

D Emperor 3721

Chapter 3721: Refining bracelet

The old locust **** emperor realm complexion is very ugly, this time, it is really a big loss.

Instead of killing Lu Ming, his soul was injured.

The soul is hurt, but it is very troublesome.

Roar!

The dark one-horned creature roared and rushed towards the old man of God Emperor Realm.

"Dirty beast!"

The old man of God Emperor Realm screamed angrily, Daomang rushed to the night, and fought with it.

But at this time, the locust side with people finally arrived.

"What about that shit?"

The locust did not see Lu Ming's figure, he roared, then turned his eyes and saw the white bone and bone beads.

"That's a bone bead? What a rich life energy is mine!"

The locust side showed greed and rushed towards the bone.

"Don't come, back away!"

The old man in the celestial ***** emperor realm exclaimed, but it was too late.

Swish swish...

On the ground, a shadow javelin went towards the assassination of the locust clan.

Puff puff...

In an instant, more than a dozen masters of the locust clan were penetrated, the soul was annihilated and fell on the spot.

If the locust side was not desperately protected, it would have died.

"Retreat, retreat!"

The locust side shouted in fright and backed wildly.

The same is true of other locust tribes.

At the same time, the elders of God Emperor Realm exploded desperately and attacked madly to stop the attack of the unicorn creatures. This allowed the locusts and others to escape their lives.

The old man of God Emperor Realm and the one-horned creature fought dozens of moves. The old man of God Realm actually fell in the wind. His soul was injured, his face was pale, an accident, he was hit by a shadow javelin, and a body appeared Blood hole.

The old man of Divine Emperor Realm roared, killed the encirclement, and retreated unwillingly.

The one-horned creature glanced coldly at the locusts and others without cold pursuit.

"What about that shit?"

Locust asked.

He refers to Lu Ming.

"I was entangled by the shadow creature before, and the little animal escaped by chance. Don't be touched by me again, I will kill him!"

The old man of God Emperor Realm drank coldly, his eyes cold.

"Good luck!"

Locust said something unwilling, and then turned his eyes, and then said: "Those bone beads, can't give up, I have heard the news, wait for other masters to arrive, and hunt the shadow creature together!"

This time, there were more than one **** emperor who came here.

The locusts came out of the forest and waited.

Lu Ming has already found a secret place, and cultivation has recovered.

Before him, he was first injured by the shadow creature, and then by the old man of the God Emperor Realm. This kind of injury was replaced by other people. He died at least ten times, but he resisted hard.

The musculoskeletal body of his body wriggled and recovered at an alarming speed.

The split body has been together for a long time, and it will be completely repaired in a short time, and no scars can be seen.

The potential in each cell is stimulated. Lu Ming's body is filled with surging energy. These energies are absorbed by the power of taboo and become stronger after taboo.

Every cell is becoming tougher and stronger.

The convergence of these cells also makes Lu Ming's body stronger.

boom!

After Lu Ming's breath reached a critical point, he suddenly rose and rushed to another height.

Breakthrough!

Lu Ming's cultivation practice, and then make a breakthrough, reached the realm of the five princes.

It only took a long time for Lu Ming's cultivation practice to change from the triple equivalent of Divine Monarch to a level equivalent to that of Divine Monarch.

This speed is simply incredible.

Of course, this was also obtained from Lu Ming's several injuries.

"However, the energy consumption is also amazing, with only a dozen percent left!"

Lu Ming felt the energy in his body and sighed.

Before, it was equivalent to 50%, but this was obtained by refining two emperor-level magical medicines, which consumed 30% at once.

Emperor-level magic medicine, even god-level characters are of great use, and the medicinal power is extremely strong, but Lu Ming consumes more than one medicine, and Lu Ming has only broken through a heavy cultivation.

It can be seen how huge Lu Ming's energy is.

The energy consumed by practicing the eleven kinds of divine power before is even greater.

However, the harvest is also huge. One breakthrough, Lu Ming's combat power will be explosively improved.

After a moment, Lu Ming's breath stabilized.

"With my current combat strength, dealing with the Divine Emperor, even the weakest Emperor, is not enough, very reluctant!"

Lu Ming pondered.

The old man of the Divine Emperor Realm was estimated to be the Emperor Emperor's first practice, but the combat power was already terrifying. If Lu Ming's vitality was really tenacious, it would be difficult to get away from the other party.

Even if he breaks through now, he is not the opponent.

"That chain of bracelets, I don't know what it does, try it, if it can enhance some combat power, it's not bad!"

Lu Ming thought of the bracelet he had obtained before, and when his thoughts moved, that hand appeared in his hand.

Very heavy, Lu Ming holds in his hands, like holding twelve mountains.

"See if you can refine it!"

With a move in Lu Ming's heart, the power of taboo slowly poured into the bracelet. As soon as he poured into the bracelet, he suffered a strong resistance.

This is the spiritual will left by the former owner of this bracelet.

But this spiritual will, the power of taboos, was wiped out like a desolation.

"The power of taboo is really easy to use!"

Lu Ming smiled.

This bracelet has been preserved for so long, it is also very spiritual and absolutely extraordinary.

The former master must have been a very powerful being. The spiritual will left behind by this kind of existence is definitely not weak. If it uses ordinary divine power, it is difficult to destroy.

Even if it can, it will take a long time.

But now, just for a while, the spiritual will in the bracelet is wiped out.

Then, Lu Ming left a mark in it with taboo power, and then dripped a drop of blood on the bracelet, so that this bracelet was completely controlled by Lu Ming.

"Try it!"

Lu Ming urged the power of taboo into the bracelet.

Buzz!

The bracelet trembled slightly, emitting a dazzling brilliance, and then one of the stone beads flew out and grew dramatically.

Subsequently, a force of terror emanated from the stone beads.

Boom!

Underneath, the ancient wood exploded, many stones also exploded, and the ground had been sinking.

After a while, a pit with a radius of 100 meters and a depth of 100 meters appeared on the ground.

"Gravity, so strong gravity!"

Lu Ming discovered that the power emitted from the stone beads was gravity.

The extremely powerful gravity directly presses the ground down.

"carry on!"

Lu Ming continued to urge the taboo force, and then another stone bead flew out.

boom!

The ground is constantly exploding and sinking. The gravity is ten times stronger than before.

Chapter 3722: Two strong fight

Lu Ming was overjoyed.

He found that when two stone beads urged together, the gravity increased dramatically, which was ten times stronger than when one stone ball was used.

In this way, the power was very terrifying. Lu Ming estimated that even the prospective emperor could not bear it, and he would die as soon as he was pressed.

Even the existence of God Emperor Yi, I am afraid it will be greatly affected.

"Two stone beads have such a strong power, how about three, four, five, twelve?"

Lu Ming's eyes became brighter and brighter, and he planned to give it a try.

He continued to urge the power of taboo and poured into Shizhu, but this time, Shizhu did not respond at all.

"Boy, your cultivation base is too weak to mobilize more stone beads. Your limit is two. If you want to mobilize more, you need to improve your strength!"

Bone Demon reminded.

Lu Ming sighed. Sure enough, the situation of being invincible with one treasure does not exist, because the treasure also needs to be urged to repair, everything depends on his own strength.

However, Lu Ming is already satisfied with being able to urge two stone beads. Together, he can also make his strength skyrocket.

"Let's take a look first. What happened to the locusts?"

Lu Ming thought.

The locusts and the shadow creature are fighting, Lu Ming is very curious, whoever wins and loses.

Maybe it will hurt both sides, then Lu Ming doesn't mind sneak attack!

Lu Ming condensed his breath and went towards the direction of the bone.

Silently, Lu Ming came not far from the bone, looking for a hidden place to hide, and then looked towards the distance.

"Huh? It seems that the people of the locust family are defeated!"

When Lu Ming looked at it, he let out a whisper.

In front, the bone was lying there, the bone beads were still there, and they were not taken away.

There are still many locust corpses around, each of which is several meters long. Obviously people of the locust tribe fell here.

Obviously, the locusts were defeated.

"Unfortunately, I didn't encounter the scene of losing both sides, but these bone beads should not be missed!"

Lu Ming's eyes flashed, and he still wanted to pay attention to those bone beads.

His taboo power was able to restrain the shadow creature, and now he added the power of stone beads to plan well, and may not be able to take those bone beads into his hands.

Lu Ming thought about it and wanted to find a way to get those bone beads. Suddenly, he moved his heart and looked away.

He felt that there were a lot of masters approaching there.

"Here are the locusts?"

Lu Ming's heart moved, and then condensed his breath to the extreme, like a stone, lurking there, looking far away.

Sure enough, soon after, a group of people appeared, it was the people of the locust family.

The head is the locust side.

"Don't be close to others, those above the God Realm, destroy the shadow creature!"

The locust side ordered.

When the locust's voice fell, there were two figures, like lightning, rushing towards the bone.

Wow~!

With a big wave of their hands, the divine power condensed a claw and grabbed it towards the bone beads.

The two of them, one is the old emperor of the former emperor realm, and the other is the emperor who had battled with the eight-claw octopus.

The two **** emperors shot together with great power.

Roar!

With a roar of anger, the shadow under the bones wriggled, forming a shadow javelin and assassinating the two emperor gods.

A series of roars, the offensive of the two emperors, was blocked.

Then, the shadow creatures wriggled sharply, covering all areas of a hundred miles, and the two sides fought.

Shadow creatures, it is difficult to match the existence of the two Divine Emperor Realms. Soon after, the area shrouded by the shadow was broken, the shadow crept and turned into the original form, and a creature with a first-horned horn appeared.

Roar!

The creature roared, blasted into the sky, and the unicorn burst out a sharp blade, killing the two **** emperors, and it also killed two **** emperors.

"kill!"

The two **** emperors also shot, and the two sides fought.

The two **** emperors joined forces, and the shadow creatures were invincible, and they were crushed.

However, the soul attack of the shadow creature was extremely terrifying. The two emperors of the locust clan did not dare to have the slightest care. They took a stable play and slowly oppressed the shadow creature. Only to a certain extent, they took a fatal blow. .

In a blink of an eye, the two sides confronted dozens of rounds.

Shadow creatures, completely downwind, retreating again and again.

Seeing that the bone is out of its guardianship.

Roar!

Suddenly, the shadow creature roared and rushed towards the old man of God Realm, completely disregarding his own defense.

"court death!"

The old man of God Emperor Realm did not panic and rejoice, broke out with all his strength, and cut out the Xeon.

boom!

This knife was directly cut on the body of the shadow creature. The power of terror exploded in an instant. The body of the shadow creature was directly split into two halves and then burst apart.

However, before waiting for the Elder Emperor Realm to be happy, the single horn above the shadow creature's head shot out and pierced the Chest Emperor Realm old man's chest.

This blow is fast, very fast!

As soon as the old man failed to respond, he was directly hit by the unicorn and penetrated his body.

The old man of God Emperor Realm roared, his body retreated, his body had been penetrated, blood was dripping, especially his soul, which was hit hard and his face pale.

"Damn beast..."

The old man of God Emperor's Realm roared. Unexpectedly, the shadow creature would take both defeats and give him a heavy blow.

But at the next moment, his face was even more ugly.

The shadow creature was smashed apart by him, but at this moment, it actually reunited and appeared again.

That knife did not kill the shadow creature.

However, it can be seen that the shadow creatures are also uncomfortable, and the breath is weakened a lot, which also shows that the knife is not harmless to it.

Roar!

Shadow creatures roared like a phantom, rushing towards the **** emperor realm.

The damage of the Elder Emperor Realm is heavier than it. It wants to take the opportunity to kill the Elder Emperor Realm.

But obviously impossible, there is another **** emperor of the locust family.

"court death!"

Another emperor shouted, blocking the attack of shadow creatures.

"Beast, you are dead!"

The old man of God Emperor Realm also roared, struggling to spare, and killed the shadow creatures, and the two sides fought fiercely.

Although the elder Emperor Realm was injured, the shadow creature was also injured, and its strength was somewhat weakened, so it was still in the disadvantage and was completely suppressed.

After more than ten strokes, the shadow creature was hit, and the body exploded again. The body was continuously twisted, and it could be clearly seen that its body was dimmed a lot.

"He is very weak, work harder and kill him completely!"

The locust side shouted.

Soon after, the shadow creature was hit again, and his body was darker.

Although, the two **** emperors of the locust clan were furiously countered by shadow creatures, and their souls also received some attacks.

The old man of God Emperor Realm has a paler face.

Chapter 3723: It's time to shoot

Among the two **** emperors of the locust clan, the old man's face was even paler. He was previously hit by a shadow creature, not only his soul was injured, but his body was also hit hard.

The other **** emperor is much better. He only suffered some influences on his soul during the confrontation with the shadow creatures, making his face pale.

However, shadow creatures are even worse, and their breath is getting weaker and weaker.

There is no real immortality in the world, even if it is a taboo body, when all the cells are destroyed, it will die.

Although the shadow creature's body is wonderful, it will make it weaker with every blow.

Continue, it will certainly die.

"Shoot together, solve this beast together!"

The locust cried out.

The shadow creatures are already very weak, and the prospective emperors have been able to cause damage to them. He called all the prospective emperors to work together to completely solve the other party, so as to avoid long nights.

In case of attracting other forces, especially the people of the Ice Moon Vine family, it is difficult for him to swallow the bone beads.

"kill!"

"kill!"

A large number of quasi-Emperors of the locust clan shouted and rushed towards the shadow creatures. Various attacks, like storms and storms, blasted towards the shadow creatures and enveloped all directions, completely blocking its retreat.

The two Divine Emperors also attacked the strongest blow, be sure to completely kill the shadow creature in this blow.

Roar!

The shadow creature roared violently, and its body suddenly collapsed into hundreds of shadow javelins, shot in all directions, and collided with the attack of the locust clan.

However, it is much weaker, and the power of the attack is also very general. When it collides with the attack of the powerful locusts, the shadow javelin is constantly being wiped out.

In particular, the attacks of the two emperors wiped out a large number of shadow javelins.

Almost just a few breathing hours, the shadow javelin of most divisions was wiped out, and that shadow creature could no longer condense.

Finally solved!

Everyone was relieved.

But at this moment, the change suddenly occurred.

The bone was suddenly moved.

To be precise, it exploded. All the bones, like a sharp blade, spurted away towards the master of the locust clan at an alarming speed, bringing a terrible roar.

Ahhhh!

Some near-Emperor emperors screamed again and again, their bodies were penetrated, and they fell directly on the spot.

And farther away, they also received a deadly offensive.

The two Divine Emperors received special attention, and the most powerful bones, as well as the white bone, all flew to the Two Divine Emperors.

The locusts have just wiped out the shadow creatures and are breathing a sigh of relief. They never expected that there would be no abnormal bones and they would launch a fatal blow.

So, they want to dodge, it is too late.

Puff...

The old man in the Divine Realm was penetrated by two sharp bones and brought tens of thousands of meters away. He broke dozens of giant trees and vomited blood. His body was ragged and badly hit.

Fortunately, the vitality of Shenhua Realm, extremely tenacious, saved his life.

The other **** emperor was penetrated by the single horn.

The power of the unicorn is the strongest, directly nailing the **** emperor to the ground.

"Damn!"

The Divine Emperor roared, broke out with all his strength, and finally pulled out the unicorn, saved his life, but was also hit hard, and his breath was depressed.

As for those prospective emperors, as long as they were hit, they could not save their lives, and all fell.

In an instant, more than fifty prospective emperors fell on the spot.

"This...this...damn..."

A little further away, the locust side froze, and then roared again and again, a face distorted.

It was really a heavy loss that so many masters fell suddenly.

Fortunately, just the prospective emperor shot, he and other locust clan, far enough away, did not get attacked.

Fortunately, after a wave of white bone attacks, they fell on the ground without any movement or spirituality.

And those bone beads were scattered on the ground.

"Damn beast, you must fight back if you die!"

The emperor who was pierced by the unicorn scolded.

Obviously, the reason why those bones just launched a thunder blow was the shadow creature. It knew that it was inevitable today, and the truncation was finally wiped out. It launched a mortal counterattack. I don't know what method to use to control those bones. Strike, a heavy blow to the sky locusts.

The locust side also cursed, but when he saw the bone beads, his eyes lit up.

Although a lot of masters have been lost, for the big clan such as the locust clan, the quasi-empire is nothing, and once a lot is grabbed, the **** emperor is regarded as a master.

It doesn't matter if you lose some prospective emperors, it will be cultivated soon.

"These bone beads are mine!"

The locust rushed over and grabbed these bones with his big hands.

With these bone beads, his cultivation base will soon be able to break through. It is a trivial matter to reach the Seventh Level of the Divine Monarch, even the Eighth Level of the Divine Monarch and the Ninth Level of the Divine Monarch. By then, his status among the younger generation of the locusts will definitely rise a lot.

The rest of the locust clan did not move.

The position of the locust side is much higher than them. These opportunities naturally belong to the locust side.

In the distance, Lu Ming sees this scene in his eyes.

"The two Divine Emperors were seriously injured, especially the old Emperor God Emperor Realm, who was more seriously injured..."

Lu Ming thought, his eyes became brighter and brighter.

Finally Lu Ming decided to start!

Such a rare opportunity, when do you not wait for it?

Lu Ming condensed his breath to the extreme and quietly touched the old man of God Emperor Realm.

The old man of the Divine Emperor Realm was hit by two bones before and flew very far. At this moment, two bones were just pulled out, swallowed a few magic pills, and healed the wounds without any notice. Someone was approaching.

Soon, Lu Ming was only ten thousand meters away from the God Emperor.

Ten thousand meters, for them, is no different from a centimeter.

Uh!

Without hesitation, Lu Ming rushed to the past, and in the blink of an eye, he rushed to the old man of God Emperor Realm.

At the time of rushing out, Lu Ming had triggered the warfare formula five times the combat power.

Boom!

Lu Ming exploded into full force, his fists suddenly exploded, and hundreds of fists were exploded in an instant. The fist was crushed and the space exploded directly.

what!

The old man of God Emperor Realm felt it at the moment Lu Ming shot, and with a roar, the divine power exploded and wanted to resist.

The Divine Emperor is indeed very strong, with keen senses and an amazingly fast response.

However, this old man of the Divine Emperor Realm was hit twice and twice, and his injuries were too serious. His strength may not be less than the usual two floors.

Lu Ming, who has just broken through the five levels of Divine King, is a lot stronger than when he played against the elders of Divine Emperor Realm.

Under the raid at this moment, he tried his best, and it was not something that the old man of God Emperor Realm could block.

Chapter 3724: Kill the locust side

bump! bump! ...

The two attacked and collided together.

At the moment of collision, the Divine Emperor Realm's divine power was penetrated by Lu Ming, and the old man's palm knife collided with Lu Ming's fist.

Click!

The palm of the old man of God Emperor Realm burst directly, and then, his arm, his body...

He screamed, when Lu Ming's violent attack was completely crushed, the body of the old man of God Emperor Realm completely burst apart, and even the soul did not escape.

Extermination of form and spirit!

A **** emperor was instantly killed.

Of course, if the other party is in its heyday, Lu Ming cannot do it.

But the other party was too injured, and Lu Ming seized the opportunity to kill him in one fell swoop.

All this just happened in a flash.

Even the other locusts have not responded.

When the old locust clan was killed, the people of the locust clan reacted and looked over here.

Then, his eyes widened.

"You... it's you..."

After the locust saw that Lu Ming was the shot, he shouted hysterically.

"Come to kill you today!"

Lu Ming spoke coldly, waved his hand, and put away the storage ring of the old man of God Emperor Realm, strode toward the locust side.

"You still want to kill me? Shoot, kill this kid!"

The locust side was angry.

On his side, there is also a **** emperor, he is not afraid of Lu Ming.

In his view, the reason why the old man of God Emperor Realm was killed is because the old man of God Emperor Realm was injured so badly that there was not much strength left, and then was attacked by Lu Ming again before he was killed.

Lu Ming's strength, he is very clear, before being chased and beaten by the old man of God Emperor Realm, he was frightened and fled.

There was a God Emperor beside him. Although he was injured, it was not so heavy. It was more than enough to deal with Lu Ming.

boom!

The Divine Emperor, suppressing his injury, a strong breath, burst out and squeezed towards the landing.

At the same time, he stepped on the void, like a war sword, and rushed towards the landing Ming, his palm like a sword, and cut towards Lu Ming.

A bright blade of light burst out, slashing the head of Landing Ming, and the void was split in half.

"bring it on!"

Lu Ming's eyes showed a strong fighting intent, his whole body exploded like fried beans, his muscles stirred, and he punched out.

Face to face with a hard touch.

"Really dead!"

In the eyes of the locust side, there was a terrible color.

Lu Ming, who dared to confront God Emperor head-on, is simply looking for death.

boom!

At the next moment, the two attacked and collided together, bursting out a violent roar, violent strength, sweeping all directions, the ground continued to burst.

Then, the two bodies retreated sharply.

At the same time backed tens of thousands of meters.

have equal shares!

how is this possible?

The locust side, as well as the rest of the locust clan, have rounded eyes.

Lu Ming, was actually able to contend with a **** emperor, but also split equally.

Although this Divine Emperor was injured just now and his combat power has weakened a great deal, it was also the Divine Emperor. He was confronted head-on and was actually blocked by a Divine Monarch.

"This kid, broke through, damn, how could he break through so fast, and have such a strong combat power!"

The locust roared in his heart, and the envious jealous would go mad.

The **** emperor was equally shocked, and his heart turned over.

But Lu Ming's fighting intentions were stronger.

"The **** emperor deserves to be the **** emperor. I will do my best. With the addition of five times the combat power, I can barely contend, and the other side is still injured!"

Lu Ming turned a thought in his heart.

He knew very well that if the opponent was in the heyday, he was definitely not an opponent.

But now? . .

"kill!"

Lu Ming shouted and launched an offensive initiative. His figure flashed across the distance of tens of thousands of meters and was killed towards the other party.

"Every god, die to me!"

The other party shouted, Daomang shocked.

Boom!

The two sides launched a fierce battle, and in a flash, they fought more than a dozen moves, without a win or loss.

"This shit..."

In the distance, the locust side was jealous and horrified again, a little frightened, and slowly moved back.

Obviously it was a plan. If something went wrong, I pulled out and left.

This scene was also seen by Lu Ming.

"Want to go!"

A cold light flashed in Lu Ming's eyes. Then, when he was fighting with the other party, he slowly turned his body and waited for his body. When leaning to the side of the locust, he made a trick with the other party. The strength of the move, his body suddenly retreated, the direction of retreat is the direction of these locusts.

The reason why he has not used the string of stones, one is because he deliberately lowered the alertness of the **** emperor.

Secondly, now that the **** emperor has been killed, the rest of the locust clan must have escaped in fright. At that time, it was scattered and he could not chase them one by one.

His goal is to keep all these locusts.

Therefore, Lu Ming turned around and, with the help of the other party's power, culled these locusts.

"not good!"

The emperor's face changed greatly.

Locust's face also changed greatly.

"Block him!"

The locust side shouted, and his body retreated.

The other locust tribes, their faces changing wildly, they are entangled, whether they want to block Lu Ming, or retreat.

If they block Lu Ming's words, Lu Ming's strength and so on, they will go to death, but if they retreat regardless of the life and death of the locust, they will be severely punished after they return, even more terrible than their war dead.

With such a hesitation, Lu Ming had already been killed.

咻咻咻...

Lu Ming waved his hand and attacked one after another.

It is too easy to kill these prospective emperors with Lu Ming's current combat power.

Lu Ming passed by, and dozens of locusts were killed.

Then, Lu Ming's double fists struck out in a row, and instantly hundreds of fists, hundreds of fists, slammed into all directions.

Those locust tribes are vulnerable to a blow, and for each blow, a locust tribe is killed.

Originally, there were more than a hundred people left in the sky locust clan. In a moment, there were only a few people left.

"No, no, help!"

The locust almost scared his urine and shouted in horror.

He was not killed, it was Lu Ming who deliberately left him.

He scared and ran while yelling.

Lu Ming chased him indifferently.

"stop!"

The **** emperor chased with a roar, chopping out a dagger.

But Lu Ming was fearless, and he made a trick with him. With his power, he was faster. He immediately caught up with a few people in the locust side, grabbed it with a big hand, and the remaining few locusts were directly arrested and killed. .

The locust side is okay, but the scared body trembles, his face pale, a stench comes out, and he is scared to pee.

"It's a waste, I'll take you on the road!"

Lu Ming drank coldly.

He originally wanted to leave the locust party the last one to kill. When he killed the **** emperor, let the locust party know what is despair.

But seeing the other person's appearance, Lu Ming lost interest and grabbed it directly with his palm. The locust uttered an unwilling roar, his body exploded, and his form and spirit were destroyed.

Chapter 3725: Beheaded

In this way, only the **** emperor was left.

This **** emperor, instead of chasing Lu Ming, looked coldly at Landing Ming, his face cold, and said: "Boy, you killed so many people of my locust tribe, you just wait for my endless locust tribe Revenge!"

"Revenge? As long as you are removed, who knows I killed it?"

Lu Ming asked with a smile.

"Hahaha, do you still want to kill me? Although I was injured, but you want to kill me, do you think it is possible?"

"Go on fighting, it's you who died!"

The celestial **** emperor said coldly, very confident.

Although he was injured and his combat strength was not at his peak, he did not believe that Lu Ming could kill him.

Continue to fight, he must win.

"Really? Then fight!"

Lu Ming Changxiao rushed towards the other party.

"kill!"

The celestial **** emperor Chang Xiao killed Lu Ming.

boom! boom!

The two collided again and fought fiercely.

This time, Lu Ming went crazy, completely disregarding his own defense and attacking with all his strength.

bump!

Lu Ming was hit, a knife wound appeared on his body, and his body was almost cut open.

However, at the same time Lu Ming was hit, he also hit the **** emperor of the locust clan.

Lu Ming hit the opponent's shoulder with a boxing punch, and various secret techniques in the fist broke out at the same time, tearing the opponent's body protection power and the body of the Divine Emperor Realm, and bursting the opponent's shoulder into a large chunk.

However, Lu Ming's injury recovered quickly.

"Come again!"

Lu Ming shouted and continued to kill each other.

Soon after, Lu Ming was hit again, but the opponent was also hit by him.

This is a completely defeated game.

"This wicked... really wicked..."

The emperor of the locust clan roared in his heart, and for the first time, a look of fear appeared.

Lu Ming's ability to recover is too strong. In this way, it is not Lu Ming who died first, but him.

He has sprung up.

In this way, his fighting spirit is weak.

When the narrow road meets the brave and wins evenly, even if the fighting intention is weak, the fighting power is weak.

"It's now!"

The other party's heart changed, and Lu Ming captured it sharply.

This is the right time for him to wait.

The power of taboo poured into the stone beads.

Buzz!

Lu Ming waved his hands, and the two stone beads flew out, soaring into the sky, and suddenly became large, with terrible gravity, and pressed down against the **** emperor of the locust clan.

The amazing gravity caused the body of the Emperor Celestial Clan to fall rapidly and hit the ground fiercely.

Then, two stone beads, like two big mountains, smashed towards the **** emperor.

The emperor of the locust clan roared desperately, and bombarded the stone beads. Two stone beads were blown out by him, but his palms also split open, blood flowing.

At the same time as Shizhu's attack, Lu Ming had already killed him.

As soon as Shi Zhu was repulsed, he faced Lu Ming's stormy offensive.

He had just been attacked by a series of stone beads, and he hadn't relieved himself yet, and his body was suppressed by strong gravity, and his strength was severely restricted, and it was difficult to resist.

bump!

Lu Ming's left hand, like a blade, broke his defense and cut off one of his arms.

Lu Ming's right hand was a fist. He punched his chest with a punch. His chest burst and flesh flew.

The **** emperor of the locust family was originally smashed into the big pit. At this moment, the big pit exploded. He was bombarded into the mud and blasted the ground out of a huge pit.

He vomited blood violently, his body was ragged, and his breath was extremely weak.

"Ah, I'm not willing, how can I die in the hands of a prince's descendants..."

He yelled, if he was crazy, the remaining divine power burned up, turned into a prototype, flapped his wings, and wanted to escape.

However, the two stone beads suppressed and the terrible gravity made him lie directly on the ground.

bump!

Lu Ming killed the past and stepped on it, stepping on the chest of the **** of the locust clan, his chest burst directly, leaving only one head.

"Little miscellaneous..."

The **** emperor of the locust clan was still clamoring. With a punch, Lu Ming burst his head and his soul was destroyed together.

At this point, all the locusts have been killed.

Lu Ming flashed all his storage rings, and then came to the place where the white bones were. The bone beads were scattered on the ground. Lu Ming collected the bone beads one by one.

There are a total of 18 bone beads, large and small, filled with rich life energy.

Lu Ming was quite satisfied. With these gains, he would be worthwhile.

As soon as his figure moved, Lu Ming left here.

After a series of wars, I am afraid to disturb others and leave early.

When Lu Ming left shortly afterwards, there were really two powerful people who arrived. When they saw the locust corpses on the ground, they looked at each other, and finally showed a terrified look, and hurriedly retreated.

They thought there was a terrible crisis here, otherwise how could the locust tribe be wiped out?

...

Lu Ming found a hidden place, practiced for a while, and adjusted his state to the peak.

He secretly sensed that he found that the stored potential in the cells was less, only about 10%.

And his cultivation practice has improved a bit.

"The rate of energy consumption is too fast!"

Lu Ming sighed, then took out another magic medicine and absorbed it.

Lu Ming is too lazy to use the monarch-level magic medicine, and stays on the body to trade with others.
Lu Ming specially absorbs the imperial-grade magic medicine.

With the improvement of his cultivation, the energy stored in the cells needs more energy.

After continuously refining three emperor-grade magic drugs, Lu Ming raised the potential of cell storage to 50%.

"In the past, only two strains were needed, but now three strains are needed. Sure enough..., there is not much magic medicine on me!"

Lu Ming thought.

There were only nine strains of imperial medicine on him.

Fortunately, I got eighteen bone beads.

The total energy of the 18 bone beads is definitely above the nine emperor-level magic medicines, but it can still be used for a while.

Fifty percent of the storage is enough for the time being. With so much energy, even if he is beaten into only a few cells, he can recover it.

After finishing the training, Lu Ming left here and observed the direction. Lu Ming went westward.

Before entering the Ruins of the Kingdom of Tianyue, I learned from Jiang Lebang that the greatest opportunity for the Kingdom of Tianyue was definitely in the capital of the Kingdom of Tianyue.

The west direction is toward the depths of the Kingdom of Heaven and Earth. The Kingdom of Heaven and Kingdom of God should be in that direction.

Lu Ming hurried forward. After an hour, he didn't know how much distance he had traveled.

suddenly...

Boom...

There was a fierce roar in front, and the divine light was shining, shining half of the sky.

Ahead, there are strong men fighting fiercely.

Lu Ming converged, approaching quickly along the ground.

Chapter 3726: Save one another

There was a war ahead, and Lu Ming moved quietly forward. Sure enough, soon after, he saw a group of people fighting fiercely.

One side is Jiang Lebang, and the masters he brought.

On the other side, Lu Minghe knows that one side is the master of Qianlizong, and the other side is the master of Kun Yuanzong.

These two forces were one of the four forces that had joined forces with Jiang Lebang before, and now, these two forces have joined forces against Jiang Lebang.

There is no doubt that every force comes with masters of God Emperor Realm, but unlike the Celestial Clan, these forces have only one God Emperor.

Jiang Lebang has one here, Ganzong Zong and Kun Yuanzong each have one. The two parties are besieging Jiang Lebang and they are completely in the disadvantage.

"Qianlizong, Kun Yuanzong, you are despicable and shameless, before we said that we are allies..."

Jiang Lebang roared, at this moment, he was very embarrassed, his hair was radiated, he was bathed in blood, and he was crazy.

"We are despicable? Obviously you are despicable, want to swallow the treasure alone, now hand over the wind and fire beads!"

In Qianli Zong, a young man in fiery red robes shouted.

"Fart, wind and fire beads are what we got, you see the treasure jealous, want to share a piece of soup, betray allies..."

Jiang Lebang roared.

"Huh, Jiang Lebang, no matter what, the treasure seekers have a share, you want to swallow it, no way, hand it over, split equally!"

Qianli Zonghuo red robe youth hummed coldly.

"Good, evenly divided, otherwise, Jiang Lebang, you can't get out of this day of the Kingdom Kingdom!"

In Kun Yuanzong, another young man also sneered.

"Come on, this is the treasure I got!"

Jiang Lebang roared, his hair flying, and his eyes widened.

In the distance, Lu Ming heard these words and probably understood.

Obviously, it was Jiang Lebang and his men who got the wind and fire beads, and then they were discovered by the people of Qianlizong and Kunyuanzong.

"Should I shoot?"

Lu Ming thought.

Jiang Lebang is a good person, telling him the news of Tianyue Shenguo, although there are some plans to use Lu Ming's power, but for Lu Ming, it is indeed an opportunity.

Lu Ming wondered if he would help Jiang Lebang.

Of course, this is also because Lu Ming's combat power has greatly increased.

If it had been before, before he had cultivated for no consecutive breakthroughs, he would not have thought that way. The two sides of Qianlizong and Kunyuanzong added up, but there were two **** emperors. If he had gone before, even if he went out, it was just a dead end.

But now, Lu Ming has the confidence to confront the Emperor.

At this moment, Jiang Lebang and his people have been losing ground.

The emperor on his side was suppressed by the other two emperors, and he had only the power to fight back, but no resistance.

The same is true of the wars under the God Emperor's Realm, completely one-sided, and the situation is precarious.

Uh!

Lu Ming made a decision, and his figure moved like a phantom and rushed out.

As soon as Lu Ming rushed out, everyone in the war found Lu Ming.

"It's him!"

"This kid!"

Qian Lizong, Kun Yuanzong's people swept Lu Ming, they recognized Lu Ming, knowing that Lu Ming was brought by Jiang Lebang, but they did not care at all.

A young man in a divine realm, why should they care?

Jiang Lebang and others also saw Lu Ming.

"Brother Lu, go away!"

Jiang Lebang shouted.

Lu Ming smiled slightly. At this time, Jiang Lebang also asked him to leave, indicating that he planned to help him with this matter. There was nothing wrong with it.

"Brother Jiang, let me help you!"

Lu Ming smiled.

"Brother Lu, you...go away!"

Jiang Lebang yelled.

Although Lu Ming's strength is very strong, it was easy to deal with the four quasi-empires of the Celestial Clan, but the other's Divine Emperor is one more than them. Lu Ming is even stronger, but it is only a Divine Monarch Realm, but also Not a high-level Divine Monarch, too far away from Divine Emperor, he does not think that Lu Ming can deal with Divine Emperor.

The people brought by Jiang Lebang were also disappointed.

Originally, I thought it was a master, but Lu Ming did not expect it to work at all.

"Anyway!"

Lu Ming smiled, and in an instant, he reached the battlefield.

"Go solve him!"

Qian Lizong's fiery red robe, said to Qian Lizong a prince ninefold.

In his view, to deal with a local Lu Ming, sending a **** monarch Jiu Zhong, is already overkill.

"Master, rest assured, only one trick to kill!"

The old man of the Divine Monarch's Nine Heavys took orders, and his body was like a fire, bursting out and rushing towards the landing.

"Boy, find yourself dead, blame me, kill!"

The old man grinned, waved his hand, the sky was full of flames, and he blew toward the landing.

The temperature of the flame, the high scary, and such power, let alone Lu Ming, a prince is five times heavy, even if the prince is seven times heavy, they will burn to death.

However, Lu Ming was expressionless. He didn't even see the temperature of the flame.

Uh!

Lu Ming urged a mysterious technique of a spear in the palm of his hand. A spear appeared in his hand. When he shook his hand, the spear fired out. The space was pierced and a dark mark appeared.

The spear burst into the flame, without any resistance, and directly broke through the flame, stab it toward the old man of Divine Monarch.

"how can that be?"

The old man of Shenjun Jiuzhong's eyes widened, unbelievable, and some couldn't figure it out. How could his one move be so simple?

He hadn't reacted yet. The spear had been killed and passed through his eyebrows.

The old man of Nine Heavy Divine King, die!

On the spot, a sudden meal!

In the war, people can't help moving.

Obviously, Lu Ming struck and killed a prince, Jiu Zhong, beyond everyone's expectations.

Only Jiang Lebang is better.

"Damn, go, the prospective emperor shot and killed him!"

The young man from Qianli Zong shouted.

"Want to kill me, I will kill you first!"

Lu Ming's eyes were cold, and he rushed directly to the young man of Qianli Zong.

"Boy, look for death!"

"kill!"

In Qianli Zong, there were two quasi-imperial realms shouting, rushing towards the landing Ming, and launched a fierce attack.

"You are dead!"

Lu Ming drank coldly, his palm was like a knife, and it came out in a row. Two consecutive swords burst out of light, breaking the other party's attack.

Puff!

Blood splattered, and two prospective emperors were also beheaded.

This time, everyone's heart shook.

Killing the prospective emperor, such as digging for something, what is this fighting force?

Lu Ming's figure quickly approached Qianlizong youth.

This time, Qianli Zongqing's face became extremely ugly, revealing a look of panic.

His fighting power is not as good as that of the prospective emperor. If Lu Ming was close, wouldn't it be the only way to die?

"help me!"

Qianli Zong youth shouted.

"Boy, do you dare?"

There was a loud roar, the world shook, and terrible coercion filled the sky.

It was the **** emperor who had died.

Chapter 3727: Positively shake the **** king

The **** emperor Qianli Zong shouted and volleyed a punch to the landing.

A punch, a terrifying punch, condensed a flame furnace, huge like a mountain, red all over the body, coming to suppress the landing Ming.

When the furnace was depressed, the space exploded and the scorching breath made it terrifying.

No one dared to get close.

This is a shock from the Divine Emperor, and it is extremely terrifying. As long as the Emperor is swept away, there is only one way to die.

"Brother Lu, be careful!"

Jiang Lebang shouted.

"This kid, dead, a little bit of strength, dare to arrogant with me, go die!"

Qian Lizong's youth roared in his heart and his eyes were grim, thinking that Lu Ming was dead.

Not only he but everyone else thought so.

But the next scene was beyond everyone's expectations.

Lu Ming banged out with a punch, facing the melting pot of the God Emperor and blasting past.

Lu Ming actually had to resist the attack of the Divine Emperor.

"No self-control, too much!"

"It's dead, he's dead, there's no possibility of performance!"

"A little strength, I'm confident enough!"

Many people have a thought flashing in their hearts. They seem to have seen the ending of Lu Ming's crushed bones.

boom!

At the next moment, Lu Ming bombarded the furnace with a fist, the sky thundered, and a crimson light rose into the sky, staining the whole sky with red.

"That kid, it should be ashes!"

Everyone thought.

However, this is not the case!

Everyone saw that in the firelight, a figure retreated backwards.

"It's amazing that the corpse has not been burned to ashes!"

"This kid's strength is indeed terrible. In the face of an attack by the Divine Emperor, he can still retain the corpse without destroying the form and the spirit.

Almost everyone thought that Lu Ming was dead, leaving behind his body.

A prince, and only a prince with five princes, how can he not resist the attack of the prince?

There is no possibility to be alive.

They all believed that Lu Ming was dead, and to their surprise, Lu Ming could still keep his body immortal.

Switching to other people is definitely the end of everything.

But the next moment, everyone's eyes widened, revealing a deep horror, and incredible.

That retreating figure is indeed Lu Ming.

But he didn't die. After retreating tens of thousands of meters, he successfully stabilized his figure.

boom!

Lu Ming's breath is still very strong and full of vitality.

He only had some burns, but he was recovering quickly.

Other than that, there were no signs of serious injuries.

"This... how is this possible?"

In everyone's heart, only this thought remains.

Originally, they thought that Lu Ming could resist the Divine Emperor's move, and still retain the corpse without destroying the form and spirit, it was already a miracle.

But now, Lu Ming broke their cognition.

Lu Ming is not only okay, it seems to have no serious injuries, but only suffered some skin trauma.

"Impossible, this is impossible, it is estimated that the Divine Emperor's casual blow did not use much power!"

The young man of Gan Lizong shook his head into a rattle. He didn't believe Lu Ming was so strong.

Qian Lizong's emperor's face also dignified.

He knew for himself how powerful the trick was.

That move, although not his strongest blow, was not trivial, but he could kill a large-scale prospective emperor, but he couldn't help Lu Ming.

Lu Ming's combat power surprised him.

"The Divine Emperor's combat power, but so come on, let me see, your strongest combat power!"

Lu Ming turned his head and looked at the **** emperor, fighting for the night.

Lu Ming challenged a **** emperor.

This is a **** emperor in the heyday, Lu Ming would like to see how far he is from the **** emperor in the heyday.

If it were put before, Lu Ming would dare to challenge a **** emperor, everyone would die with laughter, and would not sneer at all.

But now, no one taunts.

In any case, Lu Ming had indeed resisted the Divine Emperor's move just now, and his combat power had already touched that field, and he already had the qualification to challenge.

At this moment, the people who just fought just stopped, confronting each other, but looked at Lu Ming.

A person with five quintessential emperors challenged a strong man with one emperor, which has been rare since ancient times.

They wanted to see how powerful Lu Ming was.

"If you want to challenge me, you must be prepared to beheaded by me, be able to kill a wicked demon, this feeling is good!"

Qian Lizong's Divine Emperor carried his hands on his back, and there seemed to be flames in his eyes.

Around his body, a melting pot enveloped him. Obviously, he had moved.

He stepped out and appeared not far from Lu Ming.

In addition, Jiang Lebang's **** emperor, and Kun Yuanzong's **** emperor, also stopped, confrontation, and looked at Lu Ming.

As Divine Emperor, they knew the gap between Divine Emperor and Divine Emperor, and they were also very curious. How to contend with the Divine Emperor in the five-level realm of Divine Emperor in Luming District, dare to challenge the dignity of a Divine Emperor.

I don't know how high it is?

Still really have this strength?

"bring it on!"

In Lu Ming's eyes, there was a strong sense of war.

The cells of his body tremble slightly, and in each cell, power bursts out, and sixty trillion yuan of power gathers together, forming a terrifying power.

The five-fold combat power of the war character tactics has already been triggered!

Lu Ming raised his combat power to the top.

He did not immediately cast the string of stones, he had to rely on his own strength against a **** emperor.

In the face of powerful opponents, strong pressure can also stimulate his potential.

boom!

Lu Ming took the lead in action, his figure moved, and the air sent a popping noise, and the sky was vibrating. He quickly approached the God Emperor Qianli Zong, his fists continuously blasted out, and the power of various mysteries in his hands was all inspired.

It's just that all mysteries are hidden, but the power is not weak.

As soon as the master gets his shot, he knows if there is!

Lu Ming's shot brought the might to make the pupil of Qian Li Zong Shen Huang shrink slightly.

Such power has already touched the threshold of the Divine Emperor.

Some ordinary races, when they first broke through the Divine Emperor, were nothing more than that.

"Suppress me!"

Qian Li Zong God Emperor took a cold sip, squeezed his big hands, his power boiled, a huge furnace condensed out, and rang toward the landing.

This furnace is more majestic, more solid, and more powerful than the previous one.

Boom! Boom! Boom! ...

Lu Ming's double fists continuously bombarded the furnace, and a shocking roar erupted.

Every roar is like a planet burst.

The terrible energy, the terrible flame, rolled out in all directions, and the hot waves radiated one by one, so that the people around the three forces had to retreat one after another to avoid the rolling heat wave.

Chapter 3728: Shocked

In an instant, Lu Ming blasted dozens of punches and bombarded the furnace.

Finally, with a bang, the furnace burst apart, and Lu Ming retreated.

However, Lu Ming was not seriously injured, only some minor injuries were recovering quickly.

Sisisi...

A cold breath came out.

Before, Lu Ming was able to resist the attack of the Divine Emperor. It can also be said that because the Emperor did not use much power, but just a blow away from the Emperor Zong, Emperor Zong, obviously has used powerful power, as can be seen from the power, It's amazing.

However, it was still blocked by Lu Ming.

Lu Ming really has the qualification to challenge the God Emperor!

A prince with five weights, actually has such a combat power, unheard of, it is simply against the sky!

"Come again!"

Lu Ming Changxiao, stepped on the void, and once again killed Qian Li Zong God Emperor.

"I'll fulfill you if I die!"

Emperor Qianli Zong moved his anger, snorted, turned into a blaze of fire, and rushed to Lu Ming.

With all his strength, he was shrouded in a red furnace, and in his hand, a respectful flame furnace was formed and killed Lu Ming.

This is his original secret technique, whether it is the original divine factor or the yoke of shackles, they have reached an amazing state, terrifying power, the power of burning the universe, and jumping the starry sky.

Lu Ming tried his best to confront it, and the roar continued.

It has to be said that a **** emperor in the heyday period was extremely powerful and completely suppressed Lu Ming.

Although Lu Ming fought with all his strength, he was still not an opponent. He was completely at a disadvantage and kept retreating.

boom!

One accidentally, his chest was hit by a furnace, the sound of broken bones came out, a large piece of his chest burst, and there was a terrible flame, burning continuously.

Lu Ming coughed up his blood and retreated, and the potential in the cell was constantly stimulated to repair his injury.

However, the departed Emperor Zong, who would not give him a chance to recover, killed Lu Ming again and launched a stormy offensive.

Lu Ming retreated continuously, completely at a disadvantage.

"This boy is going to die!"

"Fortunately, he is not the opponent of the Divine Emperor.

Many people were relieved.

The Divine Monarch is fivefold, and it is already extremely against the God Emperor to reach this point. They have never heard of it. If they can actually fight against the God Emperor, it will be too scary.

Seeing that Lu Ming was about to die, they finally felt a little bit better in their hearts, otherwise they would be too **** compared with Lu Ming?

"No, Elder Feng, help Brother Lu!"

Jiang Lebang's face was ugly, and he quickly brought the voice of the emperor to him to help Lu Ming.

However, this **** emperor was stared at by Kun Yuanzong's **** emperor, and when he moved, the **** emperor also moved.

"It's the kid who doesn't manage to challenge the Divine Emperor.

Emperor Kun Yuanzong said coldly.

"Damn!" Jiang Lebang snarled, but was helpless.

On his side, he was at a disadvantage. Even if he wanted to save Lu Ming, he was helpless.

In the blink of an eye, Lu Ming and Qian Lizong's Divine Emperor fought dozens of moves.

During this period, Lu Ming was hit twice in succession, and his injuries were not light.

The strong pressure caused Lu Ming's blood to boil, and every cell was trembling continually, and the endless potential was stimulated.

"about there!"

Lu Ming whispered.

However, Lu Ming's potential in the step of the war was almost temporarily suppressed.

Buzz!

At this time, Lu Ming urged the string of stone beads, and the two stone beads flew out, with extremely powerful gravity, and pressed toward Qianli Zongshen Emperor.

Compressed by strong gravity, the body of Emperor Zong Shenhuang slightly stiffened and his face changed.

The gravity of the two stone beads has already caused a great influence on him.

"kill!"

Taking advantage of this opportunity, Lu Ming killed the past.

Boom!

The two again made several consecutive moves. This time, both sides retreated backward.

This time, Emperor Qianli Zong was suppressed by gravity. He needed to divide some of his divine power to fight against gravity. Naturally, his strength was greatly weakened, and Lu Ming narrowed the distance between the two.

"Good mysterious treasure, do you think that with one treasure, you can fight against me, see me smashing your treasure!"

Qianli Zongshen Emperor sipped coldly, facing the gravity, thrusting upwards, waving his hands in a row, the two furnaces blasted out and bombarded the stone beads.

Dangdang made two sounds, although Shizhu was blasted out, but nothing happened. Under Lu Ming's control, he flew back again. The powerful gravity always shone away from the Emperor Zong.

Lu Ming killed him and fought against the Emperor Qian Lizong. For a time, the two men shared the equals, and no one could help anyone.

Dozens of consecutive moves, this is the case.

"how is this possible?"

People who are dry from the sect have ugly faces to die.

Unexpectedly, Lu Ming really resisted a **** emperor.

Jiang Lebang and others were overjoyed.

In this way, they do not fall under the fighting power of the level of God Emperor Realm. Ganlizong and Kunyuanzong want to deal with them, it is difficult.

Because the Divine Emperor can easily kill the characters under the Divine Emperor with a little intervention.

No matter which Divine Emperor, fighting for injuries, they are dangerous to anyone under the Divine Emperor.

Before, they had two **** emperors, and they were able to suppress Jiang Lebang's **** emperor, so that he could not shoot, and even be besieged.

But now, with the emergence of Lu Ming, this situation has changed.

Boom...

Lu Ming had several consecutive moves against Qianli Zongshen God Emperor, and the two retreated one after another, hundreds of miles apart, facing each other far away, and did not continue to shoot.

Lu Ming has stone beads, leaving the Emperor Zong, but Lu Ming can't help it.

But Lu Ming couldn't help the other party.

If we continue to fight, it will be hard to tell the difference.

"It seems that you can't help me, my recovery ability is very strong, if you are injured, you will leave the sect, I am afraid that you will suffer heavy losses!"

Lu Ming smiled.

This remark greatly changed the face of Qianli Zong, especially the youth of Qianli Zong, whose face was even more ugly and even frightened.

Indeed, if Lu Ming fights with injuries to kill them and leave the Zongshen Emperor, he may not be able to completely block it. In that case, he is in danger.

"good very good!"

The young man of Gan Lizong gritted his teeth, and swept Lu Ming and Jiang Lebang bitterly.

He knew that Jiang Lebang could not help today, so he could only retreat.

As his words fell, the people of the Qianli Sect gathered together and then retreated towards the rear.

The people who had left Lizong were going to leave. The people of Kun Yuanzong would naturally not stay, and they all left.

After a while, the people who left Lizong and Kunyuanzong walked cleanly.

"Lu.. Brother Lu, thank you!"

Jiang Lebang came to thank Lu Ming, his eyes were very complicated, shocked, envied, horrified...

Chapter 3729: Broken city

Jiang Lebang's heart is really difficult to calm.

It is not that he has never seen a demon, but such a demon as Lu Ming, he really has not seen.

He invited Lu Ming to come to the Kingdom of Tianyue Divine Kingdom. Lu Ming really looked at Lu Ming's combat power. Lu Ming could easily defeat the four prospective emperors. With this kind of combat power, entering the Ruins of the Kingdom of Tian Yue was absolutely helpful to him.

Because they had learned before that there was evil in the ruins of the Kingdom Kingdom of Tianyue, and if the powerful of the God Emperor Realm came in, it might cause evil.

Therefore, they did not dare to bring in the existence of the Divine Emperor Realm. Even if they brought it, they would seal their cultivation bases in advance. It is only a last resort that they will not break their seals. Lu Ming is needed.

Unexpectedly, this time it was called Lu Ming, right, Lu Ming saved his life!

His heart was filled with emotion, and Lu Ming became more and more mysterious in his mind.

"Shen Jun is five-fold, but can contend with the Divine Emperor. This kind of combat power is in the top ten races? Is it a genius in the Tiangong?"

Thinking of this, Jiang Lebang's heart was beating wildly, and the more he thought, the more likely it was.

The geniuses in the celestial palace will also travel in the wilderness universe.

The purpose is to exercise, in order to hone, secretly hone in the wilderness universe, to hide identity.

But all the geniuses who came out of the Tiangong Palace were terrifyingly terrible. They were weak and strong, and their fighting power was unparalleled.

Sweeping invincible peers, peerless elegance.

Obviously, Lu Ming possesses this characteristic, so Jiang Lebang thought of Tiangong.

If it's really Tiangong...then make friends now...

The smile on Jiang Lebang's face was stronger, and he was more polite to Lu Ming.

"Brother Jiang, you're welcome!"

Lu Ming smiled, and the clouds were light and windy.

"Brother, we are now going to the Kingdom Kingdom of Tianyue God, how about together?"

Jiang Lebang said.

"Coincidentally, I'm going to the Kingdom Kingdom of Tianyue God, together!"

Lu Ming said.

Jiang Lebang and others were overjoyed, and with Lu Ming, a great master, their strength greatly increased.

Immediately, they set off and proceeded along the west side.

There was no accident along the way, a day later, a huge city appeared in front of them.

This city is tall and majestic, like an ancient behemoth, lying on the earth, and far away there is a powerful coercion.

This is the capital of the Kingdom of God.

However, the city gate is closed.

Lu Ming, they were not the first to come. When they came, other forces had arrived.

"Why don't you go in?"

Someone asked those forces that arrived first.

"The gates are closed and difficult to enter!"

One of the forces that arrived first was the Bing Yueteng clan, someone answered coldly.

"City gate can not enter, it is better to fly in from above the city!"

Jiang Lebang is humane here.

"You guys can try it!"

The people of the Bingyue vines answered coldly.

These words shocked Jiang Lebang, Lu Ming and others.

Obviously, there is danger when entering from above the city, otherwise, the people of the Ice Moon Vine family have already entered from above the city.

"Go try the city gate!"

Jiang Lebang sent a message to the people under his command.

Suddenly, there were more than a dozen quasi-imperial powerhouses flying towards the city gate, and the gorgeous light burst out and bombarded the city gate.

Boom!

The city gate roared, but did not break open, steady as Mount Tai.

More than a dozen prospective emperors continued to attack, with all their strength, still useless.

There are powerful formations on the city gates and walls, and as soon as they attack, runes appear on them, blocking their attacks.

Jiang Lebang continued to send people, and even the powerful people of God's Emperor Realm shot, still not breaking through the city gate.

"If you want to break through this gate, I am afraid that one or two Divine Emperors will not be able to do it. Let's wait for the people of other forces to come together and let us go!"

A **** emperor of the ice moon vine family.

Jiang Lebang can only make people retreat and wait here.

As time went on, people kept coming.

Suddenly, Jiang Lebang's eyes burst into a cold murder, sweeping in one direction.

Over there, Qianlizong and Kunyuanzong came together.

Gan Lizong and Kun Yuanzong also coldly scanned Jiang Lebang, Lu Ming and others, especially when they swept across Lu Ming, they were full of dignity.

A few days later, all the forces that entered the Tianyue Shenguo site were all there.

There are a total of eight forces, each of which has a **** emperor sitting in it.

"Huh? Sky locusts, why are there so few people?"

"Did other people find other opportunities, wouldn't they be robbing us with the Kingdom of God?"

Many people's eyes, from time to time glance at a few people of the locust tribe, there is a lot of discussion.

At the beginning, Lu Ming killed a large number of locust tribes, but some of the locust tribes who entered here were scattered, and a few remained.

At this moment, the faces of these locusts are ugly.

"Aren't your locusts coming?"

The Bingyueteng Yueyue clan looked at the few locusts and asked.

"We don't know, we can't reach the son of the locust, and even the two **** emperors can't reach us!"

One of the elderly locusts said, his face was anxious.

"Can't get in touch?"

Others glanced at each other and saw shock.

No contact, either trapped in a place isolated from the outside, or both died.

However, so many people can't be reached, and it is more likely that they are all dead.

Including two **** emperors!

Thinking of this, many people took a breath.

The emperor is dead, what happened? Did you meet that eight-clawed octopus monster?

There are still other dangers.

There is news before entering, there is evil here, the emperor cannot enter, is it true?

"It doesn't matter, let's go first, break open the gate of the city, enter the opportunity to seize the inside, and then leave here!"

Monthly opening.

"Okay, the emperors of all major forces shot!"

One of the **** emperors stepped out.

Then, other **** emperors also stepped out.

Eight forces, out of a total of eight emperors.

Some people know that there may be more than one Divine Emperor coming in, but they will not say anything.

Lu Ming, naturally will not shoot!

boom!

The eight **** emperors shot together. Eight horrific attacks blasted towards the gate of the city, and a violent explosion sounded.

On the city gate and the city wall, runes continued to emerge to resist these attacks.

However, the power of the eight Divine Emperors was too strong. The gate of the city was shaking more and more. The runes above, the light constantly flashed, was very bright at first, but soon after, the light began to dim.

after an hour...

Bang Bang Bang...

The runes on the city gate exploded continuously, making a "bump" sound. For a moment, the above runes disappeared without a trace.

Without the blockade of the large array, the city gate could not stop the attacks of the eight **** emperors.

boom!

With a loud noise, the city gate was torn apart.

Chapter 3730: Evil pit

The city gate burst, and you can clearly see the scene in the city.

In the city, the light is very dim, and you can see the ancient buildings.

"go!"

Suddenly, someone moved and rushed towards the city. In an instant, they entered the city.

There is nothing strange at all, and there is no danger.

Others reassured him, he rushed into the city.

Lu Ming and Jiang Lebang also rushed into the city.

Uh, uh...

The figure flashed, and the people scattered and flew towards the buildings.

If you have a chance, you must be in these buildings.

Lu Ming also flew to a huge building.

Along with Lu Ming, there are more than a dozen others.

These people come from different forces.

The difference is that there are people from Qianlizong and Kunyuanzong. When they saw Lu Ming, they showed a terrified look, flashed in shape, and left.

The rest did not know Lu Ming's strength.

Lu Ming was too lazy to ignore these people and rushed towards a hall.

"Boy, Shenjun Wuzhong dare to join in the fun and get out!"

A burly, red-haired man drank coldly, and Pu Fan's huge slap came towards the landing ming fan.

This great man is not weak, and he has the cultivation practice of Divine Monarch Jiuzhong. If this slap is a fan, with Lu Ming Divine Emperor's cultivation practice, there is only one way to die.

In his mouth, Lu Ming was asked to get out, but he started with a killing move, which was to kill Lu Ming.

The means is not spicy!

"This kid is dead!"

Others saw this scene and smiled happily.

But their smile disappeared in the next moment.

The wind screamed, and the palm of the red-haired man was about to fan Lu Ming.

"You're the one who gets off!"

Lu Ming drank coldly and slapped his backhand.

He clearly fanned out from behind, but came first, before slap him in the red-haired big fan, he slapped it on the red-haired big man's face.

Snapped!

A crisp slap sounded, accompanied by a screaming scream, the body of the red-haired big man flew out like a cannonball, smashed several walls, fell to the ground, vomited blood, twitched a few times, and so on No breath.

He was slapped by Lu Ming with a slap.

The existence of a prince, Jiuzhong, was just killed.

Others took a breath of breath, his face full of horror.

They were terrified afterwards, and some people oozed cold sweat.

Some people have the same thoughts as the red-haired big man, thinking that Lu Ming, a prince with five heavy bugs, has come to join in the fun. They want to slap Lu Ming to death.

It's just that the red-haired man is just one step faster.

If they shot just now, then the dead person is them.

Thinking of this, they were afraid after a while.

"go!"

There is only one thought in these people's hearts. Don't run into Lu Ming.

If such a combat power as Lu Ming encounters treasures, where can they still have their share?

All of a sudden, only Lu Ming was left in this building.

Lu Ming smiled, that's fine.

Lu Ming entered the hall and found that the decoration in the hall was complete, but there were some things that were already decaying.

Lu Ming looked carefully and found that only a few things were useful. Lu Ming put it away and then searched again. When nothing was found, Lu Ming left here and went to another building.

Next, I found several buildings in a row and found nothing.

"That is..."

Suddenly, Lu Ming felt a cold air in front of him. Lu Mingfei moved forward and found that there was no building in front, but a huge pit.

The pit is round, like a round black hole, with a diameter of a hundred miles.

The cold breath came out of the pit.

There were already some other people on the edge of the pit, and these people looked at the pit curiously.

Here, how can there be such a pit, it is too dissonant.

Here, it is the capital of the Kingdom of Heaven and the Gods, and there are magnificent buildings everywhere, but in the building, how can there be a huge pit, this is too abrupt, too discordant, and very abnormal.

"What's next?"

"It's strange that this place should be a building. Why is there a huge pit!"

"Would you like to go down and see?"

"This deep pit looks very abnormal, I think it's very evil, to go down, you go down first?"

There was a lot of discussion.

In the end, of course, no one dared to go hastily.

In the end, someone sacrificed the artifact and manipulated it to fly down the pit. After a while, the artifact flew out without any difference.

"There is nothing unusual, it seems to be just an ordinary pit!"

"It's just that the people of Tianyue God's Kingdom have a special layout, dig a pit here!"

Everyone shook their heads.

Some people are about to leave.

suddenly...

Roar!

In the pit, a tyrannical roar came out.

Everyone was shocked.

"Have you heard? There seems to be a roar in the pit!"

"I heard it too!"

Roar!

At this time, another roar came out.

More and more clear!

Roar...

Immediately afterwards, the roar kept ringing, full of tyranny, and it seemed very crazy. At this time, many people's faces changed, and they all backed away.

This voice definitely came from the pit.

Huh...

At the next moment, the pit was full of yin, and then suddenly rushed out of the figure.

These figures are adult-shaped, but the body is thin and skinny, like a skeleton, the skin is shiny with metal, and the eyes are full of tyrannical light.

Mummy!

These creatures look like corpses.

As soon as they rushed out, they made roars and rushed towards Landing Ming and others. The speed was amazing.

"kill!"

Everyone also launched a counterattack and attacked one after another.

A splendid sword light was cut on a corpse, but a sound of gold and iron clashes was made. Mars was shining, but it did not cut through the defense of the corpse.

The corpse roared, and in the past, his claws were like sharp weapons, scratching and tearing.

puff!

The flesh and blood flew, and the powerful eight-level superpower of the Divine Monarch was torn in half and fell to the spot.

These corpses also grabbed the person's body and chewed it up. The scene was terrible.

Ah...

There were continuous screams, and in a flash, more than ten masters were killed.

These masters are all in the presence of Divine King Jiuzhong and Divine King Eightfold, but in the face of these corpses, they are powerless. Only the slaughtered part cannot even break through the defense of these corpses.

There are also corpses killed Lu Ming.

boom!

Lu Ming's palm was like a knife, chopping on the body of a corpse, making a loud noise.

Lu Ming felt as if he were chopping on a magic weapon.

However, no matter how hard the magic weapon was, Lu Ming couldn't stop it. Eventually, the corpse touched and burst.

Bang Bang Bang!

Lu Ming waved his palms in succession, attacking more than a dozen consecutive moves, and in each move, a corpse was killed.
