

D Emperor 4051

Chapter 4051: Three action

Dark Star, the celestial arrogance of the Yinling tribe, and one of the candidates of the universe arrogance list, died in Lu Ming's hands with incomparable remorse.

When the Dark Star died, the remaining two masters of the Yin Clan were terrified and frightened. The two of them were desperately desperate. With their divine power, they burned and rushed outwards crazy, trying to escape.

Dark Star was killed, Lu Ming freed his hands to deal with them, they were in danger.

"Want to leave, stay!"

Dang Dan shouted, constantly shot to supplement the power of the formation, with the addition of Ling Yuwei's attack, for a time, two masters of the Yin Clan could not rush out.

"Dan Dan, let them go..."

At this time, Lu Ming sent a voice to Dandan.

Dandan was a little surprised at first, but then his eyes turned around, and he understood what Lu Ming said with a voice: "Your boy, understand, hehe..."

Later, Dandan deliberately manipulated the large array, leaving the large array with a trace of flaws.

The masters of the two Yinling tribes discovered the flaws, and were immediately overjoyed, attacking with all their strength.

Uh...

The two turned into two sword lights and flew towards the distance quickly.

But all around, there are golden walls under the cloth.

"ripped!"

The masters of the two Yinling tribes roared and attacked with all their strength, chopping off two shocking sword lights and chopping on the golden walls.

With two booming sounds, the golden walls actually shattered directly.

The masters of the two Yinling tribes were slightly stunned.

Before, the dark star continuously bombarded the golden wall, and none of them broke. Why are they now breaking the golden wall with a single blow, is it because of the continuous bombardment of the dark star, this golden wall is already Frequent collapse?

But at this moment, facing the crisis, the masters of the two Yinling tribes rushed out without too much thought.

"chase!"

"Don't let them run away!"

After yelling and chasing behind.

Lu Ming and Ling Yuwei also turned into two rainbow lights, followed closely.

The speed of both sides is very fast, and in a blink of an eye, it rushed out a hundred thousand miles away.

More than a hundred thousand miles away, they have left the area covered by the banned soldiers.

At this time, Lu Ming suddenly felt a slight light on his body, and that kind of blocking power disappeared directly.

He was able to connect with Gale Beads, Ice Profound Stick, and Second-Class Sky Soldier Armor again, and he could control it.

Ling Yuwei also did the same. She directly took out the **** elven bow, bent the bow and made an arrow, and formed an arrow, condensed, and with a loud noise, it cut through the void and shot towards a master of the Yin Clan.

"No, we have won..."

A master of Yinling cries.

At this time, he finally understood why they rushed out of the siege so easily, it was because Lu Ming drove them out deliberately.

They rushed out of the siege, and Lu Ming and others also left the area of the banned soldiers.

Lu Ming and others left the range of the forbidden army, and the massacre could be used immediately, and the combat power would skyrocket.

And they, although they can control the magic soldiers, have no big killers.

And they are only third-class heavenly soldiers, and the warrior's armor is only third-grade soldiers.

However, now the power of Ling Yuwei or Lu Ming to control the outbreak of the mass killer is more than God Emperor Jiuzhong.

The master of the Yinling clan resisted with all his strength. At the same time, the armor on his body was also full of brilliance. A light mask rose up and enveloped him.

However, all this is in vain.

With a touch, the arrow passed through and hit the head of the Yinling clan master. The head of the Yinling clan master exploded and even the soul was annihilated together.

At the moment when Ling Yuwei shot, Lu Ming also shot. Inside the gale bead, a horrible gale rushed out, condensed into a wind blade, and rushed out.

bump!

The Yinling clan's defense was also penetrated, but the power of the strong wind was slightly weaker. Although it penetrated the third-class sky armor, it did not kill the Yinling clan master, but only caused him serious injuries.

However, the second wind blade was issued immediately afterwards.

The master of the Yinling clan only uttered a scream, and his body turned to ashes in the strong wind.

"Hahaha, easy solution!"

He smiled.

Lu Ming also smiled.

Yes, they had deliberately let two masters of the Yinling clan escape.

If in the field of the banned soldiers, Lu Ming, Dan Dan, and Ling Yuwei join forces to kill two masters of the Yinling tribe, but it will be more troublesome.

If the two are desperate, they may also be injured.

But once they leave the field of the banned soldiers, they can control the big killer, and then it is easy to kill these two masters of the Yinling clan.

These two are different from Dark Star.

Dark Star is difficult to kill once he leaves the forbidden realm, so kill him in the forbidden realm.

"Shall we tidy up the battlefield?"

Lu Ming said.

Next, Lu Ming and others turned the bodies of several Dark Stars into ashes, and then collected all the demon spirit blood, and his original team members were also taken to a nearby island by three people and buried.

"Hey!"

Lu Ming sighed and said that these people were all affected by him. Dark Star and others wanted to kill him, otherwise these people would not die.

"Muyun, you don't need to blame yourself, mainly because there are traitors among us, otherwise, these people will not die!"

Ling Yuwei persuaded, afraid of Lu Ming's heart knot.

"Relax, I'm fine, but I must take the blood of the angel family to pay tribute to these innocent people!"

The cold light flashed in Lu Ming's eyes.

Through the previous dialogue with Dark Star, he concluded that the people behind the scenes are the angel family.

He took note of this hatred, and if he had a chance, he would definitely make the Angels pay the price.

"What shall we do next? Are we going back to Nantiancheng to replenish our troops? Or?"

Asked every day.

Lu Ming shook his head and said, "No, add troops, what if the traitor appears again?"

This kind of thing is enough to appear once, and Lu Ming would not want to appear a second time.

This is equivalent to putting your life in the hands of others.

This time, it was good luck, or that Dark Star and others were too confident, so they were defeated by Lu Ming and others.

If this time the opponent dispatched a stronger killer, such as the one with more combat power than the God Emperor Jiuzhong, they would be in danger in the field of traitors and bans.

Good luck this time does not mean good luck next time.

Wouldn't it be dangerous if the traitor appeared again next time, and then a stronger enemy came?

"Behind, how about the three of us acting?"

Lu Ming said.

"Okay, exactly what I want!"

Once and for all.

"I have no opinion. The three of us acted more flexibly and more secretly!"

Ling Yuwei said.

Afterwards, they left and did not return to Nantian City, and continued their activities on the magic island of the stars to hunt down demons.

Chapter 4052: Killing God Emperor Nine is as killing chicken

Of course, the action of three people has advantages and disadvantages.

The disadvantage is that their fighting power is not strong enough.

A team can set up battle fronts and have strong combat power. As long as they don't touch the powerful of God Emperor Realm, even if they encounter a large group of demons, they can also rush to the past and defeat each other.

But if there are only three people, even if they rely on the big killer, if they encounter a large group of demons, such as the demons with hundreds of gods and nine powers in them, they will definitely have to escape.

With so many demons, the power is amazing.

Lu Ming is not afraid of relying on the second-class sky armor, but Dandan and Ling Yuwei are in danger.

If a large number of demons laid down a large array of demons to kill the gods, trapping them for a long time, Lu Ming was dangerous.

Therefore, the actions behind them have become more secretive and more cautious. For those powerful islands, they do not attack, only hunt down orders, or a relatively small number of demons.

The three of them converged and went deep into the magic island of the stars.

One day later, they had passed seven or eight magic islands.

"There are a group of demons in front, less than one hundred, do you want to shoot?"

Under the lake, he said.

They lurked beneath the surface of the lake, arranged their formations, and checked the situation outside. After a day, they finally met a small number of demons.

"Is the number less than one hundred, let's do it!"

Lu Ming decided.

If the number is less than one hundred, willn't they all be the demon of Divine Emperor Jiuzhong?

Ten thousand steps back, even if they are the mythological nine-fold demon, they should be able to retreat with full preparation.

"Okay, they went east, and we go east!"

Once and for all.

Immediately, the three were at the bottom of the lake, heading east.

As he hurried, Dan Dan also formed an array.

Throughout the body, there were constantly runes running out, disappearing into the lake and disappearing.

On the side, the envy Ling Yuwei looked at was endless.

After a while...

"Here, the devil is above us!"

Once and for all.

In fact, needless to say, Lu Ming and they also felt that there was a strong evil spirit coming from above the lake.

"Thirty-one Divine Emperor Jiuzhong, the others are the existence of the Divine Emperor Eightfold Divine Emperor Seventh..."

Lu Ming whispered.

At such a short distance, they could already feel the cultivation of the demons above.

The three men's faces appeared relaxed.

Fortunately, there are only thirty-one demons of God Nine Heavy.

It is still within the scope of what they can handle.

However, they did not immediately start, but secretly followed these demons, because it takes time to set up.

After a while, the set of formations was completed.

"You can do it!"

Once and for all.

"Then... shot!"

Lu Ming nodded.

Uh! Uh! Uh!

As soon as the words fell, the three of them burst up and rushed towards the lake. In the process of the three of them rushing out, Dandan had already inspired the formation.

On the lake, under a group of demons, infinite runes suddenly filled, a large array emerged.

This large array is a large array of trapped enemies. A chain of chains seems to protrude from the lake and entangle towards hundreds of demons.

All of a sudden, at least a few hundred chains appeared, like tentacles of an octopus, sticking out of the lake, terrifying and demon.

"Enemies!"

A long roar came out from among the demons. In an instant, hundreds of demons shot. The spirit of the evil spirit blasted into the sky and attacked these chains one after another, making a clanging sound.

Chains of chains were broken.

However, after all, it was a formation that took some time to lay, but it was not so good. Some demons that were only seven-folded of the God Emperor were entangled in chains.

Once entangled in the chain, the chain tightened quickly, like a python catching an animal.

At this time, Lu Ming, Dan Dan, and Ling Yuwei had rushed out of the lake.

Uh!

As soon as Ling Yuwei rushed out of the lake, he shot an arrow.

An arrow shot out, divided into two, two into four, four into eight...

One arrow, turned into dozens of arrows, shot at those demons caught in chains.

These demons are inherently low in cultivation, entangled in chains, unable to move, and simply cannot avoid shooting arrows.

puff! puff! ...

These demons, all pierced by arrows, fell to the spot.

At the same time, Lu Ming also shot, he held a gale of wind, and the violent gale swept out, killing the demons in front of him.

Several screams were issued in a row, and at once, at least ten demons were killed by the strong wind.

Most of them are the demon of Emperor Bazhong, but they also include the demon of two Emperor Jiuzhong.

"It's the debris of the vast universe!"

"Damn, fight back!"

These demons, roaring again and again, began to fight back.

However, here is in the formation of Dandan, Dandan constantly controls the chain and attacks these demons, causing serious interference to these demons.

If you are not careful, you will be caught in the chain.

Buzz!

The bowstring vibrated, and the **** elven king's bow was glowing, and an arrow shot out, aiming at a demon of God Nine Heavy.

With a bang, the demon was directly killed and fell on the spot.

When Ling Xiuwei was still in Divine Emperor Double, she fully urged the **** elven palace to be able to contend with Divine Emperor Nine Heavy, Divine Emperor Triple, and put out her best to kill Divine Emperor Nine Heavy.

And her current practice is that the Divine Emperor is fourfold, and the **** elven king bow is displayed. They do not need to be pushed to the extreme, and they can kill the master of the Divine Emperor.

The arrow just now was not urged with all my strength.

Without all the urging, she can perform more moves.

Lu Ming did not show Bingxuan Cudgel, but showed Gale Beads.

With his current cultivation practice, coupled with Dacheng's Great Divine Wind Technique, the power drawn from the strong wind beads is enough to kill the devil of Divine Emperor Jiuzhong.

Huh!

A strong wind turned into a wind blade and flew out. Anyone hit by the strong wind will be killed with one blow.

In just a few breathing hours, hundreds of demons had been killed by them, and only forty left.

Among them, more than twenty are the existence of God Emperor Jiuzhong.

"Arrange!"

There is a roar of demons, who want to arrange a careful array of ten thousand demons.

But, Lu Ming, will they make them successful?

Once and for all, he manipulated the formation to isolate these demons and could not join forces with each other.

And Ling Yu continued to pull the **** elven king bow, specifically aimed at those demons of God Nine Heavy.

Arrows, shot continuously, each arrow can kill a demon of the Emperor Nine Heavy.

Lu Ming's side is also the same. The strong wind roared, and powerful demons fell one by one.

In a few moments, the devil Emperor Jiuzhong's demons dropped from more than twenty to a dozen.

Chapter 4053: Devil Genius

call!

Lu Ming pulled another strong wind, swept out, and swept to a demon of God Nine Heavy.

The demon, with dark purple skin and ugly eyes, saw the strong winds sweeping in, shining and shouting, "The shattered heavenly palace, die for me!"

Uh! Uh!

The nails of this devil's two-handed claws are very long and very sharp, and they constantly grab out and grab those strong winds.

Zizizi!

When his claws collided with the strong wind, he made a violent collision.

In the end, the demon retreated, but the strong wind was actually blocked by him.

"Good strength!"

Lu Ming's eyes flashed.

This demon's cultivation practice is also Divine Emperor Nine Heavy, but it can block the strong winds drawn by him. This level of combat power is far above ordinary Divine Emperor Nine Heavy.

Obviously, this demon is a genius among demons, and its combat power is far above that of ordinary demons.

Roar!

He snarled in his mouth, and his body began to swell up, with sprawling bone spurs extending from the surface of the skin, and it looked even more sprawling.

"I'll hold him back, you're going to tear this shit!"

This bone demon shouted, obviously speaking to another demon.

Before the words fell, he rushed to Lu Ming, the sharp claws of his hands, more sharp, can easily tear the Divine Soldier.

"Gale, kill me!"

Lu Ming held a gale of wind, and another strong gale rushed out of the gale, turned into a wind blade, and killed the demon.

Keng!

The attacks of the two sides collided together, bursting out a strong force, and there were some chains condensed around the formation, which were also fragmented by the bombardment of the force.

Several other nearby demons were rushed and were injured directly, quickly backed away and pulled away.

Roar!

A horrible roar came from a fiery red demon.

This demon, similar to other demons, only has red skin, like flames.

He rushed towards Lu Ming from another direction. During the process of rushing out, there was a raging flame on his body. In his hand, a magic knife with flames appeared.

The speed is extremely amazing to kill Lu Ming.

call out!

On the other side, Ling Yuwei also noticed the demon, pulling the **** elven king bow and shooting an arrow.

A terrible arrow shot at the fiery red demon, and in an instant, the arrow approached the demon.

"cut!"

The demon screamed and slashed out, colliding with Ling Yuwei's arrows.

A violent roar, like a star burst, the next moment, Ling Yuwei's arrows, actually vibrated violently, and then touched, burst.

And the fiery red devil only took two steps back.

powerful!

This demon's strength is also very strong, definitely not weaker than the demon with a bone spur, and can actually block Ling Yuwei's arrow. Although this arrow, Ling Yuwei did not urge it all.

"It seems that there are two demonic geniuses!"

A thought flashed in Lu Ming's heart, not surprised but happy.

The more genius demons, the more merit points they can exchange for demonic spirit blood.

The demon prince Samoro of the Eight Snake Mountains last time, but gave 60,000 or so merit points, which made Lu Ming miss it.

Roar!

The fiery-skinned demon just retreated slightly, so he roared towards Lu Ming.

He wants to cooperate with that demon and first solve Lu Ming.

He was very fast, and in a blink of an eye, he came to Lu Ming.

The demon covered with bone spurs also roared to attack, claws cracked the void and grabbed Lu Ming.

If caught, Lu Ming's body must be torn apart.

But at this time, a white long stick appeared in Lu Ming's hand!

Bingxuan stick!

Lu Ming urged Bingxuan stick with all his strength, and the power of taboo madly poured into Bingxuan stick.

Bingxuan stick suddenly became bigger and swept out.

boom! boom!

Bingxuan stick, collided with the attack of two demon geniuses, burst into two roars.

The demon covered with bone spurs screamed. The bone spurs on the body shattered one by one. His body shook wildly and retreated backwards, striking the two demon with eight heavy demons.

He vomited blood and was entangled with a chain.

Another demon covered with flames was not much better. His body flew backward like a meteorite, and the flame on his body went out instantly.

Similarly, he was also entangled in a chain.

Then, a layer of ice appeared on them, and the ice quickly spread to freeze them.

The eyes of the two demons were very staring. The vitality on their bodies disappeared quickly, and their vitality was completely extinct.

This is still Lu Ming has controlled a few centimeters, otherwise the ice xuan stick will be urged with all his strength, and the bones of the two demons will be crushed with one blow.

However, the smashing of broken bones, even the demon spirit blood could not be obtained, but it was a big loss, so Lu Ming controlled the power and did not explode the two.

"not good!"

"Run away!"

The remaining demons saw that both demonic geniuses had been killed. They were frightened and fled. They had no will to resist.

However, under the blockade of Dandan's formation, and under the killing tools of Ling Yuwei and Lu Ming, this demon could not escape at all.

Soon after, these demons were all killed, and then, Lu Ming collected the demonic spirit blood of these demons and quickly left here.

Soon after Lu Ming left, a group of demons flew over. Obviously, they were shocked by the war just now. Unfortunately, Lu Ming had lost their trail.

Soon after, they appeared in another place.

I also encountered a group of demons, the number of which was only dozens. Among them, there were not too strong demons. They were easily hunted by Lu Ming and then they left here again.

Over the next period of time, they were everywhere, looking for demons to hunt.

Of course, they are a lot more cautious than before.

After all, seeing the power of geniuses among demons cannot be underestimated.

If you encounter the horrible demon among the demons, the strength is at the God Emperor Jiuzhong, even if they have a big killer, it is also unpredictable.

Sure enough, ten days later, when they hunted a group of demons, they encountered a terrible demon.

This demon is cultivated in God Emperor Nine Heavy, but the combat power is amazing. Lu Ming estimates that it is comparable to the Tianjiao who can fight across two levels. Lu Ming fully urges the Ice Xuan stick, but he can't help this demon Tianjiao.

Finally, Dan Dan and Ling Yuwei cooperated with Lu Ming and the three teamed up to kill the devil Tianjiao.

In a blink of an eye, Lu Ming they have entered the magic island of stars, a month has passed.

On this day, they were walking under the lake and suddenly felt the roar on the lake in front.

Someone is fighting.

Chapter 4054: The real devil shot

Lu Ming they can clearly feel that there is a fierce battle ahead of the lake, because the waves are too strong, the vast energy is surging, and it is difficult to feel it.

"It's a strong wave. I'm afraid there are not a few fighting between the two sides. Let's take a look in the past!"

Ling Yuwei said, showing curiosity.

"go!"

Lu Ming nodded.

They have a formation that is laid out once and for all, and they can hide the breath very well, and they are not afraid of being discovered.

They plan to look at the situation in the past to see if they can find an opportunity to pick up a bargain. If they have the opportunity, they may wish to take action. If there is no opportunity, just sneak away.

Soon, they came not far from the large array, and spied out the spirit consciousness, watching quietly, and immediately, the situation outside was fully revealed.

Outside, there is an island. On the island, the evil spirit blasts into the sky and covers the sky.

At this moment, there are a large number of demons, forming a large array of ten thousand demons, and dozens of huge demons, standing between the world and the world, are fighting a group of people.

It is natural that the warriors who are fighting the demons are the heavenly soldiers.

There are four teams in total, and the four teams form a battle array.

The two sides kept fighting, but they only fought in a tie.

"Angel people!"

Lu Ming and his three eyes flashed through the cold light.

Among the four teams, there is one team, all made up of the angelic arrogance.

Seeing the angel family, the three had to reveal their killing opportunities.

The former Yinling tribe was sent by angels.

"It would be nice if these angels were scattered!"

Ling Yuwei muttered.

"Dan Dan, is there a way to break the other's battle?"

Lu Ming asked.

If you want to deal with the angel clan, you must retaliate against them, you must break the opponent's battle line, otherwise, they are not opponents of these angel clan, the battle line is too powerful.

"No way, this battle array in Tiangong, based on runes, is integrated into the battle armor, I can't break it!"

Dandan shook his head.

"That can only be observed, to see the situation!"

Lu Ming said.

They continued to hide under the lake water to observe the situation outside.

The demon and the Tiangong continued to engage in battle. After a full battle for two hours, the four teams on the side of the Tiangong fell into the disadvantage and they retreated together.

The demon did not chase, because the two sides have similar strengths, and even if they chase, they cannot solve the people on the side of Tiangong.

The four teams in Tiangong retreated far away and rested on an island far away.

The four Lu Ming followed up quietly and observed secretly.

Soon after, the four teams took a rest and gathered together for a while, and then the four teams actually separated and flew away from four different directions.

It seems that the four teams felt that they could not deal with the demon of that island, and dispersed to go to other islands to find the demon to hunt.

"Shall we keep up?"

When asked, it obviously means whether to keep up with the angels.

"Follow up and see!"

Lu Ming said, cold light flashed in his eyes.

He didn't talk so well. Angels secretly called someone to kill Lu Ming. Lu Ming didn't intend to let the other party pass.

Moreover, in that team, the familiar angel clan Tianjiao like Lafayette is in it.

Lu Ming concluded that the people of the Yinling tribe should be called by these people of Lafield.

As long as these people of the angelic family are resolved, he is estimated to be stable for a period of time. Don't worry that someone will assassinate him.

This is a once and for all solution.

The three followed in secret, and half a day later, they saw a small island, and many demons inhabited the island.

However, the number of demons on this island is relatively small, and the angelic people directly killed them. The demons on this island were not too powerful, nor did they form a battle front in time. Was defeated.

After destroying the demon of this island, the demon spirit blood was collected, and the angels left here to continue searching for devil hunting.

In the next few days, the angels found a total of three demon islands, defeated the demon above, and obtained a large amount of demon spirit blood.

In these three days, Lu Ming and they have always followed these angels, but they have never found a chance to shoot.

On the fourth day, the angels met a bigger magic island.

This magic island is bigger and more vast. On the magic island, there are a lot of demons.

Devil qi soared into the sky, composed of ten thousand demons to kill the gods, there are dozens of huge shadows.

However, these demons actually fell in the wind, because there are more people who besieged the Tiangong in the island of demons.

There are ten teams in full, laid out battle lines, besieging this magic island.

The angels saw that Tiangong had the upper hand, immediately rushed up without hesitation, and joined the battle group that besieged the demons.

With the addition of an additional team of Celestial Palace, the demon side is even more disadvantaged.

"It seems that the devil is about to lose. When the devil loses, we secretly shoot to see if we can hunt some demons and get some demonic spirit blood!"

Lu Ming said.

This island is very large. It is estimated that it is the top big island among the magic islands of the stars. There are definitely a lot of demon evils in them. They naturally want to hunt some and obtain some demon spirit blood.

The war is continuing, but the balance of victory is slowly leaning towards the side of the Tiangong.

Slowly, the demon side can only defend, and the chance of counterattack is getting less and less, and it is pressed by the Tiangong side.

In this way, it is a matter of time before the devil is defeated.

"The miscellaneous pieces of Tiangong, let me die!"

Suddenly, a roar came out of the sky!

Rumble!

The whole world shook endlessly in this roar.

Then, in the sky, a magic knife appeared, so huge, that it cut off the void, and cut it towards one of the teams in the Temple of Heaven.

The horror is boundless and the magic energy is vast.

"No, it's the devil's devil!"

The people in that team's face changed wildly.

In the high altitude, there is a demon Devil Emperor, which is equivalent to the existence of Divine Emperor Realm. It is really terrifying. They want to dodge it, which is no longer possible.

"Full-heartedly urge the battle, block it!"

The captain of that team shouted, and they urged the battle to turn into a huge golden sword light, soaring into the sky, colliding with the magic knife.

boom!

A loud roar, the golden and black light filled the sky.

The violent energy swept the world.

But this contend, just holding a breath, the golden sword light collapsed.

The magic knife kept on slashing towards that team, with a bang, the battle line of that team was directly defeated, and a scream came out, at least half of the team of 50 people Shocked by the power of terror.

Chapter 4055: Devil Emperor vs Divine Emperor

The existence of the Devil Emperor Realm is too strong. With one move, it defeated a large formation and caused at least half of that team to fall.

But this was just the beginning, and then, in the sky, there was another magic sword's blade, slashing down.

And this time, it was not a knife, but two.

Two dark magic knives were cut towards the two teams.

One of the teams happened to be those of the Angels.

The people of the two teams were pale, and there was no blood, and there was fear in their eyes.

However, at this time, they must be desperate, it is impossible to sit still.

"Fight it all, resist it all!"

"Burning Divine Power!"

A roar came out, and the people of the two teams, desperately at this moment, burned with divine power, and stimulated the power of the large array to the extreme.

At this time, no one cares about the consequences of burning divine power. If you do not work hard, you will die!

Under the full excitation of the two teams, the power of the battle array was stimulated to the extreme, and two golden sword lights rose into the sky.

However, the existence of Devil Emperor Realm is too strong, even if they burn divine power desperately, the result is already doomed.

Two violent roars, the battle array of the two teams burst into bursts, screaming together, flesh and blood flying across the lake.

Even if they burned their magical power to resist, they did not resist the attack of the Devil Emperor, but the situation was slightly better. Each team died a little less, but each team still had about 20 people falling.

Others did not fall, unless they were second-class sky soldiers, and others, with some injuries, suffered various degrees of damage.

"Run, run!"

The remaining people, shouting in horror, wanted to escape.

Without battle fronts, it is too dangerous to participate in such a battle with their true strength.

However, how could those demons miss this opportunity?

"kill!"

"Slain them!"

A roar rang out, and the demon ran the Demon Slaughtered Great Formation. At once, there were several tall demons walking on the void, killing those who lost the battle formation.

Uh!

Several huge magic knives slashed at these people.

Among them, there is a huge magic shadow, wielding a magic knife, and slashing towards the angels.

The angels were suddenly discolored, their faces pale.

This knife was issued by the Great Demon Massacre. They lost the battle array and could not resist it. If they were cut, it would definitely be a dead end.

"You retreat first!"

At this time, a figure came out of the angel family.

This is a young angel clan Tianjiao, but the captain of this team.

Uh!

Behind him, a pair of angel wings stretched out, and the Holy Light soared into the sky.

There are a total of five pairs of wings. This is a ten-winged angel. It is the same as Lafayette. However, his practice is much stronger than Lafayette.

Seven Emperors!

This angelic youth is the existence of a **** emperor sevenfold, named Sara.

He was filled with the rich holy light, and the second-class sky armor of his body was excited, forming a mask to cover him.

At the same time, a cross holy sword appeared in his hand, exuding a terrifying breath, this is his killer.

Divine Emperor Qizhong's cultivation practice is also a ten-winged angel. His own combat power is amazingly strong. Coupled with the big killer, the combat power is undoubtedly more terrifying.

He was alone, standing in front of the huge shadow, and slashed out with a sword.

The Holy Light burst out, the Sword of Holy Light stretched for thousands of miles, and slashed towards the giant shadow.

boom!

The Sword of Light and the Sword of Golem collided together, and a violent roar erupted. However, after only two breaths, the Sword of Light collapsed.

Sarah's combat power, although amazing, is still not as good as the huge shadow.

The huge magic shadow was arranged by the horde of ten thousand demons and gods, and at least it gathered the power of a hundred deities and nine deities, thousands of deities and eight and seven demon powers, so amazing.

The sword of holy light collapsed, and the magic knife slashed heavily on Sarah. The light shield formed by the armor of the soldiers on his body was violently shaken.

In the end, he was blocked.

"Go away!"

Sara roared, letting other angels' arrogance go quickly, he broke off alone.

But at this time, in the high altitude, that Demon Emperor shot again, the magic knife cut off the sky, and continued to cut towards the people in the Tiangong.

The team shrouded in magic swords suddenly showed the look of despair.

"you dare?"

At this moment, a roar spread through the sky, the void suddenly cracked, and a figure appeared.

This figure, wearing a golden armor and holding a spear, radiated a dazzling golden light, and a terrifying breath flowed from him like tide.

As soon as this figure appeared, the spear in his hand pierced out, penetrated the void, and collided with the devil's magic knife.

The earth-shattering roar sounded, and the magic knife was actually blocked.

"Divine Emperor, Divine Emperor!"

"First class soldiers!"

On the side of Tiangong, cheers of surprise came out.

The Divine Emperor in Tiangong, arrived.

The Divine Emperor's eyes were like swords, piercing the void, screaming angrily: "Your opponent is me, kill!"

As soon as his voice fell, he stepped out, and the whole world was roaring, and the spear burst like a thorn, as if it penetrated into the depths of the universe.

Roar!

A terrifying roar came from high above, a large exploded space, a huge demon could be seen vaguely, the devil wings covered the sky, holding a magic knife in his hand, the magic knife came out...

Boom...

The horrible existence of the two Divine Emperors and Devil Emperors Realm, the battles together, for a time, the void in the heights turned into chaos, and the scene was extremely horrible. For a time, the victory and defeat could not be separated.

The war of the Divine Emperor and the Devil Emperor did not affect the war below. The war below is still very fierce.

On the demon's side, they urged the Demon Slayer to go all out. Those huge shadows entangled the remaining battle fronts on the side of the Tiangong Palace. The few huge shadows that were vacated, tried their best to chase down those who did not have battle fronts.

Before, a total of three teams were defeated by the Devil Emperor, and the Demon stared at these people and killed them.

People are constantly being killed.

The angel clan is better. After Sara broke alone, she blocked a huge demon figure, so that the angel clan was proud and preserved.

However, Sarah's situation is very bad. Although the second-class sky armor of his body is claimed to be able to withstand the full blow of the Divine Emperor's heavy power, it is also in jeopardy after repeated bombing.

boom!

In the end, the defense of the second-tier sky soldier's armor was defeated. The violent force bombarded Sara. Sara screamed, her body was broken to half, and the rest of the body flew out. In the case of severe damage, the injury was very serious.

However, after Sarah's repeated turnover, the angels have withdrawn from a long distance, almost out of the range of the Ten Thousand Demons.

Chapter 4056: Pretending to be an angel

"Go away!"

"Retreat!"

Immediately, an angel clan rushed over to catch Sarah, and then flew towards the back, turning away from the island.

The demon did not chase.

After all, the Ten Thousand Demons Slayers array also needs to be coordinated with the arrays arranged in advance. Without the arrays, the power will be weakened a lot.

The demon continued to fight with the others in the Tiangong, while the angels ran away.

There were fifty of them originally, and only 26 of them finally fled.

The other twenty-four people were attacked by the Devil Emperor before, and then attacked by the Great Devil Massacre, and successively fell.

"Do you chase?"

Dandan looked at the direction of the angels' escape, and his eyes shined.

"Of course we have to chase!"

Lu Ming's mouth sneered.

Didn't they wait for such an opportunity after they followed the angels?

Now, is there a better chance than before?

Only half of the angels are left, without the blessings of the battle front, and all are injured. At this time, they don't shoot. When will they wait?

Immediately, the three of them secretly chased in the direction of the angel clan escape.

As for the battle of this magic island, they are too lazy to control.

Soon, the angels reappeared in their vision, and they followed all the way.

The angels have been flying for several hours, found a small island without demons, and landed on the island to rest.

"Muyun, shall we shoot now?" Ling Yuwei asked.

"No, it is not appropriate to do it now!"

Lu Ming shook his head.

Although there are only 26 people left in these angelic families, and everyone is wounded, there are still many powerful existences in them.

For example, that Sara!

Sarah has been seriously injured. For the time being, there are several others, Ten Wing Angels.

There are two, cultivated to be higher than Lafide. This kind of angel generally has mastered the big killer. Now they rushed up, and they may not be able to wipe out all these angels.

That's right, Lu Ming wanted to wipe out all these angel clan. Now they kill them, even if they can kill some of them, but they can't kill all of them, and some of them will definitely escape.

This is not what Lu Ming wants.

"Wait a moment, I am afraid that these angels' injuries are getting better soon!"

Ling Yuwei was quite worried.

"As long as the angel captain's injury is not good, this guy's injury is very serious, it will definitely not be so fast!"

After Lu Ming finished speaking, he looked at Dandan and said, "Dandan, it's up to you next to set up a phantom array that can trap these phantom arrays of angel families!"

"No problem, just give me some time to ensure that a large formation can be set up so that these angels can't escape, but how should they be allowed to enter the large formation?"

Once and for all.

"I'm going to lead!"

Lu Ming said: "Don't they want to kill me very much, if I appear in front of them, and they are still in a state of serious injuries, do you say they will come to kill me?"

"Hahaha, wonderful!"

Every time he laughed, Ling Yuwei also smiled.

Immediately, Lu Ming left the island and found a place, and Dan Dan began to set up, and Lu Ming quietly dived back to observe the angels.

Time passes quickly.

Soon, half a day passed.

At this time, Lu Ming received the voice of Dandan, and the formation was completed.

Yi Dandan's attainment of the rune formation method now took a long time. It can be seen how powerful this large formation is.

At this time, the injuries of those angelic families were basically healed.

Of course, Sarah's injury was too serious, and he didn't have the physique of Lu Ming, so he didn't heal so quickly, and his breath was still weak.

"You are in the formation, I will soon lead the angels!"

Lu Ming returned a message to Dandan, and then took out a sword, pierced his sword with his chest, pierced his chest out of a translucent hole, and the blood continued to flow out, staining a pair of red, one The deputy looks very serious.

Then, Lu Ming quietly left here, waiting for a long enough distance, Lu Ming rushed into the sky, and then flew towards the island where the angels rested, a look of panic.

Rumble!

The sound of breaking the sky caused by the rapid flight spread far away, and the angel Tianjiao on the island discovered it at a distance from the island.

The angels' heavenly arrogance looked at the source of the sound, and at once they saw Lu Ming.

"That kid...It's Muyun!"

"It's Muyun, this kid is not dead yet!"

"But he seems to have been hit hard, his breath is very weak, and he is running away in panic!"

"It must have been met by those of Dark Star. The fellow of Dark Star is also a waste. Isn't it definitely to solve Lu Ming? He was actually escaped!"

"But it's okay, this kid's luck is really bad, he fled to us, this is destined to die in our hands!"

Upon seeing Lu Ming, these angels suddenly had a lot of discussions, especially Turafied and others, even revealing a cold killing opportunity.

At the moment, Lu Ming, who was flying in the distance, seemed to have just 'discovered' the angels, and he quickly stopped his body, with a "frightened" expression on his face, and turned away.

"Now I want to go, late!"

"Chasing, chasing together, don't be run by him!"

"Bring his head back to see Mr. Gabbert, it must be rewarding!"

These angel clan roared into a rainbow of light, chasing toward the landing Ming.

Twenty-six angel clan, almost all dispatched, chased to the landing Ming together.

There are two reasons for this.

The first one is that Lu Ming is running away. Let's go together and see how Lu Ming runs?

The second one is, after all, the magic island of the stars, the demon's territory. Now their battle formation is broken, they are even less afraid to disperse.

"angel..."

Lu Ming pretended to yell in horror, then exploded with all his strength, and flew in the direction of the formation.

The angels are chasing behind.

Lu Ming is now seriously injured and is alone. This is a rare opportunity. How can the Angels easily let go?

The two sides chased and fled, very fast, and soon came to the place where the battle was formed.

Lu Ming rushed directly into the large formation under the Dandan cloth, and those angels behind did not find anything at all.

Among the angels, there are many people who are good at rune formation, but their attainments for rune formation are far different than those at once.

Moreover, this formation was spent for half a day, and it was completely hidden in the void without revealing any clues. These angels did not find anything at all.

Twenty-six angel clan Tianjiao followed Lu Ming and rushed into the big formation.

Chapter 4057: Send you down to accompany them

"Get up!"

When all the angels rushed into the envelope of the formation, they sipped once.

As the voice of Dandan sounded, a huge formation emerged in the sky, and endless runes permeated and intertwined.

"It's a formation!"

"No, I'm lucky!"

"Damn Muyun, look to death!"

These angels yelled. They were not stupid. As soon as they discovered the formation, they knew that they were the winner. Lu Ming used to pretend that the purpose was to lead them into the formation.

"rush out!"

There were angels who roared, they gathered together and wanted to rush out, but at this time, the environment between heaven and earth suddenly changed.

These angels found that they immediately came to a boundless purgatory, in all directions, and countless undead rushed towards them.

For example, zombies, skeletons, evil spirits, etc., screamed at them, and they were fierce and evil.

The angels were frightened and launched a violent attack. A brilliant light burst out and bombarded these undeads. These undeads were suddenly defeated.

But these undead were defeated, and in all directions, more stone spirits emerged and rushed towards them.

They rushed forward all the way, very fast, but after a long distance, they found that they still did not break out of the range of the formation, and were still in the formation.

"Phantom, these are phantoms, we are in a phantom array!"

Tianjiao, an angel clan who was better at the formation, finally saw the famous hall and shouted.

"It turned out to be a phantom array!"

The hearts of these angels are slightly relieved.

Phantom array is better than killing array.

There are two angel clan Tianjiao, facing those undeads, there is no resistance, let these undead come to fight.

Since it is a phantom array, all these are illusions, and there is no need to resist.

puff! puff!

The blood was splashing, and the two angels were torn apart by the undead and fell to the spot.

"what happened?"

Other angels were frightened, and some angels did not intend to resist these undeads anymore. At this moment, they quickly resisted and blocked the undead.

"Damn, the illusion of this large formation has reached the point of being fake and real, and the illusion can also issue physical attacks, a brilliant formation!"

An angel who was good at running together with rune formations shouted.

"what?"

The faces of other angels are extremely ugly.

This phantom array has actually reached the point of being false, which is terrifying.

If it is only a phantom array, they can ignore these undeads and slowly find a way out, but if the phantom array still has attack power, it will be troublesome. The threat of this phantom array will be a geometric multiple Increase.

"To attack the space with all your strength, the formation of these magic arrays should be embedded in the space. As long as the space is destroyed, this battle array can be destroyed!"

Sara yelled.

"Shoot!"

These angels, while blocking the undead, concentrated their strength and bombarded one direction.

Boom!

There was a big explosion in that direction, and the void exploded into scary holes, but the formation was not destroyed or weakened. They still did not rush out, and in all directions, there were still undead rushing towards them.

Outside the formation, Lu Ming, Ling Yuwei, and Dan Dan stood in the sky.

In their eyes, there is no undead in the void in front, as before.

I saw that those of the angelic clan were circling there, circling around in the same place, bombarding indiscriminately, and could not see them at all.

"I have used the formation method for a long time, how can they destroy it, unless it is the Divine Emperor, hehe!"

Dan sneered, smug.

"Do it!"

Ling Yuwei opened her mouth and took out the **** elven king's bow directly. The spirit boiled and poured into the **** elven king's bow, and an arrow condensed out.

Uh!

A terrible arrow pierced the void and shot at the angels of those angelic families.

The arrow was aimed at a four-folded octagonal angel, and the arrow approached. The octagonal seemed to feel nothing at all.

Arrows flew into the illusion array until it was one meter away from the angel clan Tianjiao's eyebrows. This angel clan Tianjiao felt a terrible crisis.

However, the distance of one meter is too short for Ling Yuwei's arrows, and the time required is as short as negligible.

Even if he wanted to resist, it was too late.

puff!

The angel's arrogance was directly pierced by arrows and fell on the spot.

"Be careful, there is an ambush!"

Other angels roared with pride.

puff!

In the next moment, another arrow shot, and another angel's Tianjiao was shot.

Ling Yuwei shot two arrows in a row, and then shot a third arrow.

This arrow shot at Lafield.

However, Rafid is by no means comparable to ordinary angels. His spiritual consciousness is extremely keen. When the arrow is 100 meters away from him, he is sensed by him.

The distance of 100 meters, the time required is also very short, but finally gave Lafayette reaction time.

Every moment, he took the big killer angel sword in his hand, and now subconsciously lay in front of him.

when!

The arrow shot at the angel sword, and gave a violent shock. Lafield's figure could not help but retreat. He was caught by a stone claw and nearly cut his body.

"Ah, Muyun, there is an upright battle, and what is the ability to hide and attack outside the formation?"

Lafield yelled.

"You want to fight, I will fight with you!"

At this moment, a cold voice came from behind Lafayette.

Lafayette quickly turned around and saw a figure, which was naturally Lu Ming.

Lu Ming held Bingxuan stick and looked at Lafide indifferently, how could he be injured, his breath was strong to the zenith.

"Muyun, die for me!"

Seeing Lu Ming, a cold killer burst into Lafide's eyes, the angel sword glowed, and a sword slashed towards the landing.

Lu Mingsi was not afraid, Bingxuan stick waved out and slammed towards Lafide.

When the two attacked, they collided together, and then Lafide's body shook wildly, backing up again and again, blood spewing out of his mouth, and even the angel sword, the big killer, could hardly hold it.

After becoming a Heavenly Soldier, Lafide also entered the man-made tower, and his cultivation capacity was also increased to reach the five levels of Divine Emperor.

However, Lu Ming's cultivation base is the triple of God Emperor, but he is two times lower than him. With Lu Ming's combat power, Lu Ming is above Lafide even if he does not rely on the big killer, but his real combat power.

After both of them used the big killer, Lu Ming's combat power even crushed Lafide.

"Lafayette, the Yinling people, you called to kill me, tell you the bad news, the Yinling people have already died in my hands, now, send you down immediately Stay with them!"

Lu Ming spoke indifferently, and Bingxuan stick blasted out again.

Chapter 4058: Angels

Bingxuan stick carried terrible chill and violent energy, and pressed down on Lafide. The terrifying power made Lafide's face extremely ugly.

"Save me, save me..."

Lafide yelled in horror.

"Muyun, you are dead!"

"You are bold!"

"kill!"

Around, some other masters of the angel clan shouted, slamming toward the landing, and various holy lights swords, slashing towards Lu Ming.

However, Lu Ming did not shy away, as if he did not see it.

Because, the second-class sky armor of his body had been urged, and a layer of light mask covered him.

Boom!

The angels' attacks fell on the mask and made a violent roar, but they could not break Lu Ming's defense.

The second-class sky armor, but can withstand the heavy blow of the Divine Emperor, how can these angelic arrogance be broken?

Lu Ming stabilized his body, Bingxuan stick kept on, and continued to blast towards Lafield.

Lafayette roared, covered with holy light, burning, and desperately.

However, in the move just now, he had been seriously injured by Lu Ming and could not exert his full strength at all. How could he stop Lu Ming's full blow.

boom!

Bingxuan stick pressed down, the Holy Light on him burst, and the angel sword in his hand flew out.

He screamed, his body was torn apart, and his form and spirit were all destroyed.

This angel clan's ten-winged angel was killed by Lu Ming, and his storage ring was caught in Lu Ming's hand.

call out!

At the same time as Lu Ming's shot, Ling Yuwei was not idle, and continued to pull the **** elven king's bow, the arrow broke through, shooting an angel clan's Tianjiao.

"Muyun, Ling Yuwei, you are so courageous, dare to kill us, the angel family will not die with you!"

"Even if you fled to the end of the world, you all have one way to go!"

Those of the angel clan shouted, and some wanted to take out the fantasy **** jade to spread the news.

However, how can Lu Ming make them wish.

Lu Ming took out the strong wind beads, the strong wind roared, swept out, and enveloped these angels.

At the same time, Dandan is also vigorously mobilizing the illusion array. Those undead, who are constantly rushing to the angel clan, so that the angel clan, there is no way to use the fantasy **** jade to spread the message.

The screams fluctuated with each other. Some of the weak angel families were bombarded one by one by Lu Ming and Ling Yuwei. Soon, more than twenty angel families were arrogant, and only three remained.

These three are the most powerful three in the angel family.

One is Sara, the other two are also amazing ten-wing angels.

The eyes of the three men were blood-red and broke out desperately to protect themselves.

With Sara's strength, Lu Ming was definitely not an opponent. After all, his cultivation base was too strong, reaching the seventh level of the Divine Emperor, and he controlled the big killer.

However, he was severely injured by the massive demon slaying before, and the injury was very serious, and he has not recovered at present, so Lu Ming has no fear of him.

boom!

Lu Ming held Bingxuan stick and confronted Sara with a move. The two retreated at the same time.

"Just because you also want to kill me, no way, you are waiting for my angelic clan's vengeance!" Sara growled, her face sullen.

However, it was Ling Yuwei's arrow that greeted him.

Lu Ming used the Great Divine Wind technique to draw the power inside the gale of wind, and enveloped the heavenly arrogance of the other two angel families, constantly besieging them. At the same time, Dan Dan also fully controlled the phantom array and attacked the two angel families.

For the time being, the people of these two angel families were trapped, and Lu Ming and Ling Yuwei attacked Sarah with all their strength.

Sarah was seriously injured, and the remaining strength was almost the same as when Lu Ming excited Bingxuan stick. With Ling Yuwei, he could not stop it.

Moreover, the second-class sky armor of his body, in the battle with the demon, has already exhausted the energy, and automatically collected it, lurking in his body, and it can't play a role at all.

Only with a few moves, he was invaded by the coldness of Bingxuan stick, covered with a layer of ice, and the terrible coldness seemed to condense the blood on his body, his breath became weaker and weaker, Strength is becoming more and more empty.

puff!

After two more strokes, Ling Yuwei's arrows finally shot him, pierced through his chest, and exploded a big hole.

Sarah roared, still not dead, with a dazzling holy light on her body, and howling in her mouth, she wanted to explode and die with Lu Ming.

However, Lu Ming pressed down with the ice mysterious stick, and the terrible chill directly blocked him, and then the violent force bombarded him. Sarah did not even scream, and it fell.

The remaining two angel clan Tianjiao, although good in strength, were already doomed. All of them were quickly killed under the siege of Lu Ming and others.

Since then, this team of angels has all fallen, part of them died in the hands of demons, and part of them died in the hands of Lu Ming. It can be described as miserable and with great losses.

These are the top arrogance in the angel family. Among them, there are four of the ten winged angels.

Ten-winged angels, even in the huge angel clan, are extremely rare, and each is a top demon, and will grow up in the future and become the mainstay of the angel clan.

In fact, most of the backbone forces in the angel family are ten-winged angels.

After all, the twelve-winged angel, that is the minority.

The seniors of the Angel family know that it is estimated that the heartache and liver pain will be angered.

"Angel tribe, this is interest. If you still aim at me all the time, I will let you suffer more losses!"

A cold light flashed in Lu Ming's eyes.

Put away all the storage rings of the angel clan, and then use a fire to turn the body of the angel clan Tianjiao into ashes. They left here and reentered the bottom of the lake, then took out these storage rings and began to count them.

"Haha, get rich!"

After counting, Dan Dan grinned straight.

Other treasures are nothing, mainly demon spirit blood, they care about this.

In the storage ring of the angel family Tianjiao, the amount of demon spirit blood is very large.

It is estimated that there is not much less than Lu Ming's addition.

Although, in the previous battle with demons, nearly half of the angels died, but those half were relatively low, and there was not much demon spirit blood in these angels.

The demon spirit blood is brought to some angels with relatively high combat strength, such as Sarah, Lafield and others.

This is a big harvest!

Despite the twists and turns, the other team members have already died in this trip, but the demonic spirit blood they got is also very amazing, more than the demonic spirit blood in the Eight Snake Mountains last time.

In this, but many of them are the demon spirit blood of Divine Emperor Nine Heavy, and the eighth Emperor Divine Spirit of Seventh Emperor have more demon spirit blood. It is definitely amazing to redeem the successful points, which is definitely far above the merit points they obtained last time. .

Chapter 4059: Injured Devil Emperor

The three collected the blood of these demons and planned to wait for the return to Nantian City, where they were divided equally.

After dividing, the three left here and continued to lurk and hunt the devil.

In a blink of an eye, another half month passed.

In the past half month, the three people's gains were not great. After all, they had no battle line, they could only hunt down single orders or a relatively small number of demons.

But during this time, they encountered fewer and fewer demons.

Lu Ming they estimated that it should be the Tiangong side, completely prevailing, and hunted most of the demons.

In addition, it is estimated that the remaining demons have retreated to the depths of the magic island of the stars. Lu Ming and the three did not intend to go deep into the magic island of the stars to participate in the war there.

Now they are out of battle. If they encounter a large number of demons, or meet the demons of Divine Emperor Realm, they do not know how to die.

The three plan to spend a few days in the magic island of the stars, and if there is still no gain, they will return to Nantian City.

On this day, they were walking on the bottom of the lake.

Suddenly, Dandan stopped and said, "In the tens of thousands of miles in front, I feel a devilish reaction, but it looks very weak..."

Dan Dan has been arranging to detect the demons around him.

"How many demons are there?"

Lu Ming asked.

"Unclear, shielded by that layer of evil spirit gas, but the magic energy is weak, and the devil's cultivation behavior should not be strong!"

Once and for all.

"Then check it out!"

Lu Ming said.

Immediately, the three of them were pointing in the direction of their direction. Soon after, they saw a cave at the bottom of the lake, and the evil spirits emanated from the cave.

However, I feel that the evil spirit is not very strong.

"There are indeed demons. I didn't expect that there are demons hiding in this cave. It seems to be hiding from the killing of the powerful in the palace..."

Lu Ming said.

"No good, rewind, this is a devil-level demon!"

Suddenly, the bone demon's voice sounded.

what? Devil Emperor Demon?

Lu Ming was shocked.

"Retreat!"

Lu Ming shouted.

"Hey, now I want to retire, it's late!"

An indifferent voice came out of the cave, and then a violent evil spirit rushed out of the cave, and like a storm, it blew three people to the landing and swept in.

Powerful and scary!

"Block it!"

Lu Ming shouted.

However, the demonic energy rushed too fast, and they did not prepare before. At this moment, it was already too late to take out the big killer. In a hurry, they could only inspire their body soldiers to resist.

Boom!

Several roars in succession, Lu Ming's figure was blasted out.

Fortunately, Lu Ming had a second-class warrior armor that completely blocked this force.

Ling Yuwei and Dan Dan, however, looked pale, and spit out blood.

Ok?

Lu Ming was quite surprised.

Because the power of this blow is much weaker than he thought.

Bone Demon doesn't mean that the cave is a Devil Emperor level demon. The Devil Emperor level demon cannot have such a little attack power. He can block it normally, but Ling Yuwei and Dan Dan can't stop it or die. Seriously injured.

But now, Dan Dan and Ling Yuwei have just received some minor injuries.

This is a bit strange, is this the power of the Devil Emperor level?

"Huh? The three little guys in Tiangong are a bit powerful?"

There was also a voice of doubt in the cave, and then, the black shadow flashed, and in front of Lu Ming, a tall and burly figure appeared.

This is also a demon, but the figure is more burly, surrounded by the evil spirit, very rich, and a terrible coercion radiated from him.

Devil Emperor!

This is definitely the devil's level of coercion, because the previous three have experienced the devil-level demon's coercion. The demon-level demon also defeated the angel clan's battle array, and the devil-level coercion in front of him ,very similar.

However, this devil's breath is very weak.

Because, in his heart, he has a translucent hole in the front and back, and inside, there is a golden light, which is constantly corroding the demon's body.

That's Buddha light!

The three recognized at a glance.

Lu Ming finally knows why the demon just hit that just now, why was he not so strong, because the demon was hit hard and was injured by the masters of the Buddhism.

Apparently, the demon hid in the cave to heal and was discovered by them.

The demon's eyes, like copper bells, stared at the three people, and turned back and forth, showing greedy color in his eyes, and roared: "Peerless demon, the Peerless demon of the three heavenly palaces, absolutely make up, if you eat you, my The injury can be healed soon, and even repairing it can take a step closer, ha ha ha!"

Fiery and greedy!

This devil's eyes are more and more greedy.

Although he did not kill the three Lu Ming just by one move, he was not surprised. This proved that the three Lu Ming were peerless evildoers.

As long as he ate them Lu Ming, it would be very beneficial to him.

And Lu Ming's cultivation ability is so high, no matter how strong he is, he has been hit hard, but he is also confident enough to easily win Lu Ming.

boom!

As soon as the words fell, the evil spirit of his body exploded in madness. The burly demon body rushed to the landing trio. The demon lord, tearing the void, grabbed Lu Ming and the three of them.

Even if the demon was seriously injured, the power of the shot is still amazing.

Without any hesitation, Lu Ming directly took out the Bingxuan stick, and the forbidden power of the whole body poured into the Bingxuan stick and blasted out.

At the same time, Ling Yuwei also took out the **** elven king bow and shot an arrow with all his strength.

At this moment, Dan Dan also tried his best. A large number of runes appeared on his body. His eyebrows were glowing, and a word came out vaguely.

That is a word of 'array'.

The word and shadow flashed away, and Dandan burst out more runes, forming a battle, a giant turtle, emerged, roared like a dragon, and rushed to the demon.

Boom!

Three violent roars, full of vigor, and magical energy at night, then, a figure retreated backward, hitting the boulders below the lake bottom, the boulders exploded, and the lake water rolled up thousands of waves.

This retreating figure is a demon of the Devil Emperor level.

This made Lu Ming, Ling Yuwei, Dan Dan three people a little dazed.

So weak?

Is this still a master of the Devil Emperor level?

They were so nervous that they tried their best. They were afraid that they could not resist the demon of the Devil Emperor Realm. Unexpectedly, in one move, the Demon of the Devil Emperor level was directly blasted away.

"This demon, the injury is too heavy!"

A thought flashed through Lu Ming's head.

They have seen the demon shot of Devil Emperor Realm before, the power is very amazing, one battle can defeat a battle array on the side of Tiangong, which is far from the strength at hand.

Chapter 4060: Devil Emperor desperately

In fact, not only Lu Ming and three people were stunned, but the existence of the Devil Emperor level was also stunned.

what happened? The little guys in the three heavenly palaces are so low-cultivated, why are they so powerful?

He doesn't know how serious his injuries are, but he exists at the level of the Devil Emperor. Even if the injuries are serious, it is as easy as sacking and extracting the existence of the Emperor Jiuzhong.

But just now, after a match with Lu Ming, he was blasted away.

how can that be? His mind suddenly turned a little bit.

However, the three Lu Ming have already reacted.

"It turned out to be a soft-feeling soft-leg shrimp, haha, kill him cold!"

When he laughed, he immediately launched a large array of attacks, condensing a huge turtle. This is the figure of the world's turtle. It is very huge, and it is pressed to the devil of the devil level.

Buzz!

Ling Yuwei pulled the bowstring again and shot an arrow.

Lu Ming waved Bingxuan stick and pressed towards the other party.

Yes, they shot directly, they want to slaughter this demonic level demon.

A demon of the Devil Emperor level, its demon spirit blood, can definitely exchange a large number of merit points, and it is definitely not comparable to the devil of God Emperor Realm.

Finally, I met a half-dead Devil Realm Demon, how could they miss it?

The attack of the three people was extremely violent and finally awakened the demon in the Devil Emperor Realm.

In an instant, his lungs exploded.

A few low-level **** emperor little guys actually want to destroy him first. This has never happened before.

Even if there is a Divine Emperor who dares to shoot him, that is at least the Peerless Ninth God's peerless evildoer.

But Lu Ming several people, how high is the cultivation base, the highest is only the fourfold of the Divine Emperor, which is too far away from the Divine Emperor Realm.

He roared, the magic energy exploded, and a devil's knife appeared in his hand, cutting three consecutive swords.

Three sword shadows appeared and collided with Lu Ming's attack.

The violent roar sounded, the three magic knife blades collapsed, and the demons of Devil Emperor Realm were once again blasted out, smashing a large number of boulders, spitting out several mouthfuls of blood in the mouth, and the injury was more serious.

The light of the Buddha in the hole in his chest was so bright that it made the demon's injury worse.

The second repelled and even injured this demon, so that Lu Ming's confidence increased greatly.

It seems that this demon is really at the end of the crossbow.

"I'll stop him frontally, Yuwei, you shoot with a bow and arrow.

Lu Ming voiced Ling Yuwei and Dan Dan, and then flew up, Bing Xuan stick blasted down.

At the same time, the gale of his left hand appeared, and the violent gale struck out, rushing to the demon in Devil Emperor Realm.

The demon of the Devil Emperor Realm shouted, holding back the injury, and the magic knife continued to cut out, slashing towards Lu Ming, collided with the strong wind, and then collided with Bingxuan stick.

boom!

when!

The two collided in a stroke, Lu Ming's body shook, the ice Xuan stick in his hand, buzzing and shaking, and backed away several steps.

After all, it is the demon of the Devil Emperor Realm. Even if it is hit hard, its strength is still amazing. Lu Ming still has to fall behind.

When Lu Ming retreated, the demon in Devil Emperor Realm wanted to kill him and kill Lu Ming, but Ling Yuwei shot an arrow. This demon had to resist Ling Yuwei's arrows and had no time to deal with Lu Ming.

And once and for all, he began to arrange a large array with all his strength.

"Damn!"

The demons in Devil Emperor Realm roared in their hearts, and their anger was skyrocketing.

"Several small debris, wait for me!"

The demon roared and wanted to escape.

It was a shame to be run away by a few low-level **** emperors, but he couldn't help it. He felt that if he stayed, he might be solved by Lu Ming and others.

But would Lu Ming let him easily escape?

Lu Ming held the Bingxuan stick and killed it with all his strength. At the same time, the gale inside the gale bead was constantly being pulled out without money.

Hurry!

The strong wind formed several tornadoes. The demon surrounding the Devil Emperor Realm, continuous attacks, plus Lu Ming's attack, for a time, this demon wanted to retreat, it was not so easy.

Even if he can retreat, he will be attacked by Lu Ming, his injuries will be more serious, and he will have to pay some price.

"Boy, you are looking for death, then I will fulfill you!"

The demon roared, his eyes grimaced, and he showed madness.

His body began to agitate. Inside, there was a bright red bone spur protruding from the flesh and blood, and his breath became a bit violent.

He directly pounced on Lu Ming, and the magic knife pierced Lu Ming.

when!

The magic knife once again collided with the ice mysterious stick. The ice mysterious stick vibrated endlessly and was struck to the side, while the devil's magic knife continued to cut towards Lu Ming.

Lu Ming did not retreat!

If he retreats, the other party will find a gap and escape.

Lu Ming couldn't avoid retreating, letting the magic knife cut on his body.

Buzz!

The second-tier sky armor's armor kept shaking without breaking.

After all, the opponent did not live up to the heyday's fighting power. For a time, he couldn't break the second-class sky armor.

"I think you can stop me a few tricks, kill!"

The demons of Demon Emperor Realm shouted frantically, and their breath actually improved a bit.

Obviously, he was completely desperate, using some desperate means. Generally speaking, such desperate means will have sequelae, but now he can't care about it.

With a magic knife and a claw in his hand, he attacked Lu Ming with a crazy attack.

In an instant, there were at least a dozen strokes that bombarded Lu Ming, but they were all blocked by the second-class sky armor.

During this period, Ling Yuwei also launched an attack, but was blocked by this demon.

Continuous attacks, even the second-class sky armor, consumes a lot of energy, and the resulting light dims.

However, Lu Ming still does not retreat.

"kill!"

Lu Ming Chang Xiao, the strong wind beads, the strong wind whizzed out, swept to the demon, and at the same time Bingxuan stick attacked again.

"See who can hold on!"

Demon Emperor Realm roared, regardless of his defense, continued to attack Lu Ming.

In the blink of an eye, it was another dozen moves, attacking on the second-class sky armor.

With a bang, at last, the energy of the second-class sky armor was exhausted, and the mask exploded.

But at the same time, Lu Ming's attack also fell on the demon.

This demon, although it is a demon in the Devil Emperor Realm, the demon body is extremely hard and the defense is amazing, but it cannot completely block Lu Ming's attack. A wound appeared on his body. The explosion exploded.

The demon in Devil Emperor Realm spit out a few more blood.

But his eyes were extremely unbearable, and he roared, "Give me death!"

Several bright red bone spurs on his body actually left his body and stab Lu Ming at an alarming speed.

He waited for this opportunity to break Lu Ming's defense and fight Lu Ming in one fell swoop.
