

D Emperor 4261

Chapter 4261: The original gods in the copper coffin

A Divine Lord shot, and a huge palm, caught towards Landing Ming.

The palm covers a million miles, covering the sky and covering the sun, and contains terrible power. Not to mention that Lu Ming is just the cultivation of God Emperor Realm. Even if Lu Ming breaks into the Divine Emperor Realm, there is no possibility of escape.

However, Lu Ming had no intention of relying on his own cultivation for hard resistance.

He directly took out the copper copper coffin.

Now, we can only rely on the copper copper coffin.

After taking out the copper and copper coffin, Lu Ming pushed the lid without hesitation.

Click!

The coffin lid was pushed open, revealing a gap, and a breath of infiltrated from the gap.

Click!

Lu Ming continued to push hard, and the gap in the coffin cover became bigger, and the breath that permeated was even more terrifying.

Even the divine masters felt that their hairs were standing upside down involuntarily, and a chill came out of their hearts.

"What is this?"

The voice of a **** is solemn.

"Regardless of what he is, a man of God Realm, what can there be, suppress me!"

The Divine Lord who shot before shouted, the offensive kept on, and the huge palm continued to catch up to the landing.

Roar!

At this time, a shrill roar came from the copper copper coffin, full of ancient vicissitudes of life, but extremely tyrannical.

Then, a palm extended from the copper copper coffin.

This is a palm covered with scales, grasping the side of the copper copper coffin and pushing hard, the gap of the copper copper coffin has become larger.

Roar!

The tyrannical voice rang again, and the palm covered with scales stretched out directly, then quickly grew larger and grabbed toward the palm of the Divine Lord.

With a bang, the palm of the Divine Lord shattered directly.

And the palms covered with scales kept on, and continued to grab the Divine Lord.

"This breath...is the original god!"

The Divine Lord exclaimed, quickly took out a war sword, gathered all the power in the war sword, and cut it out with all his strength.

The other two Divine Lords also took action and tried their best.

Three terrible attacks slashed into the palms covered with scales and collided violently.

Boom!

Three consecutive violent roars, the palms covered with scales were blocked, quickly shrank, and backed away.

However, the attacks of the three Divine Lords were all extinguished. Their own bodies receded wildly. They retreated hundreds of millions of miles in an instant. Their faces were pale, and blood was sprayed wildly in the mouth, which was hit hard.

In their eyes, all looked horrified.

The nine dragons at the peak of the Divine Emperor were even dumbfounded.

What is the copper copper coffin that Lu Ming took out? It can actually stretch out a palm, and it is extremely powerful. In one move, it will seriously injure the powerful of the three gods.

Just now, the strong man in Tiangong shouted, is the primitive god, is this copper copper coffin, is there a primitive **** sleeping?

Roar!

At this moment, a roar came from the copper copper coffin again. This time, two arms were stretched out from the copper copper coffin. One arm grasped the coffin lid, and the other arm grasped the coffin. The distance from the coffin was even greater.

Then, a figure stepped out of the copper copper coffin.

"this is?"

Lu Ming's pupil shrank suddenly.

For the first time, he saw creatures stepping out of the copper copper coffin.

Before, at most one arm was stretched out.

This creature, covered with scales and burly body, grew up quickly as soon as it stepped out of the copper copper coffin, and finally turned into a huge figure, standing on the ground, even bigger than the stars.

Primitive god!

This came out from the copper copper coffin, clearly a primitive god.

This primitive god, the breath is too strong, as vast as the abyss, unfathomable, but the breath only makes the void tremble.

His two gazes glanced at the three Tiangong Divine Lords, causing the three Tiangong Divine Lords to tremble.

"This is... primitive deity at the level of 'Master God'?"

"There is nothing wrong, it is really the original **** of the main **** level, bad, go!"

The three celestial **** gods shouted in horror and backed wildly.

Inspired by the breath, this is clearly a primordial spirit of the level of 'Master God'. The existence of this level is terrifying. It is the true pinnacle of the vastness of the universe. It is the same level of existence as Tiangong Tianzun.

This kind of existence is not something they can deal with at all. With all their effort, a slap can kill them.

Faced with this existence, they can only escape.

However, the primitive deities who walked out of the copper and copper coffins had already shot, and stepped out. His huge figure quickly approached the three **** masters in Tiangong, and slapped it with a slap.

Rumble!

The terrible energy surged towards the three **** masters in Tiangong.

There are no other techniques, only some are extremely powerful and extremely violent.

Ultimate power.

In front of this force, the three divine masters in Tiangong simply escaped.

"No, help, Tianzun help!"

"Tianzun save us!"

The three Tiangong Divine Lords call for help in fright.

But at the moment, the third magic sword shot with all his strength, blocking Tianzun, even if he wanted to rescue, it was too late.

Bang Bang Bang!

No matter how they resisted, the three powerful masters of Tiangong God's main realm were useless. When this force was pressed down, their bodies exploded directly, and all forms were destroyed.

The three powerful **** masters were directly killed by spikes.

"Damn!"

The Goddess roared.

"kill!"

After the primitive gods in the copper and copper coffins killed the three **** masters, they snarled and looked at Tiangong Tianzun again, revealing a strong murderous opportunity.

Then, this primitive **** directly killed Tianzun, and the huge fist, like a star, slammed into Tianzong Tianzun.

The powerful power makes Tianzun's face dignified.

He speared out with a spear, and a force of annihilation struck the primitive god, and the two collided.

"Kill, kill, kill!"

The primitive gods of the copper and copper coffins kept drinking, killing intently at night, stepping out, and slaying towards Tianzun, two fists burst out in a row.

Ok?

At this time, Lu Ming found a strange scene.

At the back of the primitive deity, there is a silk thread that goes deep into the back of the primitive deity, and the other end leads into the copper coffin.

This made Lu Ming very surprised.

Why is this primitive **** connected with a silk thread? It looks very strange, as if controlled by others.

At this moment, this primitive **** has already fought with Tianzun.

But at this time, the third magic sword quickly backed back to Lu Ming and they did not join hands with the original **** to deal with Tianzun.

Tiangong Tianzun, it is not so easy to kill, and at this time, when they are not killing each other, they first have to do is to leave from here.

If the time is lost due to the battle with Tianzun and more powerful people come to Tiangong, it will be more troublesome.

Chapter 4262: Cosmic ruins and era changes

Buzz!

A splendid sword light erupted in the hand of the third magic sword, and continued to slash the void, reopening the channel.

And the primordial deity and Tiangong Tianzun battle is extremely fierce.

There is no doubt that this primitive deity is the primitive deity of the main deity level, which is at the same level as Tiangong Tianzun, and the battle between the two sides is inseparable, even if the other party wants to stop the third magic sword.

In this way, the third magic sword can make full efforts to concentrate on the broken void.

A terrible sword light chopped out continuously, and the void rippled like a wave of water. Soon, a crack was cut out again.

Sigh!

Sigh!

The crack is growing.

After a few minutes, the crack was huge.

Fortunately, in this process, no other Tiangong strong came.

"Break me!"

The third magic sword shouted for a long time, and cut out a shocking sword light.

This sword light cut into the crack, the crack was quickly separated, and penetrated.

Wisps of starlight diffused.

The familiar breath also penetrated.

That's the breath of the universe's stars.

Broke.

The third magic sword finally tears the void at this weak point in space, and opens a passage through it abruptly. Outside, it is the wild universe.

"go!"

With a wave of his hand, the third magic sword landed, and nine gods rushed towards the crack.

The next moment, they will appear in the universe starry sky.

Yes, Lu Ming took a deep breath and he finally returned to the Honghuang Universe.

Because of Lu Ming's movement, the copper copper coffin was dragged, and there was a silk thread connected to the copper copper coffin in the back of the primitive god. At this moment, the primitive **** was pulled, but the primitive gods couldn't help but retreat one after another and were pulled towards Lu Ming. Their direction.

Roar!

The primitive deity shouted unwillingly, his body shrank sharply, and finally turned into a rainbow of light, rushed into the copper and copper coffin and disappeared.

With a clatter, the coffin cover of the copper copper coffin was replaced.

The infiltrating breath also disappeared without a trace.

"Hugh wants to go!"

Tianzun's Tianzun shouted and rushed towards this side. He wanted to break through the space crack and continue to kill Xiangming Lu and others.

But how can the third magic sword succeed him?

Uh!

The third magic sword chopped out the shocking sword light, and through the cracks, chopped towards Tianzun.

Tianzun had to stop to resist.

And that crack is recovering quickly.

The space here is extremely stable and very difficult to break, once broken, the recovery speed is also amazingly fast, which is far from comparable to the ordinary space of the vast universe.

The third magic sword kept shooting, blocking Tiangong Tianzun on the other side, and the crack was quickly recovering and shrinking rapidly.

Less than half a minute later, the crack disappeared completely.

"Damn it, damn..."

Tian Gong Tian Zun roared, with his heart for many years, he was extremely irritable.

This time, not only escaped a third magic sword, but also escaped a taboo body.

These two are very important.

The third magic sword is very powerful. At its peak, it can kill the same level of existence.

The taboo body is even more important. Once it grows up, it will be the enemy of the Tiangong. There is another reason that is even more unfavorable to the Tiangong.

However, both of them fled under his eyes.

"Also, what is that copper copper coffin? What is it? It is not as simple as the primitive spirit. Inside, there is a breath that I am familiar with..."

Tiangong Tianzun fell into contemplation, his face more and more solemn.

He did not continue to pursue.

Instead, he flew away and left here to discuss with other powerful people in Tiangong.

...

On the other side, the third magic sword did not stay, with landing Ming and nine dragons, and flew away in one direction.

"Everyone of the Tianxin clan, I'm sorry this time, but I swear, that one day, I will open the Tiangong Temple and let you out!"

Lu Ming looked in the direction of Heavenly Prison, secretly swearing in his heart.

In this special case, they had to leave first, but he remembered the kindness of the Tianxin Clan. Even if he tried his best in the future, he would also find a way to save the people of the Tianxin Clan.

"Senior, where are we going next?"

Adjusting his mood, Lu Ming asked the third magic sword.

"Don't call me seniors, since you are the husband of the younger sister, then we are the same generation, so you call me the third brother!"

The third magic sword.

"Third Brother!"

Lu Ming added.

"Now I want to take you to the ruins of the universe, except for there, it is not safe anywhere else."

The third magic sword.

"Cosmic ruins? Where is that?"

Lu Ming wondered.

This is not the first time he heard the name.

Before, Flying Phoenix and Ao Qing took the original Shenhui Lake and the Dragon Mother Star to go to the ruins of the universe.

Therefore, he was very curious about the ruins of the universe.

"You should know by listening to the name. It was a ruin, but not the ruins left by this era, but the ruins left by the previous era..."

The third magic sword.

"Last epoch? What do you mean?"

Lu Ming became more and more puzzled.

The word epoch involves a lot, and Lu Ming is difficult to understand.

"Everything in the world, there is a change, and it has its life. No matter how strong it is, it will always fall. Even in the wild universe, there will be a day when the withering will end."

"The vast universe we are in now has actually withered away once, experienced destruction and was born again, this is called an era!"

"The era before the destruction was called the last era, and the present vast universe is the new era, the ruins of the universe, which is the ruins left by the previous era."

The third magic sword explained.

"what?"

Lu Ming dumbfounded.

The time involved and the age involved are too long.

The Honghuang universe has two years, one is the era of the first god, and the other is the era of the Tiangong.

The Age of Gods was formed after the universe first opened.

In this last era, it is obvious that the era is far more ancient and ancient than that of the original god.

"According to the available data, the area of the universe in the last era is much larger than that of the current universe, but I don't know why, at the end of the last era, I experienced a world-destroying war, that world It was exploded and went directly to destruction, to the end, and all life was destroyed and disappeared!"

"Then, after a new evolution, it evolved into the current wilderness universe, but only a part of the area evolved into the current wilderness universe, and there are larger areas, which are still retained in the situation of ruins. Feel the traces of the devastating battle of the last era."

The third magic sword explained.

Lu Ming, and nine divine dragons, listened stunned.

For the first time, they heard such a thing.

It seems that there are still many secrets in this world that they don't know.

Chapter 4263: First smell of the wild continent

The speed of the third magic sword is too fast. Having said such a conversation, he has brought Landing Ming and Nine Dragons, crossed the unknown star field, and has no idea how far away he is from the location of Tiangong Tianluo.

At this time, even if the other party wanted to pursue, they could not find them. At this time, the third magic sword landed and stopped.

"Look!"

After stopping, the third magic sword waved his hand, and a three-dimensional picture appeared in the void.

One corner of this pattern, a little bit of starlight, looks very dazzling.

In addition to this corner, all other places are gray.

It can be seen that the place with starlight only occupies about 1% of the volume, and the gray place occupies 99%.

"This is the map of the current wilderness universe and the ruins of the universe. The place with starlight is the current wilderness universe, and the gray place is the ruins of the universe."

The third magic sword.

Lu Ming, nine divine dragons dumbfounded.

"The area of the ruins of the universe is so large?"

Lu Ming asked openly.

"Yes, in fact, the ruins of the universe plus the current wilderness universe is the entire area of the entire universe, and the current wilderness universe only occupies 1% of the area, and the other 99%, all are universes. ruins!"

"That is to say, the universe of the last era is truly vast and vast, and it is a hundred times larger than the current wilderness universe. According to the data under the control of the present, the universe of the last era is not like the present planet. For the unit."

"At that time, there was only one continent in the entire universe, named Honghuang Continent. This was a huge and endless continent. Endless creatures proliferated on this continent. Later, a terrifying war broke out, and the vast continent was exploded and turned into Countless small continents are scattered all over the universe."

"Some of the continents have evolved into different planets, and a new era has been born, which is now the vast universe."

"But most of the territory has not evolved, and it still maintains the style of the previous era, which is now the ruins of the universe."

The third magic sword continues to explain.

Lu Ming and Jiu Shenlong are totally silly.

This amount of information is really too big, it has subverted their world view, and it takes time to digest it slowly.

The universe of the last era actually had only one continent, called Honghuang Continent.

Then the Honghuang Continent was exploded and turned into pieces, and a small part of the debris evolved into planets, which is now the Honghuang Universe.

The innumerable planets of the wilderness universe are actually evolved from some debris of the wilderness continent.

And it only occupies one percent of the area.

How big was the wild continent of the last era?

It's beyond the limits of their imagination.

It was half loud, and Lu Ming and several dragons reacted.

"The really huge thing is the ruins of the universe. Since it was left in the last era, it has buried countless secrets and contains countless eras, because according to the exploration of previous people, it is known

that the last era is a real spiritual practice, the strong Such as the sand of the Ganges, there are countless treasures, and naturally there are countless treasures that have attracted countless top-level powerhouses to explore. Of course, the ruins of the universe are also very dangerous. I won't go into details with you. When it comes to the ruins of the universe, you can Learn more, let's continue to go!"

After that, the third magic sword waved again, a wave of energy rolled up Lu Ming and the nine dragons, and took them to continue flying towards the ruins of the universe.

"By Lu Ming, the copper coffin you took out before seems to be very extraordinary. I can't see through it. How did you get it?"

While flying, the third magic sword asked, he was very curious about the copper copper coffin.

"I got it in an ancient place, and I don't know its origin. I guess whether this is the coffin of a primitive god, the primitive **** who shot it before..."

Lu Ming said.

"Do not!"

The third magic sword shook his head and said, "I don't think it's that simple. You should have noticed that there was a silk thread behind the original **** before. It seemed to be controlled. This is very strange!"

The third magic sword said, frowning and thinking, after a while, said: "In short, I feel that this copper coffin is very extraordinary, I can't see through, you have to keep it well, maybe it will be of great use in the future."

"Ok!"

Lu Ming nodded, and the copper and copper coffin would naturally be preserved. Since getting the copper and copper coffin, he has saved his life many times, and he will naturally keep it well.

"Lu Ming, tell me what happened to you and the little sister, where did the little sister reincarnate? How did you know? Little sister was so high-eyed, how did she think of you? You don't want to Other people can hear me, and you can voice me!"

As soon as the third magic sword's voice changed, it went directly from the copper and copper coffin to Lu Ming and Xie Nianqing's affairs.

Lu Ming: "....."

In the end, Lu Ming told the story of him and Xie Nianqing simply by way of voice transmission. The third magic sword he heard was filled with emotion. He said that Lu Ming and Xie Nianqing were not very young and experienced many things.

"According to your statement, I estimate that the younger sister should be practicing in the ruins of the universe. Among the ruins of the universe, some of the conditions for cultivation are unique and the progress will be very fast."

The third magic sword.

"Well, if we go to the ruins of the universe, we can see Xiaoqing?"

Lu Ming was overjoyed.

He didn't expect that the news he had always wanted for Xie Nianqing could not be found, but he accidentally learned from the third demon sword.

"I can't be sure, I can only say that it is very possible. In short, I will know."

The third magic sword.

The speed of the third magic sword is too fast, and with the passage of time, the third magic sword seems to be slowly recovering, becoming stronger and stronger, and the speed is getting faster and faster.

Two days later, they crossed an unknown number of galaxies and flew an unknown number of star fields. Gradually, the starry sky became desolate.

Before, they could see a planet as soon as they flew casually. Later, they often flew a long distance, and could not see a planet.

To the back, it was completely dark, and there was nothing.

Life planets, resource planets, and even stars are not there, and the void falls into darkness.

The third magic sword informs that here is the edge of the present vast universe, and in the past, it is the ruins of the universe.

Sure enough, shortly afterwards, there was light in the void again, and then Lu Ming and the nine dragons, their eyes kicked.

They saw several huge continents floating in the void.

These continents are very vast in area, no smaller than a life planet.

Moreover, the mainland itself emits a ray of light.

Chapter 4264: Back to the original God Lake

The light they saw was emitted by several continents.

They flew closer, and there was silence on the mainland, as if there were no creatures.

"The whole ruins of the universe, except for a few special lives, have almost no creatures, and there are no planets in the ruins of the universe. Some of them are only such continental fragments. These pieces are still small, and some are vast. They are much larger than this. Hundreds of times, let's move on, our people are still deeper."

The third magic sword.

"Brother Third, what do you mean by 'our people'?"

Lu Ming asked.

Nine Dragons are also curious.

However, the Nine Dragons are only the cultivation ground of the Divine Emperor Realm. In front of the third magic sword, they don't talk about age. They only say cultivation ground. They are the younger of the younger generation. Although they have doubts in their hearts, they dare not ask.

At this moment Lu Ming asked their questions, and they immediately raised their ears to listen.

"Now, the Honghuang Universe is occupied by the Tiangong, and the Tiangong is the master of the Honghuang Universe, and 'our people' naturally refer to those who oppose the Tiangong, and those who fight against the Tiangong, we call ourselves the Destroyer!"

"At the beginning, we were defeated, and we were not opponents of Tiangong, so we retreated here and used our geographical location for defense."

The third magic sword.

They didn't stay, talking while flying.

It can be seen that one continent after another, passing by them.

Moreover, Lu Ming found that the void here is filled with a special kind of energy. This kind of energy gives people a very ancient feeling, which is different from the spirit, but it can also be absorbed and refined.

It's just that it's not as easy to refine as divine energy, and it takes more time.

In a blink of an eye, several hours passed.

"Coming!"

The third magic sword's eyes lit up, and he could be excited.

He has been suppressed by Tiangong for a long time, at least dozens of star years, and now he is finally back.

Lu Ming also looked towards the front.

There was a lot of continents floating in the void in front.

At a glance, no less than a hundred continents.

The area of each continent is no smaller than a planet in the vast universe, and even larger.

These continents are not arranged randomly. They seem to be arranged according to a certain rule, and on each continent, there is a huge ancient wood.

These ancient trees are too huge to extend into the void, like the trees of the world, even if they are far apart.

On each continent, there is an ancient wood, which emits green light and resonates with each other, forming a huge formation.

"Is Xiaoqing right here?"

Lu Ming also looked forward to it.

It has been years since Xie Nianqing left, and they have not met.

He has been trying hard to cultivate, and he still wanted to see Xie Nianqing's thoughts.

Now, is it finally time to meet?

"No, our people are not in this place, but divided into several places, so that we can take care of each other, and avoid the situation of being wiped out by the Tiangong. The forces of the Tang family are still deeper in the ruins of the universe."

The third magic sword explained.

"Oh, let's move on!"

Lu Ming could not wait, but at the next moment, Lu Ming's eyes suddenly glared.

Because, in another direction, he actually saw a planet, a huge planet.

The ruins of the universe are not without planets. Why is there a planet here, and it is extremely huge, many times larger than the average planet.

"This is... Dragon Mother Star!"

Lu Ming exclaimed.

That's right, he is too familiar with the breath of this planet, that is, the dragon star.

Lu Ming did not expect that he would meet the Dragon Mother Star here.

Immediately, near the dragon star, he saw another wonderful thing.

Yes, from a distance, it is a group.

A hazy light mask enveloped a world in it.

That is the original God Lake World.

Dragon family star and primitive **** lake world.

Lu Ming smiled, when Ao Qian and Fei Huang said they would push the Dragon Mother Star and the original God Lake World to the ruins of the universe, it seems that they are here.

"Brother Third, we will set off later, and I will meet some acquaintances."

Lu Ming said.

Although he really wanted to see Xie Nianqing immediately, Qiuyue, the gods, and the past were all in the primitive Shenhua world.

They were in retreat before, and if they knew that they had been caught by the people in Tiangong, how worried should they be?

Therefore, it is not too late to see Qiuyue first, and then Xie Nianqing.

"Alright, here, I also have some acquaintances who want to meet and see, and it's not too late to leave in a few days. Do you want to return to the Dragon Clan?"

The third magic sword nodded. The last sentence was to the nine dragons.

At this moment, the eyes of the nine divine dragons could not be moved on the dragon clan star.

At this moment, the dragon at the peak of the Nine God Emperor, with tears in his eyes and a slight tremor, was excited.

Dragon star mother star, that is their hometown.

They were enslaved by Tiangong for dozens of star years, and now they finally see their hometown.

"Senior, we are going to return to the Dragon Mother Star."

One of the dragons nodded.

"Go!"

The third magic sword waved his hand. Immediately, the nine dragons thanked the third magic sword, and then flew toward the dragon clan star quickly.

When they flew into the Dragon Mother Star, they disappeared directly into the Dragon Mother Star. The Dragon Seal outside the Dragon Mother Star did not stop them.

Lu Ming also smiled.

The dragon clan has added nine dragons at the peak of the Divine Emperor. It will recover faster, and it will be faster.

"Lu Ming, you go, I will go to my old friends too!"

The third magic sword said nothing, stepped out, and flew towards the continent, disappearing without a trace.

Lu Ming flew towards the world of primitive Shenhu.

The original Shenhu World was enveloped by a cloud of light. This is the world wall, but now there are several world walls open, equivalent to several portals.

Lu Ming flew directly.

Some people guarded the gateway, but they could see people coming and going, some flew in, some flew out.

Lu Ming guessed that the primitive Shenhu World and the creatures of that continental group should have been interacting with each other.

Lu Mingfei passed by without any inspection, and went directly into the original Shenhu Lake.

After all, it is impossible for people in Tiangong to come here, and here are all their own people.

"I don't know if Qiuyue has left the customs, let's go to the primitive Shenhu first!"

Lu Ming flew directly towards the original Shenhu Lake, wanting to see if Qiuyue had left the border.

Lu Ming just approached the shore of the primitive Shenhu Lake, and heard a roar: "Damn Tiangong, I dare to capture Lao Tzu's brother, I will soon set foot in Pingtian Temple..."

The voice was full of anger, and Lu Ming knew that it was the voice of the gods.

"Huh? Listening to the tone, the gods just knew my news. Did they just leave the gate?"

Lu Ming guessed.

Chapter 4265: Flying Phoenix's surprise

Lu Ming guessed well. At this time, Qiuyue, Panshen, and his body had all just passed the gate. Once he passed the gate, he learned that Lu Ming's "now body" had been captured. Angry roar.

Aside, Qiuyue and the "past body" both looked ugly.

"Master, your "present body", will you be alright?"

Qiuyue said to Lu Ming's "past body", her eyes full of worry.

After all, whether it's a 'past body' or a 'now body', it's Lu Ming, wouldn't she be worried?

"Relax, I can feel that the "Now Body" should be fine. If the "Now Body" falls, I can sense it. He is still alive..."

Lu Ming said in the past.

This made Qiuyue and Panshen a little relieved.

At this moment, Lu Ming's 'past body' suddenly changed its appearance, revealing a hint of surprise: "I feel that the 'now body' is very close to this place, and has already come to this neighborhood."

"What?"

On the edge, Qiuyue and Panshen, as well as several other primitive gods, were stunned.

Lu Ming's "Now Body" came here, not far from here?

Isn't it true that Lu Ming's "now body" was taken away by Tiangong?

It was almost impossible to escape from Tiangong and want to escape. How could Lu Ming's "Now Body" appear nearby?

Qiuyue and Panshen and others are a bit ignorant.

And the eyes of the 'past body' have already looked somewhere.

Although the past body and the present body cannot communicate with each other, they can still sense each other. As long as they are within a certain distance, they can sense each other.

At this moment, Lu Ming's "Now Body" is coming out of the air, looking at the "Now Body" together.

"Hahaha, I'm worthy of Lu Ming, no matter what kind of dangerous situation is encountered, I can always get away smoothly!"

Lu Ming's "past body" laughed with a smug look.

Qiuyue and Panshen and others also looked in the direction of Landing Ming's "Now Body", and they both showed surprise in their eyes.

"Master!"

Qiuyue quickly flew towards the 'now body'.

The pantheon, the "past body" and several others from the original Shenhui Lake also flew to Lu Ming.

"Master, as soon as we ended the retreat, we heard that you were taken away by the people in Tiangong. Are you okay? How did you come out?"

Qiuyue looked at Lu Ming carefully and asked several questions.

Both the pantheon and the past body also showed curiosity.

"Is such that..."

Immediately, Lu Ming told the story briefly.

Several people secretly wondered, but did not expect Lu Ming to be arrested and go to Tiangong just a few hundred years, experiencing so many things.

At the same time, Lu Ming was also looking at Qiuyue, the pantheon and the "past body", with a hint of surprise in his eyes.

The cultivation practices of the three have skyrocketed.

Needless to say, the gods are even more unfathomable.

And Qiuyue's cultivation practice, actually even broke several times, definitely more than three times the Divine Emperor, Lu Ming guessed that Qiuyue has already reached the Divine Emperor's fourfold.

You have to know that the cultivation of Qiuyue was the most important thing for the talented emperor hundreds of years ago. It can be seen how fast Qiuyue has progressed in these hundreds of years.

For hundreds of years, the three realms have skyrocketed. This speed is simply appalling.

However, the Qiuyue promotion is not the biggest.

The greatest improvement is the 'past body'.

Before entering the original Shenhu Lake, the cultivation of the "past body" was only the sevenfold.

However, not only has it broken through this great level of Divine Emperor Realm, but it has also reached Divine Emperor Triple.

This breakthrough is scary.

One can imagine how helpful the eggshells and egg whites left by the original gods were.

Lu Ming was really happy.

Pantheon is his friend, Qiuyue is his woman, and the 'past body' is even himself.

Of course, the stronger they are, the better.

"Unfortunately, I haven't broken through my cultivation base. How should I break through?"

Lu Ming sighed in his 'now body'.

He is now facing a huge bottleneck. He tried his best, but it was always difficult to overcome this bottleneck, which made him very headache.

"It seems that Senior Feihuang is going to ask. Senior Feihuang, should he be on the Dragon Mother Star?"

Lu Ming thought.

Everyone chatted for a while, and Lu Ming's "now body" asked him to go to the dragon clan star to find Feihuang and ask some questions.

"follow me!"

"The past body" said, and then stepped out, towards the dragon star mother star.

Needless to say, the 'present body' will understand the meaning of the 'past body'. The dragon clan's 'past body' is very familiar. If you want to find a flying phoenix, you will naturally need the 'past body' to lead the way.

Soon, they entered the dragon clan star and went in one direction. Soon after, they came to a Hubo.

Hu Bo is not big, but the lake is crystal clear, and the lake is full of lotus flowers.

This lotus flower is very huge, and some are several meters in diameter.

On one of the lotus flowers, there was a figure sitting cross-legged, like a fairy out of dust.

This person is Feihuang.

"Is it the real body or the soul incarnation? It should be the soul incarnation."

Lu Ming muttered.

At this moment, Feihuang opened his eyes and showed a smile: "Lu Ming, you are here!"

He didn't seem to be surprised to see Lu Ming's 'now body', as if Lu Ming could get away from Tiangong, as she expected.

"Lu Ming fluke away!"

Lu Ming clenched his fists.

"Tell me, how did you get away?"

Feihuang asked with a smile.

"Is such that..."

Lu Ming simply told the story again.

"It turned out to be the kid of the third magic sword. This kid was suppressed by Tiangong for dozens of star years, hoping to temper his temper."

After talking, he looked at Lu Ming again and said, "You should have many questions to ask me this time you come?"

"Yes, Senior Feihuang. After I reached the peak of Divine Emperor Jiuzhong, I encountered a bottleneck and couldn't break through many attempts. I don't know why? Please also ask senior to correct me."

Lu Ming said.

"The taboo body, when it reaches the limit of the big realm, is indeed more difficult to break through, because the experience of other people is completely useless and can only rely on itself, but it stands to reason that the Divine Emperor broke through the Divine Emperor Realm, although it is difficult, but it will not be too difficult, so let me see..."

Feihuang got up, stepped into the air, and landed beside Lu Ming's "now body". With a wave of hand, an energy enveloped Lu Ming, and then Feihuang's eyes radiated brilliant brightness, as if to see Lu Ming through.

At first glance, Feihuang's calm face showed a trace of fluctuation.

"Your boy, have you practiced so many ancient secrets?"

Feihuang looked at Landing Ming silently.

"Is there any problem with practicing the ancient secrets? Isn't it that you say the more secrets you practice, the better for me in the future?"

Lu Ming said, there was a bad feeling in my heart.

"Yes, the more secret techniques of taboo body training, the more beneficial it is, but you have too many of them..." Feihuang Road said.

Lu Ming: "....."

Chapter 4266: The secret of Tiangong

Lu Ming is quite speechless. Isn't that what you said, the more secrets of cultivation, the better? Why is he blaming him for practicing too much now? Why is he wrong?

Lu Ming expressed deep grievances.

"Yes, the body of taboo, the more secret techniques you practice, the better. The more secret techniques, the stronger the power of taboo, and in the future, you can use it for reference and it is easier to get out of your way. But I never imagined that you can find so many ancient secrets...you have controlled more than half of the ancient secrets."

Flying Phoenix is also quite speechless.

How did she know that Lu Ming was so perverted that she could find so many ancient secrets?

Many ancient secret techniques have been lost, and it is usually difficult to find one. Lu Ming actually found more than 1,800 kinds.

Feihuang said he was helpless.

"Then Senior Phoenix, things have already happened, how can I break through?"

Lu Ming asked helplessly.

"You want to break through now, there is only one way, and that is to rely on yourself."

Flying Phoenix Road.

Lu Ming: "..."

"What you have to do now is to take the existing mystery as the foundation, walk out of your own way, create your own peerless mystery, and then use this mystery to break through the current bottleneck in one fell swoop and you can break through to the Divine Emperor. Environment!"

Flying Phoenix Road.

"Go out of your own way and create your own secret technique?"

Lu Ming whispered.

"Yes, according to my original estimate, you have to at least reach the peak of the Divine Emperor. You only need to take this step when you break through the main realm of God, but now because you

control too many mysteries and ancient secrets, this process, You are completely advanced by a whole new level."

"However, once you get out of your way, the combat power will skyrocket and the gains will be very great."

Flying Phoenix Road.

"Thank you senior for your guidance, I will definitely do it."

Lu Ming said, his eyes were firm.

He has enough confidence in himself, besides, he still has the ancient stone.

At that time, the master of the ancient ancient court relied on the ancient ancient stone to create the three thousand ancient ancient secrets.

It can be seen how mysterious the ancient ancient stone is.

It shouldn't be difficult for him to get out of his own way, relying on the ancient ancient stone, and the secret techniques he controls now.

"Don't be too confident. If you want to go out of your way, the difficulty will exceed your imagination. Just like me, I have forgotten all the secret techniques that I used to control. I only have my own way..."

Feihuang warned seriously.

Lu Ming felt a shock in his heart. To get out of his own way, he needed to forget all the secrets?

But he is in control of more than 1,800 ancient secrets and tens of thousands of common secrets. It is too difficult to forget all this.

Seemingly seeing Lu Ming's concerns, Feihuang continued: "Of course, you don't have to worry too much. You just have to go out of your way. You don't need to forget all the secrets. Only in the later stage, you need to control the previous ones. All mysteries are forgotten, only my own way and my own way in my heart, in order to achieve great success!"

Lu Ming was relieved.

"Okay, you just need to follow this direction for cultivation, what else do you want to ask?"

Flying Phoenix Road.

"Senior Feihuang, I want to know, people here, I mean you, why do you want to fight against Tiangong?"

Lu Ming asked.

This question, he has been curious.

Why are there so many people that they must become dead enemies with Tiangong, and look like an endless one?

Is it because Tiangong rules the universe, is domineering, and other weak and small races, so it is necessary to resist strongly?

Lu Ming felt that the reason would not be so simple.

"I knew that you would ask this question."

Feihuang said, and then pondered for a while, as if thinking about wording.

"The wilderness universe, the original race, the original forces, are far more than the current ones. If you don't say anything, let's talk about the top ten races. In the long past, they are not the current ones. The top ten races have changed for several waves. , Do you know why those powerful races disappeared?"

Feihuang asked back.

"Is it destroyed by the Tiangong?"

Lu Ming said, he thought of Tianxin Race.

"Not bad!"

Feihuang nodded.

"Why did Tiangong destroy these races? Are they afraid that these races are too powerful and threaten Tiangong's rule, or are these races not subject to Tiangong's rule?"

Lu Ming asked.

"No, I tell you that the power of the Tiangong is stronger than you think. Even if these ethnic strengths are stronger, they will not threaten the rule of the Tiangong. As for the disobedience of the rule of the Tiangong, there is one thing, but it is not the main reason."

"The main reason is that Tiangong wants to extract the racial blood of these races to refine some kind of treasure!"

Flying Phoenix Road.

"what?"

Lu Ming was shocked.

This is great news, far beyond Lu Ming's imagination.

"Tiangong needs to refine some kind of treasure, or to practice some kind of exercise, it needs the blood of a strong race, and not one or two blood, but the blood of almost a family!"

"So Tiangong usually encourages all races in the connivance to compete with each other. Only competition will grow. This is the same as raising Gu. When a certain race grows to a very strong one, it is time to harvest. Tiangong will find a reason. Take action to wipe out most of the creatures of this race and extract the blood of the race."

"In the final analysis, all races in the universe are nothing more than prey kept in Tiangong, so only so many people will resist Tiangong and want to overthrow Tiangong."

"From the beginning of the Soul Heaven Court, the Ancient Ancient God Court, to me behind you, your old man, we all discovered the secrets of the Heavenly Palace, so we want to overthrow the Heavenly Palace. Only by overthrowing the Heavenly Palace can we save the universe. Family."

Feihuang explained in more detail.

Lu Ming's heart is difficult to calm down.

He never imagined that there were so many secrets in it.

Tiangong's method is cruel to the extreme.

Why cultivate some kind of treasure or some kind of exercise requires sacrificing one strong race after another in the universe. This kind of means is outrageous.

The Tianxin Clan and the Dragon Clan may have been wiped out because of this.

Tiangong is the real cancer in the universe.

Halfway through, Lu Ming calmed down.

"Senior, why do you say that the body of taboo is born to be the opponent of Tiangong? Does the kind of treasure that Tiangong wants to refine need the power of taboo?"

Lu Ming asked.

He had to think this way, because the strong man of Tiangong captured him, and he wanted to pull out the power of taboo.

"No!"

Feihuang shook his head and said, "That's because, as the power of the taboo becomes stronger and stronger, it will in turn suppress the Tiangong, which will make the people in the Tiangong weaker and weaker. Therefore, the taboo body and the Tiangong are You don't exist.

Lu Ming stunned, there is still such a thing, why?

Lu Ming immediately asked.

This time, Feihuang was silent.

Chapter 4267: Reunion of old partners

Feihuang was silent for a while, and said: "Lu Ming, this matter involves deep secrets, even the ruins of the universe, and the matter of the previous era. Now tell you that it is harmful and useless, so wait for you Whenever I am cultivated to reach the realm of God, I will tell you everything!"

"Going to God's realm?"

Lu Ming said, it was really itchy and impatient, and he wished he knew all the secrets immediately.

"Good, because there are some things that only qualify for participation in the Divine Lord."

"Like this cosmic ruin, we are just at the edge of the cosmic ruin. There is not much danger. If we want to explore the cosmic ruin and go deep into the cosmic ruin, we must at least have the cultivation of God's main realm. This is the same reason."

Flying Phoenix Road.

Lu Ming had no choice but to put his doubts in his heart, and when he got to the main state of God, he would naturally know.

"Senior, do you know where Xiaoqing is?"

Lu Ming asked.

Anyway, when I saw Feihuang, I asked Xie Nianqing where, most of them knew.

The doubts in his heart had been solved, and he couldn't wait to see Xie Nianqing.

"Xiaoqing is practicing somewhere in the ruins of the universe. You are going to find her. Hold this map!"

Feihuang nodded, waved his hand, and a map flew towards Lu Ming's "now body", and Lu Ming was caught in his hand.

Lu Ming entered the power of taboo, the jade symbol glowed, and a map emerged.

One area of the map is bright, while the other areas are dark.

"This illuminated area is relatively safe. It can be visited under the Lord of God. The area is about as large as the entire wilderness universe. Those dark areas are very dangerous. Without the cultivation of God's Lord Realm, it's a million go. No way!"

"Xiao Qing's location, right here..."

Feihuang finished speaking, held out his finger, and pointed at one of the maps, where there was a light.

"The ruins of the universe, although dangerous, are also accompanied by opportunities. This place is very suitable for Xiaoqing to practice. Xiaoqing brought some people to practice here before. You can find him along the map, yes, you Take back your stuff."

After speaking, Feihuang waved his hand and suddenly saw a dark skull flying out, and beside the dark skull, there was a metal ball.

"Lu Ming, Lu Ming, you are back!"

The metal ball cried and was very excited. Who could be the ball?

The dark skull is naturally a bone demon.

The bone demon and the ball have always been with the "now body", so when I saw two Lu Ming, they naturally flew towards the "now body".

The ball flew to the side of "Now Body", and it twirled around the ground, which was very exciting.

The bone demon flew directly into Lu Ming's sea of knowledge.

"Hahaha, the old man knew that your kid wouldn't be okay, and you will pay you back!"

Bone Demon laughed, and the same thing flew out.

The first is the "word of war", to return to Lu Ming's sea of knowledge.

Then there are the ice black stick, gale beads, and storage rings.

"All back!"

Lu Ming showed a happy look, with these possessions, it means that there are a lot of hole cards, and also have a lot of confidence.

"Okay, I have to tell you. I have told you. Go to Xiaoqing. She has missed you for so many years. She misses you too."

Feihuangdao waved his hand gently.

Fisted in the past and now, and then left.

Somewhere in the void of the Dragon Mother Star, the past body and the present body stood opposite each other, looked at each other, and then nodded silently.

Then, the radiant glow of the past body rushed towards Lu Ming, then rushed directly into Lu Ming's body, disappeared.

At the next moment, the "past body" appeared in Lu Ming's sea of knowledge.

I saw a bowl-shaped thing suspended at the foot of the "past body", which was obviously an original **** eggshell.

The "past body" sits cross-legged in the eggshell, closes its eyes, and silently perceives various source secret techniques.

Now, Lu Ming's identity has been exposed, and it is time for the two bodies to act together.

The two bodies act together, although they take some risks, both bodies are in danger when they encounter danger.

But the benefits are more.

First of all, the two bodies are together, the strength is stronger, the contingency means are more, and the hole card is more sufficient.

In addition, when gaining some opportunities, both bodies can be used.

For example, before, now the body acts alone, or some useful opportunities of the 'past body', then it will not be used and it will cause waste.

Therefore, Lu Ming decided that if not necessary in the future, the two bodies would act together.

In this case, the two bodies can be switched at will.

For example, if he now converges his breath and exudes the breath of his past body, then others will know that he is Lu Ming, at least he meets relatives and acquaintances, others will not admit their mistake.

Like Qiuyue and Pantheon before, don't you all admit that you are wrong!

After 'The Past Body' entered the sea of knowledge, Lu Ming took out a map of the ruins of the universe and took a closer look.

Then, after sending a message to Qiuyue and Pantheon, Lu Ming flew in one direction according to the map.

The ruins of the universe are very vast. The area marked on the map that they can explore is equivalent to the size of the current wilderness universe. The Dragon Mother Star is also not far away from the place where Xie Nianqing practiced.

Lu Ming flies with all his strength, and it may take a month.

Flying all the way, leaping over continents floating one by one.

These continents, although there are some plants growing, but there are few animals, it looks dead.

Of course, Lu Ming also rallied and did not dare to carelessly, after all, this is the ruins of the universe.

In this way, Lu Ming flew for nearly a month.

"It should be near this area!"

Lu Ming took out the map again and looked at it, then continued to fly for a distance.

In front, a continent appeared.

This continent is very huge, about five times the size of an ordinary life planet, and, from a distance, it is dark.

"This is magic energy, so rich magic energy!"

Lu Ming moved.

The continent in front is full of rich magic energy, which spreads from the mainland to the void.

"There is nothing wrong, it should be like this, this is suitable for Xiaoqing to practice!"

Lu Ming smiled slightly, then stepped out and rushed towards the mainland.

Huh!

As soon as he rushed into the continent, the hurricane formed by the rich magic energy swept towards Lu Ming, extremely violent.

Lu Ming waved his hand and a ray of palm knife flew out, splitting the hurricane.

However, there were more hurricanes that swept to Lu Ming.

"The hurricane is really big over this continent, let's fly at a lower altitude!"

Lu Ming thought, swooping down towards the mainland.

Sure enough, when he lowered to a certain height, the hurricane suddenly disappeared, and calm was restored, and some only had a strong magic energy.

Chapter 4268: Traces of the Terran

"I don't know where Xiaoqing is. Before I heard it, I never returned."

Lu Ming thought.

Now Lu Ming can't use the fantasy **** jade naturally, otherwise it will be easy to be caught by the people in Tiangong.

And Xie Nianqing, there is no dream magic jade, so they rely on Chuanyin Yufu Chuanyin.

Before Lu Ming was about to approach this area, Xie Nianqing passed the news, but Xie Nianqing never responded.

Lu Ming chose a direction to fly fast, and at the same time exuded spiritual knowledge, covering a large area of territory, looking for Xie Nianqing.

"Huh? What is that?"

Suddenly, Lu Ming glanced and looked in one direction.

I saw that there were several non-stop flashes in that direction, rushing towards Lu Ming at an alarming speed.

咻咻咻!

Before a few figures arrived, there were a few sharp energies that attacked the landing.

Lu Ming waved his hand and blocked several strengths, and those silhouettes had rushed to the front.

"Not a flesh and blood life!"

Lu Ming moved.

He had already seen what it was that attacked him.

A peculiar creature, not a flesh and blood body, seems to be formed by the condensed magic energy, which is somewhere between reality and reality.

Their eyes are blood red, full of tyranny, and they madly killed Lu Ming, and the powerful magic energy swept to Lu Ming.

These three peculiar creatures are not weak, and they have the power of Divine Emperor.

However, Divine Emperor's emphasis is nothing to Lu Ming.

Uh! Uh! Uh!

Lu Ming's power of running taboos, the palm of his hand like a knife, cut three knives in a row, and the three creatures' bodies exploded directly, dissolving into a plume of magical energy.

"This kind of creature should have been bred from the special environment of this continent, and there is no spirituality."

Lu Ming flashed a thought in his heart, and then moved on.

But not long after, this strange creature slammed towards the landing.

This time there were more of them, there were more than a dozen directly, and a swarm of bees rushed towards the landing.

However, the strength of these creatures is the weight of Divine Emperor, which is much different from Lu Ming's strength. It is not a quantity that can make up for it. Lu Ming shot and easily killed these creatures.

Then, move on.

However, along the way, Lu Ming continued to encounter this kind of creature's attack, and his strength gradually became stronger, and the double existence of Divine Emperor began to appear.

In the back, even the triple emperor of the Divine Emperor appeared, so Lu Ming had to take out the Ice Profound Stick to cope.

In this way, Lu Ming almost traversed most of the continent, but still did not see Xie Nianqing's trail.

However, after passing through half of the continent, the number of strange creatures condensed by magic energy suddenly decreased.

This made Lu Ming much lighter.

"Ok?"

Suddenly, Lu Ming's eyes flashed, his figure moved, and he quickly moved forward.

Because, Lu Ming found a body in front.

This is a young man who has fallen away, without the slightest breath of life, fatally wounded in his eyebrows, his eyebrows were penetrated.

"This is... the power of heaven!"

Lu Ming was shocked.

He found a ray of residual power on the wound of this young man, which was obviously the power of the heaven.

This young man was killed by the Celestial Clan.

There are celestial beings here and there.

A cold light flashed in Lu Ming's eyes, but immediately, there was a bad hunch in his heart.

This young man was probably with Xie Nianqing. Fei Huang said that Xie Nianqing did not come here to practice alone, but came with others.

Not only Xie Nianqing is suitable for practicing here, but some others who practice magic power of the Dao are also suitable for practicing here.

The ruins of the universe are the land of no lords. Those who rebel against the Tiangong can come, and those in that palace can naturally come.

Here is the master of Tiangong.

Lu Ming's pupils contracted slightly, which is not good news.

"Xiaoqing didn't answer the voice, is it?"

Lu Ming couldn't help tightening his heart, and the bad feeling became stronger.

Uh!

Lu Ming didn't care about hiding, and raised his speed to the extreme, rushing forward.

Soon after, he saw the corpse of a young man. The wound of the young man's body also had a trace of heavenly power.

Obviously, it was also killed by the strong man of the Celestial Clan.

Lu Ming felt more dignified and more anxious in his heart.

At this moment, a few condensed creatures rushed to Lu Ming and were directly killed by Lu Ming and Bingxuan.

"Tiangong, if something goes wrong with Xiaoqing, I want you to pay ten times and one hundred times..."

Lu Ming growled in his heart, a trace of blood in his eyes, and continued to rush forward.

You can already see the traces of the war here, and the bodies are also arranged in this direction, which means that he is looking in the right direction.

Lu Ming raised the speed to the extreme, flying fast.

boom!

Suddenly, a loud roar came in front of Lu Ming's eyes.

In front, there is a voice of fighting, and some people are fighting.

Here, it is either the kind of spirits condensed by the magic energy, or Xie Nianqing and the people in Tiangong.

In either case, at least some things can be learned.

Lu Ming speeded up and flew forward. Sure enough, she saw some figures fighting fiercely.

There are three figures, and two figures are under siege.

"Heavens..."

Lu Ming narrowed his eyes slightly.

Three of them are the Celestial Clan.

The other two, needless to say, knew that they should be young Tianjiao who came to practice with Xie Nianqing.

At the moment, the situation of the two men was in jeopardy. Some injuries had appeared on their bodies and they were completely crushed.

Uh!

Lu Ming rushed over directly, and the ice Xuan stick was like a violent storm, blasting towards the three Celestial Powers.

The three Celestial Powers, the highest is the Divine Emperor Triple, where can they resist the attack of the Ice Profound Stick. When the Ice Profound Stick is depressed, the three Celestial Powers are directly detonated and fall on the spot .

Huh!

Two young Tianjiao took a long breath.

"Thank you Xiongtai for helping me!"

A short-haired young man came to thank.

"You're welcome, we are ourselves, by the way, where are the others? And, do you know Xie Nianqing? Where is she?"

Lu Ming asked quickly.

"Are you here to find Xie Nianqing? She is now very dangerous. She had led a large number of Tiangong masters by herself and went in the direction of the front!"

Short-haired youth.

"Thank you!"

Lu Ming said a word, his figure flickered, and left the place directly, flying towards the front quickly.

This time, after flying a distance, Lu Ming stopped.

Because he was surrounded.

The figure flashed, and at least a dozen figures surrounded Lu Ming in the middle.

All are masters of Tiangong.

Most of them are masters of the Celestial Race, and a few are of other races.

There are young people, but most of them are middle-aged or old people, and each one is a cultivation of Divine Emperor Realm, with a strong breath.

Chapter 4269: Twins join forces to kill gods

The people in these temples are extremely powerful, because many of them are older people.

"Another rebel, but only the Divine Emperor Jiuzhong, let me take it!"

A young celestial being stepped out, his eyes cold and cold, and he slammed toward the landing.

He did not put Lu Ming in his eyes at all. He had the divine cultivation of the emperor, and he was a Celestial Clan. Just a Celestial Clan took it out and placed it among the various tribes in the Honghuang Universe, which were all genius figures.

His fighting power is enough to fight against the triple existence of the general Divine Emperor, and there is a Divine Emperor Jiu Zhong, how can he put it in his eyes.

With the palm of your hand, your energy is violent and heavier than a star.

This palm pressure, not to mention a divine emperor Jiuzhong, that is, a divine emperor with a double or double existence, must be bombarded.

Unfortunately, he met Lu Ming.

Buzz!

Lu Ming directly urged Bingxuan stick, Bingxuan stick vibrated, exhaled a violent breath, crushed towards the young man of the Celestial Race.

The young people of the Celestial Clan contracted sharply.

"No good, rewind!"

On the edge, an old man shouted, trying to save the young man of the Celestial Clan, but it was too late.

bump!

The ice mysterious stick rolled down, and the young people of the Celestial Clan were directly detonated and fell on the spot.

"you wanna die!"

"Damn rebel, sinful!"

Several big men were furious and roared, forcing to land.

These people's cultivation practices are all above the Divine Emperor's fourfold, and even the Divine Emperor's fivefold existence.

They have seen that Lu Ming is a monster, and he is in control of the big killer. His strength is extremely powerful, and he can kill the ordinary Divine Emperor in three seconds.

Therefore, they directly sent out the presence of Divine Emperor more than four times, and wanted to bomb Lu Ming in one fell swoop.

To tell the truth, this kind of strength is no longer able to cope with Lu Ming, if before changing, Lu Ming can only escape, or take out the copper and copper coffin desperately.

But now, it is not used at all.

What is difficult to deal with is the 'present body', not the 'past body'.

"Mystery of the Origin, let me come out!"

Lu Ming sipped and waved his hands, only to see his eyebrows begin to radiate dazzling brilliance.

At this moment, in the eyebrows of the "present body", the "past body" stands on the eggshell of the original deity, and the whole body is also enveloped by the gorgeous divine light, and all kinds of divine powers are fully operated.

At the same time, on top of 'Now Body', a variety of original secret techniques emerged.

The Gate of Dominance, the Horn of the Archaic Dragon, the Moon of the Moon, the Sun's Day, the Sword of Destruction, the Bell of the Heavenly Evil...

There are more than twenty kinds of source secret techniques.

Every kind of source secret technique exudes the power of terror, and has cut off many chains.

Obviously, this time in the original Shenhui Lake, the 'past body' gained a great opportunity. Not only did he cultivate for leaps and bounds, he also made major breakthroughs in the various sources of divine origin and divine power, as well as various divine secret techniques.

Therefore, although his cultivation progress was fierce, his ability to fight over the ranks was not dropped, but was stronger.

Some people get adventures, and cultivation practice will progress very fast, but in other aspects, they will be left behind. In this way, although his cultivation practice is improved, his combat power is weaker than that of his peers.

For example, some geniuses can fight across four levels in the Divine Emperor Realm, and then get adventures, and cultivate for breakthroughs and advances, reaching the Divine Emperor First Level, and even the Divine Emperor Double Level.

However, his source divine power factor, or source secret technique, did not break through and did not keep up. Then, his ability to leapfrogging would definitely become weaker, and he would not be able to fight across four levels.

Only when the cultivation base has broken through, and other aspects have kept up, can it maintain its ability to leapfrog.

And the 'past body' has not only been left behind, but has become stronger.

Roar!

There was a horrible roar in the door of the ruler, and then a huge primitive **** rushed out of the door of the ruler, very similar to when the gods cast the door of the ruler.

Immediately afterwards, the lunar moon and the day of the sun radiated incomparable light, and two diametrically opposed forces rolled down and formed a devastating energy.

In addition, the Bell of Heavenly Evil made a clear sound and hit the soul directly.

...

All kinds of primitive mysteries have different effects. They attack together, cooperate with each other, and burst out amazing power.

The first to bear the brunt is an old man with five quintessential gods. This person was affected by the Bell of Heavenly Evil, his body stiffened and his movements stopped for a moment.

Poof!

The broken sword flashed past, the old man's eyebrows were penetrated, and his soul was annihilated at the same time.

The old man's eyes were squinting round, and when he was dying, they were all incredible colors.

He was the **** emperor's five-fold cultivation practice, and he never expected that he would be killed.

How could such a terrifying attack suddenly erupted from a man in the Divine Realm?

how is this possible?

This is the last consciousness of the old man.

At this moment, other primitive mysteries also launched a stormy attack. Other people's cultivation practices have not yet had the Divine Emperor's fivefold, and they can't resist Lu Ming's attack. Various primitive mysteries fall. One was killed.

Around, there are still a few people in Tiangong who have not shot. At this moment, they are all stunned, in an incredible look.

Then, there was panic in their eyes.

Their cultivation behavior is not as good as those of the previous shots, only Divine Emperor is one heavy, two heavy, and the highest is triple.

"Run away!"

"Go!"

These people shouted in horror, and then fled westward.

But Lu Ming has already made a killing attempt. How can these people be allowed to escape?

Uh!

Lu Ming exhibited the Great Aurora technique. His body flashed and appeared next to a middle-aged man of the Celestial Clan. Bing Xuan stick bombarded and killed the person.

At the same time, the Sword of Breaking Deficiency flies through the air, and the speed is also as fast as amazing. It seems to be teleporting, passing through the eyebrows of a strong Tiangong, slashing this person.

Lu Ming has too many means, not to mention, it is now the 'past body' and the 'now body' joining forces. How can these people escape?

Within a few moments, they were all killed.

"Xiaoqing, you will be fine!"

After killing these people, Lu Ming didn't stop at all, and continued to rush forward.

Next, Lu Ming did not encounter obstacles, and soon came to the edge of this continent.

As soon as he came to the edge of the mainland, Lu Ming saw the light in front of him, and there was light shining.

It was still far from Lu Ming, but I could barely see that someone was fighting.

Most likely, it was Xie Nianqing and Tian Gong.

"go!"

Lu Ming rushed directly into the void, performing a large move technique, and moved forward continuously.

After moving more than ten times in a row, Lu Ming finally saw the specific situation in front.

A large group of people surrounded a group of people.

Chapter 4270: Xie Nianqing

A large group of people, surrounded by one, was attacking constantly.

This large group of people are all people in the Tiangong, there are the Tianren race, but also other races.

And the man who was surrounded made Lu Ming tremble in his heart.

Xie Nianqing!

The person who was surrounded was not Xie Nianqing, but who could it be?

At this moment, Xie Nianqing is completely at a disadvantage and is fully defensive.

Her body is surrounded by nine black lotus flowers. These black lotus flowers have strong defense energy. There are at least a hundred masters around the Tiangong. They are constantly attacking, but they have not broken through the defense of the nine lotus flowers.

This made Lu Ming a little relieved.

But his heart is still hanging.

Because he discovered that these people in Tiangong are too strong.

The breath is thick and unpredictable.

According to Lu Ming's experience, at least half of the people have achieved more than five levels of Divine Emperor.

Of the hundreds of masters, half of them reached the Divine Emperor's weight of five or more, which is absolutely amazing.

Some of the strongest of them are completely unable to figure out their cultivation practices, but Lu Ming has been exposed to this level of existence.

Divine Emperor Nine Heavy.

Yes, among them, at least three people's cultivation practices have reached Divine Emperor Jiuzhong.

This is almost at the pinnacle of Divine Emperor Realm, which is far from Lu Ming's resistance.

With just one move, Lu Ming can be completely killed.

However, the attack of so many masters was blocked by Xie Nianqing.

"Is this realm the sixfold of Divine Emperor?"

Lu Ming moved.

He found that Xie Nianqing's cultivation practice was also extremely high, and he reached the sixth level of Divine Emperor.

Divine Emperor Liuzhong is far away from Divine Emperor Ninefold.

However, Xie Nianqing's combat strength was so amazing that the area was completely shrouded by her special field, and under the block of nine black lotus flowers, she suddenly blocked everyone's attack.

But Xie Nianqing is still at a disadvantage and can only passively defend. It is difficult to fight back.

Although her combat power is strong, many of them are Celestial Clan. Any Celestial Clan is a genius figure. The combat power is stronger than other races at the same level.

No matter how powerful Xie Nianqing is, it is difficult to cross three levels in Divine Emperor Realm.

It is already a miracle that she can block the attack of so many masters.

But going on like this, her defense will be broken sooner or later.

"Shooting with all your strength, this is the peerless demon of the rebels, she can't stand it, and killing him is a great thing!"

A divine emperor Jiuzhong Tianren clan shouted in his middle age. The war sword in his hand exuded a dazzling brilliance and a terrible sword light. It was cut to Xie Nianqing and cut on a black lotus around Xie Nianqing's body. Violent vibration.

Lu Ming can see that the black lotus flower Xie Nianqing is not a kind of secret technique, but a treasure.

Similar to some kind of big killer, we can have such a strong defense ability.

Ok?

At this moment, Xie Nianqing felt a slight shock in his heart, and there seemed to be some kind of induction.

Upon seeing Lu Ming, Xie Nianqing's body shook, and his eyes glowed with dazzling brilliance.

"Xiaoqing recognized me?"

Lu Ming also felt a little dazed.

He is now on the road with a "present body" and he does not exude the breath of a "past body". Xie Nianqing has never seen a "present body". How can he recognize him?

Did Feihuang show Xie Nianqing what he looks like now?

Lu Ming turned a few thoughts in his heart.

At this time, the people in Tiangong also found Lu Ming.

"Huh? Another rebel came!"

"Just Emperor Jiuzhong, how to deal with those wastes, how to make a person come from!"

The existence of a divine emperor in the Temple of Heaven, Nine Heavy, spoke indifferently.

This time, more than 100 people came to explore the ruins of the universe, and they just happened to meet Xie Nianqing and others.

Tiangong and the rebels are all endless. When they meet, they are naturally a fight between life and death.

The other rebels were almost hunted clean. They concentrated most of their high-end combat power and came together to siege Xie Nianqing.

Xie Nianqing's combat power is too strong. At a young age, Xiu Wei actually reached the sixth level of Divine Emperor, which is simply incredible.

Moreover, Xie Nianqing's combat strength is too strong, such people must be killed.

They gathered most of their power to siege Xie Nianqing, and also left some masters to hunt other rebels.

The strength of the other rebels is not very strong. The power they left should be enough to hunt them all. Now, how can a **** emperor Jiuzhong appear here?

"Go and kill him!"

An old man of Divine Emperor Nine Heavy Ordered.

"I'll kill him!"

Someone responded, and then flew towards the landing.

This is the middle age of an angelic family, the breath is not weak, and the Divine Emperor is fourfold.

To deal with a Divine Emperor Jiuzhong, and the Divine Emperor's Fourfold Existence, it is 10,000% sure.

Everyone thinks so.

The middle age of the angelic family is very fast. There are eight angel wings behind him. Under the flashing, like a streamer, they rushed towards the landing Ming. In a blink of an eye, they crossed the long void and approached Lu Ming.

"Bell of Heaven's Evil, Sword of Deficiency, Door of Dominance..."

Lu Ming took a light drink, and several original secret techniques appeared on his head, cooperated with each other, and killed towards the middle age of the angel family.

Without any suspense, this angelic middle-aged man was directly killed under the attack of several original secret techniques.

Ok!

This shocked many people in Tiangong, and showed a cold killer in their eyes.

"Another peerless arrogance!"

"Never let it go!"

Several cold voices sounded.

"Hurry up!"

At this moment, Xie Nianqing sipped.

Although she knew that Lu Ming's combat power must be very strong, but Xiu Wei was too low after all. I'm afraid it was not an opponent of these powerful Tiangong.

"Want to go, huh, you can't go away with one, go kill him, and get more masters!"

The presence of a Divine Emperor Jiu Zhong ordered.

Suddenly, more than a dozen masters rushed towards the landing, and the speed was amazing.

Among them, there is no shortage of God Emperor Qizhong.

So many masters were dispatched at once to deal with a person of God Emperor Realm, which can be said to be overkill, they must kill Lu Ming in one fell swoop.

Uh!

These people haven't rushed yet, Lu Ming directly performed the big move technique, moved towards the rear, and instantly appeared tens of thousands of miles away.

"This is...the big move of the ancient secret!"

Some people in Tiangong recognized this ancient secret technique.

"Chasing apart!"

A divine emperor's seven-fold existence shouted and chased crazy towards Landing.

Divine Emperor Sevenfold, the speed is extremely amazing, even if Lu Shi exhibited the big move technique, they can't compare with each other.

However, Lu Ming was originally far away from the other party. At this moment, he continued to perform the big shift technique and constantly changed his position. The other party could not catch up with Lu Ming for a while.

"It's really waste, you surround her first, we're going to solve this kid first!"

"agree!"

The existence of the two Divine Emperors Jiuzhong spoke.
