D Emperor 3861

Chapter 3861: Horror chill

Seeing this terrible snow mountain, Lu Ming was not surprised but rejoiced, and flew towards the snow mountain at a more amazing speed.

Huh...

As soon as he flew into the range of the snowy mountain, he immediately felt a terrible cold wind and blew towards the landing. On him, a layer of frost immediately condensed.

Lu Ming covered the whole body with the power of taboo, and then barely blocked a chill of frost.

This kind of terrible chill, which is a pervert such as Lu Ming, is replaced by other people, and the one below the God Realm will be frozen into an ice sculpture as soon as they come in.

This is still the periphery. Lu Ming feels that the deeper he goes into the snowy mountains, the more terrifying the chill will be.

As soon as the blood skeleton pirates came in, their faces changed a lot.

"This kid, want to borrow the cold here to stop us, hum, really a fool!"

Qiu Xuhan sneered.

He easily saw through Lu Ming's thoughts, but he didn't care.

He cultivates to be far above Lu Ming.

If Lu Ming can block the cold wind here, he can also block it.

If he couldn't stop it, Lu Ming would definitely not stop it earlier than him.

It is just right to enter here, when Lu Ming can’t stop the chill in the back, there will definitely be all the cards that will be used. Then, you can look at the copper and copper coffin.

The crowd continued to fly deep into the snowy mountains.

The chill became more and more terrifying. Lu Ming felt that his whole body had to be frozen, and all his blood had coagulated.

Even if he constantly urges the power of taboos, his current power of taboos is still too weak to resist the terrible chill here.

He was covered with a layer of ice crystals, and his speed was getting slower.

At this time, some people in the blood skeleton pirate group could not resist.

Especially the Divine Emperor under the triple, the body surface is covered with a layer of ice crystals, their entire people, including divine power, soul, seems to be frozen.

These people had to stop because they would stay here if they continued on.

Only the God Emperor with more than four levels of existence can continue to move forward.

"Huh, I want to see, what trick do you play?"

Qiu Xuhan sneered. His cultivation practice is too strong. The sevenfold power of the emperor is very strong, and the number of awakenings is also very high. The level is very high.

The violent divine power erupted continuously, forming a shock wave, rushing in all directions, pushing the cold around.

He is still very relaxed.

"Unexpectedly, the chill here is so terrible that the power of taboo can't be stopped, only rely on the strong wind beads!"

Lu Ming turned his thoughts.

When he rushed into the snow mountain, he had already thought about the countermeasures, that is, relying on the gale.

The strong wind inside the strong wind beads not only has destructive power, but also terrible high temperature, just used to resist the chill here.

Lu Ming immediately exhibited the Great Kamikaze technique, pulling a strong wind from the strong wind beads.

Huh...

Around Lu Ming's body, it seemed that there was a gust of wind blowing out of thin air, and a strong wind covered Lu Ming.

Zizizi...

The high temperature of the gale, and the chill around it, are completely two extremes, colliding together, bursting out a dense explosion.

"It really blocked!"

Lu Ming's eyes lit up.

The high temperature of the strong wind really blocked the chill here, Lu Ming felt greatly relaxed, and the speed suddenly accelerated.

Uh!

Lu Ming flew across several snow-capped mountains at once and opened the distance from Qisu Dahan and others.

"No, the energy in this kid's treasure can resist the chill here!"

Qiuxu Han's face changed greatly, extremely gloomy.

"Take a shot, let's take a shot together, this kid is mostly a bluff, there is no card!"

Immediately afterwards, Qisu Dahan shouted.

Lu Ming has a strong wind to resist the chill around him, and if he goes on like this, Lu Ming will really escape.

At this time, Qiuxuhan couldn't wait any longer and shot directly.

boom!

Qiu Xuhan shot with a palm, and the terrifying palm strength broke through the chill and rushed to Lu Ming.

At the same time, the existence of the other six emperors and the five emperors of the emperor also took action, and all kinds of terrible attacks rolled towards the landing.

"Gale, come out for me!"

Lu Ming shouted, pulling the energy inside the gale of wind with all his strength, and the violent gale swept out, forming a wind wall, blocking behind him.

Boom!

The attacks of Qiuxuhan and others fell on the wind wall, and a horrible roar erupted.

After a few breaths...

The wind wall shattered and shattered directly.

Lu Ming felt that a violent force was overwhelming, his body throbbed, his body flew backwards, and hit a snowy mountain, smashing all the corners of the snowy mountain apart.

The snow here is frozen by terror and cold, and it is harder than the magic weapon, which shows how strong it is.

"Seventh Emperor of God, really horrible!"

The dignified color flashed in Lu Ming's eyes.

This is still in such an environment, the attack of the Qiusu Han must first break the cold here, which has been partially offset by the cold here, and then penetrated the wind wall, the remaining power has been extremely weak, but still Lu Ming was hit hard.

If it is not weakened, Lu Ming must be beaten without slag.

Uh!

Lu Ming did not stay at all, simply put away the copper copper coffin, and flew towards the depths of the snow mountain quickly.

Obviously, the other party no longer cares about the copper and copper coffin, and it is useless to continue to carry the copper and copper coffin. It is better to simply put it away and speed up.

"This kid really has poor skills, chasing past and avenging the young master!"

Qiu Xuhan drank coldly, the killing was even colder, and rushed to Lu Ming.

The distance between the two sides is gradually getting closer.

Huh...

The cold wind roared, and Lu Ming suddenly shivered.

"What a terrible chill, that's..."

Lu Ming's eyes suddenly lit up.

In front, there is a huge glacier gorge. From the glacier gorge, a terrible chill blew out. There was a hint of strong wind passing through, making Lu Ming feel a chill. It was really amazing.

But now, this place is a dream place for Lu Ming.

Without any hesitation, Lu Ming rushed directly towards the glacier canyon.

"No, don't let him go in!"

Qiu Xuhan shouted, and he also felt the horror of the chill in the glacier canyon, which shocked him.

If Lu Ming is allowed to rush out, I am afraid that things are not good for him.

boom!

Qiusu Dahan took another shot, and a terrifying attack hit Lu Ming.

Lu Ming pulls the strong wind beads with all his strength, and there is another strong wind energy, forming a wind wall, blocking behind him.

A loud noise, a terrible energy, rushed to Lu Ming.

Lu Ming coughed up blood and suffered more serious injuries, but with the help of this force, Lu Ming's speed suddenly accelerated and rushed into the glacier canyon.

As soon as he rushed into the glacier canyon, Lu Ming hurried forward.

Around his body, the strong wind collided with the cold, and a dense explosion sounded, eventually blocking the surrounding cold.

Chapter 3862: Cultivate by chill

Lu Ming rushed into the glacier canyon with injuries, with the energy of the strong wind beads, blocking the horrible cold attack in the canyon.

Qiu Dahan and others were furious and rushed into the canyon.

As soon as they rushed into the canyon, their complexion changed, and they became terrified.

"what!"

"Help!"

Several members of the blood skeleton pirate regiment who were weaker, yelled in horror, and saw their bodies covered with a layer of frost, and this layer of frost spread at an alarming rate, quickly covering the whole body, turning into A layer of ice armor.

These were repaired as only the fourfold existence of the God Emperor, which was directly frozen and frozen into an iceman. They could not move at all, like a few stones falling down to the ground, and they shattered into pieces with a touch.

Only the strong four or more gods of the Divine Emperor blocked the chill around them, but it was also uncomfortable. One after another, they exploded madly to resist, and then retreated back crazy. When they exited the glacier canyon, they sat cross-legged and tried to resist the chill. Invasion.

For a time, only Qiu Dahan was still in the glacier gorge.

"Little beast, do you think that hiding here can avoid the pursuit of my blood skeleton pirate group, and the person my blood skeleton pirate group wants to kill, has not yet been able to escape birth!"

Qiusu screamed and drank vigorously, his eyes gleamed, and his chances continued to flash.

"There is so much nonsense, there is the ability to kill me!"

Lu Ming sneered, a disdainful voice sounded, and then continued to fly deep into the glacier canyon.

The beards on Qisu Dahan's face were all trembling, and as he gritted his teeth, he continued to chase after landing.

However, the deeper the deeper into the canyon, the more frightening the chill is, as if it can freeze everything and freeze all the particles in the universe.

Even with Xiu Dahan's cultivation practice, it is difficult to resist easily. He needs to concentrate on it and operate ten layers of skills to be able to resist.

However, in this way, the speed of Qisu Dahan was greatly reduced, and Lu Ming was almost the same. For a time, he could not catch up with Lu Ming at all. The two chased and fled, and they quickly went deep into the glacier canyon.

Huh...

The terrifying cold wind screamed. This glacier canyon was surprisingly deep. It had traveled thousands of miles, and it had not reached the end. It was not clear how deep it was ahead.

bump! bump! ...

Suddenly, a roar came from the ground, and then from all directions, a huge figure appeared.

These figures are a monkey.

This kind of ape, with its white body and strong body, holds a weapon formed by the condensation of ice.

These apes seem not to be afraid of the chill here, and roared towards Lu Ming and Qisu Dahan.

Various weapons, bombarded toward the landing Ming and Qisu Dahan, issued terrible fluctuations, the power was extremely terrifying, and Lu Ming felt terrible coercion before he approached.

This kind of coercion is definitely not something Lu Ming can resist with his own strength.

Lu Ming can only rely on the strength of the strong wind beads, and the strong wind rushed out.

The apes, as soon as they felt the strong wind, seemed to be terrified. They attacked half of all kinds of attacks, suddenly withdrew them back, retreated backwards, and pulled away the distance from Lu Ming.

On the other side, an amazing war took place.

More than a dozen monkeys made a fierce attack on the bearded man.

The strength of these monkeys may be far less than that of Qiuhan, but here, the strength of Qiuhan must be greatly suppressed, and these apes, like fish and water, can even use the horror and cold here to launch attacks. Next, Qiu Xu Han was forced to retreat again and again, embarrassed.

puff!

Qiuxu Han was careless and was swept. A huge wound appeared on his body, but no blood flowed out of this wound because the blood was completely frozen.

"Damn..."

Qiusu Dahan roared in his heart and was frightened.

Aoao...

Seeing that Qiusu Han was injured, more monkeys rushed to Qiushu.

Even those apes that had originally killed Lu Ming also gave up Lu Ming and killed the Qisu Dahan.

Qiusu Han was even more furious. Under such circumstances, he was most likely to fall here after being besieged by so many monkeys.

"Little beast, you have the ability to stay in this canyon all your life..."

In the end, Qiuxu Han uttered an unwilling roar, his figure backed back suddenly, and disappeared into Lu Ming's sight.

"Ha ha!"

Lu Ming sneered a few times, and he was relieved.

Finally got rid of the masters of the blood skeleton pirate group, although it is temporary.

Then, Lu Ming sat cross-legged, and every cell in his body was constantly filled with energy, repairing Lu Ming's injury.

It didn't take long for Lu Ming's injury to heal, not only that, but also because of the stimulation of a little potential, Lu Ming's cultivation behavior became stronger.

"Here, it is a good place to practice. With the chill here, it may continue to inspire my potential..."

Feeling the cold surrounding him, Lu Ming showed his thoughts.

Here, for others, it is a Jedi, but for him, it is not necessarily, maybe a holy place for cultivation.

He is a taboo body, as long as he has the potential to cultivate, he can continuously use external forces to inspire and realize the leap.

However, Lu Ming could not expose himself to the chill outside.

With the help of external force, there must be a limit. When the external force is too strong, it cannot be used, but will be directly killed.

Obviously, the cold outside this canyon is enough to freeze Lu Ming to death.

Can only come step by step.

Huh...

Lu Ming manipulated the gale inside the gale beads, revealing a gap.

Immediately, a cold rushed in. When this cold rushed in, Lu Ming immediately closed the strong wind defense to prevent other colds from coming in.

"It's so cold..."

Even if only a ray of chill shrouded Lu Ming's body, Lu Ming felt the bitter cold.

This cold, too horrible, completely penetrated into every cell, even smaller particles than cells, to stop all particles from moving.

"Stop me!"

Lu Ming roared. In the sixty trillion cells, he was constantly stimulated by energy, covering the whole body, resisting this force, and preventing himself from freezing to death.

However, it is still very cold, extremely cold.

Lu Ming seemed to be in a 10,000-year-old ice cellar, and his teeth clashed unceasingly, and the blood seemed to melt into ice.

However, Lu Ming finally supported it, resisted it, and successfully resolved this chill.

At the same time, some of his deep potential in the cell was also stimulated, and Lu Ming felt that his cultivation ability had improved again.

This improvement is very amazing and can be clearly felt.

"It really works..."

Lu Ming was ecstatic and his eyes were bright.

Continuing to practice in this way, he felt that it would take a long time before he could break through to the Divine Monarch.

Chapter 3863: Consecutive breakthrough

The chill in the glacier canyon is of great use and can greatly stimulate Lu Ming's potential. Lu Ming is overjoyed and intends to continue practicing here.

Immediately, Lu Ming manipulated the gale again, loosened a gap, put a hint of chill in, and then desperately resisted the chill.

His body, covered with a layer of ice at a speed visible to the naked eye, has frozen Lu Ming's muscles, bones, blood, and internal organs all the time.

This is very dangerous. Ordinary people are frozen like this, their vitality must be extinct, and they must be frozen to death.

However, because of this, the potential can be stimulated.

In his cells, there is a steady flow of energy, and when this chill is completely blocked, Lu Ming feels that his cultivation has improved.

Around them, the snow-white apes looked at each other, watching the landing sound, and did not know how to deal with this foreign aggressor.

However, they were extremely frightened by the terrible heat of the gale, and could only hover around and dared not attack Lu Ming.

Seeing this scene, Lu Ming completely rested his mind, ignored these apes and continued to practice.

Cultivation has no years, just like this, in the past ten days.

boom!

On this day, Lu Ming's breath suddenly rose like a wolf smoke, soaring into the sky.

Divine King Ninefold!

After ten days of cultivation, Lu Ming's cultivation behavior, from Divine Monarch Eightfold, stepped into Divine Monarch Ninefold in one fell swoop.

This speed is extremely terrifying, and Lu Ming expressed his satisfaction.

Ascending to Divine King Jiuzhong, Lu Ming felt that his body's strength had skyrocketed, and even the power of taboos was vigorous and his fighting power increased greatly.

Now, facing the imperial Ling Yuwei, Lu Ming is confident that even without gravity beads, he can easily defeat Ling Yuwei.

Of course, the premise is that Ling Yuwei does not take out the **** elven king bow.

Facing the imperial Xiu Wuji, Lu Ming was also sure to win.

Up to now, under the entire Huanghuang universe **** emperor, Lu Ming is confident that there are few rivals.

"Those who don't know the blood skeleton pirate group, have you retreated, go and see!"

Lu Ming condensed his breath. After the breath stabilized, his figure flickered and flew out of the glacier canyon.

Soon after, Lu Ming came to the periphery of the Glacier Canyon.

As soon as I came to the periphery of the Glacier Canyon, I saw that outside the Glacier Canyon, some figures sat cross-legged, blocking the exit of the Glacier Canyon.

It is the people of the blood skeleton pirate group.

The people of the Blood Skeleton Pirates also laid a large formation outside.

Large bursts of light formed a mask, which enveloped them to withstand the chill outside.

As soon as Lu Ming appeared, Dawsen's cold eyes turned to Lu Ming.

"Little beast, you finally appeared, I think when can you hide?"

The murderous man in the eyes of the bearded man was about to turn into substance, like two swords, stabbing at Lu Ming.

"I just came out and looked at you. It turns out that you are still there. Then you wait slowly. I'm inside. I'm very comfortable. You don't bother you.

Lu Ming grinned, then flashed, and continued toward the depths of the gorge, leaving the violent Qisu Dahan and others.

Since the people of Qisu Dahan are still here, Lu Ming is definitely not going out now.

Don't look at him, he has promoted a new cultivation practice, but in the face of Qisu Dahan and others, the result will not be any different than before.

The man he was able to fight against the Sixth Emperor of the Divine Emperor was entirely based on Gale.

With his own strength, it is too far away from Shenhuang Sixth, not to mention Shenhuang Seventh.

With his own strength alone, he can't compete with Qisu Dahan and others at all, so his cultivation practice, although he has raised a heavy weight, cannot change the current situation.

Can only return to the canyon and continue to practice.

After returning to the canyon.

"A breakthrough has been made, and the potential stored in the cells has been completely exhausted and needs to continue to absorb energy!"

Lu Ming thought, then took out a bone bead and began to absorb it.

To his current practice, he needs to consume amazing energy to completely store the cells in his body.

After five or six bone beads went down in a row, the energy in Lu Ming's body was finally stored, and he continued to practice.

One day, two days, ten days, twenty days...

In the past month, Lu Ming's cultivation practice still has not broken through.

Divine King Jiuzhong, one step further, is the prospective emperor.

Divine Monarch Realm is to step into Divine Emperor Realm, and the core of the body must be completely transformed into a star.

Even if you step into the prospective emperor, the nine star rings outside the star core must also merge into one.

Of course, Lu Ming is a taboo body, which is completely different from traditional cultivation methods. There is no star core or ring in the body.

He judged his cultivation base on the energy of taboo power.

But even so, the quasi-imperial level is still a hurdle, not so easy to break through.

Waiting for the potential of his cells to be completely exhausted, his cultivation base has not yet broken through the prospective emperor, and Lu Ming can only continue to take out the bone beads and absorb them.

When the potential in his cells was full again, the bone beads on his body were completely used up.

"It really consumes energy. After the God Realm, the energy consumed will be more terrifying. It seems that I usually still have a lot of high-energy treasures!"

Lu Ming thought.

There are a lot of high-energy treasures, such as magic medicine, and some magic pills, such as bone beads, containing treasures of majestic life essence, there are many.

During this time, Lu Ming also received a lot of magnificent magic elixir, which can still be used for a while.

Of course, Shenjing also contains energy, but it is too scarce, and it takes time and energy to absorb. It is not Lu Ming's first choice.

After the cell potential was completely stored, Lu Ming continued to practice.

In a blink of an eye, another month passed.

On this day, the breath on Lu Ming's body reached a peak, and then a big explosion suddenly sounded, and then his breath rose rapidly.

It's like a volcano erupting, soaring upwards, as if there is no end.

In the end, his breath improved tenfold before stopping.

"Prospective Emperor!"

Lu Ming whispered, his eyes were hard to hide.

After several months of hard work, with the help of the terrible cold outside and suffering from the cold body, Lu Ming finally broke the shackles and rushed into the quasi-imperial class, and the combat power skyrocketed.

Lu Ming is confident. His current combat strength is definitely standing at the pinnacle of the quasi-imperial level of the entire Honghuang universe.

Not to mention invincible under the emperor, it is almost the same.

Like Ling Yuwei and Xiu Wuji, he can defeat it in one move.

However, his strength is still far from that of Qisu Dahan and others.

Lu Ming went back to the periphery of the canyon again and saw Qiusu Dahan and others still waiting there.

Lu Ming can only return to the canyon and continue to practice.

Of course, cultivation must be put aside.

It's too hard to break through the Divine Realm.

Chapter 3864: Practice Great Ancient Mysteries

If you want to break through the Divine Emperor Realm, it is difficult to do in a short time, even if there is a terrible chill to stimulate the potential, it will take a long time.

In addition, he has few resources.

Breaking through the Divine Emperor requires the consumption of massive resources. Although he still has some resources on his body, it may not be enough for him to break through the Divine Emperor Realm.

Therefore, breaking through the Divine Realm can be slowed down.

Lu Ming intends to practice secret art first.

There are two kinds of three thousand ancient secrets, and hundreds of common secrets.

At the beginning, he bought 150 ordinary secrets from Xueming, and he still got hundreds of secrets in the treasure land of Life Soul Heavenly Court.

So many secret techniques, there is no time to practice recently.

Now, since I'm trapped here, I just practiced it.

Manipulating the strong wind and covering himself with it, Lu Ming sat cross-legged and was not affected by the cold outside, so he devoted himself to the secret technique.

Nowadays, Lu Ming is familiar with all kinds of mysteries and light driving, and with the deepening of his cultivation, the power of taboo continues to improve his perception. He realizes these ordinary secrets at an amazingly fast speed.

A mysterious technique, after a few hours, the enlightenment succeeded.

In one day, he can enlighten several occult techniques, and transform the occult technique into mysterious runes, and integrate them into the cells.

In a blink of an eye, more than four months have passed and hundreds of secret techniques have been successfully cultivated.

Now, there are a thousand kinds of secret techniques mastered by Lu Ming.

Yes, exactly one thousand.

These mysteries are all-encompassing, and there are all kinds of them. As soon as the mind moves, it will burst out like a storm.

After successfully practicing these mysteries, Lu Ming began to focus on practicing two ancient mysteries: Great Fragmentation and Great Kamikaze.

The power of the three thousand ancient secrets is not weaker than the original secrets, especially for geniuses with a high level of understanding. They can make rapid progress, and the early power must exceed the original secrets.

It is the most suitable secret technique for Lu Ming's cultivation. Lu Ming naturally needs to spend more time and energy.

Lu Ming intends to practice the Great Fragmentation first.

The big fragmentation is one step away from getting started.

Once you get started, the power will explode, equal to the Great Kamikaze.

"Enlightenment alone, it's still too slow, yes, those apes..."

Suddenly Lu Ming's eyes lit up, and he glanced at the apes and monkeys.

At first, the apes surrounded Lu Ming Tuan, but after a few months, these apes seemed to have lost their patience, and some of them had already left. Only five or six were still around Lu Ming.

Lu Ming intends to use these apes as opponents to practice ancient secrets.

Uh!

Lu Ming went towards one of the apes, and the ape immediately stared cautiously at the landing, mainly afraid of strong winds.

But at the next moment, Lu Ming directly covered the area covered by the strong wind, and opened the half, so that the ape faced Lu Ming directly.

"bring it on!"

Lu Ming whispered.

The monkey saw half of the fierce wind and with a fierce murder in his eyes, hesitated a little, screamed, stepped heavily, and his huge body rushed towards the landing, bringing a whistling cold wind.

The monkey held a snow-white popsicle in his hand and pumped towards the landing.

The cold wind screamed, the popsicles exploded the space, and the terrible chill seemed to freeze everything.

"Six times the combat power, great fragmentation..."

Lu Ming shouted, and six times the fighting power erupted directly.

Of course, he can’t do instantaneously with six times the fighting strength, but in fact he started triggering long ago, and only now has he succeeded.

The quasi-imperial level's cultivation practice triggered six times the combat strength of the war character tactics, making him full and full of endless power.

He ran the big fragmentation technique and greeted him with a palm.

when!

Lu Ming's palm slammed on the popsicle. Immediately, he felt a terrible chill and a terrible force, and rushed towards him, tearing him apart and exploding him.

"Crush me..."

Lu Ming shouted, the majestic power exploded, and the power of the Great Fragmentation came out constantly, breaking everything.

Chill, under the impact of the Great Fragmentation, was constantly torn, and even the terrible great power was also torn.

bump!

Lu Ming's body retreated suddenly, and he stepped back several hundred miles before stopping.

His body was covered with a layer of ice, and there were cracks on his palms, blood flowing.

The monkey was also repelled, but it didn't go back as far as Lu Ming.

One move, Lu Ming fell completely downwind.

With his current strength and his own strength alone, it is enough to bombard the existence of Divine Emperor Triple, which is still not an opponent of this ape.

Roar!

The ape monkey was repelled, more furious, and roared loudly, and continued to scream to the landing. The popsicle was like a mountain, squeezing towards the landing.

"Gravity beads..."

With a move in Lu Ming's heart, three gravity beads flew out, and the terrible gravity enveloped the ape monkey.

Encased in gravity, the ape's body shuddered slightly, obviously affected greatly.

Then, Lu Ming also rushed over, performed a large fragmentation technique, and slapped the palm to the ape.

boom!

There was another trembling roar, this time, the two were equally divided, and at the same time backed a hundred miles.

"It works, come again..."

Lu Ming's eyes lit up, revealing a trace of excitement.

Sure enough, in the war, Lu Ming was the best way to practice the secret technique. Lu Ming confronted the ape with a few strokes, and he felt a new understanding of the big fragmentation technique.

The monkey was even crazier and snarled to Lu Ming.

The two have engaged in fierce confrontation and constant battles.

On the edge, there are other apes, who also want to rush to attack Lu Ming, but Lu Ming controls the strong wind and rolls towards these apes, and these scared apes keep retreating.

In this way, Lu Ming confronted the monkey with hundreds of moves. The monkey was breathless and exhausted and had to retreat.

Lu Ming also took the opportunity to take a rest.

After Lu Ming had a good rest, he withdrew the strong wind and asked other monkeys to fight.

In this way, for three consecutive days, Lu Ming was fighting this ape.

The fourth day...

bump!

Void tremor, a snow-white ape, body suddenly retreat, retreat two hundred miles.

Lu Ming only retreated dozens of miles.

Lu Ming finally prevailed.

"The Great Fragmentation, finally getting started..."

Lu Ming showed a happy look.

Originally, he had already practiced the big fragmentation technique to a certain level of fire, not far from entry.

After three days of continuous confrontation, he finally practiced the big fragmentation technique to the entry level, so that the big fragmentation technique reached the same level as the big kamikaze technique, and the power skyrocketed.

"Kill~"

Lu Ming shouted and continued to kill the ape, his palms were continuously shot, and each palm had the power of big fragmentation.

With each palm shot, the space was violently shaken, and the cracks were all cobweb-like cracks.

The ape monkey was desperately able to resist it, but it could not stop it anymore. He kept retreating, and there were cracks in the popsicle in his hand.

Chapter 3865: Start to shock

Lu Mingqi's ape monkey keeps retreating, only with the power of resistance, without the power to fight back.

Roar roar...

On the side, several other apes kept roaring and jumping, hoping to attack Lu Ming, but they were all blocked by the strong wind.

"Want to attack? Okay, put two more in!"

With a move in Lu Ming's heart, the range of the gale force was withdrawn again.

Roar!

Immediately, there were two apes, screaming at Lu Ming, plus the one in front, a total of three.

Three snow-white apes, holding different attacks, killed Lu Ming at the same time.

"Come on, Great Kamikaze, Great Fragmentation..."

Lu Ming sipped, and used both ancient secrets.

The whole person was wrapped in a peculiar hurricane, and inside, with the fragmentation power of the Great Fragmentation.

Uh, uh...

Lu Ming blasted three palm prints in succession, blasting towards the three apes.

In this area, a big explosion occurred, and the void continued to collapse.

One person, three apes, and fierce confrontation.

Upon confrontation, Lu Ming fell in the wind and lost to the three apes.

Mainly, there is a monkey, which is stronger, more burly, stronger and stronger, and forced Lu Ming to keep going backwards.

"Okay, okay, that's what makes it interesting, so that there is pressure..."

Lu Ming was not surprised but happy, but more excited.

boom!

His body shuddered, and all the cells shuddered. There were hundreds of mysteries of attack, all of which burst out.

Lu Ming's body exudes radiant brilliance, which has various colors.

There are hundreds of colors, which are caused by the outbreak of hundreds of mysteries.

Here, there are no outsiders, Lu Ming has no scruples, so these secret techniques are all manifested.

There was a roaring in Kowloon, a burst of sword, a flying sword, a roaring tiger...

Various secret techniques, a brain blasted towards the three apes, at the same time, Lu Ming launched the main attack with the big fragmentation technique and the big kamikaze technique.

Lu Ming can be said to have done his best, so as to withstand the attacks of the three apes, but it still fell.

However, there is pressure to stimulate the potential, Lu Ming enjoys this kind of war.

Hundreds of species have been fought in the war, and all three monkeys are tired and have backed away.

Lu Ming also took the opportunity to rest, and after a while, continued the war.

In this fierce confrontation, not only the two ancient secrets are exercised, but even other ordinary secrets are also exercised, and the fire becomes stronger.

The next time, Lu Ming was here to practice with peace of mind.

At the beginning, Lu Ming and the three apes battled each other. At first, they were not opponents, but with the passage of time, he slowly blocked the attacks of the three apes.

A month later, Lu Ming was able to fight the three apes in a tie.

Next, Lu Ming continued to withdraw the gale and battled the five apes.

Time flies and half a year passes by.

It has been a year since Lu Ming entered the Glacier Canyon.

After this period of training, Lu Ming's mastery of the Great Kamikaze and Great Fragmentation skills has been further improved, and the fire has been greatly improved.

As the fire improves, naturally the power also increases, and Lu Ming's overall combat power also improves somewhat.

Now, Lu Ming does not know how powerful he can be, and what level of emperor he can deal with.

But one thing, Lu Ming can be sure that ordinary **** emperor triple, he can definitely kill easily.

It is worth mentioning that the ball has evolved again, reaching the triple triple of the Emperor Emperor, and exploding with all his strength, which can kill the Divine Emperor fivefold.

"People who don't know that the Blood Skull Pirates are still there. With my current strength, I should be able to try some shocks!"

Lu Ming thought.

His own strength, of course, cannot be the opponent of the Sixth Divine Emperor and the Seventh Divine Emperor of the Divine Emperor, but during this time, with the improvement of the Great Divine Wind Technique, he was able to draw a stronger gale from the gale ball to deal with the whiskers. Dahan, the grasp will be bigger.

Even if you can't kill Qiusu Han, take the opportunity to rush out, you can still.

Today, it has been a year since everyone entered Bingxuan Mingshou Temple. He has been trapped here. I don’t know what happened.

Lu Ming didn't want to stay any longer.

Lu Ming defended himself with a strong wind and returned to the periphery of the canyon.

Outside the gorge, a large formation permeated, and the people of the blood skeleton pirate group were still there.

"These people are really unwilling!"

Lu Ming was speechless.

"Little beast, see how long you can stay, I have time and you!"

As soon as he saw Lu Ming, Qisu Dahan showed a strong killing opportunity, stronger than before.

"Huh, I'm younger than that, who has more time, it's not necessarily so, then it's wasting it!"

Lu Ming said uncomfortably.

However, this time Lu Ming did not retreat. He looked around and looked for opportunities to escape.

Bump:

Suddenly, Lu Ming stepped out and walked out of the glacier canyon.

This scene immediately inspired Qiusu Dahan and others.

"This kid can't bear it anymore and wants to break through, block me..."

Qiu Xuhan sent a voice to others.

The people of the Blood Skull Pirate Group are divided into front and back rows, with a strong breath filled with intertwined breaths, gathered together, ready to launch a thunder attack.

They dare not care, because they know the strength of the strong wind.

Huh...

Holding Lu Fengzhu in his hand, Lu Ming exerted the Great Divine Wind technique to draw out the power inside it.

Immediately, the strong wind screamed, forming a huge tornado that swept across all directions, toward the people of the blood skeleton pirate group.

"Break me!"

Qiu Xuhan drank and stood up. The breath of the Seventh Emperor of the Divine Emperor broke out completely. His hands were continuously pulled out. Several black skeleton claws grabbed the tornado.

boom!

The two attacks collided together, and the earth-shaking roar erupted, the mountains moved, and the void continued to collapse.

At the next moment, Qiushu Han's complexion changed.

Originally, in his opinion, this trick was enough to defeat the gale released by Lu Ming, because a year ago, he easily broke through the gale released by Lu Ming.

But this time, it did not break open and was blocked.

"Block it, good!"

Lu Ming's eyes lit up.

He hadn't been sure yet, and he didn't know if the strong winds pulling out could block the attack of Qisu Dahan. Seeing this scene, he was relieved.

Then, his eyes burst into cold killing.

He just wanted to rush out and leave here, but now, he changed his mind.

Without letting these blood-skeleton pirate groups pay a painful price, how could he leave willingly?

When the thoughts moved, the ball turned into armor and enveloped Lu Ming's whole body.

Then, Lu Ming urged the Great Kamikaze technique with all his strength, and another strong wind was pulled out inside the strong wind beads.

Huh...

The gale wind roared, and the space was torn apart like tofu. The violent gale wind swept through the blood skeleton pirate group, and the speed was astonishingly fast.

Chapter 3866: Seventh God of War

The speed of the gale is too fast, like lightning.

The people of the Blood Skeleton Pirates had no time to dodge, and they were enveloped by the strong wind.

Ah...

Immediately, a scream came out.

To tell the truth, with Lu Ming's current aura of the Great Divine Wind Technique, the gale force drawn from the gale of wind is really amazing. The Divine Emperor under six weights can't resist it. Once it is shrouded, there is only one way to die.

The existence of the Six Kings of the Blood Skeleton Pirates was cut by the terrible gale and turned into ashes.

Only the masters of the three Divine Emperor Liuzhong did not die, but they were also hit hard. Their bodies were ragged, all of them were scars, blood flowing, and the smell of roasted meat came out.

All of a sudden, there were only four people left in the blood skeleton pirate group.

"kill!"

One move prevailed, and Lu Ming would not give the other person a chance to breathe.

The ball condensed a silver spear. Lu Ming held the silver spear and stabbed it out, and a moon-colored spear pierced a master of the six emperors.

The master of the Sixth Emperor of the Divine Emperor was hit hard by the strong wind, and less than 10% of his tenth success power left. At the critical moment, he roared and an attack broke out, trying to block the moonlight.

However, his remaining skills are really few. Although he blocked part of the power of the Moonlight Gun Mansions, not all of them were blocked.

Finally, there is a ray of lunar lance that penetrates this person's body.

"Great Kamikaze, Great Fragmentation..."

Lu Ming's left hand continually popped out, exhibiting two ancient secret techniques.

A devastating energy rushed towards each other.

The other party's injury was worse, and it was already very weak. Where else can Lu Ming's attack be blocked?

The energy of destruction swept through, and the man uttered an unwilling scream, his body torn apart, and fell to the spot.

A strong man with six heavy gods was killed!

The other two powerful kings of the six emperors, the frightened souls were all frightened and retreated.

"Damn..."

Qiu Dahan burst into roar, and the murderous opportunity was already strong to the extreme, and he was angry, as if to burn his body.

He attacked wildly and finally broke the tornado formed by the strong wind, and then killed Lu Ming.

However, Lu Ming had been waiting for him.

As soon as the Qiuxu Han rushed, Lu Ming immediately controlled the Great Kamikaze technique, and pulled a strong gale out of the gale beads, sweeping towards the Qiuxu Han.

The energy in the gale beads is endless.

The existence that left the gale of wind at that time was really terrifying. The gale that was stirred up directly destroyed a galaxy, turning an entire galaxy into a gale land, which is hard to end in endless years.

Therefore, the energy inside the gale of wind is really too strong. Lu Ming is now pulling out only nine cattle.

Lu Ming felt that if he could pull the energy inside the gale of wind, he might be able to destroy a galaxy in an instant.

Therefore, don't worry at all, the gale inside the gale beads will not be enough.

The gale swept out and Qiu Dahan was blocked again.

Lu Ming killed the remaining two masters of Divine Emperor Liuzhong.

The two masters of the six emperors of the six emperors were hit hard and their strength was greatly reduced.

In addition, the chill here is very amazing, although it is not as amazing as in the glacier canyon, but it also has a great impact on several people.

Let their speed be greatly reduced.

Lu Ming is not affected by the chill, and has the blessing of the Divine Wind Technique. The speed is amazing. He caught up with the two masters of the six gods and launched the stormy attack in a few strokes.

The attack of the silver spear transformed by the ball, and Lu Ming’s own attack, were fatal to the two blood-skeleton pirate members who were hit hard.

Although the two tried their best to resist, the result was already doomed.

After a round of attacks, another Divine Emperor Liu Zhong's existence was killed and fell on the spot.

"Ah, little beast, I'm going to kill you, I'm going to crush you..."

Qiu Xuhan was extremely furious and kept on shocking. Unfortunately, after he rushed away from the strong wind, Lu Ming rewarded him with a ray of strong wind, making him unable to rush.

Lu Ming, is to kill the remaining existence of the six emperors.

Soon, the last Divine Emperor Liu Zhong also entered the footsteps of the previous few people and was killed by Lu Ming.

In this way, the only person in the blood-skeleton pirate group was the one with the long beard.

Qiu Dahan had a pair of round eyes, his hair was round, and then his hands were turned into black and ink, exuding a deep atmosphere, and constantly blasting out, the power was terrifying.

Every time it explodes, there is a big explosion in the void.

Although the strong wind pulled by Lu Ming is very powerful, he can often be broken by several strokes.

"kill!"

Qiu Xuhan drank and shot with a palm, slamming on the strong wind, the strong wind vibrated, and broke up directly.

Then, a large handprint continued to shoot towards Lu Ming.

However, Lu Ming still pulled a ray of power from the gale of wind, blocking the dark handprint.

"You are the only one left..."

Lu Ming stared at Qisu Dahan, his murderous eyes flashing.

He didn't want to leave like this, he had to try it out, to see if he could keep Qiu Dahan, and stay forever.

Huh...

Lu Ming's hands supported the strong wind beads, the endless gust of wind filled, and rushed towards the Qisu big Han.

"Want to kill me? Not self-control, tyrannical hand!"

The Qiushu screamed, palms out, tyrannical, the space shattered like tofu.

Bang Bang Bang...

The strong gale wind collided with the palm of Qisu Dahan, and produced a violent and intensive collision. In a flash, it collided hundreds of times.

After all, the gale was still broken.

"Unfortunately, the fire is still a little bit worse and can't cause him fatal injury!"

Lu Ming sighed.

The gale force he pulled out was still a bit less powerful. Although it could block the attack of the bearded man, it could not bring a fatal threat to the other party.

"I see how much power you can pull out. When your power is exhausted, it is your death!"

Qiu Xu Han roared.

He did not believe that the strength of the strong wind bead in Lu Ming's hands was endless. As long as the strength of the strong wind bead was exhausted, he would put Lu Ming to his bones and shed his hatred.

This time, it was really a heavy loss. In order to deal with Lu Ming, he wasted so much time not to mention, and his men were all cleaned up by Lu Ming.

If this is known by the leader of the Blood Skeleton Pirates, he must be punished.

Only by killing Lu Ming can you make up for it.

Therefore, he wanted to kill Lu Ming's heart, unprecedentedly urgent.

"Kill..."

Qiusu Dahan constantly launched attacks, and the offensive was surging, and he wanted to exhaust the energy of the gale as soon as possible.

However, the energy of the gale wind beads is endless, and Lu Ming continuously excites the energy.

Moreover, Lu Ming also took the opportunity to launch his own attack, the moonlight gun mantle entrained the energy of the Great Kamikaze and the Great Fragmentation, and slammed into the Qisu Dahan.

It's a pity that Qiu Xuhan shattered Lu Ming's attack.

Chapter 3867: Fairy princess come to aid

Lu Ming's own strength, even with the ball, still has a big gap with Qisu Dahan.

"It seems that this guy can't be killed!"

Lu Ming sighed in his heart and began to think about how to evacuate.

Since this guy can't be killed, it doesn't make sense to consume it.

It's been a year since I came in Bingxuanming Soul Palace, and I didn't get any chance, but don't let anyone else go.

At this moment, the mutation suddenly occurred.

call out!

In the direction outside the snowy mountain, an arrow came quickly and shot at Qisu Dahan.

Quick, quick horror.

Powerful, terrifying.

Almost instantaneously, we approached Qisu Dahan.

Qiusu Han's face changed wildly, because of this arrow, he felt a fatal crisis, a crisis that could threaten his life.

At the critical moment, the Qiuxu screamed loudly, and the black palm suddenly shot out with a strange arc, and shot towards the arrow.

when!

It looks like two pieces of metal collide together, and a wave of energy evokes, spreading in all directions.

Lu Ming could clearly see that the arrow was trembling constantly, exuding a terrifying penetration.

puff!

In the end, Qiuxu groaned, his body suddenly retreated, and his dark palm was actually shot through, and the blood flowed out of darkness.

And, the arrows kept shooting, shooting at his body, piercing his body through.

"what!"

Qiushan Han roared like a wounded lion, staring out of the snowy mountains.

In that direction, a figure came out of the air.

The comrades are in good shape, there is a peerless elegance, not Ling Yuwei, who can it be?

Ling Yuwei was shrouded in green light, a strong breath, opened up a world, and Lu Ming felt like a star hanging in the sky.

"Emperor!"

Lu Ming's pupil shrank and whispered.

That's right, Ling Yuwei's cultivation practice has completely reached the Divine Emperor Realm, and Lu Ming will never feel wrong.

Unexpectedly, in a year's absence, Ling Yuwei has made a major breakthrough.

You have to know that it is very difficult for the prospective emperor to break through to the emperor. Many of the world's arrogants are trapped in this step, and they do not know how long they will be trapped. Ling Yuwei has disappeared for a year but has already broken through.

It seems that Ling Yuwei must have had an adventure in this year, otherwise it will not be so fast.

Such as Ling Yuwei's arrogant arrogance, once stepped into the Divine Emperor Realm, the combat power will skyrocket, and the improvement is very amazing.

I am afraid that her own combat power is already above Lu Ming.

Although Lu Ming has reached the Quasi-Emperor from the eight levels of the Divine Monarch, and raised two levels, these two levels are only small levels, and the Quasi-Emperor to the Divine Emperor is the promotion of the great realm.

The promotion of the big realm is far from comparable to the improvement of the small level.

Ling Yuwei, holding a **** battle bow in his hand.

The arrow just now was shot by Ling Yuwei with a **** elven king bow.

Although Ling Yuwei broke through to the Divine Emperor, the combat power soared, but it was still impossible to hurt the Qiusu Han, and the Elven King Bow was needed.

But after she broke through the Divine Emperor Realm, it was much easier to control the elven king bow.

"Muyun, join hands together to kill this person!"

Ling Yuwei's voice sounded in Lu Ming's ears.

"Good~"

Lu Ming didn't think about it, he responded, and then it was a violent attack.

Huh...

Lu Ming fully exerted the Great Kamikaze technique. Among the strong wind beads, the strong strong wind screamed out and swept toward the Qisu Great Han.

Then, the three gravity beads also flew out, and the strong gravity pressed down.

Although Lu Ming's current practice is to manipulate three gravity beads, it will not have much impact on the Qiushu Han, but can it influence a little?

Feeling Lu Ming and Ling Yuwei's killing intent, Qiu Xu Han was even more furious.

"Just because you two little beasts also want to kill me, idiots say dreams, tyrannical hands, break the world!"

Qiu Dahan roared wildly, his body was shrouded in a layer of black light, and his two claws were even darker. He continued to catch out, inspiring a terrible wave of strength and fighting against the strong wind, and there was a crackling explosion in the air.

"The Arrow of the Elven King!"

Ling Yuwei drank, and the breath of her body was urged to the extreme. A towering tree emerged. This towering tree, containing immense life essence, was injected into Ling Yuwei's body.

For a time, Ling Yuwei's breath was strong to the apex. She bent her bow and arrow, a green arrow, condensed out, shattered the void, and shot towards Qisu Dahan, directly at Qisu Dahan's face.

In the past, the elven king bow, Ling Yuwei can only shoot an arrow, which is the limit and consumes a lot.

But now, Ling Yuwei can not only shoot an arrow, but also more powerful.

Qiu Xuhan's face was very dignified, and his palms were constantly flapping, but he couldn't stop it. His palm was shaking violently. At least dozens of layers of black light on his palm were instantly pierced by arrows.

puff!

This time, Qiuxuhan's palms were penetrated, and the arrow straightened his eyebrows. Qiusuhan's face changed wildly. At a critical moment, his body twisted slightly, avoiding the point, and the arrow passed through his neck hole. , Leaving a transparent blood hole before and after.

If ordinary people are attacked like this, there is absolutely a dead end, but for the masters of God Emperor Realm, this kind of injury is nothing. The divine power is running and it will soon heal.

However, in that moment, it will still be greatly affected.

"It's now!"

Will Lu Ming miss such an opportunity, vigorously urge the strong wind beads.

call!

A fierce gust of wind swept out and enveloped the big beard of the bearded man at once, cutting it frantically.

what!

Qisu Dahan uttered a shocking roar and fought madly.

However, he was shrouded in by strong winds and had lost his chance.

You know, the gale inside the gale beads is almost endless.

The Qiuxu Han hadn't rushed out yet, and Lu Ming pulled another gale wind around the Qiuxu Han and kept spinning.

When the strong wind was slightly smaller, Lu Ming pulled out another one.

Seven or eight gale winds were pulled continuously, and Qiuxuhan finally couldn't resist, as if he had been cut by countless blades, and cut out countless wounds.

"Muyun, you open a gap and let me end him completely!"

Ling Yuwei passed on the voice.

Lu Ming nodded and opened the fierce wind in the direction towards Ling Yuwei.

Qiusu Dahan immediately rushed towards the gap, trying to escape.

However, it was Ling Yuwei's arrow that greeted him.

call out!

The terrible arrow penetrated Qisu Dahan in a sudden, and the power of destruction exploded. The body of Qixu Dahan exploded, exploding a huge blood hole, and the breath was weak.

Endless strong wind, took the opportunity to cut away toward the Qisu Dahan.

"no no..."

Qiu Xuhan screamed in despair, but after a few breaths, there was no sound.

Chapter 3868: Mysterious Swamp and Ten Thousand Blood Fruit

Qiu Dahan, made a few screams of despair, and then no longer heard.

He was hit hard by Ling Yuwei with a single arrow, and then shrouded by strong wind, completely wiped out.

A great master of the Seventh Emperor of the Divine Emperor was just killed by two younger generations.

To be honest, the Seventh Emperor of the Divine Emperor is really amazing, and the combat power is very terrifying. Mainly, he was out of luck and met Lu Ming and Ling Yuwei.

The two are not just monsters, they all have terrible weapons on their hands.

Qiu Xuhan, who died in the hands of the two killers.

When the breath of the Qiuxu Han completely disappeared, Lu Ming untied the gale, and grabbed the palm of his hand. The Qiuxu Han's storage ring flew into Luming's hands.

"The treasure inside, we share equally!"

Lu Ming said to Ling Yuwei.

This time, thanks to Ling Yuwei, otherwise, Lu Ming couldn't keep the big beard.

Moreover, Ling Yuwei will come here, mostly to help him, which makes him slightly warm.

Ling Yuwei's character is still okay, so Lu Ming has more trust in her.

"No, this storage ring is yours, just as I thank you for the kindness that let me escape!"

Ling Yuwei smiled, like flowers in full bloom, beautiful and unparalleled.

The pearl on the list of cosmic pearls is well-deserved.

"Then I'm welcome!"

Lu Ming smiled and was not polite, put away the storage ring of Qiu Dahan.

"By the way, this year, I was trapped here. What happened to the Bingxuanming Soul Palace, have they all been scavenged?"

Lu Ming asked.

"Actually, I don't quite know. One year ago, after I fled, I came to a wonderful place by accident. That place was very suitable for me to cultivate. I practiced in that place for a year, and I broke through to God Emperor Realm and left. "

"After I left, I found this place according to the direction of your escape. As for what happened to Bingxuanming Soul Palace, I don't know very well!"

Ling Yuwei said.

Lu Ming nodded, and it seemed that Ling Yuwei was similar to him, not quite sure what happened to Bingxuan Ming Soul Palace.

Since the two met again, naturally plan to continue to join forces.

Immediately, the two left the snow mountain and then went deep into the Bingxuanming Soul Palace.

Next, they found several cities or palaces in a row, but the contents inside were evacuated. Obviously, they were first installed by others.

However, the two found a scene of panic.

That is, these buildings are all corpses.

Yes, exactly the same as Lu Ming saw before.

Some of these corpses were lying down and some were sitting cross-legged, as if they were sleeping or practicing, and then suddenly they were sucked away and turned into corpses.

Definitely not left recently, but left before the endless years.

This made Lu Ming and Ling Yuwei puzzled.

This is the Bingxuan Life Soul Hall, one of the nine Life Soul Temples of Life Soul Heavenly Court. The people who live here are all the people of Life Soul Heavenly Court. ?

Is it the Tiangong?

The two were puzzled and could only move on.

boom!

Suddenly, in a place where I don't know how far away, there was a roar, and the space fluctuated with the naked eye.

Then, in that direction, there was a blood-colored ray of light, straight above the clouds, even in a fairly distant place, you can see it.

The **** ray of light, straight through the clouds, brilliant and dazzling, the ray of light is billions of dollars, looks amazing.

Most of the Bingxuanming Soul Hall was shaken.

"What is that? What a brilliant brilliance, is there any treasure born?"

"Legends, Life Soul Heaven Court is a powerful force that can contend with the Heavenly Palace. There are countless treasures. This is one of the nine Life Soul Halls of Life Soul Heaven Court. There must be infinite treasures. It is normal to have any peerless treasures!"

"Go, go and see!"

Anyone who saw this scene flew in the direction of that radiant light.

Lu Ming and Ling Yuwei glanced at each other, silently nodded, and flew in the direction of Xia Guang.

The two were very fast, and soon afterwards, they were close to the land of glow.

This is a swamp, and at a glance, boundless.

The swamp is not water, but a blood-red liquid, like blood.

That **** ray of light burst out from the depths of the swamp.

Came here, the number of people soared.

Many of the bosses of Devil's Star Realm appeared one by one.

Such as the head of the magic crocodile tribe, the big brother of the seven emperors of the god.

The Sovereign of the Demon Sect is also the big brother of the Seventh King of God...

A powerful presence appeared here, in addition to them, there are also some powerful players such as Shenhuang Sixth and Fiveth Level.

The strong are like clouds!

"Even if there is a treasure, it is mine, and it will stop me from dying!"

The Patriarch Patriarch drank coldly, with a tyrannical gaze, glancing around, cold as electricity.

"Oh, it's such a big tone, is it really that you are the first in the Devil's Star Realm? It's ridiculous!"

The Sect Master of the Demon Sect, not afraid of the Patriarch Patriarch, sneered and responded.

"Sooner or later you will be cut!"

The Patriarch Patriarch grinned abnormally, and then flew deep into the swamp with the Patriarch tribe.

Other forces, large and small, flew into the swamp.

The swamp area is very wide, so many people fly in, not crowded at all.

Lu Ming and Ling Yuwei also fell behind and flew into the swamp.

In the swamp, the wind was calm and there was no slight wind.

Below, the blood-red liquid constantly exudes a **** smell, which is very unpleasant.

But at the next moment, there was a burst of fragrance, which flew into the noses of Lu Ming and Ling Yuwei.

"It's a thousand fruits!"

Suddenly, someone exclaimed.

Lu Ming has also seen big, in the middle of a swamp in front, there is a fruit tree, the fruit tree is not high, only as tall as ordinary people.

There were seven blood-red fruits hanging on the fruit tree, and the intoxicating aroma exuded from this fruit.

"It's actually a thousand fruits!"

Lu Ming's eyes also suddenly glared.

Wanxueguo is a very precious magic medicine. It is said that it is formed by the blood of thousands of souls and contains the majestic essence of life. It is swallowed by practitioners, which can quickly quench the divine power and improve cultivation.

Seven fruits are worth a lot, and many people's eyes are shining with blazing glory.

"its mine!"

Immediately, someone moved, and at an alarming speed, rushed to the blood.

"Get out of here!"

"kill!"

Others reacted and rushed to Wan Xueguo in a fierce battle.

At the next moment, there was a scream, someone was beheaded, and blood flowed into the swamp.

Dozens of masters, surrounded by thousands of blood fruits, carried out fierce fighting. Soon after, seven or eight people fell here. The body fell into the swamp and was swallowed by the swamp.

boom!

Suddenly, a breath as thick as a starry sky rolled over. A giant palm covered with scales appeared. When pressed down, several masters did not even scream, and the body burst apart.

Chapter 3869: Great Fragmentation

A palm covered with scales killed several masters at once, and one of them was still the existence of God Emperor Wuzhong.

Others were shocked and retreated.

A burly figure appeared over the tree of thousands of blood fruits.

Many people's pupils contract sharply, revealing a horrible look.

Patriarch Patriarch!

The sudden appearance of the burly figure is really the patriarch of the devil crocodile.

"Don't want to die, get away from me!"

The demon crocodile patriarch drank coldly and was overbearing.

The other people's faces were extremely ugly, and their eyes turned fierce, but although these people were all fierce, none of them dared to talk.

The Patriarch Patriarch, but one of the overlords of the Devil Star Zone, who dares to talk back, only has a dead end, unless it is a character of the same level as the other party.

Although they were very reluctant to go for all the results, they could only retreat.

Lu Ming and Ling Yuwei also didn't mean to shoot.

Although, Wan Xue Guo is also of great use to Lu Ming, because Wan Xue Guo contains the majestic essence of life, which can be absorbed by Lu Ming and stored as potential.

However, to the devil crocodile patriarch, it is too dangerous. The strength of the other party is absolutely not weaker than that of the blood-skeleton pirate group. The two of them can only deal with each other unless the card is exhausted.

But using a big killer in front of so many people, even if it can solve the devil crocodile patriarch, it will be targeted by other people, and it will be more dangerous.

For tens of thousands of blood, it's not worth it.

The two bypassed from one side.

boom!

kill!

At this time, war broke out suddenly in several other directions.

Groups of people are fighting fiercely, and people fall from time to time.

In those directions, magic medicines have also appeared, all of which are very precious magic medicines.

Many people get hot.

This is just after entering the swamp, and found the precious magic medicine in a row, the center of the swamp, the treasure that emits the radiant glow, how precious should it be?

Some people directly abandoned the magic medicine here, speeded up, and flew deep into the swamp.

"Treasure, it's mine, and it will stop me from dying!"

The Patriarch's patriarch was very domineering, and with a loud roar, it turned into a huge crocodile, ten thousand meters long, covered with black, and exuded a strong devilish spirit.

His tail swept out, and dozens of masters were swept directly, his body burst apart.

Roar roar...

The other powerful crocodile clan also transformed into the body one after another, followed the crocodile clan patriarch, and rolled towards the depths of the swamp.

"People of the Demon Sect, follow this seat!"

The Sect Master of the Demon Sect roared with a loud roar, and with the master of Xing Mozong, flew deep into the swamp.

"go!"

Several other top forces in Devil Star Realm also rushed to the depths of the swamp with the masters under the door.

For a time, the strongest group of people in the Devil's Star Realm rushed into the depths of the swamp.

However, some people did not rush in.

Those big guys went in, they followed up, and there was no way to compete. It would be better to get some benefits here, and come even more real.

Lu Ming and Ling Yuwei also did not rush in.

In the depths of the swamp, even if there are extremely precious treasures, but so many people rush in, there will definitely be a fierce battle, they are now rushing in, it is too unwise.

It's better to be outside and get some comfortable medicine.

"There is also a thousand blood fruits!"

Suddenly, Lu Ming saw that there was also a ten thousand berries in the tens of thousands of meters on the left. Nine bright red fruits hung on this ten thousand berries, exuding an attractive luster.

Uh!

Lu Ming stepped out and rushed towards that side.

"Every quasi-Emperor, who also wants to get involved in blood, find death!"

A tyrannical roar came, and then, a dark magic axe came from the side, slamming toward the landing.

Magical and powerful, the breath is compelling, this is a master of the double emperor.

Lu Ming's eyes were cold, he turned around suddenly, and punched out.

This fist used a big fragmentation technique.

when!

Lu Ming's fist bombarded the dark magic axe, and a terrible roar erupted, a wave of energy, spreading in all directions.

At this time, Lu Ming could see clearly that it was a strong man with a horn on his head who attacked him.

At this moment, in the eyes of this strong man, it was all horror and fear.

Click!

The magic axe in the strong man's hand made a clicking sound, and there were dense cracks on it, and the last whole axe shattered into pieces.

Not only that, but the body of the strong man was also covered with dense cracks, as if he were all made of porcelain.

bump!

Finally, the body of the strong man burst into pieces.

It was directly broken into pieces by the big fragmentation technique.

A master of the **** emperor's double, was directly killed by Lu Ming, without any power to fight back.

"Is this my strength now?"

Lu Ming's eyes glowed, and he was very satisfied with his strength.

You know, just now, he hasn't started the war of words yet, only with the power of taboo and the big fragmentation technique.

"This kid..."

All around, many people saw this scene, their pupils contracted for a while, feeling a little scared.

A prospective emperor, who actually killed a **** emperor twice, was so terrible.

Could it be that the peculiar genius came out of a certain clan?

"No matter what he is evil, kill, kill him, and get the treasure on him!"

"Hey, this kid, it's mine!"

These people around were all fierce and terrible. Although they were a little frightened at first, they were immediately replaced by greed.

In the Devil Star Realm, there will often be days of arrogance and evil spirits to practice. This kind of arrogance and evil spirits, they are not killed.

Moreover, often such arrogant evildoers have many treasures on their bodies, and killing one is a big profit.

So, after a few breaths, at least seven or eight figures rushed to Lu Ming.

Among these people, there are three emperors and four emperors.

The **** emperor more than five weights, almost all rushed into the depths of the swamp before.

Seven or eight masters, seven or eight attacks, suddenly shone to the landing.

So many masters join hands, not to mention a quasi-empire, even if it is also the fourfold of the emperor, it is very dangerous.

"Come well!"

Lu Ming felt excited all over his body.

He directly triggered five times the combat strength of the war character tactics, and raised the combat power to the top.

Buzz!

The three gravity beads flew out at the same time. The powerful gravity enveloped seven or eight masters in it. The powerful gravity pressed against them.

At the same time, Lu Ming used the Great Fragmentation Technique and the Great Kamikaze Technique to attack him, and his fists blasted continuously.

The terrible punching power, with the cutting power of Great Kamikaze, and the breaking power of Great Shattering, turned into rolling punching power, blasting in all directions, colliding with seven or eight masters.

The triple attacks of the Divine Emperor were unbearable. They were directly defeated by Lu Ming's fist, and the terrifying fist kept bombarding those people.

These people were killed without even screaming.

Chapter 3870: Extreme combat power and mutation

The five superpowers of the three emperors were directly killed by Lu Ming's fist, and the existence of the three superpowers of the three emperors also coughed up blood and flew back. All of them were incredible.

It's terrifying, it's terrifying.

Not only was Lu Ming able to kill God Emperor Double, but even God Emperor Triple had been spiked.

How is this possible, how could there be such a strong demon in the world?

"Unfortunately, the Divine Emperor is fourfold, it is still difficult to kill!"

Lu Ming sighed.

Although he can kill God Emperor Triple, but it is not so easy to face God Emperor Triple.

Divine Monarch Realm, every gap is so big, Divine Emperor Realm, every gap is bigger.

It is extremely difficult to make a breakthrough over a heavy cultivation.

He used the realm of quasi-imperial, cross-border seconds to kill God Emperor Triple, which is already a miracle of miracles. The entire wilderness universe can do this with one hand.

The vast universe, this is already the peak.

"kill!"

Although Lu Ming sighed in his heart, the offensive continued, and he continued to kill the three masters of the four emperors.

"Broken Sword!"

"Turn the Cloud Knife!"

"Lingyun Claw!"

The three powerful emperors shouted and made the strongest blow against Lu Ming.

Boom!

The two sides clashed fiercely and collided a dozen tricks in a blink of an eye. The three masters of the four emperors were completely suppressed by Lu Ming and kept retreating.

"Oh my God..."

Not far away, Ling Yuwei gaped, her mouth slightly opened, her eyes filled with shock.

She herself is strong enough, but when she is in the quasi-imperial level, she can kill the Divine Emperor at most, and it will not be so easy.

However, Lu Ming was able to kill God Emperor Triple, and suppress the three God Emperor Quadruple. This combat power is much stronger than she did not know.

The same is the evil arrogance, is the gap so big?

As for the others in the Devil's Star Realm, they were even more horrified and thought they were dreaming.

In a blink of an eye, Lu Ming and the three masters fought dozens of moves.

boom!

At this moment, Lu Ming triggered six times the fighting strength of the war character formula, and the fighting power suddenly soared. One of the four masters of the Divine Emperor was not blocked. Lu Ming was punched in the abdomen and the entire lower body was burst.

At Dantian, a bright star emerged, wrapped in his divine light, and flew wildly towards the distance.

The other two powerful kings of the four emperors were frightened and flew towards the rear, disappearing without a trace.

The existence of the three **** emperors and fourfolds, just like that.

Lu Ming did not pursue, but stopped and felt his own combat strength carefully.

After this battle, he probably knew his strength.

It can suppress ordinary **** emperor's fourfold, if unexpected, killing is also possible.

However, against the God Emperor Wuzhong, he must be defeated, I am afraid that he will be killed by the opponent.

The gap between each weight is huge.

He wants to deal with Divine Emperor's fivefold. At the quasi-imperial level, it is almost impossible. The gap is too large. Even if he practices several more ancient secrets, or breaks through the Great Divine Wind and Great Fragmentation, he can't do it. , Can't improve so much combat power.

If you want to deal with Divine Emperor's fivefold, I'm afraid you have to wait for him to break into Divine Emperor Realm.

"This guy..."

In the distance, Ling Yuwei murmured to herself.

Lu Ming's combat power is really amazing. Although she has now reached the Divine Emperor Realm, she is not 100% sure that she can suppress Lu Ming.

However, she has broken the **** emperor, and Lu Ming is still the prospective emperor.

This time, no one dared to deal with Lu Ming, Lu Ming easily put nine ten thousand blood fruits in the bag.

Lu Ming showed a happy look. Now, he wants to be a quasi-emperor for the impact of the emperor, so the more resources, the better.

After collecting nine thousand fruits, Lu Ming continued to go in the other direction.

Ling Yuwei is separated from him temporarily and collects resources separately.

Anyway, the existence of the Divine Emperor's Five Layers almost rushed into the depths of the swamp. In this outer area, the two men's combat power is enough to cross.

In addition, they all have the cards, even if they meet the stronger, they are not afraid.

In this way, Lu Ming collected all the way, and a few hours later, he also collected dozens of thousands of blood fruits.

Hundreds of thousands of blood fruits, although they can't help him break through the Divine Emperor, are also a considerable resource.

Rumble!

Just then, deep in the swamp, came a violent roar, the **** glow of light, disappeared without a trace.

The violent roar became louder and louder.

Ah...

Suddenly, deep in the swamp came a scream of screams, one after another, ups and downs.

Outside the swamp, Lu Ming and others stopped and looked deep into the swamp, looking at each other, not knowing what happened deep inside the swamp.

Ling Yuwei appeared quietly beside Lu Ming.

"what happened?"

Ling Yuwei frowned, a bad hunch in her heart.

"I don't know, is it that the people deep in the swamp broke out fiercely in order to fight for the treasure? Wait and see how it changes!"

Lu Ming said.

Not only did Lu Ming think so, but other people also thought so. They thought that the big guys who had entered the depths of the swamp had fought to fight for treasures.

But soon after, everyone's face changed.

The vibration of the ground became more and more intense, and then the **** liquid in the swamp suddenly boiled up like a wave of the sea.

Wow!

Suddenly, these **** liquids flew high into the sky, forming layers of **** water curtains, blocking their retreat and blocking them.

"what happened?"

"No, just rush out and say it here, weird here!"

Many people's faces changed greatly, and they rushed out, trying to leave here first.

However, everyone was blocked by the **** light curtain.

"Damn it, break me!"

"broken!"

Many people shouted and an attack broke out.

However, whether it is Divine Emperor Triple, or Divine Emperor Fourfold attack, it is useless.

Their attack fell on the blood-colored light curtain, as if the stone sinking into the sea, disappeared silently.

"I'll try!"

Ling Yuwei bent his bow and arrow, shot an arrow, and struck the **** light curtain.

However, useless, like others, was also blocked by the **** light curtain, did not stir up a little waves.

"Trouble!"

Ling Yuwei's face dignified.

"Inside, someone came out!"

Suddenly, someone yelled.

Uh, uh...

From the depths of the swamp, there was a figure flying out.

There are not many people, only dozens of people.

Everyone saw the elders of the Devil Crocodile Patriarch, the Sovereign of the Demon Sect Master, and other big brothers in the Devil Star Realm.

As for the **** emperor below the sixth weight, none of them were seen, all disappeared.

Even the devil crocodile patriarch and others, all of them were wounded, their bodies were ragged, their breath was weak, and they were obviously hit hard.

"Rush out, what are you still doing here? Rush out together!"

The crocodile patriarch shouted.

"Can't rush out, we are blocked!"

Someone responded.
