

D Emperor 4091

Chapter 4091: Master Convergence

Soon everyone made a final decision and set off immediately. The place in front of the black and white light beams competed with the demon for the map.

The worst thing is to take the map of Tiangong into your hands, so there is a slight chance of victory.

Not making a decision, they did not hesitate, they set off immediately, left the area, and rushed towards the place of black and white beams of light.

With the help of Tianjiao, two other angels, Bunan healed while flying.

Although he was seriously injured, Lu Ming had a decent start, all of which were skin and flesh injuries, and did not hurt the origin, so he recovered quickly.

It won't take long for it to return to its peak.

They are fast, and the beam of black and white is getting clearer and clearer.

The sky is covered with black and white glow, even on the other end of the planet, I am afraid you can see it.

It is conceivable that in a short time, all the Tiangong Tianjiao and demons in the battle will come here.

They were not very far from the black and white beams of light. Soon afterwards, they were approaching. On the way, they did not encounter a demon.

"That is..."

Suddenly, everyone felt a shock and could not help staring at the front.

In front, there is a huge mountain, standing between the sky and the earth.

The mountain is very magnificent, and it directly breaks through the sky, covering a very large area.

At the top of the mountain, two black and white beams of light are entangled and rush to the sky.

What surprised them was that there was no such peak before, otherwise it would have been found long ago.

Before this mountain, it must have been hidden, and it only appeared when the two sides were about to kill.

"kill!"

Rumble!

On the mountain peak, there were violent roars and shouts.

When they looked at it from a distance, they saw that a large number of demons were rushing towards the top of the mountain, but they encountered obstacles.

On the mountain peak, there are many monsters condensed from rocks, which are constantly fighting towards the demon, and the battle above is very fierce.

Seeing this scene, everyone in Tiangong was relieved.

This shows that the devil has not got a map.

It seems that it is not easy to get the map. This mountain is blocked by monsters condensed by rocks. If you want to rush to the top of the mountain to get the map, you must destroy these rock monsters.

"what should we do?"

Someone asked.

Unexpectedly, many people looked at Lu Ming.

Lu Ming's current combat strength is already the strongest in the Tiangong side. Unconsciously, his status in the hearts of everyone has risen a lot. What is his opinion? The first time, I thought of Lu Ming and wanted to know. Lu Ming's opinion.

"Now we are not in a hurry, it is not so easy for the devil to rush to the top of the mountain."

"Now, the people in the other half of the temporary planet are probably coming here too. We hide our bodies and wait here, waiting for the others in Tiangong to stop them and meet them."

"When the last demon is about to reach the top of the mountain, we will take another shot and grab the map in one fell swoop."

Lu Ming said his thoughts.

"Okay, good idea!"

Everyone nodded again and again.

Indeed, in the current situation, this is the best way.

They meet with other people in Tiangong to enhance their strength.

And the demon shocks the mountain and fights with those rock monsters, which can weaken the demon's strength.

Although as time passes, there will be other demons coming and meeting with Eugene and others will enhance the strength of the demons, but in general, for the Tiangong side, the advantages are greater than the disadvantages.

"I'll arrange the hidden formation!"

Dongyuan Qingdao, just say, he began to act.

I saw his figure flickering on the ground, raising his hand and throwing his feet, and there were dense runes running out of it, disappearing into the ground and disappearing.

Of course, Dong Yuanqing couldn't do it like a dandelion, from every pore in his body, runes filled out, but the accomplishments of the rune formation method were also very amazing.

In the younger generation, the master of the rune formation method that Lu Ming has seen is second only to Dan Dan.

It didn't take long for a phantom array to be successfully deployed.

As long as they are in the illusion, the devil will not find them.

Then they sent people out to ambush in the vicinity. As soon as they saw the arrival of the Tiangong, they stopped the other party and brought the other party here.

After everything was set up, they waited quietly.

Lu Ming and others continued to overlook the mountain from afar.

The demon and the rock monster on the mountain are still fighting fiercely.

It can be seen that the first to kill the demon is Eugene.

The magic knife in his hand is slaughtering with great power.

Behind Eugene, there are several demons that are not weaker than Dong Yuanqing and Bunan. The Luo body is among them.

However, those rock monsters on the mountain peak are also very strong.

They seem to have been refined by 'master'-level powerhouses, and their bodies are as hard as magic soldiers. Even the strongest Eugene needs a few consecutive knives to split a rock monster.

Therefore, it is not so easy for the devil to rush to the mountain and get a map.

This made Lu Ming feel more relieved that they could have enough time to wait.

Time passes quickly.

After a while, Lu Ming and them finally waited for the first batch of reinforcements.

A top demon of a fighting saint, this man is also the cultivation of Divine Emperor Liu Zhong, able to fight across four levels, and is also one of the strongest candidates in the universe's proud list.

There were more than a dozen people who came with this person.

They came from the other side of the planet.

This person came and immediately saluted the fighting **** Yuanwen.

Although this man's talent is high, it is still a bit worse than the Fighting God Yuanwen, and its status in the Fighting Saint Clan is not as good as the Fighting God Yuanwen.

"How is your area?"

Dou Shen Yuan Wen asked, the other party explained.

Before, Eugene led a demon and swept half of the planet, and half of the planet did not sweep.

The demons of that half planet and the Tiangong Tianjiao are in a melee battle, and there is no too strong demon to break the balance. All the two sides fight each other, there is a loss, each has a victory and defeat, and they have not fallen on one side.

Then, they saw the black and white beams of light covering the sky and the sun, knowing that the map of the land of fortunes was born, they hurried over.

Then, Dou Shen Yuan Wen explained the situation here, and the other party's face was dignified. Obviously, he didn't expect that there was a strong man like Eugene on the devil's side.

Later, with the passage of time, there are more and more Tiangong masters who come to meet.

Two days later, there were already more than 800 people coming to meet.

Among them, not weaker than Bunan, Dong Yuanqing's evil spirits have also increased by three.

These three are the strongest three of the other half of the planet.

Chapter 4092: Kill Luo

There are three top monsters added to the Tiangong side, and there are nearly 800 people, which can be said to be a surge in combat power.

However, on the demon side, a lot of masters have also been added, and the number has doubled.

Among them, there is no shortage of demons and demon evils of the rank of Luo Zuo.

A large number of demons have joined in, and they are attacking the mountain faster. After two days, they are about to approach the top of the mountain.

Obviously, the map of the land of fortune is at the top of the mountain.

"We can start!"

Lu Ming took the lead in speaking.

This drew dissatisfaction from some people.

These people are naturally those who come to meet later, especially a few top demon.

Lu Ming was the first to say something, as if giving orders, which made them very unhappy.

Lu Ming, what are the qualifications?

However, to their surprise, Dong Yuanqing and others seemed to have no opinions and all nodded together.

They were quite puzzled.

Dong Yuanqing and others seem to have listened to Lu Ming's opinion, have you made a mistake?

But this is not the time for conflict, they suppressed their doubts and were ready to go.

"go!"

Lu Ming snorted and rushed out first.

The others followed, turning into a rainbow of light, and flew towards the majestic mountain.

With so many people acting together, the energetic momentum is very amazing, and was immediately discovered by the devil.

Keng! Keng!

On the mountain peak, Eugene had two consecutive swords, splitting a rock monster in half, and looked coldly at Lu Ming on their side.

"These people in Tiangong are still daring to fight for the map. They are really looking for death. You take someone to stop the people in Tiangong. Wait for me to get the map and go kill them!"

Eugene said coldly.

"Don't worry, you don't need to shoot, these people in Tiangong are dead."

Luo Zhe grinned fiercely, and stared fiercely at Lu Ming.

Two times, Lu Ming has escaped twice.

As a person with a lower combat strength than him, he escaped from his hands twice in a row, for the first time.

His killing heart for Lu Ming was extremely strong.

Only three things!

He swears that there will not be a third time.

This time, I had to unscrew Lu Ming's head.

About half of the demons turned back down the mountain and rushed towards the people in the Tiangong Temple. Among them, there were as many as seven top demons like Luo Zuo.

Eugene continued to bombard rock monsters and climbed up the mountain.

"Kill, kill all the debris of the heavenly palace!"

A large number of demons, more than the Tiangong side, came towards the Tiangong side.

Boom...

The next moment, the two sides fight together.

When Lu Ming punched out, two demons were killed by Lu Ming, and Lu Ming had not used his full strength yet.

Now use your full strength, how can you accidentally kill a devil Tianjiao like Luo Zuo?

Over there, Luo's corpse also stared at Landing Moment all the time, at this moment the devil's claws pulled out, one at a time, squeezing the two Tiangong Tianjiao's heads apart.

The other Tianjiao in Tiangong didn't dare to get close to Luo's body, and distanced him far away.

"Boy, die for me!"

Luo Zuo's roaring roar, a pair of huge demon wings flashing, bringing a terrifying gust of wind and howling, rushing towards the landing.

"It's you who died!"

Lu Ming also rushed towards Luo's body and punched out with a punch.

"Look at me breaking your arm."

Luo's body roared, and the devil's claws caught Lu Ming's arm.

boom!

Lu Ming's fist collided with Luo Zong's claws.

Click!

At the moment of the collision, Luo's claws violently shook, his fingers made the sound of bone fracture, and his arms shook violently.

Not only did Luo Zuo shake his arms, but even his body shook violently, retreating backwards.

"you..."

On his hideous face, he was shocked and incredible.

It seems hard to believe that Lu Ming's power suddenly became so strong.

It was only a few days, how could Lu Ming's combat power suddenly soar, even surpassing him.

Masters confront each other, and there is only a thousand miles between them, and a little difference can determine life and death.

Luo Zuowan didn't expect that Lu Ming's combat power was so strong that he actually surpassed him, so he was shocked for a moment, so it was enough to decide his life and death.

"kill!"

Lu Ming shouted and his fists bombarded continuously, turning the void into a horse honeycomb.

If the fighting power of Yi Luo's body could be resisted with all his strength, he would be able to contend a little bit, but now such a stunned god, his result is already doomed.

bump! puff! ...

The flesh and blood flew, and Luo's burly body was directly penetrated by Lu Ming's fist, and it was split into pieces. His head, also under Lu Ming's fist, turned into minced meat.

The demon, a top demon, was killed directly.

Around the other demons were ignorant.

This scene was completely beyond their expectations. I didn't expect that the strongest one after the Eugene among the demons was just killed.

boom!

After Lu Ming killed Luo's corpse, there was no slightest stop, and he exploded with all his strength. The whole body radiated a gorgeous glow like a planet, rushing across and rushing towards a group of demons.

Bump...

These demons were completely unable to withstand a blow in Lu Ming's hands, and Lu Ming rushed by. These demons burst like balloons, and flesh and blood flew across.

And a drop of demon spirit blood was caught by Lu Ming in his hand and put away.

Lu Ming rushed past and killed a flesh directly. At least dozens of demons were arrogantly dead in his hands. Then, Lu Ming rushed to another demon top demon.

This demon's top demon is also a six-level **** emperor, capable of fighting across four levels, and its combat power is not weaker than Luo Zuo.

"Devil growls!"

The demon shouted, and a terrifying destructive force erupted in his mouth, screaming towards the landing.

boom!

Lu Ming hit with all his strength, a punch penetrated the power of destruction, and the body rushed past, punching the person like a meteor.

"kill!"

The demon roared and fought against it.

However, even if he fights with all his strength, he is not Lu Ming's opponent.

Lu Ming, who has reached the fifth level of the Divine Emperor, is already higher than Luo Corps in combat power, or half the level of the demon in front of him.

It's like Lu Ming facing the saber when the **** emperor is fourfold.

In terms of combat power, crushing has completely formed.

Although the opponent can compete, it is not an opponent at all.

In just a dozen strokes, each demon screamed, his body flew out, his chest was penetrated by Lu Ming's fist, and he was hit hard.

"kill!"

Lu Ming did not give the other party a chance to breathe. He stepped on the void and came after him. More than ten magic swords were hacked towards this person. At the same time, the fist of destruction created by the Great Divine Wind and Great Fragmentation techniques, Down towards the bombardment.

The demon demon shouted unwillingly, desperately resisting, but it was useless.

At the next moment, his body was torn apart, and the demon spirit blood was grabbed by Lu Ming.

Another demon top demon was beheaded.

Chapter 4093: The fight begins

Lu Ming's continuous killing of the two demon's top monsters was only completed in an instant, and the speed was too fast.

It was at this time that Eugene on the mountain peak reacted, his face greenish and extremely ugly.

"you wanna die..."

Eugene roared, gave up and continued to attack the top of the mountain, turned directly, and rushed to the landing.

However, he was still some distance away from Lu Ming. Lu Ming kept on sculpting and killed other demons.

This time, Lu Ming did not kill the top demon, because that kind of demon can still resist Lu Ming for a while. If the other party sees Lu Ming killing, he runs away and wants to kill before Eugene arrives. , Still quite difficult.

Therefore, Lu Ming killed those demons with weaker fighting power but excellent talents.

For example, a demon of the same level as a saber.

The **** emperor is five-weight or lower, but can fight across four levels. This kind of demon is only a little lower, but its potential is not worse than Luo's corpse. The demon's demon spirit blood is equally valuable. Very high.

Although there are not many such demons, there are still a few.

Lu Ming rushed towards a demon with white demon wings, and punched him.

When the demon saw Lu Ming killing, he was shocked and retreated, but how could his speed compare with Lu Ming?

Fisting like a storm, the surge rushed towards the demon, forming a crushing trend.

In the face of such punches, it is like an ordinary person facing the tsunami, there is no escape.

Either he is caught in a punch, or he breaks the tsunami with great force.

The demon roared with arrogance, and a pair of demon wings waved quickly, bringing up a violent energy. This energy, the cold and biting bones, wanted to freeze everything.

In fact, the space has all solidified, trying to block Lu Ming's punch.

It is a pity that there is too much difference between the fighting power of the two. All this is in vain.

The fist was crushed, and the frozen space shattered like crystals, then bombarded the demon.

With a bang, the demon burst open directly, and a drop of demon spirit blood flew out, and Lu Ming was caught in his hand.

Another drop of top demon spirit blood is in hand.

This is capable of fighting across four levels, which is equivalent to the existence of the universe's arrogant candidates. This kind of person has unlimited potential and has the opportunity to impact the realm of the devil.

The points of merit that can be exchanged are absolutely amazing.

Lu Ming has received five drops of this level of demonic spirit blood.

At the beginning, the demon spirit blood of Samoro had nearly 60,000 merit points. This kind of demon spirit blood that can cross four levels of battle, at least double.

"kill!"

A horrible roar sounded, it turned out to be Eugene, he had already killed.

At this moment, his eyes were blood red, full of extreme killing, the magic knife in his hand slammed toward the landing, and the hot breath burned the space.

Daoman broke through the air and cut Lu Ming's head straight.

"Magic sword!"

Lu Ming took a light drink and exhibited the Great Demon Sword. With a wave of his hand, a huge magic sword was formed and pressed toward Eugene's knife. At the same time, Lu Ming's body burst out with a gorgeous glow, and Lu Ming used all his strength. , With a punch.

A magic sword, a punch, and one after the other, slammed into Eugene's sword.

The magic sword bears the brunt, colliding with the blade of Eugene's sword. The magic sword shook violently, insisted on two breaths, and broke apart.

Then, Daomang collided with his fist.

More violent roars sounded, and the terrifying strength shattered the void. Such fluctuations, even the existence of Dongyuanqing and Bunan, were dignified.

But in the end, Lu Ming's punching force still didn't block Eugene's knife, and was cut open.

At the moment of the collision, Lu Ming's body retreated. At the moment, he was rushed by the remaining knife, Lu Ming was not injured, but with the help of this force, he quit very far.

"Sure enough, the strength of Eugene is still a bit higher than me!"

An idea flashed in Lu Ming's heart.

Eugene's combat power is extremely terrifying. Every inch of muscle is full of terrifying power. Especially his magic knife, his power is even more terrifying. In the God Realm, he can fight across five levels. It's almost more than Lu Ming.

At the same level of World War I, Eugene's combat power is not weaker than the God of Fighting God.

And his cultivation behavior is one heavier than Lu Ming, and Lu Ming is naturally not an opponent.

However, Lu Ming had no intention of fighting with Eugene now. As soon as he retreated, he changed direction and rushed towards the top of the mountain.

"Want to leave, die for me!"

Eugene roared, chasing and killing Landing.

Lu Ming remembered that he had a battle with Luo Zuo last time, and he was not Luo Zuo's opponent at all. However, within a few days, Lu Ming could easily kill Luo Zuo, and could even compete with him a little bit. This kind of character is too scary. Today, he must get rid of Lu Ming.

However, after a while, he could not catch up with Lu Ming at all.

Because on this mountain, there are rock monsters everywhere. Although many of them were killed by demons before, there are still many left, especially on the top of the mountain, there are more rock monsters.

Lu Ming's body flashed a few times, and he came to the middle of the mountainside. This was when several rock monsters roared to Lu Ming.

These rock monsters are similar in structure to the rocks under their feet, but they have been trained by master characters with great magical powers. They have become very solid, amazingly dense, and also extremely hard, even harder than Divine Soldiers.

And the appearance is different, there are all kinds of wild beasts, there are humanoid appearances, and even demonic appearances...

There were three rock monsters at once, killing Lu Ming and attacking Lu Ming's three key points.

Lu Ming performed the Great Kamikaze technique. His body was always shrouded in a layer of Kamikaze, and he did not fight hard with these rock monsters. His figure flashed, like a phantom appeared, flashed a few times, and perfectly avoided three The rock monster's attack appeared behind the three rock monsters, and then continued to rush towards the top of the mountain.

The more upward, the more rock monsters.

However, Lu Ming avoided the attacks of these rock monsters one by one by virtue of the Great Kamikaze, and some of them could not avoid it. Lu Ming threw his fist to resist it. Soon, he threw dozens of rock monsters behind him. Approached towards the top of the mountain.

And Eugene's body method is not as fast as Lu Ming, he relies on the magic knife in his hand.

"Get out of here!"

Eugene yelled, and the magic knife kept chopping out, flying the rock monsters one by one.

Uh, uh, uh. . .

Rock monsters flew out like balls, and some even flew to Lu Ming. Lu Ming had to concentrate on avoiding it. In this way, the speed was slower.

Eugene shot frantically. With this move, the distance between Lu Ming and Lu Ming was slowly getting closer.

Chapter 4094: See the map

With his violent fighting power, Eugene slammed through the rock monsters, constantly chasing Lu Ming, and the distance between the two sides was narrowing.

However, after Lu Ming saw that the distance between the two sides was getting closer, he immediately changed his position and moved laterally, further increasing the distance between the two sides.

Eugene chased several times in a row, but Lu Ming was not chased, and he was so angry, but he was very human after all and calmed down when he was very open.

"Huh, then let this kid live a little longer, as long as I get two maps and get the fortune left by the devil, then the Tiangong will be defeated, even if I am alone, I can kill the Tiangong. people!"

Thinking of this, Eugene flashed a cold light in his eyes. Instead of chasing Lu Ming, he continued to rush towards the top of the mountain.

To be honest, he didn't care so much about the life and death of other demons Tianjiao, even if all other demons Tianjiao died, he didn't care.

As long as he got two maps, the people in Tiangong could not be forged, and he would be made invincible, and the combat power would be more invincible. In that case, no matter what method Tiangong uses, he can't stop him, and he will be chased by the whole world. The people in the Tiangong Palace will sooner or later kill all the people in the Tiangong Palace and win this time.

Therefore, the two maps are the key. He directly abandoned Lu Ming and rushed to the map.

Lu Ming's face also changed, and of course he knew that the two maps were the key. If Eugene got the two maps, then even if he killed all the other demons, nothing would help.

Therefore, Lu Ming rushed towards the top of the mountain from another direction.

Eugene relied on his strength, rampage, very fast.

Lu Ming, however, has a stronger body speed, and is not slower than Eugene in adding his own combat power.

The two approached the top of the mountain from two directions.

At the foot of the mountain, the demon and the Tiangong are fighting fiercely.

The devil's side, in terms of quantity and quality, prevailed.

Not to mention anything else, the top level of combat power, Tiangong side will be less.

However, being killed by Lu Ming in two top fights in a row, the Tiangong side took the upper hand in the top fight, which was one more than the demon.

In this way, although the number of people on the Tiangong side is much smaller, after some fighting, not only does it not fall, but it still has the upper hand.

Demon and Tianjiao's Tianjiao, during the war, their eyes were still attracted by Eugene and Lu Ming.

"That guy wants to compete with Eugene for tokens, to death!"

"Eugene will definitely be able to take both maps, and Tiangong is defeated!"

Many demons shouted in their hearts.

The people in Tiangong are secretly praying, hoping that Lu Ming can take the map. At least, the map on the side of Tiangong must be taken, so there is hope.

While fighting, they are paying attention to the two figures rushing to the top of the mountain, because these two people will affect the entire battle.

Eugene and Lu Ming are constantly striking towards the top of the mountain.

The closer to the top of the mountain, the more and more rock monsters rushed towards them in droves.

Uh...

Lu Ming urged the Great Divine Wind technique to the extreme, his body was like a ghost, like a light breeze, as if there was no slight weight, and it kept blinking, avoiding each rock monster.

However, there are too many rock monsters, and they are not afraid of death.

Roar!

A demon-like rock monster waved a stone fist and blasted towards the landing.

Lu Ming punched out and collided with the rock monster's stone fist.

With a bang, the rock monster's body flew out, knocking several rock monsters behind.

"It's really hard!"

Lu Ming muttered.

His current practice is how amazing the power is with a punch. Even an ordinary master of the ninth heavyweight of the Divine Emperor will be torn apart by a punch and fall to the spot.

But the rock monster was just blasted out, and a few cracks appeared on his fist, which were not exploded.

However, the flying was enough, Lu Ming flashed his body, leapt over these rock monsters, and continued to move forward.

In this way, Lu Ming rushed toward the top of the mountain with his own powerful combat power and body speed. However, because there are too many rock monsters, it will not be so easy to reach in a while, otherwise, the previous demon The army did not need to spend two days, and did not rush to the top of the mountain.

It took two hours for Lu Ming to really approach the top of the mountain.

Here, Lu Ming can clearly see the scenery on the top of the mountain.

On the top of the mountain, there is nothing else, only two round beads.

Two fist-sized round beads, one black as ink and one white as snow.

The two round beads are close together, emitting a brilliant light.

The black and white beams of light entangled together were emitted from the two beads.

This is the map of the two fortunes.

The black round bead is a map of the land of the demons.

The white round bead is a map of the land of nature on the side of Tiangong.

Lu Ming's eyes showed a fiery glow, but the next moment, Lu Ming's face suddenly changed.

Because he saw Eugene, Eugene was a bit faster than he was.

"Get out of here!"

Eugene yelled, the sword loomed into the sky, several terrible sword shadows burst out, blasted the last few rock monsters, and even one was cut in half by him.

Uh!

Without the block of the rock monster, Eugene flew directly towards the two beads.

"not good!"

Lu Ming shouted in his heart, shot with all his strength, banged and banged a dozen punches in succession, and blasted against seven or eight rock monsters, staggering back and forth with seven or eight rock monsters.

Lu Ming accelerated with all his strength, flashing, and rushed past seven or eight rock monsters.

However, his speed is still a bit slower than Eugene.

Eugene's figure was close to two round beads, and his eyes showed greed.

"Both maps are mine. Victory will eventually belong to me!"

Eugene yelled in his heart, stretched out a devil's claw, and grabbed toward the two balls.

Seeing that he was about to hold the two beads in his hand, at this moment, the two beads actually shook slightly, and the black and white light beam that had originally radiated out also converged, and inside the two beads, burst out An invisible force seems to be resisting Eugene's claws.

For a time, Eugene's claws were actually blocked.

Eugene's face changed, and he roared: "Break me!"

He used all of his strength to flock to the devil's claws, struggling to grasp.

Buzz!

The two beads shook violently, and that force seemed to be caught.

Then, the two round beads swished and flew out in two directions.

"hateful!"

Eugene roared, the demon wings fanned wildly, and the body rushed towards the black ball.

Chapter 4095: Get the map

Eugene first rushed towards the black ball. Before the person arrived, the volley clawed out, and a huge devil claw was formed, which sealed off one side of the void and enveloped the black ball in it.

This time, the black round bead couldn't escape and was caught by Eugene's hand.

At this moment, Lu Ming's eyes showed an excited light, blasted the last rock monster, his body burst out, and rushed to the white ball.

The white round beads are the map of Tiangong.

The black round bead has been taken by Eugene, and he must get the white round bead.

"court death!"

Eugene's eyes flickered, his figure suddenly turned, and the magic knife burst out, slashing towards Lu Ming.

"Can't avoid it!"

Lu Ming showed a decisive look.

He can avoid the past, but he can't avoid it. At this time, once he avoids it, he will lose his chance. The white ball will definitely be taken away by Eugene.

"Block it!"

Lu Ming growled, every cell in the body was trembling, and all the power burst out in an instant.

boom!

A punch strikes through the void, battling Eugene's Daomang.

The two collided head-on for the second time. This time, Eugene hurriedly slashed a knife without using his full strength. Two attacks, collided in the void, and then annihilated.

However, Eugene's Daomang still had to be better. A ray of residual knife strength was chopped on Lu Ming. Lu Ming's body stepped back several times in a row, and a wound appeared on his body, almost splitting Lu Ming's body.

However, Lu Ming was sternly resisted.

Not taking care of the injury, Lu Ming continued to rush towards the white ball.

"Come on!"

Eugene yelled and rushed towards the white ball with full speed, very fast.

"Great bondage!"

At this moment, Lu Ming took a sip and used one of the three thousand ancient mysteries, a great bondage, an invisible energy, like a python, entangled Eugene with death.

The strength of the needles penetrated into Eugene's body, locking him.

Eugene's body appeared so stiff for a moment.

Such a momentary stiffness is enough.

Lu Ming grabbed it hard, and the palm of his hand suddenly grew larger. He wrapped the white ball in it and grabbed it.

"you wanna die!"

Eugene roared angrily. The whole body seemed to be like a volcanic eruption. Every pore in the body was blasted by the evil spirit. The power of the big **** was quickly disintegrating.

"Sure enough, it can only be trapped for a moment!"

Lu Ming sighed.

He originally wanted to bomb Eugene with a shot, but it was clearly impossible.

Although the opponent was restrained for a moment, every inch of the opponent's body was covered with powerful power. Even if he didn't take the white ball and directly attacked the opponent, it was difficult to kill the opponent.

Therefore, Lu Ming didn't hesitate, turned around and ran away, running down the mountain.

boom!

Later, Eugene finally got rid of the shackles of the big shackles and killed Lu Ming.

The two rushed back and forth toward the mountain.

"The map has been obtained, retreat!"

Lu Ming shouted a long time, and the voice spread far away.

The people over there in Tiangong were ecstatic.

They didn't have much hope. After all, Lu Ming's strength is not as good as Eugene. It is hard to get a map in front of Eugene.

Unexpectedly, Lu Ming actually got the map.

"go!"

"retreat!"

Some of the top players on Tiangong shouted, and then all retreated.

The demon naturally doesn't want to easily let go of the Tiangong. In terms of the number of top masters, the Tiangong has the upper hand, so they retreated very smoothly. All the Tianjiao's arrogance gathered together. A wave of attacks blocked the demon's attack and then flew backwards. .

Lu Ming and Eugene, one after the other, also quickly came to the foot of the mountain.

There is strong pressure on this mountain and it cannot fly, but when it comes to the foot of the mountain, there is no pressure.

Uh!

Lu Ming rose to the sky and rushed towards the direction of the retreat of many Tianjiao in Tiangong.

"Stop me!"

Eugene shouted and ordered the demons to stop Lu Ming.

"Stop that kid!"

"Block him!"

Other demons roared and rushed towards the landing.

Lu Ming suddenly changed some directions and rushed forward to the right, and there will be fewer demons here.

"Leave me!"

In front of the right, there is also a top demon demon, not weaker than the presence of Luo Corpse.

He fought hard to land Ming Ming and wanted to stop Lu Ming. As long as Eugene arrived, Lu Ming could not leave.

"court death!"

Lu Ming's eyes were cold and he punched out.

Lu Ming's fist strength directly defeated the other party's attack, and then the big shackles came out.

This top demon demon suddenly stiffened.

His strength is far worse than that of Eugene, and the big **** can at least trap him for a few breathing hours.

A few breathing time has been very long for Lu Ming and others.

boom!

Lu Ming rushed by, the demon Tianjiao's body exploded, and a drop of demon spirit blood was also caught by Lu Ming in his hand.

However, this demon still blocked Lu Ming a little, and with such a block, Eugene had arrived and cut a knife.

Lu Ming evaded with all his strength, but he did not completely avoid it. After being cut into the body by Daomang, Lu Ming's body was directly split into two halves.

If it is an ordinary person, the body is split in half, and it will be hit hard even if it is not dead. It can even be said that it is dead, because the destructive power in the blade of the sword will directly annihilate the soul in the sea of knowledge.

However, in Lu Ming's knowledge of the sea, there is no soul, his soul is scattered into every cell in the whole body.

As long as he did not annihilate all the cells in Lu Ming's body, he would not die.

Therefore, he was split into two halves of the body, and he continued to fly forward quickly, and during the flight, the two bodies approached automatically, sticking together.

"This...monster..."

The shock in Eugene's heart gave Lu Ming a deep sense of fear, and at the same time, Lu Ming's killing heart was unprecedentedly strong.

He flapped his demon wings wildly, chasing toward Ming Nao.

Both are very fast.

After Lu Ming performed the Great Kamikaze technique, the small-scale movements flickered, extremely flexible, extremely fast, and stronger than Eugene, but flying in a straight line, Eugene frantically flapped the demon wings, not slower than Lu Ming.

The two tandem one after another, and quickly crossed a long distance.

Soon after, he was about to catch up with the many arrogances of the Tiangong.

"Come on, to the west, there is a formation I laid over there. It's almost time to get out there!"

Dong Yuanqing shouted.

Many Tianjiao in Tiangong quickly went west. At this time, they saw Lu Ming and Eugene, and their faces changed.

Chapter 4096: Get out and start preparing

Tianjiao's Tianjiao, his face changed when he saw Eugene and Lu Ming chasing after each other.

One is frightened by the strength of Eugene, and the other is worried about Lu Ming.

Not worried about Lu Ming's life, they were worried about the map in Lu Ming's hands.

This map cannot fall into the hands of Eugene, but this is their last hope for victory.

"Be sure to keep the map!"

"Yes, you must not let the map fall into the hands of the devil."

"Let's go and help Muyun to contain Eugene, and then find a chance to get out."

The strongest group of people such as Dong Yuanqing passed on the voice.

Bunan's face was gloomy. Although he was extremely reluctant to help Lu Ming, it was related to the victory or defeat of the Tiangong side, but also to his own life. Therefore, at this time, even if he was unwilling, he would have to shoot.

Uh...

Several figures flashed out, the evil spirits of Dong Yuanqing, Bunan, and Mozu.

The three of them practiced the technique of combined strike, and they can jointly restrain Eugene to a certain extent. Although there are a few evils that are not weaker than them, there is no combination of strikes, and they will not be used to restrain Eugene, so they continue to bring The people in Tiangong flew towards the formation in the west.

"kill!"

The three of Dong Yuanqing shouted and performed the technique of combined attack. The three people's bodies formed a mysterious trajectory flashing, and a divine light burst out from the middle of the three, killing Eugene.

Eugene slashed out and defeated the **** light, but his figure was blocked.

"You...find to death!"

Eugene saw that the people in Tiangong actually dared to take the initiative to shoot him, killing in the evening, roaring, the violent evil spirit, working at full strength, breaking out a knife.

This is Eugene's full blow, the power is very terrifying, a bit stronger than the previous one.

Dong Yuanqing and Bunan's faces were dignified. In the face of Eugene's strongest blow, they did not dare to attack head-on and could only passively defend.

They used the technique of combined strikes to condense an ancient tortoise shell.

Eugene's knife bombarded the turtle shell and split the turtle's shell in half, but Eugene's attack was eventually blocked.

boom!

Eugene attacked with a knife, and there was a short alternation in his breath. How could Lu Ming miss this opportunity, running a full punch, punching out, and rolling towards Eugene.

"Cut me!"

Eugene burst into a roar, slashed out to Lu Ming, and split Lu Ming's fist, but his own figure also shook slightly and took two steps back.

"court death!"

Eugene roared, and the spirit of Mosha seemed to turn into substance, and he just struggling to make a cut to Lu Ming, but the three of Dong Yuanqing, who also cast a combined attack, blasted a divine light towards Eugene.

This made Eugene furious.

Whether it is Lu Ming, or the joint attack technique performed by the three people of Dong Yuanqing, the single side fighting against him is not his opponent, but the two sides teamed up, which caused him a great restraint.

Because, no matter whether it is Lu Ming or Dong Yuanqing's attack on his side, he can't ignore it. If you ignore it, it will cause great harm to him, and he must be treated with dignity.

In this way, you cannot concentrate on dealing with one of them.

He can only divide his strength and attack both Lu Ming and Dong Yuanqing.

If the power is dispersed, it is impossible to form a crush on either side.

Boom!

Lu Ming successfully blocked Eugene's sword, although his body retreated several steps, but after all, unlike the previous one, blocking the next move would be hit hard.

In this way, Lu Ming and Dong Yuanqing's side took the roaming method and Eugene attacked. They were mainly defensive, and then took the time to launch a counterattack. For a time, they actually pinned Eugene.

The others in Tiangong took the opportunity to pull away and disappear in the west direction.

Soon, Lu Ming and Dong Yuanqing and others have been deadlocked with Eugene for ten minutes.

At this time, Lu Ming and Dong Yuanqing and others secretly communicated and retreated to the west while playing.

Although they can contain Dong Yuanqing, but it is impossible to defeat each other.

And the longer the time, the more unfavorable to them, because the combination of Dong Yuanqing's three people is very energy-consuming. The longer the time, the weaker the power. In the future, it will definitely not be Eugene's opponent and will be broken. The art.

This is also due to Lu Ming's restraint, otherwise, Dong Yuanqing alone can't restrain Eugene for so long, and it can be good to restrain dozens of moves.

"Damn, **** you all..."

Eugene was extremely furious, with a posture of being more and more courageous in the Vietnam War, the killing of the magic sword, Lu Ming, Dong Yuanqing and others, who could only passively defend and keep retreating.

His muscles bulged and his figure became more and more cruel.

What are you...

They are like a few meteors, flying while flying through the stars.

After a while...

"Here, the formation I have placed is below, and we can leave for that formation!"

Dongyuan Qingdao.

Lu Ming looked down, below was a stone forest.

This stone forest is the formation.

Wow, wow!

At this time, there were two more sword lights, and they slashed towards Landing Ming and Dong Yuanqing.

Lu Ming's double fists waved continuously, and the terrible offensive was converging, and finally a huge fist was formed, rushing out together, colliding with Eugene's knife light.

With a bang, Lu Ming's fist of condensed burst and burst, and with this force, Lu Ming's body fell down under the stone forest.

On the other side, Dong Yuanqing and others also condensed a tortoise shell. Under the knife, the tortoise shell burst, and they also used this force to fall into the stone forest.

Among the stone forests, there are arrays.

In the phantom array, hiding the formation of leaving, those in the Tiangong Palace obviously left from here.

As soon as they fell, Lu Ming launched the formation, and they left the place smoothly.

Eugene was furious, bombarded, and destroyed the stone forest in a dilapidated state, but Lu Ming had lost their trail.

"Damn..."

Eugene roared, and after a while, he gradually calmed down.

"Now, I want to find the place of fortune left behind by Lord Demon Lord as soon as possible, get the fortune inside, and then kill the people in the Temple of Light."

Eugene whispered, the killing in his eyes almost turned into substance.

Then, he took out the black ball and entered the evil spirit.

Buzz!

Suddenly, the black ball vibrated, the surface of the ball glowed, and some lines appeared on it.

These lines are the map.

Eugene's eyes flashed, remembering these lines.

"I heard that in the land of fortune, there will be obstacles laid down by the 'master'-level strongmen in the Tiangong, and they will meet with other people. Although those people are waste, they can also provide some help and let me save some strength..."

Eugene whispered a few times, and then left here to join other demons, and then according to the map, to find the place of fortune left by the devil.

Chapter 4097: Four sets of armor

At the moment, Lu Ming and others have appeared in the place where they stayed last time.

Sure enough, the people in Tiangong are here.

As soon as they saw Lu Ming and others appear, they immediately gathered around, and everyone watched Landing with fiery eyes.

"How? Is the map kept?"

"Demon didn't chase it?"

Everyone, you asked me in a word.

In Lu Ming's hand, a white bead appeared. Everyone at the scene was quiet for a while, and then all cheered.

Even Dong Yuanqing and others showed an uplifting look.

The map is here!

This is a map that leads to the land of fortune under the **** of heaven. As long as this map is there, they still have hope and have the opportunity to defeat the demon.

Otherwise, the demons have Eugene, and they only have the ending of failure.

This time, I couldn't afford to lose, because there was only one way to go.

"Hurry and see where the map leads?"

Someone can't wait to say.

Lu Ming did not say much, and looked at Dong Yuanqing, saying: "Brother Dong Yuan, the map is for you, come and see!"

After all, Lu Ming threw the white ball to Dong Yuanqing.

Lu Ming left a dim eye.

Because this white ball is made by the main character of the **** of the Temple, if he enters the taboo power into it, he is afraid that the main character of the **** will feel it afterwards.

Although this may not be possible, it has to be guarded against.

Dong Yuanqing accidentally took the white ball, and it seemed very surprised that Lu Ming would hand him the white ball.

"please!"

Lu Ming smiled.

Dong Yuanqing nodded his head and slowly entered the white ball.

The white ball vibrated, and then a pattern appeared on the surface, similar to the black ball of the devil.

"map!"

Everyone's eyes lit up, their eyes gathered on it, and the lines above were clearly recorded.

After a while, everyone recorded the map.

"It's not too late, let's set off immediately, or we will be in trouble when the demons get their fortune first!"

Dongyuan Qingdao.

Everyone nodded again and again, naturally there would be no opinion, and after a good discussion, they left here, eradicating the directions of the map and heading in the north direction.

The road is not near, but there is no demon blocking on the road, they are flying at full speed and still very fast.

About a little more than a day, they came to a flat place.

This planet was made by the joint work of 'master'-level characters. It is full of raised rocks and flat areas are rare.

According to the directions on the map, the goal is here.

Buzz!

At this moment, the white round ball trembles violently, emitting a white glow, and then the white round ball flew out of Dong Yuanqing's hand, suddenly enlarged, submerged into the ground, and disappeared.

Rumble!

The next moment, the ground shook violently.

"Retreat!"

Everyone was shocked and retreated.

Click! Click! ..

On the ground, a series of cracks appeared, like a cobweb, densely spread on the whole ground.

Then, the rock on the ground exploded, and a behemoth emerged from the ground.

It turned out that the land of nature is hidden underground.

The smoke was filled, the gravel splashed, for a while, after the smoke and gravel dissipated, everyone finally saw the face of this giant.

This is actually a ladder.

The stairs are white, and from the bottom up, there are nine stairs at the beginning. After the nine stairs, there is a platform. Above the platform, there is a cluster of glowing light suspended.

They can clearly see that there is a set of armor in the glow.

This is a set of bronze armor.

Everyone's eyes became fierce, and this armor must have been the creation left behind by the existence of God's main level.

Looking up the platform, nine more steps were found.

Above these nine ladders, there is another platform.

On this platform, there is also a ray of glow, and in the glow there is also a set of armor.

This set of armor is silver, is a set of silver armor.

This is the second platform, not finished yet, and there is a third platform.

On the second platform, there are also nine ladders. Above these nine ladders, is the third platform.

On the third platform, there was also a beam of Xianguang, among which was also an armor.

A gold-colored armor.

This is still not the end point, there are nine steps above the third platform, and then there is the fourth platform, and there is also an armor on the fourth platform.

This armor is purple gold.

This is finally the end.

Four steps, four platforms, four armors.

This is obviously the creation left by the God Lord on the side of the Tiangong, and the higher the upward, the higher the armor.

"Rush!"

"It's mine!"

Many people showed their glowing brilliance, their bodies turned into a ray of glow, and rushed towards the stairs.

However, when they approached the staircase, a large amount of evil spirit suddenly filled the stairs.

The air of Mosha covers the sky and the sun. In the air of Mosha, a large number of demons are traveling.

"It's a demon!"

"Does the demon ambush here in advance!"

Many people shouted in shock.

"No, these demons are not entities, they are not alive, they have no breath of life, they are condensed by the evil spirit."

Someone saw the situation.

"Yes, the defensive measures of the devil's 'master' level are laid here."

Humane.

Before they came in, they knew that the devil's 'master'-level character would lay defensive measures in the forbidden land of the Heavenly Palace, while the 'main'-level character in the devil's palace would lay out the defensive measures in the demon's nature.

"Can the defensive measures laid by the demon master be broken by us?"

Someone's complexion shouted.

"Don't panic, it's impossible for the 'lord' level characters to do their best. If that's the case, there is no need to set up a land of fortune in this competition. It must be within our tolerance range. It was checked!"

Humane.

Everyone is at ease.

Think about it too. The 'master' character on my side must have been checked, and it's impossible for the people on my side to suffer.

It can be guessed that the blocking power of the lands on both sides should be similar.

"Rush over!"

After the people's hearts settled down, their courage increased, and with a loud rush, they rushed towards the direction of the stairs.

"kill!"

Those demons with condensed spirit also shouted, wielded various weapons, and killed the people on the side of the Tiangong.

The two sides collided together and broke out violently.

However, at the moment of collision, someone fell.

Some people with weaker combat power were directly killed by demons.

"No, these demons are so powerful!"

"Rewind, rewind!"

Many people shouted and retreated crazy.

Originally, there were more than a thousand people on the side of Tiangong. At one time, at least five or six hundred people retreated crazy and retreated from the battlefield.

There are hundreds of people left, and they continue to fight hard.

Chapter 4098: Direct to the highest goal

The remaining hundreds of people are powerful and at least able to contend with the demons condensed by these evil spirits.

But in the evil spirit, there are too many demons, and it is not easy to rush over and reach the stairs.

Only some stronger ones can keep pushing forward.

Among the hundreds of people, Lu Ming's speed is undoubtedly the fastest. He is covered with gorgeous glow. His double fists are not slammed. Every time a slammed, a demon is exploded and turned into a demon again. Sha Qi.

However, these demons were exploded, and after turning into the evil spirit, a new demon was re-condensed and rushed to Lu Ming.

The devil seems to be invincible.

But these demons can't stop Lu Ming, Lu Ming keeps moving forward, and pulls away from others.

A moment later, Lu Ming successfully broke through the encirclement of the heavy demons and set foot on that ladder.

Lu Ming originally wanted to fly directly to the highest platform, but there was a strong force to suppress him, he could not fly.

Lu Ming knows that he thinks too much. If he can fly directly to the highest level, he will not need to make these steps.

He honestly fell on the bottom ladder.

When Lu Ming fell on the first ladder, a demon figure emerged from the ladder.

As soon as the figure of the demon appeared, he rushed to the landing, and the combat power was not weak, with the seven emperor's cultivation practices.

God Emperor Qizhong, in front of Lu Ming, is naturally not enough to see, and with a punch, the demon breaks apart.

Lu Ming stepped out and stepped on the second ladder.

Immediately, demons came out again, and this time, three demons appeared at once.

The seven demon of the three emperors!

However, even the demons of the three emperors and sevenfolds, in front of Lu Ming, was a punch.

With a punch, these three demons could not have the slightest resistance, and they also broke apart.

Then, step on the third step.

On the third staircase, the demon of the nine gods and sevenfolds suddenly appeared.

Punch out, pass.

On the fourth staircase, there appeared a demon with eight emperors, which was also killed by a punch.

The fifth ladder, the sixth ladder...

The further the demon appeared, the stronger the demon appeared. Finally, the demon of God Emperor Jiuzhong appeared. Of course, Lu Ming could not be stopped, and he was easily defeated by bombing.

Lu Ming quickly set foot on the first platform.

On the first platform, there is a bronze armor, which looks very extraordinary.

But Lu Mingsi thought for a moment, and did not take this armor.

This is just the first armor. It must be the weakest. If you want to take it, you will naturally take the strongest.

Lu Ming's target is the purple gold armor at the top.

No matter how bad it is, you have to get gold armor, so you have a chance of winning.

Uh!

Lu Ming continued to step forward and landed on the first armor of the second ladder.

However, this second step is completely different from the first step.

In the second step, no demons appeared, only pressure, and extremely powerful pressure, acting on Lu Ming.

However, although this pressure is amazing, it is still within Lu Ming's tolerance. Lu Ming's muscles tremble slightly, and he shakes this force and continues to step up and fall on the second ladder.

The pressure on the second ladder is undoubtedly stronger.

But Lu Ming still couldn't help it.

bump! bump! bump! ...

Lu Ming stepped up step by step, the speed continued, until the last step, the strong pressure only caused some pressure on Lu Ming, but the taboo force in Lu Ming's cells exploded, rushing away the pressure from the outside world in one fell swoop, and set foot on the second Platforms.

At this time, only other people stepped on one of the first steps.

Dong Yuanqing, Bunan...

It is the existence of the six top-level evil spirits, Divine Emperor Liu Zhongxiu, who can fight across four levels.

The six of them, with nearly as strong fighting power, landed on the first step almost simultaneously.

One of the six of them fell on the steps. In front of them, there was a demon condensing out, all of which were the seven emperors of God.

Such demons can't stop them naturally, and the demon in front of them bursts out in one move.

They went all the way up, very fast, and none of the demons above could stop them.

Soon, they came to the first platform.

The eyes of the six of them all fell on the bronze armor and hesitated.

In the end, the six of them left at the same time and headed towards the second step.

Their goal is also the armor of the upper platform.

There are also three pieces of armor on it. They guessed that Lu Ming should not look down on silver armor and should not choose silver armor. Then, silver armor, they have a chance.

By this time, Lu Ming had begun to set foot on the third step.

Silver armor is naturally not Lu Ming's target.

When Lu Ming stepped on the third ladder, a black flame emerged immediately on the third ladder, covering Lu Ming inside.

This is a magic fire, the temperature is very high, Lu Ming, immediately came bursts of tingling.

"Open me!"

Lu Ming shouted, breaking the taboo power, and wanted to push this magic fire away.

But the next moment, he was taken aback.

He found that he could not push the magic fire, which was burning against his body, burning continuously, stinging, and spreading all over his body.

"Does this section of the ladder test my willpower?"

Lu Ming whispered, then Baoyuan normalized and continued to step up.

Sure enough, the magic fire on the second ladder was stronger, and it was even more painful when burning. Even with Lu Ming's willpower, he could not help but take a breath.

What really tests is willpower.

Those with weak willpower can't bear it.

However, Lu Ming has been going all the way, and how many things he has experienced, his willpower has long been gritty.

bump! bump! ...

Lu Ming stepped up continuously. Every time he went up a ladder, the power of the magic fire became stronger, and the kind of sting would become stronger.

Later, it almost exceeded the limit of ordinary people's endurance.

Lu Ming bit his teeth tightly, and finally came to the ninth ladder. The magic fire on this ladder was really terrifying.

This kind of magic fire will not burn his body or destroy his body, it will only bring endless pain.

Lu Ming's body trembled slightly, and his body was cold and sweaty, completely wet by cold sweat.

Hurry!

Lu Ming continued to breathe heavily before resisting the urge to retreat.

In the end, with great perseverance, Lu Ming crossed the ninth ladder and came to the third platform.

On the third platform is a pair of golden armor.

"Should I choose this set?"

Lu Ming hesitated.

The ladder just now, to be honest, the difficulty has become very large, almost reached the limit of his patience, and finally stepped on.

The next step, needless to say, will be more difficult.

Chapter 4099: Was bombed

Lu Ming was hesitant.

The main reason is that he didn't know if he could return to get the golden armor if he failed on the fourth step.

"That demon genius Eugene is not a trivial matter either. I get gold armor, and the other party might also be able to obtain treasures of the same level. My combat power is originally lower than the other party. If the same treasure is obtained, it is still not the opponent's opponent."

Lu Ming thought of this, his eyes became firm.

He intends to fight.

If you want to win, you must get the treasure of the highest level in order to be sure.

After glancing at the golden armor, Lu Ming continued to step forward and walked towards the fourth flight of stairs.

"He didn't choose gold armor?"

Dong Yuanqing and others were a little surprised.

Originally, because Lu Ming would choose gold armor, and they put the target on the silver armor.

Unexpectedly, Lu Ming actually gave up the gold armor and chose to continue climbing. Obviously, the target was placed on the highest arrow purple gold armor.

The eyes of Dongyuanqing's six people flashed a few times, and then they set off at the same time and walked towards the third step.

Seeing that Lu Ming gave up the golden armor, they immediately placed their target on the golden armor.

The six members of Dongyuan Qing stepped on the third stage of the ladder. Like Lu Ming, they were also burned by the magic fire and suffered great pain. They clenched their teeth and insisted.

Later, there have also been changes. Five or six people have already stepped on the first stage of the ladder and even reached the first platform.

Among them are Ling Yuwei and Dou Shen Yuan Wen.

During this period of fighting God Yuanwen and the demons kept fighting, which stimulated the potential, Xiu Wei actually also broke through, reaching the fourfold of God Emperor.

With the strength that he can fight across five levels, it is not difficult to cross the first stage of the ladder.

After coming to the first platform, Ling Yuwei and Dou Shen Yuanwen didn't look at the bronze armor and went directly to the second ladder.

The remaining few people blinked a few times, and then walked toward the bronze armor at the same time.

Further up, there is Lu Ming, there are six evils, they know that the armor above, they certainly do not have their share, so their goal is this armor.

But at the next moment, they all stopped and looked at each other, revealing the look of alertness.

There is only one piece of armor, but there are four of them. How to divide?

"You, we get this kind of armor. The main purpose is to fight against the demon to win this victory. After the war, this armor may not be able to keep it by yourself. It is better for you to do it for yourself. Let me do it."

One of the young women said.

"What you said makes sense, so it's the same for me."

Another young man immediately.

"I think I'm more suitable."

"I think it suits me."

The other two youths did not give in to each other.

Although it is said that after the war, this pair of armor may not be able to stay on its own, but if you put on the armor to kill more demons, you will definitely have more credit. When the time comes, you will definitely have more rewards for merit.

They naturally will not give in.

Uh!

Suddenly, the woman who opened the earliest moved and rushed directly towards the bronze armor.

"Come on!"

"The bronze armor is mine!"

The other three young men also rushed to the bronze armor, the four masters, and instantly fought together.

None of the people who can reach this stage are weak. The four masters all have the power of God Emperor Jiu Zhong, and the battle is extremely fierce.

But in the end, there was a young man who was even stronger. After paying a little injury, he rushed to the bronze armor first.

"It's mine!"

The young man was overjoyed and grabbed toward the bronze armor.

However, when the palm of the young man approached the bronze armor, the bronze armor exuded a powerful wave and flew the young man's bullet out in one fell swoop.

The young man, who stepped back a dozen steps in a row, incredulously roared; "How is it possible!"

The other three were overjoyed. The woman took the lead and grabbed the bronze armor, but was also expelled by the bronze armor.

This time, the two of the others were both stunned and stopped.

"Does this armor pick people?"

One of them is humane.

"Try before you talk!"

The third person stepped up and grabbed the bronze armor, the others did not stop.

However, the third person was also exploded by the bronze armor.

This is the case for three consecutive people, so that the fourth person has no confidence, but it is definitely unwilling to not try. He used all his strength to grab the bronze armor, but he was still bombed.

"I won't believe it!"

The young man who was flicked yelled, unwilling to fail in this way, and continued to grab towards the bronze armor, but the result was the same as before, and was also flicked, but there was no harm.

Next, several other people tried it, and the results were the same, all were bombed.

By this time, Lu Ming had already stepped on the ladder of the fourth stage.

The ladder of the fourth stage is completely different from the previous one.

When Lu Ming stepped on the first step of the fourth stage, suddenly, a huge demon appeared in his mind.

This demon is terrifying and exudes a terrifying atmosphere.

"Is this a devil?"

Lu Ming was shocked.

The huge devil's eyes were as bright as electricity, staring at the land, and shouting, "Give me the demon master!"

In the loud shout, with terrifying coercion, as if all living creatures were in front of them, they had to kneel.

At the same time, there is a powerful force that acts on Lu Ming.

Lu Ming's body tremble, under tremendous pressure, almost spit out blood.

But after all, Lu Ming was blocked.

"Huh, so strong coercion..."

Lu Ming was shocked in his eyes.

The coercion emitted by this huge demon not only acts on the mind, but also on the body.

It is the double coercion of the mind and body.

If the strength is not strong, the mind is not firm, there is no perseverance, and I have an invincible spirit, I will succumb to this coercion.

But Lu Ming is a taboo body. How can he succumb to others when he does taboo?

Even if the opponent is a demon master level, he will not succumb?

"There is no one in the sky who can make me succumb, and so does the devil!"

Lu Ming shouted in his heart, and his pace was very firm. He stepped up and stepped on the second step.

On the second ladder, in his mind, the huge demon continued to shout: "Go down!"

This time the coercion is stronger than the last time.

Lu Ming's body shuddered even harder, and even his heart trembled.

However, Lu Ming's eyes were full of light that was still unyielding and never flinching.

bump!

He took another step...

The third ladder, the fourth ladder, the fifth ladder...

Lu Ming stepped continuously, and stepped on the sixth ladder continuously.

Chapter 4100: The competition of six masters

The higher the ladder, the more terrifying the colossal pressure from the giant demon.

Finally, give Lu Ming an illusion, as if he is really facing a real devil.

The existence of the "master" level is definitely the top master of the Honghuang Universe. Any one can be called a party overlord. In the entire Honghuang Universe, except the Tiangong, only the top 100 races can have the "Master" level. Sit still.

Moreover, there are only one race of many races. As the core force, they generally do not shoot.

This kind of character, no doubt, has stood at the pinnacle of hundreds of millions of souls, standing high above, looking down at the entire universe.

The coercion of this kind of character is extremely terrible. If he deliberately exudes coercion, the average person will stand instability before him, and he will kneel in fear in front of him.

Of course, the devil's coercion appearing on this ladder cannot be a devil's full prosperity, but only a small part. Otherwise, even Lu Ming's determination is unbearable.

There are too many levels.

Even so, Lu Ming has been under tremendous pressure.

bump!

Immediately thereafter, Lu Ming stepped out and stepped on the seventh step.

The demon master of this ladder is more terrifying and more terrifying. Lu Ming has a large body and a drop of blood oozes out of his pores.

The most terrible thing is that the stress on the mind is greater than on the body.

Lu Ming felt like an ant, looking up at a dragon.

A feeling of powerlessness permeated from his heart, and he developed an invincible and invincible idea in his heart.

"No, even if the opponent is stronger, it will be temporary. As long as I step forward step by step, I will catch up with the opponent sooner or later, and even step on the opponent!"

"When I first practiced, Emperor Yiwu and the Emperor stood high above, as if invincible, but in the end, it was not in my hands!"

"Later, when I went to heaven, I felt that the Evil God Clan could not be defeated, and the spirits were unmatched. But was it not defeated by me?"

"After coming to the Honghuang Universe, I feel that the King of Gods cannot match, but now? What is the King of Gods in front of me?"

"Just give me time, God Lord Demon Lord Tianjun, all lose to me..."

Lu Ming shouted in his heart, and his somewhat swayed eyes once again became firm and unyielding.

He walked along the way, created too many miracles, defeated too many strong enemies, and walked too many tortuous roads. His mind and his invincible thoughts have long been unwavering.

He resisted the coercion of the seventh ladder, and took another step, stepping on the eighth ladder.

After some efforts, he resisted the coercion of the eighth ladder and set foot on the ninth ladder.

The coercion of the ninth ladder was really terrifying, as if a real demon appeared, and the horrible pressure made Lu Ming almost kneel, this time it was almost kneeling, both legs were bent, the surface of the body, There is constant blood penetration.

He even felt that there were cracks in his bones.

"I won't give in!"

Lu Ming looked up to the sky and screamed, his eyes wide open, his long black hair flying, and his originally curved body straightened again.

bump!

Lu Ming raised his right foot tremblingly, as if exhausting all his strength, and finally stepped on the platform.

When Lu Ming stepped on the platform, the huge demon figure in his mind disappeared directly. The pressure on Lu Ming and his psychological pressure also disappeared without a trace.

With a thump, Lu Ming sat directly on the ground and gasped.

I was so tired just now.

It took a while for Lu Ming to slow down and looked down.

Below, Dong Yuanqing and other six masters are still on the third ladder, accepting the test of the magic fire.

They can have the present achievements. Naturally, they are not flowers in the greenhouse. The flowers in the greenhouse cannot have such achievements. They have gone through all the hardships and difficulties, and their willpower is very tough.

At this moment, they all reached the ninth step of the third step.

Although it felt extremely difficult, in the end, they set foot on the third platform, and then their eyes stared at the golden armor.

Then, they looked at each other with fear.

There are six of them, but there is only one pair of gold armor, how to divide?

"The armor here seems to be able to choose its own objects. You have also seen the bronze armor below. Even if we compete, it is probably useless. How about trying in turn?"

Dong Yuanqing proposed.

"Oh, who is the first one?"

Bunan said lightly.

The scene was silent again.

Everyone wants to go up first.

To be honest, the talents of the six of them are almost the same. Who can be weaker than anyone?

The golden armor will choose one of them, and it may choose the other.

No one wants to lag behind others.

"Well, let's draw a lot and decide who will go up first. If we meet, there will be damage. The cheap one is the devil..."

Dong Yuanqing suggested.

"Okay, I have no opinion!"

"Neither do I have an opinion!"

After a few others thought about it, they nodded and agreed.

They are the top fighting forces on the side of the Tiangong. If the gold armor fights each other and is damaged, it is very unfavorable to the Tiangong side. This is not what they want to see, so they simply adopted a lottery.

Soon, the draw was completed.

"Haha, I am the first!"

Bunan laughed.

He drew the first one to go to the lottery, which made him ecstatic.

Bump!

He stepped forward and came in front of the golden armor, using the power of his whole body, and grasped the palm with his palm.

Buzz!

Immediately, the golden armor shook slightly, and a powerful force emerged, directly retreating the Bunan bomb backwards.

"Impossible, how is it possible?"

Bunan yelled, somewhat unacceptable, and he failed.

"I don't believe it, I want to try again!"

Bunan shouted, trying to rush up again, but suddenly there were a few more figures in front of him, and a strong breath rushed to him.

"Bunan, do you want to violate the agreement?"

The demon of the demons said coldly.

Bunan could only stop, his face unwilling.

But in front of these people, he can't be arrogant. These people are all peerless monsters from the top ten races, and their status is not weaker than him.

Although Dong Yuanqing is not from the top ten races, it is also the evil spirit of the world's turtle family.

Along with the rune formation of the world turtle, it is unparalleled in the world. Although it is not a top ten race, it is also ranked 15, and its status is not much worse than them.

These people are not afraid of him.

He can only stay honest.

"It's my turn!"

The second is the peerless demon of the Fighting Saint Clan. He stepped out and came to the golden armor and grabbed it.
