

D Emperor 4171

Chapter 4171: Take control of the 800 Ancient Mysteries

According to Lu Ming's experience, now in a cell, powerful and pure power has erupted to help him break through.

But now, the time has passed, but the ten cells that are integrated into the mystic runes have not moved at all.

what happened?

Doesn't the ten mystic runes just now show pure energy?

However, Lu Ming has also incorporated the Divine Emperor's Triple Secret Rune before, which is also useful.

Moreover, ten mystic runes are useless together? Not so coincident!

Lu Ming did not believe in evil, and took out more than a dozen mysterious runes. This time, the mysterious runes ranged from Divine Emperor's weight to triple, and were integrated into a dozen cells.

Then, wait.

One minute, five minutes, ten minutes...

After half an hour, it was still useless.

Nothing happened.

This time, Lu Ming's face was a bit ugly.

Will it just fail here?

In his hand, however, he controlled a large number of mystical runes, as well as the four-folded Divine Emperor, and the five-folded Divine Emperor's mystical runes. He originally thought that he could rush to Divine Emperor Realm in one fell swoop.

But reality, like a plate of cold water, poured directly on his head, let his fiery heart, chilled.

"try again!"

Lu Ming was still not reconciled. After waiting for a while, he still didn't respond. He took out more than ten secret runes, but still no response.

Although these mystical runes were integrated into the cell, he was under his control, but no pure energy emerged.

"what is the problem?"

Lu Ming was puzzled and very disappointed.

"I probably know what's going on?"

The voice of the bone demon sounded.

"Senior Bone Demon, do you know what is going on? What is going on? Are these mystic runes invalid?"

Lu Ming repeatedly asked several questions.

"It's not that the mystic rune is invalid. If I didn't guess wrong, it's your practice, and I encountered a bottleneck!"

Bone Magic Road.

"Having encountered a bottleneck? Will the runes of the mysterious spells fail?"

Lu Ming was surprised. Of course, he knew that he had encountered a bottleneck. His cultivation behavior had reached the peak of Divine Emperor Ninefold. The next step was Divine Emperor. This was a huge level.

"Divine Emperor to Divine Emperor, it is extremely difficult to break through. If you want to break through, it is impossible to rely on energy alone. If you can break through energy, that palace, and those powerful races, there will not be so many people stuck in the Divine Emperor. The Ninth Peak cannot be broken through."

Bone Magic Road.

Lu Ming nodded.

Indeed, in the Tiangong, the existence of Divine Emperor Jiuzhong grabbed a lot, not to mention anything else. Most of the arrogance of entering the ancient world this time is mostly the existence of Divine Emperor Jiuzhong, especially the core of those human races and Tiangong big figures Disciple, these people will lack treasures, treasures with pure energy?

Certainly not lacking!

But why didn't they break through?

"The Divine Emperor breaks through the Divine Emperor. It requires insight and opportunity. After understanding and having a chance, it will naturally break through!"

Bone Magic Road.

"Sentiment? What needs to be understood?"

Lu Ming said.

"It's hard to say, the higher the cultivation level, the less experience others can impart, because everyone's perception is completely different, especially when the Divine Emperor breaks through the Divine Lord, other people can't teach, they can only rely on For myself, it is better for Divine Emperor to break through Divine Emperor..."

"However, you are a taboo body. Cultivation and breakthroughs are more special, others have no experience to teach, and you can only rely on yourself!"

"I speculate that those mystic runes are not without pure energy, but all are hidden in your cells, because your cultivation ability has reached a bottleneck and cannot be broken through, and these energies cannot be exploded. In the future, the energy of these mystic runes will explode as soon as you break into the Divine Emperor Realm!"

Bone Magic Road.

Lu Ming was in deep contemplation. He felt that the bone demon said very well. It is like this. This is the case, otherwise it cannot be explained.

Although Lu Ming was unhappy with this result, there was no way out.

At least, the pure energy in these mystic runes will not be wasted, and will still emerge after he breaks through the Divine Emperor Realm.

At that time, his cultivation base will probably advance by leaps and bounds.

"Then I put all mysterious runes in my hands into the cell, should there be no problem?"

Lu Ming said.

"It should be no problem. After you break through to the Divine Emperor Realm, the cultivation is soaring. Even if the energy of the mystic runes bursts together, it will not support you!"

Bone Magic Road.

"Then continue to integrate!"

Lu Ming continued to take out the secret rune and began to blend in.

Anyway, the mysterious rune is integrated, and he has mastered this mystery. When confronting the enemy, the means he can use to shoot will be more and more diverse.

Moreover, the more secret runes that are integrated, the stronger the quality of the taboo.

Although his cultivation practice has not been improved, his combat power is constantly improving.

In this way, Lu Ming continuously integrated into the runes of secret art.

When all the mysterious runes of the ancient ancient secrets were integrated into the cells, there were more than five hundred ancient ancient secrets under his control.

Attack, speed, defense, auxiliary, scary energy, etc...

Various types, very complete.

As long as you want to use it, you can show it as soon as your mind moves.

This allowed Lu Ming's combat power to be greatly improved.

Although the energy of fighting across levels, the more levels you cross, the harder it will be to improve.

But there are so many mysterious runes that Lu Ming can't integrate into, and they are all mysterious runes of the ancient secrets.

After all the secret runes of the ancient secrets were integrated into the cell, Lu Ming took out the secret runes of ordinary secrets.

In his hand, there are more than three thousand common mystic runes.

Continue to integrate into the cell.

In the process of Lu Ming's integration into the mysterious runes, the Great Wu Temple was dispatched. The whole ancient secrets of the ancient Wu Temple were captured by the world. After the killing, all the secret runes obtained were sent to Lu Ming. come.

In this way, Lu Ming closed his mind and spent a full year in the Great Wu Temple.

For a year, the rest of the ancient Wu Temple was basically killed by the Great Wu Temple, and the mystical runes all fell into Lu Ming's hands, and Lu Ming was integrated into the cell.

This allowed Lu Ming to control more than 800 ancient archaic techniques.

This is an extremely scary number.

At this moment, the taboo power in Lu Ming's body has been greatly improved, so that Lu Ming's combat power has also skyrocketed.

Lu Ming estimates that in Divine Emperor Realm, he can fight at least across seven levels. This is the most conservative estimate. In fact, Lu Ming feels that there must be more than that.

Lu Ming is confident. Now if he plays against Ye Yu, he can easily suppress Ye Yu by his own strength, so that the other party has no resistance.

"I still have a lot of ordinary secrets in my hands that I haven't practiced, and there are new ancient secrets under my control. They are just the entry stage, there is no great success. I don't know what level of strength I can achieve after reaching the great success?"

Lu Ming thought.

Chapter 4172: Make trouble

Lu Ming now controls more than 8,000 common secret techniques, all of which have reached the stage of success.

The ancient mysteries under control are more than 800, most of which are in the introductory stage.

Even so, Lu Ming's combat power has also been greatly improved.

However, he still has a large number of common secret techniques that he has not practiced, nearly 20,000.

With the more and more secrets he controls in the future, to what extent can his combat power be improved?

Is this the power of the taboo body? As long as the more secrets are integrated, the stronger the combat power, can it be infinitely improved?

Lu Ming thought about it and thought it was impossible.

Infinite promotion is too exaggerated. There are limits to everything. Lu Ming estimates that there should be a limit to the forbidden body to improve its combat power.

Only now, he has not touched that limit.

"It's almost time to leave!"

Lu Ming got up and came out.

It has been more than a year and a half since entering the ancient world. He estimated that Ye Yu and others had already left, and he should have left.

Lu Ming went to say goodbye to the Lord of the Great Wu Temple and others, then stepped out and left the Great Wu Temple.

"Hoo, this guy, finally left!"

After sending away Lu Ming, the master of the Great Witch Temple exhaled a sigh of breath, feeling refreshed, refreshed, and relaxed.

As long as Lu Ming is in a day, he feels that a sword is suspended above his head, as if it will fall at any time.

Although the ancient witch temple is now destroyed, the ancient world is completely under the rule of the ancient witch temple, but as long as Lu Ming is in a day, he feels that it is not him but Lu Ming who rules the ancient world.

Although he has the Divine Emperor's five levels of cultivation, his strength is far above Lu Ming, but in front of Lu Ming, he is always trembling.

As long as Lu Ming was still there, he kept a big rock in his heart and couldn't breathe.

Now, Lu Ming is finally gone, he is finally relaxed.

Now, he is the real overlord of the ancient world.

...

After Lu Ming left the Great Wu Temple, he took out a jade card and entered a message.

After a moment, Lu Ming felt a powerful force enveloping him, and pulling him away, his figure disappeared from the original place. The next moment, Lu Ming appeared in a void.

Lu Ming's eyes swept and found a huge orb, a pattern formed by three thousand ancient secrets and countless common secrets, which glowed continuously.

Lu Ming knew that he had left the ancient world and returned to the Honghuang universe.

"Muyun, you finally can't hold back, dare to come out!"

At this moment, a cold voice sounded, and the voice was full of murderous opportunities.

When Lu Ming heard it, he knew it was Ye Yu's voice.

Lu Ming looked in the direction of the sound, frowning slightly.

There is a group of people over there.

This group of people entered the ancient world with Lu Ming.

Ye Yu, Yell and more than a dozen Tianren clan Tianjiao, as well as the core disciples of those big figures in Tiangong.

In addition, the thirty-nine first-class soldiers were also there.

Around these people, there are a few Tianren clan strongmen, really the strongmen who brought them here.

Lu Ming frowned, these people should have come out of the ancient world long ago, but did not leave, as if he was here deliberately waiting for him to come out.

Ye Yu, and other Tianren clan Tianjiao, are coldly watching the landing song.

"Don't you dare? I just delay sometimes, what are you doing here? Pick me up?"

Lu Ming said.

"Bold, by this time, you dare to speak to us in such a tone, and sin should be dead!"

On the edge of Ye Yu, Yell shouted, the sound of thunder exploded, plus his identity as a human race, it was quite majestic, if ordinary people would really be scared by him, but Lu Ming still looked blankly he.

"Muyun, now my Celestial Elders are here, are you guilty?"

Ye Yu said coldly.

"Convict? Why am I guilty?"

Lu Ming answered.

"What a guilt? Then I'll give you a count. You are arrogant and arrogant against my human race. This is a sin against you, can you admit it?"

Ye Yu shouted.

"Haha, what a crime is it? You insult me for no reason? Why do you suppress me for no reason? Why can't I refute?"

"I'm reasonable, so I can refute it. What's wrong with it?"

Lu Ming laughed.

"Strong words, second, you are bold and courageous, dare to take action against my human race, and even want to kill us, this is even more sinful!"

Ye Yu continued.

"Oh, what is the crime, say it together!"

Lu Ming said.

"Third, we found the opportunity inside, but you shot and robbed, and it was even more damn, do you confess?"

Ye Yu continued.

"Pleading guilty? It's ridiculous. The second thing you said is that you first deal with me, and you want to kill me first. Can't I resist?"

"If you want to kill me, my rebellion is guilty? Do you really treat our major races as slaves, do you want to kill them? In this way, how can all the people of the universe willingly serve you?"

"As for wanting to kill you, it is completely framed. If I really want to kill you, can you come out alive?"

"As for the third article, it's even more ridiculous. I remember very clearly that before entering the ancient world, the predecessors of the Celestial Clan said clearly that whoever gets the opportunity in the ancient world belongs to whom, that is to say, Inside, you can compete freely!"

"So, when I discovered the opportunity, I can naturally take the shot. If we are asked to go in and help you work, all the treasures will be handed over to you, you can say it in advance..."

Lu Ming responded coldly.

In every sentence, he pulls the various races of the universe to his side and strengthens himself.

Sure enough, those first-class soldiers looked a little ugly.

Indeed, as Lu Ming said, before entering the ancient world, the strong of the Celestial Clan explained that in the ancient world, who got the chance, who is, but did not let them go in to help the Celestial Clan to explore the way , Used as a tool by Nintendo?

In fact, people of the Celestial Clan will not say so, otherwise, they will chill the hearts of the various races in the universe.

"You... sophistry, do you think clever tongues are useful, today, you have to pay for what you do?"

Ye Yu shouted, and then turned and bowed to a few Celestial Clan strongmen: "Several seniors, this person of Muyun, is a big defiant, and must be executed!"

Several powerful Celestials frowned.

They let Lu Ming and others, with the purpose of Ye Yu they go in, as Lu Ming said, let Lu Ming they become the tools of Ye Yu and others, for the use of Ye Yu and others.

Before going in, although he said nicely, it was fair competition, and whoever got the chance was the one.

However, they are very clear about the strength of Ye Yu and others. These first-class soldiers of Lu Ming can't turn over the wind and waves in front of them, but can only be obediently reduced to the end of tools.

Unexpectedly, there was actually a Lu Ming.

Chapter 4173: I want to kill you, you can't live now

When a person such as Ye Yu and others couldn't control it, he let Ye Yu and others suffer a big loss.

However, they are naturally on Yeyu's side.

"Okay, I know everything!"

Among them, a burly celestial man speaks with great coercion.

This great man, whose cultivation is unpredictable, although not a divine lord, is probably already the pinnacle divine emperor.

His eyes, like two lightning bolts, swept to Lu Ming.

"Muyun, you are so brave, you have to understand your identity. You first hit them, and then you want to kill them, and you fight for the treasures inside. They are guilty of sins and punishment for three sins. Now, I will give you death !"

The indifferent voice of the Celestial Clan sounded.

Lu Ming's face was completely gloomy.

It seems that these strong Celestials are completely on Ye Yu's side.

"Hahaha, ridiculously, is this the Celestial Clan? Suppress me with unjustifiable crimes. I will not accept it. If it spreads, all the tribes of the universe will refuse to accept it.

Lu Ming shouted.

"At this time, I still want to provoke alienation, add sin to sin, I will send you on the road..."

The middle-aged Dahan Dao of the Tianren race stepped out in one step, and the earth-shattering breath pressed toward the landing.

Strong, too strong!

Although Lu Ming's combat power has skyrocketed recently, in the face of this person, he is like a ant facing a dragon, without the slightest resistance, he will be easily killed.

The gap is too big!

This person is definitely the pinnacle of the Divine Emperor, and such gaps cannot be surpassed even by the characters against the sky.

puff!

Under the pressure of this momentum, Lu Ming's body shook wildly, backing up again and again, a spit of blood spewed out.

On the side, those first-class soldiers dare not breathe even the atmosphere.

Although, their hearts are completely on Lu Ming's side, and they are not happy with the domineering nature of the human race.

However, the reality is so cruel, who makes the Tianren Clan powerful.

"Now, I will give you a chance to kneel and kowtow to admit the mistake, I can give you a happy one!"

The middle-aged Dahan Dao of the Tianren race.

He asked Lu Ming to kneel, one was to fight Lu Ming, and the other was to stand in front of other first-class soldiers, let these races be better, and let these people understand that they were ants in front of the Celestial Clan. Don't have a double heart, otherwise there will be only one dead end.

"Oh, kill if you want to kill, what's wrong with me?"

"In addition, I tell you that I was in the ancient world and got nearly two thousand ancient secrets. If you kill me, you will not get any of them..."

Lu Ming stubbornly stared at the middle-aged man of the Celestial Clan.

It is not so easy to kill him.

Lu Ming does not have no cards at all. Those ancient secrets he got are his cards.

"you..."

Sure enough, the middle-aged man of the Celestial Clan was in a good shape, and his momentum was weak.

The ancient secret technique is very precious.

It was the Tianjun above who indicated it.

The ancient mystery technique can not only enhance the foundation of Tiangong, but also help Tiangong cultivate masters.

In addition, it seems that Tianjun sometimes needs to draw on some ancient secrets to inspire cultivation.

Therefore, the ancient secret technique is still very important to the Tiangong.

Otherwise, the Tiangong will not spend so much thought, so long time, waiting for the ancient world to appear flaws, and send them in.

"Hand over all the ancient secrets you got..."

The middle-aged man of the Celestials said coldly.

"Oh, you are going to kill me. Why should I give you the ancient secret technique, do you think I am stupid?"

Lu Ming sneered, facing the Celestial Power, without fear.

"Senior, you see, this Muyun is almost lawless, and even you dare to threaten, what I said, it is true..."

Ye Yu shouted.

"Shut up, I said, I'm going to kill you. You've been dead long ago, and you're not guilty. Isn't it funny? Your defeat!"

Lu Ming looked at Ye Yu, full of mockery and disdain.

"you wanna die..."

Ye Yu was furious.

He lost to Lu Ming, and he was treated as a shame and shame.

However, although he lost to Lu Ming, he was only slightly defeated. The combat effectiveness of the two of them was not much worse, but they fell in Lu Ming's mouth. general.

Can't bear it, can't bear it!

Ye Yu rushed directly to Lu Ming, instantly raising his breath to the apex, full of combat power, and a white lightning appeared in the palm of his hand.

The power of punishment!

Ye Yu used the power of heaven punishment as soon as he shot, and all the power was turned into the power of heaven punishment.

If it was a year ago and faced this blow, Lu Ming would definitely be dignified and run all the power and secret techniques to resist.

But now, no need!

boom!

The warfare tactics triggered six times the combat power, and punched out.

The Void Shock, continuous explosion, is like condensing the energy of a sun into the size of a fist, and then explodes at once, the violent energy, crazy tilting out, colliding with the power of Ye Yu's heavenly punishment.

boom!

The whole world made a dull roar, and then a scream came out, and a figure, like a broken kite, flew towards the back and flew thousands of miles, spitting blood.

This figure is naturally Ye Yu.

Ye Yu flew thousands of miles, spitting blood at the mouth, and shouted inconceivably: "How is it possible? How is it possible?"

He is really difficult to accept.

The trick he just used has already exerted his full strength. According to the experience with Lu Ming last time, this trick can even hurt Lu Ming even if he can't be hit hard.

Last time, when he played against Lu Ming, Lu Ming was injured by this move, and many wounds were torn.

At that time, if he hadn't consumed too much power, he would not lose him, but Lu Ming.

But now, under his full blow, in front of Lu Ming, he could not withstand a blow. His power of punishment was defeated by Lu Ming, and he was also injured by the destruction.

how can that be?

How could Lu Ming have such a strong strength?

Lu Ming's cultivation practice is clearly still God Emperor Jiuzhong, how can he improve so much in just one year?

Did Lu Ming really keep his hand a year ago?

At this moment, Ye Yu himself was forced.

The other celestial beings, Tianjiao, the core disciples of Tiangong big figures, and the thirty-nine first-class soldiers, were completely ignorant.

They were all the people who saw Lu Ming and Ye Yu fighting firsthand. Last time, Lu Ming was completely victorious in the strength and lasting strength, the peak attack power, and obviously Ye Yu prevailed.

But just now, Ye Yu was not Lu Ming's opponent at all, not at a level.

What else can they do besides ignorant?

"I said, I really want to kill you. You can't live to the present. It turns out that the crimes you convicted of me before were all unpredictable and none existed!"

Lu Ming said coldly, looking at the Celestial Clan.

Chapter 4174: Tianjun appeared

Ye Yu said that Lu Ming wanted to kill them, but Lu Ming proved with facts that this was unprecedented.

Ye Yu, the strongest in the Celestial Clan, can't do anything in Lu Ming's hands. Lu Ming wants to kill them. Can they live? Can you yell here?

Since this one is completely unpredictable and fictitious, it is conceivable that most of the other two are also fake.

Lu Ming wanted to express this meaning.

"Humble and miscellaneous, you die..."

At this moment, Ye Yu was completely crazy, shouting hysterically.

When the public was defeated by Lu Ming, especially the elders of the Celestial Clan on the side, if this matter spreads, it will be a shame, and he will become a laughing stock in the Celestial Clan.

Will be attacked by his competitors, he is going crazy.

"Bold..."

At this moment, the middle-aged man of the Celestial Clan shouted loudly, and the cold breath burst out, covering Lu Ming, and said coldly: "Muyun, you just attacked the Celestial Clan's arrogance. This is a big injustice. This time I saw it with my own eyes. , You still want to quibble?"

What?

Lu Ming himself was a little dazed.

The other party just buckled his hat like this? Who did it first just now? Lu Ming just counterattacked.

Lu Ming couldn't help laughing, and said: "Ye Yu was the first to do it just now, and he will strike me with a killing blow. According to you, I can't fight back?"

"Careful, pay attention to your attitude to talk to me!"

The middle-aged man of the Tianren clan shouted loudly and continued: "I don't look at the reasons, I only look at the results. The result is that you act boldly and take action against Ye Yu."

"What is your identity? You are just a Heavenly Soldier, a human race, with a status and status that differs from Ye Yu by a thousand and eighty miles. You acted against him and you committed the following crime, which is death. Do you understand?"

Lu Ming was really smirked.

It's really shameless enough, are all such words said?

The other party's subtext is that no matter what the Terran Clan treats you, you can only be next to each other. Even if the other party wants to kill you, you have to wait for death. Once you fight against it, it is a big injustice. The next crime is death.

In this case, what else can be said?

"Whatever you like to do with you, anyway, all the ancient secrets are remembered in my mind, you have to deal with me, kill me, and follow you, I can't resist, but these ancient secrets, I Can only be taken away!"

Lu Ming said lightly, with arrogance and disdain clearly on his face.

This attitude directly ignited the anger of the Celestial Clan.

He directly exploded and shouted: "Fancy, Muyun, today, you'd better hand over the ancient secrets, I can give you a happy, otherwise, your end will be miserable!"

"And, I know your origin, you are from the Fengdu Sword School of the Tiehai Star Field Group. As long as I give an order, the Fengdu Sword School will disappear from the universe in an instant, not only the Fengdu Sword School, even if it is iron The Starfish domain group will not exist, do you understand?"

The threat, the threat of red fruit.

After using Lu Ming's own life as a threat, he again used Fengdu Sword School and Tiehai Star Field Group as a threat.

Today, Lu Ming recognizes the attitude of the Celestial Clan.

The Celestial Clan, in addition to its strong talents, is no different in character from ordinary dudes.

Despicable and shameless, all stained.

"Okay, you go, I don't care!"

Lu Ming spread his hands, an indifferent attitude.

Although even the Lei Fengdu sword faction was not his wish, Lu Ming understood that at this time, the more he cared about it, the easier it was for him to be pinched.

Indifferent to performance, the Fengdu Sword faction is safer.

"This kid..."

The middle-aged man of the Celestial Clan apparently did not expect that Lu Ming actually did not care about the safety of the Fengdu Sword School. This kind of "hearted" person is the most difficult to deal with.

The middle-aged man of the Celestial Clan is countless people who have lived for a long time, but at this time, he did not know how to start Lu Ming for a while.

In his eyes, Lu Ming was like a hedgehog, unable to start.

"All right!"

At this moment, a majestic voice came from the sky, and then the sky flashed, and a figure emerged out of thin air.

This is a Celestial Clan, looks very young, just like the twenties, with blonde hair and very handsome.

There was a faint smile on his face, but in this faint smile, he showed supreme majesty.

The middle-aged man of the Celestial Clan, as well as several other strong men, including Ye Yu, the young Celestial Clan Tianjiao, when he saw this man, his complexion changed immediately, with a respectful expression on his face. : "See Lord Tianjun!"

Upon hearing this remark, Lu Ming and other people were shocked.

Tianjun!

This seemingly twenty-year-old human race is actually a heavenly king.

Tiangong Tianjun, that cultivation base is at least the main realm of God.

This person is undoubtedly a terrible existence of a divine realm, looks young, and actually does not know how long he has lived.

"Wait to Heavenly King!"

The other first-class soldiers, as well as the core disciples of Tiangong, all respectfully saluted.

Lu Ming also clenched his fists and performed a salute.

Although he was very unhappy with the Celestial Clan, the other party was a character of God's main realm after all.

"Master Tianjun, why are you here? I'm teaching this man of the human race.

The Celestial Dahan came to Tianjun, with a respectful face, and then began to say that Lu Ming was not.

"enough!"

Tianjun said coldly, his voice a little unpleasant.

The voice of the middle-aged man of the Celestial Clan stopped abruptly, with a trace of panic on his face.

Obviously, Tianjun's displeasure was directed at him.

Thinking about it, his back was immediately wet with cold sweat.

Although his cultivation practice has reached the peak of Divine Emperor, it is only one step away from the Divine Realm.

But this step away is an insurmountable sky.

This sky is extremely difficult to break through.

In the Temple of Heaven, the existence of the peak of Divine Emperor is not rare, but the existence of Divine Main Realm is not much.

Divine Lord is the character who truly stands at the top of the vast universe.

Among the major races in the universe, only the top 100 races have gods in their seats.

Once a race is born, the status of the entire race will rise.

The gap between Divine Emperor and Divine Main Realm is too large, one finger can easily crush him.

Annoying a God Lord is a big deal.

If the **** master of other races is okay, but the other party is also a human race.

Moreover, even those who can become Heavenly Kings are top-level existences even in the Divine Lord.

"I have known the previous things. Remember, all the tribes of the universe are one with my Celestial Clan. They are not our slaves, nor our enemies. Our enemies are demons. They are rebellious. I understand. ?"

Tianjun said coldly.

This sentence obviously blames Ye Yu and Tianren's attitude towards Lu Ming before the middle-aged man.

"Yes, yes, yes, I got it wrong!"

Ye Yu, the middle-aged man of the Celestial Clan and others, nodded quickly.

Chapter 4175: Amazing harvest

Ye Yu, the middle-aged man of the Celestial Clan, and others nodded again and again, looking sincere and fearful.

But they are very strange in their hearts.

The attitude towards the various races is not inherited from these Tianjuns. Isn't this the usual style of the Tianren race?

In their eyes, the various races of the universe have always been dismissive.

Unless those who reach the main state of God, they will be glanced at by the Celestial Clan and treated with courtesy.

After all, when you reach the main state of God, even the Tiangong should pay attention to it.

However, Lu Ming is just a descendant of a human race.

"Could it be that Master Tianjun took a fancy to this kid's talent..."

Ye Yu, the middle-aged man of the Celestial Clan and other people moved in their hearts.

Especially for Ye Yu, his heart was even more determined, and Tian Jun took a fancy to Lu Ming's talent.

This made his anger stronger and full of deep jealousy.

He believes that Tian Jun must have seen Lu Ming's defeat just before he saw Lu Ming's talent.

Lu Ming stepped on him before he was fancy by Tianjun.

Unforgivable!

Ye Yu roared in his heart, but in front of Tianjun, he did not dare to show it, and held it in his heart.

"Muyun, you are fine!"

At this moment, Tianjun's eyes turned to Lu Ming, saying: "There are talents like you among all the races in the universe. In my long years, they are rare. Work hard and practice in the Temple of Heaven. Someone is embarrassing you!"

"Thank you Master Tianjun!"

Lu Ming clenched his thanks again.

"Well, the previous promises to you are still valid. In the ancient world, whoever you get is the one who belongs, and others can't take it away. You can use it and Tiangong for merit points!"

"You guys, understand?"

Speaking of the back, Tianjun's eyes lightly swept the middle-aged man of the Celestial Clan, as well as Ye Yu and others.

Although his eyes were dull, Ye Yu and others still felt cold and nodded.

Buzz!

The Void shuddered gently, and the Tianjun disappeared directly from the place and left here.

"This Tianjun, a little familiar..."

Lu Ming looked at the direction of Tianjun's departure, revealing the color of thought.

He felt that the profile of the heavenly king was somewhat familiar, and he thought of the existence of the six divine realms that fought against the demon master in the dark universe.

Among them, there are three Tianjun.

Although at that time, the three Tianjun were all shrouded in radiant light and could not see the specific appearance, but Lu Ming felt that one of the Tianjun's outlines resembled the Tianjun just now.

Perhaps it was one of them.

In the original battle with the demon Tianjiao, Lu Ming turned the tide and made great achievements. Perhaps the Tianjun had a good impression of him, and he also showed a strong talent, so he came to rescue him.

"You guys, please do it!"

Lu Ming looked at Ye Yu, the middle-aged Dahan of the Celestial Clan and others, and said lightly.

"Huh, boy, you are lucky this time!"

The middle-aged man of the Celestial Clan was sullen and sneered.

He was extremely upset, and Lu Ming's killing power was so strong that he wished to slapp Lu Ming with a slap.

However, Tian Jun had already spoken just now, and even if he borrowed ten more guts, he would not dare to start with Lu Ming.

Even if you want to start with Lu Ming, it will take some time.

As long as it is in the Temple of Heaven, there are opportunities.

The middle-aged man of heaven and human race sneered.

"Yes, this time you are lucky, but you can't have this luck every time, let's wait and see!"

Ye Yu snorted, then turned around and left.

Other Tianren races and the core disciples of Tiangong also followed Ye Yu and disappeared here in an instant.

The other first-class soldiers also turned away, and they kept a distance from Lu Ming, pulling away from each other.

This time, although Lu Ming saved his life because of the relationship between Heavenly King, but he completely offended Ye Yu and the strong people of the Heavenly Human Race, he must have been hated by the other party.

If you walk too close to Lu Ming, most of you will be remembered by the opponent, and the end will definitely be better.

Lu Ming's face was calm and he stepped away.

Soon after, Lu Ming returned to his place of residence.

"This time, I offended the people like Ye Yu. With their hearts and minds, I would not be willing to give up. I will stay away from Dan Dan and Ling Yuwei in the future, so as not to involve them..."

Lu Ming was thinking, planning ahead.

He will leave Tiangong sooner or later. If he walks too close to Dandan and Ling Yuwei, he will leave Tiangong in the future, which may cause them trouble.

However, when he came back, he did not see Dan Dan and Ling Yuwei. They thought that they were either retreating or practicing.

Lu Ming entered the room, sat cross-legged, and began to count the harvest this time.

This time the main harvest is the ancient ancient stone, this is the biggest harvest.

In addition, there are more than 1,700 kinds of ancient ancient secrets.

This is also an amazing gain.

Among them, there are more than 800 kinds, in the form of mysterious runes, Lu Ming has been integrated into the cell and has mastered it.

The rest are exchanged with the Great Witch Temple, and they are all recorded in Lu Ming's mind, and they need to slowly understand the practice later.

"This time, there are more than 1,700 kinds of ancient secrets in total, but it is impossible to exchange all merit points with Tiangong. There are about 1,000 kinds of redeemable points..."

Lu Ming thought back to the ancient secrets that Tiangong already had.

The names of thousands of ancient secrets already in Tiangong have long been remembered by Lu Ming.

It's just a thousand kinds, and with Lu Ming's current memory, glance at it and remember.

Next, Lu Ming will make a copy of the ancient secrets he has obtained and take them to the Tiangong for the merit points.

You don't have to copy it if you already have it in the Temple.

Lu Ming waved his hand and a pile of jade symbols appeared.

These jade symbols are empty and can be used to record ancient ancient secrets.

Close your eyes and think about it, then Lu Ming picked up a jade rune, reached out a bit, and a ray of light enveloped the jade rune. Soon afterwards, one of the ancient ancient secret techniques was recorded in this jade rune.

Putting away this jade rune, Lu Ming took out the second jade rune and continued to record.

In this way, a few days later, Lu Ming recorded thousands of ancient mysteries that were not available in the Tiangong Temple.

"You're done. How many merit points can you exchange for thousands of ancient secrets?"

Lu Ming showed his expectation.

The ancient secret technique, the cheapest one, can be exchanged for 100,000 merit points.

There are thousands of merit points that can be exchanged for at least hundreds of millions.

This is calculated according to the minimum standards, in fact, certainly more than that.

"Hundreds of millions of merit points, how many treasures can be exchanged? This time, there must be a good search. In addition, so many merit points are enough for me to be promoted to the rank of God, and I can go to the fourth floor of the chemical tower to practice..."

Thinking of these, Lu Ming got hot in his heart.

Immediately began to act, the front merit exchange hall, intends to convert these ancient ancient magic, first to the mysterious rune.

Chapter 4176: Another trouble

"Little friend, do you have any help?"

An old man of Celestial family, looking at Landing Ming with a smile.

"Senior, I have a group of ancient secrets in my hand, and I need to exchange them for success points!"

Lu Ming said.

"The ancient secrets, it seems that you are one of the people who entered the ancient world this time?"

The Old Man of Heaven.

"Senior guess is good!"

Lu Ming nodded.

"Well, has your great ancient secret technique been copied? Copy it and give it to me. I will check it. You should know that there is already something in the Tiangong, which cannot be exchanged for you."

The Old Man of Heaven.

"Younger people know!"

Lu Ming nodded, and then waved his hand, a bunch of jade symbols flew out, thousands of pieces.

"so much?"

The eyes of the Celestial Elder and the Elder suddenly rolled round, and they were deeply shocked.

"These... these are all ancient secrets?"

The Celestial Clan asked, his voice trembling a little.

"Yes, there are one thousand and three great ancient secrets here, which are not in the Temple. Please check with your seniors..."

Lu Ming said.

wire...

Celestial elders took a breath.

One thousand and three great ancient mysteries, one thousand and three great ancient mysteries.

The point is that these thousand and three great ancient secret techniques are not available in Tiangong.

How many ancient secrets did Lu Ming get?

This kid is amazing!

The old man of the Tianren tribe carefully looked at Lu Ming. He understood that the humanoid kid in front of him was probably a rare peerless arrogance.

"Okay, I'll exchange it for you...but every great ancient secret has a different value. I need to pass the news up to measure the specific price..."

The Old Man of Heaven.

"Senior please please!"

Lu Ming smiled.

"Wait!"

At this moment, a cold voice sounded, and then a group of people came in.

"Ye Yu..."

Lu Ming frowned.

Actually this guy again, this guy appears, there is no good thing.

"Ye Yu!"

After seeing Ye Yu, the Celestial Old Man smiled.

This made Lu Ming's bad hunch deeper, and the old man of Tianren and Ye Yu actually knew each other.

"Uncle Chuan!"

Ye Yu nodded.

"Ye Yu, what are you doing here?"

Asked the old man of heaven.

"I also came to redeem the Grand Ancient Mystery, this is my Grand Ancient Mystery, you, also take out the Grand Ancient Mystery that needs to be exchanged!"

Ye Yu waved his hand, and a batch of jade symbols appeared.

The same is true of other Tianren races, and some jade charms were produced.

Obviously, among these jade symbols, great ancient secrets are recorded.

Lu Ming frowned, and said to the old man of the Celestial Clan: "Senior, I came first, so I should exchange it first!"

"Whatever you come first, you need to exchange it first? Where is this rule, in my Celestial Clan, there is no such rule, Uncle Chuan, you say yes!"

Ye Yudao.

"Yes, Ye Yu, take out your ancient secrets, I'll exchange them for you first."

The old man of Heavenly Man smiled and left Lu Ming aside.

Lu Ming's face was gloomy.

But the other party must first exchange for Ye Yu and others, and he has nothing to say.

The Celestial elders began to check the ancient secrets of Ye Yu and others. After the inspection, they reported it. After a while, everything was ready and they began to give them merits.

After three hours, Ye Yu and other talents were exchanged.

"Senior, is it my turn now?"

Lu Ming said.

"Uncle Chuan, the origin of this person's ancient secrets is unknown, I think, don't exchange it for him!"

Ye Yu's eyes turned coldly.

"This one..."

Celestials hesitated.

"Do not exchange? Well, these great ancient secrets, but Tianjun asked for it, not to exchange, then I can only keep it. Tianjun asked, I can only say that you do not need these great ancient secrets. .."

Lu Ming sneered, said something, and turned away.

The ancient mystery technique needs to be exchanged by the Tiangong. He will not exchange it if he does not exchange it, and he will have a few merits. The initiative is in his hands.

Will he be afraid?

Sure enough, the old face of the Celestial Clan changed his face, and quickly yelled: "Little friends, please be slow, the old man did not say no exchange!"

There are so many ancient secrets in Lu Ming's hands. If he doesn't exchange them, Tianjun asks for the crime, he can't afford it.

Lu Ming turned around, revealing a mocking smile.

"hateful..."

Ye Yu roared inwardly.

However, he did not dare to call Lu Ming to exchange, he did not have this qualification, nor this right.

"Senior, check it out!"

Lu Ming took out the 103 jade symbols again.

The Tianren elders checked it a bit and said, "There are only 603 great ancient secrets that can be exchanged!"

"There are only three hundred and three? What's going on? I clearly remember that there are none of these three thousand in the Tiangong!"

Lu Ming changed his face.

"It was not there before, but now it is..."

The old man of the Celestials said lightly.

Lu Ming thought, he understood.

Just now, Ye Yu and others redeemed it one step in advance, and these other people added up and took out 400 kinds of ancient secrets that Tiangong did not have.

In this way, there are more than 400 kinds of ancient secrets in Tiangong. Naturally, there are fewer ancient secrets that need to be exchanged.

"hateful!"

Lu Ming roared in his heart, obviously he came first, if he exchanged first, there would be no such thing.

However, the old man of the Tianren tribe helped Ye Yu and others, which caused him to lose a lot of merits.

How many merit points can be exchanged for 400 kinds of ancient mysteries?

Lu Ming's heart was bleeding.

On the edge, Ye Yu and others sneered.

In fact, they can exchange money even more, but they deliberately wait here, and when Lu Ming comes to exchange, he deliberately cuts out.

It is to deliberately suppress Lu Ming and suppress Lu Ming.

"Xiaoyou, I have not violated the rules of the Tiangong Palace or the intention of violating the Tianjun. The ancient secrets in the Tiangong Palace are not exchangeable. Tianjun said long ago, Xiaoyou, do you still want to exchange them? ?"

Celestial elders laughed.

Now, he is not afraid that Lu Ming will not exchange.

Anyway, he didn't violate the rules. If Lu Ming didn't exchange it himself, it was Lu Ming's responsibility, not him.

He didn't embarrass Lu Ming, he just acted according to the rules.

At that time, Tian Jun was not looking for him, but Lu Ming.

This is not a conspiracy, but a conspiracy!

Lu Ming is also aware of this. If he does not exchange, it will be him who loses.

"Exchange, but every great ancient secret has a corresponding price. If the price is less than mine, I will find Tianjun to judge..."

Lu Ming said.

No way, Tiangong is the Tiangong of the Tianren race. In Tiangong, he is always at a disadvantage. There are some advantages to being able to fish.

"Relax, you won't be lacking, there are 603 great ancient secrets!"

The Celestial Clan said, and then recorded the names of 603 great ancient secrets, reported them, and the price was set by the people above.

At this point, he could not move.

Chapter 4177: 130 million merit points

Lu Ming waited for many hours for a long time, and finally, the prices of various ancient secrets were fixed, and the merit points were sent out.

"There are prices for various ancient secrets. You are right. If yes, they will be exchanged officially!"

Celestial elders handed a piece of jade to Lu Ming, and Lu Ming took a swipe of spiritual knowledge, which contained a piece of information about the price of various ancient ancient secrets.

Lu Ming looked at it carefully, then nodded and returned the jade symbol to the other party.

The price given here is relatively fair. The lowest price is 100,000 supply and demand points, and the highest price is one million merit points. This is similar to the price they exchanged in the Tiangong.

Lu Ming said that there is no problem.

"Give me your identity token!"

The Old Man of Heaven.

Lu Ming gave the identity token to the other party, and the other party placed the identity token on an array.

Buzz!

The shock of the market exudes a dazzling brilliance, and the brilliance continually injects into the identity jade card.

Involving such a large number of merit points, the old man of the Celestial Clan naturally has no power to award it. This is through the array, and the merit points are awarded by the top of the Tiangong from a distance.

After a while, the array light door dimmed.

"Okay, check it out!"

The Celestial Clan elders handed Lu Na the position.

Lu Ming took it, swept through her consciousness, and immediately saw Lu Ming's merit points.

More than 130 million merit points.

More than 130 million!

Even with preparations in mind, when Lu Ming saw so many merit points in his hand, his heart was still beating fiercely.

Three hundred and six great ancient secrets, most of the prices, are one hundred thousand merit points.

But some of them are extremely expensive, reaching one million.

Of course there are very few such secrets.

Putting it all together, about two hundred thousand meritorious deeds are kind.

At the same time, Lu Ming was heartbroken again for the 400 ancient mysteries. Without Ye Yu and others, he would gain more than 80 million merit points.

But even so, Lu Ming was satisfied.

With more than 130 million merit points, how many treasures can be exchanged for?

Lu Ming had meditation on a treasure in his heart.

"Humph!"

On the edge, Ye Yu snorted and took the man away.

Although Lu Ming made less of some merit points, he knew that Lu Ming's remaining ancient secrets were still exchanged for an amazing merit point.

This made him very unhappy and left with a cold face.

Lu Ming handed over all the ancient secrets to the elders of the Celestial Clan, and left step by step.

After leaving, Lu Ming went directly to the military office.

He intends to be promoted to a **** first, then go to the merit exchange hall, exchange a batch of treasures, and then go to the pagoda for cultivation.

Only by being promoted to the general will you be able to enter the fourth level of cultivation tower for cultivation.

Soon, Lu Ming came to the Military Department.

"What? Are you going to be promoted to God?"

A celestial official in charge of the promotion ceremony opened his mouth in shock and stared at Landing Ming with wide eyes.

What he saw was that Lu Mingcai was only the Emperor Jiuzhong. Although he reached this age, he was already an amazing person.

However, the promotion of Divine Emperor Jiuzhong to the Divine Admiral is even more amazing. There are few cases in history.

"Not bad!"

Lu Ming Zheng focused on the head.

The other party looked at Lu Ming carefully again, and suddenly his eyes flashed, said: "Are you called Muyun?"

"Yes, I am Muyun, do you know me?"

Lu Ming showed a surprised look.

Is he so famous in Tiangong now? Even a military officer in the Military Service knew him?

"That's right, since you are Muyun, please come back!"

Heavenly official said.

"Please come back? What do you mean?"

Lu Ming frowned and asked.

"The meaning is very simple. Your time to join Tiangong is too short, and your qualifications are not enough. In addition, your cultivation level is too low to be a **** emperor. You are not qualified to be promoted to a **** general. Come again!"

Tianguan coldly explained.

Lu Ming's complexion dimmed.

"Master Tianguan, if I remember well, Tiangong stipulates that as long as the accumulated merit points reach 10 million, you can be promoted to a general, are there other requirements?"

Lu Ming said.

"The position of the **** is not a trivial matter. It is to defend one side and never make mistakes. Although there are regulations, as long as the accumulated merit points reach 10 million, you can be promoted, but you can also look at the specific situation if it is not suitable. You are also not allowed to be promoted. If you have any questions, you can ask."

"Okay, I still have things. Don't hinder my office work."

Tianguan waved coldly.

Lu Ming sullenly turned away.

He knew that most of what the other party said was facts. Most of them would have some stricter requirements for promotion, otherwise the other party would not dare to violate the rules of the sky.

However, he has never heard of this special request, and wouldn't use it if he wanted to come.

At this time, Lu Ming didn't believe it was such a coincidence.

"Most of them are the ghosts of Ye Yu..."

Lu Ming sneered.

He knew that the people in Ye Yu must have been ghosts in the back, and he was deliberately not allowed to be promoted to god.

There is a few losses for not being promoted to a general.

First, it is not possible to receive Warlord's Warframe.

God's armor, that's a stronger armor than the first armor.

Second, it is impossible to enter the fourth floor of the chemical tower for cultivation.

"It's a big deal, the third level, you can still practice, but it takes more time!"

Lu Ming whispered and left the Military Department.

When Lu Ming left the military office, a figure turned out, it was Ye Yu.

"Huh, Muyun, it's just the beginning now, you wait, sooner or later I want you to kneel in front of me to beg for mercy..."

A haunted smile appeared on Ye Yu's face.

...

After Lu Ming left the Military Department, he went straight to the Merit Exchange Hall.

It's time to convert a large number of merit points into various treasures.

Soon, Lu Ming came to the merit exchange hall.

"First exchange for a batch of broken magic soldiers for the ball!"

Lu Ming first thought of the ball.

Entering the light ball that collects the Broken Divine Soldiers, a massive amount of Broken Divine Soldiers is placed in front of Lu Ming's eyes.

"This broken divine soldier, worth 1,000 merit points, is too low-level, don't!"

"The price of this dialogue is five thousand, too low-level, don't..."

Lu Ming glanced at it, if the exchange price was lower than 100,000 merit points, he wouldn't want to.

Today, Lu Mingcai is so arrogant that he is so cheap that he has lost sight of it.

The higher the exchange price of the Broken Divine Soldier, the more advanced and precious it is when it is intact.

The more precious treasures, the full potential of the ball can be fully realized.

"This half-sword is worth 200,000 merit points. It's not bad. I changed it!"

With an identity token, Lu Ming paid 200,000 merit points and exchanged a blood-red half sword.

"Boom, boom, I want to eat!"

The ball immediately let go of both eyes and stared at the half sword.

Chapter 4178: Start to exchange treasures

"Eat it!"

Lu Ming smiled and threw the half-blooded red sword into the ball. He was swallowed directly into the mouth, revealing a look of enjoyment.

Lu Ming continued to search.

Next, when Lu Ming saw more than one hundred thousand broken divine soldiers, they all exchanged.

Soon, two million merit points were spent.

"It's still too low-level, are there any broken magic soldiers worth more than one million?"

Lu Ming thought about it.

What he likes is the broken magic soldier of the same level as the last half-length lance, that kind of talent can play a powerful role.

After the ball was swallowed last time, Cultivation was soaring, and it has reached the peak of Divine Emperor Ninefold, and it has only been partially refined.

However, there are too many such divine warriors, floating in the sky, like the stars of the universe.

It's not so easy to find.

Lu Mingling radiated out, and began to concentrate on searching for the high-level broken magic soldiers, the general broken magic soldiers, Lu Ming lazy to get out.

The ones previously exchanged are almost enough.

after an hour.

Lu Ming's eyes lit up, and finally he found a broken divine soldier worth one million merit points.

No, this piece can no longer be called a broken magic soldier, just a piece of scrap-sized scrap iron.

Yes, it looks like a slap-sized, dark black iron block, and there is no weapon at all.

Lu Ming was surprised.

It's just a piece of iron. I can't see what weapon is on it. I actually need one million merit points.

This is definitely not trivial.

"I want to eat, I want to eat..."

After seeing this piece of iron, Qiuqi also seemed a little anxious, with deep desire in his eyes.

"exchange!"

Lu Ming did not hesitate and exchanged directly.

After a while, the iron nuggets were in hand.

"What a heavy iron!"

Lu Ming grabbed this piece of iron in his hand, and found that this piece of iron was actually very heavy. Holding it in his hand was like holding a star.

Lu Ming needs to work hard to support it.

It's just a broken piece of iron. I don't know what weapon I jumped from. It is so heavy that it is many times heavier than the gravity ball in his hand.

Not a trivial matter!

This is definitely not trivial!

"I want to eat, I want to eat..."

The ball cried out impatiently.

"Here, be careful, this is heavy!"

Lu Ming said, after that, he threw the ball and was swallowed into the air.

To Lu Ming's surprise, such a heavy piece of iron was swallowed into the mouth by a balloon, but he had nothing.

Lu Ming understands that as long as it is a metal type treasure, once he scores the ball, it is his food, let him refine it.

"Keep searching!"

Lu Ming hasn't given up yet and continues to search.

A few hours later, Lu Ming found two broken divine soldiers whose exchange price was 1 million merit points.

These two broken soldiers can easily distinguish what weapon they are.

One is a half-length sword, and the other is half a glove.

These two are also very different, otherwise, after damage, they don't need one million merit points, which is similar to the half of the long gun that Lu Ming exchanged last time.

Lu Ming exchanged them all and gave them to the ball.

What Lu Ming didn't expect was that after the ball ate these two pieces of broken soldiers, it immediately exuded a mysterious and powerful wave.

"This is... a prelude to evolution?"

Lu Ming couldn't help widening his eyes.

"Yes, this is to evolve, to break through the prelude of Divine Emperor Realm..."

Bone Demon's voice sounded in time.

"I'm going to evolve so soon? Those broken Divine Balls have just been eaten, and they haven't been refined yet, will they evolve?"

Lu Ming was very surprised.

"So I said that to break through the Divine Emperor Realm, you need a chance. The ball had eaten the half-length lance before, and it was not completely refined. There are still many left. Over the years, the broken lance has been greatly refined. In part, the accumulated energy is actually long enough to impact the Divine Emperor Realm, but it is stuck by the bottleneck!"

"This time, he has devoured many high-level magic soldiers in a row. When they are complete, they are controlled by a variety of powerful existences. They contain different vitality. Now the ball swallows a variety of gods. Bing, a collision of multiple air planes, it is estimated that he has found a breakthrough opportunity!"

Bone Magic explained.

Bone Demon lived for a long time without knowing how long it has gone through. His eyes are extremely venomous, and he can easily understand the truth behind it.

Lu Ming nodded, it seems that most of the time.

Unexpectedly, this time, these broken magic soldiers were exchanged, and the ball directly saw the opportunity to break through, which made Lu Ming very happy.

Five million merit points were spent before, totally worth it.

Once breaking through the Divine Emperor Realm, the strength of the ball will skyrocket, which can become a big help for him.

"Go back first!"

Lu Ming whispered, then left the merit point exchange hall, returned to his place of residence, placed the ball in the room, and placed a layer of formation around the room.

It is not a particularly deep formation, but only covers the fluctuations that occur when the ball breaks through.

After placing the ball, Lu Ming went to the Merit Exchange Hall again.

"There should be more than two hundred ancient secrets in the Tiangong that I don't have. Should I exchange them?"

Lu Ming thought.

Tiangong originally had thousands of great ancient secrets, and this time Lu Ming got more than 1,700 great ancient secrets in the ancient world.

However, this kind of more than one thousand seven hundred does not completely coincide with more than one thousand kinds of Tiangong. In fact, there are two hundred or dozens of great ancient secrets, which do not overlap, and Lu Ming does not.

Lu Ming is considering whether to exchange it.

But after thinking about it, Lu Ming still planned not to exchange it first.

There are enough ancient secrets in his hand.

Although some of them were directly integrated into the cells with mystic runes, they only reached the introductory stage, and want to practice all to a great success. I don't know how long it will take.

There is still a large part, not even getting started, and have not started to understand.

These desires are all cultivated to great success, I don't know how long it will take.

Moreover, he still has a lot of common secrets in his hands that he hasn't practiced yet.

Before digesting and eating, Lu Ming is afraid of indigestion.

Therefore, Lu Ming intends to first cultivate all these on hand to Dacheng, and it is not too late to exchange.

Mystery is not exchanged first, so what is it?

Lu Ming thought carefully.

After a while, Lu Ming had an idea.

First of all, of course, it is a magical pill that helps to cultivate, and there are some natural materials and treasures that are similar to the elf wood heart and contain pure energy.

These are the fundamentals of Lu Ming's cultivation. Naturally, the more the better.

Lu Ming spent a total of 20 million merit points, exchanged a large number of Tiancaidibao and Shendan.

In this way, Lu Ming has about 100 million remaining merit points.

"The merit points can't be left in the hand, only to be transformed into treasures, is the last word. Let me see, primitive gods have blood, bones..."

"There are also treasures for practicing the original divine power factor and the original secret..."

Chapter 4179: Still can't break through

The Palace of Merit Exchange in Tiangong is really everything. You can see all the treasures, as long as you have merit points.

For example, the blood of primitive gods, the bones of primitive gods, etc. are valuable and precious treasures outside the market. There are also temples in Tiangong, and the number is amazing.

Lu Ming is the present body, a taboo body, he can't use these treasures.

However, it used to be used in the past.

In the past, I majored in "The Thousand and Thousand Ways", can practice countless kinds of divine power, specialize in the original divine power factor and the original secret technique, and cultivate the original divine body, then these treasures are of great use to Lu Ming's past body.

In addition to her past body, Lu Ming also has family, disciples, and friends.

These, they are also used.

However, the treasures of the original gods are surprisingly expensive.

The primitive gods have blood, and one drop will cost ten thousand merits.

Lu Ming finally redeemed 3,000 drops and spent 30 million merit points.

In addition, Lu Ming also took a fancy to the skull of a primitive god.

This price is higher, and a piece of skull is worth 10 million merit points.

The value is amazing, but the efficacy is also amazing.

Anyone who cultivates the source divine power factor and the source mystery, around this skull, the effect will be increased by thousands of times.

During the Taixu pilgrimage, everyone practiced with primitive idols.

But the original idol is a few times worse than the skull of this original god.

This skull, exudes the spirituality of primitive gods, such as crystal beautiful jade, very mysterious.

Lu Ming did not hesitate to exchange.

Such treasures will be brought back to the Taixu pilgrimage in the future and used by his family, disciples, and friends.

Even if the "past body" practiced under this skull, the effect would be amazing.

This is the skull of a true primitive god.

In exchange for these, another 40 million merit points were removed.

"By the way, there is also the Shenyuan Flower, which is awakened seven or eight times to the original source divine power factor. It is effective, redeem!"

"There are also divine source beads, magic source fruits, and Shengyuan grass..."

In Lu Ming's mind, the names of all kinds of heaven and earth are constantly emerging.

These magical medicine treasures are of great use for practicing the original divine power factor or the original secret technique.

From treasures that can help to awaken the original divine power factor, to treasures that can help to awaken once or twice, then to three or four times, to the treasures that are seven or eight times later, all are exchanged.

There are also treasures that can help cut off the shackles of the original secret technique, and are also exchanged.

This exchange cost another ten million, nearly 20 million merit points.

"There are also seals in the field of forbidden soldiers, and you can exchange a few pieces, and there are other treasures..."

Lu Ming went on to exchange some other kinds of treasures and lost millions of merit points.

In this way, Lu Ming has about 40 million merit points left.

"It's too quick for this merit!"

Lu Ming sighed.

At the beginning, there were more than 130 million merit points, which seemed to be many, but it really took very fast, and it didn't feel like spending enough.

Lu Ming discovered that even if there were more merit points, once he entered the merit exchange hall, there would be a feeling of not enough flowers.

Because there are too many merits in exchange for the treasures in the temple.

The prices of some treasures are astonishingly high, and Lu Ming even saw treasures worth 10 billion yuan.

That's right, it's a treasure worth 10 billion worth of merit.

This kind of treasure, Lu Ming can only look at it without thinking.

However, despite spending so many merits, Lu Ming was quite satisfied.

After all, a lot of treasures have been exchanged and can be used for a long time.

This trip to the ancient world was unimaginably high.

"There are still 40 million merit points. You can practice on the third floor of the chemical tower for more than two hundred years. Now, it is time to go to ascension. I hope that during this time, no mission will be sent to me..."

Collecting the exchanged treasures, Lu Ming left with satisfaction.

Leaving the Merit Exchange Hall, went straight to the chemical tower, and then entered the third floor of the chemical tower.

This time, Lu Ming did not go directly to the place where the original gods sounded to learn the secret technique, but came to the lake full of blood of the original gods.

Lu Ming intends to try it here to see if he can use the blood of primitive gods to break through the realm.

Lu Ming stepped into the blood lake of primitive gods, and the whole person did not enter Hubo, and then began to practice.

Time passes quickly, day by day...

In a blink of an eye, Lu Ming was in a lake with blood of primitive deities for three years.

In the past three years, Lu Ming's cultivation practice has not changed at all, and still stays at the peak of Shenhuang Jiuzhong, without breakthrough.

"It seems that it is very difficult to break through retreat alone!"

Lu Ming pondered.

After three years of cultivation, the cultivation behavior has not changed a bit, and has been completely blocked by a bottleneck.

Lu Ming walked out of Hu Bo and was not practicing.

As Bone Demon said, to break through, you need a chance. Now, the time is not right.

Lu Ming left the primordial god's **** Hu Bo and went to the place of the primordial **** sound.

Since cultivation cannot be broken through, let go and practice various secret techniques first.

Anyway, Lu Ming has a lot of secrets in his hands that he needs to practice.

Soon, Lu Ming came to the place of the original **** sound, sat cross-legged, and his mind fell into ethereal realm.

"Enlighten the great aurora technique first!"

Lu Ming thought.

Great aurora, which can rank in the top 100 among the three thousand ancient secrets, has attack and speed, and is very mysterious. Lu Ming likes it very much and decides to practice first.

A great aurora practice method emerged in my mind, and he began to realize.

However, just when Lu Ming was enlightened by the Great Aurora, the ancient ancient stone in his mind exuded slight fluctuations. Then, Lu Ming actually felt that his speed of enlightenment to the Great Ancient Mystery suddenly increased.

And the increase is not a little, but a lot.

"The ancient ancient stone is so mysterious that it can not only enlighten various ancient ancient secrets from inside, but also accelerate the understanding of ancient ancient secrets?"

Lu Ming showed ecstasy.

Originally, practicing here, with the help of primitive Divine Sound, the speed of enlightenment on the ancient ancient secrets has been very fast, and now with the help of the ancient ancient stone, the speed of enlightenment is further improved.

Originally, with so many great ancient secrets, if you want to practice to great success, I don't know how much time it will take, and Lu Ming has no idea.

But now, the speed of this practice is definitely much faster than before.

Perhaps, he has been practicing here for hundreds of years, and the ancient secrets in his hands can be practiced?

"Go ahead, hurry up..."

Lu Ming closed his eyes and continued to understand.

In the process of his enlightenment, the ancient ancient stone constantly produces mysterious fluctuations, increasing his speed of enlightenment.

In this state, Lu Ming's understanding of the great aurora technique is advancing by leaps and bounds, a thousand miles a day.

Chapter 4180: Conditions of Divine Emperor Realm Cross-Level War

After a period of time, the Great Aurora rushed to the state of great success at a rapid speed.

Under the double blessings of the original **** sound and the ancient ancient stone, the speed is extremely amazing. This is less than a year, and it has reached the Dacheng. This is still the top one hundred secrets among the three thousand ancient secrets. I don't know how much time to save than practicing step by step outside.

After practicing Great Aurora, Lu Ming continued to practice the next secret technique, the Great Destruction.

It takes about the same time as the Great Aurora, the Great Destruction is also practiced to Dacheng, and then continue to practice the next great ancient secret...

In this way, Lu Ming devotes himself wholeheartedly to the practice of ancient secrets. Of course, after a while, he will observe some dream gods to see if Tiangong has a mission to him.

Fortunately, during this time, Tiangong had no task to him, so that he could practice with peace of mind.

Year after year...

In a blink of an eye, Lu Ming practiced here for two hundred years.

In two hundred years, Lu Ming's mind is all in the understanding of secret techniques, the progress is very amazing.

Most of the ancient mysteries he obtained from the ancient world have been cultivated by him to a great extent, including those that were not enlightened at the beginning.

General archaeology, the difficulty of practice is a bit lower than that of the great aurora and the destruction, so Lu Ming can cultivate more than 1,700 kinds of ancient mysteries to a great success in just two hundred years. .

When his thoughts moved, there were 1,700 cells shining in all parts of his body, just like more than 1,700 stars embedded in his body, dazzling.

These seven hundred and seven hundred cells are all cells that incorporate an ancient mysterious rune.

boom!

Lu Ming's body shook slightly, feeling that the body was full of infinite power.

Strong, too strong!

Lu Ming feels that although his cultivation base is still at the peak of Divine Emperor Jiuzhong, his combat power is much stronger than it was two hundred years ago.

"I'm in Divine Emperor Realm, how many levels can I fight across?"

Lu Ming is very curious.

No specific battle, he did not know.

But it must be far more than crossing a few levels, and also exceeding eight levels, but the specific amount of it will require a specific battle to know.

Although the ancient archeology is only more than 1,700, the ancient archeology is much stronger than the ordinary arcane.

More than 1,700 great ancient mysteries have been transformed into mysterious runes and melted into the cells. As long as Lu Ming's thoughts are moved, these great ancient secrets can be merged with the power of taboo, and his taboo power has changed qualitatively. Become infinitely powerful, indestructible, and indestructible.

At the same time, the power of taboo covers the body, and the defense power is also amazing.

"My remaining merit points can only support me for more than ten years of cultivation here, or should I keep it first, maybe it can be used elsewhere?"

Lu Mingsi, intends to end this retreat and leave here.

"Go to the virtual demon valley and test my combat power!"

Lu Ming thought.

Virtual Demon Valley is a valley of experience arranged by a large formation in the city of Dreamland.

In it, there are infinite demons condensed from the large array, for the masters of the Tiangong to go in and fight.

As a result, it can enhance the actual combat experience and hone the combat effectiveness.

Secondly, these virtual demons are very similar to the real demons, and can also improve the familiarity of the masters of Tiangong to the demons. When they really engage with the demons, they have a greater grasp.

Soon after, Lu Ming entered the virtual demon valley.

Roar!

When Lu Ming appeared, a lot of demons condensed out of thin air, flapping demonic wings, flying sand and rocks, very similar to the real demons.

boom!

Lu Ming burst out with a punch, and hundreds of demons exploded directly.

"too weak!"

Lu Ming shook his head, these demons, but Divine Emperor fourfold, too weak.

Lu Ming flew towards the depths of the virtual demon canyon, the deeper the demon in the demon canyon, the stronger.

After a while, a group of five demon gods rushed to Lu Ming, and Lu Ming punched out, all dissipated.

Too weak, move on.

boom!

With a punch, a large number of demons dissipated.

Still too weak, keep going....

After a period of time, hundreds of demons equivalent to Divine Emperor Jiuzhong approached the landing and were still killed by Lu Ming.

Lu Ming shook his head, still too weak.

Now, God Emperor Jiuzhong is really weak in front of Lu Ming. He can crush a large piece with one finger, without any challenge.

Moving on, there are more and more demons of Divine Emperor Nine Heavy, at the beginning there are only hundreds, hundreds behind, thousands...

However, ants are ants, and no matter how many they are, they are useless.

After traveling for a while, suddenly, a demon appeared in front.

Yes, it is a demon, but the breath is amazing.

This is a demon in Divine Emperor Realm.

"The demon of Divine Emperor Realm has finally appeared!"

Lu Ming smiled.

Roar!

The demon, a heavy demon of the Divine Emperor, roared, with the momentum like a mountain, and the wings of the demon, like a lightning, rushed to Lu Ming.

However, Lu Ming is still punching out.

Then, the demon burst apart and disappeared into a mass of energy.

Divine Emperor's heavy hit is also a punch.

Moving on, it was still the Divine Emperor's weight, but the number was a little larger and could not withstand a blow.

Going on for a while, the double demons of Divine Emperor began to appear.

Divine Emperor is twofold more important than Divine Emperor One.

The combat power of the Divine Emperor Realm is generally difficult to measure with the combat power of the Divine Emperor Realm, because what can break through the Divine Emperor is itself a genius and has a strong combat power.

If you have to measure it, you can.

For example, what kind of people can fight across levels in Divine Emperor Realm? The answer is that they can fight across three levels at least in Divine Emperor Realm.

For example, in the Divine Emperor Realm, someone who can fight across three levels, when he broke through to the weight of Divine Emperor, all aspects remained at the peak, brave and diligent, and was not dropped, then he relied on Divine Emperor's weight Cultivation is the ability to fight across levels, and it is a double battle for Divine Emperor.

In other words, every gap of Divine Emperor Realm is equivalent to the gap of three levels of Divine Emperor Realm.

If you want to be at the top of the Divine Emperor's Nine Heavy Battles and the Divine Emperor's Doubles, you need to be able to fight across seven levels in the Divine Emperor Realm.

Lu Ming obviously can not only cross seven levels.

boom!

With a punch, the demon exploded directly, or spiked.

Lu Ming understands that his combat strength definitely does not only cross seven levels.

Now, he has not reached the limit.

Then, move on.

Divine Emperor Duo, who is still not his opponent, pushed all the way.

Finally, after a period of time, a demon with triple gods appeared.

"Divine Emperor Triple, Come on!"

Lu Ming showed his expectation.

After a long battle, there is finally a presence that makes him feel strong pressure.

This time, you can test where his ultimate combat power is.
