

D Emperor 4031

Chapter 4031: Captain and formation

Lu Ming They arrived on the third day of Nantian City. The gods of this section of the city wall will gather all the soldiers to gather.

The neat sky soldiers are lined up in a row. There are third-tier sky soldiers wearing silver armor, second-tier sky soldiers wearing gold-rimmed armor, and first-tier sky soldiers wearing gold armor.

Everyone held their breaths and stared at the gods in front of them.

The garrison of Nantian City is based on the city wall. Each section of the city wall has several gods, leading tens of thousands of soldiers to station.

Lu Ming and their section of the city wall, a total of 30,000 soldiers.

"Three days ago, there were a group of new soldiers who had just joined our No. 33 city wall. So, many of you have to be rearranged. In the past few days, we have rearranged you, and now we have the first name. Heavenly soldiers stepped forward!"

Immediately, a **** will pronounce the names of first-class soldiers, a total of thirty people.

"Thirty of you, each commanding a thousand sky soldiers, this is the quota that you command!"

A **** will give jade charms to the first-class soldiers.

Today, it is mainly to rearrange the team, and then, to rearrange.

Among the heavenly soldiers, a first-class soldier can command a thousand soldiers, including second-class soldiers and third-class soldiers.

A second-class sky soldier can command forty-nine third-class sky soldiers, plus 50 people.

Lu Ming, a second-class sky soldier, was also assigned to 49 third-class sky soldiers.

Coincidentally, Dan Dan and Ling Yuwei were also assigned to his name, probably because they were together, and they are, after all, a little better in command.

After all are allocated, then assign the place of residence according to the team.

A team is basically allocated together for easy management.

Lu Ming was reassigned to a place where he lived, which was a lot more luxurious than before, which is what the second-class soldiers deserve.

Where Lu Ming lives!

"Hahaha, I didn't expect the three of us to be allocated together. Good luck!"

Laughing.

Lu Ming also smiled.

The three of them are allocated together. It is better for them to take care of each other and hunt the demons together to obtain merit points.

"Muyun, don't take it lightly. Many of our team are celestial soldiers. I think they looked at you just now, and they are quite bad. It seems that they are not convinced. I am afraid they will not easily obey you!"

Ling Yuwei said.

"If you don't accept, then beat them!"

Lu Ming smiled.

He knew that these people despised him.

After all, his cultivation base seems to be the triple emperor of God. Among these Heavenly Soldiers, it is really not high.

It is normal for these old soldiers to despise him.

These people, he did not care at all, but he cared more about the angel family.

This is Nantian City, not a city of dreams. The rules of heaven are not so strict.

In the barracks, the heavenly soldiers can fight with each other, as long as they do not hurt their lives, the above will not be controlled.

This is still in the Nantian City. If you go out of the Nantian City and enter the realm of the demon, there will be no more restrictions. The secret killing of each other will definitely not be less.

Angels want to kill him wholeheartedly, I am afraid they will not give up easily.

.....

In another huge building, a group of heavenly soldiers gathered to drink and eat meat.

These are all old soldiers assigned to Lu Ming's men.

"Huh, that Muyun, the talented emperor of the triple cultivation, really don't know how it is mixed with the second-class sky soldier?"

A young man about thirty years old said coldly.

"I estimate that this man was lucky when he was being evaluated by the Tianbing soldiers, and then he was mixed with the second-ranking Tianbing soldiers. I don't believe that he became the second-ranking Tianbing soldiers by himself!"

"Yes, the Divine Emperor is triple, how could it be a second-class sky soldier!"

Other heavenly soldiers, you say it to me.

Talents are not weak, they are geniuses themselves.

The geniuses they have seen are innumerable. Candidates in the universe's arrogance list have also seen a lot. Even if they are candidates in the universe's arrogance list, it is impossible for them to become triple-class soldiers in the Divine Emperor.

Moreover, it was still three years after receiving the welfare of the Fortune Tower, before the Emperor Triplex, maybe at the time of the assessment, there was no Divine Emperor Triplex.

Therefore, they think Lu Ming is lucky.

"Following a captain without strength, when the time comes to hunt the devil, it is not only useless but harmful!"

"Yes, I think I should think of a way to let this person step down!"

"What should I do?"

"Tiangong has regulations that we take the initiative to challenge him and commit the following offences, but if he takes the lead against us, then we can fight back. If his strength is not as good as ours, look at his face and be the captain!"

These old soldiers soon discussed the countermeasures.

The second-class sky soldiers command 49 forty-three sky soldiers. In terms of positions, they are a captain.

...

In the next few days, it was calm.

Three days later, Lu Ming's superior, the first-class soldier convened.

Lu Ming came to a huge hall, and found that the first-class Heavenly Soldier had already sat on it, and on the lower two sides, there were already twenty figures, all of whom were second-class Heavenly Soldiers.

"I've seen Master Captain!"

Lu Ming saluted the first-class soldiers above.

First-class soldiers, command a thousand soldiers, the position is captain.

This captain is named Liu Daneng.

"Captain, sit!"

Liu Daneng waved and let Lu Ming sit down.

Lu Ming sat down in a seat.

"Okay, everyone is here. The main purpose of summoning you here today is to allocate a line. I hope that after you go back, you will cooperate well with your respective team members. It will not take long to go to the battlefield!"

Liu Daneng said.

"Matrix?"

Lu Ming showed his curiosity.

Then, Liu Daneng took out 20 jade boxes from his storage ring. With a wave of his hands, 20 jade boxes flew to Lu Ming and 20 of them.

Lu Ming reached over and took it.

"Open it and see!"

Liu Daneng said.

Lu Ming opened the jade box and found that there were fifty silver-white jade runes. The jade runes were very thin, like paper, and engraved with mysterious runes.

"This kind of jade symbol is a battle symbol. Put the battle symbol on your standard armor. You and your team members can form a large formation, which is a unity and can maximize your strength!"

"However, it takes you a while to practice!"

Liu Daneng said.

"It's really amazing to have such a symbol!"

Lu Ming marveled.

General sect forces, or powerful races, will have battle fronts, and many people cooperate to produce amazing power.

However, these battle fronts are difficult to cooperate with each other. Secondly, it takes a long time for everyone to practice. In this way, they can cooperate to form battle fronts.

As long as this symbol is attached to the standard armor and practiced for a period of time, it will explode with amazing power, which can save a lot of time.

Chapter 4032: Provocation of the Heavenly Soldier

Next, Liu Daneng roughly talked to them about the method of practice, and then let them leave.

Back at the station, Lu Ming immediately summoned forty-nine team members.

However, after hearing the order, those old soldiers came too late and looked listless.

Lu Ming sneered, didn't say much, and took out the battle line directly, saying: "This is a battle line, one for each person, posted on the standard armor!"

Lu Ming assigned the symbols to the forty-nine team members.

Lu Ming also took out one and posted it on the standard armor.

Suddenly, the symbol radiated a burst of glory, like mercury, integrated into the species of armor, and disappeared.

At the same time, the other forty-nine people also posted the amulet on the armor and integrated it into the species of armor.

At this moment, their 50-man armor exudes a faint radiance, and there seems to be a resonance between them.

As if the breath would be intertwined, forming a formation.

"It's really amazing!"

Lu Ming sighed, and then informed the crowd about the practice of the formation.

"Now, start to practice and familiarize yourself with this formation as soon as possible!"

Lu Ming gave the order.

Buzz...

Everyone started to practice according to the practice method.

When their power is input into the Seeds of Warframe, the Warframe immediately radiates glory, with special runes flowing out, and then, as if there is an invisible silk thread, connecting them together.

There was a roar, and the light was great. Above them, there was a golden sword, huge.

This is the magic sword condensed from the battle, and its power is very amazing.

"cut!"

Lu Ming sipped, he was the core of this formation, and he could control the formation freely.

The golden Excalibur fell towards the ground, but before it even fell to the ground, the War Sword suddenly shook and collapsed.

When the battle front was running, there were obstacles. This was because some people were not running smoothly.

Lu Ming's eyes were slightly cold, looking in one direction, there were some old soldiers.

Lu Ming felt clearly just now that the obstruction is from here.

Seeing Lu Ming looking over, these veteran soldiers sneered in the corners of their mouths, looking at Lu Ming without fear.

"Come again, everyone, concentrate!"

Lu Ming shouted, and once again operated the formation according to the method of practice, and a golden sword was condensed out, and under the control of Lu Ming, he slashed towards the ground.

But as before, the War Sword collapsed before it even fell to the ground.

Lu Ming discovered that it was those old soldiers again.

"Which dog days are so stupid as pigs, and they don't even have battle fronts. How did they get into the sky soldier?"

He was shouting directly when he was upset.

The heavenly soldiers looked at Dandan coldly, but did not speak.

"Come again!"

Lu Ming still didn't say much, and called on everyone to continue to run.

However, it is still the same as before.

Several times in a row, the battle was halfway through and collapsed.

"Okay, let's practice here today, let's go back to rest!"

Lu Ming waved his hand and let everyone dispersed.

.....

Where Lu Ming lives.

"Yeah, those kings... I'm so, those dog days are definitely intentional, Muyun, why don't you try to teach them?"

Shouted uncomfortably, the atmosphere was endless.

The discerning person can see at a glance that the reason why the battle array is not working smoothly is completely intentional by the old soldiers.

"No hurry, they want to play, I will play with them for a few days!"

Lu Ming sneered.

In another place, those old soldiers gathered.

"Hahaha, it's really happy. This Muyun is also a waste. We have all done this. He didn't dare to do it!"

An old soldier laughed.

"I said, when he was in the assessment of Heavenly Soldiers, he was lucky and his strength was not good. How dare he do anything to us?"

Another old soldier sneered.

"That's it!"

"Then let's continue and see what he can do? It's better to resign from the position of captain and change over to a real master!"

"Not bad!"

...

The next day, Lu Ming summoned the people and continued to practice the battle formation. However, as before, the old soldiers did not cooperate. Therefore, the battle formation did not succeed once.

On this day, Lu Ming still did not shoot.

It has been five days.

The sixth day!

"cut!"

Lu Ming shouted, and the golden war sword condensed in the battle array cut towards the ground, but like the previous practice, the war sword did not fall to the ground, and then dissipated automatically.

Battle, defeat!

This time, Lu Ming's face cooled down and glanced at the audience, saying: "It's already the sixth day, and it's still a failure. The battle array controlled by a battle is not difficult, but it has failed for six consecutive days. I see, Some people are really stupid and are not suitable for staying in my team, I will report them and get rid of these people!"

As soon as this remark came out, those old soldiers' faces changed.

If it is cleared out of a certain team because of stupidity, that face will be lost, and in the future, it will not be able to look up in front of others.

"Muyun, what do you mean?"

One of the celestial soldiers cried out, staring at the land with bad eyesight.

"What do you mean?"

Lu Ming swept coldly toward these veteran soldiers and said coldly: "I have given you the opportunity for five days. Every time the big operation problems appear on you, you are not stupid? What are you? Such a idiot can also become a heavenly soldier, which is a huge joke!"

"The battle front won't work. What do we do with you? You are the core of the battle front. I suspect that your cultivation base is too low and the strength is weak, so you can't urge the battle front!"

An old ***** said.

"Yes, I think, just replace your captain and replace with a strong captain, everything will be fine!"

"Yes, my problem, blame us, it's ridiculous!"

"Your strength like this leads us to fight with the devil. Instead of getting merit points, it will kill us!"

The old soldiers shouted.

"Oh? Did you doubt my strength?"

Lu Ming sneered in the corner of his mouth, suddenly stepped out, a strong breath rose, and pressed towards these old soldiers.

However, these celestial soldiers were not afraid, and also broke out to resist, looking provocatively at landing.

They waited for the landing to strike.

Lu Ming took the initiative to take action, they counterattack, it is not counted as the following offense.

Just defeat Lu Ming, let Lu Ming know that his strength is low, he is embarrassed to be the captain, he will automatically quit and change to a stronger captain.

"Since you doubt my strength, then I will give you a chance, take it, beat me, and I will take the initiative to resign from the position of captain. On the contrary, you'd better give me honest and obedient, otherwise, severe punishment!"

Lu Ming said indifferently.

Chapter 4033: Convinced oral

Lu Ming's eyes were as bright as electricity, and he scanned these old soldiers.

"This is your initiative to challenge us, don't say we commit the following!"

An old soldier was eager to try, with his fierce eyes.

This man is young, but with a big beard, he looks fierce.

"of course!"

Lu Ming nodded.

"Well, I will meet you here!"

The bearded young man shouted, and a strong breath broke out on him.

Divine Emperor's Five Peaks!

This is the cultivation of the bearded youth.

At the same time, a huge battle axe appeared in his hand, slamming toward the landing like a door plate.

The momentum is like a rainbow, the vibration of the void, the huge battle axe, straight through the door of Lu Ming.

The bearded youth, although it is only the cultivation of the five peaks of the Divine Emperor, but its combat power is extremely powerful, which is enough to cross one level of war.

However, this kind of combat power, Lu Ming did not put it in his eyes at all.

Even, even the word of battle did not need to be triggered, so he punched out.

when!

Lu Ming's fist collided head-to-head with the bearded young man's axe, and a violent roar erupted, accompanied by a clicking sound.

That was the sound of the opponent's axe breaking, which was shattered by Lu Ming's big fragmentation technique.

Then, the bearded young man's body shook violently, retreating backwards, blood spewing wildly in his mouth, and fell heavily to the ground.

One move, a bearded youth, lose!

Those old soldiers, their pupils contracted for a while, revealing a surprised look.

"This kid, with some strength, can cross three levels of war!"

"It's a good genius, but the cultivation base is too low. Such strength is not worthy of leading us!"

These old soldiers communicate in secret.

"Anything else? Whoever disagrees, despite the shot!"

Lu Ming said.

"Humph, I will meet you here!"

Another young man stepped out, this young man was wearing a purple robe, full of luxurious atmosphere.

He was shrouded in purple glow, and then the purple glow condensed out thirteen swords.

Divine Emperor Sixfold, this is the cultivation behavior of this young man.

"Liu Xiaofeng shot, can definitely beat this guy!"

"Liu Xiaofeng is enough to kill a strong enemy across a level, not defeat, but kill, and with the sixfold cultivation of the Divine Emperor, it is definitely not a problem to suppress this animal husbandry, even if he has the talent of the universe's Tianjiao candidate !"

"Divine Divine Emperor Triple, and dare to put on an invincible look, is really ridiculous!"

These celestial soldiers secretly communicated with each other and looked relaxed, thinking that the young man in purple robe won.

"Thirteen swords of Zifeng, the sword breaks the ninth heaven!"

With a loud roar, Liu Xiaofeng drove the fighting power to the extreme. Thirteen purple Excaliburs were slapped in a vertical and horizontal direction.

As soon as this move came out, even the master of the Seventh Emperor of the Divine Emperor must avoid its sharp edge. If one is careless, he will be killed.

but...

"The slogan is quite loud, but unfortunately it's just an embroidered pillow!"

Lu Ming smiled faintly, and then waved his hand. In the void, a dark magic sword emerged.

This is the Great Demon Sword Technique. Hundreds of them appeared at once, like storms and storms, and went towards Liu Xiaofeng.

Dang Dang Dang Dang...

A series of collisions came out. Liu Xiaofeng thirteen purple Excaliburs were directly scattered by the Great Demon Sword.

Then, the sword continued, Liu Xiaofeng screamed, his body fell backwards, he vomited blood, and there were sword wounds on his body, and blood was flowing.

Another trick, Liu Xiaofeng, who was able to kill the Seventh Emperor of God, was defeated!

This is an internal challenge. Naturally, they will not use the standard armor of the natural soldiers, otherwise, even the standard armor of the third-tier natural soldiers,

This time, all the old soldiers can no longer keep calm, showing shock, and some people took a few breaths.

"What a terrible strength, Divine Emperor Triple, can actually beat Liu Xiaofeng. This guy also has the talent of the candidate of the universe's proud list?"

"But there is no such person's name in the universe's Tianjiao candidate!"

"It is estimated to be a rising star, what shall we do?"

These old soldiers communicated in secret.

To be honest, Lu Ming's talent is really terrible, they have already recognized Lu Ming's strength, but the ruthless words just released, so withdrawn, it is too faceless.

"I'll do it!"

This is a young man like a **** of wind walks out.

"Ruan Mingyu is going to shoot!"

"Ruan Mingyu shot, should be able to beat him!"

"definitely!"

They are all third-class soldiers. Although it has been a long time since they became soldiers, their strength is not too strong.

If the strength is too strong, it has already become a second-class sky soldier.

Therefore, Ruan Mingyu is the strongest among them.

There is the cultivation of the six peaks of the Divine Emperor, but Ruan Mingyu has the strength to fight across two levels and can fight the existence of the Divine Emperor Eightfold.

With the fighting power of Divine Emperor Yahei, they don't believe that they can't deal with Lu Ming.

"It's too much trouble one by one, when will the battle go, I don't have so much time to accompany you, you go together!"

Lu Ming glanced over the old soldiers, said lightly.

As he spoke, a gale of wind appeared in his hand, and a terrifying gale swept through, turning into a dozen wind blades, rotating around Lu Ming continuously.

Ruan Mingyu's body suddenly stiffened, his pupils became larger, and he watched with horror the windy wind blades around Landing Ming.

Because, he felt a terrible crisis on the strong wind and wind blade, he had a creepy feeling, feeling that as long as these wind blades came to him, he had only one way to die.

Even if it stimulates the armor of the sky soldier, I am afraid it will not stop.

He feels right. Today, Lu Ming's Great Divine Wind Technique has reached the state of great success. It can draw more terrifying strong winds from the strong wind beads. Block the blow of the strong wind.

Not only him, but other veteran soldiers, standing upside down one by one, with a chill rushing from the bottom of the feet to the sky.

Big killer, horrible big killer!

They understand that this is the big killer mastered by Lu Ming.

They can threaten God Emperor Jiuzhong's killer, they are not Lu Ming's opponents at all.

"How? Don't you dare to shoot? Let's go together!"

Lu Ming spoke again.

These heavenly soldiers looked at each other.

Suddenly, Ruan Mingyu clenched his fist at the landing and said: "Muyun, no, captain, you have such a combat capability, and you can fully serve as our captain. Ruan Mingyu, I am convinced!"

"Yes, I also persuaded to take it by mouth. Before that, I looked down on the captain and ignored the captain!"

"Me too, let the captain punish!"

These veteran soldiers politely admit their mistakes to Lu Ming. Their attitude is 180 degrees and turns to be respectful.

Chapter 4034: The Eight Serpent Demon Mountains

Among the soldiers, some second-class soldiers with weaker combat strength are only eightfold in strength, of course, they are relatively few.

Most of the second-class soldiers have reached the ninth level of Divine Emperor.

Lu Ming possesses a big killer like Gale Pearl, and his combat power has completely reached Divine Emperor Jiuzhong. As a second-class sky soldier, he is fully qualified to command them.

They could only sigh secretly, and underestimated Lu Ming.

He never imagined that Lu Ming was only the triple emperor of the Divine Emperor.

Generally speaking, even with the big killer, Divine Emperor Triple Cultivation may not be able to explode the power of Divine Emperor Ninefold, but Lu Ming can do it, they can only say that they have looked away.

Lu Ming is more genius than they thought.

Seeing that Lu Ming had such a fighting power, they immediately admit their mistakes and lost.

"Okay, I will bypass you this time. If there is a next time, the rules will not be taken lightly!"

Lu Ming said with a cold face.

He also knew clearly that the reason why these people were targeting him was mainly because he was too low. These people were afraid that Lu Mingxiu would not be able to lead them to fight against the demon. Instead of getting merit points, they would harm them instead of targeting them deliberately. He is this person.

As long as they show great strength, these people are naturally convinced.

"The captain rest assured that in the future, I will fully support you!"

"me too!"

These old soldiers expressed their opinions one after another.

After all, their team will be grasshoppers on a rope, and they will both lose their prosperity.

Now that they have decided to follow Lu Ming, they will naturally not have a second heart, otherwise they will hurt themselves when fighting the devil.

"Okay, then, start practicing again!"

Lu Ming gave the order.

He understands that this team has been reluctantly conquered by him.

Of course, if you want a piece of iron and willingly sell his life for him, that is impossible.

Lu Ming did not intend to subdue these people to sell his life for him. Now it is only a cooperative relationship. Lu Ming needs this position to hunt the devil, as long as he can get merit points.

Buzz!

When the battle array urged, a golden Excalibur condensed out and fell towards the ground.

boom!

There was a violent roar on the ground, but no stamps were left.

The ground here is full of rune formations. With their strength, they cannot be destroyed at all, so they dare to cut down on the ground.

"Good, powerful!"

Lu Ming nodded.

Those old soldiers did not deliberately make trouble, the battle array was naturally urged smoothly, but for the first time, it was not too skilled, and the power was not exerted to the strongest, but it was also very amazing. The existence of Divine Emperor Jiuzhong can be killed at will.

Even the existence of a few pieces stronger than the Divine Emperor Jiu Zhong's combat power cannot be stopped.

"Come again!"

Lu Ming shouted and continued to practice the battle.

For the next twenty days, they were training the battle front every day. After twenty days of training, they were able to perform as well as possible, and maximize the power of the battle front.

Inspiring the battle front to join forces with a blow, the power is very terrifying, even if it is not as strong as the Divine Emperor Realm's blow, it is almost how much.

By this time, it was just a month before Lu Ming received the battle mark.

At this time, Captain Liu Daneng once again called them the captains to discuss.

"In recent years, the demons have become more and more low-key, and the number of attacks on Nantian City has become fewer. Things are a bit weird. Tiangong decided to use this time to occupy the territory around Nantian City as a stronghold!"

"One can expand the defense range, and second, it can annihilate some demons and weaken the demon's strength, so during this time, it is planned to send a sky soldier to clear the demon area near the southern sky city. You are going to fight."

Liu Daneng opened the door directly.

"Okay, I'm finally going to fight. I've been here for so long. I haven't played, and I'm almost suffocating!"

A burly young man grinned.

Other captains also showed different looks.

Some people showed their expectation and showed their will to fight.

For some people, their complexions appear dignified.

But more is the appearance of expectations, such as Lu Ming.

After all, you can only get merit points by hunting for demons. You have been nested in Nantian City, but there are no merit points.

"Now, I will assign the task, Fengxu, Yao Chao, Song Xiaoqi, you take the people, go to the hungry wolf mountain in the second area, and destroy the demons inside!"

Liu Daneng ordered.

"Yes!"

Three of the captains got up and took orders.

"Muyun, Dagang, Mavericks, three of you, lead the team to the Eight Snake Mountain Range, and destroy the demons of the Eight Snake Mountain Range.

Liu Daneng continued to order.

"Yes!"

The three Lu Ming got up and took their orders. At the same time, Lu Ming whispered in his heart. It was really a coincidence. When he participated in the examination of the Tianbing, he went to the Eight Snake Mountain Range.

Now after becoming a Sky Soldier, the first task of destroying demons is also the Eight Snake Mountains.

It can only be said that the enemy is narrow.

Liu Daneng kept telling him, and soon, twenty captains were given the task.

"Now the areas you are going to are all second-level areas, and it is the simplest. After these areas are destroyed, there are other tasks. At that time, you may enter the third-level area. Let's go now!"

Liu Daneng ordered.

Everyone took orders and left here.

Lu Ming returned to the station and took forty-nine team members to leave Nantian City and headed towards the Eight Snake Mountain Range.

Out of Nantian City, there is a vast area, this area is vacant, and there is no demon.

Because this area has long been cleared by the Tiangong Palace, and the Tiangong Powerhouse patrols from time to time, so it is relatively safe.

The Eight Snake Demon Mountains, these second-level or first-level areas, are the closest to this area. There are fewer high-level demons.

Soon, Lu Ming and others came to the Eight Serpent Demon Mountains.

Lu Ming found that in addition to their three teams, there were other teams, apparently sent by other school captains.

There are ten teams in total.

"Let's separate, so that we can get more merit points!"

Another captain, Maverick Road, glanced at Lu Ming, revealing a slight disdain.

Lu Mingcai's Triple Emperor Xiu Wei's cultivation practice was on an equal footing with him.

You know, his fighting power is equivalent to Divine Emperor Jiuzhong.

Therefore, he did not want to act with Lu Ming, afraid that Lu Ming would drag them down.

After that, the Mavericks took the people away.

Then another captain, Dagang, also took people away, obviously with the same mind as the Mavericks.

"Huh, it's a group of guys who look down on people!"

"Yes, sooner or later they will be impressed!"

Some people in Lu Ming's team are very upset.

Now they are on the same boat as Lu Ming, and Lu Ming is looked down on, that is, they are looked down on, naturally uncomfortable.

"Let them be arrogant first, and then we will hunt more demons than they do, see what they say!"

"Yes, Captain, let's kill it!"

Some people shouted.

Chapter 4035: Eight Snake Demon Palace

"set off!"

Lu Ming gave the order, and he didn't care about the contempt for others.

To be honest, the more others despise him, the better for him.

Isn't it cool to be a pig and a tiger?

A group of fifty people rushed into the Eight Serpent Demon Mountains.

"Dan Dan, explore the nearby demonic tribe!"

Lu Ming said to Dan Dan.

"give it to me!"

Once he grinned, his hands pinched the seal, and endless runes appeared, disappeared into the ground and the void, and disappeared.

"Good mysterious rune way!"

The other people's eyes lit up at the first sight, showing surprise.

These people are not weak, and their eyesight is still there. When they look at Dandan's shots, they can see that the way of Dandan's runes is very mysterious, and it is simply unpredictable.

They understand that they not only underestimated Lu Ming, but also underestimated.

Dan Dan and Lu Ming were obviously together, and couldn't help, they gave Lu Ming a few more glances.

"Yes, there is a demon tribe in the 120 thousand miles northwest!"

Once and for all.

"Kill the past!"

Lu Ming ordered and took everyone to the tribe.

This time, unlike last time, this time, Lu Ming was unscrupulous and full of confidence.

Although, in their team, there is the Divine Emperor Nine Heavy Power, I am afraid that only he and Ling Yuwei, Dan Dan's formation is extremely mysterious, but the ability of confrontation, I am afraid that has not yet reached the Divine Emperor Nine Heavy.

However, they have a battle line in the Temple of Heaven. Once the battle line is in operation, they will kill the demon of the Emperor Nine Heavy, like chopping melons and vegetables, how many come and kill, so in this eight snake demon mountain range, he is brazen Scruples.

Even if they met the last time the Great Demon Massacre, they retreated with confidence.

Soon, they came to this tribe without any suspense. Soon, this demon tribe was annihilated by them, and the demon spirit blood was taken away.

The blood of the demon spirit is temporarily collected by Lu Ming. After returning to Nantian City, it will naturally be distributed according to credit.

Tiangong, with its own distribution system, can ensure that everyone is fair.

This tribe was annihilated, and Dandan soon discovered another tribe, and they killed it again.

For demons, no one will show mercy, regardless of cultivation strength or weakness, all will be killed.

In this way, they pushed forward all the way, and within two days, they had wiped out more than fifty tribes.

Gradually, they approached the core of the Eight Serpent Demon Mountain Range, where the eight snakes meet, which is the territory of the Eight Serpent Demon Kingdom.

"If you want to get more credit, you must wipe out the Eight Snake Demon Kingdom, but everyone should be careful. There are many masters in the Eight Snake Demon Kingdom. The devil of the Nine Heavy Gods is definitely not under 400. There may be more!"

Lu Ming said.

In the last battle of Shenxia Peak, there were about 400 masters of God Emperor Jiuzhong dispatched from the Eight Snake Demon Kingdom.

Lu Ming estimates that the Eight Snake Demon Kingdom cannot be fully dispatched, and should be reserved. Then, all together, it is also possible that there are more than five hundred masters in Divine Emperor Realm.

The existence of the seven emperors and eight emperors will certainly be more.

If they rely on the real combat capabilities of these people, facing so many masters, it is absolutely dead.

However, they now have battle fronts, so they are unscrupulous.

"So many masters are all killed, how many merit points can you get?"

"Captain, hurry up, don't be preempted by other teams!"

"Yes!"

Some people opened their mouths, revealing their expectation, and wished to kill the Eight Snake Demon Palace immediately.

"set off!"

Lu Ming ordered, the people did not stay, rushed directly to the palace of the eight snake demon kingdom.

But after a while, Lu Ming frowned.

Because of this latter journey, they did not encounter a demon.

It stands to reason that the closer to the Eight Serpent Demon Palace, the greater the number of demons and the stronger the strength.

But here, there is no demon.

In particular, they passed several tall cities, but the city was empty, and there was no magic.

No demon's body was found.

As if, these demons disappeared out of thin air.

"It should have retreated, and other teams have taken the lead and came here!"

Lu Ming said.

"Then we have to go quickly!"

Urged once in a while.

Now, he is very eager for merit.

The crowd speeded up and headed towards the Devil's Palace.

Soon after, they were close to the Demon Palace.

Boom!

Suddenly, there was a violent roar in front.

Then I saw a sky of divine light skyward, and there was also the air of Mosha filled the sky.

Obviously, there is a fierce battle ahead.

Sure enough, a team has already arrived here in advance.

"Aura of convergence, let's take a closer look!"

Lu Ming said to everyone.

Naturally, he will not rush forward hurriedly. In his usual style, he first looks at the situation first, and then shoots when the situation is favorable, and turns away when the situation is unfavorable.

For them, the distance of tens of thousands of miles is within a blink of an eye.

In front of them, huge mountains appeared, and on these peaks, huge palaces were built.

Here, it is the Palace of the Eight Snake Demon.

At this moment, the Eight Snake Demon Palace is completely reduced to the battlefield.

The evil spirit of Mosha rushed into the night, and countless demons gathered into a large formation, which turned into a huge demon shadow, roaring like thunder, shaking the world.

On the other side, there is a team on the side of Honghuang Universe.

There are five teams.

Among them, the two teams who came with Lu Ming were all there. The captains were Dagang and Mavericks.

The five teams on the side of the Tiangong all urged the battle array, condensing five golden swords, extremely powerful, and confronting a huge demon.

It must be said that this formation of the Tiangong is really mysterious. The formation of the formation is integrated into the armor of the Sky Soldier. Once urged, it can not only stimulate the practitioner's own power, but also the power of the Sky Soldier's armor, which can explode. The power is amazing.

The five golden war swords are in a vertical and horizontal direction, and they are indistinguishable from the demon's Ten Thousand Demons.

After fighting for a while, there was no difference.

"Captain, shall we shoot?"

Someone asked Lu Ming.

"Wait a minute, someone comes again!"

Lu Ming whispered.

Sure enough, not far away, there was a ray of light coming towards here.

It is another team in Tiangong.

As soon as this team arrived, a large formation was formed, and a golden sword of warfare was condensed into the battlefield.

An additional team was added to make the Tiangong side stronger, and began to gain the upper hand, suppressing the demon side.

Several tall demons, pressed back again and again.

"Captain, let's hurry up, let's do it now, but we can defeat the demon formation at once!"

Someone suggested.

"it is good!"

Lu Ming nodded and was about to order the shot, but immediately, Lu Ming's face dimmed.

Chapter 4036: The devil shot

"Wait!"

Lu Ming just wanted to order the shot and attack the demon together, but immediately his face dimmed, preventing everyone from shooting.

Because just now, the bone demon whispered to Lu Ming: "Lu Ming, don't shoot first, I feel a terrible power in the demon palace!"

"Horrible power?"

Lu Ming looked solemn and puzzled.

"Yes, there is a breath of suspected Divine Emperor!"

Bone Magic Road.

"God!"

Lu Ming was shocked.

There is a Divine Emperor in the Eight Snake Demon Palace?

Isn't it said that the strongest of the eight snake demon kingdoms is God Emperor Jiuzhong, how could there be a strong man in God Emperor Realm.

Divine Emperor Realm is much stronger than Divine Emperor Realm. Generally speaking, even if there are more Divine Emperor Jiu Zhong, it is difficult to compete with Divine Emperor.

If there is a Divine Emperor Realm in the Palace of the Eight Snakes and Demons, then this battle, the people in the Heavenly Palace will be in danger.

"This breath is very weak, like a Divine Emperor, but not like..."

Bone Demon whispered, it seemed that he was a little puzzled.

boom!

It was at this time that the depth of the Eight Serpent Demon Palace burst into a terrible evil spirit. The evil spirit blasted into the sky, and a figure suddenly appeared in the sky.

It was also a demon, but it seemed that he was very old and an old demon.

"Your Majesty the King!"

"It's really His Majesty the King. His Majesty is out of the customs, has His Majesty already broken through?"

"This kind of breath is definitely not the breath of the Devil Emperor, but the breath of the Devil Emperor!"

Many demons shouted.

The realm of demons is very similar to the realm of Shinto, except that it is not divided by Divine Emperor Divine Emperor, but by Devil Emperor Devil Emperor.

Devil Emperor is equivalent to Divine Emperor!

Devil Emperor, equivalent to Divine Emperor!

This old man is the king of the eight snake demon kingdom.

"The creatures of the vast universe, die!"

The king of the Eight Snake Demon Kingdom snorted. At the next moment, he turned into a magic light and rushed to one of the teams in the Temple of Heaven.

call out!

The monstrous spirit of the evil spirit condensed a magic sword and slashed towards that team.

"Control the big array with all your strength, block it!"

The captain of that team shouted, a group of fifty people, urged a large array with all their strength, condensed a golden sword, and cut forward.

boom!

A magic sword, a divine sword, confronted together in front, bursting into earth-shattering roar, the sky was demon qi on one side and golden divine light on the other.

However, this situation only lasted for a few seconds, and the evil spirit suddenly flourished, completely suppressing the golden divine light.

With a bang, the golden war sword collapsed and burst apart.

The magic sword kept going, and continued to cut forward.

"Block it!"

All the people in that team's face changed wildly, desperately urging the formation, and around them, a mask appeared, which was a defensive mask.

boom!

The magic sword was severely cut on the defensive mask, and there was another tremendous roar burst out. The next moment, a crack appeared on the defensive mask, and then with a touch, the defensive mask directly exploded.

Ahhhh...

A scream rang out, and there were fifty people in that team. At least more than twenty people sent out a scream of sorrow. The body burst directly and fell on the spot.

Even if they have a warrior armor, it is useless to resist the Divine Emperor Jiuzhong's full blow, and he is killed by a sharp sword.

The remaining people were stronger, but they also retreated. Many people showed dense wounds and vomited blood in a big mouth. The injuries were extremely serious.

Only the captain, the situation is much better, and did not suffer too much injury.

Because the captains are all second-class sky soldiers, and the armor of the second-class sky soldiers can resist the strong power of the Divine Emperor.

"Damn, it is the existence of Divine Emperor Realm!"

"The Eight Serpent Demon Mountains, how could there be a Divine Emperor Realm!"

The other teams also shouted in horror.

"Okay!"

"Kill the wilderness universe, kill them all!"

"Destroy the spicy chicken in Tiangong!"

The morale of the demon has greatly increased, and many demons shouted in excitement.

In the past, the king of the eight-serpent demon kingdom has been retreating to attack the realm of the devil, and everything is temporarily replaced by Prince Samoro.

As a matter of fact, everyone had no confidence in whether the king could break through the Devil Emperor Realm.

Because it is too difficult to break through the Devil Emperor.

In the history of the Eight Snake Mountains, there are few who can break through to the Devil Emperor Realm.

Unexpectedly, the king of the eight snake demon kingdom really broke through and was still killed at a critical moment, which is really exciting.

"kill!"

Chang Xiao, the king of the Eight Snake Demon Kingdom, turned into a magic sword and killed another team.

This team is Dagang's team.

Quick, too fast, they are approaching Dagang, they can't avoid it.

The movement of fifty people undoubtedly slowed down a lot, but they did not dare to separate. There were so many strong demons at the scene. If they separated and did not set up a large formation, there would only be a dead end.

"Move the big formation, push the big formation with all your strength!"

Dagang shouted wildly.

Their team, with all their strength, urged a large array to condense a golden war sword and fight against the king of the eight snake demon kingdom.

Unfortunately, the result is similar to the previous team.

Under the magic sword, the battle array collapsed, and nearly half of them fell on the spot. The rest of them were also hit hard. Only the captain Dagang did not rely on the second-class sky armor and was not injured.

Two consecutive teams were broken open, and once the battle line was broken, these people would be considered abolished.

You know, there are countless demons around, and they are laid down to the demon array. These people are surrounded by demons and can't rush out at all.

Breaking two teams in a row, the king of the eight snake demon kingdom, still without the intention of stopping, continued to attack and killed the third team.

Although the third team was desperately resisting, the result was the same as the previous two teams. It was also broken, and a small group of people fell.

There were originally six teams, and three were scrapped at once, leaving only three.

At this time, the King of the Eight Snake Demon Kingdom stopped and stood at a high altitude, saying: "The Great Demon Slaughter God launched a large array to destroy them!"

"Kill!"

Countless demons roared, and launched the Great Demon Massacre. The huge demonic shadow was slain towards the people on the side of the Heavenly Palace.

The three abandoned teams, without battle fronts, couldn't resist these demons and were continuously killed.

There are only three complete teams, struggling to resist with the formation.

However, there are only three teams, and they are not opponents of the Ten Thousand Demons. They are completely in the downwind. If this continues, for a long time, it will be a sure thing.

"The king of the eight-snake demon kingdom is no longer attacking!"

In the distance, Lu Ming was surprised.

With the strength of the king of the eight snake demon kingdom, it is supposed to break out, and break the battle array of the remaining three teams. It is so easy to wipe out the people on the side of the palace.

How did you stop only three teams?

Chapter 4037: Lu Ming's plan

Normally speaking, shouldn't the King of the Eight Serpents and Demonic Kingdoms break the battle of the remaining three teams in one go?

As long as the battlefield on the side of the Tiangong is defeated, the people on the side of the Tiangong can only let them be slaughtered.

But the king of the eight snake demon kingdom, but just defeated three of them, leaving three, it is a bit strange.

"I know, I finally understand..."

At this moment, the bone demon cried again.

"Bone Demon, what do you understand?"

Lu Ming asked.

"I can see that this guy did not really break into the Divine Emperor Realm. The breath he exuded was an illusion. I guess he had a big problem when he broke through, but only half of his foot stepped into the Divine Emperor. territory!"

Bone Magic Road.

"Half a foot into the Divine Emperor Realm?"

Lu Ming wondered that such a situation would occur.

"Yes, in the history of Honghuang Universe, there are not many such cases. Generally, some people are obviously not qualified to attack the Divine Emperor Realm, but they forcefully impact. Such people have failed a lot, but there are also situations like this, which have only succeeded half. , The last half of the foot stepped into the Divine Emperor. In such a case, its cultivation was in a state of extreme instability, for a while in the Divine Emperor and in the Divine Emperor!"

"Moreover, if you can't fully enter Divine Emperor within ten thousand years, you will explode and die!"

Bone Demon introduced.

"You mean, when he shot just now, he was practicing in Divine Emperor Realm, and at this moment, he fell to Divine Emperor?"

Lu Ming was so clever that he knew everything.

"Not bad!"

Bone Demon nodded.

"Then he doesn't know how to calculate the fall time, will he return to Divine Emperor Realm next time?"

Lu Ming asked.

"No, you will fall in Divine Emperor Realm. It will take at least a few hours before it is possible to return to Divine Emperor Realm!"

Bone Magic Road.

"a couple of hours?"

Lu Ming's eyes became brighter, and a strategy emerged from his heart.

"Boy, now is a good time to shoot!" Bone Devil said.

"It's good, but the other party's great demon formation can't be underestimated, and they have to find a way to solve it. It can only be done..."

Almost instantly, a complete strategy came to Lu Ming's mind.

"Everyone, I intend to take action to kill the king of the eight snake demon kingdom..."

Next, Lu Ming spoke to Dan Dan, Ling Yuwei and all others.

"what?"

Hearing Lu Ming say this, everyone was taken aback and watched Landing in shock.

Lu Ming actually wanted to kill a Divine Emperor?

This is the Divine Emperor, even if they set up the battle front, it will not help, there is only one way to die, and the lesson ahead is in sight.

Lu Ming, is this crazy?

"Relax, I am not mad. The king of the eight-snake demon kingdom has not completely entered the Divine Emperor Realm, and half of the foot has entered the Divine Emperor. It is extremely unstable..."

Immediately, Lu Ming explained the news of Gumo to him, and explained it to everyone.

When everyone heard it, they were amazed.

"Muyun, what are your plans?"

Ling Yuwei asked.

"My plan is to kill the king of the Eight Snake Demon Kingdom first, but if so many of us pass by, the other party will surely find out that it is hidden in the Great Devil's Mass, and it is not easy to kill!"

"So, I can only shoot with you, quietly pass by, using the strongest means, and killing the king of the eight snake demon kingdom in one fell swoop!"

"And once and for all, quietly set up a formation to break the formation of the Ten Thousand Demon God Formation. Of course, by the way, a formation that can hide the atmosphere of both of us!"

"When the two of us killed the king of the Eight Serpent Demon Kingdom, we quickly joined together and set up battles to hunt the devil!"

Lu Ming quickly said his plan.

His plan is mainly composed of Sanhuan.

In the first ring, let's go from time to time!

In the second ring, he and Ling Yuwei shot and used the strongest offensive methods to kill the king of the eight snake demon kingdom in one fell swoop.

In the third ring, they quickly converged, set up a battle array, broke the ten thousand demons to kill the gods, and hunted demons!

"Relax, leave it to me!"

Nodded, he suddenly filled with dense runes, and his figure disappeared out of thin air.

Lu Ming and others continued to wait.

The Tiangong Temple is more critical now.

The three teams that form the battle front can only barely defend and are very passive. It is estimated that it will not last long.

The three teams that had been broken were even worse.

The three teams added up to 150 people, but now there are only three left.

Yes, there are only three captains left, relying on the second-class sky armor, hard support.

Everyone else is dead, there is no one left.

Even the three captains will not be able to support it for long. The second-tier sky armor is not omnipotent and will run out of energy.

"Ah, I'm not willing!"

"I just became a heaven soldier!"

The rest of these people shouted unwillingly, and then tried their best to resist, falling unwillingly.

Even if there is a 1 in 10,000 chance, they will fight for it.

This is in line with Lu Ming's intention, and they can buy more time for them.

"Dandan, hurry up!"

Lu Ming whispered.

The time when the king of the eight snake demon kingdom fell to the emperor is about a few hours, but the specific hours are not necessarily.

But by the time they were shot, the other party had already restored the Divine Emperor's cultivation behavior, so it would be troublesome.

Fortunately, the speed of Dandan is very fast, and has returned within two hours.

"You can do it, it's done!"

Once and for all, with a wave of hand and a rune, they climbed up the bodies of Lu Ming and Ling Yuwei, making their bodies seem as if they were invisible, and their breath became extremely secret.

The two did not stay, and set off directly, along the side, bypassing the Great Demon Butchery Formation and heading towards the King of the Eight Serpent Demon Kingdom.

The king of the eight-snake-devil kingdom stands with his hands in the sky.

He was very confident and obviously would not have thought that someone would dare to shoot him.

The fighting power he showed before was enough to scare people.

Therefore, his vigilance is not too heavy.

Lu Ming and Ling Yuwei, shrouded in the formation of the Dan cloth, were quietly close to the king of the eight snake demon kingdom.

On the way, Lu Ming also observed the situation on the battlefield.

The three captains without battle fronts have already fallen, and even if there is a second-class warrior armor, it is impossible to persist for so long.

As for the remaining three teams under the battle front, they may be defeated at any time.

Because the breath of many people in it is very weak, and there is blood in the mouth, which is almost exhausted.

Their battle fronts may collapse at any time.

boom!

Ah...

At this moment, a tremendous roar sounded, and then a scream of screaming came out.

The battle formation of one of the teams was finally unable to persevere and was defeated.

Fifty people were formed in a battle lineup, and there were more than 20 people at once. They were killed by demons and fell on the spot.

Chapter 4038: Bomb the Devil Emperor

Another battle line was broken, half of them fell on the spot, and the rest were flying desperately. Unfortunately, they couldn't fly out at all, like caged birds, full of fear.

"Kill, kill, hahaha!"

"Kill these wild universe creatures, you can have a feast tonight and have a full meal!"

"Attention, leave the whole body, don't destroy it, these are all big things!"

The demons around roared and screamed, urging the great demon to slay the gods to chase down the heavenly soldiers in Tiangong.

Without the battle front, these heavenly soldiers are not opponents of demons at all, and are constantly being hunted.

The remaining two dozen people fell one by one here.

At the moment, Lu Ming and Ling Yuwei are already within a hundred miles of the king of the eight snake demon kingdom.

"You shot here, I'll kill it!"

Lu Ming spoke to Ling Yuwei.

A hundred miles away, the power of Ling Yuwei's arrows is completely at its peak.

"Okay, be careful!"

Ling Yuwei said, worried in his eyes.

Lu Ming killed the past melee, if the fighting power of the king of the eight snake demon kingdom is still in the Divine Emperor Realm, then Lu Ming is in danger, and she still has room to get out.

"rest assured!"

Lu Ming smiled and continued to approach the king of the eight snake demon kingdom.

The **** elven king bow in Ling Yuwei's hand has already appeared.

boom!

A strong breath erupted from Ling Yuwei, and a towering tree emerged, and the majestic power poured into Ling Yuwei's elf king bow.

Buzz!

The elven king's bow shook and an arrow came out.

All this is slow to speak, but in fact it is very fast, but in an instant, an arrow flew out of the air and shot at the king of the eight snake demon kingdom.

As soon as the arrow came out, the king of the eight snake demon kingdom sensed it.

"Bold! Find death!"

The king of the eight snake demon kingdom screamed, and the powerful spirit of the evil spirit rose into the sky, turning into a huge magic sword, and slashed towards Ling Yuwei.

However, the breath is far less than before!

God Emperor Realm!

Lu Ming's eyes lit up.

Sure enough, the cultivation practice of the king of the eight snake demon kingdom at the moment is in the realm of God Emperor, not the Divine Emperor.

As long as it is God Emperor, it is easy to handle.

boom!

In an instant, Ling Yuwei's arrows and the eight-snake demon kingdom king's magic sword collided together, and an earth-shattering loud noise erupted.

Then, Ling Yuwei's arrow hit and burst apart, and the magic sword also collapsed, and the body of the king of the eight snake demon kingdom shook and retreated.

Even if the King of the Eight Snake Demon Kingdom is not in the Divine Emperor Realm, and temporarily falls to the Divine Emperor Realm, the combat power is still amazing.

After all, he stepped into the existence of Divine Emperor Realm. Even if he temporarily fell into Divine Emperor Realm, it was far stronger than the existence of ordinary Divine Emperor Jiu Zhong.

You know, now Ling Yuwei has broken through to the fourth realm of the Divine Emperor, and urged the **** elven king bow to shoot the ordinary Divine Emperor Nine Heavy, which is simply chopping melons and vegetables.

However, the move just made a split with the king of the eight snake demon kingdom.

Fortunately, it was not Ling Yuwei who shot.

At the moment Ling Yuwei shot, Lu Ming also shot.

He held Gale Bead in his left hand and Bingxuan stick in his right hand.

First of all, the strong wind bead was urged, and a strong strong wind was pulled out and turned into a terrible wind blade, killing the king of the eight snake demon kingdom.

When Lu Mingxiu was still the Divine Emperor's Double, the force inside the strong wind bead was already comparable to that of the Divine Emperor.

Now, Lu Ming's cultivation base has broken through the triple of the Divine Emperor, and with the Great Divine Wind Technique, he has achieved a great success, and the power of the strong wind pulled out is several times stronger than before.

While the strong wind and wind blades flew out, the taboo force in Lu Ming's body was madly input into the ice xuan stick.

The ice mysterious stick suddenly became larger, like a mountain range between heaven and earth, and blasted towards the king of the eight snake demon kingdom.

The timing Lu Ming grasped was really great.

It happened that King of the Eight Serpent Demon Kingdom and Ling Yuwei had a trick, when the figure retreated.

At this time, the king of the Eight Snake Demon Kingdom was just when the old force had just gone, and the new force was not born, and Lu Ming's attack had arrived.

Roar!

The Eight Snake Demon Kingdom made a roar, forcibly erupting a strong evil spirit, and a pair of demon wings quickly grew larger, protecting him in the middle.

boom!

The strong wind and wind blade hit the king of the eight snake demon kingdom, and the powerful force drove the other party back backwards. At the same time, the hot wind continuously burned the body of the king of the eight snake demon kingdom.

The king of the eight snake demon kingdom gave a painful roar, and at this time, the ice mystery stick had already hit.

Lu Ming and Ling Yuwei's offensive, one by one, did not give the other party a chance to breathe.

Lu Ming is now breaking through to the Triple Emperor of God, and the power of mobilizing Bingxuan stick is already terrible. It will not be weaker than the arrows shot by Ling Yuwei.

The King of the Eight Snake Demon Kingdom screamed with horror in his eyes and ran his strength to resist.

However, at this time, they might not be able to run 50% of their strength.

boom!

Bingxuan stick accurately hit the king of the eight snake demon kingdom, and the power of destruction exploded. The king of the eight snake demon kingdom broke the pair of demon wings first.

Bingxuan stick kept bombarding the king of the Eight Snake Demon Kingdom. The body of the other party shot a lot of blood mist. The body flew down like a meteorite and hit a huge mountain.

With a violent roar, the mountain and the palace above it completely burst apart, and a huge crater appeared on the ground.

The body of the king of the eight snake demon kingdom is embedded in the giant pit.

However, he was too miserable. His upper body, including his head, was gone, completely exploded by Bingxuan Bang.

Only the lower body is left, and naturally it is dead and can no longer die.

The king of the eight snake demon kingdom, fell!

This time, the demons at the scene were stunned.

Everything just mentioned is slow to speak, but in fact it only happened between electric flint and flint.

Shooting from Ling Yuwei, then landing landing shot, bombarded the king of the eight snake demon kingdom in one fell swoop, all completed in an instant.

As soon as the surrounding demons reacted, the king of the eight snake demons kingdom was killed.

"This..."

These demons were completely stunned, their eyes wide, and it was difficult to believe their king, so they were killed.

Just now, their king, still full of invincible spirit, possesses the power of Divine Emperor Realm, and defeats a team of opponents with one move, powerful and invincible.

But in the next moment, why was he killed?

Their heads suddenly turned a little bit.

Not only they, but also the people in Tiangong, were a little stunned.

However, they reacted faster and quickly attacked with all their strength. If they wanted to rush out, they almost rushed the Demon Slayer into a hole.

"The king is dead!"

"Ah, damn, go all out, kill the debris of these heavenly palaces, and avenge the king!"

"kill!"

Countless demons screamed, and Ten Thousand Demons slaughtered the gods, re-run, and killed those in the Heavenly Palace.

At the same time, there are also many attacks, attacking them to Lu Ming.

Chapter 4039: Break through

The demons also attacked and killed Xiang Mingming and Ling Yuwei.

However, Lu Ming had already prepared them. After bombing the king of the Eight Snake Demon Kingdom in one fell swoop, their figure retreated backwards, and those of Lu Ming's men rushed to Lu Ming quickly.

With just a few breaths, they merged together.

At the same time, Dan Dan's figure also appeared in due course, meeting with him.

As soon as they got together, they began to urge the battle.

Buzz...

The armor on them shone and resonated with each other, as if there was an invisible thread connecting them together.

Battle, urge!

The splendid light erupted, condensing a golden war sword, slashing out, colliding with the demon attack on them, colliding together, blocking the demon's attack.

"Kill, kill them!"

"To urge all demons to slay the gods in full force, today, let them don't want to leave!"

"Leave them all and avenge the king!"

A large number of demons roar, and they are in full control of the Ten Thousand Demons.

This is the capital of the Eight Snake Demon Kingdom, and in the past, the Eight Snake Demon Kingdom gathered all the demon masters around, so the number of powerful demon here is staggering.

There are at least five hundred demons of God Emperor Nine Heavy.

As for Shenhuaq Bazhong and Shenhuaq Sevenfold, it would be even more, and they would add up to tens of thousands.

This is a real battle of ten thousand evil spirits, and a total of thirteen giant shadows are gathered. The power is very amazing. Even if it does not reach the attack power of the Divine Emperor Realm, it will not be too far.

The teams on the side of the Tiangong, if not relying on the battle array, and can stimulate the strength of the warriors of the sky soldiers, can not be stopped at all, and the difference is too far.

Even so, at least five or six teams are needed to block it.

Now, on the Tiangong side, even with Lu Ming, they only have three teams, and they are fighting against each other, and they are definitely not opponents.

Thirteen giant phantoms, including six phantoms, attack the remaining two teams with all their strength.

There are five demon shadows, kill them to Lu Ming, want to leave them all.

Each of the magic shadows is huge, and the spirit of the evil spirit is soaring, holding the magic knife and cutting it out, and the void is split in half, terrifying.

Lu Ming urged the battle array with all their strength, but only resisted a few strokes, they were blown out, and many people were bloody, flushed, and almost vomiting blood.

The remaining two teams are also the end of the strong crossbow, dealing with the six giant demons, very dangerous.

"I don't want to die!"

Among them, the calf shouted in his heart, all eyes were unwilling.

Although, Lu Ming and Ling Yuwei broke out just a moment ago, killing the king of the Eight Snake Demon Kingdom, which really shocked his jaw.

Before, he still looked down on Lu Ming. They never thought that Lu Ming and Ling Yuwei actually had such a strength, which also gave them the hope of survival and wanted to rush out in a hurry. Unfortunately, after all, they did not do it. Weakened too much, and did not rush out, he was trapped by the Great Demon Butcher again, he was full of despair.

"Dan Dan, how's it going? Okay?"

Lu Ming sent a voice to Dandan.

"Okay, look at me!"

Dandan responded.

Then, step by step, the runes filled out, sinking into the void.

Then, in the void, dense runes emerged, forming a large formation.

The situation is very similar to Dandan's last time to destroy the Demon Massacre.

As soon as the shot was taken, the demon's Ten Thousand Demons slayed the gods, and it would not work.

"Attack the left, then the right..."

Dandan started pointing.

Lu Ming and they immediately urged the battle array, the golden sword light, first cut to the left.

This sword collided with a huge magic shadow magic knife, but the location of the collision was very particular, which was just the flaw of its formation.

boom!

The huge magic shadow retreated back in madness, and then burst with a loud touch.

Great formation, broken!

The demons inside are flying everywhere.

Then, under the guidance of Dan Dan, they again shot continuously.

Every shot, there is a huge magic shadow, disintegrated by the explosion.

In a blink of an eye, Lu Ming attacked their five giant demons, all of which collapsed.

The rest of the people in Tiangong almost burst into their own eyes.

Lu Ming, they were so easy, they defeated five huge demons.

Originally, they were all desperate, but now they see hope again.

"Muyun, hurry, come and save us!" the little cow shouted excitedly.

"Save you? No no no, our strength is low, it will drag you down in the past, your strength is strong, I believe you can get out of your own!"

It wasn't Lu Ming who spoke, but he was full of disdain.

Before, wasn't the Mavericks very disdainful to Lu Ming? They also said that they didn't want to act with Lu Ming, they would drag him down.

Now, Dandan will give back the words of the Mavericks intact.

"I..."

The calf's face was flushed with red, and he wished to find a hole in the ground.

Will Lu Ming drag them down? Isn't it ridiculous?

"We are all Heavenly Soldiers, you can't save yourself from death!"

The calf yelled, his mouth still stiff, he didn't want to admit his mistakes, he wanted to use the rules of the Heavenly Soldier to suppress Lu Ming.

"We didn't see death, we couldn't save ourselves, we are insecure, so many demons, oops, it's not good, hurry up and fight back, oops..."

Dandan yelled there.

Lu Ming, they control the battle array, bombing the demons around, just do not go to rescue.

The calf almost vomited blood.

"Maverick, what time is it now, and you haven't apologized to Captain Muyun for admitting mistakes!"

The other captain yelled.

"Yes, Mavericks, you are all eye-catching, and quickly admit your mistake, I don't want to follow you to death!"

"That is, Captain Muyun's extraordinary attitude, how can you insult, quickly apologize and admit your mistake!"

This time, it was the Mavericks who were yelling.

They don't want to follow the Mavericks to death.

The calf almost exploded his lungs, but in this case, he had to admit his mistake.

"Muyun, it was my fault before, because I have no eyes, your adults don't remember the villains, just let me say it's a fart, please help!"

The Mavericks shouted, and he was extremely unwilling, but under such circumstances, he could only bow his head.

"It's about the same. It would have asked you to kneel to admit your mistake. It's better if you look at the special situation!"

Shouted, very comfortable.

Then, Lu Ming and their battle formations flew over and painted the gourds in the same way, destroying a huge demon shadow.

"Kill the devil!"

Lu Ming shouted and controlled the battle array. The golden sword light continued to burst out. Every sword light was cut, and a large number of demons were killed.

Ten Thousand Demons Slayers burst, and although there are many of these demons, they are not Lu Ming's opponents at all.

Chapter 4040: Let you go

The Mavericks and the people in the other team gasped for breath and flew aside, only to watch as they sang and hunted demons.

They also want to hunt the devil, but unfortunately, they have been fighting with the demon for so long before, and they have already collapsed. Everyone is very weak, and it is almost difficult to maintain the battle.

Without battle fronts, their own strength alone is not an opponent of these demons at all. Instead of killing demons, they will die in the hands of demons.

They can only hurry to recover quickly.

Lu Ming and they are hurrying to hunt down demons.

Not a great array of demons to slay the gods, the power of these demons is scattered, and they are not Lu Ming's opponents at all. The golden sword light is cut, and the large demons are harvested, falling like wheat.

"Fight with them!"

"kill!"

Some demons roared, showing madness, and rushed to Lu Ming desperately, desperately with them.

but...

Uh!

A golden sword flashed through, a dozen of the devil's nine heavy demons were beheaded, and the body fell to the ground.

Mess!

Completely chaotic, the scene was a mess.

These demons have lost their hearts of resistance and flee in all directions.

Some demons are mad and want to die with Lu Ming, so they are easily killed by Lu Ming.

It was only a short time since the land was full of demons.

Not far away, the other two teams in Tiangong showed greed in their eyes.

These demons are all demons with seven or more weights. Every drop of demonic spirit blood can definitely be exchanged for many merit points.

Especially the Mavericks, the greedy light in their eyes is more intense.

"You, how can so many demons and spirit blood belong to the team of Muyun, let's go and collect some!"

Mavericks whispered to the others.

"That's not good, after all, they saved us!"

Humane, hesitant.

"You look at the problem, it's too superficial, it shows that they saved us, but, if we didn't hold the demon just now, how could they have the opportunity to break through the demon's large array?"

"How can there be a chance to kill the king of the eight snake demon kingdom, it can be said that they have such a record, it is because of us, we should get a part of the demon spirit blood, shouldn't we?"

Maverick sneered.

"Yes, Captain Mavericks said that we deserve a part of the demon spirit blood!"

Humane.

But some people shook their heads and still felt wrong.

"Huh, you don't want demonic spirit blood, then we won't get it!" Maverick Lengheng rushed out, rushed to the demonic corpses, and began to collect demonic spirit blood.

A dozen people rushed out of his men and followed the calf to collect demonic spirit blood, while others did not move.

Although these people are very interested in the demon spirit blood, they can't pull this face. After all, Lu Ming just saved them, and they immediately split Lu Ming's booty, which is really shameless.

"Captain, shall we go up?"

In another team, someone asked the captain.

"No one is allowed to go up, and if anyone goes up, don't blame me for being rude, the Mavericks are shameless, I still have faces!"

The captain, with a cold voice, swept the team members who coldly swept over him. Several of them were originally very excited, and those who wanted to rush up, were swept by this cold eyes, and hesitated suddenly, and dared not go up.

The actions of the Mavericks and others, Lu Ming and they naturally look in their eyes.

"Nest, shameless, really shameless, actually robbed the demon spirit blood with us!"

"Damn, we saved him. They dared to do this, it was ashamed!"

"Unforgettable beast!"

Among the Lu Ming team members, a lot of people yelled, and the voice came from far away. The Mavericks and others naturally heard it.

The calf's face was very cold, but the action did not stop, and he still collected the blood of the demon spirit quickly, and he sneered in his heart; "Muyun, the shame that was added to me today, sooner or later, I will ask you to return it ten times, I want you to kneel before me and beg for mercy..."

Yes, he not only thanked Lu Ming for saving him, but also blamed Lu Ming for making him shameful. He was regarded as a shame and shame, and he must revenge.

"Zenima is shameless, we will kill them!"

Among the crowd, Lu Ming gritted his teeth.

"No hurry, let them collect for a while, there is free labor, why not use it, we first hunt the devil, don't let the demon run away!"

Lu Ming said, his face was always calm, but, in the depths of his eyes, there was a ray of murderous death.

"Hahaha, I understand, well, then wait!"

Laughing.

He has been mixing with Lu Ming for so long, and he knows Lu Ming too well. With a certain expression on Lu Ming, he can understand Lu Ming's idea.

With Lu Ming's character, will he give up the benefits of getting it, let the Mavericks take it?

Naive!

"Continue to hunt the devil!"

Lu Ming Changxiao constantly urged the battle to hunt the devil.

Thousands of thousands of miles of sword gas spread across, a large block of demons were beheaded, and the body fell to the ground like raindrops.

Seeing that Lu Ming hadn't stopped them, the calf sneered.

"Huh, you plant one, and really did not dare to violate the rules of Tiangong against us!"

The calf sneered in his heart, and his courage was even greater, and he kept collecting demonic spirit blood.

The same was true of dozens of other people, thinking that Lu Ming did not dare to say anything, and naturally accelerated their speed. A drop of demon spirit blood kept flying out of the demon's body and was collected by them.

Several of the Mavericks' players saw this and couldn't resist the temptation. They also joined the crowd collecting demonic spirit blood.

After a while, all the demons that should be killed were almost killed. Of course, most of them also escaped. After all, there are so many demons that they can't kill, and naturally a group of people will escape.

At this time, the Mavericks at least took away half of the demon spirit blood at the scene.

"about there!"

Mavericks secretly.

If possible, he wanted to take away all the demonic spirit blood at the scene, but if it was too much, he was really afraid of Lu Ming's surging, so if he wanted to see it, he would take it and leave.

His body moved, and he wanted to return to the team and then leave here.

"Have you left?"

A cold voice sounded, and then, a strong breath enveloped the Mavericks and others.

Lu Ming's eyes stared coldly at the Mavericks, and the golden war sword condensed from the battle array, facing the Mavericks and others, seemed to be about to launch a fatal blow at any time.

Mavericks and others stiffened and did not dare to move.

Although he has a second-class warrior armor, but the previous war, the energy in the armor has been exhausted, and it takes a while for the armor to absorb the energy between heaven and earth to recover.

Without the second-class sky armor, he could not stop Lu Ming from launching a battle.
