

D Emperor 4221

Chapter 4221: Flying to the ruins of the universe

Flying Phoenix controls the heart of the main god, making the 'main god' appear in the world and fighting fiercely with the elders of the Celestial Clan, while Ao Qing takes the opportunity to take the dragon clan star and rush towards the primitive **** lake.

"Stop him!"

Yale Tianjun shouted, struggling to shoot.

The other masters of God's main realm also tried their best. Dozens of terrible attacks attacked Ao Qian, trying to stop Ao Qian.

But Ao Qian sacrificed the Dragon Ball, and with the help of the Dragon Mother Star, he issued a terrible blow.

Wanlongzhu turned into a huge planet, bombarded.

The attacks of both sides collided together, and a roar of shock broke out, and then Yale Tianjun and other people retreated.

In the face of Ao Qing who used Wanlong Balls and the power of the Dragon Clan's parent star, Yale and others could not stop it even when they joined forces, and many people coughed up blood and retreated.

No one can stop Ao Qian, Ao Qian with the dragon clan star, close to the original Shenhu.

Rumble!

The void exploded and the space was torn apart, revealing a dark and dark space.

Ao Qian took the dragon clan star directly into the dark space.

If you can see through the space, you can clearly see that the Dragon Mother Star and the original Shenhui World are very close.

"You urge the formation to push the primitive God Lake World and move towards the ruins of the universe!"

Ao Qian's voice came out and spread all over the primitive Shenhui World.

"Cosmic ruins!"

"Yes, go to the ruins of the universe!"

Some of the four cities in the original Shenhui World shouted.

Uh, uh, uh!

At this moment, the space above the original Shenhui Lake was torn, and figures appeared one after another.

Masters of those primordial gods in Primitive God Lake, you can see the figures of primitive gods 'Hung' and 'Lion'.

However, the strongest in Tiangong also followed.

"Hugh wants to go, our war is not over!"

Dameng Tianjun appeared, his style was unparalleled, but he was strong and hegemonic, he would continue to fight against Hong and Lion.

At this moment, a dragon chant sounded, Ao Qian shot, sacrificed the dragon ball, and slammed into the big dream Tianjun.

Wherever Dragon Ball passed, the power of the big dream Tianjun's big dream collapsed instantly.

Dameng Tianjun's face changed a lot, he tried his best to resist, but he was blasted out by Wanlongzhu and coughed up blood.

Dameng Tianjun is known as one of the strongest Tianjun in Tiangong, and has already stood at the peak of God's Lord Realm.

However, after offering Qianlong Dragon Ball, Ao Qian again leveraged the power of the dragon clan's parent star. Ao Qian's strength has already loomed above the Divine Lord. Even if the Dreamer is strong, he is not an opponent.

"I'll stop them. You join forces to push the primitive **** lake and quickly go to the ruins of the universe, where there is someone to respond!"

Ao Qiandao.

"Shoot!"

The powerful master of the primordial **** lake did not hesitate to enter the four cities, and then urged his own power, cooperated with the formation, and pushed the primitive **** lake world, through the dark void, and flew towards the ruins of the universe with all his strength.

You must leave as soon as possible, otherwise, if there is a strong man coming to the Temple, it will be troublesome.

Dragon family star, followed by the original God Lake World.

"Stop them!"

"Don't let them succeed!"

Dameng Tianjun and others screamed angrily. Before and after, a total of seventy or eighty strong men in the Divine Realm rushed to the primitive God Lake World to completely wipe out the world of Primitive God Lake.

Roar!

Ao Qian shot, and Wanlong Ball exuded a tremendous radiance, and from the Dragon Ball, hundreds of dragon shadows rushed out.

Although these dragon shadows are not real divine dragons, but their combat power is very powerful, they constantly tremble with the divine lord of Tiangong, and for a time, they actually entangle so many divine lords.

Of course, this is because Ao Qian's strength has not yet reached the realm above the Divine Lord, but is looming over the Divine Lord, otherwise, even if there are seventy or eighty Divine Lords on the Tiangong side, it cannot be his opponent.

Ao Qian's strength is far from returning to its peak.

However, the strong man who is entangled in these heavenly palaces is enough.

The strong man of the original Shenhui Lake does not have to worry about the situation outside and fully promotes the original Shenhui Lake world.

The primitive Shenhui World and the dragon clan star shuttle through the dark void, flying towards the border of the universe at an amazing speed, to the ruins of the universe.

The flying phoenix controls the heart of the main ***** and continues to fight against the elders of the Celestial Race.

Over time, the two have no idea how many moves have been made.

Suddenly, the two stopped fighting and stood in the stars.

They are still not far from the original Shenhui World.

Although the primitive God Lake World flew to the ruins of the universe at an amazing speed.

However, when flying Phoenix and the Celestial Clan elders were fighting, they also intentionally followed the original God Lake World, so the distance was not widened.

"Phoenix, the power of the heart of the Lord God, can't stand your consumption like this, can't you support it for long?"

The Old Man of Heaven.

"You don't need to test me. The person who really can't hold on should be you. Continue to fight. I'm afraid your injury will be difficult to control. By then, you have only one way to die..."

Feihuang chuckled, his face calm.

The face of the Celestial Clan was gloomy.

There is nothing wrong with Feihuang. He is indeed very injured. Not only can he not urge the momentum with all his strength, even if he urges a part, he can't fight for too long.

Otherwise, his injury will be difficult to restrain.

After being silent for a while, the Celestial Elder made a decision.

"You guys, come back, no need to continue attacking!"

The old man of the Celestial Clan spoke of course to those strong men in the Temple of Heaven.

Hearing the words of the elders of the Celestial Clan, the strong men of the Tiangong Palace did not dare to disobey them, swayed their bodies, and left the primitive Shenhu World, instead of fighting with Ao Qian, all appeared behind the elders of the Celestial Clan.

"Ancestor, why don't you continue to attack?"

Dayeng Tianjun asked, she was very unwilling.

"It's almost the ruins of the universe. When we get there, those of us, Gengen can't help them anymore. I guess that the body of Feihuang may be there..."

The Old Man of Heaven.

As soon as this remark came out, the faces of these strong men in Tiangong were wild.

Feihuang's body makes them frightened.

The flying phoenix is just a soul incarnation and can kill them. What is the horror of her body?

During the World War I, some people witnessed the true combat strength of Flying Phoenix. It was simply terrifying. Tiangong did not know how many powerful people died in the hands of Flying Phoenix. Even if the invincible above the Divine Lord existed, more than one fell on the Flying Phoenix. On hand.

This is a real taboo.

If the body of Feihuang is really in the ruins of the universe, these people go to them, and it is not enough for Feihuang to slapp.

"But the ancestor, the Muyun, that is, the forbidden body, mixed into my Tiangong, stealing the chances of my Tiangong, and now slipping away in such a safe and sound manner, if it passes out, the prestige to my Tiangong is great. Hit!"

Dameng Tianjun said.

Although the other Tianjun didn't speak, he obviously had such a scrutiny when he looked at his expression.

Muyun, a junior, first mixed into the Tiangong, then betrayed the Tiangong and left safely. What is the Tiangong? Back garden?

This kind of thing must never happen.

Chapter 4222: Lu Ming was caught

The original Shenhu World can be let go, but Muyun can never let go.

This spread was a great blow to the prestige of the Tiangong.

In addition, Muyun is still a taboo body.

This is even more important than the total primitive God Lake world combined.

The taboo body must not allow him to grow up.

In history, all the taboos that grew up were disasters in the Temple of Heaven.

The Lord of Ancient God Court, Infinite Heavenly Demon Flying Phoenix, and that surnamed Tang...

Each one caused great losses to the Tiangong.

Therefore, the Muyun in front of him cannot be let go.

"Relax, since he has entered the Temple of Heaven and put on the armor of the Heavenly Soldier, he can't leave!"

Celestial elders sneered, a look like Zhizhu holding.

"But the ancestor, the forbidden force in the armor of the sky soldier, was wiped out by the taboo force!"

Dameng Tianjun said.

"It's okay, as long as he stays in the armor of the Heavenly Soldier, he can't escape the palm of the old man, just look at it!"

The old man of the Celestial Race said, as soon as the words fell, he stretched out a palm and pointed at the primitive God Lake World.

At the moment, Lu Ming's mood in the original Shenhu World has not calmed down yet.

All of today is really shocking.

The existence of God's main realm is usually rare, but today, when the two sides add up, there are more than one hundred statues, which is really amazing.

In addition, the existence above the suspected transcendental Lord appeared, revealing the power to dominate the universe and opening Lu Ming's eyes.

Lu Ming also saw the tip of the iceberg of Tiangong's strength.

It can be said that today's battle has a very strong impact on Lu Ming, which allows him to truly see the peak combat power of the Honghuang universe, and also makes him more motivated and more targeted.

"I am still far away from the Divine Lord. My first goal is to break through the Divine Emperor Realm, and then step by step, the Divine Lord Realm!"

"God Lord Realm, I will reach it sooner or later, not too far away!"

Lu Ming clenched his fists, full of motivation.

Generally speaking, the main state of God is the pinnacle of the universe.

In the universe, most people think that the Divine Lord is the limit of the Divine Realm, and they do not know that there is a realm above the Divine Lord.

If it were not for Lu Ming to see the battle between the Flying Phoenix and the Celestial Clan elders today, he did not know that there was a more terrifying existence above the Divine Lord.

"Oh, where is the ruins of the universe?"

In Lu Ming's heart, another question came up.

He just heard Ao Qian's roar just now.

However, he still heard the word "ruins of the universe" for the first time.

When Lu Mingfu wanted to join hands, the mutation suddenly emerged.

One of his storage rings suddenly flew out of a battle armor.

It is the armor of the sky soldier.

"what happened?"

Lu Ming suddenly felt a little dazed.

He didn't mean to take out the armor of the sky soldier, how did the sky armor fly out automatically?

"No, Lu Ming, rewind!"

Knowing the sea, the bone demon shouted in shock.

Lu Ming's subconscious is about to retreat, but it is too late.

The Sky Armor rushed directly to Lu Ming, covering Lu Ming, like a chain, locking Lu Ming to death.

"Give me!"

Lu Ming shouted, broke the taboo force with all his strength, and wanted to break free, but he didn't move at all.

Heavenly soldiers' armor, there is no trace of movement, stable and immortal, he can't break away at all.

At the same time, there was an irresistible force in the armor of the Heavenly Soldier, with a landing sound, flying towards the gap in the world wall, the speed was incredibly amazing.

"Stay!"

Feihuang's face changed, and his palm came out. A huge palm caught Lu Ming and wanted to cut Lu Ming.

"Feihuang, if you shoot, I will kill him directly!"

The voice of the old man of the Celestial Clan sounded. At the next moment, terrifying energy emerged from the armor of the Sky Soldier, pressing Lu Ming from the outside. In an instant, Lu Ming felt that his body was about to be crushed.

Blood oozes from the surface of the skin.

The hand that Feihuang stretched out shrank back.

She had a gloomy face, but she knew very well that if she forcibly shot, she could cut off Lu Ming, but before cutting off Lu Ming, the other party was able to kill Lu Ming first.

Now, Lu Ming's life and death are completely under the control of the Celestial Clan elders.

After such a pause, Lu Ming has flown out of the world wall of the original Shenhui World, and flew into the starry sky, flying towards the old man of the Celestial Clan at an amazing speed.

"Bone Demon, take my storage ring and the ball, let's go!"

Lu Ming shouted, and his eyebrows glowed, and the bone demon's body flew out.

Uh, uh, uh!

In Lu Ming's eyebrows, a ray of radiance rushed out.

Bingxuan sticks, gale beads, and storage rings all flew to the bone demon.

Even if he was taken away by Tiangong, he couldn't buy it cheaply. Tiangong could not have imagined the treasures on him.

Anyway, he still has the past body, these treasures, even if he died in the hands of Tiangong, these treasures can still be given to the past body.

The past body and the present body are one. As long as the past body is still there, he will be fine.

In the future, we will continue to practice the technique of cutting three corpses, and we can still cut the appearance and the future.

His body was controlled, but the bone demon and the ball were not controlled.

The bone demon put away Lu Ming's storage ring and treasure, and the ball flew out.

"you..."

The ball is staring at the landing and reluctant to leave.

"Go! Go!"

Lu Ming shouted, and another light flew out of his eyebrows, which was the original ancient word 'war', which was also taken away by the bone demon.

But what surprised Lu Ming was that there were two other things. Lu Ming did not fly out how to control it.

That is the copper copper coffin and the ancient ancient stone.

These two things, in Lu Ming's sea of consciousness, shrank rapidly, and finally became smaller than the smallest particles, let alone look with the naked eye, even the spiritual consciousness could not sweep it.

If it were not in Lu Ming's sea of knowledge, and Lu Ming was connected with these two treasures, he could not feel it.

"Want to leave, stay behind!"

The old man of the Celestials said coldly that he had already seen the ancient word 'war'.

Although he has reached his level, the original ancient characters have little effect on him.

But it can be used to train geniuses of the younger generation. The role of the original ancient characters is still very large, but it cannot be slipped away from Lu Ming.

He reached out a big hand and grabbed him towards Landing.

"Go away!"

Lu Ming shouted.

"go!"

Bone Demon anger snorted, and took the ball, quickly flew towards the original Shenhui World.

However, with the strength of the bone demon, how can you escape the palm of the Celestial Power?

But at this time, a huge mountain fell from the sky and hit the hands of the old man of the Celestial Clan, and directly smashed the palm of the old man of the Celestial Clan back.

It was the flying phoenix's shot, which controlled the master god's heart.

Repel the Celestial Clan old man, Feihuang stretched out his hand and grabbed the bone demon in his hand.

"Huh? Interesting?"

Feihuang glanced at the bone demon and murmured.

Chapter 4223: Draw the power of taboos

At this time, Lu Ming had also flown to the elders of the Celestial Race and was controlled by the elders of the Celestial Race.

"go!"

The old man of the Celestial Clan glanced at Feihuang coldly, then led the landing clan, stepped out in one step, and his figure disappeared from the original place.

The other **** masters in Tiangong, as well as the gods of the heavenly soldiers, also broke away and disappeared here.

Flying Phoenix did not pursue.

She knew that Lu Ming fell on the hands of the Celestial Clan elders and wanted to **** it back unharmed, it was impossible, unless her body shot.

However, it is impossible now!

"such a pity!"

The primordial gods of Primitive God Lake, those **** masters, including the dream **** god, are all sighing.

They all know that Lu Ming is a taboo body.

A taboo body was originally promising, and once grown up, it would be the enemy of the Tiangong.

But now, it was taken by Tiangong.

A forbidden body was won by the Tiangong, most of it was fierce.

"Boy, I hope you Ji people have their own appearance, your fate, it is difficult for me to spy, like the guy with the surname Tang, I believe that you can turn Ji Ji..."

Looking at the direction of the Tiangong people's departure, Feihuang whispered, and then waved his hand, the body of the lord **** disappeared, and the heart of the lord **** resuspended in the air and was held in the hand by the phoenix.

Flying Phoenix enters the original God Lake.

"Go, go all the way to the ruins of the universe!"

Flying Phoenix Road.

Immediately, there were a few powerful masters of God's realm that began to repair the gaps in the world wall, and others continued to push the original God Lake and flew towards the ruins of the universe.

...

Fantasy Tiangong, a huge secret room, the walls of the secret room, and the ground are covered with runes.

In the middle of the chamber, there is a stone platform. The runes on the stone platform are the most dense, obviously the center of the formation.

At this moment, Lu Ming was sitting on the stone platform, and he was covered with runes, and he was completely controlled.

On the side, the old man of the Tianren race, the big dream Tianjun, and several other Tianjun, watch the landing.

"Let's start, let's take a shot together, and draw the forbidden power from him!"

The Old Man of Heaven.

"Yes!"

Dameng Tianjun and others responded, and then separated around Lu Ming, with the power of heaven diffused out of him.

Buzz!

The formation in the secret room was urged to radiate gorgeous glow, and Lu Ming was enveloped by the glow.

"Shoot!"

The old man of the Celestials took a sip, his hands quickly pinched the Yin Jue, and a profound power fell on Lu Ming.

At the same time, several other Tianjun-level strongmen also took action. With the Tianren clan elders, the power acting on Lu Ming was stronger.

Lu Ming's body suddenly shook violently, his whole body was trembling, his muscles were wriggling, and the cells in his body seemed to be flying away.

Celestial elders and others, this is to extract the power of taboo in his body.

"Come on!"

Lu Ming roared in his heart, fully controlled the power of taboo, and resisted with all his strength.

"Boy, you dare to resist, to death!"

A Tianjun snorted loudly, and the rumbling eardrum rumbling and blasting.

"If you want to kill then kill, why don't you say more!"

Lu Ming responded coldly.

"You kid..."

The heavenly king stared.

"Why don't talk nonsense with him, concentrate on the power of the taboo!"

The old man of the Celestial Race said that he increased his strength and tried his best to extract the taboo power of Lu Ming.

Lu Ming's body vibrated even more. The cells were trembling. The forbidden power in each cell was also trembling. It seemed to be dragged by a powerful force to be extracted.

However, Lu Ming resisted with all his strength and concentrated all his strength to stabilize the taboo.

He knew very well that his greatest value was the power of taboo.

With the power of taboo, he may still be alive.

But once the power of taboo is extracted, he loses value, and there is only one way to go.

In any case, he will not let the other party extract the power of taboo.

Pulling on each other in this way, his body bears a great burden, his skin cracks, and blood continuously flows out.

Muscles were also torn, bones banged and banged, and a series of fine cracks appeared.

Everywhere in the whole body came the general pain of knife-cutting, no, it was more powerful than knife-cutting.

However, Lu Ming withstood it, this pain was nothing.

Regardless of his physical injury, he tried his best to control the power of taboo and not let the other party out.

With the passage of time, his physical injuries became more and more serious, and soon became a blood man, there was no good place on his body.

After a while, his body had already collapsed, and he would die without doubt.

"stop!"

At this time, the elders of the Tianren tribe sipped and stopped first.

After that, the other Tianjun also stopped.

"This kid..."

A cold light shone in the eyes of the old man of the Celestial race.

He did not expect that Lu Ming was young and his willpower was so strong. Under the great pain, he could still stabilize the taboo power.

The power of taboo is not ordinary power. If it is ordinary power, he does not need his shot. Anyone who is strong in the Divine Realm can be extracted from Lu Ming's body.

But the power of taboos is extraordinary.

The taboo body has been integrated into every cell of Lu Ming, and it is very difficult to extract it. If you want to collect it, it is very difficult to penetrate the 60 trillion cells above and below Lu Ming's body.

Even with the cultivation practice of the Celestial Clan elders, it is necessary to cooperate with a special formation, and with the help of other Tianjuns, to be able to carry out operations.

However, it is not so easy. There is a premise that Lu Ming's resistance must not be so strong. If Lu Ming's resistance is too strong, it will be difficult to succeed.

Just like before, Lu Ming resisted with all his strength, and it would be difficult for them to succeed. Continue, Lu Ming's body will collapse and fall completely.

The power of taboo is very special. If Lu Ming dies, the power of taboo will also disappear.

This is also the reason why they stayed on the ground and did not kill, and it was also the reason why they stopped suddenly.

After killing Lu Ming, they can't get the taboo.

The power of taboo, they have a special use.

"Boy, you'd better cooperate a little, and still suffer less pain. Otherwise, you will die better than life. You just tasted the pain just now. If you cooperate a little, you can end earlier."

Celestial elders said coldly.

"Let's talk nonsense, if you want to do it, continue to do it!"

Lu Ming responded coldly.

Under the influence of the forbidden force, his injuries recovered at an alarming rate. When he spoke, the wounds on his body were almost gone.

"Stubbornness, then I will see when you can reach it."

Celestial elders spoke coldly, with murderous eyes flashing in their eyes.

A junior dared to talk to him like this. If Lu Ming had no taboo power, he would have slapped Lu Ming.

Chapter 4224: No way to start

After a while, when Lu Ming's injury was about the same, the elders of the Celestial Clan and others began to work again, urging the formation method to pull out the taboo force in Lu Ming's body.

But Lu Ming resisted with all his strength, and in any case, did not let the other party out.

The two sides formed a stalemate. Soon afterwards, Lu Ming's body collapsed frequently, and his whole body was ragged, suffering great pain.

But Lu Ming walked all the way. What kind of pain has not been experienced. These pains are nothing. Lu Ming did not even hum out.

Celestial elders and others have no choice but to stop.

Because going on, Lu Ming's body will completely collapse, fall on the spot, and the power of taboo will also disappear.

After Lu Ming's injury was good, they continued to shoot.

In this way, it lasted several times.

Unfortunately, every time, Lu Ming resisted.

This makes the faces of the Celestial Clan elders and others look gloomy.

They didn't expect that Lu Ming was young, but his willpower was so tenacious. The average person suffered such pains in a row and could not bear it long ago.

"This kid..., ancestor, what should I do now?"

A Tianjun Road, faced with such Lu Ming, even if the city palace where Tianjun lived for countless years, was still angry.

You can't kill and kill, and you can't let it go.

"Put him into Wanyan's furnace, when do I see him?"

Celestial elders said coldly.

"Okay, the ancestor is brilliant!"

Several other Tianjuns showed a happy look, and then watched Landing Ming coldly.

"Boy, you'd better succumb quickly, and cooperate with us to extract the power of taboo, you can suffer less, otherwise, there will be what you suffer next, in the furnace of Yanyan, Wanyan adds body, that pain, will Ten times or even a hundred times before..."

A Tianjun said coldly.

"Please, let me cooperate with you to pull out the power of taboo, impossible!"

Lu Ming said lightly.

"act recklessly!"

The Tianjun stared straight at him.

"No need to talk nonsense with him, just go into Wanyan's furnace!"

The old man of the Celestial Clan waved Lu Ming and took it away.

Soon after, they came to another secret room, where there was a huge furnace, standing outside, they could feel the terrible temperature in the furnace.

With a clatter, the old man of the Celestial Clan directly put Lu Ming into the Forge of Fortune.

"The fire of Wan Yan's furnace will not burn people to death, it will only burn slowly, but the pain it brings is ten times and hundreds of times that of ordinary flames, see when this kid can stand up!"

Celestial elders said coldly.

"Ancestor Yingming, who refined this kid in the furnace of Wanyan, his mind soon collapsed, and naturally he would beg for mercy, and he could easily extract the power of taboo!"

A Tianjun bowed, and it was obvious that he was flattering.

"Yes, Wan Yan's furnace is quite different. Not many people have been able to last for seven days. I guess this kid can last for three days at most!"

Another Tianjun also said.

"Well, judging from the previous situation, this kid has a tough mind and strong willpower. It is estimated that more than three days, but up to five days."

Celestial elders made their judgments.

"Ancestor wise!"

A lot of heavenly kings, it's also flattering.

They waited quietly to wait for Lu Ming's submission.

Time passed day by day.

One day, two days, three days...

It soon passed four days, nearly five days, but there was still no movement in Wan Yan's furnace, and Lu Ming's voice for mercy was not heard.

The old people of the Celestial race look a little ugly.

The Tianren elders had a confident judgment. Lu Ming insisted on up to five days, and asked for forgiveness, but now it is almost five days, and Lu Ming has not begged for mercy, which makes his old face a bit unsustainable.

If they were not clear, Wan Yan melting furnace would not burn Lu Ming to death, they thought Lu Ming was dead inside.

They continued to wait.

Soon, more than five days, then six days, seven days...

In a flash, it took more than seven days.

They previously said that generally few people can spend more than seven days in the Forge of Fortune.

But now, Lu Ming has surpassed...

This made their faces even more ugly. Lu Ming's willpower exceeded their imagination.

The old face of the Celestial Clan elder can't hold even more.

"Look when this kid can push..."

A Tianjun gritted his teeth.

They continue to wait.

Eight days, nine days, ten days...

In a blink of an eye, Lu Ming spent a full month in Wan Yan's furnace.

Yes, for a full month, Lu Ming said nothing.

"Boy, do you yield or not..."

With the mind of the elders of the Celestial Clan, they couldn't help but ask the question first.

"What succumb? It's very comfortable and warm inside. You don't want to let me out. I want to stay longer!"

Lu Ming's disdainful voice came from Wan Yan's furnace.

Click!

The clenched fists of the Celestial Clan elders and others almost ran away.

Annoying!

It's so annoying.

Was it comfortable to stay in Wan Yan's furnace?

Do you think we haven't read the book and want to lie to me?

"This kid..."

Celestial elders and others are really awesome.

Lu Ming felt like a hedgehog, unable to speak.

"Ancestor, what now?"

Asked a Tianjun.

"This boy's willpower is more tenacious than I imagined. Wan Yan's furnace is probably useless. In this way, he was thrown into the dungeon, which was filled with terrifying heart fire and magic fire. In the prison, we are tortured by heart, flame, and fire all the time. Anyway, we are not in a hurry, shut him for a few star years, and see when he can stick to it!"

Celestial elders said coldly.

"It can only be done, then let this kid stay in the prison, ancestor, you go back to rest, the next thing, leave it to us!"

A heavenly king said.

"Ok!"

The old man of the Terran nodded and stepped away from the chamber.

A few Tianjun put Lu Ming out of Wan Yan's furnace.

"Boy, succumbing early can be less sinful. You need to understand the truth. In the Tiangong, it is useless even if you are hard to support. What we have is to make you succumb to hard support. You will only suffer more!"

A heavenly king said.

"Oh, is it? I'm waiting!"

Lu Ming responded lightly.

In any case, he will not let the other party take away the power of taboo.

"Humph!"

After a few days of cold drinking, Tianjun left the room and left the secret room. After a while, they came to another place.

Here, there is a huge whirlpool, dark, spinning continuously, not knowing where to go.

"Boy, this is the prison where the important prisoners are held in the Tiangong Palace. It is filled with heart flames and fireworks all the time. In it, you are always tortured. You can stand for one month and

two months, but you can stand for one year. Two years, ten thousand years, ten thousand years, ten thousand years?"

A Tianjun said coldly, scaring Lu Ming, hoping to destroy Lu Ming's mind earlier.

Chapter 4225: Breaking into the dungeon

But Lu Ming's face was always calm.

"In addition, there are all places where prisoners are held in Tiangong. These prisoners are all fierce and fierce, and they have been suffering from the flames of heart and flames in the prison all year round. They have been crazy for a long time. , You'd better think about it carefully, so as not to suffer unnecessary torture..."

Another Tianjun said again.

"There is so much nonsense. It turns out that Tiangong Tianjun has so much nonsense. Doing mother-in-law's work is not at all!"

Lu Ming mocked.

"This kid..."

Several days Jun secretly gritted his teeth.

In the wilderness universe, who dares to talk to them like this?

If it were not really possible to kill Lu Ming, they would have cast Lu Ming down.

"Boy, you hold this piece of jade. If you figure it out, you can send us a voice and we will bring you out!"

A Tianjun said for a moment that a piece of jade symbol flew into Lu Ming's body and disappeared.

Their main purpose is to destroy Lu Ming's inner defenses and to wipe out Lu Ming's willpower, so that Lu Ming can cooperate with them obediently and let them draw the taboo power, rather than let Lu Ming die in the prison.

Therefore, Lu Ming will pass on the jade symbol.

As long as Lu Ming voiced them, it showed that Lu Ming had succumbed.

Lu Ming looked calm and did not speak.

"Send him in!"

A Heavenly King said, and then waved his hand, Lu Ming's body flew to the vortex, disappeared into the vortex.

...

As soon as Lu Ming rushed into the vortex, it seemed that he was going down with a passageway. Soon after, he left the passageway and smashed it towards a ground.

Lu Ming quickly ran the power of taboo, slowed his speed, and landed gently on the ground.

Then look up.

He found that the place he was in was a wild mountain. In the mountain, a black tree grew, twisted like a snake, and looked very infiltrating.

The sky is dull, there is no sun or moon in the sky, the whole sky looks dark red.

"Is this the heartfire?"

Lu Ming felt it carefully, and found that there was a continuous flame on the ground.

This kind of flame is everywhere in this world, as long as it is in this world, it will be contaminated.

This flame enveloped Lu Ming, climbed up to Lu Ming's body, and kept burning.

The flame was not violent, but it burned with a heartache.

This kind of pain is easy for Lu Ming to endure.

However, if you have been detained here, it is hard to say.

It can be tolerated in a short time, but it does not mean it can be tolerated for a long time.

This is a heavenly prison. Some people are imprisoned here for millions of years, hundreds of millions of years, and even many stellar years.

After years and months, no matter how tough the mind is, it will be unbearable.

Lu Ming understands that Tiangong is to keep him here. As long as he doesn't succumb, he will keep it down until he succumbs.

"This pain is nothing!"

Lu Ming sneered, his thoughts moved, every cell trembles slightly, and the powerful taboo power covered the whole body, blocking the flame outside.

The pain in Lu Ming's body disappeared instantly.

"Huh, blocked? It's so easy?"

Lu Ming showed his doubts.

This is too simple, beyond his expectations.

It stands to reason that Tiangong Tianjun and others all know that he controls the power of taboo, and should also know the mystery of the power of taboo, whether they can block the flames here, they should also be very clear.

Since the power of taboo can stop it, why did they send Lu Ming here?

Lu Ming frowned, unable to figure it out for a while, and felt there must be something he didn't understand.

After a while, Lu Ming shook his head.

Since I can't figure it out, I don't want it for the time being.

Lu Ming began to look around, the spiritual consciousness radiated out, but his own breath converged.

According to those Tianjun, this is the prison of the Tiangong, where there are many repeat offenders.

These people, who have been imprisoned here for an unknown period of time, have been tortured all the time. It is estimated that they will be a little crazy. He has to guard.

However, Lu Ming turned around, and no one found it.

"No one is around. Is the area where I am located relatively remote? Well, I can just practice and improve my strength!"

Lu Ming thought.

In this environment, the stronger the strength, the more powerful it is to protect itself.

It is a pity that all his treasures have been handed over to the bone demon, and they are not carried on his body. His strength has been greatly affected.

Like the strong wind beads, the ice mystery stick, and even the original ancient word 'war' was handed over to the bone demon.

Without the word 'war', his fighting power could not break out to fight across nine levels.

It's still a little bit worse.

"Anyway, I can resist this kind of flame, so I'll practice here for a while. I still have many common mysteries that I haven't practiced anyway. First of all, I will turn these common mysteries into mystic runes, melt them into the cells, and strengthen my strength!"

Lu Ming made a plan.

In him, at least there are more than 15,000 common secret techniques that have not been practiced.

He intends to first upgrade his strength to a level where he can fight across nine levels.

Even if he left the war character formula, he would have to fight across the ninth level. Anyway, he didn't know how long he was to be held.

Immediately, Lu Ming found a relatively hidden cave, entered the cave, and then punched out, crushing the surrounding of the cave and blocking the hole.

Lu Ming sat cross-legged in the cave and began to understand a common secret technique.

Ok!

When Lu Ming began to enlighten ordinary secrets, there was a spot in the sea of knowledge, and then the ancient ancient stone appeared again.

The ancient ancient stone exudes a mysterious light, which can speed up the speed of Lu Ming's enlightenment.

"The ancient ancient stone reappeared, what about the copper and copper coffin?"

Lu Ming reveals a strange color, and then feels carefully.

At the next moment, another wave of fluctuation occurred in the sea of knowledge, and the copper copper coffin emerged again.

Lu Ming showed a happy look.

The strong man in Tiangong before grabbed him, and naturally searched him from the end to the end, including knowing the sea.

But at that time, the ancient ancient stone and the copper copper coffin were hidden to the extreme, and they actually escaped the exploration of the old man of the Celestial Clan.

The old man of the Celestial Clan, but beyond the existence of the main realm of God, could not be found out, showing how mysterious the ancient ancient stone and the copper bronze coffin.

At this time, Lu Ming induced himself, and the two appeared again.

This made Lu Ming have some bottom, at least the copper copper coffin is still there, and at a critical moment, it can be used desperately.

Previously in the primitive Shenhu World, Lu Ming was completely controlled by Tianbing's armor, and he could not move at all, even if he wanted to take out the copper and copper coffin.

"Now if those Tianjun come again, I will directly take out the copper and copper coffin and desperately..."

Lu Ming muttered, and then continued to enlighten the secret technique.

Chapter 4226: Encountered an attack

With Lu Ming's current state, the speed of enlightenment on ordinary secrets is very fast, and with the help of ancient secrets, the speed is even more amazing.

Even without the help of the original Divine Sound, the speed is very fast, and it takes almost an hour for Lu Ming to successfully convert a common occult technique into an occult rune and melt it into the cell.

One day, Lu Ming can comprehend more than 20 kinds of secret techniques of success. Of course, they are only the entry stage of Taoism.

Don't cultivate to a too high level first, just need to get started.

In one year, you can learn more than 7,000 kinds.

In just a little more than two years, Lu Ming has successfully realized all the occult techniques in his hand and turned them into cryptic runes, which have been melted into the cells.

All kinds of mystic runes were integrated into it at once, so that the power of the taboo power was further improved.

Lu Ming felt full of powerful power, and his fighting power undoubtedly improved again.

Lu Ming estimates that even if he does not use the ancient word 'war', it is estimated that he will soon reach the ability to fight across nine levels.

Even if it is still worse, it is not much worse.

Lu Ming estimates that he will realize about one or two thousand more kinds of common secret techniques to his success. Even if he leaves the "war word formula", he can completely reach the ability to fight across nine levels.

Then, continue to enlighten and practice until you can't ascend.

Time rushed, year after year passed.

In an instant, Lu Ming has been practicing here for thirty years.

In thirty years, Lu Ming has completely practiced two thousand kinds of common mysteries to a great success.

In this way, his combat power has completely reached the level of fighting across nine levels. If he continues to practice, his combat power will no longer be improved.

Nine levels are the limits.

But recently, Lu Ming discovered an important problem.

His heart became less and less calm, more and more irritable.

Sometimes, inexplicably want to get angry, it feels more and more difficult to keep quiet.

As a result, the speed of enlightenment is becoming slower and slower, and the effect is getting worse.

"what happened?"

Lu Ming frowned.

Reaching his current state and wanting to achieve peace of mind is an instant matter.

In the past, he could instantly enter the tranquility of his mind and the ethereal, that is, enter the cultivation transition.

But now, it is getting more and more difficult to do.

If you don't move, you will be irritable, and inexplicably want to get angry, and even... want to find someone to vent some...

"Heart flame magic fire, does this flame not only target the flesh, but also the soul and the soul?"

As soon as Lu Ming thought about this, he thought it was very possible.

His physical body can be resisted with the power of taboo.

And his soul, scattered in every cell, can also be resisted with the power of taboo, but he has ideas and thoughts.

As long as there are ideas and thoughts, they will be affected.

"It should be like this, so the people in Tiangong, knowing that I have the power of taboo, can block it and put me in, because in addition to the physical body, the mind will also be attacked and affected!"

Lu Ming thoughts came to mind.

It is conceivable that he is just at the beginning now, and the further he is, the greater his influence will be.

"Can't you get out of the heavenly prison?"

Lu Ming looked up at the sky.

He came down from the sky, but there was no exit in the sky.

"If you want to go out, staying here is definitely not enough. I need to find opportunities to see if I can find the opportunity to go out!"

Lu Ming thought.

Although he knew that this was the prison of the Tiangong, and he wanted to go out by himself, the chance was very slim, but he had to give it a try.

He finished his training, left the cave, casually took a direction, and flew in that direction.

The Tiangong Heavenly Prison seemed to be a huge world. Lu Mingfei was at a high altitude, looking far away from the horizon, and could not see the side at all. He could only see the vast expanse of land.

This world is the same everywhere. On the ground, there are constant hearts, flames and fires, and the whole world is shrouded in high temperatures.

I can't see any creatures, only some dark and weird trees.

This is a real prison.

Half an hour later, Lu Ming, who was flying, suddenly stopped.

Because he suddenly felt a crisis approaching, his body tightened uncontrollably.

Crisis comes from underground.

Without hesitation, Lu Ming's figure suddenly pulled up, and then moved back out.

boom!

The ground burst, and a figure rushed towards the landing at a very fast speed. Before the person arrived, the sky sounded the sound of whining and humming. That was a claw, tearing the void, and naming to the landing. I caught it.

The speed is amazing, the power is also amazing.

Fortunately, Lu Ming responded quickly, dodge in time, and this evaded a blow.

Lu Ming backed away for hundreds of miles, his eyes like electricity, and finally he could see clearly the appearance of the man who attacked him.

This is a short man, with a short stature, less than one meter and five, with a hunchback, but he has sharp nails with both hands, like a sharp blade.

His eyes were a little blood red, and he stared deadly.

"Blood, blood, I want to drink blood!"

The little man screamed like a beast in his mouth, his tongue licked his lips, and his thin figure flashed like a lightning, rushing towards the landing clan, the speed was astonishing. As soon as his figure arrived, Lu Ming felt There was a terrible strength, and the cut skin ached.

"Divine Emperor Fourfold!"

Lu Ming's heart moved with dignity.

The cultivation of this little man is the fourfold of Divine Emperor.

This kind of cultivation, even if it is just an ordinary Divine Emperor's fourfold, Lu Ming can't compete.

Although Lu Ming has regained his ability to fight across the ninth level, his cultivation base is, after all, the **** Emperor Jiu Zhong. He is very difficult to fight against an ordinary Divine Emperor by his own fighting power.

If there is an ice mystery stick in hand, he can compete with an ordinary Divine Emperor quadruple, but now he does not have any Divine Soldier in his hand, but can only rely on his own combat power. He is definitely not an opponent of this little man.

If you hit **** the front, he will be spiked by the opponent.

Without thinking, Lu Ming retreated backwards.

"Blood, I want to drink it and leave it to me!"

The short man snarled and chased crazy towards Landing Naruto. He continuously grabbed it. The sharp claws cut into the space and caught Lu Ming. The speed was astonishing, exceeding Lu Ming's backward speed.

"Great Aurora!"

As soon as his thoughts moved, Lu Ming exhibited the great aurora technique. His body was like an aurora, and he flew away in a flash. He had flew thousands of miles away, avoiding the other party's attack.

"Senior, you and I have no injustice, why should you attack me?"

Lu Ming shouted,

"kill!"

But the other side did not resign, and continued to rush towards the landing, claws covered the sky, covering hundreds of miles.

Chapter 4227: Totally crazy

The dwarf man's eyes showed madness, his eyes were blood red, full of bloodthirsty killings, and he madly drove towards the landing, and the claws broke into the air, covering all the large areas.

"Great move!"

Lu Ming's thoughts moved, and he performed a large shift technique. His figure appeared in the distance, avoiding the attack of the claws, and then flew in one direction.

Since it is not an opponent, it is naturally the best strategy.

However, the other party kept on chasing after landing, and the speed was equally amazing.

Even if Lu Ming had the top moves, such as the Great Aurora and the Great Aurora, he could not get rid of the other party for a while, mainly because he was weaker.

As soon as the two caught up, they flew a few million miles away.

The opponent continued to attack during the pursuit. Although most of the attacks were evaded by Lu Ming, there was once a claw that had not been avoided. Fortunately, Lu Ming ran his full defense and blocked this claw. , Just suffered some minor injuries.

"This guy must be thrown away as soon as possible, this guy's condition is a bit abnormal!"

Lu Ming kept thinking.

The little man's spirit was obviously abnormal and full of bloodthirsty meaning. Lu Ming estimated that the other party was affected by the heart fire.

Heart flame magic fire, which burns the flesh, and heart flame affects the soul, mind, spirit, etc.

Lu Ming only stayed here for several decades, and his spirit was affected. The other party stayed here for unknown years. It must have had a great impact. The negative emotions in his heart will explode wildly.

This kind of person can't be reasoned, only stay away.

boom! boom!

Suddenly, Lu Ming, who was flying, fixed his gaze, because of the violent roar in front, the void and the ground, and the violent shaking, a powerful force, like the waves, sweeping all directions.

"Kill, kill, kill!"

A loud roar came from the front, full of madness and hysterics.

Then Lu Ming saw a figure, suspended in the air, attacking continuously.

Yes, there is only one figure, an old man, with his hair disheveled, and his body is filled with amazing murderous opportunities.

His eyes were full of madness, nothing else.

He is constantly attacking, without any target attack, blasting the ground out of pits.

Maniac, this is a maniac!

Lu Ming instantly reached a conclusion.

This is a downright lunatic, even crazier than the short man.

Although the little man was crazy, his eyes were full of bloodthirsty, but if he looked carefully, he could still see a sense of reason in the other person's eyes.

But the old man with the beaten hair in front of him had no sense of reason, only madness.

"No, avoid this person!"

Lu Ming stopped forward, Meng Ran turned around and flew to the left.

The little man who chased Lu Ming also found the old man with a disheveled hair, and the speed of the chase suddenly dropped.

At this time, the crazy old man also found Lu Ming and the short man.

"Kill, kill, kill!"

Seeing Lu Ming and the dwarf man, the old man with disheveled hair, as if he had a target, was even crazier. He looked up to the sky and killed Xiao Ming and the dwarf man.

There was still a long distance between them, and the old man with his hair spread attacked.

Several palm prints, like a row of mountains and seas, came to the landing Ming and the little man, and they were extremely terrifying.

"What a terrible strength, this kind of cultivation is absolutely on the fifth level of the Divine Emperor, no, not only the Five Levels of the Divine Emperor, but at least above the Sixth Level of the Divine Emperor!"

Lu Ming showed his horror and wanted to use the move technique to move away, but the palm print was crushed and the chaos of the space oppression was incomparable. When he performed the move technique, he felt very difficult.

No, it's too late, continue to force the move technique, too late.

Retreating second, Lu Mingshi exhibited the great aurora technique, which turned into an aurora. With a flash, he withdrew thousands of miles away.

Rumble!

A palm seal rolled past Lu Ming's place where he had just stood. The void collapsed, the mountain on the ground exploded, and a gully of tens of thousands of miles appeared.

This is the heavenly dungeon of Tiangong. It is extremely stable in nature, and is not comparable to the vastness of the universe. Otherwise, this kind of existence will be bombarded, and it will not only hit a gully, but it will destroy the world.

The Heavenly Jail's prison is naturally impossible to be destroyed so easily, otherwise how could it be possible to detain many powerful criminals?

Let these prisoners never escape?

On the other side, the little man, with horror in his eyes, turned and walked away, avoiding the bombardment of palm prints.

The little man's mental state is better, and he still has some reason. He knows that he is afraid of fear, and he knows that he is not his opponent.

"Kill, kill, kill!"

The old man with the beard screamed constantly, radiating a tyrannical breath on his body, as if to destroy everything. He rushed directly towards the short man, the speed was extremely alarming, obviously a lot faster than the short man.

Lu Ming was delighted. The old man with the disheveled hair chased the dwarf man. It is very likely that the dwarf man's cultivation was stronger. Under the vigor, he instinctively chased the other man.

This gave Lu Ming a chance.

Lu Ming chose a direction opposite to the dwarf man, performed a big move and left, and prayed to the dwarf man that he could stick to it for a while.

But Lu Ming's prayer obviously didn't come true. After only a few breaths, he heard a scream of screams, hundreds of thousands of miles away.

"I was killed so soon!"

Lu Ming sank in his heart and exploded with all his strength, urging the Great Shifting Technique to the extreme.

However, not long afterwards, there was a brutal roar behind him.

"Kill, kill, kill!"

One by one, the word "kill", the emptiness of the shaking kept shaking, a violent breath, landing from the rear direction and surging.

The old man with the disheveled hair appeared again, tens of thousands of miles behind Lu Ming, approaching the landing quickly.

"That guy was killed so quickly, so terrifying strength..."

Lu Ming's face was dignified. This old man with disheveled hair had terrible strength. It must be more than the fivefold of Divine Emperor, otherwise he would not catch up with the short man so quickly and kill the other party.

At least it is also the sixfold of Divine Emperor. Such cultivation practice, if he catches up with Lu Ming, Lu Ming will definitely die.

Lu Ming continued to perform the big move technique, each move was tens of thousands of miles away, but at such a fast speed, he still couldn't get rid of the other party.

The distance between the two sides is still getting closer.

"Trouble, if not, you can only take out the copper copper coffin and try it!"

A thought flashed in Lu Ming's heart.

But just then, things changed.

Roar roar!

Around the area, a beast suddenly appeared.

Lu Mingling swept the knowledge and found that dozens of fierce beasts appeared all over. These fierce beasts have a strong physique, boiling blood and vitality.

Chapter 4228: Enron got away and understand the situation

More than a dozen **** beasts suddenly appeared around him, which immediately aroused the old man's attention.

The old man who was distributed by the first batch is obviously completely crazy. His attention is completely following Qi and blood. If he is powerful and powerful, he will be attracted.

Previously, the short man was more powerful than Lu Ming, so the old man was the first to chase the short man.

And now, these dozen beasts are very powerful, like a fire, immediately attracting the old man with the hood.

"kill!"

The old man who circulated the head roared loudly, shot it with a palm, and directly blasted a fierce beast into blood mist.

The other beasts turned and ran, rushing in all directions.

The old man who circulated the batch screamed and killed him.

"good chance!"

Lu Ming did not expect another village from Liu Anhuaming, and here suddenly appeared dozens of abnormal beasts with powerful blood and blood.

Although he is very strange in his heart, because this is the heavenly prison, filled with heart flames, there is no other life except the souls detained here.

At least Lu Ming has flown so many distances, except for the old men and short men who have been distributed, they have never met other creatures.

More than a dozen beasts with strong blood and energy suddenly appeared here, which is very strange.

But now is not the time to think about it, Lu Ming seized the opportunity and moved in several directions in a row.

"Little friend, come with me!"

After Lu Ming moved several times, a sound suddenly came from his ear.

Lu Ming was shocked and looked over there and found a thin, middle-aged man on a mountain peak.

This middle-aged man is waving at landing.

Lu Ming was instinctively alert.

However, Lu Ming found that the middle-aged man's eyes are very quiet and not crazy, which is very different from the old man and short man who had encountered the hood.

"Little friend, come with me. The beasts before me were released by me. I can't stop the other party for too long. The other party will soon chase. I have a safe place to avoid the other party's pursuit!"

The thin middle-aged man continued, showing sincerity.

"It turns out that these beasts were released by this person. No wonder there will be beasts suddenly here..."

Lu Ming thought, and after a few thoughts in his mind, Lu Ming flew towards the other party.

Lu Ming flew towards the other party after consideration.

The other party said it well. Although the dozen or so beasts are powerful and bloody, but their strength is very general, it is definitely not able to stop the chase of the old man from the Beatles, and the other party may chase back soon.

In this way, he is difficult to get out.

And this thin, middle-aged man seems to be quite normal, not crazy, and may be able to get away with the other party.

The top priority is to get rid of the crazy old man who circulated the batch first.

"Come on, come with me. I set up some disturbing formations in this area. The guy is already crazy and it's easy to cheat!"

Thin and middle-aged, with a landing sound, flew in one direction, and it looked harmless.

Of course, Lu Ming will not easily put down his guard. Although he leaves with the other party, he is always on guard.

Soon after, they passed through a dense jungle, and Lu Ming really found traces of formation in this jungle.

This method is not clever and easy to find, but it should be no problem to confuse the old people who distribute the batch, because the other party has been crazy and lost their reason.

Through this jungle, they traveled a further distance, passing several places with formations in the middle, and then came to a canyon.

"Okay, it's safe here. That guy will definitely not be chasing me. My name is Rongzeng. I don't know what to call Xiaoyou?"

The thin middle-aged laughed.

"Muyun, I would like to thank my seniors for saving this time!"

Lu Ming clenched his fists.

"Eh, politely, here is the Tiangong Tianluo, we are all imprisoned by the Tiangong, the Tiangong is our common enemy, we help each other, that should be."

Rong smiled more, very kind, and gave people an approachable feeling.

"By the way, Muyun Xiaoyou, I haven't seen you in this area before. Are you from another area, or have you just entered this prison?"

Rong Geng then asked.

"Shortly after entering, there are many places that I don't understand.

Lu Ming said.

"You're welcome, come, let's sit down and talk while eating!"

Rong smiled more, waved his hand, a stone table appeared in the valley, and a few stone benches.

On the stone table, there are several wine jars.

"Haha, I got it from the Heavenly Soldiers who bribed the Tiangong through special means. There are not many, please!"

Rong even pushed an altar of wine to Lu Ming. He picked up the altar and opened the altar lid, and immediately a strong scent of wine filled out and came to his nose.

Ronggen picked up the wine jar, took a few sips, and sighed, cool.

Lu Ming groaned for a while, took a few sips from the wine jar, and sat on the stool.

"Senior Ronggen, what happened to those beasts before? Is it your favorite beast in seniors?"

Lu Ming asked.

"No!"

Rong even shook his head and said, "That's the puppet that I collected from the wild beast essence and blood, because it was made from the wild beast essence blood. Although the blood is powerful, but the combat power is not strong, I am afraid that the old guy will soon be all killed!"

"This time the seniors suffered heavy losses, and Mu Yun was really upset."

Lu Ming said, a grateful look on his face.

"Haha, still saying that, Tiangong is our common enemy, we should help each other, it should be!"

Rong even smiled again, and then said: "However, the little brother of Muyun first arrived, he still needs to be very careful. The heart and fire in this place are terrible..."

Rong Geng's eyes reveal a very dignified color.

"Also invite seniors to enlighten me!"

Lu Ming said.

"This heavenly prison is full of heart flames and fireworks. This heart flames and fireworks are very terrifying. They can burn the body and soul and affect the spirit all the time!"

"The pain in the flesh is easy to endure, but it is difficult to resist the soul. The longer you stay in the prison, the greater the influence of the heart fire and the fire. Many negative emotions in your heart will burst out. !"

"Some people can't resist, and they will become crazy, so most of the creatures in the prison are very scary because of the outbreak of negative emotions!"

"For example, some people are bloodthirsty, some people are easy to kill, some like torture people, some people like to devour other creatures, etc. These people can only vent through some means, such as bloodthirsty to kill other creatures to drink blood, good If you kill, you will kill other creatures in a frantic way, so that you can get vented and relieve the pain. The most serious thing is that your mind will completely fall behind and be completely crazy, just like the old man you met before..."

Rong explained more.

Chapter 4229: Crazy world

Rongchang made Lu Ming's face more solemn.

This dungeon is indeed terrible, and the people here are being tortured all the time.

Not only the torture on the flesh, but also the soul.

Everyone's mind will have weaknesses.

The longer you stay here, the weakness will continue to magnify, magnifying infinitely, which is a pain for anyone.

Some people will choose special methods to vent, such as bloodthirsty, murder, etc., but those who can't bear it will fall into madness.

"Tiangong is to torture us with this method. Many people can't bear it, they will succumb to the Tiangong and become a tool for the Tiangong, used by the Tiangong..."

Rong sighed more.

"Couldn't there be no way to resist this kind of heart-fire demon fire, or, there is no way to escape this prison?"

Lu Ming asked.

"Have!"

Rongren nodded and said, "I heard that some people in the dungeon can resist the attack of the heart-fire demon fire. It is impossible to escape from the dungeon. As far as I know, no one can escape from the sky. Jail, unless you surrender to Tiangong, Tiangong will take the initiative to let it out, otherwise, you can only stay in this prison forever."

"However, surrendering to Tiangong is not so easy. Even if some people succumb to Tiangong, Tiangong is too lazy to agree."

"Can't you leave?"

Lu Ming frowned.

"Mr. Yunyun, come and drink, we can cooperate later, maybe we can find a way to resist the flames!"

Rong Gengdao, continue to drink with Lu Ming.

The two chatted while drinking, and Lu Ming asked some more about the prison.

After a moment.

Suddenly, Lu Ming's face changed, his body staggered, and he sat down on the ground, his face pale.

"What's going on? How do I feel soft all over, I'm poisoned? Your wine is poisonous..."

Lu Ming roared, glaring at Rongguan.

"Hehehehe, hahaha, did it finally happen?"

Rong even laughed suddenly.

At the moment, his eyes were not calm, but he showed a terrible color, staring at the land screaming, as if looking at a prey.

"It's poisonous in the wine? Why? Before I drank it, I obviously checked it!"

Lu Ming shouted.

"Hey, let me tell you, the power of the wine is not toxic, but this wine is specially refined by me. It contains a special herbal medicine without any toxicity, but it blends with a special smell in this valley. , It will be highly toxic, even the existence of the peak of the Divine Emperor will be poisoned and killed, so you will not feel any problems in the wine!"

Rong more sneered, explained.

"Why? Why do you want to save me first and then poison me?"

Lu Ming asked with a very unwilling expression, showing a lot of doubts.

"You're poisoned by me, you won't die all at once, you will die slowly, and you will rot to death, the process is extremely painful, you don't think, watching others poisoned in front of you, the painful death, is it a very happy and very comfortable thing? Hahaha..."

Rong Gai laughed as he spoke, his eyes full of madness.

In his madness, he also revealed a thick color of excitement.

Lu Ming understood that Ronggen was no different from the short man he had encountered before.

Under the influence of the heart fire, the negative emotions exploded and became crazy and perverted.

Others are bloodthirsty, bloodthirsty, and Rong prefer to see his poison in others, poisoned in front of him, and die in pain, so that his heart will be satisfied.

Therefore, he would save Lu Ming by letting Lu Ming lower his alertness and then poisoning him.

In an instant, Lu Ming wanted to understand everything.

The heavenly prison is really dangerous, because it is all a group of crazy people with negative emotions.

Looking at Lu Ming's ugly face, Ronggen felt an inexplicable pleasure in his heart, as if a certain tyrannical emotion in his heart had been released.

"Boy, you don't have to think about the luck to force the poison. I can't force this kind of poison. Once poisoned, there is only one end. That is slowly poisoning and dying."

"You're just soft all over now, and your flesh will soon decay, your bones will be corroded, and you will die in pain, hahaha!"

The more excited Rong is, the crazier his eyes are.

"You are in such a pitiful state. In my opinion, it might as well send you on the road, but it is more painful to live!"

At this moment, Lu Ming's face suddenly calmed down, and looked at Rong Gendao with pity.

In this state, it seems that he is poisoned. It is clearly a normal look.

The breath is stable and the color is ruddy, which is different from before.

Rong was more shocked with wide eyes, and said inconceivably: "You...you are not poisoned?"

"Wrong, I am indeed poisoned, but this poison is useless to me."

Lu Ming said lightly.

In fact, after Ronggen took out the wine, Lu Ming knew that something was wrong.

When he took the first sip of wine, he knew it was poisonous.

However, although this poison is powerful, it is useless to him at all.

In every cell above and below his body, there is taboo power. This poison is so powerful that it can destroy every cell at once?

Obviously impossible.

Although this poison is powerful, it can only penetrate cells in some important parts of the body. It is far worse than the prohibition force on the sky armor. Lu Ming turned the poison away with a little bit of the taboo force. .

The appearance of "shocked" just now was completely pretended by Lu Ming.

"Boy, how can you refine my poison, how is this possible?"

Rong bigger roared, a more terrible face, staring at the landing crow, continued to roar: "Even if you can refine my poison, you will die, you are just the cultivation of God Emperor Realm, kill..."

Poof!

Rong Geng's "kill" word just called out, and his chest was suddenly pierced with a sword light.

Rong Gai's eyes widened, revealing incredible colors, he did not know when Lu Ming launched the attack.

"Tell you, this trick is called a big assassination, let's go on the road!"

Lu Ming spoke indifferently, the Great Destruction technique contained in the sword light exploded instantly, and Rong even sent out a scream of sternness. The whole person turned into a ash, and even the soul did not escape.

In fact, Rongzeng's strength is definitely not weak. Xiuwei has reached the level of Divine Emperor. Lu Ming is definitely not the opponent of the other side in a head-on battle.

But Rong just thought Lu Ming was poisoned, so he didn't defend Lu Ming at all.

After knowing that Lu Ming was not poisoned, he was even more shocked, and his mind suddenly became confused. Lu Ming also exhibited one of the three thousand ancient secrets of the big assassination technique, and immediately hit the key point of Rongjian. Then use the devastation technique to kill Rong even more.

Rong even thought that everything was under his control, but he didn't know that Lu Ming had already seen this, and the layout launched a fierce counterattack.

"Thank you for saving me once before, so I am happy to you, and you are relieved. You don't have to be tortured by negative emotions anymore, feel at ease on the road!"

Lu Ming whispered and then left here.

Chapter 4230: Self-launch

After killing Rongchang, Lu Ming left the valley and moved in one direction.

This time, Lu Ming was a lot more careful. Instead of flying in the air, he converged and walked along the ground.

Flying in the air, once encountering those mad creatures, it is easy to be found.

Of course, if you don't want to run into those crazy people, it's best to find a hidden place in the same place and stay calmly. But in that case, it can only be safe for a short time, and it will be more dangerous for a long time.

Because Lu Ming is not completely immune to the heart flame magic fire, the heart flame magic fire will not affect his body, but it can affect his heart, his spirit, and for a long time, all kinds of negative emotions will appear in his heart. out of control.

That's almost a dead end.

For example, if I met the old man with the uncontrolled beating and spread his hair, if he only met the weak, he would be chased and killed by him naturally, but once he met the stronger, he would be killed. , Without any suspense.

Once you get out of control and go crazy, you can't help yourself.

Lu Ming didn't want to see this happen.

Rong even said that there is still a way to prevent the mind from losing control in this prison, he has to find a way.

In addition, you can't go out while staying in the same place.

If you want to find a way to leave Tiangong prison, you have to explore.

You can't find a way to stay where you are.

Although Rong Geng said, Tiangong Tengu cannot go out at all, but how do you know if you don't try it?

Soon, more than ten days passed.

In these more than ten days, Lu Ming met no less than ten creatures.

However, because Lu Ming was cautious, he saw it from a distance and did not meet with the other party.

He found that not all of the more than ten creatures were out of control and mad. In fact, most of them were not out of control and mad, but the spirit was somewhat abnormal and the symptoms were mild and severe.

Lu Ming did not dare to approach, the specific is not clear.

And several times, I saw creatures fighting each other.

The creatures here are full of negative emotions, and it is easy to break out when meeting.

This also proves that this prison is really dangerous.

This made Lu Ming more careful.

Another thing that makes Lu Ming feel heavy is that as time goes by, he finds that his heart is becoming more and more restless, and his mood is often inexplicably upset, and he wants to fight with people to vent.

Lu Ming knows that his mind is always affected.

Although it is still within the controllable range, it is because the time he entered here is too short. As time passes, the situation will definitely become more and more serious.

"You must find a way to defend against the flames of the heart, but unfortunately the bone demon is not here, otherwise you can ask him..."

Lu Ming turned his thoughts in his heart, pressed against the ground, and continued to fly.

Another day later...

boom!

There was a violent roar ahead, and a divine light was shining. This was someone fighting.

Lu Ming's body flashed, and he exhibited the Great Hidden Technique, one of the three thousand ancient mysteries, concealed behind a large stone, integrated with the large stone, and then carefully looked at the front.

In front, there are two creatures in a fierce battle.

One of them is covered with purple-gold scales, and the other has two long helical horns on his head.

The war between the two creatures was very fierce, the energy was surging, and the ground was shaking.

"Divine Emperor Fourfold!"

Lu Ming whispered.

The spirits of these two wars are all fourfold in the Divine Emperor, and they are equally matched.

However, Lu Ming observes carefully, and it can be seen that the two creatures are not completely out of control and crazy, but the mental state is somewhat unstable, and their eyes are full of tyrannical murderous opportunities.

Lu Ming looked at it for a while, preparing to leave quietly.

But at the next moment, Lu Ming's body stiffened, his pupils shrank, and the figure he was about to leave suddenly stopped.

Because on the ground in front, a net suddenly appeared.

A huge net, covering thousands of miles away, rushed out of the ground, towards the soul net of the two wars.

The creatures of the two wars didn't go out of control and went crazy. At the moment, they were shocked and stopped the war quickly, flew in two different directions, and wanted to escape from the envelope of the big net.

But what is amazing is that with their flight, the area of the large net has actually increased dramatically. No matter how any two creatures fly, they cannot fly out of the envelope of the large net.

With just a few breaths, the big net trapped the two creatures, and the big net contracted, locking the two creatures dead and hard to move.

When the two creatures were taken down, the sky flashed, and a middle-aged man in a red robe appeared. The middle-aged man waved his hand and put the net in his hand.

"Hey, I won two more, yes!"

The red robe nodded and flashed away from the spot.

Lu Ming didn't come out immediately, but waited for a while and found that there was no abnormality, then he unlocked the Grand Hidden Technique and flew in one direction.

But Lu Ming hadn't flown far, he suddenly burst into a chill in his heart, and his hair stood upright, which was a sense of crisis.

At the next moment, Lu Ming discovered that a large net appeared on the ground, and he loomed toward him.

Lu Ming did not hesitate to directly perform the big move technique and wanted to leave, but what struck him was that when he performed the big move technique, he found that the space was like a quagmire, very sticky and deadly. Staying with him makes it difficult for him to leave easily.

This big net has actually affected the space.

The big move technique doesn't work!

Great aurora!

Lu Ming immediately switched to great aurora, turned into an aurora, and rushed into the distance, but when his figure appeared again, he found that he had not escaped the big net. He was still in the net.

"No, this big net is not only a treasure, but also combined with the formation, this area is enveloped in a big formation..."

Lu Ming soon discovered that he was tired.

This area was covered with a formation. The combination of the large net and the formation was very mysterious. No matter how it was flown, it could not escape the envelope of the large net.

"Face up!"

Lu Ming no longer moves laterally, but casts aurora, rushing directly towards the sky.

But what Lu Ming didn't expect was that he had just rushed into the sky, and a large net suddenly appeared in the sky, which shrouded down.

In this way, Lu Ming is equivalent to throwing himself into the net, plunging into the big net.

As soon as he burst into the big net, the big net shrank rapidly, like chains, entwining Lu Ming.

"No, trouble!"

He found that he was completely locked up, entangled with death, and no matter how powerful the taboo broke out, he could not break free.

The preconceived notion kills people.

Before he saw that the two creatures were arrested, there was no big net in the sky, so he rushed to the sky with all his strength. Unexpectedly, there was a big net in the sky, otherwise he wouldn't 'self-cast the net'.
