

D Emperor 4291

Chapter 4291: Twelve Star Force

In the Divine Emperor Realm, the ability to fight across three levels is the 'Nine Stars' combat power.

Lu Ming estimates that if he now explodes into full force, he should be able to reach the level of "Twelve Stars" combat power.

In Divine Emperor Realm, Lu Ming's combat power reached its limit and was able to fight across nine levels to fight for 'Nine Stars'. After Lu Ming broke through to Divine Emperor Realm, he broke the limit and added 'War Word Juice'. There is also the newly-enlightened "Broken Sky", which can directly reach the "Twelve Stars" combat power.

The twelve-star combat power, in Divine Emperor Realm, is capable of fighting across four levels.

Of course, their opponents refer to the existence of the most common 'sporadic' combat power.

If the other party also has star power, then naturally it cannot be done.

And Gabbert's combat power is definitely more than "four stars", Lu Ming estimates that at least it has reached "six stars."

It stands to reason that when Gabbert was in Divine Emperor Realm, he could only fight across four levels, but after he broke through Divine Emperor Realm, he made too many breakthroughs.

The original source divine factor, physical secret technique, and original source secret technique all advance by leaps and bounds, exceeding his previous limit and reaching the 'six star' combat power.

Therefore, Gabbert can enter the universe's arrogance list.

Not everyone can get closer like Gabbert after entering Divine Emperor Realm.

In fact, after entering the Divine Emperor Realm, most people either stepped back or retreated.

In the God Emperor Realm, there are many candidates in the universe's Pride List, and they can fight across four levels.

But most of the candidates in the universe's arrogance list will not be able to keep up with all aspects after breaking through the Divine Emperor Realm, will be reduced to mediocrity, will not be able to maintain the "four-star" combat power, and will retreat to three stars or even two stars.

Some arrogances will advance by leaps from four stars to five stars, six stars, and even higher. Only such a person can impact the universe arrogance list, and even rush to the universe arrogance list.

In fact, those candidates for the universe's arrogance list only have the potential to impact the universe's arrogance list, but most of them cannot eventually make it to the universe's arrogance list.

Those who can go one step closer are, after all, a few.

Therefore, Gabbert has a high position in the angel family, which is not comparable to the candidates of the general cosmic list.

Gabort itself has a 'six star' combat power, plus nine stars that differ by three realms, there is a fifteen star difference between Lu Ming and Gaborte.

And Lu Ming has only "Twelve Stars" combat power, and naturally is not Gabbert's opponent.

In one move, Lu Ming was hit hard.

At the same time, other angels also slammed towards the landing.

These angel clan, the lowest cultivation level is Divine Emperor Triple, most of them are Divine Emperor Quadruple, and they are not ordinary Divine Emperors, all have 'star' power.

Some are 'Samsung' combat power, and some are even 'Four Stars'.

The strength of these people should not be underestimated. Lu Ming did not dare to neglect. He performed great aurora, turned into an aurora, and rushed towards the back. Under a flash, he was beyond the thousands of miles, avoiding these strong angels' attack.

"You can't walk away, kill!"

Gabbert shouted, turned into a sword light, and slammed towards the landing.

The fight just now made him feel Lu Ming's horror.

Three levels different from him, he can actually block him without dying.

Lu Ming's combat power is really terrifying.

Generally speaking, people who have just broken through the Divine Emperor have not settled in the Divine Emperor Realm for a period of time, and it is difficult for the star power to rush up. In fact, it is not easy to keep it. Most people will retreat.

Because the source divine factor, the source secret technique, etc., the higher the cultivation level, the easier it is to comprehend.

Divine Emperor Realm's enlightenment of the original secrets, etc., is many times faster than Divine Emperor Realm.

After breaking through the Divine Emperor Realm, based on the Divine Emperor, practicing for a period of time, all aspects will advance by leaps and bounds.

Those who have settled in the Divine Emperor Realm for a period of time, even if their talents are insufficient, but the cultivation time is long, the original secret art, etc., there will be no small progress,

and those who have just broken through the Divine Emperor Realm, have no time to precipitate, the original secret art, etc. Will not be able to keep up, so the "star" combat power will weaken.

Only after settling for a period of time and practicing for a period of time will they rush back up again.

However, Lu Ming has just broken through the Divine Emperor Realm. The star power has not weakened, but has become stronger, reaching a power of more than a dozen stars. This can no longer be described by terror.

There was deep fear in Gabbert's heart.

Lu Ming must be killed, Lu Ming must be killed.

Gabbert roared in his heart, pushing the fighting to the extreme, and rushed to Lu Ming frantically.

However, Lu Ming has already tried out Gabor's combat power, and he will continue to fight with him.

"Great move!"

Before Gabbert arrived, Lu Ming performed a large shift technique and moved towards the rear, leaving Gabbert's attack in a vain.

"Leave me, Muyun!"

Garbert shouted and continued to kill Lu Ming.

"Galbert, wash my neck and wait for me, I will come to take your dog's life soon!"

Lu Ming's cold voice sounded, and then continued to perform the big move technique, moving towards the rear.

When there is no limit, the speed of Grand Shifting is very amazing. Even if Gabor is higher than the triple repair, he can't keep up with Lu Ming. He can only watch the landing song keep going away, and soon disappears in his induction. among.

"Damn, **** it!"

Gabbert roared again and again, with a terrible face.

Lu Ming is such a big enemy, and actually ran for the other party, which is simply endless trouble.

"Sir Gabbert, what now?"

Tianjiao, another angel family, came over and asked.

"Spread the news so that the rest of my family can pass it to us whenever they see Muyun. In addition, the news that Muyun came to the second-tier world also spread out, letting others kill Muyun! "

"All the people in the Tiangong Palace must kill Muyun. How do I die?"

Gabbert said terribly.

As long as Muyun is killed, he will be called the Son of Heaven or the Daughter of Heaven. Under the palace, countless people will be crazy. As soon as he sees Lu Ming, he will kill Lu Ming. He does not believe that Lu Ming can still live.

"Muyun certainly can't leave Taishang Xiancheng alive, I don't have to worry too much..."

Gabbert comforted himself like this.

Because only in this way will the fear in his heart be relieved.

Lu Ming continued to perform the big move technique, contacted a dozen times to move, completely out of the range of Gaber et al., then stopped moving and flew forward.

During the flight, the injuries he suffered quickly recovered, and he recovered shortly afterwards.

"The threshold of the universe's arrogance list seems to be that of Gabbert, and as long as I break through another level, I will impact the universe's arrogance list!"

"Also, in the Divine Emperor Realm, there is no limit to the combat power. I can also incorporate more secret techniques to improve the quality of the taboo power. My "star" combat power will become stronger."

Lu Ming thought while flying.

Chapter 4292: Weapons in Taishang Xiancheng

Of course, this is not the time to enlighten various mysteries. It is now time to find the red furnace, refine the Honghuang Pill, and improve cultivation.

Enlighten the secret technique, and do not enlighten later.

Lu Ming has been flying away from this area, and then his spiritual consciousness emanated and began to explore.

If you want to get the Dan Furnace, you must first find 'Danchang'

According to the speculation of Feihuang and others, in the second world of Taishang Xiancheng, in the last era, it is likely to be a place for alchemy. There are many 'Dan Fields' here. Only among the Dan Fields can Honghuang Dan be refined. Dan furnace.

However, usually Danchang is hidden, it is difficult to find.

Lu Ming flew while flying, and his consciousness emanated to find it, but after two days of searching, he couldn't find it.

At this moment, on Lu Ming's side, two figures flew by, but when they flew a distance, they stopped quickly.

These are two young people, from Tiangong, who are disciples under the great man of Tiangong.

"The figure was familiar just now, it seems... Muyun?"

One of them is humane.

"It's Muyun, yes, it seems that he has come to the second world, haha, our luck is coming!"

Another young man showed ecstasy.

"Come on, don't let him run away!"

The two young men drove the speed to the extreme and drove crazy towards the landing.

In an instant, Lu Ming was approaching.

Lu Ming did not retreat, but stood there calmly.

The cultivation of these two youths is only threefold, only the Divine Emperor, why should he retreat?

Uh! Uh!

The two young people surrounded Lu Ming in tandem.

kill! kill!

Two loud shouts sounded, and the two young men shot directly without any hesitation.

Because they are afraid that Lu Ming will be killed by the other party, the credit will go to the other party.

They all want to take credit for killing Lu Ming.

Two attacks, the power is amazing, one after the other, let Lu Ming unavoidable.

However, Lu Ming did not intend to avoid it at all.

As the figure moved, two rays of light rushed out of Lu Ming's body and slammed into the front and back.

boom! boom!

After two roars, the attacks of the two young men were directly defeated, and then the body retreated suddenly, and a spit of blood spewed out.

"The five-star combat power is worthy of being a disciple of Tian Gong!"

Lu Ming whispered.

The combat strength of these two youths is very strong, reaching a five-star combat strength.

It's not that their talents are comparable to fighting God's Yuanwen, which is definitely not as good. When they are in the Divine Emperor Realm, they certainly can't fight across five levels. Most of them are after breaking through the Divine Emperor Realm. Based on this, the resources of the Tiangong Palace and the guidance of the great people in the Tiangong Palace can be used to have this combat power.

The five-star combat power, the Divine Emperor's triple cultivation, together, can only be compared to the eight-star, and Lu Ming has reached the twelve-star combat power, they are naturally not opponents.

Just now Lu Ming has not used his full strength, and has not reached the peak twelve-star combat strength, otherwise, the two will not be injured, but directly killed.

Lu Ming was a little surprised, but the two young men were frightened.

"He...how is his combat power so powerful?"

"His cultivation practice, how did he reach the Divine Emperor's Second Level? How can it be so fast, before he was clearly the Divine Emperor's Ninth Level, even if he just broke through, he was the Divine Emperor's first weight~"

The two young men in Tiangong screamed with incredible faces.

Originally, they thought that Lu Ming had just come to the second floor, but had just broken through the Divine Emperor Realm, and only Divine Emperor had a heavy cultivation.

And just after the average person breaks through the Divine Emperor Realm, the star power will go backwards.

And they are all three-fold cultivation of Divine Emperor, and they are also five-star combat power, killing Lu Ming, that is more than enough.

But Lu Ming's combat power was completely beyond their expectations.

"If you want to kill me, you must be prepared to be killed and send you on the road!"

Lu Ming spoke indifferently, waved his hand, two guns emerged, and stabbed at the two young men.

"Want to kill us, stop thinking!"

The two young men roared, and a weapon appeared in their hands at the same time.

In front of the youth, a sword appeared in his hand.

The young man in the rear, holding an axe in his hand.

The two wielded their weapons, screaming and slashed towards the gun.

bump! bump!

After two roars, the two guns were actually blocked.

The two young people, however, just backed off again and again, their faces pale and were not injured.

"Huh? This is, the weapon in Taishang Xiancheng?"

Lu Ming moved.

Bringing in the gods and soldiers outside the Honghuang Universe will not be necessary, but the weapons in Taishang Xiancheng are naturally usable.

Lu Ming has seen from the information given by Feihuang that there are some weapons left in Taishang Xiancheng.

This is a weapon that belongs exclusively to Taishang Xiancheng, and it is also a weapon of the last era. These weapons are completely different from the gods refining method of the current vast universe.

This kind of weapon contains a pattern, and the rules contained therein are completely different from the vast universe.

Now people of this era can't get the power inside.

However, the material of this weapon is not trivial, it is immortal across the era, and it is extremely sharp. Just by the material alone, it can exert powerful power.

The weapon in the hands of the two young men in Tiangong, the weapon in Taishang Xiancheng, was extremely sharp, and they were blocked by Lu Ming's attack under the swing of the two.

"Good, these two weapons, I took it!"

Lu Ming smiled, his breath was stronger, and he triggered a seven-fold combat power.

Today, the warfare strategy is seven times as powerful, and Lu Ming's chance of triggering has reached about one-fifth, and the trigger success rate is very high.

Triggered seven times the combat strength of the war character tactics, Lu Ming's combat strength reached about eleven stars.

Boom!

Lu Ming was shrouded in gorgeous glow, continuously punching fists, violent punches, and bombarded the two young men.

"Ah, how is your fighting power possible?"

"what!"

The two young men roared, shocked, and waved weapons to resist.

However, Lu Ming has exploded with eleven-star combat power at this moment. How could they stop it?

Fisting and crushing, the two young men burst apart directly, and the form and spirit disappeared, leaving no bones, leaving only two weapons suspended in the air.

Lu Ming waved his hand and grabbed the two weapons in his hand.

Uh!

Lu Ming waved the sword in his hand, splitting through the void, and brought out a terrifying roar.

"Good sharpness. Although I can't inspire the real power in this weapon, but the sharpness of this material alone can improve my combat power!"

Lu Ming smiled on his face.

In Taishang Xiancheng, in addition to looking for the Danlu to refine Honghuangdan, many people will also look for weapons here, because this weapon can greatly increase their combat power.

However, this weapon is only used in Taishang Xiancheng and cannot be taken out. Like the Dan furnace, when they leave, this kind of furnace will fly away automatically.

Lu Ming put away the two weapons and continued to fly forward.

But this time Lu Ming didn't fly far, he stopped.

He made a discovery.

Chapter 4293: Chiba Danchang

Lu Ming saw a purple mosquito.

Each of these mosquitoes is the size of a quail egg, purple and crystal, flying over the void and making a buzzing sound. There are at least a few hundred in a group.

"Purple mosquito! This is mosquito mosquito!"

Lu Ming's eyes showed surprise.

In Taishang Xiancheng, most territories have no creatures. According to the records of Feihuang, there are only a few kinds of creatures on the second floor of Taishang Xiancheng.

Purple mosquito is one of them.

Purple mosquitoes are not aggressive, but there is a benefit, that is, to find the Dan field.

As long as there is a place where the purple mosquito is infested, there will probably be a danchang near the world.

Because the purple mosquito will absorb the danqi in the dan field and promote its own evolution.

Therefore, seeing the purple mosquitoes, Lu Ming will show a happy look.

In this area, it is very likely that there will be a Dan field, and in the Dan field, there may be a Dan furnace.

Buzz!

A purple mosquito oscillated its wings and headed to the north. Lu Ming condensed his breath and followed behind the purple mosquito.

Hundreds of thousands of miles north of Lu Ming, in a piece of land at this moment, there is a continuous red light shining out.

The crimson light, like water flowing, continuously oozes out from the ground and pervades into the void.

Buzz!

Above this area, there are swarms of purple mosquitoes flying, absorbing the red light.

In the air around this area, a few groups of people stood.

These people are several powerful races from the universe.

Among them, the World Extinguishers, ranked 11th on the Honghuang Wanzu list, had more than a dozen people present, both young and middle-aged.

In addition, more than a dozen people were present in the Shura ethnic group, which ranked 12th on the Honghuang Wanzu list.

These two races are close to the top ten races, and their strength is very strong.

These two races occupy two directions.

In the other direction, there are only two people.

But these two people made the Shura and the world-extinguishing people extremely afraid.

Because these two people, the gods from the Tiangong, are not the Celestial Race, but the blood races from the top ten races. They look like thirties, wearing blood robes, and even the eyes are blood red.

Three parties, occupying three directions.

They also came here with the purple mosquito.

Of course, there are not only them, but also people of other races.

But those small races, who dare to compete with these powerful races, have long been driven away by them.

Uh, uh, uh!

At this moment, another group of people came to this place, a small race named Tian Xiong tribe.

They also came here with a group of purple mosquitoes.

"It's really annoying when someone comes again!"

A strong man of the Shura tribe said indifferently, and his eyes swept extremely coldly towards the Tianxiong tribe.

"I think there will be more and more people coming down like this. Every time you come, you have to get shots. It's too much trouble. You just killed these Tianxions and put their bodies around them to see if anyone dared to come, Hey!"

A strong man of the dying world sneered.

"It makes sense!"

One of the two blood clan strongmen followed.

Blood tribes, annihilation tribes, and Shura tribes are all known for killing and killing. At this moment, there is a strong murderous opportunity.

At this moment, those of the Tianxiong tribe have also seen the strong of the three great tribes.

Their complexion changed immediately.

"It's not good, it's the blood, the annihilation and the Shura!"

"Let's go!"

The faces of the strong men of several days of the Xiong Clan have changed greatly.

Naturally, these races that they killed, they knew it, and when they saw it, they felt chills and retreated directly to the back.

"Since you are here, don't leave, you can only count your bad luck, kill!"

A blood clan's strong man drank coldly, and a pair of **** wings stretched out behind him. With one flap, the blood clan's strong man turned into a beam of blood and rushed towards the sky bear clan.

At the same time, there are also masters of the World Extermination Clan and Shura Clan who killed the strong of the Sky Bear Clan.

"not good!"

The faces of the Celestial Clan changed wildly.

"Everyone, we will not compete with you, we will retreat!"

A strong man from the sky bear cries.

However, the strong men of the three races did not listen to their yelling and continued to kill them.

Puff puff...

A ray of light shone, and in an instant, five Celestial Clan people were killed and their heads flew high.

"Damn, fight with you!"

"Kill, fight with them!"

The rest of the Celestial Clan roared with anger and turned into a giant Celestial Bear, trying desperately.

However, the combat strength of these people is obviously far worse than the strong of the three major races. Even if they want to desperately use it, it is useless within a minute. The remaining people of the Celestial Race are all killed.

Then, the strong men of the three major races inserted the bodies of these sky bears upside down with sharp blades and inserted them on the ground around the area to deter those who came behind.

Sure enough, some people came behind, but after seeing this scene, his frightened face changed wildly and retreated.

With the passage of time, the red light on the ground became more and more intense, and a strip of road emerged from the ground.

These lines are intertwined with each other to form a pattern of gossip.

In the gossip pattern, you can see three statues of red furnaces.

The eyes of the three races radiate a blazing glow.

Dan furnace!

There are indeed red furnaces, and there are three.

Their divine power was running to the extreme, as long as the Dan field fully emerged, they shot for the Dan furnace.

"Eh, there are three sacred furnaces in the red-level Danchang, not bad, not bad!"

At this time, a figure sounded abruptly.

Ok?

The blood clan, the annihilated clan, and the master of the Shura clan suddenly startled.

Now, there are still people who dare to get close, and they are not far away.

Brush...

After looking at it in the direction where the voice came, he saw a young man coming from the sky.

This young man is naturally Lu Ming.

He came here with the purple mosquito all the way, and he saw three ceremonial furnaces emerge, and he was very happy in his heart, and could not help but sigh.

"This person is..."

The pupils of the three races shrank as soon as they saw Lu Ming.

They had all seen Lu Ming's portrait, and as soon as they saw Lu Ming, they recognized Lu Ming.

"Muyun, it is Muyun!"

"The Tiangong strongman said, as long as he kills him, he can reward the Son of Heaven or the Daughter of Heaven!"

"It's him, yes!"

The strong men of the three races exclaimed, and then their eyes showed a hot and greedy glory.

At this moment, there was a slight roar on the ground, and this pill field appeared completely.

If it is before the change, the strong men of the three major races, I am afraid that they have already tried their best to fight for the Dan Furnace.

But at this moment, no one shot, but continued to stare at the landing.

"kill!"

Suddenly, the strong of a blood clan growled, and the blood-red wings fluttered quickly, turning into a **** light, killing Lu Ming.

Chapter 4294: The first furnace

A blood clan master took the lead in launching an attack, and took a start to move the whole body. The other masters also all shot.

"Kill, the head of Muyun is mine!"

"I am determined to win the position of the Son of Heaven!"

These people roared in their hearts, all burst into full force, and drove to the landing.

There are a total of more than 20 people, all of which are the cultivation base of the Divine Emperor Realm. The cultivation base is the lowest, which is the weight of the Divine Emperor.

Divine Emperor's fourfold existence, there are five in total.

There are two blood clan, two world clan, and one Shura clan.

Among them, the fighting strength of three people reached four stars.

There is one blood family, one Shura family, and one annihilation family.

The three of them are the fastest, and the people have not arrived yet. The attack is already approaching Lu Ming.

Compared with Danlu, Lu Ming's head is naturally countless times more important.

As long as Lu Ming is killed, the Son of Heaven can be confiscated. What kind of opportunity is this, and where is the Dan Furnace comparable?

By that time, what resources do you need?

Therefore, everyone gave up Danlu and did not want to kill Lu Ming for the first time, and wanted to be the first to cut off Lu Ming's head.

"Really dead!"

Lu Ming's eyes showed a cold indifference.

Among the three major races, he has dealt with the blood race and the Shura race. He has a bad impression of these two races. Now these people shot him as soon as they saw him, and he was also angry.

boom!

Lu Ming's body was filled with gorgeous glow, and at the same time, the battle word tactics also triggered seven times the combat power.

In this state, Lu Ming could explode an eleven-star combat power.

Boom!

In an instant, Lu Ming blasted three punches.

Three punches, hit three three-star masters' attack, three consecutive roars, the three four-star masters' attacks were directly defeated, Lu Ming's fist kept fighting, continue to move forward, hit Hit them.

The three Divine Emperors' four-star four-star master vomited blood, and his body retreated backward.

And Lu Ming kept on shape, followed up quickly, and met with the other three races.

"kill!"

Indifferent voices spit out from Lu Ming's mouth, and dozens of great ancient secret techniques appeared around his body.

Great magic swordsmanship, great sharp guns, great **** towers, etc., these ancient secrets all contain the power of great destruction, great fragmentation, and extremely terrifying power.

Dozens of great ancient mysterious techniques have emerged, and their combat power is far less than the existence of three four-star combat powers, making it more difficult to resist attacks.

These ancient secrets passed by, and these people were killed one by one.

In an instant, more than twenty masters of the three major races have all been killed by Lu Ming, leaving only three four-star masters with four supernatural beings.

At this moment, the three men stared at the land like a hell, and their eyes were full of fright.

With their combat power, they were actually injured by a single move, and it was incredible when they joined forces.

They are all the fourfold existence of Divine Emperor, and they are all four-star combat power, while Lu Ming is only Divine Emperor.

Their combat power is ten stars higher than the ordinary Divine Emperor.

But Lu Ming was able to hit them in one stroke, that is to say, Lu Ming's combat power was at least eleven stars.

Terrible arrogance!

They felt chills in their hearts, knowing that they were not Lu Ming's opponents, without any hesitation, they would turn around and run away.

But now that he wants to escape, will Lu Ming let them escape?

"Broken sky!"

Lu Ming's indifferent voice sounded, his whole body glowed, his body turned into a spear, piercing the void, and first killed the strong man of the blood race.

what!

The strong men of those blood races shouted, covered in **** brilliance, and turned into a huge **** bat with red wings and blood like two blood knives, slashing towards Lu Ming.

However, with the ground-breaking Lu Ming, the battle power reached twelve stars, the blood clan strongman could not bear it at all, the guns flashed, the blood clan strongman was directly penetrated through the body, and the body was under terrible power, It was torn into powder.

It took only a moment from Lu Ming's shot to the killing of the blood clan strongman, and at this moment, the two masters of the Shura and the World Clan have not escaped.

Uh!

Lu Ming turned into a gunman, and then went to the master of the Shura tribe.

Next, without any suspense, the two masters of the Shura and Destroyed Clan could not stop Lu Ming's pursuit.

Without breathing, both were killed by Lu Ming.

With a wave of hand, the storage rings of more than twenty masters of the three races were put away, and then Lu Ming stepped out and headed towards Danchang.

At this moment, Danchang is completely present, but Lu Ming did not dare to carelessly, and his spirit was highly concentrated, observing the surroundings.

Because according to Feihuang's records, some Pill Fields are dangerous, and there will be terrible creatures guarding them.

The more advanced Danchang, the more dangerous.

Danchang also has different levels.

Divided into red-level Danchang, purple-level Danchang, and gold-level Danchang.

The more advanced Danchang, the higher the Danlu level will appear.

Here, it is the lowest-level red field Danchang.

However, when Lu Ming walked to the side of a red furnace, he found no danger.

"Close~"

With a wave of his hand, Lu Ming shook the Dan furnace, and this Dan furnace was put into the storage ring.

There are no exceptions!

Lu Ming was relieved. It seemed that this lowest-level red-level Danchang was not dangerous.

Next, Lu Ming smoothly put away the two remaining red furnaces.

After being put away, Lu Ming didn't stay, he just took off and left.

After a few hours...

"The wild gas here is stronger than other places, just give it a try here!"

Lu Ming moved, and then landed in a valley.

The wild gas in this valley is more intense than other places. Lu Ming intends to condense Hong Huangdan with Danlu here.

A few simple formations were arranged around, Lu Ming waved his hand, and the three Buddhas flew out.

These three monasteries are not large, about one meter high, and the diameter of the caliber is only about one meter.

The overall atmosphere of the furnace cover, two parts of the furnace body.

There are nine small holes on the stove lid.

These nine small holes are used as air intakes to absorb the flood gas.

Under the furnace body, there is also a small hole, this small hole, for the Dankou.

After Honghuang Dan was refined, it came out of this small hole.

On the red furnace, there is a rune.

"This kind of red furnace can be urged with any force, which is quite wonderful!"

Lu Ming turned a thought in his heart, and then input the power of taboo into the three red furnaces.

Immediately, the Dan Furnace was activated, and the lines on it glowed, and there appeared to be a strong attraction among the Dan Furnace.

The wild gas between heaven and earth continually gathered toward the Dan furnace and flew in through the nine small holes in the furnace cover.

Lu Ming put away the power of taboo.

The red furnace has been activated. You do not need to input power at all times. You only need to input a force after a period of time.

Chapter 4295: Divine Emperor Triple

Danlu began to condense Hong Huangdan by himself, while Lu Ming took out more than twenty storage rings.

These twenty or so storage rings are naturally obtained from three races.

Lu Ming checked the storage rings one by one.

His goals are only three.

One is Danlu, one is Honghuangdan, and a weapon in Taishang Xiancheng.

After all, only these three are helpful to him now.

As for other miscellaneous things, he was too lazy to bother.

Soon after, more than twenty storage rings were counted.

Lu Ming was slightly disappointed.

Danlu found two statues.

Weapons, found a few.

As for Hong Huangdan, none was found.

Obviously, Hong Huang Dan is a consumable. Once others condense it, it will be refined and used to improve cultivation. Naturally, there is nothing left.

As for the two sacred furnaces, they are also the lowest. They are about the same size as the three sacred Lu Ming's, and the caliber is only one meter.

However, it is not bad to have two more red furnaces. Lu Ming urged these two red furnaces to start condensing Hong Huangdan.

After half a day...

"It's time to get out!"

Lu Ming's eyes flicked, and he saw a slight buzzing sound from the three previous red furnaces, and then flew out all the red medicines from the exit below.

There are twelve elixirs in every dan furnace, which is Hong Huang dan.

Lu Ming's palm caught the sky, and an attraction was generated, attracting thirty-six Hong Huang Dan and suspending in front of Lu Ming.

Hong Huangdan, not big, is only the size of his belly, but there is a mysterious breath.

"try it!"

Lu Ming collected the other Honghuang Dan, leaving only one, and swallowed it.

As soon as Hong Huangdan entered the mouth, he immediately melted into a pure energy and poured into Lu Ming's body.

Lu Ming's operation of the taboo force sucked this energy into every cell, almost just two breathing times. These energies were completely refined and turned into taboo force.

Lu Ming obviously felt that the cultivation base had improved a little. Although not many, it was obvious.

After all, Lu Ming is now a Divine Emperor Realm. Upgrading requires a surprisingly high amount of energy consumption. If it is normal practice, it will take a long time to accumulate to upgrade these.

The refining and chemical Honghuangdan improved a little in a moment.

Although the distance has broken through, there is still a long distance, but it is already very small.

"It seems that refining Honghuangdan doesn't need refining one by one, wasting time!"

Lu Ming whispered, then took out the remaining thirty-five Honghuang Dan and swallowed it in one breath.

Soon after, the thirty-five Honghuang Pills were all refined, and Lu Ming felt that his cultivation had obviously improved.

After refining, Lu Ming waited quietly.

Lu Ming found that, about half a day, the Dan furnace can refine one furnace of Hong Huang Dan, and one furnace of Hong Huang Dan is twelve, and one furnace can refine 24 of them.

With five red furnaces, one hundred and twenty can be refined in one day.

Ten days, it is one thousand two hundred.

This speed is already very fast.

Lu Ming waited with peace of mind, and while he was waiting, he enlightened on the secret technique.

In him, there are nearly 15,000 common secret techniques that have not been enlightened.

Seeing ordinary secrets, Lu Ming was very fast. Soon, a common secret of Jiu You became a mystic rune, which was absorbed by Lu Ming and melted into the cells.

One by one common secrets, turned into secret runes, melted into the cells.

Only when Dan was out, Lu Ming stopped and collected Hong Huangdan.

Lu Ming was not in a hurry to refine Hong Huangdan. Anyway, Hong Huangdan was refining very quickly, and it was not too late to wait for more hoarding.

Lu Ming estimates that the number he needs to break through to Honghuang Dan to the Divine Emperor Triple is at least 10,000.

Yes, 10,000 Honghuang Pills.

Other people absolutely do not need so much, unless they are also talented against the sky, and he is a taboo body, every step of the breakthrough, the energy required is massive.

He simply waited until 10,000 Honghuang Pills were hoarded, and it was not too late to refine.

In this way, more than three months have passed, a hundred days.

In one hundred days, the five sacred furnaces were refined day and night, and finally 12,000 Honghuang Pills were refined.

"You can start to attack Divine Emperor Triple!"

Lu Ming showed the color of expectation, and then took out 12,000 Hong Huang Dan, took a deep breath, one by one Hong Huang Dan, lined up and flew into his mouth.

Upon entering Lu Ming's mouth, it turned into energy and spread into Lu Ming's body.

Buzz!

Lu Ming's ability to run taboo, every cell in his body trembles, creating an appeal.

There are sixty trillion cells all over the body, like sixty trillion black holes, madly absorbing the energy of Honghuangdan, and then transformed into taboo power.

This speed is too fast.

Although Hong Huangdan is very pure and refining very well, the speed at which others are refining Hong Huangdan is definitely far inferior to Lu Ming.

In this step of refining alone, Lu Ming will be much faster than others, which can save a lot of time.

He entered the second-tier world later than many people and had to race against time.

Hurry!

Every cell in Lu Ming seems to be breathing, and the continuous energy of Honghuang Dan is absorbed, refined, and transformed into a taboo force.

Lu Ming's cultivation practice quickly improved.

At an amazing speed, toward the Divine Emperor triple approach.

In just one hour, Lu Ming's cultivation practice hit the peak of Divine Emperor's double.

At this time, a total of 12,000 Honghuang Pills were all refined by Lu Ming. Lu Ming's body accumulated a huge amount of energy.

"Punch me!"

Lu Ming sipped, and each cell shed a ray of energy. Sixty trillion ray of energy converged into Wang Yang, and then launched a shock towards the triple bottleneck of Divine Emperor.

This energy is too vast. The bottleneck of Divine Emperor Triple is unable to withstand Lu Ming's impact.

Suddenly, Lu Ming's breath surged.

Divine Emperor Triple Breakthrough!

After another hour, Lu Ming's breath gradually calmed down.

The boiling energy all converged into each cell and returned to calm.

But Lu Ming knows that his strength has been increased by more than ten times.

Yes, the energy between each weight of Divine Emperor is more than ten times different.

This made Lu Ming's combat power soar.

At the time of Divine Emperor Duo, Lu Ming was not Galbert's opponent. Gabbert's cultivation was Divine Emperor's Fivefold, plus a six-star combat power, which was twofold higher than the most common Divine Emperor, and was sufficiently high. Out of fifteen-star combat power.

Lu Ming, with only twelve-star combat power, has a three-star power gap with Gabbert.

And now, Lu Ming has made a breakthrough.

Divine Emperor Realm, rebuilt, is equivalent to Samsung's combat power.

In other words, Lu Ming's current combat strength is no longer weaker than that of Gabbert.

In addition, after more than three months of enlightenment on the secret technique, Lu Ming has transformed many common secret techniques into secret spell runes and melted them into the cells. The quality of the taboo force has been improved.

Although it did not reach the ten-three-star power, it should also surpass Gabbert.

Chapter 4296: Purple Class Pill Field, Black Sword Centipede

"This fairy city is really a holy place for cultivation. No wonder people in the whole universe want to come in."

Lu Ming marveled.

Here, this rate of increase is terrifying.

Adding it back and forth, it took only a hundred days.

This is also the reason why Lu Ming waited for Hong Huang Dan. If there is enough Hong Huang Dan, Lu Ming's cultivation behavior will skyrocket wildly, without restrictions, and has hit the peak of Divine Emperor Jiuzhong.

The same is true for everyone else. If there is sufficient Honghuang Dan, cultivation can be continuously improved. In the realm of Divine Emperor, there will be no obstacles. At most, it will only take a little time to refine.

But the time it takes will be shorter than outside and I don't know how many times.

This is simply cheating.

No wonder Feihuang said that if one of his peers didn't come in, then Xiuwei would soon be pulled away by others, and it would be difficult to catch up.

"The Divine Emperor doubled through the Divine Emperor Triple, consuming a total of 12,000 Honghuang Pills, and the Divine Emperor tripled through the Divine Emperor's quadruple. Lu Ming estimated that at least 120,000, ten times as much as before.

The breakthrough in the back, the Honghuang Dan in the next heavy need, is ten times the weight in the front, will become more and more scary.

"Twelve thousand Honghuang Pills, refining with the five red furnaces I was injured in, took a thousand days to refining, and for almost three years, it was too slow, and more red furnaces had to be obtained."

Lu Ming frowned.

The five lowest-level red furnaces, the speed of refining Honghuang Pills, can't satisfy Lu Ming's cultivation at all. You must get more red furnaces or higher-level red furnaces.

After making a plan, Lu Ming waved his hands, put away the five sacred furnaces, and then left the place to continue searching for the sacred field.

Of course, Lu Ming also has an idea. Now that his strength has greatly increased, if someone in Tiangong has dealt with him, he can directly kill his opponent and take the opponent's Danlu or Honghuangdan, which is a good way.

When you are outside, you will inevitably encounter people in Tiangong.

Sure enough, in the next ten days or so, Lu Ming met a few waves of people in the Tiangong Palace, or other strong races. When these people saw Lu Ming, they showed greed and directly killed Lu Ming.

As a result, most of the people were killed by Lu Ming, taking the other party's treasures into their hands.

After killing several waves of people in a row, Lu Ming obtained two red furnaces with a diameter of one meter and two thousand Honghuang Pills from the other party.

However, there was also one of them. After encountering a group of people, Lu Ming turned around and walked away, directly using the move technique to escape.

Because the fighting power of this wave of people is very terrible, there are a few middle-aged and strong men whose cultivation practices are unfathomable, at least above the sixth level of Divine Emperor, or even higher.

This kind of person has too long practice time, maybe hundreds of billions of years of cultivation, even close to a stellar year, and cultivation is normal.

This kind of character, Lu Ming is not an opponent, naturally take the best course.

After going around for more than ten days, Lu Ming finally found out again.

He found a group of purple mosquitoes.

Lu Ming's eyes lit up.

This group of purple mosquitoes are flying in one direction. Obviously, they sensed the danqi of Danchang.

Lu Ming followed the purple mosquito and flew all the way.

About half a day later, Lu Ming made a discovery.

"That is..."

Lu Ming looked at the sky in the distance and showed surprise.

In the distant sky, a ray of purple light penetrated.

It was actually that the air was overflowing directly from the air, not from the ground.

Moreover, it is purple danqi, which means that this is a purple level danchang.

More advanced than the red-level Danchang, most of the more advanced Dan furnace will appear.

There were many people around the void.

"Huh? Gabbert!"

Lu Ming's eyes flashed, and in the crowd, he saw Gabor of the Angels.

Gabor stood in the crowd, his eyes cold, staring at the void filled with purple danqi, and did not find Lu Ming.

Lu Ming turned his eyes, and instead of rushing out immediately, he landed on the ground and found a secret place to hide.

The more advanced Danchang, the more dangerous.

And so many people will definitely have a competition and fierce fighting will erupt.

Therefore, Lu Ming does not want to join in the excitement now, just wait for the critical moment to go out.

As time passed, there were more and more people, and finally there were hundreds of people.

At this moment, there are more and more purple mosquitoes in that void, densely flying in the void, absorbing those purple danqi.

Buzz!

Suddenly, the void gave a slight shock, and then a gossip figure emerged.

The area occupied by this gossip map is ten times larger than the area occupied by Chiji Danchang.

And in this eight diagram, there are a total of eight red furnaces.

Seven of them are all one meter in diameter, while the other is about three meters in diameter.

Not to mention that the diameter is only two meters larger, but the refining speed can be at least ten times faster.

This is a more advanced red furnace.

Many people's eyes are fiery.

Staring at the red furnace on the spot, especially the more advanced red furnace.

This prince furnace, condensing the Honghuang prince is ten times faster than the lower prince furnace.

Everyone was filled with gorgeous glow, ready to fight at any time.

After another moment, this pill field completely emerged, revealing itself in the void.

"Danlu, it's mine!"

"This time, I must get a bonfire!"

At the moment when Danchang emerged, all the figures rushed towards Danchang.

Hundreds of figures rushed towards Danchang at the fastest speed.

Of course, some people did not move.

Like Gabbert!

Gabor stood in the air, his expression very calm, and there was even a sneer in the corner of his mouth.

Prior to this, he also ran into a purple-level Dan field, but know that purple-level Dan field, but not so good.

The red furnace of the purple-level Danchang is not so good.

In a blink of an eye, hundreds of figures rushed into the gossip map.

Suddenly, the gossip map glowed, and from the gossip map, a black shadow flew out.

"This is... Black Sword Centipede!"

In the distance, Lu Ming's eyes flashed.

On the second floor of Taishang Xiancheng, there is a silence and very few creatures.

There are only a few creatures here.

Purple mosquitoes are considered to be one of the only creatures without danger.

The other kinds of creatures are all terrifyingly dangerous. The black sword centipede is one of them.

The black sword centipede is only as long as the slap, and the whole body is black, like a small black sword, hence the name.

The speed of the black sword centipede is very fast, like a flying sword flying over the void, making a terrifying sound of breaking the sky.

puff! puff!

The blood was splattering, and with the howling, someone was hit, and the black sword centipede pierced his eyebrows and fell to the spot.

In a moment, more than a dozen people were killed by the black sword centipede.

"Be careful!"

"Damn, the legendary black sword centipede!"

"Destroy them!"

Roars roared, and everyone could not **** the Dan Furnace, various attacks, and attacked the black sword centipede.

Chapter 4297: Sit and watch

Everyone could not **** the red furnace and attacked the black sword centipede with all kinds of attacks.

Because the number of black sword centipedes is very large, there are at least thousands of them, which are turned into thousands of sword lights, flying continuously in the air, the speed is too fast.

Faced with so many black sword centipedes, if you can't get rid of the black sword centipedes first, you can't get Danlu.

In an instant, hundreds of attacks bombarded hundreds of black sword centipedes.

These people are the existence of Divine Emperor Realm, and most of them are Divine Emperor's double or more, the attack power is extremely terrible, if in the wilderness universe, the star burst is a matter of minutes.

But such an attack, which fell on these black sword centipedes, just made a sound of "knock", flew these black sword centipedes out, but did not hurt these black sword centipedes.

Only a few of the most powerful forces existed, only a few black sword centipedes exploded.

More black sword centipedes, nothing at all.

"So hard?"

"So likely, the small body is harder than the imperial class soldiers?"

Many people took a deep breath and felt a little stunned.

This ignorance will kill them.

The remaining black sword centipedes, offensively, turned into sword lights and passed through.

This time, at least dozens of weak creatures were killed.

In addition, dozens of others were seriously injured.

They struggled to fight back, but they still couldn't hurt the Black Sword Centipede.

"Ah, fight with you!"

A strong man with red skin brought out a battle sword and struggling to cut it out.

puff!

This time, the sword was cut on the black sword centipede, and the black sword centipede was successfully cut into two pieces.

"Useful? The weapon in Taixian Xiancheng is useful for Black Sword Centipede."

The strong-skinned man shouted excitedly.

Others are also happy.

"Quick, with the weapons of Taishang Xiancheng, you can kill these centipedes!"

Someone shouted.

Anyone with weapons from Taishang Xiancheng took out their weapons and killed the black sword centipedes.

Sure enough, the weapon in Taixian Xiancheng is extremely sharp, and it can easily cut the carapace of the black sword centipede and kill it.

With the weapons of Taishang Xiancheng, the spirits of all ethnic groups finally prevailed, and black sword centipedes were continuously beheaded.

However, not everyone has weapons in Taishang Xiancheng. In fact, among hundreds of people, only one in ten talents have weapons in Taishang Xiancheng.

Other creatures that do not have weapons in the fairy city are still being killed unless they are powerful or weak.

In the end, when the Black Sword Centipede was almost killed, there were already nearly a hundred people here who were killed by the Black Sword Centipede.

The rest of them rushed towards Dan furnace again.

Everyone wanted to get the Danlu, a melee, broke out.

The war was extremely intense, and at the same time, people were constantly being killed.

In the end, several of the most powerful beings approached those red furnaces.

However, at this time, Gabbert moved.

Twelve white wings stretched out behind him, covered in white holy light, and rushed toward the gossip furnace with a loud sound.

"Get away from me!"

Gabbert drank coldly, and the Holy Light condensed several angel swords and swept out.

Several creatures stopped in front of Gabbert were directly cut into two by the angel sword. The destructive power destroyed their souls and killed them on the spot.

boom!

Gabbert seemed to be a pure white meteor and ran into the past. All those who stood in front of him were killed.

Many people took a breath and quickly avoided.

Gabbert blinked a few times, and he was near the biggest red furnace.

"Fuck me all, or die!"

Gabbert spoke indifferently.

"Galbert, others are afraid of you, but I am not afraid of you!"

A burly and strong man from the fighting saint clan, brandishing a war-god, and slaying towards Gabbert.

At the same time, there was another strong man of the blood clan who also shot and killed Gabbert.

These are the strongest people in the melee just now, and the ones closest to Danlu.

They are all from the top ten races, and they are not the younger generation. They are in the middle age, they have long practice time, and they are advanced, and their secret techniques are powerful.

"Go to death, Angel King Sword!"

Gabbert drank coldly, his hands were held empty, a white war sword condensed out, exuding the pressure of the king.

Uh!

The angel king sword slashed out and blasted together with the attack of two masters of the fighting holy clan and blood clan.

The attack of the fighting clan and the blood clan was actually unbearable, and was directly broken by the angel king sword, the sword light flashed, the bodies of the two masters were directly cut into connection, and the destructive power exploded in their bodies. , Blasted their bodies into pieces.

The souls of the two did not escape, but were directly annihilated.

Sisisi...

Around him, there were sounds of breathing in and out, all looking at Garbert in horror.

The two masters just now have the five-fold existence of Divine Emperor, and they have powerful combat power. It is estimated to be at least Samsung's combat power. They couldn't even stop Gabbert's move, and were killed.

Is this the strength of Tianjiao on the universe's Tianjiao list? It's too scary.

Although the Tianjiao on the universe's Tianjiao list is powerful and famous, it has few people who have really seen their shots.

At the moment, Gabbert's fighting power was shocking.

And Gabbert's combat power can only be ranked at the end in the universe's arrogance list. How strong are the people in front of it?

Everyone is more awed by the fighting power of Tianjiao in the universe.

"Don't want to die, get out!"

Gabert's eyes scanned the audience, full of cold murderous opportunities.

"Galbert, there are eight Buddhist altars here. Do you want to monopolize?"

Someone shouted.

"I just want to monopolize, what can I do?"

Gabbert sneered.

These eight ancestral furnaces, no matter how big or small, he needs it.

"Galbert, don't be too overbearing. You can take the big one. Other small ones, you can't take them away!"

"Yes, there are so many of us, we can't go in vain, the big one takes you, the small one belongs to us, otherwise, we have so many people, you may not be afraid of you!"

Some people shouted.

"A bunch of waste, also want to fight with me, I do not know life or death!"

Gabert spoke indifferently, and the twelve vigilant wings flickered into a white light, rushing towards the crowd, the sword light flashed, and the eyes of many people who stabbed could not be opened.

Then, the blood was splattering, the heads of three figures flew away from the distance, and the eyes of the eyes were round and sullen.

These three figures are the people who spoke before.

"Who wants a red furnace, come up and tell me!"

Gabor continued to speak, and his cold eyes glanced at the audience. Everyone who was swept by his eyes shivered with a tremor, and his heart was cold.

Gabbert's combat power is too strong. Although they are large in number, most of them are not Galbert's opponents and will be beheaded.

They are extremely unwilling, but helpless.

"Galbert, you are so majestic..."

At this moment, a cold voice sounded.

Chapter 4298: Don't even know me?

A cold voice sounded, and then a figure came out of the air.

This is a young man, wearing a black robe, with a burly figure, full hair and long hair, and full of magic.

"Magic!"

Gabbert said coldly.

"It's Mojie, the devil's top demon, Mojie!"

Around, some people recognized the demon.

"Mojie claims to be one of the geniuses closest to the universe's arrogance list. His strength is unfathomable. According to legend, he always wanted to challenge Gabbert. Is this time he will challenge Gabbert?"

"It's quite possible, one can replace Gabbert, and the other can seize the Dan Furnace, kill two birds with one stone!"

Around, there was a lot of discussion.

The demon came out of the air, and no one dared to block it. He came directly to the gossip map, and stood opposite Gabbert.

"Mojie, do you want to burn your fingertips? I have just said that this is death!"

Gabbert said coldly, even in the face of the devil, he was still strong and overbearing.

"Oh, I want to kill me. I'm afraid you, Gabbert, don't have this strength. Today, I will step on your corpse and help me formally rank in the universe's arrogant list!"

Mojie shouted and fluttered wildly.

At the next moment, Mojie shot directly, his palms exploded, and two dark palm marks blasted towards Gabbert.

"Trick and worm!"

Gabert said coldly, condensing the sword of the angel king, and slashed out, crushing the two black palm prints.

bump!

At the same time, Mojie stepped out and hurried towards Gabbert. He was covered with black magic energy. On his skin, dense black bone spurs appeared, just like a demon.

There are legends that the Demon Clan and the Devil are related, dating back to the source, and the bloodlines of the two have similarities.

There is a bone spur on the fist of Mojie, which is extremely sharp, as if he can penetrate everything.

Mojie's double fists kept bombarding towards Gabbert, causing a horrible roar.

Gabbert's face was a little more dignified, and he wielded the sword of the angel king and fought against the demon.

Boom!

The two collided continuously, and in a moment, they confronted dozens of moves.

Dozens of moves in the war, did not distinguish the outcome.

The demon is also very strong, and is at the same level as Gabert, and he is a five-fold divine emperor. His combat strength is absolutely not weak, and it is extremely terrible. Otherwise, he will not be called as a candidate close to the universe. One exists.

"Magic, this is all your strength, but that's it. With such strength, I want to be on the universe's arrogance list. It's a joke!"

At this moment, Gabbert spoke again, full of ridicule.

"Shut up, the blood of the devil, open!"

Mojie roared, and at this moment, his eyes became blood red, a violent breath burst out of his body, and dense black scales appeared on his skin.

Mojie worked desperately, and used the tremendous skill at the bottom of the box to make his combat power reach its peak.

boom!

He threw a punch again, slamming Gabbert back backwards.

"It's awesome, Mojie's combat strength, it's awesome!"

"This kind of combat power has already reached the five-star combat power!"

"Absolutely five-star combat power, and even in the five-star combat power, it is considered powerful!"

People around, shocked remarks.

In the younger generation, there are very few who can reach the five-star combat power.

"Galbert, die for me!"

The demon roared, and his eyes were full of gruesome killing opportunities, and continued to kill Gabbert in idle.

"Is this your full combat power? Then send you on the road!"

At this moment, Gabbert had no intention of panic, and some were just indifferent killing opportunities.

The angel sword in his hand disappeared and replaced it with a strange breath.

"Mystery, Judgement of the Holy Light!"

Indifferent voice came from Gabbert's mouth.

Over his head, a huge cross emerged.

The cross exudes a gorgeous glow of light, huge and completely composed of holy light, pressing down on the demon.

This is Gabbert's original secret technique, and it is extremely powerful.

With a loud bang, the cross collided with the Demon Armor, and a brilliant and gorgeous glow burst out. This area was submerged by the white Holy Light.

Then, a figure retreated backward and smashed to the ground.

It's a demon!

This time, Mojie finally lost, not Gaborte's opponent, smashing the ground into a big pit, and the blood in his mouth kept spitting out.

"Different five-star combat powers, I dare to be arrogant and unrestrained in me!"

A contemptuous voice came from Gabbert's mouth. He commanded, looking down at the demon, completely a gesture of watching his defeat.

"You...you actually have six-star combat power?"

The demon shouted, a little unbelievable.

"Otherwise, why am I on the list of cosmic arrogance? I tell you, with your talent, it is impossible to be on the list of cosmic arrogance in my whole life...so, let me take you on the road!"

Gabert said indifferently, shrouded in white light, and walked towards Gabert step by step.

Although the Eight Buddhas are still there, no one dared to **** it.

Gabbert's prestige is too strong, no one wants to go to die.

"Galbert, you..."

The demon was shocked and backed away frantically, trying to escape, but unfortunately, he had been seriously injured by Gabor just now and could not escape at all.

Gabbert caught up with Mojie a few times, the offensive was like a storm, and he blasted towards Mojie.

In the end, the devil was killed in mid-air, and the existence of a hopeful impact on the universe's pride list was killed.

After killing the demon, Gabbert stepped back and returned to the Dan field, and walked towards the biggest Dan furnace.

No one dares to block, no one dares to snatch.

"With these red furnaces, I believe that it will not take long to condense enough Honghuang Pills to help me go up one level and break through to the sixfold realm of Divine Emperor..."

There was a blazing glow in Gabbert's eyes.

His cultivation practice has reached the peak of Divine Emperor's fivefold, but Divine Emperor's fivefold to Divine Emperor's sixthfold requires too much Honghuang Dan, not just a few months to get together, he needs more Dan furnace.

With these eight pill furnaces, the speed of condensing Honghuangdan will be greatly accelerated. I believe that it will not take long for him to have enough Honghuangdan, which will impact Divine Emperor's sixth heavy.

He stretched out his palms and grabbed at the three-meter-diameter furnace, trying to store it in the storage ring.

At this moment, his hair was rising, and he felt a crisis coming, and at the same time a roar came from the top of his head, and there was an attack, which fell towards his head.

Almost subconsciously, Gabbert retreated sharply, and then screamed: "Who? Find death!"

Gabbert was furious. At this time, he even dared someone to attack him.

"Galbert, I haven't seen you in a short time. I don't even know me?"

A clear voice sounded, and suddenly there was a figure above Gabbert's head.

"Muyun..."

Gabbert shouted, something incredible.

Chapter 4299: One divine power, two mysteries

Gabbert was really incredible, he did not expect that Lu Ming would appear in front of him.

A few months ago, Lu Ming was easily injured by him and fled in embarrassment, but now, dare to appear in front of him, looking for death?

Gabert's eyes narrowed slightly, and Lu Ming looked carefully, his pupils shrunk slightly.

Divine Emperor Triple!

He discovered that Lu Ming's cultivation practice had reached the triple of Divine Emperor.

No wonder dare to take the initiative to appear in front of him, it turned out to be a breakthrough.

"I thought it would be ridiculous to compete with me if I broke through!"

Gabbert sneered in his heart, his eyes showing an amazing murderous, white holy light, very rich.

"That's...Mu Yun!"

"Really Muyun, it's him!"

"Kill, kill him, I am the Son of Heaven!"

Many people showed the light of greed, and stared at the sound of death.

kill!

Suddenly, many people moved and rushed towards the landing crazy.

They have been stunned by the name of Son of Heaven or Daughter of Heaven, and do not want to think about why Lu Ming dared to appear. They only know that as long as Lu Ming is killed, he can become the Son of Heaven.

At the same time, Gabor also moved, and the angel king sword came out again, driving the body with the sword, and slashed towards the landing.

Gabor was originally close to Lu Ming, and his speed was too fast, a lot faster than others. In a flash, Jianguang approached Lu Ming.

At this time, Lu Ming also shot, Xianguang burning like a flame, a punch.

A vast boxing power, containing all kinds of ancient secrets, bombarded toward Gabor, and collided with Gabor's angel king sword.

The two intersect, bursting into a roaring sky and stimulating thousands of vigor.

boom!

An earth-shattering explosion sounded, the angel king sword exploded, and Gabbert's body retreated backward.

Lu Ming's body stayed still.

"what?"

Those who are killing Lu Ming, their eyes suddenly squinted round, and their eyes are full of shock and incredible colors, as if they have seen something fanciful.

Lu Ming, actually beat Gabor back with a punch.

How strong Gabbert was, they saw clearly before.

And Lu Ming knocked Gabbert back with a punch, didn't it mean that Lu Ming's combat power was stronger than that of Gabor?

It was like a plate of ice water pouring on them, which caused many people to tremble with a chill, and a deep chill rose from their hearts.

Can they fight this kind of combat power?

Rush up, isn't that death?

Suddenly, the flame of greed in their hearts was completely extinguished, and some were just frightened.

"Stop, stop for me"

"Retreat!"

Everyone shouted in their hearts, irrespective of the impetus of the divine power, and suddenly let their body slow down, then stopped, and then madly retreated.

Originally, nearly two hundred people drove to the landing, and at the moment, the two hundred people rushed back to the back.

Lu Ming was too lazy to pay attention to these people. His eyes always fell on Gabbert.

"Galbert, use all your fighting power. Your millennium covenant will be resolved today!"

Lu Ming said coldly.

"Muyun, you never want to defeat me. Today is your death!"

Gabbert shouted, his hair fluttered, and the Holy Light soared into the sky.

"Mystery, Judgement of the Holy Light!"

Garbert roared, and above him, a cross condensed by the Holy Light emerged.

This is Gabbert's original secret technique. Before that, he also used this trick to defeat and kill the demon.

boom!

The cross is as white as snow, exudes holy light, but possesses the power of judgment, capable of judging sentient beings, claiming that all souls will be turned into ashes in judgment.

With the light of judgment, Gabbert's combat power only reached the six-star combat power.

"Broken sky!"

Lu Ming whispered, using a sky-breaking style, the whole person turned into a spear, rushed towards Gabbert, and collided with the holy cross.

There was also a roar, which was more violent than last time, and then a figure retreated backwards, this time, not only retreated, but also injured, blood splattered in the mouth.

It's still Gabbert.

Even if the Holy Light trial is used, it is useless and suppressed by Lu Ming's sky-breaking style.

"what?"

This scene shocked those who watched the battle.

Before Gabor used the light to judge, he successfully defeated and killed Mojie, but at this moment, he was not Lu Ming's opponent.

Lu Ming's fighting power is terrifying.

"Galbert, is this your highest combat strength, then you will be on the road!"

Lu Ming spoke indifferently, stepped out, his body once again turned into a ray of light, and rushed to Gabort, wanting to kill him in one fell swoop.

"Want to kill me, no way, Holy Light sanctions!"

Gabbert snarled and his eyes were blood red. In a flash, the feathers on the twelve wings behind him turned blood red.

A **** long sword emerged from the top of Gabbert's head, in sharp contrast with a white cross.

"Another mystery of origin, this Gabbert, actually controlled two kinds of mysteries of origin, a divine power, two kinds of mysteries of origin. It is really rare, and it is indeed a genius on the universe's arrogance list!"

Even Lu Ming had to sigh.

Gabor was obviously not in control of the two source mysteries because he practiced two divine powers.

He just cultivated a divine power.

It is very rare that a kind of divine power can actually cultivate two kinds of source secrets.

And the power will be very powerful, more powerful than mastering two kinds of divine power and practicing two source secret techniques.

Around, other people could not help but widen their eyes, a little incredible.

Gabbert, there is still a hole card?

"kill!"

Garbert yelled, the Holy Light Cross and the Sanctioned Long Sword while screaming at the landing.

"bring it on!"

Lu Ming's eyes narrowed slightly, and a stronger force came out of his body.

Battle word tactics, seven times the fighting power.

Previously, he only used six times the fighting strength.

At this moment, it is Lu Ming's peak fighting power.

He used the sky-breaking style again, turned into a spear, and rushed to Gabbert.

Between heaven and earth, submerged by the gorgeous glow.

Everyone saw only a spear, a cross of holy light, and a blood-red sword constantly colliding and fighting.

In an instant, the two confronted more than a dozen moves, and they didn't make a difference.

It must be said that Gabbert's combat power exceeded Lu Ming's expectations.

It is stronger than he thought. Although he did not reach the seven-star combat power, it also reached the peak of the six-star combat power.

If it wasn't for Lu Ming during this time, he also learned some common secret techniques, which improved the quality of the taboo here.

In this way, the two were evenly matched, and in a blink of an eye hundreds of moves.

However, after the war reached a hundred strokes, Lu Ming began to gradually gain the upper hand.

Because, he created the groundbreaking style, more and more skilled.

Chapter 4300: Broken wings escape

After all, Lu Ming's ground-breaking style was just created, and the application is not particularly skilled or perfect, nor does it reach the level of power.

But in the fierce battle with Gabbert, the sky-breaking changes are becoming more and more perfect, Lu Ming is using more and more skilled, and the power is getting stronger and stronger. Naturally, he suppressed Gabert and occupied Upper hand.

"How is it possible? How is this possible!"

Gilbert roared in his heart and his eyes were blood red. It was unbelievable and unbearable.

He has always regarded himself as a genius. Although he is ranked at the end of the universe's arrogance list, he has been forbearing and has not shot for a long time.

Not long ago, he realized the second secret technique, the combat strength was stronger, and his confidence increased greatly.

It is planned that in this time Taishang Xiancheng, blockbuster will break into the higher ranking of the universe.

But now, with his two-fold higher cultivation practice, he was actually suppressed by Lu Ming, which was a great blow to his self-confidence.

It is two times higher than the cultivation level, and it was suppressed by Lu Ming. If it is the same level, wouldn't Lu Ming be killed by a stroke?

What is his qualification to be Lu Ming's opponent?

Thinking of this, he was very furious.

Under the anger, it will not calm down, if not calm, it will reveal flaws.

And Lu Ming's combat experience, how rich, any small flaws, he can accurately grasp.

"There are flaws, kill!"

Lu Ming sipped, turned into a thousand, and burst out like a ray of light, stabbing at Gabor.

puff!

This time, Gabbert did not stop, screamed, his body retreated suddenly, his chest was penetrated by a gun hole into a transparent hole.

In the firearm, the destructive force impacts in his body, destroying his body and even his soul.

"Suppress me!"

Garbert yelled, and all the power broke out, and the whole person was enveloped by the heavy light, which blocked the impact of the energy of destruction and forced this energy out.

But the consequence was that his injury was even worse, he vomited blood and his face was pale.

In his eyes, there was finally a panic, and he stepped back crazy.

"Galbert, come to an end!"

Lu Ming's indifferent voice sounded, and he exhibited the Great Aurora technique. With a flash, he hurriedly chased toward Gabor, and then exhibited the sky-breaking style again, turning his body into a spear and piercing through.

The sky-breaking style was created by Lu Ming based on the occult techniques he had previously controlled, so inside, there are some shadows of occult techniques, such as the Great Aurora.

When Lu Mingshi exhibited the sky-breaking style, he would hit like a great aurora, with a very fast speed.

what!

Gabbert roared, and was naturally unwilling to be killed. He tried his best to condense the two original secret techniques of "Judgment of Holy Light" and "Sanctions of Holy Light", blasting to Lu Ming, and wanted to block Lu Ming's attack.

It's a pity that Gabbert has been injured and his combat power is not as good as before.

The attacks of the two intersect, and the cross and the **** sword shake violently. A series of fine cracks appear on it, and then burst apart.

puff!

Gabbert vomited blood, his body receded madly, and his injury was even heavier.

But Lu Ming's attack didn't stop, the guns rose again, and assassinated Gabor again.

This time, Gabbert could hardly resist.

He knows how much power he has left. If he forcibly resists, he will definitely be killed.

"Muyun, you remember for me, this hatred, I will definitely report it!"

Gabbert roared, and his eyes showed a terrible color, followed by six of the twelve wings behind him at once.

The broken six wings burst out with brilliant and holy light, like a white flame, burning in the flames.

At the broken six wings of Galbert, blood was flowing out continuously, but he could not care anymore.

Six broken wings enveloped him, and then Gabbert's body turned into a ray of light, breaking through the sky and flying out into the distance.

The speed is astonishing.

Lu Ming's attack hit the air directly.

Ok?

Lu Ming frowned, and did not hesitate. He exhibited the Grand Shift technique and chased toward Gabor, but Lu Ming found helplessly that he performed the Grand Shift technique at a rate not as good as that of Galbert.

Gabor's figure disappeared in front of Lu Ming's eyes in a blink of an eye, and disappeared in Lu Ming's induction.

Lu Ming stopped and did not continue to pursue.

He knew that even if he chased, he could not catch up.

Gabbert was very decisive. He broke his wings and escaped. He cut off six angel wings and helped him escape.

As we all know, the wings of the Angels are the core of their strength.

The more angelic wings, the stronger the talent. Once their wings are broken, the blow to them will be very great.

If it is repaired, it will be retrograde, and the talent will be reduced.

In order to save his life, Gabbert had no choice but to cut off his six wings and escaped. He was also a ruthless man.

Lu Ming did not hesitate at all, as soon as he stopped, he continued to perform the big move technique and returned to the same place.

Danlu has not been confiscated yet.

He moved and chased Gabbert several times in a row, and then moved back. In total, he couldn't breathe, and no one else responded, and he was still shocked.

It was absolutely heavy news that Gabbert fled the wings with Lu Ming killed.

It makes it difficult for everyone to calm down.

Uh!

Lu Ming's figure reappeared above the Eight Diagrams, then landed down and walked towards the Dan furnace.

No one dares to stop, and no one dares to snatch.

Lu Ming waved his hand, and a force was used. Eight Buddha statues, one statue flew towards the landing Ming, and Lu Ming was put into the storage ring.

"Go away!"

But at this time, those around him finally came back and wanted to go away.

"Am I letting you go?"

Lu Ming's indifferent voice sounded, and as soon as his figure moved, he heard the news from the place, and at the next moment, he appeared above everyone's head.

Everyone's face was pale.

"Muyun, what...what do you want to do?"

Humane, a hint of fear appeared in his eyes.

Before they wanted to fight against Lu Ming, now they are afraid that Lu Ming will come back in revenge and leave them all.

With Lu Ming's combat power, even if they join hands, they are not Lu Ming's opponents, and will be cut off.

"I wanted to kill me before, and now I want to go like this. How can there be such a good thing, without paying some price, so possible?"

Lu Ming sneered.

"What price do you want us to pay? If you want to kill us, I would rather fight a fight!"

Someone shouted, looking as if they were dead.

"I don't want your life, hand over Honghuang Dan or Danlu from you!"

"If you don't pay, then I will really kill you!"

Lu Ming said.

"What? Muyun, you are so greedy!"

Someone shouted.

Lu Mingming had just obtained eight sacred furnaces, and now he is thinking about the sacred furnaces on them, which is more greedy than Gabbert.
