

D Emperor 4281

Chapter 4281: Genius across level 7

Lu Ming glanced at the person.

Obviously, among the Celestial Clan, headed by this young man, other people, like the stars holding the moon, surrounded him in the middle.

And beside this young man, there is an old acquaintance of Lu Ming.

Ye Yu!

Ye Yu is a peerless demon of the Celestial Clan. Standing on the edge of this young man, you can see how extraordinary this young man is.

"Ye Yu, I heard that you lost to this kid?"

The headed youth smiled and said to Ye Yu.

Ye Yu looked ugly, staring at Ming Ming, and wished to make Lu Ming humiliated.

"Yechu Fengcheng, don't underestimate this Muyun, his fighting power is extremely amazing!"

Ye Yu reminded.

"I naturally wouldn't do it myself!"

The headed youth, named Ye Chu Fengcheng, smiled, then looked greedily at Lu Ming.

"Shoot, let's go together, don't let this kid run away!"

Immediately, Yechu Fengcheng issued an order.

"kill!"

"Kill, this kid is mine!"

As soon as Ye Chu Fengcheng's voice fell, hundreds of masters rushed to Lu Ming.

The combat power of these people is extremely amazing, including those in their prime, all of whom are far more powerful than their peers. Hundreds of them shot together and were terrifying.

After these hundreds of people shot, Ye Chu Fengcheng, Ye Yu and several other top-level celestial beings also shot, mixed in the crowd, and launched a strong blow.

"I will run away?"

Lu Ming's mouth scornfully smiled.

At the same level, he will escape? joke!

boom!

Lu Ming's body radiated gorgeous glow, such as flames burning, and many secret techniques exploded at the same time.

Lu Ming blasted several punches in succession, several punches rushed out, wherever he passed, all the attacks of the attack were instantaneously collapsed, and the punches continued to hit these people.

bump! bump! bump! ...

Wherever the punching force passed, these people exploded one by one. In a breath, at least more than thirty people were killed by Lu Ming.

Desolation, true depravity, these so-called arrogant characters are completely vulnerable to Lu Ming.

Others took a deep breath, tense, and their strength exploded in madness.

But this outbreak did not kill Lu Ming, but retreated.

They never imagined that Lu Ming's combat strength was so powerful that it was really terrifying.

"kill!"

Lu Ming drank coldly, his body rushed forward in an instant, and a few punches burst out.

This time, it was aimed at several top-level demon like Ye Chu Fengcheng and Ye Yu.

The space here is extremely stable and difficult to tear. As a result, the boxing force rubs against the space and a horrible roar erupts, which looks even more amazing.

The fist strength hasn't arrived yet. The terrible strength, the pressure of Ye Chu Fengcheng and others can't breathe well.

"not good..."

At this moment, Ye Chu Fengcheng and others were shaking.

At this moment, Ye Chu Fengcheng knew that he was definitely not Lu Ming's opponent.

At this moment, he felt a fatal crisis.

"Tianzhu!"

Ye Chu Fengcheng roared, a sword light condensed in the palm of his hand, this sword light was formed by one of the four strongest powers of heaven, the power of the heavenly sword.

And watching the fire, Bi Yeyu's power of natural punishment is a lot stronger.

"This man is in Divine Emperor Realm and can fight across seven levels!"

Lu Ming moved.

In the Divine Emperor Realm, it is absolutely possible to fight across seven levels.

Ye Yu can only cross six levels.

In addition to the Celestial Race and other races in the universe, Lu Ming has seen the strongest and can only fight across five levels.

If you meet others and fight at the same level, no one will be the opponent of Ye Chu Fengcheng. Unfortunately, he met Lu Ming, so he had to work hard.

"Curse!"

"Goddess!"

Several top evils such as Ye Yu also screamed and used the four strongest powers of heaven.

However, the fire they control is far inferior to Yechu Fengcheng, but they also have the ability to fight across six levels.

There are a total of five top-level celestial beings, exerting the strongest power of the sky, hoping to block Lu Ming's attack.

Boom...

The continuous roar erupted, shocking, full of energy, bombarded on the ground, blasting the ground out of a large pit of a dozen meters wide.

Sure enough, in the fairy city of Taishang, everything is too stable. With their destructive power, they can only blast out pits of more than ten meters.

Then, the five figures retreated backward.

Five people from Yechu Fengcheng.

Their figure retreated tens of thousands of meters backward, vomiting blood in their mouths, and their faces were pale.

Just a stroke, they have been hit hard.

Even the strongest force of the sky was instantly defeated by Lu Ming.

"I didn't die, it seems that I'm going to use all my strength!"

Lu Ming whispered, every cell in the body shivered slightly, more secret techniques combined with the forbidden power broke out, Lu Ming pushed the fighting power to the extreme.

Before, he did not explode all his strength, otherwise, Ye Chufengcheng and others were not as simple as being injured.

"Arrangement, Arrangement..."

At this moment, Ye Chu Fengcheng roared wildly, his eyes red, full of fear.

He was really scared!

In the World War I, he rarely feels scared, but he is really scared now.

He was afraid of being killed by Lu Ming.

Uh, uh, uh!

The figure flashed, and all the human races gathered around Yechu Fengcheng, Ye Yu and others.

There were a total of more than 30 Tianren tribes, just a few were killed by Lu Ming, and there were 29 others.

Twenty-nine celestial beings gathered together, and the breath formed a certain resonance. The breath of their bodies was intertwined with each other, and then a huge figure was condensed.

"Formation, is this a unique formation for the Celestials?"

Lu Ming turned a thought in his heart.

Obviously, people of other races did not participate in the formation. This is obviously a unique formation of the Celestial Clan and is related to the blood of the Celestial Clan.

"Then I will see, the formation of the Celestial Clan is unique and unique!"

Lu Ming took a sip and stepped forward, as if an ancient giant was walking, every step of the way, the void exploded.

At the same time, Lu Ming's palm was held empty, and a spear spun out.

This is one of the three thousand ancient mysteries, the Great Marksmanship!

This great sharp gun book is condensed out by the power of taboo, which contains a variety of ancient mysteries such as great destruction, great aurora, great fragmentation.

boom!

The spear became huge, and then burst out towards Yechu Fengcheng and others.

"kill!"

Ye Chu Fengcheng roared, he was the core of the formation, and urged the formation.

They condensed that huge figure, which looked like a huge Celestial Clan, holding a golden war sword and slamming toward the landing.

when!

The attacks of the two sides collided together, and a roar of earth and earth broke out, and countless strengths rushed toward all directions.

In the shock wave of the bully, Lu Ming shook his body and stepped back several steps.

However, Ye Chufengcheng and others also retreated backwards.

Chapter 4282: Bodhi stump

Ye Chu Fengcheng and others retreated at the same time with Lu Ming, this move is equally divided.

"interesting!"

Lu Ming's eyes flashed.

After these days, the Terran teamed up to form a battle, and the combat power really skyrocketed. Lu Ming has just pushed the combat power to the extreme, reaching the level of fighting across nine levels, and still being blocked by the other party.

Lu Ming was surprised, but did not know that Ye Chu Fengcheng and others were even more shocked.

They knew how extraordinary their formation was, but they still couldn't help Lu Ming.

"Is this a taboo body? The fighting power is really terrifying!"

Some people tremble in their hearts, envy and jealousy.

The fact that Muyun is a taboo body is not a secret. Many top monsters in Tiangong are aware of Tianjiao, but it is relatively rare to know that Lu Ming and Muyun are the same person.

"Let's break your formation!"

Lu Ming opened his mouth and continued to step forward, the spear swept out, and was killed towards Ye Chu Fengcheng and others.

"Shoot!"

Ye Chu Fengcheng shouted, they continued to control the formation, and fight Lu Ming.

boom! boom! ...

Next, they shot consecutively, and in a blink of an eye, they had more than a dozen moves, and none of them had a victory.

During this period, Lu Ming tried to break out the warfare tactics, but unfortunately, it was still difficult to improve his combat strength.

The limit of Divine Emperor Realm can only be fought across nine levels, no matter how many means, it is difficult to surpass.

Now, Lu Ming can reach the level of fighting across nine levels without triggering the war character tactics. After triggering the war character tactics, the combat power will not increase.

"Fighting across nine levels is just the limit of Divine Emperor Realm. When I enter Divine Emperor Realm, this restriction will be lifted. Divine Emperor Realm must be reached as soon as possible..."

Lu Ming whispered in his heart.

The limit of fighting across nine levels is only for Divine Emperor Realm. Once his cultivation base reaches Divine Emperor Realm, this limit will disappear and his combat power will be stronger.

The two sides continue to fight, and those who are not the Celestial Clan have long left, knowing that this is not what they can intervene.

Hundreds of moves were fought by both sides, and neither of them scored the winner.

"Retreat!"

At this time, Ye Chu Fengcheng shouted and gave an order to retreat.

In his heart, he suffocated, but he had to.

Because he had been injured before, and although the formation of the formation is now, the power has increased greatly, but the long-term battle will be very detrimental to them.

If their injuries are not recovered for a long time, they may affect the foundation.

So he intends to retreat temporarily.

"go!"

Twenty-nine celestial beings retreated slowly while maintaining their formation.

"Retired? Didn't you want to kill me? Just be patient?"

Lu Ming sneered, looking disappointed.

Ye Chu Fengcheng, Ye Yu and others almost vomited blood.

Their faces were blue, but Lu Ming couldn't help but retreat.

"Boy, you wait for me. It won't take long. I will carry your head back, and I will step on your body to achieve my status as the Son of Heaven!"

Ye Chu Fengcheng shouted in his heart and continued to maintain a backward position.

Lu Ming pursued for a while, then stopped and did not continue to pursue.

Because he continued to pursue, he couldn't help the opponent. After the opponent deployed the formation, the combat power was not weaker than him.

Moreover, he didn't want to waste time, he wanted to get to the bodhi stump as soon as possible.

In a blink of an eye, the figures of Ye Chu Fengcheng and others disappeared in front of Lu Ming's eyes.

Lu Ming continued to fly in the direction of the bodhi stump.

In another direction, Ye Chufengcheng and others flew millions of miles in a row before stopping.

"Damn Muyun, the humble miscellaneous pieces, I must smash you tens of thousands of corpses..."

Ye Chu Fengcheng kept roaring in his heart, his eyes were extremely fierce.

"Yechu Fengcheng, what should we do now?"

Ye Yu asked.

Yechu Fengcheng's talent is stronger than him, and his status in the Celestial Clan is also above him, so for the sake of Yechu Fengcheng's face, he has to pretend to ask Yechu Fengcheng.

Even if he already has an idea in his heart.

"Send someone to pay close attention to the movement of Muyun, and we, looking for the treasures of heaven and earth, break through the Divine Emperor Realm as soon as possible, and then Muyun will die without doubt!"

Ye Chu Fengcheng said coldly.

Although he was angered in his heart, he did not mess with the position, and he already had a strategy in mind.

"It's the only way today!"

Ye Yu nodded, and Ye Chu Fengcheng's approach coincided with him.

There are many natural treasures in Taishang Xiancheng, many of which are of great use to them.

Their cultivation practice has long reached the limit of Divine Emperor Jiuzhong, not too far from Divine Emperor Realm.

As long as the natural materials and treasures here are combined, the bottleneck will soon be broken and the Divine Emperor Realm will be reached.

Once you reach the Divine Emperor Realm, then kill Muyun, it's a breeze.

Immediately, they started to prepare for the impact of Divine Emperor Realm.

Lu Ming continued to fly towards the bodhi stump.

Next, there were no accidents.

At this first level, with Lu Ming's fighting power, he really has no fear of anyone.

Although there are many people in Tiangong or Tiangong's control, they have encountered a lot along the way. These people want to kill Lu Ming to obtain the position of the Son of Heaven or the Daughter of Heaven. Many people also act and use various means.

However, they were all defeated by Lu Ming with thunder and killed.

Along the way, he encountered a total of six assassinations and five rounds of assassination, all of which were defeated and killed by Lu Ming by thunder. A total of more than 200 masters of God Emperor Nine Heavy Realm died in Lu Ming's hands.

Of course, there is no level of arrogance like Ye Yu.

Because of the siege by these people, Lu Ming was a little delayed. Lu Ming arrived at the Bodhi stump two days later than expected.

"That is the bodhi stump, is this too big?"

Looking at the front, Lu Ming couldn't help widening his eyes, showing a surprised look.

In front, there is indeed a stump.

But it was too big and stood on the ground like a continent.

The roots of the trees, like the huge mountains, are rooted in the earth, like the gods, lying there.

Even if they are far apart, you can feel an ancient atmosphere.

As if there is an invincible existence, sitting there cross-legged.

Lu Ming saw that there were already some figures sitting cross-legged on the ordinary tree stumps, and seemed to be comprehending something.

Lu Ming flew directly.

When I got close, I realized that the bodhi stump was really too big, but it was smooth like a mirror.

"It should have been a complete bodhi tree, it seems to have been cut off by someone..."

Lu Ming speculated in his heart.

"That is..."

Lu Ming landed on the stump of Bodhi and saw another amazing scene.

In the center of the bodhi stump, there is a figure sitting cross-legged.

The point is that this figure is not an entity, as if it is illusory, looming there.

He disheveled, huge, and sitting there, there was a huge height, exuding a very powerful breath.

Chapter 4283: Taoism

The lofty figure in the center of the bodhi stump exudes a strong breath, and a kind of wild and ancient breath, as if crossing the endless years and appearing here.

"It's just a phantom, is it the strong man of the last era, after this enlightenment, is it the mark left?"

Lu Ming's pupil shrank slightly.

The last epoch is far from now. I don't know how long it is. It is unimaginable for a long time.

If it is really the mark left by the strong man of the last era after this enlightenment, the master of this mark is unimaginable.

Lu Ming's arrival immediately attracted those who had been practicing on the bodhi stump.

There are about hundreds of people.

These people have set their sights on Lu Ming.

"It's him, Muyun!"

"It's Muyun, great!"

Without exception, in these people's eyes, there is a strong murderous opportunity.

After killing Lu Ming, he can be called the Son of Heaven or the Daughter of Heaven. This temptation is too great.

Even if many people know that Lu Ming is powerful, he still cannot suppress the flame of greed in his heart.

"kill!"

Some people's eyes were red, as if they had lost their reason because of greed, and they rushed directly to the landing.

Uh, uh, uh!

The whole body was moved by one shot, one person acted, the others followed the action, hundreds of people, only a few people were more rational and did not rush to act, the others all rushed to Lu Ming.

"Originally, we practiced each other, and we were in peace, but unfortunately you just want to die, that can only accomplish you!"

Lu Ming whispered, a terrible murder flashed in his eyes.

bump!

Lu Ming stepped lightly on his feet, like a streamer, and rushed towards a young Tianjiao.

Quick, too fast!

Lu Ming's figure, like an aurora, flashed by, and then the blood leaped, and the young God Emperor Nine Heavy Powers had already separated.

His eyes were rounded, extremely unwilling.

He is the ultimate arrogant and one of the candidates for the universe arrogance list. In the future, he is expected to compete for the existence of the universe arrogance list, and he was just killed.

His pride and ambition disappeared instantly.

Lu Ming was too lazy to care that he had just killed one of the candidates of the universe's Tianjiao list. In fact, along the way, he had already killed no less than ten Tianjiao at this level.

After killing this person, Lu Ming's figure did not stay at all, and continued to kill others.

I saw a flash of aurora flashing on the stump of Bodhi, and every time it flashed, it represented a person was killed.

Within a breathing time, Lu Ming shot more than fifty times, and more than fifty masters fell into Lu Ming's hands.

At this moment, the others finally calmed down, as if there was a pot of cold water pouring on their heads, so that the fire of greed in their hearts instantly extinguished.

"This person is too strong, rewind!"

"This person is a demon!"

The rest of these people, crazy back, where dare to fight Lu Ming.

Although the status of the Son of Heaven or the Daughter of Heaven is very exciting, the gap between them and Lu Ming is too big, and it is to die to death.

Life is gone, so what's the use of status?

Those dozens of people who didn't make shots were also sweating, secretly glad that they didn't make shots just now, otherwise they would die.

In the blink of an eye, those who just shot did not leave one, only the dozens who did not.

Lu Ming glanced at the dozens of people, and the cold voice came out: "Give you three breathing time, get out!"

The dozen people's faces changed.

"Muyun, this bodhi stump is so big, enough for tens of thousands of people to enlighten at the same time, you are going to drive us away to monopolize here, is it too domineering?"

A strong man shouted.

"Yes, you can't be too domineering!"

Another young man called out,

"three!"

Lu Ming counted down coldly, and the face of the dozen people was even more ugly.

"Muyun, don't go too far!"

Someone shouted.

"What if I'm over? Stay if you want to die, two!"

Lu Ming continued to count down.

These people are ridiculous. They clearly showed their murderous intentions before, but they wanted to deal with Lu Ming, but they had more thoughts and deliberately slowed down, thinking that Lu Ming could not see it?

Lu Ming did not directly shoot out these people, but just drove them away, which was already kind.

"go!"

Seeing that Lu Ming was about to count, these people dared to stay, rushed in all directions, and disappeared without a trace.

After these people left, Lu Ming's eyes turned to the figure in the center of the bodhi stump.

Then stepped out and walked towards the figure.

This figure looks like a middle-aged man, in his fifties, with his hair scattered, sitting there, as if he is comprehending a certain avenue. The figure is looming, but there is a mysterious breath faintly.

Lu Ming seemed to be fascinated, and kept walking towards the figure. Slowly, Lu Ming approached the figure, then sat cross-legged, and sat down on the edge of the figure.

Suddenly, Lu Ming felt himself in a wonderful state.

At this moment, it seemed that the road between heaven and earth was reasonable, and the initiative came to his mind.

Many questions that couldn't be figured out, Lu Ming figured it out at once.

This feeling is very similar to the original Shenyin, but different.

Under the hood of primordial Divine Sound, it will be very quick to comprehend all kinds of mysteries, but here, not only can help people understand the mysteries, but also help people understand the truth.

In Lu Ming's mind, the previous experience, all the magical techniques and secrets previously practiced, etc., generally flash out, and then slowly fade away and become blurred, and then, a mysterious and mysterious feeling, Going up again.

Lu Ming's heartbeat accelerated uncontrollably.

He knows that this mysterious and mysterious feeling is probably the way he wants to go, his unique way.

As long as he grasps it and realizes it, he can walk out of his own way, break the bottleneck and step into Divine Emperor.

He wanted to catch it, but it was just a mysterious and mysterious feeling, like a dreamy empty flower, which could not be caught.

Lu Ming knew that he could not be in a hurry.

Being able to find this feeling at once is already a great improvement.

This feeling is like inspiration. In other places, it is difficult to find how hard it takes and how much time it takes, but here, I found this feeling at once, which shows how much this bodhi stump is. Mysterious.

Lu Ming knew that he could not be in a hurry, as long as he grasped this feeling and realized slowly, he could always clear the clouds and see the blue sky.

Lu Ming calmed down and meditated.

Time passed quickly, and a year soon passed.

During this year, naturally someone came here and saw Lu Ming.

These people saw that Lu Ming was practicing, and naturally they wanted to kill Lu Ming. Too.

And Lu Ming also left a part of his mind to pay attention to the outside situation, these people naturally can not deal with Lu Ming.

Chapter 4284: Celestial

After a year of cultivation, Lu Ming has made great progress.

Originally, for the way he wanted to go, it was just a mysterious and mysterious feeling, as if there were heavy fog in front, blocking Lu Ming's eyes, making it difficult for Lu Ming to see the truth.

But now, after a year of cultivation, this heavy fog has been stripped away by Lu Ming. The road ahead is clearer. As long as time passes, he will be able to understand his own secret art and walk out of his own way.

During this time, many people who have come from outside have made major breakthroughs.

In particular, some people have already reached the peak of the Divine Emperor's Ninefolds. After entering the Taishang Xiancheng, they made great progress with the help of the heaven and earth treasures. Many people directly broke through the realm and reached the Divine Emperor Realm.

Such as Yechu Fengcheng, Ye Yu and others.

In a majestic peak, a strong breath rushed out, and a figure rose into the sky, with long golden hair flying.

This person is Ye Chufeng City.

At this moment his breath is many times stronger than before, the power of the sky rises in the sky, terrifying.

He broke through and reached the divine realm of Divine Emperor.

"Finally break through Divine Emperor's weight, Muyun, this time see how you die?"

Ye Chu Fengcheng roared in his heart, revealing the murderous opportunity.

"Congratulations to the son of Fengcheng, breaking through the Divine Emperor, the son of the next day, just around the corner!"

A few celestial men flew over, respectfully saluted, and patted for a while.

Ye Chu Fengcheng was extremely useful, with a smile on his lips, said: "I want you to always pay attention to the whereabouts of Muyun, but there is news?"

"Yes, this year, Muyun has been practicing at the bodhi stump."

A strong man answered.

"He didn't break through?"

Yechu Fengcheng Road.

"No, there has been no movement!"

A strong man answered.

"Very well, I heard that the taboo body is extremely difficult to break through the big realm. That kid must have encountered a bottleneck and it is extremely difficult to break through. Ye Yu and others seem to be breaking through soon. After they break through, kill them together and let The kid from Muyun lived a few more days."

Ye Chu Fengcheng said coldly.

In the last battle, he was frightened by Lu Ming's fight, and he felt a little guilty in his heart. Even if he broke through, he would not dare to kill him.

He wanted to wait for others to break through the Divine Emperor and kill them together, so that in case something happens, they can set up a formation and be invincible.

In this area, there are a large number of Celestial Clan, and the evil characters of Tiangong Yu, as well as some Sky Soldiers.

Every few days later, someone will break into the Divine Emperor Realm.

Three months later, more than 60 of these people broke through to the Divine Emperor Realm.

As for others, the breakthrough failed.

It has to be said that the environment of Taishang Xiancheng is really good. If they are outside, it is absolutely impossible for them to have so many people who can break through to the Divine Emperor Realm.

Even if these people are all arrogant figures, the ratio of breakthroughs will not be so high.

The Divine Emperor Realm is not so good to break through, most people will be stuck at the peak of the Divine Emperor Jiuzhong, and it is difficult to break through.

Therefore, when Taishang Xiancheng appeared, it would shake the entire wilderness universe, and almost all the characters of Tianjiao came in.

Because if you don't come in the fairy city, the cultivation base will be overtaken by others, and it will be difficult to catch up.

More than sixty people reached the Divine Emperor Realm, giving Ye Chu Fengcheng confidence.

"Departure, go to the bodhi stump, kill the kid from Muyun, and then break the void to the second world."

Yechu Fengcheng gave the order.

In this first-tier world, the Tiangong side is the highest status of Yechu Fengcheng, and others naturally listen to him.

A group of people flew toward the bodhi stump.

Ten days later, they came to the bodhi stump.

"Muyun's kid, it really is here!"

Ye Chu Fengcheng looked at the stump of the Bodhi, and a cold killer burst into his eyes.

Other people are similar, and the killer burst out in their eyes, just like looking at a piece of treasure, looking at the landing song.

"These guys, here!"

Although Lu Ming was practicing on the Bodhi tree stump, he still felt the arrival of Yechu Fengcheng and others.

Lu Ming frowned, and this time came the critical period of his cultivation.

The mist shrouded in front of him was getting weaker and lighter, and he became more and more clear about the way he was going.

But there was always a trace, and there was no thorough exploration.

Ye Chu Fengcheng these people are really not the time.

"No matter, continue to practice!"

Lu Ming's eyes flashed, and he began to realize.

At the same time, all kinds of defensive ancient secrets of his body, such as the big defensive technique...

A heavy mask, or shield, or turtle shell emerged, and Lu Ming shrouded it.

"Huh, what can you do to defend yourself? It's not about dying. Let's do it together and kill Muyun!"

The indifferent voice of Yechu Fengcheng sounded, and he rushed towards the bodhi stump first.

Others followed Yefeng Fengcheng and flew up to the bodhi stump, then rushed towards the landing Ming.

咻咻咻!

The man hadn't arrived yet. After a series of attacks, he flew out of the air and drove towards the landing.

However, the figure in the center of the bodhi stump exuded a mysterious breath. When these attacks were not close to Lu Ming, and there was still a certain distance from Lu Ming, the breath emitted by the figure was automatically dissipated Come.

"How is it possible? Was this figure left in the last era?"

Ye Chu Fengcheng was shocked.

"The figure left in the last era, I don't know how long I have been dead, and I want to stop me, Tianzhu, break me!"

Ye Chu Fengcheng shouted, turned out the power of Tianzhu, and with a sword light, slashed towards the landing Ming.

But the situation is the same as before. The sword light condensed by the power of the heavenly blessing hasn't approached Lu Ming yet. It was melted by the breath emanating from the figure, disappearing without a trace, like a drop of water entering the sea. , Did not cause a trace of waves.

"How is it possible? One of the strongest natural forces in my family, how could it be so easily melted?"

Ye Chu Fengcheng shouted inconceivably, this situation made him a little difficult to accept.

The power of Tianzhu, but the four strongest powers of the Celestial Clan, are indestructible, without breaking things, but before they are close, they are melted, which is a stage blow to his self-confidence.

"Curse!"

"Goddess!"

Aside, Ye Yu and others did not believe in evil, and they also shot. The power of heaven punishment and the power of sky destruction also hit Lu Ming, but it was the same result as Ye Chu Fengcheng. Melt away.

This has hit people of the Celestial Clan.

This is the supreme power of the Celestial Clan, so useless?

"The master of this figure is too strong, so we can melt our power. It is not that our clan's supreme power is too weak. Since the attack cannot be approached, then we will go by ourselves and draw closer!"

After all, Yechu Fengcheng is a peerless evil, and he quickly calmed down and gave the order.

Chapter 4285: Breakthrough, Divine Emperor Realm

Ye Chufengcheng and others, instead of continuing to attack Lu Ming, rushed towards the landing Ming, wanting to get closer, and then attacked.

More than sixty people rushed to Lu Ming, all masters who broke through to the Divine Emperor Realm.

However, when they were within a certain distance of Lu Ming, they were under pressure.

This pressure comes from the figure under the Bodhi tree.

This pressure slowed down these people.

"Continue to rush!"

Ye Chu Fengcheng shouted and led people to continue to rush to Lu Ming.

However, although these people's cultivation practices have reached the weight of Divine Emperor, but their strengths are strong and weak.

For example, in the Divine Emperor Realm, the worst can only fight across two levels. The strongest Yechu Fengcheng can cross seven levels, and the difference in strength is huge.

Therefore, some repairs are relatively weak, and the speed reduction is the most severe.

But Ye Chu Fengcheng and others are not affected, and the speed is still very fast.

As everyone moves forward, the strength is stronger, the more obvious the distinction is.

Cultivation is weak, the speed is getting slower and slower, and finally some people simply stopped, making it difficult to move forward.

Slowly, only a few people continue to move forward.

After a few minutes, there were only five people who could continue to move forward.

These five people are Ye Chufeng City, Ye Yu and some of the strongest Tianren Clan Tianjiao. When in the God Emperor Realm, they can at least cross the six levels of existence.

Although they are under strong pressure, they can still withstand it.

They kept stepping forward, and they were very short from Lu Ming, which was less than ten meters away.

This distance is already within Lu Ming's defense range.

"Muyun, die for me!"

Ye Chu Fengcheng drank coldly and shot strongly. Tianzhu's force slammed towards the landing.

At the same time, the four of Ye Yu also shot, all of which are the power of the sky.

The terrible attack screamed and rushed towards the landing.

Lu Ming didn't fight back. At this moment, it was a crucial moment for him to practice.

"Come on, come on, let me take advantage of your attacks, take advantage of the threats you bring, make a breakthrough in one fell swoop..."

Lu Ming shouted in his heart, and his eyes showed a terrible color.

Yechu Fengcheng and others have reached the level of Divine Emperor, and their combat power has skyrocketed, posing a fatal threat to Lu Ming.

Their fighting power is enough to kill Lu Ming.

Lu Ming wanted to use the threat brought by him to inspire his potential indefinitely, and then use Bodhi stumps and ancient stone to make breakthroughs in one fell swoop and walk out of his own way.

Boom Boom Boom!

Five consecutive roars sounded, and five attacks struck Lu Ming.

Lu Ming's heavy defense continued to break apart.

Ye Chu Fengcheng and others, who were originally peerless evils, have strong combat power. Now they have broken through to the Divine Emperor Realm, and their combat power has already exceeded Lu Ming.

The defense on Lu Ming's body was torn apart one by one, and there were more than two hundred defenses. They were all torn by Yechu Fengcheng and others. The terrible force bombarded Lu Ming's flesh.

Lu Ming's body flew out directly, gliding thousands of miles away, his body was bombarded with several big holes, ragged, bones and flesh flying around, blood flowing, it was terrible.

Obviously, this trick caused Lu Ming to be hit hard.

However, Lu Ming is a taboo body, as long as he did not destroy all his cells at once, he would be fine.

But Ye Chufengcheng and others have been overjoyed.

"Muyun was hit hard, he was dead!"

Ye Chu Fengcheng's eyes were bright, revealing infinite ecstasy, as if he had seen the future when he was called the Son of Heaven.

"Muyun, die for me!"

Ye Chu Fengcheng roared, stepped out, and rushed to Lu Ming alone.

Lu Ming has been hit hard, and the last move naturally requires him to come in person, so that the credit can be enjoyed exclusively by him.

Soon, he was approaching Lu Ming again.

But at the moment, Lu Ming's eyes did not panic, only surprises.

Yes, surprise!

At the moment of life and death, he finally realized it, peeled off the mist, and saw his own way.

He finally realized a secret technique of his own.

"Give me a break!"

Lu Ming growled, exuding brilliant light, as if turned into a spear.

Since his cultivation, most of the weapons he used belonged to spears.

Therefore, when enlightening his own secret art, he subconsciously took the spear as the foundation, and the secret art he learned was similar to the marksmanship.

Uh!

The sharp sharp guns soared into the sky, pierced the sky, and pierced Lu Ming's bottleneck.

boom!

A strong breath erupted from Lu Ming's body. This breath was extremely powerful, more than ten times stronger than before.

This is no longer the breath of Divine Emperor Realm, but belongs to Divine Emperor.

Breakthrough!

Lu Ming realized his secret path, and finally broke the bottleneck and reached the Divine Emperor Realm.

As soon as he reached the Divine Emperor Realm, Lu Ming's body continued to have power, and Lu Ming's injury recovered at an alarming rate.

boom!

Lu Ming burst out with a punch, and the destruction-like force rolled out and collided with Ye Chu Fengcheng's attack. Ye Chu Fengcheng's attack collapsed instantly.

"Breakthrough, how is it possible?"

Ye Chu Fengcheng shouted.

Just now Lu Mingming has not yet made a breakthrough, and then was hit hard by them again, it seems that they are almost dying.

A person who was about to die suddenly broke through to Divine Emperor Realm, who said it?

"Last time I let you go, and now I don't know if I'm dead or alive, let's get rid of you completely!"

Lu Ming spoke indifferently, and there was a cold murder in his body.

He stepped out one step closer to Yechu Fengcheng.

boom!

Another punch, the immense power, crazily crushed towards Yechu Fengcheng. The terrible power caused Yechu Fengcheng's pupils to contract sharply.

The power of this punch is no longer able to resist him.

Lu Ming just broke through, and his strength was above him.

Ye Chu Fengcheng backed frantically, retreated to the side of Ye Yu and others, shouted: "Shoot together!"

"Tianzhu!"

"Curse!"

...

Ye Chu Fengcheng, Ye Yu and others shot wildly and bombarded with Lu Ming's fist, but the result was that their figure retreated suddenly and coughed up blood.

"I just broke through, and my strength has not yet reached its peak. It's a pity!"

Lu Ming murmured.

He had just broken through, and the cultivation base was not stable yet, and he was still in the ascending period. Therefore, that move just injured Ye Chufengcheng and others, but not killed them.

"Retreat, fast retreat, lay down the array to kill this kid, he has just just broken through, the realm is not stable yet!"

Yechu Fengcheng roared, retreated with Ye Yu and others, and merged with other Divine Emperors of the Celestial Clan.

During this time, they gathered more masters of the Celestial Clan, more than 60 people broke through the Divine Emperor, of which the Celestial Clan accounted for half, and there were 32 people.

There were more than 29 people who did not deal with Lu Ming last time.

Thirty-two people, and all of them hit the Divine Emperor Realm, after the formation of the formation, the power was even more terrifying.

Chapter 4286: Break through

After these few times, Ye Chu Fengcheng was already frightened by Lu Ming, so as soon as he found out that the situation was wrong, he immediately formed a battle front and wanted to kill Lu Ming with the strongest power.

Thirty-two divine emperors of one heaven and human race intersect with each other, and then condense a huge figure.

Holding a war sword, this figure killed Lu Ming.

In this sword, there are actually three kinds of supernatural powers, namely Tianzhu, Tianpu, and Tianmei!

"bring it on!"

Lu Ming stepped out and exuded gorgeous glow like flames.

He punched with a punch, a huge punch, containing a destructive force, and blasted into the huge figure condensed by the Celestial Clan formation, colliding with his war sword.

With a violent roar, the war sword was blocked, Lu Ming's fist broke and his body stepped back a few steps.

This trick, Lu Ming fell a bit down.

After all, he has just broken through.

Seeing Lu Ming falling downwind, Yechu Fengcheng and others were ecstatic.

"That's right, this kid just broke through and the combat strength is not strong. We slammed and killed him!"

Ye Chu Fengcheng shouted.

Thirty-two strong Celestials urged the large formation to rush towards the landing Ming, and the huge figure waved the war sword and slashed to Lu Ming crazy.

boom! boom!

The two sides confronted a few more tricks, Lu Ming still fell.

This made Ye Chufengcheng and others more confident, and launched an attack with all his strength, and wanted to kill Lu Ming as soon as possible.

"Try the warfare tactics!"

Although Lu Ming fell in the downwind, he did not panic at all.

He still has no cards to use.

For example, Zhanzi Jue.

In the Divine Emperor Realm, because of the restrictions, at most, the fighting power that broke out across nine levels could be erupted, so even if he triggered the battle word tactics, the fighting power would not be improved.

But now it is different. Now it has broken into the Divine Emperor Realm, and the restrictions of the Divine Emperor Realm have also disappeared.

It should be able to explode stronger power.

In an instant, the warfare tactics triggered six times the combat power.

boom!

A stronger force emerged from Lu Ming.

boom! boom!

Lu Ming's double fists blasted out in succession, and the force of fist, like a meteor, hit the formation of the Celestial Clan.

This time, the situation was completely opposite to the previous one. The terrifying fist strength defeated the sword light condensed by the Celestial Clan Formation. The huge figure shook and the light was dim.

But Ye Chufengcheng and others, the body trembling, retreating backwards, feeling that the blood in the body was tumbling, almost vomiting blood.

Their eyes rolled round.

"How is it possible, how is this going? How could his combat power suddenly soar?"

Yechu Fengcheng shouted hysterically.

If you don't understand, there are ten thousand in your heart.

The same is true of Ye Yu and others.

Lu Ming's fighting power broke out before, and he is clearly doing his best. Why is the current fighting power skyrocketing again?

"I can't understand such a simple truth? In Divine Emperor Realm, crossing nine levels is the limit. I am restricted. Now that I have broken through the Divine Emperor and the restrictions are lifted, I am naturally stronger, do you understand?"

Lu Ming's faint voice sounded.

The reason why he explained is to attack Ye Chufengcheng and others, hoping to make flaws in the formation.

Sure enough, Ye Chu Fengcheng and others listened to Lu Ming's words, and they were shocked one by one, showing incredible colors.

"Impossible, this is impossible..."

Yechu Fengcheng shouted like a huge blow.

He is hard to believe and hard to accept.

What did Lu Ming say? When he was in the Divine Realm, his combat power was limited?

Reached fighting across nine levels, still restricted?

Nine levels are already at their peak. Who can achieve them?

Yechu Fengcheng has reached seven levels of fighting, and has been known as the celestial demon of the human race, even if there are not many in the entire human race.

In the universe, it has achieved fighting across four levels, all known as peerless arrogance, and is a candidate for the universe arrogance list.

However, Lu Ming has reached nine levels, which is not yet the limit, because it is limited, it is difficult to exert the strongest fighting power.

More people than people, maddening!

They were hit hard.

Under the shock of Ye Chufengcheng and others, the formation of the formation naturally appeared flawed.

The huge figure shook, and the light dimmed.

Although this is only a brief moment, for Lu Ming, this moment is enough.

"Tiangong is going to bully me, then this mysterious technique is called breaking the sky!"

Lu Ming's indifferent voice sounded, his whole body exuded a dazzling radiance, the whole body was completely transformed into a spear.

Uh!

Lu Ming turned into a spear and flew through the air, stabbing at Yechu Fengcheng and others.

This secret technique was created by Lu Ming. It is based on the tens of thousands of common secret techniques and more than 1,800 kinds of ancient secret techniques previously controlled. The essence of this secret technique is also the most suitable secret technique for Lu Ming.

Lu Ming called this type of mysterious technique the ground breaking type.

This is his first secret technique, and there will be more in the future.

The self-made secret technique is the most suitable for you to perform, and the power will be greater. It will be more powerful than any secret technique controlled by Lu Ming.

Casting this secret technique, Lu Ming's combat power reached its current peak.

The first to bear the brunt is the huge figure condensed by the burst of law.

The spear collided with this huge figure, and with a bang, the figure condensed by the formation directly burst.

The spear continued to stab at the formation of Yechu Fengcheng and others.

boom!

The earth-shattering explosion sounded, the dazzling divine light pervaded in all directions, the body of the thirty-two Celestial Clan was trembling, among which five or six were the weakest, the body was trembling, and the body seemed to be pierced by a dozen holes, blood Direct current, and then fell down underground, no more breath.

These five or six Divine Emperor heavyweights were shocked to death by Lu Ming's attack.

Everyone else retreated backwards.

Great formation, broken!

"kill!"

Lu Ming's indifferent voice sounded, and he stepped into the sky, shaped like an electric power, and slayed towards these backward Celestial Powers.

The gunman flashed, and several strong men with a heavy weight of the emperor were pierced by the gunman's hole and were killed in the air.

Without the formation, the same level of battle, these people before Lu Mingming, completely vulnerable to a blow.

Lu Ming's body kept blinking. Every time, several people were killed.

These are masters of the Celestial Clan, usually standing high above, looking down on all directions.

But now, it is as fragile as a chick, constantly dying in Lu Ming's hands.

"No, don't kill me!"

"Ah, I don't want to die!"

"You can't kill me, I am a Celestial..."

These days, the human race continued to yell, trying to live, but Lu Ming passed by, and his voice stopped abruptly.

Thirty-two masters of the Celestial Realm Divine Emperor Realm were instantly killed by Lu Ming and killed twenty.

Chapter 4287: Kill Yechu Fengcheng

The strong men of these days were completely unable to withstand a blow in front of Lu Ming, and 20 people were killed instantly.

At this moment, the people of other races around were trembling, and the whole body was cold, and their eyes were full of fright.

This includes the existence of more than 30 Divine Emperor Realms.

Since the thirty-two masters of the Celestial Clan battled with Lu Ming, the other masters of Divine Emperor Realm could not plug in. They stood in the distance and watched the battle. If something changed, they would shoot again.

But now, no one dares to shoot.

Lu Ming's combat power is too terrifying. Those geniuses of the human race are usually standing high in front of them. They are instructed and look down on everything, but at the moment in front of Lu Ming, they are as fragile as chicks.

Where do they dare to shoot?

Didn't you die?

Some people not only dare not take action, they even go backwards.

"Damn, damn..."

"How could this be?"

At this moment, Ye Chu Fengcheng, Ye Yu and others were all cold, their eyes full of fear.

They did not dare to confront Lu Ming head-on, but backed wildly.

The big formation has been broken, and they are not Lu Ming's opponents at all.

"What are you going to escape? Don't you want to kill me, I'm here to kill!"

Lu Ming opened his mouth indifferently, and at the same time he performed the Great Aurora technique, embodied the Aurora, and rushed towards Ye Chu Fengcheng, Ye Yu and others.

Uh!

Too fast, the light flashed, Lu Ming came to Ye Yu.

"what!"

Ye Yu screamed in horror and backed wildly, like a frightened chicken.

"Ye Yu, take you on the road!"

Lu Ming spoke indifferently, and in his palm, a spear burst out, piercing towards Ye Yu.

At first, because of the contradiction in the ancient world, Ye Yu was facing him everywhere in the Tiangong, and he always wanted to kill him.

This Qiu, Lu Ming took note, long wanted to find a chance to get rid of Ye Yu, at this moment there is a chance, Lu Ming will miss it?

Ye Yu shouted in horror and backed wildly, trying to avoid Lu Ming's attack.

But his cultivation level is the same as that of Lu Ming. How can he avoid Lu Ming's attack?

Lu Ming's speed is faster. As soon as he retreats, Lu Ming keeps up and can't keep the distance between the two.

In the end, Ye Yu had no choice but to work desperately to maximize the power of heavenly punishment.

But the battle at the same level, coupled with his natural punishment, was not too strong and could not stop Lu Ming's attack.

With a bang, Ye Yu's attack was penetrated by Lu Ming, and the offensive continued, hitting Ye Yu's eyebrows, piercing Ye Yu's eyebrows, and at the same time, his soul was also annihilated by Lu Ming.

Ye Yu, die!

"Go, go, I can't die, I can't die, I want to be the son of heaven..."

At the moment when the landing struck and killed Ye Yu, Ye Chu Fengcheng backed wildly, and his heart kept roaring.

He didn't want to die, he wanted to run away, he was destined to be the existence of a big man in the Temple.

He drove the speed to the extreme, a few flashes, just a thousand miles away, and then turned his full strength to transform the sword into his body, bursting his breath to the extreme, and the whole person rushed towards the heights of the void like a war sword.

He wanted to break the void and rush into the second world.

In the first layer of the world, as long as Xiuwei reached the Divine Emperor Realm, and then exploded his breath with all his strength, rushing towards the sky, he could break the void and rush into the second layer of the world.

Of course, this is not that they leave with real power to break through the space. The space in Taishang Xiancheng is extremely stable. With their strength, they cannot break through the space.

It was only when they cultivated to reach the Divine Emperor Realm that they exerted their full force, which would pull the rules set by Taishang Xiancheng and send them into the second layer of the world.

Ye Chu Fengcheng knew that at his speed, there was definitely no way to escape Lu Ming's pursuit. Now there is only one way before him, that is, to rush into the second layer of the world, so that he can escape Lu Ming's pursuit. .

"If you want to rush into the second world, in front of me, you can't do it!"

Would Lu Ming not know Ye Chu Fengcheng's thoughts? Immediately, Lu Ming exhibited the big move technique, his figure flashed, and at the next moment, he appeared directly on top of Ye Chu Fengcheng.

"what..."

Ye Chu Fengcheng shouted scaredly and quickly wanted to stop his body.

But he rushed too hard just now, and it was difficult to do it at this moment. Although he tried his best, he could only slow down in a short time, and his body still rushed towards the landing.

"Ah, no, no!"

Ye Chu Fengcheng roared wildly, a face twisted by fear.

Anxious, he is mad!

"No? Yes!"

Lu Ming smiled faintly, condescending, looking down at Yechu Fengcheng, then his body fell like a meteorite, and his feet smashed towards Yechu Fengcheng's face.

Every place in Lu Ming's body is a weapon, and the power of his feet is not weaker than his hands.

"Ahhhh... fight with you!"

Ye Chu couldn't avoid it frantically, and yelled madly, urging him to work hard with Lu Ming.

The two figures, like two meteors, meet in the sky.

boom!

A violent roar, a circle of energy spread in all directions.

Ye Chufeng City's war sword formed by the power of the heavenly punishment, burst with a touch, Lu Ming's figure kept on, and continued to bombard, the sole of the foot stepped on Ye Chu Fengcheng's face accurately.

In an instant, the handsome face of Ye Chu Fengcheng's battle was completely distorted and sunken.

A crackling figure also came out of his whole body, it was because Lu Ming's power was too strong, and the power poured from his face into his body, and the bones of his body, under such terrifying power, instantly became For the powder.

Ye Fengcheng's body fell down at a faster rate than when he headed up.

boom!

Ye Chu Fengcheng's body hit the stump of the Bodhi, and directly smashed into the mud.

The bodhi stump is nothing but too hard.

Ye Chu Fengcheng's body was destroyed, but his soul was not destroyed. He flew out in a panic and wanted to escape.

"Muyun, don't kill me, as long as you let me go, after I go back, I must plead with you, Master Tianjun, and even Master Tianzun, and beg them to let you off on your side..."

While escaping, the soul of Yechu Fengcheng shouted.

"It's ridiculous!"

Lu Ming's indifferent voice sounded, his body turned into an aurora and rushed towards the soul of Yechu Fengcheng.

With a puff, the soul of Yechu Fengcheng dissipated into green smoke.

Ye Chu Fengcheng, this peerless genius who can fight across seven levels in the Divine Realm, fell!

At this time, there are still ten strong men of the Celestial Realm God Emperor Realm who have not died and are fleeing wildly.

Some people fled towards the distance, some people learned from Yechu Fengcheng, and all the breath broke out, soaring into the sky, they wanted to rush into the second world.

"Don't even want to go one!"

Lu Ming took it lightly, all with killing in his eyes.

He has killed the red eye, these days the human race repeatedly wants to kill him.

Whether it is Tianzun, Tianjun, or the younger generation, they want to deal with him, and he has long been full of strong murderous opportunities against the human race.

Chapter 4288: Mystic Rune Energy Feedback

He will never let go of these heavenly races at the scene.

After Lu Ming killed Yechu Fengcheng, his body kept moving, and he performed a large-scale shifting technique. He appeared in front of a Tianren clan who wanted to rush into the second floor. His palm was like a sword. Killed.

Then, he killed another one.

In front of Lu Ming, the strong humanoids are as fragile as chicks in these days, and no one can resist Lu Ming's one move.

"Go, let's go!"

"This Muyun is so crazy. It's a devil. He will kill us after he kills the Celestial Clan!"

"You have to leave!"

Those masters of other races, who had chills all over the body, dared to stay wherever, flew in all directions, and disappeared here in an instant.

Waiting for the flight to go far, those who broke through to the Divine Emperor Realm still felt uneasy, and many people began to explode their breath and rushed to the second world.

"This Muyun, the combat power is too terrible, but just broke into the Divine Emperor Realm, it is so powerful, if you continue to break through, Mr. Gabbert is not his opponent, I must notify Mr. Gabbert as soon as possible, breaking the virtual platform Ambush him around, kill him first before he is as strong as possible, otherwise the consequences will be unimaginable!"

Among them, the brave man of an angelic clan whispered in horror.

He couldn't help feeling cold when he thought of the scene that Lu Ming had just killed the Quartet and the Tianjiao Clan was like killing chickens.

This matter must be notified to Gabbert first.

Immediately, he exploded his breath to the extreme. Eight angel wings were stretched out behind him, covered with holy divine power and rising into the sky.

He rushed upwards, when he rushed to a certain height, the void automatically split, he rushed into the split void, disappeared.

This is a broken void, rushing into the second world.

As long as you reach the Divine Emperor Realm, regardless of the strength of the battle, you can rush to the second layer of the world.

...

At the bodhi stump, Lu Ming continued to kill the Quartet.

There are ten Divine Emperor Realms remaining in the Celestial Clan, and none of them fled in the end, all died in Lu Ming's hands.

But at this time, Lu Ming's breath did not weaken, but became more violent.

"You must find a place to practice and stabilize!"

Lu Ming thought, and then chose a direction at will, and flew in that direction.

Flying out of a distance, Lu Ming found a hidden place, sat cross-legged, and began to practice.

In a flash, three days passed.

Three days later, Lu Ming's cultivation practice was completely stable in the Divine Emperor Realm, with a stable foundation and no problems.

Immediately after Lu Ming's realm stabilized, he had some cells in his body, and suddenly burst out of a vast mass of energy. This energy was very pure and could quickly become a taboo force.

"This is... the energy contained in the mystical rune, will it finally start to explode?"

Lu Ming whispered, his face showing joy.

In the ancient world, Lu Ming killed a large number of ancient secrets and absorbed a large number of mystic runes.

Among those great ancient secrets, the weakest is Divine Emperor One, and the strongest is Divine Emperor Five.

There are more than 800 mystic runes in total. At the time of the ancient world, Lu Ming had absorbed more than 100. The other, although all fused with the cells, had encountered bottlenecks due to Lu Ming, and No energy is gushing out.

Now, Lu Ming has finally broken through the bottleneck and stepped into Divine Emperor Realm, and the energy of those mystic runes has finally flowed out.

Lu Ming did not dare to neglect, and absorbed the energy of the mystical rune with all his strength to cultivate it.

Absorb the energy of the mystic rune, and it rises very quickly.

Lu Ming's cultivation practice began to improve at an alarming rate.

In just a few hours, Lu Ming's cultivation practice rushed to the pinnacle of Divine Emperor's First Heavy and launched an impact on Divine Emperor's Double.

A few hours later, with a bang, Lu Ming's breath exploded and successfully entered Divine Emperor Double.

However, after entering the Divine Emperor Double, the energy of those mystic runes was also exhausted.

Although there are hundreds of mystic runes, each of them only contains a ray of energy, and the cultivation of those ancient secrets is not high, and the Divine Emperor's double to Lu Ming The improvement is very small, so although the number is large, it only helps Lu Ming to break through a heavy repair.

After all, this is the Divine Emperor Realm, plus he is a taboo body, and breaking through the realm requires too much energy.

Every breakthrough, the energy required is dozens of times to hundreds of times that of ordinary people, and even more...

Otherwise, the power of taboo will not be so powerful.

Every trace of taboo power needs more energy to condense.

Lu Ming has been very satisfied with being able to break through a realm at once.

"My current strength, I don't know how powerful..."

Lu Ming felt the surging power in his body, and his heart was agitated.

Divine Emperor Duo, the current power is much stronger than Divine Emperor Jiu Zhong.

Lu Ming feels that if he is in the wilderness universe, he can really destroy the world, and he can explode a star with a free punch.

Divine Emperor, in the entire wilderness universe, is considered a master.

At the level of the entire wilderness universe, Divine Emperor can be regarded as a first-class master.

The Divine Lord Realm is the pinnacle master. As for the original source realm, it is to suppress the existence of a great force and luck. It is the supremacy of the universe.

Lu Ming is now in the ranks of first-rate masters of the Honghuang Universe.

This is also the pinnacle of the younger generation of Honghuang Universe.

According to Lu Ming's knowledge, no one in the entire younger generation of the universe, including the Tiangong Temple, has reached the Divine Lord Realm, the highest being in the Divine Emperor Realm.

As for the strongest of the younger generation, it can reach the weight of the Divine Emperor, but it is not very clear, it is estimated that it will not be too high.

After all, Divine Emperor Realm is very difficult to break through.

"Now, go to the second world, that is the world that helps me the most!"

Lu Ming left the closed place and looked up at the sky.

The first layer of the world, for Lu Ming, is just a transition. The most important thing for him is the bodhi stump.

And the cultivation environment of the second-tier world is the most suitable for Divine Emperor Realm, where you can advance by leaps and bounds.

Lu Ming this time, we must seize the opportunity to improve ourselves as much as possible, quickly cross the hurdle of Divine Emperor, and rush into the main realm of God as soon as possible.

Only in the main realm of God, some secrets of the universe can participate.

Otherwise, they are not eligible.

Uh!

Lu Ming rose into the sky, the breath was full, like a stream of light, rushing into the depths of the sky.

When Lu Ming rushed to a certain height, the void naturally split and Lu Ming rushed into it.

As soon as he rushed into it, Lu Ming felt a powerful force pulling him and flew towards a place.

This force cannot be resisted, it is difficult to resist, Lu Ming can only follow this force and fly forward.

At the next moment, the light flashed and Lu Ming appeared in a new world.

Chapter 4289: Waterproof siege

Lu Ming found that he had arrived in a new world, and Lu Ming looked up.

He found that he was now standing on a bluestone.

Bluestone is round, very flat, about three meters long and wide.

Lu Ming looked around and found that there were a lot of such bluestones around.

He found that he was actually in a vast lake, and these bluestones were all in the lake. There were a lot of such bluestones in the lake, dense and dense. At a glance, there were at least thousands of such bluestones.

Lu Ming stood on one of the bluestones.

"This is the broken pool!"

Lu Ming whispered.

In the information given by Feihuang, Lu Ming knew that this was a broken virtual pool.

Breaking from the first layer to the second layer does not randomly appear somewhere on the second layer, but will appear in a fixed place.

Such as breaking the virtual pool!

In the entire second-tier world, there are four broken virtual pools.

Corresponds to four different regions of the first layer of the world.

When a certain area of the first layer of the world is broken and reaches the second layer, a corresponding broken pool will appear.

"My broken pool should be the broken pool in the east. On the eastern edge, I should go west to get more resources!"

Lu Ming recognized the direction, then rose into the sky and flew towards the west.

Soon, Lu Ming left the Poxu Pond and came to a mountain beside the Poxu Pond.

"Is this power the legendary wild gas?"

Lu Ming felt the energy suspended between heaven and earth, and his eyes showed wonder and curiosity.

The second-tier world of Taishang Xiancheng, the energy contained between heaven and earth, is completely different from the vast universe.

The energy here, no one knows exactly what the energy is. The Honghuang universe comes in, and it is called Honghuangqi, which means the atmosphere of heaven and earth contained in the Honghuang continent of the last era.

This kind of energy is more advanced and mysterious than the spirit of the vast universe.

However, the creatures of the vast universe cannot directly absorb this energy, and must use special means.

The so-called special means is to rely on the unique Dan furnace in the second floor of Taishang Xiancheng.

According to the information given by Feihuang, in many ancient ruins in the second layer of the world, there will be a kind of red furnace, as long as this red furnace is actuated, it will continuously absorb the flood gas between heaven and earth, and then refine the Honghuang Dan.

This kind of Honghuangdan, they can directly absorb refining.

And the magical thing is that no matter what kind of power you cultivate, you can absorb refining.

For example, the Celestials, such as the taboo bodies, such as the spirits of the vast universe, who cultivated divine power, can be refined and transformed into their own strength, helping people quickly improve their cultivation and cultivate the divine body.

It can be said that this is supreme.

Feihuang said that in Taishang Xiancheng, there is a supreme creation, and those who enter can quickly improve their cultivation and widen the gap with others. For the existence of Divine Emperor Realm, the greatest creation is Hong Huang Dan.

However, Taishang Xiancheng has the rules of Taishang Xiancheng. The red furnace for refining Honghuangdan cannot be taken out.

For example, the last time Feihuang and others entered Taishang Xiancheng, when they went out, they wanted to take the Danlu out, but they couldn't do it.

As they were leaving, those red furnaces flew away from their bodies.

If it can be taken out, the palace will bring out a large number of Dan furnaces, inheriting the Tianjiao they entered this time. As soon as they come in, they can use the Dan furnace to refine Hong Huang Dan and promote their cultivation.

Actually, no!

Everyone comes in and needs to find the red furnace to refine Hong Huangdan.

"My primary goal now is to find a red furnace and refine Hong Huangdan, so that I can quickly improve my cultivation and practice. I have entered the second floor a few years later than others!"

Lu Ming whispered.

The other powerful players in the Divine Emperor Realm are the second floor when they come in, which is a lot earlier than Lu Ming. Some of these people may have obtained the Dan Furnace and refined Honghuang Dan to improve their cultivation.

If he does not speed up, he may not keep up with others.

However, if you want to get the Dan furnace, you must go to some ruins or buildings. In the wilderness, it is naturally impossible to get the Dan furnace.

Lu Ming rationalized the plan he had taken, and continued to fly westward.

However, it didn't take long before Lu Ming suddenly felt a sense of crisis.

call out!

At the next moment, from below Lu Ming, a white sword light rose into the sky and stabbed towards the landing Ming, the speed was extremely amazing.

Lu Ming subconsciously wanted to retreat, but at the moment, behind Lu Ming, in front, on both sides, there were sword lights killing Lu Ming.

The speed is extremely fast.

Only above Lu Ming, there is no sword light.

Uh!

Lu Ming rose into the sky and continued to rush upward.

But just as Lu Ming rushed up, there was a sword light cut off above Lu Ming's head.

The power of this sword light is even more terrible, and it is stronger than sword light in several other directions.

This is the real trick.

Attacks in several other directions obviously forced Lu Ming to rush upwards, and then the upper attack launched a killing blow.

In all directions, they are all attacks, but the intensity is extremely alarming, which seriously disturbs the space, making Lu Ming want to perform the big move technique, but they can't do it.

Such a situation can only be hard-wired.

"Broken sky!"

Lu Ming snarled in his heart and exhibited his own secret technique, breaking the sky!

His body glowed with dazzling light, turned into a spear, and blasted upwards.

boom!

With a tremendous roar, the lance and the sword gas swept to all directions like a gust of wind.

In an instant, Lu Ming felt a sharp sword air above him, breaking through his attack and defense and bombarding him.

So strong!

The man at the top is extremely powerful, even if Lu Ming is now the Divine Emperor's Double, it is not the opponent's opponent.

A sword air fell on Lu Ming, cut Lu Ming's body, left a sword wound on Lu Ming, blood flowed.

The violent force, pressured Lu Ming smashed down.

The sword light below kept on, and continued to cut towards Lu Ming.

"Block it!"

Lu Ming growled, and as soon as he fell, he punched a punch.

A punch, collided with the sword light below, and another explosion sounded.

However, the sword light at the bottom was much weaker than the sword light at the top, and was directly dispelled by Lu Ming.

Great aurora!

After dispelling the sword light below, Lu Ming directly performed the Great Aurora technique, the body turned into an aurora, rushed down and landed on the ground.

bump!

As soon as he landed on the ground, Lu Ming stepped on the ground, and a big pit burst out on the ground. Lu Ming's body was like an arrow from the string, and he rushed forward.

It ran out of thousands of miles until I felt the crisis disappeared.

Lu Ming turned around and looked back.

Uh, uh, uh!

The figure flickered, and figures appeared one after another, exuding a gorgeous glow.

Chapter 4290: Star power

A total of a dozen figures appeared behind Lu Ming.

These dozens of figures were all shrouded in white light, and a pair of white wings stretched out.

Angels are all angels.

The youngest angel family in the middle suddenly attracted Lu Ming's attention.

"Galbert..."

Lu Ming whispered, his eyes narrowed, revealing a cold murderous opportunity.

That's right, the young angel family in the middle is the peerless evil spirit of the angel family, the arrogance on the universe's arrogance list, Gabbert.

At the time, in the palace of the elven clan, the angel clan people came with Gabor's divine power. Finally, the Gabor's divine power was also defeated by Lu Ming, so Lu Ming had seen Gabbert. of.

At this moment, it is natural to recognize at a glance.

It was Gabbert who launched the fierce attack on Lu Ming from high altitude.

There are a dozen other people, a few of them are young people, and the others are in their thirties.

The strength of these people is extremely strong. Lu Ming can clearly sense that the lowest is the Divine Emperor Triple. As for Gabbert, it has reached the Divine Emperor Fivefold.

"It is said that Gabbert has only four levels of cultivation for Divine Emperor. It seems that when he entered Taishen City, Xiu made a breakthrough!"

A thought flashed in Lu Ming's heart.

"Divine Emperor Duo? You clearly broke through the Divine Emperor's first heavy, how could it break through to the Divine Emperor's double? Sure enough, you can't leave you!"

Gabbert opened his mouth indifferently, his eyes staring sharply, shining coldly.

He made a report from the angel clan who broke from the first layer of the world, and Lu Ming broke through the Divine Emperor, killed the Quartet, and beheaded many Heaven-human clan powerful men, and the fighting power was amazing.

This gave Gabert a sense of urgency. He knew that Lu Ming came from the void, and it must have appeared in this broken void pool, so he immediately brought some masters of the angel family to ambush here, wanting to kill Lu Ming. one strike.

Originally, with their power, they were suddenly killed, and Lu Ming's cultivation of breaking through the Divine Emperor's Realm was definitely an escape.

But unexpectedly, Lu Ming's cultivation practice actually reached the second level of Divine Emperor, the combat power increased greatly, and they survived the attack from them.

This made Garbert incredible, and at the same time, Lu Ming's killing power became stronger, reaching an unprecedented level.

Lu Ming's progress is too horrible. If he continues in this way, it will not take long for him to catch up with him. With the hatred of the two of them, he will die by then.

Lu Ming must be removed, before he has not completely surpassed him.

"Galbert, anyway, you are also on the universe's arrogance list. It's shameless and ridiculous to unite multiple people to engage in a sneak attack!"

Lu Ming ridiculed and at the same time the power of taboos was constantly circulating. The injuries he had just received were quickly healed.

"Don't talk nonsense with him, shoot together and kill him!"

Gabbert drank coldly. The wings of the twelve angels behind him fluttered rapidly. His body was like a white streamer. He slammed towards the landing, and the sword was cut out. A sharp sword light slashed towards Lu Ming, terrible. The power of Lu Ming made Lu Ming stand upside down.

"War word formula, breaking the sky!"

Lu Ming snarled, and the Zhanzi Jue successfully triggered the current highest seven-fold combat power, and then displayed a sky-breaking style, turned into a lance, and rushed to Gabbert's angel sword.

Just under the other party's sneak attack, Lu Ming failed to explode all the combat power. At this moment, he urged the combat power to its peak and wanted to try Gabbert's combat power.

Gabor's combat power is relatively low in the universe's arrogance list, ranking at the end. It can be said that it is the threshold of the universe's arrogance list.

Knowing the power of Gabbert, you know how high the threshold of the power of the universe is.

boom!

The two's attacks collided together, and a roaring shock broke out. The violent energy, like a storm, swept in all directions.

Lu Ming's body shook, and he could not help but retreat backwards. He felt sore all over his body, his bones were broken, and a few mouthfuls of blood spit out continuously.

Not an opponent, Lu Ming is not an opponent at all, and was hit hard in one move.

"Good strength, the strength of the Tianjiao list on the universe's Tianjiao list, can't be measured by the Divine Emperor Realm, nor can it be measured by the candidate of the universe's Tianjiao list..."

Lu Ming turned his thoughts in his heart, his eyes very dignified.

Gabbert's fighting power completely surpassed him.

Gabor's cultivation base is fivefold of Divine Emperor, which is three times higher than Lu Ming. Even if it is calculated according to the existence of the most common Divine Emperor, and then measured by the cultivation of Divine Emperor Realm, it will be nine levels worse.

In addition, Gabbert itself is a peerless arrogance. In the God Realm, he is a candidate of the universe arrogance list. He can fight across four levels, and this adds up to thirteen levels.

Even if Lu Ming has broken the limit now, he cannot reach the level of fighting across thirteen levels.

In fact, Gabor of Divine Emperor Realm is far more powerful than the candidates of the universe's Pride List.

In fact, the measurement of the power of Divine Emperor Realm is very complicated, and it cannot be completely measured by the level of Divine Emperor Realm.

Because the gap is too big.

In Divine Emperor Realm, it is just ordinary Divine Emperor, who can't fight across levels, then break through Divine Emperor Realm, that is also ordinary Divine Emperor.

In Divine Emperor Realm can cross one level, cross two levels, three levels, after breaking into Divine Emperor Realm, the combat power will be different.

In addition, after the breakthrough to the Divine Emperor Realm, the progress of cultivation, various original secrets, physical secrets, and original divine power factors have also been improved, which will also cause great changes in combat power.

For example, two candidates in the universe's arrogance list can fight across four levels in Divine Emperor Realm. After they break into Divine Emperor Realm, it does not mean that they can also maintain this combat power, nor does it represent their combat power. It will be the same, and it needs to be eradicated by their cultivation in Divine Emperor Realm.

If one person breaks through the Divine Emperor Realm and becomes mediocre, the improvement in all aspects is not big, and the other person has a great improvement in all aspects, such as the original secret technique, the physical secret technique, and the original divine power factor, then he will be stronger than the other person. And much stronger.

In addition, in the Divine Emperor Realm, there is no limit to fighting across nine levels, and the calculation of combat power is more complicated.

Therefore, the major races of the Tiangong and the universe are based on the Divine Realm striding across the ranks, and designed a set of calculation methods for the Divine Emperor Realm.

A 'star' is a small realm of Divine Realm.

For example, the one-star combat power that can fight across one level in the Divine Emperor Realm.

The one that can fight across two stars is the "two-star" combat power.

Like Divine Emperor Realm, under normal circumstances, the power of Divine Emperor Realm once restored is equivalent to three levels of Divine Emperor Realm.

That is, there is a difference in the fighting power of three 'stars'.

In the Divine Emperor Realm, the ability to fight across levels is the 'Samsung' combat power.

In the Divine Emperor Realm, the ability to fight across two levels is the "six star" combat power.
