

D Emperor 4061

Chapter 4061: Kill Devil Emperor

The demon of Devil Emperor Realm desperately, the bright red bone spurs flew away from the body and shot at Lu Ming.

This time, the distance is too close, and the speed of the bone spurs is very fast, even if Lu Ming wants to avoid it, he can't avoid it.

In fact, Lu Ming has no intention of avoiding.

Puff puff...

Several bone spurs hit Lu Ming and penetrated through Lu Ming's body.

Some pass through the chest, some pass through Lu Ming's Dantian, and some pass through the shoulder...

A total of five bone spurs pierced Lu Ming's body into five holes.

Lu Ming's body was retreated with bone spurs and was nailed to a boulder.

"Hahaha, let me die, die!"

The demons in the Devil Emperor Realm shouted frantically, but the next moment, his eyes protruded, revealing incredible colors.

Because Lu Ming was fine, and his breath did not weaken.

boom!

Lu Ming burst out a powerful force, rushing the five bone spurs, and the wound on Lu Ming's body was healing quickly.

At this time, Ling Yuwei seized the opportunity, while the Devil Realm Demon was stunned, he shot an arrow with all his strength, and an arrow pierced the Devil Realm Devil's throat, making his injury more serious.

"A group of little monsters, go!"

The demons in Devil Emperor Realm really panicked and turned around and wanted to leave.

Unfortunately, his surroundings were covered with strong winds, and he was now weaker. For a time, he couldn't escape the strong winds.

Lu Ming held the ice Xuan stick and killed him again, struck out a trick with all his strength, staggering back the Devil Emperor Realm.

"Dan Dan, are you ready?"

Lu Ming sent a voice to Dandan.

This demon in the Devil Emperor Realm is really difficult to kill. He continuously urged the Ice Profound Stick with all his strength, which consumes a lot, and the strength is somewhat difficult to maintain.

I believe that Ling Yuwei is similar.

Continue, I am afraid that this demon will really escape.

"Okay, launch a full blow and kill this demon!"

Fortunately, Dandan gave good news.

I saw that the hands quickly pinched the seal, and the ground and the void immediately showed endless runes. These runes were woven into a large array, and the large array of lights glowed, and there were bursts of Buddha sounded.

At the next moment, in all directions, eight huge figures appeared, and the eight figures exuded golden Buddha light, just like the vajra of a Buddhist gate.

Once in a while, a large array of Buddhist doors was actually arranged.

Eight King Kongs, all shots, launched a fierce blow to the Devil Realm Demon.

At the same time, Lu Ming and Ling Yuwei also tried their best.

Lu Ming held the gale ball in one hand and pulled out the force inside a gale ball with all his strength, turning it into a wind blade and slashing towards the other party.

The other hand holds the Ice Xuan stick, and instantly inputs all the taboo forces into the Ice Xuan stick. The Ice Xuan stick suddenly becomes larger, and one stick blasts towards the other party.

Ling Yuwei also shot an arrow with all her strength.

The attack of the three men drowned toward the demons in Devil Emperor Realm together.

The demon pupils of Demon Realm contracted sharply, because in this move, he felt a fatal crisis.

Roar!

He growled, unwilling to be killed by a few little guys in this way, and fight with all his strength.

Boom!

A series of roars sounded, and then, a tall figure flew out like a meteorite, smashing the mountains at the bottom of the lake, the lake was turbulent, and the smoke was filled.

This figure flying out is naturally the demon.

Lu Ming, three people, flashed in shape, followed up quickly.

When they leaped thousands of miles away, they found that the demon in the Demon Emperor Realm was already lying on the ground, and his body was ragged. The breath is extremely slack, and it's already breathtaking.

Their eyes widened vigorously, staring at the three people, and their eyes revealed deep unwillingness.

It seems that he did not expect that his generation of Devil Emperor would eventually die in the hands of the descendants of the three Divine Emperor Realms. If it spreads, he will be laughed at after death.

"Get on the road!"

Lu Ming spoke indifferently, stepped on it, and a magic sword appeared on his foot, which was a great magic sword technique.

Poof!

The Demon Sword completely killed the demon in this Demon Emperor Realm.

Hurry!

The three were relieved at the same time.

The strength of the three of them is indeed extremely powerful. With the addition of the big killer, the existence of God Emperor Jiuzhong is beheaded, like chopping melons and vegetables, but compared with the existence of the level of God Emperor Realm, there is still a big gap. .

Divine Emperor Realm, even in the entire wilderness universe, it is a first-rate master.

Many powerful universe-level forces, or some relatively powerful races, do not have Divine Emperor Realm.

Only those powerful races on the Honghuang Wanzu list have the presence of Divine Emperor Realm.

This level is much stronger than the God Emperor.

Fortunately, it was also the demon of the Devil Emperor Realm, which was severely damaged by the masters of the Buddhism, and its strength was weak. Otherwise, even if the three of them joined forces, it would definitely not be the opponent of the Devil Emperor. Can't escape.

Afterwards, the three removed the demon spirit blood of Demon Realm Demon and quickly left here.

After finding a place, the three people recovered their interest rates, and when the state returned to their peak state, the three of them left in the direction of Nantian City.

Soon after, they successfully returned to Nantian City.

Returning to Nantian City, Lu Ming went to a **** general to report what happened to the magic island of the stars. Naturally, he would not say that his team members were killed by the Yinling people.

You should know that although the people of the Yinling clan killed his team members, he also killed the three masters of the Yinling clan. One of them is still a peerless demon of the Yinling clan.

They shot, although it belongs to the defense, the Tiangong should not blame, but the peerless arrogance of the Yinling Clan has been killed. If the people of the Yinling Clan know, most of them will not let them go, and they will always face the Yinling Clan in the future. Killer, that would be more troublesome.

Lu Ming will not speak out, he is just that they were defeated by the demon strong, and everyone else died, leaving only the three of them.

God will not have any doubt, after all, such a thing is too normal in the fight with the devil.

God will comfort Lu Ming and said: "Captain Muyun, do you need to add troops to you?"

His team was broken up, so he could continue to replenish his troops, regroup into battle fronts, and defend one side of the wall.

However, there is another option, that is, choose not to be the captain, choose to act alone, and hunt the devil alone.

This is generally a choice for those survivors after a team is destroyed.

However, most people still choose to form a team. After all, forming a team can form a battle array. It has amazing power. When fighting with the demon, it will be much larger and will hunt enough demon spirit blood.

Not only is it more dangerous to act alone, the efficiency of hunting demons is also much worse.

Of course, some people will choose to act alone, and those people generally have confidence in their own strength.

Lu Ming chose to act alone!

Chapter 4062: Level 5 area and Tianren

Lu Ming chose to act alone and was betrayed once, but he didn't want to be betrayed a second time.

If you form another team, it is difficult to guarantee that you will not be betrayed again.

He intends to stay with Dandan and Ling Yuwei alone to hunt down the devil during this period of time. Even if the efficiency is lower, is it safe and secure?

Having said this idea, God will readily agree.

Returning to the place where he lived, he merged with Dandan and Ling Yuwei, and then they moved away from here and came to live on another section of the city wall.

Afterwards, the three men took out the demon spirit blood that had been hunted this time and took a count.

This time, the harvest is very huge. Most of the demon spirit blood comes from the devil above the seventh level of the emperor. It will definitely be exchanged for success points.

However, without going to the well of merit, they do not know exactly how many merit points can be exchanged.

Now, they can't return to Dream City to redeem merit points. They need to stay in Nantian City for a hundred years.

After the three men ordered the Demon Spirit Serum, they split it equally.

For the next half month, they have been practicing in Nantian City. They are calm and no one comes to them for trouble.

I want to come, all the angels are dead, no one knows that they did it.

Although, there are many angels among the heavenly soldiers, far more than those fifteen people.

But relatively speaking, the most hostile to them is the team, such as Lafayette.

Once these people die, they should have a quiet day.

Half a month later, the three of them set off again and left Nantian City to another third-level area to hunt down the demon.

...

The next time, Lu Ming and they, all three acted, hunted the devil in secret.

The three of them joined forces, with Lu Ming and Ling Yuwei as the main attackers, and the formation of the battlefield was once and for all. In fact, the efficiency is not too bad. Although the speed of demon hunting is not as good as those of a team, it is not the same. too much.

The key is that the demon spirit blood they hunted has only three people. The demon spirit blood that everyone gets is not only a lot, but more.

Time rushed, and ninety years passed in a blink of an eye. It was only a few years before the century of guarding.

As soon as one hundred years have passed, they can return to the City of Dreamland, transform the demon spirit blood accumulated on hand into merit points, and then they can exchange various treasures, or enter the fortification tower to enhance their strength.

It is worth mentioning that in the past nine decades, their strength has been improved.

Lu Ming's physique is special. After many battles between life and death, Xiuwei took a step closer and stepped into the fourfold of Divine Emperor.

And Dandan, because he was at the limit of the Divine Emperor's double before, after more than ninety years, he also made a breakthrough, and the cultivation of the Divine Emperor entered the Divine Emperor's Triple.

Ling Yuwei's cultivation practice also achieved a breakthrough and entered the Divine Emperor's Fivefold.

Since she got the sacred mother tree, her physique has been changed, and her cultivation speed is very amazing, which is not slower than Lu Ming.

It is worth mentioning that the ball has also broken through, and it has been broken twice to repair the practice, from the Divine Emperor's fifth to the Divine Emperor's seventh.

Because of this time, he devoured a large number of magic soldiers, especially Lu Ming originally exchanged meritorious services from the palace, and exchanged some broken magic soldiers, which helped the ball greatly.

In general, the strength of the three of them has skyrocketed, and hunting for demons is more handy.

On this day, they were hunting demons in a third-level area. Suddenly they received news from Nantian City. They retreated and returned to Nantian City.

Lu Ming, they were a little puzzled and didn't know why they had to retreat all, but in general, there must be something big happening. They didn't dare to stay and hurried away towards Nantian City.

When we returned to the southern city wall, we found a large number of soldiers returning from all directions.

All are celestial soldiers who hunt down demons from various areas.

After so many years of hunting, the low-level areas around Nantian City, such as the second-level, third-level and even fourth-level areas, have been almost completely cleared, and deeper, it is the terrible fifth-level area.

In the fifth-level area, there are terrible demonic dynasties entrenched. These demonic dynasties have terrible demons sitting in town, comparable to the heavenly king of the Tiangong.

The generals will not dare to go deep into the fifth-level area.

Nantian City opened the formation, countless soldiers of the sky, flew into the formation, and came to the wall of Nantian City.

Lu Ming They followed the crowd into the Nantian City and fell on a section of the city wall.

"What happened, why did all the staff retreat suddenly?"

"Yeah, we will be able to settle the third-level area soon. The devil emperors in that third-level area will be killed, and all of them will soon be won. Unfortunately, they temporarily retreated!"

Around, there was a lot of discussion, and many people were puzzled.

"quiet!"

At this moment, a majestic voice rang, spreading across the whole city wall, and the scene suddenly became quiet.

Suddenly a figure appeared in the sky.

These figures, the breath is extremely strong, like a sea like a sea, terrifying.

Divine Emperor, all of them exist in Divine Emperor Realm. There are **** generals wearing battle armor and Tianguan wearing white robe.

The number is not less than one hundred and they are all gods with higher ranks.

Everyone's heart sank, and many showed dignified colors.

Hundreds of **** generals were dispatched at once, which is absolutely unusual.

"According to reliable information, in the depths of the dark universe, a large number of demonic legions are appearing, and they are coming towards Nantian City. It should be the demon of the fifth-level area!"

A burly **** will speak.

This **** general looks very heroic and handsome, with long golden hair scattered, and his momentum is very terrifying.

Obviously, the identity of this priest is unusual, even among hundreds of priests, they are among the best.

"Heavens!"

Lu Ming's eyes narrowed slightly, and a thought flashed in his heart.

That's right, he will never be mistaken. This **** will be the Celestial Clan.

At the beginning, when he first met the pantheon, he was hunted down by some terrible existences. Those existences were evolved after the death of the powerful Celestial Clan, and they are not really Celestial Clan.

The true core of Tiangong is the Celestial Clan.

It can be said that the Tianren race created the Tiangong.

The Celestial Clan is not one of the top ten races, because they are high above, overlooking all races, no race, can be compared with him.

However, it is said that the number of the Celestial Clan is very small, but the strength of each one is very terrible, and any one is placed in the Honghuang Universe, which is the existence of the top level of Tianjiao.

Lu Ming entered the Tiangong for so many years, and it was the first time he saw the real Celestial Clan.

"Devil Legion?"

"Devil in the Level 5 area!"

"Could it be that a magic wave broke out?"

Many people exclaimed.

Every time, the army of demons in the five-level area comes to attack Nantian City, which will be very scary, and is called a magic wave.

Chapter 4063: Demon Siege

Every time a magic wave erupts, it is destined to break out of a world war, and the fight is extremely tragic.

"Yes, it's a magic tide, and this time the magic tide is not a small one. It is likely that more than one level 5 area is dispatched, so now, arm immediately and check all formations to make sure you are foolproof!"

The gods of the Celestial Race will shout.

Many people are thrilled in their hearts, and there is more than one fifth-level area demon shot. The situation is worse than expected.

Then everyone started to act.

Those assigned to guard the section of the city wall will return immediately to guard the section of the city wall.

The three Lu Ming acted alone, so they were randomly assigned to a section of the city wall and hunted the devil as much as possible.

The speed of the sky soldier is very fast. After a while, the defense is arranged, and then staring at the distance one by one, waiting for the demon to appear.

Time, one minute and one second passed.

Buzz!

Suddenly, the ground and the sky in front seemed to tremble, and then there was a terrifying breath coming from a distance.

Depression, the breath suddenly became extremely depressed, as if there was a terrifying beast in the distance, coming towards this side.

Everyone's heart is raised.

boom!

Boom!

Immediately afterwards, there was a violent roar, and the sky in front of it became dark, that was the evil spirit.

The gas of Mosha, like the tide, rushed towards the side of Nantian City.

In the evil spirit, there are countless demons.

Countless demons, covering the sky and the sun, holding all kinds of weapons, roaring like thunder, killing like waves.

Too many, countless demons, all looking around, all are demonic forces, boundless, I don't know how many.

And some of them have extremely terrifying breath, these are all demons of Devil Emperor Realm.

At a glance, I saw hundreds of demons in the Demon Realm.

"How can there be so many demons? Is this a demonic that has dispatched several level 5 areas?"

Many people's faces changed wildly.

With so many demons and so many demons in Demon Emperor Realm appearing, it is definitely not possible for a demon dynasty in two five-level areas to be dispatched. It is definitely that multiple demon dynasties are dispatched together!

"ready!"

In the high sky, the gods of the Celestial Clan will drink.

"Strategy, ready to shoot!"

On the wall, many first-class soldiers shouted.

There are more than a hundred Divine Emperor Realms on the Tiangong side.

The existence of hundreds of Divine Emperor Realms appearing in the high sky, they are all **** generals, and the existence of Heavenly Officials.

Those who can reach the level of **** general or heavenly official are all strong among the strong, even in the realm of the **** emperor, they are all strong.

Most of the first-class sky soldiers are Divine Emperors, only weaker Divine Emperors, but the number is not small.

Rumble!

The sky and earth roared, the sun and the moon were dark, and the Demon Legion was getting closer and closer to Nantian City.

"Kill, kill the creatures of the vast universe, and destroy the Tiangong!"

"Destroy the Celestial Clan!"

"Hunt all these losers and fugitives!"

A roar came from the Demon Legion. Numerous demons roared and rushed towards the South Sky City.

It's near!

The distance between the two sides is getting closer.

Soon, the distance between the two sides is only thousands of miles away.

At this time, the demon launched an attack.

咻咻咻...

Numerous attacks, dense and dense, covered the sky and rushed towards the Nantian City.

"Great array, get up!"

In the Nantian City, the **** of the Celestial Clan will give orders.

The walls of Nantian City glowed, and a mask appeared. All the demons' attacks fell on the mask. The mask kept shaking, but it was blocked by the mask.

"Kill the battle, get up!"

The **** of the Celestial Clan gave orders again.

Runes permeated through the walls of each section, the glow of the sun continued, and a large array emerged. This time, it was the killing array.

The killing array condensed all kinds of divine light and shot at the demon army like arrows.

However, the Demon Legion also laid out a large formation, and a mask formed by the layers of the evil spirits formed to block these attacks.

The first wave of shots from both sides did not cause any damage, and the distance between the two sides was closer.

boom!

In the end, the Demon Legion hit the mask outside Nantian City heavily. At this moment, the whole Nantian City felt vibrated.

"Concentrate a little and tear this formation!"

"attack!"

On the demon's side, all the demon's attacks, gathered in groups, many of the demon's attacks specifically attacked a point, wanting to tear the formation, and killed into the Nantian City.

Among them, many demons in the Devil Emperor Realm also shot, and the power is very terrifying.

The large array of light masks is more shocked.

If this continues, a tear will be torn apart, which cannot be avoided.

"bombardment!"

"Kill the devil!"

The soldiers on the wall also shouted and launched an offensive.

Most of the Heavenly Soldiers form battle fronts, condensing a brilliant golden sword light, slashing outwards and slashing to demons.

Lu Ming did not take action, and now both sides are attacking with arrays. The power is too strong. Even if they attack with their cultivation base, they will not have much effect.

Boom!

The horror roared continuously, as if ruined.

There are too many masters. So many masters are fighting fiercely. If it happens in the vast universe and the starry sky, it will produce a devastating disaster.

Large areas of starry sky will be annihilated under such an attack.

However, the dark universe is very special, everything is much more stable than the wilderness universe, and the damage caused will not be as great as the wilderness universe, but the ground is also constantly bursting, the void becomes chaos, and the scene is terrifying.

Finally, after fighting for a while, the formation in the eastern area of Nantian City was torn apart by the demon.

"Kill in!"

There was a roar of excitement from the demon, and countless demons rushed in crazy through that mouth and killed the city wall.

"kill!"

Heavenly soldiers roared on the wall, attacked with battle formations, the golden sword light shone, and slashed out, and suddenly a large demon was killed.

However, there were too many demons, and they rushed in continuously.

The demon can't be compared with the Tiangong in the rune formation, so after the rush to kill, the demon formation is not very delicate, most of them are fighting each other.

Unless in their own territory, the formation of a large array has long been established, so that the devil can rely on the formation method to exert powerful power.

On the side of the sky soldier, relying on the sky armor, they can launch the power of the battle array at any time.

However, there are too many demons and they are not afraid of death. They rushed in and rushed in. There were even demons in the Devil Emperor Realm.

"Fuck me!"

A demon in the Demon Emperor Realm rushed into the crack and chopped it out, blasting a large formation, and most of the sky soldiers were blasted alive.

Tragic, casualties began to appear on both sides.

"court death!"

A first-class sky soldier, glowing all over, wielding a war sword, killed the demon in this Demon Emperor Realm, and the two sides launched fierce fighting.

Chapter 4064: Was spotted by the devil

The two sides fought fiercely and began to suffer casualties.

Moreover, with the fierce attack of the demon, the formation of Nantian City, in many places, were torn apart by cracks, and the infinite demons rushed in from these cracks and waged war with the heavenly soldiers.

Buzz!

Lu Ming's formation on their side also produced violent fluctuations. Under the attack of countless demons, the formation was shaken endlessly. Finally, a crack appeared.

"Kill!"

A large group of demons roared continuously, rushed in through the cracks, and slain the heavenly soldiers.

The soldiers on the wall immediately launched a counterattack, arranging to kill the enemy, and the two sides fought fiercely together.

There is also a demon who killed Lu Ming and others.

As the footsteps stepped continuously, dense runes appeared on the ground, a large formation formed, and turned into chains, entangled a dozen demons, then, Lu Ming took out the gale beads, the gale wind roared, swept through , A dozen demons were killed by gale on the spot.

In such a battle, Lu Ming did not intend to take out the ice Xuan stick, it was too laborious, it would not take long at all, and it was far from the practical use of gale beads.

Although Ling Yuwei took out the **** elven king bow, she did not use all the power to control it, but only inspired the power of Divine Emperor Jiuzhong. In this way, she could use many moves.

The three teamed up seamlessly, and quickly hunted dozens of demons, and the results were quite fruitful, attracting the attention of other demons.

"The arrogance of a few wilderness universes is mine!"

A blood-red demon, with a hot light in his eyes, rushed to the landing trio.

This is the flame demon!

This kind of demon is a special demon among the demons, and its strength is very powerful.

It hasn't rushed, the hot breath has already rushed to the landing Ming three people.

Huh...

The strong wind bead turned into a wind blade, slashed towards the demon, with a bang, collided with the demon, bursting earth-shattering roar, but Lu Ming did not kill the demon, the wind blade formed by the strong wind was blocked Too.

"Good strength!"

Lu Ming's eyes moved.

This flame demon, cultivated as the Divine Emperor Jiuzhong, but the combat power is very strong, far more than the ordinary Divine Emperor Jiuzhong, obviously a devil Tianjiao.

You should know that Lu Ming's current cultivation practice has reached the fourfold of the Divine Emperor. The improvement of cultivation practice means that he can draw stronger power from the gale of wind, but he is still blocked by this demon, showing his combat power. Powerful.

"Boy, it's no use relying on foreign objects, let me die!"

This flame demon roared, his body was shrouded in flames, his claws were constantly being pulled out, and his body slammed toward the landing like lightning.

call out!

Ling Yuwei shot, and an arrow shot at the demon.

This arrow, although Ling Yuwei did not fully urge the **** elven king bow, but also inspired a part of its power, not weaker than the strong wind blade just now.

The Flame Demon, who dared not underestimate, grabbed it with one paw and also blocked the arrow.

After blocking, his pair of demon wings chopped out continuously, slashed towards Lu Ming, and was blocked by Lu Ming with gale beads.

However, this demon showed a terrible color, and took the opportunity to approach Lu Ming. The devil clawed towards Landing Ming's head. However, an arrow shot at him. This arrow, the power is more terrifying.

Ling Yuwei shot with all her strength, and the flame demon's face changed, and at the critical moment he cut the arrow of Ling Yuwei with the demon wings.

With a loud bang, his demon wings were directly pierced through a hole and retreated.

Ling Yuwei shot with all her strength, and the attack power was still above this demon.

When the demon was injured, Lu Ming took the opportunity to kill the past, the strong wind swept out here, turned into a wind blade, and cut out.

With a pop, a demon head flew high.

This devil is arrogant, die!

At the moment of beheading the demon, Lu Ming grabbed it with his palm and grabbed the demon spirit blood of the demon into his hands.

The performance of the three Lu Ming immediately attracted the attention of the devil over the devil.

"court death!"

A strong man in the Devil Emperor Realm, stretched out and grabbed, three claws burst out of the shot, and arrested three people at Landing Ming.

This is the Devil Emperor Demon in its heyday, its strength is unfathomable, and it is terrifying at the first shot.

The three Lu Ming only felt that their heartbeats were accelerating and their hairs were standing upside down.

Unstoppable!

Facing the Devil Emperor in the heyday, even if they tried their best, they could not resist.

In particular, Ling Yuwei and Dan Dan, with only third-class warrior armor, could not resist the attack of the Devil Emperor.

However, they are already prepared.

On the ground, suddenly the dense runes crawled out, covering the bodies of the three people. Then, the bodies of the three people became blurred. When the demon attack of the Devil Realm attacked, the three of them directly from the place Disappeared and appeared dozens of miles away. The attack of Devil Realm Demon naturally fell through.

"Formation!"

The devil in Devil Emperor Realm shone with cold light in his eyes.

Yes, formation!

As long as the Demon Army had not yet been killed, the formation of the formation was secretly started, of course, all of them were escape formations.

In such a battle, it is useless to arrange killing arrays. How many demons can you kill? Inside the demon, the master is like a cloud, you kill the strong, and there are stronger.

For example, they killed the flame demon Tianjiao, and immediately came to a demon in the Devil Emperor Realm.

Therefore, it is the kingly way to arrange the formation used for escape and to save life.

"Look at how you avoid it, kill!"

The demon in the Devil Emperor Realm seemed to be staring at Lu Ming three people. The claws waved continuously, and more paw prints were formed.

Wherever they passed, the battle array laid by one of the teams was directly exploded.

"In a blink of an eye, get up!"

Drank it every day and fully controlled the formation.

I saw, Dan Dan, Lu Ming, and Ling Yuwei's bodies exploded with a bang, and everyone turned into hundreds of figures, chasing everywhere.

Bump...

The claw shadow fell and the shadows collapsed. When all the claw shadows disappeared, the real bodies of the three Lu Ming showed up, but their faces were pale.

Although I avoided the other party's attack just now, it was dangerous and not easy.

It is not easy to escape in front of a devil in his heyday.

"Avoid it again!"

The demon in the Devil Emperor Realm, the killing in his eyes, is extremely strong.

Escaped from under his hands twice in a row, causing his anger to burn.

"I will tear you apart and bring them back to be my exquisite food..."

The demon of the Devil Emperor Realm roared, and the wings of the demon flew to the landing to kill them.

at this time...

call out!

A spear pierced the void and stabbed at the demon emperor realm, the power was terrifying.

Chapter 4065: Cunning day and night, big harvest

The spear broke through, the void was annihilated, and the power was terrifying. The demon pupil of the Devil Emperor Realm contracted, and he could not kill Lu Ming and quickly waved his claws to resist.

when!

The earth-shattering roar sounded, and the spear was blocked, but the demons of Devil Emperor Realm were also backed up again and again.

A big man in golden armor came from the sky, his momentum was like mountains, and his eyes were like electricity.

This is a first-class soldier and a divine emperor.

"Tangtang Devil Emperor, what is the ability to deal with a few little guys? I'll be your opponent!"

An indifferent voice emanated from the first-class sky soldier. His body was like a flash of lightning, and he instantly approached the demon of the Devil Emperor Realm. The spear penetrated the void and pierced the demon.

"Don't think I'm afraid of you, kill you together!"

The demon in the Devil Emperor Realm shouted and slayed with the first-class Sky Soldier.

The three Lu Ming breathed a sigh of relief.

Although their current combat power is already very powerful, after inspiring the big killer, bombarding the ordinary Divine Emperor Nine Heavy is as easy as chopping melons and vegetables. so much pressure.

Divine Emperor to Divine Emperor is a huge leap.

Divine Emperor Realm, the star nucleus in Dantian, turned into a star.

However, no matter how powerful the star is, there are limits, and the energy will be exhausted.

The Divine Emperor Realm, which is a star in the body, evolved into a black hole.

A black hole, leading to the eternal unknown, can borrow energy continuously from the other side of the black hole.

Theoretically, the energy of the Divine Emperor Realm is almost endless, even if it is a battle for thousands of years, it will not be exhausted.

Of course, this is theoretically speaking.

Therefore, stepping into Divine Emperor has stepped into the ranks of first-rate masters of the Honghuang Universe.

As for the God Emperor, that can only be considered ordinary in the vast universe.

However, the three quickly calmed down and killed the other demons.

They are confident. With their talents, it is a matter of time before they enter the realm of God Emperor, or even a stronger realm.

This fight, for two hours, during the fight, Lu Ming and they also encountered attacks from other demonic realm demons, and they were forced by them dangerously and dangerously.

At the same time, there is also a lot of Divine Emperor Realm on the side of Tiangong, which will go against the Devil Emperor.

This fight was extremely tragic and bloody, and a large number of people fell on both sides.

However, the Tiangong side occupies the terrain, there is a large array to resist, the number of people lost is much less than the demon side.

The loss of demons is at least three times that of the Tiangong side.

Boom Boom Boom!

Two hours after the fight, a deafening drum war sounded on the far ground.

"retreat!"

Among the demons, there was a roar.

Then, the demon quickly retreated, and these retreating demons will take away the demon's body.

The black-pressed demon quickly retreated, and in an instant, disappeared into sight.

Everyone was relieved at the walls of Nantian City.

Faced with such a war, no one can survive with confidence.

The main reason is that there are too many demons, and the masters are like clouds. Even if the battle array is laid on the side of the Tiangong, the loss is great, and the battle arrays are burst.

"Unfortunately, with so many demon corpses, how much demon spirit blood?"

Someone sighed.

There was countless demons in a fight just now. I don't know how many demonic spirit blood, but in the course of the war just now, who still wants to collect demonic spirit blood?

Where dare to be distracted, in such a big war, distraction is death.

Later, when the demon retreated, most of the demon corpses were taken away, which made people feel helpless.

"Dan Dan, how is the harvest?"

In a humble wall, there are three people, but they are chatting about the harvest.

These three people are naturally three Lu Ming.

In the previous fight, Dandan had almost no shot except to help them escape with the formation method, because he was collecting demonic spirit blood.

Based on his attainments in the rune formation, it can be said that the gods are haunting and collecting demon spirit blood in the dark.

Collect not only the demons killed by Lu Ming and Ling Yuwei, but also demons killed by others nearby.

"Hahaha, the big harvest, the big harvest, is bigger than the sum of our previous ninety years!"

He laughed a lot, of course, it was a voice, and he did not dare to be blatant, afraid of being heard by others, and being killed alive.

"so much?"

Lu Ming and Ling Yuwei's eyes lit up.

More than ninety years of gains from the three people before. Sure enough, it is still in such a fierce fighting that they can make a fortune.

Although the previous war was dangerous, it was worth it.

"Hey, even the demon spirit blood of Devil Emperor Realm, I got a drop!"

A triumphant look.

"Attention, all **** generals, first-class soldiers, convene your men, re-arrange the team that has been disabled, re-divide, and form a complete team..."

In the high sky, the **** of the Celestial Clan will order.

Immediately, God will be dispatched with the first-class soldiers to gather people from various sections of the wall and then redistribute them.

Because, before some teams were disabled, they could not be formed, and they had to add manpower.

This time, the three Lu Ming did not believe in wanting to act alone, and were forced to be transferred to a team.

Although it is a temporary team, without training, it is impossible to fully explode the power of the battle array, but it is also stronger than the respective actions.

The three Lu Ming can only sigh.

They also want to continue to secretly collect demon spirit blood in the later battles, and now it seems that this plan will not work.

In the battle front, once and for all, he couldn't collect the blood of the demon spirit in a haunted way.

Although it is a pity, there is no way.

The efficiency of the Tiangong side is very fast. Soon after, the team was reorganized.

"According to the news, the demon army has not retreated, but camped out hundreds of millions of miles away. It seems that it will continue to attack. Everyone will be up and ready to fight!"

"The new team just formed, step up the drill and get familiar with the battle!"

In the high sky, the **** of heaven and humanity resounded in all directions.

Many people have a bad look, and the devil has not retreated. It seems that the previous retreat is only a temporary retreat and will come back.

The tragic war is not over.

Lu Ming and these newly formed battle fronts began to practice and become familiar with the battle fronts.

They didn't wait too long, just one day later, the demon army killed again.

The two sides launched a fierce fight, and this fight took another two hours before the demon retreated.

However, these demons did not withdraw their old nest, but stationed hundreds of millions of miles in Nantian City.

This makes many people look ugly and at the same time very puzzled.

In the past, the demons would gather together and attack the Nantian City overwhelmingly, but they would generally retreat and return to the old nest. However, this time, they could not be attacked repeatedly, but they did not retreat.

Chapter 4066: God Lord Demon Master Battle

In the next few days, the Demon Army attacked Nantian City five times.

After five times, the demon army still did not retreat, stationed hundreds of millions of miles away, but did not attack again.

The demon did not attack, and the Tiangong side naturally would not take the initiative to attack. The stalemate on both sides was more than ten days.

For more than ten days, the demon army has not attacked again.

This makes many people feel very heavy, do not know what the idea is to fight the devil.

boom!

Rumble!

On the eleventh day, the direction of the demon garrison suddenly came a roar of terror, as if ruined.

Then, a terrible, dull atmosphere, like a vast wave, came over the sky.

Everyone's face changed greatly, including the existence of Divine Emperor Realm. The look of terror appeared in his eyes, just like a ants, facing a huge wild beast.

"Look, what is that?"

Suddenly, someone exclaimed, yelling at the distant sky.

In fact, without his calling, everyone saw it.

In the distant high places, the void is like a wave of water, constantly shaking, and sometimes a space crack will appear.

Through the cracks in space, they found a figure inside.

This figure is incomparably huge, wearing war armor, blonde hair flying, and a terrifying breath, like a tide flowing out, the body is bigger than a star.

"Tianjun, Master Tianjun!"

High above the sky, the **** of the human race will roar and be very excited.

Everyone was shocked.

Tianjun is not a state, but a name in the Tiangong and a position.

However, all who serve as Heavenly Kings must be characters above the Divine Emperor.

Above the Divine Emperor, the Divine Lord!

The person who acts as the heavenly king must be a character in the main realm of God, and must be a human race.

Other races, even if they hold positions in Tiangong, and reach the divine realm, they cannot take the position of Tianjun.

Everyone never imagined that even Tianjun shot at Tiangong.

Roar!

At the next moment, in the crack of space, a horrible roar sounded, and everyone saw that a huge demon appeared, with a huge body, and killed the Tianjun. The two sides made a move, and the void suddenly turned into chaos.

The figure of Tianjun and the demon also disappeared.

"Devil in Demon Realm!"

Many people took a breath.

The demon that just flashed away is definitely the demon of the demon's realm.

The devil is equal to the deity.

Heavenly King and the Devil Lord, a war broke out.

boom! boom!

The high altitude, the constant roar came, and the pressure of terror made everyone feel difficult to breathe.

Fortunately, the void is far enough to meet here, and the battle between the Heavenly King and the Demon Lord is within the crack of the space, and has not spread to the Southern Sky City. Otherwise, the consequences are difficult to predict.

No one thinks that the formation of Nantian City can block the attacks of the main characters of the gods and demons.

Suddenly, there was another violent fluctuation in the void, and a space crack appeared.

This time, everyone's heart was mad again.

Because through the space cracks, everyone saw a huge figure.

However, this figure is not the heavenly king or the demon I saw just now, but an angel.

A twelve-winged angel, six pairs of wings spread, the Holy Light shines across the heavens, the breath is terrifying.

Needless to say, this is also a god-lord character, and the angel of this god-lord realm is also fighting a demon of the demon-lord realm.

There are more than one gods who are sent out to be powerful.

What's happening here?

The existence of God's main realm is rarely shot, but now, two statues suddenly appear.

But soon, everyone knew they were wrong.

There are more than two figures in the main state of God sent out.

Because next, the void will flash a few times from time to time, and through the cracks in space, they have seen the God Lord, no less than five.

Yes, at least there are the existence of the five gods in the main realm. Among them, two are heavenly kings, and the other three are world-class powerhouses of other races.

On the other side of the devil, there are no less than five demon masters.

In that void, there was a real scuffle of God's main realm.

What the **** happened?

Not only ordinary ordinary soldiers have a stunned face, but even those **** generals and heavenly officials have a stunned face.

What is it that will lead to so many 'master' level battles?

However, in this kind of war, they simply can't get in the way. Even if the character of the peak of the Divine Emperor goes up, they will be destroyed and destroyed by the terrifying energy in an instant, ensuring that no scum will remain.

The crowd waited in doubt for half an hour.

Suddenly, the void calmed down, as if nothing had happened. Obviously, the terrible war was over.

Everyone looked at each other, not knowing the outcome of the war between the two sides?

"Everyone, defend in situ, be alert!"

The Celestial God will roar.

...

In a dark void, this place is extremely dark, and the violent turbulence of the void rages at will.

In this extremely dark space, there are more than a dozen huge and endless figures, facing each other.

There are six people on each side.

On one side are demons. The six giant demons are all in the existence of the demonic realm.

On the other side, there are six peerless masters in Tiangong.

Among them, three are Tianjun, and the other three are from the top ten races.

Both sides were wounded. Obviously, the battle just now was very tragic.

"In the heaven and earth tomb, an invincible master of my heavenly palace is buried, you demons, do not want to get involved!"

A Tianjun opened his mouth. He looked very young and handsome. His long blond hair was beating like a golden flame.

"Hahaha, ridiculously, there is also a strong man of my family in the heaven and earth tomb. According to me, your heavenly palace is not qualified to intervene!"

A blue demon with a whole body showed a greasy smile.

Tianjun of the Temple of Heaven sneered.

The other party was not wrong, they could not refute.

But the Heaven and Earth Tomb is so important to them, they must take it.

However, the devil is also determined to win, they have no certainty of victory.

"Well, how about we gamble?"

At this time, another Tianjun Road.

This Tianjun, also looks very handsome, but obviously softer, there seems to be countless wisdom in his eyes.

"Gamble, how do you want to gamble?"

A devil said.

"Even if both of us continue to fight hard, it is difficult to distinguish the outcome. How about letting the younger generation represent us?"

"The two of us, each sending some young Tianjiao, to fight, the victorious party is qualified to occupy the heaven and earth tomb, the losing party, how about giving up the heaven and earth tomb?"

The softer Heavenly King said.

"Oh, this sounds interesting, but what are the conditions for the younger generation's arrogance, for example, limited to God Emperor Realm, or, how old are they?"

A devil said.

Chapter 4067: Conditions set by the devil

"Of course, it is limited to God Emperor's Realm, God Emperor's Realm, neither high nor low, and the number of people is the largest. It will be more fierce if you fight it, how?"

The softer Heavenly King said.

"No, no, I don't think it's appropriate. I think that age should be restricted, so let's let the little ones under 50,000 years old play!"

The devil said.

"Under fifty thousand years old?"

Yin Rou Tianjun's face sank slightly and shook his head: "I think it's better to let the younger generation of God Emperor Realm play!"

He knows that in Nantian City, there are several young juniors of Divine Emperor Jiuzhong, which are extremely powerful. If young juniors of Divine Emperor Realm are allowed to play, they will have a greater probability of winning.

However, the demon side obviously disagreed.

Because, among the demons in this battle, they knew that there was a young arrogant who was very young, but the fighting power was terrifying, so they insisted on being within 50,000 years old.

The two sides could not dispute for a while.

"Well, let's draw. Which side we draw on is determined by which side, how?"

Finally, the softer Heavenly King said.

He also has no choice but to adopt this compromise method.

"It's almost the same!"

The six demons nodded.

Naturally, there is no cheating in the drawing of such people, and everything is arranged very well.

When the lottery was over, the six god-level characters on Tiangong's side looked very uncomfortable.

Because, they failed to draw.

The conditions are determined by the devil.

"Hahaha, let's follow our method. Three days later, the little guys under the age of 50,000 will play. Both of us will lay down an environment for them to fight in, which side will all be destroyed, or which side If you take the initiative to admit defeat, the other side will lose, and you will withdraw from the battle for the world tomb!

A demon master laughed.

When this was the case, the Divine Lord on the side of the Temple could only promise.

Immediately, they swear by the origin of life that the losers will never participate in the battle for the world tomb.

Even in the realm of God, God, and Demon, they will still be constrained by the origin of life, and dare not violate the oath of the origin of life.

Unless it is an old antique above the 'master' level, it is invincible.

After the two sides negotiated the details, the figure flashed and disappeared into this dark void.

...

Nantiancheng!

Nantian City, soon came the news, shocked everyone.

Everyone knows why there is a fierce battle in the presence of the 'master' level.

That is because: the world tomb!

It is said that before the endless years, it is far too long to know the specific years.

At that time, there was an invincible existence in the Tiangong, and a battle with the same level of existence among the demons. Finally, both fell. When the two sides were about to fall, they sealed each place.

That place is the world tomb.

The inheritance and treasures left by that kind of existence are really amazing. Even the 'master'-level characters can't resist the temptation and are so excited that they want to find out.

The 'master' figures on both sides have a big battle, regardless of victory or defeat, and in the end, set everything on the younger generation.

The two sides sent younger generations under the age of 50,000 to fight, entered a special venue, and launched a life-and-death fight.

When one side is killed, or 80% of the characters on one side admit defeat together, that side is considered lost.

The other party wins.

Hearing this news, all people under the age of 50,000 changed their complexions.

Needless to say, this battle will be extremely cruel.

When one side is killed, it is considered lost.

In other words, this is a life-and-death battle, and both sides must have one of them fighting to death.

If you want to admit defeat, you can also require more than 80% of the remaining characters in a party to agree, and no one or a few people will admit defeat.

In case of loss to the Tiangong side, all those involved in the war will be very dangerous.

How can this not make one's face change drastically.

Soon, everyone received the news and assembled in an empty city wall.

Soon the soldiers gathered in an empty city wall.

Uh, uh, uh!

In the sky, some figures suddenly appeared, these figures are some gods and heaven officials.

In the head, it is the **** general of the Celestial Clan.

The **** of heaven and human race, with eyes like electricity, swept across everyone, and then, after a while, a light door flew out and stood between heaven and earth, becoming huge.

"This is a light door for testing age. Everyone passes through this light door, starting from the left!"

God of Heaven and Humanity will say.

Some people look a little uncomfortable, knowing that this is the test age, but it is estimated that anyone under 50,000 years old will have to fight.

However, no one dared to violate the order.

Uh, uh...

Starting from the left, a large number of sky soldiers flew into the light gate.

The light gate is huge, and can accommodate at least thousands of people at once.

Most of the sky soldiers flew past the light gate, but some of them were blocked by a mysterious force.

The God of Heaven and Human race glanced at these blocked people and smiled, saying: "Very well, those of you who have not passed through the Gate of Light, are all under 50,000 years old, all stay, and those who pass through the Gate of Light, go back Let's go back to the original location!"

"Yes!"

Those who pass through the light gate are all over 50,000 years old and have left here.

Those who are within 50,000 years old are left behind.

There are constantly sky soldiers flying forward, and people are constantly blocked by the light door. Of course, the blocked ones occupy the minority after all.

Soon, it was Lu Ming's turn.

Lu Ming, Dan Dan, and Ling Yuwei flew towards the Gate of Light.

When Lu Ming approached the Gate of Light, he was blocked by a force. This force was vast and condensed. Lu Ming couldn't rush through it. He knew that it was impossible to rush past. This is mostly the power of God's master level.

He found that Ling Yuwei was also blocked, but unexpectedly, Dan Dan passed the light door.

Lu Ming turned to think about it and understood.

That's because Dandan's age is over 50,000 years old.

When he was in Yuanjie, he was born from the egg, not really just born, but Nirvana was born again.

He was seriously injured and turned into an egg, the most important thing is to heal.

Although his physical body was reborn, his soul is one of the ten strongest war beasts in the heavenly realm. He has lived for a long time, and it must be more than 50,000 years old.

"Lu Ming, you have to be careful, I can't be with you anymore!"

Dan Dan sent a voice to Lu Ming, his eyes showing concern.

"Don't worry, you guys don't know me yet? How could I be okay, it's the demons."

Lu Ming responded with a smile.

"Those who pass the light gate, go back to their respective walls, if they don't pass, stay!"

The voice of the **** of heaven and human race sounded again.

Dandan can only follow the crowd and left here.

Lu Ming and Ling Yuwei stayed here.

Chapter 4068: Temporary Planet, Land of Nature

Soon after, everyone checked, and finally, about three thousand people remained.

You know, all the heavenly soldiers are at least about one million, and finally only three thousand. This ratio is really not high.

The main thing is, there are too few people who can reach the God Emperor Realm and become Heavenly Soldiers if they are within 50,000 years old.

Those who can achieve such achievements at this age are undoubtedly geniuses among geniuses.

Three thousand of them stayed.

"I believe the general situation, you already know, but, specifically, I still want to tell you."

"This battle was decided by the Master Tianjun and the Demon Lord. Both sides sent Tianjiao up to 50,000 years old to enter a special scene to carry out the battle. The condition of victory is to kill the other party, or let the other party die. Over 80% of people admit defeat!"

"But the latter one, it is almost impossible for more than 80% of the other party to admit defeat, because everyone is scattered, and it is very important to want more than 80% of the people to admit defeat at the same time. It's hard to do, so if you want to win, you only have to kill the other party!"

The **** of the Celestial Race said.

Many people look even more ugly.

Only by killing the opponent can you win, then the same is true for the devil. Only by killing them can the demon win.

Needless to say, this will be a particularly tragic war.

Endlessly!

"Master God, I have been feeling unwell recently, can I quit!"

"Me too, I am at a critical moment of breakthrough recently, I am afraid I can't play it perfectly!"

Many people spoke and wanted to quit.

"Want to quit, okay, ask Master Tianjun to talk!"

The **** of heaven and human race will say coldly, a cold light flashes in his eyes.

Those who talked had ugly faces and joked to find Tianjun. This was Tianjun's order. To find Tianjun, this was to find death.

Moreover, in their identity, can you see Tianjun?

"Okay, I emphasize again, this is Tianjun's order and must be executed!"

God of Heaven and Humanity will say.

"Afraid of a bird, just do it. Such a battle is exactly what I want. I look forward to it, ha ha ha!"

A rough voice sounded.

Many people glared at this person.

Lu Ming also looked at this person, showing a smile.

This one is not talking about the fighting spirit of the fighting clan, but who can it be?

Dou Shen Yuan Wen directly ignored the surrounding eyes, showing a strong fighting intention in his eyes.

Beside him, stood the geniuses of the fighting saints, and also showed strong fighting intentions one by one.

Fighting saints are the most belligerent. The blood is flowing in their bones. Sometimes, they even put 'war' in front of their lives.

Such a dangerous war is best for them, and they show their expectations one by one.

"This gang of madmen!"

Many people contempt.

"Master God, please tell me where to fight? Are there any other specific rules?"

Someone asked again.

"The specific scene, now Master Tianjun and Lord Master, are arranging with the Demon Lord. After two days, I will tell you in detail, you will wait here, you have a wound, or a state Those who are not in the peak state, take the time to adjust now, you only have three days."

The **** of the Celestial Race will say, and after he finished, he left here.

The three thousand people who are going to fight are either worried or sitting cross-legged, adjusting their status, or chatting in twos and threes.

Soon, two days passed.

Light and shadow flashed in the sky, and the **** of the Celestial Clan appeared again.

Many people immediately set their sights on this god.

"The specific scenes and rules have come out, let's see!"

The **** of the Celestial Clan will wave a hand, and a picture will appear in the sky immediately.

The picture shows that there should be twelve figures standing in the sky of a dark universe.

These twelve figures are obviously divided into two camps, but they are all shrouded in hazy glory and they cannot see clearly.

However, everyone knows that these twelve figures are 'lord'-level figures of the heavenly palace and the demon.

Rumble!

Suddenly, there was a 'master'-level figure from the Tiangong and the demon side. The two teamed up and grabbed the ground. The ground shook violently, and countless rocks rose from the ground, condensing a ball in the air.

This ball is like a planet.

Then, for a while, the 'master'-level figures of the two sides discussed, and the two sides arranged on the ball.

At this point, the screen disappeared.

"The place you are going to fight is the ball you see. This ball is made by Lord Tianjun and the devil. It is huge and not smaller than a planet!"

"Moreover, the 'master' characters on both sides have placed a ban on them, and they will not be able to use foreign objects to enter them, and all foreign objects will not be able to help, only rely on your own strength!

God of Heaven and Humanity will say.

"what?"

There was an uproar at the scene, especially some of the top demon, and his face was even more ugly.

In the land of war, all foreign objects cannot be used.

These top monsters, but control the big killer, originally, the big killer is their hole card, but also give them a lot of confidence.

But now, these big killers cannot be used, and their combat power will plummet.

Lu Ming and Ling Yuwei are also the same, their faces are a little unsightly.

However, those Tianjiao, who did not control the big killer, were relieved.

There are top monsters in Tiangong who can control the big killer that far exceeds their own strength. Will there be a demon?

When encountering such demons, they will suffer greatly.

Now, although the people on the Tiangong side cannot use it, the demon side cannot use it either. This is good news for them.

"The specific rules are the same as before, and it is still to kill the other party, or to allow more than 80% of the opponents to admit defeat, in order to win, in addition, there are several variables added!"

"The main characters on both sides added two fortunes, one for the demon and one for the Tiangong side. At the same time, the demon placed some prohibitions in the forgedness on the Tiangong side, and the Tiangong was also on the devil side. Some bans!"

"When one side falls into the downwind, as long as you find the corresponding place of fortune, it is possible to make a comeback!"

The **** of human race will explain.

Everyone nodded, thinking silently, digesting this clue.

There is no doubt that this is an important clue.

In the duel between the two sides, the big players on both sides set up a land of fortune, which is obviously useful to their own side and can turn over at a critical moment.

As long as you find this useful place for yourself, the chances of surviving this war will increase greatly.

Chapter 4069: Enter the temporary planet

Everyone was thinking about the so-called land of creation, but some people's faces changed.

Because they thought that God would just say that the other party's 'master' level character set a trap in the other party's fortune.

That's a trap laid by 'lord' level characters. Isn't it a dead end for them to enter?

The Celestial God general, seems to have seen everyone's thoughts, and continues to explain: "Relax, the traps laid by the main characters on both sides will not be too strong. The main characters on both sides have been checked. For you, Although it is a challenge, it may not be impossible to pass, otherwise, this place of fortune will be meaningless!"

"Also, one of the most important clues is, how to find the place of creation for both sides?"

"Actually, there are maps on both sides, but the maps are sealed in a common place by the big guys of the two sides. After you enter, the two sides will fight. When the number of people killed by the two sides reaches a certain level, Standard, the place where the map is sealed will be born!"

Everyone silently wrote down these clues.

"This war is estimated to be really cruel!"

Lu Ming sighed.

In particular, the place where the map is sealed will not be born until a certain number of people have died in battle.

And when they are born, the two sides will definitely have a fierce battle.

Because if you don't fight for it, the other party may get a map to the land of destruction, or even take away the map of the other party. If the other party gets the land of transformation, and the situation is reversed, the other party is in danger.

This is a battle between life and death. One can imagine how fierce it will be.

"Also, this 'Demon Bead', you hold it, one by one!"

The **** of heaven and humanity will wave their hands, and the black source beads, which are the size of longan, flew out to Lu Ming and others.

It happened to be one person, Lu Ming reached out and took it.

"Among the demons, there are some top-level demon who can awaken the so-called ancestor bloodline and turn into human form. The evil spirit of the body is hidden very deeply. It is difficult to sense it by your cultivation. If the place is close to you by a certain distance, the magic beads will react!"

God of Heaven and Humanity will say.

This remark made Lu Ming think of Samoro, the demon prince of the Eight Snake Mountains. The opponent turned into a humanoid figure, and even he did not sense it. Finally, the bone demon sensed it.

If there are many such demons among the demons, it is really very dangerous. However, the big figures in Tiangong are obviously very thoughtful.

"You can rest assured that although you can't use foreign objects in it, but the magic beads will naturally feel except for the devil, and there is no other use, you can still use it!"

"Okay, what to say, all said, after the battle starts, everything depends on yourself, and there is still a day, you come with us first!"

The gods of the Celestial Race will finish, and go outside, there will be a group of other gods or heaven officials to follow.

Lu Ming, about 3,000 of them, followed.

Soon, they left Nantian City, and soon after, they saw a ball suspended in the air.

This ball is exactly the one created by the main characters on both sides.

At that time, in the picture, it didn't feel so huge, but after getting closer at this moment, it was discovered that the sphere was really too large, completely formed by the condensation of rocks, and really not smaller than a planet.

Under the ground, you can still see a huge pit, very deep.

I did not see the 'master'-level figures on both sides, but Lu Ming knew that the 'lord'-level figures on both sides were definitely there.

In fact, the main characters on both sides are indeed there, just above them, paying attention to them, but they are far away, and they have condensed their breath. Lu Ming and others can't find it at all.

When they arrived, they found that the demon had arrived on the other side.

A large group of young demons, led by demons in the Demon Emperor Realm, came to the other side of the orb.

"There are so many demons!"

Lu Ming and they looked towards the demon, and found that the number of young demons was nearly 4,000, which was about 1,000 more than the Tiangong side.

This makes many people's hearts sink.

This time, there is no limit to the number of people that both sides can take part in the war. They only need to be under 50,000 years old, as long as they meet this condition, they can take part in the war.

Unexpectedly, there are so many qualified people on the demon side.

The Tiangong side meets the conditions, naturally more than that, but some are in other places, very far away, and within a few days, they simply can't catch up.

Moreover, there are four other temples, and there are a lot of arrogance, but there is no way to catch up.

"The people in Tiangong are here!"

"Hahaha, I heard that they are all geniuses in Tiangong. I like to eat geniuses in Tiangong most. It will definitely make me stronger and evolve quickly!"

"Hahaha, look forward to it!"

The demons Tianjiao looked at the Tiangong side and laughed. Most of the demons showed a terrible murderous opportunity. There was no fear at all, but they were full of expectations.

On the Tiangong side, there are some young Tianjiao, whose face is very unsightly, they really want to quit, but at this step, they can only cling to their scalps.

Tianjun ordered that if they withdrew, there would be only one way to death, and even the family members behind them might as well fight, maybe there is a chance to survive.

"People are here, let's go!"

A high voice came from above.

"Let's go, remember, you must win, this time if you win, Master Tianjun will have a lot of rewards!"

The gods of the Celestial Clan will shout.

Uh, uh, uh!

At this time, the young demon on the demon's side had rushed toward the ball insanely.

The Tianjiao on the Tiangong side also rushed towards the ball.

The orb is really too big, like a planet, it is called a temporary planet.

When the two sides add up, there are only about 7,000 people, thrown into a huge planet, really like a dust.

Lu Ming, Ling Yuwei, mixed in the crowd, also rushed to the temporary planet.

As he approached the temporary planet, he suddenly felt a strong force pulling him towards the temporary planet. With a loud sound, Lu Ming rushed directly into the temporary planet and fell towards a place.

He found that Ling Yuwei, who was standing beside him, completely flew in another direction and disappeared into his vision.

Everyone was scattered.

As for the ball, the age is more than fifty thousand years old.

When he discovered the ball on that planet, he was actually born long ago, so he didn't come in. Lu Ming let the ball follow Dandan first.

bump!

Lu Ming landed on a huge rock, stepped on the rock and exploded it.

After stabilizing his body, Lu Ming began to look around.

Chapter 4070: Initial receipt

Lu Ming looked around.

In all directions, the eyes are all uneven rocks, some small only a few meters high, some large, millions of feet high.

Can't see the side at a glance.

"There seems to be a strong pressure on this planet, making people in it much slower..."

Lu Ming immediately felt something was wrong.

He felt that he was under pressure all the time, making his speed much slower.

boom!

Lu Ming burst out with a punch, and in front of him, a 100,000-foot mountain burst directly.

"Sure enough, this planet was refined by 'master'-level characters. It's extraordinary!"

Lu Ming whispered.

Put in the wilderness universe, he punched out, and a planet would explode, but here, it just exploded a 100,000-foot rocky mountain, and the destructive power has weakened countless times.

In fact, it is not that his destructive power has weakened, but that the rocks here have been refined and very hard.

It's normal to think about it. This time I participated in the war, all of which were genius demon above God Realm. Anyone who shot it can easily bomb a planet.

Although this planet is huge, it is still not enough to watch in front of so many masters, it will be exploded in a few shots, which is not conducive to the battle between the two sides.

However, after refining the main-level characters on both sides and setting a ban, it is different. They can fight as much as they like without destroying the planet.

Moreover, their speed is greatly suppressed, and they cannot fly all over the world in an instant.

"Try these strong wind beads..."

With a move in his heart, Lu Ming began to try the strong soldiers such as Gale Beads. The result was self-evident. He couldn't control it at all, as if he were in the field of the banned soldiers, and was isolated.

Gale Beads, Ice Profound Stick, and some other low-level magic soldiers are all restricted.

Even the Dream God Jade, Chuanyin Jade Talisman, etc., cannot be used.

"Fortunately, I have been prepared!"

Lu Ming nodded, put away these magical soldiers, and then waved a hand, carved a special mark on the ground.

This is the mark he and Ling Yuwei had negotiated in advance.

They must first join together.

Together, the two are relatively safer.

Then, Lu Ming flew in the direction that Ling Yuwei might fall.

"in danger!"

Lu Ming just flew a distance of tens of thousands of miles, and felt the danger. His body stopped suddenly and retreated backward.

Uh!

A blade of light cut across him and cut a terrible crack into the space.

Afterwards, the ground was gusty, and a figure rushed up.

This is a demon, black all over, covered with black scales, and there is a bone spur on his body, which looks terrible.

This demon has the triple cultivation of the emperor.

Lu Ming's face was very calm, a triple emperor of God, he didn't even put it in his eyes.

"Boy, I met you because of your bad luck. Hey, I will enjoy you and turn you into my strength..."

The devil spoke terribly.

"Your cultivation base seems to be lower than me, can you win me with such confidence?"

Lu Ming said involuntarily.

"Hahaha, true genius, combat power is not judged by cultivation base. Fighting over the ranks. For me, it is commonplace. Even if you are a genius, it is the same! Die!"

The demon laughed wildly, the voice just fell, and the devil's knife in his hand had slashed toward the landing, and the power was extremely amazing.

With one shot, Lu Ming could roughly judge the demon's combat power.

It's about equivalent to the sixth emperor.

Divine Emperor Triple, able to fight across three levels, placed in the wilderness universe, is definitely the top demon, no wonder he is so confident, even if Lu Ming is one higher than him, he is not afraid.

There is still some capital.

Unfortunately, he met Lu Ming.

Lu Ming held out a palm and gently grabbed the opponent's magic knife. The opponent's magic knife stopped directly in the air and could not be cut.

The demon's eyes suddenly widened, revealing an incredible look.

His mouth was rampant, but in fact he did not dare to despise Lu Ming. The knife just used his full strength. Unexpectedly, he did his all with a knife, but Lu Ming was grabbed with just one hand.

"Give me!"

The demon screamed at Tianjiao, and the energy of Mosha exploded with all his strength.

It's a pity that nothing is moving!

The magic knife caught by Lu Ming seemed to be suppressed by several planets, and could not move at all.

"On this strength?"

Lu Mingdan was slightly disdainful.

"Go to die!"

The demon Tianjiao roared, the bone spurs on his body came out of the body and shot toward the landing, the power was amazing.

However, Lu Ming grabbed the other hand, and there seemed to be a hand shadow in the air. At the next moment, the hand shadow disappeared, and all those bone spurs were captured by Lu Ming in his hand.

"how is this possible?"

The devil was arrogant, his eyes widened, and he was completely ignorant.

Lu Ming's strength is too horrible. Even if he is a bit higher than him, he can't be so much stronger. He is like a baby in front of Lu Ming.

"Send you on the road!"

When Lu Ming's palm moved, the bone spur in his hand flew out, piercing the demon's head.

This demon fell directly.

"Demon spirit blood, take it!"

Lu Ming grabbed the palm, and the demon Tianjiao's demon spirit blood was caught by Lu Ming in his hand.

This drop of demon spirit blood is crystal clear and exudes dazzling brilliance.

"Not bad!"

Lu Ming showed the color of expectation. This is the demon spirit blood of the devil Tianjiao. The potential is infinite. The merit points that can be exchanged are absolutely amazing.

He clearly remembered that the demon spirit blood of the demon prince Samoro was exchanged for about 60,000 merit points.

Just now, this demon can fight across three levels in Divine Realm. Even if it is not as good as Samoro, it will not be much worse. Lu Ming estimates that two or three thousand merit points are indispensable.

The blood of a demon spirit is worth tens of thousands of merits, which is a big gain.

This time fighting with the devil is both a crisis and a chance.

You know, this time, almost all the devil's arrogance is involved in the war. If you can hunt enough demon spirit blood, how much merit can you get?

Putting the demon spirit blood into a jade bottle, Lu Ming flickered and left here.

what!

After flying a distance, Lu Ming heard a scream.

In front, there was a genius in a celestial palace, killed by two demons.

One of the demons also grabbed the genius **** heart of Tiangong and gnawed it in his mouth with a look of relish.

As soon as Lu Ming approached, the two demons discovered Lu Ming.

When they saw Lu Ming, their face changed slightly, and then they quickly backed away.
