

D Emperor 4101

Chapter 4101: Success, each has his own income

The peerless demon of the Fighting Saint Clan also grabbed the golden armor, but the result was the same as that of Bunan, and was flew out.

Second person, fail!

As a result, the other people's faces were a bit ugly.

The evil spirits and talents of Bunan and the Fighting Saint Clan are not weaker than them, and they have all failed one after another. Do they also fail?

The third, Dong Yuanqing, failed!

Fourth, fifth, sixth!

In the end, the six men took turns, without exception, and all failed.

"What's going on? The armor can't be obtained?"

Bunan said unwillingly.

So far, no one has got the armor.

None of the previous bronze armor was successful.

But if you can't get it, what is the significance of the god-lord figure of Tiangong, laying down such a land of fortune?

Next, Bunan and others were not reconciled and tried again in turn, but all failed.

At this time, their eyes could not help looking up, looking at Lu Ming.

They wanted to see if Lu Ming could succeed!

"They all failed?"

Lu Ming was also quite surprised to see it.

Because he couldn't figure out what's going on, wouldn't he walk in vain?

But since they are all coming up, it is natural to give it a try.

Now Lu Ming has recovered almost, getting up and walking towards the Zijin armor.

The power of taboo covers the whole body, and the palm of the hand grabs towards the purple gold armor.

When Lu Ming's palm was close to the purple-gold armor, he felt a slight shock from the purple-gold armor, and a force rushed to him.

But as soon as the force approached his palm, he immediately retracted, disappearing without a trace.

Lu Ming grabbed the purple-gold armor and grabbed it in his hand.

"got it!"

Below, Dong Yuanqing and others were dumbfounded.

"hateful!"

Especially Bunan was very upset.

They couldn't even get the gold armor, but Lu Ming could easily get the higher-grade purple gold armor, and sentenced him.

"Do you want to use it?"

After getting the Zijin armor, Lu Ming got entangled again.

This is the armor left by Tianjun. If he puts it on, he will enter the taboo force in the armor. Will Tianjun feel it?

"Actually, you don't have to be so tangled. If it's so easy to be sensed, how can the flying phoenix let you come to the heavenly palace?"

Bone Magic Road.

"makes sense!"

Lu Ming nodded.

Tianjun-level characters are really terrifying. In the face of such characters, Lu Ming is unavoidable to be more careful.

Immediately, Lu Ming entered the taboo power into the purple-gold armor.

Suddenly, the purple-gold armor exudes a dazzling brilliance, turning into a purple-gold light, and flew to Lu Ming. Lu Ming's body surface immediately appeared a pair of purple-gold armor, covering his whole body.

"This power..."

Lu Ming felt that, at this moment, his body had a very powerful force.

This force was brought by the purple-gold armor. At the moment, Lu Ming had a feeling, as if a punch could kill a Divine Emperor alive.

"Eugene, I look forward to fighting you again!"

Lu Ming whispered, with a strong fighting spirit.

"Really successful!"

Others saw Lu Ming wearing purple-gold armor, majestic, shocked, and jealous.

Jealousy is easy to understand.

Fortunately, after all, Lu Ming is from the Tiangong side. Now he has the highest level of armor. They have a great chance of winning the battle with the demon.

This is a good thing after all, and it also brought a signal that these armor can be collected. Before the failure, there must be something wrong.

At this moment, Ling Yuwei and Dou Shen Yuan Wen have come to the second platform.

After coming to the second platform, Dou Shen Yuanwen looked at the silver armor and then the gold armor on it, and then resolutely continued to step up and head towards the third platform.

And Ling Yuwei, thinking for a moment, did not continue to move up.

She knows better than talent, she is certainly not an opponent of the God of Fighting God.

After her observation just now, these armors are likely to choose highly talented people, and the relationship with the combat power is not particularly great.

This point can be seen from the failure of Dong Yuanqing, Bunan and others.

If she competes with Dou Shen Yuan Wen, she may not be an opponent of Dou Shen Yuan Wen, so she simply stays on the second platform, and then walks towards the silver armor, reaching out to grasp the silver armor.

Just like when Lu Ming grabbed the Zijin armor, the silver armor exuded a trace of fluctuation at first, and then the fluctuation disappeared, and the silver armor was caught in her hand.

Succeeded!

Others' eyes widened in shock.

Another one succeeded!

Dong Yuanqing, Bunan and others envy jealousy.

They couldn't get the gold armor, and now the silver armor was taken away again, could they only get the bronze armor?

They were not reconciled and tried to get the gold armor again, but the final result was still a failure.

Obviously, what can succeed is one-time success, one time can not succeed, then it must be no drama.

bump! bump! bump! ...

The sound of footsteps kept ringing, and the God of Fighting Spirit was still heading towards the third platform. The magic fire enveloped him, but he could not destroy his will and fighting will.

After all, he set foot on the third platform and walked towards the golden armor.

Bunan and others did not stop it.

Fighting God Yuanwen grabbed the golden armor, but was not bombed, but he was successfully caught.

Succeeded!

"Sure enough, does it have a lot to do with talent?"

Someone whispered.

They are naturally aware of the talents of Dou Shen Yuan Wen. At that time, the top 100 list of quasi-empires was unique and peerless.

Of course, this test is not entirely dependent on talent, and combat power is also part of it.

There is no definite combat power, and even the demons that gather around the evil spirits can't rush.

And the ladder of the first stage is the strength of the test.

At the very least, it takes God's Nine Heavy Forces to pass the first stage of the ladder.

Without a certain combat power, no matter how high the talent is, it is useless.

In this way, Zijin, gold, silver, and three sets of armor all have masters.

Now, only a bronze armor remains.

The six members of Dongyuanqing glanced at each other, and then rushed down at the same time.

They rushed down the stairs of the third stage, and immediately, the magic fire spread out on the stairs.

However, from top to bottom, the power of the magic fire gradually weakened, and their speed was very fast, and they quickly came to the second platform, and then continued down to the first platform.

The four young people on the first platform quickly retreated.

"Shoot it together, who can get it, whoever it is!"

Dongyuan Qingdao grabbed the bronze armor.

The other five also shot at the same time and grabbed the bronze armor.

Chapter 4102: A fight

The six young men, Tianjiao, grabbed the bronze armor together. At the moment of grasping, the bronze armor trembles violently, and a powerful force burst out.

Uh, uh...

The six youths were arrogant, one after another was retreated.

The hearts of everyone were astonished. Could it be that the six young men were arrogant, and no one could get bronze armor?

No, it was actually five people who were retreated, and one person remained unmoved.

It was the evil spirit of the fighting sage, he grabbed the bronze armor, and then the bronze armor turned into a light, covering him, and a bronze armor appeared on his body, covering his body In it.

"It's fighting **** Yuankong, he succeeded!"

"Awesome, the fighting sages are worthy of the race known for their "war". Not only are they warlike, but they are also unmatched in their combat power. The bronze armor finally chose the fighting **** Yuankong."

Some people exclaimed and were very envious.

Bunan, Dong Yuanqing and others flashed unwillingly on their faces.

This time they didn't get any of the four pieces of armor in the Land of Fortune, which is really shameful.

Four pieces of armor, the highest-grade purple gold armor, were obtained by Lu Ming.

The gold armor, which is second only to the purple gold armor, was obtained by the God of War.

The silver armor was obtained by Ling Yuwei. The lowest-level bronze armor fell into the hands of Dou Shen Yuan Kong.

In this way, four pieces of armor were divided by four people.

Rumble!

When the fighting **** Yuanwen got the bronze armor, the steps here shook violently, then broke apart and turned into energy.

All the evil spirits and demons condensed from the evil spirits under the ladder also disappeared.

This area, like other places, is just an ordinary rocky area.

"Great!"

Around, many people showed uplifting looks.

This time the four pieces of armor left by the Divine Lord were all obtained, which is definitely the best ending.

"Muyun, fighting God Yuanwen, how do you feel you can deal with the devil?"

Dong Yuanqing's eyes turned to Lu Ming and others.

"Hahaha, rest assured, this armor has great power. I now feel that my body is full of inexhaustible power. Even in the face of that Eugene, I can kill him alive."

Fighting God Yuanwen laughed, and the fighting spirit was strong.

"If the other party also gets the fortune left by the devil, it will not be so easy to deal with. Without further ado, we should act as soon as possible to find the trail of the devil. It is better to destroy it before the other party has obtained the fortune left by the devil. Kill each other."

At this time, Lu Ming spoke.

Everyone was shocked and calmed down.

Yes, although they got the fortune left by the Divine Lord, there is also the fortune left by the Devil Lord on the demon side.

If it is the other party, they also get all the creations left by the devil, and the demon itself is stronger than them, then they are in danger, and they will still fall.

"Good, find the devil as soon as possible!"

"Just act now!"

Everyone, you say it to me.

"Look for the people, let me be the world's turtle family!"

Dong Yuanqing spoke, and everyone naturally had no reason to disagree.

Immediately, Dong Yuanqing left here with the arrogance of several other world turtles.

The world's turtle family, proficient in the rune formation method, to explore the traces of demons, is the most suitable.

Dong Yuanqing and others left, and everyone waited on the spot.

In particular, some people were injured when they broke into the ladder just now.

This is the time of day.

suddenly...

In the distance, there was a figure flashing, and when everyone saw it, it was Dong Yuanqing's figure.

Everyone knows that there is probably news of demons.

"You have found the demon, and the devil seems to be looking for us..."

Dongyuan Qingdao.

"What? The devil is also looking for us. In this way, the devil has already gotten the fortune left by the devil, want to find us as soon as possible, and kill us?"

Someone exclaimed.

The demons were looking for them, obviously they had the same idea as them.

This is not good news for them.

"Indeed, the devil must have gotten the character left by the devil!"

Dongyuan Qingdao.

"Do you know that the devil has all the creatures left by the devil master, got all?"

Someone asked.

"I don't know this~"

Dong Yuanqing shook his head.

This makes many people dignified.

If it is the demon side, and all the creations left by the devil master are obtained, then they are in danger.

Is there another battle?

"Now the lands on both sides have been obtained, and there is no suspense. We are already in the strongest state. If we are still not enemies, then we will be defeated. Instead of being frightened here, it is better to fight the devil!"

Lu Ming's voice sounded.

"Yes, if you can beat it, you will know if you have beaten it. If the opponent is stronger than us, even if we escape, it will be useless. Sooner or later, we will be found and killed by the opponent."

Fighting God Yuanwen also cried.

"Good, kill him cold!"

"Fight with the other party!"

Others shouted.

Even though some of them were timid, they had to fight hard at the moment.

Just like Lu Ming said, now the land of fortune has been obtained, but the hard power behind can only be used, and the suspense has disappeared.

"Brother Dong Yuan, where is the demon?"

Lu Ming asked.

"follow me!"

Dongyuan Qingdao, turned and walked away.

Lu Ming stepped out first, keeping up with Dong Yuanqing, and others also set off.

They have been flying towards the west, vast and mighty, with no hidden meaning.

Soon, their trail was also discovered by the demons.

"The people in Tiangong dare to come, it seems that they have obtained the fortune left by Tiangong, Eugene, what shall we do?"

A devil Tianjiao asked Eugene.

"What else can I do now? There is no escape route now, only the people in Tiangong are fighting with each other. Follow my orders and set off all to kill the debris of Tiangong!"

Eugene yelled.

"Kill, kill the debris of the Light Palace!"

"kill!"

The demons roared, and the spirit of Mosha blasted into the sky, killing them in the direction of landing Ming.

Lu Ming flew all the way, some time later...

"coming!"

Lu Ming's eyes looked forward.

Ahead, the evil spirit's qi is blasting into the sky like a tide, rolling in.

Soon after, a large number of demons appeared, with nearly three thousand people.

When the demon came in, there were nearly 4,000 people. Because of Eugene, the demon did not lose as much as the Tiangong side.

There are no more than 1,500 people in Tiangong.

The number of people on both sides differed by half, which made the people in Tiangong face pale.

Some timid people feel a little dazed.

But now there is no escape route, only one battle.

"kill!"

On the demon's side, after seeing Lu Ming, they let out a deafening roar. Demon qi soared into the sky, and the demon's wings flapped, and they flew towards the landing.

Chapter 4103: Kill Eugene

The demon army, with the magical energy, killed Lu Ming.

Among them, three are the most special.

Because these three people are wearing a blood red magic armor.

Behind the magic armor, there are energy-made demon wings extending out.

Among them, behind one person is a pair of demon wings, one person is two pairs of demon wings, and one person is three pairs of demon wings.

This kind of wings is part of the blood red magic armor, not their own devil wings.

Among them, the three pairs of demon wings are Eugene.

"It seems that this blood-red demon armor is the devil's creation. The more demon wings, the higher the level. I don't know if Eugene got it. Is it the best in the devil's creation?"

An idea flashed in Lu Ming's heart, but his figure kept running forward.

"Rush!"

People on the other side of the Temple also shouted and rushed towards the demon.

Among them, Lu Ming and Eugene are the fastest.

The purple-golden armor has long covered Lu Ming's body, making Lu Ming look majestic.

"Boy, kill you today!"

Eugene stared at Lu Ming for the first time, bursting into a cold murderous eye in his eyes.

The blood-red set of armor on him exuded a terrifying blood, making him look like an ancient demon god.

"This sentence is exactly what I want to say. Today is your death, Eugene!"

Lu Ming also spoke indifferently.

The two of them had the fastest speed, punctured the sky like two meteors, and then crashed together.

boom!

The sky and earth were trembling, purple and golden light and blood red light illuminating the whole sky and the two stars collided together and exploded.

"Who is stronger?"

At this moment, almost everyone's minds are concentrated on the two.

The success or failure of Lu Ming and Eugene is probably related to the final victory or defeat of Tiangong and the Devil, and no one is not concerned.

Uh!

At the next moment, a figure retreated backward.

At this moment, all the demon pupils suddenly became larger.

It's Eugene!

This retreating figure was actually Eugene, which shocked countless demons.

The people on the Tiangong side are ecstatic.

Lu Ming gained the upper hand, and Eugene, the strongest presence on the demon side, would not be so terrible.

Who is most afraid of people in Tiangong, not Eugene?

But now, Eugene, the strongest of the demons, is pressed down by Lu Ming, what else is terrible?

"Kill!!"

The morale on the side of the Tiangong shook and yelled, killing the demon.

On the other side of the demon, morale is weak, and there is no longer the previous strong.

"you are mine!"

Fighting God Yuan Wen wore a golden armor, golden light, magnificent, warlike night, he condensed a battle with energy, stared at the demon wearing a blood red demon armor, with two pairs of demon wings of the demon.

The demon also killed the fighting spirit Yuanwen, and the two slammed at each other, but as a result, the demon's body retreated.

Another demon fell into the downwind, this time, the morale of Tiangong was stronger, and the devil was weaker.

Rumble!

Tiangong and other people on the demon side also collided together, and a fierce fighting broke out.

high altitude...

"Eugene, it seems that you didn't get the highest character left by the devil!"

Lu Ming sneered.

"Are you...?"

Eugene watched Landing in shock.

Lu Ming's original combat power was weaker than him, but now, he can suppress him, which obviously shows that Lu Ming's accomplishment is stronger than him.

"You think well, I get the strongest fortune, and the person who died today will be you!"

Lu Ming's indifferent voice came out, his figure kept on, and he killed Eugene.

"Even if you get the strongest fortune, I am invincible, I can still beat you!"

Eugene roared, his eyes were red, and he was like crazy, urging all the power to the extreme, killing Lu Ming.

The two collided together, fighting fiercely.

Boom...

The two confronted each other fiercely, fighting madly, and immediately confronted a dozen rounds.

bump!

Then, Eugene's figure retreated backward, hitting the ground and knocking the ground out of a big pit.

But at the next moment, blood flashed into the sky, and Eugene rushed to Lu Ming again, and the two continued to fight.

But this time, before the ten strokes arrived, Eugene's body retreated and hit the ground again.

This time, he vomited blood.

There were cracks in the blood-red demon armor on his body, and there was a depression in one place, and a fist-sized hole was broken.

"kill!"

Lu Ming screamed, and the whole person was wrapped in purple gold light, swooping down and killing Eugene.

The man hasn't arrived yet. The terrifying force has already burst the ground.

what!

Eugene shouted, naturally unwilling to be killed in this way, running all his power, rising into the sky, and confronting Lu Ming.

boom!

The two confronted each other in the air.

But at this time, Eugene had been injured, and even the blood-red Demon Armor had been damaged, the combat power was greatly reduced, and it was even more resistant to Lu Ming's attack. His body fell quickly again.

Lu Ming kept on the offensive and rushed towards Eugene, his fists bombarded continuously.

Boom!

At this moment, Eugene couldn't defend at all, and Lu Ming's fist fell on him like raindrops.

The speed was too fast. With a breath, Lu Ming blasted hundreds of fists, all bombarded on Eugene's body. If there was no blood red magic armor blocking, Eugene would have been blown into a blood mist.

Even so, Eugene was seriously injured.

Click!

At this time, there were more cracks in the magic armor on Eugene's body, such as the sound of broken porcelain.

"Do not..."

Eugene shouted unwillingly, and at the next moment, the magic armor on his body exploded and shattered into pieces, flying around.

His magic armor was shattered by Lu Ming.

Without Eugene's Eugene, and in a state of serious injury, in front of Lu Ming, it was like a ant.

As soon as Lu Ming grabbed his palm, he grabbed Eugene's head, and then squeezed hard, and Eugene's head exploded.

Eugene, die!

Then, Lu Ming drew Eugene's demon spirit blood and put it in a jade bottle.

Eugene, in the Divine Emperor Realm, is capable of fighting across five levels, and his talent is not weaker than the God of Fighting Spirit. This kind of demon has unlimited potential. I don't know where it will grow. The demon spirit blood that can be exchanged, It must be amazing.

"Eugene is dead!"

At the moment, the devil was in chaos.

Eugene, the strongest fighting force of this group of demons, the strongest arrogance, but now, Lu Ming has been killed by force.

Eugene wearing three pairs of Devil Winged Demon Armor is invincible, how can they be invincible?

All the demons were chilling, and there was no war.

In this way, Tiangong seized the opportunity, caught the flaw, and killed many people in one fell swoop.

The demon that was fighting against the God of Fighting Yuanwen was originally completely crushed and beaten by the Fighting God of Yuanwen. At this moment, the Fighting God of Yuanwen seized the opportunity, and his head was split off by a stroke and fell on the spot.

Chapter 4104: Victory

On the other side of the demon, the demon wearing a pair of devil wings and magic armor was previously stared at by Ling Yuwei, and was also beaten by Ling Yuwei.

At this moment, Ling Yuwei shot through the magic armor and was killed in the air.

Their magic armor is one level lower than Ling Yuwei, Dou Shen Yuan Wen and others.

Lu Ming they speculated that the highest level of creation left by the devil on the devil's side should be four pairs of demon wings' armor, corresponding to the purple gold armor obtained by Lu Ming.

Eugene's three pairs of demon wings and armor correspond to the gold armor obtained by the fighting
**** Yuanwen.

Two pairs of demon wings and armor correspond to silver armor.

A pair of demon wings and armor, corresponding to the bronze armor.

And now, the demon and Lu Ming are fighting against each other, they are all down one level, how is Lu Ming's opponent? Naturally killed by one-sided.

On the devil side, all three people who were made by the devil master were killed, which made the devil's side extremely weak.

"retreat!"

"Go!"

Many demons shouted and retreated one after another without any sense of war.

"Want to go!"

Lu Ming's eyes were indifferent, and his body suddenly shifted out.

He is now inspiring the power of Zijin's armor, which is too strong. The ordinary Divine Emperor's heavy presence will be beaten to death with his fist, and even his speed is approaching the extreme.

As soon as his figure moved, the next moment he appeared in front of a tall and burly demon.

This demon is the top demon Tianjiao, and is on the same level as Dong Yuanqing and others.

At this moment, Lu Ming suddenly appeared, terrified and frightened, and subconsciously wanted to retreat, but how could he retreat?

Lu Ming's palm was like a sword, and he slammed it out, breaking all the other's attacks and defenses, splitting the other side in half, and the demon spirit blood was caught in his hand.

The next moment, Lu Ming killed another demon again.

Lu Ming specially picked the kind of top demon to kill, one stroke, one breathing time, and several top demon demon were killed.

"I admit defeat, we will admit defeat soon!"

"Yes, admit defeat!"

At this moment, many demons roared.

As long as 80% of the demons admit defeat at the same time, they will not have to die.

At this point, it is no longer meaningful to continue fighting. In the face of Lu Ming's armor, they are like ants, they can't fight at all, and they can only continue to annihilate.

Better to admit defeat!

"Yes, admit defeat, admit defeat!"

"Quickly admit defeat!"

The other demons also reacted. At this moment, they no longer have to admit that they will be punished by the demon master after losing, just want to save their lives first.

Many demons want to shout and admit defeat.

Buzz!

At this moment, Lu Ming urged the purple-golden armor with all his strength, full of splendid radiance, a force of terror, spreading out continuously, covering a large area of the circle.

Within this range, there are at least thousands of demons.

They were suppressed by Lu Ming's power, and they were about to explode, not only their bodies were difficult to move, they couldn't even speak.

If you can't speak, you can't admit defeat.

Ahhhh!

The anxious faces of these demons were red, but they just couldn't scream.

Thousands of demons concede defeat, even if all other demons admit defeat, it is useless.

Because it takes more than 80% of the demons to admit defeat before they are considered to lose.

"Kill!"

"Don't let go of a demon!"

The roar on the side of the Tiangong continued to kill towards the demon.

In particular, Fighting God Yuanwen, Ling Yuwei, Fighting God Yuankong three people, wearing armor, no one is invincible, a lot of demons were killed, a lot of demonic spirit blood fell on them In hand.

The envious eyes of everyone else were red.

You have to know that these demons are all arrogant characters of the demons, and their potentials are very strong. The demonic spirit blood of each demon is of amazing value.

Usually it is almost impossible to meet so many demons.

Lu Ming was not idle.

He also opened a war against the devil.

Thousands of demons, Tianjiao, were suppressed by his power to stimulate Zijin's armor, just like the lamb to be slaughtered, Ren Luming slaughtered.

When Lu Ming punched out, a large number of demons Tianjiao were killed, and the demon spirit blood was attracted by Lu Ming with a powerful force, and all were collected into a jade box.

Lu Ming's body glowed, and he dashed. No demon could live wherever he passed.

For the devil, there is no need to be soft-hearted and merciful, as long as the kill is over.

Thousands of demons, Tianjiao, were only killed for a while, and they were all killed by Lu Ming.

Thousands of drops of demon spirit blood fell into Lu Ming's hands.

At the moment, the remaining demons, Tianjiao, were also killed by the fighting spirit Yuanwen, Ling Yuwei and others, and almost did not escape.

The demon's top power was killed by Lu Ming. When facing the Tiangong, he was basically one-sided. With the addition of Dou Shen Yuanwen and others who possessed armor, the combat power was so different that the demon could not even escape.

Almost all the demons in the first battle were killed.

"Hahaha, victory!"

"we won!"

Many people in Tiangong laughed and were very excited.

Especially after the group of people who were suppressed and hunted down by Eugene and others before, they were even more excited. This victory came too hard.

They had been chased and killed by demons all the way before. They were not opponents at all. Every time they thought about it, they felt that they were less fierce this time. They were not opponents of demons. I didn't expect how long it would be before they won. The demons are almost wiped out.

The victory came too suddenly!

"Tianjun and the adults have not yet appeared and are not over yet, indicating that there are still some demons scattered all over the place and have not been killed. You must find these demons and kill them all to be a real victory!"

Dongyuan Qingdao.

The crowd calmed down and nodded.

Indeed, the condition for victory is to kill all demons, or more than 80% of demons admit defeat.

Obviously, there are still demons that haven't followed before.

These scattered demons did not know that the demons had been defeated. Naturally, there was no more than 80% to admit defeat.

"Let's go and hunt down the demons in batches. We must search every inch, and we must find every demon."

"Okay, just do it!"

The crowd shouted, and then a group of more than a dozen people spread out and went in all directions to find the demon.

Beyond the temporary planet, above the sky, the twelve 'master' levels of demons and celestial palaces stand on both sides of the temporary planet. Their eyes are like stars, and they can clearly see what is happening in the temporary planet.

"Waste, a bunch of waste!"

A demon lord coldly drank, the voice was extremely cold, and the voice contained fearful anger.

The other demon masters are similar, although there is no opening, but the demon fire on the body is burning, turning the void into a chaos.

The flame in his eyes seemed to turn into two rounds of the sun.

Chapter 4105: Distribution harvest

"Hahaha, everyone, it seems that I am the arrogance of the Tiangong Temple, slightly better, Tiandi Mausoleum, inherited!"

A Tianjun laughed, even in the position of Tianjun, could not help being excited.

Inside the Tomb of Heaven and Earth, there is a terrifying existence left, and the strength of such an existence, even the Divine Lord, is hard to look at.

Those places where the existence remains, even the 'master' level characters, are heart-wrenching.

"Humph!"

"hateful!"

The six demonic 'lord'-level characters all sneered, and they were extremely unhappy. In the world tomb, there is also a demonic strongman buried in the world. They also want to get it.

It is a pity that they had previously gambled against the 'master' character of the Tiangong Palace and made an oath based on the origin of their lives. They did not dare to violate their cultivation practices. They could only give such great opportunities to the characters of the Tiangong Palace.

It's useless for them to be reluctant.

Although the competition is not over yet, the results have come out and there are no suspense.

It is only a matter of time to formally win or lose.

"That guy..."

Six demons and demon masters have the image of a young man in their minds. This young man is Lu Ming.

This time the devil will be defeated, completely because of Lu Ming.

If it weren't for Lu Ming to get the highest-ranked purple gold armor and kill Eugene, the demon would never lose, and Lu Ming would win.

It was because of the emergence of Lu Ming that the situation in the entire battle situation was reversed.

They remembered Lu Ming's image deeply in their minds, and in the future, they will not make Lu Ming feel better.

In the temporary planet, the hunt continues.

Lu Ming also participated in the hunt. These demons are arrogant, but they are all merits.

In the Hall of Merit Exchange, all of them are treasures. There are countless kinds of treasures, all of which require merit points.

Merit points, that is, the more the better, the more good.

Under the bulldozing search of Tiangong, those demons could not be hidden, one by one they were found to kill them.

Half a month later, when the last demon Tianjiao was killed, Lu Ming suddenly felt a force on him. At the next moment, his figure disappeared from its place and appeared in a void.

Above, there are twelve horrible figures, standing in the void, watching them.

These twelve horrible figures are naturally the lords of the Temple and the Devil.

Lu Ming glanced and found that there were many people around him, all of which were the arrogance of the Tiangong, and none of them were demons.

Of course there won't be, they have all been killed.

"Hahaha, okay, this time, you performed well. We all look at your performance."

There was a laugh in the sky.

Many people show joy, can be concerned by the people of Tianjun level, this is a great honor.

"You are defeated, have you not left here with your devil and devil?"

Another Heavenly King, the sound of the Devil's Demon Lord, rumbling and blasting, like the sky and thunder.

"go!"

The devil's demon has nothing to say, his body moved, and his figure disappeared directly from the place.

The six demon masters disappeared without a trace. Soon after, the demon army began to retreat.

"You are very good, especially you, your name is Muyun, right?"

There was another sound in the sky. Lu Ming seemed to feel that the two suns were staring at him. That was the gaze of a heavenly king.

Facing the existence of Tianjun, to be honest, Lu Ming is still a little nervous, after all, he is a taboo body.

It is false to say that there is no guilty conscience.

"Yes, Master Tianjun!"

Fortunately, Lu Ming was superior in mind, calmed his mind and clenched his fists.

"Very good, you did very well. This time there are rewards. When you return to the city of Dreamland, Tiangong will give corresponding rewards."

A heavenly king said.

Others are envious, and Tianjun speaks personally, which is absolutely amazing.

It is also a great honor to be appreciated by Tianjun.

"Thank you Master Tianjun!"

Lu Ming clenched his thanks again.

"And you, your performance, we all see in the eyes, there will naturally be rewards for meritorious service, and later, you will all have rewards!"

The Tianjun continued to speak.

As soon as his voice fell, he stretched out a hand, and Lu Ming immediately felt that the purple gold armor on his body was out of control, and flew out on his own, and was taken away by the Tianjun.

Not only he, the fighting spirit Yuanwen, Ling Yuwei, and the fighting armor of the fighting ****
Yuankong were all put away.

"These armours are not suitable for you for the time being, I will put them away first, well, you are all gone!"

After collecting the armor, the Tianjun waved.

Lu Ming despised.

Also rewarded, in the end, even these armor were reluctant to give, but also received it back, Lu Ming suddenly no rewards for the reward later.

In addition, what let Lu Mingsong breathe is that fortunately he has been prepared for a long time and put away the power of the taboo in the war armor without leaving a trace, otherwise, it would be impossible for Tianjun to find out.

"Yes, Master Tianjun!"

Everyone took orders, and then left one after another, and returned to Nantian City.

Lu Ming, they still have a few years, only one hundred years, they can return to the city of dreams.

In the next few years, they had nothing to do, nor did they go out to hunt the devil, and practice in Nantian City with peace of mind.

During this time, Lu Ming's promotion was very fast, and it just took a moment to consolidate the cultivation to the state.

In a few years, in the blink of an eye, Lu Ming had been in Nantian Town for a hundred years, the task was completed, and under the leadership of several Tianguans, they returned to the Dream City and returned to the Tianhe Camp outside the Dream City .

In Lu Ming's place of residence, Lu Ming, Ling Yuwei, Dan Dan began to divide up the blood of the demon spirit.

"Envy you, you can participate, you should hunt a lot of demons Tianjiao!"

Dan Dan enviously looked at Landing Ming and Ling Yuwei. He was over the age and did not participate. It is a pity at this time.

"Otherwise, shall I share with you?"

Lu Ming said.

"Really?"

Dan Dan's eyes lit up immediately.

"fake!"

Lu Ming smiled.

"Cut, you know!"

Said happily.

"Haha, so, the two drops of Demon Emperor's Demon Spirit Blood will be given to you, Yu Wei, you have no opinion!"

Lu Ming said.

"I naturally have no opinion!"

Ling Yuwei nodded. This time she also hunted a lot of demons Tianjiao, gaining a lot.

Moreover, before fighting the devil Tianjiao, when they hunted the devil for the first ninety years or so, they made a lot of effort. Many times, they relied on the formation of Dandan. Harvest.

For the first ninety years or so, they received a total of two drops of Demon Spirit Blood from the Devil Emperor Realm.

One drop was encountered by a demon emperor who was seriously injured by a master of the Buddha clan and was killed by the three of them.

When a drop came from the demon army's siege, Dandan obtained it by chaos.

Chapter 4106: Horrible merit

"Fortunately, you have a little conscience, I will take the two drops of the demon spirit blood of Devil Emperor Realm!"

Dandan just smiled and took two drops of Demon Spirit Blood from Devil Emperor Realm.

Then they divided the blood of other demons.

Of course, the demon spirit blood of the devil Tianjiao hunted in the temporary planet is not evenly divided, and the demon spirit blood obtained in the previous ninety years is evenly divided.

After the demon spirit blood was evenly divided, all three were very satisfied.

However, they did not immediately go to the well of merit to exchange merit points.

They have just returned from Nantian City. During this time, there are definitely many people who go to the Well of Merit to exchange for Merit Points. Now that they have gone, they are in line and they are also noticeable.

They waited more than ten days before going to the well of merit together.

"Look how many merit points I have!"

As soon as he came to the Well of Merit, he could not wait to rush up, and then he took out all his demonic spirit blood and poured into the Well of Merit.

The well of merit immediately radiated the glow, and at the next moment, a row of words emerged.

1233234.

Lu Ming and Ling Yuwei's eyes lit up suddenly.

More than one million, once and for all, the merits have actually reached more than one million.

This is really a big gain.

Of course, the two drops of Devil Emperor Realm's devil cannot naturally be worth so much demon spirit blood, and also add many **** emperor nine heavy, **** emperor eight heavy seven heavy demon spirit blood, only have so many merit points.

"Hahaha!"

Dan Dan grinned, very excited.

With more than 1 million merit points, how many treasures can I exchange?

Dandan's mind has already started to count, what kind of treasures are going to be exchanged in the Hall of Merit Exchange?

The number of words in that line flew into the Dandan identity jade card, disappeared, and the jade card re-flyed into Dandan's hand.

"It's your turn!"

As soon as he backed away, the smile on his face had not disappeared.

He looked at Lu Mingming and Ling Yuwei with a smile on his face, meaning it was time for you, and how many merits you have.

"Come on, your last one!"

Ling Yuwei said to Lu Ming that she knew Lu Ming was the most and left Lu Ming at the end.

She came to the well of merit, took all the merit points, and fell down the well of merit.

The well of merit suddenly diffused in the glow, and the intensity of the glow was stronger than the one just now.

At the next moment, a line of words emerged.

1809897.

"so much?"

Dan Dan's eyes widened in surprise, a shocked expression.

More than 1.8 million meritorious points.

Ling Yuwei does not have the demon spirit blood of Devil Emperor Realm Devil, there are so many merit points, more than 600,000 merit points than Dandan.

"You...how many demons Tianjiao hunted in the temporary planet?"

Dandan looked at Ling Yuwei with a mouth-opened expression.

"I'm not much, he is the only one!"

Ling Yuwei said, looking at Lu Ming.

Ling Yuwei is quite satisfied with her merits.

In the temporary planet, he got the silver armor. In the final battle, he killed a lot of demon Tianjiao. Even the kind of demon Tianjiao comparable to Dong Yuanqing and Bunan was killed by her.

In addition to the demon spirit blood of other devil Tianjiao, as well as the demon spirit blood accumulated in the previous ninety years, only so many merit points have been achieved.

But she knew that Lu Ming was much more than her.

You know, the top demon Tianjiao almost died in Lu Ming's hands.

Derby is Eugene. This kind of character can fight across five levels. The potential is too strong. God knows how many merit points can be exchanged.

Ling Yuwei put away the identity jade card, drifted back, looking forward to seeing Ming Ming.

"Muyun, you killed more? Then hurry up and let me see how many merit points you can get!"

Urged once in a while.

Lu Ming nodded, to be honest, after seeing Ling Yuwei's merits, he was somewhat expecting himself.

Coming to the well of merit, Lu Ming poured all the demon spirit blood into the well of merit at once.

Buzz!

At the next moment, a beam of light erupted from the Well of Merit, and the radiance was vast, many times stronger than the radiance caused by Dandan and Ling Yuwei before.

Even the strong men who guarded the well of merit were shocked and looked over curiously.

"A strong and strong Xiaguang can cause such a big reaction to the well of merit. How many merit points has this little guy got?"

"Looking at Xiuwei, it's rare that the Emperor Wuzhong, a second-class soldier, can actually cause such a great response to the well of merit."

Secretly, there are several powerful exchanges that guard wells of merit, and they are quite surprised.

Dan Dan and Ling Yuwei also stared at the sky above the meritorious service.

Then, a line of numbers emerged.

8956723.

"This..."

He was stunned, his eyes widening vigorously, a look of dementia.

"More than 8.9 million? Is it that my eyes are blinded and I have misread a word?"

He rubbed his eyes vigorously and stared hard, finally convinced that what he saw was really more than 8 million.

Then, Dandan was completely petrified.

"so much!"

Even Ling Yuwei was shocked even when she was well prepared.

More than 8.9 million, more than five times the merit points she received.

This is an amazing number.

"Nest, Nest, how come you have so many merit points, how many devil Tianjiao did you kill!"

After Lu Ming had collected his identity jade card, he reacted and shouted excitedly.

"Okay, I mainly killed the top demon Tianjiao. The top demon Tianjiao in the competition was almost killed by me. There is also a demon Tianjiao that can fight across five levels."

Lu Ming said casually.

"I...I wipe..."

Dandan's eyes almost glared.

A demon Tianjiao that can cross five levels, no wonder can get so many merit points, this kind of Tianjiao, can be exchanged for merit points, far more than a Devil Emperor's merit points.

Unless it is a high-level devil emperor.

"I already knew that you killed so many tens of thousands of demons and arrogances. In any case, I will get some from you."

He screamed and thumped his feet, regretting it.

Merit points cannot be traded and can only be used by oneself.

"This little guy..."

Even a few strong guards of merit points are somewhat stunned. More than 8.9 million is really horrible. You know that some gods will not be able to exchange so many merit points at once.

They guarded the endless years here, this kind of situation is rarely seen.

"not bad..."

A smile appeared on Lu Ming's face, and he was still very satisfied with the harvest.

How many treasures can be exchanged for so many merit points?

He picked up the merit points and swept his mind, and found that the numbers in the merit points had changed.

The original number was: 123567/67.

It has now become 9080290/8956790.

The total merit points accumulated by Lu Ming have reached nine million.

Less than one million less, you can reach the standard of promotion to the general, which is extremely amazing.

Chapter 4107: Promoted to First Class

Overall, all three of them were very satisfied.

This time, their accumulated merits have reached more than one million.

One million merit points can become a first-class soldier.

"Hahaha, let's go to the promotion of first-class soldiers. First-class soldiers can not only have the first-class soldiers' armor, but also go to the third floor of the chemical tower for cultivation, so many benefits!"

Dangdan shouted and quickly adjusted his mind.

"go!"

Lu Ming also said.

There are many benefits to being promoted to first-class soldiers. There is no reason not to be promoted.

As long as the accumulated total merit points reach one million, you can be promoted, whether spent or not spent.

Immediately, the three departed to the military office of Dream City.

The military affairs department is responsible for the promotion and management of the generals of the heavenly soldiers. At the same time, the armor of the heavenly soldiers is also collected here.

Soon, the three came to a hall.

"What are you doing here?"

At the entrance of the hall, two Heavenly Soldiers stopped Lu Ming and three others.

"We are here to advance to the level of Heavenly Soldiers!"

Once and for all.

"Promoted to Heavenly Soldier rank?"

The two goalkeepers looked at Lu Ming and the three confidently and said, "Which level of soldiers are you promoted to?"

"We all have to be promoted to first-class soldiers!"

Dandan answered.

"The three of you are all promoted to first-class soldiers? Are you sure?" A goalkeeper's eyes widened and looked incredible.

"Not bad!"

Dandan nodded again.

"Hahaha!"

Suddenly, the two gatekeepers laughed, and then looked at Dan Dan: "Are you kidding, by your training, promoted to the first rank soldier? This is impossible, well, the military service is not a joke place, Give you a chance to leave immediately, otherwise I will report to you and you will all be punished!"

"What? Those three are going to be promoted to first-class soldiers?"

The movement here also alarmed other people nearby.

There are still many soldiers coming and going from the Military Department, and many people looked at Lu Ming and three people curiously.

Lu Ming and others, with the highest cultivation level being the talented God Emperor Wuzhong, who wanted to be promoted to first-class Heavenly Soldier, this is simply impossible.

What is the first class soldier?

That requires one million merit points.

Generally, in Heavenly Soldiers, Xiu Wei first breaks into the Divine Emperor Realm, and then uses the powerful power of the Divine Emperor to hunt and kill the demons and accumulate credit for promotion to the Divine Emperor Realm.

Therefore, the cultivation of the general first-class soldiers is God Emperor Realm.

Of course, there are also some top-notch evils who are promoted to first-class soldiers in the God Emperor Realm, but each of those people is a peerless arrogant, and the cultivation base generally reaches the senior God Emperor.

Senior Divine Emperor, that is the Divine Emperor more than seven times before called Senior Divine Emperor.

The three Lu Ming, the highest talented Emperor Wu Zhong, will be promoted to the first-class soldiers, and three at a time together, is this not a joke, no wonder people around do not believe it.

Dang Dan frowned, saying: "I said that to promote is to be promoted. The military affairs department has no rules to stop others from being promoted to Heavenly Soldiers. Hurry up and let me go!"

Originally, I was excited, but when I first arrived, I was small and unhappy.

"We are doing it for your good. If you enter the Military Service, you are found to have not achieved one million merit points, but you will be punished!"

"Good, acquaintance, go now!"

The two guards who guarded the gate sneered and ridiculed, and their faces were a little ugly.

"Step aside!"

Drink coldly.

"What a shame!"

The two Heavenly Soldiers snorted and opened the door unhappy.

The three Lu Ming walked in with a big swing.

"Huh, I don't believe they can be promoted to first-class soldiers, go and see!"

The two guards of the gate found a friend to help guard the gate. They followed Landing and they went in.

"Let's go and see too!"

Around, others also followed, looking like it was not too much.

Although the three Lu Ming looked confident, they still could not believe that the existence of the three highest cultivation talents and the five-fold talents could be promoted to first-class soldiers together.

Even if one is a miracle, let alone three.

This is really incredible.

But the three Lu Ming, unlike fools, knew they would be punished and came here to promote.

Is it not to die for fame?

Therefore, many people are very curious.

The three Lu Ming took a large group of people and came to a counter.

In front of this counter, there are several Tianguan working.

They were curious when they saw Lu Ming and three people coming with a large number of soldiers.

"What are you going to do?"

One of the white-haired Tianguan asked.

"We are going to be promoted to the rank of Heavenly Soldier, First Class Heavenly Soldier!"

He was still talking, and when he talked about it later, he added a sentence.

Behind the counter, several Tianguan were taken aback.

The same idea as the two goalkeepers.

After all, Lu Ming and the three looked very young. They were the highest talents of the five emperors, and they all had to be promoted to first-class soldiers.

"Of course, we are sure that this is my identity jade card, you check it!"

Impatiently, he took out his identity jade card and handed it to the white-haired Tianguan, and then swept the two guarding Tianguan with a cold face.

He couldn't wait to hit the faces of the two gatekeepers.

Bai Fatian took Dandan's identity jade card, and then took out an array, placed the identity jade on the array, and suddenly, the array glowed, and a line of numbers appeared on it, which was Dandan's merit.

.

"This..."

The people around them couldn't help but widen their eyes.

More than one million.

There are really more than one million meritorious points.

More than 1.2 million merit points, and most of them are not spent.

Especially the two guards who were guarding the gate, almost got their tongues out, and their faces turned red.

"Oh, some people, really look down on people!"

Deng Dan swept proudly to the two guards.

"Huh, you are eligible to be promoted to first-class soldiers, but for them, you just said that three people were promoted together!"

One of the gatekeepers was not reconciled and retorted.

"Oh, you want to watch, then look at your dog's eyes!"

Once he finished, he looked at the gray-haired Tianguan and said: "Senior, how is it? I am eligible to be promoted to first-class soldiers, right?"

"The accumulated merit points exceed one million, which is naturally in line, I will handle the promotion procedures for you!"

Bai Fatian said.

The promotion procedure is actually very simple, just modify it in Dandan's identity jade rune, and then they make a note for themselves, and it's done.

After the final remarks, they took out a set of golden yellow armor and handed it to Dandan.

This is a first-class warrior armor that can withstand the full blow of an ordinary Divine Emperor triple master.

Around them, many people were third-tier and second-tier soldiers, all showing envy.

Once he took over the armor of the Heavenly Soldier, he immediately couldn't wait to wear it on his body, complacent.

Chapter 4108: Broken Divine Soldier with one million merit points

"Senior, this is my identity jade card."

Then Ling Yuwei stepped forward and handed her identity jade card to Baifa Tianguan.

Bai Fatian took Ling Yuwei's identity jade card and placed it on the market. Immediately, another line of words appeared.

More than 1.8 million merit points.

Suddenly, the people around him froze again.

Ling Yuwei has more merits than ever, up to more than 1.8 million, which fully meets the standard of promotion to first-class soldiers.

"did you see that!"

Dandan glanced at the two goalkeepers, his eyes full of disdain and ridicule.

The two gatekeepers were flushed, and there was no rebuttal.

It was really shocked.

For two consecutive people, the merit points have reached more than one million, and the last one, Lu Ming, is also likely to reach more than one million. Is it more humiliating to speak at this time?

"Yes, you can be promoted to first-class soldier!"

Baifa Tianguan nodded, and then remarked at the same level, took out a set of first-class sky armor and handed it to Ling Yuwei.

After Ling Yuwei received it, she returned to Lu Ming and said, "It's your turn!"

All of them looked at Lu Ming together.

Both of them have achieved more than one million merit points in a row. They are curious about how many merit points Lu Ming can have.

Seeing that Lu Ming and the three men were so confident, they also guessed that Lu Ming might have more than one million merit points, but he was just curious how many.

Lu Ming looked calm, and came to the counter and took out his identity jade card.

"Senior, give!"

Lu Ming handed the identity jade card to Baifa Tianguan.

Baifa Tianguan nodded, took the identity jade card, and placed it on the array. The array immediately glowed, and everyone's eyes were staring at the top of the array.

At the next moment, a line of words emerged.

The gray-haired Tianguan's pupil shrank suddenly, and even with his broad knowledge, he was still surprised.

For others, it goes without saying.

Sisisi...

The sound of inhaling cool air came out. Everyone watching, all of them rounded their eyes and stared at the line of numbers. All eyes were unbelievable and incredible.

More than nine million!

The accumulated merits of Lu Ming have actually exceeded 9 million.

Lu Ming is only the realm of the five emperors of God, and the accumulated merit points can get more than 9 million. How did he get it?

"God, what I saw, he has accumulated more than 9 million merit points, and most of them have not been used."

"Horrible, what mission did he complete? Or, how many demons did he kill?"

"It's less than a million, and it will reach 10 million merit points, and you will be promoted to the general. He is the five-level realm of the emperor, which is unheard of!"

All around was full of exclamation.

The two guards who were guarding the gate were completely petrified. They opened their mouths wide, their eyes wide, and they were there.

"How about it? Did you see it? The dog looked at something low!"

Dan Dan's eyes glanced again at the two guards who were guarding the gate, and a proud voice came out.

Seeing the shocking eyes of everyone around him, Dandan only felt incomparably comfortable, even more comfortable than his cultivation, and his self-esteem was greatly satisfied.

"Awesome, awesome, at a young age, you can accumulate so many merit points. Shi Nao Laofu is the only one who has seen her life. Come on, she will reach 10 million merit points at an early date, and she will become a **** general. "

Bai Fatian sighed.

"Thank you for your praise!"

Lu Ming clenched his fists.

"Young people are not arrogant, not bad, come, I will give you a note!"

Baifa Tianguan was very satisfied with Lu Ming's attitude and began to remark Lu Ming. After the remarks were made, Baifa Tianguan handed Lu Ming a set of first-class soldiers' armor.

Lu Ming didn't put it on immediately, but put it in the storage ring.

Then the three of them left the military office in the eyes of all envy.

After leaving the Military Service, they immediately went to the Merit Exchange Hall.

Entering the Hall of Merit Exchange, just like the last time, there are light groups floating in the void. Ling Yuwei and Dan Dan immediately waited for the light group suitable for themselves, and then disappeared into the light group.

"Lu Ming, Lu Ming, remember to get me some food!"

The ball sounded in Lu Ming's ear.

"Relax, you are indispensable, the first one will be exchanged for you."

Lu Ming smiled and found the light group of the Scrap Divine Soldier, and then entered into it.

Inside, there are all broken magic soldiers, and each magic soldier is marked with the price that needs to be exchanged.

Lu Ming did not go to see those low-level broken soldiers. Now he holds a huge amount of merit points. To redeem it, he exchanges the ball for a top-level broken soldier.

The ball can turn the function of absorbing the refined soldier into its own use. This function of turning against the sky must not be wasted.

Only by absorbing top-level **** soldiers can the ball function be played.

Lu Ming remembered seeing a broken black spear last time, which required a million merit points for redemption.

A broken Divine Soldier requires one million merit points to be exchanged. If it is complete, it will definitely be a killer against the sky. If such a broken Divine Soldier is absorbed by the ball, it will definitely be able to be transformed against the sky.

Lu Mingke kept thinking about it, but unfortunately there were not so many meritorious points last time.

This time, you must not miss it.

Lu Ming looked for it in detail and told the ball to let him feel it.

After a while...

"found it!"

The ball cried with excitement, and the bulging body flew in one direction.

Lu Ming followed, and shortly afterwards, he saw a half-length spear, suspended in the air, and surrounded by a mask of light.

Above the mask, there is a merit point for exchange: 1000000.

The ball looked at the broken spear, and his eyes glowed with radiance, and continued to rotate around the broken spear.

"Just this one!"

Lu Ming took out the identity jade card and placed it on the mask above the half-length gun.

Immediately, the reticle radiated a burst of light, and then the reticle above dimmed until it finally disappeared completely.

Half of the broken sharp weapon was exposed.

"Mine is mine..."

The ball was so excited that he directly opened his fangs and swallowed a half-length gun in his mouth.

Then it turned into a bracelet and was carried on Lu Ming's hand.

Lu Ming knew that the ball would take a while to digest the half-length lance.

Lu Ming waved his hand, grabbed the identity jade card in his hand, and swept his mind, and found that the merit points inside had become like this: 9080290/7956790.

The available merit points are already one million less than before.

Lu Ming's heart hurt a little.

However, I thought that the ball might increase its combat power, gaining the special ability of a half-length spear, and showing its expectation.

Chapter 4109: Big move

After choosing the 'food' that the ball needed, Lu Ming left the area. After a while, Lu Ming came to the area containing the three thousand ancient secrets.

"What ancient secret should I choose?"

Lu Ming groaned.

There are thousands of ancient secret techniques here, and of course Lu Ming wants to announce his choice, but that is impossible. His merits are simply not enough.

The cheapest kind of great ancient secret technique requires 100,000 merit points.

In the end, it is even more than one million meritorious points to see horror.

Lu Ming can only choose a few symbols.

In the future, slowly accumulate merit points and choose slowly.

"There are already a variety of mysteries of the attack type, and there are also trapped enemy types, so do you choose defense and special types of ancient secrets?"

Lu Ming thought, and then watched it.

"The Great Defense, the Great Thousand Ancient Secrets, one of the three strongest defenses. All the Great Ancient Secrets, ranked in the top 100, need one million merit points!"

Lu Ming's eyes lit up and saw a secret technique that moved his heart.

Although he has a first-class warrior armor, it is a foreign object after all. In case it is sealed with a seal of the banned domain, it still depends on his own ability at a critical moment.

Moreover, he could not stay in Tiangong forever. He must definitely leave Tiangong in the future. At that time, Tianbing's armor would definitely not be used. It is very necessary to improve his defense.

Although the price is expensive, it has to be replaced.

Lu Ming immediately used the identity jade card to exchange this ancient secret technique, and then firmly remembered in his heart.

In exchange for the Grand Defense, Lu Ming continued to search.

"What was the last big move you saw last time?"

Lu Mingsi, Lu Ming is also very concerned about the big move technique, mainly because of its effectiveness against the sky. It combines escape and attack in one body. It is definitely Lu Ming's first choice.

Sure enough, shortly afterwards, Lu Ming found Da Niao.

Massive move requires one million merit points.

Lu Ming did not hesitate to exchange.

In this way, Lu Ming can use merit points, leaving only 5956790.

"There are more than 5 million merit points left. The ancient secrets will not be exchanged for the time being, and you can redeem a batch of ordinary secrets!"

Lu Ming thought.

The more common mysteries are practiced, it will melt into the cells, and can be merged with the power of taboos, which can enhance the power of taboo powers, and can also make his ability to fight over the ranks become stronger and stronger.

In addition, Lu Ming also wants to exchange a batch of treasures containing huge and pure energy, such as treasures such as Elven Muxin.

With the improvement of his cultivation practice, the speed at which he consumes energy becomes more and more scary. Those elf wooden hearts he got in the elven clan will not take long.

The elven clan still owes him 100,000 elf wooden hearts, and he wonders when to go to the elven clan to fetch those 100,000 elven wooden hearts.

Lu Ming left the area of Archaic Secrets and began to exchange for Common Secrets.

For ordinary secret art, Lu Ming has nothing to pick, as long as it is a secret art, they are exchanged.

In Tiangong, the price of a mystery exchange is not cheap. It requires a hundred merit points. If it is exchanged for a divine crystal or other treasure, it is much more expensive than the price in the outside market.

But outside, you can't find so many secret techniques.

Where is the common secret technique in Tiangong?

Therefore, if you are expensive, Lu Ming also has to exchange it.

One hundred merit points, one ten thousand common secret techniques, you need one million merit points.

Lu Ming exchanged 20,000 ordinary secrets that Lu Ming didn't have in one breath.

There are 20,000 gates, you know, Lu Ming has accumulated a total of 1,300 ordinary secret techniques before.

If all the 20,000 mysteries were successfully cultivated and turned into merit points and melted into the cells, how would his forbidden power be improved?

It is definitely not a dream to fight across six levels, or even more levels.

Of course, it is definitely not easy to integrate all the 20,000 mysteries into a mysterious rune, and it is a huge project.

In this way, Lu Ming's available merit points were reduced by two million, leaving only 3956790.

Then, Lu Ming went to exchange a large number of Shendan.

All of them are magic pill containing huge and pure energy, and consumed one million merit points.

This extremely high level of magical pill is also surprisingly expensive.

Then, Lu Ming's available merit points are left, 2956790.

"Would you like to exchange a few seals for the banned field?"

Lu Ming thought of the symbol of the forbidden field again. When Dark Star used it to assassinate him, he still had a fresh memory.

But soon, Lu Ming shook his head, dispelling the idea.

There is a disadvantage of using the seal of the banned field, that is, you will also be shrouded in it, and you can't use the big killer.

Lu Ming is in charge of several large-scale killers, and there are also large-scale killers of the level of Bingxuan stick.

Seals in the field of forbidden soldiers are generally those with a higher cultivation level to deal with a lower cultivation level, but they are peerless monsters who control the arrogant characters of the massacre.

This can extremely reduce the strength of that kind of arrogance.

But for Lu Ming, it is not necessary at all. Is Lu Ming needed to deal with the arrogance of Xiu who is relatively low in controlling the big killer?

Who is more evil and more proud than him?

It can be said that the seal in the field of the banned soldiers is used by others to deal with him, and he is used to deal with others, which is not used at all.

For the remaining merit points, Lu Ming intends to keep the cultivation tower for cultivation.

After all, the merits consumed in the cultivation of the chemical tower are also very amazing.

According to Lu Ming's knowledge, a day of cultivation on the first floor of the chemical tower requires 20 merit points.

One hundred merit points are needed to practice on the second floor of the chemical tower.

It takes five hundred merit points to practice on the third floor of the chemical tower.

Lu Ming is now a first-class sky soldier and can enter the third floor of the chemical tower for cultivation. Although he still has nearly three million merit points, he can only practice in it for about 16 years.

Of course, the effect of the third layer will definitely be much better than the second layer, otherwise it is impossible to need so many merit points.

Now that Lu Ming has obtained so many secret techniques, he must definitely go into the cultivation tower for cultivation, otherwise he will practice in the year of the monkey?

Things were almost exchanged. Lu Ming left here and found that Dan Dan and Ling Yuwei were also exchanged. Both faces showed satisfactory expressions, which seemed to be quite rewarding.

"Let's go, let's go to the chemical tower to practice for a while!"

After seeing Lu Ming, he immediately said.

Immediately, the three people left here and came under the chemical tower.

"Which level do you want to practice?"

Lu Ming asked.

"I don't have many merit points, I can only go to the second level to practice!"

Sighed.

"me too!"

Ling Yuwei also nodded.

They exchanged a lot of treasures, and if the remaining merit points entered the third floor, they would not be able to practice for long.

Chapter 4110: The third floor of the chemical tower

In the end, Dan Dan and Ling Yuwei entered the second layer of cultivation, while Lu Ming entered the third layer.

Entering the third floor, Lu Ming found that it was almost the same as the second floor. It was also a stone bridge leading to the distance, and there was a void around it, which affected vision and could not see the real situation in the distance.

Lu Ming walked straight along the stone bridge. Soon after, he saw a ladder leading diagonally down to the distance.

"I don't know what the opportunity is for the third layer, is it the same as the second layer?"

Lu Ming muttered in his heart, went down the stairs all the way, and came to a flat place.

As soon as he came to this flat place, Lu Ming immediately felt the strong breath of primitive gods.

"It's really the same as the second floor, only the breath of primitive gods, seems to be stronger, and it is several times stronger than the second floor!"

Lu Ming's eyes flickered, and thoughts turned in his mind.

Does this third layer also hold a primitive god, a primitive **** stronger than the second layer?

Lu Ming is very curious and plans to look forward.

He stepped out and walked toward the front. The more forward, the stronger the breath of the original gods, and the pressure on Lu Ming became stronger and stronger.

Soon after, he saw a lot of Heavenly Soldiers cultivating here. Those who can cultivate here are naturally first-class Heavenly Soldiers, and most of them are in the presence of Divine Emperor Realm.

These people looked at Lu Ming and all showed curiosity. Apparently, Lu Ming became the first-class soldier only by the five emperor's cultivation practices, making them curious.

Lu Ming ignored the eyes of everyone and continued to move forward.

But the pressure is getting stronger and stronger, and the breath of the original gods is getting stronger and stronger. Even Lu Ming used the forbidden force, and finally couldn't resist it, making it difficult to move on.

Lu Ming can almost conclude that there must be a more powerful primitive deity here, and it is a living primitive deity, otherwise the breath will not be so powerful.

On the second floor, Lu Ming can still see the true face of the primitive god. Here, Lu Ming can't even see the true face of the primitive god.

In the end, Lu Ming could only return it in situ.

"Cultivating the source divine factor or the source mystery here, the effect is absolutely amazing, far above the second layer, but unfortunately, it is not useful to me."

Lu Ming shook his head, returned the same way, returned to the stone bridge, and continued on.

After a while, the second ladder appeared.

Lu Ming went down the stairs and saw a small lake filled with bright red liquid. Like the second floor, they were all blood of primitive gods.

"Cultivation here, my cultivation behavior is estimated to be improved soon, and as long as half a year, it is estimated that it will break through!"

Lu Ming felt it for a moment and thought.

Lu Ming was on the second floor last time, and it took half a year to break through a realm.

But last time Lu Ming broke from the triple triple of the **** emperor.

Now, Lu Ming's cultivation practice has reached the fifth level of Divine Emperor.

Although the effect of the third level of cultivation is better, the higher the level, the more difficult and slow the speed of breakthrough.

Therefore, even on the third floor, it will take six months from the breakthrough of the Divine Emperor's fifth to the Sixth Emperor.

The further back, the longer the breakthrough time.

"Cultivation is not anxious for the time being. Go ahead and see if it is the original Divine Sound. If it is the original Divine Sound, practice the secret technique first!"

Lu Ming made a decision and then left here to continue on.

Sure enough, everything is the same as the second floor. Soon, Lu Ming went to the end of the stone bridge, and then found the original sound.

There will also be original **** sounds, but the effect is several times stronger than the second layer.

"Not bad, just practice here!"

Lu Ming finds a place, sits cross-legged, closes his eyes, and the practice method of the big move technique appears in his mind.

The Great Shifting Technique is the top one among the top three thousand ancient secrets. It is extremely powerful, but it is also more difficult to practice.

It is more difficult to practice than Great Kamikaze, Great Fragmentation, Great Demon Sword, and Great Bondage.

If it is outside, under normal circumstances, it is very difficult to get a successful understanding.

However, with the help of the original Divine Sound, it is quite easy to practice.

In just seven days, Lu Ming introduced the Da Nian transfer technique to practice, turning it into a mysterious rune and melting it into a cell.

Of course, it is not possible to get started with cultivation. What Lu Ming wants is to reach great success.

Lu Ming continued to understand.

It takes one month to cultivate to a small one, and half a year to cultivate to a big one.

It takes only half a year to cultivate to Dacheng. If you leave it outside, it is unthinkable, but here, it takes only half a year to practice to Dacheng.

I have to say that the original Divine Sound effect here is so good.

After training Da Nuo to Dacheng, Lu Ming immediately began to practice Grand Defense.

The price of the big defensive technique is almost the same as that of the big deportation technique, but the difficulty of practice is actually greater than that of the big defensive technique. Lu Ming took eight months to complete the practice.

After training two powerful ancient mysteries to Dacheng, Lu Ming's strength is undoubtedly stronger.

Even if the attack power is not greatly improved, but the ability to escape is definitely greatly improved.

Next, Lu Ming began to practice those ordinary secret techniques.

It is very easy for today's Lu Ming to cultivate a common mystery to the beginning and turn it into a mystery rune, which is also a blessing of the original **** sound.

Lu Ming can get started with dozens of mysteries in a day, but to complete the training, Lu Ming can only complete one kind a day.

One day at a time, this speed is also very fast, you have to know that this practice has reached great success.

Time flies, and in an instant, it is more than ten years.

In ten years, Lu Ming has cultivated a total of 3,700 kinds of mysteries to Dacheng. In addition to the previous 1,300 kinds, Lu Ming has cultivated a total of 5,000 kinds of common mysteries to a great success.

Now, as long as Lu Ming operates the taboo power, the whole body's cells tremble, and all mysteries and the taboo power blend together, and a terrible power can be exploded.

Now Lu Ming's ability to leapfrogging has definitely increased greatly. Lu Ming estimates that he can at least reach six levels of fighting. This is at least. In fact, it should be more than that.

Fighting across levels is also getting harder and harder.

For example, the difficulty of fighting across four levels to five levels is definitely much lower than that of fighting across five levels to crossing six levels.

"It has been more than eleven years before I have practiced more than 3,700 kinds of mysteries. There are so many kinds of mysteries left in my hands that I can only practice slowly in the future, at least in my hands, when If you have time, you can practice at any time. Now it's time to improve and cultivate!"

Lu Ming planned.

There are not many merits left by him, and he can only support him in this third layer of cultivation for less than five years.
