

D Emperor 4041

Chapter 4041: Do you think I dare?

The calf looked ugly at Landing Ming and said, "Mu...Mu Yun, what do you want to do?"

"What do you want to do? Can't you think of your trapped head? These demon spirit bloods are all mine. Now, hand over all the demon spirit bloods!"

Lu Ming said coldly.

His demonic spirit blood, the calves and other people still want, it is ridiculous, he just used the calf and others as a free labor force to collect demonic spirit blood, so he could take the time to hunt more demonic spirit blood.

"Muyun, if you want to monopolize these demonic spirit blood, your appetite is too big. If you don't have our desperation before, how can you defeat the demon's large array. These demonic spirit blood, everyone has a share, and the rest, return is you!"

Exclaimed the Mavericks.

"Give you ten breaths of time and hand over demonic spirit blood!"

Lu Ming was simply too lazy to ignore the calf, and looked coldly at all the people who collected the blood of the demon spirit.

Everyone's face changed and he felt pressured.

"Don't care about him, this is what we collected. Why should we give it to him, Tiangong has regulations, can't kill each other, and he doesn't dare to fight against us!"

The calf cried, watching the landing cry coldly.

Tiangong has regulations that between the soldiers can not kill each other, he just does not surrender the blood of the demon spirit, Lu Ming can bear him?

"Yes, we just don't hand it in!"

"Yeah, how dare he look?"

Others who collected the blood of the demon spirit cried out, then approached the calf and gathered together.

The spirit blood of the demon here is left by the devil of the seventh emperor and above. There are even a large number of nine emperors of the emperor. How many merits can these be worth?

Merit points, but it represents treasures and wealth.

Now let them hand over, it is like cutting meat and bleeding from them!

"Shameless, really shameless!"

"Lying trough, I can't wait to scrap them!"

Lu Ming's team members roared one after another, gritting their teeth and staring at the Mavericks and others.

"Oh, is it so?"

Lu Ming whispered, the cold light in his eyes was more intense.

"Great array, get up!"

Suddenly, Lu Ming took a sip.

"what?"

Lu Ming's players were shocked. Lu Ming wanted to start the battle, was it to deal with the Mavericks and others?

But this is a violation of the rules.

"I let you start the battle, didn't you understand, if something happens, I will do my best!"

Lu Ming's voice was cold.

"Start the battle!"

"Get up!"

At this time, everyone urged the battle array, the golden sword light, brilliant, the sword light traversed between the world.

"Muyun, what do you want to do? How dare you, dare you?"

The calf yelled.

call out!

A ray of golden sword gas swept out, the void was torn, and the speed was extremely alarming.

Puff!

Around the calf, there was no reaction from several soldiers, the body was cut into several pieces, and even the soul did not escape, and fell to the spot.

Everyone was stunned.

The other team was stunned.

The calf was stunned.

They did not expect that Lu Ming actually dared to shoot, killing the soldiers.

You know, this is against the rules of heaven.

Violating the rules of the sky, there is only one dead end.

How dare Lu Ming dare to do this, but dare to really do it? Where is his courage?

The calf's face changed, and the other heavenly soldiers beside him also changed their face, and turned pale.

"You...you...dare?"

The calf stared at the landing cry, his face was cold and sweaty, his body trembling slightly, and his eyes had lost the previous domineering and self-confidence, and some were only frightened.

It was a ray of golden sword gas that responded to him.

call out!

At the edge of the calf, several other soldiers were beheaded and fell on the spot.

"Did you say I dare?"

Lu Ming said coldly.

thump! thump!

Next to the Mavericks, several Sky Soldiers knelt down directly on the ground, shouting sternly: "Captain Muyun is merciful, we are willing to surrender demon spirit blood, we are willing to surrender all demon spirit blood, please forgive us A life!"

Scared!

They are really scared!

Before, they relied on the rules of the sky and were unscrupulous, but Lu Ming was afraid to dare to deal with them.

Unexpectedly, Lu Ming's courage was so big, so lawless, this is a demon, no, it is more terrifying than the demon.

Actually disregarding the rules of the sky and directly dealing with them, this kind of person is terrible.

The calf's body shuddered even more and almost knelt down.

Fear, regret!

Now, he regretted it. He knew that Lu Ming was so lawless, and he would never **** a loot with Lu Ming.

"Muyun, misunderstandings, all misunderstandings. I just helped you collect demonic spirit blood just now, so that you have time to hunt the demons. Now that you are almost hunted, I will give you the demonic spirit blood!"

The Maverick said quickly.

"Oh, you didn't say that just now!"

Lu Ming said lightly.

"I was wrong just now. I was blinded by lard. You adults don't remember the villains, don't worry about it!"

The calf yelled.

In order to live his life, he is also out, he does not want any face.

The elder husband can bend and stretch, as long as he is alive, he must report Lu Ming's killing of Tianbing, so that Lu Ming can't die.

"I have given you the opportunity just now, but you don't understand how to cherish. Are you really such a good talker?"

Lu Ming said coldly.

Since he had already started, he had no intention of letting the Mavericks go.

At this moment, the Mavericks suddenly moved.

He broke out with all his strength, grabbed the few sky soldiers on the side, grabbed them, and flung them towards Lu Ming, then he retreated physically and mentally, trying to escape.

However, Lu Ming had been staring at the Mavericks for a long time, how could he escape.

Uh! Uh! ...

In the void, golden sword lights condensed out and killed the Mavericks and others.

The golden sword light is scattered, although the power is much smaller, but it is more than enough to deal with the Mavericks and others.

Puff...

One by one, the soldiers were pierced by sword gas and killed here.

"Ah, Muyun, you must not die, you must not die..."

The Mavericks roared wildly, and at the same time broke out to resist.

The Mavericks have the power of God Emperor Nine Heavy, but now the second-class sky armor cannot be used.

puff!

The golden sword light directly penetrated the calf's eyebrow and thumped. The calf's body fell to the ground, and there was no breath at all.

At this point, all the Tianbing soldiers who just robbed the demon spirit blood were killed by Lu Ming.

Lu Ming's team members are very dignified.

After killing so many soldiers, it was a violation of the rules of the sky, and they were very nervous.

However, there are people who are more nervous than they are, that is another team, and the Mavericks who have not tried to **** demonic spirit blood before.

They were afraid that Lu Ming would kill people and kill them.

People from another team have already quietly moved into battle.

After all, only battle fronts can compete with Lu Ming's battle fronts.

Chapter 4042: Angel's plan

However, although the other team was in battle, they were not sure.

Even the same battle formation depends on the strength of the controller. The stronger the controller, the stronger the power.

Moreover, they had experienced a fierce fighting battle before, and now they have not recovered at all. Even if the battle array is running, I am afraid that they are not their opponents.

The remaining members of the Mavericks had a more ugly face, cold sweat permeated from their faces, and the body quietly backed away.

"You better stay!"

Lu Ming looked at these people coldly, and these people stopped immediately and dared not move.

"Captain Muyun, do you really want to kill people?"

Another captain said.

"No, I didn't want to kill you, and I didn't kill innocent people indiscriminately, but just let you leave and spread the news of today, we must be punished by Tianjo!"

Lu Ming said.

Lu Ming's team members were filled with killing opportunities.

Although Lu Ming said that he was responsible for something, he just killed the Mavericks and others, but used the battle array. Once the Tiangong was investigated, they could not blame them.

"We can swear, swear on the source of life, and will never reveal what is happening today!"

Another captain said.

"Yes, we swear by the origin of life!"

The others cried.

"Yes, so, you swear by the source of life, if you leak today, your heart is like a demon, and your soul is annihilated!"

Lu Ming said.

Everyone's face changed slightly. This oath is extremely heavy. If it is leaked, I am afraid that it will be killed immediately.

However, in this situation, they can only swear.

Immediately, people from another team, and those left behind by the Mavericks, swear by their origins.

"Now, can we go now?"

After swearing, the captain watched the landing cautiously.

"Of course, everyone please!"

Lu Ming smiled.

As soon as Lu Ming's voice fell, those people showed up and left here.

All of a sudden, only Lu Ming's team remained on the scene.

"You guys, I think that it is necessary for us people to swear on the origin of life, not to trust you, after all, this matter is about our lives..."

Lu Ming looked at all the players.

"Yes, the captain said, I think so too!"

"Yes, for insurance, swear it!"

One hundred of Lu Ming's team members agreed.

Now, they are grasshoppers on a rope. If anyone leaks out, they will all die. Naturally, everyone agrees to swear together.

Immediately, Lu Ming swears first, and then others swear.

After everyone swears, Lu Ming smiled and said, "You are all my brothers who live and die together in Muyun. You will be blessed and shared in the future. Now let's start collecting demon spirit blood. After going back, we will distribute according to credit! "

"Okay, haha, so much demonic spirit blood, it is estimated that there are many merits for the exchange!"

"Absolutely quite a lot. It's cool to mix with Captain Muyun!"

When it came to the demon spirit blood, everyone's mood was excited again, and then began to act, collecting the demon spirit blood one by one.

The demon spirit blood of Mavericks and others was naturally taken away by Lu Ming and they lost their lives as a free labor force.

After collecting all the blood of the demon spirits, they set fire to turn the bodies of the calves and others into ashes.

After all, the Mavericks and others were killed by them in battle. If the big figures in the Tiangong come to check, most of them can be seen, so the ruin is the king.

Anyway, when people on this side of the Tiangong are killed by demons, they will become the food of the demons, leaving few corpses.

With all the power to do everything well, Lu Ming and they left here.

However, they have not yet planned to return to Nantian City.

Before, at least a little half of the demons had escaped and were scattered around the Eight Snake Mountains. Now these demons, like lambs to be slaughtered, wouldn't be a pity if they didn't solve them.

It is not difficult to search for these demons once and for all.

The next time, they were in the Eight Snake Mountains, hunting for demons.

Once in a while, these demons, even hiding in the ground, can be found to hunt.

A month later, Lu Ming returned to Nantian City with their full harvest.

Sure enough, after they returned to Nantian City, the upper level of the Tiangong Palace did not find their trouble. Apparently they did not leak out about the killing of Mavericks and others.

In fact, in the battle with the demon, it is normal to fall some sky soldiers, but this time, the Eight Snake Mountain Range, they fell too many sky soldiers, so, someone still asked Lu Ming they asked the process of the Eight Snake Mountain Range of.

They all told the truth, of course, they will not say anything about killing Mavericks and others.

It's just that Mavericks and others were killed by the demon while fighting the demon.

Anyway, there are not many soldiers killed by demons in the Eight Serpent Demon Mountains, and there are not many calves and others.

"Unexpectedly, it was our negligence that the Eight Serpent Demon Mountain Range actually gave birth to a Devil Emperor, Muyun, you did very well!"

A few gods will blame themselves a little, and then praise Lu Ming a few words, this matter has just passed.

Later, this team of Lu Ming distributed the blood of the demon spirits according to the distribution rules of Tiangong. Everyone had a lot of gains, and each smiled.

In Nantian City, you can't exchange Demon Spirit Blood for Success Points. You can only redeem Success Points by returning to the City of Dreams and going to the Well of Merit.

But as long as there is demonic spirit blood, is it not a matter of time to redeem success points?

...

In another section of the city wall, in a hall, some people are discussing.

These people are all masters of the angel family.

"That Muyun is finally going out to hunt the devil, and his death time is up!"

A male angel said coldly that he was Lafayette.

"Before, he went to the second level area, the Eight Snake Mountains. I got the news that next time, he should go to the third level area, the magic island of the stars!"

Another angel said.

"Well, then, the magic island of the stars is his death time!"

Lafide said coldly.

During this time, they did not give up to deal with Lu Ming.

Only in the city of Dreamland, due to the rules of the sky, they could not shoot.

But here, they want to go out to hunt the devil, this is their chance.

"How do we do it, do we shoot directly? If the news leaks out, it will be bad for us, after all, it is against the rules of the sky!"

Another angelic youth.

"In the dark universe, are there fewer people who violate the rules of the sky to kill? As long as there is no evidence left, the upper level is also closing one eye!"

Lafayette said.

Indeed, after all, these sky soldiers come from various races and have hatred against each other, which is too normal.

Although there are rules, it is inevitable that they will kill each other in secret.

Chapter 4043: Seal of the Forbidden Domain

Therefore, as long as it does not happen in the cities of Dreamland or Nantian City, and there is no obvious evidence left at the same time, there is no too bad influence. The upper floors of the Tiangong are also closed.

As long as they do it neatly, nothing will happen.

"That being said, there is a better way, why not use it?"

One of the female angels said.

"You mean...yinling clan?"

Lafayette said.

"Not bad!"

The female angel nodded.

"Fortunately, letting the people of the Yinling tribes save us trouble!"

Lafield nodded.

The Yinling tribe, a powerful race on the Honghuang Wanzu list, this race is infamous in the Honghuang universe, because the favorite of this race is assassination.

And the success rate is extremely high. People of this race can be said to be top killers.

In the universe, many races want to destroy the Yinling tribe, but the backing behind the Yinling tribe is one of the top ten races.

And there are rumors that there are many masters of the Yinling tribe who secretly work for the Tiangong, so even though there are many races that want to destroy the Yinling tribe, they are brave.

Finding the Yinling tribe to kill Lu Ming is just right.

The angels discussed it again, and then Rafid set off with a few people.

In Nantian City, a very remote building, Lafield saw an elder of the Yin Clan.

This old man, full of cold air and murderous opportunity, opened and closed his eyes.

"The angels are really rare. You come to the old man. What is it?"

The elders of the Yinling tribe said that their voices were cold and quiet, and they infiltrated abnormally.

"Look for you to kill someone!"

Lafayette said.

"Oh, who killed?"

Asked the Yinling elders.

"City Wall No. 33, a second-class sky soldier named Muyun!"

Lafayette said.

"A second-class sky soldier, that must be the captain. With his own team, he can form a battle line, which is not easy to deal with!"

The elders of the Yinling tribe frowned.

A team formed a battle array, extremely powerful, want to kill such a person, unless the presence of Divine Emperor Realm.

However, in Nantian City, Divine Emperor had the task of Divine Emperor, and Divine Emperor generally went to the high-level area, and wanted to be with the second-class sky soldiers, just in an area, the chance is too small.

"You don't have to worry about the battle of the other party. We have a solution. As long as one of his team members is bought through, there will be only one person who does not cooperate with him, and his battle will be difficult to succeed!"

Lafayette said.

The elder of the Yinling clan fell into contemplation and pondered for a while, and said: "Is there any detailed information about the Muyun, show me!"

"of course can!"

Lafide nodded, a jade symbol appeared in his hand, and handed it to the elder of the Yinling tribe.

The angels have been prepared for a long time and collected Lu Ming's information very comprehensively.

The elders of the Yinling tribe took it and swept their consciousness, and their face changed.

"This is a monstrous demon. He controls two big killers. His strength is amazing. Moreover, he has second-class sky armor. This kind of person is extremely difficult to kill!"

The elder of the Yinling tribe said.

Lafide sneered in his heart, knowing that the elders of the Yinling tribe pushed back three times, but only for a higher price.

"His big killer and second-class warrior armor are easy to solve. We will provide a seal of the field of the banned soldiers, which can make his big killer and second-class warrior armor invalid. At that time, he will be left alone Lamb!"

Lafayette said.

"You actually are willing to take out even the seals in the field of forbidden soldiers. I really don't know how Muyun offended you, hey!"

The elders of the Yinling tribe laughed a few times, revealing a trace of wonder.

"Okay, if you can't connect, if you don't, we can only find someone else!"

Lafayette said.

"Come on, of course!"

A voice sounded, not the Yinling elders, but another person.

I don't know when, in the room, there has been a young man, a young Yinling person.

The pupils of Lafide and others contracted sharply, but they did not find out when this young Yinling clan came in.

"Dark Star, you are Dark Star, you have also come to Nantian City?"

Then, Lafide seemed to recognize the young Yin Clan and exclaimed.

This young man, called Dark Star, is a very famous pride.

Because this person is also a candidate for the universe's arrogance list. Although he is not young, his strength is extremely powerful and strange.

"let me see!"

Dark Star stretched out his hand, grabbed the jade symbol in the hands of the Yinling clan elders, and swept the spirit, showing an expression of interest on his face.

"A wicked demon, good, very good, I like killing devil most in my life, this task, I took it, leave the rune of the forbidden field!"

Dark Star Road.

"it is good!"

Rafid nodded, showing joy.

Dark Star shot, Lu Ming, only a dead end.

"But don't be careless, besides that Muyun, he has several companions beside him, and his strength is also very strong, one is the arrogance of the world's turtle turtle clan, and the other is the fairy princess Ling Yuwei..."

Lafayette also introduced Dan Dan and Ling Yuwei in detail.

"You can rest assured that we have our own way. They will go to the Qunxing Magic Island next, right. The 55th wall where I am located is not going to the Qunxing Magic Island. For this, you need your angel family to operate it!"

Dark Star Road.

"These are assured, we will arrange it, we have provided so many, I hope you can succeed at one time!"

Lafayette said.

In order to kill Lu Ming, they made a **** copy, and even took out the seals in the field of the banned soldiers.

However, Lu Ming has a big killer on his body and a second-class warrior armor, which is also impossible.

As soon as the two sides met, they discussed specific details, and Lafield left.

"Is it true? Hey, be my stepping stone, be my ghost killer!"

There was a sneer in Dark Star's mouth, and the look of expectation appeared in his eyes.

...

Lu Ming and them returned to Nantian City, where they rested for about seven days and received new orders.

This time, the goal is a three-level area, the magic island of the stars.

Star Magic Island is a tertiary area, naturally more dangerous than a secondary area.

Therefore, all the members of the No. 33 city wall were dispatched. In addition, other masters of several sections of the city wall were also dispatched, and the first-class Tianbing captain of each section of the city wall would also go to the battlefield in person.

Most of them who can become first-class soldiers are masters of Divine Emperor Realm.

Of course, there are some, there is no cultivation of Divine Emperor Realm, but the merit points have been accumulated, but this is, after all, only a few, and each one is a top evil.

Liu Daneng, a first-class soldier of the 33rd city wall, is a strong man in the divine realm.

The third-level area, but there are demons in the Demon Emperor Realm, so these Divine Emperors went to deal with these Demon Emperors.

As for the demons below the devil emperor, they must be handed over to Lu Ming.

Chapter 4044: Star Hunter

The Star Magic Island, a three-level area, is undoubtedly more dangerous. There are countless demons in it. There are more demons with more than seven layers of gods than the Eight Snake Mountains. I don't know how much more.

Moreover, the terrain of the magic island of the stars is also completely different from the Eight Snake Mountain Range.

This is a huge Hubo, boundless, in Hubo, there are many islands, like stars dotted in the universe, so it is known as the magic island of stars.

On this day, a large number of heavenly soldiers descended on the periphery of the magic island.

From a distance, I can't see the side at all. This piece of Hubo is too vast.

Lu Ming and them, among the group of Heavenly Soldiers, all the people from the No. 33 city wall came.

Not only the city wall No. 33, but also the city walls of other sections have also come.

"You must be careful when you enter the magic island of the stars, and you must form a battle array against the enemy. In addition, the demons in the third-level area are somewhat different from the second-level area. Some demons cannot be measured by Xiuwei. Some demons The combat power is very strong. For example, some demons seem to be the cultivation of Divine Emperor Jiuzhong, but the combat power is far more than the ordinary Divine Emperor Jiuzhong Demon!"

Liu Daneng warned seriously.

Everyone nodded and took Liu Daneng's words in their hearts.

"Let's go first!"

A burly big man said, this person is a captain of another section of the city wall, a first-class sky soldier, and a strong man in the Divine Emperor Realm.

"lets go!"

The other captains also nodded.

Uh, uh, uh!

The figure flashed, and the figures of these first-class soldiers had disappeared here, apparently heading deep into the magic island of the stars.

Divine Emperor, with the task of Divine Emperor, they need to destroy the Devil Emperor-level demons of the magic island of the stars.

"set off!"

"Kill in and hunt the blood of the demon spirit!"

As soon as the first-class soldiers left, the captains of each section of the city wall ordered one by one, with their respective teams, rushed towards the star island and disappeared into the vast star island.

Lu Ming took his team and rushed towards the magic island of the stars.

These people, who entered the magic island of stars, dispersed one after another, and each captain, with a team, flew in different directions.

The magic island of the stars is very vast, and these people are scattered, and they are not afraid of robbing other people's demons.

Uh...

Lu Ming they are very fast, and soon after, saw an island in front of them.

When there are islands, there are generally demons.

They rushed towards the island directly.

Bang Bang Bang...

They had not rushed to the island, the lake below exploded, and a large group of demons rushed out of the lake and killed Lu Ming.

"kill!"

"Kill all the people in the heavenly palace!"

Roaring like thunder, the spirit of Mosha rushed into the sky, and there were magic swords, magic swords, magic claws, magic lights, etc., and they rushed to the landing.

"Battlefield!"

Lu Ming shouted.

Fortunately, when they flew before, the team was not in chaos. They were arranged in the manner of battle formations. The battle formations were urged at this moment, only in an instant.

As Lu Ming shouted, the battle array was urged, and the golden glow shone out, turning into a golden light mask, which enveloped Lu Ming among them.

Boom!

A series of roars, these demon attacks, were blocked by the mask.

"A lot of powerful demons, there are no fewer than thirty demons of Divine Emperor Jiuzhong!"

Lu Ming moved.

As soon as the opponent shot, he probably sensed the demon's cultivation.

There are no fewer than thirty demons with nine emperors, hundreds of emperors with eight emperors, and hundreds of emperors with seven emperors.

It's really a three-level area. This is just an island outside the magic island of the stars. There are so many masters.

It is conceivable that the vast star magic island, how many demon masters have gathered, the devil of the nine emperors, it is difficult to count.

However, these demons are not their opponents at all. Needless to say, they have battle formations. Even if they are useless, Lu Ming can kill these demons by himself.

"kill!"

Lu Ming shouted, the golden light turned into a golden war sword and swept out.

puff...

The blood of the demon was scattered on the lake, and at once, hundreds of demons were cut off and killed.

"Kill, kill!..."

Lu Ming shouted, and the golden sword light killed him. These demons were not opponents at all. They were constantly beheaded, and their bodies fell like raindrops.

"The opponent is too strong, rewind!"

"go!"

The rest of the demons panicked and backed away frantically, trying to escape, but Lu Ming pursued them in a hurry and slayed. At least 70% of the demons were killed, and the remaining demons fled in all directions.

"Collect demon spirit blood, pay attention to the formation not to be chaotic!"

Lu Ming ordered.

In this place, it is necessary to maintain a battle front at all times, otherwise it is really dangerous.

On the premise of maintaining the battle front, they began to collect demonic spirit blood.

At this time, Lu Ming saw a large number of demons flying out of the island in front, but not toward them, but flying deep into the magic island of the stars.

Obviously, the demons just now were the ambushes of the magic island in front. Seeing that they were not Lu Ming's opponents, the demons on the island began to retreat.

Lu Ming did not pursue them, but continued to collect demonic spirit blood.

After a while, they collected the demon spirit blood and flew towards the island. When they came to the island, no demon was found. Obviously, all the demons retreated, leaving only an empty island. .

"We have been discovered by the devil, and next, be careful!"

Lu Ming urged, then, to move on.

Soon after, they saw another magic island. When they approached carefully, they found that the magic island was still empty, and the demon retreated.

"It seems that the demon retreated to the depths!"

Ling Yuwei said.

"Perhaps it was retreating to a larger island, meeting with other demons and dealing with us!"

Lu Ming added.

This is normal, and he thinks so.

Next, they went on, passing several islands in a row, and found no trace of demons.

Finally, after passing six islands in a row, the seventh island was discovered.

This island is very huge, and the area is probably larger than the previous six islands combined.

And this island, there are demons!

"The debris of the Tiangong is here!"

"Buwan Demon Slaughter God!"

On the island in front, there was a roar, and then, the devil qi rose into the sky, and a magic shadow appeared in the devil qi.

"A lot of demons!"

Someone in the Lu Ming team exclaimed.

"It seems that the demons on the previous six magic islands have retreated to this magic island!"

Another humane.

Lu Ming, Dan Dan, and Ling Yuwei looked at each other.

It is another great demon butcher!

The three murmured.

"Look closer!"

Lu Ming ordered.

Chapter 4045: Yinling clan appeared

Lu Ming and they approached the magic island, and found that there are many demons in the magic island, one by one, and the masters are like clouds.

I don't know how many powerful demons there are. These demons have laid out a large array of demons and gods, condensing several huge shadows, and standing on the four sides of the magic island.

"The man from the vast universe is here!"

"Kill them!"

"kill!"

As soon as Lu Ming approached them, the demon in the magic island found Lu Ming, roaring one by one, manipulating the Great Demon Massacre, and attacking them.

Uh!

A huge shadow, holding a magic knife, slammed down towards the landing, and the magic power was monstrous.

"Retreat!"

Lu Ming immediately ordered, they quickly backed away to avoid the blow.

The Void Shake, another powerful shadow, also killed them at Landing Ming, Lu Ming and they retreated, pulling away the distance, and the demons stopped chasing and returned to the magic island.

"Dan Dan, it's yours!"

Lu Ming said to Dan Dan.

"Tips!"

Once he smiled, his figure flashed in the void, and he began to form an array.

He has already broken through several times, and it is considered to be a familiar journey. It is very fast.

It didn't take long for Dandan's body to return.

"It's done!" Dan Dan smiled confidently.

"Brothers and sisters, kill the devil!"

Lu Ming said.

"Hahaha, kill the devil!"

"kill!"

Lu Ming's players shouted one by one.

They also know that the rune formation method of Dandan is very strong, and the last time they broke the demon's ten thousand demons. So this time, they are very confident.

They formed a battle array, and rushed to the magic island again. On the magic island, the ten thousand demons slaughtered a large array, and immediately launched a few huge magic shadows, and they killed them to the landing.

"Get up!"

At this time, when the shots were shot, the sky was full of runes, forming a war, endless runes, covered with voids, so that the demon's Ten Thousand Devils were stunned, and there were flaws.

According to Dandan's instructions, Lu Ming launched their attack. The golden sword light chopped towards a huge shadow, and there was a violent roar. This shadow directly broke apart.

Inside, there are a lot of demons that fell directly.

Lu Ming kept moving, and continued to urge the large array to kill the second giant shadow.

The second huge magic shadow, also can not escape the fate of being defeated.

bump! bump! ...

There were several explosions in a row, and the remaining giant monsters were exploded one after another.

Ten thousand demons slay the gods, they are broken!

Without the Great Demon Massacre, these demons were not Lu Ming's opponents at all. They were killed by Lu Ming who cut melons and vegetables, and their bodies fell into the lake like raindrops.

As Lu Ming hunted the demon, secretly, there were a few cold eyes staring at them.

One of them is the peerless evil spirit of the Yinling tribe, Dark Star.

Several others are also masters of the Yinling tribe.

"They can actually break the Demon's Ten Thousand Demons!"

One of the Yinling tribes made a shocking sound, but it was not transmitted by sound.

"It is the world turtle, that should be the rare demon among the world turtles, the attainment of the rune formation method, it is so strong, interesting and interesting, remember, do it later, this world turtle must be kept, can be for us Used!"

"Also, the princess Ling Yuwei of the elven tribe, with good strength, don't kill it. I want to keep it and be my plaything!"

Dark Star opened his mouth with a glowing glow in his eyes.

Dandan and Ling Yuwei, he did not want to kill.

Ling Yuwei naturally needless to say, his strength and appearance make him very excited.

And the attainments of Dandan's rune formations also moved him.

If they can bring Dandan to their side, then hunting down demons in this dark universe is at least ten times faster.

With Dandan, there is no need to be afraid of the Devil's Ten Thousand Demons, or other big formations. In this way, is it not an advantage?

Hunting the devil means merit points, merit points means treasures and strength.

"Unexpectedly, this trip came to kill Muyun, there was such a discovery, not bad!"

Dark Star was very satisfied.

However, now he has no plans to start.

Now, even if they can kill Lu Ming, they themselves will become the target of the devil.

They have to wait until there is no demon.

"Kill it, the more demons you kill, the better, anyway, these loot will be mine sooner or later!"

Dark Star sneered.

Hunting, and then continue, soon, the demon on this island, they were killed by Lu Ming for most of them, and the rest were scattered and fled in all directions.

Then, Lu Ming and they began to collect demonic spirit blood.

While collecting demonic spirit blood, they always maintained their formation and were alert to the demon attack.

However, the demons here have escaped, until they have collected the demon spirit blood, and no demon attacked.

at this time...

"Who?"

Lu Ming suddenly drank coldly, staring in one direction, his eyes shining brightly, flashing murderously.

The other members of Lu Ming looked curiously in that direction, because nothing was found in that direction. What did Lu Ming find?

"Don't come out again, don't blame me!"

Lu Ming was cold again.

It was not what Lu Ming discovered, but the bone demon had discovered.

Just now, the bone demon told Lu Ming that in that direction, there should be creatures lurking.

Lu Ming didn't find it himself, but he naturally had no doubts about the bone demon, and immediately spoke out.

Waves appeared in that place, and then three figures suddenly appeared.

"Unexpectedly, your spiritual sense is so sharp that it is really amazing to be able to discover our existence!"

A young man spoke coldly.

These three people are naturally masters of the three Yinlings such as Dark Star, and it is Dark Star who spoke.

At the moment, Dark Star's eyes were a little surprised.

Their hidden technique is hardly comparable to any race in the entire wilderness universe. According to common sense, Lu Ming and others should not find them.

However, the fact is that Lu Ming found them.

"Curious and hidden technique!"

Lu Ming's pupil shrank slightly, and he was also shocked.

Because he didn't find out at all, if there was no bone demon, he didn't know that behind him, there was a strong man hiding, which is a very dangerous sign.

"You are the people of the Yinling tribe!"

At this moment, Ling Yuwei spoke, her eyes full of fear.

"Yinling Race!"

Lu Ming's eyes narrowed slightly.

The Yinling tribe, a notorious race in the universe, he naturally heard of.

"They are not a team action, but a few people. This situation appears on the Yinling tribe. There is only one explanation, that is, they want to assassinate someone!"

"Their goal is probably us!"

Dandan also spoke.

Chapter 4046: Traitor damn

"Oh, you guessed it right, our goal is you!"

Dark Star smiled and admitted directly, looking very confident.

"We are all Heavenly Soldiers, you Yinlings want to assassinate us, this is against the rules of heaven!"

Ling Yuwei cried.

"As long as you are all dead, who knows how you died? It is so normal to die in the hands of demons!"

Dark Star sneered.

Then, in his hand, a sword appeared.

This sword is very strange, it seems to have no color, it seems to be transparent.

A transparent sword, but, there was a terrifying breath.

This is a big killer!

A great killer!

"kill!"

Dark Star drank coldly and stabbed out with a sword.

At this moment, the whole world seemed to be quiet, and even the surging lake became calm.

Between heaven and earth, there was only a terrible invisible sword shadow that drove towards the landing.

"Battlefield!"

Lu Ming shouted, wanting to urge the battle array against Dark Star.

However, while running the battle array, Lu Ming found that the battle array was not running smoothly, the golden sword light, just about to condense, but broke apart.

"not good!"

Lu Ming, Dan Dan and others changed their faces.

Actually, at this time, there was a problem with the battle front.

At this time, Lu Ming wanted to come up with gale beads and Bingxuan stick to resist, it was too late.

It's too late!

At a critical moment, Lu Ming can only urge the body armor.

bump!

The armor of the sky soldier glows, and a mask hangs out. Just as the mask emerges, the sword light has been cut above the mask.

With a touch, the mask shook, and successfully blocked the sword light.

The second-class sky armor, but can block the full blow of a powerful player in Divine Emperor Realm. Although the power of Dark Star is extremely strong, it has not yet reached the attack power of Divine Emperor Realm.

After blocking this sword, Gale Bead and Bingxuan Cudgel appeared at the same time in Lu Ming's hands, and Ling Yuwei's **** Elven King's bow also appeared.

"You traitor!"

At this time, roared.

Lu Ming's eyes also swept away.

A figure was leaving Lu Ming's team and rushed towards the dark star.

traitor!

Needless to say, everyone understood that traitors appeared in them.

Therefore, if the battle front is not running smoothly, it will not be successful.

This battle array in the Tiangong Palace is complementary and requires 50 people to work together to spur success. As long as one person does not cooperate or lacks one person, the battle array will be difficult to operate successfully.

This is also the weakness of this battle array. Once urged, the power is very strong, but once some of them fall, the battle array cannot be urged.

They are interlocked, and no one is missing.

This is why Liu Daneng told him to stay away from each other, so he must maintain his formation.

It was a young man who looked honest before, always looking forward to Lu Mingma, but did not expect to betray him directly at a critical moment.

Soon, the young man came to Dark Star and was relieved.

During this time, he knew the terrible situation of Lu Ming and others, but came to Dark Star and they finally felt relieved.

"well done!"

Dark Star smiled at the young man.

"Thank you Dark Stars for compliments, this is what I should do!"

The young man nodded and bowed his waist, a flattering look.

"Ok!"

Dark Star nodded. Suddenly, the sword light in his hand burst out and pierced the young man.

This young man didn't expect that Dark Star would suddenly shoot at him, completely unable to avoid it. With a puff, his eyebrows were penetrated by Jianguang, and his soul was annihilated in an instant.

"you you..."

The young man's instinctively wide eyes stared at the dark star inconceivably.

Apparently, Dark Star would suddenly shoot him to kill him.

"I have always believed that only the dead person is the most insured. As long as you die, his battlefield will definitely be broken. Also, if you die, the news will not really leak out, so go for it! "

Dark Star said coldly.

With a thump, the young man's body fell into the lake.

From beginning to end, Lu Ming's eyes were very cold.

He will not have the slightest sympathy for the killing of a traitor.

"I want to know, who sent you to kill me?"

Lu Ming asked.

"This, you don't need to know!"

Dark Star Road.

"If you don't say it, I can guess that it's nothing more than an angel family, isn't it?"

Lu Ming said, staring at the dark star momentarily.

Dark Star's eyes flashed undetectably, and Lu Ming knew that he was right.

His team member was obviously bought by the Angels.

"Even if you guess what it is, your result today is doomed!"

A Xing said coldly, the killing was getting stronger.

The other two masters of the Yinling clan also exhaled cold killing opportunities.

"You think you can kill me?"

Lu Ming said coldly.

He has seen that the cultivation of this dark star is the fourfold of Divine Emperor.

The other two masters of the Yinling clan are the cultivation of Shenhua Liuzhong.

Such cultivation, even if it is a peerless evil, Lu Ming is not afraid.

"Three people also wanted to kill us, really looking for death!"

Dandan also roared, his eyes very bad.

"is it?"

Dark Star sneered, a sign appeared in his hand.

bump!

Dark Star shattered the symbol in his hand directly, and then an invisible wave spread out, and in an instant, a range of 100,000 miles was enveloped by this invisible wave.

"This is... a seal of the banned field!"

Ling Yuwei's complexion exclaimed.

"Actually, it is a symbol of the banned field!"

Lu Ming's face also changed, and immediately galvanized the gale, but found that the connection between him and the gale was as if it had been cut off, and he couldn't pull the gale inside the gale.

Then, he tried to control the Ice Xuan Cudgel again, but the Ice Xuan Cudgel did not move, and seemed to be blocked by some force.

Not only that, the second-class sky armor of his body actually began to shrink, and disappeared into his body.

Under the banned field, no magic soldiers can control.

"My armor!"

"My Divine Soldier is no longer usable!"

Others also exclaimed, their faces ugly.

Similarly, Ling Yuwei's **** elven king bow cannot be used.

"Muyun, your reliance is nothing more than a second-class sky armor and two big killers. Now, under the banned field, it can't be used anymore. What else can you rely on?"

Dark Star sneered, and the transparent killer in his hand disappeared.

"Under the field of the banned soldiers, our magic soldiers can no longer be used, but your magic soldiers can also not be used. Can you kill me with such confidence?"

Lu Ming said.

Yes, in the field of forbidden soldiers, but there is no distinction between the enemy and the enemy. As long as it is within the scope of the field of forbidden soldiers, no matter which side will be affected, the Divine Soldier cannot be used.

Chapter 4047: Ghost assassin

"Without the big killer, I will kill you more than enough!"

Dark Star said faintly, showing strong self-confidence. He held the palm of his hand empty, and his divine power condensed a long sword. The sharp sword screamed out, cutting the space.

"Other people, I'll leave it to you, Muyun, I will come to kill myself!"

Dark Star commanded the other two masters of the Yinling clan. As soon as the voice fell, his figure disappeared from the place. The next moment, he appeared not far from Lu Ming, and a sword pierced Lu Ming's brow.

"You don't need a big killer, it's you who died!"

Lu Ming drank coldly, his figure also flickered, disappeared from the place, appeared on the right side of the dark star, his palm was like a knife, and he cut it with one palm.

However, Dark Star's rapid move, Jianguang spurted to the right, and collided with Lu Ming's palm. With a bang, the energy was overflowing, and the two bodies retreated at the same time.

"Good strength!"

Lu Ming's eyes narrowed slightly.

The strength of this dark star is really strong. Lu Ming estimates that in the Divine Emperor Realm, it should have the strength to cross four levels of war.

No wonder this person is so self-confident, without self-confidence, self-confidence can kill Lu Ming.

After all, his cultivation behavior is one heavier than Lu Ming.

"Your strength..."

But I do not know, Dark Star is more shocked.

His strength is one heavier than that of Lu Ming. The trick just now, even with Lu Ming had a tie, does it mean that Lu Ming can cross five levels of war?

How could it be so strong?

"Interesting, really interesting, I haven't killed this kind of evildoer, Muyun, you, I will kill it!"

At the next moment, in the eyes of Dark Star, there was a frantic color, and a roar: "Yin Ling Assassin, come out!"

Buzz!

Dark Star's body exudes a strong wave, a black light door flashes, and then, from the light, some figures flash out.

There are seven figures in total!

However, these seven figures are not the same race. They seem to come from seven different races. They all look very young and lifelike. One of them is actually an elven race.

"Ling Hai, Ling Hai was killed by you!"

Ling Yu Wei Jiao drank, and there was an angry look in her figure.

Ling Hai, originally a top demon of the elven clan, can fight across three levels in Divine Emperor Realm. This kind of person has an unlimited future.

However, hundreds of years ago, when Ling Hai went out to practice, he lost track of it.

It now appears that Ling Hai is dead in the hands of Dark Star.

"Hahaha, yes, Ling Hai did indeed die in my hands and became a mysterious assassin. A few of you are also eligible to be my yin assassin, especially you, Muyun, as my yin assassin. , It is your pleasure to fight for me!"

Dark Star laughed wildly, and at the same time, the seven figures rushed to Lu Ming and killed to the landing.

He cultivates the Yin Assassin, which requires a very strong evil spirit, because the Yin Assassin can grow with him. The higher the talent of the Yin Assassin, the faster the growth, the stronger the strength.

Lu Ming, it is really suitable!

Lu Ming's eyes showed a disgusted look.

He has seen that Dark Star's cultivation methods are really cruel and disgusting.

"War word strategy, six times the fighting power!"

At this moment, Lu Ming mobilized the warfare formula six times the fighting power, exuding a hazy radiance all over his body, urging all the secret techniques in the cell.

With a wave of hands, seven magic swords were formed, and they were killed towards seven ghost assassins.

At the same time, Lu Ming himself killed Dark Star.

At this moment, Lu Ming urged the fighting to the extreme.

"Come on, Yinxie Eighteen Kills!"

The dark star Changxiao also exploded into full force, killing Lu Ming, and the sword shadow was vertical and horizontal, and the void was cut with scary sword marks.

Boom!

Dangdang!

The two continued to collide and fought a fierce battle. For a time, there was no difference.

Dark Star, indeed, is ego-qualified. At this moment he exploded with all his strength, and his combat power actually improved to a higher level.

Lu Ming estimates that even if Dark Star does not have the strength to fight across five levels, it also has the strength to cross about four and a half.

Lu Ming, with all his strength, can fight about five and a half levels.

And Lu Ming's cultivation practice was just one weight lower than the other party, so the two of them had a tie for a time.

When the two met, the other two masters of the Yinling clan also killed Ling Yuwei and Dan Dan.

"kill!"

Ling Yu Wei Jiao drank, a towering tree appeared behind her, and a war bow appeared in her hand. This was not a magic weapon, but his original secret technique.

call out!

An arrow broke through the sky and shot at one of the masters of the Yinling clan.

when!

The arrows and the master sword of the Yinling clan collided together. The master of the Yinling clan, the sword in his hand shook endlessly, and the forward figure was also stopped.

"Ok?"

The master of this Yinling clan showed shock in his eyes.

His attack was actually blocked by Ling Yuwei.

You know, he has the six emperors of the Divine Emperor, and he is a top demon. He can fight across two and a half levels, and kill the Emperor Eightfold. It's easy.

And Ling Yuwei, only the fourfold cultivation of the Divine Emperor, could actually block his attack?

Can Ling Yuwei fight across four and a half levels?

This is terrifying. Isn't this level of demon similar to Dark Star?

There aren't many demons of this level in the entire wilderness universe?

However, this master of the Yinling clan was blocked, but another master of the Yinling clan was unstoppable.

He killed the past, the long sword turned into a sword shadow, and a stab came out, and five people were pierced by the sword gas and fell on the spot.

"Run away!"

The others shouted in horror, turned around and ran.

Without the battle front, Lu Ming's team members are simply not opponents of the killers like the Yinling race.

Only once and for all, relying on the formation, only blocked this person's attack.

"If you want to go, you must die!"

This master of the Yinling clan, who shot continuously, the sword light shined, and each sword was assassinated, and more than one person was killed.

In a moment, more than a dozen people died in his hands.

"Forgive me, I am willing to surrender to you!"

"Forgive me, I am willing to cooperate with you to kill Muyun!"

Some people begged for mercy directly and betrayed Lu Ming on the spot.

These people have no deep friendship with Lu Ming. Under Lu Ming's men, on the one hand, it is the arrangement of Tiangong, and on the one hand, it is only for the purpose of gaining merit. Now, facing the crisis of life and death, naturally, Lu Ming directly betrayed.

"Damn traitor!"

Dang Dan screamed, all around his body were runes, forming a large formation, blocking the attack of the Yinling clan masters, and at the same time, the runes continued to diffuse into the void and disappear into the void.

"All die to me!"

The masters of the Yinling tribe did not intend to let them go at all, because the news that they killed Lu Ming and others could not be exposed.

Chapter 4048: Found a flaw

The people of the Yinling tribe had no intention of letting Lu Ming and their team from the beginning, because only the dead would not leak the news.

For the sake of insurance, it is most appropriate to remove them all.

call out! call out! ...

A sword shadow, tearing the void, each sword shadow exudes terrifying power. In Lu Ming's team, except Lu Ming, Ling Yuwei and Dan Dan, the others, there is nothing that can stop a trick.

Every sword sword cut, one person fell.

"Run away!"

Some of the remaining people fled in fright in all directions.

However, the master of the Yinling clan was surprisingly fast. He could hardly see anyone, only saw Jianguang blinking in the air.

Every time it flashes, one person is killed.

At this time, Dandan quickly approached Ling Yuwei, and at the same time, he had runes running out of him all the time, rushing into the void and disappearing.

Ling Yuwei, continue to confront the Yin Ling clan master, Ling Yu Wei has shot ten arrows, all blocked by the Yin Ling clan master, but the Yin Ling clan master can't help Ling Yuwei, can't get close to Ling Yuwei's side, two People form a stalemate.

"I'll help you!"

Dandan shouted, waved his hand, the endless runes permeated, and turned into chains, lingering towards the Yinling clan master, but the Yinling clan master was very flexible. The chains that came out avoided them one after another.

At this time, all the others in Lu Ming's team had been beheaded, and the body fell to the lake.

After beheading these people, the master of the Yinling clan returned and joined forces with another master of the Yinling clan to kill Ling Yuwei and Dandan together.

"Great array, get up!"

Dangdan points out continuously, and dense runes appear in the void.

This was the formation he had set before.

Arrange the formation, the more time it takes, the stronger the formation is. This formation is obviously stronger than the formation of the formation.

Roar roar!

Endless runes, intertwined into a large array, condensed a huge golden crocodile, rushed to two masters of the Yin Clan, the attack of the two masters of the Yin Clan, was suddenly blocked by the golden crocodile.

And Ling Yuwei will shoot an arrow from time to time, each arrow is very powerful, and can threaten the lives of two Yin Ling clan masters, two Yin Ling clan masters, had to concentrate on coping.

In this way, Dandan and Ling Yuwei formed a stalemate with two masters of the Yinling clan.

On the other side, Lu Ming and Dark Star also formed a stalemate. The two have already fought dozens of moves, and neither of them has won.

"Damn!"

Watching his own team members killed one by one, although they did not have any friendship, and even some people have targeted him before, but Lu Ming's killing power was extremely strong, and his eyes were also extremely cold.

Dark Star and others, he will kill.

In fact, Dark Star and others also shouted in their hearts, a little anxious.

Obviously, the strength of Lu Ming and others is completely beyond their expectations.

He didn't expect to break Lu Ming's formation and block Lu Ming's killer in the field of forbidden soldiers. Lu Ming and others were so powerful by their own strength.

Lu Ming's strength is far beyond his expectations.

Dandan and Ling Yuwei's strength is the same.

Originally he was quite sure, but did not expect a stalemate now.

"Kill, kill, today, we must kill these people..."

Dark Star roared in his heart, desperately attacked.

However, Lu Ming's power is amazing. The three ancient secret techniques, pinched in his hand, are extremely mysterious, completely blocking his attack.

For a time, it was difficult for the two to differentiate.

"Lu Ming, can you hold that guy for a while?"

At this moment, Dan Ming secretly sent a voice to Lu Ming.

Lu Ming's eyes moved slightly and said, "Are you trying to set up?"

"Yes, as long as you give me a while, I will be able to place a powerful formation, enough to get us out!"

Dandan answered with a voice.

"No, I want you to set up a formation blocked by enemies. I want to keep these people here!"

Lu Ming replied, his voice was very cold.

"You... are sure to deal with that guy? That guy is very tricky!"

After all, that guy naturally refers to Dark Star.

"I have found this guy's flaw!"

Lu Ming said.

"Okay, do him cool, rest assured, I will lay a large array of trapped enemies!"

Dandan replied, showing excitement.

While speaking, the skin pores, even the mouth and hair of his body were all filled with runes, and they had begun to spread out.

This guy, like the incarnation of the rune, set up a speed far beyond ordinary people.

"kill!"

Lu Ming shouted, attacked continuously, and struggled with Dark Star.

And Ling Yuwei and Dandan are obviously also negotiating. They are defensive and look like they can't hold on.

In this way, the people of the Yinling tribe see hope.

"You two, quickly solve the turtle and the fairy princess, now, I don't want to live, just kill them, solve them, and help me kill Muyun!"

Dark Star transmits sounds to the masters of the two Yinlings.

He really couldn't help it. Lu Ming's combat power far exceeded his expectations. He found that he really couldn't deal with Lu Ming by himself. He only had to wait for the other two masters of the Yin Clan to solve Ling Yuwei and Dan Dan. Help him solve Lu Ming together.

"rest assured!"

Two masters of the Yinling clan answered, using the power of the whole body to attack desperately.

However, what made them depressed was that they felt Dan Dan and Ling Yuwei before, and they couldn't hold on anymore. A shaky look. After they desperately attacked for a while, Dan Dan and Ling Yuwei were still shaky, but just The appearance of not falling.

Time, bit by bit.

In an instant, Lu Ming and Dark Star confronted hundreds of moves.

Hundreds of tricks between the two great evils, the direct killing is dark and dark, and the sun and moon are dark.

"Damn it!"

Dark Star roared.

"Damn you, now, solve you!"

At the moment, Lu Ming spoke coldly, because just now, Dan Dan had given him a voice, and his formation had been set.

"Hum, Muyun, I admit that you are very strong, not weaker than me, but want to kill, dream!"

Dark Star sneered.

He admitted that he could not kill Lu Ming, but it was impossible for Lu Ming to kill him. At this point, he was very confident.

"is it!"

Lu Ming sneered in the corner of his mouth, and then rushed towards the dark star assassin.

Before, Dark Star's seven ghost assassins have been working with Dark Star to siege Lu Ming, and Lu Ming was blocked by various means.

At this moment, Lu Ming rushed to the ghost assassin, but the portal opened wide.

"It's really my own death!"

Dark Star's eyes lit up, and Lu Ming's move, in his view, was a faint move, and he was looking for his own way.

Chapter 4049: Exterminate Yin Assassin

Lu Ming actually rushed to a ghost assassin, revealing flaws, and simply looking for his own way.

The star-shaped light appeared in the dark star's eyes and shouted: "Dead!"

puff!

In the hands of this ghost assassin, there is a black short knife. The short knife cuts through the void and pierces Lu Ming's Dantian directly.

puff!

The short knife stabbed Lu Ming's Dantian accurately, and directly thrust Lu Ming's Dantian into a translucent hole.

"Hahaha, see how you die!"

Dark Star laughed wildly.

"is it?"

At the moment, Lu Ming spoke coldly, and his face was still calm, as if the man who had pierced Dantian with a short knife hole was not him.

The smile on Dark Star's face disappeared, revealing a shocked expression.

"you..."

Dark Star was about to speak, Lu Ming shot, punched out, and hit the Yin Assassin.

With a bang, the body of this ghost assassin exploded directly and turned into powder under the influence of the Great Fragmentation and Great Kamikaze.

A ghost assassin was resolved.

"Damn, why are you okay? Why is your Dantian okay?"

The dark star shouted hysterically.

The ghost assassin just now clearly penetrated Lu Ming's Dantian. You must know that Dantian's place is the key point. The "star" condensed by the God Realm is located in Dantian's place.

The move just now, in his view, can directly crush Lu Ming's Dan Tian's "star", completely abolishing Lu Ming.

But Lu Ming didn't have anything at all. One stroke defeated one of his ghost assassins, making him a little bit unable to turn his head around, completely unable to figure it out.

He naturally couldn't figure it out. Forbidden body, there is no 'star' at the Dantian area, and nowhere in the whole body is the point, even the head is not the point.

Therefore, he penetrated Lu Ming's Dantian and had no effect on Lu Ming at all.

"Nothing is impossible, kill!"

Lu Ming drank coldly, the Great Divine Wind technique was running, and his figure was like the wind, killing Dark Star himself.

"Tiankui kills the sword!"

Dark Star screamed loudly, stabbed a stunning sword, and stabbed Lu Ming.

boom!

Dark Star's long sword collided with Lu Ming's palm and burst into a violent roar, but this time, Dark Star's body shook wildly, receding again and again, his face pale.

This time, he actually fell.

Before you know, he and Lu Ming confront each other, it is difficult to divide.

"Sure enough, this guy's strength is related to the Yin Assassin, he can get the strength bonus of the Yin Assassin!"

There was a sneer on Lu Ming's mouth.

In fact, when fighting dozens of tricks, he had already seen some pettyness and had speculations in his heart.

With his taboo power, at that time, he could use the "both defeats" method to first solve the dark star's ghost assassin, but then at that time he once sent a voice to him, he simply dragged the other party, and fight with the other party until now. .

Now that the formation of Dandan is successful, Lu Ming is naturally not entangled with the other party.

咻咻咻...

Six other ghost assassins attacked Landing from all directions.

Lu Ming waved his palm like a knife, and he made six consecutive moves, one for each of the six Yin Assassins.

There were originally seven ghost assassins, but now there is one less, and the combat power is naturally weaker. After fighting with Lu Ming, they have stepped back a few steps.

Uh!

Lu Ming rushed directly to a ghost assassin, attacking with all his strength, completely disregarding the attack of this ghost assassin.

puff!

The attack of this ghost assassin penetrated the heart.

However, Lu Ming seemed to be okay, and the offensive kept bombarding the ghost assassin. With a bang, the ghost assassin stepped into the footsteps of the previous ghost assassin and was broken by Lu Mingbang. , Turned into powder, completely destroyed.

"You...you...how is it possible?"

Dark Star shouted.

"kill!"

Lu Ming was too lazy to ignore him, the offensive was like a storm, and he attacked other Yin Assassins.

There was one more ghost assassin, not even Lu Ming's opponent. He was slammed backwards. Lu Ming stared at a ghost assassin and killed him. The portal was still wide open, and he did not look defensive.

"I don't believe it, kill, kill, kill!"

Dark Star roared, and the Yin Assassin under his control madly attacked Landing Ming. This time, the Yin Assassin attacked Lu Ming's head.

puff!

A long sword pierced through Lu Ming's eyebrows and penetrated Lu Ming's head.

"This time, I think how do you die?"

Dark Star shouted.

No matter who it is, the head is definitely the key, the place where the soul is stored. The head is seriously injured, and it will be seriously injured if it is not dead.

But at the next moment, Dark Star's pupils suddenly expanded, revealing a frightened and incredible expression.

Because Lu Ming didn't do anything at all. He punched out and knocked out the third Yin Assassin.

The wound on Lu Ming's eyebrows was recovering at a rate visible to the naked eye.

"Monster, you monster..."

The dark star shouted hysterically.

Dan Tian, the heart, the head, and three key points were penetrated, but Lu Ming was all right. This is not a monster?

"Send you on the road!"

Lu Ming spoke indifferently, his body of taboo power boiled, and a large number of common mysteries exploded into a gorgeous glow, blending with the power of taboo, and blasted towards the dark star and the four remaining ghost assassins.

Dark Star quickly hurried to resist.

However, without the blessings of three ghost assassins, Dark Star is no longer Lu Ming's opponent, and the combat power is already a bit worse than Lu Ming.

He and four ghost assassins were retreated by Lu Mingbang.

puff!

Dark Star spit out a mouthful of blood, and the four Yin Assassins, although not able to spit blood, showed different degrees of damage to their bodies.

Lu Ming would never give him a chance to breathe. His body was like a gust of wind. He killed Dark Star and shot continuously. The offensive was like a storm, rolling towards the dark star.

Dark Star continuously resisted, but couldn't stop it at all. After a few strokes, his face was pale, and he spit out several consecutive blood.

He can only control Yin Ling to resist Lu Ming's offensive at this moment. After a few moves, Lu Ming solves a Yin Ling assassin again.

Only three ghost assassins remain.

Dark Star's heart is bleeding!

These ghost assassins, but he got it after exhausting endless efforts, each of them is a superb demon, and it is not easy to put together seven superb demon, but now for a while, Lu Ming killed four .

With four missing ghost assassins, his combat power will drop by a large amount. One battle at the same level, I am afraid that it will not be the opponent of other cosmic Tianjiao candidates.

"Dark Stars!"

"Damn!"

The other two masters of the Yinling tribe want to rescue Dark Star, but how can Dandan and Ling Yuwei make them succeed?

Dandan continuously inspired several large arrays, one large array, condensed countless sword lights, one large array, condensed countless golden crocodiles, one large array, condensed countless chains...

Chapter 4050: Cocoon

Once in a row, he inspires several large formations, either attacking or trapping the enemy, and entangles the masters of the two Yinling clan.

At the same time, Ling Yuwei is the most threatened. From time to time, he shoots an arrow to pick out the flaws of two Yinling clan. The masters of the two Yinling clan must deal with twelve points of spirit. Otherwise, if they are not careful, they will be punished. Arrow through.

They wanted to rescue Dark Star, and for a time, they were helpless.

In the war situation, unconsciously, they leaned towards the landing Ming side.

"Dark Star, this place is your burial place today, and I will take your head to honor my team members!"

Lu Ming spoke indifferently, like a mad tyrannosaurus, killed towards the dark star, where the body passed, the void was torn, and a fierce rift was cut...

"Muyun, want to kill me and dream. Today I admit that I failed, but, next time, I will not let this happen, you are destined to die in my hands, I will make you my strongest Ghost Assassin..."

Dark Star roared and then retreated, and he wanted to leave.

He will not be able to cope with Lu Ming anymore, but will take himself in instead.

"Want to go, is it possible?"

Lu Ming sneered and cast the Great Divine Wind to the extreme, like a gust of wind, chasing and killing the Dark Star.

Dark Star has been injured, slower than Lu Ming, and Lu Ming is caught up in a blink of an eye.

Boom...

Lu Ming shot with all his strength, all kinds of means burst out, Great Kamikaze, Great Fragmentation, Great Demon Sword...

Various attacks turned into an attack frenzy, crushing towards the dark star.

"Stop me!"

Dark Star's eyes showed a fierce color, directly controlling a ghost assassin, rushing to Lu Ming.

No matter how precious the assassin is, it is also something outside the body. Where can it be compared with his life, as long as his life is still there, there will always be...

He wants to use a ghost assassin to block Lu Ming's attack and help himself get out.

As long as he can escape the range of the banned soldiers, his big weapon can be used. At the same time, he is also a second-class sky soldier, and his second-class sky armor can also be used.

With these two magic soldiers, Lu Ming could never kill him.

As long as he gets away, he must be crazy to retaliate, let Lu Ming know to offend him.

Yes, he had to kill Lu Ming first, but Lu Ming couldn't be killed. In his heart, it became Lu Ming that offended him...

bump!

Another ghost assassin was hit by Lu Ming.

In this way, there are two ghost assassins around Dark Star.

Another ghost assassin rushed towards Landing Ming and attacked Landing Ming.

Dark Star is accurate, as long as this ghost assassin blocks it, he will have enough time to break out of the field of the banned soldiers.

He counted well. Under Lu Ming's full attack, this ghost assassin was also exploded by Lu Ming, but it did stop Lu Ming for a while.

"Lu Ming, wait for my crazy revenge, I will make you regret, let you die in regret..."

At first sight, it was about to rush out of the field of the banned soldiers. Dark Star breathed a little sigh of relief, and then looked at the landing roar with a terrible face, and the killing was extremely cold.

"Really? You are so confident that you can break out of the forbidden field?"

Lu Ming sneered, chasing toward the dark star without hurry.

Buzz!

At this time, between heaven and earth, the whole void was suddenly filled with endless runes. These runes were intertwined and enveloped the entire field of banned soldiers.

These runes are intertwined into a golden wall, covering all directions, like a cage.

A large array of enemies, a thousand walls of gods!

Just now, the secretly arranged formation is this big formation!

Dark Star's face changed.

"Break me!"

With a loud roar, Dark Star shot out with all his strength, and a sword light cut on the golden wall.

Keng!

Mars was shining, and the wall shook, but it was not broken, blocking the dark star's attack.

This time, Dark Star's complexion not only changed, but changed tragically, turned pale.

"Ah, break it for me!"

The dark star shouted hysterically, attacking wildly, but it was still blocked, not broken.

Dandan spent a lot of time laying a large array, enough to block the attack of the Divine Emperor Nine Heavy Power, and the Dark Star's attack power did not reach the Divine Emperor Nine Heavy Power, which was still a little worse.

At this time, Lu Ming had already been killed.

"I said, this is your burial place!"

Lu Ming spoke indifferently, but the offensive continued, and he continued to attack.

Dark Star and the last elf resisted at this moment.

However, only the last ghost assassin was left, and Dark Star's strength had dropped dramatically.

Originally, he was able to fight across four and a half levels in Divine Emperor Realm, but now, he can only cross about three and a half.

Divine Emperor Realm, a realm, that is a world apart.

boom! boom!

Two violent roars, the last Yinling moment, the body exploded and turned to ashes.

For Dark Star himself, half of his body was also exploded, flesh and blood flew and was hit hard.

boom!

Lu Ming's strong breath enveloped him, and the cold killing made the dark star tremble.

"Want to make me regret, make me regret? I think you have no chance!"

Lu Ming said coldly.

"you you..."

Dark Star felt covered in cold chill, at this moment, he realized what is fear?

remorse?

At this moment, he is truly regretful.

He hated why the banned field was used. The banned field was originally the big killer he used to rank Lu Ming, but now, it has become the biggest obstacle restricting his life.

He used the forbidden field and became a cocoon.

"Muyun, you can't kill me. You are the same soldiers. You killed me. You violated the rule of heaven. You will be killed by the master of the palace..."

Dark Star shouted.

"Violation of Tiantiao? You killed so many people and told me that you violated Tiantiao? Was it ridiculous?"

Lu Ming sneered, and after that, Lu Ming started directly.

"no, you can not..."

Dark Star roared wildly and wanted to fight back.

It is a pity that now all the ghost assassins have been solved by Lu Ming. His combat power is already a lot worse than Lu Ming. In addition to being hit hard, where can he fight back?

Lu Ming's attack rolled down, and Dark Star's body exploded directly, destroying all forms.

Regret, regret...

Until the last moment of being killed by Lu Ming, Dark Star was still full of regret and regret...

Originally thought that killing Lu Ming was a matter of doing everything. After killing Lu Ming, Lu Ming could be refined into his ghost assassin.

With Lu Ming's talent, once he becomes his ghost assassin, his combat power will skyrocket. He will be invincible and set foot on the top of the universe in a battle of the same level.

He never imagined that in the end he not only failed to kill Lu Ming, but left himself behind.

Knowing this earlier, he would never take this task.
