

D Emperor 4251

Chapter 4251: Successful printing

Lu Ming exploded the power of taboo with all his strength, and made a move. The power of taboo was like a cylinder, rushing towards the power of annihilation that burst out of the chain.

boom!

A violent roar sounded, and the force of "annihilation" was directly penetrated, and Lu Ming was unharmed.

Lu Ming's eyes lit up, and the power of taboo could indeed break the power of vanity.

Then, go ahead!

Lu Ming put his palm on the chain, and the power of taboo continuously poured out, impacting on the chain.

The chain is constantly shaking, and there is a constant force of annihilation, but they are all broken by Lu Ming.

The power of annihilation here is stronger than that of the Tianxin clan in Xinyu Demon Cave, but it can't cause any damage to Lu Ming.

The power of taboos gushes out, breaking apart the power of annihilation, and at the same time a part of the power of annihilation is refined. In this way, the power of annihilation on the chain will be reduced a little.

After a while, the area covered by Lu Ming's palms was dimmed.

"Really effective, really effective..."

Seeing this scene, the people of Tianxin clan were all ecstatic.

Before they were worried, Lu Ming could not deal with these forces of annihilation. Now that Lu Ming can refine, they finally let go of a dangling heart.

As long as it can be refined, it will be fine even if the speed is slower.

Lu Ming continued to input the power of taboo. After several hours, Lu Ming suddenly retreated and moved away from the chain.

His taboo power is almost exhausted and needs to be replenished.

"It is estimated that it will take a long time!"

Lu Ming sighed slightly.

For a few hours, the chain was only refined a little bit, and I wanted to refine the power of the 'Void' on the entire chain. I don't know how much time it takes.

What's more, there are forty-nine such chains.

Hope that people in Tiangong will not find it!

"Brother Muyun, hard work!"

Patriarch Xinfan came step by step with a smile on his face.

Happy, finally saw hope.

"Ashamed, I am not good at cultivation, I want to refine it, I don't know how long it will take."

Lu Ming said.

"It's okay, my family has been waiting for a long time, and it doesn't matter if it waits for a while. Brother Muyun should be exhausted. What do you need to recover, despite speaking!"

Patriarch Xinfan said.

"I need a treasure containing pure energy, or a treasure containing rich life force..."

Lu Ming said.

"This is easy to say, I have a lot of here, if it is not enough, I will upload a message and go back to get you together..."

Patriarch Xinfan said.

As soon as he waved his hand, all the black crystals flew out and flew to Lu Ming.

There are tens of thousands of yuan.

Lu Ming waved his hands, put away these spars, and then took out a piece of induction, and immediately found that these spars indeed contained a very pure energy, this energy, similar to the spirit of the wooden heart, But the energy contained is actually a bit richer than Elf Muxin.

"What a good thing!"

Lu Ming's eyes lit up, then he sat cross-legged and began to absorb.

The energy in the spar is absorbed and dispersed into cells throughout the body, and then transformed into taboo force for Lu Ming's use.

It didn't take long for Lu Ming to return to his peak state.

After recovery, Lu Ming continued to refine the chain.

After the power is exhausted, return to absorb the energy of spar to recover.

In this way, time and again, time passed.

As time passed, the power of 'annihilation' on that chain also continued to dim.

In a flash, it was ten years.

Lu Ming spent a full ten years to finally refine one of the chains.

"Huh, the progress is still faster than I expected."

Lu Ming exhaled.

Ten years of refining a chain, the forty-nine chains can be completely refined in 490 years.

For 490, what did they count for?

Just blink!

The first article was refined, and the second article began to be refined.

It is worth mentioning that, during the period, the Tianxin clan sent Lu Ming a large amount of black spar, which was hundreds of thousands of fast, to ensure the sufficient strength of Lu Ming.

Lu Ming naturally put it away in a polite way.

He knew clearly that forty-nine chains could not be used to refine so many crystal stones, but Lu Mingke had no plans to return.

This kind of treasure is more beneficial.

Time rushes, year after year.

Finally, 490 years later, 49 chains were completely refined by Lu Ming.

When the last chain disappeared, Lu Ming quickly backed away, next to the strong man of the Tianxin clan.

Rumble!

The void began to shake violently.

The void oscillated like a wave of water. Suddenly, in the middle of the void, a black spot appeared. This black spot seemed to have a great attraction, sucking everything around, and this black spot, and quickly became larger .

Soon, this black spot turned into a huge black hole with a diameter of tens of meters.

Through the black hole, you can vaguely see that there is a little starlight on the opposite side, but it is very dim.

"Starlight, does this hole lead to the vast universe?"

Lu Ming jumped wildly.

If it leads directly to the wilderness universe, then can he get away directly?

The eyes of the people of the Tianxin clan also brightened up. Obviously, they also thought of this.

"Does it lead directly to the vast universe?"

Someone whispered.

"It's unclear, even if it's not to lead to the vast universe, it should also be to the place where our clan gods' realm is held, which is a good thing for us!"

"Yes, the channel has been formed, and when it is stable, we will send people to see it!"

The strong of the Tianxin clan, you made a plan with your words.

The crowd waited quietly. After about three days, the passage was completely stabilized.

Holes about a kilometer in diameter appeared in the air.

"Patriarch, then we set off!"

Immediately, a dozen people asked for help.

These dozens of people are the top powerhouses of the Tianxin clan, and all of them are the existence of God Emperor Peak.

"Okay, be careful. If something happens, come back and report it immediately."

Elder Xinfan said.

Then, dozens of strong people of the Tianxin clan set off, flew to the black hole, and disappeared into it.

Everyone waited nervously.

Especially the Tianxin tribe.

It has spent endless years and exhausted countless efforts. This time, can it succeed?

Although they speculate that the gods of the Tianxin clan are strong, they are imprisoned opposite the black hole, but it is not true, and they have no bottom in their hearts.

Lu Ming was also full of expectations.

In fact, he even expects that the opposite is the colossal universe, so he can get away directly.

Because even if the gods of the Tianxin clan are released, they only have the hope of getting out, and they may not really be able to get out.

Chapter 4252: A group of **** corpses

They didn't wait too long. About half an hour later, there was someone flying over the hole.

It's that dozens of Tianxin people.

But at the moment, dozens of people from Tianxin clan are all in fear.

Their faces were pale, their faces covered with cold sweat, and they hurried towards this side, as if something terrified had happened.

Patriarch Xinfan and others, could not help but feel tight, breath broke out, ready to fight.

They thought that there would be some terrible existence across the black hole.

But until more than a dozen Tianxin clan powerhouses approached, there was nothing to chase there.

"What's going on? Why are you so terrified, what did you meet?"

Patriarch Xinfan sipped and asked more than a dozen people of Tianxin clan, but the spirit was not relaxed at all, and he still stared at the black hole.

"Body, scary body..."

One of the Tianxin clan elders said that this person was an elder of the Tianxin clan. He was a lot of years old, and the divine emperor's peak was repaired, but at the moment, his face was frightened.

"The corpse? What's going on? Is there any danger over there, did you find my clan deity?"

Elder Xinfan even asked several questions.

"No, there is no danger there for the time being, nor did I find my clan deity, there, only corpses, a large number of corpses, patriarchs, you will know by looking at them in the past!"

The Tianxin clan elder said.

Xinfan patriarch and others, the heart sank uncontrollably.

Didn't you see the strong realm of the Tianxin clan gods, wasn't the strongest of the Tianxin clan gods held there?

"Since there is no danger, let's go and see how?"

Lu Ming said.

"Okay, let's take a look!"

Patriarch Xinfan nodded.

Immediately, only a few people were left here, in case of surprise, everyone else flew towards the black hole, including Lu Ming.

Lu Ming is also curious, what is the situation there.

Soon, they crossed the black hole and came to a strange area.

This is really a starry sky, a little bit of starlight.

But when they looked towards the distance, their faces changed wildly.

Corpse!

All corpses!

There is a corpse floating in the cosmic sky in front.

These corpses are of all kinds of creatures. They are huge in size. The small ones have the size of peaks. The large ones are equivalent to planets, and even larger than planets.

"That's... the body of a primitive god..."

When Lu Ming looked at one of the most huge corpses, he could not help but exclaim.

That corpse is bigger than the planet. A fist is equivalent to a planet.

From the perspective of body type, it is easy to judge that it is a primitive deity.

However, the head of this primitive deity was gone, and it seemed to have been cut off.

"Look at it in the past!"

Xinfan patriarch Qiangqi resisted his inner shock.

The people nodded and flew towards the front, and quickly flew into a large number of bodies.

From a distance, these corpses seemed to be very dense, but when they got close, they were all separated by a long distance.

Without a trace of vitality, all died.

Some were split in half, some heads were cut open, and some eyebrows were pierced...

All were killed by terrible means.

Moreover, every corpse exhaled a terrible air machine, and their skin seemed to be torn apart.

"What a terrible gas machine, these corpses were all the existence of God's main realm..."

Lu Ming whispered, his voice was dignified.

"Yes, Divine Lord, all are the existence of Divine Lord Realm, how come there are so many corpses, what's going on?"

Patriarch Xinfan said, his voice trembling, and his face also showed fear.

There are too many dead bodies, and at a glance, there are no fewer than a thousand.

These are all powerful in God's Lord Realm. Anyone who suddenly sees the bodies of thousands of God's Lord Realm will be terrified.

This is the Divine Lord, the peak fighting power in the universe.

The more they look, the more frightened they are.

Is this a place where the Lord of God is buried?

As for who made it, needless to say, it is also the Temple of Heaven.

Tiangong actually slaughtered so many powerful people in the Lord's realm and buried it here.

They suppressed the fear in their hearts and continued to watch.

There are various races.

Lu Ming saw a huge dragon, with a dragon body of hundreds of millions of miles, exuding a breath of terror.

There is also a phoenix, as huge as a planet.

Inside, there are some special races that Lu Ming has never even heard of.

"Can the body of the original **** be taken away?"

Lu Ming suppressed the shock in his heart, and his heart was alive.

These are all corpses of God's main realm. It can be said that they are all valuables without market value.

In particular, are there any corpses of the devil master or demon **** realm, that is of great use to the bone demon.

Lu Mingfei flew towards the primitive **** corpse, and the primitive **** corpse exuded a terrible air machine. This air machine seemed to be cut on Lu Ming as if it were a knife.

Lu Ming ran the force of taboos with all his strength to resist this gas machine.

After all, this primitive **** did not know how many years he had died. Although the Qi machine was terrible, it did not reach such an irresistible level.

If the ordinary God Emperor Jiuzhong is definitely unable to resist, as soon as he approaches, he will be killed by this gas machine.

But Lu Ming's strength, far above the ordinary Divine Emperor Jiuzhong, can still resist this gas machine.

After approaching, Lu Ming looked carefully.

"There is no blood, the blood is dried up, what should I do?"

Lu Ming frowned.

This corpse is too big, it is impossible to move it all, and his storage ring cannot fit.

Can only get some blood bones down.

However, not at all.

"Let's see if I can cut a little bone!"

Lu Mingji produced a war sword and cut it towards the body of the original god.

But with a bang, the Excalibur was bounced back, and no trace was left on the skin of the original god.

Lu Ming tried it again and again, but it had no effect at all, and he finally had to give up.

The Tianxin clan saw Lu Ming like this, and also moved their minds, choosing the existence of God's main realm, and wanted to bring some materials back.

However, even if they are the pinnacles of the Divine Emperor, they can't do it, and in the end they get nothing.

"Let's go look elsewhere!"

Patriarch Xinfan said.

They came to find the strongest realm of the Tianxin clan gods, but now they have not found it. Naturally, they are not reconciled and plan to continue searching.

They chose a direction and continued to fly forward, and then found more corpses.

In the end, thousands of corpses were discovered, which were all corpses of God's dominion.

It is really terrifying, all of them are the bodies of the powerful gods.

"That's... my clan deity..."

Suddenly, a Tianxin elder exclaimed.

Chapter 4253: Cosmic black hole as a cage

"That's... my clan deity..."

A Tianxin elder exclaimed.

Everyone was mad at heart, immediately looked in one direction.

After a look, all Tianxin people's faces are wild.

His face became pale.

There is indeed a Tianxin clan, but unfortunately, it is a corpse, just like other corpses, it is suspended there quietly.

died!

All the people of Tianxin tribe are pale as snow.

They have worked hard to find the God Lord of the Tianxin Race, and then expect the God Lord of the Tianxin Race to take them out of here. Is this the end result?

In their eyes, there was a look of despair.

"There...and..."

Another Tianxin clan pointed to the distance, and his voice trembled.

Everyone looked at the past, and really saw a corpse of the Tianxin clan, looking at the breath, and also the existence of God's main realm.

Xin Fan waited for others, his face paler.

Sure enough, then they found several corpses of the Tianxin Clan God Lord Strong Realm, and five have been found before and after.

At this moment, the faces of all Tianxin people are full of despair.

There is no need to find it. Obviously, the Divine Lord of the Tianxin Race is dead.

Not trapped somewhere, but already killed.

Their faces are full of despair, and the special people are Xinfan and others, as if they have been countless years old.

"Aren't my Tianxin tribe destined to perish, are they destined to be imprisoned in this prison forever?"

Xinfan tribe sighed for a long time.

"Does the patriarch Xinfan want to give up? Maybe you can find a way out here!"

Lu Ming said.

This remark made the eyes of Patriarch Xinfan and others lighter.

Yes, not completely desperate.

Although the existence of the Divine Realm of the Tianxin Clan is dead, they may not be able to go out. Perhaps, this place where the Divine Lord is buried, can there be a passage to go out?

Can not give up!

"Let's move on!"

Patriarch Xinfan said.

Immediately, they identified a direction and continued on.

Slowly, there were fewer corpses suspended in the air.

Soon after, the line of sight in the front suddenly improved, because there was no corpse in front, it was a starry sky.

The open starry sky is so deep and deep that you can't see the end at a glance.

They showed their expectations and continued to fly forward.

In front of them, they never saw the corpse of God's main realm, but this starry sky is very strange, there are few stars, and only a few stars can be seen occasionally.

They flew forward a few days and found nothing.

"It seems that here is also a prison cage, where the body of the God Lord is buried!"

An elder of the Tianxin clan sighed.

The last glimmer of hope in his eyes also disappeared.

Other Tianxin people are similar.

"Is there really no way?"

Lu Ming's heart was also shaken.

"No, as long as there is a glimmer of hope, you can't give up!"

Lu Ming shook his head, his eyes firmed again.

Immediately, they continued to set off.

Although the Tianxin people are desperate, they do not want to give up.

In a flash, it was another few days.

"Look, that's... a black hole in the universe!"

Suddenly, an old Tianxin clan pointed forward.

Everyone looked, and sure enough, in the starry sky in front of him, there appeared a very deep black hole.

It is huge, suspended in the universe.

There are no stars and no matter around, even light.

Cosmic black hole!

This is a real cosmic black hole, with a terrifyingly terrible attraction that can **** any matter in, even if it is light.

Everyone's face is a little dignified, there is actually a cosmic black hole.

In the universe, cosmic black holes are generally forbidden places. Even if the existence of Divine Emperor Realm is trapped, it is generally difficult to come out.

Not to mention the Divine Emperor Realm, even if some Divine Lords fall into it, I am afraid it is dangerous.

"Let's go around, don't get close."

Patriarch Xinfan said.

Everyone nodded and planned to go around.

The crowd flew to the side.

"No, you see, there is something in the black hole of the universe!"

Suddenly, someone took it lightly.

At this moment, the pupils of other people contracted.

Because, they also appeared.

At the core position of the universe's black hole, 'light' emerges.

The cosmic black hole, which is claimed to be able to swallow even light, is actually shocked by the fact that 'light' is coming out.

Everyone took a closer look, and his heart jumped wildly.

It seemed to be a coffin, a golden coffin.

In the black hole of the universe, actually suspended in a golden coffin, this is somewhat incredible.

In the coffin, who was buried was actually able to emit light while others outside saw it.

"This place is no different!"

Patriarch Xinfan said solemnly.

"Indeed, it may be a heavy place in Tiangong, let's take a look!"

An elder of the Tianxin clan.

Everyone nodded, and then bypassed the cosmic black hole far away.

But soon after, they saw another shocking scene.

Because, they saw the second cosmic black hole.

In this cosmic black hole, there is also light shining out, and they have also seen things.

In this black hole of the universe, there is a cage made of some bizarre metal. In the cage, you can vaguely see a creature, extremely burly and huge, lying in the cage, motionless.

"This... these cosmic black holes, are they really cages, trapped by some terrible existence?"

A Tianxin clan elder shivered.

Others did not speak, but their faces were dignified, and they had speculations in this regard.

Next, they went on and found several cosmic black holes in a row.

Without exception, there is something in every cosmic black hole.

Some are cages, some are coffins, and some are simply large boxes...

Even, they also saw a huge creature suspended in the center of the universe black hole. The body of this creature was also worn by chain chain holes. The other end of the chain extended to the depth of the universe black hole. I don't know where to go?

Terrible, terrible.

In every black hole in the universe, it is very likely that an extremely powerful existence is trapped. These existences are absolutely terrifying.

And, do not know life and death.

Who knows how many years these creatures have been trapped, some estimates have fallen.

"Forget it, it seems that this is also a cage, a cage of a higher level than the Heavenly Prison, it is impossible for us to go out, give up!"

A Tianxin clan elder sighed, despair in his eyes.

The people of the other Tianxin clan are similar, including the patriarch of the Tianxin clan.

It is already obvious that this is indeed a cage, a more advanced cage.

The prisons of the heavens are all under the god's realm.

And here, the detention is all above God's main realm.

Moreover, even if the Divine Lord of the Celestial Race is still alive, but they are trapped in the black hole of the universe, they cannot be rescued. As soon as they are close to the black hole, they will be swallowed by the power of the black hole.

Chapter 4254: Taboo apprentice

"Let's go back and continue searching, it's just in vain. In case of encountering people in Tiangong, our family can't keep the last blood!"

Patriarch Xinfan sighed and made a decision.

The other Tianxin clan's strongmen also nodded, then turned around and walked in the direction they came from. They flew for a while. Elder Xinfan stopped again and turned to Lu Ming: "Brother Muyun, don't you go? "

Yes, Lu Ming had been standing there just now, and did not follow Xinfan Patriarch and others.

"Patriarch Xinfan, please go back first, I'm wandering around!"

Lu Ming said, he was still not reconciled, and planned to continue exploring.

"Well, then be careful yourself, I will leave someone waiting for you at the entrance!"

Patriarch Xinfan said.

"The patriarch rest assured that if something happened to me, I would never say the Tianxin clan!"

Lu Ming said.

Patriarch Xinfan and others rest assured that they said goodbye to Lu Ming and flew in the direction of their arrival. They soon disappeared into Lu Ming's sight.

Lu Ming looked around for a while, and then continued to fly in the direction he had just traveled.

Next, Lu Ming saw several black holes in the universe. Without exception, there are 'things' in the black holes in the universe.

"There are so many cosmic black holes here, so dense and unconventional, it will not be developed by the strong man of the Tiangong, then such a combat power is really incredible..."

In Lu Ming's heart, the strength of Tiangong is even more unpredictable.

This kind of cosmic black hole is very terrible. It is dangerous for the Divine Lord to go in, but it is opened up by people to use it to hold criminals. It is really amazing.

"The creatures in these cosmic black holes should all be dead, no movement at all."

After all, the creatures in these cosmic black holes do not know how many years they have been trapped, and it is normal to fall.

Lu Ming did not give up and continued to fly.

"Huh, that seems to be a human race..."

Suddenly, Lu Ming's eyes lit up.

In front of him, a cosmic black hole appeared again. In the center of this cosmic black hole, there was a figure.

This figure looks exactly like the human race.

He was suspended there, with his hair scattered, and his body was locked with eight chains, and the other end of the chain led to the depth of the universe's black hole.

It is very strange, obviously in the universe black hole, the universe black hole can devour everything, including light, and this figure is extremely small compared to the universe black hole, but this figure, Lu Ming can see clearly .

It's a strange feeling, as if this figure will emit a wonderful Guan Hui, which can make Lu Ming see clearly.

"This should be a human race, there is nothing wrong with it, but a human race is capable."

Lu Ming shook his head and sighed in his heart. He had just bypassed the black hole and left, but he had not taken two steps, and his body suddenly stiffened.

"No, just now, he seemed to move!"

Lu Ming jumped wildly.

He just saw that the figure in the black hole flicked his fingers slightly.

If you are an ordinary person, you may wonder if you have an illusion.

But to reach the level of Lu Ming, it is almost impossible to have an illusion. He is 100% sure that the finger of the figure just moved a bit.

"Is this figure still alive?"

Lu Ming turned a thought in his heart, and his heart was beating.

If the other party is still alive, maybe he can know some secrets of this place from the other party's mouth.

As for saving the opponent, I'm sorry, Lu Ming doesn't have that ability yet.

Lu Ming's eyes widened and stared at the figure in the black hole of the universe.

After a while, the figure's fingers jumped again.

That's right, as expected, this person is definitely alive.

Lu Ming showed his hope and continued to watch.

Next, the figure's fingers jumped a few times in a row, and then the arm suddenly moved, clattering, and the chain locked on his arm made a vibrating sound, which actually came out from the black hole.

Uh!

At the next moment, Lu Ming saw that under this messy hair, two bright lights burst out. These two lights, like a sword, pierced the darkness and were dazzling.

That's the eyes of this figure.

"It turned out to be a little guy from Divine Emperor Jiuzhong..."

A strong voice came from this population, slightly disappointed.

Boom!

The man's body shook slightly, and the chains around him rattled, and he raised his head to reveal his true appearance.

Very young, looks like a twenties, very handsome.

His eyes were radiant, as if a sword light was constantly flying out of his eyes, trying to pierce the sky.

"This person's voice can be heard!"

Lu Ming secretly surprised.

The black hole of the universe can devour everything, even the light. The sound is naturally not in the air, but the voice of this person can be heard, and the sound of the chain.

Lu Ming can only be summed up, this person's cultivation is too strong, breaking the common sense.

"My voice should not be heard!"

Lu Ming muttered.

He hasn't been so strong in his cultivation practice yet, with the voice coming out, horror will be swallowed by the universe's black hole.

"Your voice can't be heard, but I can hear it!"

Lu Ming just muttered, and the other party's voice rang again.

"Can you hear?"

Lu Ming was overjoyed and quickly clenched his fists: "Senior, who are you, how could you be trapped here?"

"Who am I? It's a long story, but I'm curious. How come you are a little **** Emperor Jiuzhong, why are you here? No, wait..."

Suddenly, the other party seemed to find the voice, and a more gorgeous glow burst into his eyes. He stared at the land and slammed it, as if he wanted to see through Lu Ming's secrets.

"The power of taboo, you actually control the power of taboo, are you the body of taboo?"

A shocking voice came from the figure.

Lu Ming's pupil shrank suddenly and said, "How did you see it?"

He was indeed surprised.

The power of taboo is generally difficult to see from the surface. When he was in Tiangong, he didn't even see Tianjun.

And the person in front of him is so far apart from him in a cosmic black hole, and the other party is still trapped. Can he see at a glance that he is in control of the taboo?

"Hahaha, don't be surprised. I'm too familiar with the power of taboos, because my master is a taboo body, and I can't see it."

The voice laughed.

what?

Lu Ming was shocked again.

The other party's master is actually a taboo body.

Up to now, there are only three taboos known to Lu Ming.

One is Flying Phoenix.

One is the master of the ancient ancient court.

Another one is Xie Nianqing's previous life, Tang Qing's father.

Which one is the other's master? Is it one of them?

Chapter 4255: Tang Qing is my little sister

"Your master is the senior of Phoenix, or the master of the ancient ancient court, or, surnamed Tang?"

Lu Ming asked the question in his heart.

"The little guy is young and knows a lot. Let me tell you the truth, my teacher's surname is Tang!"

The figure in the black hole of the universe.

"Really surnamed Tang, is it really the father of Xiaoqing's previous life?"

Lu Ming's thoughts emerged in his heart. If it was really, then he met his own.

"Excuse me, do you know Tang Jun and Tang Qing?"

Lu Ming asked.

"Tang Jun and Tang Qing are the daughters of Master, my little sister, how can I not know each other? Unfortunately, they all died down in the first battle, but unfortunately they are talented, and their talents, But much taller than me..."

The man in the black hole sighed deeply, and suddenly thought of something, his eyes glared, staring at the landing, and said: "The two little sisters have long fallen into endless years, how do you know their names? You just said to fly Senior Huang, you know Senior Fenghuang, did she tell you, right?"

"That... Tang Qing and Tang Jun are not dead, they are still alive."

Lu Ming said.

"Alive? How is it possible, how could they live when they died in battle? Boy, do you want to lie to me!"

The man's road in the black hole.

"Uh, their previous lives did fall, but they reincarnate!"

Lu Ming said.

"Hahaha, reincarnation, how is it possible, who in the world can truly reincarnate? No, is the master successful? Yes, the master must have succeeded!"

The man in the black hole murmured first, then laughed wildly.

"Senior, what I said is true, and Tang Qing was reincarnated as Xie Nianqing, or my wife..."

Lu Ming said.

"Your wife?"

The man in the black hole was glaring again, a pair of glaring round eyes, staring at the landing sound, after a while, guessed: "Your kid is a taboo body, but it can also be worthy of the little sister, so to speak, we It's still my own, I hope your kid didn't lie to me!"

"Senior, I can swear, what I said just now is true. By the way, junior Lu Ming, I don't know what to call the senior?"

Lu Ming said.

Since the other party is Xie Nianqing's former brother, that is his own, Lu Ming naturally does not need to hide his name.

"Everyone called me the third magic sword, you just call me the third magic sword!"

The man's road in the black hole.

"The third magic sword? The name is strange!"

Lu Ming muttered.

"No, both little sisters and girls are fine, great, I must go out to meet them..."

The third magic sword spoke to himself, and at the same time, a strong breath broke out in him, struggling hard.

Wow! Wow! ...

Those chains swayed and made a violent vibration.

In the end, the third magic sword is difficult to break free.

"Damn it, my power is sealed, and it's far from heyday. I can't get out!"

The third magic sword roared, and then looked at Lu Ming again, said: "Lu Ming, you are a taboo body, and the husband of the younger sister, we are ourselves, you can help me get out, as long as you help me leave This black hole, I can take you out of here."

Upon hearing the third magic sword, Lu Ming's eyes lit up.

As long as the other party got away, he could take him away, which made Lu Ming very excited.

But immediately discouraged, but the other party is in the universe black hole, how can he help?

"Senior, you are in the black hole of the universe, I can't help at all. With my cultivation practice, once I step into the black hole of the universe, I will be swallowed by the power of the black hole of the universe."

Lu Ming said.

"That's a problem. Originally, with your taboo power, it should be able to help me cut this chain, but you can't get in at all!"

The third magic sword frowned.

After a while, the third magic sword said: "The main reason is that my strength is too weak. If I can restore some of my strength, I can pick you up into the black hole..."

"How can I help you restore some of your strength? I have some spar here, I don't know if it is possible!"

Lu Ming took out the spar that Tianxin clan gave him.

He used about half of it before, and half of it remained.

"It's useless. This energy is too weak. It's of little use to me. If I want to restore my strength, there is only one way..."

Speaking of which, the third magic sword stopped.

"what way?"

Lu Ming asked.

"I am practicing swordsmanship, and around this starry sky, there should be many corpses suspended, and even some broken **** soldiers, among them, some sword **** soldiers, which will be of great use

to me, if you are I can get a few sword-like magic soldiers to absorb me, and my strength will be restored a lot!"

"However, this world, which can also be called a cage, is patrolled by a strong man in the Temple of Heaven. If it comes into contact, it will be very dangerous."

The third magic sword.

"Broken Divine Soldier, why haven't I met before?"

Lu Ming wondered that he had only seen the corpse before, but did not see any broken magic soldiers.

"You came from that direction. That direction may not be there, but the opposite direction should be there. If I remember correctly, that direction should be an ancient battlefield with a broken Divine Soldier suspended!"

The third magic sword explained.

"Okay, I'll get you a broken magical sword!"

Lu Ming nodded, his eyes firm.

If you want to leave here, this risk must be taken.

Otherwise, he will be detained here by Tianguan all his life.

Can he be reconciled?

Moreover, even if he meets the strong man of Tiangong, the other party may not kill him, kill him, how can Tiangong get the power of taboo?

So, he decided to act.

Asked the direction, Lu Ming flew over there.

Next, Lu Ming passed at least a dozen more black holes, but none of the dozens of black holes were moving, they were all very quiet, and they didn't know whether they were dead or alive.

Lu Ming ignored them and kept moving forward.

Finally, he saw a lot of objects floating in the starry sky ahead.

Broken stars, ruined palaces, corpses of powerful men, and broken **** soldiers...

This place really looks like an ancient battlefield.

"Broken Divine Soldier of Swords!"

Lu Ming glanced at him, and began to look for the broken sword soldiers.

"Yes!"

Soon after, Lu Ming saw a war sword.

Only half of this war sword is left, but it is huge, suspended there for millions of miles.

"So big, how do you take it away?"

Lu Ming has a headache.

He flew over and tried to put it in the storage ring, but failed.

"It can only be pushed past, hope not to be found!"

Lu Ming thought helplessly.

The broken **** soldiers here must have a very high level before breaking, and they still emit terrible fluctuations, but after all, the years have passed so long, and Lu Ming can withstand the remaining fluctuations.

Chapter 4256: Promote the militia

Lu Ming put his palms against the back of the broken Divine Soldier, and then pushed hard.

Fortunately, here is the void, there is no hindrance, it is not too difficult to promote it.

Just avoid those cosmic black holes.

Two days later, Lu Ming finally pushed the broken war sword to the black hole where the third magic sword was located.

"Go!"

Lu Ming pushed hard, and the broken battle will fly into the universe black hole.

Buzz!

When the broken war sword flew into the black hole of the universe, it seemed to be under strong pressure, and the sword body vibrated.

However, this war sword is obviously very high-grade, the material is very small, extremely hard, and successfully blocked the swallowing power of the black hole.

Soon, the broken War Sword was not far from the third magic sword.

call!

The third magic sword opened with a big mouthful, and a strong attraction emerged. The broken war sword quickly flew towards his mouth.

The sword body, which was originally a million meters long, quickly shrank, flew into the mouth of the third magic sword, and disappeared.

It can be seen that the body of the third magic sword bulged slightly, but it disappeared immediately. His eyes flashed with light, and he quickly hid.

"Yes, this broken sword has restored me a lot of strength, but unfortunately it is not enough. If there are two more swords of this type, it will be almost the same!"

The third magic sword.

"I'll keep looking!"

Lu Ming gritted his teeth and continued towards the previous battlefield, and quickly returned there.

There are many broken magic soldiers here, many of which are huge and exude terrible fluctuations.

"If the ball is here, it would be cool, but unfortunately most of me can't take it away, see if it's a little small, can you take it away!"

Lu Ming thought, and then looked up.

He picked a small soldier and urged the storage ring. This time, he successfully collected the broken soldier.

"This kind of small size is really okay, then collect more!"

Lu Ming's eyes lit up.

This kind of small warrior, although not as extraordinary as the huge warrior, is not trivial. For the ball, it is definitely a treasure.

Finally, Lu Ming collected hundreds of small broken soldiers, and then stopped.

Then, Lu Ming found a huge and extremely dilapidated war sword, continued to push the war sword, and flew towards the black hole where the third magic sword was located. The sword pushed towards the third magic sword.

After the third magic sword swallowed, Lu Ming continued to return to the battlefield.

As long as there is another broken sword of the same level, it will be fine.

Lu Ming continued to search.

suddenly...

"That is..."

Lu Ming's pupils shrank, because he felt that there were lights and shadows flying toward him in the distance.

Someone has come!

Lu Ming's heartbeat accelerated, and he could move freely here, most likely from the Tiangong people.

Fortunately, he was in this battlefield, with huge corpses everywhere, dilapidated soldiers, ruined palaces, etc.

His size is as small as these, and the other party should not have found him.

However, you must find a way to hide and wait for the other party to get close, and may not be able to find him.

"What should I do? Where to hide?"

Lu Ming's thoughts turned sharply, and then he glanced at a huge corpse.

This is a huge creature like a lion, but there is no hair on the body, and some are scales.

Have!

Lu Ming flew directly towards this lion-like creature, then flashed into one of the scales.

This creature is too big, and a scale of armor is so huge that it is easy to hide.

Roar roar...

As soon as Lu Ming hid, he heard a roar.

"This is... the sound of the Dragon Yin, this is the Dragon Race? How can there be a Dragon Race here?"

Lu Ming was very surprised.

The Shenlong family was destroyed by the Tiangong, how could the dragon family appear here?

Is it also trapped here?

And listening to the sound, the breath is extremely scary, and it seems to have reached the peak state of Divine Emperor.

Lu Ming was very curious in his heart. He didn't dare to exude, but secretly peeped out of his head to watch.

Outside, there is a tank.

It can be seen that a blond middle-aged man sitting on the chariot is obviously a Celestial.

In front of the chariot, there are nine dragons.

These nine dragons are used to pull carts.

"Damn, it seems that these nine divine dragons were captured by the Tiangong, all of them are the divine dragons at the peak of the Divine Emperor, but they were used to pull the cart, which is a great humiliation!"

Lu Ming secretly said.

However, the breath has converged to the extreme.

The human race on that tank is absolutely very powerful. It is definitely the existence of a god's main land. If it is discovered by the other party, he will be in trouble.

Fortunately, the other party didn't care, just glanced at random, then driven the Shenlong, drove away, and disappeared into the horizon.

However, Lu Ming did not dare to relax, still hiding in the scales and waiting.

Half an hour passed, and Lu Ming was relieved.

Of course, Lu Ming still did not start the action, but continued to wait.

This cage, there are patrolmen in the palace.

After more than an hour passed, the patrolmen in Tiangong did not appear again, it should have gone far.

Lu Ming began to act, and found a huge broken sword, and then pushed the sword, toward the third magic sword.

Along the way, Lu Ming's spirit was very tight.

The patrolmen who didn't see the Tiangong before were okay. Now that they see it, Lu Ming is a lot nervous, and he is always on guard, fearing that the other party will suddenly appear.

Fortunately, there was no danger, Lu Ming successfully brought the broken sword to the third magic sword.

"Senior, I saw the Tiangong patrol just now, it's time to speed up!"

Lu Ming said, and then pushed the huge broken sword into the black hole and was swallowed by the third magic sword.

After the third magical sword swallowed this broken sword, a strong breath suddenly broke out in his body, and his eyes were radiant, emitting a terrible sword gas.

"My strength has recovered a lot, enough to pick you in, Lu Ming, fly over!"

The third magic sword.

"it is good!"

Without any hesitation, Lu Ming rushed directly to the black hole.

This made a flash of appreciation flash in the eyes of the third magic sword.

You know, rushing to a black hole is very dangerous. If you are not careful, you risk falling.

However, Lu Ming was very decisive and did not hesitate at all. It seemed that Lu Ming acted as a decisive person. He admired this character.

As soon as Lu Ming rushed into the black hole, he felt a terrible force of engulfment enveloping him, grabbing him and pulling him into the center of the black hole.

At the same time, this force is terrifying, as if to tearing Lu Ming's body.

Lu Ming found that with his current strength, in front of this engulfing force, it seemed very small and insignificant.

But at the next moment, a gentle force rushed over and enveloped him. Suddenly, the swallowing force outside was blocked by this gentle force.

Chapter 4257: Was found

A gentle force blocked the engulfing power of the universe's black hole. Lu Ming flew towards the center of the universe in safety and quickly came to the side of the third magic sword.

It can be seen that the third magic sword is very handsome, has a burly figure, and possesses a magical character between eyes opening and closing.

He was locked by eight dark chains, one in his body and the other extending into the deep black hole of the universe.

"The energy of this chain seems to be somewhat similar to the power of annihilation!"

Lu Ming took a look, and his heart moved.

As we approached, we discovered that this chain is also made of energy, which is very similar to the power of annihilation, but it has to be condensed many and many times, and it looks completely like an entity.

"As long as you cut off one of the chains, I will be able to get out. With your taboo power, it should not be difficult to do."

The third magic sword.

"Okay, I'll do it."

Lu Ming said.

He had a sense of urgency, and wanted to quickly rescue the third magic sword, but later changed.

There is the power of the third magic sword guarding him. He does not have to worry about the swallowing power of the black hole. He steps forward. The forbidden power condenses a war sword, and then cuts down one of the chains.

Keng!

If the sound of metal intersect sounds, the chain vibrates, and a mark appears on it.

"It's hard, but it works!"

Lu Ming's eyes lit up.

As long as it works, sooner or later it can be cut off.

The third magic sword's eyes also light up.

He was trapped in this long time, and now, he finally saw the hope of going out.

Clang clang!

Lu Ming continued to wield his sword, slashing on the chain, and the chain continued to vibrate, and the mark changed from shallow to deep, slowly sinking.

In this way, it seems that it will not be long before it can be cut off.

This is different from the chain that helped the Tianxin clan refine the seal entrance.

That kind of chain is very thick, and it needs to be completely refined, which is very time-consuming.

Although this chain is very solid, it is not thick, and it is only cut off, not refined, and the time required is much shorter.

Just as Lu Ming was slashing the chain, the battlefield where the broken Divine Soldier was collected before Lu Ming, a dragon sound sounded, light and shadow flashed, and nine Shenlong pulled a chariot and appeared.

Sitting on the chariot was the strong man of the Celestial Race that Lu Ming had seen before.

At this moment, the powerful Celestial Crow frowned slightly, his eyes glanced across the battlefield, and whispered in his mouth: "Is there always something wrong, what is wrong?"

The Celestials stepped out, stepped out of the chariot, and patrolled in the vicinity.

"No, it's a broken Divine Warrior, there are fewer broken Divine Warriors!"

Suddenly, a low growl came from the strong of the Celestial Clan.

This battlefield has been endless years, and there are broken temples, broken planets, corpses and broken magicians everywhere.

So, when he last came, he didn't care too much and glanced away.

But after he left, he always felt something was wrong, so after a turn, he went back to this place, watched carefully, and finally he was able to see the famous hall.

A lot of broken divine soldiers are missing.

Broken Divine Soldier, won't run away by himself, it must have been taken by someone.

There are only a few patrolmen in this cage. He knows the roots and roots, and certainly these people will not take them away.

"Who the **** is it? Is the existence of a black hole out of trouble? But how is this possible?"

The strong of the Celestial Clan reveals the color of thinking, but he is puzzled.

"Tell the news first, I will look it up everywhere, no matter who it is, there will be no good ending!"

The fierce light flashed in the eyes of the powerful Celestial Clan, and a few messages came out with the dream **** jade.

"go!"

The strong man of Heaven and Man cried softly, and the nine dragons screamed, twisted, and flew towards the distance.

Clang clang...

Among the black holes in the universe where the third magic sword is located, Lu Ming continued to fight hard.

After he stumbled, the chain was finally cut off, leaving only a thin layer.

"Soon!"

The third magic sword showed excitement and anticipation.

How many years has he been trapped? He couldn't count himself, at least dozens of stellar years.

Such a long distance, being trapped alone in a cosmic black hole with no sun, is a kind of torture.

In the world, not many people can bear such torture, many people will go crazy, but he pushed it up, and now, finally seeing hope.

He was finally out of trouble.

"not good!"

Suddenly, the third magic sword's face changed, and his eyes looked into the distance.

He heard the sound of Longyin sound, and then in the distance nine dragons flew with a chariot.

"The patrolman was still found, Lu Ming, you must work harder, otherwise we both will be cold..."

The third magic sword.

"It's that guy!"

Lu Ming also found the patrol, his face dignified.

He forced all the powers on his body and slashed the chain frantically.

Clang!

The last layer of the chain is thinner and will break soon.

The patrolmen also discovered this scene.

In his eyes, an amazing killer burst forth.

"Where did you kid come out? Are you looking for death? Kill!"

The patrolman roared, standing on the chariot, holding a Fangtian Huaji, the power of the sky exploded, and the Fangtian Huaji exploded across the black hole.

Suddenly, a huge halberd came out and cut towards the center of the black hole. The power was extremely terrifying.

Even across the black hole, Lu Ming could feel the terrible blow.

"This man's strong combat power is definitely not an ordinary Divine Lord. This combat power is estimated to be close to the level of Tianjun!"

A thought flashed in Lu Ming's heart, and the war sword in his hand kept on slashing.

In a blink of an eye, that huge war halberd was cut over.

But here is a black hole. Even if this person is stronger, the attack is still affected by the black hole. The closer the two are to Lu Ming, the less powerful they are.

"Jianxiao!"

The third magic sword drank lightly, and there was a long scream in his mouth. A black light spewed out of his mouth. This black light turned into a sword light. The sword light shook the sky and flew out of the sky.

boom!

The black sword light collided with the battle halberd, and a roaring shock broke out, but the excitement was quickly swallowed by the black hole.

The patrolman's attack was blocked, and the body of the third magic sword shook, and the shock chain clattered.

"Lu Ming, work harder, this guy has limited cultivation, and the attack has been swallowed up by a black hole, so I can barely block it. If there are one or two more people, we will finish it!"

The third magic sword shouted, and at the same time, he tried his best to urge the power he could urge, and it was best to resist.

It is a pity that he was blocked, and all his strength can only urge a trace. In face of such a situation, he has no bottom of heart.

"I have already used the strength of this Naina. You have to withstand it and you will succeed soon."

Lu Ming shouted and continued to slash the chain.

Chapter 4258: The third magic sword

"If you want to get away, think about it, the third magic sword, I didn't expect you to be locked up for so many years and still don't give up, then today I will kill you completely!"

The patrols shouted and continued to attack.

A huge battle halberd emerged, and slashed towards the third magic sword and Lu Ming.

He dared not rush into the black hole.

The black hole is too dangerous. Even if he rushes in with his strength, it is very dangerous, and the strength also drops sharply. At that time, it is not the third magic sword and Lu Ming, but him.

Only constant attacks outside the black hole can affect the third magic sword.

Then when the other helpers arrived, the third magic sword was dead.

"Jianming! Demon Sword Killing God!"

The third magic sword shouted, his hands and feet could not move, but he had infinite sword energy, rushed out of his body, turned into a terrible sword light, and collided with the patrol's attack.

However, the third magic sword resisted very hard.

After all, he was sealed, and the power he could mobilize was limited. Over time, his power would be ineffective.

Moreover, the third magic sword also needs to protect Lu Ming from being swallowed by the black hole, which also requires strong power. His power is dispersed and even more invincible.

At this moment, the war with the other party, the gentle power that shrouded Lu Ming, shivered. Lu Ming felt the swallowing power of the black hole and penetrated a little, and his body heard the pain of knife-cutting.

"Quick, fast!"

Lu Ming shouted in his heart, despite the pain, the forbidden power exploded in madness, slashing continuously.

Buzz!

Suddenly, there was a chain vibration.

broken!

This chain was finally cut off by Lu Ming.

Lu Ming's eyes lit up, and the third magic sword was even more ecstatic.

"The seal is incomplete, see me breaking the seal, killing the Quartet, ha ha ha!"

The third magic sword laughed long, like a demon.

boom!

A powerful breath erupted from him, and the earth was shaking. Even the cosmic black hole trembles. I don't know if it was an illusion. Lu Ming felt that the cosmic black hole was twisted.

Dangdang!

The remaining seven chains, violently shaking, constantly shaking, made an unpleasant sound.

Outside the black hole, the patrolman's face changed wildly, and deep in his eyes flashed a frightening color.

The strength of the third magic sword, he is very clear, extremely terrible, but it is one of the taboo most proud disciples. In the peerless battle of that year, Tiangong did not know how many people died in his hands.

If he is out of trouble by the third magic sword, he is definitely not an opponent, I am afraid that he will be killed by the other sword.

However, at this moment he cannot retreat.

If he retreated, Tiangong will not let him go.

Moreover, at this time, the third magic sword has not completely escaped from difficulty, he may not have no chance.

At this moment, another figure suddenly appeared on the other side of the black hole.

This is also a Celestial race, with a middle-aged appearance, blonde hair, purple and gold armor, and a very strong atmosphere.

The patrolman was overjoyed and the helper came.

"The third magic sword is about to get out of trouble. We will try our best to kill him!"

The patrolman shouted before.

"kill!"

The celestial clan strongmen from the back shouted and shot directly, terrifying attack, killing towards the black hole.

This man's combat power is equally terrifying, and it is stronger than the patrolman before, even in the Divine Master Realm, he is a master.

The patrolman in front also shot with all his strength.

Together, the two masters are more terrifying.

However, a terrible color appeared on the third magic sword's face. His body constantly rushed out the terrible sword lights. These sword lights converged into a huge magic sword and slashed out.

Bang Bang Bang!

The attacks of the two strong men of the Celestial Clan were directly split in half, and they could not get close to the third magic sword and Lu Ming.

The gentle power in Lu Ming's body was even more powerful, and the power of the universe's black hole had no effect on him.

"Break me!" The third magic sword shouted. He waved his arms and shook his legs. The whole person twisted like a dragon.

Dangdang!

The remaining seven chains, continually shaking, radiate a dazzling glory above.

However, the eight chains are one. The power of such a seal plus the power of a black hole is complete, making up the power of a complete seal.

Now, one of them was cut off, and it is incomplete. The power of the seal is worse than before.

With the earning of the third magic sword, the seven chains vibrated wildly.

Click!

At the next moment, several chains made a clicking sound, and a crack appeared on it.

Outside of the black hole, the faces of two powerful Celestials changed wildly.

The third magic sword is about to escape.

"No, if we go on like this, we are not opponents. This matter is no longer able to be resolved by us. We must inform Master Tianzun."

Said the patrolman.

"Before I came, I had notified Master Tianzun. Let's withstand it first. When Master Tianzun arrives, things will naturally be resolved."

Behind that, the Celestial Dahan Dao wearing Zijin Warframe.

"That's good, kill!"

The patrolman shouted and continued to attack.

The existence of this level of the third magic sword is no longer what they can deal with. What they can do now is to try to hold him back while trying to take advantage of the third magic sword.

Once Master Tianzun arrives, the third magic sword will not turn over.

However, the breath of the third magic sword is getting stronger and stronger. He seems to be a peerless magic sword. Every move, every place, there can be a terrible sword light. The attacks of the powerful Celestials were blocked.

And his greater strength is used to break away from the seal.

"Good strength, what is the third magic sword's cultivation practice, it is so terrifying, it seems to be comparable to the ancestor of the Celestial Clan who attacked the original God Lake!"

Lu Ming secretly horrified.

The ancestor of the Celestial Clan who won him at the beginning was so impressive that he was impressed.

The third magic sword gave him the feeling that it was no weaker than that of the Celestial Clan ancestor.

And he is just a brother of Xie Nianqing's previous life, how strong is that taboo, Xie Nianqing's father?

Click, click!

There are more and more cracks in the chain, and finally densely covered on it.

bump!

At the next moment, one of the chains with the most cracks was finally unbearable. With a click, they burst apart.

boom!

As the chain exploded, the third magic sword's breath became stronger, like a volcanic eruption, and it burst out.

Those chains are even more unbearable.

bump! bump! bump...

The remaining six chains exploded one after another.

In an instant, all the chains exploded.

The third magic sword, out of trouble.

Uh!

There was a terrifying sword light on his body, as if to split the black hole, and let the black hole continue to twist.

"No, he is out of trouble, go away!"

The patrolman's face had changed wildly before he turned and fled.

"Now I want to go, late!"

The indifferent voice spit out from the mouth of the third magic sword.

Chapter 4259: Another Tianzun

The third magic sword at the moment, with long hair fluttering like a peerless beast just out of the cage, exudes a terrible rage.

With a wave of his hand and a landing sound, he stepped out in one step and directly broke the swallowing power of the black hole and appeared outside the black hole.

"kill!"

Immediately afterwards, he slashed into the void with his bare hands, two terrible sword lights, and slashed towards the two strong men of the Celestial Clan. The speed was incredible. Anyway, with Lu Ming's eyesight, he could not see clearly. .

"not good!"

The faces of the two powerful Celestials changed dramatically, and they found that they were locked in and could not escape.

Can only fight one battle.

The two strong Celestials broke out with all their strength, pushing the fighting power to the extreme and attacking the Xeon with one blow.

At the same time, he put a lot of defense on his body, at least there are more than 100 defenses, hoping to block the attack of the third magic sword.

However, when the sword light of the third magic sword was cut off, their attack and defense were completely vulnerable.

puff! puff!

The sword light flashed over, and the two strong men of the Celestial Clan were directly split into two halves, splitting from the position of the eyebrow.

Their eyeballs, still staring round, reveal an incredible and unwilling look.

However, their breath of life has disappeared without a trace.

died!

Lu Ming was dumbfounded.

The strong of the two Celestial Clan, but there is a real God Lord Realm, and in God Lord Realm, they are top-level masters, even if compared to the Heavenly King, it will not be much different from the existence, but in front of the third magic sword , But as fragile as a baby, was easily killed by a sword.

Is this the strength of the third magic sword?

This is definitely beyond God!

"Come on, we need to find a weak spot in the space, and then break through the weak spot and rush out!"

The third magic sword.

"Senior, those nine dragons, take it away together!"

Lu Ming said.

The Shenlong family is already thin, and these nine dragons are all the existence of the peak of the Divine Emperor. If they are brought back to the dragon clan's parent star, they can enhance the strength of the dragon clan.

Lu Ming walked all the way, has a relationship with the dragon, and has a special emotion for the dragon family. When he can save, he will try to save it.

"Well, these nine divine dragons have reached the peak of the divine emperor, and after many years of hardening, the chance to enter the divine master is still quite large. Taking it out will also enhance our strength."

The third magic sword nodded, then waved his hands, and several sword lights flew out, slashing at the nine dragons, and their **** was broken, and the nine dragons regained their freedom.

As soon as the nine dragons regained their freedom, their bodies shrank and came to the third magic sword, turned into nine middle-aged men, and paid their respects to the third magic sword: "Thank you, Third Yuanzun for your help!"

"You're welcome, I knew Ao Qian from your Dragon tribe very well. They are all from my family and you're welcome."

The third magic sword.

"Senior, there is one more thing. The Tianxin clan is trapped in the prison, do you want to bring them?"

Lu Ming asked.

"No, now we are very dangerous. If Tianzun Tianzun comes, we can't walk away, we can't take more people, go first!"

The third magic sword shook his head, then waved his hand, with the landing Ming and nine dragons, and broke away.

The speed of the third magic sword is too fast, a few flashes, a large number of cosmic black holes passed by, and the next moment, came to a starry sky.

The third magic sword looked like electricity, glanced around, said: "The space here is relatively weak, I will break through the space here and go out, you are waiting!"

The third magic sword shot before the words fell.

He held out a palm and held it in vain.

Suddenly, the energy of Fangyuan's infinite distance gathered in the hands of the third magic sword, and then turned into a dark magic sword.

Uh!

The third magic sword was chopped out with one sword. The space in front of it shook violently, and the space continued to shake like water waves.

"The space here is really terrible. It is no wonder that it can be used as a cage for God's Lord's Realm. Even the God Lord is imprisoned here, and the stable is not ridiculous."

Lu Ming secretly startled.

In the wilderness universe, with his cultivation practice, he can break open the space casually.

But with the cultivation of the third magic sword, it is so difficult to break the space here.

Here, the space is still a weak point, but the third magic sword shot actually caused the space to ripple, which shows how solid the space is here.

With the strength of the third magic sword, if one sword is cut out in the wilderness universe, it can easily cut a galaxy into two pieces, and even several galaxy can be cut, destroying countless stars.

"broken!"

The third magic sword drank lightly, and there were terrible fluctuations on his body, more sword light was formed, and he continued to cut into the void in front.

The void in front of you, the vibration is more powerful, and the ripples are more.

Slowly, a crack appeared.

almost!

In this way, the space here will soon be completely penetrated, and they can go out.

But at this moment, the third magic sword's face suddenly changed.

Instead of continuing to attack the void in front of him, he turned back suddenly, slashing into a void in the distance.

At this moment, in the void, a golden spear suddenly appeared, stabbing at Landing Ming and others, but the sword light cut by the third magic sword was cut out and cut towards the spear.

when!

With a trembling roar, the spear flew out and was caught in the hand by an old man.

An old man of Celestial Clan, his hair is a little dry, but his body is still burly.

It's not the Celestial Ancestor Lu Ming saw last time. This one is much younger than the other party.

He was wearing a golden robe, and there was a terrifying breath.

"Tian Zun, Tian Zun of Tian Gong!"

A divine dragon at the peak of the Divine Emperor exclaimed, his face pale.

"Tianzun, is it a title?"

Lu Ming whispered in his heart.

Lord God, Tianzun, and Yuanzun!

All these kinds of titles he heard seemed to exist beyond the realm of God.

Lu Ming speculates that these kinds of titles are just a kind of title, a name for the existence beyond the main realm of God, not the name of the realm.

"Third Magic Sword, I didn't expect you to be able to print it out. It was really beyond the expectation of the old man. I originally wanted to suppress you to death and let you die in regret. Now, it seems that you can only beheaded! "

Tianzun, armed with a spear, stepped into the air, and his robe hunted for thunder. His momentum became more and more terrifying.

Lu Ming, as well as nine divine dragons, felt that his breathing was a little difficult.

This is the third magic sword to block most of their momentum, otherwise, under this momentum, they will be wiped out.

"I am afraid that you alone will not kill me."

The third magic sword spoke indifferently, and the momentum also continued to rise, showing its sharp edge, as if it had become a peerless magic sword.

Chapter 4260: He is a taboo body

The third magic sword is full of glory, as if transformed into a peerless magic sword, the sword rushes into the night.

bump!

The third magic sword stepped out in one step. The void under his feet was trembling, and countless sword qi diffused out. At the same time, a palm-shaking giant sword condensed in his palm, slashing down at Tiangong Tianzun.

This sword instantly crossed the void of hundreds of millions of miles and cut towards the other party.

"Goddess!"

Tian Zun spoke indifferently, and the spear in his hand continued to rotate, like a drill.

In the center of the spear, a ray of gray power burst out. With the rotation of the spear, it expanded rapidly, rushing towards the third magic sword like a mist of gray.

This kind of gray fog energy is extremely horrible, and the void seems to be corroded.

boom!

The attack of the third magic sword collided with the attack of Tianzun, and the roar continued to explode. The sword light cut by the third magic sword continued to vibrate. Above it, there were traces of corrosion.

At last the sword light touched and exploded.

This gray mist is one of the four strongest powers of the sky-human race, the power of the sky.

The power of heaven is said to wipe out everything. It is full of power of destruction and very terrifying.

However, the power of Heaven's Destruction attacked by Tianzun was also blocked by the third magic sword.

This move, the two are equally divided.

"Third Magic Sword, your strength is no more than that. See how many tricks can you stop me? Heaven destroys, heaven punishment!"

Tianzun Changxiao, swallowing the universe, he held a spear in his right hand, and stabbed out. This time, the power of Heaven's Extinction was more condensed, condensed into a lance, and pierced the third magic sword.

In addition, his left hand burst out with a white thunder, exuding a terrifying atmosphere, which is the power of punishment.

Tianzun exerts two types of supernatural power at the same time, launching a terrible attack on the third magic sword.

"Huh, if my strength is not in the peak state, you old man, I will kill, and it was not uncut!"

The third magic sword spoke indifferently, but his face was very dignified.

As he said, he was sealed for so many years. Although he swallowed several broken sword-like magic soldiers brought by Lu Ming, his strength did not return to the heyday at all.

And this Tianzun, extremely powerful, had to deal with it with all his heart.

Can't care about going up to the broken void and escaped. The third magic sword raised its power to the extreme, and the sword light was vertical and horizontal, killing Tianzun, the two strongest men, and launched a peak showdown.

Boom!

There was a big explosion in that area, the two kept fighting, and in a blink of an eye, they didn't know how to fight.

The speed of the two was too fast. Lu Ming and the nine dragons couldn't see their movements at all.

The void crack that was just broken by the third magic sword has healed automatically.

"This is going to be troublesome!"

Lu Ming frowned, feeling anxious.

The third magic sword is entangled, so if this is another master in Tiangong, not to mention the level of Tianzun, even if there is the existence of a Divine Lord Realm, they will all die.

What was really bad, Lu Ming just thought of this, and saw a few rainbow lights in the distance, flying quickly.

The speed is amazing and the breath is very vast.

Is the God Lord.

There are three figures in total, all of whom are powerful in God's Lord Realm.

Obviously, the **** master of Tiangong's realm arrived.

Most of them set off with Tianzun, but Tianzun's speed was too fast, and he arrived first, but now, several **** masters are coming.

"You, shoot, kill the nine dragons and the kid."

Tianzun's voice came out.

"Yes!"

The powerful men of the gods' realm led the order and directly killed Lu Ming and others.

"Don't think about it!"

The third magic sword was frightened and tried its best to rescue.

However, Tianzun will not make him wish.

"You still have to be careful about yourself!"

Tianzun spoke indifferently, the power of heaven's punishment and the power of heaven's annihilation urged to the terrible point, constantly bombarding the third magic sword, blocking the third magic sword's chance to shoot.

The third magic sword, after all, is not in its peak state. Its strength is still slightly weaker than that of the Tianzun. If it is forced to deal with several **** masters, that day will definitely seize the opportunity to hit him hard.

Once he is injured, their end will be more dangerous.

"He is the taboo body Lu Ming, if you kill him, you will not get the power of taboo!"

The third magic sword roared.

He also has no choice.

Lu Ming is the husband of his younger sister after the reincarnation, and he can't watch Lan Ming killed.

If Lu Ming was killed, his little sister would never let him go.

Therefore, he shouted that Lu Ming was a taboo body.

Because he knew that the power of taboo was also important to Tiangong. If these people knew that Lu Ming was the body of taboo, they would not kill Lu Ming, at least temporarily.

Sure enough, upon hearing the third magic sword's words, Tianzun and several **** masters were furious.

"Taboo Body? Lu Ming?"

"Isn't Lu Ming the mother star of the Dragon family? I only know that the other taboo body, Muyun, was taken down by my family and locked in the prison!"

"This person is not Lu Ming, but Muyun!"

Several divine lords quickly talked, and for a time, their heads were a little confused.

"The old man knows that Muyun is Lu Ming, and Lu Ming is Muyun, I am surprised, how can there be so many taboos, now it seems that we were deceived before!"

Tianzun spoke indifferently.

After all, he lived an endless period of time. He was so sly and thoughtful that he immediately inferred many things.

Lu Ming couldn't help smiling.

Originally, Tiangong thought Muyun and Lu Ming were two people. The voice of the third magic sword was equivalent to exposing his identity.

However, he is now completely opposite to Tiangong, which is an endless situation, and Qiuyue also left Tiangong, even if exposed, it does not matter.

He used to be called Muyun, but he just wanted to mix into Tiangong, but now he doesn't need it.

And it is not a matter of entanglement with the name now, because the three Divine Lords in Tiangong have already been killed.

"Death to fight!"

Nine dragons shouted, and a decisive look appeared on his face.

They were enslaved for dozens of star years, and their hearts were filled with endless anger.

Rather than being enslaved, they would rather die to war.

It's just that they couldn't even die before.

At this moment, they are fearless and fearless, and plan to fight with the **** master of Tiangong.

"Nine dragon seniors, why make a fearless sacrifice, I have a way to deal with them, you back away, stay away from me!"

Lu Ming shouted, then rushed straight ahead, toward the three **** masters in Tiangong.

Nine dragons are all stunned.

Not to mention them, even the Third Magic Sword and Tianzun are slightly stunned.

Lu Ming, actually rushed to the three Divine Lords. Isn't this a self-investment?

Is there any other card in his hand?

Both thought of this in their hearts.

"The taboo body, Lu Ming, suppress me!"

A deity lord coldly drew out a palm and grabbed towards Landing Ming.
