

D Emperor 3791

Chapter 3791: Ball Breaking God

The practice of the ball has completely entered the Divine Emperor's weight.

However, the improvement of the ball's breath has not stopped, and it continues to improve.

"Can it continue to break through?"

Lu Ming's eyes lit up.

In the past, the ball has been upgraded many times, all of which have suddenly risen several levels, but that was when the cultivation base was still low, and the accumulation was too strong.

However, in the God Emperor Realm, can it continue to improve?

Although Lu Ming knows, this time the accumulation of **** is equally profound.

The former Purple Moon Iron Mother was enough for him to break through, and before that, he swallowed up the whole planet again, how magnificent is the energy? It's unimaginable.

Even if it can continue to break through, it is not impossible.

Lu Ming waited patiently.

The breath on the ball is getting stronger and stronger.

In a blink of an eye, even in the past month, the ball breath has accumulated to the extreme.

boom!

The breath of the ball suddenly jumped again.

Divine Emperor Double!

The ball really broke through to the Divine Emperor Double.

By the time the Divine Emperor doubled, the breath of the ball finally stabilized and did not continue to improve.

After a while, the balloon's breath converged and flew to Lu Ming happily.

"The ball, it's amazing, it has reached the second level of the Divine Emperor!"

Lu Ming intentionally looked envious.

In fact, he is really envious, he has improved fast enough, but the ball is more against the sky, as long as you get a good treasure, the cultivation is soaring like a rocket, much faster than him.

Reaching the double ball of the Divine Emperor, the combat power does not know how strong it is. Anyway, even if Lu Ming has exhausted the means now, he cannot be the opponent of the ball.

This will become a big help for Lu Ming.

"Let's go, let's move on!"

Lu Ming on the ball fairway.

Before, he released a three-year treaty to various ethnic groups, and now there is more than a year. He wants to take this time to improve his cultivation ability to see if he can break through the eighth level.

Of course, the higher the cultivation base is, the harder it is to break through. It is almost impossible to break through the eighth level of Divine Monarch in more than a year.

But can some be improved?

The ball turned into a bracelet and was carried on Lu Ming's hands. The two flew all the way.

Here, it was already close to the center of Gale Gale. With the deepening of the two, the power of Gale is getting stronger and stronger. However, Lu Ming has not yet met Lu Ming's requirements, and Lu Ming will continue to go deeper.

咻咻!

At this moment, two divine lights flew from the other side and flew towards the center of Gale Galaxies.

These are two middle-aged men, both of whom are wearing a fiery red armor. The armor is shining and resists the strong wind outside.

"One Divine Emperor is Double, One Divine Emperor is Double!"

With a move in Lu Ming's heart, they sensed their cultivation behavior.

The two middle-aged big men also saw Lu Ming, their eyes showing curiosity.

"A person with seven levels of princes can actually come here. It is a miracle. It is estimated that there are treasures on his body!"

"Don't be troubled, the Hall of Gale is about to break, let's do the business first!"

The two secretly exchanged two sentences without leaving, and left quickly.

However, Lu Ming's ears are so sensitive, especially when he practiced Tian Er Tong, he is even more keen. He listened to the dialogue between the two clearly.

"The Gale Palace? What is that? Is it some kind of relic of Gale Gale?"

Lu Ming's thoughts revived.

Finally decided to explore the past.

Lu Ming condensed his breath, followed the two middle-aged people, and flew past.

Two hours later, Lu Ming saw another two waves of people, also flying towards the front.

Obviously, it was also directed at the Hall of Gale.

"That is..."

Suddenly, Lu Ming saw that in the starry sky ahead, there was a giant, suspended in the starry sky.

This behemoth is made entirely of stone, and from a distance, it looks like a stone temple.

But the appearance of this stone palace is very different from the appearance of the palace outside.

It looks like a palace, but there is no entrance.

Did not see the gate, nor the window, like a huge round fortress.

There were many people around the fort. At first glance, there were dozens of people.

Undoubtedly, these people are all God Emperor-level strongmen.

boom!

Suddenly, on the side of the fort, a war broke out, the sky was full of light, and at the same time a roar came out.

"The weak points of the Hall of Gale are found by us, and we have broken through all the hard work, and you want to pick up cheap, no way!"

Someone shouted.

"Oh, the Hall of Gale is not yours, but the public area. You have your share. You are stupid to break the fortress. Who blamed you?"

Someone responded coldly.

"Shameless!"

The previous people roared, and the battle was more intense.

But after a while, the war stopped.

Because many people surrounded the past, those who fought the war apparently had some scruples, afraid of being picked up by others, and afraid to fight again.

"Since everyone has discovered it, it is impossible for you Xinyuan Pirates to swallow alone!"

"The news leaked that it was your traitor from the Xinyuan pirate group. This is your own business. We are all here. It is absolutely impossible to return empty-handed!"

"Well, Gale Palace, your Xinyuan Pirate Group, did not completely break open. Next, let's join hands and break the Gale House. What treasures are in it? Let's speak with strength!"

Everyone talked about it and made a plan.

The people of the Xinyuan pirate group are extremely gloomy, but they know that since so many masters have come, it is impossible for them to rely on their strength alone.

Can only follow the plan of everyone.

"It turned out to be people from the Star Pirates!"

Lu Ming moved.

Think about it too. The area where Gale Gale is located is relatively remote, and there are no powerful forces around it. It is the area where the Interstellar Pirates are easy to survive and move.

Here, it is normal to attract many people to the Interstellar Pirates.

Lu Ming turned a few thoughts, the person slowly approached.

As Lu Ming approached, he suddenly had a pair of eyes, and looked at Lu Ming.

"Eh, a kid in Divine Monarch Realm!"

"Shen Jun Realm can actually come here, but it is rare. It is estimated that there are treasures that resist the strong wind!"

Many people are curious.

Of course, some people shouted, "Boy, what are you doing here as a divine monarch? Are you still off?"

"Isn't there a share here, why can't I come?"

Lu Ming answered.

"Hahaha, seeing someone has a share, but also needs strength and qualifications. What strength do you have as a kid in God's Realm? Give you the last chance, if you don't get away, you will stay forever!"

It was still the man, a scarred man, staring coldly at the land.

"Oh, is it? Well, you don't have the right to be here, don't you leave?"

Lu Ming scowled lightly.

This scarred man, but the prince is the most important, the prince of an interstellar pirate is the most important, now Lu Ming is not at all in his eyes.

Chapter 3792: Are you qualified now

Lu Ming's words made everyone else stunned.

Lu Ming, how dare you talk to a master who is heavy and heavy, do you want to die?

In the eyes of the Scar Scarred Man, a cold killer burst out. Lu Ming said that he clearly despised him. He was obviously a spicy chicken and was not qualified here.

Does it make sense!

"Boy, listen to you, do you think you are better than me?"

The scarred man approached Lu Ming and sneered.

"you could put it that way!"

Lu Ming answered lightly.

"Hahahaha..."

At the scene, there was a burst of laughter.

Everyone at the scene laughed, watching Landing Ming like a fool.

Lu Ming, a kid with seven heavy gods, actually said that he is better than a scarred man?

Does he know how strong the emperor is? How horrible?

It is estimated that the horror of Divine Emperor is not known at all. The gap between Divine Monarch Seventh and Divine Emperor First Heavy is even greater than the gap.

Such ridiculous things can be said, they should not laugh?

Of course, laugh, especially the scarred man, even the tears of laughter came out.

"I thought it was a natural arrogance. It turned out to be a fool, a fool. Now Grandpa sends you on the road!"

The Scarred Han drank coldly, and slashed to the head of Landing Ming, slashing Lu Ming with a stroke.

Daoguang was quick, and Lu Ming's head reached Lu Ming's face in a blink of an eye.

He had triggered the warfare tactics five times as long as he could, with a punch, the void burst, and the terrifying gale force was driven by the fist, condensed together and turned into a part of the fist.

when!

Lu Ming's fist bombarded the Dahan Han's sword. The sword shook wildly, and then with a bang, it burst apart, his violent fist kept on, and he continued to bombard the Dahan Han.

The Scarred Dad can't laugh anymore, the smile on his face freezes, and instead he is surprised.

At a critical moment, he roared loudly, his figure receded, his hands swelled forward, looking forward to blocking Lu Ming's blow.

But with a click, the sound of broken bones came out. His arms were directly broken by Lu Ming, and his body was blasted out, hitting the stone fortress and violently shaking.

The fort was nothing, but the scarred man vomited blood, his face was pale, his breath was weak, and he was hit hard.

The scene was silent.

Everyone's smiles have disappeared. Instead, they are shocked and incredible.

The Scarred Han was defeated, and he was defeated so easily, defeated by Lu Ming.

You can't resist it at all, it's crushing.

Is this still the Seventh Cultivation of Divine King?

Everyone stared at Landing Leng in a daze, and finally knew what Lu Ming's previous sentence meant.

Lu Ming said that Dahan Dahan is not qualified, and he is qualified, he is indeed qualified.

But Dahan Dahan said that Lu Ming was not qualified, which was totally a joke. Lu Ming proved this with his strength.

"Am I now qualified?"

Lu Ming seemed to be talking to the scarred man, but actually to other people.

"Yes, there is..."

The scarred man coughed up blood and nodded.

He was really scared to death. His heart was full of fear. In the first move, Lu Ming's strength was not something he could confront.

He knew that he really kicked the iron plate.

"Awesome, the Seventh Level of Divine Monarch has such strength, which I saw only in my life!"

"You have this qualification, hehe!"

Some people spoke, but some people blinked and stared at the land, not knowing what they were doing.

At the scene, it was not only the Emperor God, but also stronger masters. These people were all interstellar pirates, all of them crawled out of the dead man. Although they shocked Lu Ming's talent, he was not afraid of Lu Ming.

Lu Ming can defeat Divine Emperor Yizhong, can he still contend with Divine Emperor Erzong?

They don't believe it!

However, Lu Ming is already qualified to compete with them for the treasures here.

"Let's discuss, how to break this strong wind palace!"

Someone suggested.

"The Hall of Gale is covered with this peculiar stone, which cannot be broken with our strength!"

"But even the hardest things will have weaknesses. The Xinyuan Pirates Group has found the weaknesses and has broken through 80% and the remaining 20%. We join forces and believe that we will soon be able to break open!"

One of the silver-haired elders said.

This silver-haired old man is quite prestigious among many pirate regiments, and is obviously very strong.

"Silver Commander is right, just do it!"

"I have no opinion!"

Others responded one after another. Only Xinyuan Pirates looked ugly, but they could only agree with so many masters.

The discussion was good, and everyone went towards the weak point.

In the other direction, Lu Ming walked over and saw a huge hole appearing on the wall.

Cracks appeared on the edge of the hole.

Through the hole, Lu Ming found that the wall was still inside. This wall was surprisingly thick, at least ten thousand meters thick.

It has already reached eight kilometers, and there are about two kilometers in thickness.

"Shoot!"

The silver-haired old man shouted and took the lead. He pointed out, and a silver finger emerged, made of silver, slamming toward the remaining two-kilometer thick stone wall.

"It's...The Divine Emperor is triple, no, wrong, stronger..."

As soon as the silver-haired old man shot, Lu Ming was shocked.

The strength of the silver-haired old man is simply unfathomable, the magical power is extremely strong, the power of one finger makes Lu Ming horrified.

Its strength is far above that of the old Divine Emperor Double Awl face old man, and it is much stronger, I am afraid that it is not only as simple as the Divine Emperor Triple.

Among these people, there is indeed a terrible existence.

"Shoot!"

Others also shot at the same time, bursting with divine power, various attacks, flying forward and bombarding the remaining two thousand meters of stone walls.

Boom!

The stone wall continued to explode, shaking endlessly, and then pieces of gravel were hit.

This is because here is the weak point, if there is a stone wall in other directions, they will not move.

However, the remaining two thousand stone walls were not so easy to break. The people bombarded continuously, attacked for half an hour in one breath, and then stopped at the same time.

The continuous attack consumes a lot of power, and the people here are all pregnant with ghosts. No one dares to let their power run out. When it is half consumed, they must stop to rest and recharge their divine power.

Everyone silently took out the panacea to supplement the divine power to eat and began to recover.

After a few hours, the crowd had almost rested and continued to bombard again.

In this way, after a few days, only two hundred meters of stone wall left only the last hundred meters, and soon it could be broken.

Just then, the sound of breaking the sky came from a distance.

More than a dozen figures flew over.

The crowd's movements stopped.

"It's you!"

Someone's eyes flashed and recognized these people, also known as the interstellar pirate group.

Chapter 3793: Nine Great Gods

"It's him!"

Lu Ming's eyes flashed. One of these more than a dozen people came back. Lu Ming knew that it was the old awl-faced old man who had fled before.

The old man with awl face obviously also found Lu Ming.

He stared deadly at the sound, full of hatred and murder in his eyes.

"Boy, I didn't expect that you are here, very good, very good..."

The old man with awl face stared at the landing clan, and his voice was extremely cold. Everyone could hear it, and it was full of cold killing opportunities.

"Tie Xiong, just this kid, destroy the five **** emperors of your iron chain pirate group?"

The old man with awl face named Tie Xiong, beside him, a horse face middle-aged said.

"Yes, it's this little creature, although this little creature is not high, but its combat strength is very strong, and it can resist the double of God, not careless!"

Tie Xiong reminded that he was full of hate.

The people around Lu Ming were not too surprised, just glanced at Lu Ming subconsciously.

Lu Ming's previous move to defeat the Scar Scarred Man has already shown strong strength. It is also normal to be able to kill the five masters of the Iron Chain Pirates.

"Hey, it's kind of interesting, Tiexiong, what you said before, but you have to count!"

Middle-aged horse face said.

"Absolutely, I swear by the origin of life!"

Tie Xiongdao.

"it is good!"

Middle-aged Ma Ma nodded, glanced at the scene, and said, "You, we have hatred against this kid. Who among you is a friend of this kid?"

"I do not know him!"

"The things between you have nothing to do with me!"

The people around Lu Ming laughed and opened the distance from Lu Ming one by one.

They didn't know Lu Mingsu, and naturally they would not help Lu Ming. They also wished that Lu Ming and Tie Xiong and others would be killed or killed. Finally, there were fewer competitors.

These people retreated silently, and Lu Ming was the only room left.

These people temporarily stopped attacking the stone wall with a good attitude.

"well!"

Middle-aged horse face, Tie Xiong showed a greasy smile.

At the next moment, the figure flashed, Tie Xiong, middle-aged horse face and others, surrounded Lu Ming Tuan group, strong breath, thick like a mountain, pressed against Lu Ming.

"Three **** emperors are double, seven **** emperors are equal, no wonder they are so confident!"

Lu Ming smiled lightly in his heart, the other party did not cover up, he easily sensed the cultivation behavior of these people.

Now that everyone knows Lu Ming's combat power, he can defeat Tie Xiong, and he has such strong self-confidence that he wants to round up Lu Ming. It turns out that there are three Divine Emperors.

After all, Lu Ming had barely defeated Tie Xiong before, and the fighting power was only a little stronger than Tie Xiong. They had the dual existence of three Divine Emperors, and it was more than enough to kill Lu Ming.

What's more, there are seven masters of the emperor.

They never thought that Lu Ming's combat power had skyrocketed.

Reaching the Divine Monarch Realm, the combat power and cultivation ability are not so good. The dynamics have been calculated for hundreds of millions of years. How long has it passed now? Just over a year, how can there be any major breakthrough in the time of taking a nap?

"Boy, I won't let you die so easily. I want to seal your cultivation behavior and put it in the strong wind, so that you can bear the pain of the strong wind cutting your body!"

Tie Xiong's face was very cruel, and with a hint of excitement, it seemed that he had seen Lu Ming's miserable state of being cut by the strong wind.

"The idea is good. Unfortunately, reality is often cruel, do you know?"

Lu Ming smiled faintly, and then his body suddenly moved, rushing towards Tie Xiong.

Boom!

As soon as the person rushed out, Lu Ming blasted hundreds of punches. The terrifying punches gathered together, like the stormy waves, and bombarded towards the iron hero.

However, Tie Xiong was already prepared, the metal spear broke out, and he roared with strength to fight Lu Ming's fist.

However, as soon as the two sides fought, Tie Xiong's face changed.

"Your cultivation base... broke through!"

Tie Xiong shouted in shock.

"kill!"

"kill!"

At the same time, Ma face middle-aged and others also shot.

The two **** emperors are twofold, and the seven **** emperors are onefold, and a total of nine attacks, from all directions, roar towards the landing.

With so many experts joining hands, Power is extremely scary.

To be replaced by another master of the second emperor of the Divine Emperor, he must be hit hard.

Lu Ming will not despise it naturally, and the forbidden force rushes into the gravity beads.

Buzz! Buzz! Buzz!

The three gravity beads glowed and flew high into the sky, then the terrifying gravity exploded out, enveloping the middle-aged horse face, Tie Xiong and others.

The three gravity beads were sacrificed together. What a terrible gravity is. The seven masters with a heavy weight were the most affected. When they were pressed by the gravity beads, their faces changed wildly, and their bodies made a crackling sound. That was because the bones were broken by gravity. of.

At the same time, his muscles, blood, internal organs and even his soul were greatly affected.

When gravity reaches a certain point, even the smallest particles can be affected.

The masters of the Seven Divine Emperors were immediately hit hard. The various secret techniques they attacked were also shaken under the pressure of gravity. They did not reach Lu Ming before they dissipated.

The three masters of the two emperors such as Ma Xianhan and Tie Xiong are much better, but they have also been greatly affected, and their attack power has weakened, which was easily blocked by Lu Ming.

"kill!"

Lu Ming shouted and continued to kill Tiexiong, the offensive was raging.

"Damn, gravity has increased so much!"

Tie Xiong's ugly face was dying, and he struggled to wave his spear and fight Lu Ming.

In an instant, the two confronted more than ten moves in a row.

Lu Ming, vaguely occupying some advantages, forced Tie Xiong back.

The last time Lu Ming battled Iron Man, Lu Ming also needed a silver spear transformed into a ball to fight Iron Man and finally defeat Iron Man.

However, in this game, Lu Ming can fight against Tiexiong without relying on the ball, and even has the upper hand.

"Retreat, we retreat!"

Tie Xiong roared, and he thought of Lu Ming's metal life. Now that Lu Ming's metal life is not useful, it becomes like this. If it is used, how strong should it be?

He was a little scared!

"Retreat? His strength is strong, but our team up is enough to kill him!"

Ma face big man shouted.

He was holding two war knives, struggling to cut them out, slashing through gravity and slashing towards Lu Ming.

Lu Ming's combat power is now similar to what Tie Xiong described before. The three of them joined forces to defeat or even kill Lu Ming.

"No, he still has no cards to use!"

Tiexiong shouted frantically, very anxious.

He and Lu Ming had a match, and he wanted to retreat.

This time, Lu Ming was beyond his expectations. Unexpectedly, just over a year later, Lu Ming's combat power actually skyrocketed.

He knew that these people joined forces and were no longer Lu Ming's opponents.

"Let's go now, late!"

Lu Ming spoke indifferently, and then the ball on his wrist wriggled into a silver spear.

Chapter 3794: Characters that can't be messed up

On Lu Ming's wrist, the ball turned into a silver spear, and Lu Ming held it in his hand.

call out!

A moon-colored spear bursts out, splendidly, as if piercing the universe starry sky, piercing the iron man.

Quick, almost to the extreme.

In a flash, Tixiong was near.

Tie Xiong's face changed wildly, he roared, and exploded his full strength, pouring all the divine power into the metal spear, struggling to pierce a gun, and pierced the moonlight gunman, looking forward to blocking it.

when!

The spear tip and the spear tip were stuck together, and then I saw that the spear tip of the metal spear shattered at a speed that was visible to the naked eye, and then the entire spear shattered in an instant.

puff!

The moonlight guns kept on passing through Tiexiong's eyebrows.

"how is this possible?"

Tie Xiong roared at last, his eyes rolled round, his face was incredible.

Originally, he thought that even if Lu Ming's strength increased greatly, even if he cooperated with metal life, even if his strength was above him, it would be strong.

How could he kill him in one stroke.

In his eyes, the light dimmed and he couldn't figure it out until he died.

He naturally didn't know that the last time the ball was allowed to be the emperor's level of cultivation, it is now the second level of the Divine Emperor, and the strength has changed dramatically. To kill him, only one move is needed.

And Lu Ming told the ball that the ball didn't use its full strength, only a part of its strength.

Along the way, Lu Ming knew the truth too well, and he always had a hole card, and he could save his life at the critical moment.

Less than a last resort, you can't easily expose all your cards.

As long as you can kill Tie Xiong, it is enough.

"how come?"

Lu Ming killed Tiexiong with a single shot, and Ma Zhong's middle-aged and others were stunned. For a time, his mind was unable to turn.

Lu Ming, will not give them a chance.

咻咻!

Another two guns burst out, piercing the middle-aged horse face and another master of the second emperor.

The two of them woke up like dreams, and their souls were frightened, and they quickly resisted, but it was too late. How strong could they burst out in a hurry?

In fact, even if they can explode the strongest power, it is useless, not to mention only a little power.

Puff!

Moonlight gunman flew over, Ma face middle-aged two stepped into the footsteps of Tiexiong, also penetrated by gunmang, fell to the spot.

"Go away!"

The masters of the seven Divine Emperors, almost frightened, fled wildly in all directions.

"Since you have already shot, then you have to pay for what you have done, and stay!"

A cold and ruthless voice sounded, and seven moonlight guns pierced the void.

The masters of the seven emperors and one heavy weight were injured by the gravity before. Wherever they could be blocked, all were killed by the moonlight gun.

Lu Ming was not soft-hearted, and did not intend to let these people go.

These people are all interstellar pirates, with cruel means and death.

Another one, now there are interstellar pirates all around. These people are all bullies. Lu Ming is to show strong means to deter these people and make them fear him and not dare to provoke him.

In this way, a lot of trouble will be saved later.

Sure enough, the people around him saw Lu Ming killing so many masters with a strong face, and their faces were very dignified. Many people even showed horror and horror in their eyes.

Especially the scarred big man who provoked Lu Ming before, was scared and trembling, his face was pale, and he was terrified afterwards.

By now, he finally knew what kind of existence he had caused, and he could survive, it was simply the ancestor of the virtue.

"What a terrible youth!"

"Who is this person? There are so many treasures, and there is a strong metal life around him, I am afraid that it is a arrogance from a powerful race!"

"absolute!"

These people discussed in secret and decided not to provoke Lu Ming.

"Haha, the fighting strength of the younger brother is really amazing. The old man admires that Tie Xiong and others have caused the younger brother with his eyes, and it is really dead!"

The silver-haired old man laughed, making the atmosphere at the scene a little better.

"Let's continue to break the wall!"

Lu Ming said.

"Okay, let's continue!"

The silver-haired old man said.

Everyone began to continue to break the wall again, but now the gravity of the heart has changed, and the existence of Lu Ming, a divine realm, is regarded as a character that cannot be messed with.

The remaining thickness of more than one hundred meters is strong, and did not block Lu Ming for how long.

Soon after, with a bang, the stone wall was penetrated, revealing the dark space inside.

This is the inside of the Hall of Gale.

Everyone glanced at each other, and then flew towards the dark space in full.

Of course, they did not dare to carelessly. Their divine power covered the whole body, and defensive artifacts surrounded them. They were always ready to fight.

Lu Ming turned the ball into a piece of armor and put it on his body. He followed the crowd and flew towards the dark space.

After flying in, it was found that there were stone halls inside, with several passages leading to different directions. Apart from this, no other dangers were encountered.

"I go to the left!"

"I go to the right!"

"Go to the middle!"

Everyone chose the channel according to their own wishes and flew away.

Lu Ming randomly chose the leftmost channel.

The passage was straight ahead, with stone walls on all four sides. Someone tried this wall to be indestructible and indestructible.

After walking for half an hour, they came to an end and came to a vast land.

This land, roaring with a strong wind, contains a strong gale.

"Inside, there is such a piece of land, is this the core of the Gale Palace?"

Someone was very curious.

This land, with its ups and downs, is seen from a distance, and there are mountains and mountains, no different from a world.

However, there is no grass here, there is no trace of life, there is nothing.

The crowd flew out, dispersed, and explored the area to see if they could find any treasure.

But after searching around, I found nothing.

"There's nothing here, it's really ugly, it seems that this time I went for a trip!"

Someone scolded.

what!

It seemed that in response to this person's words, in the distance, a scream of screaming came.

As soon as the screaming sounded, it disappeared.

Everyone's face changed, especially the speaker who was trembling with shock.

what!

Another screaming sounded, coming from the direction on their right, listening to the sound, and the previous one, not alone.

"Over there, what's there?"

Someone asked with a pale face.

But no one answered him, they also wanted to know what it was.

boom!

Then, a violent roar came from that direction, and a brilliant ray of light rose into the sky.

Obviously, there was a fierce battle there.

But the duration of the war is not very long, just a few breaths, it is over.

"How's it going?"

Everyone's face was dignified.

How could the war end so quickly?

Looking at the direction, there should be a group of people walking through another channel. There are experts in it. Is it so fast that they are eliminated?

Chapter 3795: Monster in the gale

Everyone's thoughts flashed in their hearts, but for a time, no one dared to check it out.

Some people even want to quit and leave here.

"Look, someone is flying over there!"

Suddenly, someone called out.

Sure enough, everyone saw the direction of the war just now, and some people flew over, just the people who had just parted ways with them.

Only now, they have about ten people left.

"What happened just now, what happened on your side?"

Someone quickly asked.

"A monster attacked us just now!"

Among the people flying over there, someone answered.

"There are monsters? What monsters?"

Someone quickly asked.

"Unclear, like a gale of wind, coming and going without a trace, even killing several of us, we took a siege of the monster together, and the monster retreated silently!"

Someone answered.

"Retreated?"

Everyone's eyes flickered and were repelled, indicating that the strength was not very strong, and everyone rested a little.

In addition, so many of them gathered together, the courage has become a lot more.

In the end, no one withdrew, but intended to continue exploring.

It took so much effort to get here, and I left without a good exploration. How can I be reconciled?

The crowd continued to fly towards the center of the land.

Next, no anomalies occurred, and no monsters were encountered. Everyone was relieved, thinking that the monster was afraid of so many of them.

what!

Suddenly, a wailing scream came from the strong wind.

The direction is still on the right.

The face of everyone suddenly changed.

"It's another wave of people, they met that monster!"

Someone exclaimed.

"Shall we go to the rescue?"

Someone asked.

"No, wait and see!"

But then, successive screams rang out and fluctuated with each other.

Seven or eight screams rang continuously, without stopping.

This time, everyone's face changed.

This situation is different from before.

How come there are so many screams in a row, won't people in that direction join forces?

Before, he was divided into three groups in total, each group had more than a dozen people, inside, there are experts, the strength is definitely not weak.

When everyone thought, there were several screams.

At the same time, there was a roar in that direction, a splendid divine light burst, and a roar sounded...

However, it did not stop the screams from coming. After a while, there were continuous screams. Then, everyone saw that a divine light flew rapidly from that direction.

"It's the silver leader!"

Someone exclaimed.

The flying figure is the silver-haired old man, whose strength is unfathomable.

But at the moment, the silver-haired old man was very embarrassed, the silver hair was scattered, and several wounds appeared on his body.

Everyone was shocked!

Even the silver-haired elders were injured. What did they encounter?

The silver-haired old man saw Lu Ming and others, his eyes lit up, and they flew to the landing Ming side.

"We get together!"

Some people shouted, they did not dare to relax, the people gathered together, formed a circle, guarded carefully.

The silver-haired old man rushed into the ranks of the people and gathered with them.

"Silver Commander, why are you alone, the others?"

Someone asked.

"Everyone else is dead!"

The silver-haired old man said.

"what?"

Everyone was taken aback.

"What the **** did you encounter?"

Someone showed fear.

"A monster, like a strong wind, seems to be formed by the strong wind. It comes and goes without trace, strange and unpredictable, and cannot be killed!"

The silver-haired old man said solemnly.

"Gale wind condenses? Can't kill?"

"Is there anything in the world that cannot be killed?"

Everyone was shocked and it was hard to believe.

"coming!"

Suddenly, the silver-haired old man spoke, and his face could not be dignified.

Everyone was frightened and stared at the surroundings quickly, but they saw nothing.

However, the gale around me suddenly became stronger.

Huh...

The gusty wind, the strong wind swept, issued a terrible roar, accompanied by a hot breath.

Everyone stared at all around for a ten thousand point defense.

what!

Suddenly, a great emperor screamed, and his body suddenly blew with blood, and then his body was torn apart, and a flame came out, and the flames burned.

A master of the **** emperor's weight, so tragic death.

"monster!"

Everyone saw that a figure seemed to be formed by the strong wind and flickered.

The master of the emperor's heavy weight just now was killed by this figure.

"kill him!"

Someone shouted, in this direction, five or six people immediately shot, and tried their best to blast out the strongest secret technique. Five or six attacks fell on this figure, and with a touch, this figure was broken up.

However, it was completely useless. The strong winds gathered around, and the figure reappeared, and in a flash, it merged into the strong winds around and disappeared completely.

Huh...

The strong wind roared, and it was extremely hot, but everyone's heart was extremely cold.

Undead!

It really doesn't kill, this monster seems to have no form, just a gust of wind.

"Impossible, how could it not be killed? Our divine power awakened many times the original divine power factor, even if it is an illusory soul body, it can be killed and can be wiped out. Why can't the wind be wiped out?"

Someone shouted.

Indeed, everyone is the cultivation of the Divine Emperor Realm. After many awakenings, the divine power is amazingly powerful. Even if it is an imaginary soul body, or any natural kind of wind, rain, thunder and lightning, it can be destroyed and destroyed.

Even if this monster is formed by the strong wind, it should be able to wipe out, but just now, why didn't it work?

The gale swept through, and while resisting the gale, the people played a twelve-point spirit.

what!

Another master of the Emperor's weight screamed. I don't know when the monster appeared in front of this person again. The strength of the gale instantly rose to a terrible place and enveloped this person.

This great master of the Divine Emperor, which was difficult to resist at all, was divided into countless pieces and turned into ashes in the hot flame.

"Kill, kill!"

"Kill this monster~"

Someone shouted and madly attacked the monster.

But it was useless. The monster exploded, re-condensed out not far away, and merged into the strong wind, disappeared.

Unable to kill!

Really can't kill!

And between the world and the sky, it was full of strong winds. This kind of monster merged into the strong wind, coming and going without a trace, untraceable, and not knowing when he would shoot, it was simply unpredictable.

"Let's leave, leave here!"

"Yes, we are about to leave. There is no treasure in this ghost place. I have searched for a large circle and found nothing. Instead, I lost my life here, which is not cost-effective!"

Some people played a retreat, showing fear.

They are all desperate, and they have a lot of courage, but they are afraid to let them fight desperately with this monster that cannot be killed.

Chapter 3796: Panic and falling

"No, we can't separate, once separated, they will be broken by the monster, then we will die faster!"

Said the silver-haired old man.

The group of people before him failed so fast, that is, someone wanted to escape and want to retreat, so that the team was dispersed, so that the monster was given an opportunity to kill everyone in a few shots. Too.

There was only one silver-haired old man, who escaped by virtue of tyrannical cultivation.

"Then what to do? Isn't it possible to wait for death like this, if so, I would rather fight!"

The scarred big man roared, and the scar on his face was twisted, and it was unusually gritty.

He was terrified in his heart.

That monster, obviously a character who is bullying and afraid of hardship, first picks the weak and kills. The two who died before are both the existence of Divine Emperor. He is really afraid of the next moment and it is his turn.

This kind of waiting is extremely painful.

"There is only one way, that is, we gather together, move together, and head towards the exit together, keeping the formation in order, so that we can have a chance to leave here alive!"

The silver-haired old man said.

"Okay, just do it!"

"I agree with Silver Commander's opinion. Let's go now. Let's move in the direction of the exit together!"

Many people opened their mouths and agreed to act together.

"Listen to my password, get ready, get shot!"

The silver-haired old man shouted, and the people shot together, attacked in various directions, and the strong wind in the area was suddenly broken, and a huge gap appeared.

Then they moved together and rushed towards the gap.

It is a pity that the strong wind screamed, and the speed was very fast. One swept through, and the gap was closed again.

"Together, shot!"

The silver-haired old man continued to drink, and the crowd continued to shoot, breaking the gale, and then continued on.

However, at the next moment, another scream rang out, and everyone saw that the monster condensed by the strong wind appeared in front of a **** emperor master, who was killed without any ability to resist. .

The people beside him were frightened and attacked the monster quickly, but as before, after the body of the monster was broken up, it condensed in the strong wind and then disappeared.

"Quick, rush!"

The crowd roared and continued to attack, accelerating their pace.

However, their current distance from the exit is really some distance, it is not so easy to cross.

After they dashed a distance, the monster shot again, and another master of the Emperor's weight was killed.

As a result, people are panicked.

Soon after, another master of the **** emperor was killed.

Before and after, there were already five masters of the Emperor One, who were hunted by monsters, but they were helpless to the monsters.

"No, this is too slow. If you go on like this, there is only one way to go!"

"We rush out, so many people rush together, how many people can the monster kill? The probability of survival is greater, and it is better than waiting to die like this!"

"Yes, scatter and rush out!"

Those who yelled are some masters of God Emperor's weight, and among the people, they are also the most important people of God Emperor's weight.

Obviously, the monster has been hunting people of the emperor's weight, how can these people of the emperor's weight not panic.

"No, once the team is dispersed, we will all die, and you can't escape!"

The silver-haired old man shouted.

"We will die if we don't disperse. That monster kills the Emperor first, and will not kill you first. Of course you are all right. When we are all dead, you can escape to the exit!"

People with a heavy emperor shouted.

The other emperors of the first emperor, even the emperor of the emperor, have a very ugly face.

Indeed, the monsters pick the weakest kill first, and die first. These weak ones, such as the silver-haired old man, will not die first, so if this continues, they may be able to rush to the exit, but the Divine Emperor may die all the time. After the light, even the Divine Emperor is dangerous.

In their view, the silver-haired elders wanted them to back up so that they could rush out without any way.

"Let's rush!"

"Rush!"

Suddenly, all the emperors on the scene were one-weighted, and even some of them were rushed in all directions.

They are scattered. Gale monsters, it is impossible to hunt down so many people at the same time, so, depending on who has good luck and good luck, they may escape.

At the scene, only eight people did not move, including Lu Ming.

"These idiots..."

The silver-haired old man scolded.

Before the silver-haired old man's voice fell, a screaming cry came out.

A flying master of the emperor's heavy master was broken by a strong wind and his body shattered like porcelain, and turned into ashes under the terrible high temperature.

Huh...

The gale force of heaven and earth suddenly became more violent, as countless beasts roared among them and collapsed among them.

Between heaven and earth, fiery red gale winds actually formed tornadoes, sweeping all directions.

Ahhhh...

A series of screams sounded, and those who rushed out were screamed in despair by the tornado, and then disappeared under the tornado.

It even includes the superpowers of the Divine King.

Divine Emperor's Double is a lot stronger than Divine Emperor's Heavy, and can easily kill Emperor Emperor's Heavy, but when faced with this tornado, there is no resistance to resistance and it is directly killed.

In an instant, those who rushed out had no one left.

The rest were pale.

Lu Ming finally knew why there was only one silver-haired old man who had escaped before, and scattered and fled to no avail.

"We continue to move forward in the same way as before!"

The silver-haired old man said.

Then, the crowd continued to move forward, breaking through the strong winds, and rushing forward, but they did not go far. They were attacked again. A master of the double god, attacked by monsters, without the power to fight back, was killed instantly.

This is the last master of the Divine Emperor Double, and the rest are all above the Divine Emperor Triple, of course, Lu Ming is an exception.

The rest, in addition to Lu Ming, there are six people, two **** emperors fourfold, four **** emperors triple.

"Shoot!"

The silver-haired old man shouted, they shot together, broke the gale, and moved forward quickly.

call out!

Suddenly, the strong wind flashed, and the monster appeared in front of an old lady of the Emperor Triple.

The monster is formed by the strong wind. These strong winds, like countless sharp blades, are extremely hot and madly rotating, killing the old lady.

"Die to me!"

The old lady, after all, is the strong power of the Divine Emperor Triple, with a powerful combat power, far more than the Divine Emperor Double, she screamed, and her body burst into a brilliant brilliance.

boom!

The monster's body was directly cut into several pieces, but nothing happened. Several pieces of body quickly condensed and continued to kill the old woman.

The old lady's body light, like tofu, was broken open.

Chapter 3797: More than one monster

The monster condensed by the strong wind, the attack power is extremely amazing, the protective body of the god's triple old lady's body light, was suddenly broken, the terrible strong wind cut on the old lady, and the old lady screamed.

"attack!"

The silver-haired old man and others yelled and shot with all their strength to the monster.

bump!

The monster's body was disintegrated, turned into a gale of wind, quickly backed up, merged into the surrounding columns, and disappeared, but, indeed, nothing happened.

It was the old lady, very miserable, covered with blood, her body was almost broken into pieces, her breath was weak, and although she did not die, she was hit hard.

If no one else helped, she would never survive.

"Save me, you need to save me!"

The old woman screamed and panicked.

She was hit hard, fearing that the monster would attack her again, so she had only one way to go.

"left!"

At this moment, a roar sounded.

The monster appeared from the left.

The crowd quickly attacked in the left direction, but his body flickered and disappeared. The next moment, he appeared from the other direction. This direction is exactly the direction of the old lady.

Huh!

The terrifying gale swept toward the old lady.

"Do not..."

The old woman shouted in horror, and at the next moment, the screaming stopped abruptly.

She was caught in the gale, and the smoke disappeared.

"Damn, **** it!"

"What the **** is this monster? Why can't it die!"

There are a few powerful triple gods left, roaring madly, like crazy.

The cultivation practice of the old lady is similar to them. Monsters can kill the old lady, and they can kill them. How can they not be crazy.

"What should I do? What should I do?"

There is a terrible big man with three emperors.

"Find out that monster and attack with all my strength. I don't believe there are creatures in the world that can't be killed. Maybe our method is wrong. Maybe we need to consume its energy. We don't consume enough energy!

A clear voice sounded, and Lu Ming was speaking.

Lu Ming's words brightened the eyes of others.

"Yes, maybe our attack is not strong enough. Every time we attack, we are actually consuming that monster's energy. We continue to attack. As long as we continue to attack, the monster's energy is exhausted, and we win."

The silver-haired old man said.

"That being said, but we can't find the trail of the monster at all, how to attack?"

Another powerful person with four supernatural powers said that this man is a strong man in his thirties, with a Chinese character face and strong strength, called jaundice.

"Yes, I can't find each other's tracks!"

"Do you want us to continue to be attracted by bait? Then we have been killed by the monster before we have defeated the monster!"

Others are slurred and ugly.

Before they attacked the monsters, they were all killed when the monsters came out. When they didn't come out, the monsters were integrated into the gale and could not be found at all.

"Leave it to me, I will find it!"

Lu Ming said.

"You come?"

"Can you really find it?"

The eyes of others looked at Lu Ming, revealing the colors of expectations.

Lu Ming is so young, but his combat power is against the sky. It is definitely a monster from the big forces. Maybe he can really find a way to find monsters.

As long as they find the trail of monsters, they will not be so passive.

"Let me try!"

Lu Ming nodded.

He certainly does not rely on his own search, but on the bone demon.

Bone Demon just told him that maybe he could find the trail of the monster.

After a period of research, Bone Devil already has a clue.

"Senior Bone Demon, how is it?"

Lu Ming secretly asked the bone demon.

"Soon!"

Bone Demon Disk sits in Lu Ming's sea of knowledge. The dark bones glow with a sense of holiness. He is searching for the monster's whereabouts.

"Yes, attack the right side!" Suddenly, the bone demon made a noise.

"Attack the right!"

Suddenly, Lu Ming swallowed and punched towards the right side.

The silver-haired old man and others, without hesitation, unconsciously shot with the landing.

Six people, six attacks, slammed into the right side, the strong wind in that direction continued to explode, and then they saw a vague figure and broke apart under their attack.

It's really that monster!

I really found it!

The silver-haired old man, jaundice and others were ecstatic, looking at Lu Ming's gaze, with a lot of anticipation.

"Let's move slowly, I'll look for the trail of that monster!"

Lu Ming said.

"Okay, look for it with peace of mind, I promise, that monster can't hurt you!"

The silver-haired old man said.

"Not bad!"

Jaundice also spoke.

Now, Lu Ming is their hope to escape. They will never let Lu Ming be attacked by monsters. They move their body and protect Lu Ming in the middle.

Huh...

As they moved, there was a violent wind around and roaring.

"Behind me!"

Suddenly, Lu Ming drank again.

boom! boom! ...

The six of them shot again, how violent their attack was, the void kept exploding, and everything in that direction was crushed into powder.

In that direction, the figure of the monster emerged. Under the six attacks, it broke apart and reintegrated into the gale.

"Okay, hahaha!"

Jaundice laughed, excited.

A smile appeared on the faces of other people.

It can be said that it was a coincidence once, but it was caught by Lu Ming twice in a row. It is not a coincidence, but Lu Ming can really find the trace of the monster.

In this way, they can hit the monster every time, even if they can't kill the monster, the monster can't sneak attack, they can leave here alive.

Next, they followed this method and headed towards the exit.

Along the way, they then hit the monster several times, making it impossible for the monster to sneak attack.

However, they found a problem, that was hit so many times, that monster can not be killed?

Fortunately, they are now able to gain insight into the trails of monsters, otherwise, they are really dangerous and will be left here.

Seeing that they were not far from the exit direction, their mood slowly relaxed.

Huh...

At this moment, the gale around, roaring wildly, was more violent than before.

The endless gale winds are spinning rapidly around, like a tornado, and they are like being shrouded in the center of a tornado.

Then, in one direction, the monster's figure appeared looming in the strong wind.

"Be careful, it seems that the monster is about to launch a total attack!"

Remind the silver-haired old man.

Obviously, I was about to be escaped by them, blaming me for going crazy, attacking head-on and defeating them.

"No, there are more than one monster, there are two, ah, three..."

Suddenly, someone exclaimed, with a deep panic in his voice.

Chapter 3798: Undead secret

Lu Ming, silver-haired old man, jaundice and others were also frightened. They glanced and found a figure in the strong wind around them.

All are monsters, and they look exactly the same.

One, two, three...

A total of nine!

Nine monsters appeared around and surrounded them.

The elderly with silver hair, jaundice, etc., suddenly became ashamed.

Because these are definitely not phantoms, but real ones. These nine monsters are all true.

There are actually nine of these monsters, and one of them makes it difficult for them to parry. Now, there are nine of them.

"It's over, we're over!"

A big man with triple gods, shouting wildly, despairing.

Others, although not shouting, were also desperate in his eyes.

Only Lu Ming is better.

Along the way, Lu Ming experienced many dangerous situations and faced too many crises. He knew very well in his heart that the more he faced the danger, the more he had to calm down.

Moreover, he still has a hole card.

The copper and copper coffin was carried on Jean, and if not, it would be a big deal to open the copper and copper coffin and try desperately.

Huh...

The gale wind roared, and it was even more violent.

Then, the nine monsters moved at the same time, encroaching on the terrifying gale, and rushed towards the landing Ming Six.

The scorching high temperature burned the space, and the gale that was many times sharper than the blade, swept toward the landing Ming Six.

Two attacked the silver-haired elders, two attacked jaundice, and the remaining five attacked Lu Ming and three Divine Emperors.

The wind rushed to the surface and swept through, even though the armor was transformed by the ball, it still felt the terrifying heat.

"Break me!"

Lu Ming waved the silver spear transformed by the ball. The silver spear filled the moonlight and broke the terrible strong wind.

However, Lu Ming can break the gale, and the other three powerful kings of the three emperors are not so powerful.

"Ah, I'm not willing!"

An unwilling roar came out, and one of the three masters of the Divine Emperor was besieged by two monsters. He was completely invincible and was directly killed.

"No, I don't want to die here!"

"I'm going to rush out!"

The remaining two superpowers of the triple emperor yelled and rushed out crazy, trying to escape.

However, their results are already doomed.

When they rushed into the strong wind, they were immediately attacked by several monsters. After two screams, they no longer breathed.

In this way, there are only silver-haired old people, jaundice and Lu Ming.

The silver-haired old man and jaundice, cultivated as a four-level **** emperor, stepped into the ranks of mid-level emperor, very powerful, three times stronger than the **** emperor, much stronger. Take the upper hand and destroy the monster's body.

But the monster was immortal, and it was defeated, and it quickly condensed out.

Lu Ming, his own strength, is far from reaching this level, but he relies on the ball and his combat power has completely reached the fourfold of the Divine Emperor, even more than that.

The practice of the ball has reached the second level of the Divine Emperor. After turning into a silver spear, the power is amazing. It can definitely contend with the strong power of the Divine Emperor, and even defeat the kill. It is not impossible.

With the ball, Lu Ming resisted the monster's attack.

However, after the monsters killed the three of the Emperor Triple, they began to gather and besieged Lu Ming.

Lu Ming, the silver-haired old man and the jaundice, also gathered together and joined hands against the enemy.

Nine monsters rolled up a strong wind and launched a fierce attack on them.

For a time, the three had defensive abilities and could not rush out.

The elderly with silver hair and jaundice are extremely ugly, and the situation is too bad. In this way, they may not be able to rush out.

"I understand, I finally understand that these so-called monsters are not immortal, but these, not his body at all!"

At this moment, Lu Ming shouted in the sea.

"Not his body, Senior Bone Demon, what do you mean?"

Lu Ming quickly asked.

"The meaning is very simple. The real monster has not appeared. It is his energy avatar that has been attacking you all the time, so you have defeated him and consumed his energy. His body will add energy and come in, causing immortality. Illusion!"

"As long as you find his body and attack his body, you can destroy this monster!"

Bone Magic explained.

"It turns out that, Senior Bone Demon, can you find the monster's body?"

Lu Ming asked.

"No problem, I have found the clue. After a while, it will be fine!"

Bone Demon Road, his head glowing, apparently looking for the monster's body.

"I know how to solve these monsters!"

At this time, Lu Ming spoke to the elderly with silver hair and jaundice.

"Do you have a way? What way?"

Hearing Lu Ming's words, the silver-haired old man and jaundice suddenly shook their spirits, and the hope in the hopeless eyes reappeared.

"Do you know these monsters, why can't they die? That's because they are not ontologies at all, his ontologies did not show up at all, these are all his avatars..."

Lu Ming repeated the explanation of the bone demon.

"It turns out that it's no wonder that it's difficult to kill. Can you find the little brother's body?"

The silver-haired old man asked.

"Yes, I found it, in that direction!"

At this time, the bone demon just found the direction of the monster body, and gave Lu Ming the direction, and Lu Ming pointed out.

"Okay, let's kill the past!"

"Kill this monster!"

The silver-haired old man and jaundice showed a fierce light, and together with Lu Ming, killed in that direction.

Huh...

Nine monsters seemed to be in a hurry, gathered together, rolled up endless strong winds, and attacked Lu Ming frantically, trying to block Lu Ming from them.

But this further confirmed that Lu Ming was right.

Jaundice and silver-haired elders oppressed themselves to the extreme, and all the slightest force was used to attack them crazy.

Lu Ming waved a silver spear, and the splendid spear swept across the sky, smashing the two monsters.

They rushed past, rushed into the strong wind, and moved all the way forward.

Sure enough, after rushing out of the road, they found a figure.

This figure looks like the monster, but the body is taller and more solid.

In the middle of his head, there is a round bead, shining,

This is definitely the body of this monster, there is nothing wrong with it.

"kill!"

The silver-haired old man and jaundice excited and rushed towards the monster.

However, in front of the monster body, there are nine figures condensed out, it is nine avatars.

Nine avatars, in front of him.

But at this step, Lu Ming and they have no retreat, they can only survive by killing monsters.

The three joined forces and turned into three terrifying attacks, killing nine monsters.

Boom!

The collision of gale and divine light stimulated a wave of terrifying energy, sweeping all directions.

Chapter 3799: Knock out, a round bead

Lu Ming teamed up with three monsters to fight with nine monsters and fight hard.

Obviously, the nine monsters were also desperately attacking wildly. In the end, Lu Ming rushed past the enclosure of the nine monsters, but they also paid some price.

Fortunately, Lu Ming has a ball armor defense, which offsets most of the attack power. Although some strong winds cut through the ball armor, but fell on Lu Ming, the damage to Lu Ming is no longer Bigger, Lu Ming's ability to recover from the sky is basically harmless.

However, the elderly with silver hair and jaundice were not so lucky. Both of them had dense wounds on their bodies that were cut by strong wind.

Moreover, this kind of wound recovers very slowly, because the strong wind contains terrible high temperature, which constantly burns their wounds.

Both of them have suffered serious injuries, but fortunately, they are already close to the monster body.

"kill!"

"kill!"

"kill!"

Three people shouted, three attacks, and attacked the monster body.

Roar!

The body of the monster actually screamed like a beast, and his body was violently windy. His arms were turned into two large knives made of strong winds, and he slashed to the landing Ming three people.

Boom!

Several roars in a row, the three people's bodies shook, and they could not help but retreat.

The strength of the monster body is very amazing, far above the avatar.

However, there is no strong exaggeration, they can still cope.

As soon as the three retreated, they rushed towards the monster.

The two sides clashed fiercely, fighting dozens of moves, and neither of them had a victory.

Because, the body of this monster body, like the doppelganger, is broken up and will condense again.

"Play the ball on the monster's head!"

Bone Demon voiced Lu Ming.

"Attack the ball on his head!"

Lu Ming said to the jaundice and the silver-haired old man, the moonlight gun was like electricity, breaking the void, stab the ball on the head of the monster body.

Reminded by Lu Ming, the silver-haired old man and jaundice also began to attack the round beads on the monster's body.

Sure enough, in this way, the monster became nervous and dared not let go of the hands and feet to attack and began to defend the ball on the head.

Absolutely effective!

The three offensives continued, and they continued to attack the ball.

Finally, Lu Ming seized the opportunity and stabbed the ball.

when!

The sound of Jin Tie's fighting sounded. This gun did not break the ball, but the body of the monster body was blown out by a powerful force.

The jaundice and silver-haired old man seized the opportunity and killed the monster.

Roar!

The monster body seemed to be completely irritated by Lu Ming's move, and gave a horrible roar. The round bead on his head exuded a dazzling light, and then a powerful force emerged.

As soon as this force emerged from the ball, it turned into a violent gale, and this gale, again condensed into a figure, are monsters.

The breath of these monster avatars is more terrifying than the previous one.

The nine monster avatars all screamed and rushed to Lu Ming, the silver-haired old man, and the three with jaundice.

As soon as they rushed to the trio, the nine monsters blew up directly.

Nine monsters blew themselves up, producing destructive power, and rushed to Lu Ming and the others.

"not good!"

The silver-haired old man, jaundice, and Lu Ming all changed their faces.

The three figures retreated backwards, and during the retreat, they exhibited the strongest defense.

In front of the silver-haired old man, two silver shields emerged, and in front of the jaundice, a mountain with a yellow glow appeared.

Lu Ming, with a wave of his left palm, all kinds of defense secrets in the cells in his body exploded, forming multiple defenses.

The moment when the three men laid their defense, the power of destruction came surging.

Rumble!

The defense of the three people shook violently.

A few cracks appeared in the silver shield of the silver-haired old man in no time.

The jade-like mountain-shaped treasures also shook violently, and a crack appeared.

bump! bump!

At the next moment, the shield of the silver-haired old man and the jade-like mountain-shaped treasures shattered at the same time, and the terrible power of destruction struck them.

The two screamed, their bodies were blasted thousands of miles away, their mouths coughed up blood, and their bodies were ragged and badly hit.

The two looked so frightened that they didn't dare to stay at all. They turned into two rainbow lights and disappeared in the distance.

Frightened and fled directly.

At the same time that the silver-haired old man and jaundice were flying, Lu Ming was also hit by the power of destruction. The defense that he condensed from various secret techniques only resisted a breath and was defeated.

The terrible destruction energy bombarded Lu Ming.

Clang clang...

The devastating gale wind cut on the armor transformed by the ball, making a clanging sound, and Mars was shining.

In the end, even the armor transformed by the ball was cut open.

However, the armor transformed by the ball has resisted a large part of the attack power, and the power falling on Lu Ming has been very limited. Lu Ming was blasted out and he coughed up blood, and the injury was quite heavy, but he resisted after all. Down.

"What a terrifying power!"

Lu Ming was shocked in his heart and was about to learn the silver-haired old man and the jaundice and escaped.

At this time, the voice of the bone demon came out: "Now is a good opportunity, the monster has inspired the power inside the ball, and a big move has erupted. It is now the weak period. You take the opportunity to take the ball and wipe it out. The will to go!"

Lu Ming immediately stopped, rushing towards the monster without any hesitation.

The monster, horrified, screamed and turned away.

But how could Lu Ming allow him to leave, raise his speed to the extreme, a few flashes, he caught up with the monster, grabbed it with a big hand, and grabbed toward the ball.

Bone Demon was right, now that the monster is in a weak period. Although he struggled to resist, he didn't have much power. He was caught by Lu Ming's claws and successfully caught the ball.

The bead vibrated non-stop, with a ray of spiritual will attached to it, which is the origin of the monster.

A ray of spiritual will is attached to the round beads, and the strength of the round beads is used to condense the gale body.

Creak...

The bead made a squeaky sound, like the sound of a mouse, so terrified.

"Die to me!"

Lu Ming's eyes were cold, and the forbidden force rushed towards the ball, beginning to wipe out this ray of spiritual will.

The power of taboo is the most terrifying force between heaven and earth. This spiritual will cannot be stopped at all. It screamed a few times, with unwilling spiritual fluctuations, and was completely wiped out by the power of taboo.

This ray of spiritual will was wiped out, and the gale around was suddenly much smaller and calmer, and there was no previous rage.

That round bead also fell on Lu Ming's hand.

"What the **** is this ball? Can such a powerful energy burst out?"

Lu Ming stared at the bead, thinking, and then, Lingzhi approached the bead and wanted to explore it.

Just as Lu Mingling probed into the ball, an amazing scene appeared. Lu Ming seemed to hear a roar, and then the environment changed suddenly.

Chapter 3800: Okami Art

With a loud bang, Lu Ming seemed to be in a strange starry sky.

"I am not reconciled, I am not reconciled..."

Ahead of this, a man stood in the cosmic sky and looked up at the sky.

His hair was standing upright, and on his body, there was a constant shock of terrible energy.

Gale!

The energy rushing out of the man's body is the gale.

This gale force was countless times more terrifying than the gale force that Lu Ming had encountered before, sweeping through the starry sky and slamming toward the landing.

"No, it's finished..."

Lu Ming was shocked.

This kind of strong wind is really too strong. Compared with Lu Ming, it feels like an ant and can't resist at all.

In an instant, the strong wind rushed to Lu Ming. When Lu Ming thought he was going to be killed by the strong wind, he found that the strong wind did not hurt him a bit, and he rushed past him and went away instantly.

As if, his body is illusory, not real.

"What's going on? Do these things I see are false and all illusions? Or, are these just projections of a certain period of time?"

Lu Ming turned his thoughts in his mind.

Huh...

Strong winds constantly emerged from the man. These strong winds were so strong that they were so powerful.

The gale wind swept the starry sky, wherever it passed, all the planets were turned to ashes, and some life planets had creatures to survive, and some were trained as high-level strongmen, but these strongmen failed to escape.

Only a few resource planets broke apart, but the core metal, left behind, condensed into small pieces, suspended in the starry sky.

The endless starry sky, swept by the strong wind, are under the strong wind.

"This...is this the origin of Gale Gale?"

Lu Ming's eyes widened and was surprised by his own guess.

However, this may be the case.

Gale Gale, maybe formed in this way, the energy emerging from a person's body can actually destroy a whole galaxy and turn it into a place where the gale rages, which will last for hundreds of millions of years.

It is too horrible to know this kind of cultivation practice.

Lu Ming once listened to the Liangzi Ju, saying that someone used "Bing Zi Ju" to freeze a galaxy, and Lu Ming thought it was bragging.

How vast is a galaxy?

It is almost endless, contains countless planets and can hold countless small worlds.

Can such a vast territory be frozen by manpower?

It was not a bombing of a planet, it was countless times more difficult than a bombing of a planet.

But now, Lu Ming believes, because the facts are in sight.

"Ah, I'm not willing..."

The man shouted again, and Yang Xu was all hair. At the last bang, the whole body burst apart, and a more terrifying energy swept the starry sky.

When the energy dissipated, a round bead appeared in the star sky.

This round bead is exactly the same as the one Lu Ming grabbed before.

That round bead was originally formed in this way.

"The Great Kamikaze of the Three Thousand Ancient Mysteries..."

Suddenly, a piece of information came into Lu Ming's mind. This piece of information was a secret technique.

Three thousand ancient secrets!

Lu Ming was dumbfounded.

The mysteries of this world can be roughly divided into three types. One is the original mystery. It can be understood from the divine power. As long as the talent is sufficient, it can be enlightened from the divine power. It has deep potential and powerful power, enough to enlighten people for a lifetime. .

The other is the mystery of physique.

Physique mystery practice conditions are harsh, few can succeed in practice, and almost all of them can be successful.

The third is ordinary secret surgery.

There are many common secret techniques, and there are all kinds of them.

Attack, defense, speed, auxiliary, even alchemy, alchemy, etc...

This is also one of the most cultivated people.

However, ordinary secrets are mostly used to assist, and their power is not strong. Even if they practice to a high depth, it is difficult to compete with the system's secrets and the original secrets.

However, there is a small part of ordinary secret surgery that is special.

That is the three thousand ancient secrets.

Three thousand ancient secrets, as the name suggests, there are three thousand kinds. These three thousand kinds of secrets are the strongest common secrets between heaven and earth. They have infinite power and amazing potential.

It is said that the Three Thousand Great Ancient Mysteries practiced to the peak is no worse than the Original Secret Mysteries practiced to the peak.

Moreover, the practice of the Three Thousand Ancient Mystery Skills mainly relies on savvy. Those who have high savvy can continue to enlighten and improve the realm. They do not need to cut off the shackles as in the original mystery.

It's just that three thousand ancient secret techniques are very difficult to practice, and they are too rare. With the passage of time, many of them have been lost. By now, they are extremely rare.

Lu Ming didn't expect that he would encounter a three thousand ancient secret technique here.

Lu Ming was overjoyed.

Lu Ming is now, in the practice of taboo power, need to constantly integrate into ordinary secret techniques.

But now he has integrated more than 500 common secret techniques, but no secret technique can do the job alone, and no secret technique is powerful.

Now when Lu Ming fights, he relies more on the power of taboos and brute force.

If there is a three thousand ancient secret technique, it will be different.

And the taboo body came to the end, you need to create your own technique and walk out your own way according to the thousands of secret techniques you practice.

Then, the stronger the mystery previously integrated, the better.

The advent of the Great Kamikaze technique is even more powerful.

At this time, the surrounding pictures were turned again, all disappeared, and Lu Ming returned to the original world.

"Lu Ming, be careful, someone sneak attacked!"

At this moment, Bone Demon issued a reminder.

boom! call out!

At the same time, Lu Ming felt that there were terrible attacks on the rear and the right. He was astonishingly powerful, and the speed was very fast. It was very difficult for Lu Ming to evade.

The person who shot, the timing is very good.

Fortunately, the ball was always transformed into armor and worn on Lu Ming.

At a critical moment, Lu Ming's figure rushed forward, dangerously evading the attack on the right.

But the rear attack failed to escape.

boom!

A palm print on the rear hits Lu Ming's back heavily. Lu Ming's body flew forward, his body full of blood and blood, and a spit of blood spewed out.

However, because Lu Ming burst forward, some of the power was removed, and the armor transformed by the ball also blocked some of the power, so Lu Ming's injury was not very heavy.

It's just that a few bones in the back are broken and are recovering quickly.

Lu Ming quickly turned around and swept her gaze, her eyes glowing.

Unsurprisingly, it was the jaundice and silver-haired old man who had fled before.

Before the two were injured and retreated, at this moment, their injuries were much better, although they did not heal.

"Bone Demon, how long has it been since I got the ball before me?"

Lu Ming secretly communicates with the bone demon.

"one day!"

Bone Demon answered.
