

D Emperor 3781

Chapter 3781: One move spike

"Okay, just do it!"

"I will synchronize (equivalent to live broadcast, I will use live broadcast in the future, it is easier to understand)."

Several young people came up with the dream magic jade. The dream magic jade glowed and croaked at the landing.

Fantasy Shenyu can be recorded and uploaded, or it can be broadcast live. Others can directly see it through Fantasy Shenyu.

At this moment, Honghuang Universe countless days of arrogance, through the fantasy **** jade, saw Lu Ming's picture.

"Is it ordinary, what race?"

"It seems like a human race!"

"This person really doesn't know what bad luck he has left. He actually has a marriage contract with Princess Yuwei!"

"The key is that this person still refuses, it's really annoying me!"

Many people have talked about it, and the more they look at Lu Ming, the more angry he is, expecting Lu Ming to be suppressed.

boom!

At this moment, the young man with two noses stepped forward and drove toward the landing, and the breath of Divine Monarch's eightfold burst out constantly.

"Boy, kneel down, in front of the whole world, admit that you are not worthy of Princess Yuwei, admit that you are a spicy chicken..."

The young man with two noses said coldly.

His strategy is not malicious.

If Lu Ming said that in front of the whole world, his face would be lost.

Even if they have a marriage contract with Ling Yuwei, the elven race, they will never let Ling Yuwei and Lu Ming get married.

When married to such a person, the elves are equally ashamed.

"It is good!"

Other Tianjiao secretly applauded, and secret praise is really a good strategy.

Of course, some people are secretly anxious, that is flush.

"It's an idiot, the gods and goddesses are..."

Qi Ping scolded the two-nosed young man.

Lu Ming defeated the existence of Ziyang Prefecture. The gods of your area are eightfold. Now they are so arrogant. After being abused, Lu Ming will not only be embarrassed, but also famous.

However, he can't rush out to remind now.

"you sick?"

Lu Ming lightly glanced at the two young people.

"Boy, it seems that you did not agree, then kneel down for me!"

The killer flashed in the eyes of the two-nosed youth, and the divine power exploded, slamming out.

A huge palm was formed, and Ming Ming pressed towards the landing. Lu Ming was forced to kneel, and Lu Ming was embarrassed in front of the whole world.

However, Lu Ming stood there motionless, letting his palms be pressed down, looking shocked.

"Haha, look, that kid is stunned!"

"It's estimated that it was shocked. I even forgot to dodge it. I guess it was locked by breath!"

"A connoisseur knows if he has it, if he has the strength, he knows it as soon as he does it. This person used to call someone bragging in the fantasy space, saying that defeating Ziyangzhou is really ridiculous!"

"is not that right!"

The arrogance of all ethnic groups who watched the live broadcast through the fantasy space immediately had a lot of discussion.

You can send messages through Dream Space without writing them word by word. You can send messages directly by moving your thoughts, so the communication speed is very fast, which is faster than the time of mouth communication.

At this time, the exchange of these people stopped abruptly.

Because when the huge palm print was about to hit Lu Ming, Lu Ming shot.

boom!

Lu Ming cut it out with a random palm, a brilliant sword light burst out, and the palm prints issued by the two nose youths were easily cut.

"Huh? Some strength, then, how about this trick?"

The young men with two noses snorted. His two noses actually grew larger, and their nostrils became several times larger.

Roar! Roar!

Two consecutive roars erupted from his nostrils, forming a terrifying air pressure, and squeezed towards the landing.

This is a sonic attack. The two-nosed youth has already used the mastery of the bottom of the pressure box.

The air pressure is terrifying, and the pressurized space continues to explode, forming a large dark space, as if it can crush everything.

However, this attack may be terrifying to others, and to Lu Ming, it is nothing.

Uh!

Lu Ming rushed out directly, rushing out to meet the horror air pressure, rushing into the intake pressure.

The pressure of terror, like the breeze of the breeze, did not cause any damage to Lu Ming. Lu Ming rushed past and came to the two nose young men in a flash. The distance between the two was only a few centimeters, almost touching Together.

The two nosed youths froze.

The pupils glared round, the nostrils of the two noses exploded, and for a time, they forgot to retreat.

bump!

Lu Ming slapped out with a slap and slapped on the faces of the two nosed youths.

what!

With a screaming scream, the two nosed youths flew out, tens of thousands of meters away, and turned tens of thousands of circles in the air.

When he stopped, the person was completely dizzy, and the two noses were completely deformed and squeezed together, becoming one.

A face was distorted, and blood continued to flow from his mouth.

He couldn't even take off, fell to the ground, and was caught by another Tianjiao, otherwise it would be even worse.

The scene, as well as those arrogances viewed through the fantasy space, suddenly calmed down.

Lu Ming, actually killed two nose youths in one stroke.

You should know that Lu Ming is only the sixfold of the Divine Monarch, and the two young people with the nose, but the Eightfold of the Divine Monarch, differ by two realms.

It was just a trick that had to cause these people to pay attention to Lu Ming.

Let's not talk about whether the fact that Lu Ming defeated Ziyangzhou in the fantasy space was true. Now that Lu Ming can defeat the two nosed youths, it is enough to illustrate Lu Ming's terrible talent.

There is a Fengdu sword faction in every district, is there such a person?

"Well, talent is good, but it's too far to match Princess Yuwei!"

"Good, and the attitude is so arrogant, no one in the eyes, even if the talent is good, it is just a sixfold god!"

At the next moment, some people sneered, and the chill in their eyes was more intense.

"I'll suppress him!"

Another young man stepped out.

This young man, with a burly figure, although not very handsome, has a masculine spirit.

Behind him, there is a tail, the most eye-catching.

A strong breath erupted from this young man and blew toward the landing.

However, there was no slight impact on Lu Ming.

"Prospective emperor?"

Lu Ming whispered, his eyes flashed.

This is a quasi-imperial level arrogance. Obviously, after seeing the two nosed youths being easily defeated, the existence of other gods' eightfold and godly ninthfolds, they dared not take action for a while, and they were not sure.

Quasi-Imperial Tianjiao shot, the most secure.

"Come on, come up with your strongest strength, otherwise, that double nose is your end!"

Lu Ming said.

"Crazy, kill!"

The burly youth shouted and stepped out suddenly.

He took a step, but the speed was astonishing, and in an instant, he appeared in front of Lu Ming. His pair of fingers came out with sharp nails.

This person's body should be a raccoon, which is the paw of the raccoon.

Chapter 3782: Divine knife family, broken knife

The claws were like sky swords, cracking the void, and grabbing Lu Ming's neck.

"The power is good, but it is far worse than Ziyangzhou and Fengpeng!"

As soon as the opponent shot, Lu Ming felt the strength of the opponent.

This kind of strength, Lu Ming does not need to trigger the war character tactics, and points like a sword, pointing out several fingers in a row.

Lu Ming arrived first, and pointed to the palm of the burly young man.

The burly young man's complexion changed, his claws suddenly closed, and with sharp nails, he greeted Lu Ming's fingers.

bump! bump!

The two sides attacked and collided together.

"Stop it for me!"

The eyes of the burly young man burst into an astonishing cold light. His nails were sharper than the artifacts. Lu Ming actually bumped his fingers against him. He was just looking for abuse. He wanted to cut off Lu Ming's fingers in an instant.

But at the moment of the collision, the face of the burly young man changed. He felt that Lu Ming's fingers were harder than Shentie's. His nails were cut on it, and he stood still. Instead, his nails creaked and deformed. , And finally, with a few clicks, it broke.

"not good!"

The burly young man's complexion changed a lot and he pulled back.

"I want to retreat now, it's late!"

Lu Ming was faster than him, followed closely by the burly youth.

"It's now!"

Originally, the burly young man retreated, with a panic color on his face, but at this moment, the panic color completely disappeared, but instead showed a greasy, successful smile.

call out!

Behind the burly young man, a dark shadow screamed towards the landing.

Faster than steel whip, sharper than Excalibur.

It is the tail of a burly young man.

The original secret technique!

Lu Ming can perceive it without looking at it. This is the original secret technique of the burly young man. It turned out that this person's original secret technique was hidden in that tail. It was not used before, just to get Lu Ming in one fell swoop.

Unfortunately, Lu Ming is not an ordinary person, he also underestimated Lu Ming.

"interesting!"

Lu Ming's face did not change at all, and he always had a faint smile on his face. In an instant, he triggered the double combat power of the Warrior's Word, which increased his strength and the speed of his palm. As soon as he caught it, he held the tail of the burly young man in his hands and made it impossible to move.

"not good!"

The burly young man's face really changed a lot this time. His sudden blow, and the strongest blow, had no effect on Lu Ming, but Lu Ming grabbed it easily.

Moreover, he felt Lu Ming's hand, as if it were an indestructible star, and his tail was hard to move.

"Let me go!" the burly young man shouted, his fists slammed into the landing Ming's head.

Humph!

Lu Ming snorted violently, grabbing the tail of the burly young man, waving it, and violently rushing from the tail of the burly young man. The burly young man felt soft and uncomfortable.

He was waved by Lu Ming.

Huhuhu...

Lu Ming lifted the burly young man with one hand, and suddenly turned up. In an instant, he turned at least hundreds of thousands of times.

Such a high-frequency rotation is very terrifying, so that the air and space have become big killers, friction with the burly young man, and it has turned into a terrible force to bombard him.

Click, click!

The muscles of the burly young man were torn, the bones were broken, and blood continued to ooze from his nose and mouth.

Finally, Lu Ming threw it out and smashed it heavily on the ground, smashing the ground out of a big pit. The burly young man was lying in the big pit and could not move at all.

"This..."

This time, the Tianjiao at the scene, as well as the Tianjiao in the universe watching the live broadcast through the fantasy Shenyu, were all shocked.

Before, Lu Ming defeated the two nosed youths. Fortunately, in the past, after all, the gap between the two sides was not particularly alarming.

But now it is amazing.

Lu Ming, with the six-level cultivation practice of the Divine Monarch, crossed four realms and defeated a quasi-imperial Tianjiao.

This kind of combat power is terrifying.

"Did the fantasy **** jade say that this Muyun really defeated Ziyangzhou?"

Everyone had such a thought in their hearts.

Immediately, someone who knew Ziyang Prefecture sent news to Ziyang Prefecture.

Faced with a separate inquiry, Ziyang State did not deny it, and generously admitted.

As soon as the news came out, there was an uproar in the dream space.

The previous news was actually true, Mu Yun, actually defeated Ziyangzhou.

Ziyang Prefecture is not the burly young man before. Ziyang Prefecture has a certain reputation in the quasi-imperial circle of the entire wilderness universe. It has strong combat power and has been able to kill ordinary gods across the realm.

Such a character was actually defeated by Muyun. Doesn't that mean that Muyun can kill ordinary Divine Emperor by virtue of his sixfold cultivation practices?

unbelievable!

A word emerged in the hearts of all.

Unexpectedly, it was just a small Fengdu sword faction, and the appearance of such a character really turned against the sky.

Even the elders of many big races and powerful forces were alarmed. Through the fantasy **** jade, they watched Lu Ming's situation on their side.

"This kid has some strength. Did he just let him go?"

"Yes, is it just that he has humiliated Princess Yuwei, unforgivable!"

In the fantasy **** jade, some Ling Yuwei's suitors, or people with ulterior motives, spoke up and provoked everyone.

"It's true, today we have teachers coming from all over the world. If we are beaten back by this kid a few times, it will be a shame!"

At the scene, another young man spoke lightly.

This young man, dressed in a gray gown and carrying an iron knife on his back, was like a magic sword with a sheath.

"Of course I can't just go back like this. It's interesting. I have itchy hands. Who is going to shoot?"

Another young man wearing a yellow robe looked at the young man with a back knife.

"Come on, I want to see why he defeated Ziyangzhou!"

The young man with the knife finished speaking and stepped out.

Buzz!

The sword that had been quiet was beating and was held by the young man.

Suddenly, a knife burst through the clouds and burst into the stars.

"The broken knife of the Divine Sword Clan is about to be shot!"

Many people's eyes light up.

The Sword Clan is not ranked high in the Honghuang Wanzu List, only ranked 2398, which is far worse than the Ziyang Clan.

But it is not that if the ranking is not as good, there will be no terrible evil.

Breaking the knife is a terrible demon. In the circle of the quasi-imperial class, the reputation is greater than that of Ziyang Prefecture. It is said that its strength is also stronger.

Everyone was looking forward to it and wanted to see how Lu Ming defeated Ziyang State with the sixfold of Shenjun. By breaking the knife, he would definitely be able to force out all the strength of Lu Ming.

bump!

Broken knife stepped out, stepped into the void, the world trembles violently, the dense knife awns rushed toward the landing.

The snow-white knife-mans, densely packed, almost flooded Lu Ming, with the number of tens of thousands.

Chapter 3783: The shock I saw with my own eyes

The dense knife-and-blade rushed to Lu Ming, but Lu Ming punched out with a furious punch, crushing the void, all the void in front of him, all exploded, all the knife-blade, submerged by the void, disappeared Without a trace.

"You don't need temptation, just go all out!"

Lu Ming said.

While speaking, Lu Ming has triggered a five-fold combat power.

This broken knife gave him a lot of pressure and made him feel like facing Ziyangzhou. Therefore, Lu Ming didn't dare to carelessly.

"It's really my extra work, you have the qualification to let me do my best!"

Between the opening and closing eyes of the broken knife, there was a bright sword awn bursting out. The breath on his body was constantly rising. His eyebrows rushed out a gorgeous knife shadow, which coincided with the iron knife in his hand.

This is the original secret technique of breaking the knife.

"Iron Sword, Slash!"

The broken knife burst into tears and was chopped out.

Uh!

A stunned sword fell towards the top of Ming Ming's head, and the void was split open.

But this is not over yet. When the broken knife was cut out, his men moved and rushed towards the landing. The blade changed, and the knife was cut horizontally.

A horizontal blade of fire slashed towards the landing again.

With the knife before it, it formed a cross shape and cut towards Lu Ming.

Daomang's speed is very fast, and Lu Ming is approaching in an instant.

"Gravity beads!"

With a move in Lu Ming's heart, he urged the gravitational bead, and a powerful gravitational force exploded out, enveloping the very wide void of the square.

Buzz!

The two blades were squeezed by the pressure of gravity.

Then, Lu Ming waved his fist and bombarded the two knife awns. The knife awns were shocked and dispersed.

"Good strength!"

The remaining Tianjiao at the scene, as well as the Tianjiao of all ethnic groups who watched the war through the fantasy **** jade, as well as some senior figures, felt shocked.

Such a simple attack with a broken knife, such a combat power, is amazing, and it is stronger than the previous shot against the burly youth, I don't know how much stronger.

Obviously, Lu Ming didn't try his best just now.

"Great, come again!"

Broke the knife with a long roar, approaching Lu Ming, the war knife continued to cut out to the landing Ming.

Sword attack is direct, overbearing, and powerful.

The splendid knife light, a horrible roar, encroaching on the terrible power, cut towards Lu Ming, blocked all the retreat of Lu Ming, and forced Lu Ming to resist.

Lu Ming manipulated the gravity bead, with strong pressure, constantly pressing towards the broken knife, forcing him to have to work his divine power to fight against gravity.

boom!

Lu Ming squeezed his fist, mobilized all the cells, and mobilized the secret techniques in all the cells. These secret techniques, condensed together, turned into two regiments, wrapped in Lu Ming's double fists.

Lu Ming fought hard to break the sword of the knife, and the two confronted each other fiercely.

"A strong attack is a little stronger than the Ziyangzhou attack!"

Lu Ming was also shocked.

Honghuang Universe, really genius like a cloud, can not underestimate anyone.

This knife-breaking knife is absolutely overbearing, and its power is amazing. Compared with the Ziqidongzi in Ziyangzhou, it is more than that.

Its ability to confront head-on is even stronger.

However, Lu Ming is now a little stronger than when he battled with Ziyang Prefecture.

First, his realm is more stable.

Second, during this time, he practiced some more secret techniques and integrated them into the cell. There are a total of 550 kinds of secret techniques under his control. Although these secret techniques are not enough now, But under the influence of the taboo power, the power is also very amazing.

But in the battle with the broken knife, it did not occupy much advantage.

The two were in a fierce battle, and all around, everyone watched quietly, and a heart was ups and downs, which was difficult to calm down.

It's one thing to hear, another thing to see with my own eyes.

Earlier I heard that Lu Ming could defeat Ziyangzhou. At first, everyone was unbelievable.

Later, Ziyangzhou admitted that although they believed, they were not so shocked.

At this moment, I saw Lu Ming's six-fold cultivation of the Divine Monarch as his own, and he became a tie with the broken sword stronger than Ziyangzhou. That kind of shock was difficult to express in words.

"It's incredible to be so powerful. Are there the best monsters in the top ten races?"

Someone expressed this view in Dream Space.

However, no one answered.

The top ten races are talented, and those top devils are not as powerful as their combat power.

But is it so strong?

Divine King Liuzhong and the broken knife, which is also the devil's arrogance, became a tie? Can it be done?

Everyone expressed doubts.

Perhaps another demon with the ability to suppress the top ten races was born.

Throughout the ages, among the younger generation's rivalries, the evil spirits of the top ten races have undoubtedly exerted pressure on the leaders.

They are invincible, overwhelmed by the arrogance of other races.

They are synonymous with invincibility.

But there are exceptions.

There are always some times when those weak races will produce invincible demon. That kind of demon, one by one, will be absolutely stunning. With a weak race, it will rise against the trend and step on the feet of the top ten demon of the top ten races to achieve invincibility. Prestige.

There are not many such people, but there is no shortage of them.

They believe that Lu Ming has such a gesture.

In the complex psychological activities of everyone, Lu Ming and Bro Xiaodao have already confronted hundreds of moves.

The two of them have no extra fancy, they are both strong and strong, hard and hard, directly shocked.

Every move is to make every effort.

This style of play is very expensive.

Especially for the broken knife.

Knife path requires constant advancement and every effort. Every knife is the strongest knife. Every knife is a murderous knife. There is no escape route.

But in this case, the speed of consuming divine power is even more amazing.

What's more, breaking the knife, you also need to run the divine power, to counter the suppression of gravity beads, the divine power consumption is greater.

After hundreds of strokes, the broken knife has been sweating heavily, breathing heavily, and the power of the knife has begun to weaken.

"Broken knife, dangerous!"

Many people can see that with a broken knife, they will lose.

The swordsman, once he can't kill with all his strength, the one waiting is to be killed.

The power of the swordsman is the most terrifying, but the weak is fast.

"You lost!"

Lu Ming Changxiao, double fists constantly burst out.

Dangdang!

The unmatched fist bombarded the sword of the broken knife, making his sword vibrate endlessly, and the broken knife himself retreated, and the tiger's mouth oozed blood.

As soon as he retreated, Lu Ming ushered in a more stormy offensive.

After a few more moves, the broken knife could not stop Lu Ming's offensive and was hit by Lu Ming with a punch.

Broken knife flew out, a blood hole exploded on his body, and almost half of his body almost burst and was hit hard.

Chapter 3784: Below the emperor, I will continue

Although the attacking power of Broken Knife is strong, the defensive power is not as good as that of Ziyang Prefecture. He was hit by Lu Ming and was seriously injured.

"You lost!"

Lu Ming did not continue to pursue, and spoke indifferently.

"Damn!"

Many people roared.

Qi Ping, who was hiding in the dark, was mad and roared.

Originally wanted to abuse Lu Ming, but instead achieved Lu Ming's prestige, he depressed to vomit blood.

"War, war, how many arrogances in the world, even if you defeat a few, there will be more behind, there must be a stronger arrogance to find this kid trouble!"

Qi Ping comforted himself.

Po Xiaodao's face was sullen, and there was no more fighting, and it turned into a sword light and left here.

"Will anyone fight again?"

Lu Ming glanced at the Quartet like two sharp swords.

Everyone who was caught in his eyes changed their faces one by one, and some were afraid to look at Lu Ming.

Among the dozens of people they came this time, the broken knife is one of the strongest.

Although there are still a few who can compete with the broken knife, but the broken knife is defeated, they go up, it is estimated that it is also hanging.

For a time, no one was fighting.

They even want to coax up and join forces to suppress Lu Ming.

But just thinking about it, I really can't do it.

What is the purpose of them coming to Lu Ming? It is for the fairy princess Ling Yuwei, to suppress Lu Ming in front of Ling Yuwei, so that Ling Yuwei knows that Lu Ming is a waste, not worthy of him, and raises himself by the way.

If they join forces, their reputation will stink, and they will not be able to lift it up in front of Lu Ming, but will increase Lu Ming even more.

They are pretty sure that Ling Yuwei is now also watching with fantasy Shenyu.

They did not guess wrong, Ling Yuwei, indeed watching with the fantasy **** jade.

On a remote planet, in an elegant courtyard, an amazingly beautiful elf woman is watching with a fantasy **** jade.

This astonishingly beautiful woman is the elven princess Ling Yuwei, one of the twenty pearls of the Honghuang universe.

Fantasy Shenyu shines and projects a picture in the air.

The person in the picture is Lu Ming.

On the edge of Ling Yuwei, I had seen Lu Ming's wraith before and stood quietly.

On the other side, there is an elven elder woman.

"Yes, I didn't expect this Muyun to have this talent!"

Seeing Lu Ming defeat the broken knife, the elven elder woman exclaimed.

"Huh, there are some talents, but they are too proud. I have said before that the young lady is going to marry him. He actually looks like he is unwilling. !"

Wandering road.

She was also cherishing Lu Ming.

"Miss, although you have a marriage contract with this Muyun, it was a matter of how many years ago, and this Muyun did not take the initiative to find it, why should you take the initiative to marry this person?"

Then, Ling Ling looked at Ling Yuwei and asked curiously.

"Spirit, you shouldn't ask, don't ask!"

On the edge, the elven clan stared at the wandering spirit.

The wandering does not know, she does.

Ling Yuwei's father, the current elder patriarch, intends to marry Ling Yuwei to a peerless demon of the angel race of the top ten races for marriage.

However, Ling Yuwei was unwilling.

Although, the evil spirit of the angel family had amazing talents and had no origins, but she had inquired that the man was too careless and had a bad reputation.

Ling Yuwei, will not marry such a person.

However, it is difficult for her to reject her father.

Therefore, she thought of the fiancée who had never met. This time she came to the Tiehai Starfield Group to see the fiancée who had never met, Muyun.

Originally, she wanted to force 'Muyun' to marry her falsely, so that she would not have to marry the angel clan Tianjiao.

When she came, she just happened to meet the Resource Covenant. When she was curious, she went to see it.

Unexpectedly, at the time of the resource covenant, Lu Ming actually saw Lu Ming's fighting power and was shocked.

Upon inquiries, I knew Lu Ming's name, called 'Muyun', from the Fengdu Sword School.

This is too coincidental.

Of course, this also made Ling Yuwei change her mind a little bit.

Lu Ming is so talented that she also has a refreshing movement. At the very least, it is better than the angelic arrogance.

In addition, she had another purpose, so she let the wandering spirit pass by and said she wanted to marry Lu Ming.

I just didn't expect that Lu Ming would disagree, and things would be so big afterwards, and gradually got out of her control.

"Look, I hope this Muyun can bring me more surprises!"

Ling Yuwei's eyes flickered a few times, and she smiled, like flowers in full bloom, even the wandering spirit and the elven clan's old lady were stupefied.

The wandering spirit is very beautiful, and it is among the top beauties among all ethnic groups in the Honghuang Universe, but standing beside Ling Yuwei is eclipsed.

...

Fengduxing, where Lu Ming lives.

For a time, no one dared to fight.

"I know that you are here because of the fairy princess, but once again, I have no intention of marrying the fairy princess. I already have a sweetheart!"

"You want to pursue the elven princess, you can pursue it yourself, you can't pursue it without your own ability, what does it mean to bother me here?"

Lu Ming shouted.

Lu Ming's words were heard by many people through the fantasy **** jade.

Once again, Lu Ming rejected Ling Yuwei in public.

This makes countless days of envy, jealousy and hatred.

The elven princess took the initiative to marry him, and he actually refused. Many people envied them to be mad. If they were to change them, they would have to wake up laughing.

"Look, look, this kid... there is no one in the eyes, I'm right!"

The remote planet, wandering aura's small face white, staring at Lu Ming in the picture bitterly.

"interesting!"

The fairy princess was not angry, and smiled gently, and did not know what to think.

"This kid, so rampant, what does he mean, belittle us?"

In the universe, many days of arrogance roar.

Lu Ming's remarks were that Chiguo Guo degraded them.

They couldn't pursue the elven princess, but Muyun refused the elven princess. This was Chi Guoguo's face.

"This kid, I will suppress him!"

"It's arrogant with a little strength, it's just the sixfold god, what is arrogant?"

"I can shoot him with one hand!"

There is a lot of noise in the fantasy **** jade.

Lu Ming, through the fantasy **** jade, naturally sees clearly.

However, Lu Ming is fearless, come and come, just give him pressure to make him break through quickly.

"You guys, look for me to discuss, it doesn't matter, my **** prince's sixfold cultivation behavior, as long as you are under the **** emperor, come to me to take it!"

Lu Ming continued to speak.

He said this, and directly blocked the mouth of those **** emperors.

He made it clear that his cultivation behavior is only the sixfold of the Divine Monarch. Below the Divine Emperor, he all went on. As for the Divine Emperor above, are you also embarrassed to come?

Chapter 3785: LeFengXingHe

To put it plainly, Lu Ming is a prince who challenges the universe.

Quasi-Emperor is actually within the realm of God.

Since these people wanted to deal with him, Lu Ming was not afraid, he directly initiated the challenge, just to use these people's pressure to stimulate their potential and let themselves break through faster.

Moreover, if you initiate a challenge, you can take the initiative and let the arrogance above the emperor embarrass you.

Otherwise, the **** emperor shot, he is not an opponent at all, no need to fight.

Lu Ming's remark caused an uproar.

"What a courage, is this challenging all the gods?"

"He thought that he would be invincible if he defeated the broken knife? No one knows that there are people outside of the world, there are people outside, and many of the top evils have not shot!"

"Yes, some of the top evils of the top 100 races have not shot, let alone, the evils of the top ten races!"

"The monsters of the top ten races generally don't shoot. Even so, other top monsters are more than enough to kill him!"

Fantasy space, a hustle and bustle.

Among the major races of the universe, there are young demon thoughtful.

"Interesting, this Muyun, I will meet!"

Among the mother stars of the Tianmian clan ranked 26th in the Honghuang Wanzu list, a young man with white hair and white eyebrows and white robe and white shirt looked at the portrait of Muyun in the fantasy **** Jade, showing strong interest.

"Ling Yuwei is my woman, no one can take it, this kid dares to blaspheme my woman, **** it!"

Among the other top 100 races, a terrible cold voice came out of the arrogance, and the murderous coldness was like a sword.

"Go, go and see!"

"I haven't exercised for a long time. Just before I broke through the Divine Emperor, I exercised, and I had a great evil spirit, paving the way for my invincible road!"

Powerful races, all with top-level evildoers stepped out and headed towards the Tiehai star field group.

However, Lu Ming again released a sentence in Dream Space.

"We, fight again in three years!"

After saying this, Lu Ming left his place of residence and disappeared from everyone's eyes.

Yes, Lu Ming did not intend to fight now.

Now, he is not sure.

Through the fantasy **** jade, Lu Ming knows that with the broken knife, Ziyang Prefecture is only a small fame among the quasi-empires of the entire wilderness universe, and it is not the top.

And he, when fighting with the broken knife, almost broke out.

At most, there is a six-fold combat power that has not been triggered, but a six-fold combat power has a one-tenth chance.

He is certainly not an opponent when he encounters a quasi-imperial evildoer stronger than the broken knife and others.

Therefore, he plans to find a place to practice for a while, add some details, and then fight these people.

So after setting it for three years.

"Nest..."

Watching Landing Ming leave, these leaving Tianjiao, could not help but scold swear words.

However, these people did not stop, but continued to come towards the Tiehai star field group, because some people speculated that the fairy princess Ling Yuwei was in the Tiehai star field group.

This is a rare opportunity.

I usually want to see the fairy princess Ling Yuwei, but it is not so easy.

For a time, the Tiehai star field group became lively, and the arrogance of powerful races came over and appeared in this Xinghai.

The eighteen forces of the Tiehai star field group all mobilized one after another and tried to make friends with these evil spirits.

For a time, the evil spirits of the Iron Sea Stars gathered together and gathered together.

Lu Ming has left the Tiehai Star Field Group.

Came to a strange galaxy.

This galaxy is called Gale Gale.

Because inside, the whole galaxy is surrounded by a peculiar wind.

This kind of wind is hot and full of destructive power, so it is called Gale Gale.

The gale of the Gale Gale is terrifying and can destroy the planet and tear the void. The entire Gale Gale is dead and there is no power here.

Only occasionally someone will come to experience and explore the unique treasure of Gale Galaxies, Gale Stone.

Of course, Lu Ming did not come for the gale stone. He came here to use the gale force to stimulate his potential and achieve a breakthrough.

Since being beaten can achieve breakthroughs, those who practice with terrible strong winds should also be able to stimulate their potential, are they all 'abuse'? Lu Ming thought helplessly.

At the next moment, Lu Ming rushed straight in

Huh...

The violent wind swept through Lu Ming's flesh, like countless sharp blades, cutting Lu Ming's body. At the same time, the temperature was so alarming that Lu Ming was to be burned.

However, this gale that could destroy the magic soldier left no trace on Lu Ming.

"The power is far from enough, must go deep!"

Lu Ming thought.

Gale Gale has a core. In the core area, the power of Gale will be stronger.

Lu Ming flew in the direction of the strong wind, and the stronger, naturally, the closer to the core.

Slowly, the power of the strong winds became stronger and stronger. Here, even if the god's sevenfold and heavy presence enters, it is very dangerous to be swept and killed by the strong winds, but still does not cause damage to Lu Ming, even his skin surface. Not broken.

Lu Ming didn't even take the initiative to defend, but only rely on physical defense.

Can only continue to move forward.

The area of a galaxy is very vast. Lu Ming speeds up, and the distance of hundreds of millions of miles is within a blink of an eye.

"Hey, there is a planet!"

Lu Ming was slightly surprised.

In the starry sky, he saw a planet, but this planet is very small, hundreds of millions of times smaller than the ordinary planet.

"In the strong wind, it can still be preserved. It is really rare. The material is definitely unusual. Go and see!"

With a move in Lu Ming's heart, he flew towards the planet.

It's a planet, but it's very small and similar to a meteorite.

Endless strong winds swept across the planet, making a clanging sound.

On the planet, there is no grass, no creatures, no mission plants.

Lu Ming landed on the planet and felt it carefully.

"It's all made of metal ore..."

Lu Ming's eyes lit up.

This planet is composed entirely of metal ores and is extremely hard. No wonder it can be preserved in such a cruel environment.

"I eat..."

The ball flew out, opened his mouth wide, and gnawed at the planet.

With a bang, a large piece was bitten off.

The speed of the ball is very fast, and soon a huge passage is bitten out, which has been leading to the core of the planet.

The further it goes to the core, the harder the texture, and the more the metal content.

Lu Ming can't recognize what metal this is, but can feel that this metal is not trivial, at least it can be used to refine monarch artifacts.

The ball was eating faster and faster, and suddenly, with a click, the front was actually empty, and a dark passage appeared.

Under this planet, there is actually a passageway, Lu Ming is already eating.

"who?"

A cold drink came, then the figure flashed, and several figures appeared.

Chapter 3786: Fancy ball

Several figures appeared suddenly in the passage.

A total of three people, three middle-aged men, each wearing a metal suit, holding a metal spear, his eyes cold, swept toward Lu Ming, and the ball...

At this moment, the ball is eating the metal mine. A few bites, it is a big hole, which makes the expression of the three middle-aged big men change, and then reveals the hot glow.

"Awesome metal life, eating gold and iron like tofu!"

"This is definitely a high-level metal life!"

The three middle-aged men, with extremely bright eyes, stared at the ball, desperately wanting to take it for themselves.

After watching the ball for a while, their eyes fell on Lu Ming.

"Six Thousand Gods?"

The three middle-aged men were slightly surprised.

"Shen Jun Sixth can come here, it should be a treasure against the strong wind, boy, your metal life, we are fancy, you leave this metal life, and then go!"

A middle-aged man in the middle yelled at Lu Ming. This person has a scar on his face and looks terrible.

"Fancy ball?"

Lu Ming was quite speechless.

However, he has discovered that these three middle-aged big men are all quasi-imperialists.

Ordinary prospective emperor, Lu Ming didn't even see it in his eyes.

If it is a wicked monster, at this age, it is impossible to be just a quasi-empire.

"Ball, let's go!"

Lu Ming greeted the ball.

It is naturally impossible to give the ball to the opponent.

But Lu Ming did not want to cause trouble. After all, he came to Gale Galaxies to cultivate.

Moreover, depending on what the other party looks like, it should be mining this metal here, maybe there are stronger characters. If there is a powerful God Emperor, it will be troublesome, so Lu Ming plans to leave.

"Eat, I want to eat, it's delicious..."

The ball is reluctant to continue to nibble.

The three middle-aged big men, however, showed a terrible color, or the middle big man: "Boy, let you surrender this metal life, you didn't hear it? It seems that you don't want to live!"

"Ball, wait for some other metal for you to eat, let's go!"

Lu Ming still ignored the opponent and walked towards the ball, intending to take it away.

Three middle-aged murderous explosions.

"Boy, if you die, then I will fulfill you!"

The big man on the left shouted, the murderous body was moving, the burly body moved, the iron armor clanged, and the metal spear in his hand, with a whine of breaking the air, assassinated to the landing, the power was amazing.

But even if the power is amazing, it is only quasi-imperial.

when!

Lu Ming turned around and punched on the spear, causing the spear of the other party to vibrate. The figure of the middle-aged man could not help but retreat.

"what?"

The other two were taken aback.

Lu Ming, actually hit the middle-aged man with a punch.

The six-folded Divine Monarch shocked a prospective emperor. Although the middle-aged man did not use his full strength just now, it was not trivial.

"Just now, I've been merciful, and if you don't know how to live or die, you will blame me for being merciless!"

Lu Ming said with a cold face.

"Boy, you are looking for death, the eldest brother and the second brother, shoot together and kill this person!"

The repulsed man became furious.

"Shoot!"

The remaining two middle-aged men were very decisive and shot at the same time. The spear broke through, killing Lu Ming, and attacking the heart and head respectively.

And the repulsed big man also shot, stabbing at Lu Ming's throat.

This time, the three middle-aged men used their full strength.

"court death!"

Lu Ming's complexion was completely cold, and his eyes burst into murder.

He has endured and endured, letting go of it again and again, but these people have to score, not only to **** the ball, but also to kill him.

Then only, kill!

Buzz!

In Lu Ming's palm, a spearman appeared.

This is the lance that is condensed by the gun secret technique, which is extremely sharp and comparable to the real sharp gun.

call out! call out! call out!

Lu Ming's spear shocked, three guns burst out of the spur, and then came first, stabbing three middle-aged men.

puff! puff! puff!

The blood was splattered and the three guns hit the eyebrows of the three middle-aged men accurately.

The three middle-aged big men, their eyes wide open, are incredible.

The three prospective emperors shot together, and with the tacit understanding, Lu Ming was about to be killed. Unexpectedly, Lu Ming shot behind him, but the speed was surprisingly fast. They killed them in one fell swoop.

how is this possible?

They fell down softly, and there was no more breath. Their souls had been destroyed by Lu Ming just now.

"court death!"

Just then, deep inside the passage, a tyrannical roar came.

Then there was a huge breath, rushing crazy towards this side.

"Emperor!"

Lu Ming's face changed.

This breath is the breath of the Divine Emperor.

Sure enough, the people who mine metal mines here are not only three middle-aged big men, but also stronger ones.

"Ball, go!"

Lu Ming rolled up the ball with divine power and retreated towards the back.

He can't figure out how many masters the opponent has here. If there is only one heavy emperor, he has no fear, but if there is a stronger one, it will be troublesome.

Lu Ming retreated, and the violent breath in front of it was rolling, very fast.

However, Lu Ming was faster, with a few flashes, he left the channel and came to the surface of the planet.

boom!

As soon as Lu Ming came out of the surface of the planet, behind him, there was a terrible howling and a strong force that struck Ming.

Master, but also God Emperor level master.

Obviously, someone has appeared behind Lu Ming to intercept him.

The speed was so fast that Lu Ming didn't have time to trigger the war character tactics. Without thinking, he punched backwards.

boom!

A roar from a distance, violent energy swept across all directions, Lu Ming thundered, his body flew out, flying all the way away for thousands of kilometers before stopping.

Only at this time did Lu Ming see clearly the appearance of his attackers.

He was also a middle-aged man with a burly figure, a gold-iron suit, red hair and a violent breath.

This is a strong man with a heavy emperor.

The red-haired strongman, shocked when he saw Lu Ming's hard-handed action, did not die.

A prince with six heavyweights, it was okay to take him a hard stroke, but he had never met him.

Uh!

The sound of breaking the sky sounded, and a figure flashed out in the channel where the ball had just been eaten.

This is an old man, also wearing a metal war suit, and his face is full of flesh, like iron pimples piled up together.

This is the strong man who chased Lu Ming just now, and it is also the existence of a **** emperor.

The two Divine Emperors weighed together and surrounded Lu Ming around.

At the next moment, the sound of breaking the sky continued to sound, and hundreds of figures appeared in several other directions.

All are people in metal suits, from middle-aged men to old men.

The weakest one is Xiujun Jiuzhong, most of them are Quasi-Emperors.

Chapter 3787: Two great emperors

"Boy, who dares to kill us, to death!"

The old man chased out behind was glaring cold.

"Your people are going to kill me first, can't I fight back?"

Lu Ming said lightly.

If the opponent only has these people, he has no fear.

"Nonsense, the person who killed us is going to die, how can there be so many reasons to kill!"

The old man, like an iron pimple, was extremely tyrannical. He stepped forward, the ground on which he stepped rumbling, and slammed toward the landing.

"Huh, do you really think I'm afraid of you?"

Lu Ming's eyes were cold, and he made a killing. The five-fold combat power of the warfare tactics had been triggered, and he punched out.

boom!

Fists of palms intersect, a terrifying shock erupts, and then the two figures retreat at the same time.

"what?"

Everyone at the scene widened their eyes and showed incredible colors.

Lu Ming, actually blocked the old man's move, and also repelled the opponent.

how can that be?

And the old man like an iron pimple, turned over the river in his heart, almost ignorant.

Originally, he thought that there was a sixfold existence of a prince, he could slap into ashes. Unexpectedly, Lu Ming was incredibly powerful. The force that Lu Ming broke out just now was not weaker than him. .

This kind of power appears in a person with six princes, like a fantasy.

"This man is a demon. Let's take action together and fight quickly to kill this man!"

The red-haired big man shouted, a fiery red spear appeared in his hand, stepped forward, his breath was violent, and he drove towards the landing.

As for the other hundreds of prospective emperors and **** princes Jiuzhong, they also flashed in shape and surrounded Lu Ming in the middle, preparing to shoot together to kill Lu Ming.

"kill!"

"kill!"

The strong men of the two Divine Realms shouted and shot at the same time. The spears broke into the air, and the palm marks traversed the void. From two different directions, they slammed towards the landing.

The two Divine Emperors teamed up to deal with a junior with six heavyweights, and spread it to make others laugh, but they didn't care about it at the moment.

In the wild, there is a default rule.

That is, once a horrible evildoer is encountered, and it is already offended, it is necessary to kill the evildoer at all costs and kill people.

Because this kind of evildoer is generally from a powerful force, it comes out to experience. Once it offends the other party, and does not kill the other party, then wait for the other party's revenge.

Therefore, this is the rule of the vast universe.

Since they have offended Lu Ming, they must do their utmost to kill Lu Ming, who can cultivate Lu Ming's evil spirits. The forces behind them are absolutely amazing. They dare not let Lu Ming leave alive.

"bring it on!"

In Lu Ming's eyes, a strong fighting spirit was revealed, and the sixty trillion cells in his whole body shuddered, with taboo power all over his body.

boom! boom!

Lu Ming's double fists seemed to turn into two planets and smashed past in two directions, colliding with the two **** emperors' attacks.

A violent breath swept through, and the ground continued to burst into pits.

You know, the ground here has been swept by strong winds all year round, leaving only some metal ore condensed together, becoming extremely hard. It is not easy to mine, and it can hit big pits on it, showing the horror of power. .

The two **** emperors didn't help Lu Ming, but Lu Ming stopped only after shaking a few times.

"This kid..."

The two **** emperors were deeply shocked, and then the chances were even greater.

The two of them did not hesitate, they continued to kill the landing, and displayed the unique skills of the bottom of the pressure box. In any case, they should kill Lu Ming.

Lu Ming was fearless and his arms were shocked, as Kunpeng slammed into a war with the two **** emperors.

These two emperors are just the most common emperors. Among the emperors, they are the bottom ones, so Lu Ming is not in a hurry to use the gravity beads, and rely on his own power to fight against each other.

Although, facing the two **** emperors, Lu Ming is a bit disadvantaged, but the opponent wants to defeat him, it is not so easy.

There are dozens of moves between the two sides, but Lu Ming has nothing to do.

"You guys, set up battles and shoot together!"

The red-haired man yelled and called on others to join forces to kill Lu Ming.

Hundreds of masters immediately laid out a battle formation, condensed a bright spear, and screamed towards the landing.

The battle array under so many masters is very amazing, and the spear that has been condensed is even more powerful than any one of the red-haired big man or the old man with iron pimples.

Lu Ming was fearless, banged with a punch, and made a move against the spear. He was flew out by the powerful force of the spear.

The old Tieji Tower immediately seized the opportunity and bombarded Lu Ming's chest with a palm.

Can easily blast the palm of the planet, bombarded Lu Ming, did not explode Lu Ming, just collapsed Lu Ming's chest into the collapse of several bones.

"He was injured and took him down with a rush!"

The iron lump shouted at the old man, killing him like a tide, and struggling towards the landing Ming.

The palm of the hand is like a row of mountains and seas, and the slightest strength of the body is used.

Lu Ming, too terrifying. Not only is the fighting power amazing, the vitality and defense power, but also the strong metamorphosis. Under his direct palm, he still does not die.

"bring it on!"

Lu Ming's fighting intentions were stronger, and the taboo land was launched. His injury was recovering at an alarming rate.

Buzz!

This time, he began to urge the gravity beads. The two gravity beads flew high into the sky. The terrible gravity suddenly slammed down and enveloped everyone.

Ah!

Immediately, a scream came out.

The power of gravity beads is terrifying. The explosive force of gravity is amazing. Even the Divine Emperor must be greatly influenced. He must run the Divine Power Confrontation, not to mention Divine Monarch.

The existence of the Divine King Jiuzhong could not withstand the gravity of the gravity bead. He was crushed by the gravity and screamed again and again. His body smashed heavily on the ground and was crushed into a ball of meat, which directly fell on the spot.

Those prospective emperors were not much better, they could not stabilize their bodies, they smashed on the ground, they vomited blood, and their bones were broken.

Then, the crack that swept through the void enveloped these people, and these people turned to ashes under the strong wind.

Hundreds of prospective emperors and divine monarchs are ninefold, and only five are left to die in an instant.

These five, the strength in the quasi-imperial realm is strong, only barely saved their lives, but also suffered a heavy blow.

"not good!"

Iron pimple old man, red-haired big man, all his face changed wildly.

Even they are greatly affected.

"Now, it's you who died!"

Lu Ming drank coldly, his figure was like electricity, and killed the old man with iron pimples. His double fists blasted continuously, and he immediately hit hundreds of fists.

Boom!

Hundreds of punches, a brain blasted toward the old man with iron bumps. The old man with iron bumps roared and tried his best to resist, but he had to resist the crushing of gravity and consumed a lot of divine power, which could not stop Lu Ming.

Chapter 3788: Ares Double

The old man with iron bumps did his utmost to resist Lu Ming's attack. He only resisted Lu Ming's dozens of punches. The rest of his punches could not be resisted. A brain bombardment hit him, his face, and his head. .

bump!

The old iron bumps, even if they were real iron bumps, could not withstand Lu Ming's attack. The whole person looked like a balloon, bursting with a bang, and destroying everything.

A **** emperor was killed by Lu Ming.

It's actually normal.

The combat power of Ziyang Prefecture can kill this kind of bottomed emperor, and Lu Ming's current combat power is already above Ziyang Prefecture. It was normal to launch a gravity bead just now and bombard the iron pimple old man in one fell swoop.

The scared pupil of the red-haired man contracted sharply and flew back suddenly.

However, how could Lu Ming make him easily retreat, stepping towards this person and killing him.

"Be careful on the left!"

At this moment, the bone demon's voice sounded in Lu Ming's mind.

Lu Ming didn't want to think, so he punched out on the left.

boom!

Lu Ming felt collided with the spear tip of a spear, and then, a terrifying force, extremely sharp, impacted to the landing Ming.

Click!

Lu Ming's fist was penetrated, his bones were broken, and his body receded back.

However, the sharp energy still came from the assassination of the landing. The horror was almost fast, and the horror was also powerful. It was far above the red-haired big man and the iron pimple old man.

At this moment, Lu Ming has seen the other party's appearance clearly.

This is a cold-faced old man with gray hair and awl face, all with murderous eyes.

Divine Emperor Double!

The other party's breath is definitely a double emperor, extremely terrifying.

Sure enough, the other party has a stronger presence.

Faced with this existence, Lu Ming is definitely no longer an opponent.

However, Lu Ming is not without cards.

"Ball..."

With a move in Lu Ming's heart, the ball immediately wriggled and turned into a piece of armor that enveloped Lu Ming's entire body.

At the same time, in Lu Ming's palm, the ball turned into a war sword.

when!

Lu Ming struck hard and cut on the opponent's spear.

boom!

With a loud roar, Lu Ming's figure retreated suddenly, but this time, he also blocked the other's attack and allowed the other's figure to stop.

The ball is already on the verge of breaking through the Divine Emperor, and its combat power is very strong. It can kill the Emperor alone, and cooperate with Lu Ming, the combat power soars.

"Good metal life!"

The old man with awl face, his eyes staring fiercely, and the ball on his body, revealing the greed.

"With this metal life, in the future, our iron chain pirate group, mining metal materials, will be even more powerful, ha ha!"

The old man with awl face laughed.

"It turned out to be the person of the Star Pirates!"

Lu Ming moved with a sneer, then said with a sneer: "Old man, do you really think I'm determined to eat?"

"Boy, I know that you are the arrogance of some powerful force, and the fighting power is against the sky, but we are not afraid, so many of us, can't kill you?"

Awl face old man sneered.

Unconsciously, there were more people around.

Some are Quasi-Emperor and Divine King Jiuzhong, but these people dare not get close, standing far away, away from the area enveloped by gravity beads.

However, there are still five people around Lu Ming, plus the red-haired big guy before.

Red-haired big man, old man with awl face, and three others, all of whom are ***** emperors.

However, Lu Ming sensed that the emperor is the first, the emperor is the second, only the old man with awl face.

One ***** emperor is double, and four ***** emperors are double. Indeed, killing Lu Ming is more than enough.

However, Lu Ming's face was calm and said, "Do you still have anyone? Come out together, otherwise I'm afraid I can't kill me!"

"Speak loudly, shoot!"

The old man with awl face is not nonsense, his figure flashes, and the spear in his hand takes Lu Ming's brow straight.

The other four ***** emperors also went to the landing to show their moves.

"bring it on!"

In Lu Ming's eyes, the killing intention permeated, and at the same time communicate with the ball.

Then, the shape of the ball changed, and the long sword in his hand quickly turned into a spear, a silver spear.

The appearance of this spear is exactly the silver spear obtained in the capital of the Kingdom of the God of Heaven and Earth.

After the ball is refined, it can be transformed into that spear.

That silver spear is definitely not trivial. At first, it caused so many crazy fights by the emperor. After the ball was refined, Lu Ming has not tested the power of the ball into a spear.

call out! call out! call out! call out! call out!

Lu Ming's arm was shocked, and suddenly five guns burst out.

Five lances, silver-white, like moonlight.

One of the spears had the strongest power, killing the old man with the awl face, and the other four spears had a weaker power and killed the other four emperors.

when!

At the forefront, the strongest moon-colored spear collided with the spear of the awl-faced old man, bursting into a terrifying roar. From a distance, it looked like a moon exploded, and the sky was filled with white moonlight.

In the moonlight, a figure retreated successively, backing more than ten steps in a row.

It's the old man with the awl face.

Divine Emperor's double existence was repelled.

At the same time, Lu Mingye's figure also retreated.

At the next moment, another four weak moonlights collided with the four divine emperor's heavy attacks, and the four divine emperor's heavy powers coughed up blood and retreated.

"Good power!"

Lu Ming's eyes lit up.

This moonlight gun is not from him, but the power contained in the silver spear itself. After the ball is refined, it is naturally played out, plus Lu Ming's power bonus, he actually repelled the cone face in one fell swoop. The old man, wounded the four powerful emperors of heavy weight, beyond Lu Ming's expectations.

"kill!"

Lu Ming shouted. This time, instead of killing the old man with awl face, he killed the four emperors.

This time, he killed all the might towards the four ***** emperors.

"you dare!"

The old man with an awl face roared, struggling towards the landing and rushed away.

However, regardless of Lu Ming's attack on him, he intended to resist the attack of the awl-faced man.

The four moonlights are brilliant, extremely dazzling, and the key speed is astonishing. In an instant, they killed the four powerful emperors.

The four powerful emperors with heavy weights were suppressed by the gravity beads. They were too late to try to avoid them and could only resist.

Boom!

After four roars, the four **** emperors were hit hard, coughing up blood, and their bodies were pierced with a translucent hole.

And at this time, the attack of the old man with awl face also fell on Lu Ming.

Zizizi...

The armor formed by the ball has a strong defensive force and is constantly against the attack of the old man with awl face.

But in the end, it was still broken, but the power has been less than half.

puff!

The remaining power also broke Lu Ming's body, puncturing a blood hole, translucent before and after.

Lu Ming's body flew forward.

Chapter 3789: Scared away

Lu Ming was penetrated by the spear hole and was blasted out, but because the ball resisted a large part of the attack, Lu Ming finally blocked the attack of this move, and the injury was not too serious.

This move can kill the ordinary God Emperor's heavy attack, but did not kill Lu Ming.

Instead, with the help of this force, Lu Ming rushed to the masters of the four Divine Emperors at a more amazing speed.

"No, rewind, you rewind!"

The old man with awl face shouted silently.

The four also turned wild.

The masters of the four Divine Emperors, who were hit by Lu Ming before, have been hit hard. Their breath is weak, and their strength is ten, and they can't stop Lu Ming's attack.

They tried their best to retreat, but it was too slow.

咻咻咻咻咻!

The silver spear was shocked, and four moonlight-colored spears burst out, piercing the masters of the four **** emperors.

This time, the masters of the four Divine Emperors can no longer be stopped or avoided.

puff! puff! puff! puff!

The four Divine Emperors are masters, their eyebrows are pierced by moonlight guns, and their souls are annihilated in an instant.

Four **** emperors, fell!

"Ah, little beast, I want you to survive, not death!"

The old man with awl face roared wildly, his eyes red.

This is the strongest four of his men, plus the previous Divine Emperor, he has a total of five Divine Emperors, all of whom were killed by Lu Ming.

I want to develop to such a scale in the future, and I don't know how much resources and effort are required.

His heart was dripping with blood and roaring, wishing Lu Ming would stab him with thousands of swords.

The old man with the awl face burned with divine power like a flame, with a spear in his hand for hundreds of millions of miles, penetrated the void, and stabbed towards the landing.

Even the strong wind in the void was shaken away, and there was a calm void where the spear passed.

"bring it on!"

In Lu Ming's eyes, there was a strong sense of war. His body, which was just pierced by the old man with the awl face, was almost half better, and had basically no effect on his strength.

Lu Ming held a silver spear and killed the old man with awl face. On the silver spear, a ray of lightning filled the silver spear.

This is another ability of the ball. As his cultivation improves, his power becomes stronger and stronger.

when!

The silver spear, accurately punctured with the spear, a circle of energy ripples, burst out from the collision, sweeping the starry sky, and blasting the strong winds around.

Buzz!

The silver spears and spears violently vibrated, and the two bodies retreated simultaneously.

But not far away, the two of them stepped on the void, and the void was like a flat ground. They were burst by the stepping of the two. With the power of the burst, the two rushed towards each other at an even more amazing speed and continued to fight together.

A silver spear, and a metal spear, constantly collide, the two of them to the extreme power.

But now Lu Ming has concentrated all his strength. With the combination of gravity beads, the overall combat power has vaguely surpassed the old man with awl face.

The old man with awl face is more and more afraid.

Lu Ming's strength is amazing.

Lu Ming added the ball, the combat power has already been able to contend with him, and even surpassed him. This is really incredible, but this is the fact.

when!

The two confronted each other again. At this time, Lu Ming's left hand suddenly patted out with a palm.

In this palm, Lu Ming released all the secret techniques contained in the cells.

The enemies are trapped, with rattan, iron chains, ropes, seal towers, etc.

Attacks are even more, Nine Claws Dragon Roar, Swords Singing, Various Fire Hail, etc...

Hundreds of mysteries, a brain surged toward the old man with awl face.

Awl's face was shocked and stunned.

He has never seen it or heard it. Someone can play hundreds of secret techniques in one move. What is the situation?

He naturally did not know that this was the effect of the taboo body.

In fact, many people in the universe have heard of taboos, but they really know what is special about taboos and which are very rare. Only a few of the top gangsters in the universe know that.

Ordinary people, who have only heard the word 'taboo body', do not know the function of the taboo body at all, and it is naturally impossible to know it as an old man with awl face.

Therefore, he will be forced.

As soon as he was forced, he was shrouded in dense secrets.

"not good!"

At this time, the old man of the awl face reacted, his face changed wildly, and he exploded with all his strength. The spear swept through the thousand armies and defeated a variety of secret techniques.

But will Lu Ming miss this opportunity.

The silver spear pierced the eyebrows of the old man of the awl face with all his strength. The terrible murder made the goose bumps all over the old man of the awl face.

He felt chills in his heart and felt the threat of death.

Quack!

At a critical moment, the old man with the awl face made a strange call, and his body turned into a strange bird. The strange bird suddenly moved forward, avoiding the crucial point, and let the silver spear pierce his body.

Blood was splashing, feathers were flying, and the old man with awl face screamed, but he was not killed.

He tried desperately, burning with all his might, like a javelin, and rushed forward, and with a bang, he flew thousands of miles away.

Lu Ming's eyes were cold, and he stepped on the void, chasing toward the old man with awl face.

The old man of the awl face was frightened and frightened, and he was desperately burning the divine power. He didn't dare to stay at all. He broke the strong wind and flew towards the universe. The speed was so amazing that Lu Ming couldn't catch up for a while.

"Run away!"

Originally, in all directions, there were a lot of old people with awl face in the distance. These are the existence below the emperor. At this moment, five great emperors have been killed, and even the leader of the awl face has been seriously injured. Fleeing desperately, these people, wherever they dare to stay, also fled crazy one by one.

Everyone, just scattered.

Lu Ming was too lazy to pay attention to these little ones, and focused on chasing after the old man with awl face.

But the old man with awl face was really desperate, his wings flapped, and the speed was too fast.

After all, he is the powerful player of the Divine Emperor, and Lu Ming, although relying on the silver spear transformed by the ball, is not weaker than the old man with the awl face, but the speed of the

ball does not provide much help. Just by his own speed, it is indeed inferior to the old man with awl face.

The distance between the two is getting farther and farther away.

"Forget it!"

After chasing for a while, it seemed that Lu Ming couldn't catch up, and Lu Ming simply stopped and stopped chasing.

"Eat, I want to eat..."

Once stopped, the ball cried again.

"It's really greedy, go eat!"

Lu Ming smiled and returned to the previous metal planet.

This time, no one stopped, and the ball ate.

Lu Ming, outside the planet, uses the strong winds here to hone himself, stimulate his potential, and concentrate on his cultivation.

Chapter 3790: Seven Emperors of God, three gravity beads

The ball swallowed the metal very fast. Lu Ming was outside the starry sky, staring at the planet, and the volume was shrinking.

Of course, this is because the size of the planet is very small, like a meteorite.

Only half a month later, the planet was swallowed by the ball, leaving nothing left.

After swallowing the entire planet, the ball's body exudes a layer of metallic brilliance, suspended in the air, motionless.

Lu Ming knew at a glance that the ball was about to evolve.

Originally, when the ball swallowed some Purple Moon God Iron and Purple Moon Iron Mother, it was not far away from evolution. As long as some time later, after all the energy of the Purple Moon Iron Mother has been refined, it will definitely evolve. Break through the God Emperor Realm in one fell swoop.

And now, after swallowing this whole strange metal planet, the ball began to evolve immediately.

Because the accumulation is too strong, the strong will overflow.

"This guy..."

Lu Ming smiled bitterly.

It is not possible to evolve here, because the strength of the gale here is still too weak, and his cultivation speed is very slow.

Lu Ming wants to continue towards the center of Gale Gale.

Lu Ming took out a chain-shaped artifact, wrapped around the ball, and pulled the ball toward the depths of the Gale.

Along the way, there is no exception.

In fact, there are not many people who enter the gale wind galaxy adventure treasure hunt, because it is too dangerous.

Half a month later, Lu Ming took the ball and didn't know how much distance he flew. Here, it is already very close to the central area of Gale Gale.

The gale force here was so powerful that it was scraped on Lu Ming's body and directly cut Lu Ming's skin, leaving a wound on Lu Ming's body.

This is the result of Lu Ming's full resistance. It can be seen how amazing the power of the strong winds here. The Quasi-Emperor here must also be turned into ashes in an instant. Only the strong above the God Emperor can stay.

"Just here!"

Lu Ming stopped and put the ball aside.

The strong wind blows on the ball and makes a sound, which has no effect on the ball.

Lu Mingpan sat in the air, using the power of the strong wind to stimulate potential and quiet practice.

The power of the gale makes Lu Ming face threats all the time. Of course, this can also more easily stimulate his potential.

The storage potential in the cells of his body was slowly stimulated, and his body was slowly transforming.

Time passed day by day.

In a blink of an eye, Lu Ming entered the gale galaxy for a year and a half.

On this day, Lu Ming suddenly opened his eyes, his eyes pierced like a sword, and his breath rose into the sky.

Uh!

Lu Ming suddenly rushed back up, his fists exploded.

Void tremor, endless strong wind, driven by fist, sweeping all directions like a hurricane.

At the next moment, Lu Ming stopped, and the breath in him also lurked.

The Sevenfold Divine Monarch!

Coming in for a year and a half, Lu Ming's cultivation practice broke through. From the breakthrough of Shenjun's sixth to the seventh of Shenjun, the fighting power soared.

This speed is already amazing.

Of course, Lu Ming is now practicing extraordinary, as long as he has enough energy and enough oppression, he can continue to improve as he cultivates.

"The breath of the ball is also much stronger, I am afraid that the evolution will be completed soon!"

Lu Ming looked at the ball, revealing the look of expectation.

Compared with more than a year ago, the size of the ball has become much larger and the breath has also become stronger. There is a tendency to rush out.

Lu Ming knows that the ball is also about to evolve.

Now, it is not advisable to move.

Lu Ming originally wanted to take the ball and continue to go deep into the Gale.

Because with the breakthrough of his cultivation practice, the gale here is not enough to pressure him, he needs to find a stronger gale to stimulate his potential.

But now, we can only wait for the ball to evolve before moving on.

"First refine the gravity beads!"

Lu Ming moved.

Cultivation to break through the Seventh Level of Divine Monarch, can we refine one more gravity bead?

For every additional gravity bead, once urged, gravity will skyrocket, which will greatly help Lu Ming's combat strength.

Lu Ming began to sacrifice the third gravity bead.

"Sure enough!"

A few days later, Lu Ming felt that it was okay.

Lu Ming continued to work hard, and after a few days, Lu Ming's successful sacrifice was successful.

Buzz!

Lu Ming urged the gravity beads, and the three gravity beads flew into the sky, and the powerful gravity exploded out.

The space, under the terrible gravity, is constantly twisted and seems to be unbearable.

The powerful gale is also greatly affected, and the speed becomes extremely slow under the influence of gravity.

"Great gravity, it is ten times stronger than when two gravity beads!"

Lu Ming was overjoyed.

Sure enough, for every additional gravity bead, and for each additional gravity bead, the gravity is ten times stronger than before.

Now, the three gravity beads are urged together. The gravity is already terrifying, and the general quasi-imperial character will definitely die with a press.

Even the master of the Emperor Shenyi, who was enveloped by gravity beads, was also injured and seriously injured.

Previously, the two gravity beads were urged together, which can have a great impact on the master of Shenhua's heavyweight, not to mention the three now together. One careless master of Shenhua's heavyweight will be hit hard.

With three gravity beads, Lu Ming's combat power surged a bit more than before.

At this time, Lu Ming dealt with the existence of ordinary **** emperors, and could easily spike.

Even if he encounters the old double face of the owl face old man, he can still fight. If it matches the ball, it is not difficult to kill.

Of course, it only refers to the ball before the breakthrough, after the breakthrough, let alone...

"I wonder if I can refine four gravity beads?"

Lu Ming was fiery in his heart and stared at the fourth gravity bead.

For each additional one, gravity is ten times stronger. If the fourth one is refined, how amazing will gravity be?

Gravity alone can easily crush the death emperor?

However, when Lu Ming entered the power of taboo and wanted to refine the fourth gravity bead, he felt like a great planet in front of him and could not be shaken at all.

Not to mention the sacrifice.

Lu Ming has a feeling that even if he breaks through the Divine Monarch Eightfold, he can't sacrifice the fourth gravity bead.

Lu Ming can only dispel this idea.

boom!

At this moment, a breath of terror burst out.

Breath comes from the ball!

The ball is about to break through, Lu Ming is overjoyed.

At this moment, a terrible breath erupted on the ball, and the body's continuous squirming, it will become a sword of war, a sword of war, a silver spear...

These are the treasures that the ball has swallowed!

With the passage of time, the breath on the ball became stronger and stronger, and finally reached a peak. It seemed to break through a certain critical point, and a vast pressure came out.

Royal coercion!

The ball completely entered the realm of the Divine Emperor and reached the weight of the Divine Emperor.
