

D Emperor 3891

Chapter 3891: The spy of the elven emperor

A dozen elven races, Tianjiao, who shot just now, had their shoulders pierced by their arrows.

Obviously, Lu Ming has shown mercy to his men, and if these arrows are penetrated by their key...

Unimaginable!

The scene was quiet.

"Now, am I qualified to deserve the elven princess?"

Lu Ming said lightly.

No one speaks.

If even Lu Ming couldn't match it, wouldn't it mean that they couldn't match it anymore.

"Strength is a bit, but people are too arrogant, how can they deserve Princess Yuwei?"

At this moment, a cold voice sounded.

In the distance, a figure came from the sky.

It is also a young man of the elven race, with long hair high up, very handsome, he is wearing a silver robe, like a handsome young man.

"It's Hua Xing!"

Some elven youths exclaimed.

Not all elven families have the surname Ling. In fact, only the elven royal family is the surname Ling. Other elven families have various surnames.

"Hua Xing of the list of top 100 quasi-empires!"

Lu Ming moved.

For the list of the top 100 quasi-empires, he also deliberately knew about it. For the one hundred names above, he had already kept in mind.

Above that, there is Hua Xing this person, the list of the top 100 quasi-empires, ranking 23, is a more powerful monster than the nine silkworms.

There are two elves on the list of the top 100 quasi-empires, namely Ling Yuwei and Hua Xing.

Therefore, Ling Yuwei and Hua Xing, also known as the double walls under the elven ***** emperor.

Naturally, Hua Xing also admired Ling Yuwei very much, sincerely wanted to marry Ling Yuwei as his wife, and Qingyun went straight.

With his talent, the future may not be able to become a hegemon.

Therefore, he did not allow others to get involved in Ling Yuwei.

If Ling Yuwei is married to the Angels, he has no choice but to keep a Muyun in his eyes.

He wanted to suppress Lu Ming and make Ling Yuwei look at him so that maybe Ling Yuwei would not marry with the Angels, but be with him.

Although there is not much hope, as long as there is a glimmer of hope, he will fight for it.

Hua Xing's eyes were scorching and he was staring at Landing. Soon, he came ten thousand meters away from Lu Ming and stopped.

"Muyun, I know you defeated the Nine Silkworms, but the Nine Silkworms are only 49th in the Top 100 of the Prospective Emperor. It is far from the real top arrogance. Do you understand?"

Hua Xing said coldly.

"You mean, are you really a top genius?"

Lu Ming smiled faintly.

"you could put it that way!"

Hua Xing nodded, very confident.

"Oh, then you top genius, why do you come to me?"

Lu Ming said.

"Challenge, fight me!"

Hua Xing said, the will to take off.

"Challenge me?"

Lu Ming's mouth slightly raised, and said: "To be honest, I actually have no interest in the challenge of such a thing, because there is no challenge at all!"

"Nest, too rampant!"

"Who does he think he is, does the existence of the top ten in the list of top 100 quasi-empires, dare to look down on Hua Xing, it is really beyond his control!"

"I don't think he dare to accept the challenge, so he said this deliberately!"

Lu Ming's words drew uproar at the scene.

Hua Xing's eyes also burst into anger.

He was so underestimated by Lu Ming, making him angry, and in the anger, a cold murderous opportunity burst out.

"of course..."

At this time, Lu Ming's voice changed again, saying: "If you must challenge me, it's not impossible, you need to add some bonuses, how?"

"Color head? What color head?"

Hua Xing narrowed his eyes and asked.

"This is it!"

Lu Ming moved his hand, and the elf wood heart that Ling Yuwei had given him appeared before.

"We bet one hundred bets on this kind of elf wood heart. If I lose, I will give you one hundred. If you lose, you will give me one hundred. How?"

Lu Ming said.

Since discovering the benefits of this kind of elf wood heart, Lu Ming has a plan. This time, the elven clan can't come in vain. This kind of elf wood heart has to collect a batch, and it will be great for his future cultivation. use.

Hua Xing wanted to challenge him. How could Lu Ming miss such an opportunity to collect the elves' wooden hearts.

"One hundred elven wooden hearts!"

Hua Xing frowned.

A hundred elven wooden hearts, but not a small number, even if he took it out, it would be painful.

"Why? You don't have a hundred elven wooden hearts?"

Lu Ming asked.

"I naturally have it. I'm afraid you don't have it. The elf has a wooden heart, but it's a unique treasure of my elven family!"

Huaxing Road.

"Hahaha, you don't have to worry about this. With my relationship with Yuwei, how can I not even get out of a hundred elven wooden hearts!"

Lu Ming grinned and called Ling Yuwei very warmly, which caused the elven youths around him to almost spit blood.

Of course, the most angry person was Hua Xing. His face was quite ugly, and he immediately agreed: "Okay, I promise you, you and I will bet one hundred elves' wooden hearts!"

...

When Lu Ming and Hua Xing were about to fight, within the Wizard Palace, someone immediately reported the situation of Lu Ming and Hua Xing and others to Ling Ashuo and others.

"They can't play..."

Ling Yuwei heard the news immediately.

"Why can't you fight? In order to test that Muyun, what level is it? I think it's good. Are you afraid that Muyun will be hit hard by Hua Xing? Then you can only blame him for his inexperience in art and talent, not enough to match you. !"

Ling Huawei's Uncle Ling Hua made a seal.

"No, I'm afraid that Muyun's failure to hit Huaxing seriously, they are not opponents of Muyun..."

Ling Yuwei explained.

Lu Ming's strength, she is very clear, is really too strong, not Hua Xing and others can contend at all, the difference is too far.

She was telling the truth. Once she did it, she was really afraid that Lu Ming would have missed a hand, hitting those elves of the elven clan and causing more hostility.

However, others did not believe at all.

Ling Huafeng, Ling Piao and others sneered and shook their heads.

"Yu Wei, if you are afraid that Muyun will be invincible, just say so, and still find such an excuse. Really, let me say you?"

Ling Piao kept shaking her head, and a pair of people saw through Ling Yuwei's thoughts.

Ling Ashuo also gloomy face, apparently do not believe Ling Yuwei's words.

He couldn't understand it in his heart. Ling Yuwei was usually arrogant and arrogant. There were not a few men who could give her a glance. Why are you protecting Muyun so much now? Is Ling Yuwei really in love with Muyun?

What unique place is there in Muyun?

"Go and see!"

Ling Ashuo opened his mouth, waved his hand, and a mysterious force spread out, and the void suddenly showed waves. Then, in the hall, everyone disappeared. The next moment, they appeared in Lu Ming. Over the sky.

However, they were shrouded in a mysterious power, and Lu Ming and others below did not even know that someone was watching them.

Chapter 3892: Sky Split

However, they cannot find Lu Ming, which does not mean that no one can find that Lu Ming's tactics of warfare in the sea have shrunk sharply and become extremely tiny, as if to disappear from time.

Bone Demon's breath, also incomparably astringent, seems to turn into a skeleton without any breath.

"Bone Demon, what's wrong?"

Lu Mingling found out that the bone demon and the war character tactics were abnormal.

"There is a terrifying strongman peeping over the sky. It is extremely terrifying. I can't be found. You can do it for yourself!"

Bone Demon responded, and then there was no more breath.

"Terrorist powerhouse?"

Lu Ming's pupil shrank slightly.

Bone Demon's vision is high, he is very clear.

What can be called 'horror' by bone demons is absolutely terrifying.

"Is it the elite clan's top strong!"

Lu Ming's thoughts flew, pretending not to know anything, standing in the void, because, he and Hua Xing, will soon be fighting.

boom!

In the void tens of thousands of meters away, Hua Xing's breath soared to the top, and he was covered with bright green light, and a huge battle bow emerged. It can be clearly seen that his whole body of spirit is injected into the battle bow, like a snake.

"This is the Split Sky Bow. Hua Xing actually used the Split Sky Bow as soon as he shot!"

"Normal, this Muyun, although arrogant and arrogant, still has some strength. After all, he once defeated the Nine Silkworm Master and Hua Xing did not dare to care!"

"However, the split-sky bow technique is overwhelming, the open-split bow splits the sky, the lethality is amazing, can this Muyun block it?"

"Block an arrow, it is estimated that it can be blocked, the key is how many arrows can he block?"

"There is absolutely no way to stop the three arrows. You know, with the sky-split bow, one arrow is more powerful than one arrow!"

All around, there are more and more elven youths coming together, and there is a lot of discussion at this time.

Many people who understand the power of Hua Xing's splitting bow think that Lu Ming can't take Hua Xing's three arrows.

Although Lu Ming defeated the Nine Silkworms, the Nine Silkworms were only ranked 49 in the quasi-top 100 list, and Hua Xing, but ranked 23, let Hua Xing and the Nine Silkworms duel, Hua Xing may well defeat the Nine Silkworm.

Elves mostly use bows and arrows, and the power of bows and arrows is very great. When an arrow is shot, it can often be killed by one blow.

Hua Xing's breath is getting stronger and stronger, but Lu Ming, standing still and watching quietly.

"In the face of bow and arrow masters, he didn't take the lead and interrupted the opponent's momentum, but stood still. Such behavior, without the slightest sense of fighting, is this a pride?"

High in the air, Ling Piao chuckled.

"I think it's just brute force!"

Ling Yuwei's cousin also shook his head and smiled.

At the moment, Ling Yuwei did not speak.

There is nothing to say, just wait for Hua Xing to be abused.

call out!

Finally, Hua Xing's breath rose to the apex, and an emerald green arrow burst out of the sky, directly tearing the sky into a dark channel, and shot Lu Ming at an alarming speed.

To be honest, the power is really strong, but it is only a little weaker than Ling Yuwei's full shot. There are really not many people who can catch the entire Honghuang universe.

Of course, this is only for other prospective emperors. For Lu Ming, this arrow is very weak!

too weak!

Lu Ming just stretched out a hand and grabbed volley.

With a buzz, the arrow shot by Hua Xing was caught by Lu Ming in his hand.

Then everyone was stunned, his eyes rounded, his mouth bigger than the snake's open.

Startled, stunned, stunned!

The arrow shot by Hua Xing was actually caught by Lu Ming so lightly. What's going on?

Was the arrow just made by Hua Xing just a temptation, and did not use much effort at all, and Lu Ming saw through?

But no, the power of the arrow just now is very amazing, very terrifying, and the power is very unusual. Many people feel that their brains are a bit dazed, and they can't turn it around for a while.

In the high sky, Ling Piao and his brother and sister were also stunned, dumbfounded.

They are very familiar with Hua Xing, and they know that Hua Xing is powerful. If they are also quasi-emperor, if they are Xiu Wei, they are at the same level as Hua Xing. how is this possible?

Even the two brothers Ling Ashuo and Ling Huafeng, their pupils shrank slightly, revealing a trace of surprise.

"interesting!"

Ling Ashuo whispered.

This caused Ling Huafeng and Ling Piao's brother and sister to sink slightly.

At the moment, the most shocking is Hua Xing himself.

The arrow just now, he almost exerted all his strength, his original intention is to solve Lu Ming with one arrow.

But I never imagined that the arrow he shot with all his strength was so easily caught by Lu Ming that he lost face.

"Damn, I don't believe it, split the sky arrow, the arrow breaks the sky!"

Hua Xing shouted, with his divine power, he didn't want money to pour into the war bow.

Buzz! Buzz!

This time, two arrows at once flew out and shot to see Lu Ming.

The two arrows, one after the other, shattered the void, directly breaking Lu Ming's eyebrows, and the power was more terrifying than before.

However, Lu Ming's face was still calm, and he reached out and grabbed. The two arrows were like two toys, and Lu Ming was caught in his hand.

This time, Hua Xing did not stop, and attacked again, this time, three arrows together.

As soon as these three arrows were shot, they had not approached Lu Ming yet. Hua Xing shot another arrow. This time, it was four arrows.

Before and after, a total of seven arrows, seven arrows, actually gathered together in the air.

The seven arrows unite, and the power reaches its peak.

Splitting the sky bow, an arrow is stronger than an arrow, it really deserves its reputation.

Such a power, even if it is a double existence of a **** emperor, I am afraid that it would not dare to be hard-wired and will be hit hard.

The ranking of the top 100 of the quasi-imperial top 100 is not just talking, it is true.

Then, Lu Ming did exactly the same thing as before, still reaching out.

Buzz!

The arrow was caught in Lu Ming's hand and kept shaking, but Lu Ming squeezed it with his hand, and the arrow hit with a burst, exploding and disappearing into energy.

"No, no, this is impossible..."

Hua Xing shouted unacceptably.

He has done his best, and at this moment the power is almost exhausted.

He tried his best, but he was still caught by Lu Ming with such an understatement, which hit him too hard, and he could not accept it.

Lu Ming's cultivation practice is not God Emperor, but also only below God Emperor, the gap is so big?

On the edge, the other youths were already stunned and unable to say a word.

The two brothers and sisters of Ling Piao were also there. They didn't say a word at all.

Ling Ashuo and Ling Huafeng were also full of surprises in their eyes. Lu Ming's strength exceeded their expectations.

Only Ling Yuwei's face is always calm, and she has not changed from beginning to end, because all this is in her expectation.

Chapter 3893: Ling Piao's purpose

Ling Yuwei's complexion was always calm, she had long expected this scene.

The same as the emperor, how could Hua Xing be Lu Ming's opponent, the difference is too big.

"Ah, I don't believe it, I don't believe it, die for me..."

Being watched by so many people, Hua Xing felt ashamed and utterly exhausted. His blushing face rose completely violently, and he was burning with divine power, and then poured into the battle bow frantically, to condense powerful arrows and do The final struggle.

However, Lu Ming no longer intends to give him the opportunity to continue to shoot. Lu Ming stepped out, the Great Divine Wind technique was running, a few flashes, and his figure appeared in front of Hua Xing, and then he took a palm shot.

A palm came out, the situation changed, and a huge palm formed, pressing down towards Hua Xing.

bump!

The arrow that Hua Xing had just condensed collapsed directly. The whole person of Hua Xing was shot tens of thousands of meters away by Lu Ming. He vomited a lot of blood. If he was caught by someone else, he was terrified and even volleyed. Difficult to maintain.

Defeated!

Hua Xing was defeated, miserably.

He was like a baby in Lu Ming's hands and could not withstand a blow.

"It's loud, it's the strength!"

Lu Ming shook his head and looked very disappointed.

puff!

Hua Xingqi vomited blood again.

Just a moment ago, he also looked like he was dragging into the sky. He looked like an invincible person. He seemed to be able to slap Lu Ming with a slap. As a result, he was slapped by Lu Ming with a slap.

Shameful, so shameful, he wished to find a crack in the ground to get into it.

"Don't worry about vomiting blood; give me one hundred elf wooden hearts you owe me!"

Lu Ming continued.

puff!

Hua Xing continued to vomit blood.

He remembered that he was not only defeated, but also gave Lu Ming one hundred elf wooden hearts.

Uncomfortable, uncomfortably uncomfortable, Hua Xing felt that the whole person was not good, and the heartache would split.

"It's a man, don't leave your mother-in-law, and be willing to gamble and lose, hurry up and give it to you!"

Lu Ming urged.

Hua Xing was really reluctant and hesitant.

However, so many people watched that if he didn't pay, the shame would be lost, and later in the elven clan, it would be even more difficult to lift.

After ink for a while, Hua Xing finally took out a storage ring and threw it to Lu Ming, with pain in his heart and bleeding.

"Muyun, you wait for me!"

After throwing the storage ring to Muyun, Hua Xing turned away and disappeared without a trace.

Lu Ming quickly took out the storage ring, swept the spirit, and smiled.

In the storage ring, a hundred elven wooden hearts are neatly placed, all of which are genuine and genuine.

This is a good thing, Lu Mingxi Zi put away.

"Which dear friend, who is going to gamble, or gambler Mu Xin, how?"

Lu Ming raised his eyes and glanced over the elves, Tianjiao, revealing the look of expectation in his eyes.

It would be a bargain to get so many elf wooden hearts by doing one, Lu Ming suddenly looked forward to someone challenging him.

It is a pity that he was disappointed, and all elven clan Tianjiao avoided his eyes and dared not look at him.

Just kidding, Hua Xing is the monster in the rank of 23 on the list of Top 100 of the Prospective Emperor. At the level of Prospective Emperor, he has already stood at the peak of the vast universe, but in the hands of Lu Ming, he is still defeated so miserably. Dare to go up, isn't that looking for abuse?

Who would be free to find abuse?

Unless it is the arrogance of God or above.

But the arrogance above the Divine Emperor, to deal with a prospective Emperor, to speak out, it is a bit shameful.

"This guy..."

In the sky, Ling Yuwei was speechless.

She promised to help Lu Ming collect a group of elf wood hearts. She hadn't started yet. Lu Ming started collecting elf wood hearts.

"This greedy guy!"

Ling Yuwei secretly scorned his face, but his face was full of smiles, and looked at Ling Piao and others deliberately, saying: "I said, Hua Xing is not Lu Ming's opponent, I was afraid that Mu Yun would hurt Hua Xing, you I still don't believe it, do you see it now?"

Ling Piao and his brother and sister are both ugly and silent.

"The strength is good, but unfortunately, the cultivation base is too low, it is just a quasi-empire, and the future is unknown."

Ling Huafeng shook his head slightly.

"Second Uncle, do you think that with a talent like Muyun, the bottleneck of Divine Emperor Realm can trap him?"

Ling Yuwei said.

"It may be that there is no breakthrough, everything is possible. In history, there are countless geniuses to be shocked before they are gorgeous, but they are still trapped in the quasi-imperial level, and it is difficult to break through, and finally it is gloomy!"

"And, even if he can break through the Divine Emperor? How can it be compared with the angelic pride?"

Ling Huafeng laughed.

"I believe Muyun will not be weaker than anyone!"

Ling Yuwei said.

"Yu Wei, you are too biased to graze the clouds, the universe is so big, there are countless arrogances, who can be the first?"

"Besides, even if he is talented alone, how can he compare with the whole angel family? He is just a small disciple of Fengdu sword faction in the Tiehai star field group, which is completely incomparable with the angel family. Sex, Yuwei, you have to focus on the big picture!"

Ling Hua closed the road.

"You want to **** the angels, you go to bachelor yourself, don't pull me!"

Ling Yuwei said coldly.

"You girl, big brother, you have to take care of Yuwei!"

Ling Hua stared straight at him, and finally looked at Ling Asus.

During this process, Ling Ashuo has not spoken, and I don't know what to think. He waved at the moment: "Okay, you guys say less, go back first!"

With a wave of hands, the crowd returned to the elven palace again.

"Yu Wei, let's go back to rest first, and you will all go together, I'm going to practice!"

Back at the elven palace, Ling Ashuo waved his hand.

Ling Yuwei, Ling Huafeng and others have successively resigned.

After Ling Yuwei left, she went straight to the resource temple of the elven clan and planned to get a group of elf wooden hearts to Lu Ming.

Ling Huafeng, Ling Piao and his father, and the father and son returned to their place of residence.

"No, I can't let Ling Yuwei and Na Muyun go together. I finally took the road of the angel family. I can't be so broken!"

As soon as he returned to his place of residence, Ling Piao cried out directly, his face was very ugly and ugly, and it was different from the past.

Others don't know, they know very well that the reason why Ling Yuwei will marry with the angelic family is entirely because of her matchmaking.

By chance, she met the angel clan's demon tianjiao. After knowing that the devil tianjiao liked beauty, she introduced Ling Yuwei to the other party.

The angel clan's wickedness is arrogant, and at the sight of Ling Yuwei, he fell in love and immediately sent someone to the elven clan, saying that he wanted to marry Ling Yuwei and marry the elven clan.

Originally, Ling ASUS did not want to agree, but after Ling Huafeng's lobbying to analyze the stakes, in the end, Ling ASUS also agreed.

Chapter 3894: Thousand Elf Wood Hearts

The marriage with the angels must be successful.

Because, once successful, Ling Piao can catch the line of angels.

The angel family, but they have a very good relationship with the Tiangong. Once they get on, their family will go straight up in the future, and the benefits are not enough.

Therefore, Ling Yuwei must marry the angel family Tianjiao and must not be destroyed by others.

As for the angel clan Tianjiao is a playboy, Ling Yuwei will be happy if they marry each other, so they are too lazy to control.

Ling Yuwei is not happy, what is their concern? As long as they are not happy.

"Unexpectedly, Muyun's talent is so high that even Hua Xing was easily defeated. I think Ling ASUS has hesitated!"

Ling Huafeng also said somberly.

"Can't go on like this, you must suppress the kid from Muyun, even remove him..."

In Ling Piao's eyes, there was a cold murderous chance, no one could stop her future, if so, she would let the other party disappear forever.

"How to kill? This is the elven clan palace. No one can do it here without being discovered. As long as that Muyun lives here, we can't send someone to do it!"

Ling Hua closed the road.

"Then ignore it, and wait for the old fellow Ling ASUS to change his mind, it will be troublesome!"

Ling Piao said, there was no respect for Ling ASUS.

"Relax, I already have an idea!"

Ling Huafeng smiled.

"Daddy, you have an idea. What's the idea?"

Ling Piao asked quickly.

"That Muyun, did not defeat Hua Xing, but also humiliated him in public, and was humiliated by this strange shame, how can Hua Xing be reconciled?"

"And Hua Xing's eldest brother Hua Tian, but the demon prince of God Emperor Realm, as long as we agitate in it, you say, what will Hua Tian do?"

Ling Huafeng smiled, an old traitor.

"Yeah, how come I didn't expect it, or Dad is wise!"

Ling Piao's eyes lit up.

"Of course, we can't put all our hopes on Huatian. If Huatian loses, I still have a plan!"

Ling Hua closed the road.

"Huatian will lose? Huatian is God Emperor's heavy demon arrogance. Although he is not as good as Huaxing at the time of the quasi-imperial level, it is not too far behind. Will it be better than that of Muyun?"

Both Ling Piao and his brother and sister showed disbelief on their faces.

Divine Emperor Realm and Quasi-Emperor, that is the gap between the big realm.

The vast expanse of the universe, the boundless territory, the countless races, and the living creatures are like the sand of the Ganges, endless and endless, and the arrogance is also endless.

In the endless arrogance, you can fight at the quasi-imperial level. You can fight at the level of the quasi-imperial level. In the same era as the Great War God Realm, there are fewer than a thousand people in the same era.

Thousands of people seem to be many, but placed in the entire wilderness universe, Biele is very, very small.

There are 10,000 powerful races in the Honghuang Wanzu list.

But this is a cross-border battle, and it is only the ordinary Divine Emperor who takes it seriously.

And Huatian, at the quasi-imperial level itself, is a demon arrogant who can fight across borders. After he stepped into the Divine Emperor's weight, the combat power is even more amazing. Who can be such a arrogant in the quasi-imperial level cross-border war?

They are hard to believe!

"I don't believe that Muyun can be against Huatian, but you have to remember that you have to prepare with both hands in case, just in case!"

Ling Hua closed the road.

"What's Dad's second strategy?"

Ling Piao asked.

"It's very simple. The holy species assessment of the elven race is about to begin. If Huatian can't take Muyun, I will propose to Ling Ashuo. To prove Muyun's talents, let Muyun participate in the holy species assessment. At that time, he would not only face the arrogance of the elves, but also face the crisis of assessment, ha ha!

Ling Hua closed the road.

"Miao, really wonderful, or dad you are the smartest..."

Ling Piao's siblings shined in their eyes.

...

After Hua Xing retreated, no one else continued to challenge Lu Ming. Lu Ming was quite disappointed and returned to the palace. The young people of the elves also dispersed.

However, regarding the recent World War I, it spread throughout the elves at a hurricane speed.

When Lu Ming returned to the palace, he took out an elf wooden heart and absorbed it.

Elven wood heart, contains huge essence of life, and is very pure, very easy to be absorbed, is a rare treasure.

If an ordinary person swallows an elf wooden heart, he can be reborn immediately. Not only will he be free from all diseases, he will not invade all kinds of poison, but he can also have a life span of ten thousand years.

Lu Ming held the elf wooden heart in his hand, the cells shivered slightly, and a strong attraction burst out. The essence of life in the elf wooden heart was quickly absorbed by Lu Ming and rushed into each cell, turning into Lu Ming's potential.

After an elf wooden heart was absorbed, Lu Ming increased his potential by 1%.

Don't underestimate the 1% potential, because Lu Mingxiu is now too deep and much deeper than before. The 1% potential and the energy required are already amazing.

Ordinarily, a god-level magic medicine may not increase the potential of 1%.

Lu Ming was quite satisfied. He took one, took another one, and absorbed it.

One by one.

In just one day, the 100 wooden hearts won by Lu Ming were absorbed and refined into 80, so that the potential stored in Lu Ming's cells reached 100%.

Of course, it is not this 100% potential. If all of them are developed, it will help Lu Ming break through the Divine Emperor Realm, which is certainly not enough.

I am afraid it takes many times to help him break through the Divine Realm.

"I need to find a place to help me develop my potential, but it is not suitable here. I still practice the secret technique first. After solving Ling Yuwei's matter, I will find a place to cultivate and practice well!"

Lu Ming thought.

Thinking about it, Ling Yuwei came to him.

"Muyun, this is for you!"

Ling Yuwei threw a storage ring to Lu Ming.

Lu Ming took it, swept the consciousness, and found that a thousand elf wooden hearts were neatly placed inside.

"Inside, there are a thousand elven wooden hearts. This is within my power. It can mobilize the largest amount of elven wooden hearts. Should it help you break through the Divine Emperor Realm?"

Ling Yuwei said.

"Thank you!"

Lu Ming clenched his fists and put them away politely.

A thousand elven wooden hearts, whether he can help him break through the Divine Emperor Realm, he is unclear, but undoubtedly, this is an amazing wealth, which greatly helps Lu Ming.

"Cultivate well, break through the Divine Emperor Realm as soon as possible. Those of my second uncle have nothing to say. My lifelong happiness is all in your hands!"

Ling Yuwei said, a pair of beautiful eyes, staring at the landing Ming, splendid.

Lu Ming quickly coughed a few times. Why did Ling Yuwei's words sound so profound?

"Then say this, I'm going to retreat and practice!"

Lu Ming quickly found a reason to drive away Ling Yuwei.

Chapter 3895: God of War God Pride

After Ling Yuwei left, Lu Ming began to understand the Great Kamikaze technique.

However, he was interrupted before practicing for several hours.

Because an arrow suddenly appeared above the palace, the arrow broke through the air, and shot at the top of the landing Ming's head at an amazing speed. The speed was amazing.

This is a killing arrow, someone wants to kill Lu Ming.

In this elven palace, some people are so bold that they dare to kill him.

At a critical moment, Lu Ming moved laterally ten meters away, avoiding the arrow attack.

Then, Lu Ming rose into the sky and rushed into the sky.

Standing high in the sky, there was a figure standing, looking very young, only 30 years old or younger.

"Who is Hua Xing?"

Lu Ming asked directly.

"I am Huaxing's eldest brother, Huatian!"

The youth said coldly and did not conceal.

Lu Ming knew why the other party was here, and apparently came out for Hua Xing.

"Fight a small one, come a big one, hehe, with the cultivation of God Emperor Realm, he actually attacked a prospective man, hehe!"

Lu Ming laughed contemptuously.

"My brother is humiliated in public, you **** me, after I kill you, I will naturally go to your majesty to blame!"

Huatian said coldly, the killing was very cold.

At the moment, Ling Huafeng's father and daughter in Ling Huafeng's palace are watching through a mirror. Inside the mirror, the situation of Lu Ming and Hua Tian is clearly displayed.

"This time, I gave Huatian a reward, and I promised him that after killing Muyun, he would keep him okay. He can do whatever he wants, and see how Muyun lives?"

Ling Piao sneered.

In order to let Huatian feel at ease, she paid a great price.

...

Where Lu Ming lived, the war was on the verge.

boom!

The breath of Huatian's body rose like clouds and smoke, forming a huge pressure and rushing towards the landing.

In the face of Huatian, Lu Ming did not dare to carelessly, and the warfare tactics five times the combat power, triggered instantly.

At the same time, every cell in the whole body was trembling, the power of taboo spreading all over the body, the beads of gravity buzzed, ready to attack at any time.

Huatian, is not the weight of ordinary **** emperor.

When the ordinary Divine Emperor weighs heavily, Lu Ming can crush him with one finger.

Huatian, also a arrogant arrogant, has a very strong strength. In the quasi-imperial level, he can cross-border wars. Although he has not started yet, it has brought great pressure to Lu Ming.

"Broken Sky Bow!"

Hua Tian screamed, bowed his bow and arrow, a terrible arrow, condensed out, soared towards the landing.

This is his original secret technique, exactly the same as Hua Xing, but its power is not as powerful as Hua Xing.

Even Lu Ming felt a sense of crisis.

boom!

Lu Ming used the big fragmentation technique and banged out with a punch.

A terrible punch struck through the void, and finally collided with the arrows. The void was violently shaken, and a terrible force was ripped open. The terrible strength swept through all directions, and some of them naturally went down to the ancient trees below.

However, those ancient trees gave off a hazy green light, and those energy fell on the green light, like the mud sinking into the sea, disappearing without a trace, without arousing the slightest waves.

In the violent roar, Lu Ming's figure drifted back, and the arrow also shattered, dissipating into energy.

"What? It was blocked!"

Ling Piao and others, who are watching in the dark, contracted their pupils for a while, revealing incredible colors.

Lu Ming, actually blocked Hua Tian's arrow, what is this fighting strength, how is it so terrifying?

They were deeply shocked.

Hua Tian himself was deeply appalled.

He was very confident in his own strength and could not have imagined that a prospective emperor could actually stop him.

How could this be?

"I don't believe it, kill!"

Hua Tian shouted, continued to open his bow, his divine energy boiled, turned into a divine arrow, and shot at Lu Ming.

But will Lu Ming stand and be beaten?

Facing the far attacker, narrowing the distance is the best way.

Uh!

Lu Ming performed the Great Kamikaze technique, and his figure shrank closer to Huatian.

Hua Tian's body shape retreated sharply, and he wanted to increase the distance from Lu Ming. Unfortunately, after the Great Kamikaze spell was performed, Lu Ming's speed was already completely above Hua Tian.

With just a few flashes, Lu Ming appeared not far in front of Huatian, and his fists burst out in succession.

The terrible boxing power, containing the power of Great Kamikaze and Great Fragmentation, penetrated the void and swept toward Huatian.

Such a close distance makes it difficult for Huatian's bow and arrow to exert the maximum effect.

"Do you think you can fight me if you get closer, naive, kill me!"

Hua Tian shouted, pulling the longbow suddenly and continuously.

Buzz...

Continuous buzzing sounded, each time buzzing, there will be an arrow burst out.

In the blink of an eye, dozens of hums sounded, and dozens of arrows shot toward the landing.

The key is that these arrows will actually turn, very flexible, like a flying sword, Hua Tian was wiped away with his mind, and shot at Lu Ming.

Boom!

Some of these arrows collided with Lu Ming's fist, blocking Lu Ming's attack, and some continued to shoot at Lu Ming.

Lu Ming exerted the Great Divine Wind technique and continued to blink, avoiding the attacks of these bows and arrows, constantly narrowing the distance from Huatian, punching like a rainbow, crushing the void, and everything that went through shattered.

The violent force, like a row of mountains and rivers, pressed against Huatian.

Huatian continued to open his bow, barely blocking Lu Ming's fist, but he was backed away by the shock.

Buzz!

At this moment, a sword light suddenly appeared in Huatian's hands. The sword light soared and cut towards Lu Ming, and Lu Ming's fist was cut open.

"Others think that I am the most powerful bow and arrow. Now I tell you, my sword skills are more powerful than bows and arrows!"

Hua Tian drank coldly, and Jianguang was like a rainbow, slashing towards Lu Ming.

At the same time, he flicked his fingers and still had an arrow, which burst out and shot at Lu Ming.

To tell the truth, Huatian's strength is indeed very strong, the general Divine Emperor is one of the most important, in his hands, vulnerable.

However, compared with Ling Yuwei in the World War I, he still has some gaps.

Therefore, even in the face of such a situation, Lu Ming's face was still very calm.

"Six times..."

Lu Ming whispered, six times the fighting strength, finally triggered success, and punched out.

In this punch, the power is unprecedentedly powerful, and everything that passes is reduced to nothingness.

One arrow after another, collapsed.

The brilliant sword light burst like tofu, and the violent energy fell on Huatian.

Hua Tian screamed, his body retreated suddenly, and his mouth coughed up blood.

Uh!

Lu Ming's figure appeared above Huatian's head and stepped on it.

Hua Tian screamed, and his body fell like a meteorite, hitting an ancient tree. The ancient tree just shook twice, and nothing happened, but Hua Tian vomited blood and covered his bones. I don't know. How many roots are broken, the breath is weak

Chapter 3896: Holy Species Assessment

Hua Tian was devastated by Lu Ming and suffered a fiasco.

His face was very ugly, and his eyes were still incredibly thick.

He never expected that he would be defeated by a quasi-empire, defeated so completely.

Moreover, this quasi-emperor only came from an ordinary cosmic level force, not from the top ten races or the evil spirits from the Tiangong.

If it comes from the top ten races, or the evil spirits of the Tiangong, his heart will feel better.

At this moment, he was hit hard.

At this moment, Ling Piao and others who watched in secret were also dumbfounded and completely speechless.

"get out!"

Lu Ming stands at a high altitude, condescending, looking down at Huatian, with a touch of disdain.

He did not intend to kill Huatian!

If outside, such as Huatian who wants to kill him, he will definitely get rid of it.

But here, after all, it is in the elven race, and still in the elven palace, he bet, secretly do not know how many powerful existence, staring at it.

He can defeat Huatian. If he really wants to kill Huatian, I am afraid that there will be a strong shot immediately to save Huatian.

He couldn't kill Huatian at all!

Huatian stared bitterly at the land, then turned and left.

"I don't know my strength, are you satisfied?"

Lu Ming smiled slightly at the void.

He knew that many people would hear his words.

This is indeed the case. Not only did Ling Hua seal his father and daughter, the three fathers and sons heard it, but Ling Ashuo also heard it. He also used special means to see the scene just now.

"The quasi-imperial class has such a combat power. It is really rare in the world. Isn't dad right? Am I wrong?"

Ling Asus whispered.

With such a talent as Lu Ming, it is totally worthy of Ling Yuwei. To be his son-in-law is completely enough.

And as Ling Yuwei said, will talent like Lu Ming be trapped by the bottleneck of God's Realm?

General arrogance and arrogance may be trapped by such a bottleneck, but as Lu Ming, a arrogance that cannot be measured by common sense, will be trapped?

He didn't believe it himself.

Lu Ming's future is unlimited!

Divine Emperor, certainly not his end point, stepping on a stronger state is also a deadly thing.

However, the temptation of the angel family is too great.

Once marrying with the angelic family, in the vast universe, his voice will increase greatly.

It will also play a great role in the future development of elves.

On the one hand is the happiness of his daughter, on the other is the future development of the elves, how should he choose?

Ling Asus frowned deeply.

At this moment, a figure drifted forward, but it was Ling Yuwei.

As soon as the war between Lu Ming and Huatian ended, Ling Yuwei received the news and immediately came to meet Ling Asus.

"Father and Emperor, I believe you have also seen the strength of Muyun. It is simply rare in the world. There is not much in the world at the same level that the entire wilderness universe can match him. Such a genius is enough to be worthy of her daughter. Growing up in the future is also enough to bring great benefits to the elven clan, so please ask the father emperor to cancel the marriage with the angel clan!"

Ling Yuwei said.

Huatian's challenge is at the right time, which just proves Lu Ming's strength.

"This one..."

Ling ASUS frowned deeper.

For a time, he was really difficult to make a decision.

"Brother..."

At this time, a voice sounded, Ling Huafeng drifted forward.

Like Ling Yuwei and Ling Huafeng, if you want to meet Ling ASUS, you don't need to notify them, you can come in directly.

"Brother, I also knew the situation just now. I think that Mu Yun's talent, although amazing, is indeed worthy of Yu Wei in terms of talent, but it is still far from the role of the angel clan for my clan. , Want to marry Yu Wei, unless he can prove that he has greater value!"

Ling Hua closed the road.

"Second Uncle, isn't that enough, how can you prove that you shouldn't go too far!"

Ling Yuwei was a little angry, glaring at Ling Huafeng.

"Shy, how did you talk to your second uncle?"

Ling Ashuo sipped, then stared at Ling Hua and said, "Second brother, do you have any suggestions?"

"The holy species assessment is about to start soon. Let Muyun participate in the holy species assessment. As long as he can bring out twelve advanced elven tree species, it proves that his talent is indeed unmatched. At the risk of offending the Angels, let him marry Yu Wei!"

Ling Hua closed the road.

"What? To participate in the assessment of the holy species, it is necessary to bring out twelve high-level elven tree species. This is impossible. Even the top-level arrogance of my elven family, with the elven blood protection, cannot be done!"

"Muyun is an alien, without elven blood protection. In the ancestral land, it will be more dangerous. How could it be possible to get twelve advanced elven tree species, I will not agree to this matter!"

Ling Yuwei cried suddenly, his face full of anger.

Although she knows that Lu Ming is unmatched in talent, powerful, and has a lot of cards, she also controls several big killers.

However, in the elven sacred place, foreign objects cannot be used, that is to say, those big killers cannot be used.

Not only that, everyone entering the elven ancestral land will be suppressed, and their strength will be greatly reduced.

Moreover, there are a large number of evil spirits in the elven ancestral land. These evil spirits were all powerful people of various races killed and killed by the elven clan during their lifetime.

When these creatures die, they turn into evil spirits and will attack other creatures that enter the elven ancestral land.

However, because of these evil spirits, all elven tribes are very scared. As long as they have elven clan blood, there are not many evil spirits and dare to attack. Only some particularly fierce evil spirits will attack elven tribes.

However, people who are not elves will be madly attacked by these evil spirits.

The last one, when the time comes, there will be a large number of elven clan Tianjiao entering the ancestral land.

And it is clear that these elven tribes' arrogance, because of Ling Yuwei's relationship, will most likely deal with Lu Ming.

Those are all the arrogance of God Emperor Realm.

Adding so many unfavorable factors together, Lu Ming will be very dangerous if he enters the ancestral land, not to mention getting twelve advanced elven tree species, which is even more difficult and countless times more difficult.

Ling Huafeng's intentions are sinister, and her heart can be blamed. She naturally wants to object.

"Yu Wei, Mu Yun has no background and no backstage. I want to compare with the Angels only by myself. If I can't show the talent, strength and potential far beyond other Tianjiao, how can we choose him!"

Ling Huafeng persuaded her with bitter words.

"But this is too much..."

Ling Yuwei still wanted to fight, but was stopped by Ling Ashuo.

"Your second uncle is right, unless Muyun can show his ability, so that I can really make a decision!"

Ling ASUS said.

"but..."

"Okay, don't say it again, this matter is so settled, if Muyun does not agree, it can only let him leave the elven clan!"

Ling Ashuo's big hand pressed, no doubt.

Chapter 3897: Exciting rewards

Ling Ashuo said to Ling Yuwei in an undoubted tone, making Ling Yuwei look ugly.

She understands her father emperor, and once a decision is made, no one can change it, including her.

"Okay, the assessment of the holy species, starting in three months, you should inform Muyun, let him prepare early, if he does not agree, you can leave the elven clan, your marriage contract with him can also be completely dismissed !"

Ling ASUS said.

Ling Yuwei ugly left the wizard palace and found Lu Ming.

"Holy species assessment?"

Lu Ming froze for a moment, and secretly said that this matter was not so easy to solve, but no, there was another holy species assessment.

"Muyun, thank you for coming to the elven clan to help me, but this matter is still forgotten. You leave the elven clan. Since then, the two of us will never matter again!"

Ling Yuwei gritted her teeth and her eyes were red.

Originally, Lu Ming was pleased to hear this news, but at this time, he did not want to leave.

"Holy species assessment, is it dangerous?"

Lu Ming asked, guessing Ling Yuwei's thoughts.

"Yes, it's very dangerous. The assessment of the holy species is going to enter an ancestral land of the elven clan. In that ancestral land, in the long past, it was a place to suppress the elven clan's enemies and kill countless evil existence. However, that place is also where the elven tree species are bred!"

"Elf tree is the key to the development of elf tribes. The more elf tree species you have, the more elf trees you can grow, and the elf tribe can grow and grow more!"

"Originally in the past, there were many places where the elves planted elven tree species, but after endless years of turmoil, many places where the elven tree species were born were destroyed!"

"Now, there are only two places where elves still conserve elven tree species. One of them is this ancestral land. This ancestral land is also the most important place. Legends contain saints!"

"The holy species can grow the legendary elven holy tree, which is the supreme treasure of the elven clan. Now, the elven clan has no elven holy tree. The only elven holy tree has been destroyed in the last turmoil! "

"So, in every assessment, the purpose is to enter the ancestral land and obtain elven tree species. However, in the ancestral land, it is very dangerous..."

Ling Yuwei explained it in detail, and also talked about how dangerous it was in the ancestral land.

"Why let the young people go in, and the elves send masters directly in, isn't it enough?"

Lu Ming asked curiously.

Ling Yuwei shook her head and said, "This ancestral place, under the great power of the elder ancestors in the long past, has placed a heavy ban, and only the younger generation can enter!"

"Because it contains evil spirits, the purpose of the elven ancestors' power is to hone the younger generation of elven clan, but now, the elven clan's powerful people can't get in if they want to enter, only every other For a period of time, send a group of young Tianjiao to look for elven tree species!"

"It turns out so!"

Lu Ming nodded.

It is estimated that in the long past, when the elven tribe was at its peak, there was no shortage of elven tree species, so that ancestral place was created as a place to hone young people, and the elders could not enter.

I don't know. Up to now, the elven tribe is seriously lacking elven tree species. It is impossible to enter the ancestral land to find elven tree species.

It can also be regarded as a kind of assessment for the younger generation.

"I want to know, are there any rewards for getting elven tree species?"

Lu Ming asked.

"At this time, are you still thinking about rewards? Do you really want to participate?"

Ling Yuwei stared.

"Is it impossible? It depends on whether the benefits are enough!"

Lu Ming smiled.

"Rewards are definitely there. The elven tree species are divided into low, intermediate, high, and of course, the top, and holy species..."

"Get low-level elf tree species, reward ten elf wood hearts, get an intermediate elf tree species, reward one hundred elf wood hearts, get an advanced elf tree species, reward one thousand elf wood hearts..."

Ling Yuwei explained.

Lu Ming's eyes became extremely bright.

The reward is too rich.

Moreover, he was too emotional for the elf wood heart.

He stepped into Divine Emperor Realm, which was just the first step. The resources he consumed were terrifying.

The resources consumed by the cultivation after entering the Divine Emperor Realm will be even more terrifying.

Elf wood heart, this essence of life is a very pure treasure, it is easy to absorb and refine the treasure, Lu Ming don't like it too much, this treasure is naturally more beneficial.

"The task your father and emperor gave me is to obtain twelve advanced elven tree species. Once completed, isn't it a reward of 12,000 elven wooden hearts?"

Lu Mingyue said, the brighter his eyes.

You have to know that Ling Yuwei was so painstaking that he only got a thousand elf wood hearts for him, and as long as he obtained a high-level elven tree species, he could get a thousand elf wood hearts. How could Lu Ming not be moved.

"Yes, the elven tree species are much more valuable than the elven tree heart. Each elven tree can breed a lot of elven tree hearts, but in the ancestral land, it is very difficult to get the elven tree species!"

"The ancestral land is divided into nine layers of the world. The first three layers can only breed low-level elven tree species. Of course, the danger is relatively small. The middle three layers have low-level elven tree species and intermediate-level elven tree species, but relatively speaking, It's much more dangerous!"

"As for the high-level elven tree species, it is only available after the seventh layer. The seventh layer is less. The further back, the more, but also more and more dangerous..."

"The seventh world of the ancestral land is very dangerous. Every time, the powerful elven clan Tianjiao falls, and you are a human race, without the elven clan blood protection, it will be more dangerous. Don't say that you have obtained twelve advanced elf tree species. I'm afraid I can't even enter the seventh-tier world. This is a mission that cannot be completed at all, so you should go!"

Ling Yuwei said, shaking her head and sighing.

"Go, why should you go? With such a generous reward, wouldn't it be a pity not to participate!"

Lu Ming laughed.

Now, even if the elves drove him away, he wouldn't leave.

Even if the elven ancestral land is in danger, Lu Ming is still a little confident, the most unlucky, he still has confidence in self-protection.

Faced with this opportunity, how can you be reconciled without a fight?

"Are you really going to participate?"

Ling Yuwei stared at her eyes, still deep in her eyes.

Is Lu Ming for her?

"Of course, for the elf wood heart, fight!"

Lu Ming squeezed his fists, eyes down.

"Hum~"

Ling Yuwei sneered.

...

The matter was finalized, Lu Ming accepted the task and promised to enter the elder ancestral land for assessment.

Time, there are three months.

The three-month period, although short, cannot be wasted. Lu Ming asked Ling Yuwei a good place and planned to go to practice.

Chapter 3898: Direct suppression

The Absolute Wind Cultivation Site is a well-known cultivation place for the elven clan. This place is full of violent gang winds and has destructive power. Many elves of the elven clan like to come here to practice archery.

Here the gang wind is violent. In the raging gang wind, you can still achieve a hundred shots, and the arrow penetrates the gang wind, and the power can be strong. This shows that archery is already very good.

With the help of gang wind, practicing archery, the effect is very good.

Lu Ming came here to practice Great Kamikaze.

After such a long period of cultivation, Lu Ming feels that the Great Kamikaze has reached a bottleneck. If he goes further, he can reach the state of Xiaocheng, and his power will surge.

Once the Great Divine Wind technique reaches the state of Xiaocheng, Lu Ming's strength will be enhanced, and the Elven Clan's trip will also be more confident.

After all, with only three months, it is almost impossible to make a breakthrough in cultivation.

Huh...

In front, the wind screamed and the terror was terrible. Even the space was shattered and cut by the wind.

Space debris, mixed with gusty wind, is even more terrifying.

Lu Ming rushed in without hesitation, as soon as he rushed into the range of the gang wind, the terrible gang wind swept toward the landing ming.

Lu Ming performed the Great Divine Wind technique. Those gang winds had not touched Lu Ming before they were separated from both sides of Lu Ming's body, which had no slight effect on Lu Ming.

"The wind here is still too weak!"

Lu Ming shook his head, the wind was too weak, and had no effect on Lu Ming's cultivation. Lu Ming continued to step forward and went deeper.

The deeper you go, the stronger the power of the gang wind.

Lu Ming has been stepping forward, and soon went deep into the distance of hundreds of thousands of miles. By this time, the wind has become very terrifying, with space debris entrained and roaring, as if torn everything.

Hey...

Here, Lu Ming saw several arrows of light, whistling past, breaking open the wind, and flying to the distance.

It is the arrogance of the two elven tribes that are practicing. The arrogance of these two elven tribes, their cultivation practices, have reached the Divine Emperor Realm.

Tianjiao, two elven tribes, also saw Lu Ming, showing curiosity.

This is the place where elf races are practiced. Very few foreigners come in. Unless someone is a good race with elf races, no one will come in to practice.

They looked at Lu Ming curiously, but Lu Ming ignored them, and continued to step forward, and soon left from here.

Next, Lu Ming encountered several waves of elven clan's arrogance. These arrogances were almost all of the cultivation of God Emperor Realm. This made Lu Ming secretly lament that the elven clan is worthy of being a very powerful race with deep heritage and many arrogances. Even the arrogance of God's Realm is not rare.

It's no wonder that not many people will really care about the list of top 100 quasi-empires.

After all, only when you step into the Divine Emperor and in the vast universe, can you really be regarded as an excellent arrogance.

Soon after, Lu Ming went all the way to nearly a million miles, and the intensity of the wind here finally satisfied Lu Ming.

Lu Ming was practicing here, but not long before, Lu Ming suddenly opened his eyes and looked in one direction.

In that direction, there are two figures, step by step, are the arrogance of the two elves, a man and a woman, the man is handsome, the beauty of the woman, both of them exhale an amazing breath, the horrible gangs around them, They couldn't help them.

"The Divine Emperor Triple!"

Lu Ming's pupil shrank slightly.

At this age, you can reach the triple emperor of God, absolutely terrifying, these two people, I am afraid that they are the top arrogance in the elven clan.

As soon as the two appeared, a strong breath locked on Lu Ming.

"You are Muyun, have you defeated Hua Xing and Hua Tian brothers before?"

The female elf spoke first.

"it is me!"

Lu Ming nodded.

"Very good, I heard that you are arrogant, don't take my elf clan in your eyes, originally planned to finish the practice, then go back and meet you, I didn't expect you to come to the door yourself, very good, shot, I will give you Three shots!"

This time it was a male elf who spoke indifferently, with a cold, proud look, like the oldest man in the world.

Lu Ming was a little speechless. This guy challenged him as soon as he came out, and he still challenged him to be a quasi-empire.

However, Lu Ming was not afraid of the other party.

call!

Lu Ming started directly, and operated Great Kamikaze.

In this place, the operation of the Great Kamikaze spell can maximize the power of the Great Kamikaze spell.

The terrible gang wind, pulled by the Great Kamikaze technique, turned into a terrifying storm and swept toward the male elves.

"Humph, carving insect skills, open it to me!"

The male elf drank coldly, a battle bow appeared, and an arrow shot.

Arrows roared, breaking through the void, directly breaking all the gang wind, and a channel appeared.

"It's unbearable, ah..."

The male elf just wanted to pretend to be b, but before he had finished speaking, he screamed in shock.

Because behind the gang wind, there was a more terrifying gale wind that swept toward him.

Lu Ming was too lazy to talk nonsense with the other party and directly used Gale Beads.

The other party, but the God Emperor's triple-arrogant figure, is not as good as Hua Tianhua Xing even in the same level of World War I, but Xiu Wei is there, it is too high, Lu Ming is probably not an opponent.

The other party, after all, is an arrogant figure. At this age, he can reach the triple of the emperor, and the combat power is by no means idle.

Therefore, Lu Ming directly used the big killer.

The male elves and female elves were directly swept in by the terrible strong wind, screamed constantly, and tried their best to fight against each other. After a while, they flew out and vomited blood.

Miserable, so miserable!

I saw him all ragged, his clothes were cut into strips by the strong wind, not even the beggars.

The whole body is covered with cut wounds. Compared with the handsome and beautiful image before, it is totally ten thousand miles.

Of course, this is Lu Ming's mercy, otherwise, the other party is dead.

"On this point, still pretending to be b here, get out of here!"

Lu Ming waved his hand casually and scolded.

"you you.."

Elves men and women, staring and screaming, all eyes are full of anger and murder.

They are going to blow their lungs!

"You rely on external power, rely on treasures, what kind of skills, have the ability to fight me with real skills!"

The male elf shouted.

"You have challenged me to be a quasi-emperor based on the triple cultivation of the God Emperor. I'm so embarrassed to say that you have the ability, fight at the same level, I will suppress you with one finger!"

Lu Ming drank coldly.

The male elf blushed and was speechless for a while.

"Boy, I heard that you also want to participate in the holy species assessment of the elven clan. You wait for me. In the ancestral land, the external force is useless. If you are in the ancestral land, it is best not to meet me!"

The male elf finally shouted, his eyes very cold.

He had received a voice from Ling Piao before, so that he could take good care of Lu Ming in his ancestral land.

Chapter 3999: Breakout and pursuit

"Hurry on, this big formation can't stop them for too long!"

Shouted.

No need to scream, Lu Ming and Ling Yuwei, they both knew what to do, the four turned into four streamers and flew towards the distance.

"Damn, kill!"

"Get away from me!"

The demon masters roared and shot with all their strength to bombard the Golden Armor Giant.

Finally, some golden armor giants could not resist the offensive, and were exploded by the presence of the two **** emperors Jiuzhong.

However, these golden armor giants exploded, and other golden armor giants rushed up. When they blasted out a large number of golden armor giants, the figure of Lu Ming's four people had long disappeared.

These demon masters, with ugly faces, are dying.

"They must not be far away, the news came out, let the surrounding God Emperor Nine Heavy Masters, round them up with all their strength!"

"You can't let go of the peerless evil spirits of the vast universe!"

"In addition, pass the news to the prince, believe the prince, I am definitely interested!"

A demon master of the Nine Heavy Divine Emperor, a command came out.

.....

Lu Ming and the four of them ran all the way and ran for an hour, and they were sure to completely shake off the demon master before they stopped.

"Muyun, are you okay!"

Ling Yuwei looked at Landing Ming worriedly.

At the moment, Lu Ming looked miserable, half of his body exploded, bones and scum, and internal organs were exposed, very infiltrating.

"Relax, I'm fine!"

Lu Ming smiled. There was a constant flow of power in his cells, and his injuries were recovering at an alarming rate.

It can be clearly seen that his bones automatically spliced together, the wound healed quickly, and his spirit became stronger.

[illegible]

When I watched the landing, I was surprised, and my eyes were full of shock.

"You are Xiaoqiang!"

Lu Ming said uncomfortably, but in his heart, he was also a little surprised. Once and for all, this product hasn't been seen for a while, its strength has skyrocketed a lot.

The large array under the cloth just now can block the attack of Divine Emperor Jiuzhong.

Although those golden armor giants have no attack power, and it took some time to set up, they were not deployed immediately, but they were amazing enough.

Lu Ming guessed that this was related to the ancient character of Dandan.

"Which one of the original ancient characters did you get? Obviously related to the rune formation method, is it the word "array"?"

Lu Ming thought.

He once listened to the "quanzi tactics" mentioned, the original ancient word "array" is very mysterious, once mastering the ancient ancient word "array", you can understand the endless runes from the "array" word, endless array .

Cultivating to a high level, any formation of the law believers can even lay down a world-destroying mass killing array, destroy the galaxy, penetrate the star field, terrifying.

If Dandan got the original ancient word 'array', then it's not surprising that the Divine Emperor's double cultivation can be used to deploy this type of array.

The four took a rest here. About a few hours later, Lu Ming's injury had healed, and Lu Ming found that his cultivation practice was even stronger, and he took a step towards the Divine Emperor's double.

"The potential in my cell is at least 80%, enough to support it for a while!"

Lu Ming thought.

His current 80%, and the previous 80%, are completely at a different level.

After breaking through the Divine Emperor Realm, the potential for storage in his cells was greatly enhanced.

In the God Emperor Realm, Lu Ming absorbed one hundred elven wooden hearts and stored it in his potential to reach 100%.

When Lu Ming was in the Yunyue Pavilion, he took time to absorb the Elven Wood Heart, and absorbed three thousand Elven Wood Hearts before storing the full potential of the cells.

There are 3,000 roots, which is 30 times higher than before.

Now, Lu Ming's potential is amazing. As long as he continues to inspire, his cultivation will continue to improve.

Half a day later, all four Lu Ming returned to their peak state, and then discussed the next plan.

"In an ordinary tribe, there should not be so many demon strongs, but there are so many demon strongs. Isn't the eight snake demon kingdom shot?"

Lu Ming raised questions.

"It is very likely, because the Eight Snake Mountains, the ordinary demon tribe, it is difficult to dispatch so many powerful people at once, it is likely that the Eight Snake Demon Kingdom has shot!"

Ling Yuwei said.

Several people's faces were dignified.

If it is the Eight Snake Demon Kingdoms, they will be careful next.

"If it is the eight-snake demon kingdom, then those tribes are likely to become traps. Next, we can only look for the demon that has been singled out to hunt!"

Lu Ming said.

"Leave it to me, I'll probe it again with the array!"

Once in a while, I was about to shoot and set up an investigation, but at this time, Lu Ming's faces changed.

Because, in the direction of the right side, there was a violent breaking sound.

There are strong people approaching, and the speed is very fast.

"No, it's a demon, go!"

Lu Ming looked ugly and shouted.

Because, in the right direction, there are several demon figures appearing, these demon, the breath is extremely terrifying.

There are five demons in total, three of them are Emperor Jiuzhong, and the other two are Emperor Jiuzhong.

Ling Yuwei and Dan Dan, they also found the demon master, thinking about it, they turned into a few rainbow lights, rushed toward the left.

"Those boys, don't want to go!"

The demonic strongmen roared and chased them towards the landing, very fast.

Especially the demons of the three Divine Emperor Jiuzhong, the speed is even more amazing, and they are rapidly closing the distance with Lu Ming.

However, the distance between the two sides is at least tens of thousands of miles. The distance is too far. Several of the devil's ninth-level demons didn't make shots. Because the distance is too far, the power will not be particularly great.

They want to get closer, and then shoot.

But suddenly, in front of them, dense runes suddenly appeared. These rune cultures were a series of methods, and then a chain of chains was condensed and entangled towards them.

It turned out that during the flight, he had already deployed a formation in the air.

"District array method, also want to stop me, break me!"

"open!"

Several demon ninth-level demon shouted, the devil's claws, tearing these chains as soon as they struggled, not only that, the entire large formation was broken.

After all, this was laid out temporarily, and its power is limited, so it is naturally difficult to stop the three deities of the nine emperors.

But it is not without its effect.

Their speed is still affected by a little bit, slowed down a little bit.

Just a little bit is enough.

It was difficult for them to catch up with Lu Ming for a while.

"hateful!"

The three emperors, Nine Heavy Demons, were furious and struck hard, but in the air, there were constantly formations emerging. Each formation could not stop them, but they could all play a slight role to make their speed, Slowly.

In this way, the distance between Lu Ming and the demon masters has always maintained tens of thousands of miles.

Chapter 4000: Don't leave the angel family

Lu Ming was flying while they were arranging formations. Although these formations were all deployed temporarily, they could stop the demons for a while. Although it was only for a while, it was enough for Lu Ming to escape.

Every time when the two sides are getting closer, the strong demons will be blocked by the formation for a while, and then the distance between the two sides is opened again, which has been maintained at tens of thousands of miles.

"hateful!"

Several powerful demons were furious. They held the devil's knife and the devil's claw in each hand. Every time they attacked, the void collapsed, destroying the formation formed by Dandan, but they couldn't keep up with Lu Ming and others.

Everyone chased and fled, and leaped hundreds of thousands of miles in an instant.

Suddenly, Lu Ming and others who were running away changed their faces.

Because, from the front, they also found a strong breath, and at the same time, accompanied by a strong evil spirit.

In front of it, another demon appeared.

A group of demons, at least dozens of them, two of them are very terrifying, reaching the Divine Emperor Jiuzhong.

These demons found Lu Ming and killed them directly to the landing.

There are demons on both sides, and they can only rush to the right and escape to the right.

"kill!"

The two demons drove to Landing and they chased them together.

The demons of the two sides gathered together. The demons of Divine Emperor Jiuzhong reached five people, and the demons of Divine Emperor Eightfold, nearly twenty people, were very terrifying.

With so many demons gathering together and attacking together, the formation of the formation once and for all is weaker, so the distance between the two sides is getting closer.

Lu Ming's faces are very dignified, so it's not good to go down. If they are caught up, the other party has masters of the five great emperors and nine heavyweights, they can't resist.

The two sides flew a distance of more than one hundred thousand miles, and the distance between the two sides has already approached within ten thousand miles.

咻咻咻!

Several demons of God Emperor Jiuzhong shot and cut off the sword of the demon. The blade of the sword penetrated the void and passed the distance of thousands of miles, and they slashed to Landing Ming and Ling Yuwei.

Ling Yuwei will urge the **** elven king bow to resist.

"Don't use the big killer first, save your energy, I will deal with it!"

Lu Ming said to Ling Yuwei, and then took out the gale beads, constantly pulling out the force inside the gale beads.

Huh...

The strong wind inside the strong wind beads rushed out constantly, rushing towards the rear, forming a wind wall.

The devil's blade was cut on the wind wall, and both sides exploded violently. Finally, the wind wall was broken open.

However, due to the fact that the two sides were separated by nearly ten thousand miles, the attacking power of the other side was not at its peak and was weakened a lot. Although the wind wall was broken, the power was almost dissipated. The remaining power was Lu Ming. They stopped it easily.

"Humph, see how you can stop!"

"Continue to attack!"

The five **** emperor Jiuzhong's demons snorted and bombarded continuously.

Daomao smashed the sky, the devil's claws exploded into the void, and pressed them against Lu Ming.

However, Lu Ming continued to pull the force inside the gale of wind to stop the attack of the demon strong.

However, as the distance between the two sides narrowed, it became more and more difficult for Gale Bead to resist the other party's attack. There was always a sword, breaking the wall of Gale and blasting them to Lu Ming.

The situation is increasingly detrimental to Lu Ming.

At this moment, Lu Ming and others looked at him.

Because in front, a group of creatures appeared again.

But this time, it was not a demon, but an angel!

A group of angels, and most of them, are Lu Ming's acquaintances, it was the angels who had besieged Ling Yuwei before.

Of course, there are more people here, there are more than 20 people, obviously two groups of angels come together.

These angels saw Lu Ming at once, and immediately, their eyes burst into murder.

"It's Ling Yuwei, and that Muyun!"

"We were met again, this time, don't let them run away!"

"Full shot!"

These angels had a great chance of killing them, and they were about to kill Ming Ming, but immediately they were stunned, because they found out that the four Lu Ming saw them, instead of escaping, they rushed towards them.

what's the situation?

Seeing that they didn't leave, they rushed towards them, isn't this death?

But immediately, their faces changed.

Because, they also found the demon strong who came after.

They finally knew why Lu Ming rushed towards them, because Lu Ming was being hunted down by the demon army, which was to use them as shields.

"Damn! Let's go!"

An angel roared, and all the angels turned around and left.

They can naturally feel the horror of the demons behind.

There are five demon powers of the Nine Heavy Emperors of the Divine Emperor. Although they have the fighting power of the Nine Heavy Emperors of the Emperor, they are definitely not opponents of these demons. Where can they still kill Lu Ming and escape.

"Brothers of the angelic tribe, what do you run away, stop, and annihilate these **** demons together!"

Lu Ming yelled and quickly chased towards the angel family.

"Who is your brother, we are enemies, **** it!"

"Hurry up~"

Many angels roared.

But Lu Ming finally found some shields. How could they easily leave?

Pulling these angelic tribes into the water, they have the hope of getting out.

Three parties, running forward.

Lu Ming They are only a few thousand miles away from the angels.

"Die to me!"

Among them, some powerful angel clan Tianjiao, angry to the landing Ming they launched an attack, the sword light of the angel sword, cut to Lu Ming, they were blocked by Lu Ming.

"Dan Dan, don't pay attention to the demons in the back, move forward, block the angels, and pull them into the water!"

Lu Ming said to Dan Dan.

However, in the eyes of Dan Dan, a brilliant light burst forth.

"How do you know my name? Who are you?"

The staring and screaming sounds.

"Nest!"

Lu Ming secretly scolded himself. He was in a hurry just now and said that he was leaking.

The name Dandan was given by him, it would be so called, not many people.

This product must be suspected.

But this is not the time to explain.

"Wait to explain to you when you get out of your way!"

Lu Ming sent a voice to Dandan.

"Hey!"

Once he laughed a few times, he looked at Lu Ming meaningfully, and then countless runes filled his body, poured into the void, and disappeared.

The three parties are fighting for wisdom and bravery, and in a blink of an eye they flew a thousand miles away.

"Stop me!"

At this moment, when he drank loudly, his hands were sealed, and suddenly, in the void in front of them, a large formation appeared in front of those angels.

This large array, condensing countless golden glittering war knives, slashed their heads towards those angelic families.
