

D Emperor 4111

Chapter 4111: Emperor Seventh and Nineth

The remaining merit points of Lu Ming can only support him to practice in the third layer for less than five years.

He intends to use these last merit points to improve his cultivation.

He got up and left here, and returned to the second one, the lake full of blood of primitive gods, and then stepped out, fell into the lake and began to practice.

Immediately, Lu Ming felt the terrible pressure, as if to tear his body, but at the same time, there was a wave of incomparable energy, which continuously infiltrated into his body from the blood of the original gods and poured into every cell in his body.

Lu Ming's taboo power is rapidly increasing.

Although there is no life-and-death battle that directly stimulates the potential in the cells as fast, the victory lies in the endless stream, the long stream of water, which is always improving.

In a flash, half a year has passed.

Sure enough, as Lu Ming predicted, in half a year, Lu Ming really went from Divine Emperor's fifth to Divine Emperor's sixth.

The strength has increased dramatically.

After the breakthrough, Lu Ming did not leave, continued to practice, and began to impact the seventh emperor.

Divine Emperor Sixth to Divine Emperor Seventh is more difficult and harder to practice. This is to break from the mid-level Divine Emperor to the high-level Divine Emperor. Even here, it is not possible to break through within six months.

Lu Ming has been cultivating for three and a half years, from finally being the sixth emperor of the Divine Emperor to the seventh emperor of the Divine Emperor.

By this time, Lu Ming's remaining merit points were about 150,000.

It would take longer to break through from the Seventh Divine Emperor to the Eighth Divine Emperor, Lu Ming speculated that it would take at least fifteen years.

Therefore, Lu Ming ended his cultivation, withdrew from the chemical tower, and returned to his place of residence.

After returning to their place of residence, they found that they had returned and were practicing in their respective rooms, apparently digesting the treasures exchanged from the Gongxun Exchange Hall.

Lu Ming also returned to his room.

Ok?

As soon as he returned to his room, Lu Ming's eyes lighted up, because he felt a strong breath that diffused out of the room, which was the breath of the ball.

Before going to the chemical tower, Lu Ming let the ball come back alone.

Because the ball can not enter the chemical tower, unless the ball also has merit points to consume, obviously the ball is not.

So the ball returned to Lu Ming's room, refining the half of the black spear.

Obviously, after more than ten years, the ball has refined half of the black spear.

At this moment, it is evolving.

Lu Ming pushed the door in and found that the ball turned into a round ball, suspended in the air, on the round body, continuously exuding brilliant light and powerful fluctuations.

Moreover, the breath is constantly rising.

Seven Emperors, Eight Emperors, Nine Emperors...

In the end, the breath of the ball was raised to God Emperor Jiuzhong before stopping.

Dandan actually broke through several rebuilding activities in one fell swoop, reached Divine Emperor Jiuzhong, and then reached a limit before stopping.

Lu Ming knows that the ball has reached the limit of the Divine Emperor Realm, and one step further is the Divine Emperor.

From Divine Emperor to Divine Emperor, there is no such thing as a half-step Divine Emperor. Divine Emperor Ninefold Peak is the limit, and the next step is Divine Emperor.

However, the peak of Divine Emperor Jiuzhong to Divine Emperor is not so easy to break through. It is necessary to convert the stars in the body into black holes, which is very difficult, requires a process, and requires opportunity.

Lu Ming took his hand and stood, waiting quietly. After a few days, the ball's breath calmed down.

Uh!

The ball shrank and flew to Lu Ming.

"Those half black spears, have you refined them?"

Lu Ming asked.

"Not yet, just a part of refining. The half-length rifle is not a trivial matter, but I got an ability that is very powerful."

The ball said very excitedly.

"One ability, go, let's try!"

Lu Ming showed his interest, and then took the ball and left the room to a huge secret room.

This kind of secret room, built in the Tianhe Tianbing barracks, is specially for people to learn from.

There are rules in the sky soldiers, they can't fight each other, so there is this kind of secret room, surrounded by large formations, used for discussion.

We should learn from each other and improve together, and we cannot fight viciously.

In the secret room, Lu Ming and the ball stand opposite each other.

"Lu Ming, your cultivation base is the Seventh Emperor of God, do you want me to use all my strength?"

Ball fairway.

"Use all your strength, rest assured, you can't hurt me." Lu Ming was confident.

He can now cross at least six levels to fight, although the training is two times lower than the ball, but still confident enough.

"Really confident, then take me a stroke!"

The ball shouted, and the tumbling body changed sharply, turning into a silver spear, bursting out of the air and screaming towards the landing.

"Actually keep my hand..."

Lu Ming raised his mouth.

The ball has refined the black spear. If you use the ability of the black spear, it should be the black spear. It is only the silver spear before. Obviously, it does not use all your strength.

Uh!

The speed of the silver spear was so amazing that in an instant, Lu Ming stabbed in front of him.

Keng!

Lu Ming's palm was like a knife, and the tip of the silver spear was slammed with a palm. Suddenly, the silver spear vibrated violently, and then flew back toward the back, backed a long distance, hit the wall of the secret room, let the wall Strong roar.

And dense runes appeared on the walls.

"The attack power has increased!"

Lu Ming nodded and judged in his heart.

In the past, the ball turned into a silver spear, and it was able to fight across two levels in Divine Realm. However, Lu Ming judged that he could fight over two and a half levels, which is a bit higher than before.

However, this is obviously not the strongest form of the ball.

"Ball, use your best. You are not my opponent. Use all your skills. Don't hide it!"

Lu Ming said.

"Yeah, does it make sense, I was afraid to hurt you, now I'm welcome!"

The ball shouted, and the body changed drastically, turning into a black spear, a complete black spear, and at the same time, a breath of terror emanated from the black spear, full of the ancient feeling of flood.

Give Lu Ming a feeling as if facing a primitive god.

Primitive gods?

Lu Ming was a little surprised. Was the half of the black spear related to the original gods?

"Lu Ming, be careful, I will use the strongest blow!"

The sound of the ball sounded, and then the black spear shattered the void and screamed towards the landing.

In the process of stabbing, the black spear exudes a tremendous radiance of light. These radiances actually condensed a huge primitive figure of the gods.

This primitive god, holding a black spear in his hand, screamed toward the landing.

Lu Ming's pupil shrank slightly.

Chapter 4112: Tianjun roll call

"interesting!"

Lu Ming showed a look of expectation in his eyes. At the same time, he ran six times the fighting strength of the word of war. In his body, various secret techniques also broke out at the same time, and he was covered with gorgeous glow.

Because of the ball, he felt pressure.

boom!

Lu Ming banged out with a punch, and the world was violently shocked, colliding with the black spear.

A tremendous roar sounded, and the violent airflow swept out in all directions, hit the surrounding walls, and was blocked by the walls.

Buzz!

The black spear in the primitive god's hand shook violently, and then shattered. The terrifying fist continued to bombard the primitive **** and directly penetrated the primitive god's chest.

The primitive deity broke apart directly and disappeared.

The black spear melted by the ball retreated backward and hit the wall of the secret room again.

"No more, no more, you perverted..."

The ball cried out and turned into a round ball again, looking at the landing bell in shock.

"Are you pretty good too!"

Lu Ming said, his face also hung with joy.

Based on the move just now, Lu Ming judged that the ball can completely cross four levels to fight, even more than a little, and a little more than a little.

Those who are at the same level in World War I are stronger than the candidates in the ordinary universe.

The ability to fight across levels should be close to Ling Yu.

Previously, the ball could only cross two levels to fight, but now, it can directly cross more than four levels, but only refining a half-length spear, which is amazing.

"The potential of the ball is endless. What kind of talent is this? I have never heard of it..."

Lu Ming also sighed again and again.

The talent of the ball is so amazing, it is simply against the sky, and it feels more powerful than his taboo power.

As long as there is a high enough level of soldiers to devour him, he can continue to evolve and improve, and his talent will become more and more scary.

Lu Ming secretly checked a lot of information, but no similar records were found.

However, after this battle, Lu Ming can also roughly determine that his combat strength.

Can fight at least six and a half levels.

This is a huge improvement, and if it is known to others, it will be scared to death.

"The power of taboo really turned against the sky!"

Lu Ming sighed, feeling a little smug in his heart, but when he thought of a problem, his smug feeling disappeared immediately.

He thought of Flying Phoenix, which was also a taboo.

In addition, Xie Nianqing's father in the past life is also a taboo, but these taboos are enemies with the Tiangong. It seems that they do not have the upper hand, and it seems that it is still falling.

Lu Ming would not think that he is stronger than other taboos, which shows that Tiangong is really terrifying, and its strength is far from what Lu Ming can now snoop.

Lu Ming still has a long way to go.

"Come on, let's go out!"

Lu Ming faced the fairway, and the ball was transformed into a bracelet, which was carried on Lu Ming's hand, followed Lu Ming, and returned to his place of residence.

After returning to his place of residence, Lu Ming took out an armor.

It is a first-class sky armor.

In the second-class sky armor, there is a prohibitive force that can penetrate into their cells and control them. I don't know if this second-level sky armor is.

After thinking for a while, Lu Ming began to wear it.

Sure enough, as soon as the warrior armor was worn on his body, a stronger force penetrated into the cells of his body and hid.

Not enough, Lu Ming's taboo spreads in every cell and can clearly capture these forces. As long as Lu Ming is willing, he can wipe out this force at any time.

"Use it for the time being, the first-class sky armor can resist the triple-strength of the Divine Emperor with a full blow, but it is of great use at the critical moment."

Lu Ming murmured. At this moment, his eyes flashed because he felt someone outside the door, not Dan Dan and Ling Yuwei, but others.

Lu Ming got up and opened the door, and saw a elegant middle-aged man in a white robe. This dress was obviously a heavenly official.

Almost all those who can become Heavenly Officials have the cultivation of Divine Emperor Realm, and Lu Ming can't dare to carelessly.

With a fist, he said: "First-time Tianbing Muyun, I have seen Master Tianguan. I don't know if Master Tianguan has come to a despicable place. Is there anything to do with him?"

"I am looking for you, naturally there is something, there is a task to be given to you, come with me!"

Ruya Tianguandao.

"Is there a task? Just me?"

Lu Ming said, looking at Dan Dan and Ling Yuwei's room.

"Naturally, there is more than you, but you are the only one in this area, come with me!"

After all, the elegant and elegant official turned and walked away.

Lu Ming was puzzled, but could only keep up and asked, "Master Tianguan, what is my task this time?"

"I don't know the specifics. I only know that it was ordered by Master Tianjun. You are also named by Master Tianjun!"

Ruya Tianguandao said, glancing at Lu Ming with curiosity afterwards, it seemed to want to see clearly, Lu Ming has any special place that deserves to be named by Tian Jun himself.

"Tianjun named by himself?"

Lu Ming was slightly stunned, and he felt a little nervous in his heart.

Did Tianjun find out?

Or was the last time Tian Jun saw him performing well and having a great talent, so he had new tasks for him?

Can't guess!

Lu Ming, with his doubts in his head, followed the elegant Yaguan and came to a hall.

When I came to the main hall, there were already some people.

"All are top-notch demon..."

Lu Ming looked away, revealing a strange look.

Because these people in the hall are all young people, and their cultivation practices are very high and deep, Lu Ming carefully sensed and found that these people's cultivation practices are all seven or more gods.

Even the Divine Emperor Qizhong has few, most of them are the Divine Emperor Jiuzhong's cultivation practices.

Moreover, the armor they wear is all golden yellow.

First Class Sky Armor.

These people are cultivated as God Emperor Realm, but they are all first-class soldiers. It is conceivable that these people's combat power is absolutely very powerful.

Lu Ming wore a golden first-class sky armor and walked here without being striking.

Some people just glanced at him, and they didn't care anymore.

Lu Ming stood aside and observed in secret that the total number of people in the hall plus him was thirty-five.

Most of them come from the top ten races, a small part, but also from some of the top ranked races.

These people, with doubts in their eyes, are obviously the same as Lu Ming, and they don't know what task they will accept here.

Lu Ming waited quietly, and several people came here one after another, all of whom were young, and they were very advanced.

However, none of them are in Divine Emperor Realm, and cultivation is all in Divine Emperor Realm.

Finally, a total of thirty-nine people gathered here.

At this moment, the gate walked in a few figures.

"Heavens!"

Lu Ming's eyes moved.

The three people who walked in from the back were all Celestial, with blond hair, unique temperament and breath, and they were very recognizable.

Chapter 4113: Old ancient garden

The three Celestials who came in were all middle-aged. They wore robes at random, but gave people an unfathomable feeling.

Lu Ming grimaced.

These three people, even if they are not god-level characters, are also top **** emperors, absolutely powerful and unimaginable.

The scene was quiet, they knew it, and soon they knew what task they were going to perform.

The three Celestials strong eyes swept the audience.

The middle-aged man with a Chinese character face took the lead in saying: "Okay, everyone is here, now I want to tell you the next task!"

Everyone stared at this person with great eyes, waiting for his next message.

"The next task is also your chance."

The national character face Celestial Clan continued: "Dagu Shenting, who has heard of it?"

"Dagu Shenting?"

Lu Ming was puzzled, and he had never heard of this name.

But listening to the name has an extraordinary feeling.

"Dagu Shenting, is it the same as Minggu Tianting, and it is against Tiangong?"

Someone exclaimed.

Lu Ming has never heard of it, and it does not mean that others have not heard of it. The top ten races have a long history of inheritance. They have experienced a long time and learned many secrets that are difficult for ordinary people to touch.

What I said just now was a young man from the top ten races.

The people at the scene also had different complexions.

Some were shocked, and some were confused.

Shocked, apparently heard, and confused, like Lu Ming, did not know before.

"Same as Mingtiantianting?"

This news caused Lu Ming's heart to shake hard.

Life Soul Heaven Court, in its heyday, was claimed to be able to compete with the Heaven Palace. It was very powerful. Although it was still destroyed by the Heaven Palace in the back, the inheritance left behind still made countless people crazy.

The Great Ancient Divine Court, which can be as famous as the Ming Soul Heavenly Court, is obviously also able to compete with the Heavenly Palace.

This time their mission is related to the ancient ancient court?

"Yes, that is the ancient ancient temple."

Guozi face Tianren tribe nodded and said, "In the past, the ancient ancient court was invincible, did not respect the heavenly palace, and attempted to overthrow the heavenly palace, and was eventually destroyed by the palace. However, although the ancient ancient court was destroyed, but one of its core worlds was retained, it was retained. Tiangong is in control."

"However, this core world was refined by countless masters of the ancient ancient court, and the world is surrounded by three thousand ancient mysteries and countless other mysteries. It is sealed with the formation method and cannot be broken!"

"A strong presence in the Heavenly Palace, if forcibly attacked, will only destroy the world, and if you want to enter, you can only slowly break through the formation outside!"

"By the way, some of you may not have heard of the ancient ancient court, but you only need to know a little. You should have heard of the three thousand ancient ancient secrets, that is, from the ancient ancient court."

"what?"

The words of the face of the human face made Lu Ming's heart tremble again.

Three thousand ancient secrets actually come from the ancient ancient temple?

This is amazing news.

Not only Lu Ming, but many others showed shock.

"The ancient ancient court was based on the three thousand ancient ancient secrets, and the world was in the world. At the same time, the ancient ancient court also created countless other ordinary secrets. It can be said that the ancient ancient court is the birthplace of the secret."

"And in the core world left by the ancient ancient court, there are a large number of ancient ancient secrets and many common secrets, such as the more than a thousand ancient ancient secrets stored in the palace merit exchange hall today. From this core world."

"However, it was five hundred star years!"

The national character face Celestial Clan continued to explain.

"Five hundred star years ago?"

Everyone took a breath, how long is this?

I am afraid that it is difficult for the Divine Emperor to live that long?

"Since controlling the core world left by the ancient ancient court, the people in the Tiangong have been in it once, that is, 500 years before the star, that time, the formation around the core world left by the ancient ancient court has appeared flawed. Only then was the big man in Tiangong found a gap and sent in a group of people, from which a large number of ancient secrets and ordinary secrets were obtained, and of course there are other treasures!"

"However, there are still a lot of three thousand ancient secrets left in it, but they haven't been figured out, but since that time, the formations around that world have never seen flaws until recently..."

Speaking of which, many people's heartbeats speed up and they already know what their next task is.

"Recently, the formation around the core world of the ancient ancient court has appeared flawed again. The big figures in the Tiangong shot again. I believe that a channel will soon be opened to send a group of people in."

"But it feels like the last experience. In the core world left by the ancient ancient temple, those ancient ancient secrets have already produced spiritual wisdom..."

The national character face Celestial Clan continued to explain, but Lu Ming and others were stunned.

What did they hear? Great ancient secret technique, produced spiritual wisdom?

Mystery also produces spiritual wisdom?

It's unheard of!

"Yes, you heard it right. Before the 500-year-old star, the people in the Tiangong came in to get the news. Those great ancient secrets produced spiritual wisdom and could clearly perceive those who are not in that world, and the people in the Tiangong. As long as the cultivation is too strong, those ancient secrets will be hidden and it will be very difficult to find, otherwise the last time will not only get hundreds of ancient secrets!"

The national character face Tianren clan explained.

In the Hall of Merit Exchange, although there are thousands of great ancient secrets, not all of them are obtained from that world, because in the past, the three thousand great ancient secrets spread very widely, and some were obtained through other channels.

"According to previous experience, if the people above the Divine Emperor Realm enter, those ancient secrets are easy to sense and hide. Once they are hidden, it will be difficult to find!"

"And below the Divine Emperor Realm, those ancient secrets are not so scared and will not hide, so this time let you come, your cultivation practice is in the Divine Emperor Realm, but its own combat power is very powerful, It's much bigger to be grasped by the ancient secrets!"

"This time, as long as you get the ancient secret or ordinary secret, you can keep it yourself, just copy it to Tiangong, and at the same time, Tiangong will give merit points as a reward!"

"According to the preciousness of the occult technique, the rewards of merit points will also be high or low. Of course, it requires the occult technique that the Tiangong does not have. If the Tiangong already has it, it will not be rewarded!"

The national character face Celestial Clan continued.

Many people's eyes light up.

Especially Lu Ming.

What he wants most is secret art.

Whether it's a great ancient secret or ordinary secret, he wants it.

Now you can not only get the secret technique, copy the secret technique to the Tiangong, but also have merit points as a reward. This is the best of both worlds for Lu Ming.

Chapter 4114: The core disciples of Tiangong

Then, the national character face Tianren clan said again that they could get the same rewards as the rewards they got after they got the mystery copy to Tiangong.

In other words, as long as you get a great ancient secret technique that Tiangong does not have, copy it to Tiangong, and you will get at least 100,000 merit points.

Because the cheapest ancient archeology is 100,000 merit points, some are expensive, reaching one million merit points.

Thirty-nine young first-class soldiers all showed their hot eyes.

If you can get a great ancient secret technique that is not available in dozens of heavenly palaces, is it not?

This is indeed a huge opportunity.

"However, don't take it lightly. According to the previous experience, there are many creatures in the core world left by the ancient ancient court. These creatures are actually the creatures of the vast universe, but they all joined the ancient ancient court. In the battle with the Tiangong, the masters of the ancient ancient court were almost killed, but the remaining creatures hated the outside creatures very much!"

"Moreover, those creatures have lived in that world for a long time, and there is already some difference between the breath and the outside world. When the outside people go in, the inside creatures can easily feel it and attack you."

The national character face Tianren clan explained.

Everyone's heart sank involuntarily.

"Adult, do you know what is the strongest existence in that world?"

Someone asked.

"I don't know very well, but the Divine Emperor Realm certainly exists. As for the Divine Emperor Realm, it should not be possible. It's not a deserted universe. It's just a legacy world. No God Divine Master can be born. Did not find the existence of God's main realm."

Chinese character face Han interpretation.

"Okay, the explanation is almost the same. I have detailed information here. If you take a look, you will know more clearly."

After the Chinese character face finished speaking, his eyebrows glowed, and the dream **** appeared, and then, a huge light curtain appeared in the sky. The light curtain was a line of fonts, which introduced some information of the core world left by the ancient ancient court. .

There is not a lot of information. After all, people in Tiangong have only been in it once, and it is still 500 stellar years ago. It is too long.

Soon, Lu Ming and others will completely remember this information.

"Oh, there is one more thing to tell you. The people who entered this time are more than you. Some of the core children of Tiangong will also go in. Some of them are the Celestial Clan, and some are the disciples privately collected by the big men..."

Guo Han explained the sentence.

"what?"

People at the scene were shocked, showing dignified color.

Although they are all in the wilderness universe, they stand at the pinnacle of the arrogance in the God Emperor Realm. Regardless of the talent and combat power, they are top-level in the God Emperor Realm.

But in the face of the arrogance of the Celestial Clan, or the disciples secretly collected by the big men, they were not sure.

Obviously, the main force going in this time is estimated to be the Tianjiao's Tianjiao and the core disciples of the great people in the Tiangong. Most of them are together, and there is always no good.

Some people are excited and landed.

However, Lu Ming was more looking forward, and his heart was hot.

The core disciples of Tiangong big men?

Wasn't Qiuyue suspected of being a disciple by the characters in Tiangong? Will this time go together?

Originally, Tianbing wanted to reach the core disciples of Tiangong. I am afraid that it is necessary to be promoted to a god. Otherwise, ordinary people are not qualified.

But now, the opportunity comes.

If you can see Qiuyue and know that Qiuyue is well, then Lu Ming is at ease. He wants to leave Tiangong, and he can leave at any time.

"Okay, I have to say everything, I have to read everything, now come with me!"

The national character face Celestial Clan finished, and together with the other two Celestial Clan, headed towards the interior of the hall.

The inside of the hall was originally a wall, but when they approached, the wall was rippled like a wave of water and disappeared directly, and a door appeared.

They stepped out and stepped through the door.

Lu Ming and others quickly followed, and stepped outside the door.

"this is..."

When they stepped through the door, they were deeply shocked by the scene before them.

This is a void, vast and boundless.

In the vast expanse of void, there is a shocking scene.

Those are runes.

Among them, there are some runes, the most conspicuous.

Each of these runes is huge, as huge as a planet.

With Lu Ming's eyesight, at a glance, it can be seen that there are a total of three thousand such runes as huge as planets.

Three thousand runes as huge as planets emit a variety of colors, and each rune emits a different breath.

"This... three thousand runes, is it related to the three thousand ancient secrets?"

Lu Ming was shocked.

Because there were several types of runes in it, he felt a familiar breath.

That was the breath of the three thousand ancient secrets he had already practiced.

In addition, among these three thousand huge runes, there are countless small runes.

These small runes are much smaller, but the number is too many. I don't know how many times. With Lu Ming's eyesight, at first glance, I just feel that the eyes are all spent, and I can't see how many runes there are.

These large runes and small runes are intertwined with each other and connected to each other, forming a huge incomparable sphere, which keeps spinning in the air.

Moreover, those runes are not forbidden and immobile, but are constantly flowing and changing, and there are countless changes at any time.

At this moment, there are several figures around the huge sphere, in the non-stop shot, a ray of ray of light, did not enter the sphere.

"A strong breath..."

Lu Ming's pupils contracted, and each of those figures was terrifying and unfathomable. They were stronger than the three Celestials who brought them. I don't know how many times.

Lu Ming dared to conclude that those figures must be the existence of God's Lord Realm, not even the ordinary God Lord.

"In this sphere, is the core world left by the ancient ancient court. All the runes you see are all based on the mystery technique and condensed with the formation method!"

"The three thousand largest runes are made with the core of the three thousand ancient secrets, and the small runes are made with other common secrets as the core. Numerous runes are intertwined and changeable. Infinite, it is difficult to break through, but recently, the formation has been loosened, and several big figures are breaking through, you just have to wait!"

The Chinese character faces Tianjun Road.

"really..."

A movement in Lu Ming's heart, these runes, indeed related to the secret technique, he did not guess wrong.

"The core disciples of Tiangong..."

At this time, someone whispered.

Chapter 4115: Disciple of Dameng Tianjun

"The core disciples of Tiangong..."

Someone exclaimed, Lu Ming and others looked involuntarily in one direction.

Not far away, some figures were suspended in the void.

There are more and more people than them, about 50 people.

Among them, the most eye-catching are more than a dozen young men and women.

These young men all have blonde hair.

The handsomeness of men, the beauty of women, the most special is their temperament.

Everyone contains a noble temperament, this temperament is not specifically expressed, as if born.

It is a kind of high temperament, overlooking the sentient beings, a unique temperament.

To be honest, this temperament makes Lu Ming feel uncomfortable at first glance.

Obviously, these dozen young women are all human races.

The remaining people, from all races, are top talents.

Lu Ming glanced, and did not see Qiuyue, slightly disappointed, and finally set his eyes on the four hazy figures.

The four figures were shrouded in a hazy glow.

That layer of brilliance, like a dream, looked deep, as if I felt sleepy and falling into a dream.

Lu Ming quickly shook his head to wake himself up.

"Great power!"

Lu Ming felt a little shocked in his heart. With his cultivation practice and eyesight, he couldn't see through that layer of mysterious power, and even nearly fell into himself.

However, Lu Ming still can see that the four figures, all in slim shape, are all young women.

The eyes of other young Tianjiao were also attracted by the four figures.

"The power of the big dream, they are all disciples of the big dream Tianjun!"

Someone whispered in shock.

"Dameng Tianjun, you mean, even the most powerful Tianjun among the Tianjun?"

Exclaimed another young man.

These talks are basically the arrogance of the top ten races, because they understand more things.

"Yes, that Tianjun, even among all the Tianjun in the five major palaces, is ranked at the forefront, terrible, I don't know how powerful, only know that she once shot, let all the stars of the entire galaxy instantly. , Falling into a dream..."

Another youth road.

Others took a breath.

In an instant, let all the creatures of the whole galaxy's creatures fall into a dream. What a powerful strength?

How many creatures are there in a galaxy?

It is totally impossible to count, but in a moment, how to make all creatures fall into a dream, how powerful should it be? It's incredible.

Even Lu Ming secretly took a breath.

When he got the gale, he once saw the owner of the gale, destroying a galaxy with gale.

However, destroying a galaxy is definitely easier than letting a galaxy's people fall into a dream, and it is much easier.

Obviously, this big dream heavenly king is stronger than the master of the strong wind ball.

"It is said that Dameng Tianjun does not easily accept disciples, but also accepts disciples, and only female disciples. Unexpectedly, this time Dameng Tianjun, there were four young disciples appearing at once, but this is rare. of..."

"I have also heard that Dameng Tianjun is a beautiful person in the world, and the disciples she collected are the same. I really want to see the true face of these three..."

Some people communicate in secret, but they don't dare to be too loud.

"Inside, is there any autumn moon?"

Lu Ming kept thinking in his head, looking closely at what he wanted to see from it.

But the power of that big dream was very mysterious. He couldn't see through it at all, which made Lu Ming anxious.

He is now a body, a taboo body, and the original breath of life has changed. Even standing in front of Qiuyue, Qiuyue will not recognize him.

To confirm whether there is Qiuyue, only he took the initiative.

However, it is not the right time, but there is a big man in Tiangong here, he dare not act rashly, otherwise it will be very troublesome.

Now, we can only stay on the ground and wait until we enter the core world left by the ancient shrine.

Soon, three days passed.

At this time, the figures were breaking through, and shouted at the same time, a terrifying breath filled out, and several Tiangong figures shot at the same time.

Buzz!

The ball interwoven with runes violently shook, and then in one of them, a passage suddenly appeared.

"It is now, you hurry in and remember that you are in there for only three years. After three years, we will force you out..."

One of the big men shouted.

"go!"

A dozen young men and women of the Celestial Race had the fastest speed, and their bodies flashed towards the passage.

Following closely behind are the core disciples who were taken away by the big players in Tiangong.

"Let's go too!"

Lu Ming, thirty-nine first-class soldiers, also set off and rushed towards the passage.

As soon as he rushed into the passage, he felt that the sky and earth turned around. At the next moment, Lu Ming found that he landed on a flat ground.

And those who rushed in before were all here, and did not spread out.

"The breath of this world is really different from the outside world..."

Lu Ming felt it a little bit when he felt it. Because it is isolated from the world, for a long time, nature and the wild universe have become a little different.

"Now, let's go, this time, all of you, listen to my orders, remember, my name is Ye Yu!"

At this time, a voice sounded, the voice was very calm, but full of undoubted meaning.

Everyone could not help but look at the past.

It was a young man of the Celestial Clan, tall and handsome, with unparalleled temperament, and his long golden hair was beating like a golden flame.

All other human races are headed by this Ye Yu.

The core disciples received by the big figures in the Tiangong Temple were calm and did not speak and remained silent.

The first-class soldiers with Lu Ming felt slightly uncomfortable.

They are usually in all races, and there is no doubt that they are the top demon, even in the entire wilderness universe, that is the top demon, well-known starry sky, naturally all arrogant.

But now, Ye Yu commanded them in this high tone, and ordered them, they would naturally feel a little uncomfortable.

But no one dared to speak out.

The opponent is the Celestial Clan, and the real controller of the universe is the Celestial Clan.

Ye Yu seemed to know that no one dared to object, and he turned and took the man of the Celestial Clan, heading in one direction.

Everyone keeps up.

At this time, Lu Ming speeded up and came to the four women surrounded by the power of the big dream.

"Four girls are good, let's go to Muyun!"

Lu Ming clenched his fists.

The eyes of everyone could not help looking at Lu Ming one after another.

"This kid, actually want to talk up?"

"Some can't control it, Damen Tianjun's disciples have a very high vision!"

Suddenly, someone grumbled.

Chapter 4116: Please let Fang Rong know

In the eyes of everyone, Lu Ming was looking for four disciples of Dameng Tianjun to make a conversation, and the lazy toad wanted to eat swan meat.

The four Dameng Tianjun's disciples stopped, and you can see that four pairs of eyes looked at Lu Ming, full of indifference.

"Four girls, let's get a look of the four girls first. I wonder if you can?"

Lu Ming clenched his fists again.

He wanted to confirm whether there was Qiuyue in it.

The power of that big dream not only blocked the appearance of the four, but also blocked their breath of life. Lu Ming couldn't even judge by the breath of life.

Therefore, only by letting them quit the power of big dreams can they judge.

As soon as the words came out, four pairs of beautiful eyes immediately burst into cold air.

At the same time, the faces of the other core disciples in Tiangong also fell, and the faces of the dozen or so young people were somber.

The other thirty-nine first-class soldiers also showed a strange color.

Lu Ming said something abruptly.

"Boy, what are you, and the four goddesses are what you can see? You dare to speak out of the four goddesses, and now give you a chance to admit the four goddesses in person!"

On the edge, a young man was drinking coldly, and his body was filled with holy light.

This is the arrogance of an angelic family. It was adopted as a core disciple by a Tianjun in the Tiangong Temple. It has a strong talent and is known as a promising genius than Gabbert.

However, Lu Ming just glanced at him casually, and then directly ignored, still looking at the four goddesses, insisting: "Please also ask the four girls to retreat from the power of big dreams and let them see Fang Rong next time."

"court death!"

The angel clan shouted with arrogance, stepped, and looked like a flash of lightning, and rushed towards Landing Ming. At the moment of the shot, an angel sword had condensed out and cut to Landing Ming's head.

The sword gas was roaring, extremely terrifying, and amazingly powerful.

Divine Emperor Ninefold!

As soon as the opponent shot, Lu Ming judged that the opponent had Divine Emperor Jiuzhong's cultivation behavior, but the combat power was extremely powerful, far above Divine Emperor Jiuzhong.

boom!

Lu Ming's face was calm, and a black magic sword appeared on his palm.

Great Demon Sword Skill!

Keng!

One black and one white, the two sword lights met in the air, and an explosive roar broke out.

Then, a figure shook wildly and took three steps backwards.

It is the arrogance of that angelic family.

"It turns out that we can only fight across four levels, and it's not that strong!"

Lu Ming muttered.

Fighting across four levels, and the talents of the candidates of the general universe arrogance list, Lu Ming thought how strong the core disciples of those big figures in Tiangong are.

If this is to let others know Lu Ming's thoughts, it will probably be speechless.

How many candidates are there in the universe?

Placed in the entire wilderness universe, it is very rare, as rare as rare.

Talents that are stronger than this, such as Ling Yuwei and Dou Shen Yuan Wen, are even rarer and more rare.

Even the disciples received by the big figures in the Tiangong Palace cannot be made like that.

In fact, even if the core disciples received by the big players in the Tiangong Palace, it is impossible for all of them to have the talents of the level of the candidate of the universe's arrogance list, many of them are worse.

In the Divine Emperor Realm who can fight across four levels, among the core disciples of Tiangong, in fact, they are considered top-notch.

It's just that Lu Ming is too perverted, and most of the opponents he meets are also perverted, so his vision naturally increases.

Another point is how rumored the core disciples of Tiangong are, so that in his heart, he sees the core disciples of Tiangong relatively high, and thinks that each one is like the God of Fighting God.

Ok?

At this moment, many people's eyes are condensed, showing shock.

This is true even for a dozen young men and women of the Celestial Clan.

However, they can clearly sense Lu Ming's cultivation behavior. Lu Ming's cultivation behavior is only the seventh emperor of the Divine Emperor, but he repelled the angel clan Tianjiao of the Divine Emperor Nine Heavy, what does this mean?

Even if the move just now, the angel clan Tianjiao did not use their full strength, but it was scary enough.

At this moment, everyone was impressed by Lu Ming.

However, the angel family's arrogance turned red.

"Boy, I want you to die!"

The angels' roar of heavenly arrogance. Behind him, twelve pairs of wings stretched out, and the Holy Light soared to the sky, as the angel king recovered.

Around his body, twelve war swords condensed by the Holy Light emerged.

"kill!"

A loud shout came out, and the twelve **** god swords suddenly became larger, and turned into twelve huge endless war swords.

At this moment, the angel clan Tianjiao under the wrath really used all his strength to raise the combat power to the top.

However, even if it rises to the top, it can only fight across four levels.

Lu Ming performed the Great Divine Wind Technique, the Great Fragmentation Technique, and his palm was like a knife.

In an instant, the void collapsed and turned into a wave of destruction, slamming into the angel pride.

Boom...

A series of explosions sounded in the sky, and the sky was full of strength, and the two sides formed a confrontation.

However, the contend just stalemate a few breaths, the Holy Light was suppressed by Lu Ming, trembling continuously, and then blasting and breaking apart, the voice of the angel clan Tianjiao continued to retreat backwards.

At this moment, many people really took a breath, extremely shocked.

After the angel clan Tianjiao exerted all his strength, he was still not Lu Ming's opponent, which was too scary.

No wonder that Lu Ming is only the seven emperors of the Divine Emperor, but he was invited to enter the core world left by the ancient ancient court. He has this qualification.

"what!"

The angel pride's Tianjiao was mad, screaming in the sky, flying wildly, his eyes full of terrifying murderous opportunities.

"Boy, you are dead!"

The angel clan's arrogance roared, his eyebrows exuded a horrible wave, and then an angel war sword flew out.

Big killer!

This is the big killer controlled by the angel clan Tianjiao.

He was so angry that he wanted to kill Lu Ming with a big weapon.

"Big killer, do you just think you have?"

Lu Ming sneered and took out the gale beads, preparing to pull out the gale inside.

"Okay, stop here!"

At this moment, a majestic voice sounded, from the leader of the Celestial Clan, Ye Yu.

As soon as Ye Yu uttered, the angel clan Tianjiao did not dare to act, and his breath converged, looking at Ye Yu, and said, "Ye Yu, this man is brave and has no one in his eyes. The following offenders must be severely punished. Master Yu is the master."

"I know!"

Ye Yu said lightly, then looked at Lu Ming, said: "What's your name?"

"Muyun!"

Lu Ming replied 'truthfully'.

"Muyun is right, very good, your talent is good, but you are the first of the four disciples of Tangmeng Dameng Tianjun, and then shot against Galo, which belongs to the following offense, now you apologize to them, I can take the lead, After you apologize, this matter is over!"

Ye Yu said.

Chapter 4117: Lu Ming's test

Ye Yu directly commanded Lu Ming to apologize in a high position.

In Tiangong, there is indeed such a rule. The core disciples of Tiangong's big figures really have a higher status than Tianbing.

In the past, even the first-class soldiers were not qualified to contact these core disciples. It was only in this special mission that Lu Ming contacted these core disciples.

And the hands on the core disciples really belonged to the following.

But will Lu Ming apologize to the other party? It's impossible!

"This guy did it to me first, can't I return it?"

"Also, I'm just curious about the appearance of the four of them, there is no offense, and there is no taboo?"

Lu Ming said, facing Ye Yu, Lu Ming is also a salty attitude.

Others face Ye Yu with a certain degree of sincerity and fear, and even a respectful attitude, but Lu Ming here naturally does not exist.

Ye Yu frowned, and a cold flash of light flashed in her eyes.

This attitude of Lu Ming made him extremely uncomfortable.

He has become accustomed to the fear and fear of others in front of him, inferior to him.

Lu Ming, however, put his posture as high as him. Why? What is he counting?

He is a Celestial Clan, what is Lu Ming? It's just a human race.

Even the top ten races, in front of the Celestial Clan, are all ants.

No matter how high Lu Ming's talent is, they are all despicable ants. How can they be compared with the Celestial Clan?

"Bold, what are you, dare to talk to Master Ye Yu with this attitude? Don't kneel and admit your mistake!"

Ye Yu hadn't spoken yet, and another woman of the Celestial Clan drank it.

Lu Ming frowned.

To be honest, from the beginning when I saw these Celestial Clan, the high posture of these Celestial Clan made him quite uncomfortable. At the moment, this kind of gesture was even more exposed, making Lu Ming even more uncomfortable.

"Everyone is equal. What's wrong with me talking like that?"

Lu Ming said lightly.

"Everyone is equal? Hahaha, ridiculous, my human race is the master of the universe, who can be equal to us? Your kind of thinking is already invincible, it should be cut!"

The Celestial woman drank coldly, her blonde hair fluttered around her, and there was a golden energy around her body, which enveloped her.

"This energy..."

Lu Ming's eyes moved.

He discovered that the energy used by the Celestial Women was completely different from the energy cultivated by the major races of the Honghuang Universe.

Not a kind of divine power, but a brand new energy.

But this energy gave Lu Ming a terrifying feeling.

Lu Ming involuntarily made a defensive posture, and the gale beads in his hand also turned quickly, pulling the energy of the gale at any time.

"All right!"

At this time, Ye Yu spoke again, waved his hand, and stopped the Celestial Woman.

The Celestial Woman seemed to be afraid of Ye Yu, and her breath immediately converged.

Ye Yu looked at Lu Ming, and his expression returned to calm: "Your courage is great!"

"Always not small."

Lu Ming said.

"is it?"

Ye Yu smiled and said, "I'm not embarrassing you, but this team can't accommodate you anymore. Let's go, this time's mission, you should act alone!"

"Young Master Yu..."

The Celestial Woman wanted to say something, but Ye Yu stopped her eyes.

Lu Ming also had some surprises. He didn't expect the other party to let him go directly. He thought he would go through a big war.

Lu Ming's gaze, looking at the four figures shrouded in the power of the big dream, was still a little unwilling, not knowing if there was Qiuyue inside.

Suddenly, Lu Ming moved: "The four girls want to inquire about a place below. I don't know if the four girls have heard of the place "Shenhuang"?"

Lu Ming wanted to tentatively test his words. While speaking, Lu Ming stared at the reaction of the four women.

Shenhuang, of course, refers to Shenhuang Continent!

The Shenhuang Continent is just an unremarkable continent in the Yuan Realm. No one on the scene has ever heard of it, only Qiuyue.

If there is really Qiuyue among the four people, there will definitely be a response if he says so.

It is a pity that Lu Ming was disappointed, and the four women were nothing strange.

"I don't know!"

One of the women shook her head and said that her voice was very nice, but Lu Ming could hear that it was definitely not Qiuyue's voice.

The other three did not speak, but shook their heads slightly.

Lu Ming was a bit disappointed. Is there no Qiuyue among the four?

"Muyun, Master Ye Yu has opened the net and looked at you, are you still going? Do you want to die?"

The Celestial Woman drinks coldly.

Lu Ming glanced at her lightly, then turned around and walked away, very simply.

He estimated in his heart that there should be no Qiuyue among the four, otherwise, if he heard the word "Shenhuang", there should be some reaction!

Lu Ming is very fast, and disappears here in an instant.

"Master Ye Yu, why did you let go of this Muyun, this person relied on some talents, and no one in sight, I think I can't stay!"

The Celestial Woman said to Ye Yu.

"Not urgent!"

Ye Yu smiled slightly and said, "This Muyun is very talented. It is absolutely rare among the major races of the vast universe. If such a person can conquer in his hands, it will also play a role in my future position in the Heavenly Palace. To a lot."

"Oh, the princess wants to conquer this Muyun, so it turns out!"

The other Celestials nodded.

"Yes, let him leave first, eat some bitterness, and sharpen his sharpness, then I will naturally take action to conquer him!"

Ye Yudao.

In the Temple of Heaven, competition is fierce.

Although the Tiangong is completely dominated by the people of the Celestial Clan, there are many big figures among them, and they are also held by other people in the Honghuang Universe. Some are extremely powerful and have a high status in the Tiangong.

These people, often assisting some human races, occupy a large power in the Tiangong.

Ye Yu naturally wants to conquer some masters for his use.

If a genius like Lu Ming can be conquered by him and grow with him, he will definitely grow into a terrible strongman in the future, which will also greatly help his position in the Temple of Heaven.

Thinking of this, he did not start Lu Ming on the spot, but let Lu Ming go.

If he didn't think about it, with his heart, would Lu Ming leave, I am afraid he would kill him on the spot.

"Let's go, let's go find the ancient secret technique!" Ye Yu said, stepping away, others followed.

Lu Ming was like an electric figure and soon flew tens of thousands of miles away.

"It's exactly what I want to do by myself!"

Lu Ming was very relaxed.

He can't wait to act alone.

Those who follow the Celestial Clan, even if they get the Ancient Secret Technique, can they get him in turn?

He expressed doubts.

Even if the other party would not let him go, he wanted to find a reason to leave, which is just right now.

Chapter 4118: The creatures of the ancient world

A person's actions, the treasures and secrets he obtained are all his own. When he acts with the Celestial Clan or the core disciples in Tiangong, the treasures and secrets obtained are probably not at his turn.

It is very possible to use the other party's strong and domineering character.

"According to consumer information, there are many ancient relics in the core world of the ancient ancient shrine. Many of these secret techniques are left in these ancient relics, either in the form of jade symbols, or carved on some ancient stone tablets.. ."

In Lu Ming's mind, the news he saw from the Tiangong strongman appeared.

If you want to find the secret technique, you must look for these ancient ruins.

However, these ancient ruins are dangerous, and there are some formation traps or something. It is not so easy to get them.

Thinking while flying, looking for ancient ruins.

This world is very huge. This can be seen from the mysterious runes outside. Each rune with the three thousand ancient secrets as the core, each one is as big as a planet, so many secret runes will The world is shrouded, showing how vast the world is.

Lu Ming flew three days in a row, and did not encounter a creature of this world. Until the fourth day, Lu Ming finally saw a city.

From afar, all kinds of creatures come in and out of the city, very lively.

Lu Ming narrowed his eyes slightly, thought for a moment, and then retreated.

The creatures of this world, because the ancient palace destroyed the ancient palace, so the person who hated the heavenly palace very much. If he is found, it will definitely be a big battle and very troublesome.

It is better not to contact people in this world.

Lu Ming bypassed the city and continued to search for remains.

It is undoubtedly very slow to search blindly without a goal.

It has been a month since Lu Ming finally found the place of the suspected remains.

In the middle of a mountain peak, there is a mountain pass, in which many buildings are located.

These buildings are very old, most of them have collapsed, and only the ruins can be seen.

Obviously, this is an ancient ruin.

Lu Ming showed a happy look. After searching for so long, he finally found a ruin. I don't know what kind of harvest. Lu Ming landed down with a heart of expectation and slowly looked up.

However, it seems that the time has passed for too long, everything is corrupted, Lu Ming looked around and found nothing.

Some metals, seemingly intact, reached out and immediately turned to ashes.

Some jade signs are the same.

Finally, Lu Ming came to the depths of the ruins and saw several huge stone monuments standing on the ground, each of which was as high as a hundred feet.

Lu Ming was very happy, because he felt the slight spirituality from these stone tablets, indicating that there was no corruption, and proved the extraordinariness of these stone tablets from the side.

According to clues, many mysteries, even great ancient secrets, will be carved on these stone tablets.

Dagu Shenting engraved these mysteries on the stone tablets, which is convenient for the disciples under the door to learn and practice at any time.

Lu Ming quickly walked over, but immediately, his face sank.

The stone tablets are covered with nicks.

Like all kinds of attacks left on it, it's a mess, dense and dense, destroying the stone monument beyond recognition.

Lu Ming carefully observed and concluded that the stone monument should have been content, but now it has been destroyed, and the content on the stone monument can no longer be identified.

"There is a secret technique on the stele, but it was destroyed. Who did this..."

Lu Ming frowned, his face a little ugly.

Judging from the traces of destruction, it is very old, and many years have passed. It should not be the person who came in this time.

Lu Ming thought about it and came to two conclusions.

One was 500 years before the stellar year. The people in Tiangong found this place, recorded the mystery on the stele, and then wiped out the mystery on the stele.

The second one is the creatures of this world, which wipe out the mysteries here.

Either way, Lu Ming found nothing.

Lu Ming looked again carefully and made sure that there was no gain, before going out with some disappointment.

It seems that this time it is very difficult to have a great harvest.

Lu Ming was originally looking forward to finding hundreds of thousands of ancient secrets, then it was issued. Now it seems that he thinks more, it is not so easy, after all, too long years have passed.

Ok?

Suddenly, Lu Ming felt a shock in his heart, his eyes were as bright as electricity, and he looked forward.

In front, there is a group of creatures, transformed into humanoids, flying towards this side quickly.

Just a glance, Lu Ming knew that these people are all people of this world.

Lu Ming didn't think about it, turned around and left.

People in this world are hostile to people in Tiangong, and for so many years in the past, who knows what master, Lu Ming does not want to be entangled.

Unfortunately, it was too late, the other party had already seen Lu Ming.

As soon as Lu Ming ran, the other party quickly chased after landing Ming.

really...

Lu Ming frowned, speeding up and flying fast.

But the other party also accelerated and chased after him.

Lu Ming looked ugly.

"Are you really afraid of you?"

A sentence came out of Lu Ming's heart, and the figure stopped suddenly, and then did not go back and forth, triggering the six-fold combat strength of the war character formula, the body was filled with gorgeous glow, and the fists blasted continuously.

Boom...

Terrible punches penetrated the void and blasted towards the creatures.

Taking Lu Ming's current practice as a shot, the power is really amazing, terrible, and the creatures of this world have changed their faces wildly.

"Be careful, hide behind me!"

One of the white-haired old men shouted, and the dry body quickly changed into a huge white giant ape, waving his palms, propping up a light curtain, protecting him and other creatures in the middle .

Boom...

A series of roars sounded, Lu Ming's fists struck on the light curtain supported by the white giant ape, the light curtain kept shaking, the body of the white giant ape also shook, and he stepped back several steps in a row, but finally blocked Lu Ming fist.

"Divine Emperor, Divine Emperor is important!"

Lu Ming's eyes moved slightly.

As soon as the white great ape shot, Lu Ming sensed that the other party's strength was very powerful, and it was a **** emperor realm.

If it were not the Divine Emperor Realm, Lu Ming's attack could not be stopped.

However, the other party seemed to resist, and also quite difficult.

"It seems that the existence of the general Divine Emperor Realm is almost the same as that recorded in the ancient palace..."

A thought flashed in Lu Ming's heart.

According to the news he has seen, the presence of Divine Emperor Realm is much stronger than Divine Emperor. Generally speaking, Divine Emperor Realm has no resistance against Divine Emperor at all, only being spiked.

Even some powerful arrogances are difficult to fight across the realm.

If you want to fight across the realm in the Divine Realm, only some of the top demon can do it.

Such as those who can fight across the four levels in the Divine Realm.

Chapter 4119: Pressure on God

Only those top demon who can fight across four levels in Divine Emperor Realm can fight against ordinary Divine Emperor at the peak of Divine Emperor Ninefold.

And it is not a victory, it is only able to contend, and it is only barely able to contend, and it can not die in front of the Divine Emperor Realm, not a victory.

This shows how big the gap is.

It should be known that in Divine Emperor Realm, there is a difference of one level, and it can be completely crushed and spiked. The gap between Divine Emperor Realm and Divine Emperor Jiuzhong Peak is exactly four levels.

The level of the four Divine Emperor Realms can be imagined how big the gap is.

With such a big gap, the existence of the ordinary Divine Emperor Ninefold Peak in the face of Divine Emperor Realm, like a baby, has no resistance and will be killed by a large film.

This is why the candidates of the universe arrogance list are all demon who can fight across the four levels in the Divine Realm, which is also judged based on this.

Candidates who can be listed on the universe's arrogance list, at the peak of Divine Emperor Ninefolds, can barely contend with the existence of ordinary Divine Emperor Realm with their own combat power.

Here, there is no big killer.

After those Tianjiao use the big killer, the combat power will undoubtedly become more terrible.

Therefore, when participating in the assessment of the Sky Soldiers, the blood clothing from the blood clan, and everyone else felt that he should go to the third-level area instead of appearing in the second-level area.

Bloodcoat Cangming is one of the candidates in the universe's arrogance list, with the seven emperors of the gods, and by his own fighting strength, he is naturally not an opponent of the existence of the Divine Emperor Realm. The existence of the environment contends.

However, Lu Ming was able to contend with the ordinary Divine Emperor Realm by virtue of his own fighting power when the Seventh Emperor of the Divine Emperor.

"Your strength..."

After the white great ape was shaken back, it stared at the landing clan with wide eyes, revealing a deep shock.

Divine Emperor Qizhong's cultivation practice, which could actually repulse him, is such a terrifying combat power that he is really terrifying.

In the ancient world, it never happened.

"kill!"

Lu Ming drank coldly and killed him.

There is only one ordinary Divine Emperor, Lu Ming is fully able to cope with it. If a big killer is used, killing is not difficult.

Through the Centennial Calendar Training of the Dark Universe, and then turning the gains obtained from the Centennial Calendar Training into strength, Lu Ming's combat power has skyrocketed. Unconsciously, the ordinary Divine Emperor is no longer in his eyes.

As soon as the words fell, a gale of wind appeared in his hand, preparing to pull out the power inside and kill them all.

"Wait, we are not malicious!"

The white giant ape shouted.

"Yes, yes, we are not malicious, don't get me wrong!"

Behind the white giant ape, a young woman also cried.

"No malice? What did you do after me?"

Lu Mingdao did not launch the attack immediately.

To be honest, he did not feel the killer in the other party.

Since the other party chased him just now, no killing has been felt.

This is why Lu Ming has not continued to do so now.

"Little friend, misunderstanding, you ran as soon as you saw us, we thought something had happened, and subconsciously chased..."

The white great ape said.

"Yeah, we are chasing you, just want to ask why you ran when we saw us, wait... your breath..."

The young woman said, her eyes suddenly glared, seeming to be very curious, staring deadly.

"Your breath...you are not a creature of the ancient world..."

Then the young woman exclaimed, her eyes widened, and she stared at the curiously curiously.

In an instant, Lu Ming's body was filled with icy murder.

It seems that the other party has already seen his identity, and the next step is estimated to be against him. He is not a scumbag, intending to take the initiative to attack.

"Wait, we are not malicious to you..."

Feeling the killing on Lu Ming, the white giant ape yelled again.

"Ha ha!"

Would Lu Ming believe that the information given by the Tiangong is very detailed? The spirits of this world are very hateful to the spirits of the Tiangong because of the reason that the Tiangong destroyed the ancient ancient temple.

Five hundred years before the star, when the creatures of this world saw the people in the heavenly palace, they shouted and killed, would they not be malicious?

call!

Lu Ming pulled a gale directly from the gale beads.

Taking Lu Ming's current practice as an example, the force of the strong wind drawn from the strong wind beads is much stronger than before.

The strong wind roared, the void turned into chaos, and the scene was extremely terrifying.

The creatures of the ancient world became extremely ugly.

"You retreat!"

The white giant ape shouted, his face very dignified, because he felt the terrible attack, which could threaten his life.

He roared, bursting out all his strength, and Zhang Xiaochang shouted, and a shield flew out of his mouth, huge and in front of him.

At the same time, he pushed out with both hands, and a mask appeared, shrouded in front.

The moment he laid his defense, the roaring gale had swept through.

Boom!

Two terrible roars in a row, the body of the white giant ape violently shakes, the huge majestic body flew backwards, fell heavily on the ground, and a spit of blood spewed out.

After Lu Ming used the strong wind beads, his strength has completely exceeded him, and he was injured in one move.

"No, I can swear with the source of life, we really are not malicious to you..."

The young woman was ecstatic, but still stubbornly stepped forward, staring at the landing.

"Oh?"

Lu Ming did not continue to attack and stopped, saying, "Well, you swear on the origin of life!"

Lu Ming is not a killer, and if the other party is not malicious, he will not kill innocents indiscriminately.

If the other party really dares to swear on the origin of life, it proves that the other party is really not malicious towards him.

Of course, if the other party does not dare, he will immediately shoot, there will be no slight weakness.

"I swear..."

"I can also swear..."

The creatures of the seven or eight ancient worlds did not hesitate at all, swearing at the source of life, no evil to Lu Ming, if there is deception, the source immediately jumped to death.

Even the white great ape also swore.

"I really swear!"

Lu Ming was quite strange in his heart.

These people know that he came from outside, and he is not malicious to him? Doesn't match the news that Tiangong gave them?

However, those who can swear on the source of life are generally not wrong.

Lu Ming put away the gale of wind, and his breath converged.

Another reason why he doesn't kill these people is that it is too slow for a person to find the remains here, such as finding a needle in a haystack, but if someone in this world helps, things will become many times easier.

Chapter 4120: All destroyed

Seeing Lu Ming's murderous intention and breath converge, the white giant ape and the young woman and others all secretly breathed a sigh of relief.

Lu Ming just gave them too much pressure.

But immediately, the young woman blinked her eyes again and looked at Lu Ming curiously, just like looking at a rare treasure. After watching it for a while, she cautiously whispered, "You... From the outside world?"

At the same time, others also looked at Lu Ming curiously.

"Yes, I am indeed not a person in this world."

After a pause, Lu Ming said: "Since you know that I am not a person in this world, you have no intention of killing me? Did you want to kill me?"

Lu Ming asked the doubts in his heart, because this was not consistent with the news given by Tiangong.

"Why kill you?"

The young woman blinked her eyes, more puzzled than Lu Ming.

But the white giant ape pondered for a while, and said: "It is said that the ancestors of the ancient world and the outside world are not in common. The ancestors of the ancient world were killed by the creatures of the outside world. However, it is just a legend, and I don't know the true and the false, how can there be any hatred!"

amount...

Lu Ming got it!

It's been too long, five hundred stellar years.

What is the concept of 500 stellar years? It is equivalent to that a star has walked 500 times from birth to destruction, which is too long.

In such a long time, nothing has been forgotten.

Including the grudges of Tiangong and Dagu Shenting.

After such a long time passed, the ancient world passed down from generation to generation. It has long forgotten the enmity between Tiangong and Ancient Ancient Court. Many people haven't even heard of the enmity between Tiangong and Ancient Ancient Court. A legend.

Lu Ming knew that he was worried, and it seemed that the creatures of the ancient world knew that they were from the outside world, but they were curious and had no hatred.

With this in mind, Lu Ming's alertness was slightly lowered.

"My name is Shengqiao, what is your name?"

At this time, the young woman became more courageous and quietly walked to Lu Ming and asked.

"Muyun!"

Lu Ming said.

"Muyun, how did you come in? The legend of our world is in the very long past. Only people outside have come in. I thought it was just a legend. I didn't expect that there are other worlds outside our world. .."

Shengqiao felt that Lu Ming had no killing opportunities, and his courage was greater, as if he had opened the conversation box, and he kept asking a few questions.

"Miss..."

The white great ape was a little worried, afraid that Lu Ming would roll over and start directly.

Although he is the existence of Divine Emperor Realm, and Lu Ming is only Divine Emperor Realm, but in front of Lu Ming, this emperor, he was frightened and did not dare to take it lightly.

"I came in, there was a mission. I want to find some ancient ruins here. Can you take me to find them? I can pay you..."

Lu Ming said his purpose.

"Looking for ancient ruins? No wonder you appeared there before, and it's up to me to find the ancient ruins. I know a lot of ancient ruins, but there may not be something you want to find in it!"

Shengqiao Road.

"This is no problem, just take me to find it!"

Lu Ming said.

Immediately, they set off, Shengqiao and the white giant ape, etc., led the landing sound, and headed towards the next ancient ruins.

"Miss, shall we take him like this, after all, he is a person from the outside world, if there is any evil intention?"

In secret, the white giant ape transmitted Shengqiao.

"Uncle Yuan can rest assured that I can feel that Mu Yun is not malicious to us. He shot before, completely out of self-defense, don't worry, I'm curious, what is the outside world like, but I can inquire from him Fan."

Shengqiao answered with a voice.

The white great ape sighed in his heart. He knew Sheng Qiao's temper. Once he was determined, it was difficult to change. He could only follow him closely. Once Lu Ming had any evil intentions, he couldn't fight this old one. Life, and Lu Ming desperately.

Shengqiao secretly chatted with the white giant ape, and then looked at Lu Ming, twitter chatting with Lu Ming.

It's just asking about the outside world.

Lu Ming gave a brief introduction.

Even casual introductions, such as Shengqiao and White Giant Ape, were dumbfounded and dumbfounded.

The ancientness and vastness of the vast universe made Shengqiao and others long for it.

"Unexpectedly, the outside world is so vast, but why, people in our ancient world, have never been able to go out? Even if the most powerful master of the emperor realm, if it is difficult to break through the world barrier, is it our world? Is it too low-level?"

Sheng Qiao mumbled to himself, unable to hide his loneliness in his tone.

She is very much like going out to see the outside world, but unfortunately, people in their world seem to be unable to get out at all.

"Emperor Realm Master? Should it be Divine Emperor?"

Lu Ming moved.

Then I chatted with Shengqiao one by one.

It was different when someone led the way, and soon they came to another ruin.

This ruin was hidden underground, and they went in unimpeded.

This puzzled Lu Ming again.

According to the news given by Tiangong, these ruins are full of various formations and traps, which are very dangerous.

Before coming in, the big figures in Tiangong told them to be careful.

But now, Lu Ming has found two relics in a row, both unimpeded, without encountering the danger of the characters, nor seeing any formations and traps.

very safe!

However, like the previous relic, I searched around and found nothing.

"These relics are too old. Even if there is something in it, or it has been taken away or corrupted, nothing is left!"

Shengqiao Road.

Lu Ming kept silent and went all the way to the depths of the ruins.

Deep in the ruins, they found a secret room.

"This is again..."

The four walls of this secret room were covered with scratches.

It can be seen that there should have been something on the stone wall, with some patterns or handwritings inscribed on it, but all of them were destroyed, and the original content on the stone wall could not be clearly distinguished.

Lu Ming's face was gloomy.

After two consecutive ruins, he found a stele or wall suspected of being engraved with occult arts, but both were destroyed and obscure.

"There should be handwriting on this stone wall, how was it destroyed? Do you know who was destroyed by this? Are you from the ancient world?"

Lu Ming is Shengqiao and others.

"Not sure!"

Sheng Qiao shook his head and said, "In fact, not only here, almost all the remains, suspected to be engraved with patterns or handwriting, have been destroyed."

"All ruins?"

Lu Ming was taken aback.
