a few minutes, the wound on his body disappeared, and the inner wound recovered quickly.

"Strength has been strengthened a little bit, and it is not far away from Divine King!"

Lu Ming's eyes are bright.

He found that with his recovery of his injury, his cultivation practice was also rapidly improving, and was close to the four peaks of Divine Monarch.

This is because, after a fierce battle, he was injured and the cells repaired themselves, releasing the potential inside.

"The more I am beaten, the stronger I am!"

"Will I become a **** after that?"

Lu Ming thought silently.

This taboo training method is really...wonderful!

Of course, he just finds a person, standing there and letting the other party attack, it certainly has little effect.

Only when the real fierce battles and life-and-death battles are matched can the potential be truly inspired.

When Lu Ming rushed out of the forest, his injuries were basically healed.

"It's that kid!"

"Stop him!"

At this moment, a stimulus sounded.

In front, a group of people hurried to the landing Ming.

The first one is actually the locust side.

These people are from the locust family.

At least there were more than twenty strong men who rushed towards the landing, all of them were prospective emperors.

"It's unlucky!"

Lu Ming was a little speechless, and as soon as he rushed out of the forest, he met the locusts.

Locust's face was gloomy, and he stared fiercely at the land.

"Locust side, I spared your life at first, if you don't know how to advance and retreat, you will be at your own risk!"

Lu Ming said coldly.

"At your own risk? You dared to threaten me with your miscellaneous pieces, what are you? A bug-like thing, kill me!"

The locust roared, and his face was twisted.

Lu Ming should have dared to mention the matter in front of him. This was simply poking his pain and driving him crazy.

"kill!"

Twenty prospective emperors turned into locusts, and their claws were like knives, killing Lu Ming.

"court death!"

Lu Ming's eyes were cold, killing like a sword.

He bypassed the locust side once before to avoid offending the locust family and being entangled by the locust family.

Originally, he thought that the vast wilderness universe was so large that he would not have any intersection with the locust side, and the celestial locust family would naturally not kill him because he had flattened the locust side.

But unexpectedly, in the site of Tianyue Shenguo, the locust side will be encountered, and the locust side will kill him, Lu Ming decided not to keep his hand.

咻咻咻...

Lu Ming's palm is like a knife, and the attacking mystery in his palm is also urged, making Lu Ming's palm extremely sharp.

The palm was cut out and the void was split. The two emperors of the locust clan were killed without even screaming.

Now, Lu Ming has integrated more secret techniques, and cultivated to reach the pinnacle of the fourfold of the Divine Monarch, with stronger fighting power, beating the general quasi-empire, such as killing the chicken.

After killing two quasi-queen queens of the locust family, Lu Ming turned around, his palms swept, and a dazzling blade of light burst out of his palms.

The three emperors of the locust clan were cut off in half, and the destructive force exploded from their bodies and destroyed their souls.

As soon as they fought, five prospective emperors were killed, completely unbearable.

Other prospective emperors, seeing the coldness and paleness of their faces, dare to go there and fled quickly.

However, since Lu Ming has shot and killed the master of the locust clan, he will not keep his hand, it is best to leave all these people.

"kill!"

Lu Ming Chang Xiao, chasing and killing the emperor of the locust family.

"Dirty animal, dare!"

An angry sigh, a terrifying breath, squeezed towards the landing.

boom!

Lu Ming felt hit by a planet, his body trembles, and he could not help backing up again and again.

Emperor!

Lu Ming's face was very dignified.

Next to the locust side, an old man stepped out, a terrible breath came out of him, like a sea like an abyss, unfathomable.

"Kill, kill this shit!"

Locust Fang Li drank.

boom!

The old man's breath was even more terrifying, he stepped out and rushed towards the landing at an alarming speed.

"Mistaken!"

Lu Ming frowned.

Before, the locust clan had a **** emperor to fight against the eight-clawed octopus creature. Lu Ming had seen it, not this person.

Therefore, Lu Ming was careless just now and did not retreat immediately.

Obviously, there are more than one **** emperor coming in.

"Retreat!"

Lu Ming did not hesitate, his body retreated, and rushed towards the forest.

"You still want to go in the hands of the old man, the young people are whimsical!"

The old man sneered, stepped out, stepped out a large dry hand, and scratched down.

Rumble!

The sky and earth were violently shaking. In the high altitude, there were nine swords, hanging upside down in the void, and slamming toward the landing.

"Give me!"

Lu Ming shouted, all the power broke out, and the five-fold combat power of the war character tactics was also urged to the extreme.

Chapter 3720: Seriously injured

Lu Ming used all of his strength, and the warfare tactics drove five times the fighting power, and he continuously blasted dozens of moves.

Dangdang...

Lu Ming's attack, bombarding a knife in front of him, was like bombarding a metal warrior with a loud noise.

Click!

Then, there was a crack on the knife awn, and the crack was dense and dense. With Lu Ming's last blow, the knife awn broke apart.

Lu Ming's figure burst away.

"This kid..."

The old man of God Emperor Realm shrank his pupils, revealing incredible colors.

He never imagined that a prince was only fourfold, and he could actually break a blade of his sword, which made his eyes struck with a murderous chance.

He was awe-inspiring, and he was actually beaten by a quartet of four people, what is his face?

"kill!"

The old man of the Divine Emperor Realm, with a cold drink, moved the true form, and pressed the palm of his hand, and the remaining eight swords radiated a dazzling brilliance, and the power was greatly increased.

Lu Ming's speed is extremely fast. In such a moment, he has traveled thousands of miles away, but the old man of God Emperor Realm is faster. The knife is cut off, covering tens of thousands of miles, and Lu Ming is enveloped in it. Can escape.

"broken!"

Lu Ming shouted and bombarded with all his strength, trying to break the slash that slashed at him.

Boom...

A violent roar erupted, the energy was overflowing, the forest was lifted, and the ancient wood continued to burst.

In the end, Lu Ming blocked a knife, but this time the power of the knife was stronger than before. Although Lu Ming blocked it, he also suffered.

There was a blood stain on his body, all of which was chopped out by Daoman's strength, and blood was flowing.

His hand bones are all cracked, and his bones are clearly visible.

However, Lu Ming only blocked a knife, just above his head, there were seven.

"Shen Emperor, really powerful!"

Lu Ming's face was solemn.

It's definitely not going to be tough, he's still far away.

Lu Ming urged all the secret techniques of the body type and the speed type to make his speed to the extreme.

Uh, uh, uh!

His figure flashed rapidly, as if all over the mountains and all the figures.

In the end, several blades fell into the ground and were cut on the ground. The ground directly cracked hundreds of thousands of miles of cracks and penetrated deep into the ground.

However, there are still a few blades that are not blocked.

How Ren Luming avoided it seemed to be locked on him.

In the end, Lu Ming was hit, and his body flew out like a shell, hitting a large tree.

Pain, hot pain!

Lu Ming's body was almost split in half.

It can be said that it has been split into two halves, no, it is three halves, because he was cut by two blades and his body was completely split, leaving only a few muscles to connect the body together.

In all the cells of the body, energy constantly emerges, and Lu Ming's body recovers quickly. Those muscles and crazy creeps, such as small snakes, connect the separate bodies together.

With just a few breaths, Lu Ming's body continued, and he ran violently, rushing towards the depths of the forest.

In the face of a **** emperor, he is not an opponent at all, and I am afraid that it is difficult to escape even.

If you want to get out, you must use external force.

Lu Ming thought of that white bone, that shadow-like creature.

"This... what kind of evil is this?"

Seeing this scene, the locust tribe's heart was beating hard a few times, and it was unbelievable.

Lu Ming was continuously hit by a **** emperor, and his body was split, severely wounded like that, and replaced with other people, the dead can no longer die.

But Lu Ming was okay, the resilience was terrifying, and the strong was not ridiculous.

A few breaths, such a serious injury, actually recovered a lot.

Even the old man of God Emperor Realm throbbed his heart a few times, revealing an incredible look in his eyes.

"chase!"

The old man of God Emperor Realm sipped coldly, stepped out, and chased madly towards the landing.

"Chasing together, don't let him run away!"

The locust side roared, and took the master of the locust clan to chase down to Ming Ming.

Lu Ming exploded his speed to the extreme and rushed toward the bone with all his strength.

While rushing, it is necessary to avoid the attacks of the elders of God Emperor Realm.

On the way, Lu Ming was hit several times and was hit hard.

Fortunately, Lu Ming was a taboo body and barely survived.

"Arrived!"

Lu Ming's eyes lit up, and he finally saw the bone.

He rushed towards the bone without hesitation.

"That's... bone beads?"

The old man of God Emperor Realm, his eyes lit up.

Without hesitation, he rushed towards the bone, and waved his hand at the same time.

Just then, under the bones, the shadow wriggled violently, and a dozen shadow javelins burst out.

Most of them stabbed the **** emperor realm, and only a few attacked Lu Ming.

This is because the threat erupted by the elders of God Emperor Realm is much stronger than Lu Ming.

Boom!

The shadow javelin hit the knife mandrel, immediately broke the knife mandrel, and kept piercing towards the old man of God Emperor Realm.

The old man of God Emperor's Realm changed his face, his palms were fiercely hacked, his blades were broken, and a terrible attack erupted, blocking the shadow javelin.

Lu Ming, covering the power of taboo on his fist, also blocked the shadow javelin.

Roar!

In the shadow beneath the bones, roar came, and then the group of shadows wriggled sharply, covering a hundred miles.

Swish swish...

In all directions, at least hundreds of shadow javelins pierced Lu Ming and the **** emperor realm.

Of course, most of them are stabbing at the **** emperor realm.

The old man of God Emperor Realm angered and resisted with all his strength.

This shadow javelin contains a soul attack, and even he has to be cautious.

Lu Ming, struggling forward, opened the way with taboo power, rushed to the shadow light curtain, punched the shadow light curtain with a punch, and flashed out of the light curtain, then ran out of the light curtain.

"Damn!"

The old man of God Realm roared, struggling to impact, blocked the attack of shadow javelins, and rushed to the direction of landing Ming escape.

But when he rushed to where Lu Ming was just now, the shadow light curtain had healed again.

boom!

The old man of God Emperor Realm was slashed on the shadow light curtain. The violent shaking of the shadow light curtain was not immediately broken.

"Broken..."

The elders of the God Emperor Realm shouted, the divine power rushed into the night, and the vast sword light penetrated the world and cut across all directions.

Eventually, under the general offensive of the stormy old man of the God Realm, the shadow light curtain contracted and turned into a dark body with a horned creature on his head.

At first glance, this creature knew that it was not an entity, and its body was slightly twisted.

The old man of God Emperor Realm glanced around, and no longer saw Lu Ming's figure.

"Damn!"

The old man of God Emperor Realm angered, his face pale.

In the series of battles just now, although he broke the shadow light curtain, he also suffered some injuries himself, and his soul was injured.
